

Council Approves Site Historical Marker

City Council met Monday, August 7, at 8 p.m. at the City Hall for their regular meeting. The Council reviewed the bills for July and agreed to pay them all.

The aldermen also agreed to purchase a radar for the police car to help control speeders.

The meeting was adjourned with refreshments of cake and coffee served to Doug Parish, Mayor, pro-tem; aldermen, H.S. Hickman, Ross Middleton, Calvin Wood, and Donald Runyon. Also present were City Attorney, Andy Stroebel; Water Supt., Johnny Enloe; City Marshal, Alvin Pittman; Secretary, Betty McAlpine; Truitt Mays and Mr. Hewitt.

Election Judges Appointed

Lamb County Commissioners met in Littlefield, in order of court, appointing judges and all for the following proceedings:

Presiding judge shall be two qualified voters, residents of the precincts.

Alternate Presiding Judge: Ed Dawson, Alternate Presiding Judge.

The terms of the judges shall begin on August 1, and shall be in effect until judges are reappointed or replaced by the Lamb County Commissioners Court.

Special canvassing board for absentee votes are Mrs. Frank Rogers, Presiding Judge, Littlefield; Tom Hilburn, Littlefield; and Mrs. Bobby G. Rogers also of Littlefield.

Swine Feeding Study to Begin At HPRF

Foundation that will cost the object of a swine study beginning this at the High Plains Re- Foundation.

of the study will be a combination of triticale and grain sorghum for swine that is more efficient than either grain, corn or sorghum.

previous feeding com- tests, swine fed a triticale alone did not eat gain from the weight pounds to 125 pounds for weight gain. How- after swine received 125 those on triticale out- the swine on a gain sorghum, Longnecker said, for the present feeding for a ration consisting percent triticale and 90 grain sorghum with the amount increased so betime the hogs reach 125, the ration will be able.

study will be an of a synthetic lysine will be added to the ration to make up for the deficiency in triticale. Dr. said costs of feed- can be reduced fur- artificial lysine can place of the soybean ally added for its lysine. Triticale has than is needed for feeding anyway. Preparations Made for Lamb County Reunion

Mrs. Bonnie Haberer and Mrs. Eula Kelley attended the second planning meeting for "Lamb County Pioneer Reunion" Tuesday evening in the Flame Room of Pioneer Natural Gas in Littlefield. Approximately 20 people attended.

Mrs. Kelley is Vice President of the Association and Mrs. Haberer is a member of the board of Lamb Co. Pioneer Reunion and chairman of the hospitality committee.

This Pioneer Reunion is held each fourth Tuesday of August at the community center in Littlefield.

Local Bank to Honor Teachers

The personnel of the Citizens State Bank are honoring the Springlake-Earth teachers with a get acquainted coffee, August 15, at 3:30 p.m. in the reception room of the bank.

Refreshments of tea, coffee, coffee, punch and cookies will be served.

Mackey McCarty, president of the bank, along with the other

School Registration to Begin Today

Registration for the 1972-73 school year at Springlake-Earth is scheduled to begin at 9 a.m. August 10.

Registration will be in accordance with the following schedule:

MONDAY, AUGUST 14
8:30-10:00 - General Faculty meeting at school cafeteria.

TUESDAY, AUGUST 15
8:30-4:00 - Teacher in service day, S-E School.

WEDNESDAY, AUGUST 16
8:30 - Teacher in service day, Wayland Baptist College

THURSDAY & FRIDAY, AUG. 17 AND 18
8:30 - Teacher in service day, Littlefield High School

MONDAY, AUGUST 21
8:30-4:00 - Teacher Workshop S-E School

TUESDAY, AUGUST 22
8:30-4:00 - Teacher Work Day Kindergarten - 8th grade enrollment. Busses will run at regular time and leave school for home around 10:00.

WEDNESDAY, AUGUST 23
8:30 - First Day of School!

New Teachers Added To School Faculty

The faculty of Springlake-Earth School is now complete with the hiring of eight new teachers for the 1972-73 academic year.

The teachers approved and employed are as follows:

Mrs. Victor Coker has been secured as Migrant teacher for this year. She attended Cisco Junior College for two years and received her B.S. degree from Hardin-Simmons University in Abilene.

Judy and her husband, Vic, are residents of this community living six miles west of Earth. He is a local boy and engaged in farming. We are so happy to have our graduates make their homes here.

Mrs. Coker is the daughter of Mr. and Mrs. J.W. Moore of May, Texas, where she graduated from high school and is a native of that city.

Mrs. Robert Gossett joins the Springlake-Earth School faculty as a Reading teacher in junior high. She is a graduate of Lubbock High School and received her B.S. degree in Elementary Education from Texas Tech in December, 1971. She was active in the Delta Gamma Sorority.

Mrs. Gossett, and her husband, Robert, who is vice-president of Citizens State Bank of Earth, reside west of town. She is the daughter of Mrs. E.C. Pounds of Lubbock and is a native of that city.

Mrs. Charles Summers is our new Kindergarten teacher, and comes to our school system from Dimmitt. Her husband, Charles, works in a chemical store there. She received her B.S. degree from West Texas State University, Canyon, and did her student teaching at Hamlet School, Amarillo. They are residing in the Sunnyside Community.

Miss Brenda Bullard, daughter of Mrs. W.M. Sikes of Whitesboro, Texas, will be teaching English and Spanish in our high school. She received her B.A. degree from North Texas State at Denton. She is a native of Whitesboro, so the South Plains are really something new to her, as our climate here is very different, but she believes she will really like being in our school system. Miss Bullard did her student teaching in Gainesville, 11th grade English.

Mrs. Mike Smith, who comes to our faculty from Otton, will be a beginning teacher, for junior high Science. She received her B.A. degree from Texas Tech and has been a resident of Lubbock for four years. She is a native of Throckmorton and is a high school graduate of that city.

Her husband, Dr. Mike Smith of Otton, is a dentist there. They will be making their home in Otton and she will be commuting.

Youth Revival Underway

A "Christ For All Revival", put together by Youth Styles Ministry, Inc., of Abilene, is being conducted at the Springlake-Earth Wolverine stadium.

Fred Sparkman, former pastor of Slide Baptist Church, is doing the preaching and Phil Hall is conducting the singing.

A 24 hour prayer vigil began at 8 p.m., Wednesday night with the schedule being broken into 20 minute intervals. The youths met at the First Baptist Church and the adults met at the United Methodist Church for these group prayer meetings.

Thursday: 8:30 p.m. Kick off service at Wolverine Stadium. Fellowship following the service in the school cafeteria. Phil and Andy Dietz will provide the entertainment.

Friday: 10 a.m. a sharing session at Baptist Church. Visiting team in charge. 12:00 noon - hamburger fry on parking lot of First Baptist Church. Free time after lunch. 8:30 p.m. - service at Wolverine Stadium. Visiting groups present for service. Fellowship following service in school cafeteria.

Team in charge. Saturday: 8:00 a.m. breakfast at First Methodist Church. Sharing session. Visiting teams in charge. 10:00 a.m. break up to go visiting. The afternoon is free. 8 p.m. service in school cafeteria. Team in charge.

Sunday: 9:45 p.m. High School Youth all together in the First Baptist Church. Adults will go to their regular Sunday School. Team in charge. 11:00 a.m. Joint worship services in the First Methodist Church.

A covered dish luncheon for everyone will follow worship services.

8:00 p.m. final services in the Wolverine Stadium. Fellowship following in the cafeteria. Team in charge.

