Red Cross Committees for Annual Roll Call Named

Proclamation

The American Red Cross, in facing its greatest peace-time test, this year appeals to the American public for a million more members to support its constant battle against human suffering.

During the past year we have been drawn closer to the Red Cross through its far-flung disaster relief, its aid to the innocent non-combatants of war, as well as through its daily services designed to stamp out misery in the form of disease and the ever-present threat of accidental death.

Those of us who have seen the Red Cross grow in recent years can understand the need for a million more members. The natural phenomena of disaster and the dangers of a mechanized age continue to be the source of suffering and accidental death. We must recognize that the ability of this great organization to serve is directly proportionate to the membership support of the public.

This year's appeal of the Red Cross for your support will be made November 11-30. Our community has never failed to respond to the Red Cross call for assistance; and for this reason, I feel confident that we shall be proud to enroll our share of the million more members.

As Judge of Hall County, I designate this period as the time all members will have an opportunity to renew their affiliation and to afford those who have not enrolled to help the Red Cross help others.

M. O. GOODPASTURE County Judge.

With the goal set at 715 memberships for Hall County, Red Cross workers this week began active work in organization of forces for the annual roll call which starts Saturday, November 11. Roll call ends November 30.

E. E. Roberts, Hall County Chapter chairman, and Carroll Smyers, county roll call chairman, announced this week the roll call chairmen of each community, as well as the goal for each to strive to reach.

The county has been organized and divided into districts, Smyers and Roberts said Tuesday, and the number of workers needed is 104. The workers will contact people throughout the county and invite them to join the Red Cross.

"Not since the World War," Smyers said, "has there been such a demand on the Red Cross. In the past only two per cent of Hall County citizens have been members of the Red Cross, and it is our hope to far surpass this past number."

The Red Cross long ago adopted the policy of not advertising the work which the organization does, Smyers said, but the work in the past has been indispensable in many cases where no other help was rendered, or even possible. In this county, announcement was made about two weeks ago of an allotment, already set aside, of \$400 to be used in tonsilllectomies for under privileged children of the county.

"We need the Red Cross help, and the Red Cross needs our help," Smyers declared. He added that if any more is allotted to the county, it will depend on the success of the membership drive.

Only 50 cents of each membership subscription is sent to the national offices, no matter how large the donation may be.

The goal for Memphis has been set at 400 members, with a total of 68 workers required. Mrs. Jessie Jones has been made chairman of the committee to solicit subscriptions in the business district.

James S. Grundy, Former Memphian, Dies in Tucumcari

Brother to J. A. and D. A. Grundy Moved From Hall County to New Mexico, 1916

Funeral services for James S. Grundy, last of eight brothers and former resident of Memphis, were held last Sunday afternoon in Tucumcari, N. M., with Rev. A. J. Luck, pastor of the Tucumcari Presbyterian Church, officiating. Mr. Grundy died Saturday night.

Mr. Grundy was a brother to J. A. and D. A. Grundy, pioneers of Hall County, both of whom are now dead. Both Mrs. J. A. and Mrs. D. A. Grundy are still living in Memphis at the present time.

Mr. Grundy was born in Bremen, Ky. He was married to Miss Minnie Giddies of Estelline in July of 1904. In 1916, he moved from Memphis to Logan, N. M., and began ranching. In 1930, he and his family moved to Newkirk, N. M., where he bought a sheep ranch. He was living there at the time of his death.

He was a Mason, an Odd Fellow, and a member of the Presbyterian Church. He is survived by his wife, a son, James A. Grundy of Pampa; a sister, Mrs. J. A. McIntire of Estelline; and one grandchild.

Attending the funeral were Mrs. McIntire, and Mrs. J. A. Grundy and son Allen of Memphis.

Hall County Gins Get 4,583 Bales

A total of 4,583 bales of cotton were ginned in Hall County from the 1939 crop prior to October 18. C. Lee Rushing, special agent for the Department of Commerce Bureau of the Census, reported this week.

In comparison, 12,982 bales were ginned at the same date last year. Up to October 1, a total of 2,498 bales had been ginned.

Various men over the county have estimated the probable crop as between 7,500 and 12,000 bales. Last year's crop was approximately 27,000 bales.

aggressive member of the Future Farmers of America, who was chosen as President of the Memphis District by members of the local F. F. A. chapter recently. The district is composed of Memphis, Quitaque, Estelline, Clarendon, Turkey, and Lakeview. George will get his first taste of the presidency at a district meeting of the F. F. A. at Lakeview Saturday morning.

Good Neighbors of Memphis to Aid in Program at Turkey

John Deaver to Speak at Armistice Day Celebration at Neighboring Community

The Memphis American Legion Post and Chamber of Commerce will cooperate with the American Legion Post and other civic leaders of Turkey in an all-day celebration Saturday, November 11. Carroll Smyers, secretary of the chamber of commerce, announced this week.

District Attorney John Deaver, member of the local American Legion, will be the principal speaker of the day. The Memphis Black and Gold Band will provide the music during the day and will participate in a parade at Turkey.

The participation in the Turkey Armistice Day celebration is a part of the Good Neighbor program recently started by the local chamber of commerce. The first trip was made to Plaska about two weeks ago.

The invitation to participate in the program was made more than a month ago by Carl Roewe, editor of the Turkey Enterprise. Mr. Roewe was in Memphis last week in the interest of the proposed day's program.

Just what will constitute the entire program of the day was not learned. Turkey citizens, led by the American Legion there, will, however, furnish most of the entertainment.

All Memphians who can possibly make the trip are being urged to do so. Plans were not definitely worked out, but the Turkey citizens are planning to feed as many of the visitors as possible.

The trip to Plaska was the first in a series of Good Neighbor Nights to be sponsored by the Memphis Chamber of Commerce. No trips have been scheduled at the present time, due to the union revival now in progress.

Rotary Governor Hiram Arrant of Abilene to Be Here

To Discuss Club Activities And Administration With Local Rotarians Tuesday

Hiram Arrant of Abilene, who is governor of this district of Rotary International, will be in Memphis next Tuesday, November 7, at noon on his official visit to the Rotary club of this city.

Mr. Arrant is a professor of chemistry in Hardin-Simmons University and is Abilene City chemist, a member of the Rotary club there, and was elected governor of the 127th District at Rotary's 30th annual convention in Cleveland last June.

President S. Carl Harrison and Secretary J. Henry Read of the Memphis Rotary Club and the 38 other members of the club will confer with Rotary Governor Arrant on matters of club administration and activities. The Rotary Club of Memphis was organized in 1924 and now meets weekly at the Christian Church.

Rotary Governor Arrant was one of the nearly 200 men who were elected to serve Rotary's 5,000 clubs and 210,000 Rotarians in 80 countries and geographical divisions of the world.

7 Rural Schools In Session Again

Seven schools in Hall County are reopening this week after dismissals of from four to six weeks for cotton picking. County Superintendent T. G. Greath announced Monday.

The seven reopening are Lakeview, Eli, Brice, Lesley, Pleasant Valley, Plaska, and Webster.

Opening next week will be two more of the schools, Weatherly and Bridle Bit. The schools at Deep Lake and Buffalo Flat have already reopened. The school at Parnell will not open until Monday, November 13.

The majority of the schools will have an eight-month term, the county superintendent said.

From North to South, East to West, Dr. James Rayburn Has Held Meetings Almost Everywhere—Nineteen in Texas, Fifty-Seven in His Native State of Kansas—All in Only Twenty-Eight Years

Friendly, sociable Dr. James Rayburn, Presbyterian evangelist who is conducting the union revival now in progress, was interested more Wednesday in the revival and its services than in telling the story of his life.

For example, he told of the special services for men only to be held next Sunday afternoon at 2:30 o'clock in the revival tent, and also in the special services for women only at 3 o'clock next Sunday afternoon in the tent. Mrs. Rayburn will conduct the services for women.

Then, too, he was interested in the morning prayer meetings held each morning in connection with the Union Evangelistic campaign. As a matter of fact, the revival seemed to be taking almost all of his time.

He did have time, however, to

say that he was born in Illinois, moved to Kansas at the age of eight years, and attended school at Eldorado, Kans. After that, Dr. Rayburn did his theological work at the Presbyterian Seminary at Omaha, Nebr.

