"THE BIG DAYLIGHT STORE"

500,000 HAS BEEN EXPENDED IN WPA PROJECTS OVER TEXAS

SAINT ANTONIO, June 4.—Sponsors and the federal government expended \$3,404,638 on 756 projects first reported completed from the 20 Works Progress Administration districts, State Administrator H. F. Drought disclosed today. At the same time he estimated that more than 1,500 projects have been finished and said he expected to receive completion reports on the remainder shortly. Federal expenditures of \$2,338,396 on these completed projects were closely followed by contributions by sponsors of \$1,151,239.

"Counties, cities, independent school districts and state departments, actively sponsoring these projects, have displayed an eagerness to assist in our work," said Drought. "Their large financial participation indicates a gratifying faith in the integrity of this program."

The state administrator said more than 3,000 projects have been operated throughout Texas in providing employment for 120,000 persons, former occupants of the state's relief rolls, which now are largely dissipated.

"It is significant," Drought continued, "that \$1,445,073 of WPA expenditure on these projects went to workmen in the form of semi-monthly guaranty wage pay checks. This is a gratifying figure of the analysis. Our job has been that of keeping this stream of small but important checks moving steadily into thousands of homes in order that destitute Texans might be able to provide for themselves and their families.

"Stimulation of trade by the purchase of materials and equipment and the construction of permanent, worthwhile public improvements are essential by-products of this program, but we have at lost sight of the fact that the thing of employment to persons formerly on relief rolls is our fundamental objective."

Next largest WPA expenditure was on completed projects, \$97,794, was for equipment used by workmen. About one-third of its equipment cost was in the form of wages to truck operators, many of whom came from Texas relief rolls, it was pointed out. Materials were procured at a cost of \$301,536.

Non-relief workers, including project superintendents, field workers and other supervisory personnel, received \$183,667, the analysis discloses.

Travel and other incidental project expenses amounted to \$15,324.

Why Gulf makes a new Gas for June

JUNE—MONTH OF BRIDES . . . and the month when summer officially starts, Gulf is on the job with a new summer gas—because unless your gasoline is "Kept in Step with the Calendar" it can't give you the best mileage . . . part of it blows out of your exhaust unburned, wasted. Every gallon of That Good Gulf you buy in June is specially refined for summer driving—so that all of it goes to work, none of it goes to waste. Try a tankful!

"Kept in Step with the Calendar" THAT GOOD GULF GASOLINE

"Much Relieved," Says Lady After Taking CARDUI

Although they may be very active and apparently in good health, many women, at certain times, will do well to take Cardui. It may relieve some of the nagging symptoms that are so annoying every month.

Mrs. F. T. Foster, of Greensburg, Ky., writes that she has "derived great benefit" from Cardui. "Before taking Cardui, I was weak and extremely nervous, and suffered from sleeplessness. This made me tired and worn in daytime. My back ached continually. Being an active woman, I did not want to continue in this condition. Having heard a great deal about Cardui, I found, after just a few bottles, I was much relieved. I continued taking Cardui and was so much helped."

Of course, if Cardui does not benefit you, consult a physician.

Any erroneous reflection upon the character, standing or reputation of any per-

STATE AD VALOREM TAX REDUCED

THAT EVER-PRESENT tax bugaboo occasionally
receives a set back, as was the case when Texas
reduced the State ad valorem tax from 77 cents to
62 cents recently, and, according to Governor James
V. Allred in his speech at the Childrens banquet given
in his honor Tuesday night, the State will have a cash
balance of more than three million dollars in all of
the operating funds, except the Confederate Pension
fund at the end of the current fiscal year.

"This cash balance of three million dollars," the
Governor said, "will be maintained even after the in-
crease of the scholastic per capita apportionment
from \$17.50 for the current year to \$18.50 by the
State Board of Education. The \$18.50 per capita
apportionment is the largest ever made by the State
of Texas. It will affect the destiny of about 1,588,000
scholastics.

"During the present administration about three
million dollars will have been paid for the Centennial,
and this will be repaid several times over in the
sale of gasoline to outsiders. Every debt of the avail-
able free school fund has been paid and appropri-
ations for rural aid have been increased by two mil-
lions per year.

