Twenty Hi School Band Students Will Participate In Band Reading Clinic

THE TIDE HAS CHANGED. LUBBOCK MONEY WAS SPENT IN EARTH during the Clearance Sale at Rutherford and Co. (even though Lubbock firms were having their Clearance Sales). Not only Lubbock, but Rutherford had customers from Muleshoe, Hereford, Dimmitt and Olton.

One lady from Muleshoe says she always buys her piece goods at Rutherford, she says she can't find as large a selection of fine materials as is available here.

I agree, Rutherford's store is stocked with some of the finest merchandise available anywhere, in order to give the area people what they want.

Bud and Margaret Irvine and their lovely family moved this week to Odessa. Earth's loss is Odessa's gain. I hope the Odessa area people learn to love Bud and Margaret the way we in Earth love them. It is with regret that we lose such fine people from our fold.

It seems such a short time ago that our loving little daughter with long brown curls and blue eyes, came to me daily with every burn-finger, cut toe, and each little disappointment. Surprisingly enough with just a kiss on the hurt spot, accompanied by a few well-chosen words of comfort, she was again restored to new happiness.

This mother's privilege was gone all too soon, seems she just grew up overnight. As this week our little daughter, Polly celebrated her 18th birthday. She broke a date in order to celebrate her birthday with the family. It was a thrill for Ross and I, though tired, to be chosen to celebrate with her.

We went to Clovis to El Monterrey as she loves Mexican food, then to a movie.

We, as parents, do hope that as Polly and all our teenagers grow up and feel they are too grown up to go to Mom and Dad with their disappointments, that they will go to, and find comfort in the Great Master above, who can heal their pains, and solve their problems.

HOW MANY TODAYS ARE WASTED

I have been reading how speedy life flies by, days into years, years into a lifetime, and before we have had time to take inventory of our lives, the time has passed, we are old. We, as a child, are prone to live in the tomorrows and say just wait until I get big, and then until I'm grown, until I'm married, and then until I retire, and then comes the day when retirement is here. And, upon looking back and taking inventory, one finds they've never really lived. They were always waiting until tomorrow to really live and tomorrow never quite arrived, and life was never fully happy, because they never lived today.

Today is the day to live and to be happy. Today is the day to be thankful. Today is the day to show our sincere and honest appreciation for others. Today and Now, this moment if not lived fully is wasted.

Guess I may as well face it, I'm plain gonna have to get my happiness from that Dale Carnegie Course in some other way than becoming a great speaker. I just can't get enthusiastic over becoming a speaker. I'll have to stick to being Polly Middleton. I'm stuck with her and her mannerisms and her ambitions, which doesn't cover being a great speaker. However, the Happiness angle in the course (that Carnegie representatives say you will receive) I would love to grasp. (Happiness is a coveted thing).

I am basically a happy person. I love being happy, and if that course can give more, I'm a glut-ton for happiness.

However at winning pencils for speaking, I'm not among 'em. Jarvis Angeley won a pencil for the best speech made in the first session. The second session, Ardis Barton won the pencil for the best speech. Gene Templeton for the most improvement, and Mrs. Jobie Sanders of Hart won for the greatest achievement. (Me I've just enjoyed listening).

Twenty students of the Springlake High School Band have been selected to participate in the Band Contest Music Reading Clinic to be held at the cafeteria in Sudan Saturday, January 23, from 9 a. m. until 4 p.m.

Dr. Mattox, Lubbock Christian College To Speak At P. T. A. Meeting Tonight

DR. F. W. MATTOX

Dr. F. W. Mattox, President of Lubbock Christian College will be the speaker tonight (Thursday) at the PTA meeting in the High School Auditorium at 7:30.

American greatness is the result of a moral society, Constitutional Government and the Free Enterprise System, known as Capitalism.

The danger in which these factors stand as a result of Communism will be the basis for Dr. Mattox speech.

Dr. Mattox is uniquely qualified to speak on the subject, "Citizenship Training." He has taught for several years this non-profit adult education course which studies through informed citizens to preserve our American Heritage, economically, politically and sociologically.

