Organize Association Of Instructors for Coming Year

Sixty-seven school teachers from over Hall County were present at the Baptist Annex here yesterday morning at 10 o'clock when the first meeting this year was held of the Hall County Teacher's Association.

T. O. Neely, retiring president of the organization, conducted the opening exercises. After the registration of teachers, the general assembly sang a song. The invocation was given by W. C. Davis, superintendent of the Memphis schools. A reading, "My Married Friends," was given by Miss Fitzgerald. John Deaver, district attorney, gave the main talk of the meeting, speaking on "The Responsibility of the Teaching Profession."

Two whistling solos, "Who's Gossiping?" and "The Mocking Bird," were rendered by Amilda Thomas and accompanied by Mrs. Marion McNeely. A reading, "Charlotte's Mistake," was given by Darlein Reed.

The report of the nominating committee was given. The committee was composed of Herbert Gipson, chairman; Jack Jarrell, Miss Edna Brown, Mrs. Henry Foster and Miss Eula Saye. Election of officers followed, and J. W. D. Chappell of Brice was elected president of the general assembly. Miss Georgene Sexauer, Fairview, was chosen secretary. In the primary section Miss Alice Baker was named president, and Mrs. T. O. Neely vice-president.

Following the meeting of the general assembly, the rural school teachers met and discussed topics pertaining to state music programs, a trip to Amarillo during the Tri-State Fair and rental fees. The city teachers deferred their departmental meeting until a later date.

County Agent James A. Jackson, Charlie Williams and Clyde Fowler are in Amarillo today in charge of the Hall County exhibit in the Tri-State Fair being held in that city. The trio took the Hall County offering to the fair Friday and will return Monday night. A representative of this county, however, will be in charge of the local booth throughout the week.

The display from this county is making a very creditable showing, according to reports, and local citizens will view the array of agricultural products with a feeling of pride. The products were gathered from every community in the county by County Agent Jackson, C. A. Williams of Newlin, and H. C. Fowler of Leslie.

In quality, variety and extent, the county's display at the fair this year reflects the diversification of her crops. Specimens of Indian corn, maize, kaffir, fetterita, chillet (a new grain similar to maize) and popcorn will be shown. Four kinds of hay, alfalfa, sudan, millet, two kinds of sorghum, broom corn, and a splendid showing of all varieties of cotton is being exhibited.

Other products being shown are watermelons, cantaloupes, peaches, apples, sweet potatoes and pumpkins.

The exhibition demonstrates the return of Hall County to her rightful place in the front ranks of the state's agricultural counties.

One Dead and Seven Injured in Headon Automobile Collision Near Goodnight

LOCAL C.C.C. MAN IS INSTANTLY KILLED

One dead and seven injured, one probably fatally, was the toll of a head-on collision between two Memphis cars Friday night about 8:00 o'clock, near Goodnight.

The dead and injured: **HARDY GRAVES, Memphis CCC Camp, instantly killed.**

JOHN HOOTEN, Memphis CCC Camp, fractured skull and possible internal injuries.

DAVE BARGER, Memphis CCC Camp, broken arm.

Dick Breedlove and H. Mullins, Memphis CCC Camp, minor injuries.

Raymond Ballew, Memphis automobile dealer, minor injuries.

Gerald Phipps, Medical Corps, U. S. Army, Fort Sill, minor injuries.

The fatal accident occurred when a new Studebaker Sedan driven by Raymond Ballew, with Gerald Phipps as a passenger, collided with a Model A Ford Coupe driven by Graves, and with the other four CCC men as passengers, on a stretch of highway about three miles north of Goodnight.

Ballew was enroute home from Amarillo, where he had picked up Phipps, whose parents live on the Henderson Smith farm near this city. Phipps was on his way home on furlough from Fort Sill, where he is in the medical corps of the army.

The five CCC men, whose homes were all in Amarillo, were enroute there to spend the week-end with their families.

Both cars had their lights on, but Phipps and Ballew state that one headlight on the smaller car was not burning.

The two cars apparently met at high speed, striking each other about the left front wheels, side-swiped and skidded on past, coming to rest 97 feet apart and each headed in the opposite direction to which it was travelling when the collision occurred.

The light coupe was almost completely demolished. The dead man and the other two most seriously injured were in the seat of the coupe, and their two companions in a home-made rumble seat in the rear.

The Ballew car was badly smashed up, and caught fire and burned after Ballew and Phipps had extricated themselves from the car.

Passing motorists notified the authorities at Claude and doctors were sent from that city to the scene of the accident. They found Graves dead, his chest having been crushed by the steering wheel of the car.

Hooten was rushed in one of the physicians' cars to St. Anthony's Hospital at Amarillo for treatment, as were the other injured CCC men.

Ballew was taken to Clarendon for medical aid by a passing motorist, and Phipps was taken there by T. T. Harrison and Leonard Hartman of this city, who arrived on the scene of the crash just after it occurred, and later brought him on to this city.

Graves, whose home was at Amarillo, was buried there yesterday afternoon at 4:00 p. m., with military honors. He is survived by his wife.

Hooten, for whom slight hopes are held for recovery, is also a married man.

Lt. Louis A. Hill, commanding officer of the local CCC Camp, and Lt. James P. Luton, medical officer, went to the scene of the accident Friday night, to investigate the crash, and on to Amarillo yesterday to attend the funeral of Graves.

Mr. Ballew remained overnight in Clarendon and returned home yesterday at noon on the bus.

Parent-Teachers Meeting Is Well Attended Last Evening

Enjoy Program And Social Hour

Over 300 citizens and teachers were in attendance Friday night at 7:30 o'clock in the auditorium of the local high school when a joint meeting of the three Memphis Parent-Teachers Associations were held.

W. C. Davis, superintendent of the city schools, was in charge of the first part of the program and Mrs. Roy Fultz, chairman of the P. T. A. Council, was in charge of the latter part. All school teachers, board members and P. T. A. officials present were introduced.

The main talk of the evening was given by R. B. Fisher, superintendent of the Pampa School system. Mr. Fisher gave an instructive talk on the work of the Parent-Teacher Association.

The Gold Medal and the West Ward Rhythm band furnished music for the occasion. Betty Frances Fultz tap danced, and Mignon Womack gave a reading. A quartet composed of Harry Delaney, Ewel Noel, David Fitzgerald and Omer Johnsey sang two songs.

Following the program, a social hour was held and was conducted by Mrs. Jack Hubbard, local home economics instructor, and the high school home economics class. Fruit punch and cookies were served, and a general "get acquainted" hour was held.

ITALY STANDS ALONE IN CRISIS

European Nations In Solid Lineup To Prevent War

With French swinging in behind Great Britain, and other European nations falling in line against Italy's proposed conquest of Ethiopia, hopes were rising today that war might be averted.

