MEMPHIS, HALL COUNTY, TEXAS, FRIDAY, MAY 31, 1929. FIVE CENTS NUMBER 62.

On the Level

A column by William Russell Clark

Memphis will observe Memorial Day. It is not a time to honor heroes of any of all wars. It is a day to be decorated with flags and bunting, that there will be plenty of hand concerts and something doing that will interest the visitors every minute of the time they are in the neighboring city.

American Legion To Hold District Meeting At Vernon In June

According to word received by the local post of the American Legion, the thirteenth district convention of this body will be held at Vernon on June 8 and 9. The Albert E. Robinson Post No. 67 of the American Legion will entertain the visitors and local Legion officials are anxious that as many of the boys as possible attend from this city.

Cordial Invitation
A cordial invitation has been extended to the local members of the American Legion by the Post Commander at Vernon to turn out in full force at the district meeting and he assures all who attend the very best entertainment it is possible to arrange. He stated that the streets of Vernon will be decorated with flags and bunting, that there will be plenty of hand concerts and something doing that will interest the visitors every minute of the time they are in the neighboring city.

Will Start Saturday
The activities in connection with the meeting will get under way on Saturday afternoon, June 8, and will be continued through Sunday afternoon. One of the features of the first day's program will be an aerial circus when dazzling feats, similar to those performed in France, will be the order of the day. Parachute jumps and everything that goes into the making of a first class aerial circus will be seen. Every entertainment feature will be without charge to the visitors.

Cavalry Battle
A polo game will also be played and a cavalry battle will take place. This latter feature will be worth the price of the trip to Vernon. The combatants will do their fighting on burros—something out of the ordinary in the old war game.

Hall County To Be Well Represented At Farmers' Course

Miss Ruby Adams, county home demonstration agent, is busily engaged in helping the various clubs of the county in raising funds to send delegates to the Farmers' Short Course, which will be held at the A. & M. College of Texas, at College Station, beginning on July 29 and continuing through August 3.

Eleven clubs in the county will send delegates, one woman from each club, and nine girls will attend from the girls' organizations. Three women will attend the short course as winners of county-wide contests that were held in the county recently.

Agricultural Interests Of Hall County Are Discussed At Meeting Held Tuesday

Delos L. James, nationally known Chamber of Commerce executive and noted farm authority, of Washington, D. C., spent Tuesday afternoon with a group of Memphis men who are interested in the development of the agricultural interests of Hall County. He discussed with them various phases of livestock, dairying, poultry raising and other subjects pertaining to farm activities.

Importance of Bulls
In the promotion of dairying, Mr. James urged the importance of good bulls. He said that the opening of a creamery here would take the milk and make butter, cream and powdered butter milk and be of great benefit to the community. Plenty of bull circles, establishment of bull circles, opening of creamery and incineration that would keep farmers well informed concerning markets were listed as aids to the

DAIRYING ON LARGE SCALE IS URGED BY PRESIDENT OF BANK

The start of the dairying program in Hall County 10 years ago, its progress up until the present time and the present outlook was interestingly discussed by W. B. Quigley, president of The Citizens State Bank in an interview with a representative of The Democrat this week. Mr. Quigley pointed out the salient facts that have led the farming interests on the road to prosperity, and predicts what will transpire provided the campaign is continued for more and better dairy cows, hogs and poultry on every farm in the county.

Campaign Is Started
The interview obtained from the bank executive is as follows: "Beginning about 10 years ago, a campaign was started, having for its purpose a few dairy cows, a few hogs and poultry on every farm. Prior to that time, our farm money came once a year and chiefly from cotton. The strictly cotton farmer formed the habit of borrowing from the bank his living expenses. Beginning as early as February, he gradually accumulated this expense to the marketing of his first cotton. A fair yield at a fair price would usually take care of his total expense. However, should any disaster, as boll worm, drought or low price overtake him, the result

Red Cross Life Saving Demonstration Is Planned By Boy Scouts At Pastime Swimming Pool Sometime In June

A Red Cross life saving demonstration will very likely be put on by First Class Scouts about the middle of June at the Pastime Swimming Pool, according to Scout Executive I. E. Jolly, provided enough Scouts qualify to enter the contest. There are some 20 First Class Scouts in Memphis at the present time and if this number can be added to considerably by the latter part of June, the contest will be a certainty. Jack Williams, local Red Cross examiner, will have charge of the tests.

Prepare For Court
Local Scouts as well as the Executive have been busy for several weeks past preparing for the Court of Honor to be held at the Carnegie Library here, Scout headquarters, on Friday night of this week. Local Scouts have finished preparing a very creditable arch which will be used in the ceremonies. The arch may be seen on the second floor of the Library, and all interested people are invited to see what the Scouts have accomplished in wood work. Several of the boys made merit badges by their work on the arch.

Annual Crime Bill
In speaking of the Scout situation in the Southeast Panhandle Area, Scout Executive Jolly said: "The annual crime bill of America totals twelve billions of dollars. About one-half of the criminals responsible for this tremendous

New Market Opened By J. B. Chitwood At B. & M. Grocery

Announcement is made this week by J. B. Chitwood that he has installed a market at the B. & M. Grocery, and will be glad to see his former customers and friends at his new location.

Until recently, Mr. Chitwood was manager for Shell's Cash Grocery. He has had years of experience in the grocery and market business and he promises the trade the very best meats will be sold in his establishment that can be obtained.

Farming Program Is Suggested By Noted Agricultural Authority

Delos L. James, nationally known farm authority, representing the agricultural division of the Chamber of Commerce of the United States of America, put in a busy day in Memphis Tuesday of this week. Memphis is one of the few cities in this section of the state to be visited by Mr. James, in his tour that is sponsored by the Southern Central Division of the United States Chamber of Commerce.

Have Gone Long Way
"We have gone a long way in perfecting this plan. Today, there are more good Jersey cows, more hogs, more poultry, better farm implements and better horses and mules on our farms than at any time in the history of Hall County. Speaking personally, I would rather loan a customer \$500 to buy a brood sow, some chickens and a few Jersey cows than furnish him that amount for living expenses. If the customer is thrifty and a fair caretaker, he will make his living and have his investment left with a margin of profit. In the first instance, the customer has the livestock to show for his investment with a margin of increase. In the second instance, the investment has passed through his system. I am now speaking with reference to money borrowed for living expenses. "Every banker knows the need (Continued on page 4)

Business Girls Of Memphis Give \$10 To Help Charities

The Business Girls Club of Memphis brought the secretary of the United Charities a donation of ten dollars Wednesday of this week. This money is gratefully received and the board of the United Charities of Memphis takes this occasion to thank the business girls for their thoughtfulness in this regard.

Splendid Progress Is Being Shown In Leslie's Club Work

According to the county home demonstration agent, club work at Leslie is making splendid progress. At a meeting held Tuesday afternoon in the home of Mrs. A. J. Fowler, 31 members of the Leslie club were present which is a record for club work in the county. The enrollment of the club is 35 members.

The meeting Tuesday had for its principal feature the making of house dresses. Twenty-five members of the club have enrolled in the house dress contest. This contest will be county-wide in scope and each club is expected to have a number of entrants.

Disabled Ex-Service Man Has Filed Suit To Obtain Full Amount of His Insurance

Clarence J. Billington, disabled ex-service man of Memphis, filed suit through his attorneys, Brannon and George and J. Earle Kuntz of Wichita Falls, in the United States District Court at Amarillo last week, against the United States of America, seeking to obtain the full amount of his war risk insurance, plus accrued interest, dating from the day of discharge, claiming total disability.

Disability of Tuberculosis
According to Mr. Billington, he was discharged from the service with a permanent total disability of tuberculosis. Since his discharge, other ailments have prevailed in addition to tuberculosis and he is not permitted to pursue his pre-war vocation. He seeks through the courts to obtain the full amount of \$10,000 on his war risk insurance policy and accrued interest.

SOCIETY and Club

MRS. JANE POWELL HONORED ON BIRTHDAY

Last Sunday at the country home of Mr. and Mrs. C. M. Wheeler of the Webster community, more than 60 relatives and friends gathered to pay tribute to Mrs. Wheeler's grandmother, Mrs. Jane Helm Powell, on her eighty-eighth birthday.

A lovely dinner was spread under the shade of the trees and a large birthday cake iced in white and pink with her age and the date of her birth on it, was presented to Mrs. Powell by her granddaughter, Mrs. Charles Read of Newlin.

This celebration has been an annual affair for more than thirty years, and Aunt Jane, as she is called by her old time friends, looks forward to it with great joy. In the past few years, she has had the misfortune to lose her eyesight, but this has made no difference in her lovable and sweet disposition. She is always jolly and thinking of others. She has been such a useful character in her community, never too busy to stop and visit the sick and help in any way to make the burdens of life easier for her friends.

Aunt Jane received many useful gifts and lovely flowers, and a day spent like this will make you think of these three words, Mother, Home, Heaven.

Those present were Otis Cobb and family, Archie Glasco and family, Aultman Sims and family, Hugh Nelson and family, Charles Read and family, Mrs. M. C. Glasco, Mrs. Lydia Lawrence, Frankie Kercheville, all of Newlin; John Landis and family, Mr. and Mrs. Willie Smith, Mr. and Mrs. John Shankle, N. A. Hightower and family, Maud Milam and mother, all of Memphis; Leo Lawrence and family of Elk City, Oklahoma; Cliff Poage and family of Lockney, Texas; Mrs. Virgil Nix of Wichita Falls; Mr. and Mrs. J. S. Ballard, Mattie and Bryan Nall, of Eli; Mrs. Frank Martin and Mr. and Mrs. C. J. Nash of Lakeview.

MRS. BOUNDS HOSTESS TO PATHFINDERS

On Thursday evening, May 23, the Pathfinders met with Mrs. Holt Bounds. There were four teen members who answered roll call with interesting Current Events.

Mrs. J. D. Norton was elected as a new member. Mrs. Ed Lofland conducted the Psychology lesson, on "Our Value in Society," stressing such points as "Society is the Individual Multiplied" and "The Individual as an asset or a liability to Society."

The Pathfinder Council has

been guided throughout the meetings of the past year by the use of one of the elementary principles of logic; namely that when a question is asked, it is weighed, measured, and judged by the things known to be true and everyone has been given the chance to develop their thoughts. Hence the study of "Human Engineering" requires application, originality and common sense.

CIRCLE NO. 2 MEETS LAST MONDAY AFTERNOON

Circle No. 2 of the W. M. S. of the Methodist church met Monday, May 27, at the home of Mrs. M. E. Taylor, in mission study, with Mrs. George Greenhaw as leader.

The devotional was conducted by Mrs. A. C. Hoffman, taken from the twenty-sixth chapter of Matthew. Prayer was offered by Mrs. Frank Phelan. The third chapter of the book, "What Next in Home Missions?" was the text of the afternoon.

Mrs. Greenhaw gave "The Outlook for the Church in Town and Country." Mrs. N. A. Hightower gave "A Way of Life for the Country." Mrs. H. D. Tyler gave "A Significant Experiment."

The program brought home to those present a need for Home Mission work in Memphis and surrounding rural communities.

Nineteen members of the society were present. The circle will meet June 3 with Mrs. Barney Wattenburger.

MRS. SMITH HOSTESS AT 4-H CLUB MEET

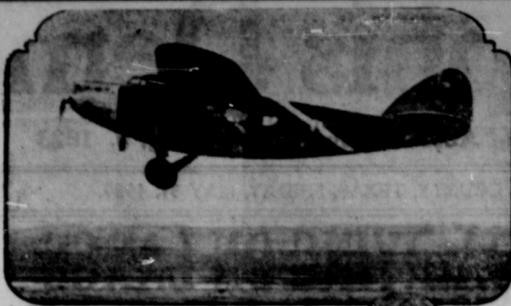

Mrs. J. W. Smith was hostess at the Indian Creek (4-H) Club meeting, Thursday afternoon, May 23, at 2 o'clock. Those present were Mrs. J. W. Smith, S. D. Grimes, J. B. Burnett, J. D. Morrison, F. H. Coleman, L. B. Floyd, C. G. Smith, A. R. Riales, A. S. Simmons, J. W. Durham, Addie Mae Lane, L. E. Morrison, E. S. Morrison, T. A. Messer, F. A. Hutchins, Claude Messer, Elizabeth Riales, Louise Riales, Geneva Morrison, Eula Messer.

There were six new members taken into the club. After the club business was attended to, a Mother's Day program was given, after which lovely refreshments of ice cream and cake was served. All reported an enjoyable time. The club adjourned with arrangements for a social to entertain the husbands. Next club meeting will be with Mrs. J. B. Burnett.

MISS COOPER HOSTESS TO BRIDGE CLUB

Miss Eloise Cooper entertained the Mariposa Bridge club with two tables of bridge, at her home

From New York to Paris

Soaring out over Long Island Sound in a test flight preparatory to an attempt to fly across the Atlantic from New York to Paris, the giant single-motored Bernard monoplane of Sergeants Jean Assolant and Rene LeFevre is shown above. Below are the French aviators, who had their plane shipped to America to make the try. On the left is Assolant.

at 708 South Eighth street, Friday afternoon, May 24.

Five games of bridge were played and high score was made by Mildred Owens.

A lovely ice course was served to the following: Misses Virginia Copeland, Vernadine Jones, C. J. Goodnight, Hazel Owens, Katherine McMurry, Maurine Thompson, Mildred Owens, and Elizabeth Bryant.

MRS. BREWER HOSTESS TO MYSTIC WEAVERS

The Mystic Weavers Club met in their last meeting for this year at the home of Mrs. J. A. Brewer. Every member was present, and answered to the roll-call with current events.

The afternoon was spent in needle work and pleasant conversation. The hostess assisted by Miss Marcelle served dainty refreshments. The club adjourned to meet next September with Mrs. Jim McMurry.

Those present included Mes-

sames Barnes, DeBerry, Draper, Flannery, Foote, Foxhall, D. A. Grundy, Joe Grundy, T. T. Harrison, Kittinger, McMurry, Oren, Stokes, Webster, Wherry, Wood, Kinslow, Walker and Williams.

MRS. ARNOLD HOSTESS TO MISSIONARY SOCIETY

The Ladies Missionary Society of the Presbyterian church met in regular session Monday afternoon at 3 o'clock, at the home of Mrs. D. H. Arnold, with twelve ladies present. The meeting was opened with prayer by the president, a business session was held and an offering of \$18.40 was given. The roll call then followed:

Mrs. Arnold, India; Mrs. Brewer, China; Mrs. Deaver, Chosen; Mrs. Dishman, Japan; Mrs. Fitzgerald, Foreigners and negroes in America; Mrs. Grundy, South America; Mrs. Kittinger, Siam; Mrs. Mallard, Persia; Mrs. Montgomery, Indians; Mrs. Sager, Alaska; Mrs. T. J. Thompson,

mountaineers and migrants; Mrs. VanPelt, Mormons.

Items of interest were given from all countries represented.

Mrs. Brewer, the leader, then read Luke 15th chapter, as the devotional and led in prayer. Mrs. Sager told the story of Tabasco. Mrs. Mallard gave the birthplace of Bolivar. Mrs. Fitzgerald led the closing prayer and we were dismissed with the Mizpah Benediction.

During the social hour the hostess served delicious cake and cream. Mrs. Shelley and Mrs. Arnold assisted the hostess in serving.

CHANGE IN PLACE OF ENDEAVOR MEETING

On account of having to change the meeting place of the services of the church, the Intermediate Endeavor of the First Christian church will meet in the home of Mary Gardner. The meeting will be at 5 o'clock as usual. Some of our most faithful members are out of town, so we will all have to work a little harder to keep the work going. Come and do your part. Mary Gardner is the leader.

