## SALVAGE PILES SHOW MANY USES OF RUBBER IN EVERYDAY LIVING

The wide variety of articles turned up in Memphis and Hall County by the rubber salvage campaign furnishes graphic evidence of how closely rubber is integrated into the everyday lives of the American people; and how great a dislocation is threatened by the Japanese overrunning those areas where most of the world's supply of this vital material is produced.

Automobile, truck and tractor tires and tubes, of course, form the bulk of the rubber salvage in this area, as in other parts of the country. But scores of other items, large and small, are to be seen in the piles of scrap around the filling stations.

A complete inventory of discarded items which formerly were

## Bible School at Church of Christ To Begin Monday

Classes Arranged in Four Age Groups, Competent Teachers in Charge of Each

A Vacation Bible School to be held at the Church of Christ, beginning at 8:30 o'clock Monday morning, July 6, is announced by Richard Robbins, minister. The school will continue for one week, with an invitation extended to all children of the community.

Classes have been arranged for four age groups, including the beginners, the minister said. The three older groups will study the following subjects, interchangeable: Music, Bible history, a Christian and Wordiness. Competent teachers will be in charge of each group.

## Pantex Men Take 130 Applications

More than 130 applications of Hall County men and women for jobs in certain-need Product Corporation's Pantex Ordnance plant at Amarillo were taken here Saturday by C. M. Roberts and Tom J. Finley, representatives of the company.

The two men spent the day at the county court house interviewing prospective employees. Their visit here was part of a swing around the Panhandle in search for workers.

Men, women, students, boys and girls, in fact every known type of employee is being sought by the company, the representatives said. Jobs which will be available range from the key executive positions to routine manual labor.

## Funeral Services For Estelline Man Conducted Monday

Noah B. Curtis, Well Known Farmer and County Resident For 36 Years, Dies Saturday

Funeral rites for Noah B. Curtis, 67 years old, were conducted at 3:30 o'clock Monday afternoon from the Methodist Church at Estelline by Rev. A. V. Hendricks, pastor. Burial in the Estelline cemetery was in charge of Womack Funeral Home of Memphis.

Mr. Curtis passed away Saturday. He was a prominent farmer and has been a resident of Estelline for 36 years.

Pall bearers were R. P. Baccus, J. L. Marcum, E. B. Wallace, Burl Bell, Hulien Clifton and Cap Orcutt.

Flower bearers were Mary Clifton, Willie Richburg, Mozell Wright, Lorene Wallace, Mary Foreman and others.

A large gathering of relatives and friends attended the services to pay tribute to the memory of Mr. Curtis.

Survivors include his wife, one daughter, Mrs. W. P. Couch of Estelline; three sons, Dow and W. L. Curtis of Estelline, Finis Curtis of Willow, Okla.

## Noel Returns From Rotary Convention

T. E. Noel returned home Sunday from Toronto, Canada, where he attended the Rotary International Convention as a delegate from the Memphis club. He reported that delegates from 35 countries attended the convention and lent variety to the program by making speeches in the native languages, necessitating the use of interpreters.

On his way home, the Memphis delegate visited Niagara Falls, historical shrines in Boston and scenic spots in the New England States.

## USDA War Board, Labor Committee In Joint Session

Report of Labor Situation in Texas Agriculture Heard At Meeting Saturday Night

Duties and requirements of the farm labor sub-committee of the USDA War Board were outlined and discussed at a joint meeting of the committee and board in the office of the county agent in the basement of the court house Saturday night at 8:30 o'clock.

Those attending were J. M. Dickson of the Memphis PCA; Arthur Gidden, chairman of the Hall County Agricultural Victory Council; R. C. Land, of the FSA; Paul Montgomery and J. L. Marcum, members of the sub-committee, and W. B. Hooser, county agent of the Texas Extension Service.

The personnel of the labor sub-committee, as recently constituted, is Arthur Gidden, chairman, Plaska; Seth Thomason, Memphis; Arthur Eddleman, Estelline; John Sharp, Turkey; D. A. Neeley, Memphis, Paul Montgomery, Lexington.

## Clarendon Lawyer On Rotary Program

Judge W. T. Link of Clarendon was guest speaker at Rotary luncheon Tuesday. He spoke about Japan as he knew it when in the Navy 1904-8 and as he knows it now from reports he gets in newspapers and by radio.

The speech was interesting and informative, according to Rotarians who heard Judge Link, who while expressing the belief that the Allies would finally win the war, it would be several years before the Axis nations are defeated.

Judge Link is candidate for Chief Justice of the 7th Court of Appeals.

## SUGGESTIONS FOR CARE OF BAGS ON FARM GIVEN BY COUNTY AGENT

With a greater volume of farm products in prospect this year than last, County Agent W. B. Hooser of the Texas Agricultural Extension Service points out that larger numbers of sacks and farm containers will be needed.

War, however, has materially reduced the supply of burlap, from which 60 per cent of bags are normally manufactured; and textile machinery which can manufacture cotton bags, is badly needed for the manufacture of other essential war materials.

Because there will be fewer bags this year, says Hooser, it is up to every farm family to begin at once to make sacks last longer, and to sell or trade in extra sacks so others who need bags may use them. If all of the surplus sacks on farms can be made available for re-use, they will go a long way toward overcoming a bag shortage.

