Approximately \$2,175 in cotton stamps have been issued under the provisions of the new Supplementary Cotton Stamp Program from the local AAA office, Millard P. Brown, Hall County ACA secretary, said Wednesday.

Of these, \$400 in stamps were taken to Turkey Monday, where they were issued to farmers in that vicinity. The remainder have been issued from the local office.

All farmers cannot receive their stamps at once, it has been explained, since farms have to be checked for compliance before the stamps can be given out to producers. Compliance checking is almost completed, although some work is still being done.

The plan will release about \$20,000 in stamps in the county for cooperation with the new program. This is the first year the plan has been attempted.

Each farmer agreeing to cut his cotton acreage is paid for the reduction in stamps, up to \$25 if he is working one farm, and up to \$50 if he is working two or more farms.

The new program is not connected with the food or cotton stamp programs sponsored by the Surplus Marketing Administration, but it is simply additional pay to farmers for cooperation with the government in reducing their cotton acreage. Approximately 95 per cent of the farm operators in the county are cooperating in the program, it was explained.

The stamps are exchangeable in stores for goods made of cotton, and certain restrictions are made on goods which contain only part cotton.

If the articles are all cotton, but contain fasteners made of elastic, they may be bought with the stamps.

If articles are made in whole or in part of spinnable cotton waste, they may be bought if the waste is the product of lint cotton grown and processed in the U. S.

Articles and products made of linters do not come within the definition of "cotton and cotton goods" and are not eligible for purchase of cotton stamps.

Certain restrictions are placed on articles containing non-cotton materials.

When articles or products are embroidered with material other than cotton, they usually may be bought, since embroidery is a form of trimming, and is therefore excluded from consideration when determining eligibility.

District Court of Hall County Will Convene Monday

Grand Jury to Act on Charges; Docket for Term Expected to Be Light

The fall term of District Court in Hall County will open in Memphis next Monday, when grand jurors convene to receive the charge given by District Judge A. S. Moss.

The grand jury will act on charges which have been filed in criminal cases. The number of indictments to be made is unknown, although it is expected that the docket will be light.

Several old criminal cases will come before the court again, although they will be few in number. The number of civil cases is also expected to be small.

Grand jurors will be chosen from the following list:

Jay Russell, F. A. Meacham, I. L. Perkins, R. A. Edleman, Wade Davis, Finas Edwards, W. L. Crabtree, H. S. Foster, P. O. Young, B. E. Davenport, T. J. Dunbar, D. J. Morgensen, W. H. Youngblood, A. H. Jones, H. C. Fowler, and J. J. Hall.

THREE KILLED IN QUANAH WRECK

Dead Were Residents of Quannah; Memphis Man Driving Truck Uninjured

Three Quannah men were killed Tuesday morning when their car collided with a heavily-loaded gasoline truck driven by Delmo Mitchell of Memphis at the intersection of Highway 287 and the by-pass into Quannah, just west of the Quannah city limits.

Killed were J. C. Clements, 62, railroad machinist and driver of the car; S. B. Wells, 73, Quannah farmer; and J. Mark Drake, 75, retired cement worker.

Mitchell was uninjured, although slightly less than 2,000 gallons of gasoline were spilled over the highway. A total of 660 gallons failed to spill from the tank on the truck of the Continental Oil Company, it was reported Wednesday.

The three deaths brought the Panhandle's highway death toll since the first of the year to 63 persons. The accident occurred just inside the Panhandle patrol district, since the center of the city of Quannah is the division line.

Subscription Rates Of The Democrat To Be Increased

Due to the increasing prices in the production of a newspaper, the subscription price of The Memphis Democrat will be raised to \$2 (two dollars) per year in Hall and surrounding counties.

The new price rate will become effective September 15.

In addition, the subscription rate outside of Hall and surrounding counties—and in the United States—will be raised to \$2.50 per year.

The present rates are \$1.50 per year in Hall and the surrounding counties, and \$2 per year outside.

Publishers of The Democrat explain that the hike is necessary due to recent increases in the cost of production and materials essential in publishing.

MILK HAULERS ARE ANNOUNCED

Lack of Equipment Delays Opening of Plant One Day; Material En Route to City

Opening of the Kraft Cheese factory in Memphis, and the date of beginning of actual operation has been delayed one day, but the plant will begin operation next Tuesday, September 2, Joe H. Owen, representative of the company, announced this morning.

Necessary equipment to begin operation of the plant is now en route to Memphis, and will be here Friday and Saturday for installation. The plant will then be ready for operation next Tuesday, Mr. Owen said, and milk will be hauled in on that date.

Milk producers are asked to save their Monday night and Tuesday morning milk to sell to the haulers Tuesday on the first route day, Mr. Owen said.

Plans are now being made for the formal opening of the factory, to be held in connection with the annual Hall County Dairy Show, it has been announced. The opening and dairy show will probably be held September 2.

Preparations for Opening of School Are Being Made

Enrollment to Be Held Here September 4 and 5; Classwork Begins 8th

As the date of the opening of school in Memphis draws nearer, more preparations are being made by school authorities, W. C. Davis, superintendent, said this week.

Enrollment in the Memphis Public Schools will be held Thursday and Friday, September 4 and 5, and classwork will begin Monday, September 8, it has been announced.

Textbooks are being numbered and put in order for the enrollment period, Mr. Davis said. In addition, rooms are being cleaned and floors polished, and other improvements on the building are being made.

Several of the teachers who spent the summer months away from Memphis have returned, and others are expected here this week-end. Some of the teachers have been vacationing during the summer, and some have been attending school.

