THEY'RE NOT JUST BRAGGIN'

The Balko Ford Sales crew are still on their toes. They said they would sell 60 new passenger cars in April, and they're working from can to can't (they have extended their opening hours til 9 p.m. through the month of April). Without a doubt, they'll make it... seems most successful folks set a goal to reach, and are successful because they weren't smart enough to know they couldn't. Then, there's that other 99% smart unsuccessful folks who knew all the time they couldn't and didn't... If more of us business people in Earth would set a goal with the intention of reaching it... and divorce the thought that it couldn't be done, then we'd all see a notable improvement in Earth.

VALUE OF A PENNY UPPED

YIPPEE... at last, a dream comes true, the ideal sale in Earth... Rutherford and Company is staging a 1¢ Sale. Seems you can buy one pair of shoes at regular price and get a second pair of the same value for 1¢. I flat like this idea... now I can own a change without spending much change... I may get so many shoes I'll be wearing one of a kind in order to show them off...

OUR LITTLE TOWN

I like to live in our little town, Where the trees meet across the street, Where you wave your hand and say "hello" To everyone you meet. I like to stand for a moment outside the grocery store And listen to the friendly gossip Of the folks that live next door. For life is interwoven with The friends we learn to know. And we hear their joys and sorrows. As we daily come and go. So I like to live in our little town, I care no more to roam For every house in our little town is more Than a house, it's home.

The Middleton Clan was saddened recently by the sudden disappearance of Chester... He's of no earthly good to anyone, and we hate him when he's home, well and happy and tracks muddy feet in our house on occasion... but when he's gone we love him and what we love we love... So it was with much surprise and happiness Tuesday morning that we heard his old familiar jumping against the kitchen door to gain admittance so we could shower him with a few choice friendly phrases and a pat on the back. Seems, now he's almost afraid to get out of our yard, afraid he's so valuable someone else will try to steal him. Thieves who make a habit of picking up pets would do themselves no harm to stop that old practice, because no one, but no one knows the deep seated wrath of this tribe of 4 when their favorite pooch hound is stolen.

Clean-Up Earth, Scheduled For Saturday, April 27th

"Clean up Earth Day," the first and only real clean-up day ever scheduled in the city of Earth has been postponed until April 27.

On this day, Earth citizens and all energetic, progressive folks, men, women and children who are interested in improving our little city are urged to deck out in jeans, straw hats and flats and be at the City Hall at 8 a.m. ready to work. Those having hoes, rakes, pick-ups or trucks are asked to bring them along. Anything useable in this big clean-up campaign will be used and appreciated.

With the cooperation of several people having trucks to haul a way trash, haul-off service can be extended to everyone throughout the City of Earth, if trash is neatly stacked in the alleys for quick loading. Tree limbs and large objects that city employees would not haul away, can be hauled off and cleaned up Saturday, April 27.

JUST ONE HALF BLOCK FROM CITY CAUTION LIGHT... This scene was snapped Tuesday afternoon, as a reporter toured the city observing the need for city clean-up. The city wide clean up will provide a two way purpose. Not only will it improve the looks of our city, but if all business men would clean behind their stores and alleys are cleaned up, the city will prosper from this, as city merchants and their personnel will have ample places to park their cars, instead of using the streets, where customer parking is hampered by the lack of available parking space.

With the assistance of the whole city in an all-out City-wide clean-up campaign, alleys, streets and lots should be cleaned up and shining at the close of the day.

Clean Up Day plans were begun by the Town and Country Study Club, a club which is proud of their town, and INTERESTED IN ITS CITIZENS, THEIR HEALTH and in improvement in general of their city. They brought the idea before all local clubs in the city, and were joined in this clean-up campaign by all. The Lions, Altrui Junior Study Club, Masonic Lodge, Chamber of Commerce, Jaycees, Boy Scouts, Girl Scouts, and Rainbow chapter. Each club voiced their enthusiasm and willingness to help to make this big clean-up day a success, and voiced their hope that a noted improvement could be seen by tourists driving through Earth, as well as those residing here... One unsightly view from

Main Street is an old outdoor privy, unused, but remains standing within eyes' view of Main Street; also it has been reported that at least one open cesspool is located in the alley, just off Main Street. These and many other unsightly, as well as health and fire hazards, remain to cloud the progress of our city...

In this issue, pictures will be found, indicating the dire need of a city-wide clean-up campaign. These are made to encourage Clean Up Day in Earth...

CAROLYNE GREGORY

Carolyn Gregory To Try Out For Flying Queens

Carolyn Gregory, daughter of Mr. and Mrs. Carl Gregory of Earth, will participate in the tryouts at Wayland College Saturday for prospective team members to fill vacancies on the Hutcherson Flying Queen team.

Tryouts for high school senior girls wishing positions on the Hutcherson Flying Queens for next season will be held April 20, according to an announcement by Harley J. Redin, athletic director at Wayland Baptist College, Plainview.

High school seniors with good academic records and a desire to play college basketball are urged to contact Wayland's director of athletics to make arrangements. Practice sessions are scheduled for 2 and 8 p.m. Saturday.

Three or four scholarships are offered each fall to fill slots on the team left by graduating seniors. This year four Flying Queens will be graduated.

