

Water Works Job 85 Pct. Completed

Dirt Work Finished On Powell Creek, Gravel Being Moved In

In another 10 weeks the word "complete" may be written across the PWA docket describing the half million dollar Big Spring waterworks improvement program.

Dam 65 Pct. Finished

As of Saturday, Otis N. Key, resident PWA engineer inspector, estimated the entire job at 85 per cent of completion. Some parts were so near finished that they were being figured them. The work on two dams stood about 65 per cent complete.

Dirt Work on the Powell Creek dam is finished and gravel is being moved in for a six inch blanket to underlay rock rip-rap which has already been quarried.

Although the work on the Moss Creek has been slowed pending completion of core trench puddling around the conduit, a controlled spillway, a tremendous volume of dirt has been moved on the South end of the structure.

Recently the amount moved daily has dropped off to around 3,000 cubic yards from about 8,000 cubic yards when the base of the dam was being stacked.

One emergency spillway on the Moss Creek dam has been excavated on the north side of the lake site, and another is being cut at the south end. Concrete work on the controlled spillway is complete with the exception of the conduit shaft.

In place are two big pumps at the damsite. The 80 hp. pump unit at Powell Creek dam, smallest of the two, will have a fluctuating discharge of between 350 and 1,000 gallons per minute. The Powell Creek pump, with a lesser lift and a shorter distance will have a 1,500 gallon per minute capacity. Thus, taking the minimum figure through the Moss Creek pump which must lift the water to town, the daily volume of water for Big Spring would be around a million and a quarter gallons.

Morey and Morey, sub-contractors on the pump station job, have finished all piping installation with the exception of starting switches. On the filtration plant in the eastern edge of the city, all work is finished except the calibrating of the registers, installing two dry feeders and the placing of a tie rod over the building by Lydick roofing Co. of Abilene.

Should presidential approval of an amatory application for \$46,000 on the PWA waterworks project be forthcoming immediately.

SAYS ALLEN'S NAME FORGED

BATON ROUGE, La., July 8 (AP)—States Attorney General David M. Ellison said tonight the name of the late Governor O. K. Allen clearly had been forged on \$118,000 bonds used by the resigned Louisiana State University president, Dr. James Monroe Smith, now imprisoned here in the Parish jail, in his fantastic market speculations.

REVIEWING THE BIG SPRING WEEK

BY JOE PICKLE

One of the more difficult things for us at any rate, is to review something that didn't happen. Hence, glancing back over the news items for the past week, it appears the pickings are pretty slim. About the only thing that interested, or rather worried everybody was the weather.

A fair sample of the weather offerings for the past five months occurred during the week. Small sections of the county received beneficial showers and experienced damage from wind and hail. Others, including Big Spring, got the wind and dust but no rain. At that, the acute drought areas were whittled further and general crop prospects were slightly improved.

In Big Spring and over West Texas bank figures reflected a fairly stable condition. Deposits showed a negligible gain of \$9,997 in reaching \$4,166,000 and were held up in line with several other cities in this area. But loans jumped by \$241,000 indicating more money going into private channels. A condition most of the other places could not boast. Still, local banks were as solid as ever with cash jumping by \$54,000 and total.

Governor Puts His Signature On New Road Bond Bill

Counties To Share In Funds; No Action By O'Daniel On Tax Remission Or Appropriations

AUSTIN, July 8 (AP)—The road bond bill estimated to enrich county coffers by \$150,000,000 in the next 25 years, providing succeeding legislatures do not alter the policy, was signed today by Governor W. Lee O'Daniel.

Still unrevealed was his decision on a general tax remission proposal which would donate more than \$3,000,000 annually in state ad valorem taxes to the counties for five years, beginning in the 1940 tax year.

The governor has asked the attorney general for an opinion on the legality of the tax donation proposal which remits to the subdivisions one-half of the state ad valorem imposed for general fund purposes. The contribution could be applied to the same uses.

Still on the chief executive's desk were the major appropriation bills, earmarking more than \$77,000,000 for state operation during the biennium beginning September 1.

These include the departmental bill, more than \$25,000,000, for several days the subject of numerous conferences between Governor O'Daniel and department heads who have been asked what items they could most conveniently sacrifice to the veto pen and the interest of state economy.

The governor may contemplate whacking a healthy slice from each department's budget. Unverified reports are that the reductions might range up to 10 per cent.

O'Daniel, who frequently compares the operation of state affairs with those of a business corporation, has been eyeing askance a \$17,000,000 deficit in the general fund. Putting two and two together, some observers speculate his observations meant the big figures on the red side of the ledger pressure reduction in the departmental bill and possible veto of general tax remission. The lion's share of appropriations come from this fund and the remission proposal would plunge it deeper into the red.

Other big time appropriations on which the governor has until Tuesday midnight to act are state supported colleges, \$17,767,000; eleemosynary institutions, \$14,361,270; judiciary, \$4,844,578; rural school aid, \$13,651,654; and vocational school aid \$1,934,664.

The road bond measure is filed. See BILL SIGNED, Pg. 7, Cl. 3

Ex-Prosecutor In A Plea For Accused Son

PHOENIX, Ariz., July 8 (AP)—A gray-haired, dignified former prosecutor, who took the witness stand in an effort to save his son's life, testified today the boy, Robert Burgunder, told him an unnamed "second party" shot and killed two automobiles salesman.

Over and over again the father, in an emotional and dramatic recital, emphasized that his son denied killing Jack Peterson and Ellis M. Koury.

The second party, who, Burgunder said, his son refused to name was waiting on the desert when the youth arrived with the salesman at gun point.

The other car was waiting," Burgunder quoted Bob as telling him. "The salesman was made to get out of the car."

"Peterson threw his pocketbook on the ground and was tied up. Koury was told to get to his feet. "The gun then was given to the second party. While Bob was getting ready to tie Koury the shots were fired."

The shootings of these men were so unnecessary, so cowardly, so useless," the father testified.

"I drove the salesman's Ford car away," the elder Burgunder said his son continued. "The other car came too. The car was put back where it came from. The other man got in the car with me and I took him where he wanted to go."

The father, facing the jury and speaking earnestly and with suppressed emotion, testified that he pressed his son repeatedly to identify the purported companion.

"Dad," he said the son replied, "you know that in the reformatory there was a code of honor not to snitch on one another. When the man got in the car we made a pledge that if one was caught he would not tell on the other."

Preliminary Flood Control Survey Is Underway

PRELIMINARY study of flood control problems in and around Big Spring were continuing Saturday under the direction of Simon Fresse, Fort Worth, member of the firm of Fresse and Nichols, employed jointly by the city, county and T. & P. Railway company to make a complete survey.

Fresse spent the latter part of the week studying conditions on Elbow creek and Mustang draw, which forks into Elbow before it pours into Sulphur Draw about seven miles west of Big Spring. Excessive flood waters usually originate in these branches.

Other preliminary work is being done within the corporate limits of Big Spring with the view of making an exhaustive survey to ascertain the most feasible manner for controlling "flood" flows.

Conferences Are Called On WPA 'Strike'

By The Associated Press

A nationwide walkout of WPA workers continued Saturday, while the American Federation of Labor and Work Projects administrators arranged separate meetings for Wednesday to discuss this unprecedented protest against longer working hours for persons on relief.

William Green president of the AFL, summoned his union presidents to Washington "to organize all the political and economic strength we possess" to battle the new 100-hour-a-month relief law.

The new act dispenses with union wage scales which previously prevailed for skilled workers, and under which many of them worked 40 or 50 hours a month for the same pay now allowed for 100 hours.

All state WPA administrators were called to Chicago on the same date, July 12, for a two-day conference. The administrators generally have disputed AFL claims that 100,000 men are on strike.

In New York, U. S. District Attorney John T. Cahill advised the WPA administrator, Col. Brehon Somervell that any complaints of interference with WPA operations would be laid before a grand jury. Cahill said the law "speaks for itself."

He quoted it in part: "Any person who knowingly by means of any fraud, force, threat, intimidation or boycott, or discrimination on account of race, religion, political affiliations or membership in a labor organization, deprives any person of any of the benefits to which he may be entitled... or attempts to do so, or assists in so doing, shall be deemed guilty of a felony."

Col. Somervell had intimated his belief that the law might apply to picketing, to refusal of dealers to deliver materials to WPA projects, and to sympathy acts by non-WPA men.

Trash Pick-Up Survey Made

Preliminary steps are being taken here toward the institution of a free garbage collection service in Big Spring.

Surveys are being conducted to ascertain the most practical type of equipment to be employed by the city labor, trucks and maintenance, according to E. V. Spence, city manager.

Several cities are being contacted to learn what type of truck body has proven most satisfactory in the collection of refuse in those places. The city is considering only enclosed bodies. However, to insure sanitary collection, prevent the rubbish from blowing and also from becoming a fly catch.

Likewise, a study is to be made him of the type of garbage can the city will request of patrons when the service is started. However, those who have enclosed cans will be permitted to use them until they are outmoded.

The fiscal budget of the city included an appropriation of \$6,470 for extra labor, trucks and maintenance of the trucks in connection with the provision of the free garbage collection.

It was considered possible that the service may be initiated here within two months.

PLANS ADVANCED FOR GROUP HOSPITALS

GALVESTON, July 8 (AP)—Plans for the organization of Group Hospitalization Service of Texas, Inc. were discussed at a meeting here today of a committee of the Texas Hospital association with Dr. J. H. Groschloe of Dallas, president and chairman of the board.

A decision on the cities in which six branch offices of the service will be located will be reached at a meeting of the board of directors tomorrow. It is expected that the service will start operations next week.

Bryce L. Twitty of Dallas, recently named administrator, has recommended location of the branch offices at Houston, San Antonio, Austin, San Angelo, Lubbock and Amarillo or Pampa provided certain conditions are met by those cities.

Pressure Is Turned On For Neutrality

Administration At Work To Bring Bill From Committee

WASHINGTON, July 8 (AP)—Administration lieutenants engaged in a desperate effort today to round up sufficient votes to bring the neutrality bill out of the foreign affairs committee, but there was no sign they had gained any ground.

Both Senators George (D-Ga.) and Gillette (D-Iowa), regarded as the two "doubtful" senators on the committee, refused to commit themselves on how they will vote when the committee meets Tuesday to consider reporting a bill.

George told reporters, however, that it appeared to him "highly improbable" that there would be any action on neutrality in this session.

"If the statement which was issued yesterday in behalf of 34 senators can be accepted as a statement of fact and it is true that many senators subscribed to it then it seems to me no action this session of congress is highly improbable," he said.

The statement, pledging its adherents to oppose repeal of the present law's embargo on arms shipments to nations at war—which the administration has set as its chief objective—was issued by Senator Johnson (R-Calif.), after nearly a score of senators, including democrats, republicans and Senator La Follette (Prog-Wis) had met in his office.

The situation within the foreign affairs committee was reported tonight to be: Ten members opposed to the administration's program or to reporting any bill; eleven ready to go along with the administration; George and Gillette, uncommitted.

Defeat Is Blamed On Continued 'Bad Luck'

By ANDREW BERDING

WASHINGTON, July 8 (AP)—In retrospect, administration officials are laying their defeat in the house on the neutrality issue to three pieces of "bad luck."

The first was a speech by Georges Bonnet in which the French foreign minister was reported as saying there would be no war if the United States would declare in advance that it was coming to keep silent.