Russia, the Little Entente, the Balkan Entente and other states have joined Great Britain and France, pledging allegiance to the league covenant.

On the other hand, Mussolini today told his Cabinet that Italy was fully able to meet any menace from any direction.

Mussolini's Cabinet today refused to take any compromise settlement on the Italo-Ethiopian dispute.

Four Divisions In Bus Caravan

According to Director W. C. Milam of the Gold Medal Band and the committee in charge of arrangements, plans to take 500 Hall County school children to the Amarillo Tri-State Fair next Saturday are working out nicely and the trip promises to be a record breaker.

All school authorities contacted are enthusiastic over the matter, and the County School Board is squarely behind the project.

Fourteen Hall County school buses will be used to transport the children, and each busload will have an adult director in charge, who will be responsible for the safety of the children on the entire trip and during their stay in Amarillo.

The caravan will be divided into four groups: Memphis, Turkey, Estelline and Lakeview, each group carrying children from their various vicinities.

The Memphis, Estelline and Lakeview groups will leave this city for Amarillo at 7:00 a. m. The Turkey group is going by way of Tullia, which gives them better roads and a shorter distance to travel.

All groups will meet in Amarillo and stage a street parade of the buses and the band, before going to the fair grounds for the day.

SOCIETY NOTES

Ladies Auxiliary of American Legion Hears Convention Report of Official

The Ladies Auxiliary of the American Legion met Friday afternoon at 3 o'clock at the home of Mrs. C. C. Dodson. The house was beautifully decorated with flowers and flags.

The meeting was opened with Mrs. W. Wilson presiding. The salute to the flag was given and "America" sung, followed with prayer by the chaplain, Mrs. T. Kittinger. 30 second silent prayer and all repeating the Preamble after which the meeting was declared opened for business. The minutes of the previous meeting were read and approved. Roll call was answered with convention high lights.

A report of the convention was given by the delegate, Mrs. D. J. Morgensen. The most interesting item of the convention was an address of a 13-year-old boy, son of a Legionaire, Edwin L. Lovelace of Port Arthur.

Plans were made for the installation of officers on Sept. 27, at 8 o'clock p. m. at the Legion Hall, with entertainment for members and guests.

During the social hour the hostess served refreshments to Mrs. W. Wilson, Mrs. E. H. Whittington, Mrs. E. B. Palmer, Mrs. H. L. Nelson, Mrs. J. E. Roper, Mrs. T. Kittinger, Mrs. Mamie VanPelt, Mrs. W. S. Gooch, Mrs. L. L. Doss, Mrs. D. J. Morgensen and Mrs. E. B. Smith. Mrs. Morgensen's report was as follows:

At the recent department convention of the American Legion Auxiliary held in Dallas, I was sent as official delegate from the local unit.

It is gratifying to report that the 17th Annual Convention was the best that has ever been recorded in the history of the organization to date. There were 91 units represented with over 400 official delegates in addition to the thousands of visitors.

The social functions held for the delegates included a beautifully appointed division luncheon and a gold star mother's tea. The memorial service was an impressive feature also.

The contests between the drum and bugle corps, competing for the coveted prize purse of \$400, was a very brilliant affair. They were held at the Fair Park Stadium the second night of the convention. The flood lights, casting light and shadow effects on the parading contestants, produced colorful spectacle; and the uniforms of each drum corps seemed more beautiful than the preceding one. The Mineral Wells American Legion band played the grand march for the "advance of colors." Each drum corps had its respective color guards. Port Arthur won first place and has succeeded in holding this honor for about five years. The junior drum and bugle corps of Harlingen won first place for the "Sons of the American Flag."

The WFAA Early-birds gave a presentation of a model broad-casting program, which was quite novel and drew a tumultuous applause from the audience. "Slo 'n Exy" of Ideal Waltz Time fame were the most notable performers appearing on the program.

Among the distinguished guests at the convention were Governor and Mrs. Alfred. The Governor's address, "Jimmy to his Buddies," was the most inspired of the entire program. He made it known to the world that he was a true-blooded legionnaire.

The most spectacular entertainment feature was the American Legion emblem dance by Miss Lu-genbuhl of Port Arthur, who is a talented ballet dancer. She is also drum major for the Port Arthur drum corps and is known over

Texas as the "Sweetheart of the American Legion."

The finest sentiment expressed was spoken by the State Commander of the American Legion of the state of Iowa. He made the assertion: "The Legion is on trial in many states, but in Iowa this case against the Legion has been dismissed; and Iowans have fallen in line with the great program of the Legion."

All the reports of the activities chairmen were worthy of mention, but I must state briefly some of our major projects. Child Welfare and rehabilitation head the list and are followed by care of women veterans and their families.

It is interesting to note that there were 36,000 women regularly enlisted in the army, navy and marine corps, and some 1,000 nurses in hospitals overseas without enlisted status during the world war.

Other objectives are student loan fund, education of war orphans, americanism, national defense, community service, junior auxiliary activities, Texas centennial, Texas memorial, highways, poppy sales and provision of recreational entertainment for the disabled and sick veterans in hospital centers.

Mrs. Tillman Jones of Post was elected state president to succeed Mrs. Dauforth of Fort Worth. Mrs. Jones was elected national delegate, and Mrs. Dauforth national alternate to the convention in St. Louis.

Mrs. J. T. Trent of Clarendon was elected fifth-division vice-president to succeed Miss Bertha King. Beaumont was selected as convention city for 1936.

Mrs. Ed Teer returned to her home in Clarendon yesterday morning after a visit here with her parents, Mr. and Mrs. J. M. Elliott.

Dr. and Mrs. J. W. Fitzjarrald and daughter, Reba, are spending today in Vernon with Mrs. Fitzjarrald's sister, Mrs. Boyd McClendon.

It's a secret discovered by clever women—that the wrong side of a stocking is the smart side! So Munsingwear has created a kind of stocking with the dull flat inside surface on the outside. A Bank of Proven

RESPONSIBILITY

The First National points with pride to depositors who entrusted their funds to this institution on the day it opened for business, March 1, 1898, and who have consistently done business here during the ensuing 37 years.

Every depositor still alive and still residing in Memphis, who opened an account with us on March 1, 1898—the day this bank was founded—is still doing business here. In instances where pioneers have passed on during the past few years the accounts of their estates still remain in the First National Bank.

There are others, many others, whose consistent association with this bank had a beginning fifteen, twenty, twenty-five or thirty years ago, but it is particularly pleasing to us to note that a number of the very first, the "old original" depositors of this institution are still our regular customers after 37 years.