MISS GWENDOLYN COX IS HONORED WITH PARTY

Mrs. Jet Fore and daughter Charlotte, gave a party in honor of Gwendolyn Cox, sister of Mrs. W. S. Moore. The party was held at their home, Tuesday afternoon at 3 o'clock.

Sixteen guests were present, and enjoyed the games of Flinch, Jack Straws and Lindy. Punch was served, and fruit parfait and cake.

The hostesses were assisted in serving, by Mrs. W. S. Moore and Miss Margaret Milam.

MRS. SCHOOLFIELD'S CLASS ENTERTAINED WEDNESDAY

Mrs. H. F. Schoolfield's Sunday school class met last Wednesday afternoon at the home of Mrs. C. Gerlach, with Mesdames Gerlach, Johnsey and Landis as hostesses.

The devotional was conducted by Mrs. Dowell, after which each member was asked to suggest some means to increase the attendance of the class. Several songs were sung, after which a social hour was enjoyed. Lovely angel food cake and ice cream was served to fifteen members of the class.

MRS. GRUNDY HOSTESS TO FIDELIS CLASS

The Fidelis Sunday school class of the First Baptist church met May 23, with their teacher, Mrs.

D. A. Grundy, for a business session and social meeting.

Mrs. Coy Harris was elected second vice president, and Mrs. Curtis Huckaby, class reporter.

During the social hour Mrs. Grundy served delicious ice cream and cake to the following: Misses Mary Burks, Ida Mae Long, Clem Wyatt, Lucille Baker, Mrs. Walter Messick, Mrs. Frankie Hamilton, Mrs. Coy Harris, Mrs. Ray Webster, and Mrs. Curtis Huckaby.

OFFICERS ARE ELECTED BY BUSINESS GIRLS

The Business Girls Club, after having completed a travelogue throughout the United States, made their arrival in this city Tuesday, May 28, and proceeded to the home of Madge Poole, where she, assisted by Fay Helm were hostesses for the occasion.

As this meeting closed the club year, the president called for final reports from each committee, which were given. These reports indicated very clearly that much had been accomplished by the club. This meeting being the last one for the term, the books were closed and the election of officers for the ensuing year was

taken up, with the following results:

Gladys Hammond, president; Alpha Tom Bridge, vice president; Clem Wyatt, secretary; Fay treasurer; Edna Bryan, reporter.

The election closed the club's program, and during social hour refreshments were served, after which the club adjourned.

Mr. and Mrs. J. H. Norton, Jack, drove to Fort Wednesday, to see the Commencement Exercises at Texas Christian University. Miss Eloquent will return with the Tuesday.

Mrs. C. S. Stout, L. Stout, Mrs. Seth Pailmer, daughter Ann spent Tuesday Childress.

Jane Browder left for Los Angeles, Cal., last Sunday going with her grandfather Browder.

Charline Drake of Luttrell, visiting in Memphis with her mother and other relatives and

GENERAL ELECTRIC Refrigerator

The General Electric Refrigerator is almost as portable as an electric fan. It has no drain pipes or connections. It can be placed wherever there is a convenience outlet. It's as simple as that!

Place it in your kitchen. That saves steps. And it also stops many a cold which comes from leaving a warm kitchen for a chilly back porch.

If you have a small apartment, you will be particularly pleased at the quietness with which the

General Electric Refrigerator operates. You will be glad that it has no machinery under the cabinet. That every part of its mechanism is sealed inside the air-tight steel casing which is mounted inside the coils.

Judged from every angle, these refrigerators are supremely practical. Remember that they are guaranteed by General Electric. Come in and see them. Compare them with all others. Time payments can be arranged, if you prefer.

PHONES 74-137

Is an Important Item This Year; It Can Make or Mar the Suit

Two dressy blouses in the new styles are shown above.

BY HARRIET

"second little blouse" is giving problems to practically every well-dressed woman these days.

Being the suit season that it is, one of the most important single pieces of apparel is the blouse. In fact, the blouse makes or mars the suit.

Or if they don't, the first rule is a figured or colored blouse that tones in with the skirt and gives the note of dignified simplicity that is required.

After that blouse is selected comes the problem of another one that will be the tone of the suit, per se, it is up to a bit.

Satin and Crepes are the classic choice for blouses. But the crepes are close second. With georgette perfectly satisfactory fabrics for the summer will see many blouses of it. Handkerchief hem, a newcomer to the field of blouses. Printed organdy and chiffons are exceedingly feminine.

Making of these other blouses is one of real consideration. The average woman likes long-sleeved blouses to one end, so far as her suit is concerned. Long sleeves are essential for tailored suits.

Sleeves and cuffs play a big part in making a blouse stylish. But the hipline is the very new feature to blouses.

Tuck-in blouse has won very favor. But some women just don't look right with the dark coming so high up their necks. Therefore Paris solves the difficulty by making the over-blouses but fitting the bottoms of them so they are as skirt yokes. The very

newest blouse has a fitted lower portion, in fact, with the waist being eased into it with a few tucks right at the natural waistline.

Jabots are excellent. Yokes are new and smart, especially on tall women. The bow goes on and on endlessly, inventing new ways of being used. The very newest is to place a pert bow on the left breast pocket of a colored shantung blouse. A yellow one was very smart, made this way.

Popular Tints Soft colors are in higher favor than dead white. The off-whites in egg-shell and dawn tints are the most popular. Jean Patou makes a stunning pink crepe Roman blouse with very intricate hand-work fashioning a geometric pattern throughout the entire body of the blouse and around the lower edge of the fitted hipline. The sleeves which puff at the wrist are set with drawn work into narrow cuffs that run up into a rectangle underneath. A circular jabot, bound with self-fabric, falls gracefully from a Y neck that is held by a pin of brilliants.

A second blouse Patou makes is of egg-shell satin with three new features. Its cuffs button to the elbow and its blouse fastens from the lower edge almost to the top side with little egg-shell satin buttons. Its tie is a one-sided one that begins at the center of the back in a sweet knot and comes around that side of the neckline, falling in two ends from the left shoulder like a scarf. Third, this waist is tailored to fit the figure from the waistline down, with a slight nip in at the waist.

Blouses should be made of washable fabric, if possible. Hand-blocked silks are highly decorative but should be chosen with a view to the laundry problems. A few extra waists that launder will keep a woman well-groomed.

At the close of the program, those taking part in the recital, as well as Mrs. J. C. Hennen, received hearty congratulations.

BAPTIST CHURCH NOTES

Sunday school at 9:45 a. m. United Memorial service at 11 a. m. at the First Presbyterian church with Rev. Jones of the Christian church doing the preaching.

B. Y. P. U. at 7 p. m. All young people are invited to come and witness the beginning of the Balloon Endurance Flight that the B. Y. P. U.'s of the First Baptist church are going to sponsor this summer, in order to keep up the interest and increase the attendance during the summer. Being there on time, doing daily Bible reading, attending church, preparing lessons in B. Y. P. U. counts one hour in the flight, and each new member in any union counts one hour. The balloons will ascend each Sunday night at the close of the programs in the different unions. The union with the greatest number of hours will get the honor of having its pilot fly its balloon highest. A social each month, with the union having greatest number of hours as the honor guest, and at the end of the 13 Sundays of the summer,

the winning union will be rewarded by an all-day picnic in Devil's Kitchen. Come and help in serving the Lord with joy and gladness.

Preaching service at 8 p. m. W. M. S. Monday 3 p. m. Bible study at the church. Y. W. A. Monday night at 8 p. m. at the home of Mrs. Scott Sigler. Prayer meeting Wednesday night at 8 p. m. Sunbeams Thursday at 4 p. m. Junior choir rehearsal Thursday at 6:30 p. m. Adult choir rehearsal Thursday at 8 p. m. CHURCH REPORTER.

FIRST CHRISTIAN CHURCH

Morning services consist of Children's Day program at Sunday school hour. No preaching service, communion following Sunday school. All are expected to attend the Memorial Service at the Presbyterian church. Preaching at 8:30. Services will be held in the district court room, third floor of court house. ARTHUR W. JONES, Minister.

Mr. and Mrs. Wilbur Jones and family and M. R. Jones of this city spent Saturday and Sunday visiting relatives near Kress.

STERN STAR WILL CALL OFFICERS

Omaha Chapter No. 351, Order of the Eastern Star, will install new officers for the year, Tuesday evening at eight o'clock at Masonic Temple, with Mrs. Greenhaw as installing officer and Mrs. Anne Kuhn installing marshal.

The entrance march will be led by the old officers. The installation ceremonies will follow, with following officers named for ensuing year: Mrs. MacFarland, Worthy Matron; J. Henry, Worthy Patron; Mrs. Clara, Associate Matron; Mrs. Harrison, Treasurer; Miss Tipton, Secretary; Mrs. Bryan, Conductress; Mrs. Fitzjarrald, Associate Conductress; Mrs. Ora L. Clark, chaplain; Mrs. Audrey Neel, pro tem; Mrs. Ethel Read, Marshall; Mrs. Elsie Guthrie; Mrs. Greenhaw, pianist; pro tem; Mrs. Lena Milam; Mrs. Jim Goodnight, Ada; pro tem; George Ballew; Mrs. Katie Clark, Ruth; pro tem; Lola Webster; Mrs. Julia, Esther; pro tem; Mrs. Slover; Mrs. Alice Dyeus, pro tem; Mrs. Ada Powell; Mrs. Beulah Newton, Warder; Mrs. Mamie Nealey; J. Newton, Sentinel; pro tem; Ira Nealey.

For the installation ceremony following program will be given: "The Brown Bird" song, "Lucy Hudgins, accompanied by Mrs. Elmer S. Shelley, Mrs. Tess Alexander Pot-

ter; songs, "Thank God for a Garden" and "Waiting," Margaret Milam, with Mrs. Elmer S. Shelley accompanist.

MUSIC PUPILS ARE PRESENTED IN RECITAL

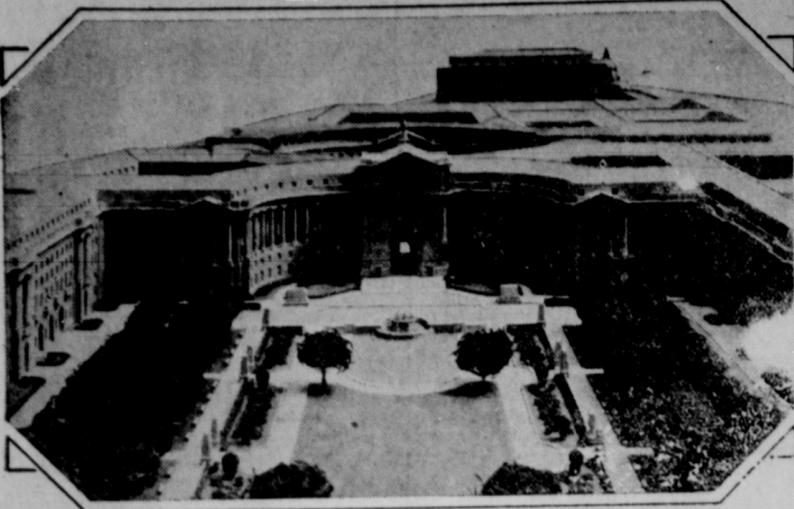

Tuesday afternoon was an occasion long to be remembered when Mrs. J. C. Hennen presented her pupils in music, Misses Frances Denny and Maidee Thompson. Tess Potter Alexander assisted in the program with several readings.

The following program was rendered: Valse in C Sharp Minor, Chopin; Au Matin, Godard, Etude, Schytte, Frances Denny; Arkansas Traveler, MacDonald; Impromptu, Reinhold; Nocturne Op. 15, No. 2, Chopin, Maidee Thompson; "Shoes" from "Cabbages and Kings," O. Henry, Tess Alexander Potter; Valse in E Minor, Chopin, Frances Denny; Troisième Ballade, Chopin, Maidee Thompson; "The Highwayman," Alfred Noyes, Tess Alexander Potter; Sois Bois, Staub, Frances Denny; Turkey in the Straw, Guion, Maidee Thompson.

That everyone enjoyed the program was evident from the hearty applause following each number.

... will be treated by their by their presence. ... newspaper is convinced of that. ... fixtures and in painting the fixtures, so that when the opening Neel will engage in. ... known what kind of ... of A. J. ...

Plaza Part of Capital Building Project

The proposed new Pennsylvania Avenue Triangle of public buildings in Washington, D. C., one of the most ambitious programs to be undertaken by the government, includes a great plaza. The view of the plaza shown above is looking from the Department of Commerce Building east toward the Capitol.

On the Level—

(Continued from page 1)

women truck drivers, and mothers, sisters, wives and sweethearts who remained at home, doing their part far from the sound of guns. There have been gold star mothers since time first began and there always will be.

As tribute is paid to the fallen brave on Sunday, let us not lose sight of the spirit that guided them—a spirit inspired by duty. It was that grand chieftain of the Southland, General Robert E. Lee who said: "Duty is the sublimest word in the English language. Human virtue should be equal to human calamity." And it is; it is, "though poppies bloom in Flanders' fields!"

Dairying on Large—

(Continued from page 1)

of better equipment on our farms. We are always glad to respond to this demand. Our farmers today, following the good crop of last year, are borrowing their usual amount and in some instances more, but I am glad to note that a very large per cent of these advances are made for better improvements, better livestock, better home surroundings. And we note this as an indication that Hall County is moving forward to take its place as the first county of our state.

Cotton is Money Crop

"Cotton is our chief money crop and will continue to be as long as our great country responds so naturally to its production. Last year, our county produced the greatest per acre yield of any county in Texas—and that means my county in the world. We are asty proud of that magnificent record. We are known in the re-

motest corners of our state as the richest producer of this staple—an enviable record. However, in that, danger may lurk. Let us hold fast and cherish this good which is justly ours, at the same time, let us not put all our eggs under this bountiful basket. If we will live from the proceeds of our dairy cows, our pigs and our chickens, good old Hall County cotton will pay for the best farm to be found. I will have more to say later."

Red Cross Life—

(Continued from page 1)

Tremendous Task
"The tremendous task of reaching these 4,600 boys cannot be done by one man. The man power of every community must be mobilized to do it. Churches, service clubs, schools and parents must unite in one solid body, giving some of their time to this tremendous problem. The school cannot do it alone, for we can educate criminals as well as citizens, for the greatest criminals are the educated ones. The church cannot do it as seven out of ten boys of this age are lost to the church. Every force of the community must be organized for service and every available man must be mobilized for the task. Not only money, but man power is needed.

Summer Camp Necessary
"Part of the Boy Scout program is a summer camp, now recognized by educators as necessary to a boy's or girl's education and filling a part of the leisure time of the child with worth while activities such as archery, model airplanes, sex health, hiking, cooking, swimming, games and athletics, camp fire programs, where individual and group stunts are encouraged, wood work and wood carving, boomerangs and marksmanship.

"Is your boy planning on spend-

ing his vacation or planning a worth while one? It costs an average of \$7,380 to raise a boy to 18 and that does not take into consideration a mother's care, work, worry, suffering and privations. If a college man, he will earn an average of \$150,000 in a life time; as a high school graduate \$78,000. Use every opportunity you can to aid and assist him to get the right ideals of life."

Aviation City At Snyder Is One Of Best In Southwest

SNYDER, May 30. (Special)—It remained for a small city of 5,000 inhabitants in the Southwest to provide the most modern and unique airport ever conceived for any town or city under 100,000 population.