The second was the fact that had Long said he would appoint David McConnell, a brother of Mrs. Huey P. Long, to succeed Shaw.

Leche resigned shortly after announcing a scandal at Louisiana State University which since has widened into a federal, state and county investigation reaching throughout the state. The affair has resulted in arrests, resignations, dismissals and charges against prominent persons, headed by Dr. James Monroe Smith, former president of the school, now jailed here on charges of embezzlement.

Three federal postal inspectors today joined the increasing number of investigators brought to See LOUISIANA, Pg. 5, Cl. 1

Seek Westex Cotton Lab

WASHINGTON, July 8 (AP)—A request that the agriculture department include an item in its next budget for a cotton ginning and fibre laboratory in West Texas was laid before Secretary Wallace today by a group of Texas congressmen.

Wallace took the request under advisement. The group, led by Representative Mahon, is seeking a laboratory to supplement the work done at the Stoneville, Miss., laboratory. They contend the Stoneville institution can not serve West Texas fully, because of peculiar atmospheric conditions which delay work at times during the ginning season. Part of the proposed laboratory's job would be to seek a way of overcoming these conditions.

In calling upon Wallace today, the committee, which consists of Mahon, Poage and Gossett, followed up previous requests for the laboratory, although they had not previously asked for a budget item.

Mahon said he believed no new legislation would be required, because the laboratory could be established under the same legislation that created the Stoneville institution.

MURDER CHARGES ARE DISMISSED

RATON, N. M., July 8 (AP)—Murder charges were dismissed today against Harold Cameron of Clovis, in jail here nearly two months in connection with an investigation into the 9-year-old disappearance of Ray Sutton, veteran prohibition agent.

Cameron's mother and his brother, Wayne, were previously released following an exhaustive investigation into the revived prohibition day mystery by federal and state officials.

Undersheriff Byrch Telford said authorities were still holding Allen Loshro, former Raton man arrested in Washington state and returned here on a warrant charging Sutton's murder.

More German Youths Called; Britain Issues New Warning

By The Associated Press

A heat wave, a French campaign for more babies and another British warning against aggression Saturday gave Europeans something to ponder over the week end.

Germany bore the brunt of the heat, which sent Nazi officials down to the cool of the countryside, but didn't interfere with military activities.

Notices were posted ordering young Germans, born at the end of the World war, mustered for six months of labor service and two years of military service which every able-bodied Nazi male must undergo. The next service period begins Oct. 1.

In neighboring France, Premier Daladier studied measures designed to reverse the nation's declining birth rate. He was expected to use his dictatorial decree powers shortly to put into effect proposals which would provide financial rewards for big families, train youths and give them outlets in colonies.

GARNER SIGNS MONETARY BILL

Vice-President Garner, with Sen. Alben Barkley (D-Ky.) looking on, signs the monetary bill which enables the treasury to resume silver purchases and continuing President Roosevelt's power to devalue the dollar.

WASHINGTON, July 8 (AP)—Administration lieutenants engaged in a desperate effort today to round up sufficient votes to bring the neutrality bill out of the foreign affairs committee, but there was no sign they had gained any ground.

Both Senators George (D-Ga.) and Gillette (D-Iowa), regarded as the two "doubtful" senators on the committee, refused to commit themselves on how they will vote when the committee meets Tuesday to consider reporting a bill.

Another Louisiana Official Goes Out

Governor Long Calls For Dismissal Of State Conservation Dept. Chief

BATON ROUGE, La., July 8 (AP)—Without warning or explanation, Governor Earl K. Long announced today he had called for the dismissal of Dr. J. A. Shaw, director of the mineral division of the state conservation department, who has control of pro-rata production and issuance of drilling permits.

"I think my action speaks for itself," was the governor's only comment.

Last Thursday he said he had found, during his first ten days in office that a precise existed whereby "certain state officials" bought supplies from concerns in which they themselves were financially interested, and that these officials sometimes had brought "pressure" on private citizens and firms to patronize their concerns.

William C. Rankin, conservation commissioner, whom Long ordered to dismiss Shaw, would not comment. It was the first dismissal of a major jobholder since Long succeeded Richard W. Leche as governor.

Long said he would appoint David McConnell, a brother of Mrs. Huey P. Long, to succeed Shaw.

Leche resigned shortly after announcing a scandal at Louisiana State University which since has widened into a federal, state and county investigation reaching throughout the state. The affair has resulted in arrests, resignations, dismissals and charges against prominent persons, headed by Dr. James Monroe Smith, former president of the school, now jailed here on charges of embezzlement.

SCHOOL REVENUES OVER \$10,000 FOR MONTH OF JUNE

Current and delinquent collections for June have netted Howard county schools \$10,291.51 in tax revenues, it was announced by the county superintendent's office Saturday.

However, only three districts—Midway, Elbow and Hyman—shared in the \$205.29 delinquent payments. Current collections for local maintenance totaled \$5,800.87 and current collections for interest and sinking funds amounted to \$1,225.36. Delinquent collections put \$168 for local maintenance and \$17.29 for interest and sinking fund purposes.

NAVY BLIMP BUCKS STRONG HEADWINDS

VINEYARD HAVEN, Mass., July 8 (AP)—The coast guard dispatched two cutters and a power lifeboat into Buzzard's Bay tonight after receiving reports the navy blimp K-1, with eight aboard was flying low over the water, bucking severe headwinds in a lightning and rain storm.

Although residents here feared the blimp was in danger after a lighthouse keeper at West Chop reported the ship "apparently" was in distress, Commander Robert H. Grayson said there was "no cause for alarm." The blimp had been in communication with the training school throughout the day.

FAST DELIVERY ON BIRTHDAY FLOWERS

TEMPLE, July 8 (AP)—Speedy 1939 style: J. T. McCowan placed a lot of carnations on a Pan-American Clipper about to leave Honolulu July 4.

At San Francisco the flowers were transferred to an American Airliner for Fort Worth, whence they were carried to Temple via Santa Fe railroad, arriving at 2 a. m. July 7. The blossoms will reach here by a birthday present by 1939-style Margaret McCowan from her father, two and a half days and 3,000 miles away in Hawaii.

The trip was so fast the flowers arrived in Temple ahead of the birthday Sunday.

Uvalde Has A Temperature Top Of 112

No Relief In Sight; Rest Of Nation Bakes; 47 Deaths Recorded

By The Associated Press

A parade of maximum temperatures 100 degrees and above continued in Texas Saturday with the top of 112 at drought-ridden Uvalde.

The forecast held small prospect of relief as the lingering heat wave sent thermometer readings to record-breaking highs.

Hottest In 30 Years

Uvalde's figure was the hottest there in 29 years. A 110 mark at Wichita Falls was the highest in three years. Groesbeck had 110.

Ellaboro, with 108, experienced its hottest weather in three years and earliest like temperature in 23 years. San Antonio's 107 degrees was an all-time high, beating the 106 registered June 21, 1935.

Langview's 107 degrees was a seasonal high. The official maximum at Austin was 105, hottest in 14 years, and four degrees below

TOP OF 102 HERE

Big Spring didn't share the dubious distinction of setting a new hot weather record Saturday, as did other Texas cities, the DCC weather bureau reporting a maximum reading of 103. Sweating folk downtown wondered if the city area wasn't several degrees hotter than the weather out on the airport hill. Highest temperature recorded here this season was a 105-degree mark in May.

low Austin's all time record. The airport there reported 108 degrees. Travis county was gripped by its worst drought since the 1924-25 crop year.

A 105 degree reading at Fort Worth set a new high for the year and all time high for July 5. The forecast there for Sunday promised some relief, with a maximum near 95.

Dallas sweltered in a mid-afternoon temperature recorded at the U. S. weather bureau as 103 degrees at 3 p. m. The airport weather bureau reported 106 degrees at 2:30 p. m. for the day's maximum.

Houston's 103.7 was the hottest since August 5, 1909. Temple recorded a new seasonal high of 104, the seasonal record was broken the third successive day at Bealton.

Officers Slay Bank Bandit

SIDNEY, Neb., July 8 (AP)—The guns of a special officer and a police chief cut down one bank bandit suspect and sent his partner racing from town with a hostage in a gun battle here during the Saturday afternoon shopping rush.

Tough ranchers, state police, federal agents and other officers scoured a new seasonal high of 104, the seasonal record was broken the third successive day at Bealton.

The suspect killed was struck in the head by a bullet fired by Special Officer Harvey Vinea, garage employe who had been sworn in by Police Chief S. H. Moore when the latter received a report the Earl Morgan suspects might be heading for Sidney.

The second man kidnaped Glen Oldenberg, a filling station attendant, and raced to freedom across the broad plains of the Nebraska panhandle.

Officers said the dead man had \$28 in his pocket and a bag he carried contained \$9,000 to \$10,000, the amount taken earlier today by two bandits who held up the Fort Morgan bank and menaced 15 persons.

Oldenberg, the hostage, in a 23-year-old Sidney resident, unmarried. No word was heard from him here tonight, and fear was expressed that he may have met harm at the bandit's hands.

Aviation Adventure Drama At Ritz, Carry Grant And Jean Arthur Starred

'Only Angels Have Wings' Plays Sunday And Monday

Hailed as "1939's greatest screen adventure" by preview critics, Columbia's new Howard Hawks production "Only Angels Have Wings" has its Big Spring premier at the Ritz theatre today and Monday.

Cary Grant and Jean Arthur, appearing together for the first time, are starred in the new film, said to be compounded of tropical romance and thrilling adventure in South America.

Advance information concerning the production calls this Hawks creation the greatest of the famous producer-director of popular pictures has ever filmed. Neither time nor expense was spared in the filming and some of the most elaborate sets ever conceived and built in Hollywood were used for all except the flying sequences.

"Only Angels Have Wings" concerns a commercial aviation field operated in a little South American banana port by Cary Grant. His pilots are a desperate crew of devil-may-care adventurers willing to fly any old crate with wings into any sort of weather. Jean Arthur, a show girl whose troupe has broken up farther south, arrives on the to Panama. She falls in love with Grant and decides to stay. But Cary, a confirmed philanderer, turns his attentions to Rita Hayworth, the wife of Richard Barthelmess, one of his newly arrived fliers.

Thomas Mitchell as a "punch-drunk" aviator, victim of many a crackup, and Sig Ruman as the Dutchman, amiable old Hollander who runs the combination hotel and bar-room of the town as well as the airport, have outstanding roles in this thriller. Important parts, too, are played by Noah Berry, Jr., Allyn Joslyn, Donald Barry, Melissa Sierra, Victor Kilian, Vernon Dent and Pat West.

SCENES FROM ADVENTURE DRAMA PLAYING AT RITZ

Pictured above are a series of scenes from "Only Angels Have Wings," in which Cary Grant and Jean Arthur are co-starred, and which has been described as one of the season's greatest adventure photoplays. It deals with the experiences of aviators at a commercial base in South America. The picture is at the Ritz theatre today and Monday.

'Summertime Concerts' Among New Programs On KBST; 'Listen, Ladies' To Be Inaugurated On Tuesday

"Summertime Concerts," under the direction of the celebrated Josef Cherniavsky, will be heard on Station KBST for the first time Sunday, replacing "My Lucky Break."