Subjects the Citizenship Training Program covers are, The Battle ahead, Structure of the American way of Life, The Profit system and The Responsibility of Citizenship. Dr. Mattox will briefly explain these subjects in his speech.

A group from the Music Department of LCC will present special music. Everyone is urged to attend the PTA meeting tonight.

Linda Kay Lawrence Is Springlake's 1960 Homemaker Of Tomorrow

The 1960 Betty Crocker Homemaker of Tomorrow in our school is senior, Linda Kay Lawrence.

LINDA KAY LAWRENCE

She received the highest score in a 50 minute examination on homemaking knowledge and attitudes taken by graduating senior girls. She will receive an award pin, manufactured by Jostens and representing the slogan, "Home is where the heart is." Her examination paper will be submitted for competition with other high school winners to name the state Betty Crocker Homemaker of Tomorrow.

The test, which was prepared and judged by Science Research Associates of Chicago, was taken by a record number of 379,018 girls in 12,597 schools, an increase of 29,863 girls and 337 schools over last year.

Total enrollment in the six-year-old \$110,000 scholarship program sponsored by General Mills has neared the two million mark (1,800,152 girls). Alaska and Hawaii are participating for the first time this year.

Each state Homemaker of Tomorrow will receive a \$1500 scholarship and an educational trip April 23-29 with her school advisor. The tour will include New York City and Colonial Williamsburg and will culminate with the American Table Banquet in Washington, D. C. on April 28, at the Statler Hilton hotel where the All-American Homemaker of Tomorrow will be announced. The runner-up in each state will receive a \$500 scholarship; the school of each state

winner will be given a set of Encyclopaedia Britannica.

The scholarship of the All-American Homemaker of Tomorrow will be increased to \$5000. The second, third and fourth ranking Homemakers of Tomorrow in the nation will receive \$1000, \$3000 and \$2000 scholarships, respectively.

Springlake FFA Enter Houston Stock Show

The Springlake Chapter of the Future Farmers of America has entered 50 barrows in the Junior Fat Swine Division and 2 steers in the Steer Division of the 1960 Houston Fat Stock Show and Rodeo.

The 28th Exposition will be held February 24th through March 6th.

Entries exceed 11,000 and include fourteen breeds of cattle, four registrations of horses, eleven sheep breeds, Angora goats, six swine breeds, about twenty poultry breeds and nine rabbit breeds.

The show offers more than \$200,000 in awards with \$160,142 specifically for the livestock divisions. Discounting small stock, the open classes will share \$52,600 and the junior classes will vie for \$1,913.

Two scholarships amounting to \$50,300 will be presented to outstanding junior exhibitors. There are 273 trophies and special awards and \$1,245 in prizes for Good Housekeeping.

There are several "first" and several changes in the livestock show structure this year.

Arabian and Appaloosa horses will be shown for the first time. The quarter horse show and the cutting horse contests are well established events at the Houston exposition.

Guernseys have been added to the open dairy show. Brown Swiss will be admitted to the junior dairy show along with Jerseys, Hol-

steins, Guernseys and Milking Shorthorns.

Santa Gertrudis breeding beef heifers will be new to the junior division, as will Angora goats, Chesterwhites and Yorkshire are two new breeds added in the fat barrow department.

The regular breeds to be seen in the beef cattle show rings include Aberdeen-Angus, Brahman, Brangus, Charbray, Charolais, Hereford, Red Poll, Santa Gertrudis & Shorthorns.

There are five breed sales scheduled on the grounds in addition to the regular market livestock sales held by the show. These special sales are sponsored by the respective local breed association and their special groups with the cooperation of the Houston Fat Stock Show.

Charolais will be auctioned Wednesday, February 24. Aberdeen-Angus will go across the block on Thursday, February 25. The Hereford consignments will be sold on Friday, February 26 and there will be a special sale of quarter horses on Saturday, February 27.

The Texas Shorthorn Lassies will hold a special sale of short-horn heifers on Saturday, March 5. Carol McCormack of Ennis, Texas, the International Shorthorn Lassie Queen, will be in attendance.

