**RAIN IN HALL COUNTY**  
Precipitation of Saturday and Sunday Puts Ground in Great Shape for Planting

Last Saturday evening a nice rain began falling and continued for some time, making a very good moisture in the ground. Following this on Sunday night another heavy rain fell for several hours, making the precipitation almost three inches. This was a glorious rain to every citizen of Hall county. The people of Memphis and vicinity are jubilation over these rains which put the lands in such condition that crops now planted will soon be up to peep and other plantings will be begun at once. One of the farmers in the west part of the county have cotton ready up, but as a rule it is a little early for cotton planting. Hall county now has the best prospects for a bumper crop she has ever had at this time of the year.

**Camden Presbyterian Services.**  
Rev. I. V. Stine of Nocona, Camden Presbyterian minister, will preach at the new church, on North 10th street next Friday night at 7:30. Everybody cordially invited to come and hear him. He will also preach at Newlin on Saturday night.

**Hog Lecture Saturday.**  
H. E. Singleton, the veteran hog raiser, of McKinney, Collin county, gave his famous hog lecture at the court house last Saturday, to a large audience composed of business men and farmers of Memphis and Hall county. His lecture was of great importance to every hog raiser and as a consequence of his visit to Memphis there will be a Boys Hog Club organized in this county at an early date. J. F. Bradley of this city, a practical hog raiser has consented to take hold of the organization, and with the assistance of every one interested in better breeding of hogs and making this one of the leading industries of the county there is every reason to believe that it will be a great success. Everyone interested in this proposition should speak to Mr. Bradley at your earliest convenience and co-operate with him in this great enterprise.

**For A Better Memphis**  
On Wednesday evening, May 3, 1911, there will be a public meeting at the First Methodist church for the purpose of discussing subjects of direct interest and great importance to the citizenship of this town. Able speakers will discuss matters that will be upbuilding to our town morally, spiritually, socially, financially, medically and legally. Everybody is requested and expected to be there.

## Thursday's and Friday's SPECIAL

Notice our advertisement in the Hall Co. Herald for Monday's and Tuesday's Specials of next week.

**Greene Dry Goods Co.**  
MEMPHIS TEXAS

**Memphis Needs Creamery.**  
Along with her several Manufacturing plants, Memphis should now make a concerted effort for a modern Creamery. The cost is comparatively small considering the great benefit to be derived.

Charles H. Alvord, Professor of Agriculture at the A. & M. College of Texas gives this information to prospective builders of creameries: A creamery completely equipped for the manufacture of butter can be built at a total cost, including building, of \$3000. If a suitable building is available with sewer connections, the cost could be materially lessened as the building represents at least \$800 of the investment. The profits in the manufacture of butter come from two sources; (1), the difference between the cost of the cream and the selling price of the butter, which usually is 2 1/2 or 3 cents per pound; (2), the overrun which usually amounts to about sixteen per cent, or in other words when you buy one hundred pounds of fat, you should manufacture one hundred and sixteen pounds of butter. The total profits will depend largely upon the amount of cream that is bought, as the equipment required and the cost of running would be no greater when handling five hundred pounds of butter per day, than it would in handling two hundred and fifty pounds.

**Public Library**  
Quite a number of new books have been placed in the public library which makes a splendid collection of books, the library contains the work of Dickens, Bulwer, Lyton, Hawthorne, Scott, George Elliott and one hundred volumes of fiction and romance by standard Authors knowing the benefit of a library to the school histories have been placed in the library which will be very helpful to the High school students also books for juveniles for both boy and girls. This work was inaugurated through the concerted action of the Woman's Culture Club and is a laudable undertaking and should be encouraged by the public, as nothing speaks better for a town than a public library. The people of Memphis should give this work their practical support and especially the Mothers should take advantage of this opportunity of securing the very best book for their children to read, during vacation, and lend their hearty co-operation in the uplifting and betterment of our town as this work is of vital importance and its influence will be exerted for the benefit of your children and for the progress of our town. The library will continue to be open every Saturday afternoon from 3 to 5. The public are invited to visit the library room in the Court House that there may be a better understanding and appreciation of this work, the Librarian will take pleasure in showing you the books.

