# SOCIETY NOTES

## Mesdames Jones And Foxhall Hostesses At One Of Season's Loveliest Parties

One of the loveliest affairs of the season was the party given by Mesdames Oren Jones and Frank Foxhall at the Country Club Saturday afternoon. The occasion was an outstanding one for its elaborate appointments and unique arrangements and could appropriately be called a Pirate party.

The large reception room at the club house presented a beautiful scene, the color note of black and red was used at every vantage point to emphasize the pirate motif. A table covered with an imported roman-stripe cover was the center attraction and pictured a scene of unusual originality. A treasure chest, filled with jewels, was on the table and on each side tall black tapers in silver holders were burning. Navajo rugs were also used in the decorations.

Betty Dale West and Nell Walker, dressed as Pirates, received the guests at the door, who were then seated at tables arranged for bridge.

Mrs. Raynes West made high score and Mrs. T. J. Dunbar second high. Each table had as a centerpiece dolls to represent Pirates and high score at each table received the doll favor.

The color note of black and red was further emphasized in the lovely refreshment plate that was served.

## Auxiliary And Legionnaires Meet In Joint Social

In carrying out the Auxiliary's activity of providing a joint social once each month with the local Legionnaires and their wives, the second joint social was held at the Legion Hut Friday evening, October 16.

Upon arriving guests were ushered into the Legion's spacious hall which had been attractively decorated to represent "Halloween in all its Witchery." As some of the guests were appropriately costumed, and all of them wore masks their real identity was not revealed until they were asked to register in the guest book. Then they were conducted to the reception room which had been made to represent the interior of a Witch's Castle, and whom should they meet but the "Old Witch" herself, seated near a large iron pot. The glowing flames cast a ghostly palor over the room, and as she stirred in the pot with her "Magic Broomstick" the guests' fortunes were told.

Mesdames Glenn Thompson and Dean Morgensen conducted the games of bridge and "42" which likewise proved "tricky" in as much as the players received written instructions as to how they should proceed with the "bid and play" of their hands. The losers of the first game were presented clever Halloween caps as consolation, but the climax came when the winners of the next game were informed they must exchange their high score for their opponents low ones, and the height of excitement was reached when the losers of another game were presented with lolly pops.

At the conclusion of the games, the lights were dimmed and the guests were again surprised with a very clever feature, "A unique Witches Dance."

Marshmallows mounted on toothpicks and gay faces painted thereon, hailed the guests as they were served pumpkin pie on picnic plates, and the "Ole Tin Cup" reminded them of the familiar strains of "You're in the Army Now." Forty-six guests enjoyed this social of witchery and fun.

A number of members of the young people's department of the Methodist church visited "Grandma" Johnney and "Uncle" Sam Montgomery Sunday evening instead of having their regular services at the church. A devotional was given and several songs were sung by the group.

## CYCLONE BEATS TURKS IN ONE SIDED GAME

Chas. Flanery Stars For Memphis; Other Players Show Up

The Cyclone of Memphis High School swept through the Turks of Turkey High School here Friday afternoon to win their first conference game by a score of 45 to 0. Coach Nolan Walter used practically every man of his squad with every combination working with equal perfection.

The playing of Charles Flanery was outstanding. He made many long runs starting practically every run for a reverse play. He called a flawless game at quarter and played consistently on the defense. His ball carrying was the highlight of the game.

Walker Totes Ball  
Gordon Walker, first year man, who played much of the game at halfback, turned in a great game. Like Flanery, he started most of his plays from a reverse and skirted ends for long gains. He is fast developing into one of the best ball carriers on the local squad.

The playing of Captain Young of Turkey was very commendable. Although he failed to do much on the offense, his defensive game was outstanding. Armstrong and Yarbrough were outstanding in the Turkey backfield.

### Campus Chatter—

(Continued from page 3)

good pep squad would be of a good football team. We think the students should think over and come out with some real pep.

More scandal: Boyd Dixon was seen in town after ten o'clock the other night.

Treats for the ladies: V. L. McGlocklin's new suit; B. F. Shepherd's knickers; Gordon Walker's new permanent; Jack Sittion's skinned nose; George May's new tie; and Clifford Stewart's smile.

We have decided, after deep meditation, that making the honor roll is not so hard after all. All you have to do is to make an average of 90 in each subject.

