"A CONSOLIDATION OF THE EARTH NEWS & EARTH SUN, OCTOBER 12, 1966"

VOLUME 18 10 CENTS EARTH, LAMB COUNTY, TEXAS, THURSDAY, MAY 25, 1972 22 PAGES, IN 2 SECTIONS NUMBER 41

GRADUATING CLASS OF 1972 - Back row: left to right: Darrell Carr, Hoyt Glasscock, Sherry Pittman, David Wisian, Regina Cole, Mike Cleavinger, Laneta Lansford, Pete Acevedo, Janet Britton, Carl Sulser, Robert Biles; 2nd row from top: Becky Littleton, Chris Brock, Lupe Garcia, Raiford Daniel, Suzy Temple, Don Haberer, Phyllis Smith, Danny Bradley, LaDonna Holmans, John Kelley, Marian Dawson, Eddie Alair, Karen Hinchliffe; 3rd row from top: Criss Dent, Hollis Daniel, Janie Ruiz, Greg Slover, Karen Dear, Weldon Eagle, Dora Sanchez, Tony Keeth, Donna Dammam, Chuck Smith, Norma Cautu, Terrell Ott; Bottom row: Fredrico DeLeon, Regina Maeke, Joe Rivas, Bruce Bridges, Don Templeton, Alan Wheatley, Jose Kolte, Donna Lowery, and Mike Fuller.

### Commencement Saturday Night

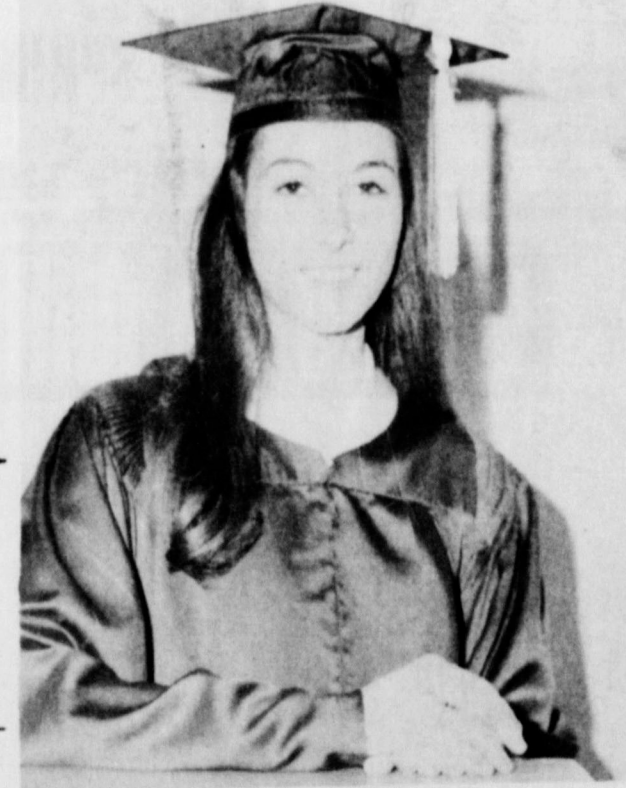

Saturday night is being looked forward to by forty five young adults who at that time will receive their diplomas and leave the halls of S-E High School. The Commencement exercises will begin at 8 p.m. Saturday, May 27.

Addresses will be delivered by the two top students. Marian Dawson, daughter of Mr. and Mrs. Ed Dawson, will give the valedictory address. Marian has a grade point average of 98.17. Becky Littleton, daughter of Mr. and Mrs. J.A. Littleton, Jr., will deliver the salutatory address. She has a grade point average of 96.07. Carl Sulser, son of Mr. and Mrs. Norman Sulser, has the leading grade point average for the boys. His average is

94.85. These students have all been active in school activities.

Awards will be presented by Ward Cooksey, high school principal and he will also present the class before they receive their diplomas from Bill Mann, superintendent and Jerry Kelley, president of the school board.

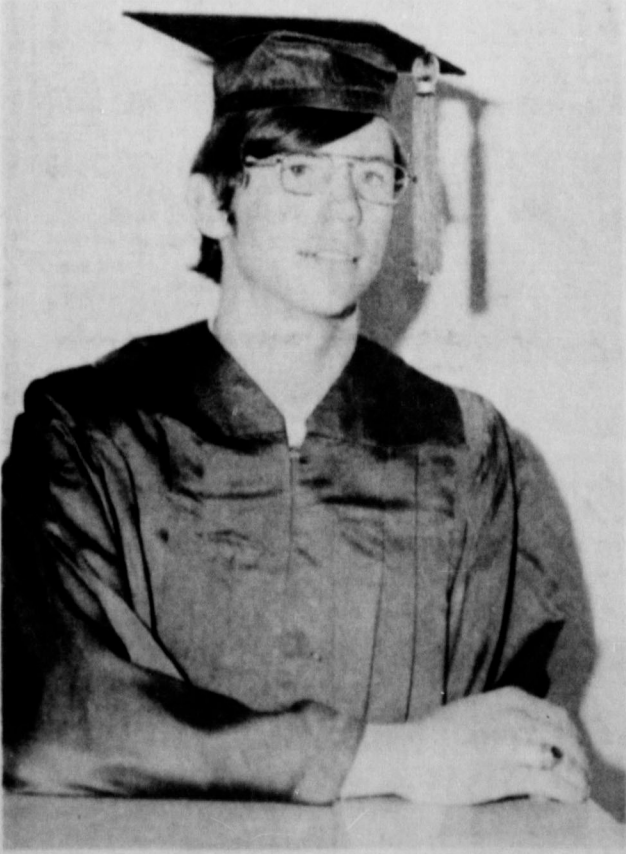

Special music will be provided by members of the graduating class and the school song will be sung by the whole class. The processional "Pomp and Circumstance" and the recessional "Grand March" will be played by the high school band.

### Vacation Bible School to be Held at Churches

Plans for Vacation Bible School have been announced for most of the area churches. The Earth church of Christ will begin their Bible school on June 5th. It will last 5 days, ending June 9. Classes will begin at 9:30 a.m. and be over at 10:45 a.m. Pre-schoolers through 6 grade are invited to attend. Mike Wilson, minister of the Springlake church of Christ will be director. Anyone wishing to attend and needing transportation, call 986-2631 and it will be provided. The First Baptist Church of Springlake will be holding Vacation Bible School June 5th through 9th. Classes will begin at 8:30 a.m. and last until 11:30 a.m. Everyone from age 3 through 13 is invited to attend. "A good supervisor is one who knows how to step on your toes without messing up your shine."

other countries has witnessed a decline in the standards of excellence.

The evidence is all around us in the prevalence of carelessness, tastelessness, the loss of pride in perfection of the finished product. Excellence should never be defined as intellectual snobbery or just academic superiority, but in doing well what you choose to do.

We have seen many products in the past few years, recalled from the market. These are "Friday afternoon products" that roll off the assembly line ready to fall apart because workers have their minds on week end festivities and let the nuts and bolts fall where they may.

Monday products sometimes are even worse because they are "hangover Monday" products. Society pays a high price for these inferior products without knowledge of the carelessness of the workers.

It isn't the system that's wrong, it's the people. The "system" is degraded as people lose sight of excellence - when they cease to care whether they do a good days work or just stay on the job watching the clock and waiting for payday. That is why so many businesses are "going out of business", the fact that so few people do their best at whatever task they choose in life, but rather cater to their weaknesses and make virtues of their shortcomings, then the standard of performance becomes "whatever you can get away with."

Seniors, we hope as you walk away with your diplomas you do not have this thought in your mind, "Let someone else be excellent, I don't want to put forth the effort." We hope that each of you will demand of yourselves the highest standards and imbue those about you with a sense of mission.

This is not an easy thing to do, for when standards have deteriorated, there is something almost embarrassing about espousing a high ideal or noble motivation. Everywhere there are those who take delight in belittling achievement and excellent performance.

There are those likewise, who are always willing to belittle one who chooses to follow in the steps of Jesus who once walked here on Earth in the human form - but again, to have LIFE abundant, LIBERTY from the fear of Hell, and true HAPPINESS, one must choose God as his constant companion and walk through life hand in hand with the Savior.

### Memorial Day Services To Be Held At Springlake Cemetery

Memorial Day services will be held Monday morning, May 29, at the Springlake Cemetery and Boy Scout Troop 614 will decorate the graves of all veterans buried there with flags.

### NOTICE

The Earth Lions Club will have a junk iron drive Tuesday, June 6 from 8 a.m. until noon. Anyone having junk iron they wish to get rid of contact any one of the Earth Lions Club members or call 257-2160, 257-3451, 257-6476 or 257-2145.

### "Heroin Hotline" Established To Turn In Dope Pushers

President on April 7 announced establishment of the "Heroin Hotline," a nationwide, toll-free telephone number to provide American citizens with a quick and convenient way to report information on heroin pushers. Telephones are manned at a center in Washington around the clock, seven days a week. Trained operators on duty are under the supervision of experienced Federal agents. The need not identify himself, and the rights of all callers are fully protected. Telephone number is (800) 368-5363.

### Pitch, Hit and Throw Contest to be Held

An official major league baseball Pitch, Hit and Throw contest will be sponsored nationwide by all Phillips 66 stations and locally by Earth and Springlake Phillips Stations. The competition is open to all grade school boys, age 9 through 12. There is no cost and there is nothing to buy. Just pickup your entry blank at any Phillips Station. Each boy must be accompanied by a parent or legal guardian who shall sign the entry form. Entrants must have three entry forms returned to one of the Phillips 66 stations by June 4. Time is running short so hurry boys and get your entries in. Winners of the local contest will go on to district competition. District winners compete in Division level competition held in major league cities. The four top Division winners will go on to National competition which will be held just prior to the All-Star game in Atlanta, Georgia, on July 25, 1972. Entrants will compete only within their age group. The local competition will be held Saturday, June 10 at 9 a.m., at the Little League Ball Park.

## Baptist Gets Summer Youth Director

June 1st Earth will have at least one new resident for the summer. Charlotte Edwards, Lubbock, will join the staff as Summer Youth Director for the First Baptist Church.

Her main area of work will be with junior high, high school and college age youth.

Miss Edwards is a 1969 graduate of Monterey High School. She is a Junior at Texas Tech majoring in Elementary Education with a specialization in music.

The young lass comes to the congregation with a variety of experience. For example, the last six summers have included some type of mission involvement. Usually in the form of

Vacation Bible Schools in various places in the United States. She traveled to Japan the summer of 1970 to help in a city wide crusade and revival in the city of Sapporo.

Charlotte is active in the Tech Baptist Student Union. She served on the council in 1971 and in charge of the weekly Luncheon counter.

While attending Texas Tech she has been a part-time secretary at Calvary Baptist Church.

Many interesting activities are already in the mill for the youth of First Baptist and any others who wish to join them.

CHARLOTTE EDWARDS

## Baptist Vacation Bible School Date Set

First Baptist Church, Earth, has set June 5-9 for their annual Vacation Bible School.

Children all the way from age three through sixth grade in public school will gather at 8:30 each morning for the Joint Worship Service. After the Joint Worship Service the children will go to their various departments for further Bible centered teaching. School will be over each morning at 11:30.

Some of those working this year are: David Hartman, Principal, Phyllis Geissler, Preschool III Director (age 3), Frankie Hartman, Preschool IV Director (ages 4, 5, and preschool 6), Robbie Parish, Children's I Director (Grades 1, 2), Sharon Hamilton, Children's II Director (Grades 3, 4), Lillian Hamilton, Children's III Director (Grades 5, 6).

Any children within the ages and grades listed above are invited to attend. If transportation is a problem call First Baptist Church at 257-2036 and arrangements will be made for someone to come by.

### Breath of Life

An International Paper Company pine plantation is a part of the company's "Dynamic Forest." Each acre of trees contributes enough oxygen each year to supply the needs of 18 people. Thus it is estimated the company's one million acres of planted pine trees in the South supply the life-giving oxygen needs of 18 million people annually.

ALL ATHLETES in the 8th grade class were honored by their coach, Tom Phelps.

## Youth Director Hired

Kerry Hunt of Lubbock was hired as youth director for the summer at the Methodist Church.

Kerry is 21 years old, attended Texas Tech, then transferred to Midland College in Abilene. He made his decision to enter the ministry.

His father is a job dealer in Lubbock and has five brothers. Reverend Charles Dumas Kerry will attend a conference for pastors and youth directors Thursday and Friday, May 26 at Ceta Canyon, near

### SCHOOL DISMISSED

School will be dismissed today, Thursday, May 25, at 3 p.m. for the summer holiday. Students who were not eligible for exemptions, have been taking semester tests. This has been a busy time for teachers and students and I am sure they are all ready for a vacation. Friday will be teachers in service day for the teachers to finish up the year's work.