Girls planning to attend Wayland in the fall aren't required to attend the tryouts. "It is very difficult to judge a player's ability on the strength of two practice sessions and we would much rather have them enroll at the college for their freshman year and then come out for basketball."

Scholarships are awarded for one year on basketball ability and academic record completed each year. They are renewable each spring on that basis. Girls planning to tryout April 20 may stay in a college dormitory and eat in the dining hall as guests of Wayland College, but reservations must be made as quickly as possible. Those who will stay must bring their own linens and practice equipment.

Carol Cole spent the weekend in Childress visiting his brother, Wayne Cole and Miss Jan Knight.

Charles Cowley, student at WTSC, Canyon, spent the Easter holidays here visiting his parents, Mr. and Mrs. A.D. Cowley. He arrived Thursday for the five day holiday.

Baseball Plans To Be Made At Monday Meeting

Jack Angeley, president of the Earth-Springlake Community Recreation Association, announces that a meeting will be held Monday April 22 at 8 p.m. in the Community Room.

PTA Closes Out Year With Final Meeting Tonight

Do you have a "daily crisis" at your house? How important is it for parents to be home when their children give parties? How do you decide when the demands for help from tired parents become excessive? What can parents say when confronted with the heinous offense of "acting like a parent"?

If you have any of these problems, come and give us your opinions in an open discussion to be held when the Springlake PTA meets Thursday, April 18, at 8 p. m. in the band hall.

This is the last meeting for the year, and officers for the new year will be installed by Mrs. W. E. Miller from Canyon. Mrs. Miller is a past state vice-president of the Texas Congress of Parents and Teachers. She is a former resident of this community, and is an aunt of Mrs. Ed Dawson and Orville and Ronald Cleavinger.

The officers and committee members for this year, and the ones for next year are invited to meet at the cafeteria at 6:30 and enjoy the salad supper that the FHA girls are sponsoring, and meet Mrs. Miller, and finish out the year's work together.

Clarence Hamilton Returns Following Trip To U. S. Capitol

A group of area people, associated with the Bailey County Electric Association, consisting of Clarence Hamilton, Earth; Kenneth Corbell, Baileyboro; Jessie Clayton, Morton (directors); and D. B. Lancaster of Muleshoe, manager, have recently returned from a trip to Washington, D. C. This group, along with approximately 250 directors and managers from other rural electric cooperatives located throughout the State of Texas, were in Washington to attend a dinner given for the Texas Congressmen. The purpose of the dinner was to acquaint the Texas congressional group with the views of the cooperatives on matters pertaining to the rural electrification program.

The rural electrification program was established for the purpose of making loans for making central station electric service available to people who would not or do not have this type of service. The money could have been loaned--and can be loaned--to any group for the purpose of extending electric service to "unserved" users. For a long time, at the beginning of the program, it was thought this would be handled through the then-established power companies. The power companies could not, however, make it work because of the low revenue for the electric service, so out of necessity, the non-profit cooperative method was then used.

Since 1935 the cooperatives have continued to extend service to rural areas and to people who do not have central station service. The cooperatives buy about 80% of their power from the power companies. They generate

about 20% of their power but only about 1% of the total power generated in the United States is generated by the cooperatives. The matter of cooperatives' borrowing money to generate their own power has been under attack by the power companies for some time. If the right to borrow money to generate their own power is ever taken from the cooperatives, the patrons of the cooperatives will have to pay more for their electricity. The right to borrow money to generate their own power is very essential to the cooperatives' ability to continue to serve the rural and unserved areas. This right is not exercised very often and this is evidenced by the fact that only 1% of the total power generated in the United States is generated by the cooperatives.

Moneys borrowed for the construction of electric lines or generating plants can not, under any circumstances, be invested for anything other than that for which it was designated. No money is borrowed and then re-invested.

D. B. Lancaster, manager of the local cooperative, said that the above items were discussed with, and presented to, the congressmen for their consideration and deliberation. He further stated that all of the Texas congressmen attended the dinner with the exception of five and Senator Tower and that some members of the congressmen's staffs were also in attendance. All together, some 350 people were present.

According to Mr. Lancaster, both the flight to Washington on Monday and the return flight on Wednesday were very nice and no adverse

weather conditions were encountered. The dinner with the congressmen was held on Tuesday night.

Clarence Hamilton, in an interview, reports the group had lunch with Congressman and Mrs. George Mahon in the House cafeteria, followed by a tour of the House of Representatives, conducted by Mrs. Mahon.

A banquet held Tuesday night, April 9, was attended by the Secretary of the Navy, 18 congressmen and their wives and members of Texas rural cooperatives.

Hamilton reports meeting Alex Dickie, Administrative Assistant to Ralph Yarborough and his wife, Marilyn at the banquet.

An interesting anecdote regarding the jet flight to Washington was a report over the loudspeaker by the pilot "We are now flying over Memphis Tennessee, at an altitude of 33,000 feet. The temperature inside the plane is 72 degrees and the outside temperature is 55 below zero!"

Hamilton remarked that the new modern means of transportation are quite amazing, especially to an old country boy.

Boy Scout News

Troop 614 met at the Scout Hut Tuesday night with 22 boys and their leaders present.

