

SURPRISING EIGHT-INCH SNOWFALL SETS A NEW RECORD FOR BIG SPRING AREA

Roads Open; Schools Not

Big Spring and area Monday dug out from perhaps the deepest snow in the more than half a century that weather records have been kept here.

Eight inches stood on the ground in Big Spring, and most of Howard County had a similar covering.

All Howard County schools were closed as were those at Garden City, Lamesa, Stanton and Ackerly.

Operations at Webb Air Force Base were halted. Traffic crept along, and there were no serious accidents. All highways were open but during the night and early morning the Texas Highway Patrol advised only emergency travel.

Crops and ranges stood to be a benefit. Barring prolonged cover or sharp cold, livestock was not expected to suffer.

All over the city snowmen rose as if by magic. Calls to the Herald told of some up to eight and 10 feet tall as youngsters made the most of the unprecedented fall.

Swift Snowfall Covers North And West Texas

A swift, heavy snowstorm swept West and North Texas Sunday and turned into slow, soaking, crop producing rains over the rest of the state.

By Monday morning, the moisture had stopped except for deep East Texas.

Seymour, near Wichita Falls, had 5 1/2 inches, most of which melted as it fell bringing .56 inch of moisture.

In middle and upper Texas, up to 2.51 inches of rain fell.

With a spattering of sleet as the curtain raiser, the snow began falling about noon Sunday over much of West Texas.

U.N. Chieftain, Chou End Talks, Call Them 'Useful'

UNITED NATIONS, N.Y. (AP)—Secretary General Dag Hammarskjöld and Premier Chou En-lai ended their Peiping conferences today with an expressed hope "to continue contact." Their communique made no mention of the fate of the 11 U.S. airmen imprisoned in Red China.

"We feel that these talks have been useful and we hope to be able to continue the contact established in these meetings," they said.

The U.N. secretary general had been assigned by the U.N. General Assembly to seek release of the fliers and other U.N. personnel held in China. He flew to Peiping and had talked an aggregate of 13 1/2 hours with Chou. Today's fourth and final meeting took up an hour and 15 minutes.

A joint communique from the U.N. chief and the Chinese Communist leader was released simultaneously at U.N. headquarters here and in Peiping. The full text: "As a result of the suggestion for a personal discussion made by the secretary general of the U.N. in his cable of 10 December 1954 and the cable of welcome sent by the premier of the state council and foreign minister of the People's Republic of China on 17 December 1954, we had talks in Peiping (Peiping) on 6, 7, 8 and 10 January 1955.

"In these talks reference was made at the same time to ques-

Senate Probers Cite Commies In Defense Plants

WASHINGTON (AP)—The Senate Investigations subcommittee said today "the Communist party has successfully infiltrated national defense industries."

New legal safeguards against possible subversion and espionage were urged in a report by the subcommittee on a probe conducted under the chairmanship of Sen. McCarthy (R-Wis.).

It said Communists in defense plants are "in a position to acquire vital information concerning our military secrets and our military effectiveness," and added: "The employment of Communists in defense facilities, even though they are not actually working on classified (secret) material, is a clear and present danger to our national security."

Calling the removal of Communists from defense plants of "paramount importance" to the nation's security, the report made these two recommendations:

1. That Congress authorize government agencies to bar persons believed to be disposed to commit sabotage, espionage or other subversion from defense plants, even though the plants have no classified contracts.
2. That the Defense Department "prepare adequate security regulations preventing the employment of and ordering the removal of Communists in establishments producing materials under the nation-

Area Transportation Is Slowed By Snows

Transportation flowed slowly Monday in the wake of one of the area's biggest snows.

All types, with the exception of the airlines, were getting through, and by afternoon weather was due to be all right for flying.

Two planes, one of which was the object of an alarm for 12 hours, were grounded at Hamilton Field, northeast of Big Spring.

Communications encountered difficulty, although telephone circuits between here and Midland were in trouble. Otherwise, calls were going through smoothly.

The Texas & Pacific passenger trains were all on schedule, and in a couple of instances, they actually were ahead on arrivals.

Throughout the night most bus schedules ran half an hour to an hour off the pace, but they kept going. By Monday morning the lag was steadily narrowed so that by noon things were getting back to normal. Every trip was made.

