Retailers Must Comply With New Ruling on Credit

Business Concerns Publish Page Ad Containing Main Provisions of Regulations

Because they affect every user
of credit, whether in the form of
"charge" accounts or installment
purchases, the Federal Reserve
Board's new regulations on credit
control should be carefully studied
by everyone.
To acquaint the public with the
salient features of the regula-
tions, which went into effect May
6, Memphis merchants represent-
ing practically all lines of busi-
ness, have underwritten a page
advertisement in this issue of The
Democrat, and all readers are
urged to familiarize themselves
with its contents. The advertise-
ment appears on page two.

68 HIGH SCHOOL BOYS VOLUNTEER TO PINCH-HIT FOR FARM WORKERS

Realizing that victory cannot be
won without food, and aware that
there will be a serious shortage
of farm labor as the result of so
many workers being called to the
colors, sixty-eight boys of the
Memphis High school have signed
up for farm work in the Hall
County area. These boys will be
available when and where needed
from now until the war is over, or
they themselves are called to the
colors, Gene Barnett, instructor in
vocational agriculture, said this
week.
Farmers in communities around
Memphis are asked to get in touch

with Supt. W. C. Davis or Barnett
to make necessary arrangements
for travel or lodging for the time
the boys will be working on their
farms.
In registering, the boys have
listed their qualifications, show-
ing that about 20 per cent have
had experience in driving trucks,
pick-ups and tractors; 20 per cent
have had experience in driving
teams on farms, and 60 per cent
have classified themselves as be-
ing able to do general farm work.
In order to facilitate the pro-
gram whereby the student and his

Hall County Buys \$39,818 in Bonds, Stamps in April

County Chairman Urges That Quota of \$21,600 Set for Month of May Be Exceeded

Sale of United States War
Bonds and Stamps in Hall County
during the month of April totalled
\$39,818.75, it is reported by C.
Lee Rushing, county chairman. No
specified quota was set for the
county in April, Rushing said, and
the large figure reached is grati-
fying.
The quota for May on Bonds
and Stamps has been set at
\$21,600, but the chairman urged
that this be exceeded if at all pos-
sible. Secretary of the Treasury
Henry Morgenthau has stated that
national sales must be stepped up
to about one billion dollars per
month to keep up with the tremen-
dous expense of the war effort.
To meet this figure it will be ne-
cessary for every county to do its
utmost, and possibly then some.

Nutrition Class Will Be Started Tuesday, June 9

County Nutrition Committee To Meet in District Court Room Saturday at 2 O'clock

As a prelude to the starting of
a class in nutrition, as recom-
mended by the American Red
Cross, the Hall county nutrition
committee will meet at 2 o'clock
Saturday afternoon, May 30, in
the district court room of the
court house, it is announced. All
members of this committee and
other interested persons are urged
to attend.

Lakeview Seaman Sustains Injuries In Line of Duty

Details Lacking, But Red Cross Telegram Says R. M. Holt, Jr., Is Recovering

Injured in line of duty on May
20, R. M. Holt, Jr., of Lakeview,
seaman in the United States Navy,
is in a naval hospital at Lewes,
Del., but is in excellent condition,
according to a telegram received
Wednesday by E. E. Roberts,
chairman of the Hall County Red
Cross chapter.
Holt's parents, Mr. and Mrs. R.
M. Holt, Sr., of Lakeview, and
brother, Marsene, of Memphis, had
previously been informed by his
commander that he had been in-
jured, and they requested Roberts
to wire for further details. In
reply Margaret McVaugh of the
Delaware Red Cross stated that
the Lakeview sailor's head injury
has healed and that his ankle will
be placed in a cast as soon as the
swelling is reduced. She further
stated that Holt had written his
parents.
"He regards his injury as a
pleasant vacation," the telegram
said. "Sends love to family."
Although no details whatever
were given as to where or how
Holt sustained his injuries, it is
understood here that he was
serving on the crew of a destroyer
and was possibly injured in action.