The county agent offers some practical suggestions on how to make bags last longer:

Open bags without cutting them; protect filled bags from rats and mice; store filled or empty bags in a dry place; remove

## STATE ASSUMED COUNTY BONDS ARE REFUNDED

Fort Worth Firm Successful Bidder At Meeting Monday

Wm. N. Edwards and Company of Fort Worth were awarded a contract for refunding state assumed road bonds of Hall County by the Commissioners Court in a meeting Monday. It is announced by County Judge M. O. Goodpasture.

Three companies submitted bids for the refunding contract. These firms and their bids were: Crummer and Company, Inc., Amarillo, 3 1-2 per cent; Barcus, Kindred and Company, Austin, 3 per cent; Wm. N. Edwards and Company, 2 3-4 per cent.

The action of the commissioners was upon that portion of this county's road bond indebtedness assumed by the State of Texas which falls due in 1943. It is anticipated by state officials that gasoline tax funds will not be sufficient to carry all county and district road bond indebtedness assumed. Therefore, pursuant to a previous agreement, the commissioners were asked by the Board of county and District Road indebtedness to arrange a contract for refunding.

Bonds covered by the contract with the Edwards Company will be those the state will be unable to pay, it is said, and it is estimated the total may run as high as \$40,000.

Earlier a resolution to cover refunding of the bonds was passed by the commissioners' court, but a later decision deemed it best to enter into a contract, as being more definite and binding than resolutions, which are subject to alterations.

Monday's action of the Hall County Commissioners make it unnecessary, Judge Goodpasture stated, for a property tax to be levied to carry the state's part of the bonds heretofore assumed.

## Almost 100 Tons of Rubber Gathered in County Salvage Drive

DRIVE EXTENDED UNTIL JULY 10

Chairman Draper Praises 50,000 More Pounds Asked Efforts of County People;

Enthusiastic efforts of Hall County folks in the rubber salvage campaign resulted in the collection of 187,248 pounds of the vital material, as of last Friday, according to M. J. Draper, chairman of the county committee.

Expressing the utmost gratification over response to the drive up to the time of reporting to the state headquarters, Chairman Draper announced that the campaign has been officially extended until July 10, and urged local people to exert themselves to get in the very last small scrap of rubber before that chairman last Friday was J. J. Bice, Phillips agent; T. B. Rogers, Gulf agent; Lee Wattenbarger, Magnolia agent; Bill Kinslow, Texas agent, and Geo. Cullin, Continental agent.

## Two County FFA Boys Are Awarded Lone Star Degree

Member Memphis Chapter Is Winner of Scholarship To Be Used at Texas Tech

James E. Bray of Memphis and Carlton Wallace of Lakeview were awarded the Lone Star Farmer degree at the State Future Farmers Committee meetings held at New Braunfels June 18-20, according to announcement made this week.

Chosen from more than 28,000 members of Texas these lads are among the 175 Future Farmers of this entire state who have reached the highest degree of attainment this year that may be awarded by the State Association of Future Farmers.

In order to receive this degree a boy must be carrying on his third year farming program under the supervision of the vocational agriculture teacher, and his

## 202 Young Men Are Signed Up Tuesday

A total of 202 young men in Hall County between the ages of 18 and 20 years signed up in the registration under the Selective Service Act in the registration Tuesday, according to W. J. Bragg, chief clerk of the County Selective Service Board. The registration was conducted in Memphis, Turkey, Estelline and Lakeview.

The cards have not been tabulated yet, so that it has not been determined how many of the registrants are residents of Hall County and how many from other counties.

Those who have reached 20 years of age since the last registration date are subject to military induction under the present law and their names will be turned over to draft boards, which will classify them according to date of birth.

Others in the 18 to 20 age group are not subject to call for military duty as the law now stands.

## First Cotton Bloom Of Season Is Shown

Fred Hoggsett, who farms the E. A. Thomas place 12 miles southwest of Memphis, was showing the first cotton bloom seen here this season on Wednesday afternoon.

The stalk Hoggsett brought in had eight squares and was about 14 inches above the ground. He has about 8 acres, planted June 8, which is about ready to bloom.

Expressing appreciation of the hard work involved on the part of many in making such a splendid showing for the county, Draper said special thanks were due to the oil companies and their local representatives, who paid 1 cent per pound for the salvaged materials and went to considerable personal expense in gathering it up.

Reporting to the chairman last Friday were J. J. Bice, Phillips agent; T. B. Rogers, Gulf agent; Lee Wattenbarger, Magnolia agent; Bill Kinslow, Texas agent, and Geo. Cullin, Continental agent.

## Glorious Fourth Slated as Quiet Day in Memphis

Local Stores Will Remain Open for Business, Due to Fact Holiday on Saturday

"Business and work as usual" will be the theme in Memphis Saturday, July 4, according to the majority decision of owners and managers of mercantile establishments, a survey showed today. Even the post office will remain open, Postmaster Jim Vallance stated this morning.

The two banks will not open and some few other places may be closed.

The fact that Independence Day falls on Saturday was the deciding factor in the question of remaining open or closing. It was pointed out that this is the busy season for farmers and that Saturday being the day on which they do their marketing and shopping, it would be an inconvenience to them to close the stores.

As one merchant expressed it: "There wouldn't be anything to do if we did close. The government wants us to work, so how could we better observe the Fourth than to just go right on working."