What does it prove? To us it establishes definitely an abiding faith in our ability to handle satisfactorily the affairs of our clients—a sacred trust we zealously guard. It makes us happy, too, to know that year after year confidence placed in us 37 years ago is renewed. It makes us grateful for good friends and inspires us to be ever alert to their needs and the needs of their neighbors.

Farewell Party

Several couples gathered Friday night at the ranch home of Mr. and Mrs. Murray Dodson, six miles northwest of Memphis, at a farewell party tendered Lyman E. Robbins, who is moving to Kilgore.

A clever newspaper motif was carried out throughout the evening. Hats fashioned from newspapers were presented to the guests on their arrival. On the dining table, from which delicious refreshments were served buffet style, newspapers were spread instead of a table cloth. Center pieces were fashioned from colored comic sections.

Individual squares from funny papers, cut in two diagonally and shuffled, were passed to the guests. Properly fitting portions determined "partners" for the evening.

At the climax of the evening Mr. and Mrs. Dodson presented Mr. Robbins with a leather toolkit bearing a sentiment signed "the gang."

The following attended: Ingram Walker, Shirley Greene, Buster Helm, Elizabeth Johnston, Ed Foxhall, Jess Rosenwasser, Mr. and Mrs. Robert Roark, Mr. and Mrs. Frank Foxhall, Mr. and Mrs. George Loveless, Mr. and Mrs. Claude Benton Harrison, Maurine Thompson, Marcus Rosenwasser, Mr. and Mrs. Horace Tarver, and Mr. and Mrs. Darrell Jackson, of Amarillo.

"THE BIG DAYLIGHT STORE"

Alabama's Crimson Tide Stores Power To Run Wild Through 1935 Schedule

Considered Equal Rose Bowl Team

By MAYNARD STITT
TUSCALOOSA, Ala., Sept. 14—Three all-America stars—Dixie Howell, Don Hutson and Bill Lee—will be missing from the lineup of the Crimson Tide, 1935 Rose Bowl winners, this year. But Coach Frank Thomas doesn't lie awake nights because of that.

Under his tutelage a football machine potentially as great as that which sent Stanford crashing down in defeat last New Year's Day is in the making at the University of Alabama here.

Mickey Riley will step into the shoes of the illustrious "Dixie." Riley pinch-hit for Howell last year and filled the post capably. He throws lengthy passes with startling accuracy, punts well and behaved like a veteran when under fire last year.

Loopholes Well Plugged
Bill Young, minus an appendix, will replace Lee at left tackle.

Hutson's place as a pass receiver will be taken by Paul Bryant, the giant veteran who will shift from right end.

Riley Smith, a 200-pound quarterback already mentioned as an all-America candidate, will direct the backfield which Thomas is building around the diminutive Mickey. Smith is a superb blocking back and a canny field general.

Dick Rohrdanz and Bubber Nisbett, substitute fullbacks last year, will be on hand to replace Joe Demayamovich. Rohrdanz had an operation to regain the use of several stiff fingers and looked great in spring practice.

Jimmy Angelich will be in charge of the right halfback position as of yore. Young Boozer, seasonal broken-field runner, and Roy White, a deadly passer who can kick and run, will be capable of relieving Angelich. Charlie Stapp, another triple-threat, will substitute for Riley.

Guards Weakest Spot
Alabama's weakness this year—if there is one—is at guard. Charlie Marr and Ed Morrow were lost by graduation. Tarzan White and Bill Peters are back from last year's reserves as well as a group of sophomores. There is an abundance of weight and potential power but experience is lacking.

Kay Francis and a seasoned substitute will be back at the pivot post.

Jim Whatley will return to tackle. Art McGahey and Ben Lyons form a reserve line.

With Bryant at left end, Captain Jimmy Walker will command the right flank. The veterans Hillman and Waller and K. Kolar are ready to fill any breach on the end of the Crimson line.

Team Evenly Balanced
Discounting the weakness at guard, the Tide is as evenly balanced as when it journeyed to California. Bryant was almost Hutson's equal last year. Added experience makes him a power to be reckoned with. Walker is a fine, steady leader. Riley has a chronic knee injury that makes him a bit of a question mark, but barring ill luck he should be able to take Howell's place.

All other departments have benefited from the experience gained under fire last year.

Nor does the Tide face the hectic schedule of last year. Only one inter-sectional game is found on the schedule, which calls for ten games. Six of those teams will be played on Alabama soil.

The schedule:
Sept. 28, Howard at Tuscaloosa.

Oct. 5, George Washington at Washington.

Oct. 12, Mississippi State at Tuscaloosa.

Oct. 19, Tennessee at Knoxville, Tenn.

Oct. 26, Georgia at Atlanta, Ga.

Nov. 2, Kentucky at Birmingham.

Nov. 9, Clemson at Tuscaloosa.

Nov. 16, Georgia Tech at Birmingham.

Nov. 23, Vanderbilt at Nashville, Tenn.

Alabama will be defending its Southeastern Conference title this year. Pre-season dopesters give it the edge to hold the title but point out that Tennessee and L. S. U. may figure in the race.

Coach Walker Sings The Blues

Says Lucky If Win Two Games

One of the most difficult problems with which Coach Chesty Walker is faced in molding a team of championship calibre this year is the developing of a punter.

With less than a week left in which to prepare for the season's first encounter with Paducah, the question of who is to do the punting for the Cyclone is as much in doubt as ever.

Coach Walker is grooming three candidates for the job. Fred Sanders, left tackle, and Winifred Swift, left guard, thus far have been booting the pigskin down the field farther than any of the backfield men. However, Walker is undecided as to the policy of taking a man out of the line to punt. There is also more to the art of punting than merely being able to kick the ball. In order to make a punter, the player must be able to keep his head under fire, the coach pointed out.

Goggles Powers, 135-pound quarterback, is likely to bear the brunt of the punting attack. Powers did the kicking last year when Norman was out of the game and managed to get them off fairly well.

When asked what he thought of the Cyclone's chances of developing into a winning team, Coach Walker sang his usual blues song. "We'll be lucky if we win over two games," he said. "Besides not having as good a team as we had last year, we are faced with stronger competition," he said.

Walker bemoaned the fact that his first string backfield is so small. The heaviest man of the

Score of Childress Paducah Game Stands

Special to The Democrat
CHILDRESS, Sept. 14—Reversing an earlier decision, Bill Sherrill, of Vernon, president of the Red River Valley league, yesterday afternoon ruled that the Childress-Paducah game of last Sunday will stand and the championship of the Western Division goes to Paducah.

Sherrill, earlier in the week, upheld a Childress protest and ordered the game replayed. The protest came after the game was called in the last half of the seventh with two Paducah men out and two strikes on the batter, automatically reverting the score to the sixth inning when Paducah was leading 3-2. Childress had tied the score in the first half of the seventh.

