

Anderson Named Director To Cooperative Ginners Association

L. K. Anderson, manager of the Earth Co-op Gins, Inc., was elected to serve on the board of directors of the Cooperative Ginners Association of Texas. The popular vote was taken during the annual meeting of the association February 4-6 in Houston. Anderson will represent District I.

District I covers a nine county area and includes 40 associations, composed of Bailey, Castro, Cochran, Hockley, Lamb, Palmer, Swisher, Terry and Toakum counties.

Anderson has had 16 years experience as a gin manager; he served as manager of the Hackberry Gin at Post, Sudan Gin at Sudan and Artesia Co-op Gins, at Artesia, N.M., before becoming manager of the Earth Gins, Inc. of Earth. He has served six years as manager of the local coop Gins.

Attending the convention with Anderson at Houston were Mrs. Anderson and Mrs. Donald Kelley.

While in Houston Mr. and Mrs. Anderson attended the National Polo Championship game at the Astro Dome, between New York City and Houston.

Other area residents attending the convention were Mr. and Mrs. Hilbert Wisian, Mr. and Mrs. Douglas Walden, and Mr. and Mrs. J. J. Coker of Springlake and Mr. and Mrs. W. E. Miller of Otron.

Mr. and Mrs. Wisian left for the convention February 1 and visited in Deer Park with their daughter, and family, M., and

L. K. ANDERSON

Mrs. C. E. Hawkins. After the convention they visited Mr. Wisian's mother, Mrs. Ernest Wisian, also Mr. and Mrs. Henry Voller. They returned home Sunday.

Mr. and Mrs. Coker met Mr. and Mrs. R. L. Byers, and Mr. and Mrs. Jimmy Banks at Falcon Lake where they visited and fished until returning home Sunday.

Mr. and Mrs. Walden went on a sight seeing tour at Houston following the convention before flying home.

Mr. and Mrs. Miller traveled to the convention by chartered bus, after the convention they took several tours, including one to Galveston.

NOSIN... WITH POLLY

I've heard the expression or reference to "The good old days" used quite frequently. Each time I hear this, I am made to wonder just when the good old days really were. Those speaking of the good old days are frequently from different eras in life, different generations.

Perhaps these good old days were "youth," regardless of the era in which the one making the reference lived.

Doubtless, to each of us childhood and early adulthood leaves many pleasant memories, neatly tucked away in the remote corners of our brain, just waiting to bring forth a smile. Those were the tender years, and had nothing whatsoever to do with the economical situation or national outlook of the people, but was the good old days only because we were young, launching out in a nation full of opportunities. Doubtless, at this point in life we felt ready to tackle the task before us, come what may.

Actually times may have been hard, during the good old days without notice, happiness can take the edge off hard times and leave it almost void in its efforts to weaken a strong will and a happy heart.

Taking the numerous dates, called the good old days, I have arrived at the brilliant deduction that "the good old days" is a time in each life rather than a date on the calendar.

If this is true, isn't the good old days left individually up to us. Depending on our frame of

mind rather than the status of things about us.

Taking this all into consideration, why can't we devote much concentration toward making each day one of the good old days in Earth-Springlake community.

If we put off being happy until tomorrow, who knows, we may never know happiness or remember the good old days.

Junior Livestock Show Set For Friday and Saturday In Local FFA Barn

February 16 and 17th are the announced dates of the annual Springlake-Earth Junior Livestock show slated to be held at the Springlake-Earth FFA Barn in Earth. Scheduled beginning time for the show is 8:30 P. M. Friday with the sale starting at 1:00 P. M. Saturday.

Around 44 junior exhibitors, including several girls, will march into the limelight in the spectator-encircled arena to exhibit livestock they have spent many weeks feeding and grooming in preparation for this exciting date.

From the standpoint of number of animals, the show isn't a "box office" attraction, but it is well-known for the fierce competition it produces season after season and the capacity crowd it draws every year. From the show, many of the winners have advanced into bit time competition to claim high honors, including many grand-champion awards.

Entries for FFA and FFA are as follows: Myrna Dear 2 lambs, Lonnie Dear 1 pig and 1 lamb, Eddie Jones 2 pigs, Bill Gover, 2 pigs, Allen Hatfield 2 pigs, David Templeton 2 pigs, Craig Barton 1 calf and 2 pigs, David Foster 2 pigs, Johnny Alair 1 calf and 1 lamb, Terry Bridge 2 pigs, Brian Hamilton 1 calf, Thomas San Miguel 1 lamb, Mike West, 1 calf, Monte Winders, 2 pigs, Johnny Eagle 2 pigs, Willie Wilborn 2 pigs.

4-H DIVISION: CALVES: Donald and Jennifer Templeton, Mark and Rusty Walde, Bruce and Brad Bridges, Dean and Brad Walden, Doug Jones, Kent Lewis, Welda Barton, Eddie Alair, Kevin Henson and Brian Hamilton. LAMBS: Sheila Lewis, 2; Dears, 10; Dallas Clynoch, 2; Welda Barton, 2; Terry Bell, 2; and Pat and Mike Cleavinger, one each.

BARROWS: George Bloodgood, 2; Dears, 4; Mike Cleavinger, 1; Dallas Clynoch, 2; Steve Randolph, 1; Steve Hay, 2; Terry Bell, 2; Dike Gaston, 2.

Dimmitt Co-op Gives Revised Plant Plans

DIMMITT (Special)—Wheat Growers, Inc., a FFA-affiliated cooperative, voted Saturday to increase capitalization by \$3 million in order to build a wet-milling corn plant here.

Meeting at Dimmitt High School to vote on the issue and hear a prospectus on the plant, cooperative members approved increasing capitalization to \$8,015,000.

Present capitalization is \$5,015,000.

Aaron Isaacs, cooperative general manager, said only 16 negative votes were cast. Approximately 300 members attended the meeting.

Isaacs said Houston Bank for Cooperatives has already signed a contract to furnish a major portion of money to finance the mill.

Dimmitt Wheat Growers Cooperative will raise its shares by requiring producers to buy new first preferred stock issues when they contract to supply the mill with corn.

Construction begins soon. A producer will be required to invest \$7,000 in stock in order to supply 1 million bushels of corn per year to the mill.

The producer will be paid the market price for the corn at harvest time and will receive further dividends from the sale of products processed by the mill.

The mill will produce corn syrup, starches, oil and high protein cattle feed.

Directors of the cooperative said construction will begin soon with a completion date set for January, 1970, so that the mill can process the 1969 crop.

The mill, designed by Proesa Engineers, will be a two-story structure located on 3.6 acres in East Dimmitt. The plant will be automated with a capacity of 10,000 bushels per day requiring 70 employees during the milling period.

James Harsh of Dimmitt, project coordinator, said the plant

School Board Election Set

The Springlake-Earth school board set the first Saturday in April, (April 6) as the date for the local school board election.

There are 14 corn wet-milling plants in the nation, he said. The Dimmitt plant will concentrate on southern and southwestern markets.

There will be two vacancies on the board to be filled at that time. Those whose terms expire are Guy Kelley and R. L. Byers.

Place for the election is located in the Springlake-Earth high school library.

Les Watson was appointed election judge. His assistants will be Leroy Wilkinson, assistant judge; Ed Dawson, Howard McCreary, Russell Haber and Jack Angeley, clerks.

Mrs. Gacy Clynoch was appointed to act as absentee balloting clerk.

Springlake City Election Slated April 6

Floyd Crawford, Mayor of Springlake has announced that the Springlake City election will be held the first Saturday in April and that all candidates for the various city offices must file 30 days before the election date.

City offices in question are the office of the Mayor and five city Aldermen. Polling place will be the Community Building in Springlake and the deadline for candidates to file their applications is March 7, at 5:00 P. M.

