Hattie Dem Ward and Billy Thompson Are United in Marriage on January 19

Mrs. Kedron Ward of Memphis has announced the marriage of her daughter, Hattie Dem, to Billy Thompson, son of Mr. and Mrs. E. F. Thompson, also of this city, in a single-ring ceremony January 19 at Wichita, Kansas.

The vows were read by Rev. George C. Hutto, pastor of the First Baptist Church in Wichita at the Baptist parsonage.

Attending the couple were Mr. and Mrs. Francis Baker and Dave Pritchard, all of Wichita. Mr. Baker and Mr. Thompson were roommates during their enrollment in Brantley-Draughn's Business College in Fort Worth several years ago.

Mrs. Thompson is a graduate of Memphis High School, where she was an active member in extra-curricular activities. While a senior in high school, she was vice president of the senior class, pep squad leader, and football captain. She later attended Brantley-Draughn's Business College in Fort Worth, and was employed at Rosenwasser's at the time of her marriage.

Mr. Thompson is also a graduate of Memphis High School, where he participated in the activities of a number of organizations. He is now employed at Thompson's Hardware store in Memphis. The couple will make their home at 822 Brice Street in Memphis.

Time for Garden Club Tea Changed To 2:30 O'Clock

Plans became definite this week for the Memphis Garden Club tea, to be held at the American Legion Hall April 15, as only one change in the program—that of the starting time—was made.

The program was originally scheduled to begin at 3 o'clock, but the time has been changed to 2:30, it was announced this week.

Highlighting the program will be the address by Mrs. E. W. Hardin of Amarillo, who will give an illustrated lecture on gardens and other phases of home beautification.

A small admission charge will be made, it was announced, the proceeds from which will be used in developing the project of the Garden Club at the City Park.

Also to be on the program will be musical readings by Mrs. Carroll Smyers, and a quartet of Mesdames D. L. C. Kinard and Clyde Milam, and Harry Delaney and T. E. Noel.

Mrs. Hardin is a well-known speaker, and has made extensive travels. She has developed her hobby of taking motion pictures of famous and beautiful gardens in her tours.

Methodist WSCS Meets at Church For Bible Study

The Methodist W. S. C. S. met Monday at the church for Bible study, with Mrs. Roy Guthrie teaching the book, "Exploring the Bible," written by E. G. Hoff.

PLASKA

By MRS. E. J. GALLOWAY

There are a few cases of mumps in the community.

Corporal James Harper of Fort Bliss has been visiting his parents, Mr. and Mrs. Emmett Harper.

Corporal Lloyd Campbell of Fort Bliss was a visitor in the home of his parents, Mr. and Mrs. J. T. Campbell, Saturday night.

Corporal Sidney Harwell was a Saturday night guest of his parents, Mr. and Mrs. A. S. Harwell.

Frank Wheeler was a week-end visitor in Oklahoma City.

Mrs. John Smith, Mrs. Ira McDaniel, and Mrs. H. Tittle and daughter Ernestine were Monday visitors in Amarillo.

Mrs. Olas Murdock, Mrs. A. S. Harwell, and Mrs. E. E. Foster were Monday night visitors in the home of Mrs. W. L. Crawford.

W. L. Nabers has been ill for the past few days. Mr. Nabers suffered a heart attack while alone at home.

Mr. and Mrs. Hubert Hall have taken their small daughter, Carolyn Ann, to a Wichita Falls hospital for treatment.

Miss Wanda Faye Adcock was taken to a Wichita Falls hospital, where she underwent a serious spinal operation. She is reported to be doing nicely.

Miss Dorothy Hodges entertained the younger set Saturday night with a party, honoring Miss Jimmie Frank Grant on her 15th birthday anniversary.

The "Pop Stover" family of radio station KWFT will present a show at the high school auditorium Thursday night, April 17. This show is sponsored by the Plaska Needle Club. Everyone is invited to attend.

Play Day, April 1, was well attended at the Plaska school. Roller skating in the auditorium was enjoyed by the younger set. Two ball games, one between mothers and daughters and one between fathers and sons, were also played. The Play Day was sponsored by the Plaska P. T. A. In the afternoon the P. T. A. held a short business session to elect officers. Mrs. Dave O'Connor was chosen president, Mrs. E. J. Galloway, vice president; and Mrs. Walter McMaster, secretary-treasurer.

The B. Y. P. U. will have a social in the home of Mrs. Elmer Gardenhire Wednesday night.

The Voice of The People

Editor's note—this space is open to all readers of The Democrat for the purpose of expressing their opinions on any and all subjects. All signed letters will be printed here upon request, so long as they carry clean, unambiguous, material. The following should be considered the opinion of the writer, in no manner reflecting on the editorial policies of the newspaper.

BELIEVE IT OR NOT!

I am a citizen of Memphis and feel at home. Memphis don't seem to be as prosperous as it should be. I don't propose to advise the county. I am asking that you think on some plans which might be a financial help to the general public. Memphis is a real nice place to live. There is quite a few good people existing in Memphis. Think back to 1919 and 1929. The people of Dallas, Fort Worth, Wichita, all up and down the line, were saying Memphis was the best town on the Denver in a business way. It was a real town. I still say it's a real good town. We, the people, have given up to the depression and drought. These misfortunes, of course, have taken their toll. The real reason for our good business and all labor was employment.

The money was in circulation. Everybody bought what they wanted and paid as they bought. Pay as we go policy is the only sound method. Someone said how can money circulate when we don't have any. There is all the money in Memphis we need, if we will enact a law and enforce that law that will put it on the go.

Suppose there is a gross income of two hundred thousand dollars per month. Then levy a three per cent tax on the gross income. Collect the tax each thirty days. The tax must be a special tax for a special purpose. Spend every dollar each month as it is collected. Employ labor and buy material. This plan will put money in the hands of people who need to spend and will spend. The money will go into the city treasury each thirty days and out the same. All unemployed will be employed, of course.

Labor will buy goods of all kinds. Business people will get the money back that they paid out in taxes as profits each thirty days. They will like it when they have the experience. You see, in this way money circulates round and round. Money is worthless when

and Mrs. Dave O'Connor and son Billy, Mr. and Mrs. Arvin Orr and son Cloyce Ray, Mr. and Mrs. Bob Tiner and children, Cleve Mae, Wayne, and Ann, Wilma Jean Mc-Masters, Yvonne Lou McDaniel, Vernadine Sasser, Joyce Murdock, Ouida Orr, and Mr. and Mrs. M. N. Orr and Laverne. E. J. Galloway received a message that his aged mother had been injured in a fall at her home near Exeter, Calif.

it's idle. The tax I advocate, if I am right on the income of the town, will circulate in the channels of trade of Memphis \$6,000 per month. Labor will earn a decent living and increase business a large per cent. Somebody said, what will we put labor to doing? Don't matter, so long as we do something to build up the town, bring in the profits in the future. What does this town owe? If this town will circulate \$6,000 into its trade channels each month for ten years, we will own most everything we need. One thing I would advocate—a large dam so that the city can raise flowers in the hot summer. This City Council is a wise, big-hearted set of men. They will think of a plan that will put our town on the map again. It can be done. Let us not think so much about saving money. Let's think of a plan to use it. That's all it is fit for—when it is in the hands of the public.

