

★★★☆☆☆☆☆☆☆☆☆☆☆☆☆☆
NOSIN... With Polly
 ★★★★★★★★★★★★★★★★★★★★

We sure hated to leave Earth Thursday afternoon with the 50th Anniversary event coming up Saturday. However we had been selected as judges in the Oklahoma Better Newspaper contest, by the Oklahoma Press Association Manager Ben Blackstock, of Oklahoma City.

please observe and drive carefully as they approach the rural intersections. He said in many cases tall corn blocked the view of motorists, and could cause a collision if drivers were not alert.

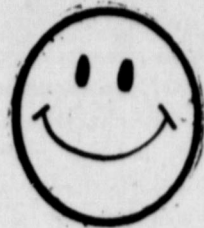

The event was set for Friday in the Ramada Inn near Love Field Airport. We had no idea those kind sweet folks in Oklahoma, would work us so hard. However, they gave us a desk and said "dig-in." We were glad to see our own Texas Press Association Manager, Lyndell Williams. He was formerly News Editor at Holdenville, Oklahoma years and years ago, a short time before Ross left there.

"NOSIN"
 Speaking of years, last week we ended our 20th year of Publication and begin a brand new year.

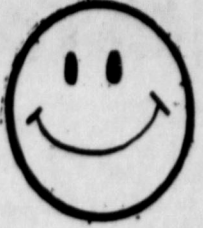

It is hard to believe 20 years has passed so speedily. However, we can tell, it requires more vitamins to hobble down the street, our eye sight 'aint so sharp anymore, and it takes more effort to "get going" each morning. Seriously though it's been a great 20 years, because we love and live among so many wonderful friends and neighbors.

Revival at Springlake Baptist September 1-8

The First Baptist Church of Springlake will be engaged in a Revival Meeting the week of September 1 through September 8. Services will be conducted each night at 8:00 p.m., except on Friday, when the time will be at 6:30 p.m., so as not to conflict with the first football game. Morning services will be at 10:30 a.m.

Sunday, September 8th, will be High Attendance Day in Sunday School. All the members and teachers will be working to get class members and visitors present for the revival's climax and closing with a high attendance.

The visiting preacher for the week will be Charles D. Vanderveck, pastor of the Richardson Heights Baptist Church of Richardson, Texas. Rev. Van-

derslice is the only pastor this church has ever had, having been there since its beginning in a tent in 1866. This church has grown to a membership of over 2,000 and is one of the fastest growing and larger churches in the Dallas area.

The visiting music director for the week is Jerry Hoover, the new Choir teacher at S-E Schools. Jerry has served as Minister of Music and Education of the First Baptist Church of Muleshoe for several years.

Nancy Hoover, Jerry's wife, will be the pianist for the revival. She is also a teacher in the local school.

Everyone is cordially invited to attend these special services. A nursery will be provided at each service.

50th Celebration Postponed Until September 7

Saturday, September 7 is the date set for the 50th Anniversary Celebration for the town of Earth. The original date for the celebration set for last Saturday, was postponed due to a soaking hard rain that continued to fall all day long.

Macky McCarty, President of the local Chamber of Commerce said, "Events have been rescheduled for Saturday, September 7. If it rains, we will move inside the F.F.A. show barn, and continue the celebration."

The free fish fry has been scheduled as a noon day event, instead of in the evening, as was previously planned. McCarty stated that various Dignitaries would be present for the event, but at Press time Wednesday a list of Dignitaries and rescheduling of events were not finalized. A meeting is set for 10 a.m. Friday morning to re-vamp plans.

Complete plans will be available in next week's issue.

ROAD UNDER WATER... A road under water is a sight that we in this area haven't seen in a long, long, time. This photo was taken Wednesday near Earth.

School Board Agenda

A called school board meeting has been scheduled at 10:00 Friday morning in the High School building. The Agenda is as follows:
 1. Approval of Bills
 2. Amend 1973-74 School Budget.
 3. Approval of Personnel

City Office to be Closed Monday

The City of Earth Business office will be closed Labor Day, the regular city meeting will be postponed until Tuesday at 8 p.m.

Absentee voting in the September 7 election will end on Tuesday, September 3. Anyone who will be out of town on Election Day is welcome to vote anytime during regular office hours.

The threesome voting for the position of city Alderman are: E. C. Kelly, Raeford Daniel Jr. and W. B. McMillan. Polls will be open on election day from 8 a.m. to 7 p.m.

Mothers, Grandmothers Wanted as Scout Leaders

This area will not be able to have a full girl scout program this year unless we recruit new leaders. Anyone with time on their hands and a love for the girls of our country is encouraged to be a leader.

Two days of training will be provided at Plainview, where you will meet with other adults of this area, to learn how to be a leader. Each troop will have two leaders and approximately ten girls.

Brownies are second and third grade girls and do not camp out. They study camping skills, hike, make crafts, study safety and have service projects. If you're an indoor type woman this is for you.

Junior Girl Scouts are fourth, fifth and sixth grade girls who really camp out, cook out and get with it. They study citizenship, have service projects, learn skills and crafts centered around the home and best of all go to Camp Rio Blanco at the end of the year. If you like camping, this is for you....

Consider the difference it might make in your life to have someone you love and commit yourself to live a little. We would like to encourage anyone interested in girls, especially grandmothers, to lead a girl scout troop. Contact Mrs. Doug Parish 257-3740 before September 3rd.

Pioneers Celebrate Silver Anniversary

Tuesday afternoon Lamb County Pioneers gathered in the Lamb County Community Center in Laguna Park in Littlefield to celebrate the 25th anniversary reunion of that organization.

Registration began at 2 p.m. with Hebert Dunn in charge, but Dunn had registration desks set up by about 1 p.m., to take care of those who wished to come early and visit.

The organization, founded July 17, 1949, is composed of persons who have resided in Lamb County 25 years or longer, and who have lived in Lamb County at least that long ago, not necessarily a continuous residency.

F. E. "Shorty" Yohner was presiding for this year's program while several others were in charge of the other phases of the reunion.

Yohner, besides serving as president, was chairman of the purchasing committee. A whole beef was served in a barbecue meal at 6 p.m., and a charge of \$1 per plate was assessed as persons got their plates.

Security State Bank of Littlefield donated the beef for the barbecue, and Littlefield Fro-

zen Food Center donated the processing.

A special feature for this year's program was a roll call of former students of the first school in Lamb County which was located two miles north and two miles west of Olton, and was formed before the county was officially established. Calling the roll was Mrs. Flora Besse Boone. All former students or descendants of those students were asked to be present to answer.

Gifts were given to the persons traveling the farthest distance to come to the reunion, and to the oldest man and oldest woman present who had not received the honor in recent years.

Other officers included Pearl

Brandon, vice president; Lyle Brandon, secretary; Bill Jeffries, treasurer; and Alice Willis, historian.

Directors besides those above mentioned officers are Myrtle Clayton of Springlake, Ray Smith and A. B. Brown of Spade, Laits Hair of Olton, and Fred Leitch and Buck Ross of Littlefield.

Committee chairmen were Bonnie Haberer, hospitality; Ray Smith, Program; Hebert Dunn, registration; A. B. Brown, Buck Phillips and Curtis Chisholm, tables and chairs; Mrs. V. M. Peterman, gifts; Joe Bitner, Kitchen supervisor; V. M. Peterman, beef; Joe Bitner, barbecue; and A. B. Brown, nominating committee.

Rain, Rain and More Rain

The water faucet in the sky must have been left open as rain has fallen almost every day this past week.

Saturday, folks in the area say was one of the hardest rains they had seen in many a moon. Earth was all set up for the 50th anniversary celebration of the town. However no one ventured outside for fear they would possibly float away. Actually, it wasn't that bad, but the celebration was postponed until Saturday, September 7.

Rain in varied amounts have been reported to have fallen since last Thursday.

Delvin Walden who lives near Springlake reported 5.15 inches of rain in his gauge this past week.

In the Dodd area, Forrest Collins reported approximately 7 1/2 inches, Mrs. Bonnie Haberer in the Pleasant Valley area reported 8 inches had fallen. Vic Coker totaled the amount in his gauge at approximately 10 inches.

Everyone in the area has agreed that for now, we have received enough rain for a day or two at least.

Middletons Selected as Judges of O.P.A. Contests

Mr. and Mrs. Ross Middleton were in Dallas this week end, where they were members of a 28 Judge team of Texas publishers, selected to judge the Oklahoma Better Newspaper Contests.

There were \$1,470, in cash awards, to winning daily and weekly newspapers, plus seven sweepstakes trophies. The Oklahoma Press Association has 7 events in each of the seven divisions. The judging was held at the Ramada Inn near Love Field in Dallas.

Mrs. Middleton was judge of feature stories for Division six and seven. Mr. Middleton was judge of the presswork, typography, and makeup for the weekly division of Oklahoma Newspapers.

Bea Blackstock, manager of the Oklahoma Press Association and Lyndell Williams, new Texas Press Association manager were present to explain various questions concerning qualifications of the contest.

