Dean Walden's 4H Garden Project Outstanding Success

Gardening is one of many projects 4-H members can carry in their club work. Dean Walden, 4-H member of the Earth-Springlake Club has done an outstanding job with their project this year.

Dean had a plot of about 22 by 60 feet which he prepared last February. The last part of February he set out onion bulbs and a week later set out onion set, with the results Dean has decided he will set out onion bulbs in the future because he found them to mature faster and better than the sets.

bad luck with the parsley as it never came up. Dean's mother is using the herbs in various dishes and foods. To prevent insects in the tomatoes and squash, Dean used Sev in several times which proved to be successful. To start some of the plants early Dean used plastic lids with slits in them. This protected them from the cold until the danger of frost was over then he removed them. Dean said, "the cans and lids held the heat from the sun and every plant lived."

In spite of hail three times during the year, Dean harvested 20 lbs. of onions, 5 lbs. potatoes, 25 lbs. of okra, 68 lbs. beans, 5 lbs. of radishes, 4-1/2 lbs. lettuce, 190 lbs. squash, 69 lbs. tomatoes, 15 lbs. popcorn, 10 lbs. hot pepper, 12 lbs. bell peppers and 15 lbs. of carrots. Out of this garden Mrs. Walden froze 30 qts. squash, 15 pints of okra, 10 pints tomatoes, 5 pints peppers and 3 qts. of chives. She canned 45 pints of beans and 24 qts. of chili sauce and 24 pints of dill pickles. He sold \$3.52 of vegetables but used most of them in the family and shared some with neighbors and friends. Dean says, "next year I plan to enlarge my garden project."

"Change is exciting... especially when someone says to 'keep it!'"

EMERGENCY = PANIC

To often when an emergency arises, we, of the human race, have a tendency to panic. This is especially true when someone is seriously ill or injured. In an effort to save time and, maybe lives, the people of Parsons-Ellis-Singleton Funeral Home make the following suggestions should on emergency arise, where ambulance service is needed.

Each person should have emergency numbers listed in the front of the telephone book in the space provided. Add to this list the number of the Funeral Home, 257-3350.

In calling for an ambulance, always use this number, not the home number of Mr. Parsons. Two extensions to the Funeral Home number assure the caller of receiving an answer.

Once the call has been connected these four steps should be followed: 1, identify yourself, 2, give the exact location of the emergency, 3, give the type of emergency, sudden illness, wreck, or other accident; 4, stay on the phone until all information has been acknowledged. Following these simple steps

will enable your local ambulance to provide you with better and faster service. Remember, a few seconds longer on the phone may save precious minutes in an emergency.

Fall Fertilizer Application The Reasonable Program

UPTAKE

Deep plowing along with fall fertilization stimulates much deeper root penetration than does merely discing in fertilizer. This markedly improves utilization of soil moisture and plant nutrients...both of which are particularly important during dry summers.

ROOTS

Deep plowing along with fall fertilization stimulates much deeper root penetration than does merely discing in fertilizer. This markedly improves utilization of soil moisture and plant nutrients...both of which are particularly important during dry summers.

LOSS

RESIDUE

Fall plowdown of fertilizer provides some very important side benefits: Insect and weed control are improved and the decomposition of crop residue proceeds much faster after plowdown of fertilizer. These result in better soil condition for planting next spring.

Here are a few reasons to apply AMMO-PHOS fertilizer this fall:

FOR HELP

For help or further information concerning your farm and your crops, see Farm Chemical Co., Earth & Springlake. They're convinced that all the service you can use just naturally goes along with products as good as AMMO-PHOS Fertilizer. That's the kind of thinking that has caused them and other like them across the country to become known as

The rare bird in the business 

EFFICIENCY

Work Ammo-Phos in now before Triflan application to get the fertilizer below the Triflan zone. Triflan prunes cotton roots in the shallow zone, so increase efficiency by working Ammo-Phos in deeper.

DRY

Soils are usually dry and firm in the fall. Winter's freezing and thawing action tends to overcome any compaction caused by fall plowing and application.

SEED

Bring down completely fertilized AMMO-PHOS in the fall. The roots are busy working on the fertilizer and the soil is moist. This is the best time to plant.