W. C. White will be Election Judge and Ralph Ridd has been named as absentee clerk.

Mr. and Mrs. Don Curtis were Sunday dinner guests in the Gene Chaney home.

Mr. and Mrs. Gerald Inglis were in Littlefield Monday visiting with Mr. and Mrs. Eugene Griffin.

New Welding Shop Opens In Earth

George Washington, formerly of the Earth Pump and Machine Company, has announced the opening of the Earth Welding shop, located in the Herb Wendhorn building on second street in Earth, Texas. The new business was formally opened Monday, February 12.

Washington has had eleven years of experience in his qualified field, and announces he is well qualified to do welding of any nature plus hard surfacing. He was employed by the Earth Pump and Machine Company for two years, and with the Springlake Welding Company for the same length of time.

Tax Monies To Remain In County Depository

In a hearing Monday afternoon in the 154th District Court in Littlefield, to determine the destiny of tax funds collected for Earth-Springlake Hospital District, County Judge Pat Boone ruled that the tax monies would be retained in the County treasury until a decision was handed down on the suit now pending in the Court of Appeals in Amarillo, of if, the controversy should go to the Supreme Court, the tax money must be retained in the County treasury until all is settled.

This hearing Monday was the result of a suit titled Earth-Springlake Hospital District, Plaintiff, Vs. Herbert Dunn, Tax Assessor and Collector of Lamb County, Texas, and was made necessary to provide Dunn with instructions to either turn over the monies to officials of the district or to withhold it until completion of all appeals to a recent court decision upholding the district's creation.

In his answer filed last week, Dunn explains he has collected the taxes, and was preserving the funds and if creation of the hospital district is finally upheld by the courts he would have the money on hand and turn it over to the Plaintiff. "If on the other hand such monies be turned over to such Plaintiff hospital district and then the courts finally do not uphold the election levying such tax, then it would be difficult to refund unto such taxpayers the sum or sums so levied." He will willingly abide by

the court.

THE PLAINTIFF'S Petition for Mandamus, filed Jan. 31, explains the district's depository is the Citizens State Bank of Earth and said that under House Bill 768 the Defendant is directed to deposit such funds in such depository after collecting his fees.

The petition asserted the Plaintiff is entitled to have the money deposited for its use for those purposes set forth under H. B. 768 and defendant has no authority to withhold the money, that an appeal is pending which might be "kept in court for some time" and... "Plaintiff desires to have the money draw interest income until final outcome of the appealed cause."

INTERVENORS in the case Robert Akin et al, through their attorney, Jim Walters of Lubbock, requested subpoenas for all members and past members of the district's board of directors to appear at the hearing.

By late Friday, subpoenas had been issued for Neil Pounds, president of the hospital district board, and Douglas Parish, secretary, both of Earth.

Others listed on the request for subpoena were Marshall Kelley, Dub Chesny, Perry Martin and Joe B. Temple, all of Earth, and James Busby of Springlake.

THE SUBPOENAS called for persons to bring all books and records pertaining to the Earth-Springlake Hospital District.

Wolverette - Queen B Game Thursday

A pie sale is slated for tonight (Thursday) February 15 in the Springlake-Earth Gym. The auction will take place during half-time of the game between the might Wolverettes and the Queen Bees.

The pie auction is a money making project to raise funds to pay for one of the two new scoreboards, that were installed Tuesday in the local Gym. Joe Temple, President of the Citizens State Bank donated one of the score boards. The two boards were purchased at a cost of \$1050.00 each.

Dallas Clynoch, Coach for the top performing Wolverettes, said three of the famed Flying Queen team would be playing with the Queen Bees in the Thursday night game. He said this would tend to increase the fighting spirit within both the teams and should prove to be a very exciting game.

The game is scheduled to begin at 8 p. m. Admission will be \$1.00 for adults and 50¢ for students.

Two practice games have been slated for the hard playing Wolverettes. The local females will play Hale Center in the local home gymnasium at 7:30 p. m. Monday, February 19. Admission will be \$1 for adults and 50¢ for students.

The second practice game has

been set with Slaton at 7:30 P. M. on Thursday, February 22. The game will be played at Slaton.

LOCAL GYM HAS THAT UP-TOWN LOOK... Two new score boards were installed Tuesday in the local gymnasium. The local Bank contributed one of the score boards. A pie sale is slated tonight to raise funds to pay for the other.

Three Inches Of Snow Falls In Area

Three inches of snow fell in the Earth-Springlake area, beginning Monday afternoon and covering the ground.

Again Tuesday and Tuesday night the snow would fall at different intervals during the day and night. By late afternoon Wednesday the sun began to shine in the area and the snow began to thaw.

Farmers in the area were proud to have the additional moisture the snow provided.

Expect Heavy Voting In Primary Elections

Earth and area residents will have only one heavily contested race to face them in the upcoming Democratic Primaries.

Four men have entered the Sheriff's race, incumbent Dick Dyer withdrew from the race, leaving the office wide open. Those filing for the office are E. D. McNeese, Don Hatley, W. A. Hatfield and S. H. Russell.

UNCONTESTED Democratic candidates for local offices are Jack Young, district attorney, 154th judicial District; Curtis R. Wilkinson, county attorney; Herbert Dunn, county tax collector-assessor; J. L. Drake, constable; Precinct 3; W. G. Finney, justice of the peace; Precinct 1; Glenn Batson, county Democratic chairman, Precinct 2. No Republicans had filed for these posts.

On the state level, Democratic incumbent Bill Clayton will face Republican J. Frank Ford of Hereford in the November election for representative, William H. Evans, Lubbock Democrat, is unopposed on either ticket for the position of membership on the State Board of Education.

The area's national decision will be made between Incumbent Republican Bob Price and Hartley County's Democratic candidate J. R. (Dick) Brown in the race for representative, 18th Congressional District.

ROBERT MEINECKE of Otron seeks re-election as county Republican chairman.

Incumbent Democratic precinct chairman are Glen Exter, Otron, Precinct 1; Bruce Higgins, Earth, Precinct 2; N. N. Frey, Spade; W. H. Cunningham, Littlefield; R. D. Nix, Sudan; Russell Haberer, Pleasant Valley; R. L. Mtsen, Sudan; J. W. P. Holland Sr., Amherst; Vemon Qualls, Littlefield; Jim Melton, Sod House; 10; Robert Dysart, Rocky Ford; 11; Billy Hall, Littlefield; 12; V. H. Densing, Pep; 13; Johnny Talburt, Hart Camp; 14; Floyd Crawford, Springlake; 15; Bruce Porcher, Littlefield; 16; and Orville Cleavinger, Springlake; 17.

LAMB COUNTY voting may well break all its previous voting records with an incomplete count of 8,950 persons having registered to vote in the forthcoming primaries and elections. Although some persons may have registered who were ineligible, certain groups pertaining to age, residence time and naturalization can register after deadline, so the 8,950 figure may prove close to the final count.

This represents approximately 2,000 more than the record poll taxes paid in 1959.

Present county voting record was established in 1964 when 6,542 persons went to the polls, breaking the previous record of 6,293 in 1960.

INCUMBENT Congressman Bob Price, who says, "My first year in Congress has been most gratifying... As a freshman member, I have attempted to give the Parhandle the kind of representation in Congress, I believe the people want," has supported stronger state rule. In his announcement release he comments,

"It is encouraging to me that there is a trend away from further centralization of government in Washington and I believe this trend will continue... The nearer government can be kept at home, the more responsible it is."

This is part of a discussion a friend of mine and I were having not long ago. We didn't come up with an answer, nor even an agreement. I'm not really sure there is one. If there is, it probably is in the simple fact that it is all up to the individual.

We were discussing pain. The physical compared to the mental. We were trying to persuade each other to agree to our own point of view. It didn't work out that way, but the discussion was good.