Other judges included: Charles Borden, Longview-News-Journal, Longview; Fred Patterson, Denton Record-Chronicle, Denton; Don Coppedge, Waxahachie Aubrey McAlistet, Bonham Daily Favorite, Bonham; Robert B. Palmer, Jr., Mt. Pleasant Daily Tribune, Mt. Pleasant; Willis Webb, Conroe

Daily Courier, Conroe; Jerry Strader, McKinney Daily Courier, McKinney; Bill Rawland, Cleburne Times-Review, Cleburne; Ted Rickenbacher, Carrollton Chronicle, Carrollton; Jack Joyce, Gainesville Daily Register, Gainesville; Bill Campbell, Irving Daily News, Irving; F. W. Frailey, Sulphur Springs News-Telegram, Sulphur Springs; Buddy Camper, Allen American, Allen.

Other judges included: Jerry Hyde, Arlington Citizen-Journal, Arlington; Royce Brown, Duncanville Suburban, Duncanville; Juanita Taylor, Seguin Gazette, Seguin; Ralph Cole, Sanger Courier, Sanger; Tom Steely, Lamar County Echo, Paris; Donna Schabe, Minkoff News, Minkoff; Wayne Hutson, Burlington Star, Burlington; Norris Monroe, Lampasas Record, Lampasas; Bob Miller, Hamilton Herald-News, Hamilton; Frank Pardue, Alvarado Bulletin, Alvarado; John Taylor, Seguin Gazette, Seguin and Donald McDonald, Itasca Item, Itasca.

Mr. and Mrs. Middleton left Thursday afternoon and returned Sunday. The couple were guests of Mrs. Middleton's cousins Mr. and Mrs. Ernest Burdan and Mrs. R. R. Arnett of Ft. Worth.

Funeral Services for Local Resident Held Saturday

Services for John Wesley Moree, 80, were held at 4 p.m. Saturday in the First Baptist Church in Earth, with Rev. David Hartman, pastor officiating.

Burial was in the Earth Cemetery under direction of Parson Ellis-Singleton Funeral Home. Mr. Moree was an Earth resident for 30 years. He died at his home in Earth Thursday

afternoon. Survivors include a son, Hollis of Springlake; three daughters, Mrs. Helen Berry, Seminole; Mrs. Ethel Mae Spridge, Plainview and Mrs. Christine Pollan, Sulphur, Oklahoma; a sister, Mrs. Arthur Bales, Bonham; a brother, Mack of Honey Grove; 24 grandchildren and nine great-grandchildren.

Photo's Taken Today at Pay & Save

Today, is the day to get your picture taken, by expert photographers, right here in Earth. A place for photographing has been set up inside the Pay-N-Save Grocery for your convenience. You may purchase 9 wallet

size color portraits for 99¢. That's the best bargain you'll have, in an inflated era such as it is today. Raeford Daniel, manager of Pay-N-Save invites all his customers in to get photo's if you need them

SoRelle to be Honored Sunday

Tom SoRelle, Choir Director for the First Baptist Church in Earth, for the past two years will be honored Sunday night with a farwell party. The event is slated in the fellowship hall immediately following the evening services.

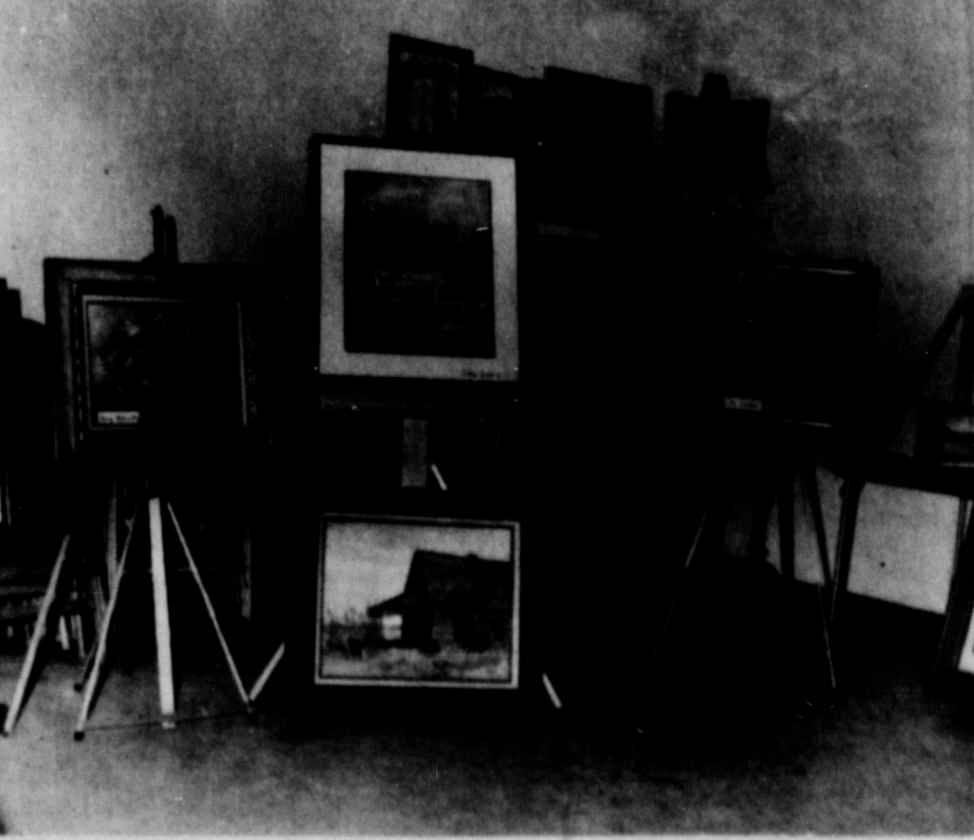

SoRelle who is currently serving as Band Director at Littlefield, will also serve as youth Director in the First Baptist Church in Littlefield.

SoRelle resigned his position as Music Director at the local Church here, Sunday night, making the effective date to be September 1.

BOOKMOBILE SCHEDULE

Thursday Sept. 5
 Springlake # 1 11:00 - 11:45
 Springlake # 2 12:00 - 1:00
 Earth 1:15 - 3:45
 Friday Sept. 6
 Pleasant Valley 10:00 - 11:00

W. C. Maxcey a patient in the hospital in Plainview is improving, and expected to be dismissed Friday.

ART EXHIBIT SET UP... Part of the art exhibit, in connection with the 50th Anniversary of the town, was set up and ready to be seen Saturday. However few folks braved the drenching rains to inspect the art work.

Father of S-E School Superintendent Dies Tuesday

Services for Oran R. Mann, 72, of 507 Fir St., Idalou will be at 4:30 p.m. Thursday in the Idalou Church of Christ, with Gary Fallas, minister officiating.

Burial will be in Idalou Cemetery, under direction of Sanders Funeral Home of Lubbock. Mann died at 10:20 a.m. Tuesday at University Hospital following a brief illness.

Formerly of Abilene, Mann had been a Idalou resident for the past 20 years. He was a retired ginner and a member of the Idalou Church of Christ. Survivors include his wife, Margaret; his son Bill of Earth his daughter, Mrs. Doris Fayo

of Odessa; four brothers, Darrell of Houston, Wayne of Ft. Worth, W. T. of Whitesboro and Weldon of California; five grandchildren and seven great-grandchildren.

ENCHILADA SUPPER SCHEDULED

The Springlake-Earth PTA has scheduled a Enchilada Supper for Friday, September 6, beginning at 6 p.m. in the Springlake-Earth school cafeteria. Proceeds from the supper will be used for the various projects of the local organization.

Wolverine Boosters Schedule Meeting For Tonight

The Springlake-Earth Wolverine Booster Club has scheduled a meeting for tonight, (Thursday, August 29) in the school cafeteria. Members of the junior high and high school football teams will be present. All mothers and fathers and others interested in the athletic program at school are urged to be present. The meeting is scheduled to begin at 7:30 p.m. Refreshments will be served.

ITS NICE TO BE REMEMBERED

BY DAVID HARTMAN

Last Sunday evening First Baptist Church, Earth, did something nice. They honored Frankie, Andy, Denise and I upon our fifth anniversary with them.

The Church Choir presented a program of music in our honor under the direction of Tom So-

Rele. I didn't even get to preach.

Following this we adjourned to the Fellowship Hall for ice cream and cake. In the center of the room was the strangest looking tree. It was all fruited

Allocation, Pricing of Unleaded Gasoline Report

DALLAS, TEXAS - Service stations throughout the Nation will be able to obtain both leaded and unleaded gasoline in their monthly allocation under a rule change being proposed by the Federal Energy Office, John C. Sawhill, Administrator, has announced.

"The proposed rule, which will be published in the Federal Register on May 30, would make it mandatory that suppliers make available unleaded gasoline to their wholesale purchasers, retail outlets and other purchasers regardless of whether the purchasers had been supplied with unleaded product previously," Sawhill said.

The FEO Administrator also announced a temporary ruling on the pricing of unleaded gasoline for the month of June and has invited comments on a final pricing of the unleaded product. The proposed price is essentially the same as the price for premium gasoline.

Refiners that did not produce unleaded gasoline prior to May 15, 1973, are to use as the maximum price used for the production of premium gasoline. Retailers will also use the price they charge for premium fuel as their pricing guide for unleaded gasoline. In time most gasoline refineries will probably eliminate the addition of lead to the gasoline refining process.

Under the proposed rule, wholesale purchasers and retail outlets would have the option of refusing unleaded gasoline. The percentage of unleaded gasoline offered by the supplier to his customers would reflect the exact proportion of his total leaded and unleaded product.