Memphis-Childress Game at Estelina

The Memphis Owls will play the Childress Electrics this afternoon at 3:30 o'clock in a baseball encounter on neutral grounds. The game will be played at Estelina

with Blanchard hurling for Memphis and Hall pitching for Childress. Memphis players are not satisfied that Tommie Hall's crew can defeat them again, Manager Jack Boone of the Owls declared. Childress protested the game played between Childress and Paducah last Sunday for the championship of the Western Division of the Red River Valley League, but Boone said.

WHAT Has The Memphis Chamber of Commerce Done?

Taking several years as a basis, much could be written under that heading. But of greater interest, perhaps, is WHAT IS THE MEMPHIS CHAMBER OF COMMERCE DOING?

One of the most tangible things to the credit of the Memphis Chamber of Commerce today is the CCC Camp now definitely located here after strenuous efforts of the organization and a number of its committees. What the camp will mean to Memphis is of little consequence in comparison to what the work accomplished, under direction of the government's Soil Erosion Service, will mean to the future of the agricultural interests of the Upper Red River Valley.

The Chamber of Commerce is also very active at the present time on Works Progress Administration projects for Memphis and Hall County. Included are plans for a city-county park which, it is believed, will soon become a reality.

The Chamber of Commerce is also highly active right now in highway matters and is making considerable headway in this regard.

The Junior Chamber of Commerce, which co-operates with the senior organization, has to its credit a lighted football field for Memphis High School, a school cafeteria, support of the Gold Medal Band and development of good will among surrounding communities and many smaller, but important, accomplishments.

There was never a greater need for a strong chamber of commerce in Memphis than right now. With government money for development being offered virtually on a silver platter it behooves the people of Memphis to make certain that a well-organized central body is available to assure this city its just share of federal funds now being allocated.

This is the second of a series of four advertisements paid for by firms whose advertisements surround this message, designed to acquaint the people of Memphis with the value of the Chamber of Commerce.

AN OPPORTUNITY

WE feel that the proposed trip to the Tri-State Fair at Amarillo on Saturday, Sept. 21, by the Gold Medal Band and as many school children from the county as possible, is a great opportunity for the children of the county.

As planned, the trip will give them a most pleasant one-day outing and an opportunity to attend the largest exposition in Texas this year.

They will see prominent people from all over the country, will have an opportunity to inspect the products of the various counties of West Texas, and will enjoy a day of both fun and instruction.

The school buses of the county are to be used for transporting the children to Amarillo, by permission of the County School Board, and a small charge for each child is contemplated, to take care of the expense for oil and gas and the drivers.

Every school so far contacted has greeted the plan enthusiastically. 150 students from the local schools have signified their intention of making the trip. School authorities at Brice say they are going to send all their pupils possible.

While on the trip, the children will be under the careful supervision of adult directors, who will see that they do not miss any of the important features of the fair, and who will look out for their welfare while away.

If your boy or girl wants to make the trip, encourage them to do so. It is a real opportunity.

PERMANENT CCC ACCORDING to press dispatches this week, President Roosevelt has in mind making the Civilian Conservation Corps a permanent body, with a small personnel.

This may mean that this city's CCC Camp may be permanent, which would be a fine thing for the city from every viewpoint.

If the President's new CCC policy makes it possible, let's use every effort to have the local camp made a permanent one. There is little doubt that it is one of the most strategically placed of any camp in the Panhandle.

The BLUE DOOR

Rachel Mack © 1935 NEA Service, Inc.

BEGIN HERE TODAY RUTH WOODSON, a pretty, high-spirited girl of 19, in search of work, is put off a bus in the little town of Worthville when she runs out of money. A storm is breaking and Ruth seeks refuge in an old stone mansion with a blue door. She faints and is carried upstairs by the queer old housekeeper, BERTHA GIBBS, also known as "PENNY," and by JOHN McNEILL, from next door.

Penny believes Ruth to be ELAINE CHALMERS, whose grandfather built the house. Ruth lets the mistake stand. Elaine meanwhile, at Graycastle College, vows in a sorority meeting to win the love of John McNeill, her first sweetheart. She plans to go to Worthville.

Ruth, in love with John, resolves to stay on a while at the old house, pretending to be Elaine.

A man known as JOHN SMITH escapes from an institution for the criminally insane, buys a used car and starts for Worthville where, he assures himself, "Old Bertha Gibbs will hide me at the house with the blue door."

NOW GO ON WITH THE STORY

CHAPTER XIV Ruth was far more happy than she was unhappy. Far more gay than apprehensive. She was in love, and knew it. She moved in that soaring, tremulous state when the mere recalling of a beloved pair of eyes, a beloved voice, sent the pulses pounding. The anticipation of another meeting with John McNeill—another such rendezvous as last night's ride—made life a glorious adventure. Her happiness dimmed her fears for the future, caused her to forget the insecurity of her position, and lulled her pricking conscience into comfortable quiescence.

In short, Ruth Woodson, becomingly clothed in one of the charity-box hand-knit dresses, moved gracefully through the old Hunter house, in and out its rooms, up and down its stairs, quite as if she owned the place. Old mirrors, cleared of dust by her own agile hands, reflected her presence; dim corners echoed her laughter and the sound of her ringing.

Penny said feelingly that morning: "Lor, Miss Elaine, it's good to have you here. You cheer up the place considerable." In the afternoon mail there ar-

I'd be obliged if you'd keep house for me while I'm gone?" "Of course I will," Ruth assured her. "Give me that cloth and let me finish dusting. Then you can get ready and go right away."

When Penny came down a bit later, hatted and coated for the occasion, and wearing overshoes and an anxious expression, it was evident that this trip "to town" was an important event in her life. Actually she left the house only four times a year, and that was for the purpose of banking her quarterly check. Pausing before she went out the door, she said to Ruth earnestly, "I won't be gone more'n an hour and a half, all told. If anybody comes here askin' for me—askin' for me by name, I mean—will you have 'em come in and wait?"

"Why, yes," Ruth answered, "of course. Can you manage all right at the street crossings, Penny?" Bertha nodded. "I'm careful, and I use my umbrella for a cane. I never have any trouble that way."

On a highway leading from a southerly direction a small, unnoticeable automobile had just picked up a nail and blown a tire. The car, traveling rapidly at the time was thrown smartly across the road and was partially wedged between a tree and a fence.

The driver, its sole occupant, recovering from the shock of the impact, lifted himself from the steering wheel and rubbed his chest. His prodding hand found a sore rib that made him wince with pain. From a cut on his palm blood was trickling. He was the man who some time before, had escaped from a place where the criminally insane are detained.