The initial band rehearsal was held Wednesday night under the (Continued on page 8)

Producers Allowed Until October 1 to Pay Cotton Loans

Plan of Taking Over and Selling Unredeemed Bales Outlined by County Agent

The Department of Agriculture has announced that the Commodity Credit Corporation will allow producers until October 1 of this year to repay outstanding loans and redeem cotton pledged under the 1938, 1939, and 1940 loan programs, County Agent W. B. Hooser said this week.

The department also announced that all of this cotton not redeemed by October 1 will be placed in pools, as provided in the loan agreement, and sold in an orderly manner by the corporation. Under this plan unredeemed loan cotton from each crop will be placed in a separate pool, with the producer retaining title to the cotton.

On final liquidation of all cotton in each pool, it was explained, the net proceeds, if any, after deduction of all advances and accrued costs, including storage, insurance, and handling charges, will be distributed among producers whose cotton has been placed in the pool, in proportion to their interest.

No payment will be made to the producers at the time the cotton is placed in the pool and individual producers will not be entitled to order the sale of the particular cotton which they placed in the pool. No sales of these pool stocks will be made prior to March 1, 1942, the county agent said.

Ralph Howe Named Production Credit Group Secretary

Has Been County Agent at Crosbyton 7 Years; To Assume Duties Soon

Ralph Howe, who has been county agent at Crosbyton for the past seven years, this week accepted the position as secretary of the Memphis Production Credit Association, district offices of which are located in Memphis.

Mr. Howe, his wife, and their small child will arrive in Memphis between September 1 and 15, when he will assume his duties at the P. C. A. office.

Both Mr. and Mrs. Howe are active in social affairs at Crosbyton, J. M. Dickson, acting P. C. A. secretary, said this week. Mr. Howe is the present president of the Lions Club there now, and was one of the charter members of the organization.

A personnel meeting of the association was held last Friday afternoon at the Memphis office. The meeting started at 5 o'clock and dinner was served in a local cafe at 6. Business relative to the activities of the group was discussed following the dinner.

Those attending were Mr. Dickson, Mrs. Tom Isham, Mary Helen (Continued on page 8)

Girls Production Center in Memphis Is Ordered Closed

Sewing Room Sponsored by NYA Had Been Open For Only Two Months

The Girls' Production Center, operated since June 7 on the second floor of the Clark hospital, closed last Friday following an order from National Youth Administration headquarters. The sewing room was being operated by N. Y. A. girls.

The project was closed because of lack of funds to continue the work, it was explained. Funds which had been appropriated were running short, and several of the sewing rooms were discontinued.

The sewing room was under the supervision of Mrs. Ora L. Denny, and 40 girls were employed when it first opened. Other girls had been employed as work continued.

The girls worked 15 days each per month, and two shifts were thus used. Each girl received a small payment for her work.

Project activities included sewing, weaving, knitting, and the practice of converting native materials into useful articles. When the project was closed, most of the time was being devoted to work on Red Cross supplies.

Monday Is Date Of Dove Season Opening of Area

Regulations for Hunting To Be Same as in Past; Closing Date October 12

School isn't the only thing which is opening, for September 1 is the date of the opening of dove-hunting season in this area, and Memphis hunters can spend their leisure hours this week-end polishing up the old shotguns for the annual trek to dove-infested areas.

The season will continue in this area through October 12, it has been announced by the state game commission. Regulations for hunting doves will be the same as last year.

The new game warden's name, incidentally, is H. G. Murphy. Mr. Murphy arrived in this area only a few weeks ago to succeed Bill Pierce.

Dove season, still in the distance, will be for 60 days, and will start in the southern zone, which includes Texas, November 2. The season, however, will open October 16 in Oklahoma.

As in recent years, hunters must plug repeating and automatic shotguns to a limit of three shells, and must not use guns larger than 10 gauge. Shooting hours are still sunrise to 4 o'clock in the afternoon.

Estelline Schools Open September 8

The Estelline Public Schools will begin the 1941-42 term Monday, September 8, Superintendent J. T. Duncan has announced.

The high school faculty was completed recently with the election of J. W. Coppage as coach.

Other members of the faculty are Mr. Duncan, Elizabeth Kenedy, Walter Labay, Mrs. Blanch Davis, Joe Ballard, C. W. Poth, and J. W. Chappell.

Members of the grade school faculty are D. Britt, W. Martin, Ann Whaley, Vida James, L. A. Tucker, and C. Taylor.

School Teaching Separates Family

Two members of the family of Rev. E. L. Yeats, Memphis Methodist pastor, will teach this fall, although their schools will be in widely-separated locations.

Miss Helen Yeats, daughter of Rev. and Mrs. Yeats, has accepted a position in Leeds, N. D., where she will organize a Spanish department in the high school. This city has recently become a booming mine center, and a large number of Spanish-speaking people have moved there, it was learned. Miss Yeats taught in the Crowell schools last year. She will leave Saturday.

A. W. Yeats, son of Rev. and Mrs. Yeats, will again be teaching in the English department of Pharr High School. He has already received his master's degree and is now working on requirements for a doctor's degree. During the summer months, he has made a number of addresses, both in Memphis and in surrounding cities, usually on the subject, "The Bible as English Literature." He left Monday for Pharr.

Singers to Meet At Brice Sunday

The Hall County Fifth Sunday Singing Convention will be held at the Baptist Church in Brice next Sunday afternoon, O. L. Barham, acting president, announced this week.

The meeting will begin promptly at 2 o'clock, Mr. Barham said. Several quartets are expected to attend, including the Donley County quartet.