**Will Locate in Memphis.**

Dr. F. W. McCray, Veterinary Surgeon, of Kansas City has been in Memphis several days and has decided to locate here permanently. He has rented a residence and has ordered his household goods shipped at once. As soon as they arrive his family will come here where they will make their home. We are glad to welcome these people among us and bespeak for the doctor a prosperous business.

The Democrat was at error last week when we stated that the new council was responsible for the crossings being put in between Memphis Heights and Memphis City. This work was ordered done before the new council was sworn in. The work has been temporarily stopped for the present.

If you are at all interested in your town from any or all these standpoints be on hand at 8 o'clock sharp to hear what shall be said.

Bring your dress making to Mrs. Kimbler at the O. K. Tailor shop.

**STRAYED OR STOLEN**—Fawn colored Jersey yearling heifer from W. J. Durham pasture north of Lakeview, liberal reward for return to W. J. Durham or D. S. Baker, Memphis, Texas.

# QUIT BUSINESS SALE!

**FRIDAY** **BEGINS FRIDAY, APRIL 28TH, 1911** **FRIDAY**  
**April 28** **April 28**

Our stock in Memphis will be closed out absolutely within the next thirty days. To do this at this season of the year, we realize that cost must be lost sight of and that we must make prices on goods that are ridiculously low.

Some people have formed the idea that on account of our closing out sale on winter goods that we have nothing left but odds and ends, but such is not the case as we bought new spring goods in all lines. 80 per cent of our merchandise is new goods that we bought this spring. These new goods will be sacrificed and is what you will buy at such ridiculous prices.

We are Positively going to quit business in Memphis within the next twenty or thirty days and during this "QUIT BUSINESS SALE" you will get some of the most remarkable bargains you have ever seen. Every article throughout the house has been cut to the bottom--Nothing excepted.

Space forbids quoting prices on all goods throughout the house

### LAKEVIEW LEAKLETS

The Musical Entertainment at H. Davenport's Wednesday night was a success. A nice program was rendered consisting of Solos, Quartets, Readings, etc., after which cake was served, good music was furnished by the Lakeview string band.

Miss Opha Batson and her brother went to Memphis this morning shopping.

Our Prayer meeting is progressing nicely.

Wake up correspondents and get busy, if there is nothing doing where you live, you had better move. There is always something doing here.

ing court at Wellington this week. Mr. and Mrs. I. N. Bartlett spent the day with Mr. and Mrs. Thompson Sunday.

Amon Thompson and Walter McKee of Lakeview, were the guests of Misses Oville Lewis and Beulah Stevenson Sunday evening.

Miss Opha Batson and her brother went to Memphis this morning shopping.

Our Prayer meeting is progressing nicely.

Wake up correspondents and get busy, if there is nothing doing where you live, you had better move. There is always something doing here.

A MERRY WIDOW

FRIENDSHIPS PICK-UPS.

Still it rains.

Sam Jenkins has been real sick the past two days but is some better at this writing.

Mike Capp and his daughter Beulah, visited relatives and friends near Lakeview the later part of last week. They report that there was rain and hail fell in abundance there last Saturday evening about two miles south of Lakeview there was some hail fell that was as large as base ball, and all of it averaged the size of a hen egg.

Mrs. Rebecca Knowles was the guest of her sister, Mrs. Beatrice Jenkins, last Monday.

Nathan Maynard attended Sunday school last Sunday evening at the Smith school house about three miles north of Memphis.

Byron Knowles and wife were the guests of D. E. Webb and wife last Sunday evening.

Mrs. Elizabeth Richard spent the former part of this week at the home of John McCoy who lives in the Lakeview Community

W. B. Richard started for Floydada, Texas last Saturday his son Woodsie has been attending school there and he went to accompany him home.

WONDERING JEW.

Paper Mill Enlarged.

The Lutch Moore paper mill at Orange, which is the only paper mill in the world using Yellow pine in the manufacture of its output, has recently doubled the capacity of their plant.

The United States Government is rapidly increasing its use of yellow pine products, and is placing large orders with the Texas mill.