Perryton Lion Is Guest Speaker at Memphis Club

The universal influence of Lions
Clubs in perfecting a world peace
following this war was brought to
the attention of the Memphis
Lions at the Wednesday luncheon
by Lion Walter Allen, a member
of the Perryton Lions Club. Lion
Allen represents the Farm Debt
Adjustment Division of the Farm
Security Administration for this
district.
Again local talent presented a
very good program at the lunch-
eon when Miss Ruthie Johnson
sang and Rayburn Jones gave a
piano selection. Nineteen of the
regular members of the club were
in attendance.

Drive For Salvage in County Will Start in Earnest on Monday

City Resident for 21 Years Dies at His Home Sunday

RECLAIMING OF METAL IS VITAL

Every individual in County
Urged to Do Part Gathering
Scrap to Help Win the War

Hall County's campaign for
scrap salvage is all set and ready
to start Monday, June 1, accord-
ing to M. J. Draper, county chair-
man of Salvage for Victory.
Mr. Draper has appointed a
man in each of the commissioners
precinct on his county committee:
Lee Vardy of Turkey, J. T. Dun-
can of Estelline, Vance Swinburn
of Lakeview and W. C. Davis of
Memphis. The county committee
has appointed 19 sub-committees
who will begin an active campaign
to get people to bring in their
scrap iron to centralized points.
The sub-committees are com-
posed of the Victory Leaders of
Hall County who were recently
named by their own communities
on the war emergency basis. These
community leaders will see every
citizen and urge them to gather
and centralize their scrap iron
right away.

Derrick Completed For New Oil Test

The derrick has been completed
and other preparations made for
starting drilling operations within
a short time on the Humble Oil
Company's new deep test on the
Moss land in the Plaska block.
The location is the southwest
quarter of section 19, block 1,
SPRR survey. It is about one mile
northwest of the test drilled last
year by the same company. Drill-
ing will continue, it is said, un-
til production is reached or gran-
ite is struck.

Candidates Change Speaking Plans

At 10 o'clock Tuesday morning
May 26, practically all the candi-
dates for County offices in Hall
County, met in the county court
room to discuss plans for future
speaking dates.
Motions were made and carried
to the effect that all dates hereto-
fore made would be filled only
at the pleasure of the citizens of
the respective communities. It was
decided that unless the citizens
and voters in some organized ca-
pacity express a desire for a meet-
ing, the candidates will not appear
on any of the dates. However, if
the voting boxes desire a meeting
and wish to invite the candidates,
a meeting can be arranged if done
one or two weeks in advance, on
some other day of the week be-
sides Friday, as the dates now
stand.
This action was taken because
the candidates have felt that it
might be an imposition on the
people and call for a sacrifice on
their part, if meetings were held
in the manner heretofore used, it
was stated. Sugar rationing, and
possible gasoline rationing were
given as the main reasons why the
candidates feel it best to cancel
the arrangements used in the past.
They think it is not right to put
an undue burden on the people.
Therefore no dates hereafter will
be filled, except on invitation of
the communities where no meet-
ings have as yet been held.

County, Precinct Candidates Must File by June 13

Saturday, June 13, is the last
day on which candidates for coun-
ty and precinct offices may file
to get their names on the ballot
for the Democratic primary July
25, it was stated this week by
Allen Dunbar, secretary of the
Hall County Democratic Execu-
tive committee. The date is set by
the State election laws and candi-
dates are urged to keep it in mind.
Names of candidates for district
office must be filed by June 1 in
order to get on the ticket, it was
stated.
Voters who expect to be out of
the county on election day should
bear in mind that absentee voting
will be permitted from July 5 to
21, Dunbar pointed out.

Directly affect every family or individual using charge accounts or installment buying. The undersigned Memphis firms ask the cooperation of customers in complying with Federal regulations.