**ATTEND COMMENCEMENT**

## Baccalaureate Services Held

Forty-five seniors are beginning to realize that the end of their school years is drawing near after the Baccalaureate Services held for them Sunday, May 21. Brother David Hartman of the First Baptist Church of Earth delivered the message to the seniors. His message, "Full Heads, Merry Hearts and Empty Lives" pointed out to them and the audience that in order to have a full life, no matter how much education, one has, he must have Jesus Christ in his life. His message was from the book of Ecclesiastes.

Mike Wilson, from the Springlake church of Christ, delivered the invocation after the processional, "God of Our Fathers," played by Mary Kate Belew and Sharon Tunnell. A scripture was read by the Senior class president, Joseph Rivas, followed by two musical selections by the Community Choir and members of the high school choir. They sang, "Choose Something Like a Star" and "Battle Hymn of the Republic." They were directed by Wayne Anderson.

After Brother Hartman's message, the beautiful and inspiring song, "He," was sung by Wayne Anderson, director for the S-E choir.

The benediction was given by Alvin Mitchell, Ushers for the service: Tracy Lee, Kim W. Sanderson, Renee Jones, Castillo and Gail Wagon. Bill Anderson and Mr. Slover are the class speakers.

The benediction was given by Alvin Mitchell, Ushers for the service: Tracy Lee, Kim W. Sanderson, Renee Jones, Castillo and Gail Wagon. Bill Anderson and Mr. Slover are the class speakers.

## Seniors Present Variety Show

Friday morning at 11:30 the Senior Class entertained the high school with a variety production entitled Senior Follies. The master of ceremonies was Donald Templeton. Each member of the class participated in some way. The skits included "I'm Glad That I'm A Senior," "The Little People," "The First Day of First Grade," "The Manhandler," "Ultra Brits," "Tiptoe Through The Tulips" and "Taste Me."

Smith, Chris Brock and Carl Sulser also performed some amazing feats of magic. Musical entertainment was provided by the "Feedlot Five" who sang "Little Red Riding Hood" and the prisoners who sang "Springlake Prison Blues." A class ensemble also sang, "I'd Like to Teach the World to Sing" and "O, Happy Day."

In between skits a pantomime of Sonny and Cher was given by Karen Hinchliffe and Chuck

The will was presented to the tune of "Hogan's Heroes" and Suzy Temple presented gifts to Mrs. Slover and Mr. Anderson on behalf of the Seniors. The assembly was followed by the play-day activities.

Baby pigeons are called squabs and squeakers.

1972 SENIOR CLASS

These are the best words, we think, to describe this year's class of graduates. We know they will continue to evidence these qualities in the future... no matter what the future may bring. The eagerness and ability of these young people give all of us a new sense of confidence and vigor.

Our sincere best wishes to all Seniors.

# Memorial Day

## A TIME OF PEACEFUL REMEMBRANCE

Democracy. Freedom. The American experience and spirit is founded on these words. In times of peril our servicemen have defended this spirit with dedication and courage. Many have given their lives to preserve it. Today, young men from our community are continuing to uphold tradition. Our hearts and thoughts are with them, and with all those men before them.

Memorial Day is a time for quiet reflection. A time to honor our servicemen of past and present. And, as we rekindle the memory of what they have given to their country and to each of us, we also prayerfully work and hope for peace. Across the land there will be parades and speeches of commemoration. It's our way to proudly and reverently give thanks.

## WSCS Has Program on Prisons

The Women's Society of Christian Service met at the Church on Tuesday morning at 10 a.m.

Mrs. Doug Parish was in charge of the program titled, "Prisons." Mrs. Ray Axtell gave an article dealing with the deplorable state of most prisons. This was followed by an open discussion led by Mrs. Parish.

Mrs. Coker, Mrs. Goodwin and Mrs. Axtell gave a report on their visit to the county jail in Littlefield on Monday afternoon.

Attending were Mrs. Beula Coker, Mrs. J.J. Coker, Mrs. Ed Dawson, Mrs. Burt Leaverton, Mrs. Jack Hinson, Mrs. Gladys Goodwin, Mrs. Bessie Cearley, Mrs. W.P. Holland, Jr., Mrs. Ida Allen and Mrs. Doug Parish.

## Bridal Shower Honors Mrs. Hal Burba

A bridal shower honoring Mrs. Hal Burba (nee Susy Ruby) was held Saturday afternoon, May 20 from 4 to 5:30 p.m. in the home of Mr. and Mrs. W.O. Jones.

The entertaining rooms were decorated with various arrangements in shades of pink and white.

The serving table was covered with white satin, overlaid with a white lace cloth. The table was centered with a bride's bouquet of pink roses, lacy fern and baby's breath. The centerpiece was encircled with white frothy tulle, tied with pink satin streamers entwined with pearls. Silver and crystal appointments completed the table arrangement.

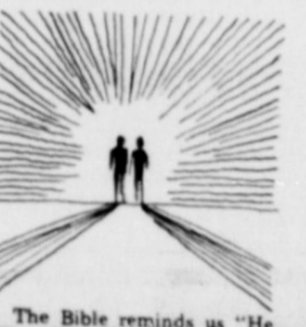

Serving pink punch, white cake squares centered with dainty pink roses, nuts and mints were Mrs. Bruce Bonick, Misses Deanne Brock, Becky Littleton and Sharla Haberer.

Hostess gifts included an electric toaster, blender, Farberware cookware, steak knives, paring knives, teflon skillet, bundt pan, china, and glass ware.

Out of town guests were Mrs. Bruce Bonick and Miss Naomi Carr of Lubbock.

Hostesses for the occasion were: Mrs. Doug Parish, Mrs. Ed Haley, Mrs. Almer Barton, Mrs. L. Z. Anglin, Mrs. W. O. Jones, Mrs. Hershel Belew, Mrs. Beulah Coker, Mrs.

Evanel Winters, Mrs. Roney Smith, Mrs. Norman Sulser, Mrs. Gladys Goodwin, Mrs. Ray Axtell, Mrs. Bill Morris, Mrs. J. L. Hinson, Mrs. J.A. Littleton, Jr., Mrs. Jerry Kelley, Mrs. Phil Haberer, Mrs. Melton Welch, Mrs. John Laing, Mrs. Johnny Marrell, Mrs. E.R. McAlpine, Mrs. Harold Britton, Mrs. G.S. Armstrong, Mr. Donald Kelley, Mrs. Vernie Bearden, Mrs. Homer Starkey, Mrs. O. M. Cleavinger, Mrs. J.J. Coker, Mrs. Ed Dawson, Mrs. Rural Fanning, Mrs. Jack Angeley, Mrs. H.S. Sanders, Miss Aurella Sanders, Mrs. Bud Matlock, Mrs. Naomi Burgess, Mrs. Leon Foster, Mrs. Ann Jones, Mrs. E.C. Hudson, Mrs. Dean Jones, Mrs. Lynn Glasscock, Mrs. Gene Brown, Mrs. Ted Borum, Mrs. Jimmy Shirley, Mrs. Cecil Parish, Mrs. Ross Brock, Mrs. C.C. Goodwin and Mrs. Bruce Bonick.

The Bible reminds us "He that walketh with wise men shall be wise: but a companion of fools shall be destroyed."

COKES AND COOKIES were enjoyed by the graduating seniors at Citizens State Bank.

### COKE PARTY HELD

A Coke party was held, honoring the graduating seniors Wednesday, May 17, at the Citizens State Bank. Cokes and cookies were enjoyed by the class and they each received a plaid traveling bag as a gift from the bank.

## Teachers Receive Awards

The S-E Parents-Teachers Association presented service awards to seven teachers at the Annual Awards Assembly held Monday, May 22, at the high school auditorium.

Presenting the awards was Jo Eddie Riley, president of Lamb-Batley Bi-County Council.

Mrs. Carra Morgan received an award for 30 years service. Mrs. Morgan has been teaching school since 1927. She began her teaching career in Hale County in the Science Hill School District. She taught one year there then spent 4 years in the Westside School District also in Hale County. The school year of 1932-33 was spent at Happy Union then she went to Hart where she taught one year. She then returned to Westside for four years, then taught at Sunny-side two years before coming to Earth in 1942, where she has taught for the past 30 years. Mrs. Morgan is retiring at the end of this school year.

Mrs. Mildred Haley received an award for 20 years and 15 years awards were presented to Mr. and Mrs. Cecil Slover, Gene Gaston and Laura Mae Stansell, head dietitian at the cafeteria. Delores Fields received a 5 year award.

EILEEN WELLS

## Engagement Announced

Mr. and Mrs. Roy E. Wells, Jr. of Springlake announce the engagement of their daughter, Eileen, to Keith Tidwell, son of Mr. and Mrs. W. T. Tidwell of Carlsbad, N.M. An August 19th wedding is planned in the Springlake church

of Christ. Eileen is a 1969 graduate of Andrews High School and is a senior at Lubbock Christian College.

## Piano Students in Audition

The piano students of Jean Craft and Harold Carson participated in the National Piano playing audition May 11th at Springlake-Earth School.

The following students received superior rating: Glenn Craft, Timmy Craft, Sue Jones, JoAnn Coker, Ray Van Banks, Clint Dawson, Jeanne Haydon, Kim Haydon, Sheila Jordan, Kim Locke, Kyle Kelley, and Susan Clayton.

Jean Craft will present her piano students in recital May 25th at her home. Time: 1st through 4th grade, 6:30; 5th through 12th, 8:15. Awards and certificates for the winners of national audition and Whitlock Theory competition winner (State level) will be presented after the recital. Everyone is invited.

### HELLO WORLD

Mr. and Mrs. Jerry Taylor announce the arrival of a baby boy, born Friday, May 19 at 2:53 p.m.

The little lad, named Steven Todd, weighed in at 7 pounds and seven and 3/4 ounces. He was 21 inches in height.

Grandparents are Mr. and Mrs. Carl Taylor of Earth and Mr. and Mrs. J.D. Coker of Amarillo.

### CARDS OF THANKS

We would like to thank everyone for their kindness during our loss. The cards, food and flowers meant so much to us and the friendship made our loss easier to bear.

Mr. and Mrs. Nathaniel Ingram and family

My sincere thanks to each of you for your kindness during my hospitalization.

Your flowers, cards, telephone calls and visits were deeply appreciated.

Mrs. Ronny (Eleanor) Haberer

## Betty Hausmann, Queen of the Week

Thirteen members of TOPS-Texas, 217, weighed in Thursday May 18 at the late Dr. Richardson's dental office.

Betty Hausmann hit the jackpot as she was named Queen of the Week and her name was drawn for the door prize. Runner-up for the Queen was

Oma Pearl Murrell. The ladies listened to a tape recorded at last year's party before going to Plainview. They dined at the Holiday Inn.

Present for the meeting were: Betty Hausmann, Emily Clayton, Pearl Cooper, Edith Crawford, Florence Gover, Pauline Hucks, Oma Pearl

Murrell, Alma Ott, Leta Vesta Perkins, Inez Elaine Been.

CORRECTION: Mrs. Lena Hite was listed as Federation Council member. Town and Country Study instead of Parliament. stated in last week's page

### Successful Treatment To Stop Women From Smoking

Group treatment plan to stop smoking has been found to be effective for women, according to psychologist Joan ... of General Behavioral ... in Torrance, California. ... groups of smokers were ... for a six-month ... One group participated ... Five-Day Plan to Stop ... by attending sessions ... Glendale Hospital and ... in California. These ... materials, lectures, ... changes in routine ... the "buddy" system, ... testimonials by ex-smokers. ... group followed no ... plan but were free to ... their own methods to ... At the end of six months, a follow-up study showed that males more often resumed smoking because they "enjoyed it," while females more often resumed because of a personal problem or because they had gained weight. These results, published in the April issue of the Journal of Applied Psychology, showed that there is a definite sex difference in ability to abstain from smoking. Males under treatment and not treated were virtually equal in their success. Females, on the other hand, were successful with treatment. This finding may be related to similar psychotherapeutic treatment results. Apparently, males not under treatment are as much improved as treated males, whereas females only improve if treated.