We note with interest the conclusions gathered by Sam S. Cowan's physics class in regard to the wonderful discoveries they have made concerning the Grand Canyon.

Their study of gravitation has considerably relieved our minds as we were uncertain as to how the Grand Canyon started. What we want to know now is, "Has Einstein's Theory of Relativity anything to do with creation or formation of the Carlsbad Cavern?"

### Cyclone Beats—

(Continued from page 3)

Catches Long Pass. J. W. West, Cyclone end, turned in a good performance. He snagged two passes for long gains.

Late in the game, Stewart heaved a long one that West grabbed while surrounded by enemies. Melton played a good defensive end.

Captain Curtis Bourland watched the entire game from the sidelines due to an infected leg that kept him from practice all last week.

Good on Defense. Clifford Stewart was perhaps the outstanding defensive player of the fray.

The Cyclone started scoring early in the first period and kept up throughout the game. They compiled a total of 32 first downs to Turkey's nine.

Having won their first conference game, the Cyclone has only to defeat Shamrock to win this section and the right to meet probably Clarendon in a bi-sectional game, according to Coach Walter.

PLAY BY PLAY. Captain Bourland won the toss and elected to defend the north goal. Sanders kicked off to the Turkey 13 yard line and it was returned to the 23 yard line.

Stewart stopped the first play after a gain of two yards. Turkey made a first down on two more tries at the line.

Three threats at the line netted three yards and Turkey punted 45 yards and set on Memphis 15 yard line.

Flanery made 12 yards and a first down on a reverse play. Stargel and Sanders kicked off to the Turkey 13 yard line and it was returned to the 23 yard line.

Stewart stopped the first play after a gain of two yards. Turkey made a first down on two more tries at the line.

yards and Flanery made it first down. Stargel carried the ball out of bounds for no gain. Walker reversed left and made 9 yards and May took the ball out of bounds for no gain, and then hit the line for five yards and a first down.

A Turkey pass was incomplete and two threats at the line lost a yard. A punt was blocked and Stargel recovered for Memphis on Turkey's one foot line. May hit the center of the line for a touchdown, the extra point being good.

Cyclone To Play Estelline Eleven Here Thursday. The Memphis High School Cyclone will meet the Estelline High School Cubs in a non-conference game on the local gridiron Thursday afternoon at 3:30 o'clock.

The game is expected to be a hard fought one due to the keen rivalry between the two schools. The Cyclone, however, are doped to win since their victory over the Hedley Owls and the Cubs loss to the same team by a score of 13 to 0.

Coach Nolan Walter will be faced again this week with the task of finding suitable substitutes to replace injured regulars. George May, fullback, may not be able to start the game due to an injured hip.

Captain Curtis Bourland, who was kept out of the line-up last week due to a leg infection, may again witness the game from the sidelines. His leg has not healed as expected, according to the coach, and he may be kept out of play until the Shamrock game.

If May is unable to start, his place will be filled by Kenneth Oren or Gayle Greene. The remainder of the starting line-up for the Cyclone will be about the same as that of last week, Coach Walter stated.

### Lakeview Youth Killed When Hit By Truck Friday

Funeral services for Olin Stephens, 15 year old son of Mr. and Mrs. A. C. Stephens of Lakeview, were held at the First Baptist church of Lakeview Saturday afternoon at 3:30 o'clock with the pastor, Rev. Will Nelson, in charge, assisted by Rev. Oscar Apple, Methodist pastor.

Young Stephens was killed late Friday night on the Friendship road when hit by a truck driven by Homer Hall. Hall and Alfred McElroy, occupants of the truck, stated that they did not see Stephens, whose car had broken down, until he turned on his lights as he approached.

Seeing the lights, they pulled their truck to the side of the road to miss the parked auto and did not see Stephens who apparently was attempting to flag them to stop when he was hit.

Truck Turns Over. The truck was turned over in the ditch. Stephens was brought to town immediately for medical attention which proved of no avail. Pallbearers were: Keith Beavers, Truitt Johnson, L. D. Hoover, Allen Stafford, Willard Melton, Julia Hope, Winifred Middleton, and H. Gardenhire.

Those in charge of the flowers were: Misses Tummie Lee Morgan, Dorothy Anderson, Mildred Mitchell, Vina Scott, Tommie Lou Luttrell, Rebecca McCann, Lucille Wyatt, Louise Ferguson, Georgia Lee Payne.