Circulating freely all money is well with business. Let us see just in some small transactions what a help money is to business when it is in circulation. An illustration: A woman in the tailor business owes a butcher \$10. As the depression is on, she thought that she couldn't afford to spare the \$10, but she always paid her bills

on time and couldn't afford to fall down, so she paid the debt. The butcher bought a pig from a farmer, gave the farmer the \$10 for the pig. The farmer owed a banker \$10, so he paid the \$10 to the bank. The banker owed the woman \$10 for service that he had received, so the banker went across the street, paid the woman \$10. We can see how it goes. This ten dollars paid \$40 worth of debts and still it's ten dollars and the woman has her same \$10 and her debt is paid. They are all happy. They all got what was due them. The buying power was increased. Money was not decreased. We have plenty of money. If we will do our part, the money will do its part.

Idle money is the most useless of anything, but it will supply our needs when it circulates and pays debts. One dollar will pay a hundred dollars worth of debts in a few minutes if it is allowed to circulate and earn \$3 at 3 per cent tax. My belief is taxation is the only way of forcing money into circulation. It is common to vote a bond to do something, but in that way we pay something we don't use—interest. The difference in a bond and tax receipt: The bond promises to pay interest to the one able to invest; a tax

receipt promises prosperity and happiness if the money it buys is circulated in the channels of trade. Any of us can stand an egg on its little end when we see how it is done. Let us pray that we may be forgiven for omission. We have left off lots of things that would have done us good. Let us get our heads working. Someone is going to say—that's more of that crackpot Townsend Pension Plan. Let us not think of a pension for the old. Still we shouldn't be selfish. The old people are just some more of God's creations. We can't help being old. The young will be old if they live long enough and some of them may happen to be poor. We hope they won't. God loves poor people just like he loves the rich. God is love for all.

We, the old people, are like the Arkansas man. He wanted to have plenty of good eats while he lived on earth. So he told his wife to put plenty of salt in their bread. If Memphis can enact a plan that will put business and labor back to normal, we, the old people, will be on top. We had rather see that happen than a pension plan pass. I am happy when all young and old are getting on good. A market is worth paying for. Nobody will live very long who does not sell something at a profit to himself

except the individual who is taking profit to himself that someone else has created. There are quite a few of our good people doing that. Let's stand on the front end of the boat believing that Memphis is a real town to live in and other folks will believe it too. When we get going a tax collector said my plan of taxation would make the consumer pay the whole bill. Maybe that's right, but the consumer will be awfully proud to pay that small tax if there is a decent living to be accomplished by so doing.

R.P.Martin.

## Lakeview High School Seniors Take 'Sneak Day' Trip to Devil's Canyon

**By A Lakeview Senior**  
Twenty-eight members of the Lakeview High School senior class went to Devil's Canyon and the cap rock by bus for a picnic Tuesday, April 1. This traditional "sneak day" is one of the highlights of the senior activities for the year. Weather conditions were ideal, and the seniors returned weary but happy after a pleasant hike over the rugged country around the cap rock.

Music kept the entire group in good spirits on the road. To the accompaniment of guitar, mandolin, and violin, a chorus of care-free voices sang popular songs so that the miles flew by pleasantly. J. C. Denton, Damon Hoggatt, and Mark Williams furnished the music; and every one sang lustily. Mr. Gipson, the class sponsor, led several spirited numbers. After a picnic lunch at the camp ground, the class members formed little groups and explored Devil's Canyon and trooped up and down the stream and over the hills. By twos and threes they returned to the bus when they were weary. When the last straggling couple had returned, Mr. Gipson gave the all-aboard signal, and the bus rolled on to the cap rock.

### THE FEAR OF CRITICISM

Criticism is a good thing, I suppose, but the fear of it is a most destructive thing. Some of the finest acts of noble men and women are killed in their hatching nest through fear of criticism! As a matter of justice, about the only person deserving of severe criticism is the one who most fears it.

So long as this world is inhabited by humans, there is sure to be an element always present ready to condemn and find fault with every forward act. The world of men is always large, but sometimes it is not very big.

Your caliber is sure to be judged largely by the manner in which you take criticism. But do not forget this—the greater you become in independence and force and power, the more fierce and strenuous will be your critics and fault-finders.

Do not judge a great artist or performer by the number or kind of his critics. Judge him by the way the people to whom he appeals, receive him. The appreciation of motive is the key to sure and honest criticism.

Greatness strides—it does not step! And to fear criticism is to walk the way of the man, who—"Either fears his fate too much, Or his deserts are small, Who dares not put to the touch To gain or lose it all!"

## Activities Varied On All-Fool's Day

The activities at Lakeview were varied on April 1 this year. A part of the grade school spent the day picnicking in the park at Memphis, another part spent the day in Lakeview playing games of various kinds, and the seniors of the high school took their annual senior day trip.

No matter what was done, each student had a swell time and could come back to classes Wednesday morning feeling that they were ready to resume class work. Many of the seniors were sore and stiff Wednesday and some couldn't come to school.

## Senior Personalities

**SCOTT SHEPHERD**  
Age, 18. Date of birth, January 21, 1923.

Physical description—Eyes brown; hair, brown; height, 5 feet 10 inches; weight, 150. Favorite food—Carrot-lettuce salad.

Chief ambition—Undecided. Scott is a very striking member of the senior class. Having belonged to the FFA club two years and played basketball one, he has added much to his school.

**BOBBYE DUTTON**  
Age, 16. Date of birth, March 26, 1925.

Physical description—Eyes, blue; hair, blonde; height, 5 feet 8 inches; weight, 137. Favorite food—Strawberry ice cream.

Chief ambition—Secretary. Bobbye is a very outstanding member of the senior class. She has belonged to the FHT club for three years.

**AUDRY MAE MULLIN**  
Age, 18. Date of birth, August 9, 1922.

Physical description—Eyes brown; hair, brown; height, 5 feet 2 inches; weight, 120. Favorite food—Pecan pie.

Chief ambition—Nursing. Having enrolled in our high school this year from Turkey, Audry Mae has become a very popular member of the senior class. In her high school days at Turkey she was chosen most popular girl of her junior class and was a candidate for FFA sweetheart. She has belonged to the pep squad and FHT club three years and has played volleyball two years. She has also been outstanding in play production.

## 7th Graders Are Trained by FFA

Seventeen seventh grade boys are being trained for the Future Farmers and Lone Star Farmer ranks. They are being given this training by the local FFA chapter members.