### Runoff Election June 3 Absentee Voting Underway

Absentee voting in the second primary began Wednesday, May 24, and will continue through Tuesday, May 30, at 5 p.m. Voting absentee in the second primary is very short, with only four days in which to cast ballots. Voters are reminded that the Lamb County Courthouse will be closed all day Monday, May 29, in observance of Memorial Day. Voters in Lamb County will have to go to the County Clerk's office in Littlefield if they wish to cast an absentee vote. Texans displayed at May 6 primaries a strong enough desire for new state governmental leadership to assure a change in top offices and a major legislative turnover as well. Reform candidates Dolph Briscoe of Uvalde and State Representative Frances (Sissy) Farenthold of Corpus Christi charged into the Democratic gubernatorial runoff, Mrs. Farenthold scored a stunning upset over Lt. Gov. Ben Barnes. Gov. Preston Smith finished a distant third. Republican gubernatorial runoff candidates are State Sen. Henry Grover and Albert B. Fay, both of Houston. Houston newspaper executive Bill Hobby led State Senator Wayne Connally of Floresville in the lieutenant governor's race and both already are campaigning hard for the June 3 runoff. One, Comptroller Robert S. Calvert, led widely but was forced into a runoff with a former employee Jim Wallace of Austin. Former U.S. Sen. Ralph Yarborough has a runoff with Barefoot Sanders for the Democratic nomination to face GOP Sen. John G. Tower. There will be at least 14 new faces in the Texas State Senate, and all observers concede the body will be more conservative than the present Senate. Six senate seats will be decided by runoffs. Republicans will oppose Democrats in 12 general election races in November. In the House, a total of 64 incumbents did not seek reelection or were defeated. (Actually, 14 were defeated.) Sixteen more incumbents were forced into House runoffs, including Speaker Rayford Price of Palestine. More than 65 incumbent representatives were renominated. Republicans were nominated in 76 of the 150 districts.

### Look Mom, No Cavities

"Look, Mom... no cavities!" That's the sound most parents hope to hear when dental health checkup time rolls around every year. Of course, most of us are not that fortunate, and we have one or two cavities that require dental treatment. But what if the story is "Hey, Mom, I've got five cavities" and the child's indigent parents cannot afford dental health care? That is a problem State health officials have been concerned about for some time. As a result, a project has begun in East Texas to deal with that problem and other dental health problems, including the need to educate children of all socioeconomic groups on proper dental health care techniques. That project is known as the Dental Health Education Trailer, a specially-built and equipped mobile dental health clinic. The mobile clinic is currently operating in the City of Marshall in East Texas, primarily in conjunction with the public school system, but also Project Head Start Programs and other such programs. It is being used as an educational tool and not as a treatment facility. The program is having great impact on the dental health of Marshall school children in grades kindergarten through sixth grade. Although the real measure of the program will not be until it has been in effect for two or three years, State health officials expect to see a significant reduction in the tooth decay rate of the school children on a yearly basis. Oral hygiene practices were greatly improved in just a few weeks after the program was instituted. So far the program has reached some 2,000 children in five different Marshall schools, and over 100 teachers have been trained in proper dental health education. These teachers see that the dental health education begun in the mobile dental health clinic continues on a daily basis in the school system. Students, who are taught proper toothbrushing and flossing techniques and tooth care, practice these methods every day in the classroom. This summer when school is out, adult education will join special low-income socio-economic areas of town as the focus of the program. Health officials have arranged with several industries in Marshall to utilize the dental health education aspects of the service and apply it to adults--to their employees. Marshall was the first city to add fluoride to its water--in the interest of better teeth. Now it has the distinction of being the first in the state with the Dental Health Education Trailer program.

**HOORAY! YOU MADE IT!**  
By DAVID HARTMAN

Seniors of Springlake-Earth High School, there is nothing to compare with graduation. I've graduated four times and each one was as exciting as could be.

To graduate from high school really means something. For one thing it means lots of hard work has brought you to this point. But I've been through that before.

Nothing changes your life anymore than graduating from high school. You will find new freedoms available. If you go on to college or go to work somewhere there will not be parents to tell you when to do what. You will be the one to decide how your "free" moments will be spent.

After graduation you will also find new responsibilities thrust upon you. Some you will enjoy. Others you won't. After graduation you are never looked on quite the same way as before. You are entering an adult world. And frankly an adult world is not always a pleasant or ideal one. But I like it. I hope you will and will even try to make it a better one.

So with that I simply say - **BEST OF EVERYTHING 1972 SPRINGLAKE EARTH SENIORS.**

## Services for H. N. Ellis Today

Services will be held Thursday, May 25 at 2 p.m. at the First Baptist Church in Earth for Harold N. Ellis, 62, who died at 7:30 p.m. Monday, May 22 in the Littlefield Hospital where he had been hospitalized 11 days. Reverend David Hartman will conduct the services and interment will be at the Earth Memorial Cemetery.

Mr. Ellis, a retired farmer, had lived in Earth 30 years. He was born June 15, 1909 in Vinson, Oklahoma. He was married to Edna Pope on Feb-

ruary 18, 1928, in Floydada. He is survived by his wife, Edna, one son, Joe Neil of Earth, two daughters, Mrs. Etta Mae M. Iani, Denver, Colorado, Mrs. Gwendolyn Schmitt of San Jose, California, seven grandchildren and three brothers, Dodd, Norman and George, all of Monett, Missouri.

REMEMBER TO ATTEND MEMORIAL DAY SERVICES MONDAY

## High School Has Awards

Monday, May 22, the annual awards assembly was held. The assembly was opened with an invocation given by Paige Gaston. The Pledge of Allegiance was led by Guy Davis and Becky Littleton led the group in singing "America."

Presenting awards for English III and IV was Bill Anderson. Kim Welch and Becky Littleton were the recipients of these.

Kathleen Anderson, English I, and Scott Lee, English II and Jesse Robles, Spanish, received

their awards from Mrs. Jacques. Betty Sulser presented the speech award to Debbie Green.

The American history award went to Darla Dear and civics to Sherry Pittman. They were presented by Dennis Criswell. Duane Locke presented Jimmy Coker with a world history award.

Homemaking awards went to Sharla Lowery, I, and Becky Smith, II, presented by Miss Smith.

Marie Slover presented Becky Littleton with the homemaking III award and Donna Lowery, homemaking IV.

Ag awards were received by Donnie Henderson, I; Monty Watson, II; and Steve Randolph, III. Gene Gaston, ag teacher, did the honors.

Monarae Cummings presented Kim Welch with a typing award, Donna Lowery, shorthand and Vicki Head, bookkeeping.

Karen Dunnam received the health award from Mr. Ramsey.

The drafting award was given to Tracy Lee and shop awards were presented to Bruce Bridges, I; Sam Parish, II; Joe Kotte, III and Pete Acevedo IV. Giving these awards was Harold Fields.

Jimmy Samarron received the related math I award, Karen Dear, related math II and Sharla Lowery, algebra I. Smythie Lawrence presented these awards.

Dewane Fryar gave the awards for algebra II to Kim Kelley, geometry to Darla Dear, physics to Marian Dawson, advanced algebra to Criss Dent and advanced math to Carl Sulser.

Becky Pittman was presented the physical science award, Scott Lee, biology, and Sherry Pittman, chemistry. Mr. Goldston presented the awards. Wayne Anderson gave the choir award to Karen Dear.

Marian Dawson received the John Phillip Sousa from Tom SoRelle.

Awards were given to students for office practice at junior high. Receiving these awards were Hoyt Glasscock, Shelly Gaston, Mike Fulfer, Susie Temple and Becky Littleton.

Library awards were given to Robert Biles, Darrell Carr, Jesse Castillo, Renay James, Donna Lowery, Regina Meeks, Pete Rodriguez, and Gail Wages.

Receiving Junior Scholarship awards were Darla Dear, Kim Welch, Renee Jones, Jesse Castillo, Guy Davis, and Doug Freeman.

Certificates were given to students who had been neither tardy nor absent throughout the year. They are: Freshmen-David Carr, Lisa Clayton, Del Davis, Pete DeLeon, Eric Freeman, Judy Herriage, Sharla Lowery, Don Marriott, Cindy McAlpine, Bonnie Parker, Mickey Price, Placido Rodriguez, Ginger Smith, Terry Carol Smith, and Greg Welch.

Sophomores are Linda Cantrell, Jimmy Coker, JoAnne Coker, Gary Enloe, Brad Freeman, Ronnie Hucks, Randle Kenedy, Tommy Lansford, Sheila Lewis, Ruby M'neal, Kenny O'Hair, Becky Pittman, Pete Rodriguez, Ramona Russell, Aaron Scheller, Scott Scheller, Randy Stephens, Monty Watson, Lonnie Wilson, Hal Wood, Charles Winder, and Leonor DeLa Garza. Juniors are Bobby Angeley, Jesse Castillo, Guy Davis, Doug Freeman, David Hanson, David Hinchliffe, Renee Jones, Danny Marriott, Steve Randolph, Jimmy Smith, Larry Thomas and Gail Wages.

Seniors are Darrell Carr, Donna Dunnam, Lupe Garcia, Tony Keith, Becky Littleton, Sherry Pittman and Weldon Eagle.

The annual dedication was made to Mr. and Mrs. Cecil Slover.

Officers of the Student Council for the next year were installed by Carl Sulser. They are Tracy Lee, president; Lesa Morgan, vice president; and Renay James, secretary.

The PTA Service Awards were presented by Jo Eddie Riley to seven teachers. Receiving a 30 year award was Mrs. Garra Morgan, awards for 15 years were given to Gene Gaston, Mr. and Mrs. Cecil Slover and Laura Mae Stansell, head dietitian. Mildred Haley received a 20 year award and Delores Fields, 5 years.

The class song was sung, ending the assembly after a pre-registration was held.

\*\*\*\*\* MEN IN SERVICE \*\*\*\*\* PVT. TOMMY D. BURKHEAD

Pt. Polk, La., Army Private Tommy D. Burkhead, 24, son of Mr. and Mrs. Jim Burkhead of Muleshoe recently completed eight weeks of basic training at the U.S. Army Training Center, Infantry, Ft. Polk, La.

He received instruction in drill and ceremonies, weapons, map reading, combat tactics, military courtesy, military justice, first aid, and Army history and traditions.

Pvt. Burkhead received the training with company A, 4th Battalion of the 1st Brigade.

He attended Muleshoe High School, and attended Texas Technological University, Lubbock.

## Local Boys Receive Degrees at South

DAVID FOSTER

David Foster, son of Mr. and Mrs. Leon Foster of Earth, and Craig Barton, son of Mr. and Mrs. Weldon Barton, received degrees at the spring commencement exercises held Friday, May 19 at South Plains College at Levelland.

Three hundred and thirteen students received degrees at the exercises.

Other area students who received degrees are: Mary Crawford, Terry Henry, Jay Harrington, Frances Jesko, Kenneth King, Larry Kitchens, James Putman, Vicki Robinson and Brenda Gail Scott, all of Muleshoe.

CRAIG BARTON

MEMBERS OF THE 7th grade P.E. Class were all honored by Tom Phelps, coach, at the Awards Assembly.

"I AM PROUD TO BE AN AMERICAN" was the feelings of the audience as 6th grade band students carried American flags in at the school program, "From Sea to Shining Sea."

TO THE STRAINS OF "THE BATTLE HYMN OF THE REPUBLIC," played by the high school band and sung by the school choir, flags were borne by the members of the 6th grade band to represent the reunion of the states after the Civil War.

### Miracles Do Happen

Mrs. Wayne Cole, daughter-in-law of Mr. and Mrs. R.S. Cole would be the first to tell you that miracles do happen. Mrs. Cole was returning to her home in Olton Saturday when she lost control of her car. The car flipped over, landing on its top and caught fire. Mrs. Cole pushed her two children, ages 1 and 4 through the window, then managed somehow to get through herself. She was in shock and was found walking back toward Littlefield. The car burned completely to the ground and luckily Mrs. Cole nor her children had any broken bones or serious injuries. They have some bruises and Mrs. Cole is going to have some therapy on her neck.

## School Program Huge Success

A large crowd attended the very inspiring patriotic program presented by the S-E school, Thursday night, May 18. The program was opened and emceed by Carl Sulser, president of the Student Council. Mike Cleavinger, representative from the Lettermans Club, gave a reading on being an American.

The high school and junior high choir sang an arrangement of America entitled "From Sea to Shining Sea" accompanied by the high school band, as their first selection. The choir then sang, "Born to be Free," "I'd Like to Teach the World to Sing," "Consider Yourself," "Your Land and My Land" and "This is My Country". They were accompanied by Mrs. Jimmy Craft.

Next came one of John Phillips Sousa's most famous marches, "The Stars and Stripes Forever", played by the high school band, followed by a popular song "Lemon Meringue".

A musical description of the Civil War was next on the program. This was prior to and during the Civil War. The band played popular tunes of the mid-nineteenth century, then rallying songs of the two armies as they came closer. Finally in a shattering explosion the war is on. After hearing sounds of the war and a loud gun blast, the noisy tumult dies away, giving birth to "The

Star Spangled Banner," with the audience joining the singing. Fifty small American flags were carried in by members of the sixth grade band and grouped beneath a high American flag which was on the wall, forming a background for the band and choir. One really

felt proud to be an American throughout the program but especially as the flags were carried in while the band played "Battle Hymn of the Republic."

felt proud to be an American

throughout the program but especially as the flags were carried in while the band played "Battle Hymn of the Republic."

