## Coast Dock Pickets Routed As Trucks Run Gauntlet

Choked by tear gas and beaten with police clubs, rioters were hurled back and trucks roared through the picketed area to San Francisco piers, to load ships tied up for weeks by the longshoremen's strike. This photo was taken as rioters fled before the police attack, in which several were injured and many arrested.

## HALL COUNTY ADDED TO DROUTH PROGRAM

By Associated Press  
WASHINGTON, July 7.—The government widened its drought relief program on a broad front today, adding 99 counties to its list eligible for various forms of aid.

Among the 93 Texas counties added to the secondary list was Hall county.

Secondary areas are eligible to receive greatly reduced freight rates on livestock feed and for shipment of livestock.

## Commissioners Court Will Meet Tomorrow

The Hall county commissioners' court meets tomorrow in an all-day session at the court house, County Judge Jim Vallance, chairman of the court, will preside.

A number of important issues are slated to come up for action, it was said.

## Political Rally Is Scheduled July 21

## HITLER LEAVES BERLIN AFTER TRUCE MADE

Two Million Storm Troopers Take Vacation

By Associated Press  
BERLIN, July 7.—A political truce was put into effect today by the Nazi high command in a determined effort to efface the remaining traces of Germany's bloody "second revolution."

Chancellor Hitler, reported yesterday a near victim of a would-be assassin, departed for his summer home in the Bavarian Alps.

Two million storm troopers, temporarily stripped of their uniforms, are on a month's vacation. Their future becomes Germany's foremost political problem.

Nazi leaders issued a careful statement saying they were in-

## Half Billion Goes To Home Building Before Next Fall

By Associated Press  
WASHINGTON, July 7.—James A. Moffett assumed the recovery job of housing administrator today with the objective of getting a half billion dollars into home renovation by fall and the ultimate re-employment of five million persons.

Moffett explained at a press conference the housing program should not meet the same delays the public works administration because the financing is to be done by private institutions.

## SIX ARE KILLED IN AMSTERDAM DOLE FIGHT

Unknown Number Is Injured; Condition Of Six Hopeless

By Associated Press  
AMSTERDAM, July 7.—Rioting though checked with the arrival of additional soldiers and police, was renewed late today, resulting in two deaths, bringing the total to six for the day. An undetermined number was wounded.

Authorities said the situation is again grave.

Four were killed this morning when police and troops cleared all disturbed areas, using tanks to

(Continued on page 3)

## Police Add More Machine Guns To Waterfront Line

By Associated Press  
SAN FRANCISCO, July 7.—Additional machine guns, manned by policemen, were rushed suddenly to various downtown buildings in San Francisco today to reinforce the long lines of machine guns on duty at the city's waterfront, scene of riots Thursday in which two men were killed and many injured in clashes between striking longshoremen and police.

Except to say "threats had been made," no explanation was given for the police activity, nor was it explained what the "threats" were.

The police machine guns were put in positions outside the national guard sector.

Under the muzzles of national guardsmen's guns, who were called out after the riot, the waterfront remained outwardly quiet today, while the possibility of a general strike in the city hovered in the background.

## MAN ATTACKS OFFICER, SOCKS COUNTY ATTORNEY, FRIGHTENS WOMEN AND INSULTS CITY COUNCILMEN

Running amuck here late Friday afternoon, L. J. Goldston of Goldston, eight miles northeast of Clarendon did damage to the extent of striking several of the male population, frightening a number of women and children and insulting members of the city council, including the mayor.

It seems that Goldston, a truck farmer near Goldston, accompanied by two other men, went in a truck Friday night about 7:30 o'clock to the residence of L. A. Cottingham here to inquire about a truck load of potatoes.

Starts With Argument  
Goldston was said to have been drunk, and an argument took

place. Goldston became enraged and attempted to fight Cottingham. A number of women held Cottingham and one called B. Wilson, constable, who lives next door, to arrest the man.

Wilson, who had been in bed for over a week due to eye trouble, attempted to arrest Goldston. Goldston resisted and clinched with the constable. Wilson picked up a tire tool and knocked the man unconscious.

Strikes Attorney  
Goldston remained unconscious for 10 minutes. When he regained a part of his senses, he apparently flew into a fit of rage. He struck C. Land, county attorney,

## 11 LOCAL BOYS STATIONED IN CCC UNITS

Bring Hall County's  
Total Number Of  
Recruits To 69

Word has been received by the Hall county relief administrator that 11 of the 12 boys instructed by the administrator to report last Thursday at the United States government recruiting office in Amarillo for final examinations for CCC work had passed the examination and had been stationed at CCC units.

Jack Buffkin of Brice, alternate taken as J. E. Farley was not present at the recruiting station at the time the Hall county youths were called for, completed Hall county's allotment of 12 men, allotted by the Texas Relief commission.

The others accepted Thursday from this county are as follows:

Willie Melvin Merrell, Estelline; Loyd McKnight, Memphis; Russell Norton, Memphis; James Warren

## Survey Shows Small Holding West Texas

### Court-Martial?

Charged with "conduct unbecoming an officer and gentleman," Capt. Harold K. Coulter, top photo, faces a court-martial at Ft. Sam Houston, near San Antonio, Tex., the accusations growing out of parties held at the mansion of Mrs. Alice T. Morgan, below, wealthy divorcee. Coulter is a noted polo star. Conviction would carry with it mandatory dismissal from the army service.

Senator Clint C. Small will be in the run-off in the race for the Democratic nomination for governor of Texas if his West Texas support is anything like what it was four years ago, quoted Fred Worsham of Small's Amarillo headquarters, here yesterday morning.

Worsham quoted L. E. Harwood and Harry Belcher, who accompanied Small to Amarillo recently.

Worsham was here on a tour of the Panhandle, where he has been making a survey of conditions in the governor's race.

Strong As Ever  
He stated he had covered 18 counties in the Panhandle during the past two weeks and "I find that Small is as strong as he ever was."

"If this is as I believe it is," Worsham continued, "there is no doubt that he will be in the run-off, considering the heavy strength he has down state."

No Opposition  
According to Worsham, there is no opposition to Small in his own district. The few who are going to vote for another candidate, Worsham said, are doing so because of personal preference rather than opposition to the home candidate.

Worsham also found that Small is stronger in the 30th senatorial district, south of here, than he was four years ago. He predicted the combined strength of the 30th and 31st districts will be greater than it was when the Senator first made the race.

Predicts Big Increase  
In discussing the apparent strength of Small in the two districts, Worsham pointed out that in his first race Small received 49,000 out of 87,000 votes. Out of 50 counties he failed to carry only four.

He predicted in the first primary, with seven candidates in the race, Small will receive more than 50,000 of the 87,000 votes. In the run off Worsham predicted Small will

## SEES DEPLETION OF RELIEF FUND

Available Cash To Be Gone Before Governor Calls Extra Session

By Associated Press  
AUSTIN, July 7.—The depletion of available relief funds before the time Governor Ferguson plans to convene an extra-ordinary session of the legislature was forecast today by Adam Johnson, relief administrator.

The available balance of relief funds on July 1 was \$2,755,965, Johnson said.

SECRETARY OF TAFT DIES

## Beer Comes Back To Memphis In Large Quantity

Beer came back to Memphis yesterday after an absence of 38 years—and it came in large quantities.

Three business houses selling the legal 3.2 beverage—Rube's Coffee shop, Pounds cafe and the New Deal Beer garden—did a rushing business throughout the day and were still going strong at 10 o'clock last night.

At that time a total of 1,800 bottles and 112 gallons of keg beer had been sold.