The evening was spent on discussions and instructions for events to be held at the Camporee Friday and Saturday.

Adults present were Travis Jaquess, scoutmaster, W. J. Rylant, ass't scoutmaster, Raymond Rudd, and C. L. Berry, committeeman.

Den 3 met Thursday afternoon after school and visited the Muleshoe airport. 8 boys and the den chief watched planes take-off and land, they also were shown through several planes and gliders with interesting commentaries about each plane by Morgan Locker of the Muleshoe airport. They boys then went to the Muleshoe Convelescent home and presented vases with flowers to the elderly people in the home. Mrs. James Lackey made the trip with the group, Donnie Galloway served refreshments following the trip. The living circle and promise ended the meeting.

Den 7 met last Tuesday afternoon with 8 members present and the den chief. The boys went on an Easter egg hunt in the Hite Park addition. Donnie Wheat received the prize for finding the most eggs. Mrs. Dwan Wheat and Mrs. A. D. Cowley are den mothers for the group.

Den 6 met Tuesday afternoon and completed wastebaskets for their project of the month. Mrs. Jerry Barden and Mrs. Jay Winters met with the boys.

Den 2 met Tuesday afternoon and made a trip to the Earth Worm Farm owned by Mr. and Mrs. R. J. Brock. The boys learned many interesting facts about the life of an earthworm. Mrs. J. B. Eagle made the trip with the 8 boys.

Den 1 did not meet this week due to no school but made the trip to the Earth Worm Farm the week before with Mrs. R. J. Brock and Mrs. J. C. Randolph.

Girl Scout News

The Brownie Scout Troop of Earth met Wednesday, April 10 in the Community Room. After the flag ceremony the girls went to the home of Cindy Berry to hunt Easter eggs. A prize was given to Susie Adrian for finding the prize egg. Refreshments were served to 12 Brownies, Mr. and Mrs. C. L. Berry and Tim, leaders Mrs. Gayle Littleton, and Mrs. Joy Haberer, and assistant leader Becky Rylant.

March Accidents Total Eight In Lamb Rural Area

The Highway Patrol investigated 8 rural accidents in Lamb County during the month of March according to Sergeant D. S. Lawson, Patrol Supervisor of this area.

These wrecks accounted for six persons being injured and an estimated property damage of \$5,209.00.

The rural traffic accident summary for Lamb County from January through March of 1963 shows a total of 27 crashes resulting in 4 persons deaths, 28 persons injured and an estimated property damage of \$25,734.00.

Each year, with the coming of April, it seems natural for motorists to want to get back out on the highway and enjoy the invigorating atmosphere and colorful countryside. Many of these motorists are apt to forget that increased violations of traffic laws play a vital role in the annual traffic accident toll.

The motorist should realize that highway travel multiplies by leaps and bounds in April. The Sergeant stated, "What better time than April to remind motorists, pedestrians, and all street and highway users about the importance of knowing and obeying traffic laws."

Party Line...

Mrs. Gene Brown, Kathie and Dickie, Mr. and Mrs. Earl Jordan and Royce Earl spent the weekend in Carlsbad, N.M., where they toured the Carlsbad Caverns. They also visited relatives in Pecos and Odessa.

The J. J. Coker family spent a three day vacation at Granite Shoals Lake on a fishing expedition.

Each student winner from 40 counties will receive an Award of Honor, and his original sketch which is to be placed on display in the school he attends.

All sketches will be on display at the theatre prior to the ceremonies.

Coast Guard Officer Candidate School Convenes

A change in the date of the annual examination for admission to the U. S. Coast Guard Academy, New London, Connecticut, has been announced by the Coast Guard.

Beginning in 1963, the exam will be administered in December of each year. The examination will consist of the December administration of the College Entrance Examination Board tests which will be given this year on December 7th. Applicants living in the United States should apply before November 8, 1963 to take the test, while those living overseas should apply before October 4, 1963 to take the test.

Applications for the Coast Guard Academy are now being accepted. An information booklet and application forms may be obtained by writing to Commandant (PTP-2), U. S. Coast Guard, Washington 25, D. C.

Public Wheat Meetings Set

High Plains wheat growers are invited to attend either of two special public meetings to inform growers on all provisions of the May 21 wheat referendum, Director John E. Hutchison of the Texas Agricultural Extension Service announced today.

The meetings will be held in Plainview at the High School Auditorium on April 18, and in the Lamesa District Courtroom on April 19. Both will begin at 10 a. m.

District agent W. H. Jones of Lubbock will preside at the meetings. All aspects of the referendum will be discussed by a panel of Texas A&M College specialists composed of Thomas D. Aaron, grain marketing specialist; Ben Spears, agronomist; and Cliff H. Bates, farm management specialist. Similar meetings are being held in other wheat-producing sections of the state.

Hutchison said that Extension personnel would present factual and objective information with no attempt to tell wheat growers how they should vote.

TORNADO Safety Rules

TO KNOW WHAT TO DO WHEN A TORNADO IS APPROACHING MAY MEAN THE DIFFERENCE BETWEEN LIFE AND DEATH!