Dr. Rayburn has not always been an evangelist. From 1903 until 1906, he did missionary work in Montana. Then he was pastor of a church in Omaha for three years, after which he was pastor of a church in Marshalltown, Iowa, for three years.

He has been in evangelistic work for 28 years, 25 of those in union revival work. The well-known gray-haired evangelist has been around, too. Just this past summer, he held a meeting in California, and then went all the way to Washington, D. C., to hold another. That was

SCHEDULE OF SERVICES

Sunday morning services begin at 10:30 o'clock.

Night services begin at 7:30 o'clock.

Friday night services will begin at 7 o'clock instead of 7:30, due to football game.

Manhood service Sunday afternoon at 2:30 o'clock.

Womanhood service Sunday afternoon at 3 o'clock.

Morning prayer meetings held each morning. Attend your district prayer meeting.

Bible study hour Tuesday, Wednesday, Thursday, and Friday afternoons at 2:30 o'clock.

No services are held on Monday, rest day.

In July, and since then, he has held other meetings, part of them in

Texas.

Altogether, he has preached 19 towns and cities in Texas, the first Texas meeting he held in Gainesville. He is now conducting his second revival in Memphis, Kansas, however, which he considers his home state, has been the site of more of his revival meetings than any other state. He has practically covered the entire state, all the large cities in fact, having held at least 57 meetings in that state. He may have held a few more, but that was all he could think of by just naming the towns off one by one. Incidentally, his popularity as an evangelist is proved by the fact that many of these towns have had him hold two meetings.

Dr. Rayburn has been in every state in the Union with the exception of three—Georgia, Florida,

and Alabama. He has not preached in all of the other 45, but he has at least visited in them.

He has held two meetings in his home town, Newton, Kans., and two in Eldorado, where he went to high school. Two of his most successful meetings were in Oregon, one in Portland and one in Fort Klamath.

Dr. and Mrs. Rayburn have four sons, one of whom is already a minister, and another who is studying theological work. James is now studying at the Dallas Theological Seminary; Robert, who has done some evangelistic singing, is now pastor in Bellevue, Nebr.; Frank, who only recently became 21 years of age, is in law school at Topeka; Paul turned banker and is now working in

Lakeview W. M. U. Has Fifth Monday Meeting at Church

The theme for the fifth Monday meeting of the Woman's Missionary Union at the Lakeview Baptist Church was "Let Your Light Shine."

The program was opened with the singing of "Let the Lower Lights be Burning." After a prayer by Mrs. Schillinger and a short devotional from James 4:7, the group sang "Our Best." Mrs. E. F. Davis gave a reading, "God Lights Our Lamp," which was followed by a piano solo by Mrs. H. W. Spear.

The remainder of the afternoon was spent in games, reading fortunes, eating candy and doughnuts, and drinking punch served by the Halloween witch in person from her old black pot. Mrs. R. A. Bowerman was chairman of the social committee. Present were Mesdames Vern Patton, John Blanks, R. L. Milton, S. F. Melton, A. R. Mitchell, Winifred Middleton, Ethel Reeves, E. C. Barnett, B. F. Davis, Cartie Dunn, Don Wright, Guy Barnett, Barton Durrett, O. B. Barnett, O. L. Favors, Ritchie, Schillinger, Brister, Spear, and Reed.

Speech Arts Class Of Mrs. Harrison Presents Recital

Mrs. T. M. Harrison presented her speech arts pupils in an informal Halloween recital at her studio Saturday afternoon. The students were in costume, adding to the effectiveness of the program. Following the program, Halloween games were played and refreshments served. Appearing on the program were Wilson Quizenberry, Martha Allen, M. L. Evans, Laura Houston, Jimmie Bownds, Peggy Lou Davenport, Fletcher Bownds, Martha Ann Wattenbarger, Orsie Howe, Barbara Bradley, Charles Cullen, Jan Allen, Creed Larb, Mary Jo Watson, Jack Hightower, Charlene Crow, Gladys Ione Bownds, Martha Lynn Godfrey, and Billie Claire Mason.

British-Soviet Fashion Pact

On the fashion front appears black coat with horizontal cartridge pleating, left, topped by felt hat with military brim, suggesting greatcoat worn by Russian Cossack. Glangarry bonnet and black crepe dress with gold military braiding, right, resembles British uniforms.

For Fall, It's a Feather in Your Cap

Fall hats have military leanings this year in keeping with the war influence, but some, like one at right, have Thanksgiving motif. Gay headgear of the Bersaglieri, famed Italian corps, inspires military swagger felt hat at left. "Pillbox" hat, center, is worn with a snood of orchid wool jersey. The Pilgrim number is of velour, with velvet ribbon, shiny buckle and a turkey feather.

Paris Continues to Dictate Fashions Despite War

Fall and winter outfits pass censors easily enough as Paris remains a fashion center despite war. Left: removable silver fox collar on smart woolen coat is set off by hat, bag and gloves of antelope suede. Center: plaid design of sport coat is in chestnut, caramel and brown. Right: military-like cape is worn over plain wool skirt and plaid jacket, with pouch-like bag of alligator skin.

Formula for Safe Driving

Cold days are ahead! Get your car ready for winter—but don't forget the tires. Worn treads, inferior tires, and weak tubes are a menace to every motorist in the winter time. A skid on icy pavements may mean your trip ended in a hospital—or it may mean that it's ended forever. Be safe and equip your car with Seiberlings all round and know that you have the maximum protection that tire engineering can give you.

tying Quana 0-0, although the Rockets won over Quana last year 34-0. Wheeler then downed the Wellington crew 7-0, and several touchdown threats from the Rockets proved futile. Then Clarendon barely nosed out a victory over the Skyrockets 25-19, and the Rockets could not complete a pass over the goal to at least tie the score, even though they made two attempts.

The Skyrockets will be further jinxed since it is doubtful, according to information received here Wednesday, if Boyd Williams, the outstanding running back of the Rockets will be able to play in the Friday tilt. Williams received a sprained wrist in the Panhandle game.

So far this season, however, the Cyclone have had good luck as far as serious injuries are concerned. Big Floyd Melton has been limping all season due to an old knee injury, but outside of that few injuries have come up. Last week, Isadore Hardin, regular center, suffered an acute case of appendicitis on Thursday, but got out of bed and played the entire 60 minutes of the Wheeler game.

Not since 1935 has the Memphis team won over the Skyrockets, that a 25-0 victory in Cyclone Stadium. In 1936, Wellington took Memphis down by a score of 40 to 21; in 1937 the score was 44 to 0; and in 1938, the Rockets again won, 20 to 0.

Line Coach Wilson Dees has had his charges working hard on blocking and tackling, while the backs, under the direction of Head Coach Abe Murphy, have been taking to the air and polishing up on their pass offense.

Co-Captain Joe Crump has been doing better punting this week. In the Wheeler game Crump kicked twice, averaging 55 yards per punt.

The probable starters for Wellington are: le, Stafford; lt, Belaw; lg, Williams (Bryan); c, Brewer; rg, White; rt, Cox; re, ...

Some promise material, pipe, and other equipment. T. T. Loard has given the casing, if it can be pulled from an old well. In fact, a number have expressed willingness to make some kind of contribution.

A lot of labor will be needed to install the windmill, storage tank, and lay the water mains. Donations of labor will be acceptable and count just as much as cash.

The well being tested is on the west side of the old cemetery. If the water is not ample for both cemeteries, another well will be put down in the new cemetery, across the road from the present well. The promoters of the project do not propose to stop until water is secured for both cemeteries, if humanly possible.

Compress Worker Is Slightly Injured

Marion Long, Memphis compress worker, was injured slightly Wednesday when his arm was caught in the door of the cotton press.

The injury was not serious, however, and Long was released from a local hospital Wednesday afternoon immediately after receiving treatment. His arm was badly bruised in the accident, but was not broken.

Just Call 55 for Police Help; New 'Phone Installed

If you have been having trouble trying to decide what number to call if you want to get in touch with the City Police Department, your troubles are now over.

A telephone has recently been installed in the Department's office—and the number is 55.

In addition, a man will be on duty at the office at all times, Ed McCreary, Chief of Police, said this week.

McCreary said that a number of people had been the victims of stolen parcels from their cars recently, and he urged the people of Memphis to lock their cars to prevent this from happening.