DELAY

Finally, a reminder: Delay a day after optimum planting time and you'll cost yourself a bushel of corn in yield. That's a loss of 100 bushels each day on 100 acres. Apply your fertilizer this fall and use a soil thermometer as your planting guide. As soon as the soil temperature reaches 50 degrees at a four-inch depth, go out and plant. Plant with the knowledge that your crop has plenty of plant nutrients available, thanks to last fall's work.

Dr. Fain Speaks To Young Homemakers

The local chapter of Young Homemakers and their guests met Tuesday night, November 5 at the school cafeteria. Guest speaker for the evening was Dr. J. R. Fain who spoke to an audience of about 30 on the subject "Cancer and Other Dreaded Diseases."

The audience viewed a film entitled "Time and Two Women," which related to the most common cancer found in women, cancer of the uterus. According to the film 28,000 women a year die from this particular type of cancer. Dr. Fain stated that the best preventive measure was a pelvic examination at least once a year. If found in the early stages al-

most 100% can be cured. A second film, "Breast Self-Examination," advised self examination of the breast once a month and a complete medical examination once a year. 50,000 women have breast cancer each year, and 12,000 of these die from the disease.

Both of these cancers occur most commonly between the ages 40 to 60. However, during the child bearing years, they are much more dangerous because they grow at a much faster rate. Dr. Fain conducted an extensive question-answer period, during which various related topics were discussed.

Cookies and coffee were served from a table centered with a beautiful orange, green and

gold floral arrangement.

THE GREEN FACED WITCH AND THE OFFICIAL WEIGHT GUESSER, pose momentarily for the photographer during the Halloween Carnival Thursday night. The Witch is Mrs. Wilson Lewis and the Champion Weight guesser is Mrs. Doug Walden. Which had the most fun the adults or the kiddo's? It was a toss up.

Halloween Carnival Enjoyed By Hundreds

Hundreds of Halloween Spooks, accompanied by their parents, were on hand last Thursday night as the livestock show barn was transformed to house gaiety and excitement.

Both young and old were entertained by the carnival booths, and the Spook House. Many were lucky enough to take home rewards, such as prizes and delicious cakes.

The Carnival has been deemed a three-way success, for the children, the parents, and the sponsoring organization.

The children enjoyed the variety of games at the booths, the festive decorations, and the party atmosphere.

For the parents Halloween became an enjoyable holiday rather than one of fear. Children were on the streets trick or treating for a shorter period of time, lessening the danger of accidents and illness through exposure to the cold.

The sponsors of the carnival considered it a success mainly because their objective had been realized. Youngsters were provided with a safe place for Halloween fun.

The Cub Scout mothers also noted that through the Carnival, over \$200 will be added to the Cub's treasury.

Plans are for next year's Carnival to be even larger and more exciting. Several organizations have expressed a desire to co-sponsor the event. It looks as though Earth has gained a new annual event for the betterment of the community.

He has clothed me with the garments of salvation. —(Isa. 61:10).

As we turn to God in prayer we lay aside all tension stress or strain as though they were old garments. Let them slip from our shoulders and fall away. Then we can create a prayer of release and freedom. Let us move through every part of the day clothed in the mantle of God's love, peace and light. With Him we can handle in a calm, serene way, all that needs our attention. We carry with us an atmosphere of peace.

DO TAX PAYERS WANT ADDITIONAL TAXES

Express Your Desire Before Monday, November 11

Lamb County Commissioners Court probably will vote for a retirement program on Monday, November 11. It will not be a unanimous vote. The retirement program will be for all elected officials and county employees--about sixty persons at a cost of approximately \$15,000 per year to the tax payer and the same cost to the county official and employees.

To qualify for retirement, one must serve twelve years and reach the age of sixty, or serve thirty years and retire at any age. A person must work at least a year to draw three per cent interest on his money, that is only the money the official or employee pays in, not any on what the county pays in. If he quits at any time after working a year and before reaching the retirement requirements, he will draw the three per cent interest on what he has paid in.

An employee or an official who has twelve years prior service and sixty years of age would be eligible for retirement after paying only one month into the program: Lamb County would have to pay their retirement as long as they live. It seems that favors the official or employee who is ready to retire when the program goes into effect more than the county official or employee who still has years of service to render to the county (he will help pay for his retirement). This could or should be called a bonus for the soon-to-be-retiring county employee.

Lamb County has the same retirement plan that most county residents have, that is Social Security, and has had for several years.

