## Group Attends New John Deere Showing

Mr. and Mrs. Chubby Dent, accompanied by Mr. and Mrs. Perry Martin, left Tuesday morning for Denver, Colorado to attend the fall showing of the new John Deere tractors and equipment.

On display at the show will be the all new 420 and 330 John Deere's equipped with the latest in equipment.

Dent is owner of Dent Farm Supply, and Martin is bookkeeper of the firm. The group will return home Friday.

The Springlake Parent-Teacher Association will meet for the first meeting of the school year Thursday, September 26, at 8 p.m. in the school auditorium.

A short business meeting will be held, followed by Superintendent Bill Mann's report on the building program and the progress at Springleke School.

## New Tire Service Opens In Earth

A new business, Strain and Dunaway Tire Service, has opened in the building formerly occupied by Brown-White Equipment Company...

The firm, which is 100 percent tire business, will be managed by Woody Dunaway, co-owner who lived in Plainview 17 years prior to moving to Earth this week...

Mr. Dunaway stated that a tractor tire vulcanizer will be installed in the near future and they will also handle re-tread tires, re-treaded in the Plainview shop.

Assisting Mr. Dunaway will be D. P. Gauna, who will be ready to give on-the-farm tire service, to enable them to give the customer faster and more convenient service.

Mr. Dunaway invites everyone to come by and get acquainted, as he is happy to be in Earth and a part of the community...

The Dunaways have purchased the Charles Crable house at 603 2nd Place and moved Tuesday. They are the parents of an 18 month old baby girl, and will attend the Baptist Church.

Swine show superintendent is Lee Roy Colgan, Dawson County Agent.

The FFA members will be accompanied to Lubbock by their ag instructor, E. G. Gaston, Gaston was swine judge last Friday at the Swisher County Fair in Tulsa.

## Watch Buried 45 Years Found Recently

Joel Jones was made a very happy man while visiting in Oklahoma recently, when he was given his deceased father's W. O. Jones, 17 jewel Elgin pocket watch, that had been plowed up, after being buried for 45 years on a farm in Harmon County, near Vinson, Oklahoma...

Jones now has the watch in perfect running condition after taking it to Muleshoe Jewelers where Buddy Ray, watch repairman, cleaned the watch and replaced three missing jewels. Joel is proud to explain that this is proof of Elgin watches' durability...

Jones' father lost the watch in 1918 and looked for it each time he plowed the field for several years, prior to his moving to the Lamb County area in the 30's. After his father moved to Texas, Joel farmed the place until 1937, when he moved to this area. Each time he plowed, he looked for the watch, as he knew although his father owned many watches, after losing this one, that he never cared for either one, as much as he did this particular watch.

Jones learned of the watch when he was visiting in the Chambers home and was asked by Chambers if he ever knew anyone who had lost a watch, thinking it had been lost only a short time, due to its shiny appearance, Jones immediately explained that his father lost a pocket watch and told approximately where it was found and recognized it upon sight.

He is indeed a proud man to be in possession of the old watch his father had loved so much.

Ray Tom Packard is also a junior student, the son of Mr. and Mrs. James Packard of Springlake. Ray Tom has been very active in agriculture. He has gone to the state judging contest, and holds the chapter farmer's degree. He was awarded the outstanding award in agriculture II last year, and was awarded a Farm Mechanics pin for knowledge in shop work.

Lonnie English, who is a senior, has been in FFA for three years, and is the son of Mrs. Bernice English. He has shown a number of animals during his three years in FFA, won the medal of merit award as a greenhand, and was on the crop judging team.

Ken Dawson, sophomore student is the son of Mr. and Mrs. Ed Dawson. Ken was on the chapter conducting team, which placed first in district and fifth in the area. He was also on the crop judging team that placed first in district and fifth in area. Last year, Ken was star Greenhand and participated in several livestock shows. He now has a breeding program and is breeding registered Berkshires. He also has two crop projects.

Larry Glasscock, who has been nicknamed "Pete" lives six miles west of Earth, and is the son of Mr. and Mrs. Barney Glasscock. Larry has served as an alternate on the parliamentary procedure team in his vocational agriculture and served as class president of the freshman class in the 62-63 school year. This year, he has a steer calf as a judging project, for the Houston Fat Stock Show, held around the last of January, next year.

FFA members have elected officers for the new school term, with Bob Phipps elected president; Ray Tom Packard, vice president; Lonnie English, treasurer; Ken Dawson, secretary; Larry Glasscock, reporter and Davey Haberer, sentinel.

Bob Phipps is the son of Mr. and Mrs. J. D. Phipps and lives north of Earth. Bob is a junior in Springlake School, and has started a breeding program this year. He plans to enter the Panhandle South Plains Fair in Lubbock next week, and also the State Fair in Dallas in October. This is his third year in Vocational Agriculture.

Following the program a social hour will be enjoyed by those attending, in the band hall, with Mrs. Mike Dent, hospitality chairman, in charge.

All parents, teachers and others interested in our school are invited to attend.

Ken Dawson, sophomore student is the son of Mr. and Mrs. Ed Dawson. Ken was on the chapter conducting team, which placed first in district and fifth in the area. He was also on the crop judging team that placed first in district and fifth in area. Last year, Ken was star Greenhand and participated in several livestock shows. ### Altrui Club Holds First Meeting Thurs.

The Altrui Junior Study Club met Thursday September 12 at the Earth Community Room for the first meeting of the new year with several members present.

A program on Americanism was observed with Mrs. Charles Parish presenting "I Speak for Democracy" by Elizabeth Ellen Evans, 16 year old student, who was the essay contest winner on this reading. Mrs. Charles Dunn gave a reading, "I Am Old Glory" from the Marine Corps manual.

Everyone enjoyed a sing-song that followed, and those attending participated in an old fashioned spelling bee.

The group voted to order 150 pounds of shelled pecans, which is an annual project of the club. The pecans will arrive around October 1, and anyone desiring to place their order, may do so by contacting any of the club members. The club also voted to send \$10 to the Children's Federation.

Refreshments of chocolate cake, coffee and nuts were served from a table covered with a lace cloth, centered with a beautiful yellow and orange floral arrangement.

Those attending were the Mesdames Bob Belew, Richard Moore, Gene Tunnell, Carroll McDonald, Ronney Smith, Bobby D. Green, Norman Hinchliffe, Darrell Sawyer, Charles Parish Larry Price, associate member

### Former Area Girl Elected Miss Altus '63

Miss Georgan Wallace, daughter of Mr. and Mrs. George Wallace of Altus, Oklahoma, who are former residents, was recently elected Miss Altus of 1963 as Cover Girl.

The Wallaces lived in the Springlake area for several years, in the late 40's, where Mr. Wallace formed and Mrs. Wallace was associated with the school as librarian. While here, Mrs. Wallace was very active in community affairs, was a substitute teacher, worked at Parish Hardware and was assistant editor at one time of Earth's first newspaper.

Georgan is a senior student this year at Oklahoma State University, where she is president of her sorority, Beta Sweetheart, majorette and is majoring in education.

This past summer, she and three Chi Mega sisters worked at Disneyland in Anaheim, California. Georgan was employed at Frontier Land, Mexican Village at Ft. Coles and

and the hostesses, Mrs. Charles Dunn and Mrs. Bud Elmore.

The next meeting of the club will be September 26. The members will bring their favorite recipes to this meeting for the starting of a community cook book, one of the club's projects, this year.

GEORGAN WALLACE

expects to return there to work next summer.

Mr. Wallace and a son, Andy own and operate Wallace Trailer Courts and Sales in Altus. Another son, Gerald, is Jackson County Commissioner. The Wallaces also have a son, serving as adult education director of Civil Defense for the Oklahoma State Board of Education.

Mrs. Wallace has started her fifteenth year as Science teacher at Altus Central Junior High. She states that "Altus has been good to us, but we still love and miss all our Lamb County neighbors."

Mr. and Mrs. M. R. Phillips and Helen were in San Angelo Saturday, where Mr. Phillips performed a wedding ceremony.

Mrs. and Mrs. L. S. Griffin visited their son, Mr. and Mrs. Larry Griffin and Sharla Kay in Abernathy, Sunday afternoon.

### Several Attend Annual Reunion Sunday in Amarillo

Several Earth relatives attended the annual Bulls and Brown family reunion Sunday, at Thompson Park in Amarillo, with approximately 60 relatives present.

The day was enjoyed with a basket lunch at noon, and visiting. Relatives from Temple, Texas City, Quanah, Lubbock, Amarillo, Earth and Wheeler, Oklahoma were present for the all day affair.

Those from Earth attending were Mr. and Mrs. C. P. Parish, Mr. and Mrs. Crill Bulls, Mrs. W. D. Bulls, Mr. and Mrs. Perk Lee and children.

#### PARTY LINE

Mr. and Mrs. L. E. Sloan, Mr. and Mrs. Clyde Parish, Mary Bea and Lajuana Marshall attended the Delta County reunion in Lubbock, Sunday.

September meeting. The cost of each kit will be 40¢.