For the past few days the chapter has been studying some of the projects they need to carry on. Some of these things are improvement of homes, preservation of wild game, and learning to be leaders among their friends.

The following boys are to receive a certificate of merit in beef cattle production: Billy Craft, W. M. Gowdy, Wesley Waites, Merlin Summers, T. W. Summers, Billy Hancock, Tye Williamson, Buck Johnson, Eugene Gibson, W. M. Hughes, and Lonzo Scoggins.

## H. E. Girls Make Plans for Banquet

Preparations are being made this week for the Mother-Daughter Banquet to be held Friday night, April 11, in the home economics cottage.

The banquet is an annual affair, planned and carried out entirely by the home economics girls. The FFA boys will be responsible for serving the banquet.

**P.-T. A. TO MEET**  
The Lakeview P.-T. A. will hold its regular afternoon meeting April 10 at 4 o'clock in the school auditorium. Everyone is urged to be present.

## Draft Army Has Place for Doctors

Appointments in the Medical Corps Reserve of the Army are not suspended, it was announced this week at State Selective Service Headquarters.

Qualified doctors of medicine, who are subject to the provisions of the Selective Service Act, whether they have already been inducted or are in Class 1-A awaiting induction, are eligible for consideration for appointment in the Medical Corps Reserve.

Texas' local boards have been requested by state headquarters to encourage all eligible registrants to apply for appointment in this reserve.

Sam Houston left his library, his watch, and his jewelry to the "disposition of my dear wife," and named her as testamentary guardian of their children.

## Need Laxative? Take All-Vegetable One

Don't let impatience lead you into harsh measures for the relief of constipation!

There's no use, for a little spicy, all-vegetable BLACK-DRAUGHT, taken by simple directions, will gently persuade your bowels.

Taken at bedtime, it generally allows time for a good night's rest. Morning usually brings punctual, satisfying relief from constipation and its symptoms such as headaches, biliousness, sour stomach, no appetite or energy.

BLACK-DRAUGHT'S main ingredient is an "intestinal tonic-laxative" which helps tone intestinal muscles. 25 to 40 doses, only 25c.

## FSA Encourages More Gardening by Borrower Families

**Canned Goods in Cellar Not Harmful Surplus, Says Management Supervisor**

With urban housewives thruout the United States complaining about advancing food prices, and American agriculture faced with surplus commodities, there is one large part of the population that is going about its business of creating an adequate reserve supply of food for home consumption, according to Bessie Mae Love, home management supervisor for the Farm Security Administration in Hall County.

"Canned goods in the cellar are one surplus that's not harmful," Miss Love said. "FSA borrowers are aiming only at insuring good nutrition for their families the year-round, by giving extra emphasis to their gardens. Canning and storing garden produce is a common practice among thrifty homemakers and more FSA bor-

rower farmers in this county are now planning bigger gardens than ever before."

Miss Love called attention to the fact that many farmsteads have not been producing enough garden stuff to keep the family healthy during the winter months.

"When farm families come to the FSA for financial assistance they are encouraged to produce as much as possible of their living at home," Miss Love said, "and big, diversified gardens are to be found on most farms operated by families working with this federal agency."

Good nutrition, it was explained, requires 800 pounds of vegetables for an adult for one year.

**PLASKA METHODIST CHURCH**  
Albert Cooper, Pastor  
A sparrow perched on the eve of a house  
To sleep the long hours of night away.  
As he dozed in peace, as still as a mouse,  
He dreamed perhaps of a frolic gay.  
But an old black cat on a nightly prowl,  
With the clear, prying eyes of a jungle beast,  
Without a sound, or a cattish howl,  
Obtained for himself a midnight feast.

We are taught to fear in the Holy Word,  
The one who destroys our souls in Hell;  
There is no escape from the snare that's set,  
Save trust in God's power. That none can excel.

Now the sparrow slept, all unaware  
Of danger that lurked nearby.  
His life is forfeit. Gone evermore  
His chirp. His flitting form from the sky.

Man is the sparrow, asleep on the roof,  
And Satan the cat, seeking whom to devour,  
And in many ways, caring not for reproof,  
He destroys souls with deadly power.

Awake, oh men! and protect your souls  
From the fiends of Satan that fawn,  
Remove pettish sins, seek higher goals  
And a brighter, happier day will dawn.

Texas has more landowners in the business of producing game for profit than any other state. Nearly 2,000 landowners operated licensed shooting preserves covering 6,815,509 acres during the last fiscal year. And this is only a fraction of the acreage devoted to the production of game each year.

**Connally to Offer Bill to Take Over Defense Plants**

Senator Tom Connally of Texas has had prepared and will introduce an amendment to the Selective Service Act, providing authority for the government to take over and operate during the period of the emergency any industrial plant, producing defense materials or convertible into a defense manufacturing plant, in which the national defense program may be impeded or delayed by an existing or threatened failure of production at such plant as a result of a strike or labor disturbance or other cause.

"The Selective Service Act," said Senator Connally, "now provides that the President is authorized to take over and operate any industrial plant, the owners or operators of which refuse or decline to make implements of war, or national defense articles, for the government upon reasonable terms. These provisions apply to the failure of employers to cooperate with the

government program of national defense."

**Comfort Program Orders Cut Off**

On account of army purchases in connection with the defense program, submission of further orders for percale and comfort cotton have been discontinued.

C. D. Walker, acting director for the southern division of the Agricultural Adjustment Administration, has notified B. F. Vance, administrative officer in charge of the AAA for Texas, that the discontinuance would affect applications for comfort material in excess of that amount covered by orders on hand at Washington.

The comfort program, supplementing the cotton mattress program, was begun in February. Walker explained that army purchases made it impossible for the Surplus Marketing Administration to obtain additional percale in quantities sufficient to carry on the program.

Percale ordered for the Texas comfort program prior to the discontinuance order, totaled 2,903,030 yards. Alloting ten yards to each unit, this would provide for 290,303 comforts.

### Easter Service to Be at Palo Duro

Many residents of the Memphis area are making plans to push the sleep out of their eyes early Sunday morning and drive to the beautiful Palo Duro State Park near Canyon for an impressive sunrise Easter service amid picturesque settings.

An A Cappella choir from Amarillo, directed by Miss Julia Dean of that city, will be featured on the program with sacred music. Rev. A. M. Dorsett, pastor of the First Presbyterian Church of Canyon, will officiate at brief religious services.

Several rehearsals have been held, and it is said that the ceremony is almost awe-inspiring. The acoustics, fixed by nature are said to be perfect; and the singing coming up out of the colorful Palo Duro can be heard clearly by the listeners and spectators on the levels above.

The sunrise Easter service, which will begin at 6:30 o'clock Sunday morning, is sponsored by the Amarillo Junior Chamber of Commerce. Plans have been announced to make it an annual affair.