An attempt was made by representatives of The Democrat to learn if any arrests for drunkenness, in which the new beer was blamed were made, but an hour's search failed to locate either a county or city officer.

## BELIEVE RAIDS HALT CUBAN CONSPIRACY

40 Former Officers Held On Charges; Weapons Seized

By Associated Press  
HAVANA, July 7.—Night long raids on the homes of former army officers, the government believes today thwarted a major conspiracy.

Nearly 40 former officers, mostly veterans of the Hotel National battle on October 2 last year, were held on charges of conspiracy.

Half a dozen machine guns, dozens of rifles, revolvers, hand grenades and thousands of rounds of ammunition were seized.

A raid on an office in a bank building revealed many incriminating documents against the former officers Jose Pedraza, chief of police, said 15 were arrested at the office.

## Record Crowd Gets 'Treat' Yesterday

What was said by many to be a record-breaking crowd to enter a store here in a single afternoon was evidenced yesterday afternoon as hundreds of persons jammed Tarver's pharmacy to partake of the free ice cream and frozen

(Continued on page 3)

# Claims Allred Closes Saloons In Large Texas Cities

A declaration of James V. Allred, governor of Texas, to close saloons in large Texas cities was made yesterday by gubernatorial order at Stephentown.

The governor's order is the result of a profferage of the platform of his record.

"Distance" campaign banner within drinking of the most in San Antonio.

Harrison resolution people in championed. He demanded the afternoon close up these Russell Baldwin, attorney general of the Memphis, talking about the players' activities and mo-square.

## Six Are Killed-

(Continued from page 1)

flatten barricades.

The rioters were mostly unemployed, incensed at a reduction in the city dole.

Among 50 taken to a hospital, the condition of six was said to be hopeless.

## Man Attacks-

(Continued from page 1)

members of the city council, who were about to convene at the city hall.

Members of the council were the next victims of Goldston's epithets. He cursed each member in turn, it was said.

## Pleads Guilty

As he was bleeding considerably from cuts on the head, a doctor was summoned. However, Goldston would not permit the physician, Doctor Henry Wilson, to bandage his wounds.

Goldston was charged in city court yesterday with disturbing the peace, being drunk in a public place and with using abusive language. He pled guilty to all charges before Mayor Davenport and was assessed penalties totaling \$54.45, it was said.

After making arrangements for his fines, he was released yesterday morning.

## Political Rally-

(Continued from page 1)

voting box in the county. This inasmuch as this is the largest rally will come exactly a week before the election, which is slated for July 28.

It will be impossible for Senator Clint Small of Amarillo, candidate for Governor, to be present for the speaking, but an address will be made in his behalf by Ray Johnson, prominent Amarillo attorney. Other state candidates are being invited to participate in the rally or to send speakers to address the rally in their behalf.

A political observer of long experience had this to say relative to the forthcoming rally: "Politics, as such, have been unusually quiet so far in the campaign. Small, side talk, here and there, has about covered the situation, although the county and precinct candidates have been unusually active in carrying their campaign over the county."

"I feel that with the rally scheduled for Memphis on Saturday night, July 21, a new interest will be infused into the political situation. Election day is fast approaching and the local rally will serve to stimulate political thought and activity. The passive attitude maintained by so many of our people thus far will be 'knocked into a cocked hat' after the rally, or that is my firm belief."

"I want to urge every qualified voter to attend the rally and hear the respective candidates discuss their qualifications for office."

S. Replin and daughter, Cecil, of Littlefield, arrived in Memphis Friday and will spend several days with Misses Celia and Lucille Replin.

## Hitler Leaves-

(Continued from page 1)

separable from the Nazi party despite the truth.

The propaganda ministry indicated that special vigilance by secret police will continue on all fronts.

It was reliably reported Friday that Hitler barely escaped death in his purge of the revolting storm troop chieftains at Breslau. An American citizen there was told Edmund Heines, Berslau police chief and storm troop leader, ran up to Hitler with a revolver when the chancellor raided Ernst Roehm's house at Munich.

One of Hitler's aids shot Heines down, saying the chancellor, said the American, who heard the account from a friend of Heines whom he regarded as absolutely reliable.

The position of Vice-Chancellor Franz von Papen appeared somewhat improved when it was announced that three members of his staff, one of whom had been reported killed, had been released from police custody.

## Record Crowd-

(Continued from page 1)

chocolate malts offered there.

Over 80 gallons of chocolate malt, consisting of 1,000 cups or 6,000 ounces, were given free of charge to the throngs that crowded the store yesterday afternoon from 2 o'clock until 5. One thousand 500 ice cream cones were given away in one hour's time.

Over 150 quarts of ice cream were sold and over 150 pints of sherbet were given away.

Five men were kept busy at all time dispensing the refreshments.

The free treats were given yesterday as an announcement of the installing of Tarver's new ice cream making machine.

In putting over the ice cream introduction scheme, Tarver's advertised the idea for only one day and in only one manner—a half page ad in Friday's issue of The Democrat.

Mrs. Leek Moreman of Corpus Christi arrived yesterday for a visit here with her sisters, Mrs. C. D. Denny, Mrs. D. M. Jarrell and Miss Ida Mae Long.

Mr. and Mrs. J. C. Roberts of Abilene are here spending this week end with their parents, Mr. and Mrs. Bob Roberts and Mr. and Mrs. C. D. Denny.

## Local Markets

Hegari (threshed)	\$1 cwt.

## Swimming Party Honors Miss Rosenwasser

Naming Miss Gladys Rosenwasser of Lockhart honoree, Miss Ruby Lee (Stringer) entertained Friday evening with a swimming party at the Brookhollow Country club.

The first part of the evening was spent in swimming and boating, after which a picnic supper was served.

Those present were the honoree, Miss Rosenwasser, Mary Gardner, Tommie Mae Boren, Nell Walker, and Gayle Greene, Cearley Read Kinard, Guthrie Bennett, Russell MacMillan, Gurshun Marcus, Mr. and Mrs. Harry Womack, Mr. and Mrs. Reginald Greenhaw and the hostess, Miss Stringer.

## Roosevelt Favors Puerto Rico Plan

By Associated Press  
SAN JUAN, Puerto Rico, July 7.—President Roosevelt in an address today announced his agreement in principle on the program of rehabilitation for Puerto Rico and asked cooperation in carrying out plans similar to those of the administration in the United States.

He said, "Your problems are the same as we have in some parts of our United States—social and economic. The same methods can and will be used."

MAX KING GOES TO FURNITURE CONVENTION

Attends Annual Show At American Mart In Chicago

D. Max King, representative of the King Furniture Company left last night for Chicago, where the national furniture show is in session at the American Furniture Mart.

"More than 500 manufacturers of home furnishings, including about 35 of the leading floor covering lines, will introduce their new styles at their displays. We always try to keep up-to-date on trends in fashions for the American home and attending the Chicago show is one of the best ways of doing it. We can see and compare the latest creations of factories all over the country all gathered in one place and at one time," King stated.

Mart's Tenth Birthday The show lasts three weeks, closing July 14. The event this summer marks the tenth birthday of the Furniture Mart, which, when it was built in 1924, was the world's biggest building. . . and still is by far the largest edifice in the world devoted to a single industry. It contains more than 2,000,000 square feet of floor space.

"The advance word from Chicago is that furnishings of modern design will be featured in a large percentage of the displays," Mr. King continued, "but there will also be new patterns in all of the traditional periods, notably Early American. The emphasis is now being placed on 'livable modern' . . . furniture that will be suitable for the average home and still keep the best features of modern design.

"Then a great many innovations are always introduced during the market weeks. This season, for example, I hear that there'll be a Mickey Mouse line of juvenile furniture, with Mickey holding up the tops of tables and serving as the arms of the chair.