The open breeding show will occupy the stock show's stalling facilities the first week of the show, Wednesday, February 24 through Sunday, February 28. The junior and marketing show will move in Monday, February 29, for the remainder of the exposition.

An outstanding project of the show's youth program will be the judging contests. Approximately 1800 contestants in 600 different teams will compete in the senior collegiate, junior collegiate, 4-H and FFA livestock judging contests; the junior dairy judging and the junior grass judging contests.

An international headquarters will be set up at the coliseum for the convenience of foreign visitors

Pleasant Valley 4-H Report

The Pleasant Valley Club met January 13, in the Community Center at 5:00 P.M. The refreshments were served by Carolyn Allison and Johnny West. The meeting was called to order by the president Johnny West and the roll call and minutes were read by Sheryl Stevens secretary. The president introduced the two new members, Glenda Calhoun and Joe Ketcherside and one guest Jane Bruns. Veta Allison presented to the club the State Plaque which the club won during her term as president. Patsy Angeley gave a report on the Christmas Parade, which was very interesting. The club voted to pay for their use of the community building, also to pay the bills for the Christmas float and present their sponsor the Farmers Co-op the total bill. The Pleasant Valley 4-H Club would like to take this means of thanking the Home Demonstration Club for the 4-H banners and song books they gave us.

It was asked of the reporter that the names of those participating in Christmas affairs be written up so they would get credit in 4-H records. This will be done at the end of this report. The boys and girls then separated and Lady Clara Phillips talked to the girls.

NOTICE!

TO PARENTS Of School Age Children

The school census is being taken during the month of January this year. All children who are six years old on or before Sept. 1, 1960, but will not be 18 or older on or before that same date should be counted in this census. It is very important that all children six to 18 years be counted in this census. The child should be counted even though he may not be in school and even though he or she may be married.

If you as a parent, have not received and filled out a school census blank on or before January 21:

1. Phone Superintendent at No. 4321 and ask for a census blank.
2. Call in person at the school Tax office and get a census blank and fill it out.

Remember, if your child will be six years old next Sept. 1st he should be counted in the census now, even though he is not in school now. If he is six but not 18 or older on next Sept. 1st he should be counted now. All children from six to 18 should be counted. The six year olds who start next September to school are the ones most often overlooked in the census.

Please read the census blank carefully, fill it out completely, and return it by your child next day to the teacher. Thank you.

Be Sure And Turn In Your Census Blanks Before February 1st

Springlake Loses Two To Kress Friday Party Line...

Springlake lost two hard fought games in Kress last Friday night. In the girls' game the final score was Kress 50, Springlake 37. The final score in the boys' game was Kress 52, Springlake 44.

Springlake boys were outscored throughout the whole game. In the first quarter Kress scored 16 points while Springlake scored 14. Then in the second quarter Kress continued their scoring streak by scoring 11 points while Springlake scored 10, making the score at half time Kress 27, Springlake 24. In the third quarter Kress scored 13 points while holding Springlake to 11 points, making the score Kress 40, Springlake 35. In the fourth quarter the Springlake boys fought real hard, but were unable to outscore the Kress boys. Kress scored 12 points while Springlake was only able to score 9. The final score, Kress 52, Springlake 44.

In the girls' game Kress made a fast start and never let up. At the end of the first quarter they had scored 13 points while holding Springlake to 7 points. In the second quarter Kress continued their scoring by making 12 points while Springlake made 10. The score at the end of the half was Kress 25, Springlake 17. In the third quarter Kress scored 12 points again and Springlake scored 9, making the score Kress 37, Springlake 26. In the last quarter Kress again scored 13 points and Springlake scored 11. The final score was Kress 50, Springlake 37. The high point girl of the game was Campbell of Kress with 28 points. Minnie Wheat of Springlake scored 22 points. Linda Oden made 9, Carolyn Gregory made 4, and Eleanor Riley made 2 points.