A welcoming committee was appointed and will be put into practice at the September meeting. It was also decided that the pack meetings would start promptly at 7:30 p. m., and will last for one hour. Refreshments will not be served this year, which will cut down on meeting time, and allow the persons attending to get their children home at an earlier hour.

The September theme is "Science Fair". Dens are making preparations for showing their parents and visitors a wide variety of experiments. All awards that have stacked up during the summer will be presented at the September meeting, along with membership cards for each boy who was registered with the pack in April.

Boys who became 8 during the summer, or since school has started, may join the Cub Scouts by contacting a den mother or Buddy Hedges at the Junior High building at school. Boys who join now and between the October pack meeting will be eligible to participate in the Pinewood Derby.

The Cub Scouts will continue to sell light bulbs throughout the year—anyone desiring to buy bulbs from the Scouts please call any Cub Scout or adult leader.

Pack leaders meetings will be held each third Monday night to complete plans for the immediate pack meeting and also to make tentative plans for the following pack meeting.

### Rex Clayton Home Scene Of Harris Shower

The lovely home of the Rex Clayton's was the scene of a lovely come and go wedding shower, Saturday evening, honoring Mr. and Mrs. Duane Harris, who were married recently.

### Letter to the Editor

Mr. Ross Middleton, Editor The News-Sun Earth, Texas

Dear Ross,

Our 19th annual Boys Ranch Rodeo was the biggest and best we have ever had with hundreds of people enjoying watching the boys ride over the Labor Day weekend. We feel that much of the success of the rodeo was due to the fine help you and other editors gave with advance publicity.

Another school year has started with all of our boys back in their classes and although they were sorry to see the summer vacation go, they have accepted their school chores cheerfully. They have started their football season, and last week had the season opener with Sunray which they lost.

Bob Hembree of the Moore County News at Dumas was in the bleachers during the game and he has a lot of compliments for our boys and wrote that they were real gentlemen. "Boys don't generally get to Boys Ranch by being gentlemen, generally it's just the opposite," Bob wrote. "If the sportsmanship displayed Friday night is typical of the guidance and training absorbed by the youngsters there—it surely must be one of America's greatest institutions."

We appreciated Bob's words so much and although the boys lost their ball game, they won a lot of friends in that area, which we think is far more important than the score. Again, thank you for the fine job you have always done for us and the invitation is always open to visit us whenever you can. With all good wishes to you, I am

Sincerely yours,

Cal Farley

## SPRINGLAKE TAKES 23-6 VICTORY OVER HART

By Eldon Trotter

The Springlake Wolverines chalked up victory number two Friday night by downing the speedy Longhorns from Hart 23 to 6.

After the flip of the coin, and Springlake won the toss, it was the Wolverines all the way. On the third play from scrimmage, Jerry Been took a hand off from Jerry Don Sanders and set sail for a beautiful 75-yard run that brought the fans to their feet. Several key blocks enabled Been to reach the five yard line before being overhauled by Billy Joe Farris, the flashy little senior back. With first and goal, Sanders handed off to Thomas Gregory, the husky right halfback, who bulldozed his way over for the first touchdown of the night. On the try for extra point, it was the same play that put Springlake out in front to stay.

Late in the second quarter, Jerry Don Sanders hit Lonnie English, the end, for a seven yard gainer and the second TD of the night. A pass play to the opposite end, Floyd Henderson gave the Wolverines two more points and the half ended 16-0. Springlake kicked to Hart to start the second half, and on the first play from scrimmage, Hart went to the air, but had the pass intercepted by the hustling junior tackle, John Patterson, Patterson, with the aid of good blockers was able to return the ball to the 10 yard line, before being hauled to the turf. Then, what looked to be a good scoring opportunity, turned to disaster, when the Wolverines received a clipping penalty, and were unable to recover from the loss.

The third quarter saw both teams throwing up a strong defense, and battled back and forth, without either team making too bad a scoring threat. Late in the fourth quarter, Jerry Don Sanders on a roll out play, tossed a lateral back to Jerry Been, who set sail for the

side line and gained a nice 45 yards before being tackled on the 11 yard line. Staying to the ground attack, the Wolverines finally scored as Jerry Don Sanders, on a keeper, went over center for four yards. The extra point attempt was good, with Been kicking and Gregory holding.

With only five minutes and eleven seconds left in the game, Springlake kicked to Hart, with the score 23-0 in favor of the Wolverines. One the third play, the speedy little back, Billy Joe Farris, received a good block up front, and before anyone knew what had happened, he headed for pay dirt on a nice 58 yard scamper down through the center of the Wolverine line, and made it. The try for the extra point

failed, and the Springlake crew came out with their 23-6 victory over the Longhorns.

The scrappy Wolverines will journey to Olton Friday night to tangle with the Mustangs, who promise to give the Springlake squad a rough game.

The Mustangs lost to Floydada, last Friday night in Olton, by a score of 14-0. Olton could not get their offensive attack moving against the Whirlwinds, but I'm sure the coaching staff of Olton will be trying to get something moving Friday night against the Wolverines. Here's hoping the Wolverines will be just as stubborn and stingy with the yardage as the Whirlwinds of Floydada were. Olton has a 1-1 record, so let's all show up in Olton Friday night to boost

**THOMAS GREGORY, (10) makes a 5-yard plunge for Springlake's first TD. This play was set up by a beautiful run of 75 yards, by Jerry Been (21) shown in the left of the picture. Gregory also ran over the extra points, making the score at the end of the first quarter, 8-0.**

### Jerry Been Picked Back Of Week By Amarillo Globe-News

Jerry Been came up with a big honor this week, by being picked as back of the week by the Amarillo Daily News for Class A teams.

While talking to Jodie Mahan he stated that Jerry's honor came about by the tremendous play at quarterback against Bovina, as well as his great showing at halfback against Hart. Tommy Bryant of the Sports Staff at Amarillo had this to write about Jerry's accomplishments:

The Springlake quarterback had a 10.2 clicking in track last year and may be faster this year. Because of a jammed thumb,

Jerry played halfback in Springlake's 23-6 victory over Hart.

Although he scored only once, the quick-moving 160-pound senior carried 22 times for 214 yards. He completed one of two passes for seven yards.

The showing against Hart was outstanding, but he did just as well in the first game against Bovina. In that contest he completed 13 of 15 passes for 141 yards and two touchdowns. He carried 19 times for 182 yards and two other scores.

A smart runner, Been uses all his blockers, and sets up tacklers with various changes of pace and fakes.

### Brian Hamilton Breaks Hand In PE Class

Brian Hamilton, 12 year old son of Mr. and Mrs. B. T. Hamilton, received a broken bone in his right hand, playing football, during P. E. practice, last Friday at school.

Brian was brought to Dr. Holt's office, where X-rays revealed the bone broken just below the knuckle on the little index finger of his right hand. The hand was placed in a cast, where it will remain for several weeks.

Brian is a seventh grade student in Junior High School, and incidentally, he is right handed, which for the time being makes it hard for him to write due to the soreness and swelling in his hand.

### Former Residents Daughter Leads Perryton Band

Lovely 17 year old Debbie Hudson, daughter of Mr. and Mrs. Cleve Hudson of Perryton, former Earth residents, will be leading the Ranger Band as drum major, at all the Perryton High School football games this year.

Debbie, who is a senior at Perryton High School, is a former Springlake student, having attended school here when her parents operated a drug store in the Marshall Kelley building on Main Street several years ago.

Debbie has a brother, Don, who is a sophomore student this year at West Texas University at Canyon.

### Missionary Story To Be Presented

Beginning with the 5th Sunday, September 29, members of the Methodist Church will try something new for their evening vespers hour. The idea evolved out of a meeting of the Commission on Missions and their desire to present the Missionary Story that the local church has.

The Missionary Story, backed by the church will be presented in the form of film strips and ideas in an effort to fully present the causes to which the church gives in a financial way.

The program will consist of everyone in the church bringing sandwiches and such for an evening meal at the church, a time of fellowship and singing, and then the presentation of the program. The entire program will last about two hours.

It is the belief of the church that such a program will enable the members to be better informed in the various areas of the church program.

## County Accidents Total Seventeen For August

The Texas Highway Patrol investigated 17 accidents on rural highways in Lamb County during the month of August according to Sgt. D. S. Lawson Highway Patrol supervisor of this area.

These wrecks accounted for 13 injuries and an estimated property damage of \$14,540.

The rural traffic accident summary for this county from January through August of 1963, shows a total of 79 crashes resulting in 4 persons killed, 59 persons injured and an estimated property damage of \$65,634.00.

Now is the time to have all

motor vehicles "winterized," the Sergeant states; that is to have their vehicles safety inspected at one of the approved inspection stations to determine that all parts are in top condition.

The new 1964 vehicle inspection sticker is now available. All vehicles registered in this state are required to be motorized are urged to have their vehicles safety inspected to avoid the rush later on.

The veteran patrol supervisor said, "The Vehicle Inspection Program has proved to be a valuable tool in reducing accidents in Texas."