Card Tables Are Higher "There's a new card table 29 inches high, instead of the standard 27 inches, that we'll want to investigate. There are screens that fold into any shape, on the same principle as the roll top desk, instead of coming in three or four sections. There are cedar chests with an extra shelf that comes in to view when you lift the top, so you don't have to hunt through the whole chest for small articles you've stored away.

"There will be hundreds of things like that . . . some good, some not so good—but the only way we can be certain to select the items we think most suitable for homes is to go see them all."

NOTICE TO VOTERS

For the past several days I have been confined to my home due to the serious condition of my right eye. As soon as it has improved I plan to renew my active campaign for election as your sheriff. I make this statement simply in order to assure my friends that I am sincerely seeking their support and influence in my race.

Special Notices

ORDINANCE NO. 247 An ordinance amending ordinance No. 184, prohibiting the soliciting of alms without a permit from the Mayor of the City of Memphis, Texas.

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF MEMPHIS, TEXAS:

Section No. 1, That ordinance No. 184 prohibiting the soliciting of Alms without a permit, be and is hereby amended so as to read as follows:

Section No. 2, That it shall hereafter be unlawful for any person or persons to solicit alms or financial assistance for himself or any other person or for any charitable institution, association or organization, from house to house or upon any public street, place or thoroughfare within the City of Memphis without first having obtained a written permit therefor from the Mayor of said City of Memphis, Texas.

Section No. 3, Any person violating the provisions of this ordinance shall on conviction be fined in any sum not to exceed \$100.00 for each offense.

Passed and approved this 3rd day of July, 1934.

Attest: D. L. C. KINARD, Secretary, B. E. DAVENPORT, Mayor. 51-10

ORDINANCE NO. 249

An ordinance fixing the penalty for pursuing an occupation without license where required by the ordinances of the City of Memphis, Texas.

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF MEMPHIS:

Section No. 1, That whoever shall pursue or follow any occupation, calling or profession, or

do any act subject to a tax by the ordinances of the City of Memphis, Texas, without first obtaining a license therefor as required by the ordinances of said City shall be fined not less than the amount of the annual taxes due and not more than double that sum.

Section No. 2, That all ordinances heretofore enacted having for its purpose the fixing of penalties for the failure to pay the tax imposed by the ordinances of the City of Memphis upon corporations, partnerships or persons are hereby repealed as to the penalties only heretofore fixed by such ordinances.

Passed and approved this 6th day of July, 1934.

Attest: D. L. C. KINARD, Secretary, B. E. DAVENPORT, Mayor. 51-10.

INDUSTRY MAY TAKE WORK OF NRA

Self-Government Is Likely To Replace Blue Eagle

By Associated Press NEW YORK, July 7.—Hugh Johnson, NRA administrator, had "nothing to say" today about the reported plan to replace NRA with self-government for industry. "If the President has a change under consideration, it has to come from him," Johnson said. "I'm on a vacation."

Locals and Personals

Mrs. Dave Lyons of Plaska returned Thursday from Wichita, Kans., where she had been on account of the illness and death of

her daughter, Mrs. Max Boge. Mrs. Boge is a niece of Mrs. W. D. Orr.

J. G. Brown, manager of Cicero Smith Lumber Company, left Friday for a week end business trip in Fort Worth.

Mrs. D. A. McCrory went to Wellington Friday for a visit with her daughter, Mrs. G. N. Scruggs. Mrs. A. B. Jones and daughters, Mrs. Thomas Hampton and Tommie Frank Jones, and Mrs. W. J. Franks and grandson, W. J. Roberts, returned Tuesday from a trip in South Texas.

Mr. and Mrs. E. B. Luce returned to their home in Amhurst Tuesday after a visit here with her sister, Mrs. Bess Crump.

Miss Lucile Crump returned yesterday from a visit with her aunt, Mrs. E. B. Luce at Amhurst. W. C. Crump is spending the week end in Fort Worth.

Mr. and Mrs. Herbert Gipson of Leslie were Memphis visitors yesterday.

Miss Marie Barber is visiting friends at Paducah this week.

Mr. and Mrs. Bill Harthorne and children returned yesterday from a trip to Washington, Mexico, Colorado and Wyoming.

## Wedding Marriage of Miss Virginia Turner Mount Vernon To Holmes M'Neely Announced

Announcement has been made of the marriage of Miss Virginia Turner of Mount Vernon, Tenn., to Holmes M'Neely of this city. The ceremony will take place at 2 o'clock, Tuesday afternoon, at the home of Mrs. M. C. Hattenbach, 523 South Eighth street, from 3 until 5 o'clock.

### Party Is Given Tuesday By Mrs. G. H. Hattenbach

Mrs. G. H. Hattenbach entertained with an informal party Tuesday afternoon at her home, 523 South Eighth street, from 3 until 5 o'clock.

On arriving the guests were served refreshing iced punch. Needle work and pleasant conversation furnished the diversions for the afternoon.

The hostess served a lovely salad course and orange ice to Mesdames J. W. Fitzjarrald, R. C. Walker, C. G. Bumgarner, G. D. Beard, Chas. Oren, T. M. Harrison, L. M. Thornton, W. Wilson, A. Baldwin, Wm. Hoop, J. S. McMurry, R. H. Wherry, D. L. C. Kinard, T. A. Paulsel, T. R. Garrott, S. T. Harrison and C. R. Webster.

### Mrs. M'Neely And Daughter Present Pupils In Recital

A delightful entertainment was given Thursday evening at 8 o'clock when Mrs. M. McNeely and Miss Nell McNeely, presented their pupils in studio recital.

An interesting program of music, song and dance was given by the following pupils: Lucille and Elizabeth Goffinett, Betty Johnson, Owen Gilmore, Charlene Gerlach, Betty Frances Fultz, Athlee Goffinett, Helen Heigenfeld, Bill Anthony, Pauline and Merle Spear, Mrs. Spear and Amilda Thomas.

Those enjoying the program were Mesdames D. L. Johnson, Will Goffinett, Alvis Gerlach, T. C. Anthony, Roy Fultz, Maud Fritchard, Bailey Gilmore, E. A. Thomas, Lois Goffinett, and Misses Nell Grant, Alpa Youree, Margery Drake and Eunice Goffinett.

During the social hour, Miss Grant, a graduate of Mrs. McNeely's and teacher of expression at Hedley, favored the guests with several readings.

Iced punch was served during the evening.

### Leslie Couple Is Married Sunday

Miss Faye Higgins and W. S. Montgomery of the Leslie community were married Sunday night at the Presbyterian Manse.

Dr. John Angus MacMillan, pastor of the First Presbyterian church, read the ceremony in the presence of a few close friends of the bride and groom. The couple will make their home near Leslie.

### YWA Of First Baptist Church In Novel Meet

The Y. W. A. of the First Baptist church met Monday evening at the home of Mrs. D. A. Grundy. Programs on white paper printed in red and blue with firecrackers tied at the top, announced the program which was "True Patriotism."

At the conclusion of the program a discussion of "What Does My Firecracker Represent" was given by several members and one stated that her firecracker had been "popped" and a girl entered with a huge firecracker containing a shower of kitchen gifts for Mrs. N. W. Durham, a recent bride.

After the gifts were opened and admired, lovely refreshments of ice cream and cake, with flags in the center, were served to Misses Rebecca Sitton, Johnnie Carlton, Mary Ellen Hamilton, Sadie and Rachel Piland, Lula Faye Oren, Ouida Rice, Mildred and Thelma Lindsey, Shirley Hill, Grace Carpenter, Etta Mae Hill, Katherine Barber, Ruth Carter, Mildred Lamb, Una Loard, and Mrs. W. Wilson, Mrs. A. Baldwin, Mrs. D. A. Grundy and the honored member, Mrs. N. W. Durham.