These boys and girls, led by Tom Soelle, band director, and Wayne Anderson, choral director, did an excellent job of entertaining the audience and no one seemed to be ready for it to end.

# CLASS WILL

I, Karen Dear, will my ownership of Karen Dear's Butterball Turkeys to Clifford Daniel in case his shrimp business fails.  
 Karen Hinchliffe will her ability to fool Mother Nature to Gail Wages and Paige Gaston.  
 Joe Rivas and Carl Sulser will 1/2 dozen eggs each to Clifford Daniel and his cowboy friend but they suggest that those boys keep them home next Halloween if they decide to go to Chicago or New York.  
 I, Chris Brock, will my wire rim glasses and my thick lens to Steve Hay not that he doesn't have enough already.  
 LaDonna Holmans will her book "Advice to Young Brides" to Leah Galloway.  
 Regina Cole will all the junior boys a free course for her Mouth-to-Mouth-Resuscitation Class.  
 Hollis Daniel will his ability to ask questions that shouldn't be asked to Kim Welch.  
 Donna Lowery and Regina Meeks will their knee length dresses to Barbara Buckner and Toni Sanders.  
 Laneta Lansford and Regina Cole really found Coach Lea-

verton to be an inspiration this year and have decided to leave him their pole vaulting skills and a copy of their new book, "Around the Track in 80 Days."  
 Laneta Lansford will her Supermen notards to Guy Davis and may he use them wisely.  
 Lupe Garcia will her reserved manners, shyness, and honesty to Brenda Miller.  
 Lupe Garcia will her unbreakable chalk and dustless erasers to Mr. Lawrence.  
 Donald Templeton wills Kent Lewis a body shop bill.  
 Suzy Temple will the second edition of Humpty Dumpty to the junior boys with this month's foldout, Renee Jones.  
 I, Weldon Eagle, will my love for bull riding to Bobby Myers.  
 Greg Slover will his ability to take all the bumps and bruises that it takes to be a great "yo yoer" to Larry Thomas.  
 I, Janie Ruiz, will my carrots and leafy vegetables to Jesse Castillo for better vision.  
 I, Norma Gantu, will my Betty Crocker cookbook to the juniors because they really cannot.  
 I, Joe Kotte, will my sun

flower seed hulls to Mr. Criswell, my old Bookkeeping practice set to Vicki Head, and I leave my Geometry grades to Eright Johnson and David Hanson.  
 I, Donna Damman, will to Lesa Morgan my ability to play forward on the basketball team and all the points I scored last season.  
 Hoyt Glasscock will his ability to do a little bit of everything and a whole lot of nothing to Brian Sanderson.  
 I, Denny Bradley, will a one way ticket to the Criswell farm in Iowa to Kevin Anderson.  
 John Kelley will his beer belly to Kent Lewis.  
 I, Robert Biles, will my size 13 ring to Ken Bock.  
 I, Cris Dent, will my many hours behind the fieldhouse to Diane Fuller and hope she has as much fun as I did.  
 I, Mike Fulfer, leave Steve Randolph my Civics Class memories of Frog calls and flying airplanes.  
 Carl Sulser and Terrell Ott will all the wasted hours they spent in Mr. Cooksey's and Mr. Mann's office trying to reform the reformatory to next year's

RIDE ON!! Spectators seem not to have any trouble keeping up with this strike racer at Play Day Friday.

student council president and vice president.  
 I, Dora Sanchez will all the "Gayena" power in volleyball to Lesa Morgan and Toni Sanders.  
 Eddie Alair will his ability to make conversation to Renay James.  
 Carl Sulser will his knowledge of peeling bananas to someone in the Junior class so that the whole class will not starve to death next year.  
 Terrell Ott will the day after Pearl Harbor Day to Danny Marriot because he was there.  
 David Wistan will all his American History paper airplanes to George Nance.  
 Don Haberer will the truth, the whole truth and nothing but the truth to Barry Pittman and Monty Price.  
 Mike Cleavinger, if he makes it through chemistry this year, will his fantastic grades to Bob Cleavinger because he won't make it.  
 Darrell Carr will his red hot '59 chevy to David Hinchliffe and Colita Biles.  
 Chuck Smith will his super-duper car to Bobby Jack Angeley.  
 Phyllis Smith will her shapely body to Lisa Orr.  
 Raiford Daniel will his ability to attract red heads to Vicki Wistan.  
 Sherry Pittman will her ability to blush to Eright Johnson.  
 Janet Britton will her long, straight hair to Darla Dear and Earlene Walker.  
 Marian Dawson will all her old tennis shoes to Shelly Gaston.  
 Tony Keeth will his dark hair and skin to Luis Palacio and Joe Acevedo.  
 Pete Acevedo will his 7-foot height and 120 pounds to Vickie McClure and JoAnn Miller.  
 Fred De Leon will his muscular body to Nicho.  
 Dale Wheatley leaves his "curl free" hair straightener to Tracy Lee.  
 Bruce Bridges will his shoe, hair, western music, and clothes

to Jimmy Smith.  
 Chuck Smith leaves his last name "Foo" to Vickie West.  
 Phyllis Smith and Bruce Bridges leave Alice Bosquez and Jesse Robles the name of their jeweler.  
 Becky Littleton will all the Indians she shot this year to Doug Freeman.

According to a study of the operations of 4,655 retail businesses that failed last year by Dun & Bradstreet (whose business is information about business), 19.6 per cent failed primarily because of general managerial inexperience, 12.4 per cent through lack of experience with the line, and 19.6 per cent because of weaknesses in special areas such as financing or purchasing!

# Voters Do Not Switch Party

Voters in the June 3 runoff elections were warned Tuesday by Secretary of State Bob Bullock to "stay in the party primary where they voted on May 6."  
 "Judging from reports several county clerks are receiving, it looks like many Republicans are being tempted to switch over and vote in the Democratic runoff on June 3," Bullock said.  
 "Every voter needs to know that if they voted in the Republican primary on May 6, they cannot vote in the Democratic runoff. And if they voted Democratic the first time, they cannot switch and vote Republican on June 3."  
 "We want the public to know that this action violates Article 240 of the Texas Election Code and is punishable by a fine of from \$100 to \$500."  
 "We know that this type of voting has taken place in the past. A survey by State Senator Oscar Mauzy in 1968 showed that there were some 1,300 crossover voters in his district alone.  
 "Certainly, any crossover voting would distort the true strength of a candidate in the other party. I think a key campaign by the Republicans would be to vote if only for excitement."  
 "We hope that public opinion will discourage this type of voting. If we find that an alternative but to permit information along to the prosecuting attorney."  
 "We want election officials to know that there is a law behind this practice. It will be the only way we can serve the integrity of the election process."  
 Bullock said he was a voter to know that he was against the law for to cast a ballot in two precincts, even within the same party.  
 "We know that there are instances of this reported in the May 6 primary crossover voting, this practice is against the law simply cannot be tolerated."  
 "I want the local officials to bear down and make sure this doesn't happen in the runoff," Bullock said.

# Fund Drive for Boy Scouts Underway

The George White District for Boy Scouts fund drive is underway. This district includes Lamb, Hockley, Batley and Cochran Counties. The goal set for the district is \$21,900 which will include sustaining membership enrollments and funds from United Funds where the fund operates.  
 The quota for the operation of Boy Scouts is \$20 per boy per year, according to Marc Wittenberg, of Levelland, district scout executive, who met with Littlefield workers.  
 Local chairmen are Joe Miller, Amherst, Marvin Tollett, Sudan, Bill Scott, Earth, Ernest Tuggart, Levelland, Roy McClung, Marton, Sam Rankin, Whiteface and David Sudduth, Muleshoe.  
 The George White District Drive will continue until Memorial Day.

The world's biggest toy store is probably F.A.O. Schwarz's on Fifth Avenue in New York City. Its three selling floors have a combined area of 50,000 square feet. Its ten branch stores add another 100,000 square feet.

# SUNNYSIDE NEWS

By TEENY BOWDEN

Mrs. Roy Phelan, president of the Sunnyside School District, Monday afternoon at the Sunnyside School. She was accompanied by Mrs. Carl Webb, secretary, and Mrs. Harold Head, treasurer. Mrs. Cliff Head, assistant secretary, and Mrs. Jerald Head, assistant treasurer, also were present. Mrs. Head helped with the transportation. Jerald Head is the president of the Sunnyside School District. Mrs. Webb is the secretary. Mrs. Head is the treasurer. Mrs. Head is the assistant secretary. Mrs. Head is the assistant treasurer.

with her mother at the home of her brother, Mr. and Mrs. Hilery Aven. Several from the community attended the Springlake-Earth band's patriotic concert Thursday night with several of our students participating. Mrs. Vernon Orr was in Fort Worth to attend a medical convention. She also visited with her sisters while there. Naomi Carr was home from Lubbock for the week-end of her family. Her boy friend was a Sunday dinner guest. J. C. and Edwin Fuller are playing on the Babe Ruth team this year. They played their first game Saturday. The Little League Red Sox won both games last week instead of one as I reported. Mr. and Mrs. Joe Parson of Clovis spent the day Sunday with Mr. and Mrs. Thomas Parson, his mother and Robert and Tommy Wilson. Mrs. Joe Parson attended the Sunday morning services with them, Mrs. Parson Sunday night. Mrs. E. R. Sadler and Mr. and Mrs. M. H. Fowlkes of Rockport visited Thursday through Sunday night in Fort Worth with Mr. and Mrs. Tommie Fowlkes and boys. Mr. and Mrs. Grady Epperson of Ropesville spent Mother's Day with Mr. and Mrs. Hershel Wilson and children last Sunday. Mr. and Mrs. Wilson had a belated Mother's Day dinner with his family at the home of his sister, Mr. and Mrs. Charles Nutt and family of Dimmitt Sunday. Mr. and Mrs. Larry Sadler and girls went with Mr. and Mrs. Tex Conard of Dimmitt to the Hardin-Simmons commencement exercises Sunday to see Mrs. Juanelle Winsor receive her BS degree. Gabriel Montiel is playing on the Dimmitt little league Tigers team this summer. Mrs. Gabriel Montiel was dismissed from Plains Memorial hospital in Dimmitt last Saturday after being confined for tests.

Lonnie and Debbie Wilson, Renee Jones, and Lisa Morgan participated with the stage band in the Band Luncheon at Springlake-Earth Sunday. Several mothers from the community helped furnish food for the band benefit luncheon, and had lunch there. Rev. and Mrs. M. D. Durham and Mr. and Mrs. John Ross and Melinda of Lubbock visited Saturday with Mr. and Mrs. Roy Phelan. Rev. Durham also visited with Rev. Mack Turner. Bob Duke, Ronnie McGowan, Debra Ball, and Delores Waggoner attended the senior banquet at the First Baptist church in Dimmitt Tuesday night and the Junior-Senior Banquet Saturday night. Senior Day was observed Thursday or Friday with students taking one day off to do what they wanted to do. Delores and Debra shopped in Lubbock. Dr. and Mrs. Robble Lindsey recently of Houston arrived Saturday to spend a few days with Mr. and Mrs. Eules Waggoner, Eddy and Delores and visit in Dimmitt with his parents. Robble graduated from dental school in Houston Monday night. Rev. and Mrs. Don Smith and Carrie of Causey, N.M. visited Friday and Saturday with her sister, Mr. and Mrs. Gale Sadler, Cindy and Susan. Gale Sadler has been elected by the church to be the local co-ordinator for the Lay-Witness Mission scheduled for August 25, 26, and 27th. Ray Pearce of Roscoe will be the outside co-ordinator. Ronald Henderson of Colorado Springs visited Sunday with Mr. and Mrs. J. C. Holbrooks. Mr. and Mrs. Earl Phelan of Fieldton visited Sunday afternoon with Mr. and Mrs. Roy Phelan and attended the evening services with them. One-fourth of an inch of rain was recorded for Sunday afternoon with a little hail. Darrell Carr, Danny Bradley and Eddie Alair attended Baccalaureate Services for the

RAMBLING ROSES team members are back row, left to right: Daneen Wilson, Sue Bradley, Kay Howell, and Debbie Pittman. Kneeling, left to right: Pam Ott, Christi Pittman, Debra Clayton, Renee Winden, and Debra Houston. Standing at the back are assistant coaches, Dickie Bradley and Marilyn Eagle. Not pictured is Beth Pounds.

Springlake-Earth seniors Sunday night. Seventy-two attended Sunday School with 20 in Training Union Sunday. Mr. and Mrs. Dan Burnett and a friend from Wayland were Sunday guests of Mr. and Mrs. Weldon Bradley.

## Mother of Local Men Dies

Mrs. T. C. Sanderson, mother of W. G. Sanderson, passed away May 18 in Hopkins County Memorial Hospital at Sulphur Springs, Texas. She had been ill for 15 months, starting with a broken hip then other complications. Mrs. Sanderson was 84 years old. She was preceded in death by her husband in 1953, and one son, Ray, in 1971.