"Any amount of unleaded gasoline refused by a wholesaler or dealer would then be apportioned among the supplier's customers who wanted more unleaded

up with money. I took a cutting home. I'm going to see if it will grow in my garden.

"What was going on behind the scenes was a well kept secret. We didn't know anything about it until the choir took over during the Sunday evening worship service.

Being Pastor of First Baptist Church and living in this community the past five years has been a very rewarding experience. I trust how ever long we are permitted to serve here will be even more rewarding.

To sum up-it's nice to be remembered. Thanks, First Baptist Church, for not forgetting.

product than was offered to them," Sawhill added. "However, under no circumstances would the total amount of leaded and unleaded gasoline allocated to the station exceed the total gasoline allocation for that month."

Comments on the proposed rulemaking should be submitted in writing to: Executive Secretary, Federal Energy Office, Box A-1, Washington, D. C. 20461. All comments received by June 10 will be considered in the final rulemaking.

SHOULD FURNITURE BE POSITIONED STRAIGHT OR ON A DIAGONAL?

People often ask if they should put their furniture parallel to a wall—or whether it's all right to place some furniture diagonally.

Generally speaking, a room usually looks better if the big pieces run parallel to a wall. This seems to create more unity. It is more pleasing to the eye and is often more practical. However, like most rules of decorating, there can be exceptions based on personal preference or specific room situations, so there are times when major pieces could be placed diagonally, but most decorators prefer parallel placement in the majority of cases for the big pieces.

Small pieces, on the other hand, may often be turned at an angle to a larger piece. By doing this you can break up an overabundance of straight lines in a room and give a room more interest and convenience.

Another thing to consider is that even though you are placing a big piece, such as a sofa, parallel to a wall, the sofa doesn't necessarily have to cling to the wall. You might want to try floating it—letting it stand free in the room—and still keep its lines parallel to a wall even though it is not close against that wall.

Whatever your preferences are, remember that we can help you select beautiful furniture—and give you ideas on how to place your furniture in the most beautiful way, too. Stop in.

Fresh Concrete Needs Hot Weather

Concrete is poured in hot weather, but special care is needed to cure it properly under high temperatures. Proper curing is the prevention of moisture loss from the concrete during the early stages of hardening.

"The main precaution is to prevent rapid evaporation of water from the concrete," points out W.S. Allen, agricultural engineer for the Texas Agricultural Extension Service at Texas A&M University. "Strong winds intensify evaporation, so great care is especially necessary on hot, windy days."

When concrete is first placed, it is plastic and workable for a short time. However, the mix begins to stiffen or set as a chemical reaction called hydration takes place with the water. This reaction continues as long as the concrete is moist.

"By retaining water in the mix, the concrete can be properly cured, giving it increased strength and resistance to freezing and thawing, water and wear," points out Allen. "A curing time of about seven days is recommended."

Rapid drying sometimes reduces the strength of concrete or causes crazing.

Allen suggests several methods for retaining moisture in newly placed concrete. A common way is to cover the concrete with burlap, sand or some other material that can be kept wet for the required time. "Ponding water on a slab also works if care is used to keep the water from evaporating. Or the concrete can be covered with plastic film waterproof kraft paper or other watertight cover to seal in the mixing water."

Commercial curing compounds are often used, added the engineer. These are sprayed on fresh concrete and form a plastic film which seals in the water. The film eventually wears off.

"Although curing is one of the most important steps in making strong, durable concrete around the farm or home, it is probably the most overlooked step in construction," notes Allen.

Some people believe that hens roosting early presages good weather.

Food Demands mean full Farm Production

An increasing world population, prosperity and devaluation of the dollar have all combined to increase the demand for American food, says a marketing specialist for the Texas Agricultural Extension Service.

"World population is now about 3.7 billion and projected to increase to about seven billion within the next 25 years," says Charles Baker.

Increased wages have spurred the demand for top quality food. People want to eat more and higher quality protein, particularly meat, milk and eggs. And more farming resources are required to produce animal protein. It takes three pounds of grain to produce a pound of broiler, five pounds to produce a pound of pork and seven pounds to produce a pound of beef.

In response, government restrictions have been lifted and eight million more acres were planted in 1974—800,000 more in Texas. Still, there are some limits on farmers that consumers should be aware of, points out the Texas A&M University System specialist.

"Although millions of acres are being added to our total cropland, there is physical limitation on our best land. It takes time to bring marginal acres to higher standards.

"Also, expansion requires investments in farm buildings, new livestock production systems, equipment, animals, feed, fertilizer and seed. These and other inputs, including gas and diesel fuel, may not be readily available in the quantities needed for full production."

Water is a major limiting factor, says Baker. Land can't be developed if it lacks a water supply. Irrigation is often a practical alternative, but an irrigation system requires a sizable capital expenditure and time for installation.

A shortage of machinery, fuel, fertilizers, pesticides, herbicides and other farm inputs and service can limit agricultural production. Environmental constraints may also cut production.

"A continuous and vigorous research program is essential to help farmers produce at a high level and compete in world markets," contends Baker. "It inevitably translates to con-

sumer benefits in terms of essential farm inputs and free-variety, improve quality and lower cost. Work to reach full food production for everyone's benefit."

Lamb County has 36% of Bonds Sales Goal

Series E and H United States Savings Bond sales in Lamb County during the month of July totaled \$5680, according to County Bond Chairman James T. Lee. Sales for the seven-month period were \$46,618 for 36% of the 1974 sales goal of \$130,000.

month amounted to \$19,640,596, while sales for the same period last year totaled \$17,185,499—an increase of 14%. Year-to-date sales amounted to \$136,083,685 with 57% of the yearly sales goal of \$236.8 Million achieved.

Olton Parents Seeking Revision Of Hair Rule

OLTON (Special) Eight adults were appointed to a special committee Thursday night August 22, which will take before the school board complaints that the dress code in Olton High School is unfair.

The action came after 60 male students were sent home earlier Thursday, the first day of school, because their hair was too long.

The committee was appointed by a group of approximately 100 parents who met to discuss the issue. Included in the group were some of the parents of suspended students.

School principal Robert Sivley told approximately 60 boys their hair did not meet standards. By the end of the day, all but 25 of the boys had returned, he said.

The school board established the dress code several years ago. It requires male students to cut their hair above the ears, collar and eyebrows.

Following the 90 minute meeting, eight parents were appointed to meet Friday August 23, with Supt. Joe Turner and discuss the hair situation.

Daniel Rey was appointed to chair the committee, which includes Bill Gary, J.L. Snider, Mrs. Hoyt Taylor, Pablo Almonaz, William DeBerry, Ralph Contreras and R. V. Alicorn.

The group will ask Turner that all the boys in question be readmitted to school immediately, pending settlement of all grievances.

"They want to avoid the student penalty of deducting five points from their grade each day they are absent," said one parent.

The committee also decided to request that Turner set up a meeting with the school board immediately if possible to discuss the school dress code.

A spokesman said the group will support a more liberalized code, one following that suggested earlier this summer by student council representatives and turned down by school trustees.

Students petitioned the board to change the rule during the summer, but the board maintained the code as it was.

Asked whether the school board would consider the hair issue, Collins, said, "We will listen to the pros and cons, but we will make a decision that suits our city and what is best for the kids in our community.

The latest report on the situation was that most, if not all the students were back in school. As to which side was swayed, perhaps both sides decided to give a little.

Home Canning Recipes

Home canning can be a highly rewarding experience... economically, creatively and personally satisfying. When the jars of fresh fruits and vegetables you have "put up" are lined up on the shelf or in the freezer you have meal after meal all ready to heat or chill and serve. The foods are there, at your fingertips to prepare for your family, or friends or to give as special gifts.

I have had several requests for recipes requiring little or no sugar. I have selected the following recipes to share with you.

TO CAN WITHOUT SUGAR

Use fully ripe, but not soft-ripe fruit. Prepare fruit for canning. Then add a little water and cook the fruit until it is boiling hot. Pack, hot, into hot jars. If needed, add boiling water to cover. Adjust caps and process in a water-bath canner for the recommended time for fruit being canned.

FRESH-PACK DILL PICKLES
Yield: 7 quarts
Cucumbers, 3 to 5 inches in length, packed 7 to 10 per quart jar = 17 to 18 lbs. 5-percent brine (3/4 cup pure granulated salt per gal. of water) = about 2 gal.
Vinegar-----6 cups (1 1/2 quarts)
Salt, pure granulated----3/4 cup
Sugar-----1/2 cup
Water-----9 cups (2 1/4 quarts)
Whole mixed pickling spice--2 tablespoons
Whole mustard seed-----2 teaspoons per quart jar
Garlic, if desired-----1 or 2 cloves per quart jar
Dill plant, fresh or dried----3 heads per quart jar or
Dill Seed-----1 tablespoon per quart jar
Wash cucumbers thoroughly; scrub with vegetable brush; drain. Cover with the 5-percent brine (3/4 cup salt per gallon of water). Let set overnight; drain.
Combine vinegar, salt, sugar, water, and mixed pickling spices that are tied in a clean, thin, white cloth; heat to boiling. Pack cucumbers into clean, hot quart jars. Add mustard seed, dill plant or seed, and garlic into each jar, cover with boiling liquid to within 1/2 inch of the top of the jar. Adjust the jar lids.
Process in boiling water for 20 minutes (start to count the processing time as soon as hot jars are placed into the actively boiling water).
Remove jars and complete seals if necessary. Set jars upright, several inches apart, on a wire rack to cool.