Motor transports met all commitments, too, but the tempo of travel was slowed. Slowest trips appeared to be from the east, because drivers had snow to contend with all the way from Fort Worth. One driver left Fort Worth Sunday at 7 p.m. and arrived here at 7 Monday.

Cecil Center, pilot for the Claude Hutcherson Air Service at Plainview, put down his blue and green Beechcraft Bonanza (N-726-D) plane here at 10:40 a.m. Sunday when weather began to thicken. He filed his closed flight plan with the tower, but somehow transmission to Dallas failed to show his landing.

"I didn't know they were looking for us until about 9:45 p.m.," he said, "when I heard a newscast. I quickly called home to let everyone know we were all right. Then I contacted CAA in Dallas to let them know we were safe."

Center, who was flying three Muleshoe men to San Antonio for a polo meeting, said he turned back when the plane began to pick up some ice southeast of Big Spring.

"We were never in any trouble," he added. "I've been flying a long time and I intend to keep on flying a lot longer. We just played it safe."

With him were Jeff Feeler, manager of the Muleshoe office of Southwest Public Service; Travis Reed, manager of a Muleshoe fu-

County Hikes One Official's Pay And Slashes Another's

Pay for one county official was raised and a precinct officer's salary was cut this morning as county commissioners formally set salaries for the year.

The raise went to the county welfare worker. Her salary was increased from \$275 to \$300 per month.

Salary for the justice of the peace, Precinct No. 2 (Coshoma), was reduced from \$60 to \$50 per month. The reduction had been provided in the budget for 1955, which commissioners approved last fall.

The commissioners court had not acted at noon today on a pay increase request from Constable Odell Buchanan of Coshoma. Buchanan asked that his salary be upped from \$150 to \$300 per month. He pointed out that he must pay all telephone, travel and other expenses out of his salary. Commissioners said they would decide on the matter during the afternoon.

Two other pay increases were considered but turned down. Commissioners discussed the advisability of raising the county treasurer's salary, which is now \$3,900 per year, but no action was taken.

Commissioner G. E. Gilliam moved that annual salary for the constable at Forsan be increased from \$300 to \$300 per year, but the motion died without being seconded.

There also was a discussion concerning the salary for the district attorney's special investigator, but no action was taken this morning.

All other salaries were left unchanged.

Commissioners devoted part of their morning session to a discussion of the law library fund. Books for the law library, but Auditor Lee Porter and Judge R.

LEGISLATURE OPENS TOMORROW

Calvert Finds \$26 Million Lag Between Spending, Revenues

By DAVE CHEAVENS
AUSTIN (AP)—The threat of a 26 million dollar tax bill hung over the Legislature today as members gathered for the session's opening tomorrow.

Comptroller Robert Calvert's official estimate of income and spending detailed the bad news: There is a 26 million dollar lag between spending at current rates and general revenue fund income as of today.

Calvert's estimate went to lawmakers who meet at noon tomorrow for a mop-up job on work undone by the last two sessions of the Legislature.

The estimate underlined what most members consider the session's biggest problem: Spending and taxation.

Water was also listed by many members and by Gov. Shivers as the primary problem, but it was closely associated with finances.

In round figures, Calvert estimated spending at current levels, without any additions by the Legislature, would be 174 million in the next two fiscal years starting Sept. 1. The figure does include the normal increase for public schools.

Calvert also figured income for the same period under current conditions would be 148 million in round numbers. The 26 million lag was the difference.

Among the difficult jobs dropped

Senate Probers Cite Commies In Defense Plants

WASHINGTON (AP)—The Senate Investigations subcommittee said today "the Communist party has successfully infiltrated national defense industries."

New legal safeguards against possible subversion and espionage were urged in a report by the subcommittee on a probe conducted under the chairmanship of Sen. McCarthy (R-Wis.).

It said Communists in defense plants are "in a position to acquire vital information concerning our military secrets and our military effectiveness," and added: "The employment of Communists in defense facilities, even though they are not actually working on classified (secret) material, is a clear and present danger to our national security."

Calling the removal of Communists from defense plants of "paramount importance" to the nation's security, the report made these two recommendations:

1. That Congress authorize government agencies to bar persons believed to be disposed to commit sabotage, espionage or other subversion from defense plants, even though the plants have no classified contracts.
2. That the Defense Department "prepare adequate security regulations preventing the employment of and ordering the removal of Communists in establishments producing materials under the nation-

Records Indicate Snowfall Biggest

So far as could be determined immediately, the snow here Sunday ranked as the biggest on record in Big Spring.