In the boys game high-point man was Joe Ellis of Springlake with 23 points. C. Saul of Kress was close behind with 21 points. Tom Messer made 8 points, Sandy Sanders made 6, A. M. McGowan

made 3, and Bobby Sloan and Hal Hudson made 2 points each.

"B" TEAM PLAYS KRESS

Springlake "B" team played Kress before the regularly scheduled game last Friday. They played a good game to a 16 to 17 loss.

Springlake took the lead in the first quarter by scoring 6 points to Kress three points. Then in the second quarter Kress scored five points while it looked like Springlake wasn't going to score at all Dale Dent came to the rescue by making a spectacular basket from the far end of the court in the last seconds. His basket at that time was the highlight of the evening. The score at the half was 8 to 8 tie. Kress continued to outscore Springlake in the third quarter by scoring 8 points to Springlake's 6 points, the score then being Kress 16, Springlake 14. In the last quarter the scoring slowed down for Springlake scored 2 points and Kress only scored 1. The final score being Kress 17, Springlake 16.

High point man of the game was Freeman of Kress, who made 8 points. Dale Dent and Stanley Irvine of Springlake were both close behind with 7 points each. Norman Clayton and Bobby Sloan scored 1 point each.

VALUES in FIRE and CASUALTY INSURANCE STOCKS

For the insurance industry, 1959 was the year that most companies returned to profitable underwriting operations after three years of overall unsatisfactory experience. While many problems have yet to be solved, prospects for 1960 are certainly bright enough to consider the fire and casualty stocks, one of the more reasonably priced equity groups available today. We recommend that most portfolios consider investment in this industry whether the investment objectives are quality, income or capital appreciation. There are attractive equities available in this industry to suit each of these requirements.

For investment grade quality we recommend *Insurance Company of North America*, for income *Fidelity and Deposit*, for capital appreciation *Prudential*, *Washington*. The final selection that we would like to include for quality and growth is *Travelers Insurance*. This is a multiple line company writing life as well as fire and casualty insurance lines.

The year nineteen-fifty-nine ended one of the poorest underwriting periods in the history of insurance. Not only had the industry suffered mounting claims, but the overall rise in these losses occurred at a time when many states were reluctant to raise rates to compensate for the losses.

Automobile accidents and liberal jury awards against the insured further compounded their plight. In the fire field, under-insured dwellings and a startling rise in both fire and extended coverage

losses caused a substantial rise in the loss ratio. These and other problems, which will be discussed later in this letter, reached their peak in 1957 when the industry generally reported an overall loss expense ratio of 102.9%, i.e. an operating loss of 2.9%. This was the low point and from there a gradual improvement has been evidenced.

In 1958 the industry, on an overall basis, broke about even in its underwriting operations while last year a reasonable profit is expected to be reported and the combined loss expense ratio should have dropped to 97%. This will have allowed all but the marginal companies to experience underwriting profits, a heartening experience for many that have endured losses for the past three or more years.

Had not the first quarter of last year been plagued with the coldest winter nationwide in over fifty years, which caused havoc both in fire and casualty losses, results would have been even better. This year, barring catastrophic losses improvement in overall underwriting results is looked for. This, plus additional control of operating expenses and a further improvement in investment income, indicates at this early date that the fire-casualty companies should finally enjoy a good year.

WORTH MORE BECAUSE THEY WORK MORE

Chevy's new torsion springs and Sturdi-Bilt design are changing everybody's ideas about how much work a truck can do. Last year's schedules are out—Chevrolet trucks ride faster over the rough runs to get in more trips a day! Big repair bills are no longer a problem—Chevrolet trucks soak up punishment that means downtime to other makes! And trade-in time's put off for extra thousands of miles—'60 Chevrolet trucks stay new like never before!

New Dollar-Saving Prices
Step-Vans, 4-Wheel Drives, many light-duty models with automatic transmissions—all are lower priced. Prices have also been reduced on all optional V8's.