11 Earth Students Make TT Honor Roll

LUBBOCK, Texas--A total of 11 Texas Tech University students from Earth, were recognized for academic achievement during the spring semester and were listed on the deans' honor rolls.

To qualify for the recognition, students must achieve a grade average of 3.0 on a 4 point scale.

Included on the honor rolls were: Craig Barton, Welda Barton, Steve Busby, and Johnny Kelly all studying agriculture. In Arts and Science, Suzanne Hite and James L. Littleton were Honor Students. In Home Economics, Becky G. Littleton, and in Education Karen J. Armstrong, Mrs. Carrissa (Dent) Cleavinger, Roberta A. Gaston and Susan G. Wages.

Approximately 21,500 students are enrolled in the six colleges and two schools at the university: Agricultural Sciences, Arts and Sciences, Business Administration, Education, Engineering, and Home Economics and the Graduate School and the School of Law. Texas Tech is one of the major universities in the state and third largest in enrollment.

Some Do's and Don'ts for Texas Water Skiers

AUSTIN -- "Is this someone's idea of fun?" you might ask yourself when you're up to your neck in water, looking at the rear of a boat that's going to try to pull your arms out of their sockets.

Judging from the Fourth of July crowds on Texas' lakes, the answer to that question must be "yes." Texans do love to water ski.

Unfortunately, says the Texas Parks and Wildlife Department's water safety section, this love is often blind where common sense is concerned, so they offer a few do's and don'ts for water skiers.

Do have two persons on board when pulling a skier, one to run the boat, and one to act as an observer to relay information from the skier to the skipper. Although this isn't a state law in Texas it is a good idea. State law does require a rear-view mirror when you are pulling a skier.

Do stay clear of solid objects such as docks, rocks and trees. They can slow a skier down in a hurry. Also, stay clear of swimmers, fishermen and buoys. Do water ski parallel to the shore, and remember to come in slowly when landing.

Do know water-ski signals and use them. Douse a boarding ladder when you finish skiing, and make sure the boat operator stops the motor before taking on any skiers or swimmers.

Do hold up a ski if you fall in a heavy boat traffic area. Don't jump from the boat while it is underway. Don't holler "hit it" while there is still slack in the tow rope. Don't wrap a ski rope around any part of your body. Don't ski in shallow water. Don't ski directly in front of another boat.

Don't ski at night. Water skiing safety literature is available free from the Texas Parks and Wildlife Department, Water Safety Section, John H. Reagan Building, Austin, Texas 78701.

Summer starting time is 8:00 p.m.

Tom SoRelle Resigns as Music Director

Tom SoRelle presented his resignation as Music Director of First Baptist Church, Earth last Sunday morning. The resignation will become effective at the close of the evening worship service September 1.

Mr. SoRelle will assume responsibilities in the area of music with the youth of First Baptist Church, Littlefield, September 8th.

Following the evening service next Sunday there will be a church wide fellowship for Mr. and Mrs. SoRelle, Jeffy and Andy.

PARTY LINE

Glen Branscum is expected to come home for a week before his surgery which is scheduled in Mid-September.

Yolanda Ballesteros, her son Ricky and her fiance Noel Scott spend a few days in the home of Mr. and Mrs. Garland Stovall. Yolanda Ballesteros is the daughter of Mrs. Garland Stovall.

How to Spot a Fad Diet

COLLEGE STATION--Fad diets are rampant, costing Americans more than \$100 million annually for reducing aids, including pills, books, special clothing, diet foods and drinks, according to one food and nutrition specialist.

Sally Springer, with the Texas Agricultural Extension Service, the Texas A&M University System, noted that these fad diets may be harmful to health, and weight loss often isn't permanent.

"Fad diets severely limit food choice, often emphasizing only one or two foods. Nutritionally balanced diets include a variety of foods, giving the dieter a chance to eat foods he likes."

Common fad diets suggest alterations in the protein, carbohydrate or fat intake. But all these nutrients are necessary for good health. Severe restrictions of any one may cause undesirable metabolic changes in the body, the specialist continued.

However, excess amounts of any of these energy nutrients convert to fat if a person eats more calories than his body needs for energy, she explained.

"Weight loss on fad diets is often more than five pounds a week. Losing two pounds each week is the normal suggestion from most physicians and nutritionists. This helps the body adjust slowly and gives the dieter time to change his eating habits so the weight loss will be permanent."

CHOW-CHOW RELISH

1 peck of 12 1/2 pounds green tomatoes
8 large onions
10 sweet green peppers
3 tablespoons salt
6 small hot peppers, chopped
4 cups vinegar
1 3/4 cups sugar
3 tablespoons salt
4 tablespoons dry mustard
3 tablespoons celery seed
2 teaspoons turmeric
2 teaspoons mustard seed
Chop tomatoes, onions and sweet green peppers, and sprinkle with salt. Let stand 4 to 6 hours in cool place. Drain well; add hot peppers, vinegar, sugar, salt, and spices tied in thin cloth bag. Boil 15 minutes. Remove

Isobel Graham, Jerry Barden United in Ceremony

A pair of candelabra entwined with jade foliage and urns filled with fan shaped arrangements of multi-colored gladiolus graced the sanctuary of the First United Methodist Church Saturday for the wedding of Isobel Mays McFarland Graham and Jerry Lynn Barden. Dr. Timothy W. Guthrie officiated for the double ring ceremony.

Parents of the bride are Mr. and Mrs. D. J. McFarland 2008 Sinclair St. The bridegroom is the son of Mr. and Mrs. J. D. Barden of Springlake.

Escorted to the altar and presented in marriage by her father, the bride was gowned in silk peau de soie with an A-line skirt and a self bow in back with streamers. The molded bodice of re-embroidered Alencon lace featured a Mandarin collar and cap sleeves. Her caplet headpiece matched her dress. She carried a cascade of white Cattleya orchids with stepanotis and baby's breath atop a white pearl covered Bible.

Louise McFarland served her sister as maid of honor, other attendants were Dawn Barden, Springlake, cousin of the bridegroom, Mrs. John Woodside of Midland, sister of the bride and Mrs. Claude Wynn of Houston, also a sister of the bride.

Greg Smith of Olton was best man, Ushers were Brad Barden, brother of the bridegroom, Roger Williams of Muleshoe and Brian Sanderson of Springlake, Kelly Barnes of Midland, Kent Coker of Springlake and Steve Sanderson of Lubbock served as groomsmen, Joe Riley of Lubbock was bearer of the rings.

Bridal attendants wore identically styled gowns of organza. Two were light pink with floral print of shocking pink, blue and orange and two were of light blue with royal blue, green and lavender. The fitted bodices were designed with a set-in midriff and a flared skirt with a ruffle. They wore matching headpieces and carried multicolored nosegays with floorlength streamers.

A reception was held in Ranchland Hills Country Club, Margaret Wallace, Barbara Bachman, Jeanne Battle, Mrs.

MRS. JERRY LYNN BARDEN
(Nee Isobel Graham)

Bill Seitzer, Mrs. Gene McDaniels, Petie Jonsson, Mrs. Garry Rea, Mrs. James Borron, Mrs. Charles Cerf, Mrs. William Bachman, Mrs. J. C. McFarland, Mrs. Dalton Cobb, Mrs. Bruce Sullivan, Mrs. Sam Barden and Carrie and Jill Barden were included in the house

party. Both attended Texas Tech University. Barden is a member of Alpha Tau Omega fraternity. The couple will reside in Lubbock after a wedding trip to Six Flags Over Texas.

the T O P S prayer. Members present for the meeting were: Mrs. Elaine Been, Mrs. Emily Clayton, Mrs. Edith Crawford, Mrs. Florence Gover, Mrs. Inez Inglis, Mrs. Oma Pearl Murrell, Mrs. Vesta Perkins, and Mrs. Louise Robinson.

TOPS Club Changes Meeting Time

Members of the Springlake-Earth T O P S club met Thursday, August 22 in the city Hall in Springlake.

The meeting was opened by Mrs. Oma Pearl Murrell, who led in the pledge.

The roll call was answered with 8 members present.

The group voted to change regular meeting time to 5 p.m. Wednesday at the Springlake City Hall.

Mrs. Emily Clayton received the grab bag gift, Mrs. Louise Robinson was Queen of the week with the most weight lost.

The meeting was closed with

Notice

If there is anyone who has ordered Band Calendars, and have not received them as yet, are asked to call Mrs. Dwayne Jones or Mrs. Pete O'Hair. The twosome also have some extra calendars for those wishing to buy them.

You are invited to a Wedding Shower honoring Mrs. David Hawkins, the former Janis Miller, on Saturday, September 7 in the Church of Christ Fellowship Hall. Hours are from 3 to 4:30 p.m.

Anyone wishing to be hostess may call Shirley Sigman 257-3313 or Vera Martin at 257-3353.

Hartman Family Honored on Anniversary

Rev. and Mrs. David Hartman and family were honored Sunday night with a surprise 5th anniversary celebration marking five years of service to the community as Pastor of the First Baptist Church in Earth. Following regular song services led by Tom SoRelle, Choir Director, Mrs. Marvin Sanders arose to take over the "Sermon in Song" planned by a group of church members. Mrs. Sanders began narrating the service with "Four Score and Five years ago there came to our community the David Hartman Family, Rev. Hartman who was prepared to preach the evening service was asked to join his family, and thus the program began, with the Hart-

man family unaware of the event.