Each evening and on Sunday morning, an offering will be received to help defray revival expenses and provide the visiting team an honorarium.

In case of rain, the evening services will be in the auditorium of the First Baptist Church. Everyone is invited!!!!

Good Rains Fall in Earth

The area residents east and northeast of Earth were elated to see the nice rain Friday evening. The farmers had debated as to whether to water the cotton again, so with 1-2 inches of rain, it was taken care of.

The rains were very spotted as Springlake reported only 1/2 inch and Earth receiving 1.25 inch. Other reports from the surrounding area were as follows: Carl Smith farm, 1 mile south of the school had 2 inches. Lowell Walden farm 4 1/2 miles northeast had 1.25 inches. The Teel farm, 5 miles north of Springlake received .8 inches. Vicky Coker, 6 miles west reported no rain. Walter Lackey farm, south of town also reported no rain.

The weather is still unsettled so all may get some rain before the skies clear. This would give the farmers a chance to take a vacation before school starts.

Bethel Baptist Church of Houston Present Musical

A most interesting musical "Real" was presented at the First Baptist Church Thursday evening, August 3, at 8 p.m. by the young people of the Bethel Baptist Church of Houston.

where they will spend this week conducting Bible School, working on the church which is being build and many other interesting jobs there.

Enroute to Silverton, they will present their musical at Pagosa Springs, Colorado. It is so inspiring to have these young people visit in our community and we hope they enjoyed being in our city of Earth just half as much as we enjoyed having them. Our church is still echoing with their beautiful voices.

At 8 a.m. Friday, they departed for Silverton, Colorado,

Vacation Nears End With Early Band Practice

Tom SoRelle, band director of Springlake-Earth School, announces that early band rehearsal will begin August 16 at 9 a.m. for all Freshmen and new students.

All high school students will report at 9 a.m. through 12 noon, August 17 through August 22 at the Wolverine Band Hall.

If this time is not satisfactory with all students, it will be adjusted after the Thursday meeting.

These practice meetings are very important as they will be preparing for the first football games. If unable to attend, please contact Tom SoRelle.

Scott Sandel of Amarillo, son of Mr. and Mrs. Ronald Sandel, is visiting with his granddaxer, Mrs. Lucy Lewis.

Chamber of Commerce Enjoys Breakfast

The Earth Chamber of Commerce met Friday, August 4, at 7 a.m. with a breakfast at the Wolverine Drive In, for their regular meeting. President, Tuffy Dent, presided over the business and the success of the fish fry held August 1st was discussed and it was decided to make it an annual affair for all the citizens of Earth and the surrounding trade territory. Approximately 17 members attended this meeting.

BOOKMOBILE SCHEDULE

The High Plains Library will be in this area on the following dates:

THURSDAY, AUGUST 10
Amherst - 9:15-10:15
Springlake - 11:00-12:00
Earth - 1:00 - 3:45

FRIDAY, AUGUST 11
Pleasant Valley - 11:00-12:00
Sudan - 1:00 - 3:45

TUESDAY, AUGUST 8
Morton - 9:30-12:00

SALES SLOW FOR CENTRE

Sales were slow Saturday at the Goodwill Centre since there were several garage sales being held.

Working at the Centre were Mrs. Elsie Hawkins, Mrs. Jimmie Craft, Mrs. B. Campbell and Mrs. Melvin Bock.

Local Teacher Attends Conference

Mrs. Cecil Slover, home economics teacher in the Springlake-Earth School, left Saturday, July 29 for a State-in-Service Education Conference for Homemaking Teachers, held in the Statler-Hilton Hotel, Dallas. Registration began Monday, July 31, in the Mezzanine of the Hotel. Mrs. Slover served in the Hospitality Room, Embassy Ballroom on Wednesday. This was exhibits, films, film strips, and news publications. She reported that this was very interesting and that she enjoyed serving very much.

Monday evening in the Grand Ballroom. Mrs. Penny Winchester, homemaking teacher from Munday, presided over the meeting.

The invocation was given by Rachel Marley of Matt. Greetings were given by J. W. Edwards, Commissioner of Education, Austin; John R. Guemple, Texas Education Agency, Austin; Clatie Hurt, President, Texas Home Ec. Assn., and Area Consultant of Crockett.

Mrs. Elizabeth F. Smith, Director, Homemaking Education, Texas Education Agency of Austin introduced the guests. The speaker, Carl R. Terzian, lecturer and chairman of the board, Carl Terzian Associates, Los Angeles, spoke on "What Shall It Be, Pity or Pride." This was reported to be very interesting by Mrs. Slover.

Tuesday, August 1, at 9 a. m. in the Grand Ballroom brought another marvelous speaker, Nolan Estes, General Supt., Dallas Independent School District, Dallas, using "The Need for Career Education" as his topic. He also used a Career Education film to illustrate this.

Tuesday evening at 7:30 p. m. in the Dallas Memorial Auditorium, a meeting was held for all Vocational Education Teachers. The speaker was the Honorable Loyd Bentsen, House of Representatives, Congress of the United States. Also, Lowell A. Burkett, Executive Director, American Vocational Assoc., of Washington, D. C., gave a speech. Gov. Preston Smith attended

this meeting and it was very interesting," stated Mrs. Slover. On Wednesday, group meetings were held in the Grand Ballroom. The topic of the meeting that Mrs. Slover attended was "Useful Homemaking Education - Using Instructional Materials to Plan Curriculum." Their special consultant was Dr. Camille Bell, chairman, Department of Home Economics Education, Texas Tech, Lubbock.

Her ideas on teaching home ec. were very plainly explained and she told of how one could work to get the best from a student.

Thursday was the ninth annual meeting of the Vocational Homemaking Teachers Assoc. of Texas Area Meeting and the speaker was Dr. Thomas J. Shipp, minister, Lovers Lane Methodist Church, Dallas, who brought a very inspiring devotional, beginning with a true story of his life and using examples of how love for one another, working together, and not being afraid to show the students you are interested in them individually, can really make one a leader of tomorrow.

On Friday, they again had meetings divided into different areas. The meeting for area 1 was held in Embassy West and was presided over by Mrs. Julie Trevino, homemaking teacher from Plainview.

This concluded their week and the meeting was adjourned until next year, 1973, in Dallas.

PARTY LINE

Mrs. Almer Barton was dismissed from the West Plains Hospital in Muleshoe, Wednesday, August 9, and is home feeling weak, but much better.

Ray Boone from Salem, Oregon, visited recently in the home of his mother, Mrs. Mattie Boone of Springlake and other relatives in the Springlake and Earth areas.

Mr. and Mrs. Paul Wood and grandsons, Brad and Matt Sanders of Lubbock returned home Friday after vacationing for the past 10 days in Tres Ritas.

BEAUTIFUL COTTON... Pictured above is a field of cotton harvest are great at this point.

\$600 Offered in Fiddlers' Contest at Fair

Cash awards totaling \$600 are being offered for the 5th annual old fiddlers' contest, scheduled on the last day of the weeklong Panhandle South Plains Fair here Sept. 25-30. Prizes will be awarded in two divisions--59 and under and 60 and over.

First place winners will be awarded \$100 in each division. Other awards, offered in both divisions, include \$75 for second, \$50 for third, \$25 for fourth, \$20 for fifth, and \$15 for sixth and seventh places.

Competition will get underway at 1 p. m. on September 30. Entry deadline is September 18, according to Homer Hunt, contest chairman and longtime member of the board of directors of the non-profit fair association. Committee members include Walt Edney and A. J. "Jack" Meers.