### METHODIST MISSIONARY CHANGES MEETS

The Woman's Missionary society of the First Methodist church has decided not to have its regular meetings during the months of July and August.

This announcement was made by Mrs. N. A. Hightower, president, at the last meeting, Monday, June 25.

## Former Memphis Girl Is Wed To Cleburne Man

STEPHENVILLE, July 7.—Miss Carlotta Chambers, daughter of Mrs. M. V. Chambers of Stephenville, and Mr. Harry Howell of Cleburne, were married in Cleburne Tuesday morning at 10 o'clock at the home of the groom's brother and sister-in-law, Mr. and Mrs. Bill Howell. The Rev. Charles Sisserson, pastor of St. Mark's Methodist church of Cleburne, read the ceremony.

Mr. and Mrs. Howell left immediately after the wedding on a bridal trip to Chicago, St. Louis, Niagra Falls and other points in the North and East, and after their return will be at home in Cleburne.

Mrs. Howell was reared in Stephenville and was graduated from the high school here, later attending John Tarleton College. After finishing school she was employed for several years with the R. E. Cox Dry Goods store here, later going to Memphis to take a position with the Hanna-Pope Dry Goods Company, with which she has been connected for the past six years.

Mr. Howell is the son of Mr. and Mrs. W. E. Howell, prominent residents of De Leon. He is now located in Cleburne as owner and manager of Howell's Men and Boys' Store which he has been conducting there for the past several years. He was employed several years ago with the G. M. Carlton store here as head of the men's clothing department.

### Wellington Couple Honored At Picnic

Mr. and Mrs. Clyde Drake of Wellington visited his parents, Mr. and Mrs. Charles Drake here Sunday and were honor guests at a picnic late in the afternoon.

A picnic supper was enjoyed by the following guests: Mr. and Mrs. Charles Drake and family, Mr. and Mrs. H. B. Gilmore and children, Mr. and Mrs. Oren Jones, and Mr. and Mrs. Scott Sigler and children and the honored guests, Mr. and Mrs. Drake of Wellington.

Mrs. Jack Figh, who has been the guest of Mrs. Sam West the past week, left this morning for her home in Dalhart.

## Miss Williams, Mr. Hunt Married Here

The marriage of Miss Faye Williams and Frank Hunt of Silverton was solemnized here Tuesday. The vows were read by Dr. John Angus MacMillan, pastor of the First Presbyterian church at his home at 813 Robertson.

### First Christian Missionary Society In Meeting Monday

The Missionary Society of the First Christian church met Monday afternoon with Mrs. J. A. Whaley, at her home in Whaley addition.

The subject for the afternoon study was "Through the Years," with Mrs. D. J. Morgensen leader. Mrs. J. A. Burleson conducted the devotional. "History of the State Organization" was given by Mrs. W. C. Milam. Mrs. Whaley gave the "History of the Local Organization" and Mrs. V. B. Rogers told of "Sixty Years of Service."

The members present were Mesdames H. A. McCanne, A. J. Burleson, Haward Randal, W. R. Cabaness, W. M. Fore, V. B. Rogers, W. C. Milam, J. M. Elliott, J. A. Whaley and J. P. Watson. Visitors present were Mrs. P. O. Young; Mrs. F. L. Adair of Wichita Falls, and Mrs. J. H. McHaney of Longview.

Mrs. J. H. McHaney and daughter, Norma Lynn, left Friday for their home in Longview, after a visit here with their sister and aunt, Mrs. J. P. Watson.

## Miss Leverett Is Hostess Tuesday To House Guest

Miss Ann Beth Leverett honored her house guests, Misses Beth Hooker and Lula Beth Motley of Tencha, with a theatre party Tuesday evening.

The guests met at the home of Miss Leverett at 309 North Twelfth street and went in a group to the Palace Theatre.

Following the show they returned to the Leverett home and were served iced punch and cakes.

Guests included June Power, Ann Pallmeyer, Dorothy Sue Fultz, Martha Thompson, Tommie Ruth Potts, Geraldine Kinard, Tommie Scott Noel, Jackie Boren and the honored guests, Beth Hooker and Lula Beth Motley.

### Woman's Auxiliary Has Regular Meet In Church Parlors

The Woman's Auxiliary of the First Presbyterian church met Monday afternoon at the church.

A short business session was held, with the president, Mrs. T. Kittinger, presiding. The first number on the program was a song, "America." Mrs. J. A. MacMillan gave the devotional on "True Patriotism" and offered prayer. Members responded to roll call with the devotional topic. Mrs. D. H. Arnold gave the roll call of missionaries and prayed for them and their work.

A short missionary program was directed by Mrs. Mamie Van Pelt.

## Gayle Greene Is Host To Friends With Dance, Party

Gayle Greene entertained a group of his friends Tuesday evening at the Greene home at 305 North Eleventh street with a dance followed by a swimming party at Brookhollow County club.

Attending were Loreece Webster, Betty Dale West, Audrie Beth Lofland, Marcille Dickson, Nell Walker, Cora Fox Yonge, Mary Helen Kinslow, Mary Gardner, Pauline Turlington, Jaunita Cudd, and Dorothy Jo Ryan of Clarendon, and Guthrie Bennett, Jack Sitton, Cearley Read Kinard, Lewis Foxhall, Norman Thomas, Edwin Tompson, Jr., Russell MacMillan, Roy Forkner, Victor Walsh, and Paul Greene and J. R. Bartlett Jr., of Clarendon and the host, Gayle Greene.

The topics were "Rapid Changes" and "Review and Outlook." Mrs. D. J. Packer and Mrs. George Sager assisted with the program. Mrs. McNeely closed the program with a piano number.

Those present were Mesdames J. C. Ross, P. M. Fitzgerald, D. J. Packer, Fanny Craver, Mamie Van Pelt, D. H. Arnold, M. McNeely, John Angus MacMillan, Ida Capwell, T. Kittinger, S. S. Montgomery and G. A. Sager.

Mrs. S. T. Harrison and daughter, Ruth, went to Hollis, Okla., Friday morning to attend a breakfast at the home of Mr. and Mrs. Slake Keys, given by the Keys sisters, Leota, Mary, Mona and Roberta.

### Baker, Nell Sunday

Baker was married to Nell Sunday night at nine o'clock.

Webb, pastor of the church, officiated in the ceremony. The bride had been engaged to the groom before the wedding. Baker was ill in suffering from an operation.

The wedding ring was placed on the bride's finger because she was to have been at that time.

During the ceremony, the bride asked that the ring be placed on the bride's finger because of the sentimentality of the wedding ring. The ring was placed on the bride's finger.

The bride read: "You have the ring to her which is yours" and "you have the ring to her which is yours" instead of the usual manner.

The bride wore a simple blue gown over satin accessories.

The guests were: Mr. and Mrs. T. O. Neely and Mrs. Cowan.

Mrs. Tunnell plan to move in Van Zandt street. Mr. Tunnell is superintendent of a school.

### Fritchard Is P. Hostess Tuesday

Fritchard was hostess of the Club Tuesday evening at her home, on Harrison street.

Lanterns lighted the lawn and made a decorative bridge which was the evening. High teas by Pauline Turman.

### Party Is Saturday By Power

Power, 717 Harrison street, entertained friends with a theatrical party Saturday evening.

The party was assembled at the Ritz Theatre. At the end of the show they returned to her home and were served iced punch and cake.

