

Nosin...

With Polly

Wednesday morning the lovely sun came out casting its beautiful rays over the Earth-Springlake area, promising a day of gladness and hope.

Then... came the call... the news that brought sadness and heartache to the area, blotting from mind the loveliness that had so characterized the day only a few hours before.

Mr. C. L. Berry, Junior High Principal was truly at heart a school teacher... He was devoted to his profession, devoted to the youth of our nation in that he was truly interested in the advancement of our nation's educational system.

He could have profited more financially by doing something else in life, but rather choose to stick to the teaching profession, for there, doubtless he realized he could aid in molding character, citizenship, and perhaps have a hand in preparing more capable future leaders of tomorrow.

Mr. Berry well knew it took more than a college degree to become a quality school teacher... but whatever it was... love for the youth, understanding etc. he truly possessed it.

His death is a tragic loss to his family, our school system, students, friends, and likewise to the community, and to the teaching profession that he so loved... His place will be hard to fill as doubtless he was one of those rare species who realized he was working on the most important enterprise on Earth, the Youth of our Nation.

Orchids to Margaret Womble, local commercial teacher who answered the SOS call Wednesday to help in producing this week's paper, following the illness of Lou Ann Britton.

Although Miss Womble was busy unpacking and cleaning, she came down and didn't even look up until she had fully mastered the IBM typewriter and had it singing... she typed on until dark finishing the last minute details of getting all the late news in...

Mr. and Mrs. Ronnie Johnson and Melanie, Abilene visited their parents, the David Johnsons and Virgil Lewis's over the weekend and attended the wedding, Saturday night, of Evelyn Clayton and Lewis.

The infant daughter of Mr. and Mrs. Don DeHay was admitted to the Methodist Hospital in Lubbock last week, suffering from meningitis.

EARTH SPRINGLAKE

C. L. Berry Dies Wednesday, Funeral Rites Friday 2 P.M. In Baptist Church

Funeral services for C. L. Berry, 34 year old Junior High Principal of Springlake School will be at 2 P. M. Friday in the First Baptist Church of Earth.

Rev. Albert Lindley, Methodist pastor and Rev. M. B. Baldwin pastor of the Earth First Baptist Church will officiate.

Burial will be in the Earth Cemetery under the directions of Parson Funeral Home in Olton.

Berry died Wednesday at approximately 10 A. M. enroute to Methodist Hospital in Lubbock where he was being transferred by ambulance from the Littlefield Hospital Clinic following a weeks illness.

Upon admittance to the Littlefield Hospital last Wednesday it seemed he was suffering from a virus infection, Friday his condition worsened and his physician diagnosed his illness as encephalitis.

Mr. Berry moved to the community four years ago from

C. L. BERRY

Instead of floral contributions for C. L. Berry, there will be a living memorial fund for Mrs. Berry and children. This contribution can be left with Mrs. E. C. Hudson, The Earth News & Sun, or the pastor of each church.

Amherst and was named principal of the local Junior High School.

He was a member of the local First Methodist Church, a Cub Scoutmaster for three years, and was an official member of the Board of Boy Scouts. He was tremendously interested in Scouting as well as all activities in the schools.

He was responsible for starting the Junior High Honor Society at school. The death of Mr. Berry who was a devoted father, churchman and community leader was a tremendous shock to residents of the community, for with his passing, the citizens in the area not only lost their Junior High School principal they lost a leader who was a great asset to the School, Church, and the Community as a whole, as he was noted by the whole faculty and student body as "a students' good friend at all times."

Survivors include his wife, Mary, two sons, Michael, II, and Tim, two years old, one daughter, Cindy, age 9, his parents Mr. and Mrs. Charlie Berry, Floyada, one brother, Harold Berry, Amarillo, one sister, Mrs. Arminia Cain, Silverton, his grandmother, Mrs. W. J. Berry of Silverton and a host of friends.

The infant daughter of Mr. and Mrs. Don DeHay was admitted to the Methodist Hospital in Lubbock last week, suffering from meningitis.

Law Officers Crack Down On Violations

The local law officers are cracking down on traffic violators at a rapid pace, with eleven fines paid the past week in the city judge, and justice of the peace offices by violators.