The depth was reported officially as eight inches.

This was more than the 6.2 inches which fell on Dec. 30-31, 1946. There was a trace of snow the following day, and then another inch on Jan. 2, 1947. However, the maximum depth at any one time reported was five inches.

Ranking right up there was the celebrated Christmas snow in 1939. Residents, expecting fair weather—just as they were here Sunday—woke to find a light covering on the ground. Then by mid-morning it began to snow again and snowed until late in the afternoon to put a six-inch covering on the ground.

In February of 1933 there was a covering of around three inches of snow and sleet, but intense cold (below zero readings) shut off the precipitation.

Natives recalled a heavy snow around 1930 but records did not show it to be out of the ordinary.

It may be that the snows of 1903-04 equaled Sunday's yield but these records were in terms of precipitation rather than inches. Records could not be checked readily.

Few Injuries In Score Or More Of Traffic Mishaps

A score or more of traffic mishaps were reported in and around Big Spring as a result of the Sunday afternoon snowstorm, but few injuries were listed.

Loretta Bennett, 1307 Settles, received lacerations and lost some teeth when the car in which she was a passenger was in collision at the intersection of the City Park Road with FM 700 Sunday evening.

Manuel Garcia suffered bruises and other minor injuries when the car in which he was a passenger collided with the back of a truck.

Highway Patrol officers said numerous highway mishaps were reported, but that they had been unable to complete investigations on all but two or three.

Some 30 automobiles were stalled for a time Sunday afternoon when ice and snow made "15-Mile Hill" too slick to climb on the Snyder highway about 15 miles northeast of Big Spring.

Sheriff's officers said Miss Bennett was a passenger in a car driven by Don Martin, 1301 Settles, which was in collision with another vehicle operated by Robert Lee Taylor, of Jacksonville, Fla.

The accident occurred about 8 p.m. Sunday.

Garcia was riding in a car operated by Chon Alejandro, of Millett, deputies said. Alejandro's car struck the back of a truck driven by A. R. Talley, of Odessa, they reported. This accident occurred at 9 p.m. on Highway 87 some 12 miles north of Big Spring.

Highway Patrolmen said that Enrique Montes Deanda, 805 N. Ayiford, was driver of one car which was involved in a head-on collision near the Couden refinery about 3:30 p.m. Sunday. Driver of the other car had not been located, but apparently no one was hurt.

Police said they had received a report that a car driven by G. E. Anglin, 1107 W. 24th, overturned on the Snyder Highway about 12 miles from Big Spring last night. They reported several cars "stacked up" this morning near the detour signs on east Highway 80, but no injuries were listed.

Sheriff's deputies said they also investigated "several fender-benders" on roads leading into the city.

THE WEATHER

BIG SPRING AND VICINITY: Fair this afternoon and tonight with continued snow. High today 35, low tonight 15. Wind today light, tonight light to moderate. Humidity 45 p.m. 65. Dew point 32. Rain 1955: 0.00. Total for 1955: 0.00. Lowest this date 4 in 1920; maximum rainfall this date 36 in 1928.

Benson's Ladejinsky Action Irks Ike Aides

By MARVIN L. ARROWSMITH
 WASHINGTON (U)—White House officials were pictured today as irked over Secretary of Agriculture Benson's handling of the Wolf Ladejinsky case but convinced the administration's security program is basically sound.

An official thoroughly familiar with what he called the "rescue mission" of President Eisenhower's aides in the case said Benson violated "a very definite rule" of procedure and thus precipitated "a very embarrassing situation."

This source, who asked not to be named, said presidential assistants are satisfied that the security program covering government employees is essentially a good one in need of no drastic overhauling.

The official said Benson "probably could have averted this whole controversy if he had conferred first with Secretary of State Dulles" regarding Ladejinsky.

"It didn't," the official declared, "despite a very definite rule requiring him to do so."

The White House rule was described as calling for the heads of government departments, such as Benson and Dulles, to confer when there are differences of opinion about whether a man is a security risk, as there were in Ladejinsky's case.

Benson last month ousted Ladejinsky, Russian-born but a naturalized American, from his post as agricultural attaché in Tokyo, on security and technical grounds.

Benson did so even though the State Department had given Ladejinsky security clearance before Congress transferred jurisdiction over such attaches from that department to the Agriculture Department.