A recent order of the Federal Reserve Board, acting under the authority of the President of the United States, requires all stores granting credit to make certain changes in their credit services. The new restrictions will in no way disturb a long and mutually agreeable relationship. You can continue to buy merchandise and have it "charged," or buy certain items on the installment plan, just as you have in the past, with the following stipulations:

1. Accounts are due, as in the past, with rendition of statement, or shortly thereafter, but every charge transaction **MUST** now be paid by the 10th of the second month following the purchase. Accordingly, all purchases made during May and any previous unpaid balances must be paid by July 10, **OTHERWISE WE SHALL NOT BE PERMITTED TO CHARGE FURTHER PURCHASES.** This schedule of payment will continue as long as the order remains in force.
2. The maximum permissible maturity of install-

ment sales has been reduced to 12 months, and the required down payment for all articles covered has been increased to 33 1-3 per cent. Exceptions to this rule include automobiles, for which down payment of one-third and maximum maturity of 15 months has been retained, and furniture, for which the required down payment, formerly 10 per cent, becomes 20 per cent, the maximum maturity being 12 months. Minimum installment payments are set at \$1.25 per week, or \$5 monthly.

The consumer credit control regulation became effective May 6, 1942, and has been broadened to include all lines of retail business and almost every article of personal and household use.

These Memphis business firms ask their customers to bear in mind that the regulations on credit are instituted by the Government and must be conformed with. They are intended to put a brake on rising costs and to encourage the paying off of debts. Please do not ask your merchant to make exceptions.

DEDICATED TO THE FOLKS BACK HOME

EDITOR'S NOTE: Multiplied thousands of young American men have exchanged good jobs and comfortable ways of living for the hardships and sacrifices of armed service, to fight their country's battles. One of these men was Lester Campbell, who resigned as news editor of The Democrat three months ago to enlist in the Naval Reserve. Although he wears Uncle Sam's uniform, Lester is still a newspaper man at heart. So, in the form of an editorial, he sends the following message to the "folks back home," praising them for sacrifices made, admonishing that they must expect to give up even more to win this total war:

THREE MONTHS AGO when this writer left for active service in the U. S. Naval Reserve, he left his "Swan Song" with the editor, and it was published.

Since that time, I have noticed that some activity has been stirred in the minds of Hall Countians, that Hall Countians have "dug in" for the Red Cross, that Hall Countians have "dug in" for many other worthy causes, that Hall Countians have at last realized that the "folks back home" have a place in this war.

I have reason to believe that the folks back home are realizing more every day that this is a "we" war, not a "Let-George-Do-It" affair. We are facing the greatest task our nation, our world, our way of life has ever known, and this task is one of great sacrifice. Even the most insignificant and so-called "unimportant" American has his part to do towards freeing us from the very fangs of an enemy which would sink its teeth into our happiness.

You can do your part in any number of ways. Doing without some of your conveniences is one of the many things. We who were at home only a short time ago had no idea of the tremendous task of preparing for an all-out war. We had no idea of the amount of steel required to build a 30,000-ton battleship, or even a 1,500-ton destroyer. But it takes plenty, and one torpedo can eliminate a ship that required months to build, and one bomb can take thousands of lives.

You at home are going to suffer—you are going to suffer as much as your brothers, sons, or husbands "at the front."

The time to start to help win this war is now. Do what you can to help. We on ship or on the front can't fight without equipment, and equipment can't be built without help from back home.

We don't mind doing our part here. Do you mind doing yours there?

LESTER H. CAMPBELL,
U. S. Naval Reserve.

HALL COUNTY MUST NOT FAIL

YOU KNOW, we've got a big job to do right here in Hall County. Our government has set a quota for us in its War Savings program. The amount of War Bonds and Stamps that we must buy is a lot bigger than what we have been buying. Now, we don't want to fall down on this job while every other county in America equals and exceeds its quota. Every citizen of this county must make up his mind to buy War Savings Bonds and Stamps to the limit in order to meet this quota set for us by the United States Government. Ten per cent, fifteen per cent, yes, and even twenty-five per cent of our incomes must be used for the purchase of War Savings Bonds and Stamps. This isn't a two per cent war. This is a total war that will take a good many billions of our dollars. Now let's get in there and show the rest of the United States that Hall County recognizes the needs of its government. Buy War Savings Bonds and Stamps to the limit, all you can possibly afford. Make your pledge now and double it every month hereafter until Hall County goes over the top in this drive.

"Coupon-clippers" once referred to a man of wealth. In these days of sugar rationing, he may be just a clerk in a grocery store.