NOT FORGOTTEN . . . JUST MISPLACED

NATIONAL POLITICS has taken a back seat for the main bout of the day . . . the European war. But the politics, of course, is only quiet on the surface . . . the undercurrent is still going on.

National unity, as it should be in a time of crisis, has come into being. No longer is it news when someone asks President Roosevelt if he will run for the unprecedented third term . . . for he makes no answer.

The Republicans, of course, are on the spot. For almost eight years, the Republicans have been the underdogs and naturally now they want to be the favored side once more. Just what step they will take is not known . . . if that step has been decided.

Republicans naturally agreed with Roosevelt when he said the nations should forget partisanship in the face of the unsettled conditions in Europe . . . that is the only thing the party could do.

National unity, however, has been somewhat in danger during the recent controversy over the embargo and cash and carry plans. The majority of Democrats seem to favor the cash and carry plan, although some of them cannot see the president's side. The Republicans are split, to some extent, on the same question. But the Republicans have taken no definite steps in lining up on either side of the controversy.

It appears now that the Republicans will take no hard and fast side either way . . . the question is too unsettled in the public mind. Neither are the Democrats standing too securely together on the question.

Whether Roosevelt will run for the third term is still another unsettled question. Recent public opinion polls show that more people in the United States would vote for Roosevelt for a third term now than would have several months ago.

But the President has made no answer . . . even in the face of the direct question from former presidential candidate Landon, who told Roosevelt that a statement one way or the other now would aid in national unity. Even those who are presumably "in the know" at Washington apparently do not know the answer. Roosevelt, then, is about the only one to know . . . and he has never definitely answered.

Politics, however, has taken the back seat only on the surface. There is that undercurrent of names, names, and more names. Almost every week, a new name for the candidacies for president and vice president is added. "Cactus Jack" Garner has led in most of the public opinion polls. Paul McNutt was put forward for awhile as a probable "sure-winner." But the Democrat side has been quite unsettled . . . presumably waiting for Roosevelt's answer.

On the Republican side, Dewey, Taft, Hoover, Landon, even Lindbergh have been advanced as possible candidates . . . and the Republicans have cautiously advanced other names too.

Using the phrase that all is quiet on the political front is just what the phrase signifies . . . all quiet on the front—the fighting is being done behind the lines.

IS SEEING BELIEVING

FILM COMPANIES TODAY are attempting, like many newspapers over the nation, to prevent any misunderstanding of news which has been censored. Almost all films shown today are accompanied by the explanation that the films have been censored.

The censorship, of course, comes from the foreign countries where the pictures have been taken—those countries who do not wish any adverse publicity as far as their side of the war is concerned.

It is the only fair thing which the film companies can do to prevent any jumping at conclusions by the patrons of the movie houses. Naturally, if any of the more horrible "horrors of war" were to be released by the country creating the horror, some person, or maybe many persons, would hurry to side in with that country's enemy.

That would never do . . . according to the psychology of the war propagandists.

The film companies realize this, too, and as a result wish to point out to their patrons the fact that the films are not always complete. Just how complete the films are, the film companies probably know no better than the patrons . . . but they are sure of one thing . . . a foreign country is not going to be lowered in the minds of the public of this country if it can be helped.

Thus the censorship . . . and thus the warning: "These films have passed through foreign government censorship." And in this case, the patron can not always believe what he sees.

Weapons of a Righteous

The International Uniform Sunday School Lesson for Nov. 5
Text: Matthew 5:17-20, 28-45: 6:1-4

WITH the world again in a major war and the threat of conflict spreading, a pre-Armistice day lesson on the righteousness in the Kingdom has great significance.

The conflict being waged in Europe is in itself a war between autocracy and democracy, between the power of might and the power of right. It is also a part of a larger war in which we must all engage, one which cannot be fought with material weapons.

Paul wrote long ago to the Christians at Ephesus: "We wrestle not against flesh and blood, but against principalities, against powers, against the rulers of the darkness of this world, against spiritual wickedness in high places." This warfare is a warfare of love against hate, of right against wrong, of peace against war and violence. Here in our lesson, those who would engage in that warfare may find the words and the example of their great Commander.

Jesus made it plain that He had not come to destroy the law or the prophets, but to fulfill. His whole purpose was constructive, a purpose of salvation and redemption. We cannot insist too strongly upon this essential nature of the teaching of Jesus and His purpose in bringing the Gospel to man.

THE gospel of salvation and fullness of life is distinctly at variance with war and destruction and that perversion of human mind and energy, in which the powers of men and their ingenuity and strategy in

CULLED FROM THE DEMOCRAT'S EXCHANGES

Retribution
Quannah Tribune-Chief: Letters from a Wichita Falls law firm were received by a number of Quannah merchants Tuesday in each of which a cashier's check for each business man was enclosed. The letter explained that a party whose name had not been disclosed had expressed the desire to make retribution for merchandise taken from the stores without being paid for. The letters said that the enclosed amount was this party's liberal estimate of the value of the merchandise taken. The Corner Drug store received \$3, Curtis Variety Store \$30, Moore-Thwing Drug \$4, J. E. Woolbright \$5, Perkins-Watkins \$15, and Magee Drug \$30. None of the firms mentioned missed the merchandise nor had any idea from whom the money came.

A New Idea
The McLean News: "Before and after taking" is never used in liquor advertisements, yet it would present a true picture of the drink evil.

Hates for Hitler
"Ed-Aches" in the Dahlart Texan: When a six-year-old boy begins drawing pictures of a U. S. plane bombing Hitler, it's something to cause chills up and down the spines of his parents. Already an intense hatred of Hitler, akin to the same feeling for the Kaiser in 1918, is developing in this country.

The Weather
"You Who" in the Shamrock Texan: Wonderful summer weather isn't it?—by the way, what kind of winter did we have?

Give Others a Chance
"Cracks" in the Chillicothe Valley News: There shouldn't be such a hullabaloo made over the radio speech of Charles A. Lindbergh. He merely flew across the Atlantic, you know. Wrong Way Corrigan should now express his opinion, and then Catcher Ernie Lombardi of the Cincinnati Reds.

Maybe So
"Temple of Truth" in the Donley County Leader: When some people make up their minds, they leave out a lot of important matter.

Fat
Randall Abernathy in the Childress County News: Life is where you find it . . . You turn a corner. A woman lumbers out of the crowd in front of you. You start to walk around her, then you look again and slow down. She's a huge woman, probably the fattest woman you've ever seen. With each step the fat rippled over her body in rolls as big as your leg. You're not being vulgar. You're just marveling at a freak of nature. You can see it beneath her dress, the fat squirming and rolling in frenzy, seemingly searching for a way out. But it never does.

True
The Prairie: You can run into debt, but you have to crawl out.

Savin: Democracy
After commenting on the possibility in later years of Japan and Russia sweeping westward over Western European nations, Deskins Wells in the Wellington Leader has the following to say:

3 'R's' of Mouth Health Important, Says State Department of Health

Children brought up according to the three "R's" of mouth health have a very good chance to escape the discomforts and accompanying ill-health that comes from dental disorders, according to the Texas State Department of Health.

This season of the year, when the children are getting adjusted to school routine, is a particularly appropriate time to give special thought to the physical as well as the mental aspects of a child's development. The child who is physically fit makes much better progress in school, than does the boy or girl who is below par. Parents can help to keep their children fit by carefully following the rules of mouth health in bringing up their children.

The three "R's", of course, are not "Reading, Riting, and Rithmetic," but are "Right" foods, "Real" cleansing, and "Regular" office visits, which are as important to mouth health as the old three "R's" are to mental development.

The teeth and other mouth tissues depend for their original structural strength and their continued resistance to ill-health on the quality and quantity of building materials made available in the food one eats. The first set (baby or foundation) of teeth obtain their materials from the mother before a child's birth. The permanent set may depend on the diet of both the mother and the child itself. Consequently, the diets of both should be rich in calcium, phosphorous, and in those vitamins that seem to affect mouth tissues, with special emphasis on vitamin "D" which is found principally in sunshine, codliver oil, and fish. That is, there must be the "right" food in the diet for strong, decay-resisting teeth.

"Real" cleansing means twice-a-day thorough brushing of the teeth with effort to reach every tooth surface, and finally, the equally flushing of the mouth with some mild antiseptic liquid or saline solution. The germs that play the part of tooth and gum destroyers in the diseases known as dental decay and pyorrhea are more active in unclean mouths. Real cleansing will help to prevent their activity.