She was a member of the Missionary Baptist Church of Sulphur Springs and interment was at the Sulphur Springs Cemetery. She is survived by five sons, E. F. and T. L. of Sulphur Springs, V. E. of Jourdanton, R. J. of Lazbuddie and W. G. of Earth, fifteen grandchildren and twenty-four great grandchildren. Mr. and Mrs. Sanderson lived in Earth in 1948.

Terry cloth is an extra absorbent cotton with warp threads woven into loops. Cotton poplin is from the French "popeline" because it was first made in a papal city.

# Junior High Receives Awards

Friday, May 19, was the day for awards for junior high students.

The assembly was opened with an invocation, pledge of allegiance and the singing of "America."

"Our Thoughts For You Eighth Graders" - a tribute, was made to the 8th grade class by the other classes.

Charla Dunnam gave a reading entitled "Be the Best of Whatever You Are." Cathy Everett, Lupe Gonzalez, Scott Cooksey, and Fred Mzeks recited poems honoring the class.

Department awards were presented first. Reading award, 6th grade, went to Alan Been. Special reading awards to Ray Van Banks, 6th, Donny Jones, 7th and Joe DeLeon, 8th. Shop awards were presented to Joe Garza, 7th and Eric Vaughan, 8th.

Receiving math awards were Alayne Slover, 6th, Sherry Winders, 7th and Armando DeLeon, 8th.

Speech: Charla Dunnam, 7th and Lupe Rivas, 8th.

English: Connie Dear, 6th, Dickie Brown, 7th and Margaret Street, 8th.

Spelling: Clint Dawson, 6th, Isabel Sauseda, 7th and Jerald Head, 8th.

Social Studies: Tommy Graham, 6th, Scott Cooksey, 7th, and Bill O'Hair, 8th.

Science: Susan Clayton, 6th, Max Price, 7th and Roy Kotte, 8th.

Arts and Crafts: Lupe Loya and Gail Miller.

Awards in Special Education Class went to Natividad DeLeon for reading, Guadalupe Fuentes for math, Rose Cervaniz, spelling and English, and Elva Ruiz, home economics.

Scholarship awards were presented to students with the highest grade average. They are: Clint Dawson, 6th; Debbie Verden, 7th and Margaret Street, 8th.

Receiving the citizenship awards were: James Hanson, 6th; Donna Green, 7th; and Nisha Lewis, 8th.

Cheerleaders receiving awards were Kelley Haydon, L'Anna Sulser, Camille Hinchliffe, Kim Dent, Kim Jones and Kristi Thomas.

Jerald Head was presented an award for serving as president of the student body.

Receiving awards from the Honor Society were: Jerald Head, Margaret Street, Bill O'Hair, L'Anna Sulser, Randy Bills, Randy Latham, Lee

AWARD WINNERS AT ASSEMBLY ARE: Back row, l to r: Tommy Graham, Social Studies, 6th, Scott Cooksey, Social Studies, 7th, Alan Been, Reading, 6th. Front row: Connie Dear, English, 6th, Clint Dawson, Spelling, 6th.

Baldemara Sauseda, Janet Fields, Vicki Freeman, Kareen Hulcy, Josie Monreal, Pam Ott, Alayne Slover, Kristi Thomas and Ranae Winder.

Seventh grade-Kim Clayton, Cindy Dent, Lorinza Sanchez, Isabel Sauseda, Jason Scheller, Kelley Jo Wheatley, Sandra Zambrano, Scott Cooksey, Steve Green, Terry Hood, Danny James, Ricky Kennedy, Brian Taylor and Brent Been.

Eighth grade- Brad Barden, Randy Bills, Larry Dear, Jerald Head, Salvador Padilla, Ronnie Thomas, Nancy Cantrell, Peggy Cantrell, Irene DeLeon, Peggy Gregory, Nisha Lewis, Grace Sauseda, Karen Smith, Margaret Street, and Natividad DeLeon.

The assembly was closed with the singing of the school song.

### PARTY LINE

Mrs. Melton (Bessie) Welch was admitted to the University Hospital in Lubbock Tuesday week. She is said to be suffering from fleabitis. She has been having therapy on her leg and now has it in traction. She was feeling better Wednesday morning. Mrs. Welch is in Room 116.

## All Stars Win 19-14

The Girls Little Dribblers All-Stars traveled to Hale Center, Monday night for a practice game against the Hale Center Little Dribblers.

The girls got off to a slow start in the first quarter but after getting over their nervousness really played some good ball.

The guards did a fine job and held the opposing team down to only 14 points. Alayne Slover, Christi Pittman, Jill Barden, Nelda Garza, Kristi Thomas, and Connie Dear played as guards and as forwards were Pam Eagle, Susan Clayton, Sue Bradley, Kim Dent, Vicki Freeman and Lindsey Fields.

Scoring for the S-E team were Pam Eagle, 12 points, Susan Clayton, 3, Sue Bradley, 2 and Vicki Freeman, 2.

The girls will play in Level-land in the Little Dribblers tournament June 8, 9, and 10.

Mrs. Myrtle Bentley and Miss Mable Vore of Amarillo spent several days last week in the home of their sister Mrs. Jack Hinson.

## Pesticide Safety Urged, Read Directions

has come and with it man's pests--insects, rodents and plant diseases. And, farmers, ranchers and homeowners are once again using pesticides to eliminate these problems.

Dr. Price notes that the use of pesticides increases drastically in the spring. "In the spring," notes Dr. Price, "the use of pesticides is at its peak. The Texas Agricultural Extension Service, since all pesticides are so potent, extreme caution in their use is essential."

Dr. Price says that the use of pesticides may cause more trouble than the pests they are intended to control. "The danger of pesticide poisoning is real," he says. "It is essential to read the label carefully, even the small print, and to follow the directions for mixing and using the pesticide. If the information on the label includes specific recommendations for safety equipment such as a respirator, by all means use it," emphasizes Price.

He suggests wearing clean, long sleeved clothes. If pesticides are being used for extended periods of time, such as several days, a shower and a change of clothes at the end of each work day are important. Clothing should be kept laundered after each day's use.

"Always change and bathe if pesticides are spilled on the clothing," recommends the specialist. "Studies have shown that you must wash the affected area immediately in order to minimize the chance of poisoning."

According to Price some pesticides are absorbed through the

skin more readily while others readily penetrate certain skin areas. Of the exposed skin areas, the forehead offers the easiest point for pesticide penetration. However, any area may be penetrated enough to result in poisoning. So, avoiding contact or washing immediately after the skin has been exposed to pesticides can not be overemphasized, says the specialist.

"Pesticides used on crops and livestock should not be used in or around the home," cautions Price. "Also, never eat, drink or smoke when handling or using pesticides."

After a field or area has been treated, re-enter it only after the danger of poisoning has been reduced. Contact with treated plants, surfaces or application equipment can be hazardous, adds Price.

MATH AWARDS WERE PRESENTED to Armando DeLeon, 8th grade, Alayne Slover, 6th grade and Sherry Winders, 7th grade. BILLO' Hair received the Social Studies Award for the 8th grade class.

## "Free" - Prize Offers, Beware

"Congratulations! You have just been selected the lucky winner of..." Lucky you! You're now eligible for a high-powered advertising pitch designed to separate you from your money.

Exciting and alluring sweepstakes greetings are generally pitched to the innocent opener of his daily mail. And each year thousands of consumers take the bait and are subsequently gulled into buying goods or services they don't want or don't need.

The "free prize" type of false advertising has many ingenious variations, but the basic principle is always the same. It caters to people's hopes that

somehow, somehow, they can beat the system and get something for nothing.

The whole purpose behind these phony contests or "surveys" is to trick consumers into making purchases they usually regret later on. After all, the consumer didn't really want the items in the first place... it was just that he "won" the chance for a good deal.

Often after a consumer claims the "free" prize or gift, he finds he must make some other purchase in order to be eligible. The resulting cost covers both items.

In other cases, a "free prize" is sold with expensive companion items--such as yearbooks

with "free encyclopedias," service policies or cabinets with "free sewing machines" or cost-of-postage only with "free" magazines.

Another scheme is to offer consumers a "free gift" or sample supply of a product. When the consumer accepts the gift offer, he is asked to sign a contract which, often without his knowledge, obligates him to purchase a certain amount of goods or services in the future.

Next time you win a free gift, remember--no one is in business to give things away. If you have to buy something to get your gift, look at the offer with suspicion.

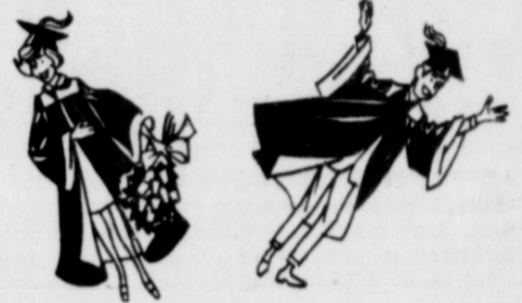

Be a smart consumer.

## Child-Proof Containers For Furniture Polish

The Food and Drug Administration is working to prohibit lung disease caused by certain furniture polishes.

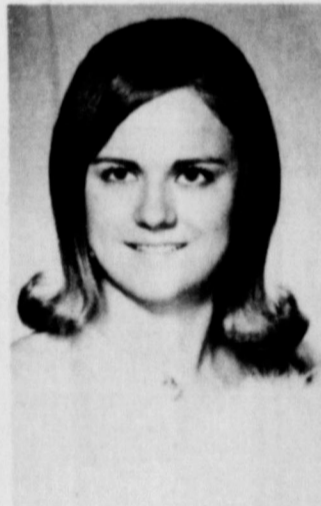

"After September 13, 1972, manufacturers of certain liquid furniture polishes must package their products in child-proof containers to comply with a new FDA regulation," noted Pat Bradshaw, housing and home furnishings specialist for the Texas Agricultural Extension Service at Texas A&M University.

The specialist explained that the regulation covers liquid furniture polishes that contain at least 10 per cent mineral seal oil, a crude form of mineral oil used to put a shine on furniture. When swallowed by children, such polishes can

cause lung diseases.

The FDA formulated a test that the packages must pass. First, a sample of children under five years of age must not be able to open the package 85 percent of the time. However, a panel of adults must be able to open it 90 per cent of the time.

Second, the opening of the container must restrict the flow of polish so that only about a half teaspoonful comes out from one shake or squeeze of the opened container.

## AMERICA IS PROUD OF ITS YOUTH

Today, more than ever before, our country needs its youth. We need youth's inquiring mind... youth's unquenchable desire to excel. There is a better tomorrow for our nation only if there is vitality in our youth today.

The new Graduates personify these ideals to a high degree. We are sincerely proud of each of them. They have proven themselves to be eager for tomorrow... and ready for whatever challenge tomorrow brings.

We salute the new Seniors and are proud to offer to them our heartiest wishes for continued success and happiness.

# Smooth Steering, Like Smooth Sailing Depends on Air

Smooth steering, like smooth sailing, depends to a great extent on the proper use of air pressure, and drivers have a big edge over helmsmen if they will use it says the Tire Industry Safety Council.

The difference is sailors have no control over the amount of air they have to work with while motorists do—the amount of air they place in their tires.

Inflation pressure level has a great deal to do with the way a car handles, especially in turn-

ing maneuvers. It influences the tire's reaction to the load it carries, a function called the slip angle.

If all four slip angles are equal, it gives the car a neutral steering characteristic.

This means in turns front wheels neither "push out" nor do the rear wheels swing out and cause the front end to turn more sharply, as would happen if a car is built to oversteer.

Most American cars are built with a basic understeering qua-

lity, to respond more slowly to steering wheel movement.

This allows the average motorist, lacking a race car driver's reflexes, to anticipate what the result of his turning action will be.

In the words of one industry expert, "Understeering is more forgiving of driver mistakes."

Automotive engineers build cars to operate most efficiently and safely at the manufacturer's recommended tire inflation pressures, found in the

owner's manual and usually affixed to the glove compartment or a door or door pillar. The pressure recommendations are based on the best ride at the calculated slip angle balanced with the construction of the whole car, including the steering geometry, springs and rear-engine cars may vary widely.

Maintaining these different levels is critical to the proper functioning of the suspension systems.

## Noise Pollution Has Adverse Effect on Health

Exposure to considerable amounts of sound may be related to increased illness, three researchers discovered after interviewing a sample of adult, urban Detroit and Los Angeles families.

"Possibly... all or some humans exposed to certain intensities of sound with a certain regularity have their health adversely affected..." researchers Paul Cameron of the Psychology Department of the University of Louisville, Donald Robertson of the Sociology Department at Long Beach State College, and Jeffrey Zaks of the Wayne State University Medical School report in the February issue of the Journal of Applied Psychology.