Shower Wednesday at Whaley Home Honors Mrs. Kyle Payne, Recent Bride

Curtain Clothes

Mother and daughter wear dresses made from cretonne curtains that once graced the windows in their home, modeling the ingenious creations at National Salvage Fashion Fair in New York.

Mrs. Kyle Payne of Wichita Falls, formerly Miss Margaret Milam, was complimented with a miscellaneous bridal shower Wednesday morning in the home of Mrs. J. A. Whaley.

Early summer flowers and pot plants decorated the house throughout. The buffet was covered with an arrangement of miniature soldiers in battle.

Red gladioli in a crystal bowl, on one corner of the lace laid table, were accented by a large love-knot bow of wide, red satin ribbon. The ends of the ribbon extended to the center of the table, emphasizing the patriotic color scheme.

The guests came in two groups and were greeted by the receiving line, composed of the honoree, her mother, Mrs. Cicero Milam and Mesdames J. A. Odum, J. A. Whaley, Clyde Milam, and Miss Maude Milam and were invited into the dining room by Mrs. J. H. Norman.

Mrs. J. E. Teer of Vernon presided at the bride's book. Mrs. D. L. C. Kinard and Mrs. Jack Jarrell and Miss Eloise Norman presided at the punch bowl.

Cookies with daisies forming the letter "V" and double-hearted, open faced sandwiches, with punch were served.

"Don't Sit Under the Apple Tree" was sung and enacted by Misses Kathryn Frances Milam Louise Rogers, Betty Gene Milam and Sue Anne Roberts. The Misses Milam were dressed as soldiers. They were accompanied at the piano by Miss Mary Foreman.

Guineine Bennett and Jack Jarrell, dressed as bride and groom, came down the stairway, into the living room, and sang, "Don't Give Up the Ship." Miss Gertrude Raso played the piano during the calling hours.

Hostesses for the social were Mesdames J. A. Whaley, J. A. Odum, E. E. Roberts, D. L. C. Kinard, Winfred Wilson, C. R. Webster, T. B. Rogers, D. J. Morgensen, Jack Jarrell, Bill Kester, J. H. Norman, Howard Randall, Seth Palmeyer, and Miss Eloise Norman.

The guest list included the following: Mesdames W. H. Goodnight, Pauline Knight, Henry Read, R. C. Walker, T. J. Dunbar, Conley Ward, S. S. Montgomery, Allen Grundy, B. E. Martin, S. T. Harrison, R. S. Greene, W. C. Dickey, R. H. Wherry, Horace Tarver and Don Wright.

What the WAAC Will Wear

Official uniforms of smart military design have been created for the Women's Army Auxiliary Corps. Here Inga Rundvold models a private's winter uniform with overcoat. Colors are khaki in summer, dark olive drab in winter.

Women Work—

CIVILIAN DEFENSE AUXILIARY NOTES

By INEZ BAKER Page The Queen of Sheba! \$225 to dress one WAAC! No, girls, that does not mean for the duration, just the first fitting. My mother used to feed and clothe a family of seven for a whole year on less than that. But it's true we pinched a little when it came to paying \$10 for a pair of gloves.

Women are becoming more and more important in the nation's industry. They are entering every field, gas station attendants, taxi drivers, even butchers. Not only must they replace men in non-war industries but it is estimated that before the end of this year 2,000,000 will be working on war production.

Women between the ages of 18 and 50 are urged to volunteer through the Red Cross as nurses' aides, thus contributing to Civilian Defense. Registered nurses are enlisting in the army and navy at the rate of 1,000 each month and this will cause a grave shortage of nurses at home. The Red Cross is calling for 100,000 women to take their places. It means hard work and no pay but it also means the saving of many lives, and it is something the women can do to help win the war. It is not expected that all of this number come from the cities, many will come from small towns and villages. No doubt the hospitals of Memphis would gladly cooperate if there should be any volunteers in Hall County.

700 yards of material has arrived at the Red Cross production rooms. Rally around workers. One thing we can say, the women of Hall County have never been slow to respond to the call of the production chairman.

Hall County has at least one daughter in the service, Mrs. Eula Messer Burk, R. N., daughter of Mrs. T. A. Messer of Memphis. Mrs. Burk joined the staff of Red Cross nurses last March and is now supervisor in the Station Hospital at Sheppard Field, Wichita Falls, holding the rank of second lieutenant in the American Nurses Corps. She is a graduate of Memphis high school, received nurse's training at St. Joseph's of Fort Worth and has been nursing in Fort Worth for the past seven years. We salute you, Lieut. Burk and are proud to call you our own.

**CARD OF THANKS**

We wish to express our sincere thanks and appreciation from the depths of our hearts to our many friends for their kind words of sympathy and loving deeds, in the death of our beloved husband and father. Trouble and trials some time in life must come to us all, and when that time comes to you, we pray that each of you may be shown the same love and kindness by such dear friends. Especially do we thank those who contributed to the many beautiful floral offerings. May God bless each one.

Pvt. W. R. Landis, who is serving in the Armored Forces at Fort Knox, Ky., writes that while he is no longer a local man, he would like to hear from his Memphis friends. A letter from Landis to his mother, Mrs. Estella Landis, Visalia, Calif., formerly of this city, describes a trip to the famous Mammoth Cave:

**Dear Mother:**  
Hello and how are you? I am fine except my cold is still hanging on. They don't give you a chance to get over anything unless they send you to a hospital and I don't want to lose any time going there as I would miss learning something and have to make up the time.