Guests included Ann Dorothy Sue Fultz, Bobbie Clark, Gertrude, Anna Beth Leverett, Scott Noel, Martha Tommie Ruth Potts, and Benzy Es-Foxhall, J. C. Web-Gowan, Harold High-gan Kunkler, Jesse Ed Moore Jr., Black-mercy, Pat Noel and Harrison.

Shepherd of Ballin-town and will be the hostess of the party with Harrison over

### APPROVE TEXAS CENTENNIAL COINS

#### Million And Half 50-Cent Pieces Will Be Issued

*By Associated Press*  
 AUSTIN, July 6.—Congressman W. D. McFarlane of Graham, chairman of the Sculptor committee of the American Legion Texas Centennial committee, has received a communication from Charles Moore, chairman of the Fine Arts commission at Washington, D. C., advising that the commission had passed favorably upon the Pompeo Coppini models for the Silver 50-cent pieces authorized minted for the Texas Legion in what is known as the Connally-Patman coinage bill.

Under the bill 1,500,000 half dollars are to be issued commemorative of the century of Texas independence which will be celebrated in 1936. The coins are to be sold at \$1.00 each and the net used to construct and equip a Memorial Museum devoted to history and natural history. A site for the museum on the campus of the University of Texas has been tendered by the board of Regents.

### Youthful Ward Will \$500,000

A youth reared in a home of wealth to take the place of a son who died inherits \$500,000 by the will of the late William A. Clark Jr., filed in Los Angeles. The heir is George John Pale 18, above, son of Mrs. Martha Pale, who worked in the Clark home nine years. Pale will study engineering.

chairman of the committee planning for the conference. He has announced that prominent educators from Texas and other states will discuss proposed curriculum changes. Superintendents and teachers from West Texas schools are expected to attend in large numbers.

Mr. and Mrs. W. M. Burgner of Fort Worth, who have been visiting Mr. Burgner's sister, Mrs. B. Wilson and family, left Friday morning for a trip to points in Colorado before returning home.

### Study Revision Of School Curriculum

*By Associated Press*  
 LUBBOCK, July 6.—Revision of the public school curriculum in Texas will be studied at a conference of educators at Texas Technological college, July 23, 24 and 25.

Dr. A. W. Evans, head of the education department at Tech is and stir into mixture. Cook and stir until smooth. Add milk and cook ten minutes longer. Rub bring quickly to the boiling point but do not let boil. Serve with toasted crackers.

For a copy of Sister Mary's new volume, "50 Desserts," send ten cents to Special Service Bureau Room 305, 461 Eighth Ave. New York.

### BANKS CLEARINGS SHOW MUCH HIGHER TREND

*By Associated Press*  
 HOUSTON, July 6.—Bank clearings at Houston for the first half of 1934 were approximately 32 per cent higher than for the same period last year. They aggregated \$610,901,988 as against \$463,275,173 in the first half of 1933.

New motor vehicle registrations in Harris county showed an increase of approximately 63 per cent over the first half of

1933. The 1934 figure was 7668 as compared with 4711 for the first six months last year.

Mr. and Mrs. T. C. Siak and daughter, and Mrs. Harvey Freeman of Wichita Falls visited in the home of Mr. and Mrs. Rube Sisk this week.

Mr. and Mrs. J. E. Roper left this morning for Saltillo, Miss., where they will spend two weeks with his mother, Mrs. F. M. Roper and other relatives.

#### Tomorrow's Menu

**BREAKFAST:** Chilled tomato juice, cereal, cream, creamed fish, corn waffles, milk, coffee.

**LUNCHEON:** Corn chowder, lettuce sandwiches, filled cookies, grape juice.

**DINNER:** Baked slice of ham with potatoes, corn-on-the-cob, spinach and egg salad, berry roly-poly, milk, coffee.

minutes in thin cream seasoned with butter, salt and pepper, it is amazingly good and preferred

by some persons to corn-on-the-cob. It must be stirred almost constantly while cooking to prevent sticking and burning.

Combinations of corn and other vegetables always are good, too. Succotash, green peppers stuffed with corn and corn chowder are combination dishes par excellence.

#### Corn Chowder

Two cups corn cut from cob, 1 slice salt pork, 2 small onions, 4 medium sized potatoes, 2 medium sized tomatoes, 1 teaspoon salt, 1-4 teaspoon pepper, 1 cup water, 2 cups milk, 1 tablespoon butter, 2 teaspoons flour.

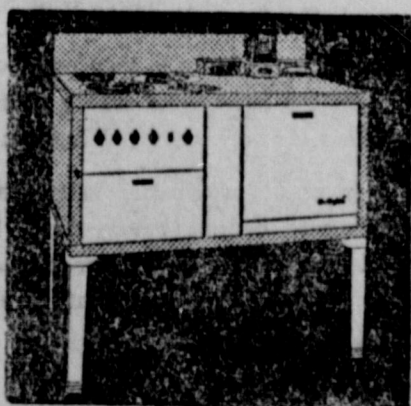

Cut pork in small dice and fry out fat in soup kettle. Add onions peeled and minced, potatoes pared and cut in dice, tomatoes peeled and sliced and salt and pepper. Add water and simmer for fifteen minutes. Add corn and flour and butter to a smooth paste

## "You're Lucky, Helen, to have a NEW ELECTRIC RANGE

You, too, can be lucky. Do as hundreds of women are doing. Investigate the marvels of electric cooking. FAST to operate... CLEAN to your home and health... DEPENDABLE in service... ECONOMICAL to your household budget... AUTOMATIC in its execution of cooking duties. ONCE YOU HAVE cooked electrically on a new Hotpoint range you'll never be satisfied with any other method. The new, better method of cooking eliminates all guesswork, watching and waiting. It gives you a clean flameless heat that cooks meat and vegetables in their own delicious juices with little or no water—all their healthful food elements and delicious flavors sealed in—not boiled away.

#### CONVENIENT TERMS

Do you know that your increased use of Electric Service is billed on a surprisingly low rate schedule... and adds only a small amount to your total bill?

NEWS OF  
MOTORDOM

# Along Automobile Row

DOINGS OF  
DEALERS

## Experience Makes The Motor Car, Says Industry Originator

Henry Ford has just completed his 40th year of manufacturing automobiles and automobile parts.

Mr. Ford completed his first engine in 1893, and it still runs. This is the engine that won the Selder Patent suit, which took the motor car out of the exclusive class and opened the automobile industry to hundreds of manufacturers who started during the last 30 years.

On Friday, June 16, the Ford Motor Company completed 30 years of automobile making.

Some of the men who began with Henry Ford that June day in 1903 are working with the company yet. All of the principles laid down then are still operative. To date they have sold well over 21,000,000 Ford cars.

Although Ford created the automobile market, he never thought it was good for anyone to monopolize it. He believes that before business could be good for one, it must be good for all.

Of course, there is one thing Ford can not share—everyone must get it for himself—that is experience. And it is experience that makes a motor car.

"Great changes are upon the world. False ideas of every kind are vanishing in the general upheaval. Those who built truly on principle will survive—their service will carry them over. Business integrity and commodity honor will be fully justified. And newer and better ways of living will appear. That is the outlook for this 30-year-old company of ours," Ford said.

cars loaded from Texas points as follows: 2,598 from Canyon south and east of Farwell; 1,802 from Higgins to Farwell, and 1,291 from the Spearman district. At the same date last year, the Santa Fe had loaded 2,292 cars.

Most of the Fort Worth and Denver loadings, totaling 1,715 cars were on the South Plains line east of Childress to Silverton, Dimmitt, Plainview and Lubbock. Not a single car was shipped from the territory between Amarillo and Dalhart, and area which in normal years loads from 800 to 1,000 cars.