"My Lucky Break" will return to the air in the fall. The new program will be heard at 4 p. m. through the facilities of MBS-TSN. Musical selections will include Aubert's little-known "Mazurka," Chopin's "Two Waltzes," the Introduction and Scherzo from Mendelssohn's cantata, "Hymn of Praise," and two excerpts from "The Damnation of Faust" by Berlioz.

SINGIN' SAM

On the Singin' Sam program Monday noon, these songs will be presented by Singin' Sam and chorus: "I'm An Old Cowhand," "I Paid For The Lie I Told You," "Oh Miss Hannah" and "Goin' Home."

DRAMATIC SKIT

The KBST dramatic staff, recently re-organized, offers an amusing comedy drama titled "A Romantic Frankenstein" on Monday evening from 8:15 to 8:45. Other dramatic

skits will be heard from the station soon.

FOR WOMEN

"Listen, Ladies," a new half hour program especially for women begins on KBST Tuesday morning at 9 o'clock. Highlight of the program will be the calendar of social affairs occurring in Big Spring and surrounding cities, conducted by Mary Whaley, society editor of The Herald. Also included will be flashes from Hollywood, News From Behind the Mike, and other features of interest especially to the feminine audience. Interspersed with music to brighten the morning, "Listen, Ladies" will be scheduled over KBST twice weekly, Tuesdays and Thursdays from 9:00 to 9:30 a. m.

MORNING HYMNS

John Hayes, Texas Christian University senior and soloist with the T. C. U. glee club, will sing the "Morning Hymns" program over Station KBST at 8:15 a. m. Sunday. The program, originating in TSN studios in Fort Worth, will be handled by Hayes each Sunday. Frank

ONE GORILLA, THREE MONKEYS

Those chiller-thriller stories come in for some kidding in an opus called "Gorilla," and in which the Ritz Brothers contribute their particular type of screwball comedy. They turn detectives to hunt down treacherous gorilla which is threatening to spread destruction. The picture is at the Lyric Sunday and Monday.

'Hurricane' In New Showing At Queen

Already screened in two of the city's theatres, Samuel Goldwyn's "The Hurricane," proves its popularity by achieving a third booking here. It will top the Queen program for today and Monday.

Climaxed by an amazing spectacle that has rarely been equalled by the camera, the glamorous tale of love and difficulties in the tropics has for its chief attraction the violent storm scenes of the hurricane which provides the title. All the fury of wind and sea are depicted in breath-taking fashion.

In the dramatic saga of the South Sea, written by Charles Nordhoff and James Norman Hall, the story of "Mutiny on the Bounty"—are Dorothy Lamour, she of soaring fame; Jon Hall, who achieves a starring role in his first film; Thomas Mitchell, C. Aubrey Smith, Mary Astor, Jerome Cowan, John Carradine and Raymond Massey.

Proceedings are initiated by a view of a marriage on the island of Manakuru, which lies south of Tahiti, of the native sweethearts, portrayed by Miss Lamour and Hall. Their happiness is shattered when, upon the young man's return to his duties, as chief mate on a sailing vessel, he is imprisoned for striking a white man.

For five years he tries to escape from the ghastly prison, finally succeeding and returning to his wife. The happiness is brief, however, for the island governor orders his return to prison.

The search for Hall is at its height when Nature strikes with the savage hurricane. Unmindful of his own safety, the fugitive goes to Manakuru to warn the inhabitants.

In the fury that follows, he plays a heroic part, and the hurricane scene provides a fitting finish to his many difficulties.

CONSCIENCE HURTS, HE RETURNS PRIZE HE DIDN'T WIN

BLUEFIELD, W. Va., July 8 (AP)—The conscience of Marvin "Skeeter" Douthat, Roanoke college basketball star, wouldn't let him sleep after he collected \$1,000 as a theatre prize so he returned the cash. "Since I really had no ticket, I do not feel the money rightfully belongs to me," Douthat sighed, "and I couldn't sleep. You can't, you know, when your conscience aunts."

It seems "Skeeter" was standing near the theatre when a friend rushed up, shouted "you've won the money," and dragged him to the box office where another pal crammed a ticket in his hand. Then the basketball player joined the crowd inside and claimed the money. Except for a ticket to the bank prize performance, "Skeeter" was eligible for the award. He had registered during a previous attendance at the theatre.

RITZ BROTHERS Mix Laughs With Thrills

The Ritz Brothers have turned detectives and you are promised the time of your life watching these three half-wit Hawks chasing tracking down a weird man-killing beast in "The Gorilla," the 20th Century-Fox screen version of the famous stage hit, which breezes into the Lyric theatre today and Monday.

The action takes place in a house that is a maze of sliding panels. The time is something close to midnight—in the midst of a raging thunderstorm. The host, Lionel Atwill, has just received a note from "The Gorilla" threatening him with murder at midnight!

Into this scene wander those super-detectives, Earlean, Mulligan and Garry—the Ritzes, of course—and from then on anything can happen—and it does!

It would be unfair to spoil the fun-and-fright feast that awaits you by revealing the story or the "chilliarious" developments that ensue when the Ritzes begin stalking the beast, which has been described as "so ugly that when snakes get drunk they see it!"

The Ritz Brothers are ably aided and abetted in this merry mystery by Anita Louise, as Atwill's niece; Patsy Kelly, as the panicky maid-of-all-work; Bela Lugosi, as the sly butler; Joseph Calleia, as a skulking stranger; Edward Norris, as Anita's sweetheart; and Wally Verano, as a roving sailor.

Now you can run down to the Lyric and pick it up from there.

This hair-raising piece of hilarity is a credit to Production Chief Darryl F. Zanuck, associate producer Harry Joe Brown, Director Allan Dawn and Rian James and Sid Silvers, who turned the Ralph Spence play into glorious movie material.

Novel Marine Exhibit To Show In Railroad Car Here Next Sunday

Heralded as a great educational exhibit, the Mammoth Marine Hippodrome, will appear in Big Spring for one day only, Sunday, July 16th. "Colossus" (pictured above) a 68-ton sea monster, over 55 feet long, is one of the feature attractions. This monster of the deep has created a furor throughout the United States and Canada, where it has been exhibited.

Accompanying the exhibit are numerous veterans of many years experience in the whaling business, including Captain David Barnett, who has spent the last 40 years sailing the "seven seas," whose lectures furnish one of the highlights of the exhibit.

Another outstanding attraction

with the exhibit is "Sea-Tiny", the living mermaid, known the world over as one of nature's strange living enigmas. Sea-Tiny has become a mecca of interest at the exhibit as she is a puzzle to scientists and a despair for doctors. Other interesting attractions include little penguins from the Byrd's south pole expedition, Freida Pushnik, 17-year-old child marvel, Prof. John Lynch and his London Flea Circus, John Sales, the original "Pop-eye" the sailor, the headless girl, and 100 other strange oddities.

The exhibit, on a specially constructed railroad train will be located on a side track near the T. P. depot, 1st street, and will be open to the public from 11 a. m. until 11 p. m.

is the explanation of their successes and failures? How did some of them rise to high levels of influence, service, while others misused their opportunities and defeated God's purpose? What opportunities beckon to present-day Christians? How shall we rise to the level of victorious living? What judgment may we expect if we fail to accept and use the gifts God has invested in us? These are problems of vital interest to our spiritual lives.

The lesson presents a great character with a great opportunity and along with his chance, a great temptation. Is Jeroboam strong enough to grasp his opportunity and overcome his temptation? We shall see.

"Sacrament" is the subject of the lesson-sermon which will be read in all Churches of Christ, Scientist, on Sunday, July 9.
The Golden Text is: "Create in me a clean heart, O God; and renew a right spirit within me" (Psalms 51:10).
Among the citations which comprise the lesson-sermon is the following from the Bible: "Jesus saith unto them, Children, have ye any meat? They answered him, No.

And he said unto them, Cast the net on the right side of the ship, and ye shall find. They cast therefore, and now they were not able to draw it for the multitude of fishes" (John 21:3, 6).

The lesson-sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "The nature of Christianity is peaceful and blessed, but in order to enter into the kingdom, the anchor of hope must be cast beyond the veil of matter into the Shekinah into which Jesus has passed before us" (pages 40 and 41).

Alice Marble Defeats Briton To Complete US Wimbledon Sweep

Kay Stammers Crushed In 25 Minutes

Pair With Riggs To Win Mixed Doubles; McNeill Cops

By SCOTTY RESTON

WIMBLEDON, Eng., July 8 (AP)—Alice Marble, golden-haired girl from San Francisco, beat Kay Stammers for the all-England women's singles tennis championship today and when she walked off the center court to meet Queen Mary, Britain's tennis experts agreed that there at last was another Suzanne Lenglen.

Playing with that relentless rhythm of all true champions and covering the court like some great inhuman golden doll, Miss Marble simply swept the beautiful English girl right off the court in 25 minutes and led the American team to one of the greatest triumphs of international sport.

The young American team not only won all five Wimbledon titles as they did last year but even took the men's consolation tournament to make it six. The only title they didn't win was the women's consolation singles.

Here's how they did it:

Bobby Riggs, Chicago, defeated Edward Cooke, Portland, Ore., 2-6, 6-4, 6-2 (played yesterday).

Miss Marble defeated Miss Stammers, England, 6-2, 6-4.

Riggs and Cooke defeated Frank Wilde and Charles Share, England, 6-3, 3-6, 6-3, 0-7.

Riggs and Miss Marble defeated Wilde and Lino Brown, 6-7, 6-2.

Miss Marble and Mrs. Sarah Fritzy Fabyan of Cambridge, Mass., defending champions, defeated Helen Jacobs, Berkeley, Calif., and Billy York, England, 6-1, 6-0.

Don McNeill, Oklahoma City, defeated J. Van Den Eynde, Belgium, 3-6, 6-2, for all-England plate (consolation).

Despite the American sweep, British critics are convinced the only champion who can be compared with past Wimbledon winners is Miss Marble.

Eight times Helen Wills Moody came over here and won this Wimbledon title but never in all these victories were British experts willing to concede she was as good as Lenglen.

Tonight they were saying that Marble "plays like Lenglen—only harder."

North Is All-Star Victor

By FELIX R. McKNIGHT

SAN ANTONIO, July 8 (AP)—The old folks from up North, loaded with miserly pitching and lusty baseknocks, finally cracked the jinx and put the southern division upstarts in their place, 7-2, before 9,000 Texas league all-star game fans here tonight.

Only four hits rattled off southern bats, and two of them were confined to the infield, as creaking veterans of the northern division fooled the youngsters with slow curves and bulls-eye control.

In contrast, the northerners, paced by Fort Worth's Clyde McDowell, old University of Texas star, frolicked at the plate for a total of 14 hits. McDowell banged out four hits, including two doubles, while Jim Levey of Dallas, who finished his major league playing years ago, put the big punch of the night across with a home run off Vallie Eaves, the Shreveport kid who was decidedly ineffective tonight.

The southerners were never in the ball game after the fifth inning, failing to get men on the sacks. Only four "Confederates" were left on bases for the nine innings. On the other hand, the Northerners, while doing all right with their bats, left 11 men stranded on the pillows that could have meant more grief for the South.

The line score: North101 020 012— 7 14 0 South001 001 000— 2 4 0 Greer, Olsen, Brillheart, Touchstone and Dickey, Cronin; Eaves, Cole, Manders, Brecheen and Swift, Tighe.