The fiddlers' contest is fast becoming one of the top fair attractions and annually draws large crowds to the competition as well as a large number of top contestants.

Pre-registration is a must and late entries will not be accepted.

In each division, the names of competitors will be placed in a hat and three names will be drawn. The names drawn

will serve as judges. When one of the judges is a contestant, he will be judged by the remaining two panel members.

Tom Waters will be the host of the show and will serve as master of ceremonies.

Finals are slated to begin at 6 p. m. "Old-timers" will appear first. Winners will be announced and trophies will be awarded upon completion of both divisions.

Two free attractions--Tony the organ grinder and Chris, the wonder monkey, plus "The Sensational Leighs" on the giant space wheel--have been contracted for the gala 55th annual renewal of the exposition, one of the largest in the Southwest.

A top-notch card has been arranged for entertainment in the Fair Park Coliseum.

Charley Pride, top box office draw for a two-night stand, will open the week on Monday and Tuesday along with the Pridesmen, country and western singer Johnny Duncan, Alex Houston and Elmer and The North Dixie singers.

On Wednesday, a gospel music show featuring the Blackwood Brothers Quartet, J. D. Sumner and the Stamps Quartet and the Blackwood Singers will appear on stage. An all-

star Mexican variety show, featuring a male and female vocalist direct from Mexico, will take over the spotlight on Thursday.

Rounding out the week will be Roy Clark, The Sound Generation plus Tom T. Hall and the Story Tellers--all appearing on Friday and Saturday nights.

Show times are 5:30 p. m. and 8:30 p. m. daily. Tickets for the Pride show are priced at \$5, \$4, and \$3; and tickets for the gospel music show are \$3 and \$2. Tickets for all other shows will be \$4.50, \$3.50 and \$2.50.

Reading Course Scheduled at SPC

The Developmental Reading course will be taught again this fall. The course is available and is designed to help one's reading speed and comprehension. One of the most students from the course is an excellent reader. The course is taught on an individual basis with one's reading speed and comprehension determined when one begins the course, and from then on, the student reads at his own level and increases his total reading rate. Many students have doubled and even tripled their reading speed as well as greatly improving their comprehension. Miss Ray Davis will be the instructor. Registration for the course will begin August 28 from 7:30-9:00 p.m. Late registration will continue Monday through Thursday evenings from 6:30-8:30 p.m. in the Technical Arts Center from August 29-September 12.

For further information persons may contact Don Yarbrough, Director of Continuing Education at South Plains College, Phone 894-4921. Mr. and Mrs. Newton Goodwin of Plainview visited in the home of Mrs. Gladys Goodwin Monday evening.

TO Too Much Sun Cause Illness

To avoid the sun would be to exist without one of the great pleasures of life. But, as with most enjoyable things, indiscriminate exposure can result in unhappiness and even serious illnesses, according to the Texas State Department of Health.

Most sunlight-induced disorders and diseases are divided into two groups: (1) direct disorders, which are responses that follow an over-exposure to ultraviolet rays in any normal, healthy individual, and (2) indirect reactions, which require the presence of some other skin factor in combination with ultraviolet exposure.

The direct disorders include the immediate, acute sunburn reactions and the delayed reactions that is seen following chronic exposure to light (premature aging, premalignant and malignant lesions.)

The acute sunburn reaction results from a single overexposure to sunburning ultraviolet rays. Reactions can range in severity from a mild, symptomless skin redness, which first appears about 6 to 12 hours after initial exposure and reaches its peak in about 24 hours to a more intense skin response in which tenderness, pain, swelling, and blistering are seen.

While mild sunburn reactions generally end in an appealing tanned skin, severe reactions often lead not only to irregular sloughing of the epidermis with a resulting uneven distribution of pigment, but also to the signs and symptoms of toxic reaction ranging from fever, chills, and nausea to prostration.

The total amount of exposure to sunlight required to produce delayed reactions is unknown; however, it is known that irreversible damage to skin occurs with each prolonged exposure to the sun. Cumulative damage eventually results in the changes characteristic of "aged skin."

Since no system exists in human skin that could immediately alert an individual as to when an overdose of ultraviolet light is being received, it is theoretically possible to receive a lethal dose of such radiation without experiencing any significant degree of discomfort. Fortunately, visible

are present along with the ultraviolet and help to warn of this danger.

State Health authorities say that almost 40 different types of indirect reactions are known to exist. These may range from pimples to eczema, psoriasis, and other skin diseases. Many diseases are worsened by exposure to sunlight. These include viral herpes simplex (cold sores or shingles) and lymphogranuloma venereum (one of the "minor" venereal diseases). There are biochemical and developmental disorders that give rise to defects in pigmentation of the skin, resulting in an increased susceptibility to ultraviolet damage. This type of sensitivity is seen in albinism and phenylketonuria.

Some skin reactions may be induced by internal administration of external contact with photosensitizing substances. An immediate reaction occurs upon exposure to intense sunlight following the oral administration of certain antibacterial drugs and oral antidiabetic drugs. A delayed type of reaction sometimes occurs following skin contact with certain cosmetic agents. Some of the most common causative chemicals are found in cosmetics, detergents, deodorant bar soaps, and industrial chemicals.

The severity of both acute sunburn and chronic damage to the skin is dependent upon individual susceptibility. For example, susceptibility is greater in light-complexioned, red-haired, freckled individuals and in blond, blue-eyed, normally pigmented persons than in darker individuals of the same race. Negro or black-skinned individuals are least susceptible, regardless of skin tone. However, even black people are not exempt from harmful effects of prolonged sun exposure.

Radiant energy emanates from the sun due to its internal thermonuclear reactions. The energy that reaches the outer atmosphere of the earth is composed of wavelengths which range from the very short, highly energetic x-ray spectrum to the very long, low-energy radio wavelengths.

Outside the earth's atmosphere direct exposure to sunlight would be fatal. Fortunately we are protected by the filtering action of oxygen. Less than one percent of the solar radiation reaching the earth's surface lies in the ultraviolet spectrum, and under optimum conditions, only about two-tenths of one percent of this radiation will produce sunburn damage in human skin. The remaining 99 percent of radiation is composed of visible, infrared, and longer wavelengths.

The total amount of harmful ultraviolet radiation reaching the skin at any given time is influenced by such factors as season, time of day, latitude, and conditions of the immediate atmosphere, say state health officials. Latitude is the most important of these factors; the lower the latitude (30 degrees north latitude in Houston vs 40 degrees north latitude in Philadelphia), the greater will be the risk of harmful solar effects.

The hours of greatest risk at all latitudes are between 10 a.m. and 3 p.m. solar time. Certain surfaces in the immediate surroundings, such as white sand, snow, concrete, and shiny metals, can increase the risk, mainly by reflecting the ultraviolet rays. Contrary to commonly held beliefs, a water surface does not greatly enhance one's risk. Sunburn can even be induced by scattered sunlight on an overcast or foggy day.

OUR MEN IN SERVICE

LONG BEACH, CALIF., August--Navy Seaman Recruit James R. Robertson, husband of the former Miss Linda M. Bandy of Route 1, Sudan, is a member of the commissioning crew of the Navy's newest destroyer escort, the USS Brewton which was commissioned this month at Long Beach. His ship, named in honor of a Vietnam hero, Lt. John C. Brewton, is designed for anti-submarine warfare and is homeported at Long Beach.

Senior Citizens Have Special Guests

The Senior Citizens met August 2, at the Earth community building for their monthly meeting, with a covered dish luncheon.