This is one of the instances of the possibilities for a varied utilization of our natural products heretofore untried and proves the enormous benefit to be derived by the manufacture of our raw material.

### The Home Circle Column

PLEASANT EVENING REVERIES

A Column Dedicated to Tired Mothers as They Join the Home Circle at Evening Tide

Nothing keeps the heart so fresh and young, saves it from bitterness and corrosion through the cares and conflicts and disappointments of life, as the daily enjoyment of a happy home.

Boys are not naturally selfish, and every mother who has not a willing efficient helper in her boy, is herself to blame, and must not only suffer the consequences of her mistake herself, but the future wife will have them to bear also. For your own sakes, mothers and for the future wives of your boys, spare no pains to impress upon them the magnitude of woman's work. After they have been accustomed to helping in all the ways they can about the house, (and there are few things they will not be the better for having learned to do) they will not think housekeeping "just puttering around."

People always speak well of a boy who minds his own business and who seems to be disposed to be somebody in time. This is a queer world; many people are watching us, and help often comes when and from whom we least expect. Confidence is the safe in which men often deposit rich treasures and as you prove worthy so will your reward of success be. There is a reward in success, which none but those who strive can enjoy. Deserve success and it will come.

To make your home happy, see that you make your wife feel that your affection and tenderness for her are in no degree diminished from the day you first sought her. Do not let her, when you can avoid it, to sit alone and go out walking alone. You would not have done so "once upon a time." Do not reserve all your blandness and fragrance for strangers or casual acquaintances. There are some men, judging from out-of-doors manners, it would seem that nothing was left to be desired, who are, nevertheless, of the urso-major tribe at home; men who keep their pleasant ways and genial smiles and cheerful words for company, and who can only be silent or peevish and exacting with their wives. Have such men any just reason to complain that their homes are not happy.

The world grows old, and the stars will cease to illuminate it, and the mountains to refresh it, and the mountains to guard it and its long story of sin and shame and glory and triumph will soon turn to ashes; but influences which started in the early home roll on and roll up through all eternity blooming in all the joy, waving in all the triumph, or shrinking back into all the darkness. Father, mother, which way are you leading your

children?

You can get into the habit of living peacefully and happily, and that habit is quite as difficult to break as any habit we know of. Let there be no long puttings; let there be no long careless, indifferent fits. If little storms arise—and they will arise—let them be brief. Don't let us sleep over it, and wake up the next morning and cudgel our brains to remember who nagged last. This kind of thing is mean, it is ungenerous and it is silly.

Every mother should teach her daughter just as she would desire some other mother's daughter taught, that is to become the wife of her son. Give her, if you can, a knowledge of music, and other accomplishments within your reach, but with them give a practical knowledge of housekeeping. Let her own hands knead the bread, make the butter, wash, iron, and mend, make beds and sweep, dress children, prepare breakfast, dinner and supper; and then you need not be ashamed to give her to the very best in the land. She is fitted for life she will succeed; and if the future should find you alone in the world her husband will gladly welcome you to a home which you taught your daughter to make for him. "The dearest spot on earth."

Only a smile! But ah! how it cheered the broken heart, engendered a ray of hope, and cast a halo of light around the unhappy present; made the bed-ridden one forget its present agony for a moment as it dwelt in sunshine of joy and lived in the warmth of that smile. Let us all increase our giving of smiles. They cost nothing and are of untold value, especially in the Home Circle.

A woman who fails in her home fails in all. Home is woman's realm, given into her hands to regulate, govern and beautify. If she fails here she may look in vain for another kingdom; for she has failed in the only spot where she could have ultimately succeeded. She has laid down the jewels which God gave her to brighten and polish, and in their place finds nothing but dust and ashes.

No heart is insensible to words of praise or the kindly smile of approbation; and none are utterly above being affected by censure or blame. Children are particularly sensitive in this respect. Nothing can discourage a child more than a spirit of incessant fault-finding; and perhaps nothing can exert a more baneful influence upon both parent and child. If your little one, through the day, has been plea-

sant and obedient, and you say to him, "My son, you have been good today, and it makes me very happy," and if, with more than a usually affectionate embrace him, say "Goodnight, my dear child," a throb of suppressed feelings fills his breast, and he resolves on always earning such approval.