City Judge, Ruby Anderson reports that six fines were paid in her office for reckless driving, driving without drivers license, parking at an intersection and other violations. One fine was paid for being drunk in public.

Four fines were paid in the justice of the peace office the past week, three for passing on the wrong side and one for indecent exposure in public.

The City, State and County law officials are on the lookout for any person, violating the traffic law in anyway, in an effort to eliminate so many needless accidents that occur due to carelessness on the drivers part.

No Injuries Sustained In Mishap Tuesday

An accident involving a 61 Chevrolet pick-up driven by Rueben Cano and a 55 Buick with John Gawne driving collided north of Earth, Tuesday morning at 5:30, resulted in approximately \$400 damages to both vehicles with no injuries sustained.

The mishap occurred when Gawne, headed west, turned south onto the highway, making a wide turn to the wrong side of the highway, into the path of the Cano pick-up. A ticket was issued to Gawne for driving on the wrong side of the highway by Deputy Sheriff, V. L. Smith, Jr. who investigated the accident.

Leo Parks Receives Severe Burns In Mishap

Two men narrowly escaped serious injury in a freak mishap at the Earth Elevator Saturday, as several people from the area were touring the recently completed structure.

The mishap occurred when Leo Park, one of the tourist had gone to the top of the elevator shaft on a hand operated man lift where he was joined by Don Smith, elevator employee who had taken a ladder to the top of the building to show people around. When the couple were ready to descend to the ground floor, Parks, thinking Smith would return down on the ladder as he had come up, stepped on the man lift simultaneously with Smith causing it to plunge approximately 40 feet to the bottom of the shaft. However the fast action of Parks managing to grab the ropes that hold the man lift intact before it reached the bottom somehow averted the severity of the fall.

Parks received severe rope burns on both hands and was treated at Dr. Holt's office. Smith received rope burns on his arm and a skinned hip.

The man lift is engineered to hold an approximate weight of 250 lbs.

District 3 A Newspapers To Sponsor Trophy

District 3 - A Coaches and newspaper publishers in the district met Saturday at 2 P. M. at the Wolverine Drive-In with representatives from each school in the district attending.

Purpose of the meeting was to discuss ways and means for improved relations between the papers and schools in the district which include Kress, Springlake, Hale Center, Sudan, and Farwell.

The five newspaper publishers present voted to sponsor a traveling trophy to be presented in the spring to the top school among the five schools in the 3-A District displaying the most outstanding achievements in all sports, including Football, Boy's & Girl's basketball, Track, and including Girls volleyball.

A point system will be used to denote the top school in each sport, and after totalling the points earned in each of the five sports, a school will be named to receive the honor. In case of a tie between two schools, they will have split possession of the trophy, each school will receive the trophy for only one semester.

Those present for the meeting were Sudan Beacon Publisher, Dalton Wood and Hank Brown, Coach; Hale Center American Publisher, Tom Bambo and Coach C. H. Keeton; Kress News Publisher, Bob Hamilton, and Coach Leo Fields; Farwell Tribune representative, Iris Goldsmith, and Coaches Demsey Alexander and Bill White; Earth News Publisher Ross Middleton and Coaches Jodie Mahan and Alvin Lynn.

September 2 First Day Of Springlake School

Welcome Tea Honors Ute Unger Sunday

Approximately 70 people registered Sunday at the Welcome Tea given in the lovely home of Mr. and Mrs. Cecil Slover, honoring Miss Ute Unger, the exchange student from West Germany, sponsored by the FHA department, assisted by the Earth and Springlake Lions Clubs.

Miss Unger arrived in Amarillo Thursday night, by train from New York, along with 13 other foreign exchange students who will reside with families over the surrounding area for the next nine months and attend the 63-64 school term.

The decorations in the Slover home carried out the FHA colors of red and white. The serving table was covered with a white linen cloth, centered with a beautiful arrangement of red and white roses. The white napkins were printed in red with "Welcome Ute".

Refreshments of frosted punch and assorted cookies were served to the guests attending by the FHA officers, assisted by Mrs. Slover.

Miss Unger was pleased and amazed that the tea was given in her honor, and that so many people were present to welcome her to the community.