Survivors are his parents, Mr. and Mrs. A. C. Stephens; one sister, Aleta Fay; grandparents, Mr. and Mrs. W. E. Boren, Lakeview.

## On The Level—

(Continued from page 1)

Some seek to question his belief in God, but whatever his belief was is no concern of ours. Rather, we are concerned with the new strength he gave to immortality, the freshness he gave to life, the invigoration he imparted to research and the lessons he contributed in living. Let those who will be fools blind themselves in folly, but those who have a thinking mind will never seek farther than his own genius in their measure of the man.

A funeral dirge and then the end—no, such is not true of Edison. He lives on and on—a man equal to his opportunities, greater than his environment—his name carries with it a luster that the centuries will not dim nor time contaminate. Such is genius; such is immortality; such is Edison—a man who found life good and living sweet.

## PLACE OF ATHLETICS TO BE DEFINED

CLASSROOM teachers, as well as school executives and athletic coaches, will be given an opportunity to define the place and part that athletics should have in our public high schools at the annual convention of the Texas State Teachers' Association to be held at Amarillo beginning on Thanksgiving Day. Resolutions dealing with high school athletics were recently approved by the State Executive Committee at a meeting held in Fort Worth and will be offered for adoption at the Amarillo convention.

Resolutions commend the work of the University Interscholastic League and approve athletic contests "as having wholesome educational values when properly conducted by school authorities." Certain practices are condemned "as being contrary to the purposes for which our public free schools are maintained, and others as violative of high ethical ideals and correct moral standards."

Among practices condemned are the dismissal of schools for athletic games, charging of excessive fees by football officials, proselyting and subsidizing of high school players, and wilful failure of school work by athletes in order to prolong athletic participations.

The resolutions recommend that local school boards limit the time to be devoted to athletics and where practicable that games be played on Saturdays and holidays. The Interscholastic League is urged to adopt the "eight semester rule," which would bar contestants after four years of high school attendance, and the "one year transfer rule," which would bar athletes for one year after changing from one school to another.

## OF INTEREST TO HUNTERS

HUNTERS who each year plan on taking a trip into the wilds after "big game" will be interested in the announcement received in Memphis this week to the effect that R. A. Peart of Eagle Pass, Texas, has obtained certain privileges from the Mexican Government which will make hunting in the Southern Republic more accessible to the many who would like to go there each year on hunting expeditions.

Mr. Peart states that he has a concession to form a hunting and fishing club allowing all members to hunt or fish in the State of Coahuila. The period of this contract is for ten years and over three million acres of land are included in the grant. Permission has also been obtained from the War Department allowing all members to take their own guns and ammunition into Mexico. Mr. Peart is also representative of a bonding company which issues bonds on vehicles traveling into Mexico and has added facilities from the Immigration Department and Custom House so that all members of the club will be able to get their passports, car bonded, and so forth, in less than half an hour. Those interested are invited to communicate with Mr. Peart at Eagle Pass.

## THE UNEMPLOYMENT SITUATION

DESPITE the various committees enlisted in the work of trying to take care of the unemployed in this country, unemployment continues to be one of the prickly thorns in the side of the Republican Administration. President Hoover has appointed and appointed. In fact, at the present time, he has enough committees and commissions to start an army in Mexico and still nothing of a tangible nature has been accomplished.

We realize that the job is a mammoth one and one that cannot be done in a hurry. At the same time, it seems to us, that the Government itself could go a long way in helping work out this problem without committees and commissions if the building of public works was speeded up and some of the red tape dropped from the roster of governmental procedure.

If the unemployment situation is serious now—and it is—what will it be when winter opens in earnest? Our local situation is a problem of itself. It is with this in mind that The Democrat has been hammering away for several weeks past in an effort to get all available workers in the cotton fields. The city and county governments have already stated that no money would be forthcoming this fall and winter to care for those who are unemployed and unless work is obtained while it is still plentiful, the cold months promise to hold "lean pickings" for those out of jobs.

We hope that something definite will come of President Hoover's unemployment committees, but we have hoped so long that the President would do something that would really be of aid in breaking up the depression that we have reached that stage when our hopes, such as they are, are rather forlorn.