Buses to Undergo Rigid Inspection

Hall County's school bus drivers will be given a lecture, and buses will be inspected when State Highway Patrolman Sam Gardner is in Memphis September 8.

Each of the buses must meet rigid standards, it was explained, and no bus will be allowed to carry students until all standards have been met.

Included in the inspection will be checks on the door hand rails, emergency door, service door, rear view mirror, windshield wiper, brakes, lights, (including interior, headlights, tail lights, clearance lights, stop lights, and horn), condition of chassis, heating and ventilation, fire extinguisher, first aid kit, and skid chains.

Mother of Local Woman Dies Here

Mrs. Etta Frances Cannon of Clarendon, mother of Mrs. W. Wilson of Memphis, died Sunday afternoon at 1 o'clock in a local hospital after an illness of several weeks.

Funeral services were held at the First Baptist Church in Clarendon Monday afternoon, with Rev. Perry King, pastor, conducting the rites, assisted by Rev. S. F. Martin, Memphis Baptist pastor. Interment was in the Clarendon cemetery under the direction of King's Mortuary.

Those attending the funeral from Memphis were Mrs. C. W. Crawford, Mrs. A. M. Wyatt, Mrs. Chas. Drake, Mrs. H. B. Gilmore, Mrs. H. H. Lindsey, Mrs. J. W. Fitzjarrald, Mrs. E. T. Prater, Mrs. T. T. Loard, Mrs. Lee Thornton, Mrs. George Hattenbach, Mrs. W. E. Hill, Mrs. Blithe Scott, Mrs. Ernest Clark, Mrs. R. H. Wherry, Mrs. Sam Hamilton, Mrs. Chas. Williams, Mrs. L. L. Doss, Mrs. Bill Ragsdale, Mrs. Lonnie Edmondson, and Mrs. Nettie Borden, and Miss Imogene King, Una Loard, Martha Ragsdale, and Rev. and Mrs. S. F. Martin.

Action Is Taken on School Transfers

Final action upon transfers of students to and from the various school districts in Hall County was taken at a meeting of the county school board last week.

Transferring into independent school districts were 402 students, and out 51. Transferring into common school districts were 36, and out 400. Thirteen students were transferred into another county.

There may be changes in the regulations, too, for the board stressed that the list made public was not final, and that other items could be added from time to time. In addition, changes may be made

Dollar Down, Dollar A Week—EASY PAYMENTS SOON TO BE HARDER THAN EVER

Unless there's a sudden change of heart by the Federal Reserve Board, the "dollar down, dollar a week" plan of buying certain merchandise is over—at least for the duration of the "emergency."

Designed to prevent inflation caused by heavy "easy payment" buying, the plan restricts installment buying of articles ranging from automobiles to radios. It goes into effect next Monday, September 1.

Not only will the plan curb inflation tendencies, but will also free much-needed machines, raw materials, and labor for use in the national defense program.

The regulations call for a maximum limit of 18 months to pay for articles bought on credit. Installment loans of \$1,000 or less made by individuals from banks or personal finance companies must also be paid up in 18 months, the board has ruled.

One fifth of the sales value is required as a down payment on mechanical refrigerators, washing machines, ironers for household use, vacuum cleaners, cooking stoves, heating stoves, electric dish washers, room-vent air conditioners, sewing machines, radios,

phonographs, and musical instruments composed principally of metals.

Items requiring a 15 per cent down payment include household furnishings, water heaters, water pumps, plumbing and sanitary fixtures, home air conditioning systems, and attic ventilating stands.

Items requiring a 10 per cent down payment include pianos and household electric organs, and new household furniture, including ice refrigerators, bed springs, and mattresses.

No limitation will be placed upon repairs or improvements to urban, suburban, or rural real estate, but this too must be paid up in 18 months, if arranged on credit.

Memphis merchants who sell the articles mentioned were concerned, of course, with the new regulations, although the terms outlined are not far from those made by most of the local merchants at the present time. The "dollar down, dollar a week" plan has been much more popular in the larger cities than in the smaller towns.

Two-Month-Old Infant Dies Here

William Roy Clay, two-month-old son of Mr. and Mrs. John O. Clay of Memphis, died Monday morning at 6:30 o'clock.

Funeral services were held Monday afternoon at King's Chapel, conducted by Walter Hightower. Interment was in the Fairview Cemetery under the direction of King's Mortuary. Survivors include his parents, two brothers, and two sisters.

Club Report Pads Are Now Available From Democrat

For the convenience of club reporters and to facilitate the work of The Democrat staff, special report pads are being distributed to reporters of the various clubs of Memphis.

The pads are now available at The Democrat office, and may be obtained by calling for them. Reporters are urged to do this before the club year starts, so that a uniform report may be obtained for each meeting.

The report form facilitates the work of the reporter, and should be filled in during the session and brought to The Democrat office immediately following the meeting.

Mrs. M. McNeely Hostess to Circle Of Presbyterians

The Woman's Missionary Circle of the Presbyterian Church met Monday afternoon in the home of Mrs. M. McNeely.

The meeting was opened with soft music. "The Old Rugged Cross" was played on two pianos by Mrs. McNeely and Miss Nell McNeely. The opening song, "Jesus Calls Us O'er the Tumult," was led by Miss Gertrude Rasco.

The topic for the meeting was "China and Alaska." The scripture, II Cor. 6:1-10, was read by the leader, Mrs. Mamie VanPelt. Mrs. VanPelt led in prayer and gave an article, "His Work in China." This was followed by a collection of instrumental pieces by Miss Rasco, who read a piece on music at the close of her selections.