My friend states that there is no pain compared to deep physical pain. The breaking of limbs, burning by fire, cutting by knife, automobile wrecks with critical injuries; this kind of pain, I said that mental pain can be as injurious and as painful as physical pain.

For my arguments, I mentioned facts like the loss of loved ones. I don't really believe anyone can deny this can be one of the most painful hurts man can endure. I went further and explained the feeling one gets when a friend, a really true friend, lets you down. There are many ways, of course, that this can be done. The betrayal of a trust; the telling of a falsehood about you. Any way really. The manner doesn't matter. It is simply that one you've had the utmost faith in has belied that trust.

And, to further augment my argument, I mentioned the fact that loved ones can hurt you even more so. I know how I feel if someone I love does me wrong. Not a physical wrong, but a mental one. A wrong such as lying to you, and all the while you know they are lying, and in some cases they know you know. And yet, this person in whom you have put faith and love, is right before you fabricating to beat sixty. And you walk away, shaking your head in bewilderment and perplexity, hurt to the core, both by confusion and mental pain.

Broken limbs can be repaired, knife cuts can be stitched and healed, and flesh injuries mended. But mental pain can stay with you all the rest of your life.

My friend states this is foolish. All you have to do is to be realistic, harden yourself to these simple facts of life, and forget it. It may be that he is right. It may be that I must try this, turn my back on certain things I hold true and dear, and become a hardened person who merely shrugs his shoulders and says, "the people who do these things are really not worth bothering about."

Well, I've tried this. It doesn't work for me. Because I do care, and I still say mental pain can be more painful than physical pain.

Joe Montgomery County Rep For Easter Seal Appeal

Mr. Joe Montgomery will serve as Easter Seal Representative and Treasurer for the 1968 Easter Seal Appeal in Lamb County. It was announced by Robert W. Milam, M.D., of McAllen, President of the Easter Seal Society for Crippled Children and Adults of Texas.

Residents of Lamb County will receive the annual Easter Seal Appeal letters in the mail beginning March 1. The Easter Seal Appeal, conducted yearly to provide disabled persons and their families treatment and service adapted to specific community needs, will be conducted until Easter Sunday, April 14.

Mr. Montgomery is one of 169 men and women throughout Texas who are serving in this capacity. The cost of the statewide program is over one million dollars, financed mainly by the Easter Seal Appeal. Almost 90 per cent of all funds raised by the Easter Seal Appeal remain in Texas to support the growing needs of the disabled in the state.

Special emphasis is being given in the 1968 Easter Seal Appeal to the disabled citizen or his family in the Lamb County who

may need assistance and not know where to obtain it. Any disabled person can contact Mr. Montgomery at Security State Bank, Littlefield, Tex. who will refer the request for services to the Easter Seal Society. A determination of the extent and type of assistance needed and the most efficient means of obtaining that assistance will be made. Arrangements for needed treatment or service will be made by the Easter Seal Society.

Dr. Milam stated that funds received as a result of the annual Easter Seal Appeal now aid 17,622 disabled Texans but that there are many more not currently being aided. Those disabled citizens and especially those in Lamb County who contact Mr. Montgomery can now be guided to the proper sources of assistance. They or their families are urged to contact him or the Texas Easter Seal Society in Dallas, regardless of age, race, cause of disability or financial status.

Dr. Milam added that the Texas Easter Seal Society annually spends more money on direct services to patients than it raises in the Easter Seal Appeal.

Local 4-H Club Enter Animals In Houston Show

Local 4-H Club members have entered animals in the Houston Junior Livestock Show scheduled for February 21 through March 3.

Lamb County Club members entering are Bruce Bridges, Brad Walden, Cheryl Carter, Marietta Carter, Gary Lichte, Ren Lichte, Gail Lichte, Kay Harp, Rodney Bowling, Tracy Bowling, Shaid Cook, Ken Burgess, Welda Barton, Rodney Logsdon, Cory Logsdon, Jimmy Overman, Daulie Gardner and Chesna Dickenson.

Entries numbering 15,510 will be competing for record premiums in excess of \$200,000.

These premiums will be divided among exhibitors of eight beef breeds, four dairy breeds, 11 sheep breeds, four horse breeds, five rabbit breeds, Angora goats, 22 poultry breeds and six swine breeds.

In addition, \$37,100 in calves will be presented in the World's largest calf scramble and Texas farm youth will take home an estimated \$21,225 in auction premiums above market value.

Largest number of entries ever indicates tough competition for the championships, and the Houston Livestock Show and Rodeo will have the largest Junior Show in its history, general manager E.C. "Dick" Weekley predicts.

Slick Roads Result In Accidents Following School Monday

Two separate one-car accidents left two local residents safe from harm Monday on the school road, as both cars overturned due to icy and windy conditions. Both accidents occurred at approximately 3:30 P. M. one by the Barton home place north of the school and the other one-half mile south of the school.

Marsha Dawson, junior in the local school, was driving home when she began sliding on the ice-covered road. High winds caused her car to flip over on its side. There were no injuries and the car, a 1961 Tempest, escaped any damage.

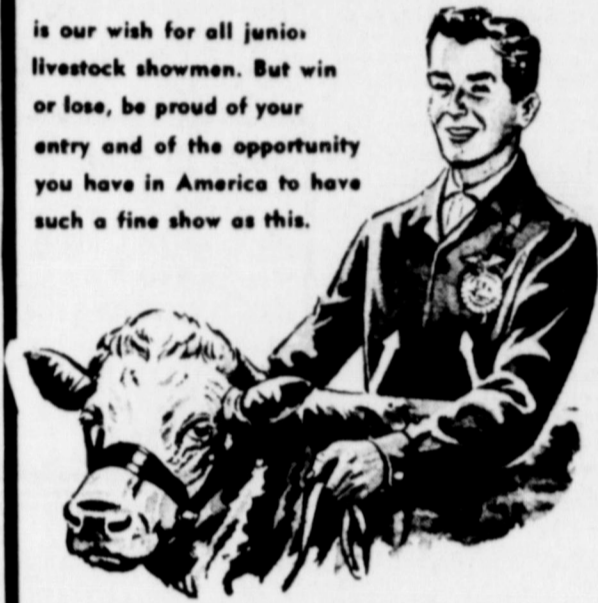

In the other accident, a 1965 Ford Galaxie, driven by Steve Chance, hit a patch of ice and began swerving and sliding, causing Chance to lose control. The car overturned one complete turn but damage was minor and no injuries were sustained.

Lamb County Fertility Soil Day Program Scheduled

An annual Lamb County Soil Fertility Day Program will be held Monday, February 19, 1968 at 2:30 P. M. at the Willy Room of Lamb County Electric Co-op, Littlefield, Texas. The program is sponsored by the Lamb County Crops Committee and several outstanding speakers have been selected.

To highlight the program, Miss Vickie Lutz, South Plains Maid of Cotton will make an appearance and present a brief talk on the importance of cotton production.

Dr. Lavon Ray, Associate Professor, Texas A&M University, South Plains Research and Extension Center will speak on Cotton Varieties and Fiber Quality Improvement. This item is becoming more and more important to Lamb County producers.

Dr. A. F. Wiese, Professor of Agronomy, Texas A&M University, USDA southwestern Great Plains Research Center, Bushland Texas, will speak on weed control as it affects crops in Lamb

County.

Bob Metzger, area Agronomist, Texas Agricultural Extension Service, Lubbock, will speak on soybean production. Dr. Robert Berry, Plant Pathologist, Texas Agricultural Extension Service, Lubbock, will speak on Sorghum Varieties and Dwarf Mosaic Virus.

Dr. Lowell Schake, area Livestock Specialist, Texas Agricultural Experiment Station, Lubbock, will speak on an important item to several livestock producers in Lamb County concerning the feeding of liquid supplements.