### Numerous Real Estate Deals in City Bring Memories of 'Good Old Days'

#### Violence Flares At Strike Scene

The new Defense Mediation Board has been working hard to end recent strikes in defense industries. C. I. O. strikers turned over cars attempting to enter Allis Chalmers plant at Milwaukee, Wis. (top), at the height of the strike there. One strike picket (bottom) picked up a tear gas bomb and tossed it back toward police who had just fired it.

When it comes to real estate in Memphis, there's been some changes made since the first of the year. Here's a brief review of some of the deals transacted since January 1:

### FOOD FOR THOUGHT

WHERE THERE is a battle going on, food is needed. Mussolini can tell anyone that an army travels on its stomach—after his dismal failure in Africa.

When it comes to food, the United States holds an extremely important position in the war today.

The soldiers in Germany, Britain, Italy, Turkey, Greece, and over all Africa have food today. But "tomorrow" may tell a different story.

When that "tomorrow" comes, the United States will be the nation to receive the pleas.

Mussolini, before the entry of his soldiers in Africa, had well-fed men—soldiers who never believed that they would have to face a food shortage. But Britain, with a powerful fleet, cut off the Italian food supply and pointed out to Mussolini that armaments alone could not make an army.

Germany at present has enough food, but even in that nation, despite the contrary reports issued by Hitler's propagandists, food is becoming scarce. Hitler relied on Italy for food for some time, but food is scarce there now. The soil in Italy is thin, and not so productive as it might be if better care were taken of it.

Germany, too, has so many men in uniform, as has Italy, that little manpower is left to produce what is needed in the way of food stuffs. Women do part of the work, but they are unable to do it as well as men. Tractors are not as common as they are in America—fuel is too precious.

Great Britain, even with a powerful fleet, is somewhat short on food. The British failed to look into the future not only as far as armaments are concerned, but also as far as food is concerned. The Isles themselves are not very productive, are often crowded with too many people, and will be unable to furnish food sufficient for the Britishers.

Britain will, of course, as she has done to a large extent in the past, have to depend on help from some of her colonies—or the United States. This nation will have to feed the mouths of the Britishers as well as the mouths of Britain's guns.

In other words, the United States does not hold an extremely strategic position in this war of today—perhaps not as far as manpower is concerned, since this is not particularly a war of men but of machines.

Our nation has pledged itself to aid Britain by sending them armaments, including thousands of tanks and planes in which to travel. It seems, however, that since "an army travels on its stomach," food will give them some very good transportation facilities.

### THE FUTURE

#### WE BELIEVE—

- That Italy has used up its fighting strength.
- That Yugoslavia will give Hitler more than he bargained for.
- That Greece will continue to slap Mussolini in the face.
- That Russia will gradually side in with Britain and Greece.
- That France will someday be restored to her former greatness.
- That Germany, even with the great(?) Hitler, has no chance at winning.
- That right will win over might.
- That Great Britain will win.
- And that we still live in the greatest nation of them all.

CULLED FROM THE DEMOCRAT'S EXCHANGES

#### Problem

Virginia Anderson in the Shamrock Texan: There are generally two sides to every question, but no matter how broadminded you try to be, this one time it looks to us like there is only one side to the question and that's defense.

#### Human Hog

The Menard News: It is unusual when a fellow eats everything and doesn't finally get something that will make him sick. It looks like this rule is going to apply to Hitler one of these days, since his hunger for provincial gain has led him to gobble up, indiscriminately, everything in the form of a weaker nation that has got in his way. His recent meal on the Yugo-Slavovik realm is liable to sour on his stomach, and if it does we hope the bicarbonate is where he can't find it.

#### Pome

The Dalhart Texan: Beneath this stone lies Murphy. They buried him today. He lived the life of Riley—When Riley was away.

#### Cats

Deck Wells in the Wellington Leader: I don't like cats. They eat birds. We never would have had a cat at our place if it had not been for Sam down at Frank Thomason's barber shop. Sam left, but the cat stayed. Dogs have an affection for people and will move with you. But cats have no loyalty except to their instinctive way of life. If you leave, the cat will stay at the familiar place. Cats are clean, but they live for themselves alone. They want you to do everything in the world for them, but they will do nothing for you. To complete this grade school essay, I wish to opine that some people are like

#### Weekly Joke

The White Deer Review: Girl friend—Why are you wearing your socks wrong-side out? Other Girl—My feet got hot and I turned the hose on them.

#### They Need 'em

Carl Roewe in the Turkey Enterprise: British soldiers are temporarily stumped by the introduction of a new type of tank by the Italians. It has four speeds, one forward—and three in reverse!

#### Cowboy Songs

Douglas Meador in the Matador Tribune: Perhaps many romantic cowboy songs would have remained unwritten if the writers had followed range hands in the role of midwives during a rainy calving season.

#### Social Security Flour

The Sudan News: If we are to have the benefits of social security, then we must be prepared, all of us, to bear the cost. Don't ask the Legislature to vote millions for social security and in the same breath cry loudly for reduced taxes. This is government BY the people as well as FOR the people. You can't have your cake and eat it—even if it is made of Hillbilly flour.

#### Women or Whiskey?

The Claude News: Tom Osborn was giving Leon a lecture about spending so much money

at school. "Son, I know you're spending it on whiskey and women. You've got to cut out one of them. You can't keep up the pace with both."

"Alright, dad, I'm willing. Which one would you advise me to cut out?" asked Leon.

Tom thought in silence for a moment and said, "Son you can drink all the whiskey you want when you get old."

The Plainsman in the Lubbock Morning-Avalanche: That man on Avenue Q says a woman will go for any new wrinkle as long as it's not in her face.

cats and some people are like dogs. Both have their faults and both have their good points.

#### Freedom of Press

The Foard County News: The first evidence of the approach of the dictator form of government to a nation is a disposition to restrict the freedom of the press. A dictatorship cannot exist in a nation in which freedom of the press is never found in a dictatorship-ruled nation. There is something about the free dissemination of the news and dictatorships that is just not compatible.

#### Women

The Plainsman in the Lubbock Morning-Avalanche: That man on Avenue Q says a woman will go for any new wrinkle as long as it's not in her face.

### Test Your I. Q.

- Who is this former publisher, now entrusted with the task of building up a branch of U. S. defense service?
- What recent news event was the occasion for great celebration at Marseilles, France?
- What do the initials "OPM" represent?
- What language did Vice President Henry Wallace urge Americans to learn, and why?
- On what recent historical incident is Robert Sherwood's play, "There Shall Be No Night," based?

### ANSWERS TO Test Your I. Q.

- Colonel Frank Knox, secretary of the navy.
- The arrival of the American Red Cross mercy ship, with food for French children.
- Office of Production Management.
- Spanish, so that our relations with South American countries would be improved.