Mrs. Slover stated that it is her desire that everyone in the community have the opportunity to meet Miss Unger during her stay here as this is the first time an exchange student has attended Springlake Schools.

Mrs. Minnie Price returned home Sunday night, after visiting in Wetumka, Oklahoma with her granddaughter, the Paul Dean Butlers, and attending the Clark family reunion in Snyder, Oklahoma, Mr. and Mrs. Larry Price and children and Mr. and Mrs. Bill Price attended the reunion, also.

TRUE FRIENDS AT FIRST SIGHT??? The radiant expressions on the faces of these two indicate it could be just that. Veteran Patients To Receive Home Nursing Facilities

The President has authorized the Veterans Administration to activate and operate facilities and beds to care for 2000 nursing home type veteran patients.

The authorization was reported last week by John S. Gleason, Jr., Administrator of Veterans Affairs, according to Robert W. Sisson, Manager of the Veterans Administration Regional Office in Lubbock.

Sisson said the 2000 nursing home beds would be operated in addition to the 125,000 hospital beds now authorized with in the VA medical system. The Presidential action, Sisson said, will greatly help in relieving the adverse effect on VA's acute medical programs by the influx of older veterans who now comprise one-third of all VA hospital admissions and who generally require long term care.

In his authorizing memorandum to the VA Administrator, the President said in part:

"The changing characteristics of our veteran population, particularly those who served during the First World War, are resulting in an adverse effect on the acute medical programs administered by the Veterans Administration. Nearly one million veterans are aged 70

and over. The number will increase 50% by 1966.

"Older veterans account for 1/3 of your hospital admissions and they comprise the bulk of the long-term care patient load. Many have attained maximum benefits of hospitalization but attempts at community placement have been unsuccessful because of the lack of facilities, inadequate financial resources, absence of family ties, and other reasons. Retention of these patients in facilities designed for acute care is costly and places an undue strain on the 125,000 hospital bed limit under which you are now operating."

The President directed that existing buildings best suited for this purpose and appropriately located throughout the country should be utilized, Sisson said. No construction, other than for necessary conversion of existing facilities was authorized.

This authorization is to enable the Veterans Administration to gain firsthand knowledge and experience in the operation of beds specifically designed for patients requiring attendant type services," the President's message said. "It will be possible to evaluate a full range of care from domiciliary through acute medical care, restoration centers and nursing home care where out-placement is not possible. I am sure that you will continue to work toward the development and utilization of community and private resources in the best interest of the veteran and the nation."

Preservatives Add Life To Your Home

For an extra \$2 to \$3 a year you can build a home that will outlive the mortgage and require little care, says Bill Smith, forester with the Texas Agricultural Extension Service.

By the use of preservatives, wood can be treated to protect it from insects and decay for 40 years or more while keeping repair and maintenance costs to a minimum, says Smith. A variety of good preservatives are available and all exterior woodwork and floor sills, beams and joists should be pressure treated to fully protect the structure, he says.

Most of these preserving materials are intended for a specific purpose, Smith explains. For example, penta with a water repellent additive, is a good preservative for exterior woodwork which will be exposed to heavy moisture. When penta is mixed with a light weight solvent like naphtha the surface can be painted, says the forester.

For sills and joists that will not be painted, creosote or penta can be mixed with oil, explains Smith. For wood that

will not be exposed to large amounts of moisture, certain water-borne preservatives can be used to leave the wood clean, odorless, and paintable he adds. Also, when replacing exterior wood or supporting members he advises using pressure-treated lumber.

The forester points out that wood can now be treated with a fire retardant, thus giving the home protection against fire as well as decay and insect damage.

Smith recommends using pressure preserved lumber where wood will be exposed to weather or near the ground. He says that most builders and lumber yards can obtain this lumber and the extra cost will be more than offset by the protection for the owner.

WYNNE CHESTER SAYS: Beware The Two-Edged Sword!

I've received quite a few letters commenting on my columns criticizing anti-gun laws, and most of them have backed my stand. I'm sorry to say, however, that many of those who disagree, though well-intentioned, are still blind to the dangers inherent in their own reasoning.