Shining One Cops Upset Victory In Hollywood Derby

INGLEWOOD, Calif., July 8 (AP)—Shining One ran to a spectacular upset victory in the \$25,000 Hollywood derby today.

Overshadowed by supposedly more illustrious 3-year-olds, Shining One came from behind and grabbed the \$18,275 winner's purse by a length and a half over Wednesday Call and Counterpoise, while the co-favorites in the mile and one quarter event, Viscounty and Teddy Kerry, finished with the also-rans.

Never far off the hot pace set by Bubbling Boy and Wedding Call, Shining One suddenly burst into the lead as the field of nine rivals rounded into the turn for home. Jockey Jackie Kestrop was in the saddle and piloted the Circle M Ranch's star over the route in time equalling the track record set by Seabiscuit—2 minutes 3 4-5 seconds.

The race favorite, Roman Hero was declared out of the derby two hours before post time. The Massachusetts Stable's pride was found to have sustained a quarter-crack of the right front leg, Eddie Arcaro brought her by plane to ride Roman Hero, switched to Vaino George Raft's black gelding, and finished fourth.

LEADING PIN TOPPLERS

Crowned champions in the ladies bowling league, which recently completed its schedule, were the Howard County Refinery leggers, pictured above. Left to right, standing, are Bobbie Laster, Ouida Hendricks and Tracy Hadlow Williams; lower row, left to right, Nell Hall and Stella Flynt. Mrs. Flynt earned a prize as high individual scorer for a single game, hitting 299, while Mrs. Williams held high average with 142.

CINCY REDS BEATEN BY HOME RUN BY CHARLEY ROOT, 7-6

CINCINNATI, July 8 (AP)—Charley Root, 40-year-old relief pitcher, hit a home run in the ninth inning to give the Chicago Cubs a 7 to 6 victory over the Cincinnati Reds here today. The Reds tied up the game with a five run spurge in the eighth. Gleason also hit a homer for the Cubs and McCormick hit for the circuit with a mate aboard.

Chicago010 050 001— 7 10 0 Cincinnati000 001 050— 6 14 1 Paseau, Root and Harnett; Grisson, L. Moore, Thompson, Johnson and Lombard.

Devis Smash Ford, 36 To 2

Ben Daniel's Anderson Devils set up a season's scoring record May football league play at the city park Friday evening by swamping Big Spring Motor, 36-2, in a four inning game.

The Devils tallied 13 runs in the initial stanza, had another big round in the third when they counted 11 times. Leamon Bostick led the 21 hit attack with four bingles in five trips while Lefty Wells and Alton Bostick had home runs, both in the big second. Lonnie Evans limited the Motorists to four hits and did not give up the runs until the fourth round.

The race favorite, Roman Hero was declared out of the derby two hours before post time. The Massachusetts Stable's pride was found to have sustained a quarter-crack of the right front leg, Eddie Arcaro brought her by plane to ride Roman Hero, switched to Vaino George Raft's black gelding, and finished fourth.

Billy Capps snapped out of his batting slump to lead an effective seven hit mace assault off Howard "Lefty" Parks as the Big Spring Barons defeated the Borger Apaches, 3-2, here Saturday evening.

Capps blasted out a mighty triple in the seventh round and came all the way home when Short, Borger middle gardener, failed to pick up the lemon. Then in the ninth, after doubling, the Baron hot corner specialist scored the winning run on Barney Barnhill's foot of Johnny Johnson's ground ball, making a sensational slide to the plate after sprinting all the way from second. His hook slide beat the throw-in by half a stride.

The unexpected ninth inning break gave Jodie Marek his 14th victory of the campaign and marked the second time this season that the Barons have beaten Parks by one counter. Ed Bahr three weeks ago beat the wrong-hander in a great mound duel, 1-0.

Still In First

The victory kept the high riding Barons in first place in WT-NM league standings. Marek, after pitching five innings of great ball, weakened in the sixth but rode out the storm somehow and finished the game. The invaders counted a run in the sixth when Bell scored on an infield drive by Ernie Potocar and in the ninth when Manager Jimmy Norris walloped a mighty home run.

The Barons chalked up their first run in the fifth when Pat Stacey doubled and Manager Tony Rego employed the squeeze play. The runner, who had gained third on right fielder Hendrix's wild throw, wheeled over the dish on Don Wolf's bunt.

BROOK WINS SECOND TO SPLIT WITH GIANTS

BROOKLYN, July 8 (AP)—After they had come from behind to win the opener 3 to 3 the New York Giants saw a similar uprising fall one run short in the eighth inning of the nightcap and the Brooklyn Dodgers won, 3 to 2, to split a doubleheader before 38,000 fans.

Big Spring Ace Saves Game For Bahr

Strikes Out 5 Men In Row As Big Spring Wins, 7-4

By HANK HART

Jodie Marek, who debuted in a Baron uniform as a relief twirler, went back to his old role Friday night to save a game for Edson Bahr as the Big Springers defeated the Borger Apaches, 7-4, in the Baron plant.

The ex-grinder, who is the league's leading fliker with 15 victories to his credit, choked off a Borger uprising in the eighth round and whirled through the ninth with the most amazing sub-hurling ever witnessed in league circles. Taking over with one out and two on in the eighth, Jodie calmly struck out Benny Franklin and Bahr short to abolish the rebellion, then retired Jack Bell, Kirby Jordan and Ernie Potocar on strikes in succession in the ninth exit. In earning his five strikeouts, Jodie permitted only Potocar to get a piece of his fast one. Potocar, on his second swing-pitch, fouled the ball high over the stands.

Bahr had pitched fairly creditable ball up until that time, giving up but six hits and two runs through seven innings but Potocar greeted him with a single to begin the eighth, hitting Bahr's change of pace ball into left field. Jimmy Morris worked a pass to the initial ball and Lefty Danner contributed a single into center field to count a run. Johnny Tysko struck out but Barney Barnhill walloped a line single through second base to send Morris home and put the tying run on the paths. After Al Berndt's passed ball had advanced both runners, Jodie appeared to quell the outbreak.

Wrong Time Tysko, always a tough cookie for the locals to handle, gave up nine hits as he went the route for the invaders but he erred in grooving them to the wrong side. Bobby Decker and Don Wollin had three licks each. Two blows by Al Berndt accounted for two of the locals' runs.

Too, Tysko made the mistake of pitching to Pat Stacey in the seventh chapter. Pat connected with a belt high pitch and put it over the right field wall. The blow, coming with Decker aboard, was his 19th circuit ply of the season. Successive errors by Short and Danner and Berndt's well spanked single gave the Barons two runs in the second and a lead they never lost. After Barnhill had counted for the Apaches in the third, the Big Springers added two more in

WATER SAFETY HINTS

BY Bob Primm

During the past several days there has been several electrical storms in and around Big Spring. As most of the swimmers know the local municipal swimming pool is enclosed with a steel fence and on the inside of the fence stand 11 lamp posts. Along with this, there are 11 diving standards, ladders which extend into the water. All of these are very good drawing power for electricity.

However, many have asked, "why do we have to get out of the pool when lightning occurs?" Remember, always get out of the water when it starts to lightning.

Record Field Expected To Compete In Munny's West Texas Junior Meet

A record number of entrants are expected to assault the Munny course Wednesday for the qualifying round of the second annual West Texas Junior Golf tournament, a meeting in which all youths 21 years of age and under are eligible to compete.

Last year 75 competed for the laurels ultimately captured by San Angelo's Jack Johnson. Pro Harold Akoy predicted recently that that mark would be bettered considerably. Local interest is at a peak and several West Texas cities which last year were not represented will dispatch teams here.

The local contingent's chances for a championship will be considerably strengthened if Wimpy McGuire, a finalist last year, decides to try again. Wimpy has not been practicing but indicated recently he would probably enter into competition again.

At the present Big Spring's chances of holding onto the trophy will hinge mainly on Jimmy Brigham, hard hitting Texas Tech student, who has been working exceptionally hard for the meeting.

Others given a chance at the hunting are Ed Wilkerson, a straight hitting mite, and Johnny Burns, both caddies at the Munny. Both have been turning in good rounds of late. Lubbock is expected to supply several threats while Stanton, Midland as well as Angelo will have prominent representatives on hand.

Players may register on qualifying day. Entry fee is \$1 which entitles the out-of-town players free use of the city's dormitories being put in order at the city park. Players need only to supply their bedding.

The 6,253 yard course is not exactly made to order for any of the youngsters' game but it is going to favor the straight hitter as much as it does the long one.

Accuracy in tee shots and the long irons will especially be required on the 471-yard "dog-leg" five and the 539-yard thirteenth.

Six of the course's 18 holes are of 400 yards or better. Par for the layout is 36-35-71.

PGA TOURNEY DUE TO GO ON DESPITE 'BIG-NAME' PROTEST

NEW YORK, July 8 (AP)—Pending a final vote by the 11-man executive committee, it appeared likely tonight that the annual championship of the Professional Golfers association will start on schedule tomorrow morning at the Pomonok country club, Flushing N. Y., with the first 18-hole qualifying round.

The 51 pros who signed a petition demanding that former champion Denny Shute be permitted to play despite the fact that he sent in his dues two days late remained adamant. Without those 51, who include Gene Sarazen, U. S. open champion Byron Nelson, Ralph Guldahl, Sam Snead, Morton Smitth, Jimmy Thomson, Dick Metz, Henry Picard and Jimmy Hines, this wouldn't be a tournament.

To make good the \$20,000 guarantee to the sponsors, there has to be a tournament, and there has to be a tournament with names, therefore, even though the last executive committee vote was 8-2 against Shute's participation, there appeared little reason to believe the tourney would not go off as planned.

This evening, as P. G. A. President George Jacobus reaffirmed his personal stand in favor of Shute, the backers of the "reinstated Shute" movement were making all sorts of dire threats. There were odds of 2-1 offered that, without Denny in the field, not one of the tournament committee, including Hines, Metz, Ed Dudley and Joe McSpaden, would start. There were odds of 5-1 that, without Denny, none of the 1937 Ryder cuppers would tee off.

Company Is Denied An Oil Tender

KILGORE, July 8 (AP)—The federal tender board announced today its decision to deny approval of a July forecast tender for 5,000 barrels of oil produced by Rowan and Nichols Oil company of Fort Worth on its Todd "B" lease near Gladewater.

The company sought federal tender to move oil produced under a federal court order which permitted an increase in allowable. The state tender board has approved movement of the oil.

Chairman J. W. Steele, in reading the board's decision, said attorneys for Rowan and Nichols had informed the board they would institute litigation against the federal agency in Judge Randolph Bryant's federal court at Sherman.

WESTERNERS WIN IN EASTERN PLAY

NORTH CONWAY, N. H., July 8 (AP)—The Eastern Slope Tennis club's golf racquet tournament narrowed down today to an all-west finale with Wayne Sabin of Portland, Ore., and Hal Surface of Kansas City as finalists of a field of 32.

Sabin, whose many 1939 successes rated him top-seeding, overcame Johnny Doeg of Rumson, N. J., the former national titlist, 6-4 6-3, 6-4, and Surface, ranked second in the draw, turned in an impressive 8-6, 6-1, 6-2, 6-4 victory over Ladislav Hecht of New York, a former Czechoslovakian Davis cupman.