New Torsion-Spring Suspension
Eliminates I-beam shimmy and wheel fight! With torsion springs up front there's a brand-new, smoother, easier handling feel behind the wheel. New rear suspensions include wide-based coil springs in most light-duty models; tougher variable-rate leaf springs in medium- and heavy-duty models.

Electronically Balanced Wheels
Front wheels and tires are balanced at the factory. Helps make that new ride revolutionary!

New Cabs—Wider, Safer, More Comfortable

Many models are a whole 7 inches lower (without sacrificing road clearance), so it's easier to hop in and out of cabs. Still there's more space inside: more room for hats and hips, more foot room with suspended pedals. Cabs are safer, too; new build makes them 67% more rigid.

Plus Improvements All Through the Line

A new steering linkage system that cuts vibration, means better control. There's new V8 efficiency. Sixes long famous for saving. New key-turn starting. Higher, wider visibility. Talk to your Chevrolet dealer about the world's most advanced trucks.

High Plains Research Foundation Program For 1960 Expanded By Committee

The 1960 research program of the High Plains Research Foundation was expanded by action of the Executive Committee of the Board of Trustees at their January meeting. Harold Hinn, Chairman of the Board announced today.

Soybean and sesame variety testing was expanded to include fundamental plant breeding investigations to develop varieties specifically adapted to the High Plains area. This program was enlarged to meet the requests of farmers and business representatives for better yielding and more suitable varieties. Employment of additional personnel to assist Dr. Earl Collier in this program was approved.

"Soybeans could very well be

the savior of the agricultural economy of the High Plains in fulfilling one of the needs for a dependable additional crop that can be grown in a rotation with grain sorghum and cotton," Mr. Hinn said in this enlargement of the Foundation's research program.

An agreement with the Texas Agricultural Experiment Station at Lubbock was approved by the committee, the coordination and cooperation in agricultural research in the area was established by this agreement. This plan avoids unnecessary duplication of research programs and provides coordination of activities, so the whole West Texas area is more adequately served.

Fifty Teachers Will Be Accepted For Science Foundation Summer Institute

CANYON, (Special) — Fifty teachers of biology, chemistry, physics and mathematics will be accepted for the National Science Foundation Summer Institute to be held May 31 to Aug. 19 at West Texas State College, according to Dr. H. L. Cook, professor of mathematics and director of the institute.

Request for applications for the institute should be made immediately, Dr. Cook said, for completed applications should be returned to him at WT by Feb. 15.

The institute for high school teachers is in its second year at WT, with an allowance for more teachers this year to attend than last year, Dr. Cook said.

Winners of institute appointments are granted \$900 for the 12-week period, with an allowance of \$15.00 a week for each dependent up to a maximum of four, along with a travel allowance.

Featured for the institute, along with regular classes and laboratory sessions in biology, chemistry and physics-mathematics, will be lectures by nationally-known scientists. One such lecture will be made by Dr. Calvin VanderWerf on the formulation and use of tranquilizers.

A field trip to White Sands Proving Grounds and Holloman Air Force Base is planned, where high speed computing machines, testing and firing of missiles, and the rocket sled tract will be some of the things studied and observed.

Institute staff at WT will consist of Dr. Claude E. Boatman, professor of chemistry; Dr. Robert C. Busted, professor of biology; Dr. John S. Urban, professor of physics; and Dr. Cook.

Farm Income Reported To Be Lower For 1960

College Station — Average prices received by farmers during 1960 will show a further slight dip while costs of farm production and marketing will continue to rise. As a result, realized net farm income in 1960 is expected to be a little lower than in 1959.

During the first nine months of 1959, realized net income in the U. S. average 15 percent below the same period in 1958. John G. McHaney, extension economist, said since World War II the general trend of agricultural prices has been downward. During much of this time, he noted, supplies have been so large that prices have not responded to the very favorable developments in demand. Supplies of agricultural commodities are expected to be large again in 1960.

In this same period there have been upward trends in non-agricultural prices, in consumer incomes, in business investments and other factors that contribute to a growing demand. The results of the large supplies of agricultural commodities have been lower prices to farmers, larger government stocks of farm products and lower retail food prices to the consumer than otherwise would have occurred.