But it is unwise to place complete dependence for dental health on the first two "R's". So "Regular" dental office visits should be made if only to assure one's self that the mouth is healthy. These visits permit your family dentist to discover defects when they are small and to correct them before much damage is done. Naturally these corrections are much more easily made than those which have gone unattended.

Children of two and a half These thoughts remind you of familiar knowledge—the age old struggle for power waged between nations and races. They should remind you of something nearer home. That is the need for this nation staying out, not wasting any manpower or resources, staying strong. By so doing we may be able to save civilization over the world. Right now our task is to save democracy at home. We tried saving it over there once. This time let's try saving it here. If you love life and liberty, it is still worth keeping, you know.

years of age are not too young to start dental office visits. From that on "Regular" visits, combined with the other two "R's" will be good insurance of continued dental health.

Mr. and Mrs. Curtis Bourland of Laramie, Wyo., came last Friday to visit their parents, Mr. and Mrs. Ed Bourland and Mr. and Mrs. R. R. Thompson.

Make the Job Harder?

C. RICHARDSON, Associate Editor

Here's that girl you've been hearing about for years. Ann Langdon, 19, of Valley Stream, N. Y., was crowned typical "farmer's daughter" at Mineola, N. Y., fair.

G. G. PERKINS & SON, dealers in new and used furniture furniture also participated in the United Gas Corp. cooking school held here recently, having added a line of C-P gas stoves to their stock. All Possible Soil Building Payments Not Being Earned

County Agent Hooser Issues Statement to Farmers on Conservation Applications

Farmers in Hall County are not earning as much in soil building payments as is possible, County Agent W. B. Hooser said this week. He has issued the following statement to explain how more money in conservation payments can come to farmers in this county:

On each farm there is a soil building payment set up for the farm which the producer may earn by carrying out some soil building practices. In 1938 the total amount which could have been earned was \$36,900. The amount which the farmers in the county earned was only about \$31,400.

Therefore, Hall County farmers returned to the Washington office \$5,500 which they could have earned.

The 1939 compliance form indicates that there will be a much larger percentage of the soil building allowance earned in 1939 than in 1938. However, there are some producers who have not carried out any soil building practices, and a greater number who have earned only a part of the soil building allowance set up for the farm.

The county office is now in the

process of preparing the applications for 1939 soil conservation payments and only those who have earned the full amount of the soil building allowance will be in position to have their application submitted for payment before the end of the year 1939.

There are two reasons why it is not possible for the county office to submit your application for payment before you have earned all the soil building allowance for your farm. First, the law provides that each producer may earn these payments anytime during the year. If the county office should submit the application for payment, and if the farmer, between now and the first of the year, earn more practices which would entitle him to more payment, the county office would have to submit a supplement application for payment.

Second, the county committee

is anxious for each farmer to earn the maximum amount of payment which may be earned on his farm.

Therefore, the county office will hold these applications giving you an opportunity to earn these soil building practices as long as the county office can.

Funeral Services at Prices You Can Afford to Pay

OFFERED BY

WOMACK BURIAL INSURANCE CO.

"A CONSOLATION TO THE LIVING AND A PERFECT MEMORIAL FOR THE DEAD"

FUNERAL SERVICE

Offered By

Womack Funeral Service Insurance Company

You have heard people remark "Why doesn't some safe and sound company offer insurance for times like these? Why don't they have a simple funeral service policy? Why don't they advocate the buying of all the other mediums of insurance that they can afford to carry, yet add to an estate \$150.00 at a price everyone can afford to pay, yet provide for those that are unfortunate and cannot carry larger insurance policies." Thus, we are offering to the people that we serve the type of merchandise, service and considerations that they are otherwise fully paying for.

This policy provides a complete Funeral Service for every member of your family from 1 to 85 years of age. It further provides FREE AMBULANCE and INVALID COACH service during any form of illness to and from your hospital of choice within Seventy-Five (75) Miles location of the patient.

When employment conditions do not permit the residence of a member to remain within a 75 mile radius of Hedley, Texas, then the insured member may be assured of receiving a check in the amount of \$150.00 in the locality in which he has moved as long as he or she keeps the said policy in force.

The Womack Burial Insurance Company is built upon a sound financial basis and is carefully managed and rigidly supervised by the State Department of Insurance.

CHARTERED UNDER THE LAWS OF THE STATE OF TEXAS

IT IS EASY TO OWN!

No medical examination is required, but the applicant for a policy must give a correct statement of ages, general health and physical condition. You cannot afford to go unprotected, for you cannot tell when your family will need this most.

WOMACK FUNERAL SERVICE INSURANCE ACCEPTED WITH BIG DEMAND IN DONLEY CO.

The Womack Funeral Service Insurance operated through the Kelso-Womack Funeral Home in Hedley has been accepted with a big demand in this locality. The agents are enthused over the acceptance of this particular insurance and are well pleased with the great possibilities they are working for from a business standpoint. This insurance was designed for business conditions as they have existed for the past several years.

For rates, the Womack Insurance has kept them within a reach that the people can afford to carry their insurance, and in reality they brought complete funeral services to this locality at a price the general public can afford to pay through their insurance plan of funeral service. They are rendering a further greater service to the public, they let no suffering person be without the service of an ambulance. The Womack Burial Insurance offers free Ambulance service to their policy holders to and from their hospitals of choice within seventy-five miles of the patients locality. Their rates are extremely lower than many burial insurance rates and their policy holders can be assured of not being burdened by an increase in rates after they have been a member for many years. They are operating under a permanent charter granted to a local mutual burial association and they will not be changing their set-up.

The Womack Burial Insurance came into this territory last June and introduced a type of insurance and funeral service that the general public has appreciated and accepted with a great demand. This young firm has enjoyed good business in its surrounding territory, part of the funeral services being conducted in Memphis while they have enjoyed good business in Donley County. There has been a reason for this wide acceptance of this new firm. After investigation, the public will find it through the Funeral Insurance and the type of service offered by this firm. At all times, the public can depend on efficient, unobtrusive service from the Kelso-Womack Funeral Home.

Formal Opening of Cudd Service Station Set for Saturday

CUDD CAME TO HALL COUNTY FROM ARKANSAS— HE HAS MADE GOOD IN OIL BUSINESS SINCE THEN

OPERATOR—E. E. Cudd, who came to Memphis in 1908, started in the oil business in 1919. He will be active operator of the new station which opens Saturday.

W. Cooley Makes Good in Arkansas

That Wade Cooley, son of Mr. and Mrs. R. J. Cooley of Memphis, is making good at his home in Fort Smith, Ark., is evidenced by his selection for the regular feature column, "Who's Who in Sebastian County," in the Sebastian County News.

Mr. Cooley was born in Scott County, Ark., received his education at Hyde Park High School in Chicago and Antlers High School in Antlers, Okla., where he worked in drug stores for experience, and then graduated from pharmacy school at the University of Oklahoma.

After registering in Arkansas, Mr. Cooley traveled on the road for Eli Lilly Pharmacy for two years. He was with Gaddis Drug Company in Muskogee, Okla., approximately eight years and in 1929 moved to Fort Smith, where he has opened two drug stores.

Until recently, when he resigned all civic and club activities because of lack of time to attend them, Mr. Cooley belonged to the Rotary Club, the Masonic Shrine, and was a member of the chamber of commerce. He is affiliated with the Arkansas Pharmaceutical Association and the National Association of Retail Druggists. He was active in the Lions Club and the Junior chamber of commerce while living in Muskogee.

Building to House Auto Supply Store Of Cudd-Combust

Structure Is 50 by 80 Feet;
Station to Have 7 Pumps;
To Feature N-D-Pendent Gas

Formal opening of the new Cudd Service Station, owned and operated by E. E. Cudd, will be held Saturday, November 4. The station, located at the turn towards Childress on Highway 370 (Noel street), will in addition house the Firestone Auto Supply Store, now located at 500 Noel street.

Final work on the building itself is being done this week, and the station will be ready for business by Saturday, Mr. Cudd said. Nelson Combust, who has been operating the auto supply store, is making final arrangements for the removal of his stock.