"Since September of last year \$2,731,000 has been
set aside for sinking fund and interest on the State's
bonded indebtedness. The State owes at this time
\$13,537,750 on the twenty million dollar relief bonds
issued in 1933.

"Taxpayers have been saved approximately four
and three-quarter million dollars by the slash in the
State ad valorem rate from 77 cents to 62 cents.

"Two million dollars are in the State treasury to
be paid to the needy aged people of Texas, and these
people will receive their first checks July 1."

In commenting upon the unusual demands made
by the people upon both state and federal govern-
ments, Governor Allred said: "We all realize that
during the past five years both the state and national
governments have been called upon to assume fi-
nancial responsibilities entirely new to the sphere of
governmental responsibilities. Human suffering,
destitution and want appeared in every state in the
Union during the great depression."

Tax payers always welcome an announcement to
the effect that their taxes have been reduced. With
State, County, School and City governments oper-
ating at minimum costs the over-burdened tax pay-
ers may finally recover and do business at a normal
pace.

FARMERS ARE WORKING

TRAVEL IN ANY direction—north, east, south or
west—and one will see farmers busily engaged in
plowing and planting. On each farm may be seen
from one to half a dozen teams or one or more trac-
tors turning the soil, planting seed or plowing grow-
ing crops.

The bountiful supply of moisture last week had
the effect of making Memphis look like a deserted
town; but the inhabitants of the town are not down-
hearted. They know that Hall County has the promise,
if moisture means anything, of the greatest crop
yield in years.

Farmers and business men alike are highly en-
couraged over the outlook for better times just
ahead.

PADUCAH HEARS GOLD MEDAL BAND

THE MEMPHIS Gold Medal Band, headed by a few
Memphis citizens, led the parade at Paducah
Thursday last week and received the plaudits of
Paducah citizens.

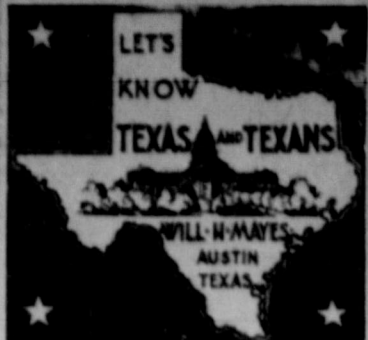

Governor James V. Allred was the speaker that
day, and praised the Memphis band very highly—
this being the fourth or fifth time the band has
played for him during the past year.

The visit of the band secured the good will and
neighborly feeling of the people of the neighboring
town. It also stirred Memphis citizens to the extent
that many of them are now ready to get in the har-
ness and do some needed civic work.

NEWSPAPERS ARE CIVILIZING AGENCIES

AMONG SOME PEOPLES in remote parts of far
countries every man's actions are under suspicion
... On the Arabian desert the merchant and traveler
are met on approach to camp by armed outposts...
In the march of civilization such practices are gradu-
ally disappearing, largely as a result of the influ-
ence of communications among people... Were it not
for papers, which in serving as a medium for trans-
mitting thought, it is safe to say the entire world
would not yet be emerged from its former state of
primitive civilization.—Anon.

Q. Why were the early missions established in remote parts of Texas?

A. Building of the missions was
inspired primarily by the zeal of

miles distant, was constructed a

than three years.

were started a little later at Mat-
agorda, Old Casey, Union Hill and
other places.

Q. For whom was the Chisholm Trail named and where did it run?

L. M. Sipe Springs.
A. There is some confusion as
to the name of the "Chisholm" or
"Chisum" Trail. It is fairly well
agreed that it was named for
Jesse Chisholm, who had a trading
post at Council Grove near present
Oklahoma City, opened for his
convenience from Red River Sta-
tion to his post. The Texas ex-
tension ran from near San An-
tonio, through San Marcos, Austin,
Salado, Acton in Hood county,
Fort Worth and north to Red River
Station. John Chisholm, who at that
time had a ranch in Denton County
and sold cattle to the Confed-
erate Army, drove one or more
herds north over what became
known as Indian Territory as the
"Chisholm" Trail. He drove cat-
tle from Colorado and Caldwell
counties to his Denton County
ranch, probably using the south
end of the Chisholm Trail from
Austin north. In 1862, he moved
his headquarters to Home Creek,
Coffman County, driving from
there and creating a feeder trail
with the Chisholm Trail, this ad-
ding confusion later existing as to
the name of the main trail. There
were numerous other trails con-
verging at and south of Austin for
South Texas cattle herds going
north.