- I If you are near a tornado cellar:**

When time permits, go to a tornado cellar, cave or underground excavation which should have an air outlet to help equalize the air pressure. It should be kept fit for use, free from water, gas or debris; and preferably equipped with pick and shovel. THERE IS NO UNIVERSAL PROTECTION AGAINST TORNADOES EXCEPT UNDERGROUND EXCAVATIONS.
- II If you are in open country:**
 1. Move at right angles to the tornado's path. Tornadoes usually move ahead at about 25 to 40 miles per hour.
 2. If there is no time to escape, lie flat in the nearest depression such as a ditch or ravine.
- III If in a city or town.**
 1. Seek inside shelter, preferably in a strongly reinforced building. STAY AWAY FROM WINDOWS!
 2. In homes: The corner of the basement toward the tornado usually offers greatest safety, particularly in frame houses. People in houses without basements can sometimes be protected by taking cover under heavy furniture against inside walls. Doors and windows on the sides of the house away from the tornado may be opened to help reduce damage to the building.
 3. Standing against the inside wall on a lower floor of an office building offers some protection.
- IV If in schools:**
 1. In city areas: If school building is of strongly reinforced construction, stay inside, away from windows, remain near an inside wall on the lower floors when possible. AVOID AUDITORIUMS AND GYMNASIUMS with large, poorly-supported roofs!
 2. In rural schools that do not have strongly reinforced construction, remove children and teachers to a ravine or ditch if storm shelter is not available.
- V If in factories and industrial plants:**

On receiving a tornado warning, a lookout should be posted to keep safety officials advised of the tornado's approach. Advance preparation should be made for moving workers to sections of the plant offering the greatest protection.
- VI** Keep calm. It will not help to get excited. People have been killed by running out into streets and by turning back into the path of a tornado. Even though a warning is issued, chances of a tornado striking one's home or location are very slight. Tornadoes cover such a small zone, as a rule, that relatively only a few places in a warned area are directly affected. You should know about tornadoes though, "just in case."
- VII** Keep turned to your radio or television station for latest tornado advisory information. Do not call the Weather Bureau, except to report a tornado, as your individual request may tie up telephone lines urgently needed to receive special reports or to relay advisories to radio and television stations for dissemination to thousands in the critical area.

Springlake Places Three Students On All-District Basketball Team

By POLLY JEAN MIDDLETON

Names of the All-District Basketball teams were released Tuesday to the Earth News-Sun, with Springlake High School having the honor of three students being named for the first teams, both boys and girls, and one honorable mention.

Dale Dent, senior basketball player, was named to the boys first team. Dale was basketball captain for the Wolverines this year. He started his basketball career 6 years ago. Recently, Dale tried out for the Lubbock Christian College basketball team. He will know the results in the next week or so.

Carolyn Gregory, senior, number 41, was chosen forward on the All-District girls' team. Carolyn was basketball captain, her sophomore and senior years in high school. She was All-District forward last year, and All-Tournament at Farwell this year. Carolyn averaged 20 points per game this year. Saturday, she will try out for the Wayland Flying Queens.

All-District guard of the Springlake Wolverettes is Barbara Barlow, (43). Barbara was captain this year, along with Carolyn Gregory. She was on the All-Tournament team at Farwell this year. She started her basketball career when she was in the 7th grade.

Honorable mention went to Bethie Dent, (21) from Springlake. This is Beth's sophomore year, and we are looking forward to seeing her do her stuff next year.

The complete team for the girls is: Forwards, Carolyn Gregory, Springlake; Glenn Gatewood, Sudan; Candace Mudgett, Sudan; Honorable mention forwards, Bethie Dent, Springlake; Carol Warren, Hale Center; Ginger Campbell, Kress; Pat Kaltwasser, Farwell; Sherry Saul, Kress.

Tech To Host Interscholastic League Meet April 19-20

Region I University Interscholastic League spring meet will be held at Texas Tech Friday and Saturday, April 19 and 20.

Students in conference AA, A and B will convene at Tech for contests in literary and sports events, including track and field, tennis, golf, girls' volleyball, one-act play, debate, journalism, ready writing. Other contests will be in typewriting, shorthand, number sense, slide rule, science, prose reading, poetry interpretation, persuasive speaking and extemporaneous speaking. Wolverines going to Regional are Troy Layman, John Patterson, Thomas Gregory, Jerry Don Sanders, Dale Dent, Ken Dawson, Don Sanders and Jerry Been.

Participating in Literary Events will be Jane Branscum, Gary Kelley, Steve Sanderson, Roberta Gaston, John Kelley, David Holt, Susan Parish, DeAnn Brock, Jan Blackburn, Kirby Kelley, Allen McDonald, Craig Barton, Danny Glascock, Janice Miller and Jerry Barden.

Director-general for the meet will be Dr. Holmes A. Webb, associate professor of education at Tech.

In conjunction with the meet Tech will state "open house," featuring entertainment and educational displays. The engineering and science show will be conducted during the contest days.

Participants in the events will be the winners of the district meets in AA, A and B conferences. Winners of the regional competition here will go on to the state Interscholastic League finals in Austin May 2, 3 and 4.

The west lobby of the Tech Union Building will be used as the information center of the meet. Food, drink, telephone and lounge facilities will be available at all times for the visitors. Results of the contests will be posted here from time to time.