D. P. Yoder, an engineer and business man of long standing and widely known in the Southwest, originated the idea of providing an airport at Snyder sufficiently large to take care of great air fleets, together with a series of modern cabin inns to handle the road tourist traffic that comes to this city, which is a junction point of the famous Dal-Paso Cavern Highway, shortest route from Dallas to the west coast, and State Highway No. 7, principal outlet to Amarillo, Lubbock, Abilene and South Texas.

Designated Highways
Located between two state designated highways, Nos. 7 and 101, and across the road from the Santa Fe depot, more than 3,000 feet of landing area will be provided with clear approaches in all directions. Plans for the air center were drawn up after visits to many fields in this and adjacent states. The field proper includes an iron hangar already completed and large enough to

service re-fueling pump, one of the few outside an army field in Texas; together with administrative offices and plane supply room attached to the hangar with complete machine shop facilities available for servicing visiting planes. The landing field is said to be one of the finest in the country, and is already covered with grass, providing landing in any kind of weather. A Curtiss-Robin monoplane is provided at the port for commercial work, flying school and cross-country jumps, with a government licensed pilot to be in charge. Air markers that can be seen for fifteen miles are located at the center of the field with arrow pointing north and "wind-sock" will be located atop the hangar. An airport designation sign is also located down town.

Cabin Inns Built
Within 100 yards of the hangar is located the first of a series of Cabin Inns where every service a modern hotel provides is given, with shower baths, lavatories, telephone, telegraph, gas, water, electricity, with radio hook-ups provided in each cabin. Of the ten cabins already completed, each is an individual unit constructed of stucco with interiors of wall board trimmed in green and ivory. Exteriors are green tinted with all wood work in green and cream white. Twenty-five cabins will be the goal of the builder. A waiting room that also provides showers and lavatories is provided with a main depot containing a first class restaurant, grocery, sundries and field superintendent's residence. The Santa Fe depot is directly opposite the main office, while at the north end of the field is the Snyder Golf and Country Club and swimming pool. The course of nine holes is open free of all fees to visiting planes and their passengers.

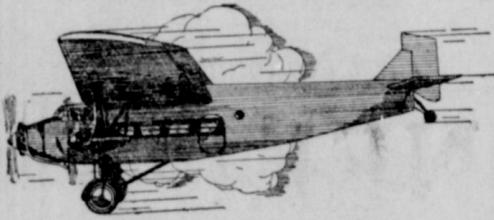

The park adjoining the cabin inns is now being beautified with flowers, shrubbery and trees.

Aviation magazines and pilots who have been here declare that Snyder has the most model airport in the United States of any city under 100,000 population, as every requirement is fulfilled, and location could not be improved, being but one mile north of the public square with taxi service available at the port at "two-bits" down town. Since the first announcement was made of the temporary opening of the field, planes have been dropping down from all points of the compass whose pilots and passengers are enthusiastic over the 'air-mindedness' of such a small city and the wisdom of its owner and founder, D. P. Yoder, who originated out of Goshen, Ind. Scurry County and Snyder were first introduced to aviation in 1926 when Paul Schattel of near Hermleigh constructed and flew his first plane, a Curtiss "Jenny" and which is still being used by his brother, Eugene, who has lately installed a new motor.

Plans are now in the making for one of the greatest airport dedications ever held in the West, and hopes are being expressed by the Lions Club and the Scurry County Chamber of Commerce to have 100 planes here for an old-fashioned West Texas barbecue with all the trimmings.

Has Been Misunderstood
To the uninitiated who live north and east, West Texas has long been misunderstood as regards longhorn cattle and six-shooters, and let it be known that none such prevail there now, as diversification in all lines of agriculture has taken hold with a recent record of \$4,110.30 being paid by one produce house here for eggs, poultry and cream in one day. A county farm agent and county home demonstration agent are employed by the county. Not only is West Texas "air-minded," but likewise sold on diversification of their agricultural products.

The 'Fort Worth' Motor

Broke all air endurance records with an Overhauled Motor

The record-breaking flight of Reg L. Robbins and Jim Kelly in the plane, Fort Worth, was accomplished in a machine that already had seen 500 hours of service and in which the MOTOR HAD BEEN OVERHAULED.

Let Us OVERHAUL YOUR AUTOMOBILE

and you, too, can set an endurance record on land. If an overhauled plane can stand such a gruelling test in the air, it stands to reason that an overhauled automobile can stand even more on land, provided of course that the overhauling is

DONE RIGHT

The overhauling of the "Fort Worth's" motor was properly executed.

Our workmen know how to properly overhaul your automobile motor. Bring it in today for an estimate.

THE WORLD OF SPORT

PHILIP MARTIN Robertson, coach at the Penn Relays, says Barney Berlinger is the greatest athlete that has ever been at his best. Per-
right. At any rate, disputing the fact that he is the greatest athlete of this day.

Barney Berlinger, all-around athlete, is pictured above, and in a moment of action below.

intercollegiate in the western cham-
Illinois, in the Penn Relays, outstanding performance by Pennsylvania

entered four events at the western cham-
one, scoring 91-4 points, which was approximately the points made by this meet. Berlinger was fourth in the running broad jump, and finished second in the running broad jump. Incidentally, he is the holder of the record in the pole vault, which is to be beaten by

among the great of the track world. He was one of the outstanding scholastic performers of the east before he entered Penn and, even as a freshman, he was praised as one of the greatest of the nation.

As a freshman he entered the septathlon event of the indoor championships last year in New York and he out-ran and out-jumped one of the most brilliant fields ever entered to score a total of 5716 points.

Injuries kept him out of the Penn Relays, but he tried successfully for a berth on the Olympic squad, finishing third in the all-around event. He was a disappointment however, in the Olympic Games, mainly because of inexperience and over-anxiety to make a great showing.

It seems unbelievable that a big 198 pound fellow like Berlinger should do well in events like sprints, jumps and pole vaults, but there is a poetry of motion in his actions as he runs and lifts his huge body that is beautiful to watch.

Robertson, in addition to saying Berlinger is better than Thorpe, says he is the best pole vaulter in the country. That can be disputed easily, as his best mark is far shy of ones made by current college vaulters.

But Berlinger deserves ranking as the greatest all-around performer in the country today. He has shown it twice, against the best in the field, and say what you will—they still pay off on results in this land of the free.

amount lives in Chicago, and immediately after the wreck he left for his home. The extent of his injuries are unknown, but his back was badly bruised and several cuts were visible.

NOTICE TO STOCKHOLDERS

Notice is hereby given, that the annual meeting of the stockholders of the Farmers Union Gin Co. will be held at the office of the company at Memphis, Texas, on Saturday the 1st day of June, 1929 at 2 o'clock p. m. for the election of directors and the transaction of such other business as may properly come before the meeting.
61-2p JOHN T. BISHOP, Sec'y.

PRESBYTERIAN CHURCH

Junior church 11 a. m. Prayer meeting Wednesday evening at usual hour. A comfortable pew and a welcome for you.
J. Hardin Mallard, Pastor.
Dr. M. McNeely, Supt. S. S.

TEXAS EXERCISES TO BE HELD IN STADIUM

AUSTIN, May 30. (UP)—Closing exercises of the University of Texas will open Sunday night with the delivery of the baccalaureate sermon in the Texas Memorial stadium by the Rev. William States Jacobs, pastor of the First Presbyterian church, Houston.
Music including the recessional will be by the Longhorn band. Graduation Monday will also be in the stadium.
The cap and gown will not be worn by the law and business graduates this year, but by all other graduates. Colored cap tassels will distinguish the departments. The law students will appear in spring suits adorned with sunflowers in their buttonholes. Business students will wear white suits, set off by red boutonnières.

Truck Driver Is Injured in Spill on North Highway

Bill Amburn, truck driver for the Green Belt Motor Freight Company of Amarillo, was injured when the truck that he was driving turned over in a ditch early Thursday morning on the north highway a short distance from the city limits.
To avoid a collision, he turned his truck to the ditch. He was not driving very fast, but the truck being loaded easily turned over, and was damaged slightly.

Local and Personal

Mrs. Jack Figh was in Dallas this week.
Allan Grundy attended the Rotary convention this week.
S. J. Hamilton was in Dallas this week.

Mrs. J. M. Hunter, and sons Glenn and Joe, joined Mr. Hunter in Dallas last week. They will make their home there.

Leonard Pierce, employed by Wood Bros. Grocery, returned Tuesday from a visit in Hugo, Oklahoma.

Mr. and Mrs. Raymond Hill Houghton and son, Raymond Jr., of San Fernando, California, are visitors of Mrs. C. R. Webster.

HIGH BLOOD PRESSURE inexpensively overcome, without drugs. Just send address. Dr. L. F. Stokes, Mohawk, Florida. 1p

Mrs. Bill Kesterson and Mrs. V. O. Williams spent Tuesday in Clarendon.

Frank Massengale of Hollister, California, is spending his summer vacation with the family of H. B. Bryan.

Miss Beatrice Frizzell, formerly of Dancette, Texas, who has been making her home here with her grandmother, Mrs. M. A. Frizzell, has returned from a three weeks visit to relatives and friends in Lubbock. Miss Frizzell is reported as making preparations for a return to her former home in a few days.

Mr. and Mrs. S. B. Lucas have moved from Memphis, back to their old home in McKinney.

Mrs. W. E. Wilson and children left last Thursday for Mangum, Oklahoma, where they will join Mr. Wilson to make their future home.

Government Deals Are Expected To Start Arguments

AUSTIN, May 30. (UP)—Fifty-fifty deals with the federal government promise to start arguments in the coming special session of the Texas legislature.

At the first special session there were protests against fifty-fifty arrangements with the federal government for vocational training of disabled persons.

That involved only a few thousands of dollars. The next special session will be confronted with one involving \$7,000,000. State school superintendent S. M. N. Marrs is urging that the legislature put the state in position to accept the terms of the act proposed by Rep. Charles Brand of Ohio. This act proposes a \$100,000,000 fund "to aid in the reduction of taxes on farm lands, and to promote elementary education in rural areas and to cooperate with the states on these objectives."

Texas' share of such a fund, Superintendent Marrs estimates would be \$7,000,000 a year. If the state accepts the provisions he said farm taxes can be lowered by reducing the school tax. Additional appropriations, above that now would not be necessary, Superintendent Marrs estimated, to match the federal aid.

Objection to other similar plans made by legislators has been that when the federal government participates in a fund, the entire control is assumed by federal representatives.

Mrs. Brown—"Does your husband object to cats?"
Mrs. Smith—"Yes, indeed. He says I feed all the cats in the neighborhood. Won't you stay and have tea?"

Attempt Is Made To Put Valuation Wharton Property

AUSTIN, May 30. (UP)—An attempt to place a valuation of \$150,000,000 on Wharton county property of the Texas Gulf Sulphur Co., now valued at \$6,000,000, was to be made here today.

Assistant Attorney General Paul Page and Dewey Lawrence have been designated to meet with the Wharton county commissioner's court when it convenes today as a board of tax equalization.

An alleged representation to the interstate commerce commission that there is a billion dollars worth of sulphur in the land has led to the attempted raise. This representation was said to have been given when application was made for a permit for railroad extension into the territory.

MERKEL has started work on the paving of Oak street which is to be solid concrete 40 feet wide and boulevarded. Nineteen ornamental lights of the same design as now in use in the business district are to be placed in the street intersections and between street intersections.

CHANNING 4-H boys are the recipients of a car lot of pure bred Jersey calves from North Central Texas. The purchase of the calves was made possible through the cooperation of the First National Bank who financed any boy who desired to become the owner of one of the calves.

GRAHAM has produced some yearling steers that brought \$60 a head, the highest price ever brought in Young county. The animals belonged to W. A. and T. M. Corbett, breeders of high grade cattle for 35 years. There were 750 head in the lot and they brought \$35,000.

Arkansas Quintet Best Rifle Team Of United States

FAYETTEVILLE, Ark. 30. (UP)—Ten years ago five boys from the Ozark hills of Arkansas threw rocks at rabbits with deadly aim. Today, that same hill-billy quintet forms the collegiate championship rifle team of the nation.

Three consecutive times, this little band of "Shepherds of the Hills" have entered the national fire. And for three consecutive times, they left a blazing trail, capturing national honors for their alma mater, the University of Arkansas, the only non-Texas institution in the Southwest Conference.

The Dixieland gunners first won the Southern title, the second time they successfully accomplished the feat. Not contented with sectional honors, they entered the open tourney.

After the smoke of fire had cleared away, it was visible alike to both friend and foe, the South had triumphed. The Razorback five had "bull-eyed" their way for 986 points out of a possible 1,000 and with victory coming three successive times, the Parkers became sole owners of the William Randolph Hearst national trophy.

Hill-Billy Five
The hill-billy five can do more tricks than merely split bulls-eyes. In fact, they wouldn't even think of shooting at the apple if they had been in William Tell's shoes. They would have pointed their guns at the apple core.

It is an every day stunt for them to light each others cigarettes, substituting steel bullets for knocking ashes from a cigar at the regulation distance, they drive thumb tacks, split chalk from the hand of their comrade, and can even spell their own names with a purring gun spitting out bullets at rapid fire.

Grew Up With Guns
The "big-five" who grew up with guns in their hands are Cadets Gayle M. Jackson, Van Vuren; Ben F. Uhl, Fayetteville; Tom E. Hicks, Lonoke; George W. Streeprey and Allen V. Tuller, both of Little Rock.

The team is coached by Lieutenant Herman O. Lane of Vanderbilt. Coach Lane believes in his proteges to such an extent he often takes his turn "holding the chalk" when one of his pupils pulls the trigger.

First Professor Geology At Texas Visits In Austin

AUSTIN, May 30. (Special)—Among recent visitors to the University of Texas was Dr. Robt. T. Hill, first professor of geology at the University. Dr. Hill was on the University faculty from 1888-1890, when he was succeeded as chairman of the department of geology by Dr. F. W. Simons, present chairman. Dr. Hill is credited with laying the foundation for the study of geology in Texas. He was the first person to explore the great canyons of the Rio Grande. He was associated with Alexander Agassiz in explorations of Central America and the West Indies, and made geological surveys of Mexico, Panama, Costa Rica and other areas. Dr. Hill has written extensively on geological subjects, having more than 200 titles to his credit and he belongs to practically every learned society covering his field of activity in America and several foreign countries. For 40 years he was a member of the United States Geological Survey.

RESERVE OFFICERS TO GET ACTIVE TRAINING

SAN ANTONIO, May 30. (UP)—At least 175 Air Corps reserve officers will receive active training at Hensley Field, west of Dallas, from July 7 to 14, it has been announced at the eighth corps area headquarters here.

Both observation and attack type planes will be flown by the reserve pilots during their active training period. The instruction will be conducted by Capt. Harry Weddington in charge of air corps reserve activities at Dallas.

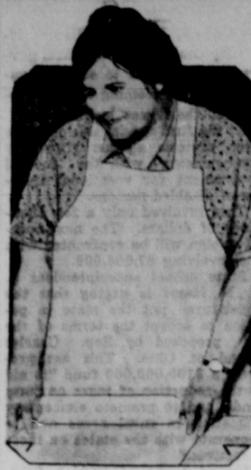

A 16-room club-house at Hensley Field will be at the disposal of the reserve officers during their stay at Dallas.

HUTCHINSON COUNTY HAS GAIN IN SCHOLASTICS

BORGER, May 30. (UP)—With all but one of the school districts of Hutchinson county reporting its 1929 school census complete, a gain of 200 in the number of school age was registered over 1928. The increase came from Borger, the mushroom town showing a gain of 270. Figures show 1,928 for 1928 and 2,283 for 1929.