Mrs. Lottie Orteg gave the invocation. President, Crill Bulls, presided over the business meeting with the election of officers for the following year. R. W. Fanning will serve as president; Mrs. Eula Kelley, vice president; Mrs. Bessie Cearley, secretary and treasurer; Mrs. Jack Hinson, program chairman and Mrs. Bonnie Haberer, reporter.

Mrs. Bessie Wood gave a very inspiring devotional.

Mrs. Bonnie Haberer entertained with several selections on her accordion.

After an afternoon of fellowship and reminiscing of days gone by, they adjourned until the first Wednesday in September.

Those present were Mrs. Lena Hite, Mrs. Lottie Orteg, Mrs.

Bessie Cearley, Mrs. Bonnie Haberer, Leonard Green, Mrs. Gladys Goodwin, Miss Ruby Jones, Willis White, Mr. and Mrs. R. W. Fanning, Mrs. Minnie Pate, Mr. and Mrs. Crill Bulls, Mrs. Dean Jones, Mrs. Ruby Hodge, Mrs. Edith Brockett, Mrs. Marie Ross, Mr. and Mrs. Jack Hinson, Kent Foster, Mrs. Beula Coker, Mrs. Mae Hamilton, Mrs. Ida Allen, Mr. and Mrs. R. C. Hyde and Mrs. Eula Kelley. Special guests were Mr. and Mrs. Howard Bulls of Reedley, California; Nova L. Paschke of Idaho Falls, Idaho; Mrs. Hazel Greenlee of Modesto, Calif.; Mrs. Mittie Beard of West Virginia and Mrs. Bessie Wood of Bakersville, California.

Earth, as a community, is doing many little things for its senior citizens, even if they are widely fragmented things. How well these attempts meet the need of its older citizens is impossible to determine.

Friendship Class Enjoys Luncheon

The Friendship Sunday School Class of the United Methodist Church met at noon Tuesday for a covered dish luncheon in the home of Mrs. Edith Brockett.

A business meeting and minutes of the previous meeting were read by president, Marie Ross. Mrs. Mattie Axtell gave the devotional and the rest of

the evening was spent playing games of 42 and 84.

Those enjoying the fellowship and luncheon were, president, Marie Ross, Gladys Goodwin, Bessie Cearley, Mattie Axtell, Mae Hamilton, Ruby Jones, Jesse Sanders, Naomi Burgess, Ida Allen, Adria Welch, Beula Coker, and hostess, Edith Brockett.

UMY Has Program on Trip

The UMY met at the United Methodist Church at 7 p.m. Sunday evening with Ruben Campbell telling of his trip with the UMYF to Ruidoso and also highlights on Camp at Ceta Canyon, near Canyon.

PARTY LINE

Bill Chaney and son, Justin, of Upton were Sunday evening guests of Mr. and Mrs. Don Curtis and family.

Phil Pfifer of New Home is visiting this week with his grandparents, Mr. and Mrs. Hershel Belew and in the Bob Belew home.

Refreshments were served by Brene Belew at the Wolverine Drive in to sponsor, Mrs. Bob Belew, Vicki Dunnam, Craig Holland, Chuck Dumam, Brene Belew, Gina Wisian, Clint Dawson and Ruben Campbell.

Mrs. Stan Kilmer of Oklahoma City, is spending several days in the home of her parents, Mr. and Mrs. G. L. Adrian.

Mrs. W. O. Wood returned for a check-up Friday at the Methodist Hospital, Lubbock, and had the battery replaced for the pace maker in her heart.

She returned home Sunday and is feeling much better.

HEAD GIN MANAGER AND FAMILY... Mr. and Mrs. Kenneth Hooten have moved to Springlake where he is head gin manager for Farmers Cooperative Association of Springlake. Pictured 1 to 4 are Rhonda, 9, Marion, 16, and Tina, 11, with twins, Dean and Geann.

SPRINGLAKE GIN MANAGER MOVES TO NEW HOME

The Farmers Co-op Association of Springlake has purchased the former home of Mrs. Peggy Temple, for their gin manager, Eudell Baucum.

Mr. and Mrs. Baucum and lovely children, Scott, age 7; Tim, 5; and Gina, 2 1/2 are enjoying their new home and Springlake is fortunate to have such a nice family reside there.

Mrs. Nannie Ginn Recuperating in Dimmitt

Mrs. Nannie Ginn, 90 years young, had the misfortune of falling from her breakfast stool at her home Thursday, July 27. She was admitted to the Amherst Hospital and reported to have only had bruises. She broke her glasses in the fall and is still counting her blessings as she has had several black out spells recently. Nannie, as known to many of us, was dismissed from the hospital Sunday, August 6, and is recuperating at the home of her son and wife, Mr. and Mrs. Cecil Ginn of Dimmitt.

Local Residents Move to Seminole

Mr. and Mrs. Britt Roberson residents of Earth for approximately 30 years, recently moved to Seminole. Roberson operated the Britt Fix-It Shop on Main Street in the Herb Wendborn building. Mrs. Roberson was employed by the Drug Store and Wolverine Drive-in.

Earth will surely miss these fine people, as they have reared their lovely children, Virginia, Jimmy, Donna, and Brenda here. All the children attended Springlake-Earth School. Best of luck in their new home.

Mr. and Mrs. Lowell Walden visited in Bula with his mother, Mrs. Pearl Walden, Sunday, and she accompanied them home for a few days visit.

Farmers Cooperative Association Employs New Ginner

Eudell Baucum, manager of the Springlake Co-op Gin Association, is preparing in earnest for the upcoming ginning season with the hiring of a head ginner, Kenneth Hooten, who has 24 years of ginning experience. The family moved to Springlake from Silverton where they resided 9 years. He was associated with Biscoe Co-op Association and

Elevator Farm Supply in Silverton prior to moving here.

He and his wife, Pearl, are the parents of six children, Marion, 16 years of age and a junior; Jimmy, 14 years and a freshman; Tina, 11 and a sixth grader; Rhonda, 9 and a fourth grader; and Dean and Geann, twins, 8 and second graders. They will be affiliated with the church of Christ.

'Sew It With Cotton'

It was announced this week that the "Sew It With Cotton" contest, sponsored by the Lamb and Bailey County Women's Cotton Promotion Association, is scheduled for September. The first place winner in each category will enter the district contest in Lubbock. There will be 10 categories, with prizes given in each category. The style show will be held

on September 26, in Littlefield High School Auditorium.

Anyone interested in the contest should pick up an official entry blank, with the county and district rules, and should return the completed blank, no later than September, to Wanda Legan, 4000 Clauch Gin, Bula, Texas, or Ann Black, Rt. 1 Sudan.

Grand Officers Visit Rainbow Assembly

Earth Rainbow Assembly No. 156 met Monday at 6 p.m., August 7, in the Masonic Hall for their regular meeting. Marianne Messer, Worthy Advisor, and Mrs. M. W. Messer, pro-tem, Mother Advisor, presided in the east. The meeting opened in regular form. Miss Clois Tilson of Hale Center, Grand Representative from Rhode Island to Texas, Grand Assembly of Texas, Order of Rainbow for Girls, was presented behind the bow, given Grand Honors and seated in the east. Mrs. Ann Kelley, Grand Visitor for this district, was also present. Other special guests were Leonard Green of Earth; Mrs. Helen Tilson and daughter, Terri, of Hale Center.

Marianne reminded the girls that the next meeting, August 21, at 6 p.m. will be initiation and if unable to attend this meeting please notify her before this date.

