Bank at Olton, Anton, and Earth will act as redepositories where contributors may leave their checks to be held until enough money has been raised. If the \$160,000 goal is not reached checks will be returned to the contributors.

Little Dribblers Growing Yearly

Sixty-five boys from Springlake and Earth are enjoying participating in the Little Dribblers program which is in its second year here.

Little Dribblers, Inc., is a non-profit organization which teaches basketball knowledge and techniques to boys 8, 9, 10, and 11 years old. Little Dribblers, Inc. is headquartered in Levelland.

The Springlake Little Dribblers won the American Division Championship in the First National Little Dribblers Tournament in April of last year. Eleven teams representing teams from Arizona, New Mexico, and Texas competed for the first championship designation in the Texas Dome on the campus of South Plains College.

The national champs might very well come from this area this year because Springlake, Earth, Littlefield, Anton, and Whitthart have more than 250 boys in the 1972 program.

Not only are the win-loss records much improved among junior high teams whose members participate in Little Dribblers, but obvious side benefits of higher grades, better homework accomplishments, more study incentive, more

WHAT IF...?

By DAVID HARTMAN

Have you ever stopped to ask yourself that question? Perhaps it's foolish to even consider such but let's do it anyway. What if everyone decided to start practicing genuine love for each other? Do you suppose there would be any changes in our town?

What if everyone began to active interest in school activities, and reduction of juvenile delinquency are showing up in participants.

Little Dribblers, Inc. insists on satisfactory school work as a prerequisite.

Before March 1, there may be more teams in this year's program. Teams organized by the end of this month would still have time to play a six week local schedule. Then it will be on to district play. All stars will make it to the dome for the second national tournament.

practice honesty? Reckon the business people could stand it? If we were honest with one another rather than trying to con or favorably impress each other to our own advantage, reckon what would happen?

What if everyone stopped trying to read between the lines things that are not really there? Would it help to improve inter-personal relationships?

What if we put the interest of others above our own?

What if everybody who is a member of our local churches decided to attend his church on a given Sunday? I can only speak for First Baptist. We would not be able to comfortably seat everyone if that were to happen.

Oh and on we could go. It doesn't really change anything to ask "What if?". However, it is intriguing to dream how it

might be if some things were done differently. We all must have our ideals. Yet at the same time we must live in a real world where our ideals and the way things really are often differ. That does not mean we must discard either of them. We only have to work harder to unite our ideals and reality.

Blues Beat Maroons 6-4

The Little Dribblers Blue team coached by Allen Smith, beat the Maroon team, coached by Don Randolph by a score of 6 to 4 when they played last week.

Andy Flores was high point boy for the Blues with four points.

Donnie Wyle led the winning team in scoring with 9 points.

Kevin Kelley scored two points.

Clint Dawson scored all six points for the losing team.

The Golds committed three fouls and the Blacks committed one.

Coach for the Black team is Glen Smith and Neil Pound coaches the Gold team.

Regina Meeks Receives Betty Crocker Award

Regina G. Meeks has been named Springlake-Earth High School's Betty Crocker Home-Maker of Tomorrow of 1972. Selected on the basis of her score in a written knowledge and attitude examination administered to senior girls last Dec. 7, she will receive a specially designed award chalice from General Mills, sponsor of the annual educational program. Additionally, she is now eligible for state and national honors.

The State Homemaker of Tomorrow, to be chosen from all school winners in the state in judging centering on their performance in the Dec. 7 test, will be awarded a \$1,500 college scholarship. A complete set of Encyclopedia Britannica will also be awarded to her school by Encyclopedia Britannica, Inc. The second ranking girl in the state will receive a \$500 educational grant.

In April, the 51 Betty Crocker Homemakers of Tomorrow representing every state and District of Columbia—each accompanied by a faculty advisor—will join for an expense-paid educational tour of Colonial Williamsburg, Va., and Washington, D.C. Climax of the tour will be announcement of the 1972 Betty Crocker All-American Homemaker of Tomorrow and three runners-up. To be chosen through personal observation and interviews, together with the earlier state-level judging results, they will be awarded scholarship increases to \$5,000, \$4,000, \$3,000 and \$2,000.

In addition to the grants awarded state and national winners, a \$1,000 National Nutrition Scholarship has been added to the Betty Crocker Search for the American Homemaker of Tomorrow this year. To earn this award, a young woman must be planning a college major in nutrition or a related field, rank among the highest in her state in the overall search test and achieve the top score, from those meeting the first two criteria, on the

REGINA MEEKS

examination's nutrition questions.

All judging and selection of winners in the Betty Crocker Search is conducted by Science Research Associates, Chicago, which also constructed and grades the written examination.

More than 650,000 senior girls in over 14,500 of the nation's high schools were enrolled in this year's 18th annual Search. Total enrollment since the program's inception in the 1954-55 school year stands at over eight and one-quarter million young women, and, with this year's grants, scholarship awards will total nearly \$2 million. The Betty Crocker Search for the American Homemaker of Tomorrow is the only national scholarship program exclusively for high school senior girls.

Permanent Eyelashes

NEWEST BEAUTY SENSATION

Long, lovely and glamorous, and NOT REMOVED AT NIGHT leaving that "bare face" look. No one can ever know they are not your very own.

You have heard about them and read about them being given in the countries style centers — now you can get them for yourself here in Clovis, at Orchid Figurette, 516 Mitchell.

QUESTIONS AND ANSWERS
Q. Is there any pain involved?
A. No. Nothing even touches your skin.
Q. Are one's own lashes covered?
A. No. The new lashes become a part of your own lashes.
Q. Are all permanent lashes the same?
A. No. There are many types. We

have tested most of them and have, of course, chosen the very best. Lighter, more natural looking, hold together better, more easily applied.
Q. Is it still in applying them an especially important feature?
A. Most certainly. All our eyelash technicians have received intensive special training. A steady hand, superior dexterity and proper

training are musts.
Q. How long does it take?
A. About 20 minutes by appointment.
Q. The price seems high. How does it compare with other salons?
A. In many cities, \$15.00 is the standard price. Our policy of the fine service of conservative prices dictates the prices quoted by us.

The most beautifying, gratifying, pleasing innovation ever to enter the beauty picture, a thrill you'll constantly enjoy.