John T. Carr, Jr., director of the Texas Water Development Board's Planning Hydrology and Special Studies, will speak on weather modification and its possible economic effect on the High Plains of Texas and Lamb County.

The program will be completed by 6:30 P. M. and a free bar-b-que will be served to all those in attendance, courtesy of Lamb County Banks.

Girl Scout Neighborhood Meet Slated

Girl Scout Neighborhood meeting will be held in the Philip Haberer home on Monday, February 19 at 1:30 p. m.

The purpose of the meeting is to make final plans for the Girl Scout Birthday party and to map out plans for Day camp.

Mothers of Brownies and Girl Scouts are asked to please attend the meeting, or call your daughter's troop leaders and inform them as to whether or not you are willing to help with day camp, which is held during June or July. The date, time and place will be decided upon during the meeting.

Day Camp cannot be a reality or success without the help of mothers.

Training sessions will be held in the community, for day camp workers.

A nursery was provided last year for mothers who had small children and wanted to help with the day camp.

F. F. A. Boys Tour Feed Lots, Mills Fertilizer Plant

Springlake-Earth's FFA Chapter took a guided tour throughout the local area last Thursday, beginning with the Sudan Feedlot, Jim Davidson, manager of the local industry, guided the tour through the 20,000 capacity feedlot, explaining the methods of feeding and the use of the feedlot machinery to the visitors.

After making the tour of the Sudan feedlot, the group then traveled to the Whorley Mills in Clovis, New Mexico. The feed mill is able to produce 500,000 tons of feed per day and is considered to be one of the most modern plants in the country.

Completing the Thursday tour, the group then visited a Baken Bin, where the owner, Mr. Ramm, conducted the visit. The bin is able to house up to 46 sows with small pigs adding up to as much as 400 in all.

During Friday's tour, the local chapter drove to Plainview where the first stop was the Best Fertilizer Plant. A great deal of knowledge was obtained on the making of fertilizer. After the visit to the Best Industry, the chapter then made a guided tour of the Plains Coop Mill, where several uses for castor beans were explained. The last stop on the tour included an inspection of the Cloverlake Dairy Plant.

Jones, Hall Wedding Exchange Vows In Church Ceremony

Miss Lynda Jolene Jones, daughter of Mr. and Mrs. H. T. Jones, and Bobby Warren Hall, son of Mr. and Mrs. R. W. Hall, were united in marriage at 7 p. m. Friday in the Oakwood Methodist Church in Lubbock.

Rev. Garnie Atkinson, minister of the North Side Church of Christ, read the double ring vows. Two three candelabras holding long white lighted tapers, two large bouquets of white gladiolas and pots of ivy decorated the sanctuary.

Miss Joan Dawson, organist, accompanied soloist Mrs. Dwane Jones as she sang "O, Promise Me" and "Whither Thou Goest."

The bride, given in marriage by her father, wore a traditional gown of white chantilly lace and Bridal taffeta, designed with Basque bodice of lace and featuring a Sabrina neckline, and long petal point sleeves. The bouffant bell shaped skirt of taffeta was accented with three tiered flounce of lace at the hemline and was complemented by a train of taffeta outlined in a scalloped border of lace which swept from the shoulders to chapel length. Her silk illusion veil was gathered to a queen's crown of lace petals outlined in Pearls. She carried a bouquet of white feathered carnations centered by a large white orchid, and two long stemmed red roses. As she approached the altar with her father, she stopped and handed her mother one of the roses. She presented the other rose to Mrs. Hall on the return trip down the aisle with her new husband.

A large white memory candle and two blue lighted tapers were placed at the altar. At the end of the service the couple lighted the memory candle and blew the two tapers out symbolizing the union of two lives into one.

The tradition of "something old, something new, something borrowed, something blue, and a six pence in her shoe" was carried out by the bride. For something old she wore her grandmother's 68 year old wedding ring on her right hand, something new was a pearl pendant given to her by the groom.

Something borrowed was a white Bible and she wore a blue garter. The six pence in her shoe was brought to her from England by a friend to carry out the

MRS. BOBBY WARREN HALL nee: LYNDA JOLENE JONES

English tradition. Miss Elaine Lance, Lubbock, served as Maid of Honor and Mrs. Loyd Lowery, Earth, was inactive Matron of Honor. Other

attendants were Miss Karen Jones, Earth, cousin of the bride, and Miss Margaret Walters of Dalou. The attendants were gowned alike in Cest Blue chantilly lace, with moulded bodices accented with satin sashed tied at the front in flat bows. Their headpieces were blue satin bows with rosettes in the center. They carried nosegays of blue and white feathered carnations.

Johnnie Russell, Lubbock, served as best man and Radioman 3rd Class Ricky Davis, San Juan, Puerto Rico, was inactive best man. Groomsmen were Mac Farrar and Larry Knowles, both of Lubbock. Ushers and candle lighters were Carroll Jones, Farwell, and Dwane Jones, Springlake, both brothers of the bride.

For the wedding Mrs. Jones wore a deep green double knit

suit with black and off-white accessories. Her corsage was of pale pink orchids. Mrs. Hall wore a white crepe suit with black accessories and a pale pink orchid corsage.

The wedding reception followed immediately in the Fellowship Hall of the church.

The bride's table was laid with an Irish linen table cloth brought from Europe by the bride's brother. A circular bouquet of blue and white carnations surrounded the three tiered cake. The cake was iced in white and decorated with tiny blue rose buds, and topped by two love birds holding a wedding ring.

Miss Glenda Bruce and Mrs. Mac Farrar, both of Lubbock, served punch and cake to the guests.

The bride left for a wedding trip wearing a two-piece silvery-blue crepe suit, accented by blue rhinestone buttons. Her corsage was a white orchid.

The bride is a 1966 graduate of Monterey High School and Jessie Lee's Hair Design Institute. She is employed by La Coiffure Salon in Lubbock.

The groom is a 1964 graduate of Jackson Private School and is employed by Central Merchandising Co. in Lubbock.

The couple will be at home at 1319-65th Drive in Lubbock.

Ester Class Entertains With Pot Luck Supper Friday At Church

Members of the Ester Sunday School class of the Earth First Baptist Church entertained their husbands Friday night, February

9 with a "pot luck supper" in the Fellowship Hall of the local church.

Mrs. R.S. Cole gave the invocation, followed by Bill Anderson with a devotional taken from the book entitled "A Drink at Joe's Bar." The theme of this book is a comparison of what a man receives from the Church and what he receives in going to a bar.

Table decorations consisted of white styrofoam hearts glittered in red with red net ruffles at the base.

The head table was centered with a standing white styrofoam heart with red net ruffles outlined with a face made from red glitter. The base of the centerpiece was trimmed with matching red ruffles, surrounded with pink and red roses, and flanked with three red tapers.

Attending the supper were Bill Anderson, Mr. and Mrs. Bill Bryant, Mr. and Mrs. G. Kellar, Mr. and Mrs. Price Hamilton, Mr. and Mrs. Clarence Kelley, Mr. and Mrs. J.B. Thomas and Mrs. R.S. Cole.

Stacked in height the midwife kits supplied by UNICEF would be 100 times taller than the Empire State Building.

Notes From HemisFair '68

The economy of Texas will get a multi-million dollar boost this year through direct spending of visitors to HemisFair '68.

More than 600 Texas tourist development leaders were told at the Governor's annual Tourist Conference in Austin that \$205 million will be spent outside of HemisFair by fair visitors during the six-month run.

Jim Gaines, chief executive officer of the international exposition, also said the state itself will gain upwards of \$18 million from new spending.

"There is no way that you can get to HemisFair without traveling through a lot of Texas—both going and coming," Gaines said. "The average out-of-state visitor will travel nearly 800 miles of Texas' great highway system, spending \$165 million on just his car, on food, drink and lodging as he goes."