The Texas Tech Red Raiders will play an intra-squad football game following the final track and field event Saturday afternoon (April 20). Students and sponsors from visiting schools will attend the

game, between the "Red" team, and the "White" team, at no admission charge.

Tech student service organizations will conduct the information service, serve as guides, gather results and post information on the progress of the contests being conducted on the campus.

Representatives from the organizations will be stationed in each area where contests are being held. Tech groups who will aid with the meet include Alpha Phi Omega, Jr. Council, Circle K and Women's Service Organization.

Training Courses To Be Offered In Pool Operation

Ask the first 100 people you meet to name their favorite sport and chances are good that at least 70 will say swimming. Even golf and fishing have taken a back seat as sport choices.

There are some great days ahead for Texas' swimming enthusiasts. They have 13,000 pools to choose from, and the season is right at hand.

And things stand to break even better for the wet set in days to come. According to the National Swimming Pool Institute, Texas will have some 70,000 pools in 1970. All this is good, because swimming lends itself to social adjustment. It teaches coordination and builds stamina. A child who overcomes fear of water has learned courage. But play for the plungers

means work for someone else, namely State Health Department engineers and local health department sanitarians who sponsor and conduct training courses for pool managers and personnel from border to border.

"Short schools" for pool operators are concentrated during April, May and June, the intention being to enroll as many operators as possible before hot weather and overflow crowds make it hard for them to get away from their work.

Co-sponsored by the Texas Beach and Pool Association, courses consist of eight hours of intense technical and practical instruction. It covers such things as how to disinfect the water, and how to control water acidity--the factor, incidentally, which causes swimmers' eyes to burn, rather

than chlorine as is popularly supposed.

The course also covers pool safety, bathhouse sanitation, and the various filtering systems used in modern pools.

How important are swimming pools as links in the chain of disease transmission? Eye, ear, nose, throat, skin and intestinal infections are among the most common conditions spread in swimming pools.

Most prevalent, however, is ringworm of the feet--commonly called "athlete's foot". It is not contracted in pool water, but by walking on wet walks and floors on which spores flourish.

SCOUT CIRCUS AND MAY OVERNIGHT CAMP

We had one of the best times we ever had at the Scout Circus this year. We got several compliments from the crowd and Scout officials on our performances. Our Scoutmaster, Prof. U. S. Osborne, was very pleased.

Those taking part were Cubs Leo Brown, Billy Ray Thomas, and Willie Wilborn, Jr. The Scouts were O. C. Thomas, Tim Ray Matthews and your reporter, Explorer Isaac John Osborne.

Those who sold tickets and are anxiously awaiting their commissions to apply toward their re-registration fees are Tim Ray Matthews who sold four tickets, Willie Wilborn, who sold twenty tickets, and Isaac John Osborne who sold twenty-six tickets. Twenty-five dollars for the fifty tickets was reported to the district office the night of the circus.

Because many of our older boys feel, they said, that they wanted to get a more thorough feel of Scouting by going through what an eleven year old would experience, we plan having our over-night camp-out on May 3, with sunrise breakfast and contests during the day, Saturday, May 4.

We wish to thank the following parents and friends for assisting us: Mrs. Ivora Ingram, Mrs. Alice Brown, Julia Mae McFadden and Mrs. Estella Thomas. Mrs. Ingram, Brown, and Mrs. Joe Hill also helped to adjust the staffs on our display banners at the circus.

We are planning re-registration by the end of April. Our Bob White District Scout Master visited us again last week.

TRACK

Our boys have always competed against each other in softball, basketball and track. On a few occasions, we have had outside competition, but nothing like the track meets and discipline of practice the 7th and 8th graders are now enjoying.

Our 8th grade boy, Tom Franklin Fletcher, was forced to drop out on account of his health.

From the Crosbyton Track meet, Tim Ray Matthews brought back a second place ribbon for the 440 relay. Taft Finch, another 7th grader, brought back one blue ribbon, one second place and one third place ribbon. O. C. Thomas and David Fletcher failed to place.

In the Junior High track meet, April 9th here at Springlake School, Taft Finch got first place blue ribbons in 7th grade pole vaulting, the high jump, high hurdles and 440 relay. He got second place in the 880 relay.

Tim Ray Matthews was injured in practice the day before, but he got seventh grade blue ribbons for broad jump and 440 relay. He got third place in high jump.

O. C. Thomas placed third in the 440 relay.

David Fletcher did not place.

EASTER CELEBRATION

We began our study observ-

ance of Easter before Lent, and continued throughout the season, culminating our observance with a short program and Bunny Hop Contest of spelling and arithmetic, throughout the seventh grade and interpretative drawing for grades seven and eight on Wednesday evening, April 10.

Prayer was said by Elder Wesley Renfro. The school sang appropriate Easter and Passover songs, and a beautiful Easter poem was recited by Margrette Hood.

Prizes were won in spelling and arithmetic for the first grade by Willie James Thomas. Second grade prizes in both spelling and arithmetic won by Margrette Hood.

Third grade spelling was won by Dorisene Renfro.

Fourth grade arithmetic won by Billy Ray Thomas.