The Rock Island reported 1,450 cars loaded on its lines between the Oklahoma-Texas boundary and Tucumcari, N. M., between Tucumcari and Liberal. Of the total, it was estimated that at least 1,200 cars were of Texas wheat.

**PLOW AND PLAN NOW FOR GARDENS THIS FALL**

COLLEGE STATION, July 7.—With gardens cut short in a wide-spread drouth it is of unusual importance this summer to plow up garden plots and keep them in good tilth in anticipation of rains which will make fall gardens possible, garden demonstrators throughout the State are being told by J. F. Rosborough, extension horticulturist at Texas A and M College. If weeds are kept down and the garden land kept in good condition to catch and hold moisture it should be fairly easy to get good early-fall garden stuff, he thinks.

Granting rains come, fall gardens may be planted in early August in South Texas, and in late August in all the rest of Texas. The most dependable early fall garden plantings are onion sets, Swiss chard, Irish potatoes, pinto beans and radishes.

**WHEAT HARVEST IN PANHANDLE NEARS END**

13,000,000 Bushels Moved; Much Is Held On Farms

By Associated Press

Approximately 13,000,000 bushels of the 1934 Panhandle-Plains wheat crop was moved to market and storage in June.

Loading announced by the three railroads serving the territory totaled 8,667 cars, averaging 1,500 bushels each. All grain dealers reported that much of the crop is being held on the farms, some estimating that from 40 to 50 per cent of the wheat is still in storage.

The harvest will be practically over by July 10, at a date when in former years the peak was just being reached. Because of dry, hot, weather the harvest is being completed at least three weeks earlier than normal.

**Movement Still Heavy**

With the end of the season near, the movement still was heavy. The Amarillo Grain Exchange inspected 270 cars Thursday, 133 Friday. The price has held in the neighborhood of 70 cents a bushel throughout the season. It was 69 cents in Amarillo Friday.

Reports from the Lower-Panhandle and South Plains areas said all farm buildings, including garages, and all storage elevators were filled with wheat and some is piled on the ground. Walter Barlow, Amarillo miller and president of the Panhandle Grain Dealers Association said about 50 per cent of the crop was being held in the region from Tulsa south and about 40 per cent from Amarillo north.

**South Yield High**

The bulk of the crop has been shipped from points served by the Santa Fe. That line reported 5,691

## ROTARIANS SET RECORDS FOR CHEVROLETS

### 2,225 Miles Covered In 39 Hours And 54 Minutes

DETROIT, July 7.—Seven Stockton, Calif., Rotarians led by A. H. Patterson established new unofficial records in their trip to the International Rotary convention at Detroit, it was reported to Chevrolet officials here.

Making the journey in two Master Six Chevrolet sedans, the party covered 2,225 miles from Stockton to Chicago in 39 hours and 54 minutes, according to Patterson, who drove the pace car. Woodruff Patterson, his son piloted the second car.

The first 1,047 miles of the journey, from Stockton to Rawlins, Wyoming, was made in 19 hours and 24 minutes, despite rain, snow, wind, and cloudbursts from Battle Mountain, Nevada, to Rawlins. Stops were made only for gasoline.

In the entire journey from Stockton to Detroit, only four quarts of oil were added, two to each car, and not a drop of water was added to either. Patterson attributes his unusually fast time to knee action, stating that without this feature it was very doubtful if the cars could have negotiated the long grind, much of which was over unfavorable roads and detours, at such high speeds. At times the cars ran for miles at speeds over 80 miles per hour.

Following the convention here, four of the party took delivery of new Chevrolets in Flint and returned to the West Coast by different routes. Those making the trip were Patterson, Paul Weston, Dr. C. D. Holliger, Edward de Simas, Harry J. Burton, Richard Holt, and Woodruff Patterson.

**AUTOMOBILE HIGH SPOTS**

A mirror, mounted near the right front wheel, is being used to demonstrate to passengers how "knee action" wheels operate under actual running conditions.

Shallow scratches in the windshield may be removed by rubbing the glass with a piece of hard felt that has been moistened with water and then dipped in rouge.

A BB shot dropped into the end of the valve stem will help inflate a tire when the valve has been screwed so far into the stem that the airhose connection will not depress it. The shot, of course, must be removed before replacing the valve-stem cap.

Auto engines may now be lubricated with graphite powder through the use of a rubber "gun" fitted with a nozzle for directing the lubricant to the spot desired.

A battery water-level gauge mounted on the automobile instrument panel now eliminates all guesswork as to whether your battery needs water.

Michigan produces 91 per cent of the nation's autos.

A hydraulic stabilizer, which prevents the automobile from swerving or turning over after a tire blows out, is now available for making the steering gear safer.

A motorcycle manufacturer has equipped his product with front wheel suspension resembling the "knee action" devices used on many automobiles.

The first Diesel-powered car to appear in an Indianapolis speedway classic covered the 500 miles in 1931 without a stop on 31 gallons of fuel at an average speed of more than 86 miles an hour.

One well-known auto manufacturer is "freezing" steel-alloy valveset rings into iron cylinder blocks at 100 degrees below zero. After insertion in the engine block, he inserts regains normal temperature, expanding to form a tight fit.

Under provisions of the new Hayden-Cartwright law, the U. S.

## COMFORT and SAFETY for the whole family in this Ford V-8 Tudor Sedan

Of course, this car is a comfortable car,—double-acting hydraulic shock absorbers, and free action for all 4 wheels take care of that. But, above all, this Tudor V-8 is a safe car.

Its one-piece, welded steel body is reinforced with steel. Both standard and deluxe models have a safety glass windshield and there is safety glass throughout on deluxe models.

With grown-ups in the comfortable, individual front seats, a child's playful fingers cannot reach from behind to open doors—The whole family is safe, surrounded by a wall of steel and safety glass, cushioned comfortably in a roomy, richly-upholstered interior.

Clear-vision ventilation prevents drafts. . . . Under the hood purrs the 85 horsepower of the most economical engine to operate that Ford has ever built.

Why not borrow a Ford V-8 Tudor from us and take your family for a try-out spin? No cost. . . . No obligation—All we ask is one hour's notice by telephone as to when you'll be ready. Phons us today.

**Notice To Persons On Hall County Relief Rolls:**

Upon instructions embraced in a Resolution by the Texas Relief Commission June 27, 1934, notice is hereby given to the effect that any person who is physically able to work who are offered employment at the prevailing wage scale in the community wherein the work is to be performed, and who refuse to accept without good cause, shall be deemed to have refused relief.

The following instructions are issued to the Local County Relief Board Chairman in Hall County, to-wit:

Any person or persons offering employment to others, whether on relief rolls or not, will be required to advise the Local County Relief Board Chairman in writing immediately when employment offered by them is refused. Such advice to the County Relief Board Chairman will include, when possible, the name of the seeker's full name, address, employment history, and wages offered.

When any person has been offered employment and has refused it, under the conditions stated, the County Relief Board of Hall County is prohibited from giving either direct or indirect relief to such person.

This pronouncement is published under the authority of the Texas Relief Commission, which is hereby requested the universal cooperation of the people of Texas in support of this action directed at the displacement of persons who refuse to accept work.

ADAM R. JOHNSON, Director

OUTHOUSES MUST BE KEPT CLEAN

WARNING the people of Memphis that certain outhouses and servants' quarters must be kept in a sanitary condition, Dr. C. Z. Stidham, city health officer, Friday threatened to "nail up" such places as offend neighbors and aid the spread of disease because of their neglect.