Well, I got to go to the Mammoth Cave today, but I had to get up at 4 o'clock this morning to get to go. The cave is 75 miles from here. We went in "jeeps," which they call "peeps" here. It rained off and on all the way there and back. I didn't get wet, but I almost froze.

The trip didn't cost us anything. They take a trip every Sunday, calling for the guys that want to go and picking out the number they can take. They picked eleven from our company of 188. I wasn't chosen the other day when they asked for them, but one of my tent-mates was. Yesterday he got a big blister on his foot, so he decided not to go and I went in his place. I enjoyed it, but it wasn't near as good as Carlsbad Caverns.

We went for a boat ride on Green river inside the cave. We saw a blind fish which lives in the water. About 400 guys from Fort Knox made the trip, riding four to a "peep."

We went to the firing range yesterday to shoot .45 Colt revolvers. We fired eight shots each. I am in the third platoon and we won the championship over the other two platoons. As a result we had restrictions lifted over the week-end. That is we got to go anywhere in the fort without a non-com as an escort. We averaged 35 points per man out of a possible 80 score. I made 48, but there were a few who beat me. The captain was sure proud of us, because most of us had never shot a revolver before.

I saw the "gold depository" today. It was a quarter of a mile off the highway and is just two or three miles from here.

With love,  
W. R. Landis,

**Volunteer Officer Candidate Program Of Army Explained**

**Requirements Misunderstood By Many Applicants, States Lubbock Recruiting Officer**

Lt. Col. Joseph R. Peller, Recruiting and Induction Officer at Lubbock, Texas, stated that the War Department program for permitting men now classed 3A by Selective Service, to enter the Army as Volunteer Officer Candidates has been misunderstood in many cases. All of these candidates are required before acceptance as such to report to a designated Army reception center for mental and physical examinations. These examinations are intended to weed out all of those who are of doubtful officer caliber. This is a protection for the Army as well as the individual concerned.

A great many more applications have been received than can be accepted except after a delay of several months. Successful applicants are called to service in order of their date of qualification.

After an applicant is accepted and inducted into the Army as a Volunteer Officer Candidate, he is still not certain of acceptance for an Officer Candidate School. In selecting candidates for this school all men in the service are considered and the Volunteer Officer Candidate must take his chance with the others. The fact that he has already passed a qualifying examination indicates that his chances for selection are better than men who have not taken such examination, but no promises can be given that he will be selected.

**A LETTER TO UNCLE SAM**

**Dear Unc,**

The priorities around this house are simply terrific. What a time I had getting at the typewriter to make up this letter to thank.

You see, it's this way. Every Sunday, and after dinner weekdays, Dad used to take Mother and me for a ride. And did we dread it!

Mom said Dad used to drive like a maniac... no regard for my tender feelings and stomach. He'd honk and fight his way through traffic, missing fenders by an eyelash, at a speed that made my heart bump my tonsils.

Now, boyhood what a relief!... Dad heard a Phillips news broadcast say that Uncle Sam wants every motorist to Care for his car—For his country. Then he saw a Phillips ad which said that any Phillips Service Station man would be glad to show him how to do it. Well, to make a long story not too long,

the Phillips man whispered the magic words to him: **DRIVE UNDER 40.**

You'd never think anything so simple could change my whole life. But it did. Dad now drives like a human being. He has found out that he not only saves rubber, but also gas and oil... and saves his nerves, too. Mom swears that Dad is a different man ever since he started getting gas, oil, and car-care at the Phillips Service Station... you know, the ones that have the big Orange and Black 66 Shield.

I guess lots and lots of other folks are going there, too, because I sure hear plenty of talk about Phillips 66 Gasoline and Phillips 66 Motor Oil.

I even hear that you're using some of it yourself.

Respectfully,  
Your Grateful Nephew

Estelline Student In TSCW Girl Choir

Miss Nicki Elizabeth Edleman of Estelline has been selected a member of the first summer all-girl Modern Choir at Texas State College for Women, Denton, which was presented with the symphony orchestra in concert Wednesday, July 1, at 8:30 p. m. in the college outdoor theatre.

Conducted by William E. Jones, director of the department of music and professor of voice at TSCW the 22-girl choir is the first to be assembled in the summer college. It has been scheduled for several appearances throughout the summer session.

Miss Edleman, daughter of Mr. and Mrs. Arthur Edleman, is a junior student, majoring in kindergarten primary education.

Tomatoes Listed As Victory Food Special This Week

Local Grocers Cooperating With AMA in Boosting Use Of Plentiful Commodities

The season's first heavy supply of tomatoes is being featured in all local stores this week—as a Victory Food Special, Ottie Jones, chairman of the Hall County food industry committee announced today.

Tomatoes now found in local stores are being shipped in from Texas, Louisiana, Mississippi, Georgia and South Carolina farms and represent one of the finest crops grown in recent years.