## Critical Time In Screwworm Control

"I never thought I'd see a year when I didn't have a single case of screwworm," a West Texas rancher commented recently. His enthusiasm is matched by thousands of others who have benefitted from the concentrated insect control program of recent months.

Only 2,000 screwworm infestations have been reported in the same area in 1963.

Yet Texas and USDA officials say the eradication program is just entering its most critical stage. Animal disease specialists estimate that the annual incidence of the pests has been reduced 99% since the program began in February 1962. It is now necessary to eliminate all screwworms from areas where they may overwinter to prevent reinfestation.

The program has cost both ranchers and government agencies a great deal of money. But on an individual basis, the results have paid back the original investment many times over in just the first season. As recently as two years ago, a stockman expected to have a few deaths from screwworm and suffer hide devaluation from insect damage. The gains in livestock mortality prevention, better hide quality and more beef have, in most cases, far outstripped the initial cost to the rancher.

Yet, much remains to be done. The financial problems have not been completely solved and the work must continue along this front. The program cannot be abandoned at this state.

Ranchmen need to maintain constant vigilance that no in-

festations go unnoticed and untreated. All suspicious fly blows should be sampled and sent to the County Agent. This is especially important at this time of year to prevent winter carryover of the pest. The infected animals must be treated and spraying should be followed where and when indicated.

Much of the credit for success of the eradication program must go to Dr. R. C. Bushland, of the USDA, "father" of the techniques used in Texas and the Southwest. Dr. Bushland was honored in Austin recently for his work.

Work on the Great Wall of China began in 255 B.C.

## Large Crowd Attends Booster Club Meeting

The Wolverine Booster Club met Monday night at 8 o'clock in the field house with president Rex Clayton presiding over the short business meeting.

Several members were present and viewed the film of the Hart football game and a short film on the Olton-Abernathy game was shown.

Coach Alvin Lynn reported to the group on the progress of the junior high football team. The junior high team will play host to the Muleshoe team on the Wolverine field Tuesday, September 24, at 6 p.m.

The group also heard a scout report on the Olton game before adjourning. Coffee and donuts were enjoyed by those attending.

## Traffic Law Violations Presented at School Tuesday

By Cecil Slover

Joint assembly of both Junior High and High School was held Tuesday, with a program "Safety Education for Drivers" presented by C. A. Dempsey from Safety Education Division of the Department of Public Safety in Lubbock.

Showing a film entitled, "Signal 30" which was emphasizing the necessity of obeying man-made laws and laws of nature, pointing out especially violations of speed and failure to stop and yield right of way.

Actual accident scenes and victims were shown and were very impressive, in fact, one teacher said, "I think I will walk home."

Then, Mr. Dempsey gave a brief talk on traffic violations and an explanation of the demonstration that was to be given on the highway.

A brake detonator was attached to a student's car to illustrate the reaction time and total stopping distance after an

emergency is simulated. The brake detonator contained two cartridges filled with yellow powder.

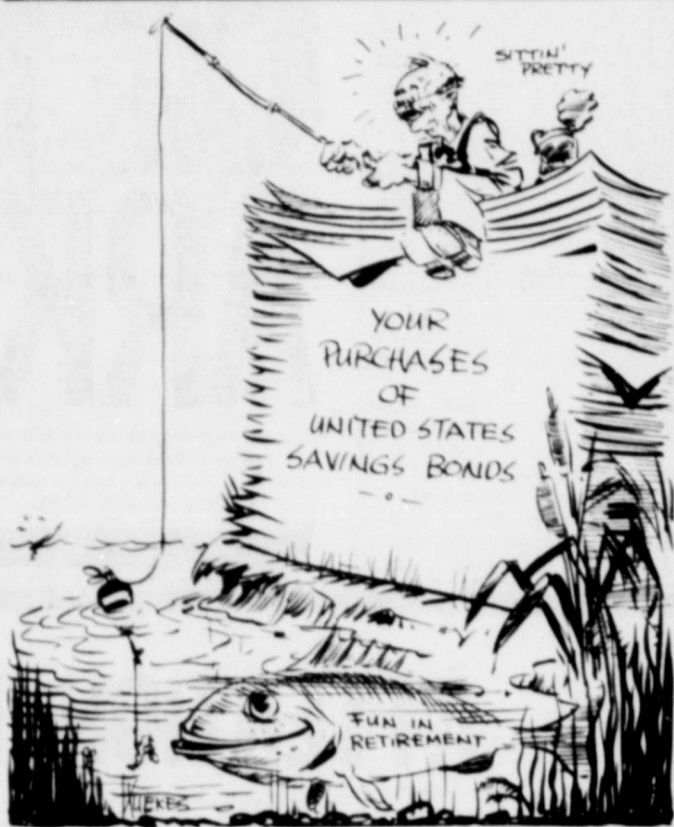

The first student to drive was Thomas Gregory. When the first cartridge was fired, that simulated an emergency stop, then when the brakes were hit, the other cartridge fired. This enabled the reaction time and total stopping distances to be measured.

Thomas ran the test at 15 m. p.h. and then at 30 m. p.h.

Karen Barton then ran the test at 15 mph and 30 mph.

The students decided the old saying, "I can stop on a dime" held very little truth. They also found that by doubling the speed from 15 to 30 mph, you quadruple the total stopping distance rather than doubling it.

V. L. Smith, Clarence Hazlett and Highway patrolmen from Littlefield assisted by blocking the highway while the test was being run.

Denny Parish visited in Olton Sunday afternoon with Ronnie Williamson.

## Control Of Grain Mites

It is almost time for farmers and ranchmen to seed small grains, says H. A. Turney, area entomologist with the Texas Agricultural Extension Service. The entomologist reminds that fields which have been planted in small grain for the past three to four years should not be replanted to this crop, because of the possibility of winter grain mite damage. The rotation will help to control the destructive pest, he said. The winter grain mite builds up to damaging populations in late winter and early spring, Turney explains. The necessity of chemical control can be eliminated or decreased to a great extent by the use of rotation, he adds. For additional information about winter grain mite control, contact your local county agent.

## Scout Leaders Showando At Camp Post September 28

Martin A. Cannon, Jr., chairman, announces the annual Boy Scout Leaders SHOWANDO to be held at Camp Post on Saturday, September 28, 1963. This will be the sixth annual Showando, held in the South Plains Council, which includes twenty counties. The Showando is a one-shot annual event so big, so important, so fun-filled, that Scouters say, "This is the greatest thing that ever happened to me." It will be a day of scouting activity built around a patrol of adults from over the many towns that make up this Council. Through the activity program the men will have fun, learn basic Scouting skills but perhaps more important, knit themselves into a close working team of men who know one another in a way

never before possible. The Showando will provide an excellent introduction to Scouting for Patrol Dads, and all new men in the Scouting program, and to all who take part. Assisting Mr. Cannon with this big Council-wide training experience are these men who make up the Showando steering committee: Marvin Tomme of Ralls, and Allen Todd of Lubbock, chairmen of Promotion and registration; Tom Shamburger, Lubbock, and Byron Johnson, Slaton, chairmen of Worth Trying area; Howell Killgore and Dr. Bob Rekers, Lubbock, chairmen of Showando Trail; Murray Owens, and Max Tidmore, Lubbock, chairmen of Showando Rally; Tom Hibban, Littlefield, chairman of the cookout supper;

Charles A. Deigel, Lubbock, chairman of the Campfire program. Also Jim Harvey, Council Leadership training chairman of Lubbock. Registration for the Showando will begin at 9 a. m. and the day's activities will conclude with the campfire program about 9 p. m. All adult male Scouters are cordially invited and urged to attend. Reservations should be made to the Council Service Center, Box 3055, Lubbock Texas, not later than September 24. Cannon says, "Over one hundred Scouters are expected to take part in this great training experience." There are over one hundred and fifty Scout troops in the Council and these troops serve more than 4,000 boys with the Scouting program.

## Reduction In Future Wheat Allotments Seen

Overplanting wheat allotments this year can reduce a farm's future allotments, according to R. J. Mears, agronomist with the Texas Agricultural Extension Service. This effect on a farm's wheat history is one of several factors which farmers will want to consider in planning their 1964 crop operations. Mears calls attention to a provision of the law passed in 1958 which can affect a farm's wheat acreage history. It directs that when no marketing quotas are in effect, farms

exceeding allotments will receive that year's allotted acres as history for future allotments. Complying farms receive their base acreage as history, he says.

The agronomist cited this example of how the provision would apply on a farm with a 100-acre wheat base and a 1964 allotment of 60 acres. If a farmer complies with his allotment, his wheat acreage credit for 1964 will be based on the 100-acre history. But if he exceeds his allotment, he will be credited with only 60 acres in computing his 1966 allotment.

Overplanting for the 1964 wheat crop will not affect the 1965 allotment since national and state 1964 wheat acreage figures will not be available when allotments are determined.

A farmer who overplants his 1964 allotment, Mears points out, can still avoid loss of base acreage history. He can dispose of his excess acreage by the deadline date for his county and still receive his 1964 base acreage as history credit in determining future allotments, by thus complying with his allotment, he also becomes eligible for price supports.