Interpretative drawing prize for 7th and 8th graders was won by Tim Ray Matthews.

Recently, our Junior High classes were represented in a "History Through Poetry" program to Mr. Hamilton's high school history classes.

Isaac John Osborne gave a review of Vice Admiral Rickover's "Decline of the Individual." Helen Washington, a 6th grader, recited the poem, "Sybil Leedington's Ride" (The Lady Paul Revere). Tim Ray Matthews recited (Joan of Arc) "The Good Joan" and "Sam Houston".

The eighth grade representatives, Margaret Ann Wilborn and Tom Franklin Fletcher, did a choral reading of the Gettysburg address entirely from memory. The program was closed by Margaret Ann Wilborn's recitation of Walt Whitman's "To All of You Out There" (A toast to the world).

The next week, we recited the poems to some of Mr. Slover's English classes, while he recorded the same for us. The classes were very receptive, which put the performers at ease. Tim recorded "The Good Joan" and "Sam Houston" and W. B. Washington and James Hood each recorded "The Wright Brothers". Helen Washington recorded "Sybil Leedington" and Paula Wilborn also.

Burdene Nunn, our other 8th grader, recorded the Gettysburg Address.

After the classes left, the children thanked Mr. Slover for the recordings, and listened to themselves played back for improving themselves. Charles Ray Brown showed his hand made airplanes and used his battery to show how his propeller could turn. He also recorded "The History of Flight".

EASTER VISIT TO LUBBOCK

Billy Ray Johnson gave a good account at school of his Easter visit Sunday to Lubbock. He and his sisters and brothers of Littlefield accompanied his sister, Mrs. Hattie Hood of Earth and their mother, Mrs. Ollie Tee Johnson of Littlefield. Billy said they enjoyed the roller coaster and other kiddie rides, but the prairie dogs of Prairie Dog Town the most. Afterwards, they attended a children's Easter program and evening service before returning to Earth.

SOUTH AFRICAN SOYBEAN VARIETY --- with 40 bushels and a 60% stand, this soybean will be among the eight to be tested on the Allison farm this year. It is referred to under Code H-60-562-570B. Barry Love, assistant agronomist, High Plains Research Foundation, is holding the soybean pods.

Roy Flores Wins New Bike In Recent Drawing

The bicycle raffle, sponsored by the Catholic Church, was held Sunday, before the Easter services. The winner was Roy Flores, son of Ambrose Flores. Roy is an eighth grade student at Springlake Junior High School. The lucky number was 08054.

The members of the Catholic Church wish to thank everyone who helped in selling tickets and those who bought them. The amount raised is not yet known.

Also, the ladies are taking orders for tamales for Saturday. Anyone wishing to order them may contact the ladies of the church, or Hector Chavez at the Wolverine Drive-In.

County Issues 12,031 Plates

A total of 12,031 license plates have been issued in Lamb County to date, a check at the tax office revealed Wednesday.

The total represented an even 500 increase in tags over the same date last year. Receipts this year total \$254,989.06. Oddly enough, this figure was \$329.61 less than the receipts at this time last year. Dunn said the decrease in receipts could probably be attributed to more cars being registered and less trucks.

Earth Youngster Hurt In Fall At Gilmore Home

Mary Lou Jackson, 5 year old daughter of Mr. and Mrs. Wayne Jackson, suffered a severe injury Wednesday April 10 when she ran into a glass storm door at the home of her grandmother Mrs. H. J. Gilmore. Her arm went through the glass door, and a sliver of glass penetrated her arm, missing the bone but severing the artery.

Hershel Hulcy, who was present, used direct pressure on the wound after removing the glass and held the pressure while Deputy V. L. Smith, Jr. rushed them to the Littlefield Hospital where she was treated and released.

Her 6 year old brother, Henry also fell through the door but suffered only a minor cut on the forehead.

Soybean Variety For West Texas Developed

Dr. Earl H. Collister Director of the High Plains Research Foundation, announced today that a new improved soybean variety has been developed in the breeding program at Halfway. This is the first variety to come out of the Foundation's extensive breeding and improvement program on soybeans for West Texas.

The new variety has been accepted by the State Seed and Plant Board for certification under the state seed program. Field plots to increase the new soybean variety will be conducted in cooperation with farmers throughout the High Plains area this year.

Dr. Collister stated that the new soybean variety has been named HINN in honor of Mr. Harold Hinn, one of the founders of the High Plains Research Foundation, and who has served as the chairman of the Board since its organization some six years ago. In commenting on the selection of the name for the new variety Dr. Collister stated that "all of the Trustees of the Foundation unanimously approved naming the variety after Mr. Hinn who has given such devoted leadership to the Foundation through the years."

Seed produced by the Foundation this year will be released to certified seed growers on or about January 15, 1964. The Certified Seed Growers will then produce certified seed during 1964, which will be released to farmers for planting in the spring of 1965. The Foundation at Halfway will be responsible for maintaining a pure source of Foundation seed for Certified Seed Growers.

In commenting further regarding the Hinn variety, Dr. Collister stated that in tests conducted at the Foundation, it was superior in many respects to the commercial varieties now available for use. One of its outstanding characteristics is the ability to hold the seed in the pod under adverse weather condition. This inherent shatter resistance and high seed yielding ability make it an outstanding variety for use on the High Plains.