Some of the questions investigated were: Where are these loud sounds encountered? How loud are these sounds, and how frequently are they encountered? Which sounds are considered objectionable (that is, noise), and which are regarded as "just sound"? Is the home

or work environment considered more pleasant from a sound standpoint? And are there sex differences in these judgments?

There was an agreement by both men and women that work is indeed noisy and that children account for the greatest share of noise at home.

About two percent of the population are regularly annoyed by plane sounds, four percent by traffic sounds, and ten percent by machine sounds.

The results in toto raise a serious environmental question as well. "About a quarter of the women and a third of the men in our society are being regularly annoyed by sounds. Of these, only about fifteen percent are inevitable (that is, caused by children and music). The greater bulk are man-made and potentially man-silence-able."

Egbert, Ethelwulf, Ethelbald, Ethelbert and Ethelred were the first five kings of England.

## Time-Rite Improves Golfer "Drive Power"

Golfers can now improve both driver timing and power to the ball with a simple new practice device -- Time-Rite.

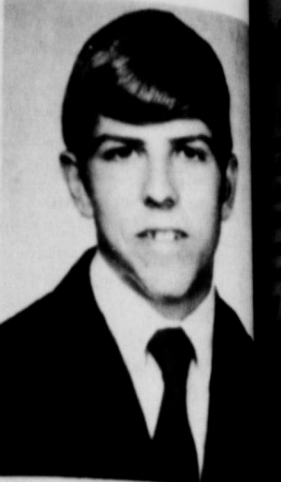

A cylinder containing a magnet-retained steel ball is mounted near the club head on the driver shaft and parallel to the shaft. When wrists are broken on the down swing, centrifugal force drives the steel ball away from the magnet so that it "clicks" against the opposite end of the cylinder. This audible "click" tells golfers whether they are breaking wrists too

early, too late, or right on the money. Three different sized steel

balls are included so that the golfer can practice with the correct force for his height and build. Time-Rite is designed for use with both during practice swings

**the summit!**

You've done it, Seniors! You've reached the top and we're proud of you. Much luck and good health is our wish for you at this time.

Yarn-dyed cottons are richer in color and more colorfast than dyed piece goods. Cotton losses due to insects can run as high as one out of every eight bales. Cotton is the only major fiber that increases in strength when it's wet.

Cotton Army duck is the most rugged and durable of tenting materials. Combed cottons have been "combed" of short fibers leaving the longer lengths. Cotton textiles are vital in operation of dairies, fisheries, and packing houses.

# "Sturdy 30" Plants Make Beautiful

For home landscape plan, ever trees, shrubs and annuals that are tough enough to stand heat, drought and frost. How many plants are to choose from? Fortunately, Texas may consider a number of so-called "sturdy 30" says Dr. William Welch, horticulturist with the Texas Agricultural Experiment Station Service. Homeowners that weren't used to the proverbial "thumb" success can only be found with can- "Cannas grow quickly and tubers available at many nurseries. New dwarf varieties especially appropriate for smaller culture and provide bright splashes of color during weather. The large banana leaves are also hand- " notes the Texas A&M University specialist. List of hardy, sun-loving annuals that can be

RECEIVING THE 8TH GRADE ENGLISH AWARD was Margaret Street, 8th grade spelling, Jerald Haad, 7th grade library, Marquetta James and 8th grade library, Ronnie Thomas.

grown from seed planted in late spring includes zinnias, marigolds, periwinkles, four-o'clocks, cleome, portulaca, gloriosa daisies, globeamaranth, nasturtiums and balsam. For shady spots, sultana is hard to beat with its bright

colored flowers against dark green foliage, says Welch. It can be grown from seeds or cuttings. Gardeners looking for a quick effect will probably find blooming size plants readily available. Castor beans can provide huge masses of tropical foliage in green, bronze or purple with a minimum of effort. Caution should be used, however, since the plant is poisonous. "Shasta daisies have strong perennial roots that enable them to withstand periods of drought and suffering better than most plants. The flowers are one of the best for cutting," adds the horticulturist. Two vines that will grow practically anywhere are moonflowers and morningglories. Both grow and flower quickly from seed. Moonflowers offer a delicious fragrance during the night while the blossoms are open. "Trees do a tremendous job of making life more attractive and comfortable," notes Welch. "Trees instill pride in citizens of a community and demonstrate a feeling of continuity with the past and anticipation for the future." Unfortunately, in our haste for so-called "quick shade," too many poor quality trees are planted, contends the special-

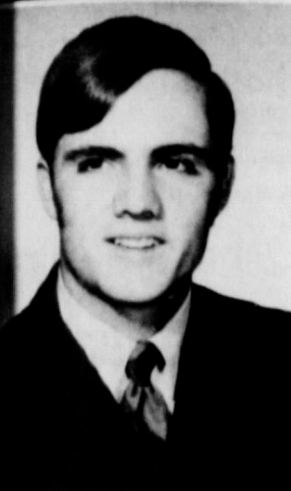

ist. "Selecting the right tree for the right location is worth considerable thought. Some slow growing trees can be hurried up with proper care. For instance, southern live oaks and Shumard oaks will grow moderately fast if good conditions are provided." Grape myrtle and callery pears are long-lived, handsome and easily grown in less than ideal conditions. Cedar elms provide dense shade with minimum care and thrive in a wide range of environmental conditions. According to Welch, the Mex-

ican flowering plum is an excellent small native Texas tree that is seldom used. In addition to the abundance of fragrant white flowers in early spring, the small plums make an excellent jelly. With increasing land costs, homeowners have been forced to smaller properties and therefore a need for more privacy. Screen plantings provide some of this desired privacy, and plants might include Japanese Yew (Podocarpus), Burford Holly, American Holly, flowering pomegranate, primrose, oleander and nandina. For screen plantings, select a plant that can be kept to proper size with a minimum of pruning, suggests the horticulturist. Welch offers some helpful hints for the survival of the so-called "sturdy 30." Soils should be made sufficiently porous to allow leaching of harmful pollutants when rains or waterings occur. During hot and smoggy periods, it is wise to hose off plants with fresh water at fairly frequent intervals. Small but frequent applications of fertilizer are also beneficial.

## Mother, Infant Bond Not Strong At First

New mothers shouldn't feel guilty if they don't have an immediate attachment for their child.

"Most expectant mothers can hardly wait to hold their newborn baby," said Jane Fleischer, family life education specialist for the Texas Agricultural Extension Service at Texas A & M University. "Then, when they don't have a deep and immediate love for the child, they feel terribly guilty."

The specialist explained that the baby the nurse puts into the new mother's arms is a little stranger—even though it's her

own child. The bond between mother and baby is seldom a strong one at birth. But it grows day by day as mother and child respond to each other.

Researchers found that it often takes as long as three months for a new mother to really have strong feelings for her baby. For about the first month she feels a rather impersonal affection.

It's not until the baby itself begins showing responsiveness that the mother's feelings deep-

en. That's around the second month when the baby begins to smile and recognize his mother's voice and reacts to her attention.

"New mothers shouldn't be concerned if they don't have an immediate love for that squirming little bundle that's plunked down beside them in the hospital bed," the specialist concluded. "Like anything new, it takes mother and child a little time to get used to each other—perhaps even a few months."

### OUR MEN IN SERVICE

USS MIDWAY, May 12—Navy Petty Officer Third Class David E. Beeson, husband of Mrs.

Cynthia A. Beeson of Route 1, Muleshoe, is aboard the attack aircraft carrier USS Midway presently off the coast of Vietnam.

The Midway has been presented the Navy's Meritorious Unit Commendation for outstanding performance during her 1971 Western Pacific deployment.

The planet Venus is only slightly smaller than the earth. (Earth's diameter is just 200 miles greater.)

RECEIVING BAND AWARDS at the Junior High Assembly were Jamie Soto, 8th grade, Fonda Goodwin and Lee Brown, 8th grade, and Kim Jones, 7th grade. The choir awards were given to Debbie Verden, 7th grade and Janie Certa, 8th grade.

## Voluntary Nutritional Labeling Of Food To Be

"The homemaker concerned about the nutritional value of packaged foods should know that the Food and Drug Administration is proposing the establishment of a uniform system of voluntary nutritional labeling for packaged foods."

That's the report given by Frances Reasonover, foods and nutrition specialist for the Texas Agricultural Extension Service at Texas A & M University.

The proposal was made in response to requests by consumer groups and to a recommendation favoring nutritional labeling by the 1969 White House Conference on Food, Nutrition and Health.

The system would encourage manufacturers to list calories, fat, protein, carbohydrates, vitamins and minerals on food packages.

"The increasing number of processed and formulated foods makes it difficult for consumers to identify the nutritional qualities of the foods they buy," the specialist noted.

Under the proposed guidelines the information panel, displayed prominently on food packages, would contain the nutritional information concerning the product.

This list would include a statement of what's considered the size of an average serving for the product expressed in common household terms, such as cups and slices.

It would give the calories per serving to the nearest five calories. Protein would be the number of protein, fat and carbohydrates per serving to the nearest gram.

"Many people are interested in vitamin and mineral content," Miss Reasonover said. "The panel would show percentages of these found in that particular food. Although the standard would be voluntary, the Food and Drug Administration conducted a study that consumers would purchase products with the nutritional labeling over the course of the labeling."

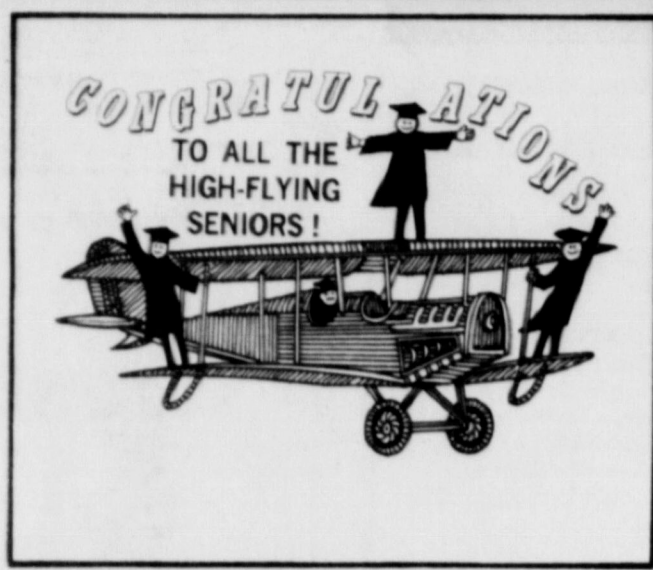

"The one thing I get for a quarter test from your year that it isn't enough."

Nearly all U.S. cotton is mechanically harvested.

Defoliation is essential for cotton plant leaves.

Whitney's "gin" is an "engine."

## Circus Ticket Sales Begun

Mail orders are now being accepted by Lubbock Municipal Coliseum for its upcoming engagement of the all-new 101st Edition of Ringling Bros. and Barnum & Bailey Circus. The Greatest Show on Earth will open at the Coliseum on June 13 and 14th for performances, at 2:30 and 8:00 p.m.

Presenting the most exciting and elaborate three-ring spectacle of all time, the new Circus features sensational German animal trainer Gunther Gebel-Williams and his fantastic elephants, tigers and horses. Other internationally acclaimed Circus attractions include: Wolfgang Holzmaier, presenting 17 snarling lions; the fantastic Spanish juggler, Gran Picaso; the Swiss highwire clown, Pio Nock and Company; the Flying Waynes and the Flying Braytons; the amazing aerial star, Elvin Bale; Doval the Great, the world's bravest high-wire artist; Jeanetta Williams, Europe's finest horsewoman; the fabulous George Lionel Bears from Rumania; and a host of other auspicious attractions. In addition, The Greatest

Show on Earth presents the world's largest, funniest Congress of Clowns and the largest collection of performing animals in the world today.

Five elaborate and magnificently costumed production spectacles are featured in the 101st Edition, including the imaginative and exciting "Gonna Build A Circus," the most elaborate elephant spectacle of all time, "The Peerless Potentate of Pachydermia."

Tickets are \$5.00, \$4.00 and \$3.00 each. Children under 12, \$1.00 less than adult tickets for the 2:30 p.m. performance only. Send ticket orders and make checks payable to: Ringling Bros. Circus, P.O. Box 1732, Lubbock, Texas 79408.

The first colored cotton terry towels were introduced in 1928. Prior to this time, all bath and hand towels were white.

## Pounds Pharmacy

## Government In Farming Seen In Future

Regulatory and administrative actions affecting many of which are being formulated, are a indication that agriculture ahead will be faced with more aggressive government control over "inputs" and "outputs."