Homogenized milk was first sold successfully in 1919.

SENIOR CLASS FAVORITE!!! These two Springlake seniors, Betty Cody and Ruel Munoz were elected by members of the senior class to reign as their favorites for the 63-64 school term. Betty is the daughter of Mr. and Mrs. Carl Cody and Ruel is the son of Mr. and Mrs. Vicente Munoz.

## Senior Class Elect Favorites

Members of the senior class met Friday at school, and elected class favorites and class parents for the school term.

Betty Cody and Ruel Munoz were elected class favorites, by the senior class and Mr. and Mrs. Lloyd Blanton, Mr. and Mrs. Troy Blackburn and Mr. and Mrs. M. H. Been were elected as class parents.

The group voted Ute Unger as student council alternate, to replace Janice Blackburn, who stepped up to council representative, replacing Julia (Jones) Latham.

The class selected "Today's Past Leads to Tomorrow's Future" as their motto, and "Moments to Remember" for their song. The group also voted to pay class dues of \$4.00, to be used for various needs of the senior class. There are 24 seniors in Springlake High school this year, and Mrs. Gladys McCaskill and Jodie Mahan are class sponsors.

Chief John Big Tree, who will be a participant in the 1963 State Fair of Texas "Exposition of Our American Heritage," probably has been seen by more people than any other Indian in the world. He is the Iroquois whose profile appears on the Indian nickel. Chief Big Tree and two dozen other Indians from New York State will erect an authentic All-American Village on the fairgrounds near the Grand Avenue entrance for the 16 days of the Fair, October 5 through 20.

Visitors to the American Indian Village will see Indians producing articles of clothing and ornaments with the skilled craftsmanship passed on to them through the years by their forebears.

They also will see canoe-making, intricate bead work, basket weaving, wood carving and whittling. There will be exhibits explaining ancient tribal customs, Indian lore, religion, Indian art and philosophy and medicine.

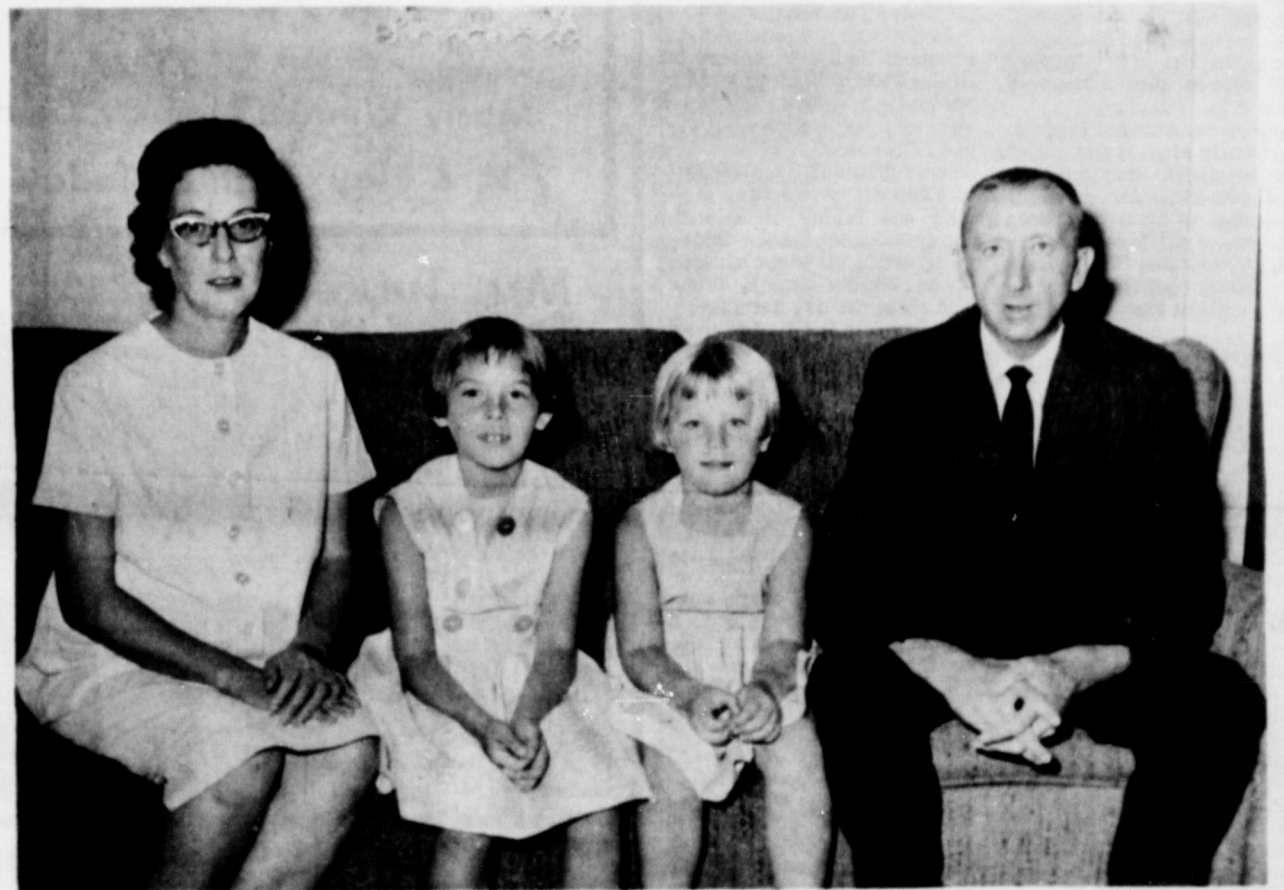

Authentic Indian dancing and singing will be featured in front of the Council Teepee.

The Six Great Nations of the Iroquois will be represented. Several of the Indians are descendants of famous tribal chieftains. One of the Indians is Oliver Hill, a blood relative of Hiawatha, founder of the Great Red League of Indian Nations and hero of Longfellow's classic poem.

A focal point of the exhibit will be a demonstration of the all-but-lost art of bark canoe

## Method Released For Seedbed Preparation

The preparation of a suitable seedbed is an important step in getting a successful stand of grass. A dead litter cover or mulch is required for the seeding of grasses to prevent wind erosion, reduce weeds, and slow down moisture losses caused by transpiration and desiccation.

Prior to the establishment of a cover crop, the land should be disked, one-wayed, or otherwise thoroughly worked in the spring as soon as weeds begin growth. The land should remain free of weeds until time to drill the crop for dead litter.

Sorghums for dead litter should be planted before July 1 in close-spaced rows of 24" or less using a drill or similar planting equipment at a depth of 1 to 2 1/2 inches. Rows should not be spaced more than 14 inches apart for best results.

Recommended crops for dead litter include forage sorghums, sudan, millet and broomcorn seeded at the rate of 12 pounds per acre or grain sorghums seeded at the rate of 15 pounds per

acre. Small grains such as wheat or rye may also be used but the stubble will not hold up as well.

If the growth is such that at seed crop will be produced, either remove the growth as a hay crop leaving a stubble height of 6-12 inches or mow or shred the crop to leave 6-16 inches stubble height. This height will afford adequate protection and will not interfere with the seeding operation. The crop for dead litter must be protected from overgrazing in order that adequate stubble remains at seeding time.

Grasses such as the Bluestems, Grammas, Indiangrass, Lovegrass and Switchgrass can then be seeded in the stubble between December 1 and June 1. Blue Panicum is usually seeded from May 1 to July 1.

Adapted grasses planted by this method will normally produce satisfactory stands. Methods which do not include a preparatory crop to furnish protection for grass seedlings usually fail.

## Laminated Plastics Seen As New Use For Cotton

The use of cotton in the manufacture of flexible laminated plastics offers a good possibility for expansion of the fiber's industrial market, says the U. S. D. A.

In the making of plastic laminates, cotton fabrics are incorporated as a surface material or as a textile backing for plastic film, sheets, or foam. Vinyl-coated cotton fabrics are widely used in furniture and automobile upholstery, and in wall coverings. Also, new types of laminates with plastic foams may create an even larger market for cotton in the clothing industry, says the Department.

At present, strong, rigid high pressure laminates are the main type made with cotton but this use offers little promise of expanding the demand for cotton, but this use offers little promise of expanding

the demand for cotton. Low pressure, flexible laminate production does not now use large amounts of cotton and this is the area which scientists see as one of possible expansion.

The USDA's Economic Research Service says three things are needed to help cotton increase its share of the flexible laminate market. First, cotton cloth must be free of field trash and excess sizing for good lamination; cotton must have improved finishes such as one to increase the fabric's moisture resistance; and it needs new and more acceptable cloth construction for use in laminates.

If these problems can be solved, cotton should gain a bigger share of the market for flexible laminated plastic production, says the USDA.