Refreshments of cookies and lemonade were served by Karen Howell and Gina Wisian to the following: Fonda Goodwin, Debbie Green, Vicki West, Donna Green, Kleta Haberer, Becky Littleton, Melissa Been, Susan Clayton, Mrs. Messer, Marianne Messer and the honored and special guests.

PARTY LINE

Mr. and Mrs. Dwayne Louder and boys, Lance and Lane of Flagg were Sunday guests in the home of her parents, Mr. and Mrs. Wayne Rutherford.

Mrs. Dub Martens is still a patient in the Littlefield Hospital. She is recuperating from pneumonia.

Mrs. Laura Fennell accompanied Mr. and Mrs. Ed Thomas of Amrillo, to Dallas over the week-end to visit friends and relatives.

Evan Hamilton returned Tuesday from Nunsweiler, Germany, where he had been a guest in the home of Mr. and Mrs. Lynn Hamilton. While there Evan saw as much of Germany as is possible in one month. Evan and Lynn are brothers and sons of Mr. and Mrs. B. T. Hamilton of Earth. Mrs. Hamilton is the former Jill McCord of Earth.

Mr. and Mrs. W. B. Hicks of Springlake were dinner guests Sunday in the home of Mr. and Mrs. Don Curtis and family.

Birthday Coffee Honors Mrs. Angeley

Mrs. Dora Belle Angeley was honored with a Birthday Coffee Thursday morning at 10 a.m. in the lovely home of her parents, Mr. and Mrs. Frank Butter.

The morning was spent visiting and Mrs. Bonnie Haberer entertained the guest playing selections on her accordion.

A beautifully decorated birthday cake, coffee and tea were served to the honoree, Dora Belle Angeley, Mrs. Beula Coker, Mrs. Lowell Walden, Mrs. Bonnie Haberer, Mrs. Lena Hite, Mrs. Venona Lee, Mrs. Alice Angeley, Mrs. M. W. Messer and the hosts, Mr. and Mrs. Frank Butter.

PARTY LINE

Mrs. Gene Tunnell and daughter, and Mrs. Tunnell's mother, returned recently from San Diego and Los Angeles where they spent a week visiting Mr. and Mrs. Montgomery. While there the group went to Disneyland and various other points of interest. Mrs. Montgomery is a sister to Mrs. Tunnell.

Karen Dear Honored With Party

Miss Karen Ann Dear was honored with a party on her birthday Tuesday, August 8th, in the home of her parents, Mr. and Mrs. J. W. Dear of Springlake.

Delicious birthday cake and ice cream were enjoyed by the guests.

Karen graduated from Springlake-Earth High School last year and is planning to attend Lubbock Christian College.

NOTICE

A bridal shower honoring Naomi Carr will be given in the fellowship hall of the Sunnyside Baptist Church Tuesday August 15th at 3 p.m. This will be a miscellaneous shower and everyone is invited to attend.

Saturday night, Tom and Toni Sanders of Springlake, Mr. and Mrs. Ross Middleton of Earth, Mr. and Mrs. Doug Messer, Mr. and Mrs. Phil Middleton, and Freddie Harrell of Littlefield were guests of Donnie Dent for a backyard cook out.

Traveling With Children Can Be Pleasurable

Does the thought of playing Mary Poppins to squirming, noisy children considerably diminish your anticipation of a relaxing summer motor trip?

fit and padded for comfort. In some cars a standard size crib mattress may be used between the seats when the space beneath is bolstered with luggage.

fastened seat belt is the safest. For the younger child, who requires more mobility, a safety harness which is attached to the youngster and anchored securely to the floor of the car is recommended.

Another important safety measure is attained by closing the space between the front and back seat of the car. Many parents devise a safe play area with a piece of plywood cut to

nighttime driving. One final suggestion from Mazda which parents might wish to consider is that in addition to a good first aid kit they prepare a list giving each family member's name, age, blood type, and allergies or other special medical problems, if any. In an emergency, this can prove to be invaluable information. It can be kept in the glove compartment for quick accessibility.

Springlake HD Club Installs Officers

New officers were installed for the Springlake Home Demonstration Club at their regular meeting in the home of Mrs. Orlan Bibby.

An inspiring reading from the book of "Job" served as devotional led by Mrs. Bibby. Mrs. Hilbert Wisian presented a very interesting and informative program on the arrangement of cut flowers.

Along with planning for safety, older children can be included in preparing for the trip and in carrying out special tasks while traveling. Each child may be assigned a responsibility such as cleaning out the car, making sure the doors are locked, helping father with the luggage or watching for highway signs.

Duties, of course, can be balanced by games. Counting contests, memory and work games are fun and appropriate for car travel and are especially enjoyed by older youngsters. Toys are the most obvious solution for diverting restless young children.

"Back to School" Party Enjoyed by Exes

Mrs. LaDonna Holmans entertained with a "Back To School" get together Tuesday, August 8th from 5 to 7 p.m. in the home of her parents, Mr. and Mrs. V. J. Sigman.

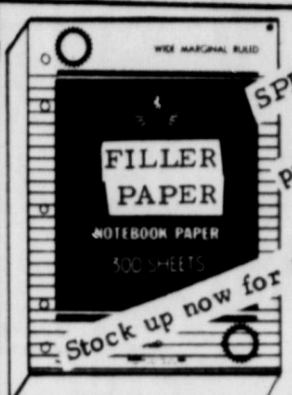

The evening was spent reminiscing about the school year of '72 as all the guests were graduating seniors of Springlake-Earth this last year. Some have married and have chosen the role of housewife, while others will be entering college in September.

Delicious refreshments of strawberry filled angel food cake and punch were served to the following: Donna Dunnam, Phyllis Bridges, Becky Littleton, Janet Britton, Criss Dent, Marion Dawson, Karen Dear and the hostess, LaDonna Holmans.

The next meeting will be September 14th in the home of Mrs. A. Hollingsworth.

Frequent rest stops which allow time for exercise and

Group Enjoy Skiing at Bull Lake

Sunday afternoon and evening were enjoyed when several young people from Earth and Springlake traveled to Bull Lake for skiing. Those making the trip were Dutch Been, Ruth Street, Lisa Clayton, Melissa Been, Charla Dunnam, JoAnn Coker, Karen Dunnam, Jerry Lynn Barden, Carl Sulser and L'Anna Sulser.

They drove into Littlefield and dined at the Dairy Mart before returning home.

Mrs. Sandy Edwards and son, Derek, entertained her father and mother, Mr. and Mrs. Carl Perkins on his birthday Sunday in Lubbock at Underwoods. They also visited the Texas Tech museum.

Words are inadequate to express the deep appreciation we feel in our hearts for the many dear friends who were so kind and thoughtful to us during the loss of our loved one, O.B. Fanning.

For the flowers, cards, and food, we send our sincere thanks. May God richly bless each of you for your kindness. The Fanning and Reed family.

Radiation Accidents Occur Often

An orderly in a large metropolitan hospital drops a glass container full of radioactive material, inadvertently causing a potentially dangerous hazard. State Health Department radiation officials are called in to supervise the removal of this hazardous substance and reduce any exposure to a minimum.

An out-of-the-ordinary occurrence? Not really. Radiation accidents occur about 150 times each year. The hospital incident is only one of the many such radiation hazards or accidents brought to the attention of state health officials.

In addition to licensing and regulating use of radioactive materials and devices in Texas, the Occupational Health and Radiation Control Division of the State Health Department also maintains a stringent watch on radioactivity in our environment.