B. F. Shepherd and family spent Sunday with relatives in Clarendon.

Seven of the fifteen Texas Congressmen are ex students or graduates of the University of Texas.

In the past four years the attendance at the University of Texas has increased 51 per cent.

Special Agent R. E. L. Sauer reports a total income of \$227,842.35 from University lands for the past 2 years. The cost of handling these lands was \$3,787.30, or 1.6 per cent of the income.

The University of Texas, since its founding in 1883, issued 3213 degrees. There are more than 250 students in the present graduating classes.

The School of Correspondence of the University of Texas is not yet two years old. During that time 650 students have registered for work. Correspondence work is offered for the special aid and encouragement of those persons who cannot attend the University.

Through a gift of \$6000 as an annual contribution, the University of Texas will be able to inaugurate this year a school of domestic science for the benefit of the 600 young women students of the institution. As in all other departments of the University, the tuition in domestic science will be free.

Persons interested in the subject of plant diseases may receive free a reliable bulletin on this subject, prepared by Dr. F. D. Heald, professor of botany in the University of Texas at Austin. Dr. Heald will be glad to respond to inquiries regarding diseases of plants.

### Keep the Kidneys Well!

Health is Worth Saving, and Some Memphis People Know How to Save It.

Many Memphis people take their lives in their hands by neglecting the kidneys when they know these organs need help. Sick kidneys are responsible for a vast amount of suffering and ill health, but there is no need to suffer nor to remain in danger when most all diseases and aches and pains due to weak kidneys can be quickly relieved by the use of Doan's Kidney Pills. Here is a Memphis citizen's recommendation.

J. H. Brumley, Montgomery St. Memphis, Texas, says: "Some time ago we got a supply of Doan's Kidney Pills from the Montgomery Drug Co. and their use brought relief from backache and also regulated the passages of the kidney secretions. This remedy was very effective in removing languor and other symptoms of kidney trouble. We strongly recommend Doan's Kidney Pills."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's and take no other.

### Prejudice Against Glasses

MANY PERSONS are prejudiced against the wearing of Glasses and positively decline to use them, even when they are imperatively needed. They may be sensible persons and display good judgment in other matters, but in this one respect they act most foolishly and without any reason. A contest with nature is hopeless, and it is the part of wisdom to yield gracefully to the first summons to surrender.

Let us examine your eyes.

# Los Angeles Heights Addition

## San Antonio, Texas

A good Investment, \$10.00 Down and \$10.00 per Month

**ONE MILLION FEET OF SIDEWALK**  
**One of Largest Contracts Ever Let Here Signed**  
 Improvement work is actively in progress at Los Angeles Heights. A large force of men, between seventy-five and one hundred, are kept constantly at work laying cement sidewalks, their work at present being on Sacramento Street. The owners of this beautiful addition recently let a contract for approximately 1,000,000 feet of sidewalk, which is probably the largest contract of its kind ever made in the South. Another gang of men are digging trenches for the water mains, which will be extended on from Beacon Hill, as Los Angeles Heights adjoins this district on the north. These large, substantial improvements which are being put through in and around the city are attracting the attention of visitors.

"The activity observable" said a Chicago man yesterday, "speaks louder than words what San Antonio's future will be. Beautiful new homes are going up daily; every train brings prospectors and homeseekers who are buying and building in the city of sunshine and the newcomer realizes that San Antonio is destined to become one of the greatest cities of the entire South."  
 From the San Antonio Daily Express February 15th, 1911.