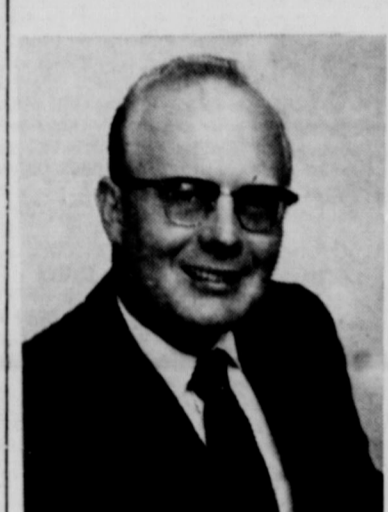

Total agricultural output of farm and ranch products in 1959 probably set a new record, slightly above the 1958 output and about 25 percent above the 1947-49 average. McHaney said agricultural output in 1959 might have been larger except for the Conservation Reserve, which retired 22.4 million acres from production.

The trend in crop yields has been upward in recent years, with increases of leading farm crops in the last decade ranging from 20 to 75 percent. In 1960 agricultural yields will probably again be large, said the economist.

Domestic demand for agricultural products is expected to again

Jack Young, Muleshoe Announces Candidacy For District Attorney

This news paper has been authorized to announce the candidacy of Jack Young of Muleshoe for the office of District Attorney for the 154th Judicial District, subject to the May, 1960 Democratic Primary election.

JACK YOUNG

In announcing his candidacy, Mr. Young made this statement: "It is with the sincere desire to be of service to the citizens of

be strong in 1960 and maybe even stronger than in 1959. As for agricultural exports, McHaney said they should reach \$4 billion in the 1959-60 fiscal year. This will be the third highest in history, exceeded only by the exports of \$4.7 billion in 1956-57 and \$4.1 billion in 1951-52. Cotton, feed grains and rice exports are expected to increase while wheat, flour and dairy products exports are expected to decline slightly.

As for government programs, the economist said it is expected they will be about the same as in 1959. No major changes in price-

this District that I seek the office of District Attorney for the 154th Judicial District, composed of Lamb, Farmer and Bailey Counties.

As to my reason for feeling that I am qualified to hold this important office, let me briefly list a few biographical facts.

I am a native of Texas, attended school at Muleshoe, and received a BA degree from Texas Technological College and a law degree from the University of Texas. I am married and have a three year old daughter.

Since January 1, 1957, I have been serving as County Attorney in Bailey County, and in this capacity have had considerable experience in the prosecution of criminal cases.

If elected I will prosecute with vigor and determination all criminal violations that come within my jurisdiction.

It is my desire to be able to visit with each of you personally before election. But, if for reasons beyond my control I am unable to do so, I take this opportunity to solicit your vote and support."

JACK YOUNG

(Paid Political Adv.)

support levels are anticipated in 1960.

Because of the substantial reduction in the number of farms and farm people, the decrease in per farm income and in per capita income has been much less than the drop in aggregate farm income. The increased income from non-farm sources has been an offset to lower income from farming. McHaney pointed out. However, he added, the per capita and per farm incomes of farm people from all sources declined from the high levels of 1958, while non-farm income increased.

Christmas Gifts for Motorists

Have you finished your Christmas shopping? If not, you might like these suggestions for motorists and other people on the go.

For sports car enthusiasts, there's a "Monte Carlo Rally Timer." It has full-sweep minute and second hands plus an hour window which registers time up to 12 hours. The radium dial is calibrated in 1/5 second and 1/100 minute. Cost, \$52.50.

From England comes a picnic hamper of willow reed, with a service for six. The outfit includes plastic plates and cups, knives, forks, spoons, two stainless steel food boxes and two quart-size vacuum bottles. It sells for \$87.50.

A drip-dry hangers kit is a good idea for \$6.95. The nonrusting plastic hangers can be inflated to provide ventilation for quick drying of "miracle" and drip-dry fabrics. The compact case includes two hangers and fabric brush.