The choir sang three special songs, "The King is Coming, Surely Goodness and Mercy, and The Sweet, Sweet, Spirit". Other specials included "The Cross made the difference", by Harshal Hulcy. Mrs. Jimmy Craft sang, "Grace so Amazing". The service was concluded by Mrs. Clarence Kelly and Marvin Sanders singing a duet entitled "Without Him."

An hour of fellowship followed with cake, ice cream, punch, cookies and coffee served. The family was presented a money tree, to in part show love and appreciation for their five years of service here.

Methodist Youth has

"Kidnap Breakfast" Sunday

Last Sunday morning, August 25th, the youth of Earth United Methodist Church had a "Kidnap Breakfast" being served in the church dining hall. Some twenty youth were served by their sponsors, Mr. and Mrs. Ricky Byers, after having been roused from their beds in the surprise invasion of their homes. Those present at the "Kidnap Breakfast" were: Pam Ott, Brene Below, Alayne Slover, Clint Dawson, Tommy Graham,

DeLo White, Bryan Taylor, Dyke Gaston, Debbie Daniel, Donna Daniel, Craig Holland, Pam Holland, Fonda Goodwin, Gena Wisian, L'Anna Sulcer, Kim Jones, Camille Hinchliffe, Melissa Been, Terri Tina White, Cliff Wood and the sponsors, Mr. and Mrs. Ricky Byers. Guests were: Junior Holland and Micky Brantley.

EARTH

Earth OES Honors Founder

A program in memory of Dr. Rob Morris, Master Builder of the Order of Eastern Star, was presented Monday, August 26, at the regular meeting of Earth Chapter O. E. S., No. 870. Donald Howell, Worthy Patron, gave the history of the order and work of Dr. Morris in planning the Eastern Star Chapters. Dr. Morris traveled extensively in foreign countries, he spent nearly a year in the Holy Land. He organized the first Masonic Lodge in Jerusalem. He was an author of great ability. The crowning event in the career of this remarkable man occurred in 1884 when over five hundred thousand Master Masons throughout the world expressed their desire that he be crowned with the laurel wreath symbol-

izing Poet Laureate of Masonry. His life was devoted to the uplifting of humanity. Dr. Morris was generous, tender of heart and loving in disposition. He was happiest when sharing with others that which the Lord had bestowed upon him. Mrs. Donald Howell gave a beautiful poem written by Dr. Morris. The hall was decorated with pots of white lilies. Mrs. Don McInroe Worthy Matron presided at the meeting. Mrs. John L. Murrell member of the Star Visitation Committee of the Grand Chapter of Texas O. E. S., and R. W. Fanning District Deputy Grand Master of the Grand Lodge of Texas Masonic Lodge were presented and welcomed to the meeting.

The Springlake-Earth teachers attending were extended a special welcome by the Worthy Matron, Mrs. McInroe. The worthy Grand Mstron, Mrs. Thelma Joyce Alsop and Grand Worthy Patron, Paul Huffines of the Grand Chapter of Texas O. E. S., sent greetings to the Chapter members. Their scripture for the month was Psalms 145: 14-16. Plans were made for Friendship night and Salad supper September 23 at 6:30 p. m. at the Mysonic Lodge. Ice cream and cake was served in the dining room by Mrs. Donald Howell and Mrs. A. E. O'Hair.

The Old Timer

"Saving is simple . . . just make more money than your family can spend."

BOOTS WERE NEEDED. . . To get in the back door of the News office. This photo was taken Wednesday afternoon.

Love is Not Blind

Love is not blind, as the old saying goes--it's bright-eyed and alert, one family life education specialist contends. "Love is a significant link in welding families together and providing inner strength," Dr. Jennie Kitching, with the Texas Agricultural Extension Service, The Texas A&M University System, said this week. Love provides the vision to perceive the needs of others. Probably no other element in human relations can provide greater binding strength to sustain the family unit. "People have asked why so many families are falling apart if love provides such qualities of strength," the specialist said. There is much evidence that love is a confusing concept, she continued. Couples are marrying with degrees of commitment to each other. When difficulties arise, one may hear, "I don't love you anymore." "Part of the underlying problem is the powerful emotional presentation of heterosexual attraction and its impact on people in forming their concepts about love. "We tend to confuse heterosexual attraction and love. While these qualities are interrelated,

they are not the same thing. Heterosexual attraction is only one part of the 'love' that makes up a marriage relationship," she explained. Repeated testimonies of couples when they find that they are not compatible recite, "I no longer love you. I love somebody else." "But the real question is whether love is a factor at all. Was there ever an intense love relationship? Has their relationship been based on misconceptions about love?" Dr. Kitching pointed out. So much confusion exists about a potentially great human experience that many persons have found it hard to build a desirable love relationship. "Love is a powerfully strengthening influence. It provides internal strength within a family that can weld the unit into solidarity of purpose, goals and action. "Love desires to see others achieve their goals. It seeks the utmost good--love adds quality to life," the specialist continued. Love says, "I like you. I am concerned about you. I want to share and give of myself to help you reach your potential."

Fashion's most Versatile, The Scarf

Scarfes contribute to the total look for every woman's wardrobe and often provide just the right finishing touch, according to one authority. She's Marilyn Brown, clothing specialist, Texas Agricultural Extension Service, The Texas A&M University System. "Fabric choices can run from fine cottons to handsome heavy silks--and don't overlook the calico print," Miss Brown said. Scarfes can be worn many striking ways. The specialist suggested a new look for an old trick is the head scarf worn as a basic wrap tied in back, as a cloche or with the look of the '20's. Neck scarfes can be supplements or substitutes for jewelry.

Predicting scarf fashions for the next season, Miss Brown said pussycat bows will gain popularity. Also scarfes wrapped and tied close to the neck or tied like a cowboy kerchief will be featured. "Other uses for scarfes include halter tops, trim on summer straw hats, colorful additions tied to a purse handle, and even as belts." Scarfes are economical to make and require only simple sewing techniques. Leftover pieces of fabric are perfect to sew scarfes which can be made from a number of different fabrics in many sizes, the specialist suggested.

Methodist Youth Fellowship Entertained at Parsonage

The Earth United Methodist Youth Fellowship met for their regular Sunday Evening meeting, Sunday evening at 6:00 p. m., then attended the Evening Worship Service, and then were entertained at the parsonage by Rev. and Mrs. Walter G. White. After introductions were made by a game, other games were played and refreshments served.

Those attending were: Dickie Brown, Pam Ott, Brene Belew, Royce Jordan, Alayne Slover, Tommy Graham, Delo White, Craig Holland, Fonda Goodwin Gena Wisian, Kim Jones, Melissa Bean, Terri Tina White, Micky Brantley, Cliff Wood, Mr. and Mrs. Duane Jones, Mr. and Mrs. William Holland, Mr. and Mrs. Ricky Byers, and Rev. and Mrs. Walter G. White and Pam Holland.

My Neighbors

"Say something nice about her work . . . how it makes such attractive scrap or like that . . ."

I want to thank all my friends, neighbors and loved ones for all the kind deeds that you did for Kate while she was in the hospital especially for your prayers. May God bless you all. Hershel Patterson

Methodist Jr Hi Class has Pizza Party

The Earth United Methodist Jr. Hi. Church School Class entertained with a Pizza Party in the Wolverine dining room Sunday August 25th. Members of the class who are freshmen were the honored guests. They are Brene Belew, Alayne Slover, Pam Ott, Clint Dawson, Tommy Graham and Dee White. Those helping with the hospitalities were: Doniece Taylor, Elaine Bils, Laurinda Bulls and Ronie Lewis. Phil Phiefer of New Home was a guest. The banquet table was decorated with multi-colored fall flowers and leaves, centered with a candle arrangement.

Get Rich Quick Job, Sometime Deceptive

AUSTIN---If you're looking through the classified section of your newspaper, sooner or later you're sure to run across an ad that reads something like this: "Business opportunity! New firm expanding into this area needs distributor for national product. No selling required. Earn \$20,000 a year working part-time! Proven investment returns. Call Mr. Wonder." If you respond to this or similar ads, there's a chance you could become the object of a misleading sales pitch for a less-than-profitable distributorship. The sales routine for such a deceptive offer generally follows this pattern: Mr. Wonder comes to your house or sends a sales representative to explain the distributorship investment opportunity. The product to be distributed may be anything from film to children's books to vending machines that dispense freeze-

LAKE GROWS... The lake located on the John Bridges Property was dry, that is until the rains came. Now the lake has spread over much of the dry parched lake bottom.

their investment. And often the people who buy such distributorships can ill afford to lose their money. Typically, most sellers of misleading distributorships aim their pitches at retired military persons, people with hard-earned savings to invest, or those who have to borrow the necessary money.

The Attorney General's Consumer Protection attorneys advise taking these precautions before investing any money in the company.

*Find out who the principal investors are in the company.

*Ask for a list of other investors and contact them to learn what experiences they have had in dealing with the company.

*Don't rely on the representations made to you by salesmen for such companies about investment returns, product quality, or anything else--verify these things yourself or ask others.