## Lazbuddie News.

by Mrs. C. A. WATSON

Several Lazbuddie students left last week and several plan to enroll this week in various colleges. Going to WTSU at Canyon are Harrol and Carol Redwine, Gerald and Gary Foster, Paul Wilbanks, James Brown, Dale Vise and Don Watson. Donnie Smith and John Agee will enroll at Texas Tech, Duane Darling will attend the Jr. College at Levelland, Eva Dean Ivy is at TCU, Ft. Worth and Pat Peterson is at Wayland in Plainview, Dick Chitwood is at A&M College and Cooper Young is at Baylor, in Waco, Darrell Jennings, Texas Tech, Maudene Barnes at Hardin Simmons,

Mr. and Mrs. Dee Chitwood were in Wichita Falls and Dallas over the weekend. They visited in Dallas with Mrs. Chitwood's brother, Bill Goss. Mrs. James Harvey and children visited over the weekend in Lubbock with her mother, Mrs. R. L. Curtis and sister and family, the R. G. Watsons.

Mr. and Mrs. J. B. Jennings, Mr. and Mrs. Darrell Jennings and Mr. and Mrs. C. D. Gustin were in DeKalb last week at the Jennings ranch. From the ranch, the Gustins visited in Whitesboro with the V. T. Bewleys. They also visited in Ft. Worth and Oklahoma with friends and relatives.

Several women from the

Church of Christ, Lazbuddie visited the children's home in Portales last Thursday. The group mended and ironed the children's clothes while there.

Mr. and Mrs. Davis Gullely and family had as visitors, during the weekend, her cousins, Mrs. Joe Snowden and son Bill, and Mrs. Frank Via from Arkansas. Mrs. Gullely and Mrs. Snowden hadn't seen each other for 36 years. They were very close when young girls, so it was a very happy reunion for them. Mrs. Snowden has been in Hawaii. She is in the Army Nurse Corps. She is being transferred to Ft. Smith Arkansas. The reunion was very short, as Mrs. Snowden had to be back on duty very shortly. The Davis Gullelys and their guest spent the day in Farwell with her sister, Mrs. C. E. Crume and her mother, Mrs. W. W. Humphrey, Saturday.

Birthdays were celebrated for Burnett, Leta Byrd, Nickie Noland, Raymond Fonseca, Linda Lesley, Carol Miller, Robert Morris, Danny Miller Larry Wilkins and Jacqueline Morgan.

Myrtle Steinbock and her mother, Annie Vaughn, had as recent visitors James D. Vaughn, a grandson from Frederick, and visited their sister, and aunt, Mrs. Lena Steinbock. Other relatives visiting the Steinbocks recently were Mr. and Mrs. Arthur Jepson and daughter from Los Angeles. The Jepsons' also visited several old friends in the area.

Nola Treider has resumed her work as head cook at the school, after being in Lubbock several weeks at the bedside of her husband, R. G. Treider, in the Methodist Hospital. Mr. Treider is to stay in the hospital about three more weeks for treatment before returning home.

Mr. and Mrs. J. R. Harris visited their children, the J. R. Harris, Jr. family at Artesia and the Glen Brashear family at Carlsbad, over the weekend.

Myrtle Steinbock treated her grandson Troy and granddaughter Delayne and nephew Larry Vaughn and niece Sheila Vaughn to the Clovis Fair on Saturday during the fair session recently.

A welcoming home dinner was given in the home of Mr. and Mrs. Joe Briggs Sunday, honoring her brother, Johnny, who has just finished his training at Ft. Polk La. Dinner guests for the occasion were Johnnie Beth Ivy, Mr. and Mrs. D. B. Ivy, the Roy Daniel family, the James Nortons, W. H. Gammon, the John and J. W. Gammons, the Everett McBrooms, Robert Ivys and Garvin Thoms.

Mr. and Mrs. Shanks Ivy went to Ft. Worth the weekend to carry their daughter, Eva Dean to TCU, where she is a sophomore student the new fall term.

Mr. and Mrs. George Haskins are in Houston with their son Edwin, of Lubbock, who is under observation of a doctor there.

Mrs. Wyle Bullock and Lebra Mrs. Leon Smith and Toni Lavena Davis were in Alvarado the past week attending the art show. The show is sponsored by the Democratic women. Each Senatorial district entered pictures. The group from Lazbuddie left early Saturday and returned Monday.

The Lazbuddie FFA boys are just getting organized for the projects of the year and discussing briefly each project. Some of the things they are discussing are leadership contest, judging contest, awards projects, degrees and shows; some of the boys are also studying animals and how to feed them proper rations.

A group of 4-H boys were working on their crop projects and went to different farms in the area Monday afternoon. The boys were accompanied by the county agent, Deryl Coker.

### PARTY LINE

Mr. and Mrs. Ed O'Hair arrived in Muleshoe, Monday afternoon by train, from a ten day trip to Los Angeles, Cal. They were accompanied by Mr. and Mrs. Albert Campbell of Lubbock.

Mr. and Mrs. J. B. Griffis have moved from Earth to the Pleasant Valley Community.

L. T. Smith, Roney Smith, Pete O'Hair and Donald Kelley returned home Saturday from a week's fishing trip to Lake Kickapoo. They were joined

there Tuesday by Clyde Ray Davis and Jess Birchfield of Dimmitt.

### Van Heusen Shirts come to Augusta

When the Augusta, Arkansas Industrial Development Corporation set out to secure new industry, they came up with one of America's largest and most respected manufacturers of men's shirts.

The Phillips-Van Heusen Corporation, makers of famous Van Heusen shirts, was brought to this 2300 population town about a year ago. They employed local workers, instituted an intensive training program, and completed the first products in the brief time of 14 days. Such aggressive ac-

tion by local citizens and company officials has caused the plant to become a major factor in the local economy.

It is another reason we say General Telephone towns are on the move. Community improvements are under way, local resources are being developed, new businesses, new industries are coming in. If your town seeks additional information about expansion, perhaps we can help. Just write our Community Development Department, Box 1001, San Angelo, Texas.

## JUNIOR HIGH SOUNDS OFF

**JUNIOR HIGH CHEERLEADERS!!!** These five lovely lasses will head the Junior High cheering section at all the junior high football games this season. Left to right are Brenda Clayton, 7th grade, Susan Britton, head cheerleader, in the 8th grade, Gay Upchurch, 8th grade, Linda Packard, an 8th grader and La Cretia Washington, 7th grade.

### JUNIOR HIGH CHEERLEADERS ELECTED

The Junior High cheerleaders for 1963-64 have been elected by the pep club of Springlake Junior High. Representing the eighth grade class is Susan Britton, head cheerleader, Gay Upchurch, and Linda Packard, Brenda Clayton and La Cretia Washington represent the seventh grade.

The girls were elected by secret ballot, Friday, September 6.

### 8TH GRADE CLASS NEWS

The eighth grade class met Thursday afternoon, September 12, in Mr. Slover's room. The meeting began by electing class officers. The officers are: Randy Washington, president; Mark Holt, vice-president; Gary Kelley, secretary;

treasurer; and Susan Britton, reporter.

The class decided, after discussion, that the class dues for the year would be \$4.00. Each student not paying his dues before April 1st can not attend the eighth grade banquet.

This year, the eighth grade isn't going to sell so many items as they did last year. Last year, they had to have quite a bit of money for their banquet, for decorating purposes. This year, we will have our banquet in our new cafeteria, so there won't have to be so much decorating.

We hope to have a good eighth grade this year.

### 7A NEWS

What fun! Our first year changing classes. I'm sure everyone was excited over this. Mrs. Davis is our home room teacher. We decided to have committees to fix our bulletin board, when a holiday or something comes up.

Our first class is math, and Mrs. Davis is our teacher. We have been reviewing this past week, mostly on rounding numbers.

Second period is English by Mr. Slover. We have been learning about introductions and conversations. We have also been learning the rights and wrongs in our building from the student's handbook.

From 11:00-12:15, the girls have physical education under direction of Mr. Watkins. We have been doing calisthenics and learning a few fundamentals. The boys have football, directed by Coach Lynn, and Coach Smith. They are planning to have a few games this year.

About 12:15 we eat lunch.

The next class is history, which starts at 12:40. Here we are back in Mrs. Davis's room. We are studying Texas History, and learning about the discovery of Texas. We are also learning the different sections, rivers, and mountains in our state.

Our next period is taught by Mr. Hedges, who teaches us

both spelling and reading. In spelling, we are doing exercises and spelling words. In reading, we haven't really read, but listened. We have been having listening skill builders, about prefixes, suffixes and roots of words.

Well, it's already 2:40, and only one more period. This is band, directed by Mr. Foshee. We have several new songs and are trying to work them out.

Finally the bell rings at 3:40. This bell is the last one which means school's out for the day! We all go to our buses, go home, and probably to eat.