The International Uniform Sunday School Lesson for April 13 Text: Luke 24:13-17, 25-33

THE story of the two disciples going to Emmaus, a village about seven miles northwest of Jerusalem, and being joined by a stranger who turned out to be their risen Lord, whose death had filled them with great sadness, is one of the strangest in all literature.

As a miracle it has all the elements that make it hard to believe, for the Presence was not some phantom or image, but a living companion who walked and talked with them, who later sat at meat with them, and who, as He was made known to them in the breaking of bread, vanished from their sight. Could any story be more amazing? Of course, it cannot be "explained." One takes the record as it stands. Perhaps the highlight of the whole story is what the disciples said to one another as Jesus vanished out of their sight: "Did not our hearts burn within us while He talked with us by the way, and while He opened to us the Scriptures?"

WHAT a wonderful experience that had been! Here were two disciples in the depth of sad-

ness. As the Companion near and asked them walked with such sadness expressed amazement stranger did not know dire events which had be- pening in Jerusalem. They began to tell great hope that Jesus reth whom they had should have redeemed and of how their trust disappointed as He had rested and just away from them. It was then new Companion began to them the Scriptures, tell them how the propo foretold these events.

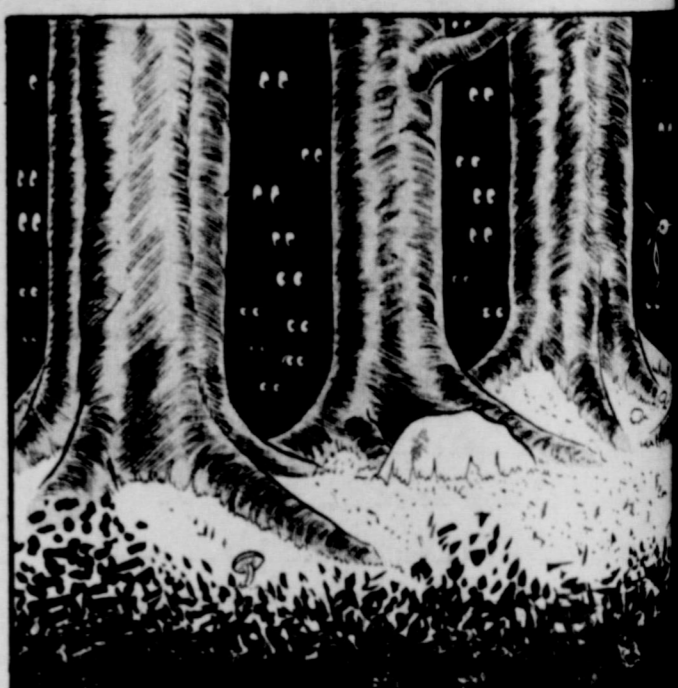

OUR lesson is but one in the resurrection but the whole story is the note of triumph of death, right over wrong over error, love over and it is the story that in its very dark night of and hate needs above today. Perhaps in imagination can take that walk from lem to Emmaus and gaze meet a world from whom moments of deepest and hope seems to have the past tense will change present. We trust it will redeem Israel.

**ARE YOU SEEING ONLY PART OF THE PICTURE?**

The great majority of beer retail establishments are clean wholesome places. Yet it is the once-in-a-while exception—the anti-social, law-violating tavern that everybody notices.

Such undesirable retailers give beer a bad name it doesn't deserve. Furthermore, by arousing public indignation, retailing abuses endanger your right to enjoy good beer, the beverage of moderation. They also endanger the benefits that beer has brought to Texas—31,165 persons employed since re-legalization, an annual payroll of \$22,076,182 and \$2,273,968.64 taxes paid last year.