*Don't be high-pressured into signing a contract immediately--think about the offer for a few days or even weeks, and have your lawyer look over the contract.

*Check with your local Better Business Bureau to find out if any complaints have been filed on the company.

*Always--with distributorships, and any other consumer transactions--be wary of someone who promises big money returns for a minimal effort. If it sounds too good to be true, it probably is.

*If you become suspicious of deceptive or misleading tactics by the seller of a distributorship, contact our Consumer Protection Division immediately.

Alertness, Balance, and Care are the ABC's of Avoiding Falls.

Wayland Offering New History Course

PLAINVIEW, Special--A new history course entitled "The Private Enterprise System in America" will be offered by Wayland Baptist College this fall. Dr. Gwin Morris, head of the history department, has announced.

The course, History 483, is designed for persons who will be teaching a course on the free enterprise system and will be offered on Tuesdays evenings. Dr. Morris, who served on the state-wide Texas Education Agency Committee to write the curriculum guide for the high school course, will be the instructor.

All public high schools will be required to give instruction on the essentials and benefits of the free enterprise system beginning with the 1974-75 school year as a result of House Bill 1118 passed by the Texas Legislature in 1973.

The essential purpose of such a course is to provide a basic understanding of and apprecia-

tion for the American free enterprise system as it evolved over almost 200 years of American experience.

*The Free Enterprise System in America" is also the theme of the annual Public Affairs Conference Oct. 4-5 on the Wayland campus.

The conference is designed to discuss the essentials, benefits, problems and promises of the free enterprise system. A Saturday morning workshop will focus on how to teach the course.

For further information regarding the new history course at Wayland, please contact Mrs. Audrey Boles, registrar 296-5521.

DID YOU KNOW THAT VALLEY WATER DRIVE CENTER PIVOT SPRINKLERS ARE NOW AVAILABLE IN DIMMITT AND SURROUNDING AREAS?

The Valley Water Drive is the original, yet for over 20 years it has been going around producing record crops for farmers. Every year it has been improved and modified to meet new standards of performance under every conceivable condition.

Opposed to electric systems, Valley Water Drives can save you up to \$15,000 over a 10 year life span, because:

- \$3,000 to \$7,000 lower initial cost than electric systems.
- 95 per cent maintained by owner or operator due to simple mechanical construction. Requires no expensive service calls by highly trained and licensed technicians (necessary on electric systems). Average yearly maintenance costs less than \$150 (quarter section).
- All parts are small and inexpensive. Swivel axles for towing are standard equipment.
- Valleys are run by power source already available, no additional power source required.

Valley Water Drives can make you money and pay for themselves because:

- Reduced irrigation labor costs (1 man can operate 8-10 Valleys).
- Water applied to crops at the right time boosts yields.
- Fertilizer can be applied through the system.
- Valley Sprinklers conserve precious water.
- Valley Water Drives are totally galvanized with a 10 year corrosion warranty.
- Valley Water Drives reduce time required to irrigate a quarter section.
- Local Service and parts.

Contrary to popular belief, the Valley Water Drive Sprinklers do not require additional water pressure or gallons per minute for operation. As with all center pivots, water pressure is necessary to obtain the desired rain pattern and of course the advantage to large wells is simply to irrigate more land more rapidly. Valley Water Drives can operate on as little as 350-400 gallons per minute (depending on the land and type of crop). The water used to drive the Valley is in itself insignificant but it is returned to the rain pattern and used to help irrigate your crop.

Valley's 10 year lease program and options such as high speed valves, reverse units, high crop tower extensions, freeze kill switches, hi-low pressure kill switches and automatic stop controls make the Valley Water Drive Sprinkler an exceptional value.

Valley Water Drive Center Pivot Sprinklers are currently available for delivery in mid August.

VALLEY'S ARE OUR ONLY BUSINESS
NOT JUST A SIDELINE

dried coffee or soup.

Very likely, you will be shown lavish colored photographs and brochures of the product designed to impress you with the fact that large amounts of money can be made with little effort. The salesman of such a product as vending machines may get you to agree that such a machine will sell at least 15 units of the product a day.

"But let's be conservative," he may say. "Suppose it sells only 10 units a day. Even at that, you can make \$1400 a

month if you purchase 10 machines and they earn 50 cents on each sale."

After describing the profitable machine locations provided by the company, the salesman will urge you to sign a contract immediately to take advantage of the "fantastic" offer for only \$2000.

When you sign, you may be told that a "locator" will call a few days after your machines are delivered to tell you the spots at which they will be placed.

So your machines are delivered, your money paid. After what may vary from a few days to never, the locator comes by with a list of locations for your machines and has you sign a form stating that "locations have been provided and acceptable."

Later, when you survey the locations, you may find that your soup dispensing machine is located in the back of a beauty salon or service station where

there is little public traffic.

Very seldom will you get a profitable location, so naturally, there is little chance for a return on your investment--no "monthly income without effort."

If you complain to the company, you may be told that an attempt will be made to sell your distributorship to someone else. Chances are good, of course, that you will never get your money back.

Experiences such as this may be an exception, for there are many reputable firms engaged in the sale of distributorships, but they are occurring frequently enough that they have become a matter of concern for Attorneys General in all states.

Our Consumer Protection attorneys indicate that there are literally millions of dollars in distributorship contracts being written nationwide with many of the persons who purchase them receiving almost no return on

School Board Dress Code Policy Announced

USE OF TOBACCO...

The use of tobacco on or near the campus is strictly forbidden. A violation will automatically cause forfeiture of exemptions and, or other disciplinary measures to be taken.

USE OF ALCOHOLIC BEVERAGES...

The use of alcoholic beverages at school or school activities is forbidden. A student apprehended for drinking at school or at any school activity may face loss of exemptions, expulsion, loss of uniform and a position on a team, or some other appropriate punishment. A student who has been drinking prior to arrival on campus may face the same penalties.

DRUG POLICY...

The use of narcotic or other drugs by the students of the Springlake-Earth Schools is strictly forbidden. Any student known to have a dangerous drug in his possession or known to be under the influence thereof, while in school or while participating in school-sponsored functions, after due notice to the violator and after a hearing before the Board of Trustees and if found guilty, the student may be expelled for the balance of the semester and may lose credits for the semester.

Any student who shall have been convicted of a misdemeanor or felony for the possession, use, sale, or attempted sale of a dangerous drug or narcotic drug while outside the school may be expelled by the Board of Trustees for the current semester, and may lose credits for the semester.

OTHER ITEMS...

Such items as knives, water guns, rubber bands, yo-yos, and etc., have no place in school. Any such items that create any distraction or disturbance will

be taken from the student and not returned. The student may also be subject to disciplinary action.

DRESS....

General agreement among Educators and others in authority that the appearance of a person indicates his actions, has caused many schools to set up a dress policy. This policy should be in the best interest of the community to assist its young people in developing into responsible, mature adult citizens. In order that all may understand what is required of the students and in order that as little misunderstanding as possible will result, the following statement of policy is made: (Includes Summer programs.)

STUDENT DRESS AND GROOMING.....

The dress of our students is important in the academic and extra curricular activities of our school. We as parents too often hear these words, "This is what all the other kids are wearing." Too often we have allowed our children to wear fashions of which are not in good taste, simply because we do not know.

There is no doubt that the majority of our students wear clothing which is in good taste and groom themselves appropriately, but regulations are necessary for those few who do not take sufficient pride in themselves and their school. It is not the desire of the school to set forth those requirements relative to dress and grooming which it deems necessary to maintain a desirable educational climate.

BOYS' HAIR.....

- Boys will be clean shaven--no beards or mustaches.
- Side burns will not be worn below the bottom of the ear and must be kept neatly trimmed.
- The sides of the hair will

be cut and neatly trimmed so that the hair does not hang or lay below the bottom of the ear.

- The hair will be cut and trimmed in the back so that it does not hang over the collar, and in the front so that it does not hang or lay below eye-brow level.

GIRLS' HAIR....

- Girls' hair will be styled to leave all front portions of the face visible.
- Bangs will not be below eye-brow level.
- Rollers will not be worn in school.
- Hats nor head scarfs will not be worn in the classroom.

BOYS' DRESS...

- Men's style shirts with split tails will be worn in.
- Shirts with lettering or designs which are unpatriotic, vulgar, or profane will not be worn in school. Insigns of other schools may be worn if earned by the individual wearing them.
- Shirts will be buttoned to leave one button only open at the top. No style shirts will be

worn which allows the chest to be exposed. Muscle shirts and tank tops will not be worn.

- Footwear will be worn at all times. Socks will be worn with sandals.

GIRLS' DRESS....

- Shirts will not be worn in school. Any other items of dress which do not meet the prescribed length will not be worn.
- Unusually short dresses will not be worn. Dresses shorter than eight inches from the floor when measured from a kneeling position will not be allowed.
- Length of pant dresses will be the same requirement as for regular dresses.
- Men's shirts with split tails will be worn in.
- Shirts with lettering or designs which are unpatriotic, vulgar, or profane will not be worn in school. Insigns of other schools may be worn if earned by the individual wearing them.
- Footwear will be worn at all times.

Any item not covered in the above dress policy that would reflect discredit on the school will be left to the discretion of the principal.