In the Footsteps of S. Hall Young, a history of Alaskan was given by Mrs. G. A. Sager. It was followed by a solo by Miss Nell McNeely, "By the Still Waters He Leadeth Me." Mrs. J. A. Grundy told, "Half a Century They Waited," another Alaskan story, and the menu committee is composed of Mrs. P. L. Vardy, Mrs. J. H. Birchfield, DeWitt Eddins, and Mrs. W. L. Rigby.

Others present for this occasion were Mr. and Mrs. Jo Eddins and children, Charlie Eddins, Joel Eddins of Rails, and Alonzo Eddins of Duncan, Okla.

The group enjoyed a picnic lunch at the Wilson swimming pool after their swim. They went from there to Mrs. Gentry's home. Those present were Misses Gwendolyn Coursey, Ruthie Johnson, Jane Hicks, Betty Lindsey, Johnny Ray Long of Corpus Christi, Jean Denny, Betty Jean Milam, and Miss Norvell.

VELVETEEN, CORDUROY TO LEAD STYLE PARADE ON NATION'S CAMPUSES

Cotton fashions will be tremendously important for college girls this fall, Esther Lyman, merchandise editor of Harper's Bazaar, told the National Cotton Council.

"I assure you that cottons will be highly popular with high school and college girls this fall," Miss Lyman said. "The leading ones for these young people are velveteen and corduroy, which will be featured in dresses for daytime and evening, jackets, slacks, suits, skirts, and hats."

"In some colleges the girls will wear blue cotton jeans a great deal, while in others cotton beer jackets are very popular. We believe there is a bigger scope for cotton blouses this year than previously. Cotton laces and cotton nets have a big chance for evening clothes."

"We know that young people have a tremendous liking for cottons and we feel sure that if the designers do a good job, high school and college girls will buy more cottons for fall than previously," Miss Lyman continued.

"I should not fail to mention, of course, the simple cotton dresses which many girls stock up on for college and wear on these first hot days in autumn which require cool dresses."

LAURA LEARNS—why people stay Silent... Lasts Long

YOU MUST HAVE YOUR REFRIGERATOR IN A SOUND-PROOF ROOM, HELEN. IT DOESN'T ECHO THROUGH THE HOUSE THE WAY OUR NOISY OLD THING DOES.

OURS IS JUST ON THE OTHER SIDE OF THAT DOOR, THE REASON YOU DON'T HEAR IT IS THAT IT'S A SERVEL.

YOU SEE, THE GAS REFRIGERATOR'S FREEZING SYSTEM HAS NO MOVING PARTS TO MAKE A NOISE.

EXACTLY, AND THAT'S WHY SERVEL'S LOW OPERATING COST STAYS LOW YEAR AFTER YEAR; IT DOESN'T LOSE EFFICIENCY WITH USE.

MY, IT'S CERTAINLY BEAUTIFUL ISN'T IT!

JUST WAIT TILL JOHN COMES HOME TO ME—I HAVE A HUNCH WE'RE GOING TO GET OUR OLD "AUTOMATIC" WITH SERVEL.

LOOK AT ALL THE ROOM AND MODERN CONVENIENCES IT GIVES YOU

EVERY YEAR, more and more people who've had experience with other makes are changing to Servel Electrolux. They know the Gas Refrigerator "stays silent... last longer"—because its freezing system has no moving parts to wear or make a noise.

Different from all others

- ▶ NO MOVING PARTS TO WEAR in its freezing system
- ▶ PERMANENT SILENCE
- ▶ CONTINUED LOW OPERATING COST
- ▶ MORE YEARS OF DEPENDABLE SERVICE
- ▶ SAVINGS THAT PAY FOR IT

ONLY REFRIGERATOR WITH A 10-YEAR GUARANTEE ON THE COMPLETE FREEZING SYSTEM—ALSO WORKS ON BOTTLE GAS

Cotton Goods Attain New Leadership In Fashion World, Says Committeeman

Cottons are a better buy this year than ever before. R. S. Greene, chairman of the Hall County cotton industry committee, said here this week. Pointing out that cottons have reached a new pre-eminence in the world of fashion as well as for everyday needs, he said that the cotton producing industry and the cotton trades industry are cooperating with the efforts of the Surplus Marketing Administration, U. S. Department of Agriculture, to increase our home consumption of 100 per cent American grown, processed, and manufactured cotton.

"No longer does the American woman have to make a choice from the simply woven, plainly dyed cottons of grandmothers day," Mr. Greene said. "Through the development of new weaves, new finishes, new dyes, and new treatments, the cotton industry can present fabrics second to none in the world, as thrifty and fashionable as any."

During the current summer season, cottons have made new invasions into the field of beach and sportswear, street dresses, afternoon frocks and dinner and evening dresses, the chairman of the cotton industry committee said.

"Manufacturers have combined cotton's inherent qualities of washability and durability with brilliant new patterns and finishes," he declared. "From such sheers as voiles and swisses to the heavier fabrics such as piques and even denims cottons are being accepted by leading designers and stylists as America's foremost fashion fabric."

Mr. Greene said that one reason for the increase in cotton's

popularity during recent years was the perfection of processes to control shrinkage. Sanforized cottons will not shrink more than one per cent in either length or width, he pointed out. New dyes have also assisted cotton in gaining its present place in the fashion world. Completely colorfast, the new cottons can be washed time after time without losing any of their sparkling brilliance.

September hatched chicks will start to lay about the same time in the spring as those hatched in June and July. Also they will grow more rapidly and are more uniform.

13,398 MILES ON 5-QUART FILL OF OIL

in the *Certified* **DEATH VALLEY DESTRUCTION TEST**

CERTIFIED I hereby certify that the Death Valley Test and related work were thoroughly and fairly conducted. Engine Destruction occurred in each case at the mileage stated.