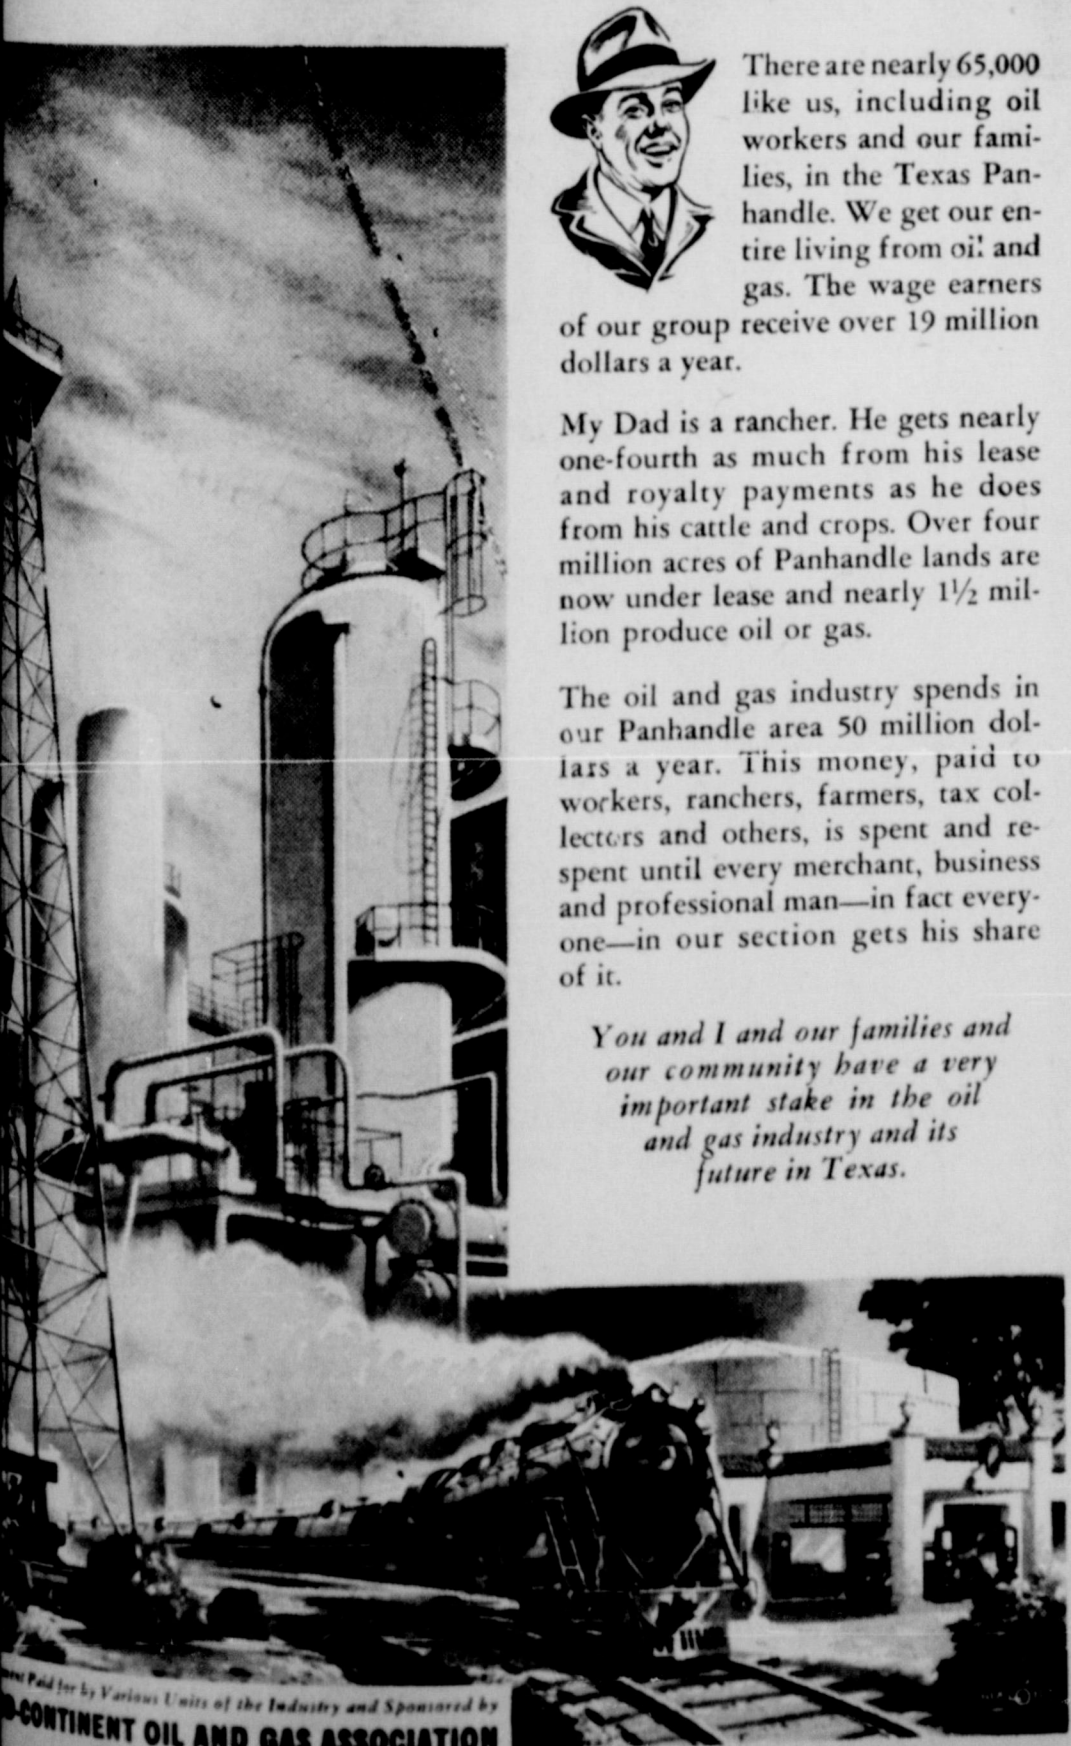

While it is the brewers' responsibility to brew good beer and the retailers' responsibility to sell it under wholesome conditions, nevertheless the brewing industry wants anti-social retailing eliminated entirely.

You can help us by (1) patronizing only the legal and reputable places where beer is sold and (2) by reporting any law violations you may observe to the duly constituted law enforcement authorities.

**YOU LIVE IN THE PANHANDLE YOU'RE IN THE OIL BUSINESS**

There are nearly 65,000 like us, including oil workers and our families, in the Texas Panhandle. We get our entire living from oil and gas. The wage earners of our group receive over 19 million dollars a year.

My Dad is a rancher. He gets nearly one-fourth as much from his lease and royalty payments as he does from his cattle and crops. Over four million acres of Panhandle lands are now under lease and nearly 1 1/2 million produce oil or gas.

The oil and gas industry spends in our Panhandle area 50 million dollars a year. This money, paid to workers, ranchers, farmers, tax collectors and others, is spent and re-spent until every merchant, business and professional man—in fact everyone—in our section gets his share of it.

*You and I and our families and our community have a very important stake in the oil and gas industry and its future in Texas.*

MEMPHIS PERSONALITIES . . . BIOGRAPHICAL SKETCHES OF THE PEOPLE WHO MAKE MEMPHIS PROGRESS

## Jack Boone

St. Patrick must have smiled on March 17, 1902, since it was on this day, when all good Irishmen were wearing the green, another Irishman discovered America, Texas, Taylor County, and the community of Trent, who was christened Jack Lionel Boone and eventually grew up to be manager of the Miller and Miller Freight lines in Memphis.

Jack Boone, whose wit, humor, and pleasing personality have won him a place in the hearts of every one with whom he has come in contact, was born on a farm, the oldest child in a family of 5. He lived on the farm until he was eight years old, when his father died, and the family moved to Trent to make their home. It was in Trent that Jack entered public school at the age of 8.

Since he was the oldest child, it fell his lot to help his widowed mother in making the living. During the summer months and after school hours and on Saturdays he would do farm work, garage work, in fact anything to help the family get along. During his senior year in high school Jack ran a tailor shop, and helped defray his graduation expenses as well as make a living.

He finished high school in 1922, and being of athletic turn, played professional baseball for two years with the Ranger club in the Oil Belt Association. By his own admission he quit this profession when he got where he couldn't hit a curve ball.

Before he had finished high school, when he was sixteen years old, Jack worked at a gin in Trent for O. M. Cosby so after his career as a professional baseball player, he went back to work for Mr. Cosby. In 1927 he came to Hall County to work at a gin at Brice, owned by Mr. Cosby.

In 1930 Cosby went into the trucking business and Jack went with him and worked in this capacity until 1935 when the truck line was sold to the Miller and Miller Motor Freight Line. Jack went over with the new freight line and has been associated with them since.

August 24, 1930, he was married to Miss Fern Martin of Temple, who was teaching school at Trent. Mr. and Mrs. Boone have one son, Jackie Ben, who was 4 years old January 12.

Jack has been an amateur wrestler, performing at Trent, Sweetwater, Merkle and other towns in that vicinity.

He is a member of the Memphis Country Club, a member of the Memphis Rotary Club and sergeant-at-arms of that organization, a member of the Baptist Church, an active worker in scouting and scoutmaster of Memphis

JACK BOONE

troop No. 35, member, organizer and president of the Sideliners club; a member of the Memphis Chamber of Commerce; served two years on the barbecue committee of the Old Settlers Reunion and Rodeo. Three years ago he made the race for county clerk, of Hall County.

Mr. Boone's outstanding business achievement was coming to Memphis and his association with the Miller & Miller company.

His outstanding civic achievement has come through the organization of the Sideliners Club. This organization is made up of Memphis business men who are football fans and support the local team. The climax of the football season is the Sideliners annual banquet at which the club entertained all of the football teams in Hall County.

Mr. Boone has two hobbies, the first is working with boys and instructing them in games and all forms of athletics. The second is wood-work and hand carpentry.