Even less expensive is a folding hairbrush that can fit in a pocket or purse. It has nylon bristles that fold flat. Price is \$1.50.

A utility kit is always welcome. For \$16.50 you can get a 9-inch, cowhide case with a moisture-proof pocket. The kit's manure set includes nail clip, nail file, scissors and tweezers.

A handy item for the purse or car glove compartment is a rechargeable pocket flashlight with sealed batteries that never need replacing. Just plug it into a household outlet (AC only) to recharge. It's \$5.95.

A battery electric shaver gives full shaving power from four pen-light batteries. With the batteries, it sells for \$16.95.

Deadline For High School Math Contest Entry February 15

CANYON, (Special) — Entries by area high schools in the National High School Mathematics contest have been urged by Dr. H. L. Cook, professor of mathematics at West Texas State College. The contest is scheduled March 10, but deadline for school registration is February 15.

The contest is sponsored by the Texas Section of the Mathematical Association of America, and Dr. Cook is regional chairman for the association.

No limit on the number of contestants from each school is made. Dr. Cook said the contest will be given in the various schools on March 10. Deadline for registration is Feb. 1, and contest entries should be sent to Dr. H. J. Etinger Dept. of Mathematics, University of Texas, in Austin.

Purpose of the contest is to improve the teaching of mathematics in secondary schools and to increase the number of trained scientists and engineers throughout the nation, Dr. Cook said.

South Plains Scout Council Recognition Dinner Next Month

Fifty years of scouting in America will be celebrated on February 2nd, at the South Plains Council annual recognition dinner. The place of the meeting will be the Lubbock Fair Park Coliseum at 7 p.m.

All scouters, past and present, and wives are being invited and urged to attend, according to John F. Lott, council president, L. D. Whiteley, annual meeting chairman, will be in charge of the program which will be highlighted by an outstanding speaker, presentation of the silver Beaver awards to outstanding scouters, and recognitions of council officers for 1960.

The year of 1960 has been named as the Golden Jubilee Year and a number of outstanding events have been scheduled. Nearly 300 Scouts and leaders from the council area will attend the National Jamboree at Colorado Springs, in July as a part of a national delegation of 60,000 scouts and leaders. Other events to be held during 1960 are the Scout Exposition in March, the Cub Scout backyard events, the council Jubilee Camporee, and the explorer jubilee field day. The regular summer-camp program at Camp Post and Camp Tres Ritos will also be held.

Mrs. Clyde Goodwin Candidate For Commissioner's Post in Precinct 2

Mrs. Clyde Goodwin has made this statement to the voters in behalf of her candidacy for commissioner of Lamb County, Precinct 2.

"I would like to take this means of announcing my candidacy for Commission in the forthcoming election.

"It is my desire to fulfill the remaining two years which my deceased husband would have served.

"As your Commissioner I will continue to maintain and represent you on the Commissioners' Court as you have been in the

past to the best of my ability. I will continue those policies followed by my husband during the term months he served as your commissioner.

"Your vote of confidence and influence will be appreciated."

Southwestern Public Service Company will invest \$18,325,000 in construction and new equipment throughout the company's 45,000 square mile service area in 1960. It has been announced by A. R. Watson, Executive Vice President and General Manager.

At the same time that he announced the 1960 construction investment, Watson revealed that the company's long-range forecast anticipates a \$96,000,000 investment in new facilities in the next five years.

"Our responsibility as a public utility is to stay ahead of the growth of our service area. Every economic index indicates that our service area will continue the phenomenal growth it has shown in recent years. We must plan now to keep ahead of that growth," Watson said.

Southwestern Public Service Company's 12th major generating station will go into service in June.

Located north of Amarillo, the new plant will have a generating capability of 112,500 kilowatts when it goes on the line. The second unit, which will double the size of the plant, has already been ordered, and is scheduled to be in service in 1962.

When the second unit at the station north of Amarillo does go into service, Southwestern Public Service Company's generating capability will pass the million mark for the first time. The capability of the major generating stations will be 1,037,000 kilowatts in 1962.