Article Two of the Bill of Rights states, "... the right of the people to bear arms shall not be infringed." Since the Bill of Rights also guarantees such basic rights as freedom of speech, worship and press, it is strikingly peculiar that a number of American citizens seem

Four Latin-Americans Held After Fight

Four Latin American men have been charged with assault and intent to murder, according to Deputy Sheriff, V. L. Smith, Jr., arresting officer and Clarence Hazlett, City Marshal, following their arrest Sunday, after an altercation on Earth's main street around 3 P. M.

Involved in the altercation were three brothers, Ramon Ruiz, Arturo Ruiz and Gustavo Ruiz, and a cousin, Felix Chavez, who were arrested after slashing and beating Albert Ramerz, climaxing a six month feud.

Ramerz was treated and released at Dr. Holt's office, where several stitches were needed to close knife wounds in his head and back. He also received several bruises and lacerations over other parts of his body.

The Ruiz brothers and Chavez were placed in the city jail overnight and were transferred to the county jail in Littlefield Monday where bond has been set at \$2,000 each.

15,000 TONS OF CORN SILAGE will be stored in this silo pit on the Hayden farm when cutting and grinding of the corn is completed within the next few days. One bulldozer and two tractors were in operation keeping the corn silage pushed in the pits that kept nine trucks busy hauling the silage from the field to the pit.

Mr. and Mrs. Raymond Mullinex and children are vacationing this week in Colorado.

Mr. and Mrs. Lewis Faver and children spent Sunday with the T. B. Dyers, in Springlake.

Only one winner has matched the tickets drawn at the Earth Gulf Station Saturday night to receive the free gasoline that is being given away by Wayne Jackson, station manager during the month of August.

Truman Layman had the lucky ticket for the 25 gallons of gasoline. The other two tickets drawn that the lucky ticket holders haven't matched are for 15 gallons, a green ticket, number F722084 and 10 gallons, white ticket, number 5384394.

The tickets are drawn at 10 P. M. on Saturday night and are posted in the Gulf Station window for the convenience of the ticket holders. Jackson reported that through August 21, the station was only 5,870 gallons short of their goal of 20,000 gallons of gasoline sales for the month of August. He also expresses his deep appreciation to those that have made gasoline purchases at his station to help make these record sales possible.

Job security is only one of the many benefits enjoyed by Texas Highway Patrolmen. Contact your local patrolman or the nearest Department of Public Safety office for special details.

Annual Boys Ranch Rodeo September 1-2

Two coveted titles will be at stake when the young contestants at Cal Farley's Boys Ranch hold their 19th Annual Boys Ranch Rodeo over the Labor Day weekend, September 1 and 2.

The top rider among the older boys will be named Senior All-Around Cowboy while the Junior All-Around Cowboy will be selected from among the younger boys, Dean Warren a former Liberal, Kansas boy, was named Junior All-Around Cowboy of the 1962 rodeo and will be riding for the senior title this year. He compiled a perfect score of 100 points last year.

Boys entered in the senior division of the rodeo will ride Brahma bulls and bucking broncs, while the smaller steers and calves are reserved for the younger riders. The contestants ride under R.C.A. rules on professional rodeo stock that is taken to the Ranch.

In addition to the color and excitement of the rodeo, an enlarged arena is expected to attract a record number of visitors. For the first time, reserved box seats will be available in addition to the elevated bleachers. The box seats are \$2.50 which includes the general admission charge and are being sold at Ranch headquarters in Amarillo. General admission tickets are \$1.75 for adults and 75¢ for children and servicemen in uniform.

At the present time, 312 boys from all over the nation are being cared for at the Ranch and those who do not ride as contestants will have some part in the rodeo. Proceeds will be used for the Ranch's expansion.

Rev. M. B. Baldwin, pastor of the Earth First Baptist Church held a revival last week at the nine mile Baptist Church west of Seminole.

O. D.'s Pump And Machine In New Location

O. D.'s Pump and Machine Shop moved in the building formerly occupied by the Earth Motor and Metal, across the street northwest of the Earth Gulf Station at Boston and Highway 70.

O. D. and Wayne Schellar, co-owners, recently purchased the building from Jesse Goode, who built the building last year to house the Earth Motor and Metal Company, a new business Goode had established.