FLUSH OUT 15 MILES OF KIDNEY TUBES

Medical authorities agree that your
kidneys contain 15 miles of tiny tubes
or filters which help to purify the
blood and keep you healthy.

If you have trouble with too fre-
quent bladder passages with scant
amount causing burning and discom-
fort, the 15 miles of kidney tubes
may need flushing out. This danger
signal may be the beginning of nag-
ging backache, leg pains, loss of ap-
petite and energy, getting up nights, psy-
ching, puffiness under the eyes, head-
aches and dizziness.

If kidneys don't empty 3 pints a
day and so get rid of more than 15
pounds of waste, poisonous matter
may develop, causing serious trouble.
Don't wait. Ask your druggist for
Doan's Pills, which have been used
successfully by millions of people for
over 40 years. They give happy relief
and will help to flush out the 15 miles
of kidney tubes. Get Doan's Pills at
your druggist.

F. W. FISCHER OF TYLER

For Governor
MR. FISCHER SAYS—
A TAX ON NATURAL
RESOURCES WILL

- 1. Pay Old-Age Pensions in full.
- 2. Take Tax Burden Off Land.
- 3. Give Teachers More Pay.

"A new source of revenue means a new deal for Texas," he says. He thinks prosperity can be returned through taking the tax off of land and putting it on oil, gas, sulphur, etc. This new source of revenue would provide means of helping schools, highways, the agricultural interests and the Texas consumers of gasoline who are now having to pay a tax of four cents a gallon.

For constipation, take a dose of Black-Draught as soon as you realize the condition you are in.

"If I am bilious, have a headache or a cold, I take a dose of Black-Draught at night," writes Mrs. R. D. Thaxton, of Lexington, Ga. "If I have a bad feeling after meals, I take just a pinch of Black-Draught. It relieves me. I recommend it very highly—a good family medicine. I give my children Syrup of Black-Draught. I find both good."

Just try it! Follow the directions carefully and you'll probably learn why Black-Draught is so popular.

A LETTER.
To the People of Hall County:

In 1930 and in 1932 I ran for county judge of Hall County and lost by so small a margin, if I remember correctly, that a change of fifty votes, in either election, would have won me the nomination. Each of these races was made at a personal campaign expense of less than eighty dollars. This analyzed, no one would fail to be very proud of the showing made. For this fine support by the people, I have always been very grateful.

Owing to a lack of money to travel around, I am compelled to rely on friends everywhere to speak to their own friends in my behalf. If I could, I would visit all at their homes for it is a courtesy that I would like to give every person. With steady help from friends, I have real assurance of success.

All my life I have been a student of public affairs and of real public service. My spare time especially for the last ten years has been devoted to this purpose more than to any other.

As a result of this sustained study, plain facts drive me to the conclusion, now as heretofore, that government burdens should be made as light as possible. Private enterprise should be kept in the limelight and to the front; government should assume a place well in the background. However, as long as there is unemployment through no fault of the unemployed, government—local, state and national—should not shrink its duty as private agencies cannot carry the load. Yet we must never forget that all the relief any good man wants is to have a chance to help himself. Both government and people should join in helping him do this.

In other words, give us all opportunity to play life's game freely while government sees only that we play according to fair rules. Rules adjusted to our new age, looking forward—not backward—for challenging tasks, for sources of inspiration and for progress.

I say, "looking forward," for no man has yet touched any but the most primitive frontiers of life. New triumphs lie ahead.

These things are mentioned because I believe "looking forward" is a necessary best habit and qualification of a man who proposes to serve the public. I know the meaning of this demand.

Therefore, the essence of my whole platform may be stated in these words: "If elected, I pledge to serve with a view to Looking Forward, far ahead, to the future and best good of all the people, in every official act."

On this basis I submit my race to Hall County people and ask their favorable consideration.