In making this threat, we feel that the health officer is considering the welfare of the people of Memphis and is acting entirely within his rights as a protector of public health.

He stated that numerous complaints had been made to him recently concerning the unsanitary condition of a number of such buildings in different sections of the city. People have protested because they do not like the nearness of filth and fear for the health of their children.

The work of keeping such places clean was turned over to individual owners in recent years by the city because of the expense incurred by their care. It was estimated that the cost to the city was approximately \$100 a month.

People who maintain such outhouses and servants' quarters should realize the danger of neglect, the possibility of the spread of disease and their duty toward their neighborhood. If they give the matter a little thought, they will see the importance of complying with the health officer's demand.

It was pointed out that these buildings could be cleaned at least once a month at a cost of about \$1. Surely cleanliness and safety are worth that price.

CIVILIZATION PLANS BACTERIAL WAR

A LOT of things that have happened in the world in the last few years are almost enough to give a thoughtful person the feeling that the human race has gone quite mad.

Nothing points quite so strongly in that direction as the things that get printed when that "next war" is up for discussion.

Glance, for example, at the article recently published in England by Wickham Steed, veteran journalist.

Mr. Steed says that disease germs and poison gas will be used against civilian populations in the next war. Elaborate plans for infecting municipal water and air supplies with bacteria have been made, he says, and large-scale epidemics are pretty apt to be a part of future combats.

In making this prediction, Mr. Steed, unfortunately, doesn't stand alone. In Richard W. Rowan's recent book, "Spies and the Next War," the same forecast is made.

Mr. Rowan even presents diagrams of the ingenious containers by which espionage agents can introduce cholera germs into foreign cities.

Reading such things, one is almost made ready to agree with those prophets of calamity who assert that modern white civilization has run its course, that European culture is about to go the way of Assyria and Egypt.

When nations prepare to throw disease germs at one another, they are ready to commit suicide on a grand scale. For disease germs do not respect international frontiers.

Plant the plague in your neighbor's back yard today and you'll have it in your own bedroom tomorrow. If the bacteriological offensive is to become a part of warfare, Europe faces a future compared to which the Dark Ages will seem like a period of peace, prosperity, and enlightenment.

An English novelist recently remarked that we don't say that a man who has leprosy spots on his body is a healthy man afflicted by unhealthy symptoms; we say he is a leper, and, as long as the leprosy remains, we class him as a very sick man, no matter how sound some of his organs may be.

The same thing, suggests this novelist, is true of enrolling bacteria as soldiers is a leprosy spot on the body of 20th century society is deathly sick.

HEALTH

BY DR. MORRIS FISHBEIN

Editor, Journal of the American Medical Association, and of Hygeia, the Health Magazine

In the Olympic games last year, the Japanese swimming team inhaled oxygen before engaging in competitive performances.

The swimmers took the oxygen for five minutes about one-half hour before entering competition. At once a great hubbub was raised and charges were made that such a performance was unethical.

Now some scientific studies have been made and provide some facts as to just how much the inhaling of oxygen will help the swimmer. Its effects on swimmers were tried in various ways.

After emptying the lungs of air as much as possible, a swimmer took two deep inhalations of oxygen and immediately plunged into the water, holding his breath.

In 11 of 17 cases, men who did this were able to break their own unofficial records. Of six who did not break their records, four exhaled before they hit the water

and one was not in good shape.

When, however, the swimmers inhaled oxygen for from three to five minutes and discontinued for from four to five minutes before a 100-yard swim, the breathing of the oxygen did not seem to have any noticeable effect on their speed.

Tests also were made of the value of breathing oxygen in running and on the value of breathing oxygen in hastening recovery after exercise. It was found that oxygen breathing in actual competition, unless given right at the start, is hardly worth while.

The inhaling of oxygen for five minutes after a 100-yard swim has little effect on recovery, judging from a second 100-yard swim 20 minutes later.

Breathing of oxygen immediately after hard exercise gives quicker relief to the breathing and circulation. If you breathe oxygen deeply three times, you may be able to hold your breath in a lying position up to six minutes and thirty seconds, whereas

"I got a wonderful memory for faces. It's him all right, sergeant."

BEHIND THE SCENES IN WASHINGTON

BY RODNEY DUTCHER The Democrat's Washington Correspondent

WASHINGTON, July 7.—There is more than a desire for rest and recreation behind this ocean trip of Roosevelt's.

The president's love for the sea can't possibly be minimized. But those closest to him know that several practical considerations entered into his plans.

He will glad-hand Puerto Rico, the Virgin Islands, and Hawaii, and in each case tell the islanders about their share in the New Deal. He will meet the presidents of Panama, Colombia, and Haiti and radiate the Roosevelt charm through them to the rest of Latin America.

Some of his advisers privately compare this trip to Herbert Hoover's pre-inauguration "good will tour" to Central and South America in 1928.

Administration commercial policy now looks toward Latin America and Asia rather than Europe. You can bear in mind that Puerto Rico, a Spanish country under our flag, may be considered our outpost in Latin America.

The Spanish-speaking republics, feeling a close bond, have always kept an eye on the island and watched our course of action there—a fact always remembered in this capital.

Roosevelt will promise a lot of economic rehabilitation to Puerto Rico. From Hawaii—populated largely by Japanese, Chinese and Filipinos—he will make a bow to the Orient.

And to politicians the tour seems a stroke of sheer genius. It gives F. D. the best possible excuse for crossing the country—he has to get back to Washington.

Returning from Hawaii, he will make speeches and get out among the people. Political intentions are disclaimed—which wouldn't be so easy if Roosevelt merely went cross-country and back—but the net effect will be a sales campaign for the administration.

Strikes Settled in Church If you want to settle a strike—take it to church.

Even before an archbishop had been named as chief mediator for the Pacific longshoremen's strike and a priest assigned to the Milwaukee street car walkout, Mediator Frank Bowen of the National Labor Board had come back from a packinghouse strike in Oklahoma with that recipe.

The striking butcher boys were a hard-boiled lot and several folk had been sent to hospitals. Bowen had a settlement to offer, but anticipated plenty of trouble keeping them quiet long enough to permit it to be explained.

## TEXAS CANNING FURNISHES RELIEF

### Texas Beef Canning Program May Be Used By Nation

COLLEGE STATION, July 7.—Texas, rated among the first seven states in size and quality of its home canning, has set the pattern for the vast relief cattle canning project of the relief agencies of the Government in the drouth states of the nation. Why this is so is given in figures compiled by the Texas A and M College Extension Service on the beef canning project last winter in co-operation with State and Federal relief agencies.

A total of 21,320 cutter cows bought from farmers and ranchers at premiums averaging \$5 per head were slaughtered and cut up the "A and M" Way in 19 salubrious plants for canning by the unemployed under direction of home demonstration agents. As a result 3,625,432 No. 2 cans of meat weighing slightly less than 20 ounces to the can were made available for distribution to the needy through county relief administrators. The Extension Service values such meat at 20 cents per can, but the lowest competitive commercial bid received in a cost investigation was 16.9 cents per pound, or about 21 cents per can. At this rate a product worth \$761,340 was obtained.

The total amount spent, exclusive of labor and equipment, was \$465,898 making the material cost per can \$1.2817. Labor cost was less than 5 cents per can. The equipment cost was about \$58,000 but was not charged because depreciation was slight and because the equipment is still in relief use. The total cost per can was about 18 cents, and the total gain or saving to the public was more than \$100,000.

In addition, an average of about 8000 people received \$12 per week for more than four weeks when other work was unobtainable. Farmers and ranchers received about \$100,000 in premiums on distressed cattle.