The growth of the area, and the company, is dramatically portrayed by a comparison with the system generating capability in 1957, which was 404,500 kilowatts.

"Electric service continues as the biggest bargain in your family budget," Watson pointed out. "The average residential kilowatt-hour cost our customers 3.05 cents in 1959, compared with 3.11 cent in 1958, and since 1959, the average cost of a residential kilowatt hour has decreased by 23 percent," he added.

23.9 cent of every dollar of gross revenue received by Southwestern Public Service Company went to pay federal, state and local taxes, Watson said.

"We have no quarrel with carrying our fair share of the tax load, but it seems manifestly unfair that some of our taxes, and those of

School Census Blanks Must Be Turned In Before February 1

The school census is being taken now, blanks should be returned before February 1. All children who are six years old or over before September 1, 1960 but will not be 18 or older on or before that date should be counted in this census. The child should be counted even though he may not be in school and even though he or she may be married.

If you as a parent, have not received and filled out a school census blank, are asked to telephone, Superintendent Bill Mann, at 4321 and ask for a census blank, or you may call in person at the school tax office and get a census blank and fill it out.

The six year olds who start to school next September are the ones mostly often overlooked in the census.

Please read the census blank carefully, fill it out completely, and return it by your child next day to the teacher.

Mrs. Oleta Sanders, Census officer states that it is very necessary that you turn in your census blank before February 1st.

DARLYNNA MORRIS

Two Springlake Students Finish At Mid - Term, Enter College

Two senior students, Linda Watkins and Darlyna Morris of the Springlake High School have finished their high school requirements at mid-term, and plan to enter college.

Linda Ruth Watkins will enter Texas Tech in Lubbock at the beginning of the Spring Semester.

Linda entered the Springlake School while in the seventh grade, coming here from Shallowater. She has been active in FHA and Pep Club throughout her high school years. She was elected class favorite and student council representative for her class this year.

She plans to work for the BBA degree with a major in secretarial administration.

Linda is the daughter of Mr. and Mrs. E. E. Watkins.

Darlyna Carol Morris will enroll in West Texas State College in Canyon, January 25 and plans to major in business and minor education.

Darlyna moved to Earth from Lubbock and entered the Springlake school in the seventh grade in 1954.

She was active in FHA, Pep Squad and basketball, of which she was manager of the team for one year. She was student council representative during her junior year and was also assistant editor of the High School Paper.

She will be living in Cousins Dormitory, on the college campus.

As an outside activity she plans to join the Rodeo Club.

Darlyna is the daughter of Mr. and Mrs. W. R. Morris.

Tips on Touring

By Carol Lane
Women's Travel Authority

Toys for Touring

Mothers planning long drives with children will find touring can be child's play—if the youngsters are pleasantly occupied.

It's easy. When you pack, be sure to include toys and activity materials suited for your children's ages.

For three-to-seven-year-olds, picture books, blocks and paper and crayons are always welcome as well as practical in the limited space of a car. Industrious little girls will enjoy wooden weaving looms and dolls with travel wardrobes in small suitcases. Boys of the same age should be delighted with tiny rubber or soft plastic cars or airplanes. Playing or picture cards and hand puppets are good, too.

Older children, from 8 to 12, are easier to keep entertained and retain their interest in a particular toy or game longer than the younger fry. Keep their interests up with activity books, drawing pads and puzzles. A number of board games have been made with magnetic or pegged pieces—excellent for use in moving cars. To rest eyes and provide diversion, try guessing and number games. "Twenty Questions" is always good.

Avoid toys which might distract the driver, such as yo-yo's, balloons, balls and noise makers. Never permit heavy or sharp-pointed toys or kits containing liquids. And never allow games in which the child has to move about.

Don't plan everything for inside the car. Schedule a stop or two at a place that will interest—and instruct—the children, and then let them look and stretch.

Mr. and Mrs. Roy O'Hair and Mr. and Mrs. Albert Campbell of Lubbock visited with Mrs. Bob O'Hair and Mrs. Jean Ross Sunday afternoon.