Recently, the Department asked the Environmental Protection Agency to send specialized equipment to South Texas to monitor areas surrounding uranium mining and milling operations. Officials wanted to be certain that tailings from these operations were not being used as construction fill material. If it existed, this situation could pose a serious public health hazard. Although federal officials earlier found such a situation in Colorado, the State of Texas got a clean bill of health, primarily because of continuous surveillance by state radiation officials.

Although the bulk of their work lies in the licensing and regulation of commercial radioactive materials, these officials have a variety of interesting responsibilities. While routinely sampling the air for radiation and fallout, three separate monitoring stations in Texas detected a Chinese nuclear explosion. The small increase in radioactive fallout was well below any significant health danger.

Many people may come in contact with radiation producing devices and not know it. More and more such devices are in use every day—microwave ovens and radar, for example. That is why the Department provides training in radiation safety, primarily for those who handle radioactive materials.

Although state involvement in radiation protection goes back more than 50 years, it was 1959 before state programs for radiation control and protection became an integral function of the State Health Department. Until then the U.S. Atomic Energy Commission held exclusive jurisdiction over radioactive materials. Licensing and regulation of radioactive materials in Texas was begun in 1963. Today, 1,140 such licenses are in effect. Equipment ranges from the huge irradiation machine which a company in San Angelo uses to sterilize medical products to a device used by a rock and mineral collector in Dallas.

All devices capable of producing ionizing radiation are required by State regulations to be registered. This includes medical, dental, veterinary, chiropractic, and industrial x-ray machines, electron microscopes and other such equipment. Estimates of the number of registrable devices in Texas vary from 15,000 to 25,000 or more.

Non-nuclear power reactors for generating electricity are presently located in Texas, although a few are now in the planning stages. The N.S. Savannah, the first nuclear powered merchant ship, used the Port of Galveston as its repair and refueling port. In addition to this mobile nuclear power reactor, six other smaller research reactors have been operated in the State. There are two each at General Dynamics in Fort Worth and Texas A&M University at College Station, one located on the campus of the University of Texas at Austin, and one formerly at Rice University in Houston. Although such reactors are licensed by the Atomic Energy Commission, the State Health Department also monitors their operation.

In a recent study, the Atomic Energy Commission concluded Mrs. Joyce Seay and daughter, LaLayne of Lubbock are visiting in the home of her parents, Mr. and Mrs. V. T. Gooch and with the Guy Francis Kelley's of Dodd this week.

that processors of radioactive materials and hospitals released many times more radioactive materials into the environment than all the nuclear power reactors. Even before this study was concluded, the State Health Department began taking samples around these processors and hospitals located in Texas, including the large Texas Medical Center complex of hospitals in Houston. While all other categories of users are strictly limited to the amount of radioactive material they can flush into a sanitary sewage system, radioactive materials contained in human wastes pre-

sently are specifically exempted from any kind of release standards. The State Health Department plans a five-year study of the levels of radioactive materials in the sanitary sewer system in the Houston area to determine how much radioactive material is being released to sewage treatment plants and on into the environment.

Texas currently spends about 2.6 cents per capita for an extensive State Radiation Control Program, a substantial savings over the national average state expenditure of 3.6 cents per capita.

The Panhandle South Plains Fair will be turning back the pages of yesteryear with a free attraction guaranteed to please young and old alike this year.

Tony, the organ grinder, and Chris, the wonder monkey, will be entertaining on the grounds throughout the weeklong run, slated here Sept. 25-30. The two will be milling around the grounds for about six hours daily and also will present a free 15-minute show each day at 7 p.m. on the outdoor stage adjacent to the Marchant's Building.

At the turn of the century, the organ grinder visited nearly

every city in the nation. The distinctive sound of the organ and the comic antics of the little monkey with his brightly colored clothes brightened the day for everyone.

Time has taken its toll, however, and there are only a few organ-grinders left.

Tony is no stranger to West Texas, having spent a few months working in the oil fields at Snyder during the oil boom days. He became interested in monkeys about 1963, bought himself a 3-month-old Capuchin, who became the "star" of the act.

Tony has the largest photo

collection of living organ grinders and has built an interest in old music boxes into a fascinating hobby, one which later will be part of a traveling museum.

Another free attraction, plus three horse shows, a pigeon show, bantam show, tropical fish and rabbit shows, women's industrial arts, creative arts, fine arts, livestock and agricultural exhibits also are on the card for this year.

Gene Ledel's million dollar midway also will be back along with military exhibits and a flower festival, the 19th annual West Texas Twirling Festival

and the 5th annual fiddlers' contest.

Premiums totaling \$40,000 are again being offered.

Charley Pride will return to headline the Fair Park Coliseum attractions on Monday and Tuesday nights. He'll share the stage with Johnny Duncan, Alex Houston and Elmer, plus the North Door Singers.

A night of gospel music is scheduled for Wednesday night, featuring the Blackwood Brothers Quartet, J. D. Sumner and the Stamps Quartet, plus the Blackwood Singers.

The all-star Mexican variety show will appear on Thursday

night only, while Roy C. The Sound Generation and T. Hall and the Story Teller will round off the weekly Friday and Saturday nights.

Tickets for the Pridelands show duets are \$3 and \$5. Tickets for the last three days all are priced at \$4.50, \$5 and \$2.50.

Mail order requests are being accepted by the association at P.O. Box 138, Lubbock, Texas 79408.

Mr. and Mrs. Tom Bart and Shelley of Houston spent last week visiting the homes of their parents, Mr. and Mrs. Marcus Sweeney, and Mrs. Alice Louisa Sunnyvale.

Don't Miss This Gigantic Grand Opening

Watch Your Livestock, Now!

Screwworm fly has again invaded Texas, making many livestock producers unhappy. Reports of cases are being received daily and hundreds of thousands of livestock are being lost every day as a result of the fly.

Female adult screwworms lay their eggs on or near any wound or abrasion, including areas on newborn calves. The eggs hatch to larvae that look like the fly maggot, but are much more dangerous. The problem is when the larvae burrow into the live tissue and eat it. They can eat out a large hole in a matter of hours, resulting in much tissue damage. Livestock must be watched closely for such lesions and immediate treatment is necessary. Cases should be reported to your veterinarian or the

County Agent. Then preventive measures can be begun in your area. All larvae must be removed and killed—samples should be sent to the USDA Screwworm Laboratory in Mission, Texas.

If you are spraying livestock for prevention and to keep down fly populations, be extremely careful to follow the mixing directions for the insecticide you are using.

Cases of livestock poisoning have occurred where this precaution has not been followed.

Close observation will be necessary at all times during the fly season to prevent more cases of screwworms. Immediate treatment, reporting of all cases, and preventive measures are necessary if this massive problem is to be brought under control.

Art Festival Scheduled in Littlefield

The 5th Annual Side-Walk Art Festival in Littlefield, will be held August 25, 1972, sponsored by We, The Women, (women's division of the Littlefield Chamber of Commerce) Littlefield Chamber of Commerce, Hart-Thaxton Hardware, Littlefield Glass Works, The Gallery, Perry Bros., and the Art Associations of Littlefield.

All artists who have completed work within the last 12 months not supervised by an instructor are invited to exhibit their work for professional judging, cash prizes, and gift certificates. Registration begins at 1 p.m. in the 500 block on the west side of Phelps Avenue. Number of works exhibited is limited to 5 per entrant and each exhibitor must furnish their own display stand.

There will be two divisions: painting and arts and crafts broken into the following groups: Out of County, Adults, Lamb County Adults, Junior,

(age 14 to 18) Intermediate, (14 and under).