### JUNIOR HIGH ENROLLMENT

The enrollment of Junior High and the home room sponsors this year are as follows:

8A-27	Mrs. Parish
8B-28	Mrs. Hedges
7A-29	Mrs. Davis
7B-29	Mr. Walker
7C-26	Coach Lynn
6A-26	Miss McManigal
6B-25	Mr. Rinker
6C-28	Mr. Jones
5A-30	Mr. Ray

### NEW COACH AT SPRINGLAKE JUNIOR HIGH

This year, Springlake Junior High has a new coach. His name is Alvin Lynn. Coach Lynn was born in Matador, Texas in 1938. He grew up and went to high school in Matador and went to college at West Texas State University, where he played center on the football team. He had a double major in geology and social studies, and graduated in 1960. This is Coach Lynn's first coaching job, but he says he likes it very much. Coach Lynn thinks that the students in Springlake Junior High are very nice, so far.

He thinks that Springlake's athletic program is very good, and he hopes he can do his part to make it better. Coach Lynn says that Springlake Junior High has a good teaching program, but that he could use a conference period because he stays after school each day with football boys and because he needs a break between the full day he teaches. Coach Lynn says the president's physical fitness program is a fine thing and that everyone should be conscientious enough to keep his body healthy. He also thinks that everyone should be required to take some type of physical education, or sports.

Coach Lynn does not know how long he is going to teach, but he would like to get his master's degree in archeology, and maybe some day be an archeologist.

### MRS. LEONARD LANE

Mrs. Lane went to college at Eastern New Mexico University at Portales.

Her favorite food is Mexican food. Her hobby is making new friends.

On their first missionary trip in 1951, they went to Nigeria, West Africa. They were on the ship eight weeks and one day. On their last trip back to the United States in 1961, they

flew over the Atlantic Ocean in a jet plane in eight hours. They were missionaries in Nigeria, West Africa. Their two sons were born in Ogbomoso, Nigeria.

They moved to Earth on July 17, 1962.

Mrs. Lane is our new librarian at the Springlake Junior High School.

By Debbie Matlock

### MR. WATKINS

Junior High's physical education teacher is Mr. Don Watkins. Mr. Watkins was born in Granite, Oklahoma, in 1930. He grew up and went to high school in Sherman, Texas. After high school, he attended Southeastern State College in Durant, Oklahoma. While in college, Mr. Watkins majored in history and English, but didn't participate in football or basketball. He says he has been coaching and teaching ever since he got out of college. He has taught at Post and Friona. In his years of coaching, he has taught fifth through twelfth grades, boys and girls. He has taught basketball, football, and physical education. Besides teaching speech this year, he has also taught science and history.

Mr. Watkins says he thinks girls should participate in competitive sports if they are physically able to do so.

When he came here, he found the physical education program was lacking in a few minor areas, but with the splendid cooperation he has received so far, he expects the physical education department to develop into a well-rounded program throughout the school.

Mr. Watkins says he likes this school very much.

### MR. JONES

Mr. Jones is a sixth grade teacher at Springlake Elementary School. He is new here,

and this is his first year to teach. He enjoys it very well. He plans to stay here as long as possible, unless he has to make further plans in the future. Mr. Jones was given the desire to teach by feeling the need to serve Christ and also to work with children.

He doesn't have a family just his wife, who is working on her teacher's degree, and lacks two years to complete her course. We are very glad to have Mr. Jones as a part of the Springlake faculty. We are fortunate to have him.

### Forecaster Predicts Drought For Texas

Farmers in the bone dry, parched areas of Texas are apt to find little comfort in predictions of a Denver meteorologist.

"By 1972 or 1975 we're likely to have seen a drought on the Great Plains more severe and more sustained than the ones of the 1930's and 1950's," according to Dr. Walter Orr Roberts.

A director of the high altitude observatory at the University of Colorado, Dr. Roberts made his long-range forecast shortly after the end of the disastrous 1950-57 drought. And now after a six year interval, several South and Central Texas Counties are once again being designated as drought disaster areas.

Some hope can be gained from a New Englander. Dr. Hurd C. Willett of the Massachusetts Institute of Technology. This summer, Dr. Willett said the Southwest should begin to get some relief from its present dry spell before the end of 1963. He qualified his prediction as "Off the cuff," however, based on a cursory glance at the statistical pattern of dry cycles.

In some respects, Texas is

in much better shape to withstand the ravages of a drought than it was at the start of the long scorcher of the 1950's. The Texas Water Conservation Association figures show that in 1950, Texas had only 63 reservoirs with 5,000 acre-feet or more capacity which held a total of 7,400,000 acre feet of water. Stock and irrigation needs during the seven year drought depleted this supply alarmingly.

Today, however, Texas now has 116 such reservoirs with a total usable conservation storage capacity of 14,932,000 acre feet. Twelve more are under construction which will have 9,055,000 acre feet capacity when completed. Should another long drought be on its way, Texas will have approximately three times more water in reserve than it had 13 years ago.

These figures are reassuring but do little to help farmers in dry land areas which are heavily dependent upon annual rainfall to make a crop. This includes a majority of the Texas cropland. But at least, efforts to increase our storage capacity in recent years has done much to correct this.

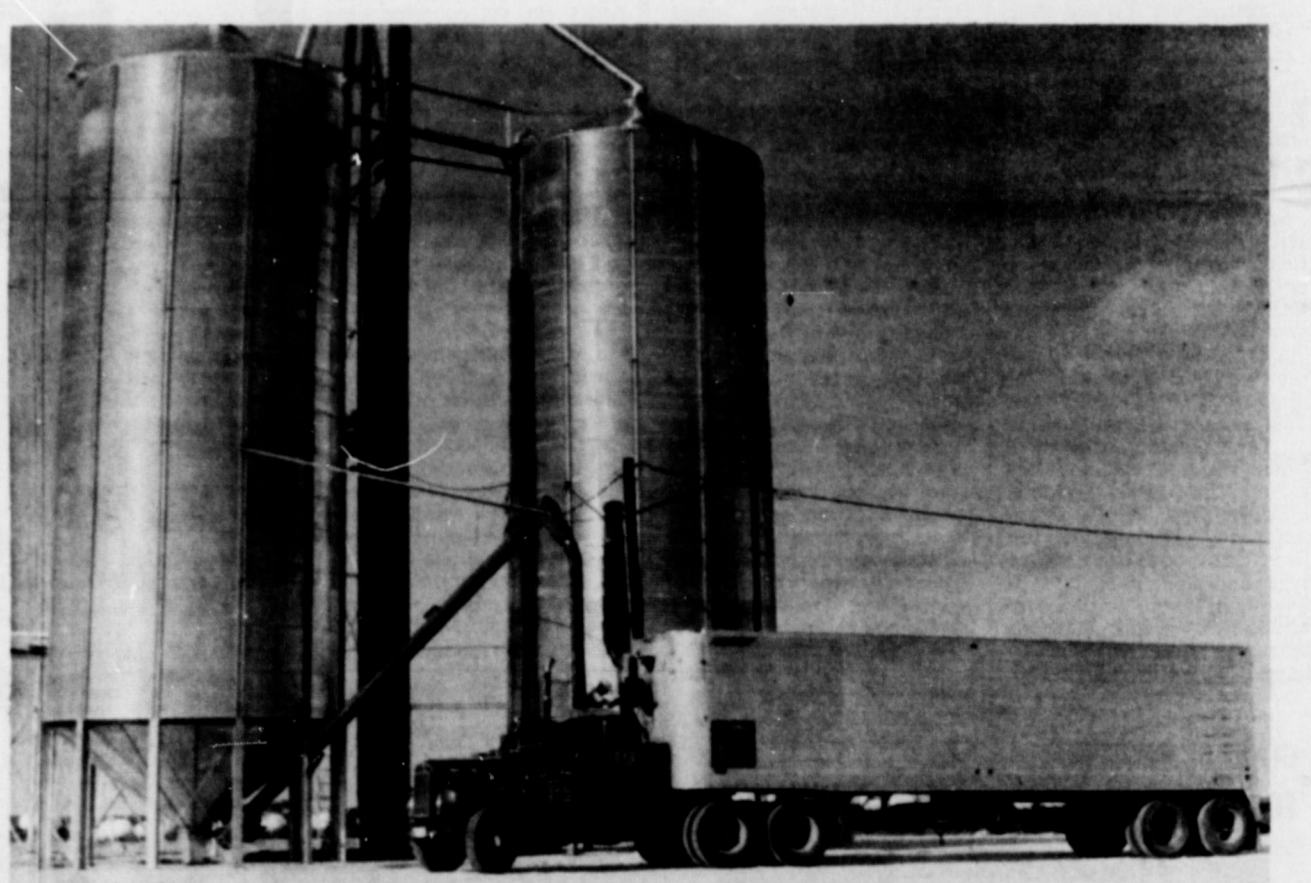

Polly Jean Middleton was in Dallas over the weekend, where she was a wedding attendant, Saturday night, of a college friend, Miss Joyce Reeve and James Allen. Enroute home, she visited in Abilene with several Hardin-Simmons college friends. She returned home Monday afternoon.

Mrs. T. V. Murrell left last Tuesday for Bakersfield and McFarland, California, where she will visit relatives.

Mr. and Mrs. Darrell Sawyer were in Lubbock Monday, where Cary received a medical check up.