Excerpts from the Official OEM Bulletin

Wool Samples Asker

Following up a suggestion made by a New Orleans tailor, the War Production Board has asked that tailors and clothing stores over the country, turn in old wool samples and wool clips to the Red Cross. Trouser cuff clips already are being collected by the Red Cross. H. Stanley Marcus of Dallas, chief of the WPB apparel section, pointed out that contribution of wool samples not only will add to the supply of reprocessed wool but also will increase Red Cross revenues.

Delivery Order Delayed

Effective date of the Office of Defense Transportation order limiting local delivery service has been postponed from May 15 to June 1. When the order goes into effect, it will prohibit more than one delivery per day to any one customer. In addition, local carriers using rubber-tired vehicles must reduce their total mileage by 25 per cent a month, compared with the corresponding month of 1941.

Road Building Allowed

Authority for State, county and municipal agencies to continue their spring and summer road-building programs without special application under the WPB order limiting all construction, has been issued by the War Production Board. Under the authority, only materials which are ordinarily available locally, such as sand, gravel, etc., may be used. No important types of steel may be used, except from stocks already in the hands of road departments or contractors.

Typewriter Rentals

Although new and used typewriters cannot be purchased except with certificates issued to eligibles by local ration boards, any person or business needing a typewriter is entitled to rent a used office machine or a new portable directly from any dealer, the OPA announced.

Bicycle Rationing Delegated

Rationing control over the sale, transfer or other disposition of new adult bicycles has been delegated by the WPB to the office of Price Administration. Sale of such bicycles has been frozen since April 2.

Stove Plans Formed

A plan for production of domestic cooking and heating stoves to meet essential civilian needs and at the same time release the fa-

cilities of the larger manufacturing companies for war work has been put into operation by the War Production Board. A limited number of stoves will be produced by the smaller manufacturers, while larger producers halt manufacture on July 31.

Self-Policing On Sugar

Persons to whom War Ration books were not issued during the recent registration because they had excess supplies of sugar are urged to police their own use of sugar by Max L. McCullough, region OPA administrator. No ration books will be issued to such persons until a sufficient number of ration periods have elapsed during which they might have purchased an amount of sugar equal to the excess they registered.

Colored Sheets Out

To save limited civilian supplies of dyes, the WPB Bureau of Industrial Conservation has requested manufacturers of bed-sheets to discontinue manufacturing and selling colored sheets.

More Bottles, Jars—But Thinner

Orders that will result in thinner and less fancy glass containers, and an estimated increase in production of 30 per cent, have been issued by the War Production Board. Standardizing of certain glass container sizes and weights, by making possible greater production with the same machinery, is expected to help meet the shortage of tin cans and other metal containers.

Scrap Collection Pushed

Lewis C. Huff, former chairman of the Dallas City-County Defense Council Salvage committee, has been named branch manager of the General Salvage Section, Bureau of Industrial Conservation, with an office in the Fidelity Building, Dallas. Plans already are under way for intensification of the drive to collect old metal, rags, scrap rubber and other critical materials throughout the Southwest.

Press Paragraphs

CULLED FROM THE DEMOCRAT'S EXCHANGES

Reader Interest

This is not very interesting. But if you have read this far already you will probably read as far as this: And still not really accomplishing anything at all. You might even read on as far as this: Which brings you to the line you are now reading. After that you are still probably dumb enough to keep right on making a dope out of yourself by reading as far down the page as this.

Opportunity

A tourist, driving away back in the mountains of Arkansas, came on a typical little hill-billy general store, stuck away back in a road corner. It being about noon, the tourist stopped to buy a loaf of bread. As the hill-billy storekeeper was wrapping up the bread, the tourist said to him: "I'll bet Douglas MacArthur would like to have a loaf of bread like that right now."

"Who?"
The tourist said: "Douglas MacArthur."
The storekeeper said: "Who's he?"
The tourist said: "He's the big general in this war."
The storekeeper said: "What War?"
The tourist said: "Skip it. Give me those four tires and a hundred pounds of sugar."

Are You Guilty?