The building housing the new service station and the supply store is 50 by 80 feet. The front has been stuccoed and painted white. The awning over the drive is supported by four posts, two of which are square-shaped and covered with stucco, and two of which are made of cylindrical steel.

Four new gasoline pumps have been purchased by Mr. Cudd, and have already been installed. Three of the pumps now used at the old station will be moved to the new location, and the kerosene pump at the old station will also be moved. The four new pumps have been set up at the front of the station. Two of the old pumps will be on the east side, and the third, to be used for Ethyl gas, will be at the southeast corner of the building.

Three types of gas will be handled, Mr. Cudd said. The lowest grade will sell for 12 cents per gallon, the regular for 13 cents, and the Ethyl for 18 cents per gallon. Mr. Cudd's gas has the brand name N-D Pendent.

Oil to be featured by the new station is Mr. Cudd's own brand of oil, Hi-Speed. In addition, the new station will be equipped with almost any other standard brand of oil which may be desired, Mr. Cudd said.

In the rear portion of the building will be the washing and greasing equipment. In addition, the station will offer generator and starter service, as well as battery service. Regular garage service, however, will not be offered, Mr. Cudd said. A driveway to the rear of the building has been built on the west side of the building, giving easy access to entrance to the rear.

The auto supply store will be located in the front portion of the building, as will the office room and modernly equipped rest rooms. Firestone tires will be featured by the auto store. Electric refrigerators and a stock of radios will be carried, as well as a complete line of automobile parts and accessories. Mr. Combust will remain as manager of the supply department.

The ceiling of the front portion of the building has been made with Celotex, designed in modernistic fashion. Indirect lights are being installed.

A specially-constructed lounge room in connection with the ladies' rest room is now almost completed. Comfortable furniture is to be installed in the room. Entrance to the ladies' rest room is from the inside of the front portion of the building. The men's rest room is located on the east side of the building, with an outside entrance from that side.

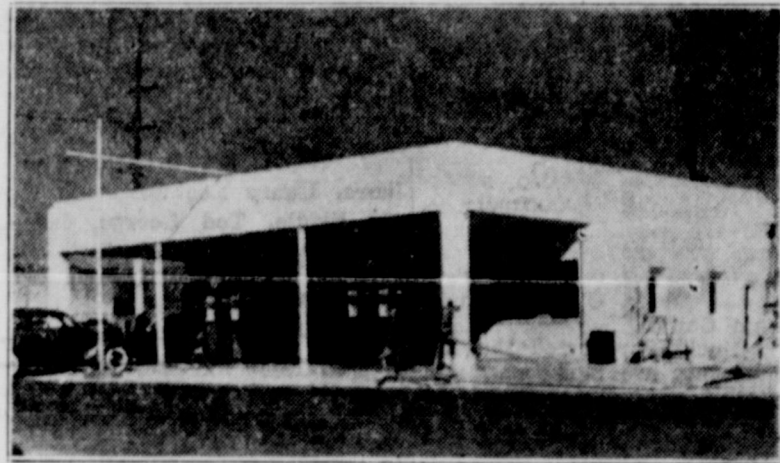

Mr. Cudd deals not only in the retailing of oil, gasoline, and auto parts, but also in the wholesale oil and gas business. He sells his products to ten stations in the county, located in communities and towns such as Brice, Hedley, and Lakeview.

Marine Corps Has Unlimited Quota

An unlimited quota of new marines for the month of November from the state of Texas has been allotted the Dallas Marine Corps recruiting office by the Marine Corps headquarters at Washington, according to information received this week by J. Henry Read, postmaster.

Vacancies now exist for "leathernecks" aboard battleships, cruisers, aircraft carriers, and at home navy yards and in aviation.

The constant desire to "get there" causes one out of each four accidents in Texas.

NEW BUSINESS HOUSE—The new Cudd Service Station, operated by E. E. Cudd, which will be formally opened next Saturday.

Eight Men Employed at New Station To Serve Customers—Retail, Wholesale

E. E. Cudd, who is formally opening the new Cudd Service Station on Noel street Saturday, has in his employ eight men—and a partner in the Firestone Auto Supply Store, which will be moved to the new building.

Most of these eight men have been working under Mr. Cudd for at least two years. Oldest in the number of years of service is Clarence (Slats) Burks, who joined up with the Cudd forces in 1934. Slats is one of the five men on duty at the 24-hour service station.

Next to Burks in the number of years at the Cudd station is Buster Morrison, who has been working under E. E. Cudd for the past four years. Morrison drives one of the transport trucks, hauling gasoline and oil into Memphis from the refinery from which the products are bought.

Three of the eight men have been working at the Cudd station since 1936. They are A. H. Miller, Chester Grimes, and Russell Crone. Miller takes care of the bookkeeping for Mr. Cudd, and is in form a general manager. Grimes drives the delivery truck, carrying oil sold wholesale to stations over the county. Crone is another of the men who services cars at the station.

J. D. Roden is not exactly under the employ of Mr. Cudd, but assists Nelson Combust in the management of the auto supply store. He began working for Mr. Cudd in 1937.

Batter Bourland, who also works at the station, has been with Mr. Cudd for ten months. Youngest in the time employed by Mr. Cudd is Jack Nevins, who drives the other of the two transport trucks.

FRIENDSHIP

By MRS. D. B. MYERS

The P.-T. A. carnival last Thursday night gathered a crowd as large as could well be accommodated. Elbert Archer and children Lavern and Dempster furnished music which all the crowd appreciated. Receipts of the night (after money for gifts was deducted) amounted to \$15.92.

Miss Nita Blevins spent the week-end with Misses Wanda and Ozell Beckham.

Mrs. Annie Belle Campbell of Cotton Center spent the week-end with her sister, Mrs. H. M. Shafer. Mr. and Mrs. John Ward and family visited the J. E. Crisman family of Eli Sunday.

Billy Billington is recovering from an operation. He had his tonsils removed and is not able to attend school yet.

Those from Memphis who attended the carnival were Mr. and Mrs. Johnny Brewer and family; Mr. and Mrs. R. G. Patrick, Jack and Helen; E. W. Patrick and Lamoin; Mrs. Elbert Archer, Charles and Kenneth.

Mrs. E. W. Patrick and Lamoin visited relatives in Turkey Saturday.

Mr. and Mrs. David Myers were Canyon visitors last week-end. Saturday was homecoming day for all ex-students of WTSC.

Mrs. Bessie Archer and son S. B. of Amarillo spent Thursday night with Mrs. Archer's brother, Clifford Padgett.

Dude Spriell of Wellington visited Leonard and Jack Gilcrest Saturday night.

Friendship boys played the Deep Lake boys in basketball Friday night, Deep Lake winning 13 to 12. The friendship girls also lost to the Deep Lake girls.

WEST WARD — JUNIOR HIGH AND HIGH SCHOOL ACTIVITIES

REPORTS ON ACADEMIC, ATHLETIC AND EXTRA-CURRICULA ENDEAVORS

Bonfire and Pep Rally Will Precede Wellington-Memphis Football Game

A huge bonfire and pep rally will be held at the Cyclone stadium on Thursday night preceding the Wellington-Memphis game Friday. Music by the band, yells and songs by the student body, and speeches will make up the varied and colorful program.

Friday will be parents day at the schools. All parents are invited to visit classes throughout the schools.

A gigantic parade will form at the post office at 2:30 o'clock and will be led by the Black and Gold Band. Those who will take part in the parade will be the band, drum and bugle corps, fire truck, West Ward, Junior High, and High School, divided into the respective classes of freshmen, sophomores, juniors, and seniors. The parade will march around the square three times and then form for a pep rally on the court house lawn. An award will be given the class making the most noise and showing the most originality on the mode of transportation.

The football game is to begin at 8:30. Parents are to be guests of the team with special seats reserved for them. The parents will be identified by wearing the same number as the son on the team.

At the half the parents will be introduced and the football queen, Evelyn Selby, will pin the high school colors on each parent as the introductions are made.

From Superintendent Davis

Our present day social and economic status has created a situation unfavorable to youth, making it our duty and desire to remedy this situation. Our schools with their eleven year system finish with the youth about two years before the business world is ready to receive them; therefore, we must find some way to fill the two year gap with some useful and educational training for the youth.