Climbing cautiously from the car, John Smith inspected the damage done. He could, he decided, extricate his car without help if the engine still ran. But first he must change the tire which had blown out. This he proceeded to do, getting the tools from the place he knew them to be, and applying the jack with fumbling, unaccustomed fingers. It took him all of an hour to do this. At last, weary from his exertions, he sat on the running board and smoked a cigaret while his mind wrestled with his problems.

His hand had started to bleed again. He wrung the blood-soaked handkerchief tighter and frowned. He contemplated looking for a doctor in the next town, then decided against it. He could not afford to have any one recognize his picture, should it be published in the interest of his capture. No, better push on to

Worthville. Better put himself in the old woman's hands. "The old house is like a fort," he thought. "I could dig in there and stay indefinitely." A car was coming to a halt beside him. Breaks ground, tires skidded, and from the window of a gleaming coupe a tanned, hatless young man leaned out and called pleasantly, "Can I help you?"

"Thanks, no," John Smith replied in a gruff voice, not his own. His hat was pulled low over his eyes. He partially concealed his mouth and chin by manipulating his cigaret with his uninjured hand. "It was a blow-out." Then he added, lying, "I was going the other way. Car turned completely around."

"What you know about that?" exclaimed the young man, with surprised interest. "Well, you're lucky you didn't crash that tree."

"Yeah," replied John Smith. He was narrowly eyeing the nonchalant, clear-cut young man whose gaze was so direct and who wanted to be helpful. He wondered why the young man looked vaguely familiar to him. After all, he "John Smith," hadn't been in this vicinity for 10 years. And 10 years ago that young chap must have been only 14 or 15 years old.

The young man lifted his hand in salute, shifted gears and drove on toward Worthville. An advertising cover on his spade tire said "McNeill Pumps make hard water unnecessary!"

John Smith lifted an eyebrow. So that was it. The McNeill boy, grown up. He was glad he'd kept his own face covered. The interview caused him to reconsider his plans. It was possible, even probable, that the McNeill family still lived next door to the old Hunter place. This boy might recognize him after the roadside meeting. Certainly he would recognize the injured car. John Smith decided to abandon the car and continue on foot until over-

taken by a bus to carry him to the intersection, and saunter, perhaps falling darkness, John McNeill, fully lighted his third such achievement—and things soon be running on. "Dad would be out, if he could guess I'm going muddin' saimean. Then, persaint these pleasant red the image of faced, slouching running board have I seen the asked himself. (Continued)

Jacks and Stallions Placed on Texas Farms by State

and twenty-four head, at an average cost of \$376.00. In the 106 head of Jacks owned by the State of Texas is to be found "General Linden", the three times Grand Champion Jack of Tennessee, and which at this time is one of the five outstanding jacks in the United States. Also prominent among the jacks owned by the State of Texas and which are proving their worth in many counties are "Black Hawk Chief," "Brigadier General," "Colonel Taylor" and many others. Eighty-six head of Registered and high grade Draft Stallions are now located on Texas farms and ranches, through the efforts of Commissioner McDonald. In those stallions the foundation stock for more and better colts will be had for the raising of better brood mares is very necessary. In portions of the State needing Saddle type horses, Commissioner McDonald has placed thirty-two head of Registered Saddle stallions.

For the period ending August 31, 1935, approximately 11,000 breedings have been reported by the caretakers of these jacks and stallions. Figuring on the basis of a seventy per cent colt crop there will be 77,000 horses and mule colts grazing on Texas farms and ranches within the next few months at an estimated value of more than \$450,000.00 increase in livestock for Texas. And it is evident that each year will find this program growing until once again Texas will find her vast acres used for the purpose for which it was intended, and Texas should with in a few short years be one of the foremost livestock producing states of the Nation.

Figures show that in thirteen Southern States, sixty-five per cent of all work stock are mules. In some states eighty-five to ninety per cent are mules. With the exception of Tennessee and Kentucky, practically all work stock used in the South is raised outside of the Southern States. Statistics show that we have in 1935, two million one hundred and ninety-six or 26 per cent less work stock than we had in 1920.

Commissioner McDonald states that efforts will be made to place Jacks and Stallions in every County of the State as fast as funds accrue for this purpose, and to show the interest of Texas in this program, there is on file with the Department of Agriculture more than 2000 applications for jacks and stallions.

Cotton Subsidy Forms Are Ready

COLLEGE STATION, Sept. 14.—"Forms are now being printed for the producer to make application for the adjustment payment, commonly known as subsidy, on the 1935 crop of cotton and they will probably be available immediately for distribution to county agricultural agents in charge of the program in the counties," F. E. Lichte, senior administrative assistant, division of cotton, said.

Information required on this form is the date of sale, name and address of producer and purchaser, and the following items: number of bales; gross weight, including bagging and ties; price per pound paid producer; total value of cotton; amount of charges, if any; amount paid producer, followed by signature of the purchaser. Where cotton is sold in the seed, the amount of seed cotton purchased and the seed cotton expressed in pounds of lint is required.

"Any producer under a cotton adjustment contract who agrees to participate in the 1936 cotton adjustment program and sells his 1935 crop cotton before August 1, 1936, is entitled to the adjustment payment," Lichte said.

He added that the producer who did not sign a contract is also eligible to make claim for the subsidy. He will, of course, agree to participate in the 1936 cotton adjustment program and will be paid when his compliance has been certified.

The subsidy will be the difference between the average of the 10 spot markets on the date of sale and 12 cents, middling sevenths basis. Maximum payment, however, cannot be more than two cents. The total sales subject to subsidy is the amount of such producer's Bankhead allotment.

"It is expected that checks will be delivered to producers approximately December, 15, 1935, and March 15 and August 15, 1936, depending on the date the application is signed. The information will be checked in the county and audited at College Station. It is proposed that a disbursing section will be set up in Texas, thereby saving much time," Lichte added.

CREAM GRADING IMPROVEMENT PROGRAM

Resume of Work Done in Bettering State Production

On May 1, 1935, Texas inaugurated her Cream Grading and Cream Quality Improvement Program, the plans for the campaign in this State being worked out by the State Department of Agriculture in conjunction with Texas A. & M. College, the Texas Technological College, the Agricultural Extension Service, and representative members of the Dairy Industry. Following is a resume of our activities for the past year and an outline of some of our future plans:

Cream Station Inspections—4257. There has been a notable improvement in the physical condition of cream buying stations and in the methods used by the operators in handling the cream which he purchases.

Plant Inspections—375. During these routine plant inspections all of the cream which was received at the plant was graded by our inspector. No. 3 cream, or, in other words, cream that is unfit for human consumption was handled mainly through the local Health Department Inspectors, who have the authority to destroy the same. Records on file in this office indicate that there has been 3321 pounds of cream which has been rejected at the various plants.

Cans of Cream Graded—17,000. This approximate number of cans of cream were graded by our inspectors during the past year, about 85 per cent of which were classified as No. 1, the remainder being graded No. 2, and a relatively small amount being 3rd grade.