The HINN variety was developed in the Foundation's accelerated research program which is conducted in the

Water-Level Measurement Data Available To Public At No Cost

The High Plains Underground Water Conservation District has announced the publishing of water-level measurements made during January 1963.

Allan White, Director of Education for the Water District, said concerning the water level report, that a majority of the official measurements in observation wells throughout the 13-county District have been published in "The Cross Section", the official publication of the High Plains Water District. He says that a map which indicates the approximate location of the observation wells accompanies the measurements.

White states that the measurements are made each year during January prior to the beginning of extensive pumping for pre-plant irrigation. They are made by the Texas Water Commission in cooperation with the Water District.

In the recently published tabulation of measurements, the years 1953, 1962 and 1963 are reported. Measurements for these years were used so that a 10-year period and a one year period of fluctuation could be studied.

White states that those persons who are interested in receiving the water-level measurements and who do not receive "The Cross Section" should write to the High Plains Water District, 1628 15th St., Lubbock, Texas, and ask for a copy. It will be mailed at no charge to the recipient.

Party Line

Mrs. Grace Hooley went to Morton for Easter dinner, Sunday, where she visited Mr. and Mrs. J. R. Kuykendall and family and Mrs. M. J. Mayon and their two sons. Mr. and Mrs. H. C. Miller of Spade were also guests.

Mr. and Mrs. Clarence Hamilton and Butch visited in Muleshoe Sunday and attended the

greenhouse, laboratory, and field plots. Mr. Barry Love and Paul Belcher are conducting the Foundation's soybean breeding program with Dr. Collister.

Lamb County Farmers Prove Active In ACP

Figures released by the Lamb County Agricultural Stabilization and Conservation Service reveal that Lamb County farmers actively participated in the Agricultural Conservation Program.

A list of practices and number of units carried out by farmers was released by Lamar D. Aten, Jr., County ASCS office manager. The total cost-shares used by farmers was \$128,229.13, representing about 40 percent of the actual cost. This would place the total money spent on conservation practices at about \$320,572.

The use of underground irrigation pipeline was the most popular practice. A total of 70,100 acres was affected at a cost-share total of \$80,212.36, with actual cost of about \$200,530.

Spreading of cotton burrs and deep plowing ranked second and third in cost.

Methodist Church and the christening of their month old grandson Blake. Mrs. H. H. Hamilton accompanied them.

Visiting in the Ervin Anderson home Friday were Mr. and Mrs. Sammy Hardy, Randy and Gordon of Texarkana, Arkansas. The Andersons visited in Dimmitt Saturday with her sister, Mr. and Mrs. Pat Hardy, the Sammy Hardys and Mrs. David T. Davis and family.

Mr. and Mrs. Clarence Hamilton and Butch spent Friday and Saturday fishing at Burson Lake.

Mr. and Mrs. W. A. Rylant Hobbs, N. M. and Mr. and Mrs. Jack Rylant, Jr., Muleshoe, were guests for Easter Sunday dinner in the home of Mr. and Mrs. Jack Rylant.

Rates Lowered To Youth Groups

Farm and ranch girls and boys of Texas belonging to 4-H clubs, high school classes, Boy Scouts and other organized groups, who plan sight-seeing trips to the Lower Rio Grande Valley this spring and summer will get free guide service and a free meeting hall at McAllen.

Some McAllen motels have agreed to cut their rates more than half for the youth groups. By walking three blocks across the McAllen bridge, over the Rio Grande, they can make a round trip to Reynosa, Mexico, for 13¢. The Texas youths can go from McAllen to South Padre Island for a swim in the Gulf of Mexico, in a drive of about an hour and a half.

Skipworth joined the club. After a short business meeting, the hostess led several games, and then served refreshments.

The next meeting will be April 25. It will be an all-day quilting with a covered dish dinner.

Mr. and Mrs. Gerald Allison and family were dinner guests Sunday in the home of the Oscar Allisons.

by Mrs. C. A. WATSON

Visiting the C. D. Gustins recently were their sons and families, Geoffrey Gustin of Lake Charles, Louisiana, Mr. and Mrs. Leland Gustin and children of Friona, Mr. and Mrs. Ronnie Gustin, Lazbuddie. Geoffrey was on his way to Otis Air Force Base at Cape Cod, Massachusetts.

Mr. and Mrs. Fred Wilbanks and Paul spent the Easter holidays at Artesia, N. M. They visited Mr. Wilbanks' uncle, Bert Wilbanks, then attended the New Mexico State Singing

Convention at Carlsbad on Easter Sunday.

Birthday greetings to Troy Steinbock, Donald McDonald, Susanne Henry, Twila Gallman, Paul Ward and Bobby Jo Jones.

Mrs. W. S. Menefee accompanied by her son, Joe Scott of Corpus Christi, flew here Friday of last week. Mrs. Menefee had been there visiting several days.

Morris Bruns, son of Mr. and Mrs. Les Bruns, chaperoned a trip to Mexico during the East-

er weekend.

Mr. and Mrs. J. G. Ward and boys were in Oklahoma over the weekend visiting her mother, Mrs. St. John.