Between 250 and 300 more automobile licenses have been sold in Hutchinson county this year over last, figures also show.

Wins \$2,000 and Buys New Iron

Mrs. W. M. Grace of Visalia, Calif., won \$2000 in a prize contest conducted by the Evaporated Milk Association. She bought a new mangle iron and invested the rest for the education of her two little daughters. There were more than 12,000 entries in the contest throughout the United States, and Mrs. Grace's recipe in the "Quart of Milk a Day" competition took first prize.

This and That

THIS & THAT'S PROGRAM FOR 1929

(Check mark indicates project has NOT been realized.)

x Red and green traffic lights like Chillicothe's.

Someone is afraid I'm going back to Lakeview in my golf knickers. I received through the mail Saturday a circular advertising a ball game at Lakeview. Across the top was written, "please leave off your bloomers, they will not be in order."

People, we get all kinds of letters, we do. Read this one, which recently reached our office, no foolin'.

To the editor of the Memphis Democrat of Memphis Texas. Gentleman kind sir. I'll write you this card to tell you to please mail me a free sample copy of your paper as I would like to get a copy of it and see it and I may want to subscribe for it sometime and so now please do be shure and mail me this now full sample copy of the Democrat at once by return mail so I can get it at once you see and see it. From yours truly

It's on file here if you don't believe it.

A local music teacher who was ordering some printing wanted to know if we had a lyre we might put on the front of her recital programs. "Lady," I told her, "this office is full of liars." To make bad matters worse, she agreed with me!

PERSONAL—It seems to me that if the person who split the right rear fender on my car while backing out into the street from in front of The Democrat office Monday afternoon about 5 o'clock wishes to do the honorable thing, he or she will offer to repair the damages. Otherwise, I'll go have it welded myself, but I'll still be mad about it.

I believe this is the longest strawberry season I've ever experienced, and I'm thankful for it. If there's anything I hate, I love strawberries and plenty of 'em. I hope someone will plant strawberry vines around my final resting place. (Three cracks over the head for the first person who says strawberries won't grow in that much heat.)

FRANK FOXHALL LOCAL GOLF CHAMPION

FRANK FOXHALL'S SECOND CONSECUTIVE VICTORY

Play Cinches at Twenty-ninth Hole

The most brilliant career, Frank Foxhall, local golf champion, when he defeated Sam West, local medalist this year, in which developed into a sided contest. West was not in his usual "hot-firecracker" to use a gressive golf term.

Foxhall earned the local golf champion for consecutive time when he defeated Sam West at the 27th hole of a 36-hole match. Foxhall, medalist in the Green-ant last year and the Memphis Country at consistent golfers.

It was decided at the when the play stood to go in Foxhall's score of 66 on the es breaks the record in any previous tour-

the final results. Championship Flight West winner. M. G. D. B. Gentry, Tarver C. Ross and Frank hall winner.

Friday—Panhandlers 11, Cubs 6, Monday—Wholesalers 19, Braves 4, Wednesday—Cubs 7, All Stars 4.

Finals—Thos. Hampton and Buster Helm, Helm winner. Fifth Flight Harry Delaney and Paul James, Delaney winner. George Greenhaw and W. P. Dickson, Dickson winner. Henry Read and Ira Neeley, Neeley winner. Pete Cudd and Ingram Walker, Walker winner.

Consolation—Paul James and George Greenhaw, James winner. Henry Read and Pete Cudd, Cudd winner.

Finals—Paul James and Pete Cudd, Cudd winner. Consolation Flight A. R. Evans won the consolation flight by shooting a 93.

In the struggle for the booby prize, Bill Kesterson shot a 122, Lyman E. Robbins a 126 and Tommie Potts shot a 70 on the first 9 holes and took a bye.

Kesterson won his own grease, but Robbins already had learned it was not his favorite brand. Some of the gallery claimed a frame-up, intimating that Bill might have a hook nose, since he won the prize he offered in the tournament.

ISN'T IT SO! "You should be more careful to pull your shades down at night. Last night I saw you kissing your wife."

"Ha, ha, ha! The joke is on you. I wasn't at home last night."

Mrs. West Wins Women's Match At Country Club

This West family is just naturally a golfing aggregation. Sam West shoots a score of 70 to become medalist of the local tournament this year, his son, J. W. West, Jr., wins the fourth flight, and Mrs. Sam West takes the championship in the women's tournament.

If that isn't making a family affair out of golf, we'll throw in with you. Mrs. West's score of 110 defeated Mrs. Winfred Wilson by only one stroke.

The result of the women's tournament was as follows: Mrs. Sam West, first; Mrs. Winfred Wilson, second; Mrs. Frank Garrett, third; Mrs. Jack Figh, fourth. Mrs. Frank Foxhall, Miss Fay Helm and Mrs. M. J. Draper were also entered in the play.

How They Stand

Club	P	W	L	Pct.
Panhandlers	1	1	0	1000
Prune Peddlers	1	1	0	1000
All Stars	2	1	1	.500
Cubs	2	1	1	.500
Wholesalers	2	1	1	.500
Braves	2	0	2	.000

How They Play

Friday—Panhandlers and Prune Peddlers.
Monday—Panhandlers and All Stars.
Wednesday—Cubs and Braves.

Results

Friday—Panhandlers 11, Cubs 6, Monday—Wholesalers 19, Braves 4, Wednesday—Cubs 7, All Stars 4.

Finals

Thos. Hampton and Buster Helm, Helm winner.
Fifth Flight Harry Delaney and Paul James, Delaney winner. George Greenhaw and W. P. Dickson, Dickson winner. Henry Read and Ira Neeley, Neeley winner. Pete Cudd and Ingram Walker, Walker winner.

Consolation

Paul James and George Greenhaw, James winner. Henry Read and Pete Cudd, Cudd winner.

Finals

Paul James and Pete Cudd, Cudd winner. Consolation Flight A. R. Evans won the consolation flight by shooting a 93.

In the struggle

for the booby prize, Bill Kesterson shot a 122, Lyman E. Robbins a 126 and Tommie Potts shot a 70 on the first 9 holes and took a bye.

LAKEVIEW TEAM TOO MUCH FOR WELLINGTON

T-O League Leaders Lose 8 to 7 To Lakeview

LAKEVIEW, May 30.—Lakeview demonstrated to Wellington last Saturday that being league leaders in the Texas-Oklahoma association doesn't always mean so much. The Hall County boys defeated their Collingsworth opponents 8-7.

But Lakeview wasn't satisfied with the big end of the score. She also gets credit for 9 hits, compared to 6 for Wellington. It was a fast game—one of the best seen on the local diamond this year.

The box score follows:

DRY GOODS MEN EXTINGUISH FIRE AND STOP LIONS' ROAR

Lakeview Club Has Two Games For Week-End

The Firemen had their fire put out and the Lions' roar was under the influence of a soft pedal at the close of the initial Dry Goodsmen-Firemen-Lions baseball encounter at Fair Park Friday.

The result was Dry Goodsmen 11, Firemen-Lions 6. Although both clubs made 7 errors each, the Firemen-Lions were more costly, allowing several runs. About 100 people witnessed the game.

Two games that promise to be fast and interesting are to be played at Lakeview Saturday and Sunday of this week.

The Braves, erstwhile Barbers, took the worst drubbing of the season Monday when they were defeated by the Wholesalers, 19-4. They forfeited the game at the close of the fifth inning.

In connection with the reorganization of the City League, the team's name has been changed to the Braves, primarily because it takes a mighty brave team to stand up to the overwhelming defeat delivered by the Wholesalers Monday.

Here's the queer thing about the whole business. The Braves team, discounting a rather weak pitching staff, is not a crippled aggregation at all. Practically every player works smoothly, but it is evident that the pitching staff will stand revision.

And speaking of pitchers, Paul Blevins is a tosser the Brave had better hold, if this writer knows anything about baseball. Blevins' valuable arm is affected by only one thing—lack of practice. Scraping chins just doesn't constitute a sufficient work out for

HARD STRUGGLE FOR PENNANT PROMISED

Much New Blood Is Added to Four Teams

Reorganization of the City League in order to strengthen four weak teams of the six has been perfected, the managers have announced.

Henceforward, local fans need not be surprised if some of their pet dope is upset, because four of the managers very insistently claim that the All Stars and Wholesalers, formerly conceded to be the two strongest teams, are not the only ones in the running.

New pitching blood, new infield and outfield support figure in the changes. At least three of the teams are expecting to be heavy contenders with the All Stars and Wholesalers for a first half victory.

And who knows but what those two teams are running up against something they did not anticipate?

In connection with the recent shake-ups, names of the clubs have been changed as follows: the Firemen-Lions are now "Cubs," the Dry Goodsmen are "Panhandlers," the Barbers are "Braves" and the Grocers are "Prune Peddlers." The All Stars and Wholesalers retain their original names.

"Doc" L. M. Hicks, manager of the Cubs declares he has secured a group of players that can cop the rag for the season's first half; Manager Nelson of the Prune Peddlers says his club has been materially strengthened; and the Panhandlers, of course, with their percentage, at this writing, of (Continued on page 8)

When he's in shape, this hurler can strike out 6 to 8 men in one game, mark our words.

Manager E. W. Patrick did his best with the Braves. No one envied his job in placing players after the wholesalers had gained an impossible-to-overcome lead. His job developed into quite a problem. "But," he said after the game was over, "you'll find us on the diamond for our next scheduled game with a much stronger team."

Discussion of the Wholesalers' part in the one-sided struggle is quite unnecessary. The box score speaks for itself. The men were in good form and played orthodox baseball.

ALL STARS GET SMALL END OF SCORE

Gilliam's Hurling Baffles Guthrie's League-Leaders

Riding to a well-earned victory on a dark horse pitcher, the Cubs, formerly Firemen-Lions, defeated the league-leading All Stars 7 to 4 in a thrilling City League encounter at Fair Park Wednesday.

The shady stallion was R. R. Gilliam, local painter, and, people, he tosses a mighty mean agate.

It was an engrossing contest from more than one angle. In the first place, had the All Stars won they would have retained their percentage of .1000, and the Cubs would have been deeper still in the cellar.

The result of Wednesday's game gives each club an even break, 500 percent each. And don't forget that the mighty Wholesalers, too, have but 500 per cent. As The Democrat goes to press, the Panhandlers and Prune Peddlers are leading the league with .1000 each, but that will be changed at Fair Park this afternoon when those very teams clash.

Hart, first Cub up, smacked out a pretty single and made the first run.

At the end of the second inning, the outlook for a Cub victory was rotten. The All Stars had found the weak spot on Murphy, Cub southpaw, and scored four men. Those first four runs, however, were destined to be their last.

Cub Manager Doc Hicks pulled Murphy in the second and placed Gilliam in the box with the bases full and one man out. Two runs were scored and one hit secured on Gilliam in that inning, incidentally the last of both. Gilliam has an in and out curve and a good drop for a

MRS. SMITH HOSTESS TO BAPTIST SOCIETY

Mrs. J. Henderson Smith was hostess to the G. A.'s of the First Baptist church, at their regular meeting, Thursday afternoon, May 23.

Margille Sigler, president, called the meeting to order. Mrs. Smith then led in prayer. The minutes of the last meeting were read by the secretary.

"Magis of Missions" was the subject of the interesting program led by Marie Barber and rendered by Margille Sigler, Mary Kinslow, Lola Mae Grundy, Lorraine McCown, Ouida Rice, and Lula Fay Oren.

One new member, Mildred Lindsey, was added at this meeting.

A lovely plate lunch with cream and cake was served to Mrs. G. S. Sigler, and Mary Burks, Desma Hale, and Anna Louise Hudgins as guests; Misses Margille Sigler, Lorraine McCown, Lola Mae Grundy, Lula Fay Oren, Helen Boswell, Lucille Ford, Dorothy Hart, Marie Barber, Pansy and Elaine Myers, Ouida Rice, Mary Kinslow and Mildred Lindsey.

The G. A.'s meet next June 13 with Mrs. E. W. Patrick, at 18th and Brice streets.

DAUGHTERS OF WESLEY WILL MEET THURSDAY

Daughters of the Wesley Bible Class will meet with Mrs. Duval Brumley on Thursday, June 6. The lesson will be on the last part of I Kings, II Kings, and I Chronicles.

"Old Favorites" Entertain At Lions Luncheon

Lions were highly pleased last Thursday when they listened to three of their "old favorites" in entertaining song and piano renditions, and one voice new to the club, but none the less pleasing.

Mrs. C. L. Sloan, Jr. and Thos. E. Noel, with Mrs. Elmer S. Shelley at the piano, sang "Neapolitan Nights," "I Get the Blues When It Rains" and "Highways Are Happy Ways."

Mrs. James E. Bass, accompanied by Mrs. Shelley, sang "Indian Love Call" and "In the Garden of Tomorrow."

Following the request of Dr. J. Hardin Mallard, who was in charge of the program, for a "ditty," Mrs. Sloan played and sang "Dream Train" and another number.

The club voted to pay for an operation for tonsillitis for a young girl whose family is at present in dire circumstances and whose physical condition is ruining her health. A committee composed of Arthur W. Jones, R. D. Stuart, and L. M. Hicks was named to handle the matter.

FIRST METHODIST CHURCH

Sunday school 9:45 a. m.
Preaching at 8:15 p. m. Subject, "At the Gates of Man's Soul."
Morning service at the Presbyterian church at 11 a. m.
Leagues at 7:15 p. m.
All are invited.

What Is the Baby Saying?

Old Mother Bison bends close to earth to hear her youngster whisper in her ear—probably something that sounds like "When Do We Eat?" The bison baby was just two days old when this picture was taken in Washington Park Zoo, Milwaukee, Wis.

Local Girl Scout Awards Are Made

The Girl Scouts receiving Second Class Badges on Girl Scout day, May 15, were Georgene Sexauer, Ruth Baker, and Charlotte Fore of Troop One; and Veta Brown, Geraldine Watson, Vallie Harrell, Cora Fox Yonge, Nell Walker, Audrie Lofland, Martha Draper, Francis Montgomery, Betty Dale West, Pansy Myers and Phanelpha Gibson of Troop Two.

Requirements for scholarship badge was explained by Captain Ira Hammond; Citizenship, by Mary Helen Kinslow; Music, Cora Fox Yonge; Cook, Ruth Baker; Laundry, Nell Walker; Housekeeper, Geraldine Watson; Hostess, Martha Draper; Electrician, Pauline Turlington; and Scribe, Allie Caviness. The name of the badge signifies much, but to know the requirements would enable readers of this article to know the splendid work the girls have accomplished.

Seventy-eight merit badges were presented to the following second class scouts, some of whom received as many as six badges.

Troop One, or Cardinal Troop, Georgene Sexauer, Charlotte Fore, Mary Helen Kinslow, Ruth Baker, Dorothy Jones, Pauline Turlington, Allie Caviness, Vera Neelley, Lorence Webster, and Tommie Boren.

Troop Two, or Jonquil Troop, Veta Brown, Geraldine Watson, Vallie Harrell, Cora Fox Yonge, Nell Walker, Audrie Lofland, Martha Draper, Francis Montgomery, Betty Dale West, Pansy Myers, and Phanelpha Gibson.

Troops 3 and 4 are organized as Chums, for the summer months, and the girls are as follows: Agnes Cottingham and Virene McMurry, Dolly D. Brewer and Ann Palmeyer, Winifred Prater and Marie McQueen, Margaret McElroy and Ruth Shamin, Marietta Arnold and Jimmie Lou Thompson, Lois Johnson and Mary Bourland, Helen Ruth Thompson and Naomi Wiggins, Geraldine Kinard and Dot Dunbar, Ouida Reed and Ruth Woods, Juanita Cudd and Annie Ruth Williams, Adele Harrell and Lucile Cudd, Oma Butler and Corinne Boles, Mary Ann Smith and Pauline Givens.