# STARS OF THE WEEK

**THOMAS GREGORY  
BACKFIELD**

THOMAS GREGORY, the flashy junior halfback, was chosen back of the week for his outstanding plays on both offense & defense. Thomas is shaping into an all-round player for the Wolverines. . . Gregory scored the first touchdown of the Hart game, and ran the conversion points to put Springlake ahead 8-0 early in the first quarter. On defense, Gregory made several tackles that dropped Hart, preventing their gain of good yardage. Here's hoping we see a lot more of this sort of playing before the year is over.

**DANNY BYERS  
LINEMAN**

DANNY BYERS, the 187 pound junior tackle was chosen lineman of the week for his outstanding work in the line against Hart. Byers showed great spirit and will to win on both the defense and offense. Several outstanding key blocks were made by Byers, during the night, that enabled the backs to really pick up speed and move on. All the fans thoroughly enjoy watching superior plays being made on the field, and I'm sure that they have not seen the last of this hustling lineman, Danny Byers.

## USDA Proposes Improved Standards For All Wheat

Acceptance of U.S. wheat in foreign markets is of critical importance to American growers since more than half of our total production moves into these markets, according to the USDA. And increasing competition in the world markets has intensified the need for wheat of more dependable quality, the Department adds.

For the past two years, the USDA's Agricultural Marketing Service has been reviewing the official U.S. wheat standards, in cooperation with members of all segments of the wheat industry, State Departments of Agriculture and other agencies, and with state and commercial inspection agencies. Through a series of meetings, attention was called to the real purpose of the standards, that is, to constitute a measure of wheat value that can be used by the buyer and seller, in terms that will measure end-use value.

Through these meetings, study and research, and discussions several weaknesses in the standards were exposed. Noted in particular was the wide variation of quality in each of the grades. Consequently, on August 1, the USDA proposed a revision of the present wheat standards.

The proposed changes are: to set maximum limits in the numerical grades for total defects, such as damaged kernels, foreign material, and shrunk and broken kernels. To lower the limits of shrunk and broken kernels. Both these proposals would provide a cleaner, more merchantable product, according to the department.

Another proposed change concerns dockage, or the material other than wheat removed by cleaning. It would require that dockage be stated by whole and half percent, instead of whole percent as at present.

Still another change would place wheat with more than 13.5 percent moisture in the "tough" category. Another change would recognize higher than normal test weights per bushel by providing for a special "heavy" grade.

The name for Western White Wheat would be changed to Mixed White Wheat, which is more descriptive of the subclass, in another change proposed. Discontinuing the smut dockage method for appraising the quantity of smut in a lot of wheat, since the scouring method to determine smut dockage is no longer in use, is another proposed change. And a further change would eliminate Western Red Wheat from the official standards since this wheat is no longer produced.

Wheat is one of the most important agricultural crops in terms of dollar value and in quantity exported, says the USDA. Therefore, wheat growers, processors, handlers, and exporters stand to gain much from meaningful grades and standards to describe those

grades.

Public hearings have been scheduled during October to consider the proposals. These will be held at Kansas City, Mo., October 1; at Minneapolis, Minn., October 4; Portland, Oregon, October 8; and Toledo, Ohio, October 11. Those interested in submitting their views on the proposals may do so by October 31, to the Grain Division, Agricultural Marketing Service, U.S. Department of Agriculture, Washington, D.C., 20250.

## Uncle Sam Has All The Answers

The 1963 edition of the nation's fact book, the Statistical Abstract of the United States, has just been released by the Bureau of the Census, U.S. Department of Commerce.

This 84th edition of Uncle Sam's Answer Book contains the latest figures on the social, political, and economic aspects of the nation.

Included in the 1,263 tables of statistics are 68 new ones reflecting the current emphasis on science, education, employment, government expenditures, and medical care. Information is supplied on such timely subjects as air pollution, fallout shelters, employment of high school graduates and dropouts, medical care costs for the aged, transportation to work, state income taxes, smoking habits, and housing units by equipment.

Here are a few samplings from the new Abstract.

A fourth (27%) of all the fallout shelters in the United States and its outlying areas are in New York State. In the entire country there is fallout shelter space for only 103 million, while the total population is nearing the 190 million mark.

About 21 percent of the male, and 66 percent of the female population over 30 have never smoked. Almost 50% of the men who smoke and 72% of the women smoke filter tips.

More than half the women who work are also housewives. The illegitimate live birth rate, 23 per 1,000 unmarried females (aged 15 to 44) in 1961, was three times higher than that in 1940, and more than one and a half times as high as in 1950 (14 per 1,000).

Half the young men examined as selective service registrants were rejected in 1962.

From 1950 to 1962, the Federal government debt increased from 266 to 240 billion dollars, the total debt of private persons and organizations from 276 to 755 billion dollars.

France has received more military aid from the United

States since 1950 than any other country.

Although 90% of all households have TV sets, twice as many books are being sold as were sold 15 years ago.

In 1940, 60% of all newspaper content, 40% for advertising. In 1962, 39% of the newspaper was used for editorial and news content and 61% for advertising.

Phoenix, Arizona is the sunniest city in the U.S., with sunshine 80% of possible time; Mobile, Alabama is the rainiest with 68 inches per year; Honolulu, the warmest with an average of 76 degrees; Oklahoma City, the windiest at 14 miles per hour.

Copies of the 1963 Abstract are available for purchase from the Dallas Field Office, U.S. Department of Commerce, 500 S. Ervay Street, Room 3-104, Dallas, Texas, 75201. The price is \$3.75 per copy.

**PIGGY WIGGLY SPIN AND WIN WHEEL** stopped on the \$100 mark when Celia Montreal spun it, and was the happy winner of \$100 in cash. Lloyd Kiser, manager, is shown as he presents Celia with 5 twenty dollar bills in cold cash. To be eligible to spin the wheel and be a winner, all any Piggy Wiggly customer has to do is save the orange cards they receive at the store and when they get four cards spelling out SPIN, they may spin the wheel.

## Winning Musical Comedy To Appear at State Fair

"How to Succeed in Business Without Really Trying," the celebrated musical comedy that has won more awards than any other musical on Broadway will be this year's State Fair attraction, opening a 17 day engagement at the Dallas Music Hall on October 4, thru Sunday, October 20. Feuer and Martin, in association with Frank Productions, Inc. are the producers.

Winner of the Pulitzer Prize for 1962 (Best Play), the New York Drama Critics' Circle Award (Best Musical) and 7 "Tony" Awards, "How to Succeed..." has been convulsing capacity Broadway audiences for the past two years, and the national company, to be seen in Dallas, has been receiving accolades from press and audiences wherever it has played, as well as breaking house records.

"How to Succeed..." recounts the hilarious tale of the rise of ambitious J. Pierpont Finch from his job as window washer for World Wide Wickets, Inc., to Chairman of its Board of Directors, Dick Kallman and Willard Waterman are co-starring in this impudent and inventive spoof of "Big Business" with Kallman as the eager-beaver Finch, and Waterman as J. B. Bigley, the pompous president of the company.

Young Kallman, who has scored an impressive personal success in the role of Finch appeared on Broadway in "Seventeen", "The Fifth Season" and "Come Blow Your Horn", and has already had a formidable background in television, night clubs, films and popular recordings. Mr. Waterman, a long-time favorite in radio and television, is especially remembered as the Great Gildersleeve. He has been in numerous films, among them, "The Apartment" and "Auntie Mame." Featured roles in the musical are played by Mireen Arthur, Dyan Cannon, William Major, Pat McEnnis, (from San Antonio), Tom Batten and Lillian Fields.

"How to Succeed..." has reunited four of the key men involved in "Guys and Dolls", producers Cy Feuer and Ernie Martin; Abe Burrows, co-author with Jack Weinstock and Willie Gilbert of the stage adaptation of Shepherd Mead's best selling book; and composer-lyricist Frank Loesser.

Tickets are now available at the State Fair Box office, 1924 Elm Street, Dallas, \$5, \$5.95, \$4.95, \$4.40 on the lower floor; \$4.40, \$3.30 and \$2.20 and \$1.65 on the balcony.

## New Fly Control Methods Sought By U. S. D. A.

A search has begun for new physical methods to control the four most bothersome flies found on dairy farms, says the U. S. D. A.

The house fly, stable fly, horn fly and the face fly are the insects under investigation by a team of USDA scientists at the new Beltsville, Md. fly laboratory. The research will study the use of light and other forms of radiant energy, audible and ultrasonic sound, air currents, and geometric patterns as weapons against these pests. They will also investigate improved sanitation and management methods that may be used in fly control.

The team of entomologists, agricultural engineers, and dairy husbandmen of the USDA's Agricultural Research Service, will attempt to add to the scanty amount of research-development information now available on the

physical control of flies. Although complete control by physical means is not expected in the near future, their use as a supplement to insecticides could reduce the amount of the chemical controls needed. Physical means, if they were effective, available at reasonable cost and easy to use, would be better than chemical ones because they would leave no residue, says the USDA.

The scientists say the first step in the study will be to learn more about the basic behavior and peculiarities of the flies themselves. They add that practical physical means of control probably won't be found for several years but that their main interest now is in light attractants which have been used for many years but are not yet very effective.