School Board Considering Seven Period Day

A lengthy discussion of the possibility of a seven period day for the 1968-69 school year was held at the regular meeting of the Springlake-Earth school board Monday night.

The advantages discussed were the possibility of Junior High and High school students would have an opportunity of taking subjects they are missing otherwise.

A questionnaire will be passed out to the parents of pupils affected on the subject before a final decision is made.

Danny Smith, head coach for the local school submitted a letter of resignation as coach effective at the end of the

school year. Smith will remain in the system as a teacher.

The board voted to offer the head football coach and track coach position to John Varnell assistant coach.

Other business discussed was the remodeling of the junior high school gym, damaged in the windstorm last fall. The matter was tabled until the contractor appears to discuss price of the project.

Latest enrollment figures were reviewed and discussed. At this time the enrollment is elementary school, 495; junior high, 158; high school, 205 and special education 36 for a total enrollment of 894.

TIM RAY MATHEWS is leaving this Kangaroo behind as he dribbles up court with the ball Tuesday night in the final game of the season for the Wolverines.

Senior Class Honored Wednesday With Luncheon In Community Room

The Senior graduating class of Springlake-Earth high school were entertained with a luncheon Wednesday, February 8 in the Earth Community Room by friends of the Springlake and Earth Church of Christ.

The head table was laid with a white cloth and centered with a valentine arrangement featuring a red styrofoam heart decorated with white satin streamers and cupid. The styrofoam base was covered with white net ruffles. Decorating the wall behind the head table was a large white heart bordered with red net ruffles bearing the inscription "Senior 68."

Other tables were laid with white cloths and decorated with red streamers running lengthwise down the center of the table. This was highlighted

by large red hearts, vase of red flowers, bows, hearts and cupid.

Bill Mann, school superintendent, gave the welcome, with Sandy Washington, senior class president giving the Response. Wilburn Dennis, Minister for the Church of Christ in Earth, gave the invocation. After luncheon speaker was also Mr. Dennis.

Mr. and Mrs. Wilburn Dennis, Superintendent Bill Mann, Bill Anderson and Mrs. Marie Slover were seated at the head table.

The luncheon menu consisted of fried chicken, green beans, potatoe salad, relish plate, pie, rolls, tea and coffee.

Bill Anderson, gave the benediction.

Mr. Anderson and Mrs. Marie Slover are Senior Class Sponsors.

Telephone Cooperative Elects Directors At Annual Meet

County Bond Sales Totals 78% Of Annual Goal

United States Savings Bond sales in Lamb County during 1967 totaled \$125,159, according to a report received today from Mr. C. O. Stone, Chairman of the Lamb County Savings Bonds Committee. The 1967 sales goal for Lamb County was \$160,000 and 78 per cent was achieved.

Nationally, 1967 was the best in eleven years for total sales. Sales of Series E and H Bonds and

Freedom Shares amounted to \$5.0 Billion (\$4,378 mil). Sales of Freedom Shares, the new Savings Notes offered to regular buyers of Series E Bonds in May 1967, totaled \$80 million.

Census To Get '67 Employment Figure For County

A selected sample of households in this area will be asked questions about their employment during 1967 as part of the February Current Population Survey conducted by the U. S. Department of Commerce's Bureau of Economic Analysis.

The 1967 survey questions will be aimed at finding out the number of weeks worked during the year, the amount of time lost because of unemployment and other reasons, and the longest time during the year by each person over 14 years of age in sample households.

The current population survey is taken each month from a representative sample of households in 449 areas throughout the United States chiefly to obtain national estimates of current employment and unemployment.

The identity of households is confidential by law, and the facts obtained are used for statistical purposes only.

Census interviewer who will interview householders in this area during the week of February 19-24 is Mrs. Rosemary Menees of Amherst.

Wolverettes Advance To Bi-District Defeat Kress; 58-28

Springlake-Earth's Wolverettes put the finishing touches on their Championship of District 3A Tuesday night in the Wolverine gymnasium, defeating the Kress Kangarooettes by a score of 58 to 28. Playing without the services of junior Marsha Dawson, the Wolverettes were never in trouble as they took the first quarter lead and never relinquished.

Kress began stalling the ball from the opening whistle, and the first quarter saw only an eight to five score when the bell sounded to signify its end. The second quarter saw the Wolverettes leaping to the attack in all their fury as they scored a whopping 28 points, holding Kress to only six, taking a halftime lead of 36 to 11.

From then on, it was no contest as the Wolverettes continued mauling their Kress counterparts, and at the end of the third it was 51 for the host team, and 20 for the visitors. Scoring 17 points in the final frame, the Wolverettes gave notice to their bi-district foe that they were ready to begin the road down to Austin.

Sophomore Vicky Gregory was high-pointer for the night with 33 points, while Senior Susan Britton was close behind with a total of 30.

Officials of Springlake-Earth and the Idalou schools will meet Thursday (this morning) in Abemathy to decide the time and place for their bi-district play-off, Idalou, winner of district 4A, gained the right to advance to the playoffs after defeating Shallowater Tuesday night. As soon as the play-off date is decided, local fans will be notified.

The Wolverettes completed regular season play Tuesday night, dropping a close, hard fought battle to Kress by a score of 42 to 40. Seniors Randy Washington and O.C. Thomas played their final game for Springlake-Earth, and both were leading scorers for the night, as Washington hit for a total of 11 and Thomas was right behind with 10.

Aiding in the scoring column for the Wolverettes were Eddy Jones with eight points and Perry Don O'Hair with seven.

Kress took an early first quarter lead, as the whistle ending the first frame saw the score at nine to eight. The one point difference proved the same during the second stanza, as it was 19 for Kress and 18 for the host team as they filed into the dressing room for intermission.

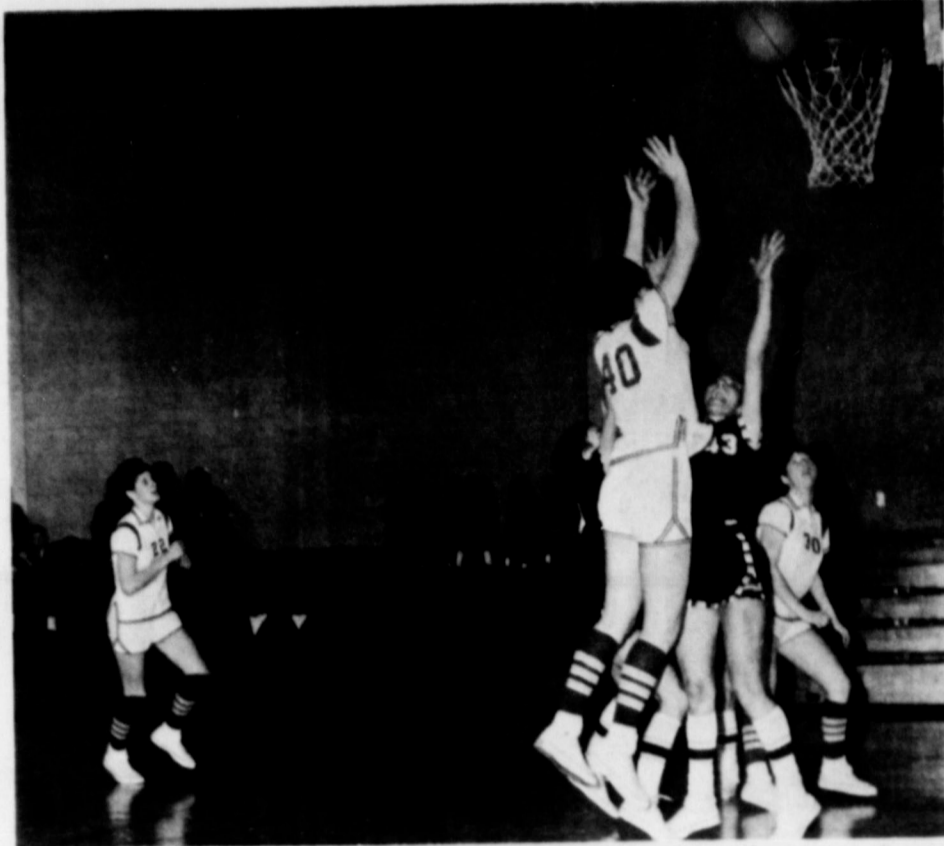

The third quarter saw the Wolverettes finding the mark a little better, and when the fourth and final frame began, it was 32 for Springlake-Earth and 29 for Kress.