Educational Meetings Held—153. These meetings have covered the most important cream producing points in the state and in some of the heavier production areas there have been several meetings. During these meetings we have contacted 4302 cream producers and cream buyers.

Agricultural Extension Workers Contacted—233. This number represents individual Vocational Agriculture teachers who have been contacted and supplied with a set of educational material on Quality Cream Production, which was assembled for their benefit and which covered the history and development of the Cream Quality Campaign and contained a full discussion of all steps necessary in the production, handling and marketing of high quality cream. Figures gathered from a questionnaire which was sent out from this office, and which was answered by 132 out of 233 teachers contacted, show that they have presented and discussed this material to 275 vocational agricultural classes consisting of 4495 students; 135 adult evening schools with a total attendance of 3175; and to 62 meetings called especially for cream producers with a total attendance of 1916. These figures coupled with those of our own representatives, bring the total number of persons, directly or indirectly connected with cream production, contacted in group meetings to 13,888. This is, of course, exclusive to innumerable personal contacts which have been made.

During the past year our inspectors have gained the voluntary destruction of 3782 pounds

On Texas Farms

Minnie Fisher Cunningham Extension Service Editor

In the interest of beauty, simplicity and ease of cleaning 115 home demonstration club women in Calhoun county have removed all the old calendars, artificial flowers and plaster of paris animals from their bedrooms. Two hundred and sixty-one pieces of furniture have been refinished; 34 women have made or started hooked rugs and 20 mats have been made or started.

Also 178 dresses and 28 other garments have been made by the 110 foundation patters which have been provided by these Calhoun county home demonstration club women. Fifty-two of these club women have "new deal" clothes closets. That is they have closets with rods allowing dresses to hang clear of the floor, shelf space, hat racks and shoe racks.

And food to the impressive total of 26,439 containers is already stored on their pantry shelves. Fruits, fruit juices, tomatoes and vegetables have been put up in quantities to insure vitamins and variety in this winter's diet.

With the help of her mother and sister Miss Thelma Green, farm food supply demonstrator for the Independence home demonstration club in Montgomery county, has filled 2,000 containers of food including 45 varieties for their family of twelve. She has added 100 feet of new shelving to the food storage space. In addition to her home duties she has supervised one of the relief canning plants where several thousand cans have been filled with food this year.

"The recent amendment to the Bankhead Act to permit the ginning tax-free of 110 pounds of cotton grown by or for the producer to be used for domestic purposes in his own household should be of interest to farm women and girls who are interested in making their own mattresses," said Mrs. Bernice Claytor, Extension specialist in home improvement.

"If funds are limited on the cream which they found and graded as No. 3. This amount is exclusive of that condemned by the State and Federal Food and Drug Inspectors, whose activities along this line will be discussed in the following paragraph.

Records on file in the State Bureau of Food and Drugs show that during the past year their inspectors have seized and condemned 17,217 pounds of cream, 38,041 pounds packing stock butter, and 13,758 pounds of creamery butter, all of this cream and butter moving in intrastate commerce. Also records which they have obtained from the Federal Bureau of Food and Drugs show that there has been 7720 pounds of Texas produced cream which has been seized and destroyed. Reports from other sources indicate that there were 6482 more pounds of Texas produced cream shipped interstate that was either destroyed, or colored and returned to the shipper. Not only are they seizing and condemning the adulterated products but plans are being made to prosecute the responsible shippers, it being plainly set forth in both the State and Federal Food and Drugs Acts that the responsible shippers are liable to prosecution under the law.

farm," Mrs. Claytor explained, "It will be found economical to make mattresses from cotton raised on the farm. Satisfactory, comfortable cotton mattresses can be made at home, and in this way one can be certain that only high grade cotton is used and that the mattress is clean and sanitary. For a small cash outlay all materials can be of good quality."

Fifty pounds of dry, clean, long staple cotton are necessary in making a mattress for a double bed of standard size, 54 inches wide. Since this is true, two cotton mattresses can be made from the amount of cotton ginned tax-free.

A profit of \$1.68 per hen above feed cost for the eight months period from December 1934 to August 1935 has been made by Ollie Davis, Dallas county Gold Star 4-H club boy, according to Dale Ferbin, county agricultural agent.

Davis had an average of 128 hens during this period which produced 1156 dozen eggs. These eggs sold for an average price of 27.4 cents per dozen and cost only 8.7 cents per dozen to produce.

In addition to the above record, Ollie raised 181 pullets and fryers from 190 baby chicks. It took 5.5 pounds of mash and 2.4 pounds of grain to convert each chick into a two and one-fourth pound fryer, Ollie reported to the county agricultural agent.

FEED HEARST CATTLE

LUBBOCK, Sept. 14.—Two trainloads of about 3,000 calves from the William Randolph Hearst ranch in Mexico have been put on range at the Frank Corn ranch in Blanco Canyon. The calves will be grazed for 90 days and then be placed on a feeding schedule in the pens.

This is the third year the Hearst cattle from the ranch near Chihuahua have been fed in this area.

Lifeless Fish "Bites"

DELRAY BEACH, Fla. Sept. 15.—County Commissioner C. Y. Bird had to pay with a sore finger for the experience of being bitten by a dead fish. Bird's party brought a 400 pound fish to dock and Bird held open the catch's mouth so a photographer could take pictures. He carelessly dropped the fish and the large jaws clamped down.

West Ward PTA Meeting

The West Ward P.T.A. met Thursday, Sept. 12, in the first meeting of the new year. When the following program was rendered:

Song, "Onward, Christian Soldiers."
Invocation by Mrs. W. B. Kimberlin.
President's Greeting by Mrs. W. C. Milam, using as her theme "Co-operation."
Piano Solo by Miss Willie C. Wilson.

The year's program is built around the idea of a five pointed star—significant of Texas and the Centennial as well as light and cheer. The heart of the star is "wholesome personality", the cherished goal of every intelligent parent for his child. The five points are development in social, emotional, spiritual, physical and mental life.

The theme for the year 1935-1936 as set up by the National Congress of Mothers and Parent Teacher Associations is: Home, the Foundation. To this theme the West Ward Parent-Teacher Association has added the church, school, and community, as factors in child development to which some study will be directed.

Every possible effort was made to make this assistance to as many communities of Northwest Texas as possible. The counties from which the lucky students come are:

ROME, Ga., Sept. 14.—Four men were shot, one seriously, today while on their way to the plant of the Rome Stove & Range Company, the scene of labor troubles for the past several months.
A taxi driver was taking the men to work when a group of men ordered the cab stopped, and began firing on the men as they stepped from the taxi.