Professional judging will be in the adult division and a best of show will be chosen. Popular vote will determine the recipients of cash prizes and gift certificates. Announcement of winners will be made before the close of the show at 8 p.m.

Along with the concession stand there will be a section provided for the sale of works not entered in the contest so visiting artists will have an opportunity to sell their works (limit of 5 exhibit per exhibitor). Works for sale must have artists name, address, and price on the item.

Co-Chairmen for the 5th Annual Side-Walk Art Festival are Mrs. Ferol Krizek and Mrs. Vera Griffin.

Out of County Adults
1st - \$35, in gift certificates
2nd - \$25, in gift certificates
3rd - \$10, in gift certificates

Lamb County Adults
1st - \$35, in gift certificates
2nd - \$25, in gift certificates
3rd - \$10, in gift certificates

Junior Section
1st - \$20, in cash
2nd - \$15, in cash
3rd - \$5, in cash

Intermediate Section
1st - \$20, in cash
2nd - \$15, in cash
3rd - \$5, in cash

Arts and Crafts
1st - \$35, in gift certificates
2nd - \$25, in gift certificates
3rd - \$15, in gift certificates

Another Tool To Fight Drug Addiction

Another tool in the fight against drug addiction was passed into law by the Texas Legislature recently when it gave the Texas State Department of Health authority to license and regulate methadone maintenance programs.

A Research Advisory Panel to approve or disapprove research projects on humans in the fields of narcotics and dangerous drugs. The seven-member panel will consist of representatives from the State Health Department, State Department of Mental Health and Mental Retardation, State Board of Pharmacy, Attorney General's office, and the University of Texas System.

and thus give the public scientific base line data from which to draw conclusions on the dangers or benefits of these drugs.

Methadone maintenance isn't a new concept in Texas, although its wide-spread use as a drug abuse tool is a recent development. In 1946, U. S. intelligence teams learned that Germany had discovered a new class of potent analgesics with a different chemical structure than morphine. That drug was methadone. Since then, methadone has been used in federal hospitals in Lexington, Kentucky, and Fort Worth, and by private physicians in hospitals to detoxify narcotic addicts.

Legally methadone is classified as a research drug when used in maintenance programs because the risks of taking the medication at this high dose over a prolonged period of years are not known. Therefore, both Federal and State regulations on methadone must be followed.

GSPA Proposes New Basis for Farm Program

The Grain Sorghum Producers Association is proposing a new plan for future farm programs. Elbert Harp, GSPA Executive Director, said, "We are introducing this new plan as a means of obtaining a parity of income for our grain sorghum farmers.

We feel it is applicable to all commodities and will easily be understood by farmers, Congress, and the American people."

Under the GSPA proposal, the Secretary of Agriculture will ask the land grant college of each state, in cooperation with the commodity and farm organizations, to conduct an intensive study of the cost of production of each price supported commodity produced within the state. This study shall include all costs which are typical expenses, and shall consider different cultural practices, such as irrigation as opposed to dryland farming, different soil types, and other regional variations affecting cost.

These costs studies will also consider:

1. Interest on land investment, figured as the current interest rate of the Federal Land Bank times the present market prices of the farm land under each type of farming by area.
2. The current property taxes on farm land and buildings.
3. Interest on farm equipment

and average operating capital required times current bank rates for farm operating loans.

4. All other costs that are normal and typical within a given state or region.
5. Labor, to be figured at current minimum wage levels.
6. A percentage of all other expenses, added as management costs or profit.

When these studies are complete, the Secretary will use them as a basis for computing the National Average Cost of Production for each price supported commodity. This will be done by multiplying the typical cost by the total amount of production, which will give weighted average cost figure for each given commodity, or the "National Average Cost of Production."

Through the use of CCC Loan and Price Support Programs, the Secretary shall administer a production and supply control program that will set a minimum return to farmers who comply with the required production restrictions, as set by the Secretary, of not less than the current year's National Weighted Average Cost of Production for that given commodity, including a profit margin for management.

Harp stated that Texas A&M University has done some preliminary studies on the cost of production nationwide. He said, "We know that such a

study is feasible and that a national weighted average cost of production can be obtained. We feel that this is a business-like approach to setting the price levels for grain sorghum and other commodities in farm programs of the future."

OUR MEN IN SERVICE

SGT. HAROLD L. BURBA JR.

WICHITA FALLS, Tex.-- Sergeant Harold L. Burba Jr., son of Harold L. Burba Sr. of Torrence, California, has arrived for duty at Sheppard AFB, Tex.

Sergeant Burba, a communications equipment repairman, is assigned to a unit of the Air Training Command which provides flying, technical and basic military training for U.S. Air Force personnel. He previously served at Vandenberg AFB, Calif.

The sergeant is a 1968 graduate of Torrance High School. His wife, Susan, is the daughter of Mr. and Mrs. Doug Ruby of Earth.

The heart of a hummingbird beats 20 times faster than a human heart.

Texas Leads Nation In Beef Cattle Industry

Texas leads the nation in all categories of the beef cattle industry, Texas Agriculture Commissioner John C. White reports.

Texas is number one in totals of cattle and calves, number one in beef cows that have calved, and number one in cattle on feed. "Thus, Texas has a tremendous influence on the nation in relation to beef for the consumer," White said.

The livestock industry in Texas is a \$2 billion enterprise. Almost half of the total agricultural income in the state comes from livestock.

Divide up the cattle population among the human population in the state and you'll have slightly more than one beef animal per person. As of Jan. 1, all cattle and calves in Texas totaled 12,829,000. That is more than five million head of cattle above second-ranked Iowa.

Texas as of June 1 became the nation's top cattle feeding state with 2,045,000 head, replacing Iowa.

Texas has more than twice as many beef cows that have calved as second-place Oklahoma. Total beef cows that have calved as of Jan. 1 totals 5,452,000 head, in other areas of the livestock

industry, Texas also either at the top or in the top 10, with the exception of hogs.

Texas ranks number one in sheep and lambs with 3,524,000 head; this is almost twice the number in second place Wyoming; Texas ranks ninth in the nation in milk cows that have calved (Wisconsin is in first place). In hog production Texas, although increasing its number in recent years, is in 14th position in the nation in total hog numbers, Iowa is first.

Rankings by counties in Texas for livestock categories include the following (one through 10):

All cattle and calves: Deaf Smith, Farmer, Hansford, Castro, Swisher, Sherman, Randall, Ochiltree, Hale, Hopkins; Cattle on feed: Deaf Smith, Farmer, Hansford, Castro, Randall, Swisher, Ochiltree, Sherman, Hale, Lubbock; Beef cows that have calved: Webb, Houston, Leon, Van Zandt, Red River, Lamar, Navarro, Henderson, Colorado, Gonzales;

All sheep and lambs: Concho, Val Verde, Crockett, Pecos, Tom Green, McCulloch, Sutton, Terrell, Schleicher, Gillespie;

All hogs: Lubbock, Llano, Fayette, Castro, Mason, Dawson, Comanche, Milam, Lamb and Hale.

Texas ranks second in the nation in numbers of slaughter plants; Texas is third in number of cattle and calves slaughtered during 1971; it is third in sheep and lamb slaughter; and 15th in hog slaughter.

A more detailed look at the Texas livestock industry is available in the 1971 Texas Livestock Statistics, which is available by writing to Texas Department of Agriculture, Box 12847, Austin, Texas 78711.

Mrs. Eudell Baucum of Springlake recently had minor surgery in Plainview. She is home now and feeling fine.

Forrest Simmons is a patient at the Medical Arts Hospital in Littlefield. His condition is reported to be still serious.