The trend now is for every high school graduate to attend college, but statistics show that the actual number of college graduates is rapidly declining. We are making a careful and extended study of the Texas schools that have the twelve year school plan in operation. We realize that a solution to the problem of taking care of our youth in a helpful way until the business world is ready for them is necessary to the maintenance of their peace and happiness. After an intensive investigation into the twelve year plan has been made, we may find it applicable to our own situation and try to organize the Memphis school system around the twelve year plan. Our youth must be ready to face the future well equipped both socially and economically.

Bobcat B Squad Downs Whirlwind

The Memphis B team, coached by A. G. Kesterson, Cyclone center last season, and Robert Devin, member of the high school faculty, met defeat at Childress Thursday afternoon before the powerful Bobcat B team. The final count was 27 to 7.

All of the Childress scores were results of long end runs. Their fast and shifty backs were too much for the smaller Memphis team.

Every member of the Whirlwind squad saw action in the battle Thursday.

Memphis starting line-up: Ends, Jones, Huggins; tackles, E. Evans, Kerbow; guards, Butler, Purvis; center, Smith; halfbacks, B. Jeffries, Hendrickson; fullback, Ivy; quarterback, Roach.

FHT Sends Betty Callahan to Meet

The Future Homemakers of Texas Area 1 was represented by Betty Callahan at a Youth Meeting in Dallas October 28 and 29. This meeting was sponsored by the National Youth Administration.

Youth problems discussed included: Youth unemployment, how to train for the jobs, underprivileged youth, and moral standards of today's youth.

Seventeen youth organizations were represented in this meeting.

Supervisor of D. O. Visits Class Here

Pascal Buckner, state supervisor of Diversified Occupations, praised the Memphis school system and the business men on the excellent work being done when he visited the D. O. class taught by Sam Cowan.

Mr. Buckner reported that all requirements are being met and the work is progressing rapidly in Memphis, and that the department ranks with the best in the state.

After visiting several of the training stations, Mr. Buckner highly complimented the excellent training and teaching the employers are doing in their stores. He commented favorably on the high qualities of school work being done in the department.

Aggie Students Choose Officers

John Kerbow was elected president of the first year Vocational Agriculture class last Thursday afternoon. Other officers chosen were as follows: Noel Bruce, vice president; Alton Huggins, treasurer; B. P. Hinsey, secretary; Richard Messer, reporter; Doretta Scott, parliamentarian; Merle Wheeler, watch dog; Calvin Callahan, song leader; Richard Ayers, band leader; J. O. Gibson, historian.

Members of the class not holding offices are J. C. Widener, Bobby Evans, Ernest McMurry, J. E. Hodges, Marcus Blackmon, Herbert Orand, Lloyd Vandeventer, and James Bray.

Student Injured On School Campus

Carl Hamilton broke his right leg between the knee and ankle last Monday during the noon hour.

He was playing tiger in the cage with a group of freshman and sophomore boys on the south side of the gymnasium. Young Hamilton was taken immediately to the hospital where a thorough examination was made.

Band Has Contest For Best Players

Mary Elizabeth Bryant and Evelyn Selby won first and second chairs in the second and third clarinet section in a contest held last Wednesday afternoon at 3:35 o'clock in the band house.

The contestants drew numbers and played three exercises selected by G. W. Johnson, band director. The students played in one room. Mr. Johnson graded the playing by each student entering the contest.

Similar contests will be held to place the second and third clarinet students.

SIDE GLANCES

Getting a Good Start

A year of school is somewhat like a long race. Some students take the lead from the start and finish at the head of their class. Others begin to fall behind after the first week or two and some even withdraw from school. The teacher must encourage students who are behind at all times to try harder.

A good start is not enough. Each student must prepare each day's lesson so that he will not fall behind in the race. No runner ever won a race by taking slow, weak, faltering steps. The winner is the charger, the boy or girl who will not give in to himself on difficult occasions and give up.

The first six weeks' honor roll list shows many of the leading students at the present time, but it doesn't mean that just because a boy is leading now that he will continue to do so unless he keeps working. And just because a boy is not at the head of the race at this early date does not mean that he cannot come out in the lead at the end of the race. So to those who are leading now, I say, keep working; and to those who are not leading I say work a little harder.

Noah Cunningham.

Aggie Boys Make Third Field Trip

The third-year Aggie boys took their third field trip to carry out project work on the farm of Mrs. J. M. Dunn, grandmother of W. P. Dunn, last Thursday, October 26.

The boys going on the field trip were Roger Ellerd, Charles Williams, Henry Lee Solomon, Virgle Siddle, Ted George, L. A. Richards, J. S. Forkner, Jack Martin, W. F. Dunn, and Gene Barnett, instructor.

Frosh Win Drive For PTA Members

The freshman class won the P. T. A. membership drive and were given a half holiday and a pass to the picture show sponsored by the P. T. A.

Seventeen new members were brought in by the freshmen, seven by the sophomores, seven by the juniors, and six by the seniors.

The freshman class is a peppy, hard working group of boys and girls, sponsored by Miss Melrose Henderson and Robert Devin.

Game Time Moved Due to Revival

The Memphis Public Schools are cooperating with the churches during the Union Revival Meeting by starting the football games at 8:30 instead of 8 o'clock as previously done.

The schedule for the games was made out last spring and a change in date is impossible. By starting the game thirty minutes later, however, the students and football fans have time to go to church and then to the game.

Glee Club Picks Dresses for Year

A final decision has been made as to the design and color of the dresses to be worn by Glee Club members this year.

The costume is cut on princess lines and definitely influenced by the military trend of style. The dresses will be made of black silk crepe and trimmed in white. No decision has been made concerning the design for the formal costume of the club.

GUNSTREAM LEADS TYPISTS

M. D. Gunstream, senior student, leads the typing classes in the speed tests given in the past few weeks. Five minute speed tests have been given to the three beginning classes and those students doing above average work are Dick Benton, Leon Grisham, Rebecca Dill, Joy Wisdom, Muffet Merrill, Toots Lester, and Calvin Kerston.

Ivey Speaks at School Assembly

Rev. George F. Ivey, pastor of the Newlin Methodist Church, was the main speaker at a high school assembly Friday morning when several pastors visited the student body.

Rev. Ivey based his talk on Mark 4:32, "And there were with him, other little ships." He stressed the fact that the little things make up the big things in life. After the talk the Rev. Ivey gave several bird calls which

were of great interest to the students.

Minister Joe Findley, Rev. Billy Porterfield, Rev. Bill Mason, and Superintendent W. C. Davis made brief talks.

Food Preservation Specialist Issues Last Call to Jellymakers of Texas

Last call to jellymakers! The fall fruits, crab and other tart apples and grapes are about all the fruit left to answer the jellymakers' last call, so prudent housewives are taking advantage of these to complete the partially filled shelves in their cupboards, advises Grace I. Neely, specialist in food preservation for the A. and M. College Extension Service.

Two essentials a fruit must have in proper proportions if it is to be converted into jelly are pectin and acid, the specialist points out. Both of these elements decrease as the fruit ripens, so for the best results she recommends a mixture of slightly underripe and ripe fruit, the underripe to furnish pectin and acid and the ripe to contribute flavor and color.

Among the fruits which have both pectin and acid in sufficient quantity at the proper stage of maturity are tart apples such as winesap, crab apples, cranberries, grapes including wild native grapes, and some of the cultivated varieties. Combinations of

fruits such as crab apple and grape and tart apple with plum, also result in interesting blends.

One tip on jelly making which the specialist emphasizes is the cooking of jelly in small quantities. To get a clear quality product, use only four to six cups of juice at one time, she says. For detailed instructions Miss Neely suggests study of "Home-Made Jellies, Jams and Preserves," USDA Farmers' Bulletin No. 1800, available at the office of county home demonstration agents.

Two Tie for Lead In Bowling League

No team in the local bowling league at the end of last week's play was without a tying opponent. Last week's league leaders, the First National Bank team, dropped to a tie for first with the G-Men, when the Memphis Grocery all-women bowlers dined the Bank two of three games, and the G-Men took three straight from the Cudd-Combest team.

The Durham-Jones bowlers, resting in second place last week, dropped to a tie with three other teams when Greenhaw's won two of three games from the drug store bowlers. The Democrat team won two of three from the J. C. Wooldridge team to complete the card.

Tied for second place are Durham-Jones, The Democrat, Memphis Grocery, and Greenhaw's. Tied for third place, which will be seventh when the other teams get out of the tie, are the Cudd-Combest and J. C. Wooldridge teams.