With a little over three minutes to play in the final frame, Springlake-Earth was ahead by five, and began playing an intentional and deliberate ball control game. However, mistakes and miscues hurt the Wolverettes, and Kress made the errors pay off. When the final whistle sounded, it was 42 for the visitors and 40 for Springlake-Earth.

B Team Falls In Final Game Of Season

Playing their final game of the season, Springlake-Earth's B teamers found the free throw shooting too cold, hitting only 47% while their opponents from Kress hit for a whopping 80% and this proved the difference as Kress won the preliminary game by a score of 52 to 41. Despite a 20 point output by Marcellus Nance, the young Wolverettes could not pull victory out of defeat, as Kress continued to find the range. Freddy Helms assisted Nance capably in the scoring column, hitting for a total of 12, as Steve Sanderson had a total of six for the night.

Mrs. A. E. Patterson, Mrs. M. H. Been, Mrs. Elmer Prather and Mrs. John Welch attended funeral services Wednesday, February 7 in Canyon for Mrs. Nadine Utz of Umberger. Mrs. Utz was the mother of Mrs. Gladys Odum of Earth.

THE WOLVERETTES CAME THROUGH AGAIN-Tuesday night to leave no doubt in anyone's mind as to who were the district champs. The Wolverettes play the Wayland Queen Bees tonight at 8 p.m. Vicky Gregory, no. 40 scored 33 points, with Susan Britton, no. 22 scoring 30. Under the basket is Becky Sanders, no. 30.

Hints To Homemakers

The question is frequently asked, "Do diet breads actually have fewer calories than regular bread?" So called "diet" breads usually have about the same number of calories as regular bread per unit of weight. However, many "diet" breads are sliced thinner and, therefore, have fewer calories per slice.

If you take a pie tin and line it with foil—crumpling the foil a little on the bottom—you can bake your breakfast sausage on it while your biscuits are baked. Not hard or crisp, and it will have a wonderful flavor. It is quite different than when you fry it. The reason for crumpling the foil is so the grease can drip away from the sausage and stay in the folds of the crumpled foil. Frying sausage on a flat surface is what makes it greasy.

Stubborn ball point pen marks on your upholstery and carpeting will yield to a sour milk sponge bath. Keep sponging until it disappears, and rinse out the milk with lukewarm water.

You can make your own sour milk by adding a couple of tablespoons of vinegar to a cup of milk and let it stand at room temperature. Arrange food on your kitchen shelves by color. For instance, asparagus and pickles would go in one section. Whenever you need something, you think, "What color is it?" Then you know exactly where to look for it.

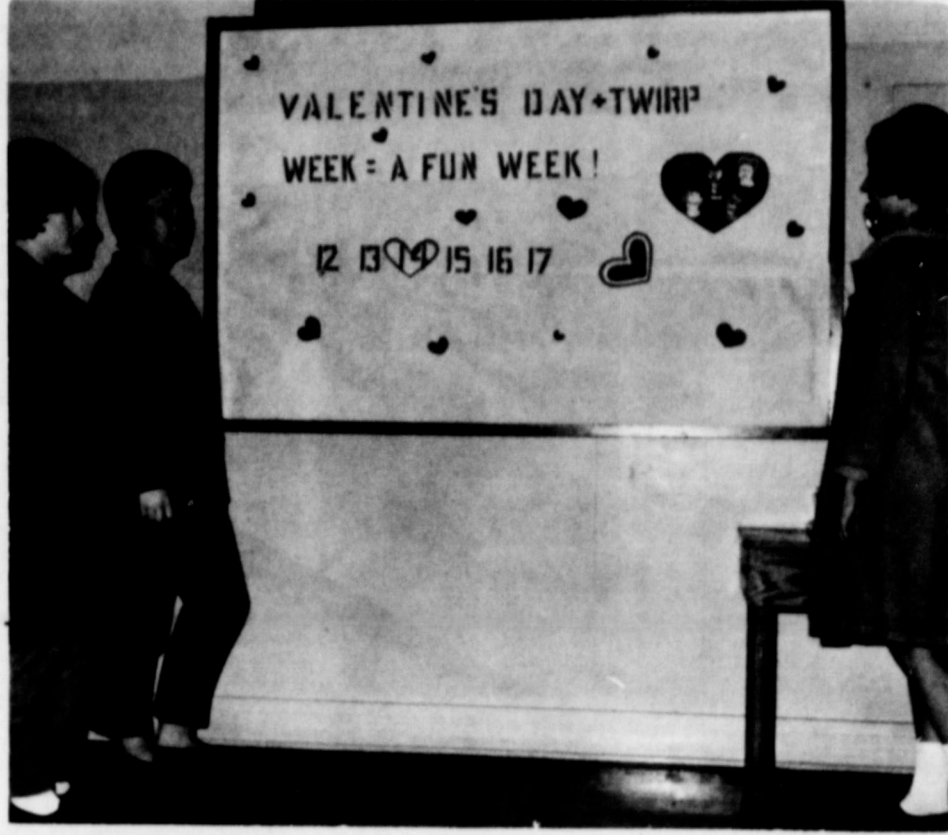

For women who wear aprons—it is utterly ridiculous for us to make them out of cotton that has to be washed, starched, and ironed weekly. Take your favorite apron for a pattern and make one out of an old bath towel.

Did you ever wish you could bake potatoes in only 15 minutes? Wrap the potatoes in foil, place them on a rack in your pressure cooker and add water up to the rack. Cook 10 to 15 minutes, depending upon the size. When done they taste like regular oven baked potatoes.

Keep a file (similar to a recipe file) with the dividers entitled, fashions, gardening, household hints, inspiration, etc. Whenever you come across a newspaper or magazine article worth saving, you'll have a place for it where it can be easily located later.

How do you mend a tear in a brand new screen door? Use a lightweight nylon fishing line and make a neat, unobtrusive darn.

Noone has ever been able to explain the true value of friends, and certainly we shall not attempt. We will only say that "friends" make this world a more pleasant place to live in. Instead of a marshmallow in your hot chocolate, try a spoonful of vanilla ice cream.

Speaking of ice cream, a question often asked by the weight conscious public is "What is the real difference between Mellorine, ice milk and ice cream?" Mellorine, often called synthetic ice cream, is made using vegetable fat instead of butterfat; however the calorie content is approximately the same when similar specifications are followed in the manufacture of these products. Almost every state has set a minimum for the fat content of ice cream, this varying from state to state. However, according to federal specifications an average of 10 per cent fat is required for vanilla ice cream. Mellorine can be priced much lower than true ice cream, often being sold for little more than half the price of the latter. Mellorine and ice cream calorie content per half cup serving is approximately 145 calories. Ice Milk has a minimum of 4 per cent butterfat and has an average of 103 calories per half cup.

If you're about to tackle a messy paint or gardening job without gloves, run your finger tips over a bar of soap a couple of times. This will lodge soap under your fingernails and help you get rid of the paint and grime when you wash up.

To measure shortening, partly fill a measuring cup with water,

leaving space for the amount of shortening to be measured. Add shortening till the water moves up to the one-cup mark.