IRON LUNG RUSHED TO LUBBOCK FOR PARALYSIS VICTIM

LUBBOCK, July 8 (AP)—An iron lung is being rushed here from Omaha, Neb., for use in treating Mrs. J. F. Houston, 45, of Odessa, who is suffering ascending (landry's) paralysis. A physician said the malady is rare for this section of the world. The disease is fatal in 90 per cent of the cases, but not contagious, he said.

Symptoms are similar to those of infantile paralysis, and only through fluid tests can the difference be determined.

Mrs. Houston was stricken with the disease 10 days ago when fever set in.

Old Settlers Meet July 28

Officials of the Old Settlers association have launched plans for the 15th annual reunion July 28 at Cottonwood (Farrish) park one mile east of here.

Program details have not yet shaped up, but provisions are being made for food other than that which will be brought in customary copious picnic baskets.

T. J. McKinney, vice-president of the association, said Saturday that there would be a quantity of beans, son-of-a-gun, bread, coffee, etc., to supplement the picnic fare.

This year's celebration will mark a return to Cottonwood park. Last year, when the reunion was scheduled at the city park, showers disrupted proceedings, driving part of the settlers to the Casino to eat their lunches indoors.

Not only will Howard county old settlers be invited to participate in the 15th annual gathering, but those of Dawson, Martin and Glasscock counties are being urged to come since most of those counties were at one time attached to Howard county for judicial purposes and their residents, of a consequence, came often to Big Spring.

All who were in Howard county prior to 1910 are eligible to join in the celebration. Officers of the association are E. P. McKinney, Coahoma, president; T. J. McKinney, Center Point, vice-president; Mrs. A. L. Nelson, center point, secretary; Mrs. Sally Coats, Big Spring, assistant secretary.

Lakes

(Continued from Page 1)

There is still time to get all that work, which includes, moving mains within the city limits, a million gallon reservoir, tapping existing reservoirs, and building a caretaker's cottage at the lake, finished by September 15, the scheduled completion date.

As the project now stands, the Powell Creek dam is in a condition to trap water, but rapping must first be done to protect the dam. Anyhow, it's not likely that any large amount will be caught by the dam until the 70 yard long plug is cut from the diversion channel which connects the basin with Devil's creek from whence comes about four-fifths of the Powell Creek drainage.

County Crops Follow Patchwork Design Of The Weather

Some Sectors In Good Shape, Others Suffer

The start of the second week of July finds the greatest variety of crop prospects ever on record for Howard county.

In some areas farmers looked across muddy acres to broken terraces. Not far away others beamed upon best cotton prospects in years, and in the same neighborhoods, less fortunate agriculturists fretted over fallow fields.

There was no uniformity even in certain localities. In the territories most favored by showers, upland or half-stand fields were spotted around. Conversely, in the drouth stricken sections, here and there were crops up to a fair stand.

Damage From Winds
About the only uniformity reported by farmers was the harm from hot dry winds of the past week. Regardless of the stage of the crop, all were agreed that the scorching winds were killing young stuff and retarding the better established vegetation.

Best crops were reported along the heart of the county's most fertile farming belt — from Center Point eastward to R-Bar and in North of Coahoma.

Hardest hit, in order named, were Lomax, south of Coahoma, Elbow, Hartwells and east of Fairview.

"Saved" by showers of the past 10 days was a portion of Moore and Highway communities.

Damaged by heavy rains of Wednesday evening was the section in north of Luther.

South of Knott prospects were considered passable and east and north of that community plentiful rain put a rosy hue to the picture. Ackerly, too, reported ample moisture and eastward across Soal and Vealmoor seasoning was good but crops late.

In Luther Area
In the tight land territory around Luther crops were generally normal to better. North of Luther cloudbursts had washed many fields badly, but at that they had pretty good chances for normal cotton and feed production.

Vincent, although spotted, was in fair shape, having received a small portion of the heavy rain which sent the upper Colorado on a tear.

Center Point, Richland, R-Bar and the sections about three miles north of Coahoma were generally in excellent condition except for early feed, which appeared to be about "shot" by recent high, hot winds.

In Moscow criticism and French envoys carried new instructions from their governments into a two-hour conference with Soviet Russia's premier-foreign minister on the long-sought tri-power mutual assistance pact. The usual Moscow silence enshrouded what developments the meeting produced, if any.

The last days of Republican Spain were lived over again in Madrid by Julian Besteiro, last head of the republican regime, whose life was demanded by nationalist prosecutors before a military tribunal trying him for "aiding rebellion" during the Spanish civil conflict.

A tribunal of four generals and two lieutenant-colonels last night debated the fate of the 89-year-old socialist professor of philosophy who sought in vain for "an honorable peace" and finally capitulated to Franco's stern demands for unconditional surrender.

Hundreds of arrests were reported at Irun and other northern Spanish cities by police clearing the way for an official inspection early this week by the generalissimo.

In Shanghai, Japanese naval authorities apologized to British officials for endangering the British gunboat Falcon, whose doors were washed in and her lower decks washed when Japanese aerial bombs exploded in the Yangtze river near her anchorage Friday.

NEW ALLOCATIONS

WASHINGTON, July 8 (AP)—The Public Works Administration announced today President Roosevelt has approved new allocations from savings and recessions of old PWA funds, totaling \$2,061,350 to governmental agencies.

the south and east, the outlook was gloomy. Conditions were spotted and large portions of some fields were barren. Across Midway prospects varied, following the pattern of spotted showers.

Hartwells, in western Howard county, was reportedly hard hit Lomax, barely touched by some meagre showers, had a scattering of fields, but on the whole the fields were fallow from lack of moisture. Things looked only slightly better in the Elbow territory which shared in a few showers which managed to dodge Lomax.

Fortunately, the usual mid-summer insect infestation has passed the county by. Farmers had at least this much for which to be thankful

nanced from a one-cent portion of the gasoline tax which is paid into the county and road district indebtedness fund.

It reenacts the present road bond assumption act by making eligible for state payment the obligations incurred by counties and road districts in building roads which have become a part of the state network not later than January 1, 1939.

Because revenue exceeds these obligations the surplus will be distributed among counties for a formula based on area, motor registration, lateral road mileage and population. After payment of obligations counties may use the proceeds for:

Purchase of right of way.
Construction of county roads.
Payment of debt on lateral roads not on the highway system.
Supplementing federal matching funds for WPA roads projects.

Co-operating with the state highway department and federal government in constructing farm-to-market roads.

Neutrality

(Continued from Page 1)

weather delayed the round-trip flight to Europe of 80-year-old R. Walton Moore, counselor of the state department, so that he returned here three days late, after the vote in the house. The veteran Moore, who spent many years in the house and in the state department, is the state department liaison man with congress.

He has had enough influence with his old cronies to have turned the scales.

The third was the illness of the chairman of the house foreign affairs committee, Canny Representative McKeynolds (D-Tenn) whose generalship and influence in the house might also have brought victory.

Still carrying on their fight, however, officials are marshalling arguments against the house bill. Foremost of these is a contention that it cannot be administered.

They snag on the necessity of distinguishing between "arms and munitions" and "implements of war."

The present neutrality act calls for an embargo on the shipment of arms, munitions and implements of war. The house bill leaves out the words "implements of war" so as to exclude from the embargo according to various representatives, such things as airplanes and trucks. Actually, the only new exclusion would be airplanes, since trucks are not now included.

The house bill does not state, however, who shall say what are arms and what are implements. The present act at least provides that the president by proclamation shall enumerate the articles to be embargoed in an embargo. The house bill omits this clause altogether.

Representative Vorya (R-Ohio) who introduced the house-approved embargo amendment said interpretation of what constituted implements of war would be left to the courts. Officials, however, are concerned with administering the bill before test cases are taken to the courts.

BARBECUE AFFAIR SLATED MONDAY

Members of the Brotherhood of the First Baptist church and their families will join in a barbecue affair at the city park on Monday evening.

A program of music and recreation has been arranged for the event.

Presiding over the outdoor session will be Chester O'Brien, named by J. H. Greene, president, who is out of town at the present time. More than 150 persons are expected to be on hand for the meeting.

Man Once With Villa Expires

PHOENIX, Ariz., July 8 (AP)—Death at Ojo Sarco, N. M., yesterday closed the colorful career of Jerry O. H. Newby, 65, mining engineer, lumberman, sportsman, philosopher, and once a "doctor" with Pancho Villa's troops in Mexico.

His widow, Mrs. Lettie Newby, and a son, Jerry, Jr., who live in Phoenix, were notified of his death today.

Born in Colorado, Newby spent his childhood in Taos, N. M., and for years conducted geological investigations up and down the Rocky Mountain chain, finally settling in Chihuahua, Mex.

He never studied medicine but because of his experience in the outdoors, his Mexican neighbors looked to him for advice in illnesses. When Pancho Villa began his revolutionary activities, Newby was drafted into the rebel ranks as a "doctor" and commissioned a major.

He once served as an envoy from Villa to Gen. John J. Pershing, members of the family recounted, and in 1916 was sent to the rescue

of 19 Americans captured by rebels in Chihuahua. He arrived too late. The incident became known as the Santa Isabel massacre.

The past 20 years Newby divided his time between New Mexico timber interests and mining in Arizona.

Jaycees To Help In Big Bend Park Fund Campaign

DALLAS, July 8 (AP)—The executive committee of the Texas Junior Chamber of Commerce, meeting here today, endorsed as an immediate project the support of a campaign to raise funds to buy land for the Big Bend national park.

W. O. Cooper, president, said work would begin immediately to raise a \$25,000 promotion fund to be used in a campaign for the \$1,500,000 or more needed for land purchases.

E. G. Aycock of Fort Worth was made chairman of the campaign committee. Representatives from each of the state's seven districts will be appointed to serve with him.

Gathering of evidence on freight rates in Texas also was made an immediate project. Al Brady of Dallas was made general chairman of this committee. Men will be named in each city to work with him.

with a mark of 105.5. John Wood of the experiment station between Westaco and Mercedes reported the maximum in the lower Rio Grande valley 100, hottest day since April, 1937 and the hottest day in July since 1932.

From an early morning figure of 63 degrees the temperature at Kerrville jumped to a maximum of 106 in the afternoon, said by the official weather observer to be an all time high.

Other readings: Pampa 95, Brownwood 103, Texarkana 106, San Angelo 106, Corpus Christi 102, Abilene 105, Lubbock 103.

Friday's top in Texas was 110, at Graham.

The weather bureau forecast thundershowers in the vicinity of Beaumont and Fort Arthur, but "fair and continued warm" elsewhere.

47 Fatalities Are Reported Over U. S.

A wave of summer heat baked much of the nation from Maine to Texas Saturday, sending temperatures to record heights in some states and causing at least 47 deaths.

Only in scattered sections of the heat zone were there forecasts promising a respite today. Warmer weather was predicted for most of the middle west.

Update New York, after five hot days, was cooled by thundershowers but the rain was accompanied by lightning and wind which caused extensive damage. New Englanders watched the skies for anticipated rains.

Metropolitan centers in New Jersey reported temperatures of 49, while at Ashbury Park and other seashore resorts a cold southeast wind made it too chilly for bathing. Cool breezes off temperature to a maximum of 76 during the afternoon.

Seven persons, including 15 foremen, were overcome by the heat, while fighting a fire at Louisville, Ky. Two of the victims were taken to a hospital.

resources of both banks climbing to \$4,665,000.