Next week's pairings are as follows: Monday, November 6, Cudd-

POPPIES TO BE SOLD

The Auxiliary of the local American Legion post will sell poppies Saturday, November 11, Mrs. M. E. VanPelt, who is in charge of the sales, announced this week.

Reaction tests have proven that the fellow who has "downed a couple" will travel 132 feet instead of the normal 66 before getting his foot from the gas to the brake.

Motorists would profit if they would use the old railroad expression "stop, look, and listen" at all intersections.

**Announcing---
the Opening of Our
New Service Station and
Auto Supply Store
SATURDAY, NOVEMBER 4**

It is with a great deal of pleasure that we announce to our friends and customers and to the people of Hall County and the Memphis trade territory the opening of our new service station and auto supply store at the corner of Noel Street and Highway 370.

We have remodeled the building into which we are moving, allowing wide driveways, plenty of gasoline pumps and will have plenty of attendants on hand both

day and night, so when you drive in you will have instant service. The appointments of our station are all strictly modern and up-to-date from the water hose to the rest rooms so as to assure you the best and most complete service.

We cordially invite you to attend our opening day next Saturday. Many things have been planned for the occasion and we will be glad to have you come and inspect our new station.

Saturday Will Be a Big Day

Saturday will certainly be a big day at our station. We are planning on entertaining you royally if you will come and inspect our new place of business. We have arranged for attendance gifts to be presented. We are expecting you to come! We have a com-

plete line of auto parts and supplies, tires, radios, electric refrigerators, bicycles, auto accessories, etc., on display and we will be glad for you to inspect these and to fill your needs in these lines while visiting our opening day. Guests will be asked to register in our guest book.

Mustangs Down Cyclone by Score of 19-14

Memphians Gain More Yards, Get More First Downs

Cyclone Scores in First and Third Quarters; Wheeler Tallies in Second, Fourth

The Memphis Cyclone team outplayed the Wheeler Mustangs, got more first downs, gained more yardage in the seawsaw game here last Friday night—but the game ended too soon when the Mustangs were on the high side of the seesaw and Wheeler went home with the winning score, 19-14.

The Cyclone scored in the first quarter to take the lead, only to see it melt away in the second when Wheeler scored twice. Then in the third Memphis again took the lead, but the Mustangs in the deciding final quarter made their third touchdown—and stayed ahead.

The Cyclone almost made the winning score late in the fourth period when a pass from Ted George to Slugger Clark was good for 23 yards and gave the ball to the Memphians on the Wheeler 7-yard stripe.

Four downs were not enough for the Cyclone to push the ball over for a touchdown, however. George tried two plays and put the ball on the Wheeler one-yard line, only to see two more line plays fail to push the ball the other yard. The Mustangs punted out of danger, and the game ended before the Memphians threatened again.

"Pitching Pic" McClure, who has not seen much service in the two previous games started the game, and time after time made good gains through the line. Isadore Hardin, who suffered an attack of appendicitis Thursday, played the entire 60 minutes despite his illness.

All the Memphis line played a much better game than against McLean. No big holes appeared in the line as was the case when McLean's big Bond ran through the Cyclone line almost at will.

Co-captain Crump not only caught several passes for short gains, but also made gains around the ends and through tackle. Quarterback Foster, who did not play much of the game but who called trick plays at strategic moments, made those trick plays pay off.

Both Ted George and L. A. Lester came through with a good game last Friday, not so spectacularly as they did against McLean, but with clean, hard runs. Memphis started the scoring spree in the first quarter when the Cyclone ran a punt back to the Wheeler 35 yard line. With McClure and Crump leading the way, the ball was worked down to the Wheeler 17. Chuck Jones, playing at end, took the ball down to the 7-yard strip on an end-around play. McClure picked up two more yards, and Lester went over for the touchdown. McClure kicked the extra point, putting the Cyclone in a 7-0 lead.

In the second quarter, Wheeler started a touchdown drive only to have a pass from Groves intercepted by George. Memphis punted, and Wheeler took the ball on the Memphis 40-yard line. After one play, Memphis was penalized

for offside. Then a pass from Groves to Stephens from the 31-yard line was good for a touchdown. Groves attempted to pass to Stephens for the extra point, but the pass was knocked down.

Later in the same quarter, Groves intercepted a pass from George to give the Mustangs the ball on the Memphis 38. Groves then passed to Weeks for 35 yards to place the ball on the Memphis 2-yard stripe. Emler tried through the line, but made no gain. Memphis took a penalty, placing the ball on the one-yard line. Emler went over right tackle for the touchdown. Groves again attempted a pass for the extra point, but the pass failed.

Early in the third quarter, Memphis worked the ball down to the Wheeler 28-yard line. George and Lester, on successive plays, gave the Cyclone a first down on the Wheeler 17. George then went around right end for the second touchdown for Memphis. George attempted a pass for the extra point, and the referee ruled interference with the passer. The pass was counted as completed where the receiver was hit. Lester then carried the ball through right tackle for the extra point, giving Memphis the lead again 14 to 12.

In the final quarter, Wheeler took the ball on the Memphis 42 on a punt. Groves made a first down to place the ball on the Memphis 30. Stephens went around right end for another first, placing the ball on the Memphis 17. A line play gave the Mustangs three more yards. Groves then passed to Stephens for a touchdown from the Memphis 14. Groves try for conversion was good, making the score 19-14.

The rest of the game went scoreless, although the Memphians threatened late in the quarter. Approximately 1,500 fans wore overcoats to the game, the first football night here requiring coats. At the half, small fires were started by many of the fans to keep warm. One young man yelled, "Programs, programs, you can't keep warm without a program."

Memphis starters were Clark, le; Evans, lt; Fultz, lg; Melton, c; Bruce, rg; N. Bruce, rt; L. F. Jones, re; O. Jones, qb; Crump, lb; McClure, rb; Lester, fb.

Starting for Wheeler were Weeks, le; C. Young, lt; Pendleton, lg; Wright, c; Adams, rg; Tillman, rt; Perrin, re; Groves, qb; B. Jolly, lb; Stephens, rb; Emler, fb.

Statistics for the game:

80 Per Cent of Texas Drivers Lower Headlights; Truckers Bring Up Average

In Texas you have to travel westward to escape from bright lights.
 In a statewide survey just completed by state police they found that generally only 80 per cent of drivers lowered their headlight beams in approaching other cars, but of greater interest to the officers were the variances in the ratios in different sections of the state.
 For example, they learned that only four per cent of drivers observed in the vicinity of El Paso failed to dim their head lights, while in the lower Rio Grande Valley on highways near Harlingen the patrolmen computed that 69 per cent of the drivers refused to observe the dimmer courtesy rule.
 Because of no existing laws governing the raising or lowering of headlight beams on motor vehicles there was nothing the officers could do except compile these statistics as they patrolled the heavier trafficked highways over Texas.
 Of little surprise to state police was the fact that only three per cent of the truck drivers throughout the highway system failed to respond to dimmer signals from the officers' cars. All motor busses responded, Chief Fred Hickman of the Highway Patrol said.
 Col. Homer Garrison Jr., state police director, pointed out that the survey disclosed that drivers of higher-priced automobiles were less prone to lower their light beams than operators of cars in the lower price bracket, although, he commented, they were as well, if not better, equipped to do so. As for the lower valley region the public safety head surmised that the large number of Mexican drivers decreased the number of "beam-dropper-downers."
 The police light brigade offered no explanation for the much greater percentage of "fail to dim" drivers in East Texas than

on major highways leading out of Houston refused to lower their beams, and 30 per cent around Tyler and Longview spurned the patrolmen's signalled pleas.
 Forty per cent of the Dallas territory drivers were in the bright light clan, Corpus Christi reported 40 per cent refused to dim, Amarillo, 38 per cent; Austin, 26 per cent, San Antonio, 24 per cent, and Wichita Falls, 34 per cent.
 Garrison said a small percentage of the cars observed did not appear to be equipped with proper headlight beam controls. He said his department is mapping plans for educating drivers to lower their beams when approaching other vehicles at night. Many fatal accidents, he recounted, have been caused by drivers being blinded by lights, particularly where pedestrians are involved.