Auto Insurance Cost Small In Operation, Government Study Shows

Buying a new car? If you fit a government study, every mile you drive in a standard size 1972 model car will cost you 14 per cent more than it did in 1970, the Insurance Information Institute reports.

The federal study also shows auto insurance as the second lowest cost factor both in 1970 and 1972 in operating a typical American car, the I.I.I. said.

For a typical buyer of a 1972 standard size car that will be driven for ten years (by two or three owners) and for 100,000 miles, the cost (at today's prices) will be 13.6 cents per mile, according to the U.S. Department of Transportation study. In 1970, a similar DOT study showed, the cost per mile for the same was 11.9 cents per mile, thus showing an increase per mile of 1.7 cents from 1970 to 1972.

The 1972 costs per mile are compared with the 1970 costs for various categories. Cost of vehicle and depreciation, 1970, 3.2¢, 1972, 4.4¢, Change, plus 1.2¢, % Change, 37.5%.

Maintenance, accessories, parts, tires, etc., 1970, 1.9¢, 1972, 2.6¢, Change, plus .7¢, % Change, plus 36.8%.

Gas and oil (no taxes), 1970, 1.9¢, 1972, 2.1¢, Change plus .2¢, % Change, plus 10.5%.

Garage, parking and tolls, 1970, 1.8¢, 1972, 1.8¢, Change, none, % Change, none.

Insurance, 1970, 1.7¢, 1972, 1.4¢, Change, minus .3¢, % Change, 17.6%.

State and federal taxes, 1970, 1.4¢, 1972, 1.3¢, Change, minus .1¢, % Change, minus 7.1%.

The startling increase of 37.5 per cent in the cost and depreciation of the new vehicle in just two years is attributed to normal price increases and to new equipment for the ve-

hicles. In 1972, the study also analyzed the cost per mile of compact and sub-compact cars. It found the compact will cost 10.8 cents per mile to operate and subcompact 9.4 cents per mile.

The decrease in the cost per mile for auto insurance in the study is accounted for by a change in what the Department

of Transportation researchers considered typical. In a 1970 study they used a large insurance rate as typical. The rate which was considered typical in 1972, in either case, the I.I.I. said, the government figures show that the increase in the second lowest cost factor in operating a typical American car.

HPRF To Have Field Day, Open House September 14

Date for 16th Annual Field Day and Open House at the High Plains Research Foundation has been announced by Dr. T.C. Longnecker, director.

The 16th Annual Field Day and Open House of the research plots and facilities at Halfway will be from 1:30 p.m. until 5:00 p.m., September 14.

In announcing the date, Dr. Longnecker also described a change in Field Day program and activities.

In past activities, the day has concluded with an evening program, guest speaker and drawing for prizes for Foundation members. This year there will be no speaker and the prizes will be awarded to everyone registering whether they are members of the Foundation or not, Dr. Longnecker said.

In addition, three \$25 savings bonds donated by area businesses will be awarded at the conclusion of each of the field tours. These savings bonds will be awarded by drawing and everyone making the tour will be

eligible to win.

The field tours will feature four research scientists at two stops to discuss various facets of Foundation research activities and general agricultural conditions.

An in past Field Day and Open House, research facilities will be open for inspection and area agricultural agencies and commercial agricultural businesses will have displays. According to Jack Cloude, in charge of the display areas, more than 30 exhibit spaces have been reserved and that many more are expected.

Entertainment during the day will be provided by area musicians.

One special display will exhibit triticale foods and serve food samples throughout the day.

At the conclusion of activities, a drawing for a color television will be conducted. Anyone registering during Field Day and Open House is eligible to win.

HEALTHY MAISE CROP... The Area Maize looks good. Farmers, businessmen and everyone are hoping the crops continue their healthy growth and that this years harvest will be the best yet.

Revaccinating Horses for VEE Good Insurance

It's just good insurance to vaccinate all horses, mules and donkeys against the dreaded sleeping sickness, Venezuelan equine encephalomyelitis (VEE) even though the animals were vaccinated last year when the disease reached epidemic proportions in Texas.

"Revaccination is the surest and safest way to protect horses and other equine against VEE, even though the vaccine should provide immunity for more than a year," emphasizes Dr. James Armstrong, veterinarian with the Texas Agricultural Extension Service. "Revaccination is not compulsory but is an extra precaution."

As far as the vaccination of foals and pregnant mares is concerned, Armstrong points out that there has been some change, according to recent hearings at an International Conference on VEE in Kansas City, Missouri.

At the conference it was resolved that foals of immune dams in high risk areas should be vaccinated when three months of age and again when weaned at about six months of age. Unvaccinated pregnant mares in high risk areas should be vaccinated regardless of state of pregnancy.

In addition to VEE, the veterinarian stresses the need to vaccinate animals against the Eastern and Western strains of equine encephalomyelitis. Once animals are vaccinated for these two strains, a booster shot should be given every year.

Armstrong advises that all vaccinations should be given by a veterinarian. He also encourages horse owners to move their animals as little as possible to reduce the risk of spreading VEE.

The disease will remain a threat until late this fall when cooler weather suppresses mosquito populations. The mosquito is the main carrier to the disease.

Employment Census Collected Next Week

A number of households in this area will take part in a nationwide survey on employment and unemployment to be conducted the week of August 14-18 by the Bureau of the Census, Percy R. Millard, Director of the Bureau's Data Collection Center in Dallas, announced today.

The survey is taken monthly by the Bureau for the U.S. Department of Labor. The households interviewed are scientifically selected to represent a cross section of all households. Statistics on conditions in the labor force from month to month provide a continuing measure of the economic health of the country. In June, for example, the Nation's unemployment rate dropped to 5.5 percent. The decline, from 5.9

percent in May, brought the jobless rate to its lowest in more than a year and a half. Information supplied by individuals participating in the survey is held confidential by law and is used to compile statistical totals.

PARTYLINE

Mr. and Mrs. Steve and Chad Hereford, in the home of her parents, Mr. and Mrs. Elmer over the week-end.

Mr. and Mrs. Clayton and Mrs. Elmer Rankin are vacationing in the home of her mother, Mrs. Dora Belle Angele.

Mrs. M. W. Mener is in Amarillo with her mother, Mrs. Nora Sunray and the Warren family.

VEE Not The Only Danger To Texas Horses

Venezuelan Equine Encephalomyelitis has been much in the news since the 1971 VEE epidemic in Texas and animal health authorities this year continue to urge vaccination and revaccination against the disease. Dr. Dennis McIntosh, San Antonio veterinarian and chairman of the Texas Veterinary Medical Association's Public Information Committee, also reminds horse owners that "the 'OLD' diseases for which we vaccinated horses in the past must not be overlooked."

The other encephalitis diseases, Eastern and Western, still show their ugly symptoms when least expected. Two vaccinations at a 7 to 10-day interval are all that's necessary for annual protection.

Tetanus, or Lockjaw, a well-known killer of horses, may be protected against with a simple yearly booster.

Horses that are shipped, boarded or in contact with horses that are in movement should be protected against Equine Influenza and Strangles (Distemper).

Leptospirosis, a crippling disease that can be contracted from rats which infect feed and water, needs to be considered as a potential danger.

Dr. McIntosh suggests, "When talking to your veterinarian about vaccinations, ask him about a prevention program for parasites. Prevention is always cheaper and easier than trying to treat a disease that may kill or cripple your valuable horse."

PARTYLINE

John and DeAnne Trent of Amarillo are spending several days in the home of Mr. and Mrs. Cecil Stover and family.
