## WELLINGTON TO HOLD FESTIVAL

### Memphis Band To Take Part; Booster Caravan Visits City On Wednesday

Wellington's Harvest Festival will be opened with a gigantic parade at 5 o'clock on the afternoon of August 14, and the mayors of Wellington, Memphis, Clarendon, Shamrock, Dodsonville, Mangum, and Hollis will ride at the head of the parade.

The parade is said to be the most unusual ever held in Wellington, and it will introduce the night show to be staged at the Rocket Stadium in Wellington Saturday night, August 14.

The night show, "Two Minutes to Live," is a drama in pantomime of a Collingsworth County father, dying of a broken heart for his boy who went away for war never to return. It is a Cavalcade of Collingsworth County, as the father recalls that progression of events that surrounded the boyhood of his son as they lived together in happiness.

Elaborate scenes and lighting effects are used to show the various stages in the development of the son, starting from his birth in a half-dugout on the prairie and ending in a realistic and majestic enactment of the "Battle of Chateaux Thierry," in which the Collingsworth youth gave his life.

A between-act specialty will feature the drum of fate, a mammoth 20-foot drum copied exactly from a religious ceremony used in Tibet.

The Memphis Gold Medal Band, under the direction of Bandmaster Milton Pullis, will be one of the guest bands at the harvest fiesta. The Wellington band and a caravan of Collingsworth County boosters visited Memphis Wednesday afternoon, playing a brief concert and inviting Memphis and Hall County citizens to the harvest festival.

Carl Periman has been appointed chairman of the tournament committee, and he states that he is expecting a wide field of entrants in both singles and doubles play. Children will likely have entered several stiff contenders, he said.

Among those from here expected to take part in the match play are Malone Hagan, who teamed with Miss Ruby Lee Stringer recently to win the city mixed-doubles tennis tournament; Alfred Burks, former city champion; W. S. Bennett, Allen Dunbar, Clay Crow, Carl Periman, Pat Noel, and others.

### CLAIMS CANAL WOULD INJURE BUSINESS HERE

#### Would Tend To Rob Memphis Of Cotton Compress And Wholesale Businesses

A declaration that canalization of the Trinity River inland from the Gulf of Mexico to Dallas and Fort Worth would tend to rob Memphis of her cotton compress and wholesale distributing houses was made this week by Dudley B. Foy, traffic manager of the Wichita Falls Chamber of Commerce.

Mr. Foy spoke to directors of the Memphis Chamber of Commerce here Tuesday afternoon against canalization of the Trinity River to Fort Worth and Dallas, stating that the move was not economical and that no savings were to be had from inland waterways.

The Wichita Falls Chamber of Commerce representative, who is credited with having defeated the proposed Trinity project three times before, stated that small cities such as Memphis would suffer from the waterway. He said that the canal would hamper railroad and trucking business, and that the lower freight rate to port cities by water would be at the expense of the taxpayers for funds spent in building.

He declared that small factories and jobbing houses would be lost to Fort Worth and Dallas by the smaller cities because of the water freight rates.

Mr. Foy criticized the West Texas Chamber of Commerce for approving the Trinity River project, declaring that the matter should have been referred to the Chambers of Commerce of the 183 West Texas towns it represents.

Fifteen towns in West Texas, led by Wichita Falls and Abilene, have already stated their opposition to the Trinity project; and others are expected to join the opposition, the speaker averred.

Mr. Foy urged that the Memphis Chamber of Commerce be represented at the Trinity hearing in Wichita Falls, on September 9.

I call "the rest of the record." This is my first try at it.

School Criticism Unfair It's a strange thing when public officials are criticized for reducing taxes...

Record Friendly For parents in general, who are not appraised of the mechanics of state aid, this explanation is in order...

Mr. Sheppard and I saw eye to eye on this matter; we believe that the law makes it mandatory on us to see that the schools get \$17.50 per capita.

it is concerned with the available school fund, distributed on a basis of so much for each child—the state "per capita."

Now this fact is undisputed: During the first year of my administration, the state contributed \$19 per student in the per capita apportionment toward the education of each of approximately 1,500,000 Texas children...

Upon what are the critics basing their charges? Well, here's how it all happened.

Mr. Sheppard and I are members, shall meet by July 20 and set a property tax which will insure enough anticipated revenues to pay \$17.50 per capita.

One can pick up most any Pan-handle paper nowadays and read about some "gyp" advertising or peddling schemes being pulled in the town by some outsider who is out to make some easy money. It looks like the rarer the scheme pulled the easier the people fall for it.

From the Canyon News comes this item: "Football time is about here. Grifters are taking advantage of the time and are combing the territory to get out football posters. A couple of fellows hire a pair of good looking girls in each town, solicit the local merchants and make from \$30 to \$40 off of each job. Do not bite at such schemes. The school officials will see that local people are not imposed upon, and will name the persons to get out such literature."

In Memphis recently, an outsider blew into town, got two local school boys to assist him, then called upon the merchants and secured a profitable lot of "advertisements," collecting for some in

Shamrock Man Heads Football Conference

District chairmen who will supervise high school football conference play in the 1937 Texas Interscholastic League season have been announced by Roy B. Henderson, athletic director in the Bureau of Public School Interests of the University of Texas.