Mr. Boone's most embarrassing moment came just after he had taken his girl home after his first date. He started home and in order to save time took a short-cut through a pasture which belonged to his grandfather. During the day workmen had been in the pasture burning prickly pears for stock feed. It was night and he could see only dimly, and came upon the figure of a man standing in the pasture. He spoke to him and received no reply, he tried again and the man apparently shook his head in anger. Jack grabbed a pole lying near by and threatened to hit the man, then became frightened and ran at top speed out of the pasture. The next day he went back to investigate what kind of tracks were left and discovered, much to his embarrassment, the man he had so

assaulted the night before was a burned stump left the day before by workers burning the prickly pear.

In reviewing his years in Memphis Mr. Boone states that he is well satisfied, that its the best town and has the best people in the world and he is going to stay here just as long as he can.

## Oren Jones

That a home boy can't make good in his home town is a theory that Oren Jones, native of Hall County and one of Memphis leading citizens, explodes by being one of this community's most successful businessmen.

Oren Bryan Jones was born November 19, 1895, on a farm two miles west of Memphis. At the age of 7 he started to school in the Memphis Public Schools with Miss Maggie Broyles as his first teacher. He attended the local school until he graduated from the high school and took a post-graduate course in commercial work in 1917. During the summers while he was in school he worked on his father's ranch north of Pampa and for the American Cattle Company. In this work he was a cowboy, roustabout and general roughneck around cow camps in the ranching country.

Following his graduation from school Mr. Jones spent one year on the ranch and that fall purchased a farm near Wellington. In the spring of 1918 he came to Memphis and established a feed store and mill on North Sixth street where the Gate City Creamery is now located.

He did not operate this business long since the country was at war. He sold it to W. L. Wheat and enlisted in the United States Navy. Mr. Jones was sent for training to the Great Lakes where he was placed in hospital work. After his training period was over he was transferred to Gulfport, Miss., where he was night master of arms at the naval hospital there. Shortly thereafter he was transferred to the U. S. S. Northern Pacific out of the Brooklyn Navy yard, a receiving ship. Later he was sent to a school of pharmacy at Hampton Roads, Va., and it was while he was in this post that the war ended and he was discharged, September 22, 1919.

Mr. Jones returned to Memphis and went into the post office as a clerk and served in that capacity for one year. He then took a job with the Memphis water works and worked with that company for four years. In 1925 he went into the employ of Raymond Ballew as bookkeeper and parts manager and held that position until 1930.

In 1930 he and his brother Orlie Jones and N. W. Durham organized the Durham-Jones Pharmacy.

In reference to Mr. Jones' outstanding civic achievement, he says that he is just a "joiner." He'll join in with any movement that is for community good and betterment and do the best by the place he has called his home for nearly 45 years.

Mr. Jones enjoys a hobby of golf and can shoot a 68 for 18 holes on the local course provided you don't count the misses and putts—otherwise his score runs around 85.

Mr. Jones recalls the greatest thrill of his life when he was at Hampton Roads, Va., when a train came through bearing a huge sign stretched across three box cars bearing three words "War Is Over."

Mr. Jones likes Memphis and Hall County. He is always glad to leave for a vacation or a trip but is always glad to get back.

OREN JONES

macy, a business that he is active in at the present.

June 8, 1926, Mr. Jones was married to Mrs. Margaret Harrell Browder and they make their home at 215 North 14th street in Memphis.

Mr. Jones owns farm lands, his home and business, and other business property here in Memphis.

He is a member of the Masonic orders, including the Shrine at the Khiva Temple in Amarillo and the Knights Templar organization here; he is a member of the Memphis Chamber of Commerce; the American Legion, has held all offices of that organization except that of chaplain and was the local post's first adjutant; a member and director of the Memphis Country Club; a member of the Brookhollow Country Club; and a member of the Baptist Church.

Mr. Jones' outstanding business achievement came through his first land deal—when he bought a farm near Wellington. The farm consisted of 640 acres and he contracted to pay the purchase price of \$20,800 in cash within 90 days, posting \$1,000 of his total \$1,300 capital to secure the deal. He recalls the deal as a jump in the dark and he had no idea where he was going to raise the over \$18,000 he owed on the place within three months. However before the final date he sold half of the farm and with the proceeds from that sale, plus that year's crop from the land he managed to make his payment and clear the land.

In reference to Mr. Jones' outstanding civic achievement, he says that he is just a "joiner." He'll join in with any movement that is for community good and betterment and do the best by the place he has called his home for nearly 45 years.

Mr. Jones enjoys a hobby of golf and can shoot a 68 for 18 holes on the local course provided you don't count the misses and putts—otherwise his score runs around 85.

Mr. Jones recalls the greatest thrill of his life when he was at Hampton Roads, Va., when a train came through bearing a huge sign stretched across three box cars bearing three words "War Is Over."

Mr. Jones likes Memphis and Hall County. He is always glad to leave for a vacation or a trip but is always glad to get back.

"I heard about Hoyt's Compound, and bought a bottle. Since taking it I can truthfully say that I feel like a new man. I no longer have the muscular aches and pains, and the stiffness and soreness have left my joints. I get around as I used to, feel 100 per cent better!"

Hoyt's Compound is recommended and sold by Tarver's Pharmacy, and by all leading druggists.

# Taxpayers of Hall County, Texas

Don't be bluffed or misled by the letters addressed to you by Vance Swaim of Lubbock, Texas. In our opinion the contract he has for collecting delinquent taxes is unenforceable. We have brought suit to enjoin the enforcement and to cancel and nullify the same.

There are approximately \$300,000 in delinquent taxes and the contract provided for 15% of all delinquent taxes collected. The Commissioners Court has publicly announced that no law suits will be filed by Mr. Swaim. If this is true, then Swaim's program is that of bluffing the taxpayers out of all he can get.

Cultivation Time For Shelterbelts Here, Says Greene

"The key to a successful shelterbelt is adequate cultivation," Forest Officer Bill Greene of the Prairie States Forestry Project said this week. "Shelterbelts must be cultivated from six to eight times yearly in order to obtain the best growth and survival."

"Trees are like cotton, maize, or any other row crops. They must be freed of weed competition to thrive and the more they are cultivated the faster they will grow." Mr. Greene indicated that one of the big reasons some shelterbelts outstripped others is that the better shelterbelts were given better cultivation.

"The best time to cultivate is before the weeds get over six inches high, for then the job to get rid of them is harder. A number of early cultivations will also reduce the amount of work later on in the season," continued Greene.

Usually clean cultivation around the first of April, followed up every ten days or two weeks until around July 15, will give the trees a good start in life.

Greene mentioned the S. D. Poney belt one half mile south of Eli; the J. E. Gable belt four miles north of Plaska; the Wilson Estate belts two miles east and one mile south of Plaska; the Pete Williams belt one half mile east of Lakeview; the T. E. Lenoir belt three miles west of Plaska; the H. N. Evans belt three miles west of Lesley; the C. L. Benson belt one mile west of Brice, and others as examples of what intensive cultivation will do to make trees put on thrifty growth.