Express Regret Official's Remarks

WASHINGTON, Sept. 14.—The United States today expressed regret officially that Magistrate Louis Brodsky, of New York, had made "insulting remarks" concerning the Nazi flag, but disclaimed responsibility for the words, as not voicing the official attitude of the government.

Secretary of State Hull expressed the government's regret orally to Doctor Rudolf Leithner, chargé d'affaires of the German Embassy. Hull criticized the statements made by Brodsky in freeing five alleged communists charged with tearing the Nazi flag from the liner Bremen of July 26.

Predict Revolt In Mexico Soon

TUCSON, Sept. 14.—The Tucson Daily Citizen said today, in a copyrighted story, that it was informed by sources it considered as reliable that a nationwide revolt was scheduled to break out in Mexico September 17.

Recent friction among political factions have given rise to feelings of dissatisfaction and unrest, culminating in a plan, supposedly well organized, to overthrow the government of Lázaro Cárdenas.

The Citizen said that Mexican officials had admitted over the telephone that there was much unrest, but claimed the situation was well in hand. The officials were quoted as saying that the border garrisons at Nogales and Juarez had been considerably reinforced and that troops were moving northward into Sonora, where, in the high mountains, are said to be gathering many malcontents described by natives as "Red Raiders."

Made Student Assistant U. T.

Royce L. Brooke, Memphis young man who has been spending the summer with his aunt, Mrs. Mat Lane, has received notice of his appointment as a student assistant in the Engineering Department at the University of Texas. Royce is a Junior at the university.

The honor is a particular testimonial to his ability as a student, inasmuch as an appointment of this nature is rarely given to anyone other than a senior or a graduate of the university.

Five Killed in Railroad Wreck

MONROE, La., Sept. 14.—Five unidentified bodies were removed today from the ruins of 15 cars destroyed by fire, following the derailment of an Illinois Central eastbound freight, three miles west of here.

Five transients were injured. One, listed as Pete Riggs, about 25, of Calhoun, La., was pinned in the wreckage between two cars, and physicians were forced to amputate his right leg with pocket knives to release him.
Rescue workers feared that the bodies of other transients might be found.

unanswerable. He thought he had dismissed it, but the subconscious mind never dismisses the unsolved. Back, back through the years went the trail of his subconscious thoughts while his conscious mind took up a happier theme.

"Elaine!" he said aloud, and laughed in the wind. "Lord!" he said. "I believe I'm in love with her. I believe I'd rather have her for my wife than any girl on earth!"

He imagined her in his arms, in his house, in his life. Belonging in those places. Happy to be there. His pulses pounded harder and his eyes narrowed in determination.

"I'm going to let myself go," he decided. "I'm going to make love to her. I'm going to try to win her. Some hunch tells me I could!"

Then he thought of his mother, whom he loved and whose opinion he respected. He could imagine her saying in her sane, gentle way, "An unsuitable match, John. It would end in trouble. Maybe divorce."

"But I want her anyway," John McNeill thought unreasonably. And that was how he knew that he loved her.

Allred Opposed State Sales Tax

AUSTIN, Sept. 14.—Governor Allred said today that he was opposed to a general sales tax for the purpose of paying the old age pensions or reducing the state's deficit.

"I don't think the sales tax is the only way to raise the money," said R. P. Anderson, tax commissioner, who is working on tax measures.

Allred reiterated that he would probably submit only liquor regulation in his first message to the special session of the legislature, which convenes Monday. He said, however, that he might include enabling legislation under the amendment abolishing the fee system.

Investigate Singer's Death

WESCHESTER, Pa., Sept. 14.—Three interests, the prosecution, the defense and the father of the dead girl, today pushed separate investigations into the death of Evelyn Hoey, despite the opinion of some authorities that the torch singer killed herself. No official has yet been reached in the case.

Mr. and Mrs. H. B. Gilmore and children, Owen, H. B. Jr., and Gerry, went to Wellington this morning to spend the day in the home of Mr. and Mrs. Scott Sigler and to see Mrs. Gilmore's nephew, Clifton Eual Warrick, who arrived Wednesday morning, Sept. 11.

MUSKRAT

MUSKRATS ARE WIDELY SPREAD OVER NORTH AMERICA, FROM THE ARCTIC COAST TO MEXICO! ALTHOUGH SIMILAR IN APPEARANCE TO BEAVERS, MUSKRATS ARE MORE CLOSELY AKIN TO MICE.

THE MUSKRAT'S TAIL IS FLATTENED VERTICALLY, WHICH ENABLES HIM TO USE IT AS A RUDDER AND PROPELLER, WHEN SWIMMING.

THE LIFE OF THE MUSKRAT IS FAR FROM ROSY! OWLS AND HAWKS ATTACK HIM FROM ABOVE

LAND ANIMALS PREY UPON HIM WHEN HE IS ASHORE, WHILE MINKS PURSUE HIM UNDER WATER.

WATER PLANTS FURNISH MUCH OF A MUSKRAT'S DIET, BUT HE ALSO IS FOND OF CLAMS, FISH, AND FROGS.

MAN IS THE MUSKRAT'S GREATEST FOE! HE KILLS THE ANIMAL FOR ITS PELT, WHICH HE CALLS "HUDSON SEAL"

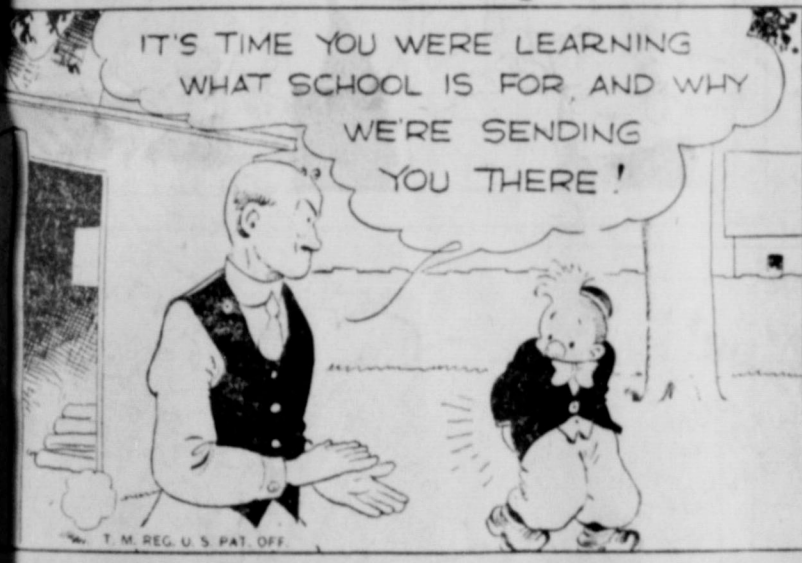

THEY BUILD BEAVER-LIKE HOUSES AND CANALS IN STREAMS AND MARSH LAND. SOMETIMES THEY DIG THEIR HOME IN THE BANK, AT THE WATER'S EDGE

A trip to Chicago for the national tournament was the prize.