W. C. Perkins of Shamrock is the chairman of district 3, class B, in which district Memphis is included.

The 1937 season marks the 18th consecutive year in which high school football has been directed by the Interscholastic League, with the Bureau of Public School Interests acting as general league headquarters. The competing schools, numbering 600, are divided into three conferences.

Some 100 larger schools in 16 districts compose Conference A, in which a state championship fight is waged. Regional championship awards are made in Conference B, which includes 11 regions, 48 districts, and approximately 350 schools. Conference C schools, which are those with an enrollment of less than 150, compete for district championships. Fifteen districts and some 120 schools compose the conference.

SOCIAL SECURITY ERRORS

More than 21 per cent of the 42,045 applications for account numbers that have been filed at the Dallas Social Security Board office in the Allen Building have had to be returned to applicants for completion or correction, says Ernest L. Tutt, manager. The Social Security Board took over from the Post Office on July 1 the issuing of Social Security account numbers, and since then a total of 42,045 applications have been received, or an average of 1,716 applications per day.

Henry Boyd Newman of Amarillo spent Saturday night here with his parents, Mr. and Mrs. H. Newman. Mr. and Mrs. Newman took him to Amarillo Sunday and spent the day. Emmett McElrath is here from California for a visit with his mother, Mrs. Georgia A. McElrath.

To Show Here

Harley Sadler, the one and only, West Texas showman, will be here with his big stage tent show for one night only Friday, August 20.

Uncle Jim Says

Drastic flood losses can be reduced by controlling stream flow at its source with the help of adequate cover crops, pastures, terracing, and contouring.

Following recent heavy rains in the Panhandle numerous county agricultural agents reported that land which had been listed on the contour retained the rainfall which fell on the land and that in many cases water stood in the rows for from 12 to 24 hours after the rains.

In nearby fields not contoured or terraced the rainfall ran off quickly and contributed to flood waters which gathered after the rains. Some damage resulted from the flood water.

It is clear that land protected by terraces and contours, or by adequate cover crops, results in a double benefit to the public. The individual farmer retains more rainfall for subsequent crops and runoff water from his farm does not contribute to flood damage.

Under the Agricultural Conservation Program farmers receive grants which practically repay them for expenses incurred in planting cover crops and constructing terraces. Increased farm income and lessened flood damage are only part of the benefits which revert to the public through this type of work.

### AMENDMENTS TO TEXAS CONSTITUTION

A SMALL PORTION of Hall County and Texas citizens will vote on August 23 in a special election. They will vote on six proposed amendments to the state constitution. It is estimated that perhaps one-fourth of the qualified voters will express themselves. Here the amendments are; study them:

1. The first amendment on the ballot seeks to abolish double liability of stockholders of the state banks. At present, if a state bank fails, each stockholder is liable for funds equaling twice the amount of his stock. National bank stockholders were released from this double liability feature several years ago. It is expected that this amendment will be adopted.

2. The second amendment provides that the state shall pay destitute children under 14 years of age not to exceed \$8 per month for one child and not more than \$12 per month for all children in a destitute family. This would be administered through the welfare department of the state. This is one of the two phases of the Federal Social Security program in which Texas is not now participating. State funds for dependent children would be matched with federal money. A number of state civic leaders are supporting the amendment, and it is expected to be adopted.

3. The third amendment would restore the fee system of compensating local and district officers under such a system as the Legislature may set up. This will not directly affect the Hall County administration, as we are operating under the fee system. Two years ago the voters adopted an amendment abolishing the fee system in thickly populated counties and making it optional in counties having less than 20,000 population. Governor Allred wants the fee system restored, but others say that the admitted evils of the old order will come back if the amendment is adopted. The vote on this amendment is expected to be close.

4. Amendment No. 4 would grant taxpayers a discount if they pay their state and local taxes in advance of the delinquency date. Taxpayers who payed up 90 days in advance of the overdue date would receive a three per cent discount; if payed 60 days in advance, a discount of two per cent, and if 30 days in advance, a discount of one per cent. It also provides that property shall never be assessed for taxes at more than its fair market value. This will mean a reduction of values in many school districts of the state where assessable values are above the present cash value. It seems to us that fair-thinking citizens will approve this amendment.

5. The fifth amendment applies only to Harris County. It would allow the county road districts to levy taxes rather than issue bonds for road building purposes. The county judge of Harris County says that this act would save \$1,000,000 to the county. The amendment does not mean anything to the people of this section, except that if the experiment is successful other counties will probably try it. The Canyon News says that the bonding companies are opposing the amendment, because if it passes the bonding people will have to go to work for a living. The amendment is said to have a good chance to be adopted.

6. The final amendment provides aid to the blind, and it applies to all blind people of the state over 21 years of age, making provision that a maximum of \$15 may be paid to such persons. All state funds would be matched dollar-for-dollar with Federal funds, and this amendment would complete Texas' participation in the Federal Social Security program. This amendment, too, has a good chance to pass. Everyone should study the proposed changes between now and Monday, August 23, and go to the polls on the special election date and vote his sentiments.