Thursday night at Weatherly. Mr. and Mrs. Wilbur Potts were guests of Mr. and Mrs. Charlie Wynn Sunday. Miss Little Winn is visiting her sister, Mrs. Roberts, at Panhandle this week-end. Miss Vida Johnson is now working in the lunchroom. Mrs. Golden Welcher is confined to her bed with an injured foot. Texas Woolen Mills Formal Opening Features Auction of First Blankets

Air Corps in Need Of More Enrollees

An imperative need for men to fill quotas for enlistment in the Army Air Corps and for pilot training was expressed in a telegram this week from the War Department to Corporal Leo Cawthron, recruiting officer of Childress.

An increase of more than a hundred thousand men is needed in the enlistment branch of the air corps, and about 30,000 in the pilot training program, the officer was informed.

One of the first 100 blankets ever manufactured in West Texas, a product of the West Texas Woolen Mills in Eldorado and one of three bought by the West Texas Utilities Company at the auction sale and formal opening of the mills in February, has been placed in the Resource and Museum Institute of the West Texas Chamber of Commerce in Abilene.

The blanket was presented by Price Campbell (right), president of the pioneer utilities company, to WTCC officials, D. A. Bandeen (left), general manager, and Malcolm Meek (center), treasurer.

The gift to the WTCC was made following a tour of the mills by Mr. Campbell.

"West Texas produces the climate, the grass, and the people who in turn produce some of the best cattle, sheep and goats in the nation," he said. "This region is becoming famous for its wool and mohair and now is the world's largest market. There is no reason why we cannot do as good a job processing it as we do raising it."

"This mill," he predicted, "is destined to grow and become the forerunner of a great industry in which a native product is produced, manufactured and sold—all here in this region."

"We are very grateful to the West Texas Utilities, which long has been a friend to agricultural and industrial development throughout West Texas, for this gift. It will do much to help build up a market for the Eldorado product and to advertise the fact that virgin wool can be manufactured right here at home," Mr. Bandeen said.

Of the other two blankets bought by the utilities through its district manager at San Angelo, H. H. Batcher, and Eldorado local manager, Jerry Pennington, one is to be kept on display in the San Angelo district headquarters while the other is being retained by Mr. Campbell for exhibition in his office.

MOVE TO MEMPHIS  
Mr. and Mrs. L. C. Elliott, formerly of Childress, are moving to Memphis this week to make their home. Mr. Elliott is replacing Doyle Catching as pharmacist at Meacham's Pharmacy and began his work there several weeks ago. They will live in the Whaley addition. Catching has moved to Plainview.

Joanna Troutman made the first Texas flag.

Mrs. J. R. Sensabaugh and daughter Mary Lane of Dallas arrived last week for a visit with her parents, Dr. and Mrs. M. McNeely.

Mrs. George A. Sager went to Velvidere, Ill., last week to attend the funeral of her brother, Wilson Incedon, who died suddenly at that place.

## April Is Safest Time to Prune Roses In Order to Maintain a Shapely Bush

GARDENERS, it's time to roll up your sleeves, sharpen your pruning shears, and start on your annual task of pruning your rose bushes. For the average gardener, intelligent pruning early each Spring will bring best results.

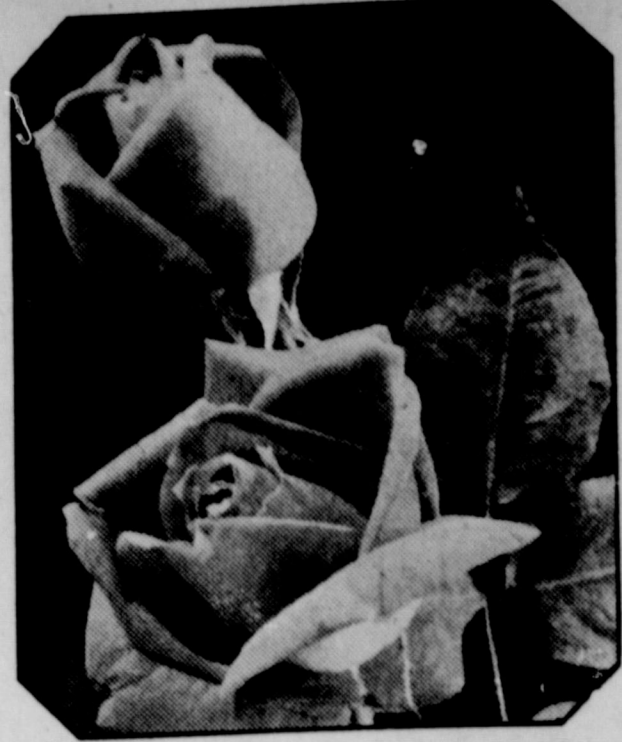

Early April is generally safe for pruning rose bushes in northern states, since danger of severe cold should be past by now. A sharp pair of pruning shears, that will cut clean and will not tear or crush the stems, can be used to real advantage in your garden.

The amount and type of pruning varies according to the class of rose and the results desired by the individual gardener. Pruning stimulates growth, so it isn't necessary to cut a vigorous variety as hard as a moderate grower.

In pruning, remove all the dead and diseased wood at the base. Old wood is subject to disease and is unproductive. Pruning keeps the rose bush young, productive, and shapely.

Cut out and burn any canes which are thickly covered with scale insects. Cut out all suckers which arise from the wild root below the point where the plant was budded. Suckers can be distinguished by the difference in the color and thorniness of the cane.

Pruning of climbing roses should be delayed until they have finished flowering, except for removal of dead or diseased wood.

ried mind. By all means be present during the convention.

I wonder how many of my fifteen readers received a notice from Vance Swaim about delinquent taxes? I was beginning to feel slighted. Folks all around would tell about getting a notice, and for several days this kept up. Finally, I got one and I, too, am peeved.

Mr. and Mrs. T. D. Weatherby have started rock-venereing their home in northwest Memphis. They have been planning this for some years, starting out with a rock garden in the back yard. Now, they are making their home one of the show places in Memphis.

Two other homes have been rock-venereed lately: Mr. and Mrs. Lee Elliott and Mr. and Mrs. Morgan Baker. I am glad to see so many Memphis people getting the urge to improve the residential districts. All can help the movement by improving yards with grass, shrubs and flowers.

The new Texas speed law which has just gone into effect provides for a maximum speed of 60 miles an hour in daytime for passenger cars, stipulates varying speeds for different vehicles under different conditions. The trouble with the new law will be the same as under the old law—people, especially the speed maniacs, will think each and every condition just fits the maximum case, and will wreck their cars and endanger human life trying to go the limit.

One of Texas' beloved members of the United States Senate, Morris Sheppard, passed away yesterday morning in Washington.
