nstrate the two most beautiful cars in merica to you! The fastest selling straight-eight in world, the Pontiac...or a reliable Buick. They're

in a contest to dope the results of ten football games to be played this week-end.

We name the teams. You figure the results. Hidden in the 10 advertisements on this page are the names of contest teams. Pick them out and give your estimate of the points difference in the score of each game. Total the difference in points for all ten games and name the winners in the blank shown here. Sign your name and address to this blank or one exactly similar. Place this in an envelope and mark it "Football Dope" then mail or bring it to the Herald office.

Answers to all 10 contests must be submitted but a "tie" may be so indicated in proper space. If any games are cancelled or postponed they will not be con-sidered and your estimate on such games will be substracted from your total without penalty.

To the best doper on the difference in points will go first prize. The next closest gets second, the next third. Entries Must Be In Herald Office By

Taking Black-Draught "I have used Black-Draught off and on for about three years," writes Mrs. Maud Van Deusen, of Collinsville, Okla. "I have had dissy spells and had taste in my mouth. My complexion would get muddy, and I would be 'all down and out." In such cases, I take a dose of Black-Draught every other night for about a week and it seems to clear me up and make me feel better in every way."

#### Apportionment And Tax Payment Bring **Teachers Salaries**

Due to receipt of the state ap-portionment, payment teachers of Big Spring schools were paid their ast month's salary. Through the mails Saturday and

Monday the state apportionment of 1.50 per capita was received so that it was not necessary to borrow more money to pay the teacher. Large corporations and also indi viduals paid the taxes and with the extended payment of the remainder of the borrowed, the pay checks were issued Monday morning. The apportionment amounted to \$2060. of Big Spring high school.

# GAS

# RATE

We are placing a new rate at your command. This rate was approved by the City Commission on September 26th. It has many redeeming features, or advantages, such as:

- 1. Enabling you to have a cozy, warm, comfortable home during the coldest weather at a minimum cost.
- 2. Enables you to use modern equipment to heat your home which insures you an even temperature which most consumers cannot obtain with the equipment now in use. The cost of gas under this rate for most heating requirements is around twenty cents per thousand which means a much lower fuel bill during the winter months,
- 3. It enables you to budget your gas bill, since on this rate you can estimate within a few cents exactly what your gas bill will be for each month in the year.
- 4. It prevents the large winter month bill, therefore avoiding much worry and discomfort.

This rate has meant a reduction of fifteen to twenty-five per cent to many who have elected it in other districts.

Let us explain this rate to you. It may mean a considerable saving, and a saving these days of reduced finances is something we all welcome.