**LAYING MAINS TO HEIGHTS**  
**Water Being Piped to Recently Opened Up Residence Addition Beyond Beacon Hill**  
 Eight-inch water mains are being laid, with fire plugs at street intersections, starting at Magnolia Street and Grant Avenue in Beacon Hill addition, and running north into various parts

of Los Angeles Heights addition, which adjoins Beacon Hill. The Los Angeles Heights Improvement Company are putting in these mains at their own cost and expense, and doing so for the purpose of giving their purchasers the best water service possible, not permitting this enlarged service to cost either the Beacon Hill and Los Angeles Heights residents and purchasers a cent. The wonderful development in the business section of San Antonio has caused the inhabitants to seek building sites out of the congested districts, and several new additions have been opened up and sold recently. Many Northern people are buying suburban property and building beautiful winter homes, which all goes to show that San Antonio is destined to become one of the greatest and largest cities of the south, with her large trade territory, unexcelled climate and other advantages.  
 San Antonio Daily Express, Apr. 9

**EXTEND WATER MAINS**  
**Los Angeles Heights Addition Has Service Now—Houston People Buy Lots.**  
 The work of extending city water mains through the Los Angeles Heights Addition from the Beacon Hill addition, has recently been completed, an eight-inch main having been extended from Magnolia and Grant Avenues by the Los Angeles Heights Improvement Company to furnish city water throughout the addition. Among recent purchasers of lots in Los Angeles Heights are fourteen Houston people who came to San Antonio during the last week. Their purchasers of lots totaled more than \$5,000 and other Houston business men have recently bought lots in the addition.

**ARMY OF TEXAS TO BE CALLED OUT**  
**Car Loads Of Cartridges And Other Munitions Reach Austin.**  
 Austin, April 20.—That the national guard may soon be called out to do duty for Uncle Sam in the protection of the Mexican border, and for other purposes, is evidenced by the fact that this afternoon there were received by the adjutant general's department one of the largest shipments of ball cartridges ever received at one time to the department. The shipment embraced approximately 200,000 car loads of ball cartridges and other ammunition. The cargo was unloaded and placed in the arsenal in the basement of the capitol. This fact is coupled with the national fact that a short time ago the adjutant general's department issued an order providing for the organization of the national guard companies in the guard to their full strength. At the same time attention was called to the possibility of the Texas militia being called out at any time in connection with the Mexican revolution. A short time afterward another order was issued by the department ordering out of service all companies that did not come up to the requirements. As a result of this order several companies were mustered out

for lack of efficiency and for other reasons. Then followed the reorganization of several companies to their full strength. The cargo of ammunition embraces over 250,000 rounds of ammunition, which were shipped from the Frankfort arsenal and is contained in boxes of 1,200 rounds each. In addition to this there are approximately 100,000 revolver cartridges included in the shipment. The adjutant general's department was deserted this afternoon, consequently it was not ascertained officially to what use this immense shipment of war is to be utilized. General Hutchings and Assistant Adjutant General York, as well as the governor, left early this afternoon for San Antonio.

**AMERICAN MISSIONARY DIES.**  
**Miss Grace Wilder, Prominent Worker in India for Years.**  
 New York, April 22.—Private cable advices received here from India announce the death there of Miss Grace Wilder, a well-known missionary. She was 50 years old and had been a prominent worker in India for nearly twenty-five years. Miss Wilder's father, the Rev. Royal G. Wilder, was a missionary for thirty years, and her mother, Eliza Jane Wilder, served in the same field for sixty years. Her brother, Robert P. Wilder, was the founder of the student volunteer movement in this country.

**WILD RAILROAD RUMOR**  
**Booker T. Washington to Buy I. & G. N. Is Report.**  
 Dallas, April 20.—There is a strong rumor current in local railroad circles today that a syndicate of negroes, headed by Booker T. Washington, the Tuskegee teacher, will purchase the I. & G. N. railroad. Just what colored capitalists compose the syndicate is not stated but the story goes that they are prominent negro bankers of the East and other sections of the country. It is declared by those who have had information on the subject that the plan of negroes to buy the properties of the International & Great Northern follows out the often expressed idea of Booker T. Washington to find employment for the members of his race. Should this idea be true and should the negroes actually buy the properties, it is believed the purchase will be followed by a wholesale filling of employes by negroes. It is not believed the higher offices of the road will be filled by negroes. Whether, in many instances, white men will work under the general management of negroes is a question that will present itself in case the story is true and the actual purchase is made by Washington and his associates. It is the general opinion that if this purchase by the negroes is consummated serious results will follow. It is not believed that white workmen in the South, on the other roads, will take kindly to the idea of having negro workmen, and possibly negro officials, even indirectly connected with them. It is declared the wife of Booker T. Washington stated to a woman of business acumen, made an inspection of the International & Great Northern properties during her recent lecturing tour of Texas.