The pump company was established in June, 1961, by Gene Brown and O. D. Schellar and prior to moving to its new location, the business was located in a building located on Brown-White Equipment lot west on Highway 70, where Schellar and Brown were partners in the firm until recently when Brown sold his interest in the business to the Schellars brothers.

O. D. and Wayne will guarantee their work as they have in the past, are dealers in new Peerless Pumps and will do a complete turn key job on all make of pumps.

The company will continue to do repair service on all cotton strippers as they have

in the past and are ready and eager to overhaul combines for the busy season ahead.

Assisting the Schellar boys will be Jackie Schellar, shopman and well man, Francis Kelley, helper and Mrs. O. D. Schellar, bookkeeper.

Interest Continues On Running Water Draw Project

As interest continues to rise in conjunction with the Running Water Draw Project, it is natural that everyone is interested in the progress of the project and the expected benefits of such a project.

Progress wise, the State Soil Conservation Board has set January 1, 1964 as the tentative date for a planning party to go to work on the Duck Creek Watershed Project, in Dickens County. It will take approximately 6 months to do the planning for this project. After this planning job is completed the Running Water Draw Project will be in good shape as far as getting this planning party, provided the trust fund can be completed.

If the trust fund is not completed by this time, it is very likely that it will be at least three years before another planning party will be available, because, the State Soil Conservation Board will meet in October, 1964, and set priorities for the next three years which in turn would delay the Running Water Draw Project for at least the three year period.

Another factor which could hold up the progress of this project would be the lack of applied conservation practices which are necessary to control siltation in the reservoir. Assistance both technical and monetary are available for applying conservation practices through the Soil Conser-

USDA Announces More New Developments In Cotton Research

As a part of the U. S. Department of Agriculture's utilization research effort to strengthen cotton's position in the highly competitive textile mill market, exploratory research to study the behavior of cotton fibers in high speed air will be conducted by General Applied Science Laboratories. Scientists believe this aero-dynamic approach offers much promise in opening, cleaning and cotton as it comes from the bale. Contract researchers will determine the airflow needed to separate cotton fibers and will study pressure, velocity, humidity, temperature and density.

A contract with Texas Woman's University will finance

vation Service, Agriculture Stabilization Conservation Service and the Farmers Home Administration.

Benefits which might be derived from such a project are numerous. One such benefit would be the control of erosion. In a one year period of moderate to heavy rains, enough topsoil may be lost from unprotected land that it will take "mother nature" a period of from 300 to 1000 years to replace the topsoil lost in one year. Ask yourself, Can I afford to lose topsoil at this rate? By maintaining the topsoil, you will most nearly maintain your crop yields thus stabilizing farm income.

After taking inventory to see if you can afford to lose topsoil at such a rate and you find that you can't, then NOW is the time to start applying the needed conservation practices on your farm.

research on applying chemicals to make cotton fabrics for outdoor use water repellent. The research workers will screen many water repellent compounds to determine which types offer the greatest promise for cotton fabrics to be used outdoors, where it is exposed to sunlight.

Textile mills are now evaluating a simple, inexpensive device that increases a carding machine's efficiency in removing trash from cotton to be spun. Scientists of the USDA's Agricultural Research Service developed the device which is a series of baffles that replace the cleaning knives normally used in cotton carding.

The device, called a fiber retriever, has been tested in four mills and they report that its use increased card cleaning by as much as 25 percent. Some 20 additional mills are now evaluating the unit.

In addition to trash removal, the retriever also removes a

high percentage of short, undeveloped fibers and decreases the loss of spinnable fibers. It also slightly improves uniform-

ity and appearance of the yarn. High speed production has no apparent adverse effect on its performance, the USDA said.

CORN SILAGE BY THE TONS is being hauled and packed this week into a silo pit 300 feet long and 60 feet wide on the Buford Hayden farm one-half mile south of Sunnyside. The operation began last week and there is approximately 120 acres of corn left in the fields on the Hayden farm to be cut and ground in preparation for the winter cattle feeding.

"Operation Motorcide" In Effect Over Labor Day

The director of the Texas Department of Public Safety announced this week an estimated 31 persons were killed in traffic crashes in Texas over the three-day Labor Day weekend, and called for "an all-out effort to prove the statistics are wrong."