Miss Ruby Hoffman will sponsor these troops for the summer. The troops will meet at the Library Park on Tuesday, Wednesday and Thursday afternoons respectively and continue the work toward the rank of First Class Girl Scouts.

John Dennis and family of this city, spent Sunday visiting friends in Wellington.

Mrs. S. A. Bryant, Mrs. O. L. Jamison of Knox City and Miss Elizabeth Bryant drove to Amarillo to visit with Mrs. Byron Gist last Monday, returning Wednesday.

Hard Struggle—

(Continued from page 7)

1000, are not conceding anything but victory for themselves. And then there's E. W. Patrick, skipper of the Braves, who speaks up from the cellar, with three goose eggs opposite his club in the percentage column, and says the other five clubs are going to have to fight for everything they get "from here on out" as far as he and the Braves are concerned.

A merry struggle is in the offing. Come out to fair park, bring the family—and a corresponding number of dimes. Play ball!

Cubs Upset—

(Continued from page 7)

but six hits, not a bad average at all.

Aside from the pitchers' battle, the outstanding grand stand plays were performed by Hart and Boone, opposing third basemen, both of whom caught difficult flies out of their territory, beyond the foul line a number of yards. Pounds' work on first base is also worthy of special mention, and Wright, Cub shortstop, brought his team out of a strain a couple of times.

It was a gala day for the Cubs. And now, ladies and gentlemen, they are considered real contenders for the City League pennant, contrary predictions by W. J. Hill notwithstanding.

DEMOCRAT BUILDING IS BEING IMPROVED

ADDED SPACE IS OBTAINED BY COMPANY

Office Supplies Are To Be Handled In Near Future

Speed Bros., of Clarendon have been awarded the contract to extend the building occupied by The Democrat to the alley in the rear of the building, which will give The Memphis Publishing Company almost twice as much floor space as is the case at the present time. The owner of the building, Mrs. J. T. Warren, who resides in Clarendon, let the contract several days ago and work on the foundation of the new structure was started last week. Several local boys have been employed on the job.

Office Supplies
With the acquisition of more space, The Memphis Publishing Company will put in a complete line of office supplies. This line will include blank books, note books, ledgers and all equipment that goes into making a complete and accurate business service. A large St. Louis house will likely furnish the supplies to be sold locally. Sale of tally cards, favors and such things now carried in stock by gift shops and various of the drug stores of the city will not be included in the line that will be put in by The Democrat.

E. L. and C. G. Speed of Clarendon are actively in charge of the work of adding to the present building. They expect that most of the work will be completed within the next few weeks, provided weather conditions are favorable. The estimated cost of the improvements is approximately \$2,500.

To Change Front Office
The front office of The Democrat will undergo many improvements. The partition between the front and back offices will be taken out and the front office will extend back for a considerable length. Private offices are to be constructed within the front office. As it is now, little privacy can be had as the editorial, business and advertising departments are all in the one space, commonly known as the front office.

A large space will be left in the flooring of the back office in order that new press may be installed some time in the future. The growth of The Democrat has been such that it will not be long before a new press, capable of much faster work than the one at present will be a necessity. The space is being left so that the floor will not have to be torn up when the new press is purchased.

Comprehensive Line
Across one side of the front office will be displayed the office supplies which will include a complete and comprehensive line of the very best that money can buy. This will be as much a part of the business of this corporation as that of publishing a newspaper and maintaining a job department.

Since Bill Autry, of Amarillo, has been added to the staff of The Democrat in charge of job work, this phase of the business has grown by leaps and bounds, and the new office arrangement will give more space for this important department. The back end equipment will be added to as needed.

Stereotyping Room
The re-arrangement of the office will include a stereotyping room, shower baths and lockers. Heretofore, the stereotyping room has been separate from the main plant and has caused no little inconvenience. The new plan will have every department of the newspaper under the same roof and will make for better and more efficient service.

The shower baths to be installed will be an innovation in the weekly newspaper field, as very few papers, if any at all, operating on a weekly basis, have included this equipment.

Modern Newspaper Plant
When all the improvements have been completed, the management of the Democrat will be glad to have friends and subscribers call at the office and see what a modern newspaper plant looks like. Those who have never seen (Continued on page 5)

Girl, 17, New Queen of Air

Seventeen-year-old Elinor Smith, who remained aloft 26 hours 23 minutes and 16 seconds, setting a new endurance flight record for women flyers, is planning to go after more air marks. The Freeport, L. I. girl is shown with her mother, Mrs. Thomas Smith, when she landed after beating the 22-hour mark recently set by Mrs. Louise Thaden of California. The girl's face reflects her exhausted condition.

MEMORIAL DAY PROGRAM IS PLANNED

Union Services Will Be Held At Presbyterian Church

Memorial Day, May 30, will be celebrated in Memphis by union church services at the First Presbyterian church next Sunday morning beginning at 11 o'clock. Rev. Arthur W. Jones, pastor of the First Christian church, will preach the sermon. The program is being arranged by the American Legion post here in conjunction with the local American Legion Auxiliary.

Fitting tribute will be paid upon this occasion to the men of all wars in which the United States took part, but more especially will the hallowed memories of the boys who went West in the World War be taken note of.

Program for Sunday
The following program will be rendered Sunday morning: Master of ceremonies, Jim Martindale, Legion post commander; precesional, Mrs. Elmer S. Shelley; song, America, by audience; invocation, Rev. E. T. Miller; scripture reading, Dr. Ernest E. Robinson; chorus, "Lest We Forget;" Roll of Honor, read by H. L. Nelson, post adjutant; vocal solo, "Sleep, Soldier Boy," Mrs. C. L. Sloan, Jr., accompanied by Mrs. Elmer S. Shelley and Paul James. The sermon by Rev. Jones will follow. The audience will then be asked to observe one minute of silent prayer as a tribute to the memory of the departed soldiers. The benediction will be pronounced by Dr. J. Hardin Mallard, and the recessional played by Mrs. Elmer S. Shelley.

Members of the local post of the American Legion will attend the services in a body. It is requested that every ex-service man in this section of the county meet at the Legion hall prior to the start of the services and take part in the exercises of the day.

Decoration of Graves
At three o'clock Sunday afternoon, decoration of the graves at the cemetery will be conducted. All those who will give flowers for this purpose are asked to communicate with some member of the American Legion or the Legion Auxiliary, in order that a profusion of flowers may be secured for this important phase of the day's activities. After the graves have been decorated, taps will be sounded, bringing to a conclusion, Memphis' observance of Memorial Day.

To Have Poppy Sale
Thursday and Friday of this week, members of the American Legion Auxiliary will conduct a poppy sale for the benefit of the disabled ex-service men in the various hospitals maintained by the American Legion and by the United States Veterans' Bureau. The poppies will be sold for whatever a person cares to pay for them. The money secured will be applied in the rehabilitation work undertaken by the government in cooperation with the American Legion. People in Memphis have been generous in past years when a poppy sale was held and it is hoped that even more funds will be obtained this year than has previously been the case. Wear a (Continued on page five)

Liberty Bell "Feels Its Age"

Supports that have held the Liberty Bell in position since that day more than 150 years ago when it sounded the call to independence showed signs recently of weakening and new parts were substituted. Mayor Harry A. Mackey of Philadelphia is shown inspecting the bell.

Program of Improvement and Expansion Undertaken by Citizens State Bank Has Been Brought To Successful Completion

The improvement and expansion program undertaken by the Citizens State Bank of Memphis has been brought to a successful completion, according to officers of the bank. The Citizens State Bank is now one of the best equipped of such institutions in this section of the state and is prepared to accommodate its clientele of many customers in a way that is customary to only the larger financial institutions of the country.

The Citizens State Bank has enlarged its home by adding 70 feet more in depth. This, then, becomes one of the largest ground floor buildings in Memphis, occupying 140x50 feet or 7,000 square feet, with an open court 25x70 feet.

Covered With Linoleum
The floor space throughout is covered with heavy Battleship linoleum cemented over felt. The inside working space of the bank is 50x40 feet with a north lobby of 50x15 feet and an east lobby 20x8 feet and a directors' room, 12x36 feet. The president's and cashier's office is 14x17 feet. A customers' office is also included leading to the Customers' Safety Deposit vault.

In the rear of the building will be found, Dunbar and Watson, Abstractors and Insurance; Lee Rushing, Insurance; J. B. Wright, Public Accountant and Hamilton, Fitzgerald and Grundy, lawyers.

Material Needs Fulfilled
In talking with a representative of The Democrat, one of the bank officers stated: "In this commodious building will be found all the material needs of mankind. Your home may be insured, your life insured, your title perfected, your property rights protected, (Continued on page 5)

Month of May Is Proving A Record Building Period

May is the record building month of the year thus far, according to Wesley J. Mangum, city inspector. Mr. Mangum stated that the month of May has far outdistanced any other month of the year and that chances are good that June will be a better month than May.

The largest building for which a permit was issued this month is a gin now under construction by T. T. Harrison on South Fifth street. This gin is being built at a cost of \$23,000 and will be a five stand gin, with cleaner and all modern equipment.

Shee Iron Barn
J. A. Grundy has been issued a building permit for a \$1,250 sheet iron barn on the corner of Pullen and Noel, to be used for the purpose of storing alfalfa hay. He was also issued a permit for repairing his rent house on West Bradford street, at a cost of \$800.

John Lowry was issued a permit this month for the construction of a house on North Twelfth street, to consist of five rooms and bath at a cost of \$2,250; W. T. Hightower was given a permit for repairs and additions to his house in the amount of \$1,850. Jim Pullen is erecting a house on North Fifteenth street, to consist of four rooms and bath at a cost of \$1,300. Roy L. Guthrie was given a permit to build a five room stucco house in the Whaley addition at a cost of \$3,500. (Continued on page 5)

PLES HARPER HAS OUTSTANDING RECORD AT TEACHERS' COLLEGE

Active Club Members
During the time Harper has been attending the West Texas State Teachers College, he has been an active member of the Cousins Literary Society and the Phidias Art Club. Through the past year, he has held the office of president of the Spanish organization, El Circulo Espanol Men-

Interest In Gin At Parnell Bought

J. E. Hobbs of Wellington and R. L. Hobbs, Jr., of Paducah recently completed a trade whereby they secured the interest of J. E. Price in the Hobbs Bros. & Price gin at Parnell.

Henceforth Mr. Price will not be connected with the gin in any capacity. He has not made his plans known for the future. The new firm name will be Hobbs Bros., but it is yet undecided as to which of the brothers will manage the property. The gin, one of Hall County's best, is undergoing extensive repairs and improvements in anticipation of another bumper cotton crop this season.

AMARILLO PEOPLE HAVE NARROW ESCAPE WHEN AUTO TURNS OVER

While W. H. King and wife of Amarillo were returning to that city after a visit in Estelline Sunday afternoon, they were slightly injured in an automobile accident that occurred as their car attempted to round the curve near the oil mill in this city.

Went Into Ditch
Just before he entered the curve, a car was met, the driver refusing to give a part of the road. To prevent a collision with the car, Mr. King turned his automobile, which was going at a fast rate of speed, to the side of the road, but the curve was too sharp for the car to right itself, and it went into the ditch, turning over twice.

Not Seriously Injured
After the car was put on the highway, it was able to run under its own power. The injured people received medical attention in Memphis before proceeding on their way to Amarillo. Neither Mr. King nor his wife were seriously injured, both being badly shaken up and bruised. The car was not severely damaged, the most serious damage being a crushed in top and a broken windshield. Mr. King stated that he felt fortunate to get off with such slight damage, compared with what might have been the case.

FOOTBALL TEAM STARTS EARLY TRAINING

At Lelia Lake To Be Held During August

Plans regarding the advisability of a training camp for players just prior to the start of the fall football season, and what type of training camp is going to be held frequently. The camp will be taken up, one at a time, and will be answered as best as present information permits.

A training camp, a number of football supporters think that such a camp should be held just before the beginning of the season. They point out that it will give the players an opportunity to get into the game, to test out their strength, and likewise, it will give the coaches a chance to learn the ability of each player and will expect of them.

Lelia Lake Camp
The training camp, it is presumed, will be held at Lelia Lake as a training camp. Here everything is available to such an under-camp. Camp houses abound, a swimming hole exists. There is plenty of water. The camp is just off the main highway, accessible to Lelia Lake. The place seems ideal for a training camp as is contemplated.

Definite Plans
The boys who expect to play for the football team, wrote Coach Walter a letter and in his reply the coach said: "As to the training camp, I will be in August 1, and will then have definite plans as to early training. Practice will begin about the middle of August."

New Request Made
The stadium, the football field do not seem inclined to be present grandstand and addition to it for the cost of the expense would be necessary to repair the old grandstand. The new part of the stadium will necessarily suffer therefrom. A letter has been written to the Fair Association, at the request of the players, asking the Fair Association to give the boys authority to purchase uniforms, similar to the uniforms of the Fair Association, and to put up after the Fair with each year and taken care of at the end of the football season.

Plans Materialize
The Fair Association states that it will be a meeting of the Fair in the near future and will take up this request. Until some definite plan is taken by the Fair Association, the stadium plans will remain at a standstill, awaiting developments. Walter in a recent letter stated: "I hope the plans for the stadium will be materialized, because it will be a boon to football, both to the players' point of view and to the spectators' side of the question."

Equal to Situation
The type of person Coach Walter will prove to be, the situation as he finds it. He is coming to Memphis with a splendid record behind him in athletic studies. That he is conceded to be practically certain. He is the type of player who is able to handle players. He is a game thoroughly and he is relied upon to give the team the best of his season.

Woman's Ever Changing Sphere
BY PHEBE K. WARNER

For thousands of years the term "Woman's Sphere" stood for one thing, and only one. The home. It still stands for that same thing. The home. But that greatest of all words in the human language has changed its meaning. And women have simply and naturally changed their sphere to meet the ever expanding demands of the home.

An ever expanding world has forced upon woman a new form of home. How fortunate for us all that women were created with enough mental, spiritual and social elasticity to meet her new demands. Picture if you can a model mother of the eighteenth century keeping up with the twentieth century John and Mary.

And what would grandmother have done with all her leisure time if she had cooked with gas, washed and ironed with electricity, strained the milk with a separator, bought all the children's clothes and most of their food ready made, visited with the neighbors over the phone, gone to church in an automobile, hatched the chickens in an incubator or shipped them in by mail already hatched, reached out and grabbed any kind of entertainment out of the air and traveled across the continent in an air ship in a few hours instead of a prairie schooner in a few months?

Say what you please folks, we women have just had to change our sphere whether we wanted to or not. And, "believe it or not" there's no one getting any more real comfort and satisfaction out of women's ever changing sphere than the men.

Only a few days ago we read a most interesting editorial in one of Texas' daily papers in which a very large measure of the prosperity of the automobile business was attributed to the influence of women. Not that she had gone into the manufacturing business but that she stood on the side lines and demanded every touch of beauty she could conceive in the production of automobiles.

And isn't that just what our men want in a car and didn't know how to get it because they didn't know a pretty car from just a car when they first began to buy them. And certainly every added touch of comfort and beauty and luxury is just what the manufacturer wants for that means more efficient service to his customers and more cash for him.

But why have women taken so much interest in the make up of the automobile? That's the cute little trick that most of our men folks seem to have overlooked. And it is so simple and natural. Here it is. To hundreds of thousands and millions of our American women the automobile has become their HOME. They live in

Fly High Over Chicago!