If your family likes corn bread only moderately, why not make moderate corn bread? Substitute the same amount of flour for one-half the corn meal.

Are the cuffs on your long or three-quarter length sleeves too tight? If so, sew the buttons on the cuffs with elastic thread. Now, it will give just enough to be comfortable when the elbows are bent. This will work on waistbands, also.

Want a good way to make lots of hamburgers for the crowd? Place the meat patties in a baking pan which has been lined with foil, place another piece of foil over them, put more meat patties in, place another piece of foil, add more patties and stack them up four deep with a piece of foil separating each layer.

The heat conducts so well that all of the patties will be cooked completely through in about 35 minutes in a 350 degree oven.

Frankfurters may be done the same way, except that it takes only fifteen minutes. Happy homemaking for what's done is done—for about five minutes!

For removing stains on fingers; lemon juice is wonderful. Squeeze the juice of a lemon into a very small container and soak your fingers in it. And something extra; the juice makes it easy to push the cuticle. Afterward, gently brush your fingers with mild soap and warm water and rinse well. Use your favorite hand cream.... and just see the difference.

Here's a good hint for those who have wood screws that keep coming out of furniture. Try putting a piece of steel wool in the hole itself and then threading the screw back in.

To keep plastic containers used for storing foods and juices in the refrigerator stain free, wash and fill with mild bleach and water solution. Let stand overnight. If odors from onion or other strong flavored foods linger in plastic container after washing, crumple a piece of black and white newspaper into the container, seal and leave overnight—the next morning no odor.

An old remedy to remove paint from your hands, face and so forth, after you have finished painting, take a small piece of butter or a cloth dipped in baby oil and rub it on your hands, face, legs or whatever the paint has splattered. Rub it in well and wipe it off. Then wash with soap and water. This is so much better for your skin than turpentine or other paint remover.

Have you ever tried making toast in your waffle iron? Butter both sides and cook as you would a waffle.... Results?? Beautiful checkered toast.

Here's another idea for keeping "paint freckles" from your face while painting. Before you start to paint, cover your face and neck liberally with cold cream. When you are finished painting, just wipe your face with a facial tissue and all your "paint freckles" are gone. When the imitation pearl beads and earrings turn yellow from wear, dye them any color you choose. Just mix the dye in a little jar, drop in the jewelry and let it stand, shaking it once in a while... until the desired color has been absorbed. They are very attractive.

SPOT CHECK OF 5 COUNTIES

First 1050 Farmers Sign Up To Plant 72% Of Cotton Allotment

A spot check of five county offices of the Agricultural Stabilization and Conservation Service shows that the first 1050 producers to sign up for the 1968 cotton program will plant an average of 72 per cent of their cotton allotments.

Office managers of the five counties however were quick to point out to Plains Cotton Growers, Inc., who ran the survey that this probably cannot be taken as an indication of final planting percentages. First, they note that this small number constitutes only about 10 per cent of the farmers in these counties.

They also theorize that producers who plan to divert the maximum 35 per cent of allotments are the ones most likely to sign up first.

Farmers can get half their acreage diversion payments in advance if they so request at sign up time, and these advance payments will be larger for those who elect the highest diversion percentage.

Mandatory diversion in the 1968 program is only 5 per cent of allotments, therefore producers who choose that route are eligible for very small advance payments.

For this reason most are expecting that the farmers signing up in the latter part of the period, which extends to March 15, will show a higher percentage who intend to plant the maximum

allowable acreage.

The counties checked were Lubbock, Lamb, Floyd, Hockley and Lynn. Included were only those farmers who had completed signing up through February 7.

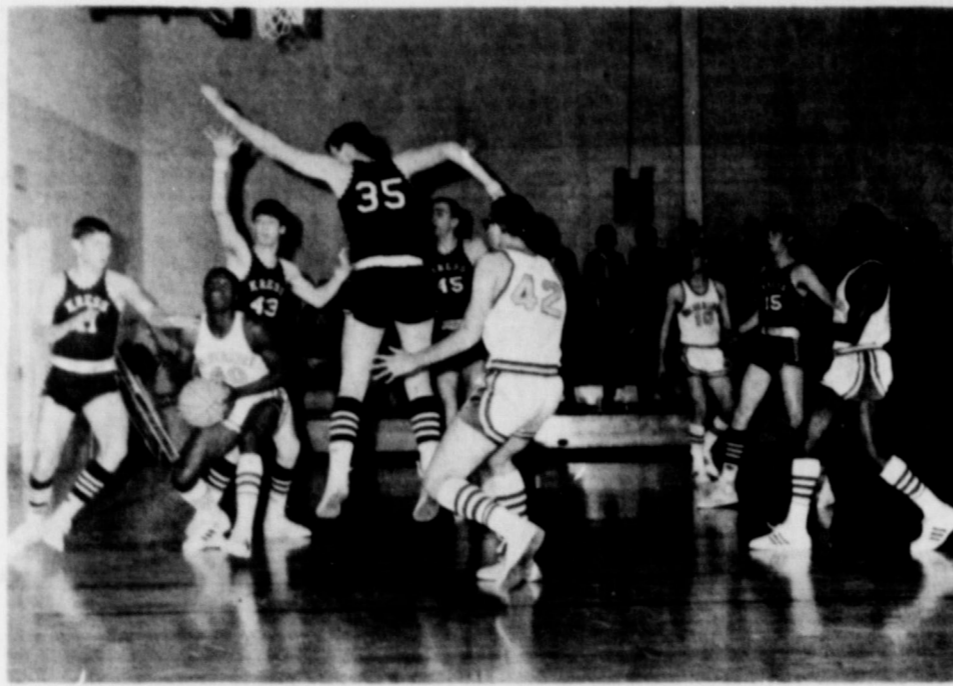

With producers in 1968 given the option to plant anywhere from 65 to 95 per cent of the cotton allotments, cotton observers have estimated that between 75 and 85 per cent of the cotton acreage on the Plains will be planted.

Producers in this first three days of the sign up period who indicated they would plant the most cotton were in Floyd County where just over half the early signers said they would plant the maximum 95 per cent. Average for Floyd County came just under 80 per cent.

On the other end was Lamb County with farmers signing up to plant only 66 per cent. This however, covered only the first two days of the sign-up, and Lamar Aten, ASCS Office Manager said the inclusion of those who came in on February 7 would doubtless change that percentage.

Lubbock County Producer intentions through February 7 pointed to a diversion level of 24.1 per cent, or the intention to plant 75.9 per cent.

Lynn County, with only 89 farmers signed, had an average diversion rate of 28.3 per cent. Hockley County farmers had indicated they would plant 69.4 per cent of allotments.

HE HAD HIS PROBLEMS—Tuesday night, O.C. Thomas is trying to get off a shot from under the basket as four Kangaroos are all over him. Coming to his aid are Eddie Jones no. 42 and Tim Ray Mathews, O.C. scored 10 points.

Drug Problems Increase Among Nations Teens

While drug problems increase, especially among junior high school and high school students, some people are doing something about it.

One group that has acted, is Texas Alcohol Narcotics Education (TANE). This non-profit church-supported organization, has released a book, "Let's Talk About Goofballs and Pep Pills," geared to the teenager. The book is illustrated with cartoons, and presents the facts about barbiturates (goofballs) and amphetamines (pep pills), and also has a section on tranquilizers and LSD.

Officials of the State Department of Health, the Texas Department of Public Safety, Texas Education Agency, and others have expressed an interest in getting the books into the hands of every Texas child of junior high and high school age.

Last month, Rep. Bert Musgrove of Breckenridge, met with TANE and these agencies to discuss an

educational program on drugs for Texas youth. Rep. Musgrove said he would prepare a resolution involving mass distribution of such material, and present it to the Legislature.