### WELLINGTON LEADER SPECIAL EDITION

SEVERAL NOTEWORTHY special editions have come to our exchange table from weekly newspapers of the Panhandle, but none has been received recently which commands more praise than the special edition published last week by the Wellington Leader.

The Leader is patterned after in many shops, because of its record as an outstanding weekly newspaper. And the 44-page paper published last week, well balanced in advertising and editorial finish, adds to the many laurels of Editor-Publisher Deskins Wells and his efficient force.

### DALHART TEXAN SPECIAL

SINCE WRITING THE ABOVE, a copy of the special edition of the Dalhart Texan, published in recognition of the Second Annual XIT Ranch Reunion held at Dalhart this week, has come to our desk. The 96-page tabloid newspaper does credit to West Texas journalism, and Ed Bishop and Albert Law and colleagues are receiving the praise of newspaper men of this entire area.

### Panhandled Panhandle Paragraphs

Culled From The Democrat Exchanges

Human nature continues always the same, J. M. Rankin notes in the Ralls Banner. When farm prices and conditions were desperate, it was easy to get everybody to do something.

The best way for any man to cure himself of the tobacco habit is just to marry a woman who objects to tobacco—she'll generally stop it quite pronto. . . . About the time one is rich enough to sleep late he is so old that he wakes up early. . . . As we understand it, the rising generation now retires about the time the retiring generation is rising. . . . Proof that a woman is aging comes when a man is nice to her and his wife isn't jealous. . . . Often when a man is reasonable it merely indicates he isn't interested in that particular argument. —Muleshoe Journal.

Gonda Biggers says in The Prairie, WTSTC publication, while quoting Harper's Harp, that the pretty girl was thrown from the wrecked car. It is feared that it hurt her somewhat and bruised her otherwise.

#### Politics Brewing

Is Governor Allred really in the race for re-election? A few days ago Ed Clark announced that the Governor would seek a third term. The next day Governor Jimmy stated that "Ed talks too much." Three weeks ago Jim Ferguson said that if enough people demanded it, Ma Ferguson would seek a third term. In the meanwhile, Attorney General Bill McCraw keeps on shelling the woods. While in Amarillo last week Colonel Ernest Thompson announced his plans were definite to run for governor. Two ex-governors seeking a third term and two red-headed super campaigners ought to make things interesting in Texas next year.—Canyon News.

#### Stiff Upper Lips

Up at Dalhart the men have been letting their beards grow for several weeks to advertise the XIT reunion held this week. Judging of the whiskers was done by unbiased judges on the following points: color, 30 per cent, length, 25 per cent; quality, 20 per cent; thickness, 10 per cent; breadth, 10 per cent; depth, 9 per cent; cleanliness, 1 per cent.

Lockhart—To A. A. Storey, postmaster of Lockhart, the terms "Johnny did this" or "Johnny did that" and "Johnny do this" or "Johnny do that" have been worked over-time. The reason is that he has had two grandfathers named John, one son-in-law named John, one grandson named John, and, to

climax it all, his wife's name is Johnny.—Lubbock Avalanche.

A Brooklyn girl won a national freckle contest with 1985 freckles, making it easy to spot her in a crowd. . . . A Vienna barber set a record when he shaved a man in 18 seconds. Sign in a window: "Buy our straw hats at half price, quick—before we give 'em to the cows. There's nothing like a well-dressed bovine.—Floyd County Hesperian.

#### Good for What Ails You

Are you bothered with mice? Does your head swim? Do you have chiggers and lice? Does your nose run and your feet smell? Does your wife irritate you? Do you shake every time someone pokes a gun in your ribs. Do you have to change the baby's diapers? If so try some of Dr. Joes' Smoles Boles cold smills, with a glass of hot water, and watch the great change come over you. The treatment is harmlessly composed of one part carbolic acid, two parts arsenic, and one glass of hot water. Take two sumersalts, the water, and pill before going to bed. Also guaranteed to make you sleep well if you have lived a good life. Otherwise, not guaranteed. (An Advertisement.)—Claude News.

### RELIEVE DIZZY SPELLS OR MONEY BACK

She gives wonderful advice to women passing thru those 40 to 50 "critical years."

Mrs. L. B. writes: "I'm going thru change of life and have been having hot flashes, blood rushing to head. Also such sweats, perspiration would run from my body. After first few days of taking Kruschen I noticed a difference in my head, after I finished the first bottle, the flashes were getting further apart and the night sweats less. I and my friends swear by Kruschen."

If you want to help avoid headaches, dizziness, smothering spells, weakness, fits of depression—if you want to keep feeling more healthy and happy—up and about your work—take a third teaspoonful of Kruschen Salts in a glass of hot water first thing every morning.

Kruschen is a superb blend of 6 mineral salts, each with its own special work to do—kidneys, liver, gall bladder and bowels are helped kept functioning normally and when important body organs are working properly you may be sure there will be less constitutional agitation. It costs but little and if it doesn't help you wonderfully in a month—money back.