In the November 1966 General Election, Amendment No. 5 created the Texas County and District Retirement System, providing certain retirement, disability and death benefits for officers and employees of counties or other political subdivisions of counties, authorizing any

of these group to participate in this system at no expense to the State--to be paid for by county taxes.

This amendment was defeated in Lamb County; 1448 against to 1035 for, but it carried statewide. This should be a good indication to the Commissioners Court that the tax payers of Lamb County do not want this retirement program.

A good retirement program is fine; one that will attract and keep good officials and employees, a plan where your time starts when you start paying into the retirement program. Some of the younger county employees have families, and with the deductions that already come out of their checks; Social Security, insurance and withholding tax--now, tell them we are going to take out \$24,000 more a month. Their budgets are already over-loaded, as is the county's. The next thing necessary would be to give them a raise in pay so they could afford this retirement plan. This would cost the county \$30,000 more. Should not all four precincts be represented in this matter? Do you think taxes might go up? If you want to help pay, tell him before Monday, November 11. Maybe you can stop it before it happens.

We have a good Commissioners Court in Lamb County, but we don't all see eye-to-eye on everything, and this is good for all concerned.

This is not the opinion of the entire Commissioners Court, but it is the opinion of the Commissioner of Precinct One, Lamb County.

The Beauty of it all

It's taken us only 400 years to realize that the Indians had the right idea about kitchens and cooking after all.

The Indians pounded their corn and fixed meat and fowl outside their tepees, and then cooked it over an open fire. Today, whipping up outdoor

barbecues on a nice weekend is a great pastime.

Sexes Equal On Annual Sick Leave

New York--There's no such thing as the stronger sex. At least not where sick leave is concerned. The Metropolitan Life Insurance Company, studying its own employees, found that men and women stayed out of work about the same length of time a year. They stay home with different illnesses, however. Women are felled by respiratory diseases, men by digestive disturbances.

How much sick leave do they take? On the average of six days a year.

"For Pete's Sake" A Billy Graham Movie Showing In Littlefield

"For Pete's Sake," from World Wide Pictures, will premiere at The Palace Theatre in Littlefield on Sunday. Produced in wide screen and brilliant Eastman color, this comedy-drama stars Robert Sampson and Pippa Scott in a mile-high Denver setting, against the magnificent backdrop of the Rockies.

"For Pete's Sake!" lives day by day with a meat-and-potatoes guy who has dared to take on big questions about Christianity today, and comes up with even bigger answers. To Pete, God Was Not Dead? Or was He?

On a damp, gray Sunday afternoon, Pete Harper was one of a large crowd at Denver's Bear Stadium listening to a sermon during a Billy Graham Crusade.

Why was he there? "It was free. It was free, but Pete, his wife, and their son all got more than they had bargained for. Moved by the message, they found themselves going forward. What

then? You will see as you live with Pete and his family during the months that follow and watch them meet the challenges of a Christian commitment. Faith becomes a working commodity for Pete, starting on the inside and growing up and out. It grows while he's pumping gas on a busy Denver street-corner, while returning a cake plate to a neighbor, and while colliding with a gang of teenage motorcyclists who challenge him with the shattering honesty of today's youth; youth who force him to match his faith against the turbulent world of leather and daredevil races. Ride with him as he grinds over steep mountain trails to prove that he's not afraid to try their world.

Incidentally, the film doesn't boast any anoles: just warm, funny, inspiring, real human beings! It's a love story, a laugh

story, and a life-size look at the ups and downs of the faith of a twentieth-century man.

Robert Sampson, who portrays Pete Harper, also starred in World Wide's "The Restless Ones," which is still playing to capacity audiences throughout the world. Pippa Scott, as Pete's wife, Marge, is well-known for her Broadway appearances and starring roles in most major

television shows. Al Freeman, Jr., and John Milford work with Pete in their Denver service station. Al, who starred on Broadway in Blues For Mr. Charlie and was recently seen in Golden Boy, adds a special musical message. John Milford is often seen in "Get Smart," "Perry Mason," "F.B.I.," and other television presentations. Sam Groom, Pete's fresh-from

seminary minister, is a familiar face to television fans.

Other featured players include Johnny Jensen as Pete's son, Irene Tedrow as Grandma Harper, and Nicolas Surovy as Skip, leader of the motorcycle gang. "For Pete's Sake!" brings you a mixture of upcoming young talent and well-known character players. For YOUR sake, see it!