125,000 Farms in Texas Without Cows Make Unbalanced Dairy Program

There are in Texas 125,000 farms on which there is not a single cow. There are 75,000 farms on which there is not a single chicken, and another 75,000 on which there are only a few neglected chickens of the "dunghill" variety, and of little commercial or edible value.

This is the time of year when the football fan takes pencil and paper and, from comparative scores, tries to figure out the winner of the game coming up.

It's like the story of the little boy who was given this problem: A frog fell in a well 21 feet deep; he climbed up two feet every day and dropped back three feet every night.

For "color," it would be difficult to surpass a one-time oil boom town holding a reunion. Glimpsed in the crowds at the recent Breckenridge homecoming were Lea Walker of Ranger (brother of the late Breck Walker, chief figure in the development of Breckenridge) who is said to be the only child ever born on a cattle drive up the trail.

One of the exciting stories told of the Breckenridge boom was that of a "shooter" on a Sunday morning who grabbed a shell filled with nitroglycerin when it was forced back up out of the hole and thereby saved the lives of the congregation in a church house a few feet away.

This-and-that: Is Harley Sadler of Sweetwater, celebrated tent-show owner and comedian, going to run for Congress?

From the unpublished autobiography of a reporter: Henry Helms, leader of the Cisco bank robbers (he shot two officers to death) was on trial for his life in Eastland and I was sitting right behind him.

Protect Your Home with Electric Light

A 25-watt bulb burns 8 hours for 1¢ and gives

2,144 Times More Light than a Penny Box of Matches

WHY TAKE CHANCES with matches when Electric Service is cheaper and safer? Remember that it is dangerous to strike matches to light dark places such as closets, stairways, or basements where it might cause explosions by igniting trapped gases.

Remember that "The Electric Way Is the Safest Way to Live." It also is the most economical way and the most comfortable way.

*A penny box of matches averages about 43 to the box. Each match burns approximately 22 seconds—a total of 15 minutes.

In comparison to a match, a 25-watt light bulb gives 67 foot-candles of light—and burns a total of 8 hours for only 1 cent.

From Mrs. M. M. Kern of 1203 Anarillo Street, Wellington, Texas, comes this interesting interview of Better Heating:

- 1. How long have you had Automatic Gas Heating? Since November, 1936. 2. How has it benefited your family? We have been more healthy and comfortable than ever before.

Tiny Flame says: Use Better Heat for Better Health!

4. What is there about Automatic Heating that influenced your decision to install it? You light it in the fall and forget it until spring.

(Signed) Mrs. M. M. Kern

Better Heating means healthier, happier, more comfortable winters for homes where it is installed.

war-time conditions in Europe forcing prices up in practically every field, The Democrat takes a bold step in reducing the price of its annual subscription from \$1.50 to \$1.00 for the month of November. Being aware of the poor crop conditions in Hall County and in the Memphis trade territory, the publishers of The Democrat are making this reduction in an effort to equalize its subscription price with the general conditions in this locality.

Here is the chance you have been waiting for. You may have this outstanding weekly newspaper in your home fifty-two weeks a year for less than 2c per week. This paper keeps you informed on local happenings—the goings and comings of your neighbors—the things you are vitally interested in. It keeps you abreast on national affairs and governmental activities as they affect Hall County and the people of the trade territory. This paper carries regular features that are of interest to the whole community.

The Democrat is an outstanding weekly newspaper, having won top awards in several state-wide contests in recent years. Other Texas papers of like class with The Democrat are charged with getting \$2.00 a year for their annual subscriptions. These prices make The Democrat's special offer of \$1 per year a notable bargain.

At this reduced bargain rate, you can't afford to be without The Democrat in your home. Subscribe today. This offer is available only during November and will be promptly withdrawn at the end of the month, November 30. Act NOW!

What you get for less than 2c a week is amazing in this great special subscription offered by The Democrat. Here are a few of the regular weekly features of The Democrat:

AGRICULTURAL NEWS, including complete information concerning the farm program, developments and improvements of local farmers along with weather and local crop news.

CLAUDE'S COMMENTS, a local column written by Publisher J. Claude Wells, is a heart-to-heart discussion of local topics flavored by the views and humor of a weekly newspaper editor.

COMMUNITY NEWS, the Democrat maintains correspondents in twenty-two communities in the Memphis trade territory who send in news reports of the happenings in their locality each week.

SOCIETY NEWS. Each week The Democrat devotes a page or more to women's activities and society news. This page is prepared for women of the entire community.

EDITORIAL PAGE in the Democrat brings you weekly a full home-written and home edited column concerning local problems, comments from other newspapers, the Sunday School lesson, a specially prepared Washington letter, and three live, funny cartoons.

NEWS PICTURES. Through the facilities of the NEA, the Democrat brings to you pictures of the news events of the world, carefully edited for their importance and giving a comprehensive picture of the news in every phase of human activity.

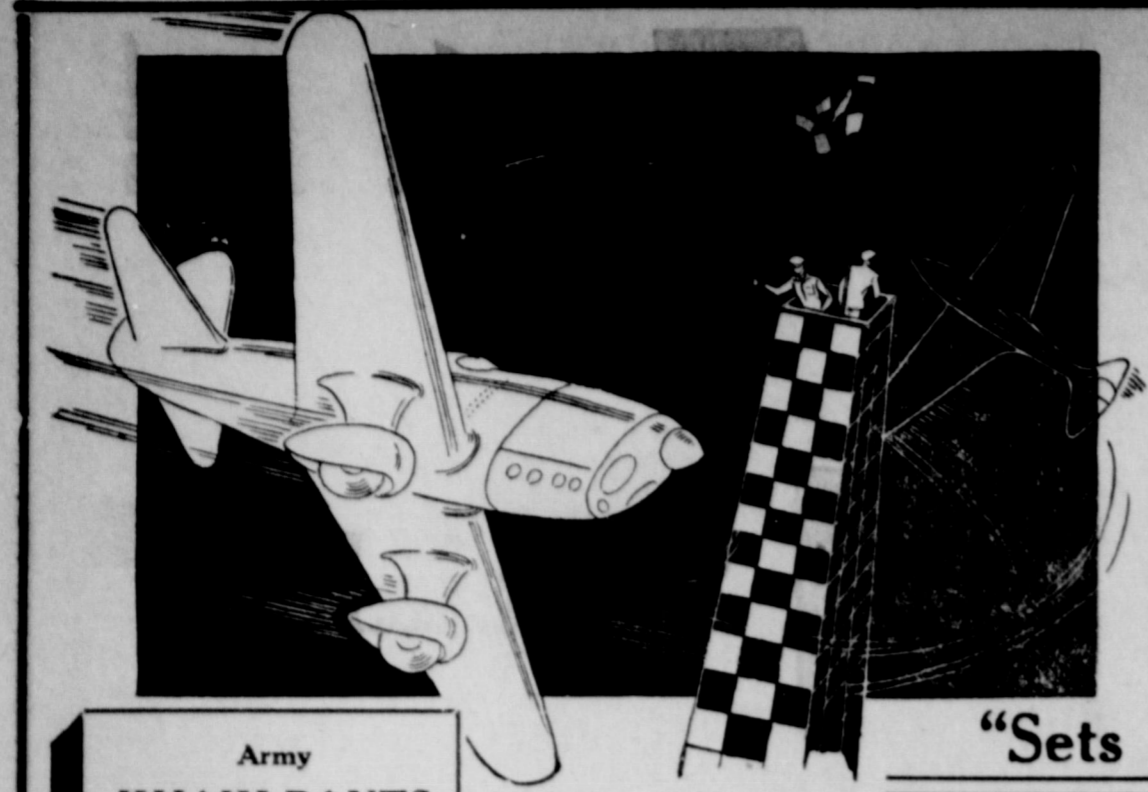

LOCAL PICTURES. Probably no other paper in Texas carries as many local pictures as The Democrat. A complete photograph service is maintained with complete equipment in the Democrat's office and a staff photographer is on duty at all times.

SCHOOL NEWS. The most complete coverage of school activities in all parts of the county is maintained during school terms, giving you sport, literary and extra-curricula activities.

ADVERTISEMENTS of local merchants bring you what's new and what's best in the mercantile field, including the many bargains and savings. You can save enough to many, many times pay the price of the subscriptions by buying the bargains offered in The Democrat's advertising columns.