Here's a tip to aviators—fly high over Chicago! Pilot Rickard W. Pears is shown pointing to the damage done to his Fairchild cabin monoplane by a load of buckshot and slugs as he was flying over Cicero, gangsters' stronghold and suburb of Chicago. Pears was unable to explain whether the shot was fired at his plane intentionally or was a shot went wild.

it. It is via the automobile that they now have most of their family gatherings. They entertain their friends in it. They spend more time with their husbands and children in the automobile than they ever did in the home. Many families just stayed in their homes when they had to.

They would go home when they were tired of every thing and everybody else and there was no where else to go that day or night. But now Mother fixes up some sandwiches and hard boiled eggs and the whole family pile into the automobile and away they go for a whole day together. Father, Mother and the youngsters. What a treat it is for the children to have a chance to visit with their daddy. And believe it or not again, a lot of men have actually gotten acquainted with their families because of the automobile. True the automobile has been blamed for an awful lot of foolishness. But that is due to the abuse of the automobile and not its use.

I firmly believe one of the greatest services the automobile has rendered to mankind is its power to bring and hold the whole family together, and thereby train them all to enjoy the same fine things. And especially has it trained them to enjoy one another in the same family, a family trait that had become almost obsolete.

And that's why women have taken so much interest in every little detail of comfort, and beauty

in the construction of the automobile. It is her new home. Often it is her new home in reality because in thousands of cases the new home has been set aside in order to have the automobile. The old home plus an automobile brought more family joy than the new home with out the automobile.

It isn't alone the feminine influence in beauty that has made the automobile industry so prosperous. But it is the home instinct in the mother heart, the desire to live closer to, and more with, her family that has sold millions of automobiles.

And Father! Well, father bought the pretty car that mother wanted because he wanted it too. He didn't want the other dads in the country passing him—in their car. And if you can pile all the kids on the back and take them all along to the mountains on the same gallon of gas, why throw them in and let's go.

The whole secret to the unparalleled prosperity of the automobile industry is the fact that some body invented something so useful and so wonderful that the whole family could enjoy it at the same time. It is a new form of home on wheels, and after all, it has brought more new life and joy into this stupid old world than all the lives it has destroyed or sorrows it has produced.

Moral: Treat the automobile right, and it will be a blessing to your home. It has done more to

change the monotonous sphere of women than any other invention of the ages.

Senator Says American Legion Can Be Immigration Aid

NEW YORK, May 30. (Special)—The American Legion with its nation-wide membership of World War veterans is one of the scores of patriotic organizations which can accomplish a great deal towards creating support for the present immigration laws in the opinion of Senator David A. Reed of Pennsylvania, according to the New York Times.

Upon his arrival from Europe, Senator Reed sounded a warning against the possibility of broad lines "reaching the length of Manhattan Island" should the immigration bars be lifted. He asserted that if one-tenth of those seeking admission into this country were admitted, dire conditions would result in a year.

Lift Restrictions
"Lift the present restrictions on immigration and unemployment would be seen throughout the country, adding to the distress already evident in the congested centers," Senator Reed was quoted as saying. "The wisest thing we have done since the war was to pass the national origins law. This law not only fixes 150,000 as the maximum number of aliens who may be admitted annually, but apportions these among several European groups in proportion to their present representation in our population."

Worked Out Scientifically
"This has been worked out scientifically after years of study and research. If more persons understood the law, there would be no talk of its repeal, now or later. And if some of our national legislators understood, as specialists in ladies' and children's hair cutting.

patriotic organizations, led by the American Legion and the Daughters of the American Revolution are back of the law."

Immigration Question
The American Legion has been highly interested in the immigration question for several years. At the last national convention of the Legion, held in San Antonio, last fall, a resolution was adopted asserting that "we favor and recommend continuance of the method of restriction upon immigration in the 1924 immigration law with its fundamental national origins provision, so that American citizenship and economic prosperity may be maintained at the highest possible level."

TURKEY sent a representative to Tulsa to get "Bossy." County Agent H. E. Ellis purchased a pure-blood Jersey cow which was given away at the Trades Day observance on May 25. This is the capital prize in the gift distribution, other prizes being a sow and a trio of chickens.

LOMETA is receiving wool from adjoining counties and approximately 200,000 pounds are in the warehouses now. Two cars have been shipped to Boston to one of the largest wool handling concerns in the world, and five or ten cars will be shipped later.

OCTOBER 24, 25 and 26 has been set for the dates of the eleventh annual convention of the West Texas Chamber of Commerce at El Paso. The Seventy-fifth anniversary of the Gadsden purchase will be celebrated, and the establishment of the Butterfield mail route commemorated. President Gil of Mexico has promised to meet President Hoover there at that time.

Memphis Hotel Barber Shop specializes in ladies' and children's hair cutting.

Make Performance your Yardstick

UTILITY BILL WILL BE MADE AT NEXT SESSION OF LEGISLATURE

Governor Dan Moody Has Announced He Will Again Submit the Topic; Was First Agitated by Dr. Butte

BY GORDON K. SHEARER
United Press Staff Correspondent

AUSTIN, Texas, May 30. (UP)—A fresh effort to pass a public utility bill will be made at the second called session of the legislature, Governor Dan Moody having announced he will again submit the topic. The session is expected to open June 3.

Agitation for a public utility commission began nearly 10 years ago. Dr. George C. Butte, later candidate for governor and solicitor for Porto Rico, drafted the first bill that was considered seriously by the legislature.

It was Butte's work in this connection that brought him into the prominence in the state which led to his being the republican choice for governor. His race established the high mark for republican votes in a state race.

The latest bill was prepared by a group of municipal attorneys. It was side-tracked in the first special session of the legislature.

Point of Contention
At present this utility bill promises to be the chief point of contention in the second special session. Prison legislation may again hold the stage but the Governor is undecided on the bill that passed the last session.

Copies have been furnished the state prison board members. The Governor said he wanted to hear their views upon it before deciding whether to veto or approve it. If he vetoes it, the subject will again be given to the legislature.

Beside appropriation and revenue measures, the Governor has already announced he will ask the legislature to consider corrective measures in the first called session.

Superintendent Elective
The board of education bill leaves the state school superintendent elective in the bill and makes the office appointive in the caption. Similar errors occurred in the caption of the bills to permit nurses in charitable institutions to work more than nine consecutive hours. The Governor also considers the barber bill defective. He said it does not provide sufficient means for its enforcement.

The automobile licensing law and the Confederate pension law also have defects, the Governor said. Usually he would have to make a choice of either taking a bill with defects or vetoing it. This time, however, he is not pushed to that extremity. The time limit in which he may approve or disapprove acts of the first called session of the legislature does not expire until a week after the second called session is to begin.

The Governor can see if the legislature is willing to make changes in the bills before he is required to act.

The "best bill" of the session will become effective as soon as Governor Moody appoints the state auditor—an efficiency expert for whom it provides. Based on percentages of saving effected by similar supervision in federal departments, Governor Moody estimated \$100,000 a year can be saved in operation of the state's business.

It is even better than civil service, the Governor said. The principal difference in effect is that it does not give office holders anchor on their jobs such as in civil service arrangements.

Department heads in Austin defer comment waiting to see how it works. The only criticism they

vouchsafe is that it will take a staff of 25 men to do what the bill specifies.

Like Bank Examinations
Practically, however, it will operate much like bank examinations. The power will be in the uncertainty when an audit is to be made. When such an audit is undertaken, the department auditors are required to cooperate and furnish all their records.

Incidentally the auditor has power to establish a uniform system of accounting for the various departments. He will report to every regular session of the legislature. His report will include:

Expense of operation of each department.
Expense of operation of each institution.
Expense of operation of each bureau.

All breaches of public trust. Recommend changes needed for adequate accounting. Suggest changes for economy, including reduction of clerical forces, efficiency of subordinate employees, and duplication of work by departments and institutions.

Soil Conservation Conference Called

COLLEGE STATION, May 30. (Special)—As a step looking toward formulation of a broad regional program for the conservation and utilization of farming lands of Texas and the Southwest, President T. O. Walton of the A. & M. College of Texas has issued a call for the "Southwest Conference on Soil and Water Conservation" to be held at the Texas institution June 20 and 21 of this year.

All agricultural colleges of the Southwestern States will be invited to participate and to designate for attendance other agencies and interests of the states in which they are located.

The purpose of the conference, as set forth by President Walton, will be to develop discussion and to map out a broad and comprehensive program for greater conservation and greater economic utilization of the farming lands of the Southwest.

Loss in Erosion
Experiments conducted by the A. & M. College through its Experiment Station at Spur, in West

Dawes Poses for Cameramen

Just before departing for England to become ambassador to the Court of St. James, former Vice President Charles G. Dawes went to Washington to see Secretary Stimson. The cameramen found him on the steps of the State Department building, where "Charlie" posed willingly, pipe and all.

Texas, have shown an actual loss in soil erosion of as much as forty-two tons an acre in one year on land with a 2 per cent slope and preventable water runoff losses averaging 25 per cent of the total rainfall.

Terracing as a means of conserving both soil and moisture is growing rapidly in Texas, it was pointed out, more than 2,800,000 acres of cultivated land in this state being terraced now. This matter as it relates to Texas and other states, will come in for discussion at the coming conference.

Call for the regional conference was issued following institutional conference here participated in by representatives of various divisions of the college, including the Extension Service,

Experiment Station, Forest Service, School of Agriculture and other divisions.

Dr. and Mrs. M. McNeely and daughter Nell left Friday for a short visit with Mrs. G. R. Sensabaugh, at Cleburne, Miss Carolyn at S. M. U. at Dallas, and son, Holmes at Texas University. They will also go to the Rio Grande Valley to look after property interest there.

Mrs. E. W. Evans and son James of Lakeview spent Monday visiting her daughter, Mrs. J. D. Sheffield.

Mr. and Mrs. Ed Duncan of Clarendon were visitors in Memphis Sunday.

The pastor and members of the First Baptist church will dispense with their regular 11 o'clock service Sunday and join with the other pastors and churches in the Memorial service which will be held at the First Presbyterian church. This Memorial service, deserves the presence of every patriotic and liberty loving citizen in Memphis.

The regular 8 o'clock service will be held at the church Sunday evening, the pastor doing the preaching. The pastor will be away the following two weeks in a revival meeting with the First Baptist church of Hamlin, Texas. Announcements will be made in due time with reference to a supply during the pastor's absence.
E. T. MILLER.

C. W. Flannery is in the hospital recuperating from an operation performed last Thursday, he is reported as recovering nicely.

Mrs. O. L. Jamison, and daughter Evonne of Knox City, are in Memphis visiting Mrs. Jamison's mother, Mrs. S. A. Bryant.

Mr. and Mrs. O. V. Alexander left Monday for Dallas where they will attend the Rotary International convention this week.

Mr. and Mrs. Hersal Whaley of Shamrock were visitors in Memphis last Sunday.

Mr. and Mrs. Aubrey Wilson announce the arrival of a fine baby girl.

Mrs. Howard Randall spent Thursday in Childress.

Aid For Schools Is Discussion

S. M. N. MARRS
 In 1929, Hon. Charles H. W. Johnson introduced H. R. 10000, which would appropriate \$100,000,000 from the federal treasury to aid in the reduction of farm lands, and to provide elementary education in the rural sections of the United States. The purpose of this legislation is to provide for the education of the rural population of the United States as determined by the census of 1930. An act of the census of 1920 showed that the rural population of Texas was seven and one-half per cent of the total population of the United States. It is proposed to aid all rural schools in the state with a population of fewer than 500. It is probable that the state will be slightly below 100,000,000 annually and would receive such part as would be matched appropriation. The Federal government would be given the right to use the state available funds for the usual appropriation. The state would not be required to make additional appropriation to receive the amount of \$7,000,000. It seems that if the rural population of Texas can receive this aid from the federal government without additional appropriation it would be good business for the legislature to accept the provisions of the bill if it becomes a law.

Century Lies Between Them

There are 100 years between the ages of George Skinders and Tony Ringalia, but what are a few years between good friends? George, who is 105, is showing Tony how they used to dance along about 1830. The old man makes his home in Philadelphia and has a son on the New York police force.

The provisions of the bill if it becomes a law. The state has matched funds to construct highways; it has accepted the Smith-Lever act, the Shepard-Towner act, the Smith-Hughes act and recently the act providing for citizen vocational rehabilitation.

Tri-State Rodeo Prizes Are Large
 O. L. Taylor of Amarillo, of the Tri-State Fair association, was in the city this week with advertising matter for the big old-time rodeo to be staged at the Texas ball park in Amarillo July 3, 4 and 5, under the auspices of the Fair association. According to Mr. Taylor, the rodeo is easily the greatest single pre-fair attraction of the season and maximum crowds are expected at every performance, afternoon and night, during the three days, especially on the Fourth of July.

\$7,500 In Prizes
 More than \$7,500 in cash prizes is going to be awarded to winners of the contests held in connection with the rodeo. These contests, which include bull-dogging, roping and all regular rodeo features, are open to every cowboy in the Panhandle, Oklahoma and New Mexico, Mr. Taylor said, and he announced that anyone from this city interested in taking part should write at once either to Wilbur C. Hawk, Amarillo, or to Clyde Miller, the rodeo manager, at Holly, Colorado. Several from here are planning to go to Amarillo for the rodeo it is understood.

Program Of—

(Continued from page 1)

deposit boxes are available for your business financed and safety your valuables. The public is invited to go through this newly appointed building and inspect its various departments. Everywhere, you will meet courteous, polite treatment, and the most efficient service."

Has High Ranking
 The Citizens State Bank is one of the old reliable banking institutions of the Panhandle. It has a capital and surplus of \$100,000, and its present high ranking is due, in large measure, to the men who make up its officers and directorate. The officers of the bank are, W. B. Quigley, president; R. L. Madden, cashier; A. Baldwin, vice-president and V. B. Rogers, assistant cashier.

Added Space—

(Continued on page 5)

a paper published and care to see how it is done are requested to

call on some press day, which is every Thursday, and watch the press in operation. The paper generally goes to press at about 2:30 o'clock each Thursday afternoon.

Complaints Being—

(Continued from page 1)

the Pacific Coast to spend the hot months, it would seem that the city government should provide properly for them. Markers could be put up with a very little expense designating the proper streets to be taken in order to get on the highways.

One merchant told The Democrat that a local concern offered to make markers some time ago and place them in convenient points in the city to aid motorists, but that no action was taken on the matter.

Month Of May—

(Continued from page 1)

Courthouse Contract
 The contract has been let for the repairs and changes to the Hall

County courthouse in the sum of \$6,500. The contract was awarded to W. E. Hill on Monday. The Hall County National Bank has taken out a permit for the remodeling of that structure at a cost of \$1,500, and remodeling The Democrat building will cost \$2,500.

The building program for the month of May thus far, and the month has still several days to go as this story is being written, amounts to the total of \$43,650.

Memorial Day—

(Continued from page 1)

red, red poppy, symbolic of the sacrifice made by the boys in khaki who paid such a dear price for victory. A number of workers will be on the streets of the city, and convenient tables will be arranged about the public square where the poppies may be purchased.

Made By Ex-Soldiers
 The poppies are made by disabled ex-soldiers in hospitals. These boys take a great deal of pains in turning out the paper flowers for they realize the importance of their sale in rehabilitating

"Buddies," in order that they may take up their pre-war vocations.

The American Legion urges that all patriotic citizens take cognizance of the observance of Memorial Day, by attending divine worship Sunday morning at the First Presbyterian church, by attending the decoration of the graves Sunday afternoon and by buying poppies from the women of the Auxiliary Thursday and Friday of this week.