Col. Homer Garrison Jr. pointed out that the estimate by the DPS Statistical Service is based on past experience, but added:

"There is always a chance that it can be proved too high if motorists will put forth a concerted effort to hold the line by driving within safe and legal limits and remaining especially alert to the added dangers of holiday travel."

To emphasize these hazards he said, "Operation Motorcide" will be placed in effect from 12:01 a.m. Saturday, August 31 through 11:59 p.m. Monday, September 2. During this period, all traffic fatalities on the streets and highways of the state will be tabulated and released three times daily to the public through the cooperation of the news media.

In addition, the Department of Public Safety will do every thing possible with the limited manpower available to stop

reckless and illegal driving on the highways, Garrison said. Officers from other DPS uniformed services will be assigned for the holiday period to Highway Patrol duty to add to the enforcement effort.

The DPS Director said Labor Day this year comes at a time when traffic tragedy for the year 1963 appears to be heading for an all-time high. He reported that more than 1,400 persons have been killed already this year for an increase of some eight percent, adding that if the trend continues the toll will exceed the high of 2,611 persons killed in 1956.

Garrison noted that several public and private agencies are carrying on programs to supplement the safety emphasis effort for the Labor Day Holiday. The Texas Safety Association will conduct a public information program stressing the need for courtesy and caution. TSA Vice-president W. F. (Bill) Leonard will coordinate the efforts of Junior Chambers of Commerce over the state in operating numerous "rest stops" for fatigued drivers to whom free coffee will be served. The Texas Association of Broadcasters will conduct a statewide

"Drive Lighted and Live" program in which appeals will be made to motorists to drive with their headlights on dim during the daylight hours to focus attention on the need for legal and safe driving.

The Texas Highway Department will carry on a continuing information and education program instructing drivers in freeway driving and the need for caution near highway construction areas.

And the Texas Council of Safety Supervisors and the Texas Motor Transportation will sponsor a fleet of 35 to 40 cars which will be used to assist stranded motorists over the state. This "Holiday Road Patrol" will be manned by the safety directors, safety superintendents and safety engineers of the trucking industry who comprise the membership of the Council. Its primary purpose is to help relieve highway patrolmen for enforcement work by aiding motorists in distress.

PUBLIC NOTICE

Proposed CONSTITUTIONAL AMENDMENT NUMBER THREE ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 9, 1963.

SENATE JOINT RESOLUTION NO. 29 proposing an amendment to Article XVI, Section 62 of the Constitution of Texas, by adding thereto a new subsection authorizing all political subdivisions of Jefferson County, Texas, to provide retirement, disability and death benefits for all appointive officers and employees of all political subdivisions within Jefferson County; providing for the necessary election, form of ballot, proclamation and publication.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 62 of Article XVI of the Constitution of the State of Texas, be amended by adding thereto a new subsection (e), reading as follows:

"(e) Each political subdivision within Jefferson County, Texas, shall have the right to provide for and administer a Retirement, Disability and Death Compensation Fund for all appointive officers and employees of all political subdivisions within Jefferson County, Texas; or said political subdivision may elect to join the County Retirement System of Jefferson County; provided that same is authorized by a majority vote of the qualified voters of such political subdivision and after such election has been advertised by being published in at least one (1) newspaper of general circulation in said county once each week for four (4) consecutive weeks; provided that the amount contributed by the said political subdivision to such fund shall at least equal the amount paid for the same purposes from the income of each such person and shall not exceed at any time seven and one-half per centum (7½%) of the compensation paid to each such person by the political subdivision.

"All funds provided for the compensation of each such person, or by the political subdivision of Jefferson County, Texas, for such Retirement, Disability and Death Compensation Fund, as are received by the political subdivision within said county, shall be invested in bonds of the United States, the State of Texas, or counties or cities of this state, or in bonds issued by any agency of the United States Government, the payment of the principal and interest on which is guaranteed by the United States, provided that a sufficient amount of said funds shall be kept on hand to be determined by the agency which may be provided by law to administer said fund; and providing that the recipients of benefits for said fund shall not be eligible for any other pension retirement fund or direct aid from the State of Texas, unless the fund, the creation of which is provided for herein, contributed by the political subdivision is released to the State of Texas as a condition to receiving such other pension aid."