The efficiency per worker was high, daily output being about 40 cans per worker. Spoilage was less than one percent. The value of the output was about \$8.40 per worker per day, the total labor and material cost about \$7.15 per worker per day.

Last winter's beef canning plant at Amarillo has been re-opened in the new drouth relief canning. In addition to helping in the Northwest Texas drouth area this plant is to serve as a model for workers in other states to study. The San Antonio plant is soon to re-open to serve the newly declared Southwest Texas drouth counties.

Miss Mildred Horton, state home demonstration agent, is in Washington helping to outline the vast national relief meat canning project, and George W. Barnes, extension beef specialist is in the Northwest Texas area helping on the selection and assembly of distressed cattle. Inspection is in charge of veterinarians of the U. S. Bureau of Animal Industry, and cattle are bought on definite price schedule which protects both owner and mortgage holder. Condemned cattle are destroyed outright, and sound cattle are canned for relief purposes. Sellers may borrow back from the FERA enough cattle and necessary feed for home use or for foundation stock.

Farmers and ranchers who sell distressed cattle in this program agree to cooperate in any future AAA cattle adjustment program, and specifically agree to keep their herds from increasing beyond 80 per cent of the average 1922-33 size by January 1, 1936. The entire project is a cooperative one between Agricultural Adjustment Administration, Federal Emergency Relief Administration, Texas Relief Commission, and the Extension Service.

Send to Clark's for it.

## Insurance Features In AAA Contracts Shown By Drouth

Threat of crop destruction by drouth has placed added importance on income protection features of the commodity adjustment programs which farmers of the county are carrying out under the direction of the Agricultural Adjustment Administration. For the first time in the history of American agriculture, crop income insurance is provided on a nation-wide scale.

Because they are based on past production averages, the amounts of the rental or benefit payments are not diminished by current crop failure. In cases of serious drouth damage this year, benefit payments through the adjustment act to farmers signing contracts will represent a substantial part of their total farm income. These assured payments guarantee that a cooperating farmer will have some income, even though his crop fails entirely.

The commodity adjustment programs have been so planned that they are flexible enough to meet such unusual situations as that created by the drouth in many sections. They protect the producer from being crippled, through complete loss of income, in his efforts to renew production when the immediate failure has passed.

## No Climate Change Because Of Drouth, Says Weather Man

The drouth of 1934 does not mark a permanent change in the climate of this country, according to J. B. Kincer, of the United States Weather Bureau. There is no indication that a major climatic change, like those that occurred many centuries ago in the various geological ages, has been taking place in the last few years. On the contrary, Mr. Kincer points out, records indicate that present precipitation conditions in the Northwest are only what may naturally be expected to recur at intervals of 36 or 40 years.

The 10-year period ending with 1864 and that ending with 1894, the records show, were deficient in rainfall. Almost midway between these periods were several successive years of comparatively abundant moisture. Nothing in history will not repeat itself with a return to a period of such heavier rains.

## PUREBRED HOGS PAY THEIR WAY

### Superiority Of Purebred Hogs Is Demonstrated In 4-H Club Near Levelland

LEVELLAND, July 7.—That it pays to have purebred hogs and then finish them well has been demonstrated again—this time by Rex Hardin, of Hockley county. Last fall he purchased seven pure-bred Hampshire pigs to use for a 4-H club demonstration and fit them for the spring shows. They were placed on feed the first of November weighing 60 pounds and they averaged 214 at the Lubbock show. They were well fitted as shown by the fact that Rex won first in the light class, reserve champion, and fourth on a litter of five.

They were fed threshed grain and a protein supplement composed of cottonseed meal and tankage half-and-half by weight in a self feeder. Four pounds of grain and the protein supplement were required to produce a pound of pork. Water was kept before the pigs at all times.

No task today is more honorable and important than the struggle for peace.

—I. M. Maisky, Soviet Ambassador to Great Britain.

## Water Can Create Bad Fire Hazard

High-pressure fire apparatus may under some circumstances spread fire instead of quenching it. Dr. D. J. Price of the United States Department of Agriculture tells of a fire in a mill which became far more destructive after firemen turned on water. The high-pressure stream from the hose stirred up grain dust which had not been cleaned away from the timbering within the mill.

Such a dust when mixed with air in the right proportion becomes a high explosive. In this case the mill had been burning briskly but without violence. When the firemen turned on their streams of water they shook the mill and struck the dust from places where it had been at rest, forming a cloud of high-explosive dust within the building. The result was a deadly explosion in which firemen were killed and injured and the mill destroyed.

The lesson to be learned from such an experience, says Dr. Price, is that firemen should bear in mind the danger from explosions of inflammable dust; they should be familiar with plants in their territory where dusts may accumulate; they should insist on frequent and effective removal of these dusts; and when there is danger because dusts have not been removed properly they should notify their tactics to avoid throwing into the air where it is likely to explode.

Factories in which such dusts are likely to accumulate should be built with many windows so that the force of the explosion will break out the glass instead of spending itself on the main structure where the results are likely to be more disastrous.

Dr. and Mrs. M. McNeely, Holmes and Nell McNeely left this morning for Cleburne to visit with Mr. and Mrs. G. R. Sensabaugh. They will be joined there by Mrs. Sensabaugh and will go to Mt. Vernon Tuesday to attend the wedding of their son and brother, Holmes McNeely to Miss Virginia Turner.

Announcements have been received here this week of the birth of a daughter, Jo Ann, to Mr. and Mrs. Scott Webster at Littlefield. Little Miss Jo Ann weighed 7 1-2 pounds at birth.

A beggar with two automobiles was discovered in New York. Those Wall Street brokers would stoop to anything to hold on to their fortunes.

## Victoria Farmer Learns Soil Value In Rotation Plan

VICTORIA, July 7.—The government cotton acreage reduction plan taught J. F. Ballard of Victoria the value of legumes in a crop rotation plan. Last fall he planted 12 acres of cow peas on plowed-up cotton land and turned them over green. He now has 30 acres planted to corn and states the corn where peas were planted can be sold to the row as it is still green while the other corn is firing.

"This corn is larger, has a much healthier appearance, and will make a fair crop of corn without rain while the other will not make anything without a rain," Mr. Ballard says. He has planted all of his retired cotton acres in peas this year to add to the fertility of the soil.

## 35 CANS ASPARAGUS

CANADIAN, July 7.—Thirty-five cans of asparagus have been put up from her home garden this season by Grace Robbins of the Locust Grove Home Demonstration Club of Hemphill county in addition to that used fresh by her family and friends. According to the home demonstration agent, this would seem to indicate that asparagus should be more generally planted in this section where spring winds delay early gardens.

Mrs. Elizabeth Johnston left this morning for a vacation. She will be joined at Kansas City Mo., by Mrs. Eileen Montgomery and they will visit in Wisconsin and the World's Fair at Chicago. Mrs. Johnston will visit a former school mate at Charlevoix, Mich., before returning home.

## Believed Oldest Cotton Cleaner

What is believed to be the oldest complete cotton cleaner in the Cotton Belt is in the Federal Cotton Ginning Laboratory at Stoneville, Miss., according to Charles A. Bennett, engineer of the United States Department of Agriculture, in charge of the laboratory. The cleaner represents the type in use prior to the introduction—about 1883—of pneumatic handling systems for seed cotton, and is in perfect state of preservation. It is approximately 10 feet long and 3 feet in diameter and is made of cypress with hand-forged

nails. The rollers which are set in slots. These rollers are from one to the other of the principle of still employed cleaners except ones have air. The machine was made by Maj. D. W. B. States Marine, an old gin built at plantation, about Vicksburg, Miss. It was made about 1883 for play purposes.