Members of Local—

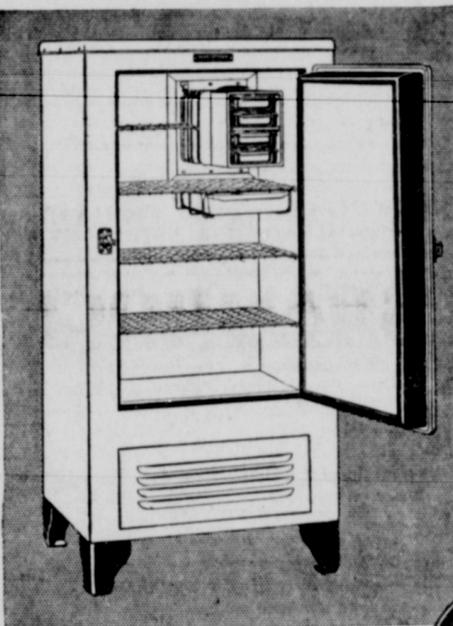

(Continued from page 1)

other Rotarians are expected to make a complete report of the convention at the meeting of the club here next Tuesday noon.

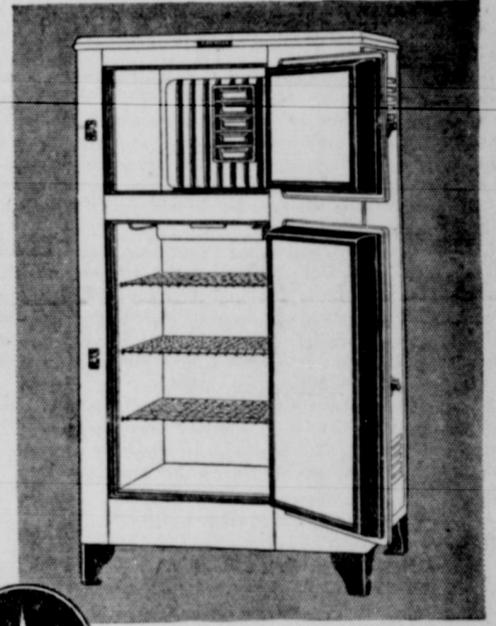

Showing Steady Gains
 The Rotary club is showing steady gains in membership and it is now being planned to have a full club roster of members printed and distributed, giving the classification of each member, in order to further the interests of the club by making the personnel of the club better known, the one with the other.

FREEZE WITH HEAT  The ELECTROLUX Refrigerator

ELECTROLUX Absolutely Noiseless

The Kitchenette model is ideal for the small family. Food capacity—4 cubic feet. 36 large ice cubes.

The Chef model is for the large family or those who entertain a lot. Food capacity—7 cubic feet. 50 large ice cubes.

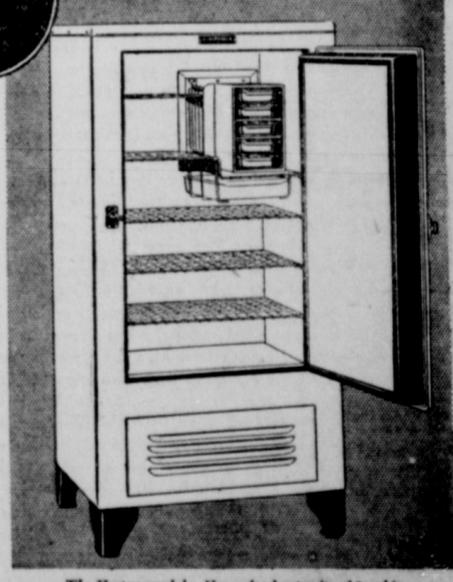

New Gas Refrigerator has no machinery to wear out or run up repair bills and no moving parts to make the slightest sound

IMAGINE it! Automatic refrigeration with no moving parts . . . no irritating whirr of machinery . . . no bulky apparatus either on top or underneath the cabinet. Think what this means. Perfect refrigeration . . . food fresh in the warmest weather. A generous supply of large ice cubes when you need them. And absolutely not a sound, no vibration—you can balance a coin on the top of the Electrolux. A tiny gas flame and a mere trickle of water do all the work of making cold.

A small deposit will put an Electrolux in your home. The balance in convenient easy payments. And, an important item, the Gas Refrigerator costs less to operate than any other refrigeration system.

Drop into our display rooms and let us show you our many different models. There is one for the smallest apartment or for the largest mansion. Come in today.

ELECTROLUX THE GAS REFRIGERATOR
 MADE BY SERVEL

The Hostess model. Has a food capacity of 5 cubic feet and makes 45 large ice cubes between meals.

THE DEMOCRAT'S PROGRAM FOR 1929.

- (Check Mark Indicates Project Has Been Realized)
1. A municipal auditorium.
 2. More dairy cows for Hall County.
 - X 3. Modern creamery plant.
 4. Paved highway across Hall County.
 - X 5. An adequate public library.
 6. More paved streets.
 7. Better police and fire protection in business and residential districts.

WASHINGTON IN THE SPRING

EVERYBODY is talking optimistically about the great Federal building program, costing several hundred million dollars, which has been projected by Congress. When it is completed that part of Washington from the White House to the Capitol will be the most beautiful vista that any city in the world possesses.

But even without this Washington is very beautiful. The time to see the city in its full glory is the Spring, when the trees have put forth their umbrageous covering, when a thousand shades of green greet the eye, and with boughs interlacing as they spread from one side of the street to the other, one can ride through a canopy of nature's own fabrication that far surpasses anything that man can make.

This is so exquisite; so purely the handiwork of the Creator, that the ministers of Washington do not fail to thank Him in their prayers on the Sabbath morning for His goodness in giving it to man.

Not the trees nor the circles with their parterres of roses and posies, charming though they are, constitute the chief beauty of Washington. More and more the monuments are taking on the aspect of the things that are a joy forever. Many of the older monuments are tributes to the man on horseback, the riding men of the land and sea, the Jacksons, the Grants and the Farraguts. They tell their heroic tale, and the passerby reads it as he runs.

It is the newer monuments, the Peace Monument on Pennsylvania Avenue, the DuPont Fountain, the Hahnemann monument, and a small number of others, the creations of sculptors, that arrest your steps and cause you to linger in their presence and drink in their beauty. Who cares what Socrates with his ugly face and bulging eyes looked like? But who does not care for the Venus de Milo or the Parthenon?

Washington will have a group of buildings that will bring back the glory of Grecian architecture when the great program is completed. She is slowly accumulating a group of sculpture that will enhance the glory of her architecture.

WOMAN WINS NEW HONOR

DR. Louise Stanley, Chief of the Bureau of Home Economics in Washington since 1903, is the first woman to enter into the technical direction of national industrial standardization activities. Dr. Stanley was recently appointed official representative of the Department of Agriculture on the American Standards Association.

Housewives all over the country who have for years been receiving the attractive little pamphlets with sound advice on the all-important matter of nutrition will immediately recognize the name of Dr. Louise Stanley. She is known in other countries as well as in the United States for her scientific investigations in this field. During the past year, she has taken an especially important part in planning the standardization of household refrigerators and sheeting under the direction of the American Standards Association. The Standards Council of this association to which Dr. Stanley has been appointed, includes 60 scientists and engineers representing the 37 member-bodies of the Association.

WHEN GREEK MEETS GREEK

ALICE Roosevelt Longworth has a policy of "never giving interviews" no matter how much spicy gossip and conjecture she may stir up in blase Washington by her refusal to yield to rules of precedence. Nevertheless, Mrs. Longworth furnished news that amounted to a statement when she appeared recently with Mrs. Gann in the Senate.

The incident recalls a story from an erstwhile reporter of days of Roosevelt's presidency, whose ambition to obtain an interview with "Princess Alice" sharpened his ingenuity. He persuaded a friend of the Roosevelt family to present him as the son of a well-known Senator and spent an entertaining afternoon extracting material for an excellent news story. His little farce broke down however, when Alice innocently commented on his flair for newspaper work, and he confessed his identity shamefacedly, much to his subject's surprise and amusement. The evening was a complete failure, however, so far as its purpose was concerned, for the reporter, (now a Congressman) never had the heart to publish the interview!

MACHADO IS RE-ELECTED

A President for whom the constitution of his country was amended to insure his re-election will take his second oath of office on May 20. He is General Gerardo Machado, President of the Republic of Cuba for four years, whose inauguration is bringing to Havana Embassies and special missions from

the twenty American Republics who regard with deep interest and sympathy the welfare and progress of one of their number.

The Cuban constitution is clear in limiting the term of Presidency to four years, but the Cuban Congress is determined that President Machado's regime shall not expire. Rather than change presidents they changed the constitution to permit reelection. The faith of his congress in his statesmanship may well be needed by General Machado, for the political and economic standing of Cuba is evidently in a peculiar position at present. Threatened by the high tariff politicians in the United States with an almost complete breaking off of the amiable relations that this step-child once had with our country, a break that would spell poverty and real ruin for thousands of Cuban citizens, the Republic is in need of a wise guiding hand and a leader that can rely on the backing of his electorate.

KLEIN EMULATES FRANKLIN

TO put Ben Franklin's homely wisdom concerning thrift into national practice is evidently the appropriate purpose of Dr. Julius Klein, Assistant Secretary of Commerce. Dr. Klein views the present waste of eight to ten million dollars in the conduct of American business as an urgent challenge to the efficiency that is so often spoken of in connection with the present administration.

The stupendous failures of retail grocers, which averaged in a single Western city thirty a month, could have been largely prevented by keeping a watchful eye on wasteful practices, Dr. Klein states. Distribution losses, at the bottom of many of such failures, are now a major concern of the Department of Commerce, which is attempting to curtail such losses by trade surveys.

Another custom which causes waste is that of returning goods that are purchased and not desired. Dr. Klein admits the supreme right of woman to change her mind especially where the family budget is concerned, but he also feels the need of relieving this costly practice.

Unwise credit methods, unfair grading practices of small trading minorities, disorderly marketing, extravagant delivery services, ill-judged advertising, and careless procedure in the retail trade were some of the other wasteful practices cited by Dr. Klein.

UNHAPPY PLIGHT OF FREE TRADE

THE sad case of a child disowned by his parents seems likely to be duplicated by the present plight of Free Trade in this country. There was a time—not so long ago either—when the word "democrat" in itself stood for sturdy resistance to the constant onslaught of the tariff hogs who won their favors by pitiful appeals to Congress against that destructive monster, "foreign competition." Against them was arrayed the steadily unbroken front of the democratic party. It remained steady and unbroken for some scores of years. Then, suddenly something happened. Free Trade woke up one morning to look at the familiar face of his parent and discovered a certain coldness thereupon. Worse, he could not be quite sure that the parent-and-son status was to continue.

Circumstances leading up to the strained relationship are somewhat obscure, but in general they follow this line of logic: the electorate must be pleased; industry, the Republicans say, has prospered enormously under the G. O. P. regime; the G. O. P. is a protectionist party. Democrats began to weaken in view of this rather generally accepted idea, and a gesture in deference to protection was made during the last campaign. Now, we find Speaker Longworth welcoming all Democrats into the fold of the high-tariff system. Mr. Garner takes opportunity to broadcast by radio the news that his party is not a low tariff one. Senator Ransdell congratulates his colleagues on at last "seeing the error of their ways." But to make a puzzling situation worse, the Democratic party has by no means gone the whole hog. There are still an influential number of them who can be trusted to fight local-minded politics and disregard for internationalism, and they have not lacked courage to vociferate their own opinions. Between these two attitudes of cold rejection and ardent welcome the bewildered Free Trade is caught. Is it any wonder that he is puzzled over parcentage?

Panhandle Press Paragraphs

William Russell Clark, editor of The Memphis Democrat, has written a song entitled, "The Spirit of Old Memphis High," and it has been unanimously adopted by the school. Recently, Gene Howe, editor of the Amarillo Globe, criticized grand opera performances in that city, telling all the music clubs of his city he knew more about music than all of them combined, which amply qualified him to criticize Mary Garden. Now, a few miles below Amarillo, out steps an editor who has written a song for his town's high school, and it has been received with open arms by the student and faculty bodies. No editor can live long surrounded by the wonderful environments West Texas possesses without being a sweet musically inclined member of the fraternity.—Graham Leader.

An editor of a newspaper gets more kicks, and knocks, and is no doubt cussed more than any individual in a town or city, but you can't find anyone that is stronger for the upbuilding of the town than he is. His columns are always open for home boasts, and as a rule, cities are built on suggestions made through his columns whether he receives any of the credit or not.—Motley County News.

The governor and his Legislature are having a great time. We, the tax payers are having to foot the bills. So Dan, please send the boys home and stop the expense.—Vernon Times.

Another reason why radios will never take the place of newspapers in the advertising field, is the newspapers give a picture of the hat, dress, shoes, suit, etc., while the radios cannot do so. The picture and the price is what appeals to most women. They want to see what the goods look like.—Claude News.

Build the airport and let's quit monkeying around about it. Just as well start early and be listed as a charter member of the throng of landing stations. Turkey might become a great airship division point if we don't "go to sleep on the job" of establishing a distinctive station. Why not make it the largest airport station in the world? We have plenty of space and can make it cover an area that will put Turkey on the map. Think about it for a few moments and then measure off the ground, herald it to the world and become famous over night.—Turkey Enterprise.

Memphis, county site of Hall county, is by strenuous effort keeping pace with Turkey in fire-fighting equipment.

After much maneuvering, extending over a period of months, the "city dads" of our neighboring city last week reached an agreement to place an order for an adequate fire truck to meet the needs in fire protection.

The Great American Home

able in that, but just to warn the editor now about the water. Don't drink it if you are in a habit of sitting down to meditate in leisure.—Graham Leader.

It will be remembered that Turkey recently gained a lower rate of 8 cents less than the premium paid by insurance policy holders prior to the installation of the bountiful water supply now available here.—Turkey Enterprise.

Perhaps it is not illogical to add that dodging of jury service is the poorest way to show an interest in good government. And there are thousands of "good citizens" who pretend to be alarmed about miscarriages of justice but who, at every opportunity, plead excuses to escape jury duty.—Pampa Daily News.

Seth Holman of the Hereford Brand has sold that good paper to the Nunn-Warren interests of Amarillo, and is going to retire. May he long enjoy his well-earned rest.—Quanah Tribune-Chief.

Vernon property owners have petitioned the I. C. C. not to let the Frisco extension build through West Vernon. After such reception the Frisco may decide not to build out of Vernon at all.—Quanah Tribune-Chief.

There is a new editor on the Mineral Wells Index. Sam Miller, who has been its editor for many years, has resigned. The new editor is R. C. Campbell. In an editorial he stated while waiting to enter the dining room of the Crazy Hotel for lunch, he sat himself down in one of the leather bottomed chairs and engaged in conversation. Nothing remark-

able in that, but just to warn the editor now about the water. Don't drink it if you are in a habit of sitting down to meditate in leisure.—Graham Leader.

The spontaneous words of appreciation and love that are spoken when no special occasion prompts them are much more effective and gracious than those which are conveniently uttered on Mother's Day.—Scurry County Times-Signal.

It is difficult to get money subscribed to charity, but you can always get resolutions passed expressing sympathy.—Olney Enterprise.

We have, in the United States, a state highway system that is unexcelled. From now on, the most important job is to pave tens of thousands of miles of secondary, or market roads. Oil and asphaltic materials which can be applied economically will do away with mud and dust. This is essential to open up back country, relieve congestion on main highways and encourage the building up of small towns instead of draining all of the business away from them to larger centers located on improved roads.—Shamrock Texan.