The book on goofballs and pep pills was written by Lindsay R. Curtis, M.D. Dr. Curtis is the author of several books on drugs, including "Glue-Sniffing: Big Trouble in A Tube," also published by TANE.

"Barbiturates and amphetamines are definitely habit forming, are in some ways more dangerous than narcotics because withdrawal itself can cause death," Rev. Albert F. Tucker, TANE Executive Director, said.

"These pills are dangerous. They have wrecked the lives of countless young people, and caused many deaths. We need to prevent these problems, and the best way to do that is to inform the youngsters and their parents of the dangers," he said.

LETTERS TO THE EDITOR

Dear Sir:

As Chairman of volunteers of the Lamb County Chapter-American Red Cross, I wish to make the following statements. March is annually proclaimed Red Cross month by the President of the United States.

This will be the most important drive since World War II, due to increase cost of serving United States Servicemen in Vietnam.

Probably every family in Lamb County is, or will be, having a loved one serving in the Armed Forces.

When called upon to give both your time and money, we urge you to give generously that we may "Support Our Servicemen!" It may bring one home for an emergency purpose, or relieve the anxiety of some parent.

Your local Red Cross Lamb County Chapter is rendering round-the-clock service to our men in Vietnam, and other far away places that they may maintain military strength.

Sincerely submitted,
Mrs. Doris Frey

Dear Sir:

I want to thank you individually and collectively for your fine cooperation in our voter

registration drive. Undoubtedly the newspaper publicity given to registration requirements and procedures was a major factor in bringing about the tremendous increase in registrations this year.

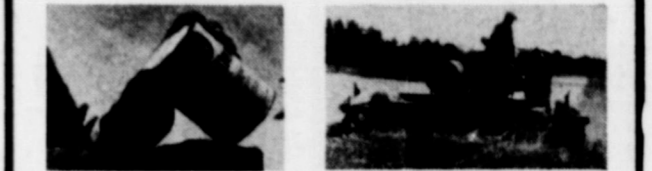

Our office has received many comments from county tax assessor-collector praising the newspapers for the assistance they rendered and especially for their publication of the application form, which benefited both the voters and the assessor-collectors. Your contribution to the registration drive has been appreciated not only by myself but to assessor-collectors and voters as well.

Sincerely yours,

Why Puff Your Life Away?

"Cigarette smoking," says the legally required warning on the package, "may be hazardous to your health." Most people are less well known are the answers to, "When? What kind of damage?"

According to a common impression, the health damage caused by cigarettes takes many years to develop. The subject is important, especially to young people deciding whether or not to take up smoking. In many cases their attitude is, "Oh well, it can't hurt me for a long time to come."

It's an attitude that can be tragically wrong, according to new medical evidence recently brought to light. In at least two major diseases that are medically linked with smoking symptoms have been known to develop within a very few years after smoking began.

The facts were presented in The American Review of Respiratory Disease, monthly publication

Protective Headgear A Must For Motorcyclist

The law governing the wearing of protective headgear for motorcycle operators and passengers went into effect January 1, 1968, announced Major Luther Moore, Regional Commander of the Texas Department of Public Safety.

Major Moore stated, "Effective January 1, 1968, no person may operate a motorcycle on a public street or highway of this state unless he wears protective headgear which has been approved by the Department of Public Safety, nor may any person carry a passenger on a motorcycle on a public street or highway of this

state unless the passenger wears protective headgear which has been approved by the Department of Public Safety."

The Major also added, any peace officer may stop and detain any motorcycle operator or passenger for the purpose of inspecting his protective headgear to determine if the headgear is of a style and make approved by the Department. A person who violates this law is guilty of a misdemeanor and upon conviction is punishable by a fine of not less than \$10.00 nor more than \$50.00.

Buford Haydon Dies In Fire Early Thursday Morning

Funeral Services for R.B. (Buford) Haydon, 55, widely known rancher and farmer, were held Friday, February 9, in the Sunnyside Baptist Church with the Rev. M.D. Durham, Pastor, officiating. Interment was in the Memorial Gardens Cemetery in Weatherford, Texas at 2 p.m. Saturday, under the direction of the Dennis Funeral Home in Dimmitt.

Pallbearers were nephews, Milburn and Eddie Haydon of the Sunnyside Community, Randy Haydon and Charles Brown of Weatherford, and two friends, Bobby Murrell of Earth and Mac

McGill of the community. Honorary pallbearers were: Ray Riley, Charlie Hays, and G.L. Willis of Dimmitt, Ed Harris and Worth Jones of Hart, Earl and Springlake, but efforts to extinguish the blaze were hampered by the lack of water.

Haydon, was brought from the burning three-bedroom residence by Bob Murdock and Joe Wall, both Dimmitt volunteer firemen, through a bedroom window. Artificial breathing mechanisms failed to revive Haydon.

Murdock said they found Haydon in the bathtub of the bathroom dressed in pajamas. He theorized that Haydon was overcome by smoke and toxic gas, given off by the fire, lost his direction and was driven by the heat into the bathroom in an effort to escape.

Mr. and Mrs. G.H. Blewett, who live in a trailer house in the rear of the Haydon residence said Haydon visited with them that night until almost midnight, when he began getting sleepy and went home.

About 1 A.M. Mrs. Blewett said she was awakened by their dog barking. She sat up in bed to scold the dog, and saw a red reflection on the window. It didn't look like a fire, more like the tail light of a car, but she awakened her husband thinking it could be a fire. The couple dressed quickly and ran toward the Haydon house. Once outside they could see some flame in the vicinity of the utility porch, Blewett ran back and called the Dimmitt fire Department, as she ran to the bedroom window to awaken Mr. Haydon. He didn't answer so she tore off the screen, and raised the storm window which kept falling down. She broke the window out, quickly and reached inside to see if she could reach him on the bed. The bed seemed empty and the smoke made it impossible for her to see. She called out to him and he answered. She asked him where he was and he kept answering "in here". She couldn't tell where he was, but it sounded as though he was in the hall.

Jack Vice who resides in another trailer house near by arrived on the scene. He went through the broken window in an attempt to find him, but the smoke made it impossible to see or to remain inside long enough to find Haydon. Others tried windows and doors as he kept answering "in here", but as his voice grew weaker they

thought he was going in the opposite direction.

Mrs. Blewett ran around the house to try to get through the garage, but the storage of ammunition in the garage started exploding.

After the fire department from Dimmitt arrived they couldn't go in either. They had to call back to Dimmitt and get someone to bring out gas masks. By the time they found him it was too late to revive him although they tried.

Mr. and Mrs. Buford Haydon moved into the community in 1943, buying first one quarter, and adding two others later. In 1952-53 he had 100 steers on feed on his farm, by the end of 1965 he had turned the north slope of the Running water draw into a large cattle feeding operation. Since then he has continued to increase his lots until today they have 21 lots with a capacity of 5,500 cattle. They also have 1500 or 1600 head on wheat pasture.

Haydon was born in Stephens County and had been a resident of the Sunnyside Community for more than two years. He was a member of the Sunnyside Baptist Church at the time of his death.

Survivors include his wife; two brothers, Raymond and Foy, and a sister, Mrs. Thelma Sharp of Weatherford.

Mrs. Blewett was hospitalized following the removal of Haydon's body. Mrs. Blewett was admitted to the hospital. Deep cuts to the bone covered her arms.

Small plastic Easter Lilies will be offered for donations across Texas by high school football players during April. Funds collected will go to provide services for additional physically handicapped children and adults.

Mrs. Agnes Williams was hospitalized in the Medical Arts Hospital in Littlefield, following an accident in her home, last Wednesday afternoon.

Mrs. Williams fell down the basement steps of her home, causing considerable pain, and bruises. The extent of her injuries were unknown by friends who reported her accident this week.