Van Stewart in The Ochiltree County Herald: Some fellows are always too busy to do anything for their community or their country. They seem to think that their own

personal business is so all-fired important. Why not discard that time worn excuse in times like these? You're not fooling anybody. You can just as well admit that you're too darned selfish and un-patriotic to carry your part of the battle on the home front.

The sooner every American that is worthy of the name realizes there is a job for every single one of us in this war, the sooner we will be on the road to victory. Be a real American citizen and do your part whether you're on the battle line or on the home front. Don't be a slacker in your duty to the United States.

Page Tazian!

The Apostle in The Donley County Leader: So we leave off vests, lapels and trouser cuffs for the duration. If Doty Lamour hears a mating call, it will be some bird in a victory suit.

Marital Problem

Tulia Herald: The boys are marrying the Australian girls and the Iceland girls will get a jolt after they get back to this country and their wife announces that she would like to go home for a few weeks to visit mother.

Forecast

Virginia Anderson, Shamrock Texan: There's going to be a great many bossy people running around after the war is over; they aren't going to have anything to boss and it's going to be difficult for them to adjust themselves.

Thousands of people are just committee chairmen: several thousand more are directing civilian war activities having full time jobs; then there are thousands serving as sub-committee chairmen and no telling how many are directing war activities in the countless departments of the government.

When peace finally comes and they retire it's going to be hard for them to keep from directing the activities of their friends and neighbors.

However it may work the other way. These chairmen may be glad to rest from authoritative positions; probably will want someone to tell them what to do.

I'M USING ALL MY OLD GLASS JARS

Lady of the House, here's a way to do your bit at home.

"Put up" fruits and vegetables this year as you never did before! Use those old glass jars. Your government urges it as a major part of home defense—and next winter you'll be happy as a lark when you see all those pantry shelves filled with wholesome vitamin-foods of your own!

Just get out your cookbook (if you need it) and your old glass jars—and then watch the fruit and vegetable counters for the bargains you've waited for. That's the way to serve your country as well as your family—and your Dependable United Gas Service will help you with constant heat, faithfully served at lowest cost.

NEWS about boys in the Service

Editor's Note: This is the 4th of six news releases from Randolph Field, San Antonio, explaining the steps in training combat teams for Uncle Sam's gigantic air armada.

Aerial Navigators
Aerial Navigator training is the most detailed course in the Air Corps curriculum. Where Pilots and Bombardiers spend from 237 to 330 hours in study, Navigators put in a total of 618 hours before they qualify as precision dead reckoning and celestial navigation experts and as officer members of combat crews. Where pilots and bombardiers complete their lessons in from ten to twelve weeks, fifteen weeks are needed to turn out a finished navigator.

Actual flying time for Navigators is 100 hours. Only three hours of that time is devoted to familiarization and four hours to calibration. The remainder is spent in navigation flights—61 hours by day and 32 hours after dark. Two or three Cadet Navigators, depending on equipment, are given instructions simultaneously in each plane.

Aside from 50 hours designated for athletics and military training—to give at least an hour's exercise per day—some 468 class hours are spent in ground school instruction. Ground subjects are divided into three phases, namely, Dead Reckoning Navigation, Celestial Navigation and Meteorology.

Dead reckoning navigation, 203 hours, includes the study of instruments, maps and charts, dead reckoning procedure, dead reckoning problems, preparations and critique, and radio navigation. To assure proper assimilation of the subjects studied, approximately 50 hours of the stated time is spent in examination and review.

For the Celestial navigation portion of the course, 40 of the 200 hours are taken up in review and examination. This is done during regular intervals of the students' work in general theory, time and hour angle, instrument study, star identification, astronomical triangle, precomputed data, celestial navigation procedure, and preparation and critique.

In the study of Meteorology, 9 hours of practical exercises take the place of written tests in the 68-hour instruction period. In this course, comprehensive work is done in theory and principles, weather analysis and weather reports; interpretation of weather maps and discussion of forecasts; ocean meteorology, thunderstorms, tornadoes and icing conditions.

Navigators graduate from the advanced school, get their "wings," and receive Air Corps Reserve Commissions as Second Lieutenants.

noon too. There's a fellow that sleeps by me that's as mean as he can be. Reminds me of Jack Nelson. He and I pick at each other all the time so we put on the gloves and he was so awkward he hit me on the nose everytime, but it was all in fun. I filled his bed with paper last night. I took his picture this morning. If it is good I'll send it to you folks.