Mr. and Mrs. Orville Burnett and children attended church in Hale Center Sunday then had Easter dinner with her parents, the Bill Shorts.

The Methodist Church dismissed their services Sunday night to attend the revival being held at the First Baptist Church. The revival will last through Sunday. Everyone is invited to attend these services.

Mrs. Jim Sybert and children, Denton, came Saturday of last week to visit her parents, the Leon Smiths. Jim joined the family Thursday to spend the holidays with friends and relatives.

Linda Lesley, of Spearman,

LIBBY'S GREEN THUMB SALE was much in evidence last week, at the Springlake Superette, as personnel diked out in green aprons and bonnets in observation of the big sale in progress. Cotton Committee Holds Annual Meet

Cutting cotton production costs should be the goal of stepped up cotton research, says the USDA's Cotton Research and Marketing Advisory Committee.

At its annual meeting held recently, the committee proposed more study on breeding, weed and insect control, cultural practices and seedbed preparation, soil and water management, harvesting equipment, ginning and related processes, and storing cotton and seed cotton.

The unattractive appearance of the American cotton bale was criticized and the committee advised the use of new lightweight cotton bagging materials, standardization of

the bale size and better methods of sampling the bales.

Research on improving the wash-and-wear properties of cotton were recommended. New developments with stretch cotton, flame resistant cotton, and cloth that resists rot, heat and weather promise to increase the use of cotton, the committee says.

The committee sees a need for more work on uses for cottonseed oil and a better cottonseed meal, with an accompanying improvement in the processing techniques of cottonseed.

The Cotton Research and Marketing Advisory Committee is made up of some of the nation's leaders in the industry and has two Texans among them. They are Otto Goedecke, president of Otto Goedecke, Inc., Hallettsville, and Wilmer Smith, a Lynn county cotton grower.

TEXAS COTTON GROWERS REPORT:

Entire Season Control of Thrips, Aphids and Mites...

Di-Syston

Untreated plant Di-Syston treated

The result? With Di-Syston, your early cotton grows faster, has stronger, straighter stems, more vigorous foliage. Squares form earlier and the plant produces more of them. Many growers in the Lubbock area have reported full season control of thrip with just the one application. You get higher yields because of the good Di-Syston start. This year, get your crop off to a good start with Di-Syston. Complete instructions for use are printed on the label on every package. Use Di-Syston.

Di-Syston Treated Plants Are Stronger, Straighter . . . Produce More Squares Earlier

West Texas and New Mexico cotton growers now have a new way to control thrip damage and early-season stunting . . . with Di-Syston granular insecticide. Di-Syston is placed in the soil with the seed or side dressed after planting. The chemical is then absorbed by the growing roots and carried to all parts of the plant through the sap stream—as soon as the plant emerges. No part of the plant is unprotected—even tender new growth as it is formed.

SOYBEAN STRAIN PA-8-228-1-B---One of eight new varieties of soybeans, shown here will be among those being selected for a test plot on the Allison farm, Pleasant Valley. Barry Love, assistant agronomist shown standing in a test plot planted with the new strain.

About Plant Diseases," that
plant disease epidemics have
been major causes of human
disasters throughout history
and cite "Irish Potato Famine"
as an example. More than a
million people died because
the potato crop failed--ruined

by a plant disease, late blight.
The crisis continued from
1845-60 and even today potato
growers still are troubled with
the disease.

As late as 1946 in the United
States, Victoria blight, and
oat disease, destroyed the best
fields of the best varieties in
the Midwest. But fortunately,
say the pathologists, varieties
not hurt by the disease were
developed quickly to replace
the diseased ones.

The authors discuss plant
diseases from many standpoints,
including the parts of plants
affected and have used illus-
trations extensively to further
explain the material presented.
Farmers, ranchmen and home-
owners should all find much
usable information in the pub-
lication, the authors believe.
Copies of B-995 are available
from the offices of local county
agents or from the Agricultural
Information Office.

Egg Prices Favor The Consumer

Egg production is up and prices
are favorable for consumers.
Therefore, eggs are a
good food buy and this is the
season for housewives to pur-
chase the big ones.

Since the prices of large and
medium eggs are close to-
gether at this time, large eggs are
usually the best buy, says F. Z.
Beanblossom, extension poul-
try marketing specialist.

Egg quality varies from AA
to C grades, he explains. Top
quality eggs have the most
delicate flavor and are best
for eating purposes, such as

poaching and frying, while
eggs of B and C quality are
commonly used for cooking
and baking, he adds. Penny-
wise, food shoppers should not
shun the lower qualities for
baking purposes since these
eggs contain the same nutrients
as the top quality ones, the
specialist explains.

He advises consumers that
shell color makes no difference
in the food value of eggs. Each
egg, regardless of color--brown
or white--comes with the same
protein, minerals and vita-
mins. Two two-ounce eggs
are the counterpart of an ave-
rage meat serving, he adds.

He reminds the housewife that
even if she buys high quality
eggs, improper handling be-
fore they are used can cause
them to drop in quality. He
suggests that eggs be placed in
refrigerator as soon as they are
brought home and that they
be held under refrigeration
until used. They should also
be kept in a covered carton
with the large end up.