Rising Popularity of Nonwoven Fabrics

COLLEGE STATION -- Nonwoven disposable fabrics--produced by bonding a mat of natural or man-made fibers -- are challenging traditional textile fabrics, according to one specialist. She's Marilyn Brown, consumer education - clothing and textiles specialist, Texas Agricultural Extension Service, The Texas A&M University System.

"Nonwovens can be engineered to meet a range of service requirements and have many of the traditional textile esthetics of present woven or knit fabrics," the specialist noted. Their convenience makes them valuable for disposable diapers, sheets, pillowcases, blankets, medical-surgical drapes and gowns, industrial and household wipes and industrial uniforms.

In the consumer Market, Miss Brown mentioned several factors favoring growing acceptance of disposables.

--Convenience becomes more important with more leisure time and a more relaxed life style.

--More women working outside the home demand more and quicker conveniences at home.

--The increasing importance of conserving energy reduces the cost differential between disposable and reusable items.

--The growing market for mobile and vacation homes implies an increased demand for time, space and labor-saving disposable products.

Looking to the future, the specialist noted that the medical market is expected to be a principal growth area for

nonwoven disposable products. "Government spending for health and medical care is increasing rapidly. Disposables mean better patient care, increased hospital staff efficiency and reduced risk of cross-infection, and convenience," she explained.

Feminine blouses in soft fabrics-- often combined with lace-- continue to be a popular fashion item. Style features include soft bows at the neck, ruffles, gathers and large puff sleeves.

The Double Duty Smooth Top Range

COLLEGE STATION--- The biggest boon to cramped kitchen space is the smooth-top range. Lillian Cochran, home management specialist, Texas Agricultural Extension Service, The Texas A&M University System, pointed out.

" Turn on the current and invisible units heat food much like the conventional range. But switch it off and the flat surface cools to become an addition to your counter-top working surface," she said. Anyone who dislikes the chore of cleaning a messy range will love the easy cleaning of the smooth-top model, she continued.

Just wipe off the cooled surface with a cloth, sponge or paper towel. The heating units are sealed under the counter-top surface so there's no way dirt and grease can collect in them.

" For the best appearance, make sure you wipe off the smooth-top surface soon after it cools. Then clean it regularly with a silicone cleaner to prevent stains." These ceramic smooth tops are durable and crack resistant. Diamonds or sand will scratch them, but normal use will not, she said.

PARTY LINE

Mrs. Inez Barton, Floydada, visited Mrs. Almer Barton over the weekend. She had planned to attend the 50th Anniversary celebration in Earth.

Visiting in the home of Mrs. Cecil Parish are her daughter Mrs. Gwen James, Tristanne and Derek Adair children of Mrs. Donna Kay Adair, Mrs. Vicki Lynn Rye and small son, Parish of San Diego and Tustin, California.

SUNNYSIDE NEWS

By TONY BOWDEN

Mrs. Lillie King returned home from Amarillo Tuesday night after helping her mother, Mrs. F. M. Sweeney celebrate her 99th birthday Tuesday. All her children were with her for the day, and most of her grandchildren. She is well and active and enjoyed her birthday cake, presents, and cards. She wishes to take this means of thanking all her friends at Sunnyside for their birthday cards which meant so much to her, and for the telephone calls of Mrs. Embree Roy Sadler and Mrs. Howard Bridges of Dimmitt.

Mrs. Lillie King missed the graduation exercises of her grandson, Mike King last weekend in order to be with her mother on her birthday and help prepare for it. Mike received his Doctor's degree in education at North Texas State University at Denton at the age of 28. He and his wife teach at Richardson, Texas.

Thomas Parson was dismissed from Deaf Smith County Hospital in Hereford Thursday morning. They attended the production of Texas in Palo Duro Canyon Thursday night.

Mrs. Jimmy Waggoner was dismissed from Central Plains General Hospital in Plainview Wednesday. She stayed with her mother until Friday when she came home.

Lee Brown, quarterback for the Springlake Earth varsity football team suffered a slight concussion Friday night in their skirmish with Silverton at Silverton. He was admitted to Plains Memorial Hospital in Dimmitt and dismissed Saturday.

Embree Roy Sadler killed a 35 inch long rattlesnake in the flower bed at the Gale Sadler home Tuesday morning. It had seven rattles and a button. The dog alerted Cindy Sadler to something wrong and when she saw it was a rattlesnake she jumped upon the trampoline

and tried to kill it with a stick. It stood up on its tail as it tried to get to her.

Mr. and Mrs. Gerald Graham, Tommy and Michael returned home from their vacation in Ohio Tuesday night. On the way up they saw the "Stephen Foster Story" pageant at Bardonia, Kentucky near Lewisburg. They spent most of the time at Coshocton, Ohio with her parents who celebrated their 40th anniversary last Sunday. They also visited other relatives and friends, Mrs. Mildred Mazena, Tommy and Dennis Of Adamsville, Ohio came home with them for a visit and to visit with her parents, Mr. and Mrs. John Graham.

Rev. and Mrs. Mack Turner, Mr. and Mrs. Roy Phelan, and Mr. and Mrs. Hershel Wilson attended the Llanos Altos Associational meeting at Enoch Baptist Church Monday night. They visited with Rev. and Mrs. Gardner and family of Circleback on the way home.

The trace of rain received Tuesday night turned into a rainy week with an official total for the week of 4.40 inches. L. B. Bowden recorded 4.55 two and one-half miles north of Sunnyside.

Pete Turner of Dallas visited

Tuesday through Friday with his brother Rev. Mack Turner and Mrs. Turner.

In a called business meeting Wednesday night, Roy Phelan was elected Sunday School Director for another year, Milburn Haydon was elected Training Union Director, Lee Brown assistant Training Union Director, Mrs. Thomas Parson WMJ Director, and Hershel Wilson Brotherhood Director.

Mr. and Mrs. Gale Sadler, Cindy and Susan visited Wednesday through Sunday in Mount Vernon, Missouri with her father, Mr. E. E. Lewis and with other relatives.

Mr. and Mrs. Hershel Wilson, Mr. and Mrs. Alton Louder, Mrs. Embree Roy Sadler and Mrs. L. B. Bowden represented the Sunnyside Baptist Church with a program in song Thursday afternoon at South Hills Manor Nursing Home, Hershel Wilson led the signing and sang some specials also. Mrs. Alton Louder played the piano.

Mr. and Mrs. M. H. Fowlkes and Mrs. Katie Herriage of Lubbock visited Monday and had dinner with Mr. and Mrs. Embree Roy Sadler. The Fowlkes also visited last Saturday. Mrs. Herriage visited with them again Wednesday morning.

Mrs. Ila Haydon returned home last Sunday night from a weeks visit in Weatherford with relatives and friends.

Brenda Lefevere came home from Lubbock Wednesday for a weeks vacation between semesters. Martin Lefevere graduated from Tech at the end of the summer semester.

Mr. and Mrs. Ray Joe Riley

and Jodie and Kevin and Mrs. Gerald Graham, Tommy and Michael attended the Lamb County 4-H Fair in Littlefield Saturday. Kevin, Tommy, and Michael had several things on exhibit in the fair.

Mr. and Mrs. Robert Duke attended a church related program in Lubbock Wednesday night.

Sandra Duke returned home last Sunday from a vacation in Red River with three girl friends.

Bill Lucas of Baton Rouge arrived last Friday to join his wife, Joan for a visit with her parents, Mr. and Mrs. Ed Dawson, Marian and Clint, Mr. and Mrs. Lucas spent Tuesday through Saturday at the Clearvenger cabin at Tres Ritos. They attended the church services with the Dawsons Sunday morning. Mrs. Lucas is showing daily improvement toward complete recovery.

Mr. and Mrs. Myles Sadler, Gregory and Amy of Lubbock spent Saturday, Saturday night and Sunday with Mr. and Mrs. Embree Roy Sadler, Mr. and Mrs. Jack Wolf of Vega and Mr. and Mrs. Eccell Keeler of Hale Center visited Sunday afternoon with them.

Mrs. Cecil Curtis visited in Petersburg Thursday and spent Thursday night with her parents, Mr. and Mrs. M. E. Stephens.

Rev. and Mrs. Mack Turner visited in Borger Friday night and Saturday with her sister, Mr. and Mrs. O. D. Ennis and children. They met the evangelist, Rev. M. E. McGlamery

of Las Vegas, Nevada at the plane in Amarillo on their way home. He will be their house guest for the revival which began Sunday.

Rev. and Mrs. Dan Schaeffer and children of Plainview were present for the Sunday revival services and they and about fifteen families had dinner together at the church Sunday.

Sandra Duke moved to Amarillo Saturday to be ready to enroll in Amarillo College next Thursday.

Bob Duke returned to Tech Tuesday to begin his job as a resident assistant at Sneed Hall Dorm as students prepare for the fall semester.

Mrs. Mack Turner attended a teacher's meeting in Amarillo Wednesday.

Baptist Men met Tuesday night for their regular meeting, Baptist Women had Bible Study Wednesday.

Mr. and Mrs. Roy Phelan celebrated their 30th anniversary Sunday with a family dinner at the community building. Those present were Mr. and Mrs. H. F. Moore, Jackie and Nelda, Mr. and Mrs. Larry Moore and Nikki, Mr. and Mrs. Donnie Moore, Mr. and Mrs. Bobby Moore, Greg and Kelly, Mr. and Mrs. Monroe Sosebee and Leslie, and Mr. and Mrs. A. J. Phelan all of Weatherford; Mr. and Mrs. Don Hanson, Donnie and Jeff of Clovis, Mr. and Mrs. Earl Phelan of Fieldton; Mr. and Mrs. Howell Morris of Plainview; Mr. and Mrs. Bill Dean of Halfway; and Mr. and Mrs. Loyd Morris of Tulsa.