Section 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this state at the General Election in November, 1964, at which election each ballot shall have printed thereon the following words:

"FOR the addition of subsection (e) to Section 62 of Article XVI of the Constitution, to authorize all political subdivisions within Jefferson County, Texas, to establish, after approval of its voters, a Retirement, Disability and Death Compensation Fund covering all appointive officers and employees of said political subdivisions."

"AGAINST the addition of subsection (e) to Section 62 of Article XVI of the Constitution, to authorize all political subdivisions within Jefferson County, Texas, to establish, after approval of its voters, a Retirement, Disability and Death Compensation Fund covering all appointive officers and employees of said political subdivisions."

Section 3. The Governor shall issue the necessary proclamation for said election to be held on the first Saturday after the first Monday in the month of November, 1963, and have notice of said proposed amendment and of said election published as required by the Constitution of Texas and laws of this state.

al subdivision within said county, shall be invested in bonds of the United States, the State of Texas, or counties or cities of this state, or in bonds issued by any agency of the United States Government, the payment of the principal and interest on which is guaranteed by the United States, provided that a sufficient amount of said funds shall be kept on hand to be determined by the agency which may be provided by law to administer said fund; and providing that the recipients of benefits for said fund shall not be eligible for any other pension retirement fund or direct aid from the State of Texas, unless the fund, the creation of which is provided for herein, contributed by the political subdivision is released to the State of Texas as a condition to receiving such other pension aid."

Section 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this state at the General Election in November, 1964, at which election each ballot shall have printed thereon the following words:

"FOR the addition of subsection (e) to Section 62 of Article XVI of the Constitution, to authorize all political subdivisions within Jefferson County, Texas, to establish, after approval of its voters, a Retirement, Disability and Death Compensation Fund covering all appointive officers and employees of said political subdivisions."

KILL Fleahopper SAVE Beneficial Insects

Dylox works hand-in-hand with nature . . . knocks out fleahopper and beet armyworm in a hurry. But, when used at proper recommended rates, Dylox does not sterilize your fields of all insects. It leaves beneficial predators and parasites in your cotton fields doing their natural work of suppressing harmful pests. They keep populations

down so you spray less often. You save on chemicals and labor. Control is better and costs are usually lower.

July Accidents Total Eighteen For Lamb County

The Texas Highway Patrol investigated 18 accidents on rural highways in Lamb County during the month of July, according to Sergeant D. D. Lawson Highway Patrol Supervisor of this area.

These wrecks accounted for nine persons injured and an estimated property damage of \$53,094.

The rural traffic accident summary for this county from January through July of 1963 shows a total of 62 crashes. As a result of these crashes there

Mrs. Johnny Truelock and Mrs. M. L. Green, Portales, N. Mexico, visited Sunday afternoon with Mrs. J. M. Truelock and Mrs. Mary Gilmore.

were four persons killed and 46 persons injured.

"There are many good jobs open in the Texas Highway Patrol for young men between 21 and 35 who would like to help prevent the tragic crashes and collisions that occur on the streets and highways," Sergeant Lawson said.

With the starting of school facing us in the next week or so the Sergeant reminds all motorists of the state law regulating traffic in regard to school buses. "The driver of a vehicle upon a highway outside the limits of any incorporated city or town upon meeting or overtaking from either direction any school bus which is stopped on the highway for the purpose of receiving or discharging any school children shall stop the vehicle immediately before passing the school bus, but may proceed past such school bus at a speed which is prudent, not exceeding 10 miles per hour, with due caution for the safety of such children."

"During the first six months

of this year, Texas had one person killed and 110 injured in accidents involving school buses." The Sergeant said, "This is tragic and useless. School buses are plainly marked and motorists know that they carry a priceless cargo-human lives."

Commenting on the upcoming Labor Day weekend facing Texas motorists, the veteran patrol supervisor said, "Many Texas families will take advantage of this last long summer weekend to take trips prior to the opening of school. As a result, traffic will be heavy and the possibilities of traffic crashes will be increased."

"Because this holiday is so much a family affair, more people will be occupying cars. Thus, any traffic accident might result in several casualties. This has been evidenced several times on Texas highways in recent weeks. During the 72 hour Labor Day weekend last year 24 crashes claimed the lives of 32 persons;