## A RENTAL LIBRARY FOR MEMPHIS

WITHIN the near future, it is the intention of The Democrat to inaugurate a rental library. We have long felt the need for a library of this nature in Memphis, and after making exhaustive investigations elsewhere have reached the conclusion that such a library here will meet a well felt need. It will not be the purpose of the rental library to compete with the Public Library in any manner, but books not available there may be rented from our library at a very nominal cost.

There will be no membership fee and the price for renting books is as low as is consistent with good business and the price the books are purchased for. Books may be kept for any period of time by paying the daily fee. We expect to stock popular copyrights, some best sellers and a few non-fiction titles that we believe will prove of interest locally. An announcement detailing all needed information relative to the rental library will appear in an early issue of The Democrat.

## HIT OR MISS

a column by T. R.

Someone told me the other day that Carl Harrison had been telling people about a wise reply I made to a teacher's question in the second or third grade. I can't figure why in the world Carl would be telling such an impossible thing on me and how in the world he ever thought of such an incident to tell about. He knows good and well that I never told such a thing to a teacher, for if I had, I would have received one more whipping than I did get. But to even the situation, I'll tell you about an affliction Carl had once and about his curing it. The story was told to me by a local druggist who said he knew it to be a fact.

It happened that Carl went into one of the drug stores several weeks ago and complained to the druggist that he could not hear out of his ears. He said for the past five or six days he noticed that when some one was talking to him, he could not understand what was being said, and he noted particularly that he could not hear his mother when she would call him to his meals. The situation was becoming serious and Carl was growing weaker and weaker from missing so many of his meals.

The druggist looked into his ear and after removing several ears of corn, told Carl that his hammer was not hitting his anvil hard enough to cause the stimulus to register in his cerebral hemispheres. Of course, Carl did not understand what the trouble was, but realized that his condition was serious. He asked the druggist what to do, and he told him he had some medicine which would restore his hearing immediately. The cost of the remedy was two dollars and Carl put the money on the counter and took the medicine. He wanted to get enough to eat and his condition had to be cured before he could hear the dinner gong ring.

After using the medicine for a week, Carl found that his hearing had become normal and he heard the dinner gong sound three times instead of once. He was so elated over having his hearing bettered that he wrote a letter to the doctor that had discovered this famous remedy. The letter, so the druggist said, went like this:

Dear doctor,  
After having used your famous remedy, I can truthfully testify that it is the most wonderful discovery of the century. I could hardly hear before taking one bottle of it. I was unable to hear the calls for my meals and did not know when to eat. My weight declined from 145 to 100, and I had no sign of life. I was nervous, restless and was not able to sleep at night.

But doctor, after I took your ear medicine I heard from Uncle Ben in Australia. I recommend it to any one who is suffering as I did.

I hear tripple now,  
CARL HARRISON.

State of Texas,  
 County of Hall, ss.

Before me, a notary public in and for the state and county aforesaid, personally appeared William Russell Clark, who, having been duly sworn according to law, deposes and says that he is the publisher of The Memphis Democrat and that the following is, to the best of his knowledge and belief, a true statement of the ownership, management (and if a daily paper, the circulation), etc., of the aforesaid publication for the date shown in the above caption, required by the Act of August 24, 1912, embodied in section 411, Postal Laws and Regulations, printed on the reverse of this form, to wit:

**THE "HIDDEN QUART"**

**That Stays up in the Motor and Never Drains Away**

OTHER OILS DRAIN AWAY FROM MOTOR PARTS BACK INTO THE CRANKCASE

GERM PROCESSED OIL NEVER DRAINS AWAY FROM VITAL WORKING PARTS

**PROVES ANY OIL WOULD BE BETTER OIL IF GERM PROCESSED**

Other good oils lubricate working parts after the motor starts and oil is pumped from the crankcase through the motor, which takes several minutes. But Germ Processed Oil stays up in your motor at all times and lubricates working parts safely during the starting period... when almost half of all motor wear takes place! A "hidden quart" stays up in your motor and never drains away. Only Germ Processed Oil can give you this sure protection at all times, because only Germ Processed Oil can penetrate and combine with metal surfaces... an exclusive characteristic called "penetrative lubricity." So you can see... any oil would be better oil if Germ Processed!

But only Conoco makes Germ Processed Oil... for Conoco owns exclusive patent rights for North America. Don't be contented with oil that lacks the germ process. Stop at any station displaying the Conoco Red Triangle and fill with Conoco Germ Processed Motor Oil. Save your motor from wear... keep it young and powerful!