H. M. Jackson
Consulting Engineer, who during Academic year is Professor of Automotive Engineering, Purdue University

Revolutionary New Oil tested against 5 other big brands. 6 new cars Destroyed to prove Economy and Protection.

The oil that reeled off an amazing 13,398 miles on one regular fill, in blazing Death Valley, was proved to be an oil of the Nth degree—an oil of new high character... Hence its name:

CONOCO Nth MOTOR OIL

This dramatic test, supervised impartially and Officially Certified, was simple, yet harsh. 6 identical new cars were taken to Death Valley—where the heat hits record highs. 5 of these cars were each assigned a different widely-known, highly advertised motor oil. The sixth car used new Conoco Nth motor oil.

Each car was broken-in on a brand assigned by lot. Then, one 5-quart fill of this same oil went into the crankcase—kept under lock. The cars were driven 57 miles an hour until oil failure cracked up each engine—utterly wrecked it! All of this under impartial official scrutiny, as was every step in the test, right on through the dramatic finish.

Here is what happened

New Conoco Nth oil went 13,398.8 miles. Not another oil came within 5,683 miles of this. One outstanding oil failed 8,268.6 miles sooner than new Conoco Nth motor oil. So it outdistanced the five competing oils by 74% to 161%.

Why this Astounding result was possible

New Conoco Nth motor oil contains a Conoco-originated synthetic (U. S. Patent 2,218,132) called *Thialkene inhibitor*. An inhibitor in motor oil acts

pretty much as an inhibition acts on you. Inhibitions hold you back; police many actions. And so Conoco's *Thialkene inhibitor* polices Conoco Nth oil... arrests pollution that otherwise comes from normal operation. And that's your aid against a dirty engine with inferior lubrication.

Are you an OIL-PLATING "fan"?

If you are, more power to you! Don't for a minute feel let down, for Conoco Nth also contains the famous synthetic that OIL-PLATES engines. OIL-PLATING comes from the magnet-like attraction that keeps it bonded to inner engine parts, so that it can't all quickly drain down to the crankcase—not while you're using Conoco Nth oil. This same famed OIL-PLATING is still yours to guard against wear.

Because of OIL-PLATING and *Thialkene inhibitor*, one 5-quart fill of new Conoco Nth oil went an astounding 13,398.8 miles. Of course, you'll never Death-Test your Conoco Nth oil in sinister Death Valley, nor repeat any other proving-ground tortures. You'll still drain and refill at the intervals recommended by qualified authorities. But how you'll expect to stretch the distance before you ever add a quart, judging by this big fact:

5 heavily advertised oils in the Certified Death Valley Test were out-miled 74% to 161% by Conoco Nth oil. Economy like that counts up into dollars! Change to Nth oil today at Your Mileage Merchant's Conoco station. Continental Oil Co.—Pioneers in Bettering America's oil with Synthetics

Donley Road Work Bids to Be Taken

A Texas Highway Department improvement project in Donley County extending for 2.7 miles on state route 18 and U. S. route 287 in and near Clarendon is included in the list of new work for which bids are scheduled to be received at the highway department in Austin at the August road letting August 28 and 29.

The Donley County project is a state-federal aid, grade crossing project. It calls for grading, construction of drainage structures, flexible base, and asphalt surfacing on Route 18 from the present pavement end to approximately 2 miles north of Clarendon to the junction of U. S. 287 in Clarendon, plus construction of an overpass over the tracks of the F. W. and D. C. railroad, and re-location and construction of a portion of U. S. 287 in Clarendon.

It is one of a number of varied projects located in 23 counties that have been listed for the August letting. Their total cost will amount to approximately \$2,086,000, according to the estimates.

LAKEVIEW METHODIST NOTES

Frank Story, Pastor
The revival meeting will begin at Webster Friday evening, August 29, at 8 o'clock. Everyone is urged to attend. The pastor will bring the messages. Morning services will begin Sunday morning and will continue as announced from the pulpit.

Prayer is the key which unlocks the storehouse of God's power so we are urging that all be much in prayer that God will give us a gracious revival. "His hand is not shortened that He cannot save." But His saving power depends on those who are called Christian. "If my people which are called by my name, will humble themselves and pray and seek my face and turn from their wicked ways then I hear from Heaven and will forgive their sins and will heal their land." May God use us as a channel of blessing through which He may bless a needy world.

week, after an eight-day trip to the Rockies in Colorado.

Leaving Memphis the morning of August 14, we drove to Pueblo. The next day, with no certain destination in view, we drove to Canon City where we viewed the Colorado penitentiary from without, mind you. Royal Gorge took some of our time and most of our breath, for it gives one an "all out" sensation to stand on a suspension bridge and look down into a canyon 1200 feet deep, at the bottom of which is a railroad and the Arkansas river side by side looking like pencil lines instead of standard gauge tracks and a real river.

Salida was the next stop. Here two great highways branch out—one leading west over Monarch Pass and the other north to Leadville and over the Continental Divide—the very heart of the Rockies. North we went up the Arkansas River to Leadville, almost a ghost town now but which during the early days of nearly a century ago was the home of forty or fifty thousand souls, mostly miners and a few women, now a town with a population about that of Memphis. The Arkansas at this place can be spit across by a good spitter. From the front porch of the building where we spent the night we could view the highest mountain in Colorado—Mt. Massive—its peak almost covered with snow, with clouds at times covering most of the mountain and the snow-capped peak showing above them.