The Silver Lining

Mr. Smith—I figure the drought cost us over three thousand bushels of corn.
Mrs. Smith—Dreadful, dear. But, remember, there wasn't a day all that summer that we couldn't get salt out of the shakers.

Denies Knowing Fate of Judge

Charged by her estranged husband that she "knew plenty" about the mystery of the disappearance of Judge Joseph Crater in New York five years ago, Jayne Manners, above, blond film actress and former New York showgirl, denied any knowledge of the case when questioned in Los Angeles by the district attorney, who said no action is contemplated against her.

ROLLING ALONG

"When did you first discover that you loved the girl you married?"
"Oh, she put me wise to it, after I'd been going with her awhile."

Heads Veterans of the South

CLEVER, HUH?

"Your wife is very ingenious."
"I should say so. It seems to me she finds a new place to hide my dress shirt studs every time."

AAA Editor Is Dutcher's Bride

Turning from the state of matrimony, Rodney Dutcher, below, Washington correspondent for this paper and NEA Service, is honeymooning with his bride at Martha's Vineyard, Mass. Malin Craig to Head U. S. Army

Malin Craig, head of the army in Washington and former army cavalry chief, and Maj.-Gen. George S. Simonds, now deputy chief of staff.

Mother to Face Kidnaping Trial

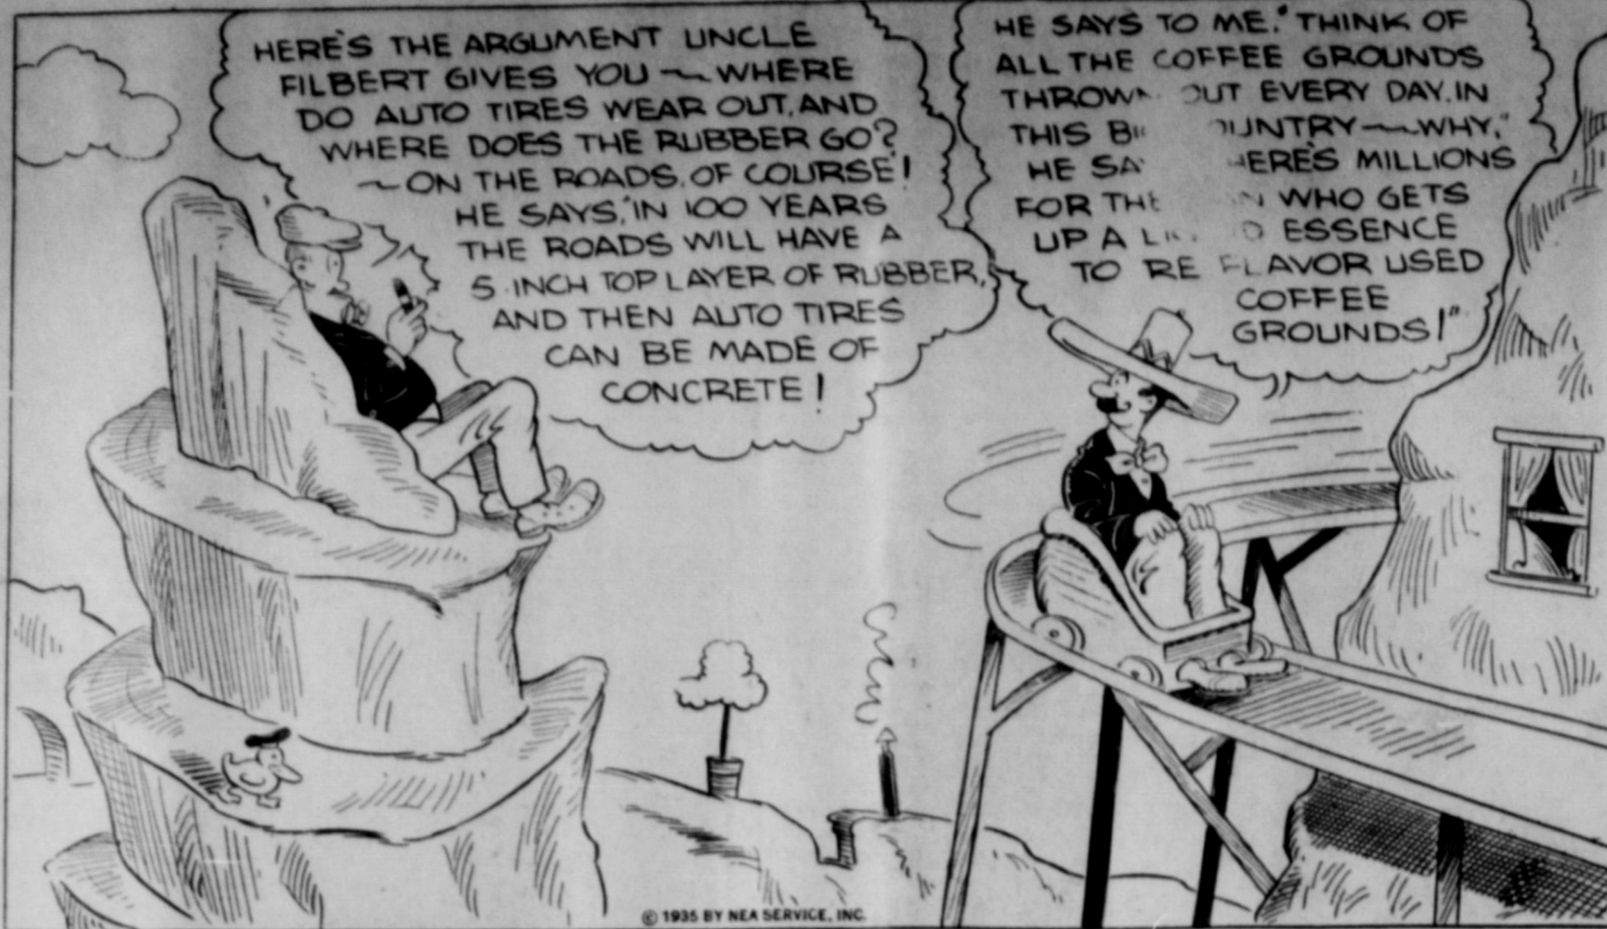

Climax to a four-year-old kidnaping case will come on Sept. 30, when Mrs. Nollie Tipton Muench, above, goes on trial in Mexico, Mo., on a charge of aiding in the abduction of Dr. Isaac D. Kelley, St. Louis physician, in 1931. Mrs. Muench, wife of another St. Louis doctor, recently became a mother. She was indicted in 1931.