**Great Move for Agricultural Interests.**  
 Dallas, Texas, April, 1911. Entries in the State agricultural contest inaugurated by the Texas Industrial Congress for the largest and best yields of corn and cotton closed April 1. 1738 contestants from 161 counties. In effect these contestants will conduct 1738 experimental demonstration farms, each of them constituting an agricultural center from which will radiate a greater interest in better cultural methods, and the results will be watched with interest by every public spirited citizen of Texas. 760 of these farms will have ten acres in corn and ten acres in cotton and will be managed by men. 916 boys will each supervise two acres of corn and two acres of cotton. 52 girls and 10 women will also engage in the campaign for a bigger yield from a smaller acreage through scientific cultivation. The congress earnestly requests the people in every neighborhood where these farms are being cultivated to visit and consult with the contestants frequently, that the educational benefits may be as universal as possible. Besides those who are competing for prizes a large number of farmers, who for satisfactory reasons have decided not to enter the contest actively, will co-operate in studying soil conservation, diversified farming and intensive cultivation in accordance with the instructions of the Congress. The prizes offered aggregate \$10,000, fifteen of which are for men and women, as follows: A first prize of \$2,500; a second of \$1,500; a third, \$750; fourth, \$500; fifth, \$250 and ten additional prizes of \$100 each. For boys and girls there are fourteen prizes, the first of which is \$1,000; the second, \$750; third, \$500; fourth, \$250; and ten others of \$100 each.  
 Prof. L. A. Wells of Amarillo spent Sunday in Memphis with his parents.

**CAR ROBBED OF \$6,000**  
**Burglars Take \$1,000 in Cash and \$5,000 in Valuables.**  
 New York, April 20.—The New Jersey police are searching today for clues to the identity of the principals in an express car robbery which resulted last night in the loss of over \$1,000 in cash and the disappearance of about \$5,000 worth of valuables. Car inspectors at the Weehawken terminal of the West Shore railroad discovered shortly before midnight an Adams express car which had just come in over the Ontario & Western railroad had been rifled by thieves.

**FIREMAN STABBED**  
**Former Catcher in Texas League Charged With Assault to Murder.**  
 San Antonio, April 20.—As the result of a fight between T. C. Roche and Carlos Morales, both members of the city fire department, Roche is in the hospital seriously stabbed and Morales is charged with assault to murder. Morales was catcher of the San Antonio team in the Texas League several years ago. He is under \$1,000 bond.  
 Eld. S. H. Holmes of Vernon, preached a very interesting sermon at the Christian church last Sunday.

**Uncle Sam Helps The Texas Farmer**  
 The doors of knowledge are open wide to the Texas farmers and the farmer who does not know the powers of the hidden soil has himself alone to blame. The United States Department of Agriculture is spending millions of dollars annually in educating American farmers and of this amount approximately \$53,000 is expended in Texas in demonstration of an equal sum from commercial clubs and local communities. The State Department of Agriculture has done wonders for the agricultural interests on the small amount of money which the legislature has given them, \$25,000 per annum and commercial clubs and other organizations are directing their efforts to furthering the interest of the Texas farmer. With the help of experiment stations, agricultural colleges, farmers institutes and demonstration farms, farm literature, etc., every farmer in Texas has an opportunity of keeping in close touch with agricultural methods and development. These forces which are at work for the upbuilding of agriculture, besides educating the farmers of the state, are very materially increasing Texas farm production and he who would write the last chapter in the progress of agriculture must await the procession of centuries.

**Panhandle Land FOR SALE OR EXCHANGE**

I have some of the best city and farm property in Hall and adjoining counties on my list which I can sell at low prices and easy terms. Anyone desiring information regarding the Panhandle Country will be furnished same by writing to