All in all, the city appears to have experienced a sane and sensible Fourth of July. With the holiday death toll over Texas the largest for the nation, Big Spring should feel thankful that not one of the victims came from here.

As usual, hospitals treated a few who thought fireworks wouldn't explode in their hands.

The announcement by S. J. Treadaway, division highway engineer, that should the highway No. 9 south project here miss the July lettings by the highway commission it could be included in the August lettings eased the pressure greatly. Now, with the city lacking only two small pieces and the county one tiny tract, right-of-way requirements will be settled in time for the county to get in on a \$100,000 road building program for the autumn and winter.

It's good to see Coahoma schools including vocational agriculture in the curriculum. Something like 5,000 people are directly dependent upon farming for living in Howard county and it certainly seems that something ought to be offered in the schools on so important a subject.

In this connection, the FSA is

reported planning an encouraging a dairy improvement program on a small scale basis. Farmers, unable to borrow show-bills, could secure loans through FSA for registered herd heifers. It has been pointed out that not only could farmers have better dairy cows through this means, but also choice bulls from the registered heifers could be instrumental in bettering the general quality of other county herds.

While other points in the nation reported strikes by WPA workers, two local projects were resumed after shutdowns during period changes with all men reporting for work. As a result, no bad feelings exist and the city and school district will be the winners.

FREIGHT HEARING IS SET FOR JULY 18

AUSTIN, July 8 (AP)—Examiners said today the railroad commission had ordered a hearing July 18 in San Antonio on continuation of reduced freight rates in the South and Southwest Texas emergency drouth area.

The commission will consider whether to continue the 66 and two-thirds per cent reduction on freight rates on livestock and livestock feed stuff in 27 South and Southwest Texas counties. The rates were ordered May 1st and will expire August 31st.

The hearing also will consider the petition of Val Verde county for inclusion in the emergency drouth area.

OLDSMOBILE PISTON PINS ARE HIGH-PRESSURE LUBRICATED THROUGH RIFLE-DRILLED CONNECTING RODS! EVIDENCE OF THE HIGH QUALITY THAT GOES INTO EVERY OLDS!

Few low-priced cars have 100 Per Cent Full-Pressure Lubrication—but Oldsmobile has! Above left, you see how connecting rods are rifle-drilled to deliver oil to the piston pins. Above right, how oil is forced to camshaft, crankshaft and connecting rod bearings—to piston pins and cylinder walls.

Delivered at Lansing, Michigan. Prices include UP and safety glass, bumpers, bumper guards, spare tire and tube. State and local taxes, if any, optional equipment and accessories—extra. Prices subject to change without notice. General Motors Installment Plan. * A GENERAL MOTORS VALUE *

OLDSMOBILE'S nationwide reputation for building to quality standards is based on the bedrock of solid fact. You can see quality at a glance in the luxurious fittings and appointments of its wide-vision Body by Fisher. You can feel quality in the way it rides—in the way it handles—in the way it acts in traffic or on the road. But Oldsmobile quality goes far deeper than that. It extends to every hidden part of the engine and chassis. For example, even the piston pins are pressure-lubricated—a distinct contribution to long life and quiet engine operation, usually found only in the most expensive cars. That's why we say there's a great big point to this little piston pin. It's an important indication of the supreme quality that goes into every part of every Olds!

July Guests Arrive; Some Leave On Trips

Seemed like news was at a premium this weekend with folks "playing in their own backyards" and nobody very energetic about wanting to take a trip, give a party, or even have a bridge game.

However, after combing the town from end to end, some persons were found who didn't mind the heat and were busy packing suitcases for visits with relatives or wiping the dust off the mantel in preparation for out-of-town guests.

Miss Dona Campbell of Elkhart, Tex., is here visiting her aunt and uncle, Mr. and Mrs. M. C. Knowles. She will remain until fall when she plans to attend school at Denton.

Howard Kyle of Sweetwater is spending the week with his parents, Mr. and Mrs. C. S. Kyle.

Billy Murphy is spending the week in Ardmore, Okla.

Mr. and Mrs. Roy Lamb will return this weekend from Ardmore, Okla., where they spent the weekend.

Mr. and Mrs. A. C. Savage have as guests her mother, Mrs. J. Stinzen, and sister, Mrs. Hulien Patterson, of Strawn, Tex. They will spend the week here.

Mrs. C. E. Murdock and son, Jack, will leave Sunday for Whitesboro to visit her parents, Mr. and Mrs. H. Dennis, for an indefinite stay.

Mr. and Mrs. W. J. Goodson have recently returned from Lufkin where they visited Mrs. Goodson's father, who is quite ill.

Mr. and Mrs. W. D. Berry and family and Mr. and Mrs. G. H. Hayward and family, Mr. and Mrs. Tony Wyatt left Saturday for Abilene where members of the J. D. Allen family will gather for a family reunion to be held at Buffalo Gap.

Mr. and Mrs. W. D. Berry and family will spend the week at home with her parents, Mr. and Mrs. J. D. Allen, following a family reunion this weekend.

Mr. and Mrs. W. T. Davidson and his mother, a Mrs. Davidson, of California, Calif., are to arrive Sunday morning for a visit with Mrs. N. V. Hibben.

Angie Davis, daughter of Dr. and Mrs. R. L. Davis of San Antonio, former residents here, received the highest score in the junior division of an archery meet held the first of the week in Fort Worth according to word received here by her aunt, Mrs. Otero Green. Miss Davis won three medals and a trophy in the competition and will compete next year in Tulsa, Okla.

Mrs. C. P. Watson and son, Thomas Lee, of Dallas, former residents here, are spending a week with Mr. and Mrs. Gordon Phillips.

Mrs. J. R. Manion gave the devotional and Mrs. Arthur Pickle said the prayer. Mrs. Lanun made a patriotic talk and songs were sung. A duet, "Battle Hymn of the Republic," was sung by Kathleen Underwood and Sara Lanun. Mrs. Lanun also sang "Take My Life and Let It Be."

The group then sang patriotic songs and a short business meeting was held. Lemonade was served during the afternoon and cake and ice cream was served.

Others attending were Mrs. Ella Davis, Mrs. E. L. Warren, Mrs. Arthur Woodall, Mrs. H. N. Robinson, Mrs. C. F. Morris, a Mrs. Dixon, Mrs. W. A. Miller, Mrs. C. E. Talbot, Mrs. Clyde Thomas, Mrs. G. Winn, Mrs. H. F. Williamson, Mrs. G. W. Fyton.

Mrs. J. C. Waits, Mrs. Alice Riggs, Mrs. Arthur Pickle, Mrs. Logan Baker, Miss Roberts Gay, Miss Underwood and Miss Lanun.

Mrs. Lilly Entertains Class With Picnic

Mrs. Raymond Lilly entertained her Sunday school class of East 4th Street Baptist church with a picnic at the park Friday.

Attending were Mrs. Beth Wehust, a guest, Gayle Joyce Lilly, Joyce Alexander, Label Hagg, Mary Lavern McLeod, Lenora Masters, Frieda Mae Bewley, Bobbie Jean Sanders and Inez McCullough.

Library Lists Choice Books For Summer

Reading Room Open Each Afternoon, 12:30 To 5:30

By RUTH MINTER

On hot summer nights after thumbing through countless magazines have you wished for a good book to help you forget the heat?

Would you like a book by Zane Gray, Rudyard Kipling, or maybe Margaret Mitchell?

All these and 5,000 more can be found at the Big Spring library located in the basement of J. & W. Fisher store. This library, founded nearly 15 years ago by the City Federation, is now a subscription library with approximately 2,000 members. Directed by Mrs. B. T. Cardwell, with the help of other housewives who have pledged their time and efforts voluntarily, the library is open six days a week from 12:30 to 5:30 in the afternoon. Mrs. Bertha Owen and Mrs. Beulah Morrison are W. P. A. clerks who take care of checking out books and mending them.

The library boasts of a varied assortment of books, including fiction, non-fiction, classics, biography, children's books, history, religious, and magazines. These books may be had for one or two weeks, and some are rental books that cost

Herman Williams Complimented At Barbecue

FORSAN, July 8 (Sp1)—Mr. and Mrs. Herman Williams complimented Mr. and Mrs. Meyer DeBrow with a barbecue supper given Thursday evening on the Williams lawn in the East Continental camp.

Attending were Mr. and Mrs. Foster Harmon, Mr. and Mrs. Thomas Yarbrow, Mr. and Mrs. J. H. Mahaffey, Mr. and Mrs. C. E. Chaffin, Mr. and Mrs. E. H. Noe, Mr. and Mrs. J. D. Galt, Mr. and Mrs. Dan Yarbrow and Mrs. R. L. Carpenter.

2-Day Rally Of Methodist Young People Begins

Large Delegation Expected To Attend Meet

Early Saturday evening approximately 25 young people from out-of-town had registered at the First Methodist church for the two-day young people's rally of the Sweetwater district. More than 100 persons are expected to attend.

"The Widening Way" is the theme of the meeting. Ray Gwyn of Midland spoke on "Trails of the Past."

A hayride and watermelon feast were features of Saturday's meeting with a picture show and recreation held later under direction of Wendell A. Burba of Lenora.

Sunday activities included a six o'clock morning watch and talk "On Top of the World" led by Newton Starves of Big Spring and followed by breakfast at the city park at 7 o'clock.

Reta May Bigony gave the devotional on "Building With God," and talks and union and committee meetings followed.

Church school is under direction of the Rev. Anvil Lynn of Wesley Memorial church at 10 o'clock this morning and Dr. J. O. Haymes is to give the 10:55 o'clock sermon at First church.

The Woman's Missionary Society will serve the 12:30 o'clock luncheon and a general business meeting will follow. Afternoon services are to include a consecration service, "Road Builders for the King," given by Doyle Ragle of McMurry, vice president of the Northwest Texas Conference.

Good Food A Major Item At WPA Nursery

Little Children Being Provided Nourishment They Need

By MARY WHALEY

Thirty-five hungry little children bowed their heads and repeated the prayer. "We thank Thee for this good food. Amen." And twice thirty-five spick and span hands reached for paper napkins to tuck under chins. It was 12 o'clock and eating time at the W. P. A. Nursery school.

At the individual blue and white tables in straight backed little white chairs, the children, each in his accustomed place, looked with wide eyes at the plate of string beans, oyster stew, carrots, corn bread, and creamed onions. It was a balanced meal prepared to fill out thin arms and cheeks. And at each place was a mug of milk, a necessity for every growing child.

For some of the children, who range in age from 2 to 4 years, this was their first full meal of the day. The nursery provides oatmeal and milk in the morning, cod liver oil and fruit juices or tomato juice at 10 o'clock, and milk and crackers before the tots go home in the afternoon. But when many leave at 3:30 o'clock in the afternoon, they know better than to expect any food until school time the next day.

A few have been so poorly fed that it takes a while for them to learn to eat the scientifically prepared and carefully planned meals. They must be coaxed, and Mrs. Shelby Hall, who is in charge, is a master hand.

One backward soul completely finished his meal while she took a green bean and told a story about it being dressed in a yellow shirt (carrots) and a white hat (onions).

Women At Work

She Directs Rural Schools

Anne Martin's life has been spent largely in rural schools. As a child she attended them, after college she taught in them, and since 1934 she has been county superintendent.