Let's Chat Awhile

By Dorothy B. Robbins

We have noise, noise, noise everywhere now, the silence of many a forest is broken by the

honk of cars startlingly; often enough tremors of nervousness sturdy oaks.

I hope that stretch in a certain part of 1926, because I would back there sometime.

I went over the famous new automobile plow mules pulling a quiet field while several stumps in the field. Nobody had the wild flowers and I painted brushes to my tent. At one place, quilts were on the old-fashioned tulip meadow. I wanted that I didn't possess never stop and ask a perfect for it.

Speaking of quilts, wonder how many of this chat (if the "Wedding Ring" who visited us a half finished quilt sign. The work it got the pattern while I visited and intends to be held product to her to be quilted.

As one would in "Wedding Ring" is a circles and when finished more as an ornament than for cover, as a flanked on four sided narrow strips represent and cut from different flowered prints.

As the stores are a tier goods every year (Continued on

MAC

Meeting of Rotary Clubs Will Elect New Officers

May 30.—Election of officers and decision made the Rotary convention today one of the week. In between topics were short addresses related to the operation of a Rotary club, the responsibility of a business or professional man in his own business and the Rotary problem is viewed as a business man of Europe. The subject of an address by Steinmann, head of a steam shippers in Antwerp, entitled "The Tradition in Business." In his address there, he said, "I am governed by practices which have become traditional in my business, sometimes centuries old and these are not to be changed in a day. Under the growth of business standards in other countries, he said, the business man of Europe is being forced to compete with the international and trade of the learned professions

Code of Ethics
Factors entering into a code of ethics for a craft association issued by Arthur Chadwick, president of the International Association for the Preservation of the Arts and Crafts in London and Ireland. These rules are the modern extension of the rules established by the guilds. In the United States, the rules have been in many varied in recent years to over-protect the business of the "damned."

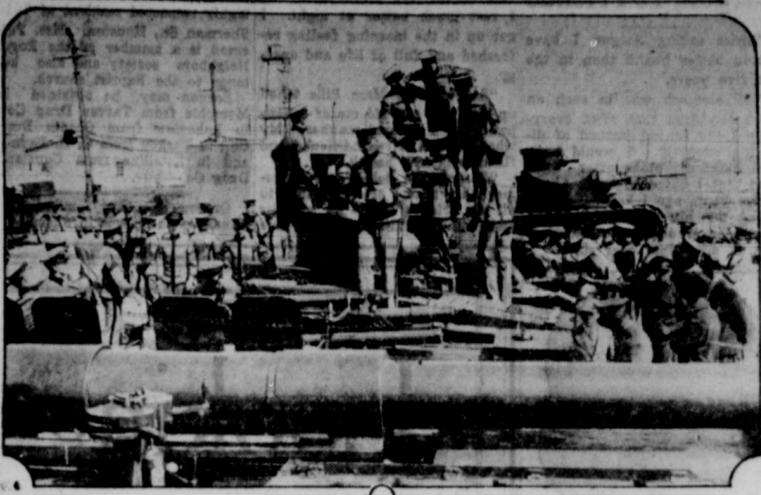

Private Peat Talks
Private Peat, a British World War I winner of the Victoria Cross, is to give a talk on the lessons of the war and the blessings of peace. He has seen and suffered all that war and waste of life and the debate upon the resolutions committed to the most formal discussion of the war. One of particular interest to those thousands of Rotarians who are conventioned to establish a custom of recent years, every third or fourth year, outside of the city of Edinburgh, Scotland, to Canada, and originally from the United States. Next year's convention will be held in Chicago, as it was in 1905, by Paul Harris and his friends. It is the foundation of this year's international board of directors that on four sides of the convention be held and one convention resolution would make that decision.

Unworthy Motive
Academics have proposed a resolution which would use the use in Rotary of the word "He profits most who serves best." on the ground that it subjects an unworthy motive to the convention.

Worried
Night after Night health declined
I suffered from nervousness, headache, and I could not sleep well. I was thin and pale. I was weak and could not walk. I tried several medicines but nothing seemed to help me. Night after night I worried because I was going to look after my child and I was afraid of what would happen to me if anything happened to me. I began to take Cardui and I was not long until I was able to pick up. My strength gradually began to return. I rested better at night and was less nervous. I took several bottles of Cardui, and when I had finished taking it I was in good health.

West Point Cadets Study the Big Guns

Cadets from the United States Military Academy at West Point have been getting some first hand artillery information at the government proving grounds at Aberdeen, Md. A group is shown looking over big guns and tanks.

ive into service which should be without thought of reward either moral or material. There are those who hold that Rotarians are primarily business men, interested in an ethical profit for the success of their business or profession. An interesting debate between the advocates of the business man's point of view, and those who feel that part of the motto does not truly express the thought of Rotary service, entertained the convention visitors. The phrase was the climax of a speech at the Portland, Oregon, convention nearly twenty years ago, by Arthur Frederick Sheldon of Chicago, one of the pioneer leaders of Rotary. It was adopted as a companion expression to "Service Above Self" though the proponents of the resolution, the Rotarians of Great Britain and Ireland, declared the two sentiments are not in harmony.

Another resolution would recommend to Rotary clubs all over the world the study and expression of the international service phase of Rotary's program. One section of this resolution suggests a constructive survey of the world to learn the characteristics of nations and races, the points of friction and the forces making for goodwill. These discussions of international questions fittingly introduced the discussion assemblies occupying Thursday afternoon, where ways and means of cultivating international friendship and good will were debated. Two of these twelve assemblies were guided by chairmen from other countries. Ernesto J. Aguilar, Mexico City manufacturer, and Stanley

Leverson, London, England, business man.

Gala Carnival
The gala carnival at the Fair Park amusement section tonight will give the Rotary visitors an evening of fun for the last night of their convention, which closes tomorrow afternoon. Many of the Rotarians from other countries brought along their native fiesta costumes, and these, with the addition of strolling minstrels, special carnival acts, and brilliant displays of fireworks made an unusually picturesque scene.

The result of today's ballot on international officers will be announced tomorrow morning in between the addresses on international service and "What Rotary

means to Rotary Clubs and Rotarians Around the World," by the delegates from distant countries.

WEST TEXAS TODAY, which will be in the mails this week contains detailed accounts of two recent district conventions of the West Texas Chamber of Commerce, these being the South Plains meet at Tahoka and the Greenbelt Lower Panhandle meet at Seymour.

QUITAQUE has delivered the first order for material from the new sand and gravel pit on the Linguish River in the northeast portion of Floyd County. The shipment was made to the Fulton Lumber Company of Plainview.

Loadings were made to the newly completed spur of the Fort Worth & Denver.

will stand any amount of washing, this part of the quilt will be a joyous selection for us. Four times thirteen equals fifty-two. There are thirty of the circles, I believe, now multiply fifty-two fingers by thirty and you have one thousand five hundred and sixty fingers—some cutting! At the corner of each circle (if they have corners) is a square in two colors. Then there is a large white center and a smaller white

piece between the ring and the fingers. We have one neighbor whose enjoyment we are already anticipating concerning the quilt. She works so fast that she will probably have hers finished while we are still plodding through ours. During winter, we see her seldom, but in summer, when we are all on our porches, she comes over often and her plaint is always: "I declare I haven't got a thing to do. I've pieced up everything, made all the old clothes into rugs and I've sent my daughters word

to run up something to keep me to do. I just can't be idle." The finger part of the quilt can be greatly simplified by taking it to the machine for stitching—yes, I forgot another attractive detail in circles and the size, six long and five wide is regulation bed-spread length and width. This would be a beautiful thing for exhibition at a county fair. I know my neighbor will have hers finished and on exhibition although she doesn't know yet that we have such a pattern.

THE FULL-SIZE TWO-DOOR SEDAN, 1935

PLYMOUTH
Looks Quality—Acts Quality
— Is Quality

There are people to whom Plymouth's big attraction is its Chrysler-designed smartness.

Some people buy the full-size Plymouth largely because it is the largest and roomiest car to be had at anywhere near its price.

To other people, the main reason for buying Plymouth is Plymouth's impressive

power—its amazing pick-up, its unflagging stamina, its delightful smoothness and flexibility at all speeds.

Still other people choose Plymouth primarily because it is so safe to drive, with its perfect balance and stability, and the easy, positive control of its Chrysler weatherproof internal-expanding 4-wheel hydraulic brakes.

\$655 and upwards
at dealers

Six body styles, priced from \$655 to \$695. All prices f. o. b. factory. Plymouth dealers extend the convenience of time payments.

CHRYSLER MOTORS PRODUCT

The new Dodge Brothers Six is an extraordinary motor car because it embodies a whole bookful of features that are extraordinary for a car of anything like this price.

Its Mono-piece Body has no joints or seams to squeak or rattle—possesses that unflinching rigidity and sturdiness which is exclusive to single-piece construction.

The Dodge Brothers hydraulic 4-wheel internal-expanding brakes, the oversize 50 tires, the 52-pound 7-bearing dynamically and statically bal-

anced crankshaft, the extra-deep 8-inch frame are conspicuous among the things that cannot be matched by any other cars neighboring on the new Dodge Brothers Six price.

Come into our salesroom and see the new Dodge Brothers Six; try it on the road. If you inspect and drive one of these remarkable cars, we have all the confidence in the world that you will never be content until you have one for your own.

"Fishermen" in Galveston Bay Take Rich Haul of 5000 Bottles of Rum

Uncle Sam has turned fisherman—fishing for rum. And he is catching it—and how! By the hook loads it is being brought up from about four feet of water in Galveston Bay, between Galveston and the mainland. By truck loads it is being hauled to a storage vault on the island.

"Wet" Fishermen

It all started a few nights ago when a coast guard boat spied a suspicious looking barge anchored about 1000 feet from the causeway which connects the island with the mainland. Investigation disclosed about 200 sacks, each containing six or 12 bottles of foreign made whiskies, champagne, cognac and other liquors. Using grappling hooks and by diving, two men found with the barge admitted they had "fished" the dripping, mud-covered sacks from the bay.

Customs officers and coast guard officers got their heads together then and began a little fishing expedition of their own. Almost daily since then a little coast guard boat has put out from the docks, returning at night loaded with liquor.

Get 5000 Bottles

About 5000 bottles already have been taken from the subterranean cache—and the end is not in sight. Federal officers believe a rum boat was attempting to dash to the mainland, that it reached this point, which is much shallower than the surrounding water, be-

Above, sacked liquor, fished from the bottom of Galveston Bay, is shown being unloaded at Galveston. At the right, coast guards in a skiff are being towed by a cutter as they dive for the liquor.

came stuck and was forced to dump a big part of its cargo overboard in order to get loose. Day and night watch has been kept on the area where the liquor was found—for there are many fishermen along Galveston Bay.

Preaches Good of Sargon, To Friends

"Since taking Sargon I have felt in better health than in the last five years.

"My stomach was in such an upset condition that most everything I ate soured instead of digesting properly. I would have such bloating pains after each meal that I hated to eat. About twelve years ago I had a fall, injuring my hip and knee, and I have been troubled with rheumatism in my joints ever since.

MRS. LULA E. PETERSON

"An inactive liver caused me to be constipated and I was continually taking laxatives. I had many a restless night from all this suffering and would be as tired in the mornings as though I had never gone to bed. Nothing I took helped me.

"Sargon made me feel like a different woman. My appetite has come back and I enjoy my

meals. My stomach is soothed and my digestion improved so I don't suffer bad effects after eating. The rheumatism disappeared and I rest much better at night. I get up in the morning feeling refreshed and full of life and energy.

"Sargon Soft Mass Pills toned up my liver and rid me of constipation in a natural manner. My whole system is reconditioned and filled with new health.

"Sargon has helped me so remarkably that I am preaching to all my friends about its benefits and will continue to praise this

wonderful medicine every chance I get."

The above statement was made recently by Mrs. Lula E. Peterson, highly respected resident of 7814 Sherman St., Houston. Mrs. Peterson is a member of the Royal Neighbors society and also belongs to the Baptist church.

Sargon may be obtained in Memphis from Tarver Drug Co.; in Lakeview from Gosdin Drug Co.; in Turkey from C. H. Payne; and in Estelline from Copeland Drug Co.—Adv.

We invite your suggestions as to any manner in which our service may be improved. And we want you to call on us when we may be of assistance.

CITIZENS STATE BANK

Onions Supercede Laredo Airplanes

LAREDO, May 30. (UP)—Onions will soon supercede the airplane here.

Where the whirr of airplanes was heard before the airmail service was transferred from Laredo to Brownsville, the site of 368 acres of land three miles from here will be used in 1930 for the growing of Bermuda onions and other vegetables by Harry Kauffman, manager of the Laredo Plantations, Inc.

The city council at its current regular meeting passed an ordinance authorizing Mayor Albert Martin to lease the airport site to Kauffman with the additional privilege of allowing other city property to be leased to him if the land is found susceptible to irrigation.

Airport Site Leased

The leasing of the airport site for onion growing definitely settled for an eastern concern its idea of abandoning proposed improvements for an airport of extensive size. At the time the international air-mail service was established October 1, 1928, the city council took action on establishing an airport at Laredo second to none in the state. Plans were well advanced, including extensive building program, when the airmail service was shifted to Brownsville in April.

So Laredo has turned from hopes of being the air capital of the southwest to the more prosaic art of raising onions.

Gives Right of Way

In consideration of the airport site lease given him, Kauffman agreed to give the city a 60-foot right of way through the extensive Laredo Plantations which adjoins the airport on the south. This roadway, two miles in length, will make much needed connections with other highways.

Kauffman also agreed that upon notification of the city's cancelling the lease he would plow and harrow the entire airport site and turn it back to the city in the finest condition possible. He agreed, as a third provision, to clear the site of any brush or other uneven surface should the city later decide to re-consider plans for an airport site.

Local and Personal

The school term at Smith school, will close with a play Friday night, at 8 o'clock. Everybody welcome.

Mrs. O. Scinson and Mrs. C. C. Crozier returned Friday from Arkansas where they have been for a ten-days visit.

Mrs. R. A. Hay has been visiting with her mother, Mrs. Burgess, at Shamrock this last week.

Lewis Gober and daughters of Canyon visited in Memphis with Mr. and Mrs. L. C. Gober.

Mrs. R. E. Logan, Mrs. Clarence Gausdin and Mrs. T. M. Isham of Lakeview visited in Memphis Sunday.

Mozan Dennis visited friends at Plaska and Indian Creek Sunday.

Mr. and Mrs. A. Baldwin and son Russell, went to Vernon last week end.

Alvin Baldwin returned last Sunday from Dallas, where he has been attending the Baylor Medical College.

Mrs. J. R. Carter and daughter Annie Laura, and son George, went to Gunter for the week end.

Mr. and Mrs. Ed Leary of Estelline were visitors in Memphis last Friday.

J. W. Longshore, formerly of Memphis, but more recently in the grocery business in Childress, was in town last Monday, and states that he has sold his grocery store.

Mrs. Claud Johnson is visiting her mother in Stephenville.

Mrs. Thomas Copeland of Estelline was here Saturday.

Miss Ruby Adams visited Miss Harvey Thompson, the county home demonstration agent, at Clarendon, over last week end.

Mrs. Roy Coleman went to Childress last Thursday.

Mr. and Mrs. A. Womack spent Sunday with relatives in Amarillo.

Spud Miller is visiting friends in Abilene this week.

Mr. and Mrs. Clifton Senn, of Fredrick, Oklahoma, spent Sunday in the home of Mr. and Mrs. J. A. Womack.

M. M. Pounds, R. B. McMurry and party returned from an auto trip to the lower Rio Grande Valley last Saturday.