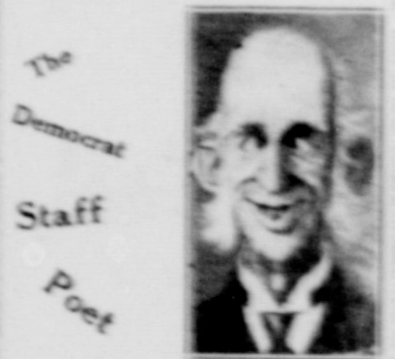

"Local merchants are cooperating with the Agricultural Marketing Administration and their trade associations in promoting Victory Food Specials. Because farmers are on all "all-out" war basis, they are producing more food than they ever grew before. Due to super-abundant harvests, or other factors, unusually large supplies become available. These foods must be marketed promptly or be wasted, and in this time of national emergency no food should go to waste. Therefore, such foods are designated as Victory Food Specials, and local homemakers are urged to do their bit seeing that the food is used to help build a stronger America.

Buy—and serve more tomatoes while local stores are featuring this important vegetable, Jones said.

Comments—

(Continued from page 1) some dealer's stock to take the place of the one the factory was supposed to have shipped June 1. This leaves us all in a bad shape. However, until the mawer can be secured it is hoped labor can be secured to cut and keep weeds down so the cemetery will not have such a forlorn look.

How many Memphis merchants played into the hands of radio salesmen two weeks ago? High pressure salesmen, by telephone sold some two hundred dollars worth of radio advertising here. They were told the radio would broadcast for a period of months. It has been learned that the radio program for the Memphis advertisers is put on at 3 o'clock on Monday morning, the four Monday days in the month—not a whole month of advertising, as local merchants were led to believe. After all these years of gyp advertising exposure, I surely got a kick out of hearing about people falling for such schemes. Only the Amarillo radio station profits from the one that has just been pulled on Memphis. The sum of \$14.50 per merchant is a lot of money to pay to get a short mention of Memphis once a week at 3 in the morning when most people are still asleep.

Reports on the labor situation from various counties over the state were read, and it was shown that the demand for labor in Hall County will not become serious until the beginning of cotton picking in September.

As the War Board must get reports on the labor situation to College Station by the fifth of each month, it was found necessary to change regular meeting dates for that body from the first and third Mondays in each month, and last Saturdays in each month. The labor sub-committee will meet jointly with the board on the next meeting in each month.

Two County FFA—

(Continued from page 1) investment in farming must exceed \$250.

He must be active in Future Farmers activities, a leader in his local chapter and be in the upper bracket in his high school scholastic standing. Not more than two per cent of the organization's members may receive the Lone Star Farmer degree during any one school year. However, only about six boys per 1,000 meet the minimum qualifications this year.

Noel Bruce, another member of the Memphis FFA chapter, this year was one of 29 Panhandle vocational agriculture students to win a \$100 scholarship offered by a large merchandising corporation, according to Gene Barnett, vocational agriculture instructor. The scholarships are offered for the purpose of assisting boys through one year of college work at Texas Tech, Lubbock.

Two local Future Farmers, J. C. Wilber and James Chappell, are candidates for the Lone Star Farmer degree at the Fort Worth Fall Stock show in March, 1942.

Barrett stated:—The War Board is the third largest among the states from the standpoint of distance from most of its territory from the sea and its transportation problems. Texas is an island empire.

The world's largest oil-giant production is made in the Coastal Prairies of Texas.

Three Fresh Fruits Bible School at— Added to List of Blue Stamp Foods

Grapefruit, Dried Prunes Removed from Schedule of Commodities During July

Three fresh fruits and Irish potatoes have been added to the list of Blue Stamp foods available during July under the Food Stamp program in Hall County, according to Dan L. Boyd, area supervisor, Agricultural Marketing Administration.

Fresh peaches, fresh plums and fresh apples are the fruits added. These, together with grapes, all fresh vegetables, including Irish and sweet potatoes, and the staple foods continued on the list, will give participants a wide variety from which to select the foods they require.

Dried prunes and fresh grapefruit are the only two commodities removed from the July list. Dried prunes are being required largely by our armed forces and the season of heavy marketing of grapefruit is drawing to a close.

With these changes, the complete list of Blue Stamp foods issued by the Agricultural Marketing Administration for July 1 through July 31 in all stamp program areas is as follows: Fresh peaches, plums, apples and oranges, all fresh vegetables including Irish and sweet potatoes, shell eggs, butter, corn meal, hominy corn, grits, dry edible beans, wheat flour, enriched wheat flour, self rising flour, enriched self rising flour, and whole wheat (gramah) flour.

"Farmers," says Boyd "are working to produce abundant quantities of all foods needed by the United Nations. The Food Stamp program helps to assure them, particularly in seasons of heavy marketing, of a fair return for the efforts they are making. At the same time the program aids many nutritious foods to the lives of families in need."

**CHURCH OF CHRIST**  
RICHARD ROBBINS, Minister  
The Vacation Bible School will begin at the Church of Christ next Monday morning at 8:30 o'clock. This year we have planned for only one week of school. Every child in the community is invited to attend these classes. We have arranged the classes into four age groups, including the Beginners. The three older groups will study the following subjects interchangeably: Music, Bible History, A Christian and Worldliness. We should like for all the young people to attend these classes. All from sixteen years of age and up are to be grouped together unless there are enough adults for a class to themselves, if so we shall arrange a class for them. Bring your Bibles, that is our text book. Ask for a copy of our daily program and see the arrangement of classes.  
"Come thou with us, and we will do thee good." Numb. 10:29.  
Brother Floyd J. Spivy shall be with us in a series of meetings beginning July 15. All are invited to attend, watch for further announcement.