Miss Martin attended rural schools in Howard county and took her high school work at Big Spring. Her college training was at Hardin-Simmons University and Abilene Christian college.

"In my job there are so many opportunities to better things for the children. The possibilities are numerous for helping rural school children to a better education," says Miss Martin. And the superintendent, who for 15 years taught in Howard county and three years in Grand Falls, Brownfield and O'Donnell, knows conditions from a child's viewpoint, a teacher's viewpoint and superintendent's viewpoint.

After teaching in the schools, she decided to run for the office of county superintendent and was elected. Then last year she was re-elected. She has under her supervision 17 schools in the district employing 75 teachers.

The duties include keeping books for the separate school districts and seeing to payment of

bills and teacher's salaries. Budgets for each school must be made and approved by the local board of each school.

county board composed of five members and also handles applications for rural aid. The office is responsible for the county scholastic census and must see that teacher's certificates are in order and recorded.

One of the numerous angles of her job is to keep the public and teachers informed on new school legislation. Her reports on schools to the state department of education in Austin.

In the advancement of education for rural schools a county rural school library of 3,000 volumes is kept in the office at the courthouse. Teachers may borrow the books for the children for three weeks and then return them.

The busiest times come in the fall when text books are checked out from the office and supplies such as report cards and equipment are checked out. And equally busy is the spring when schools close and the books must be returned and counted and re-issued.

The busy superintendent also visits each school several times a year to check on the needs of the school and to work with the teachers for improvement.

Miss Martin says that she likes to work for the children and enjoys her job because "of the people with whom I come in contact." She has one assistant and a library helper and together they work to increase the efficiency of rural education.

The Rev. and Mrs. Ansel Lynn and children, Rosalie, Mary and Paul, will leave Tuesday for a three-week visit with her relatives in Walnut Grove, Miss.

and so enthralled the child with the game that he never knew until his plate was empty that he had eaten ill.

Each child is required to eat all the food on his plate and drink his mug of milk before any talk of dessert can be heard. When he has "scrapped it clean" he takes his plate and glass to the serving table, helps himself to dessert which happens to be sweet potato custard this one day, and goes back to his place.

If it is necessary for him to leave the table for a refill, and "seconds" are pretty plentiful, he says "Excuse me," and gets up. The same procedure is required when he has finished his meal.

In the play suits, that are made by the sewing room, visitors can see healthy tans of the children by morning hours of play outdoors. After eating, the children wash themselves and lie down in another room on small cots until 2:30 o'clock.

When the day is over and the children return to their homes, even if the food at home is scarce and unsuited to growing children's needs, anxious and worried mothers can say a prayer of thanksgiving that the nursery school will keep their little ones round and healthy with plenty of good balanced food and milk and a place to play out of harm's way during the day.

Contributors

Contributions lately have greatly added to the library. Agnes Currie, Mrs. Frank Boyle and Mrs. Glen Golden have added books more recently. "The 1939 Hyperion club has contributed a very fine juvenile library, and the Senior Hyperion club has given the proceeds from book reviews for books of adult reading," Mrs. Cardwell said.

Books that have been ordered by the library include "Grapes of Wrath" by Steinbeck, and "Reaching for the Stars" by Wain.

"In the springtime the gardening primers are a source of delight to housewives starting to plant their flowers," Mrs. Owen said. "Westerns and mysteries are found to be most popular now for adults, while the children's books are in constant demand by the youngsters on vacation from school."

Books of famous authors of all ages and different types may be found in the cool basement library. Some of these are Lloyd C. Douglas, Faith Baldwin, Booth Tarkington, Gene Stratton Porter, Alice Duer Miller, Sinclair Lewis, Richard E. Byrd, Zane Gray, Victor Hugo, Robert Louis Stevenson, and Robert Browning.

New And Popular Always popular and in demand is Margaret Mitchell's "Gone With the Wind" and "Anthony Adverse" by Hervey Allen. Ranging from the recent delightful "Ferdinand" by Munro Leaf to Alexandre Dumas' "The Three Musketeers" for more heavy reading, there is a great selection to choose from to suit the mood.

Some of the newer books that are read most are—"and Tell of Time" by Laura Krey, "All This, and Heaven, too," by Rachel Field, "Rebecca" by Daphne Du Maurier, "A Peculiar Yrassure," Edna Ferber's latest, and Dorothy Canfield's "Seasoned Timber."

The more popular murder mysteries are "Murder for Breakfast" by Pete Hunt, and "The Kitchen Cake Murder" by Christopher Bank. Novelty books interesting to women are "Live Alone and Like It" by Marjorie Hillis, and "Can Women be Gentlemen?" by Gertrude Atherton.

All are invited to come down to the cool quiet library and spend an afternoon browsing around and reading.

Miss Dorothy and Miss Ruth Clark of Fort Davis, Mrs. W. H. Brennan and Jesse Brennan and daughter, Marjory Ann of El Paso returned to their homes Saturday after a visit with Mr. and Mrs. V. Van Gieson and Mrs. J. B. Young.

Junior Shakespeare Club To Begin Here Next Week

July 15th has been set tentatively as the date of opening for the National Junior Shakespeare club, according to Miss Roberts Gay, supervisor. Miss Gay has been contacting pupils and prospective students are urged to get in touch with her soon.

The club offers a combined course in speech, dramatics and story telling in a series of twenty club meetings with a grand finale, a Shakespeare Play or Pageant wherein the children portray the characters of the Shakespearean drama.

The program for the series has been compiled by Ethel Vienna Valley, a member of the faculty of the Emerson College of Oratory. Working materials for meetings such as programs, textbooks, membership cards and diplomas will be supplied free to the children.

The children are to elect their own officers, have simple initiations and will learn "Success Thoughts" taught to children of grade school age, in a playtime fashion.

New Outposts Are Staked In Yoakum Co.

SAN ANGELO, July 8—Staking of new outposts to both the Denver and Bennett fields in Yoakum county and the Foster pool in Ector county and reviving by acidizing of an oil flow by a discovery well of last December in the old Toyah shallow pool in Reeves county were among this week's principal West Texas oil developments.

The prospective opener of Schleicher county's second oil pool, declined to 25 barrels of oil daily, swabbing through casing after treatment with acid through tubing. A possible link between the North Cowden and Foster fields in Ector county struck sulphur water and plugged back to shoot.

Also No. 1 Jordan, 1 1/2 miles northwest of T. P. No. 1 Brownfield, 1 1/2 mile north extension to the extreme east part of the Denver field in Yoakum county, flowed 20 barrels of oil hourly through tubing after retreating with 8,000 gallons of acid in two stages, bottomed at 5,200 feet. It is in the southeast quarter of section 764-D, John H. Gibson. Between the T. P. well and the main field Basin States Oil Co., of Fort Worth staked No. 1 Hague, 1,980 feet from the north and west lines of section 802. It acquired three tracts in the area by farm-out by Honohu Oil Corp. for drilling on each.

Near Bennett Field
It was reported Devonian Oil Co. would start soon, probably jointly with Shell, a test in the southeast corner of section 666, half mile north and one location west of Shell No. 1 Waples-Platter, 1 3/4-

miles northeast of the Bennett pool, recently completed in as a 162-barrel-a-day pumpjack. Also staked two locations, Honolulu one in the northeast part of the Denver field. Honolulu No. 3-77 Slaughter in the southeast part of the Slaughter pool in Hockley county flowed 182 barrels of oil through tubing in six hours at 4,995 feet after retreatment with 2,500 gallons of acid, was retreated with 6,000 gallons and was testing. It is in the southwest corner of labor 77-37-Zavalla.

Richmond, Hanagan and others' No. 1 Stanolind-University, wildcat in the southeast corner of Andrews county, in the southwest corner of section 25-12-U, showed no oil, gas or water bearing formations in a Schlumberger survey after drilling to 5,085 feet, and shutdown pending plans to deepen to 5,500.

Magnolia No. 1 J. B. Fry, southwestern Dawson county wildcat, in section 8-35-4n-T&P, had shown no oil in drilling to 5,246 feet in lime.

abandon. As a result, Mr. East was slightly sprung. And if speeches were in order, Mr. East intended to make a speech.

Once on his feet, however, words did not flow readily to his lips. But Mr. East knew precisely how to cope with such a situation. He reached down for his champagne glass and took a mighty draught. It was absolutely the right move. The larynx of Mr. East now oiled for smooth working, rallied round him.

"Brother Elks," said Morris sternly, "I am a man of few words..."

"Morris," whispered Horace feverishly, "will you sit down?"

"And what I have to say to night," went on Morris, wobbling a little but breacing over this interruption, "will be - er - er - couched in simple language. But brethren, it will come from the heart. That's the kind of a guy I am. When I speak, I speak from the heart."

"Morris," hissed Horace, "you're making a fool of yourself!"

"On behalf of the entire theatrical profession of which I am a member," proceeded Morris grandly, "I wish to thank each and every one of you for insisting personally, I have had a terrific time. Simply terrific. I..."

"Morris," said Horace, "I have told you for the last time. Morris paused, as though the trained political orator heeded from the cheap seats. He regarded his brother with frosty eyes.

"Sit down," he commanded brusquely. "You're tight."

The injustice of this smote Horace. To begin with he was already sitting down. Beyond that, as the brains of the act, he had been careful to remain cool sober. Stung now by this base accusation he seized the coat-tails of Morris and yanked on them powerfully. Morris sat down abruptly, but bounced up without taking a count.

Suggestion: Get A Stamp For License

In making up your vacation list it will be wise to include a little red stamp, provided you are going out of the state.

The little red stamp happens to be one affixed by the drivers license division of the state highway patrol to your drivers license.

It shows your license to be extended until 1942 and might save embarrassment should you be asked to show your certificate to an out-of-state officer. Operators licenses held in Texas expired at of March 31 but were renewed to April 1, 1942 when the legislature failed to make provision for a new drivers license law.

Hardy Matthews, state highway patrolman with the drivers license division in the Big Spring district said that around 150 persons had their licenses stamped Saturday.

There is no hurry for those who will remain in Texas to have the renewal date stamped, but it is important to those who might get out of Texas.

CALENDAR Of Tomorrow's Meetings

CARD OF THANKS
Mr. Robert Redwine, whose death occurred Thursday, June 29, was engaged in honorable manual labor. He worked hard and was kind. His stiff knee, which made him look very crippled, his back-ache, and the great faith he had in hard work and kindness were a unique combination of cheerfulness and honor.

We highly appreciate Mr. Redwine's good spirit and good works. We desire to thank those friends of Mr. Redwine, and those of ours, who, at the time of his death and funeral, showed the spirit of sympathy and kindness. For every kindness, whatever it was, we are grateful.

Signed: Mr. & Mrs. Joe E. Davis and Family. -adv.

TO SHORT COURSE

County Agent O. P. Griffin left Saturday evening for College Station to participate in the annual annual agent's short course conducted by the Texas A. & M. extension service.

Anne Martin, county superintendent, motored to San Angelo Saturday evening to return Betty Rae Fryar, Betty Jeanne Leatherwood, Billie Louise Holt and Alva Jean Rigan, Howard county 4-H club girls who have been attending the club short course the past week, to Big Spring.

Mrs. Ted Crain and Raymond Lee Williams are expected to arrive Monday to spend two weeks with her mother, Mrs. J. B. Nail.