The next morning we had the choice of turning west toward the Fryer Pan where so many of the Memphis fishermen go each year, or north east toward Denver. We chose the latter, and began one of the most interesting drives we had taken. On this drive mine after mine was passed, some producing molybdenum, a very costly and

FIELDS' MARKET

Meat is an energy food. The warm weather calls for outings and active sports and makes meat a very essential part of your diet. Here you can get choicest cuts for tender, tempting dishes. Low prices for low budgets.

necessary element being used with steel in the manufacture of cannons and the like. Some of the mines were producing copper, zinc, lead, silver, tungsten and many other valuable minerals.

For miles the broad highway led us upward at a gradual angle until we reached the top of Loveland Pass—11,992 feet high. Here the timber line was about two thousand feet below us and the tops of the mountains all around us were covered with snow. Sweaters and coats had to be donned while pictures were taken and tourists discussed the many breathtaking views to be seen. The descent was made over many hair-pin turns. One could not realize how rapidly he was descending until he stopped and looked above him and followed the winding road with his eyes from the bottom of the mountain to its very top.

Reaching Idaho Springs at noon, time was taken out to visit many points of interest. This thriving mining town nestles between the mountains that are honeycombed with gold mines. The same is true of Black Hawk and Central City, near Idaho Springs, which are reached after driving through three tunnels cut through solid granite gorges. Mining engineers gave us the history of gold mining in this region, dating back to the '50s. Since gold has become more valuable mining has taken on new life and activity is very noticeable.

From Idaho Springs the drive to Denver was made over a broad three to six-lane highway which gradually dropped to the plains country at a mile elevation. Denver is a beautiful city, which we viewed with interest.

The next day Boulder was visited and a cabin obtained at the foot of the mountains where a needed rest was taken. After viewing Boulder I ceased to wonder why so many teachers of this section take summer courses there.

Estes Park and the Rocky Mountain National Park were visited. One can get his fill of scenery here. Mountains, high drives, gorges and canyons follow each other in rapid succession.

From Estes Park we drove to Palmer Lake, the highest point on the Fort Worth and Denver railroad. We spent two days and nights here at Estemere Lodge. This lodge was built 64 years ago at a cost of \$600,000 by an Englishman who got rich in the mining game. It was furnished with the finest furnishings obtainable in that day, and these furnishings are still in use. The lodge property is still in fine condition. The lodge is opened only during the summer months and is operated by Rev. Oliver Adams and his gracious wife. They make the guests feel at home at all times. Since

he wants to sell the lodge and his price is only \$6,000—a fine bargain for anyone who wants a summer residence that will pay its way as he spends his vacation.

While there we made the acquaintance of Mr. and Mrs. J. E. Rule of Goodland, Kan., Mr. Rule is only 79 years young and can recite poetry by the yard and is no mean croquet-golf player.

We enjoyed every minute of our stay at Estemere and when the time came to leave it was done with a feeling that we ought to stay longer. Even our dog "Trichski" didn't want to leave. She followed the car on foot until we stopped, then would again refuse to get in.

Colorado Springs, which we visited in 1916, didn't seem the same. The Garden of the Gods, Seven Falls, Pike's Peak and the many other attractions of 1916, failed to impress us after the trip through the heart of the Rockies which we had made just a few days before.

The next stop was at Rocky Ford, center of the fine cantonuejo region in eastern Colorado. This drive down the Arkansas River was certainly worth while. Irrigation is practiced, and hay, fruit, corn, beets, onions, flowers, grow luxuriantly all the way to Lamar. The Mrs. asked a farmer if he had any large onions, and

for answer he stepped on the onion field and he up some real large ones to pay him and he said, "They are worth a nickel each, but I wish to goodness they were worth a dollar each." From Lamar home we drove to the north and found crops looking just right. I wasn't a bit surprised. Memphis weeds still

will be helping the morning. Rev. B. Norwood, pastor, announced the revival next Sunday at the Methodist Church.

Texan Model Home May Be Inspected For Rest of Week
Visitors Show Interest In Cameron-Built House, D. J. Morgensen Declares
 The evident interest and the enthusiastic comments of visitors who have already inspected the Cameron-Built "Texan" model home at 620 South 7th Street this week indicated that the home is still a subject "near and dear to the heart of the American people," declared D. J. Morgensen, local manager of Wm. Cameron and Co., sponsor of this home.

Memphians Voice Hearty Okay of Summer Program
Recreational, Educational Plan Sponsored by WPA, Schools; Closed August 15
 That the summer program of recreation and education, sponsored jointly by the WPA and the Memphis Public Schools, met with the approval of Memphians is evidenced by the opinions expressed by various citizens in a survey made this week. The program officially closed August 15. Here are what some of the Memphians had to say concerning the program:
 J. A. Merrick: I will be glad to do or say anything I can to give recreation a boost, because I know that it richly deserves it.
 C. Lee Rushing: I deeply appreciate the recreation program, and heartily endorse it. Too much cannot be said about the good influence of a program such as this one.
 Horace Tarver: The recreation program is a splendid thing for the whole community, and surely meets with our whole hearty approval.
 E. N. Hudgins: The recreation program has been and is still a good influence on all of us. I have lived next door to the recreation center before and after the coming of recreation as it is now sponsored and supervised, and I will cheerfully state that its influence on the children of the neighborhood has definitely been of the best. It has kept them off the streets and away from bad influences which they might have contacted elsewhere. Those good meals served there have, I am sure, been a great factor in promoting growth of the children, and have helped to make the program the success that it is. For adults the program has been a good mixing influence. It is always good to be more closely associated with your fellow man, and recreation has brought us all close together.
 Marcus Rosenwasser: We surely do approve the recreation program.
 R. H. Wherry: I approve the recreation program because of its good influence upon the children. It has kept them off the streets and employed in a good, clean atmosphere. Therefore I endorse it for the good it has done.
 L. W. Stanford: We endorse the recreation program.
 N. W. Durham: The recreation program meets with our approval.
 T. W. Harrison: We endorse the recreation program, and approve the good that we know it has done.
 Wm. J. Bragg: It meets with my approval.
 J. E. King: You can quote us as saying that we endorse the recreation program.
 Bailey Gilmore: We certainly approve the recreation program.
 George Thompson: We approve the recreation program.
 Judge M. O. Goodpasture: I do approve the recreation program, as it makes for good health and good morals.
 Byron Baldwin: We endorse and approve the recreation program.
 Andrew Simmons: We endorse the recreation program.
 Dave Price: I do approve the recreation program, as it is the best thing of the kind we have had here.
 Seth Palmeyer: The summer recreation program is a fine thing, the best thing of this kind that ever happened to us. We have derived lots of good and enjoyment from it.