**METHODIST NEWS NOTES**

### DAMPENED OPTIMISM

**WAR EVENTS** of the past two weeks have effectively, if grimly, served to quench a rising spirit of optimism that was sweeping the United States after the victory at Midway and the British bombings of German industrial centers. The panorama of modern war changes swiftly and the apparent advantage of one day can easily become the disaster of the next.

The sudden fall of Tobruk, Rommel's thrusts into Egypt, the dire straights of the war-weary Chinese, the presence of Japs in the Aleutians, the peril of Sevastopol are links in a chain of reverses that have had an understandably dampening effect upon American hopes for an early victory.

Americans are incurable optimists. It is regrettable that some of the nation's highest placed leaders, carried away by wishful thinking, have recently fanned the hopes of the people by their public utterances. One candidate for high office in Texas made the ungrammatical and falsely cheerful statement that "it aint gonna be a long war."

Optimism is a splendid trait and highly useful in peace-time. In war, a grim spirit of confidence, backed by "blood, sweat and tears" is more becoming to an embattled people. To all appearances "it aint gonna be a short war."

### LIDICE OR LAKEVIEW

**IMAGINE** reading the following government announcement in your Memphis Democrat:

"All men of Lakeview have been shot. The women have been deported to a concentration camp and the children sent to appropriate centers of education. All buildings of the village were leveled to the ground and the name of the village was immediately abolished."

Those are the words of an official Nazi statement issued not so long ago, except that the town was named Lidice—a quiet little community of Czecho-Slovakia, near Prague.

In Lidice men and women lived where their ancestors had lived for more than 600 years. A Lidice son brought his bride to his parents' home; his children were born in the same room where his grandparents first saw light. Above the roofs of the town rose the spire of St. Margaret's Church, a symbol of community faith since the church's building in 1736.

Life was not so easy after the German conquerors came. The men had to do what the rulers ordered. Limits were set on worship in the church and schooling for the children. The women didn't have such things or so much to fix for the meals. But the people lived on, they worked, they loved, they dreamed—oppression had been on them before but they believed that to a people of unconquered spirit, freedom at last returns.

Then two men fatally wounded Reinhard Heydrich who, as Nazi "protector" of Czecho-Slovakia, earned the title of "hangman." That happened on a highway which didn't even go through Lidice. The Lidice people told the Nazi secret police that they didn't know anything about the two men.

But the Gestapo agents learned that Lidice folk still dreamed of freedom. They claimed they found a radio, forbidden by the German conquerors, arms and munitions. Several of the Lidice young men had escaped to join United Nations forces fighting Germany. And the Nazis followed their policy of bloody vengeance—a policy which has meant the murder, in retaliation for the death of Heydrich, of more than 700 innocent men and women.

So when you read or hear the name of Lidice imagine what it would mean if Lakeview were crushed to the earth, its name scratched from all records, the bodies of its men dumped into a common grave, their widows imprisoned, and the doubly-orphaned children in the hands of vengeful and merciless foreigners.

With vacation traveling much curtailed, and in some cases completely out of the question, this city's fine park should be a very popular place this summer. An outdoor picnic is something that can be arranged on short notice and is always enjoyable. Then there are a number of lakes and scenic spots within a short drive from Memphis that can be visited in lieu of longer trips.

### INVEST IN VICTORY!

Our boys can take the War to the enemy, if we back them up with ships and tanks and guns! But that takes money!

Help your Government to put the tools of war into the hands of our soldiers by purchasing War Savings Bonds and Stamps. And remember . . . just one Bond can't lick the Axis any more than just one gun! It takes millions of Americans buying War Savings Bonds and Stamps every day!

Bonds cost \$18.75 and up . . . and they pay you back one-third more in only 10 years! Stamps cost 10¢, 25¢, and up . . . soon total the price of a Bond if bought regularly.

Help our boys on the fighting fronts wherever they may be! Buy War Savings Bonds as an investment for yourself and your country.

### Autos Available to Eligibles

Declaring that the list of persons eligible to buy new automobiles is growing larger, due to increased employment in war production, Hubert G. Larson of Washington, chief of OPA's auto rationing branch, told a Dallas group last week that it is not unpractical for eligible purchasers to buy new cars. Sales of new cars release needed storage space and idle capital, he pointed out.

### Army Needs Nails

All lumber yards in Texas, Oklahoma and Louisiana have received a letter from the region War Production Board office at Dallas, asking for lists of any kegs of nails they may have available, for use by the army.

### Sugar Books Available

Consumers who had excess amounts of sugar at the time they registered for rationing may now obtain ration books from their local War Price and Rationing Boards, if their excess supplies have been depleted by allowances made for home canning, region OPA Administrator Max L. McCullough announced.

\*\*\* V \*\*\*

### Ceiling on Anti-Freeze

Dollars and cents maximum prices for anti-freeze at the retail, manufacturing and distributing levels have been announced by OPA, at points well below the speculative quotations prevailing at the end of last winter. The new regulation, No. 17, removes anti-freeze from regulation under the General Maximum Price Regulation.