CARD OF THANKS
This is to offer my sincere appreciation to all the friends who so generously gave their time and services in replacing my stock and moving furniture after the storm, which damaged my building on July 6th.

Farm Checking Progressing

Checking of Howard county farms for compliance under the 1938 federal farm program was reported as 55 per cent of completion Saturday by A. W. Heckler county performance supervisor.

During the past week, his recorders in field men checked 118 farms with a total acreage of 19,891. This brought the total to date to 613 farms and 93,370 acres.

Approximately 100 other farms have been checked but have not been cleared by the clerical force.

Administration cost for checking was sliced from two cents to 1.8 cents per acre during the week, according to Heckler. This amounts to a saving of \$373.48 for farmers on acreage thus far checked, and should the same level be held, would mean a saving of around \$600, or about 60 cents per farm.

FORMER OFFICIAL KILLED IN CRASH

COMFORT, July 8 (AP)—Charles Lafayette Fortson, 52, former district and county clerk at Edinburg, was killed today in the crash of an automobile on a bridge and into a ravine six miles south of here.

E. H. Angier, who lived nearby, took the body from the car, which burned. Fortson was identified by his driver's license and papers on his person.

His body was held here for the arrival of relatives.

ONE LETTER COUNTS

Theoretically, one letter in a word might make a lot of difference, but in this case-it didn't.

A man who paid a fine for speeding Saturday following a car smashup, also entered a guilty plea to reckless driving. However, through a typographical error, the entry on the court docket had it "reckless" driving.

ELKS TO MEET ON THURSDAY EVENING

Important business and the consideration of applications are to be before the Elks lodge Thursday at 8 p. m. when the regular meeting is to be conducted, Grover C. Dunham, head of the unit, reminded members Saturday. Refreshments will be served following the session at the Woodmen's hall.

100-Room Mansion Of Otto Kahn Now Resort For Street Cleaners

NEW YORK, July 8 (AP)—The men who sweep and flush the city's streets, gather the trash and handle the garbage from Flatbush to the Bronx will know tomorrow what it's like to dwell in marble halls.

All of the 451 acres of the Long Island estate of the late Otto Kahn will be theirs—the 100-room mansion built in the style of a French chateau, the tennis courts, indoor swimming pool, paneled library, vast dining room, the rolling wooded countryside, the broad shaded avenues where the banker and patron of the arts once strolled.

The rich trappings that gave the place its final touch of magnificence through the last 20 years of Kahn's life will be missing, of course, but the sanitation department men can find consolation at least in the thought that their new home is a million-dollar place.

PLANS SUIT AGAINST DENISON PROJECT

OKLAHOMA CITY, July 8 (AP)—Governor Phillips said today he might talk to federal authorities concerning the most suitable means of bringing suit to test legality of the Denison Red river dam project.

Phillips was not prepared to say a suit would be filed, but announced it would be in federal court if and when one is brought. He said proceedings would be brought in several ways, one of which would be on the attempt to condemn state land.

O'Daniel One Who Shows He Can 'Take It'

AUSTIN, July 8 (AP)—After six harrowing months in the governor's chair, W. Lee O'Daniel, whose bigger and better pensions plan was a flop, has convinced many he can "take it" as well as "dish it out."

Few if any governors during their first terms have taken the tongue-bashings to which O'Daniel has been subjected and yet, outside of veiled counter-veneporation via radio, the former flour salesman has shown no bitterness in public.

Fond of jesting with intimates, the governor has taken his duties seriously and, although smiling and cordy over the microphone, presents a dignified, sober appearance in his office.

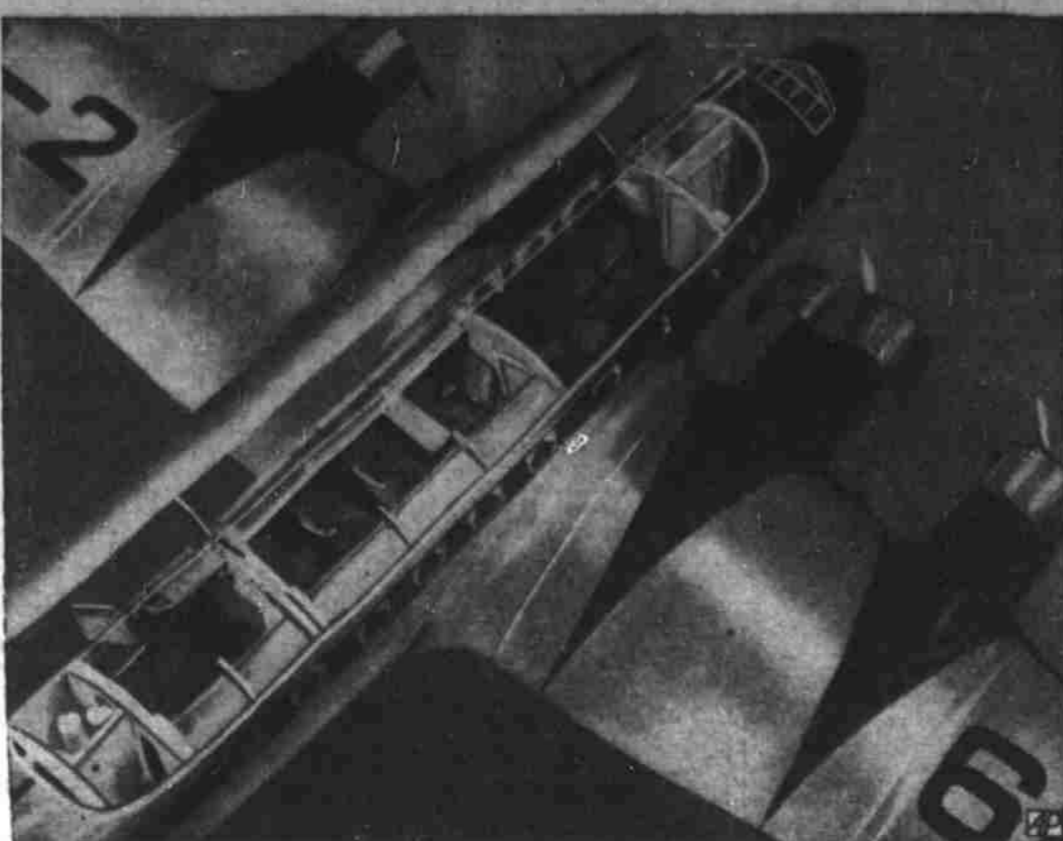

Observers have learned the outstanding characteristic of the man, who without political background or experience weathered the strifetorn longest session of the legislature in history, is that he is absolutely unpredictable.

Dopesters and political strategists are baffled in attempts to forecast O'Daniel's next move.

"What's the governor going to do?" Is the question asked most often in the capitol. Invariably the answer is "I don't know. Can't say there's no telling."

The governor has been consistent in one thing—trying to put business into government. In making requests of the legislature as well as vetoing bills, he has based his contentions on "business reasons" of economy or efficiency.

Contrary to popular belief, O'Daniel is easily accessible to newspaper men. State officials also always readily obtain a hearing. The curious public is welcome but sometimes has to wait until official conferences are concluded.

Women Must Keep Informed On World Affairs, Says BPW Head

KANSAS CITY, July 8 (AP)—Mental streamlining will be an essential requisite for the young American woman in the world of tomorrow.

With no thought of fads or fancies in the traditional feminine world of fashion, Miss Earlene White, Washington, D. C., president of the national federation of Business and Professional Women's clubs, Inc., visions the women of America taking a larger and more important part in this country's future.

Miss White, who directs the capital branch of the senate postoffice, will preside over the federation's biennial convention opening tomorrow.

"It is essential that the American women of today and the girls who will be tomorrow's leaders, keep themselves informed on all trends in the world's affairs," she said.

"With this effort to inform themselves, women must also evince an active interest in what is going on in the world and participate with all their will and ability."

As to woman's place in the world or today—and tomorrow—Miss White asserts emphatically that "efficiency and ability, not sex or marital status should be the determining factor in employment."

She pointed out a survey made by the federation disclosed nine out

of ten married women who work have dependents to support.

Miss White's own business career began with a small job on which she said she learned a worthwhile lesson—to take undeserved blame right along with undeserved praise and not get too upset over one or too "cocky" over the other.

Since then she has been a bank clerk, business manager of a newspaper, promoter of the citrus fruit industry in the Rio Grande valley of Texas and publisher of her own weekly newspaper. She has been in charge of the senate postoffice the past six years.

WHEAT ESTIMATE

OKLAHOMA CITY, July 8 (AP)—Oklahoma's estimated wheat production for 1939 remained well over 40,000,000 bushels in the state department of agriculture's figures for July 1 condition issued today.

State crop authorities calculated the yield at 41,925,600 bushels compared with an estimate of 39,067,000 June 1 and a yield of 50,050,000 last year.

Exceptional yields of harvested wheat in the north central crop district helped to hold up the production figure despite damaging rains, high winds, and hail of the past month. The average yield for the state was estimated at 10.87 bushels an acre.

Cotton acreage was reported as 2,023,980 with heavy replanting due to rains, floods and hail.

FIRE DESTROYS BUS, PASSENGERS ESCAPE

DALLAS, July 8 (AP)—Passengers narrowly escaped death when a bus was destroyed by a gasoline-fueled fire about 7:35 p. m. here today.

Mrs. James J. Huffman of Dallas said she saw a man light a cigarette, drop a match and a piece of paper under the gasoline tank. She warned other passengers and they scrambled to safety. Firemen doused the blaze within a few minutes.

D. C. Jacobs, manager of the Dallas office of the line estimated damage at \$10,000.

Rainbow Division Vets To Gather In Oklahoma City

OKLAHOMA CITY, July 8 (AP)—Veterans of the Rainbow division—the organization formed of national guard troops from 26 states to arouse a general interest in the American expeditionary forces of the World War—will open their annual reunion here Thursday.

Attending the three-day meeting will be delegations representing chapters in each of the 26 states.

The Rainbow—officially the 42nd division—was formed to awaken the entire nation to the emergency of the war. It was the first complete division to arrive in France.

Its nickname was suggested by General Douglas A. MacArthur who at one time commanded the organization.

The division comprised the following units: Headquarters troops from Louisiana; infantry regiments from New York, Alabama, Ohio and Iowa; ambulance units from New Jersey, Tennessee, Oklahoma

and Michigan; field hospital units from the District of Columbia, Nebraska, Oregon and Colorado; field artillery from Illinois, Indiana and Minnesota; machine gun battalions from Pennsylvania, Wisconsin and Georgia; engineers from North Carolina; trench mortar units from Maryland; supply train from Texas; ammunition train from Kansas; signal battalion from Missouri; military police from Virginia, and engineers from California and South Carolina.

Stock Market Still In Sleepy State

NEW YORK, July 8 (AP)—The stock market made a few feeble recovery gestures today, then resumed the slumber which it started at the beginning of the week.

While some utilities, coppers, rubbers, mail orders and specialties managed to emerge with modest advances, numerous issues finished unchanged to down a shade.

Attendance in boardrooms was virtually at zero, made traders electing to lengthen the week-end holiday.

Losses and gains of fractions to a point or so were about equally divided at the finish with the result the Associated Press average of 99 stocks was unchanged at 45.2. Due to a run-up Wednesday, following the Fourth of July recess, this composite showed a net advance on the week of .7 of a point.