I'm sending a picture of a real soldier in this letter, you can show it to everyone. It was taken in Santa Maria.

How's old Punk? I sure would like to see her. I miss her more every day. I guess she's taken charge of everything by now.

I'm getting to where I kinda like army life now. They're really nice to us. I don't think there's a man in this Co. but what would try jumping over the moon if our Co. Commander said so. He's really a fine fellow all military, but has plenty of horse sense with it. You should see retreat every eve, really does something to a fellow and makes him proud of his uniform. Something else about our Co. commander, he really stands up for his Co. and all the men in it. He eats with us every few days. I think just to see if we're getting plenty to eat. He made us all take off our shoes on the hike at noon and ask if anyone had any blisters. Mac is here from E. Co. We're going to the service club. Write as often as possible.

tell me there's a THIRD Thanksgiving!

CALM YOUR FEARS. All's well with Thanksgiving, even though you didn't expect to meet this bird... in the ads... until November.

The turkey is pictured here in advance of the season to dramatize the performance-facts about a great gasoline which is never in advance of the season!

Of course, as always, Phillips 66 Poly Gas is high test without higher price. But more than that, it is the right high test (volatility) for the month in which you buy and use it. Definitely changed every thirty days to match the monthly changes in temperature in your locality.

In December, Phillips 66 Poly Gas is a fast starting motor fuel. In August, it is a cooler summer gas. In May, it's right for between-season weather... always custom-tailored to deliver high mileage and pace-making performance.

Scientific laboratory and field surveys prove that no other gasoline—not a single one—is so completely and accurately matched, all year 'round, to the monthly variations in your weather.

If you wonder what this means in pep and power... in zip and pick-up... find out the facts in your own motor. Try just one tankful and judge for yourself.

Remember, the Orange and Black 66 Shield is High Test Headquarters for car owners... because Phillips is WORLD'S LARGEST PRODUCER of Natural High test gasoline.

CONTINUOUS DOUBLE FEATURE

Reddy Kilowatt Says:

"Whether or not you care about two movies for the price of one, there's another kind of double feature that you—every one—is enjoying."

"It's the electric service you use—a continuous bargain, right around the clock and the calendar. The West Texas home today gets about TWICE or THREE times as much electricity for its money as it did just fifteen years ago."

"In fact, electric service is about the only household item that isn't higher now than even a year or two ago."

"You may not realize that it costs you only about half what it used to—you've added a lot of useful new appliances over the years and you're using more and better lamps."

"The appliances are serving you well—and saving you work. The better light is making it easier on your eyes."

"All this has been made possible by careful business management of your electric company... the same good non-political management that now is serving our country in time of its greatest peril by providing electric power where it's needed, when it's needed."

Women Work— CIVILIAN DEFENSE AUXILIARY NOTES

"No function of government, in time of peace or in time of war, transcends in importance the duty of protecting the health and well-being of our people."—Gov. Coke Stevenson. With this thought in mind a standard Red Cross nutrition course will be offered in Memphis. Miss Maggie Henson, home supervisor of the Farm Security Administration will teach the classes which will begin June 9th. Certificates will be awarded all who finish the course and these are required before a course in canteen work may be taken. All who desire to take these classes please call Miss Frankie Barnes, telephone 255-J, or attend the meeting Saturday afternoon, 2 p. m., at the county court room. Red Cross production wishes to thank Doss Dry Cleaners for pressing those 178 dresses which were shipped last week. The dresses occupied much smaller space and looked mighty nice after they were pressed. Women work? Yes, and it seems to be the busy people who find time to do more. We can think of no people who could be busier than the farm women, raising victory gardens, milking cows, canning, looking after hundreds of little chickens and doing a multitude of other things necessary in a farm home. Yet these women are doing their share of Red Cross production, knitting, sewing, making quilts and afghans. With all of this the ladies of Salisbury found time for something else. Hearts touched by the suffering of the Crowell people, following the storm, they sent a large box of children's clothing and other things, many of which they made. When we town women say: "We do not have time," there is something wrong with our clock—definitely. Our hearts are with our men on the Pacific, who are fighting against odds, and to them Uncle Sam is sending all aid possible. The Red Cross has not been negligent having sent more than \$3,500,000 worth of drugs, and clothing in recent months. Included in this were over 500,000 garments for men, women and children, most of which were made by volunteer workers in the Red Cross chapters. An additional 500,000 garments for children will be sent soon and these have all been produced by chapter volunteers. Perhaps some of these things made here in Hall county have found their way to Russia to aid those suffering people. Let's keep working.