### Typewriter Deals Illegal

So-called "lend-lease" transactions by which certain stores have been accepting the full sales price of typewriters under a rental contract, with the agreement that the purchaser will automatically acquire title to the machine when OPA regulations permit, are in violation of typewriter rationing regulations, OPA announced. Sale of typewriters has been banned since March 6, except to buyers who present certificates issued by their local War Price and Rationing Boards.

### Travel to Fairs Not Essential

While postponement of state and county fairs, in accord with OPA's recently announced policy, will be a deprivation to the farmer, it will "by no means be an intolerable deprivation," OPA Director Eastman declared. He reaffirmed the decision that travel to and from fairs is nonessential.

### Cosmetics Order Expected

Reduction in the number of permitted shades and odors of a wide variety of items ranging from lipsticks to "cosmetic stockings" will be a feature of a forthcoming WPB order limiting production of cosmetics. Limitations on container sizes and production of less-essential items also may be included in the order.

### Political Rallies Dropped

A warning to state and county officials that their eligibility for new tires will be cancelled if the tires are used for non-official purposes has been issued by WPB order.

## Natural Gas Called Asset for Victory

Availability of natural gas as a fuel for war production industries gives the United States an added advantage over other countries," said R. W. Lindsey, district manager of United Gas corporation, in a statement today.

"Everyone agrees that America's No. 1 job today is Victory. Whatever the problems involved, winning the war comes first. It is the first duty of every loyal citizen to serve his country in the best way he can.

"In the gigantic job of producing for war, America is benefited by having abundant supplies of natural gas available for the many required manufacturing processes. "United Gas Service is proud to have a responsible part in the making of guns, ships, and other material which is helping to speed America's fight for freedom."

—Bug War Bonds—

posers has been issued by OPA. Reports have come to the Texas OPA offices at Fort Worth that cars of county officials have been seen at political rallies loaded with passengers obviously not on official business. In Dallas, Tarrant and Travis counties, candidates in the forthcoming elections have responded to OPA's appeal to conserve tires by agreeing to forego political rallies this year.

### New Duties for Local OPA Majors

Letters outlining five major duties which board members will be asked to handle have been mailed to local War Price and Rationing Boards by Price Administrator Henderson. These duties include distribution of explanatory material on the General Maximum Price Regulation, filing of lists of cost-of-living commodities prices prepared by retailers, and receiving and forwarding to OPA complaints of violations of price regulations.

### Increased Sugar Available

Increased sugar allotments in proportion to the increase in the number of meals being served now are available to restaurants, hotels, boarding houses and other institutional users, region OPA Administrator Max L. McCullough announced. Institutional users of sugar in areas where war facilities have brought an increase in the service of meals will benefit from the increased allotment, he said.

### Southwest Leads in Salvage

More iron and steel scrap moved from auto graveyards to the nation's war furnaces in May from the Dallas WPB region, which includes Texas, Oklahoma and Louisiana, than from any other WPB region in the country. Total tonnage moved from the region was 81,888 tons. Nearest figure reported from the 12 other WPB regions was 46,427 tons.

### Victory Razor Is Latest

Razor manufacturers now are making a "Victory razor," composed of a zinc cap, a zinc or plastic guard and a plastic handle. Copper use in razors now is completely banned by WPB order. Sales of safety razors by manufacturers and jobbers, except to the armed forces, also are prohibited by WPB order.

## Press Paragraphs

SELECTED FROM THE DEMOCRAT'S EXCHANGES

### Lesson in Patience

Am I mad? Or is the sparrow? Or both? The wind has blown a sparrow's nest out of the tree and all over the lawn. Red feathers, white feathers, pieces of strig, dried grass, seed heads, grass roots and hairs from the horse's tail. Bits of speckled blue egg shell, tiny dots of yolk. The sparrow darts down, picks up two feathers, one blows away. Back to the tree, she tries to anchor the one feather. Piece by piece, back and forth, never weary, never discouraged. A lesson in patience and perseverance I should do well to heed, and not grumble about the few feathers on the lawn.—Nellie Witt Spikes in The Floyd County Hesperian.

### Timely Slogan

Up at Pampa the sheriff has a good slogan: To the street loafers he says: "Go to work in the harvest fields, or go to jail." There is no excuse now for any person being out of work, or complaining that he can't get a job—provided he is physically able to work.—Canyon News.

### Good Suggestion

The guests we wish to see (in this country) have not yet arrived. We'd really like to see Hitler escorted through all parts of the United States, on a flat-car within a steel barred cage. And within a similar cage, at the other end of the flat-car, should be the yellow "H" ruler of the world, from Tokyo.—H. E. Davis in The Dallas County News.

### Foresight

Those far-sighted farmers who were fortunate enough to take advantage of the shelterbelt program at its beginning are now reaping the benefits from their progressiveness. The older belts that have had the proper care are now doing the job they were planned for in a fine way, and will continue to protect the soil for years to come, without further care.—T. A. Landers in The McLean News.

### On Gas Rationing

Hope is in evidence that the government will see the light and refrain from placing large sections of the country under useless and senseless gasoline rationing. Gas rationing in the southwest would be almost equal to air rationing, both from the standpoint of quantity on hand and effect on life in this section of the country. If there is one item that the people of the Southwest can use in quantity without hurting the war effort, it is gasoline.—Bill Rutherford in The Moore County News.