In Austin May 18 on proposed flammability standards for children's sleepwear under the Texas Hazardous Substances Act. "Fireproofing" requirements for apparel, imposed by both state and federal government, is one of the areas referred to by Johnson in which government regulatory powers will increasingly affect agricultural "outputs."

Johnson said after the hearing, "and this is only one of several regulatory activities at state and federal levels that is going to affect the business of growing and merchandising cotton in the immediate future. In fact, our ability to cope with this trend toward more strenuous regulation of our affairs will have much to do with our success or failure in the farming business."

THESE THREE STUDENTS RECEIVED CITIZENSHIP Award: at the Junior High Assembly Friday. They are James Hanson, 6th grade; Donna Green, 7 grade; and Neshia Lewis, 8th grade.

Government is also getting involved with byssinosis, a lung ailment common to long-time workers in textile mills, often compared to "black lung disease" among coal miners. Incomplete studies indicate byssinosis may be connected with cotton dust in mills, and it is proposed that victims be paid disability benefits by the federal government and that textile plants reimburse the government on the basis of their yearly tonnage of cotton consumed.

The effect such action could have on use of cotton fiber is obvious. Studying the matter of cotton-dust-related problems is

a joint committee of the American Textile Manufacturers Institute, the National Cotton Council and Cotton Incorporated. Johnson is a member of the committee, representing Cotton Inc.

Agricultural "inputs" coming under additional government regulation include agricultural chemicals such as insecticides and herbicides, and farm labor.

Late last month hearing examiner Edmund Sweeney of the federal Environmental Protection Agency (EPA) recommended that essential uses of DDT be continued. He made the decision after seven months of testimony, much of which sought to prove that DDT causes severe environmental damage.

EPA Administrator William Ruckelshaus has until June 15 of this year to accept or disregard Sweeney's recommendation.

Also under fire from environmentalists are such pesticides as lindane, benzene, hexach-

loride, endrin, aldrin and dieldrin. All are important to agricultural production. Relations between farmers and farm workers, another vital agricultural input, either is or soon will be influenced by government from at least three directions: current and pending minimum wage and overtime laws, proposed legislation which will encourage unionization, and the federal Occupational Safety and Health Act (OSHA).

The House of Representatives in Washington recently passed a bill raising the agricultural minimum wage from \$1.30 to \$1.70 per hour within two years. The Senate Labor Committee has under consideration a bill which would jump the minimum wage for farm workers to \$2.25 an hour in three annual steps.

Two proposals related to unionization of farm labor are being considered in Wash-

ington. One would bring farm workers under the National Labor Relations Act along with industrial workers. The other would establish a separate Farm Labor Relations Board. Numerous efforts are being made to get changes made in the altogether impractical Safety and Health Act, which, for example, requires that a lone worker in the middle of an alfalfa field must be provided with bathroom facilities.

★★★ Teaching Children To See ★★★

The senses feed the mind, and no sense is more important for inquisitive children than sight.

"Children take a giant learning step when they can look closely at the world around them," said Dorothy Taylor, family life education specialist for the Texas Agricultural Extension Service at Texas A & M University. "Looking provides one of the most significant means for children to learn."

Use simple, everyday things as examples to help children learn to look closely. Show the child how the egg shell fits together after it's been cracked. Point out the differences between the yolk and the egg white. Explore carrot tops and orange peels.

Dads can help their children look at soap bubbles and watch

a nail disappear into a board.

Hide and seek offers another looking game. Find people, keys or other objects that are hidden from view. Hide objects in familiar places (shoe in the bedroom, plastic glass in the kitchen), and then hide them in unfamiliar places (toothbrush in the living room). "Another looking game you might play is to look for all the circles or all the squares in a room," the specialist suggested. "See who can find the largest number."

Children who learn to look become more conscious of the world around them. They learn to explore and to think through a problem to find a solution.

"Looking is learning, but it takes a sense to do it," Miss Taylor reminded.

**My Neighbors**

An oil well logging operation in West Texas inadvertently broke a container of radioactive material used in determining where pockets of oil lie underground. When brought to the surface, the radioactive material unknowingly contaminated several people before the leak was discovered. Six persons were sent to a federal radiation laboratory in Las Vegas to determine extent of internal exposure, several articles of clothing were disposed of, and the company's equipment had to be decontaminated.

**Health Hazards Everywhere**

Examine the following and see if you can identify their common denominator:

A Texas man enters a large tank without respiratory protection, is overcome by fumes and dies--along with a would-be rescuer--on the way to the hospital.

A farmer is sickened by nitrogen dioxide fumes from a recently filled silo and expires two weeks later from pulmonary insufficiency.

A water well drilling crew in East Texas lowers a worker 72 feet into the well, without adequate safety devices, and loses him as he slips off the harness. His own son goes down after him; he is lost, as is a third would-be rescuer. All three men die from a lack of oxygen.

Employees at an automated car wash in a large North Texas city complain of excessive noise from an automated blow-down air apparatus used to dry automobiles after they have been washed and rinsed. An investigation reveals a noise level far in excess of the amount accepted by the medical profession as tolerable.

Heavy exposure to mercury used in amalgam fillings in a dentist's office in a large South Texas city result in illness reflecting mercury poisoning.

A chemical firm in a large Gulf Coast city had been shut down due to excessive contaminants in the plant. Health officials working with management of the plant helped bring the plant into compliance, resulting in correction of several known health hazards and returning the plant to operation.

Health authorities were called upon to give assistance to their switch engine operations. Chemical toilets and portable water supplies were introduced to the system.

The tuberculosis supervisor at a certain high school in Texas called upon health officials to investigate the ventilating system of the school as a possible transmission media for the public school.

He joined the Marine Corps Base, Camp Lejeune, N.C., in February, 1971.

He is a 1971 graduate of Onado High, Lubbock.

perenced local stomach disorders of exposure to the ingredient contaminants. Upon local physician, he conducted a survey to determine of the contaminants.

What do all these accidents or problems involving the well being to what were exposed. These are only a small portion of occupational health hazards known, advice is provided for the and control of the conditions by health from the Texas Department of Health, Occupational Health and Safety.

## Contamination In Cosmetics May Pose Health Hazard

Ninety-nine and forty-four one-hundredths percent pure? When it comes to cosmetics, scientists now believe that contamination, even a little bit, may pose a potential hazard to health.

Cosmetics have been under control for many years in Texas and the nation under the authority of state and federal Food, Drug, and Cosmetic laws. The Texas Health Department has an entire division devoted to enforcement of these laws as one tool to provide product safety and better public health protection for each of us.

Health authorities and research scientists are now deeply involved in studies to determine the correlation between cosmetics and health problems. One such effort has been underway for the past two years investigating the casual relation between eye makeup and eye diseases.

The study, as reported in the American Journal of Ophthalmology, concludes that microorganisms present in mascara, eyeliner, and eye shadow "constitute a potential hazard" because they can invade a scratched eyeball and cause infection or even loss of vision.

Eye injuries from microbial contamination of makeup are one of the most common complaints cosmetics manufacturers receive, along with skin reactions to bubble baths containing harsh detergents, and hair and scalp damage from shampoos and other hair pre-

parations. While no breakdown is available, the National Commission on Product Safety estimates that cosmetics in general injure 60,000 persons in this nation each year seriously enough that they must see a physician or be restricted in their activities for at least one day.

Cosmetics fresh from the factory were found generally pure. Contamination can come from keeping the makeup a long time, letting someone else use it, and mixing saliva or even tap water in mascara to thin it. Heat, body chemistry, and the type of preserva-

## COTTON FEELS GOOD

No other fiber feels as good next to the skin as cotton does. Why? Cotton's high absorbency lets it readily transmit moisture away from the body. Non-absorbent fibers like the man-made lack this ability to lie flat against the skin, making them less comfortable than cotton.

tive used in makeup are also determining factors. A high incidence was observed in nurses wearing eye makeup in germ filled hospitals.

The resulting bacteria can invade a cornea which has been scratched by a contact lens or other foreign matter, cause crusting of the eyelids and even a loss of eye lashes. Two cases of loss of vision have been reported, but the Food and Drug Administration has not positively pinpointed the cause as contaminated makeup.

## Research Results In Durable Press Garments

For Father's Day next year, Dad will be able to put on a durable press shirt far superior to any available on the market today.

The prediction was made here Thursday (May 4) by S. Frank Moore, director of the Cotton Incorporated Research and Technical Services Center at Raleigh, N.C.

The shirt will be made of 60 per cent cotton and will be treated with a vapor phase finish developed by Cotton Incorporated, the research, sales and marketing company sponsored by America's cotton growers through their dollar-per-acre programs.

Moore told an audience of the American Cotton Shippers' Association that the vapor phase treatment is working well on garments with at least 60 per cent cotton. He said fabrics are being made already.

He also said that, for the first time in five years, on-farm and off-farm agricultural research is being funded at higher levels than product research.

Cotton Incorporated will spend over \$1 million more on agricultural research during fiscal 1973 than on product research. Yet product research is also being accelerated.

The trick, Moore said, lies in the Cotton Incorporated Research Center, now under construction in Raleigh and scheduled for occupancy in the early summer.

The new facility will enable Cotton Incorporated to conduct expanded research programs in its own laboratories--at considerable savings of producer dollars.

The new research center will house an enlarged research and

fabric evaluation laboratory and new biochemistry and product development laboratories.

The product development lab will contain some \$400,000 worth of knitting machines.

"We are moving cotton into double knits," Moore promised the shippers. "No more 'hot' in the summer, 'cold' in the winter, plus snagging problems."

He said the technical services department is now in full swing and is receiving daily calls from the textile industry. Cotton Incorporated's technical service experts have visited plants of all the top 50 textile mills in its programs to service what it sells--cotton.

Moore also discussed Cotton Incorporated's participation in the boll weevil eradication experiment and the company's research on short-season cotton and byssinosis.

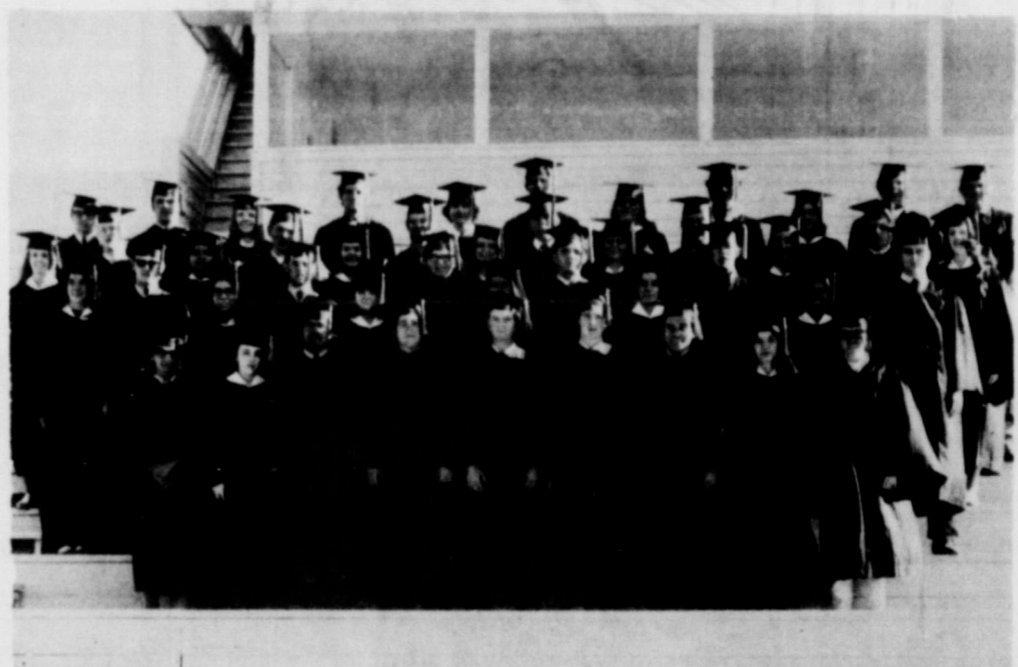

The American Cotton Shippers' Association held its annual meeting at the Regency Hyatt House in Atlanta.

When touring country districts in America or

overseas, avoid drinking directly from "sparkling" streams, lakes or rivers. No matter how fresh and sparkling they look, they may be polluted with sewage or agricultural chemicals.

Best wishes,

## Food Prices Need Explaining

A lot is being said about high food prices these days, but few explanations are being offered other than accusations as to who is to blame.

"Beware of the fickle finger of guilt lest it point to each of us," contends Dr. William Vastine, food distribution specialist with the Texas Agricultural Extension Service at Texas A&M University.

"For instance, consumer demands and tastes have increased drastically over recent years," says the specialist. "Higher quality foods are demanded and more convenience items are requested. Variety and convenience are key words in the present state of food

products."