Two PTO speeds—each at two engine speeds—to provide more power for heavy jobs, greater economy for light work.

● **Extra Comfort Features**  
Big, foam-covered contour seat adjusts forward or back, and 2-position steering wheel tilts up for easier stand-up operation. Step plates provide easy access to platform.

● **Row Crop or All-Purpose**  
Versatile all-purpose 4-wheel models, or row crop models with choice of front end options.

● **Power Steering**  
Standard equipment on every Ford 6000 tractor to provide work-saving operating efficiency.

● **Full Power Disc Brakes**  
Oil cooled hydraulic power disc brakes last longer and provide easier, more positive control.

● **Power Adjusted Rear Wheels (Optional on all models)**  
It's a simple matter to adjust rear wheel tread throughout entire range without removing and reversing wheel discs or wheel rims. Only a wrench is needed, and there's no heavy lifting required to change adjustment.

A demonstration on the Rufus Carter farm 3 1/2 miles east of Lubbock showed the Ford 6000 would pull a 14 foot tandem at 5.2 miles per hour. Left to right are Bennie St. Cyr, field supervisor, Mr. Carter, owner of the farm, Jr. Davis, who has the farm leased, and Hollie Francis, owner of Francis Implement Company in Muleshoe.

● **Select-O-Speed Transmission**  
Shift to any speed without stopping; without clutching, and under load.

● **Power-Stor Hydraulic System**  
Exclusive accumulator system provides fast, responsive hydraulic action at all operating engine speeds.

● **Improved 3-Point Linkage**  
Draft sensitive lower links provide responsive draft control.

● **Multi-Trol Draft Control**  
Full position control; full draft control—with 5 positions between for varying response to draft.

**STATE CAPITAL Highlights AND Sidelights**  
by Vern Sanford  
TEXAS PRESS ASSOCIATION

Gov. John Connally has taken the offensive against his potential 1964 opposition backers in spectacular fashion. He surprised a poll tax rally here by lowering the boom on Texas County Commissioner Albert Pena, state chairman of the Political Association of Spanish-Speaking Organizations (PASO). Pena is among Texas liberals who have been critical of the Governor's opposition to federal civil rights legislation.

Connally charged that "self seeking politicians" are out to turn the poll tax repeal campaign into "a sideshow for their own purposes." Their aim, in the Governor's view: bloc voting. He blasted Pena as a "would be political boss" who builds his power by erecting a wall between Mexican-Texans and Anglo-Texans, using Teamster Union organizers as bricklayers. Pena, who played a big hand in the city council election in Crystal City early this year, denied he is a "boss". He said the Governor's speech was a "sadistic, under-the-table, oblique way of telling the people he favored retaining the poll tax."

Connally's friends applauded his sizzling speech, one of the hottest he ever has made. Pena's friends, including Don Yarborough of Houston, who evidently will be running against Connally again next year, rushed to his defense and heaped new criticism on the Governor. REPUBLICANS--- First announced statewide candidate to emerge on the pre-1964 political scene is a Republican. He is George H. W. Bush, 39, of Houston, who seeks his party's nomination for the U. S. Senate. Bush and other Republican hopefuls have been discussing

PARKS REPORT--A two year  
study, recently completed and  
presented to the Governor,  
proposes expenditures of  
\$305,000,000 to acquire  
and develop 373,000 more  
acres of Texas parks by the  
year 2000.

Connally, lauding the report,  
suggested organization of a  
citizens group to follow  
through on needed parks pro-  
grams. He also revealed he is  
studying possibility of buying  
part of the 72,000 acre J. C.  
Hunter Guadalupe Mountain  
ranch as a State Park.  
Parks experts who prepared  
the report argue that proper  
development of the recreation,

would boost the state's econ-

### Pleasant Valley News..

by **SHERYL STEVENS**

Mrs. Tip Butler, Albuquerque, N. M., is spending a few days visiting with Mrs. Bonnie

Haberer, who was her "Tour Around the World" roommate. Sunday afternoon, Mrs. Butler and Mrs. Haberer attended a

dinner party in the home of Mr. and Mrs. Ralph Wheeler of Edmondson. The guest list was made up of people who had gone on one of Cotton John's tours. The tours were: European tour, Alaskan tour, Canadian tour, world tour and

"Down Under" tour. There were about 90 people present. Mr. and Mrs. John St. Clair and their son and his family, Mr. and Mrs. Johnny St. Clair of Farwell, spent the weekend in parts of New Mexico. From here, they went to Las Vegas and then on to Santa Fe, where they toured the museums. They then went on to Albuquerque, and visited with Mrs. St. Clair's brother and family, Mr. and Mrs. Carl Dyer and family; her nephews and their families, Mr. and Mrs. Charles Dyer and Mr. and Mrs. Hilton Dyer. Saturday, they went to the New Mexico State Fair and rodeo. Then, Sunday they went on a scenic drive up the San Dia mountains.

Among those girls from Pleasant Valley who attended the FHA Sandhill party Monday night were Patsy Angeley, Carolyn Allison, Barbara Dyck Sheryl Stevens, Kathryn West, and Terry Lynn Bryant.

Thursday, Mrs. W. D. Lackey and Mrs. Glen Kenney took Mrs. Lackey's grand son, Charles Riddle, to Oklahoma City to the allergy clinic there. They came back by Lawton, and visited with relatives of the Lackey's. They returned home Sunday evening.

Mr. and Mrs. T. B. Dyer, of Springlake visited in the home of Mr. and Mrs. John St. Clair Monday evening.

Mrs. S. L. Jackson has been visiting a few days in the home of her son and his family, Mr. and Mrs. Joe Don Jackson, of Amarillo.

Mrs. B. H. Porter spent the weekend with her sister-in-law, Mrs. U. B. Porter, Lubbock.

Norman Compton, El Paso, has been visiting a few days in the home of his aunt and uncle, Mr. and Mrs. Gerald Allison and family. He has just received his discharge from the Army.

Mr. and Mrs. S. K. Flatt have had as guests in their home this past week, Mr. Flatt's sister and family, Mr. and Mrs. Edward Keaton, from Skitook, Oklahoma.

Mr. and Mrs. E. C. Galyon and son, Paul, and Mr. and Mrs. Galyon's nieces, Sharon and Arlene Aven, Matt, and Vanita Harkey, Perry and Rickie Stockard, Muleshoe, enjoyed a day at Clovis Zoo Sunday.

Dr. and Mrs. Kenneth Osborn and children, Becky, Beth, Steve, and Kenni Jean of Lovington, N. M., visited Sunday, in the Harold Allison home.

Mr. and Mrs. Oscar Allison are the proud grandparents of a new grandson, Edward Lynn Black, born September 9. His parents are Mr. and Mrs. Buddy Black, Muleshoe.

Mack Allison, son of Mr. and Mrs. Oscar Allison, left Monday for Lubbock, where he is a sophomore at Texas Tech.

### TEXAS HIGHWAY DEPARTMENT EXPANDS ANTI-LITTER CAMPAIGN

The Texas Highway Department has added two new methods to its continuing anti-litter campaign: a cartoon character printed on its Official Highway Travel Map and revised highway signs reminding drivers they can be fined from \$10 to \$200 for littering. The cartoon character "The Litter Longhorn," pleads with the public to "Help Stomp Out Litter." The sign emphasizes that it is against the state law to litter. In 1962 the Highway Department had to spend \$1.4 million to pick up litter, an increase of about a hundred thousand dollars over 1961.

# FIRE Don't Take Chances On Your Family's Safety

WITH THIS SIMPLE FOOL-PROOF ALARM SYSTEM, YOU AND YOUR FAMILY CAN BE SAFE...

MANY DIE IN THEIR SLEEP, FOR LACK OF AN ALARM TO AWAKEN THEM... DON'T BE ONE OF THE FATALITIES... LIKE THE ONES LISTED BELOW:

#### Two Sisters Die In Dallas Blaze

DALLAS (AP)—Two young sisters burned to death early Thursday when their home filled with flame and smoke. Two other children and their mother suffered burns.

Dead were Cindy Lee, 9, and Marti Mae, 12, daughters of Dr. and Mrs. Thomas Folkerts.

Burned and in critical condition were Tobi Ann, 6, and Thomas, 23 months. Their mother suffered burns and cuts as she tried to rescue her children.

Dr. Folkerts, a field veterinarian for the Elanco Products Co., was in Gonzales on business. She said she believes the fire started in a floor furnace.

#### Five Perish In Indiana Blaze

ROCKVILLE, Ind. (AP)—Five children died and five were badly burned in a fire that destroyed a private home for retarded children Friday night.

Coroner Tom Mack said the fire apparently was caused by an explosion in a clothes dryer.

Four of the injured were reported in critical condition in Vermillion County Hospital in neighboring Clinton, and the fifth was in fair condition.

The coroner said only one of the 11 children in the home escaped injury, along with the operators, Mr. and Mrs. William Johnson. The children ranged in age from 2 to 7.