### Well, Are They?

Are they stockings, or aren't they? According to the beauty experts, you will never know if the Lassic is wearing the new make-up designed by cosmetic manufacturers to remedy the shortage of silk and nylon hose. A local store has in a stock of the new painted-on stockings, and the girls say that in the interest of realism seems may be painted on (crooked to make it really realistic) with an eyebrow pencil. Ladies ought to get a kick (no pun intended) out of banging their shins on such once ruinous snag producers as chairs and table legs.—Jimmie Gillentine in The Hereford Brand.

Sugar Is Available For Fruit Canning

Homemakers canning fruit this year will save themselves time and trouble if they do some advance preparation before applying to their local rationing board for certificates.

"Be prepared to answer these three questions when you go," advised Winifred Jones, specialist in food preservation for the A. & M. Extension service: How many quarts of fruit did you can last year? How many quarts of fruit do you plan to can this year? How many quarts of last year's fruit do you still have on hand? Another word of advice is: "Keep a record of the fruit you can with your rationed sugar because your rationing board will ask for it when you apply for more sugar."

Answering these questions will be relatively simple for the thousands of rural homemakers who have kept records and filled food preservation budgets as recommended by county home demonstration agents of the Extension Service.

Rural homemakers may stretch their sugar allowances by using thinner syrups for canning fruits and fruit juices and by using corn syrup or honey as substitutes in canning recipes, Miss Jones says. Information on these methods can be obtained from county home demonstration agents.

Here is the specialist's summary of the rationing regulations as they apply to sugar for canning: "You will get one pound of sugar for every four pounds of finished fruit you are putting up, and you may use as much fruit as your family needs. You may have an additional pound of sugar for each person in your family to make a small supply of jams, jellies, and fruit butters."

Baptist Pastor In Wellington Revival

Rev. Sid F. Martin, pastor of the First Baptist Church, is conducting a revival this week for the First Baptist Church at Wellington.

In his absence, Rev. J. W. Bradshaw of Hedley will preach at the church here at both morning and evening services Sunday.

The Blackland Prairies are the most intensely cultivated farm lands in Texas. Principal crops are cotton, corn, oats, grain, sweet sorghums and wheat.

Our lesson begins with the four most significant and important words ever written, "In the beginning God." These words mean much in human life and history. It is true that they leave the thoughtful man out in a world of unsolved mystery, for in a sense "beginning" is inconceivable because one inevitably asks, What was there before the beginning? I recall a story concerning a child who was punished because, when he was told that God made everything, asked, very naturally, who made God.

The question was perfectly logical, though it is perfectly unanswerable. Here man touches mystery that is beyond his comprehension.

But, so far as man and the history of man are concerned, there was a beginning. It was not, as was once supposed, at an exact moment some six thousand or more years ago, for scientists have gone far beyond that time in the records that God has written in nature, in the rocks, and in various other manifestations. We know that man's roots are a great deal farther back than was formerly supposed; nevertheless, science itself has a beginning for human life.

THE story of creation in Genesis has been, and still is in some quarters, the occasion of violent controversy because of its alleged conflict with science. But there is no real conflict, if the story of Genesis is properly interpreted. On the contrary, there is a very real agreement. The story of Genesis was written before the days of scientific investigation, before the testimony of the rocks was discovered or understood.

What Genesis teaches is that creation was a process of bringing order out of chaos, which is exactly what is enforced by modern science. Scientists have discovered a great many details concerning that long process but, so far as essential truth is concerned, science has not gone beyond the Genesis story.

Tanks Turned the Tale

British troops in the Libyan desert took many of the huge Nazi tanks which served as rolling fortresses, but failed to deliver the knock-out blow. Rommel's forces proved too strong for the Imperial 8th Army, forcing them to retire to positions in Egypt and leading to the downfall of Tobruk.

We Are Moving Because We Need More Floor Space

Our business has grown in the six years we have been in Memphis and our present quarters are too small for our stock of New and Used Furniture. So we are moving first door west of the J. C. Penney Company.

At this time we want to thank the many customers who have made the growth possible, and to show our appreciation by offering for a short time a few special prices that will save you money.

BEDROOM SUITE

3-piece Modern Bedroom Suite, regular \$49.50 value, at \$35.00

Modern 5-ply Walnut Veneer Bedroom Suite, regular \$73.50 value, at \$55.00

Tapestry covered Studio Divan in a variety of colors. Regular \$39.50 value, at \$34.00

INNER SPRING MATTRESS

Made in Memphis. You have been paying \$21.50. Now, for this few days—

\$17.95

After September no more inner springs can be made. In fact, we are closing our mattress factory when the present supply of materials is exhausted.

FELT BASE 9x12 RUGS

A mighty good floor covering for the money. Regular \$3.65 value at

Only \$2.99

In our new home we will be in a better position to serve you. Increased floor space will permit us to carry larger stocks and a wider variety of furnishings than heretofore. We cordially invite you to come in and see whether you are ready to buy, or just want to look around.

MOUNTAINS OF COAL MUST BE MOVED BEFORE FALL

Your coal must move now or it may not move at all. Coal is not the problem—transportation is. War production board warns: "Buy coal now or face empty bins this winter." We will have a car of fancy Colorado nut or lump coal on the track almost every day during July. Get your requirements off the car or let us have your order to deliver.