Non-food items are also getting a larger share of every dollar spent at the supermarket. Recent studies indicate that about 28 cents of each dollar spent at food outlets goes for non-food items, notes Vastine. For example, he adds that more total money is being spent at supermarkets for paper products and toilet paper than for eggs.

Some supermarkets now offer almost 10,000 items to meet varying consumer demands. "It's difficult to compare prices with so many new items being added to grocery shelves during the past few years," the specialist points out. "Granted, food prices have

BLACKEYED SUSANS team members are from left to right, back row: Coach Billie Jean Fields, Lindsey Fields, Jill Barden, Susan Clayton, Brene Below and assistant coach Mary Clayton. Front row: left to right: Patricia James, Carrie Barden, Tammy Davis, Mona Price and Vicki Dunning. Not pictured is Karen Hulcy.

Increased, some 3 percent last year, and are expected to increase 4 to 4.5 percent in 1972. But not all food items have gone up in price. Consider poultry and dairy products and pork. All these have experienced price declines in recent months, according to information from the U.S. Department of Agriculture.

The factors of supply and demand have a big effect on food prices, according to the specialist. "A good example is beef. Beef has been in short supply and high demand so naturally prices have been higher. In fact, beef prices have increased to the peak level they were in 1952. On the other hand, can you list many other items that are at the same price level that they were 20 years ago?"

"Although beef prices are up at the present time, beef producers are not necessarily getting rich. Costs have skyrocketed, especially the cost of replacement stock. The cost-price squeeze which has been evident in agriculture in recent years has made it difficult to realize a profit," says Vastine.

Processing and retailing costs have also spiraled. And with consumers demanding more processing and special packaging, prices of products on the grocery shelf may be quite high compared to a few years ago. In many cases, home preparation may be the answer to high food prices, contends the specialist.

The old adage of "you get what you pay for" may never

be more true than it is today, says Vastine. "If we were willing to go back to the standard of living of 20 years ago, the total food bill might not seem so high. Yet, back then the consumer was paying 23 cents of his take-home dollar for food as compared with 16 cents today."

Where do the other 84 cents of the take-home go? How about a new or second car, a camper, color television, eating out and all the other luxuries we enjoy? The prices of many of these things have increased more rapidly than prices of food items, yet, we are not as conscious of such increases.

# How Do You Feel About The Marihuana Problem

the mid-sixties, American society has been increasingly agitated by what is defined as a marijuana problem. Marijuana has been regarded as an intoxicant in parts of the world for centuries and in this country for years. Yet use of the drug has been regarded as a problem of major proportions for a decade.

Scientific and medical interest in marijuana and its use has been stimulated by the sudden interest. For the first time the American experiment with the drug became the subject of intensive scrutiny in laboratories and clinics. The National Commission on Marijuana and Drug Abuse, in its other findings and recommendations, inventoried scientific and medical knowledge concerning the drug content of marijuana known as THC (tetrahydrocannabinol).

According to the Commission, the usual "social" doses of marijuana may produce an increased sense of well-being; initial restlessness followed by a carefree state of relaxation; alteration of sensory perceptions including expansion of space and time; and a vivid sense of touch, smell, taste, and sound; a sense of hunger, especially for sweets; and subtle changes in thought formation and expression. Perhaps the most striking effect is the state of awareness while under the influence of the drug. At low doses are the occurrence of day dreaming or reveries just prior to falling asleep. Moderate doses, however, may produce a changing of emotions, sensory imagery, a loss of attention, more thoughtful formation and expression such as fragmented thoughts, a loss of ideas, immediate memory, and associations, altered self-identity and a perceived feeling of insight.

At high doses, psychological phenomena may be experienced. These include distortion of body image, loss of self-identity, sensory and

THIS GROUP OF BOYS seemed to be enjoying themselves Friday during the annual play-day held at the school.

mental illusions, fantasies and hallucinations.

Low to moderate doses of the drug produce minimal measurable changes in body functions. Generally, pulse rates increase, blood pressure increases when the individual is laying down and decreases when he is sitting or standing up. The eyes redden, tear secretion is decreased, the pupils become slightly smaller, the fluid pressure within the eye lessens and one study reports that the eyeball rapidly oscillates, or moves back and forth similar to the dizzying reaction after the body is rapidly rotated.

A small decrease in muscle strength is noted, as is the presence of a fine hand tremor, and a decrease in hand and body steadiness. Decreased sensitivity to pain and overstimulation of elapsed time may occur.

Generally, the intoxication produces minimum changes of rapid onset and short duration.

Sleep time appears to increase as does dreaming. Weight gain was uniformly noted. The substance is predominantly a psychoactive drug.

Marijuana, like other psychoactive substances, predominantly affects mental processes and responses and thus the motor responses directed by mental processes. The degree of impairment is dose-related.

The effect of an enormous daily oral dose of the drug was recently studied in rats and monkeys. A severe, generalized nervous system depression was evident the first few days. Evidence of cumulative toxicity was observed at these doses. Severe central nervous system depression produced fatalities in some rats in the first few days until tolerance developed. Later, extreme hyperactivity developed.

The monkeys also experienced severe central nervous system depression, but soon developed tolerance to the drug. Minimum dose-related toxic effects on bodily organs were noted at autopsy at the conclusion of the experiment. Deaths were possibly caused by accumulation of THC in the lung, producing irritation. No other organ pathology was noted.

Some tolerance does occur with prolonged heavy usage. The very heavy users evidence strong psychological dependence, but no physical dependence or signs of withdrawal were noted.

In the past few years, observers have noted various social, psychological and behavioral changes among young high school and college-age Americans including many who have used marijuana heavily for a number of years. These

Individuals drop out and relinquish traditional adult roles and values. They become present rather than future oriented, appear alienated from broadly accepted social and occupational activity, and experience reduced concern for personal hygiene and nutrition.

The Commission-sponsored National Survey indicated that some 24 million Americans have tried marijuana at least once and that at least 8.3 million are current users.

Cotton fiber looks like a twisted soda straw.

Cotton is the most absorbent fiber.

## 5 Rural Accidents In Lamb Through April

The Texas Highway Patrol investigated five accidents on rural highways in Lamb County during the month of April, according to Sergeant Thurman Keffer, Highway Patrol Supervisor of this area.

These crashes resulted in no persons killed and five persons injured.

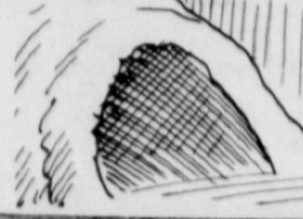

The rural traffic accident summary for this county during

the first four months of 1972 shows a total of 26 accidents resulting in one person killed, and 23 persons injured.

The rural traffic accident summary for the 60 counties of the Lubbock Department of Public Safety Region for April, 1972 shows a total of 445 accidents resulting in 44 persons killed and 232 persons injured as compared to April, 1971 with 454

accidents resulting in 17 persons killed and 276 persons injured.

The 44 traffic deaths for the month of April, 1972, occurred in the following counties: Castro, ten; Donley and Montague, five each; Parker and Wise, four each; Archer, three; Carson, Hale and Wilbarger, two each; Gray, Floyd, Hall, Palo Pinto, Randal, Terry and Wichita, one each.

## Have You Checked Your Credit Cards Lately?

Hang on to that credit card! A few years ago credit card insurance to protect against losing your cards and then having someone run up a large bill was really an important part of any insurance program," said Mrs. Doris Myers, home management specialist with the Texas Agricultural Extension Service at Texas A&M University.

The companies selling this type of insurance did very well in the early years of the credit card boom, until a new credit card regulation went into effect to protect the card holder.

"To begin with," the specialist explained, "since January 24, 1972, for all credit cards no matter when issued—a cardholder is liable for unauthorized use only if the card issuer has provided a method by which the user of the card can be identified as the person authorized to use it."

This means the card must have some means of identification such as the signature, photograph or fingerprint of the legitimate owner.

Secondly, the card must have been accepted. (That is, the card must have been applied for, received or used before unsolicited cards were banned.) There's a ceiling of \$50 liability on charges made with a lost or stolen card. That liability exists only if the card issuer has furnished a self-addressed, postpaid envelope or card for notification of loss or theft. The unauthorized use of the card must occur before the cardholder has notified the issuer of the loss or theft.

The stipulation on some cards that "the holder agrees to pay for all purchases made by any user of this card until the com-

pany has received notification of theft or loss" is not

Some companies that they'll come after them if they don't notify the \$50 liability of postpaid mailer. It is decided to take care of that the card will be taken care of.

"At any rate, unless several credit cards haven't met all the requirements of your liability protection," Myers advised. "It's wise to check on your potential liability if you do need this."

The first successful tile mill in the U.S. was built in 1790 by Samuel Slater.

The same cotton gin was finished to appear in gingham, moire, tulle, lace, or pique.

## Best Your Lawn by Removing Thatch

Have you ever wondered why your lawn grass appears uneven even though it is deep green? The spongy feel of a lawn may not be evidence of a strong, vigorous grass. Al Novosad, Extension Agronomist at Texas A&M University, says this "luxuriant" feel may be due to a layer of mat and thatch. The mat and mat are tightly packed layers of living and dead stems, leaves and roots that develop on the surface of the soil.

Novosad explains. Too much thatch keeps water and fertilizer from penetrating the soil, makes some diseases worse, and apparently prevents grass from putting down a deep root system.

The proper use of a powered machine (rake, vertical mower) designed to remove thatch is probably the best way to alleviate this problem, says the agronomist. Scalping the lawn with a rotary mower set to mow as low as possible is also helpful. However, when scalping or dethatching St.

Augustinegrass, do not allow the machine to go lower than the lowest stolons (runners). "Use a power rake or mower annually to prevent thatch buildup, suggests Novosad. But be sure the soil is moist when removing thatch so as to prevent mechanical injury to grass."

According to the agronomist, thatch buildup can be due to several things, including mowing too high (frequent shorter mowing is helpful) and returning clippings. Also, some lawn grasses naturally accumulate more thatch than others.

THESE THREE STUDENTS RECEIVED SCHOLARSHIP AWARDS for having the highest grade average in Junior High. The 7th grade recipient was Dobbie Verden, 8th grade, Margaret Street and 6th grade, Clint Dawson.

## HPRF To Study Cost, Narrow Row Short Season Cotton

The cost of producing narrow row short season cotton in West Texas farming operations will be evaluated by the High Plains Research Foundation this year.

The evaluation, sponsored by a \$29,000 research grant from Cotton Incorporated will be made at the Foundation near Halfway and on farms east of Lubbock, near Ropesville, north of Aiken and north of Springlake.

According to Dr. Doug Owen, agronomist in charge of the study, evaluations will be made from cotton fields covering at least 50 acres each. "This way we can better determine the

costs on a farm-size basis." Cotton varieties best adapted to the four locations will be planted in row spacings from 10 inches to 32 inches in width and under irrigated and dryland conditions.

"What we will be looking for is the system or systems that will produce the highest yields at least cost for each of these areas," Dr. Owen said.

The study will include all production costs from the shredding of the stubble of the previous crop through harvest of the 1972 cotton crop. Dr. Owen said the total study

area would include approximately 550 acres over a large portion of the South Plains cotton production area. Study cooperators include

ACCO Seed Farm, Aiken; Lockett Seed Co., Ropesville; Ray Joe Riley, Hart and Robert Melcher, Lubbock.

"Education is a funny thing. At eighteen we knew all the answers—forty years later even the questions confuse us!"—Robert G. Campbell, The Lititz (Pa.) Record-Express.

to some very special V.I.P.'s  
**Congratulations**

We're proud of the Seniors. Their endeavors and achievements make them very important people to us. We take the greatest pride in offering to them our sincerest congratulations.

## Film Offered On SWC Highlights

A 29-minute film which features Southwest Conference football highlights of the past season is being offered for showings to interested organi-

zations. The 16 mm color film reviews outstanding games and individual plays of 1971. It can be obtained free on loan by writing to SWC Film, Humble Oil & Refining Co., 3400 Southland Center, Dallas, Tex. 75201. This 25th edition of the Southwest Conference Highlights series produced by Humble gives the viewer an exciting half hour of football action.

## ALL THE BEST TO OUR GRADS

We congratulate the Seniors... They're the key to a better tomorrow!

**CELEBRATION**

We've never seen a group more deserving of a celebration than The Seniors! Commencement marks a significant achievement for these wonderful young people: they have steadily applied themselves to preparing for tomorrow.

We are confident the seniors will continue to strive for new goals and we wish each of them long and continuous success.

## ON THIS GREAT DAY...

Graduates your friends and neighbors salute you on a most significant achievement. It's a great day for all of us. You have earned a high mark in your progress toward better citizenship and a better life. The community can well use your talents, the vigor of your efforts, the enthusiasm of your youth.

From this important day forward, many roads open up before you. May you choose them wisely and well, carrying with you our very best wishes, each and every step of the way.