Memphis Girl and Quail Man Married By Baptist Pastor

Miss Alta My Rich of Memphis and Bill Coffee of Quail were united in marriage on Saturday evening, May 16, at 9:30 o'clock, with Rev. S. F. Martin, pastor of the First Baptist Church, reading the ring ceremony. The bride, daughter of Mrs. Minnie Rich of Memphis, wore a blue dress with beige accessories. Miss Neva Rich, cousin of the bride, and E. C. T. Fields of Quail were the only attendants of the couple. Mr. and Mrs. Coffee will make their home in Lubbock. Naomi visited Monday in Clarendon with Miss Iose Walls. Mrs. A. A. Spradlin of Amarillo visited relatives here Sunday.

From where I sit...

by Joe Marsh

Friday night a bunch of us get together over at Bill's place. We wouldn't miss weekly get-togethers for anything. There are seven in the group—Walter, Judge Cunningham, Swanson, Old Doc McGinnis, and young Doc Mitchell. M.D., the government man, and myself. We don't play cards. We don't carry on. We just sit quietly and talk—over a glass or two of beer. We discuss just about anything under the sun—politics, family affairs, music, hunting, fishing, and so on. I mostly like to chew the fat about life's experience and philosophy in these times. I've found mellow beer particularly relaxing. Every one of us has the tangy taste of beer... and then Judge Cunningham is on for everybody.

You mightn't think that just settin' and talkin' would be so much fun. But it is. Particularly when a man begins to get around to the age of reason. Like us. And it's wonderful how a few glasses of good beer help bring out good talk and good sense when men get together. There's something peaceful and friendly and human about beer that brings out the best in a man. They call beer the "beverage of moderation." That "moderation" idea is good philosophy... maybe that's why good beer and good fellowship go together so well. Seems to me there ought to be more of this quiet talk over a glass of beer. It sure straightens out a man in his thinking. Anyhow, men ought to get together and be friends. That's the way we were made. Why not try it more often—all of you?

Spaghetti and Eggs
Furnish Flavorful Meatless Meals

BY WINIFRED CLARK
FOR a bountiful low-cost and balanced dinner, combine hard-boiled eggs, spaghetti and American cheese with a garnish of tomatoes. Your family will enjoy this meatless meal. For a spaghetti dinner with a different flavor, try this recipe: Use 8 eggs, 1/2 package spaghetti, 1 pint milk, 3 tablespoons flour, 3 tablespoons butter, 1/2 green pepper or pimiento, chopped; curry powder or Worcestershire sauce to season, 1 teaspoon salt, pepper to taste. Cook the spaghetti for 10 to 15 minutes, or until tender, in lightly salted boiling water, and drain. Make a sauce of the milk, flour and butter, and add the chopped green pepper or pimiento, and sauce to season. Add salt and pepper to sauce, combine with cooked spaghetti, and pour into shallow baking dish. Break eggs on the spaghetti, and bake in a moderate oven until eggs are set. Serve in baking dish.

"DUST TO DUST"

The Fearless Ky. Commentator.
Women Only
at 2 & 7 P.M.
Men only 9 P.M.

An attraction so fearless and bold patrons frequently faint while watching it in the nation's leading theatres, "Dust to Dust" is scheduled for a two-day engagement at the Palace theatre, here Wednesday and Thursday, June 3 and 4, during its seventh annual coast-to-coast tour.

Records reveal that more than 10,000 persons have fainted during performances of "Dust to Dust," out of a total of more than 3,000,000 to whom it has been shown to date.