New Stamps Not To Be Mailed Free

Retailers and collection agents who have been submitting stamps of the new Supplementary Cotton Stamp Program in franked penalty envelopes must discontinue this practice, Robert M. Moss, cotton area representative of Amarillo, declared this week.

Retailers and collection agents are required to submit the stamps to the district audit office at their expense, he said.

"It has also been called to our attention," Mr. Moss said, "that Form SMA-502 (white), 'Public Voucher for Payment of Cotton Order Stamps,' has in some cases been submitted to the audit office in only the original voucher. This form should be accompanied by one copy of Form SMA-502a (yellow)."

Stores Take Selling Stamps

A thousand chain stores became agents of government in selling national savings stamps this week, announced by C. T. Williams, manager of the J. C. Williams stores.

Stores want to make it easier for customers to buy stamps, and do not customarily sell them at post offices, John Williams said.

Plans for putting stamps on sale at the chain stores are being worked out with federal officials. The program will be in charge of the sale of defense bonds and stamps with the state savings program which C. Lee Rush, county chairman, said.

Stores can reach a class of people who can't be reached by post offices, Williams said. Federal officials are in charge of the sale of defense bonds and stamps.

Stores of Dallas, president of Texas Chain Stores said that chain stores are in the sale of defense stamps was requested by the treasury and first tried in Dallas, where more than 100 units and independent stores are now selling the stamps in Michigan more than a hundred of stamps a day, he said.

South Plains Show Prizes Increased

Very substantial premium increases, amounting in one division to 66 2-3 per cent, have been announced for the dairy cattle department at the 28th annual Panhandle South Plains Fair in Lubbock October 6 to 11, and it is anticipated that the best showing of dairy cattle in the Fair's history will result.

Highest percentage of increase in premiums is in the Holstein division, where place premiums have been stepped up from three to four. Last year's postings offered only first, second, and third places of \$7.50, \$5, and \$2.50, whereas this year there are four places of \$10, \$7.50, \$5, and \$2.50. There were 18 competitive classifications in the Holstein division last year in addition to senior, junior, and grand champion, and these remain the same.

The Jersey division contains the same five places as last year, but premiums have been increased more than 39 per cent. Premiums for the 1941 fair will be \$12.50, \$10, \$7.50, \$5, and \$2.50, as compared with a top of \$10 and a \$2 fifth place last year. The Jersey division will offer 20 competitive classifications in addition to junior, senior, and grand champion.

Premiums in the dual-purpose (Shorthorn) cattle division and in the swine department, will be the same as last year. Three places of \$7.50, \$5, and \$2.50 are offered in the Poland China, Duroc, and Hampshire divisions of swine. Chester Whites and Spotted Poland Chinas draw \$5, \$3, and \$1.50.

License Issuance Stopped for Week

Issuance of drivers' licenses have been suspended throughout Texas for this week, it was announced last week by state police director, Homer Garrison Jr.

The 32 men comprising the present drivers license examiner force will spend this week at Camp Mabry near Austin in a re-training school under the direction of John B. Draper, chief of the drivers license division.

The examiners will be instructed in procedures to be used after October 1, when reissuance of licenses will begin under the recently enacted licensing law. Emphasis will be given to uniformity in physical and driving tests.

Applications for renewal of old licenses after October 1 will be handled directly through the Austin office, Draper announced.

Present licenses numbered from 1 to 450,000 will be renewable October 1 and will expire December 31. Those numbered above 450,000 will be renewable at later periods.

The new license will be good for two years and will cost 50 cents. Commercial and chauffeurs' licenses, renewable on the date of expiration, are good for one year and cost \$1 and \$3, respectively.

Mrs. Jeffrey Hoy Gives Review at J. C. Wells Home

Mrs. Jeffrey Douglas Hoy of St. Paul, Minn., the former Miss Loma Madden, reviewed "The Family" before an appreciative audience on the lawn of the J. C. Wells home Monday night.

The review was exceptionally well received by the audience, and Mrs. Hoy was complimented highly on the interesting manner in which she covered the points of the book.

No decorations were used in making the lawn attractive. Lights placed at various spots on the lawn enhanced the natural beauty of the flowers in the rock garden surrounding the pool and waterfall in the back yard, making it an ideal setting for the occasion.

Mrs. Hoy was visiting her parents, Mr. and Mrs. R. L. Madden, and the book review was sponsored by the Woman's Culture Club.

Memphis Softball Team Victorious

Memphis' All-Star softball team came from behind to down the Childress Bankers 8-7 Tuesday night in the opening game for the local team in the invitation tournament now in progress in Childress.