Visiting with them in the afternoon were Mr. and Mrs. Larry Stames, Deanne and Donna and Mr. and Mrs. Hershel Wilson.

Lee Brown and his family attended a variety football party at the home of Mr. and Mrs. John Bridges and Brad Wednesday night.

Larry Duke and Robert Calhoun have been busy with football practice with the Dimmitt Bobcats the last two weeks.

Mr. and Mrs. Robert Duke and Larry spent Saturday and Sunday night camping out in Palo Duro Canyon. They along with Bob, Sandra and Mr. and Mrs. R. E. Duke attended the Hall reunion in Palo Duro Canyon Sunday.

Mrs. Alton Louder, Mrs. R. V. Bills and Mrs. J. E. Shirey exhibited paintings in the Earth anniversary celebration art show Saturday. Mrs. Louder also attended the art show in Littlefield Friday.

Mr. and Mrs. R. V. Bills visited last Sunday night in Hart with Mr. and Mrs. Aubrey Myers and family. Larry Myers has continually improved since his dismissal from the hospital in Amarillo and will be able to attend school though still on crutches.

Mr. and Mrs. Larry Don Bills left Friday for a vacation in the mountains of New Mexico. Amy is staying with her grandparents, Mr. and Mrs. R. V. Bills. David is staying with his grandparents in Hereford.

Mr. and Mrs. Raymond Spencer and children of Plainview visited

Olivia Newton-John Set For Six Flags Shows

Olivia Newton-John is scheduled for two performances at Six Flags Over Texas on Friday, August 30. Olivia's first hit came in early 1971 when she recorded "If Not For You" for Festival Records International. It soon became a hit in the United States, the United Kingdom, Canada, Australia, South Africa and on the Continent. Since that time she has seen success with such tunes as "Let

Me Be There," "Banks of the Ohio" and "If You Love Me (Let Me Know)." Her latest release, "I Honestly Love You," is climbing rapidly on the pop charts. Olivia is often seen on both British and Continental television. She has appeared in the U. S. A. with such big names as Dean Martin and most recently with M.C. Davis. Showtimes at Six Flags will be at 8:00 p.m. and 10:00 p.m. in the park's Music Mill Theater. All tickets sold at the front gate after 6:00 p.m. will be \$4.00, adult or child. There is no additional charge for the shows. Six Flags will be open on Friday from 10:00 a.m. until midnight.

Mr. and Mrs. Lindy Clark and Carla Snyder visited in the Sunday night services and spent Sunday night with Mr. and Mrs. Hershel Wilson.

Loonie Wilson and Renee Jones registered at South Plains College in Levelland Monday the 26th.

Mr. and Mrs. David Sadler, Melody and Karla moved from Lubbock back into the community this week to farm with Larry Sadler. They will live temporarily with Mr. and Mrs. Eccell Sadler.

Mr. and Mrs. Eccell Keeler of Hale Center and Mr. and Mrs. James Powell and children of Dimmitt visited Sunday afternoon with Mr. and Mrs. Ezell Sadler and Mr. and Mrs. David Sadler and children.

The crew of the highway department mowing the park Tuesday found money bags, checks, and receipts taken in the Amarillo Toot 'N Toot store last Saturday. Castro County sheriff's officers recovered the loot stashed here in the roadside park.

DENTAL FACTS
Patients tend to associate periodontal diseases with aging, but in some university clinics, dentists see children with periodontal problems as young as nine and ten years old.

Clenching or grinding teeth during sleep contributes to loosening even healthy teeth in their sockets.

Bleeding gums may mean gum disease, or a too stiff toothbrush.

Teeth that are overly sensitive to cold drinks and to sweets can often be helped by using Sensodyne, a therapeutic dentifrice instead of the cosmetic kind. The gentlest toothbrush available is important for individuals with dental hypersensitivity.

A dry mouth, burning tongue and mouth sores may be signs of a vitamin deficiency, or other bodily problems.

TSTI Dormitories To Open September 2

Fall Fertilizer Picture Bleak

Orientation and registration for 16 programs to be offered this fall at Texas State Technical, Mid-Continent Campus, will be held Tuesday and Wednesday, September 3 and 4.

Dormitories will open Monday, September 2 (Labor Day) at 2:00 PM; meal service will begin in the dining hall with breakfast September 3; and the gymnasium will open at 4:30 the same day.

"It is very important that all new students report at 9:00 AM Tuesday in the TSTI chapel for orientation, in order to complete registration," says Joel Griffith, director of admissions and student financial aids.

"They will be informed of student activities, test scheduling, and will meet with their respective program chairmen," he adds.

There will be a special session for veterans and for students receiving financial aid. Courses being offered the fall quarter at State Tech are Agricultural and Industrial Equipment Mechanics, Aircraft Mechanics, Auto Body Repair, Automotive Technology, Commercial Art in Advertising, Construction Technology, Cosmetology, Drafting and Design Technology, Electronics Systems Technology, Interior Design Technology, Livestock and Ranch Operations, Meat Processing and Marketing, Printing Technology, Saddle and Tack Making, Technical office Training and Welding and Fabrication.

Registration will be held September 4 in the Campus Activity Center, by last names as follows: A-D, 9:00 AM; E-J, 10:00 AM; K-P, 1:00 PM; and Q-Z, 2:00 PM.

Tuition and fees for the fall quarter are \$85.00. Room and board is \$335 per quarter for dormitory students. Cost of books and supplies varies with each program.

Classes will begin Thursday, September 5, at 7:30 AM, in a number of programs there

will be two schedules of classes, Griffith points out, to accommodate multiple sections and first and second year students. The first schedule will be 7:30 AM to 4:00 PM, the second from 12:00 noon to 5:30 PM.

Griffith notes that registration is being held in the Activity Center for the first time this year because of the large number of students expected to enroll.

The Student Congress will sponsor a Mixer in the Activity Center September 3, and a movie in the Chapel Recreation Hall September 6.

Terry Patchin, director of intramurals and health services announces the addition of three ping pong tables, three pool tables, a trampoline, and the beginning of construction to re-surface the tennis courts. The gymnasium boasts handball, basketball, volleyball, and shuffleboard courts, and weightlifting equipment.

Schedule for the gymnasium will be 4:30 to 9:00 weekdays, 12:00 noon to 9:00 Saturdays, and 2:00 to 9:00 Sundays.

"Everything in the gym is available to the students, faculty and staff, free of charge," he emphasizes.

Patchin has a continuing schedule of student intramural contests planned, as well as parties, picnics, movies and other events.

My Neighbors

Texas Agricultural producers will likely take a "wait and see" attitude as far as fall application of fertilizer for next year's crop is concerned.

According to Dr. Charles Welch, soil chemist for the Texas Agricultural Extension Service, "The fertilizer picture is considerably different now compared to a year ago. Last year fertilizer supplies were available and prices were down. But there has been a complete turnabout in the fertilizer cost situation and in a number of fertilizer materials."

Welch points out that last year conditions were generally favorable for fall application of fertilizer. A good crop year had been completed and farmers had received high prices for their commodities. In addition there was growing concern that fertilizer would be scarce in 1974.

"This year producers are faced with a different situation. Fertilizer supplies are limited and what is available is at a high price. Special formulations of fertilizer are almost nonexistent. Producers must often buy a complete fertilizer (one

Hand-Held Calculators Benefit All

Growth of the hand-held calculator market is a classic story of free competitive enterprise in action. Seemingly, everyone connected with this young product is a winner—the investors, the manufacturers, the workers, and, best of all, the customers.

Such calculators first became popular in 1965 when the average price was \$200. Frost & Sullivan, Inc. of New York, a market research organization, says the average price was \$80 last year and predicts that the average price for calculators will be \$35 by 1976 and \$25

with nitrogen, phosphorus and potassium) regardless of whether or not they need all three nutrients.

"And the percentage of active ingredients is also being reduced in many instances so that it takes a larger volume of fertilizer to provide the necessary nutrients. This means increased transportation and handling cost."

What all this amounts to, according to Welch, is that producers will have to take a close look at their particular situations to determine their fertilizer needs and time of application. "Soil testing will be especially important in determining profitable fertilization practices for each field and each crop."

Although U.S. fertilizer production was up 6 per cent during the year ending June 30, the amount sold was up 15 to 20 per cent. This means that inventories are now low at the retail level as well as at the manufacturing point.

"Fall fertilization will be a difficult decision for producers to make, so many will probably shy away and wait to see what the spring season brings," points out Welch.

by 1980. What's more, today's calculators are better, more reliable, and perform more intricate mathematical functions.

Continued growth is said to be virtually certain because the low prices will make them more accessible to junior and senior high school students and housewives.

Frost & Sullivan also predicts future extensive use of calculators which feature metric conversions as the United States embarks on metrification.

David T. Wendell of David L. Babson & Co., Inc., Boston, Mass., cites industry sources which estimate that demand doubles each time prices drop 24 per cent.

What's more, it's nice to know that it won't cost as much to figure inflationary price increases in most other products.