Statistics point out the male is the "weaker" sex in this case, because where one woman faints while watching "Dust to Dust," an average of six men will go "by-
bye."

Howard Russell Cox, the noted commentator, known as the fearless Kentuckian who pulls no punches, will appear here in person, on the stage, at each performance.

"Dust to Dust" is a vital, frank and fearless attack upon delinquency and social diseases. It seeks to enlighten the masses to the benefits of moral living by parading before their eyes a motion picture document of evidence that is startling and shocking to put it mildly.

Parents are urged to live closer to their children, and to give their youngsters greater counsel on human relations problems.

"Dust to Dust" has received the praises of the millions who have witnessed it, and has been endorsed by countless universities, educational groups, mothers' clubs, civic clubs, medical leaders and welfare agencies throughout the nation. It has no equal, critics declare, as a social hygiene attraction.

of the boys at the front who needs planes, tanks, guns, which are made of scrap metal. To give them what they need people must act now.

Many people may want to donate scrap directly to the government instead of selling to dealers. To do this, sell to the dealers and donate the proceeds to the U. S. Treasury. Others will want to donate to the USO or Red Cross. This may be done.

When dealers pay from \$8.00 to \$10 per ton for scrap, they have to hire labor to cut and break the junk into pieces, grade it and load it into cars of one grade to the car, pay drayage and freight and get only \$1350 a ton. So the dealer does not get much profit from the transaction. If the dealers were not handling scrap iron, the government would have to hire it done, and it would cost considerably more to do it that way.

pieces, the most needed of all materials. It is illegal to destroy rubber. Gather and store rags and paper. They will be needed soon.

Scrap metal has more utility value than silver and gold, because steel is made from half scrap iron and half pig iron made from the ore. It takes 3600 pounds of scrap iron to make one medium size tank; 50 pounds to make a 50-calibre gun.

Get in the drive and get the scrap at work to keep the Japs from winning.

Shop Training Is Offered by A. & M.

The United States Employment service is trying to find applicants who are interested in machine shop training for a class to be conducted at A. & M. college starting June 5, 1942. Men 18 to 60 years of age, physically able to do this kind of work, who are not immediately subject to Selective service, who have had mechanical experience of any type and who are interested in attending this class should apply at the local office of the United States Employment Service for Texas, 125 Commerce st., Childress, Texas.

A representative of the United States Employment Service may be contacted in the county court room of the Hall county court house each Friday between the hours of 1:00 p. m. and 4:00 p. m.

The class is operated on federal funds provided through the State Board for Vocational education in Austin; therefore no tuition will be charged for the course. The course runs for approximately 12 weeks and the only expense to the trainee will be approximately \$5.00 for text books. Board and room which must be paid by the trainee may be secured in the vicinity of A. & M. college for approximately \$30.00 per month.

Placement reports from other machine shop training classes which have been conducted at A. & M. college show that a high percentage of trainees from these classes have secured employment as soon as they complete the training course.

The standard Red Cross course is a prerequisite to the Canteen course, which is very important at this time, as it meets the need for emergency group feeding in time of disaster such as fires, explosions, floods, windstorms, etc.

Those interested in taking the standard course are urged to register at their earliest convenience. They may enroll by calling the County Welfare office or the Housekeeping Aid project. Only cost of the course will be the purchase of text books, which sell for 35 cents.

A Notice To Our Ice Customers

WE REGRET TO ANNOUNCE that under Federal regulations (Order No. ODT 6), effective Monday, June 1, we will no longer be able to make the special ice deliveries and extra calls that we have gladly made in the past as a convenience to our customers. In compliance with the order, we can continue to make only regular daily scheduled deliveries.

You can help our country save vital rubber supplies, and help us to keep you well supplied with ice, by anticipating your requirements and making arrangements to receive your deliveries in full at scheduled times. Your deliveryman will keep you informed about the regular schedule.

I will help save tires by ordering ice for delivery on the regular daily schedule

We are sorry that circumstances make it impossible for us to continue to make deliveries with limitations as in the past, but we know you understand the necessity for conserving tires and that you will be glad to cooperate until victory is won and we can again resume unrestricted deliveries.