Timely hits by the Memphians, and loose fielding on the part of the Childress players, gave the local team the chance to score three times in the fourth inning, and two more in the sixth.

George Thompson hurled for the Memphians, and held the Bankers to seven hits.

Quanan, Kirkland, and Hollis were the other teams to emerge victorious in their first encounters.

Former Memphian Is Now Sergeant

Carroll Crone, son of Mr. and Mrs. C. A. Crone, has recently been made sergeant in the U. S. Army division station at Camp Robert, Calif.

Sergeant Crone joined the army at Fort Bliss July 20, 1940, and was stationed there seven months. He was transferred to Camp Robert, and has finished three different schools in the army.

The former Memphian, who is well known here to a number of people, will leave Camp Robert in October for either Alaska or South America.

Clarendon Men Speak at Rotary

Charley Lowrey and Editor J. C. Estlack, Clarendon, furnished the program at Rotary luncheon here Tuesday. Mr. Lowrey displayed his large collection of Indian relics, giving information relative to the different collections.

Editor Estlack had a collection of gems, which he said were found in this section of the Southwest. The stones when found in their natural state are not easily detected, he said, but a person must be experienced in such things to detect them.

It was announced by President T. E. Noel that Cal Farely of Amarillo, district governor of Rotary, will be present next Tuesday.

It was also announced that the club has bought two \$100 Defense Savings Bonds with idle student loan funds.

Marketing Administration Director Urges Use of More Cotton Products

Appealing to consumers to help increase the consumption of 100 per cent American cotton products, L. J. Cappleman, regional director of the Surplus Marketing Administration, U. S. Department of Agriculture, this week urged all Americans to purchase more cotton products for home and personal use.

Mr. Cappleman said, "A cooperative educational campaign is now under way sponsored by the National Cotton Council, and local cotton industry committees in cooperation with the Surplus Marketing Administration, designed to promote a greater home market for 100 per cent American cotton products."

"As a result of the present world conflict our cotton exports have been drastically curtailed. In former years America exported about seven million bales annually. It is anticipated that less than a million bales will be exported during the current year. Meanwhile, our present cotton surplus amount to well over 12 million bales—not including the 1941 cotton crop. The domestic market is therefore becoming tremendously important as a potential outlet for this huge cotton surplus."

He added that "approximately 13,500,000 persons in the United States are directly dependent upon cotton for their livelihood. Unless our cotton crop is utilized, and both producer and processor receive a fair return, the economic structure of this country will suffer materially. The prosperity of the entire nation is affected by the price of cotton and the market for the products of the cotton textile industry."

Mr. and Mrs. D. Capwell of Estelline announce the birth of a girl August 18.

Vandeventer Boy Killed at Morton

Vernon Venson Vandeventer, 15-year-old son of C. S. Vandeventer, formerly of Hall County, was killed August 16 at Morton when a car collided with a tractor he was riding.

A brother, John Vandeventer, and his wife and small child, were injured slightly. They were also on the tractor.

The young man was rushed to a hospital at Levelland, but died a few minutes he reached the hospital.

He is survived by his parents, who live at Enoch, and several brothers and sisters.

Nazarenes to Have 1941 Homecoming

Annual homecoming services of the Church of the Nazarene in Memphis will be held Sunday, the closing day of the 2-weeks revival, Rev. D. M. Duke, pastor, announced this week.

Special speaker for the occasion will be Rev. Alton Hawkins of Knowles, Okla. Rev. Herbert Land of Fort Worth, who is conducting the revival, will also be present.

A large number of former residents are expected to attend, Rev. Duke said. The N. Y. P. S. will have a special part on the program.

Three Killed—

between the Amarillo and Wichita Falls districts.

The truck was traveling west on the highway near the intersection of the Quanah car, traveling east, approached the intersection.

Investigating officers said Clements apparently was undecided whether to cross in front of the truck toward Quanah or turn right on the curve. Just before the machines collided, he turned off the highway and the truck hit the car on the left front fender.

The three occupants of the car were thrown about 51 feet from the machine as it overturned. Mitchell was en route to Memphis with the load of gasoline, and the three Quanah men were en route to Quanah. The collision occurred about 10:20 o'clock Tuesday morning.

Highway Patrolman Sam Gardner, who investigated the crash, indicated that no charges will be filed.

Preparations for—

direction of Norman Heath, band director.

Lakeview school classwork is already underway, having started August 18. Others starting at that time were the schools at Pleasant Valley, Lesley, Deep Lake, and Brice. These schools were started early to allow a recess period during cotton-picking season.

Turkey schools will open next Monday, Superintendent Lee Vardor has announced. Estelline schools will start September 8, according to an announcement by J. T. Duncan, superintendent.

Fees for Cotton Loan Papers Set

Maximum fees to be charged for filling out cotton loan papers have been set by the Agricultural Adjustment Administration, County Agent W. B. Hooser said this week.

A clerk to aid in filling out the papers is to be named for each bank and other business houses, he said. The fee rates are as follows:

One and two bales, 15c; 3-4, 20c; 5-6, 25c; 7-8, 30c; 9-10, 35c; 11-20, 2c for each bale above 10 in addition to the rate for 10 bales; 21 and over, 1c for each bale above 20 in addition to the rate for 20 bales.

Church of Christ Revival Underway

An 11-day series of gospel meetings began Wednesday night at the Church of Christ in Memphis with Minister Floyd J. Spivy of Iowa Park in charge of the services.

Two services are being held daily. Morning services begin at 11 o'clock, and evening services at 8 o'clock.

The revival will close with the Sunday services September 7, it has been announced.