The upshot of the controversy touched off by Benson's action was the hiring of Ladejinsky by the Foreign Operations Administration for a land reform job in Communist-threatened Southern Viet Nam. FOA reportedly acted on instructions from the White House in giving Ladejinsky the new assignment.

He got full security clearance from FOA after what an agency spokesman said was a full FBI investigation.

Benson has insisted that he had no alternative but to fire Ladejinsky under the Agriculture Department's interpretation of the administration's security order.

Eisenhower himself reportedly took no direct hand in the FOA decision to hire Ladejinsky. The President is understood to have left the matter almost entirely to two of his top aides—Chief Presidential Asst. Sherman Adams and Special Counsel Bernard M. Shanley.

They entered the case after the storm broke and are said to have felt the President should not be bothered with the controversy.

Because Adams and Shanley followed that course, it is possible that Eisenhower may decide differently—if he makes a full study of the case—than his aides reportedly have with respect to any need for revision of the security program.

Sen. Humphrey (D-Minn) said he would forward to the President today a letter saying the controversy over Ladejinsky is challenging the President's leadership and should be given a final presidential decision.

Benson told newsmen in Chicago Friday he would still fire Ladejinsky unless he heard new evidence, saying the public doesn't know all the facts.

Snoopy Snooped Too Much

A saucer of milk helps ease an embarrassing situation for Snoopy, a four-month-old kitten at Chicago. Snoopy's head became caught in the drain hole of an oil drum while attempting to catch an elusive mouse. An Animal Welfare League worker rescued Snoopy by applying mineral oil to her head and neck and then sliding her head out of the hole. (AP Wirephoto).

Unexpected McCarthy Trip Delays Peress Case Probe

By JOHN CHADWICK
 WASHINGTON (U)—An unexpected trip by Sen. McCarthy (R-Wis) has put off at least until Wednesday—and probably until Democrats take control of the subcommittee he has headed—any further investigation of Irving Peress' discharge from the Army.

McCarthy had called a special meeting of the Senate investigations subcommittee for this morning, saying he would demand further testimony from Army officials about who was responsible for the promotion to major and honorable discharge of Peress, a New York dentist he has called a Fifth Amendment Communist.

But he left Washington last night saying nothing about where or why he was going. He told an associate he was leaving town unexpectedly.

and would be back probably Wednesday.

Senate sources have indicated that new committee lists for the Democratic-controlled Congress probably will be completed by tomorrow or Wednesday. When that happens, and the Senate approves them, Sen. McClellan (D-Ark) will take over McCarthy's subcommittee chairmanship.

McCarthy's announcement of the closed committee session came as a quick follow-up to the release of a new 10,000-word Army report on his handling of Peress.

At his own request, Peress was honorably discharged last Feb. 2—ahead of the March 31 deadline originally set by the Army—after he had appeared before McCarthy's subcommittee and refused to answer questions about Communist affiliations.

In a letter to the Army last Feb. 1, the day before Peress' discharge, McCarthy had requested that court-martial proceedings be brought against him.

The report released by the Army Friday night said the decision to let Peress receive his honorable discharge Feb. 2 was made by Lt. Gen. Walter L. Weible, deputy chief of staff for administration, and Army Counselor John G. Adams after they discussed McCarthy's letter.

The Army said Weible and Adams decided there was no evidence "to support the inference contained in Sen. McCarthy's letter as to possible subversive activities by Peress at Camp Kilmer" and no basis for reconsidering the case.

Consequently they concluded, the report said, to support earlier staff recommendations to give Peress a discharge as the best and quickest way to get him out of the service.

In calling for a meeting of the investigations subcommittee, McCarthy said he would ask that subpoenas be issued for Secretary of the Army Stevens, Adams, Weible and Brig. Gen. Ralph W. Zwicker, the commander at Camp Kilmer, N.J., when Peress received his discharge there. Zwicker is now in the Far East.

Show Is Halted; Actors Are Held

LOS ANGELES (U)—Interruption of a stage production in Hollywood of the comedy "Charley's Aunt" climaxed the roundup by Secret Service agents of 12 persons wanted for the counterfeiting of \$245,000 worth of \$20 bills.

Agents descended on the Carousel Theater Friday night, arrested two of the actors in the play and ripped up backstage flooring during the performance to seize two bags of fake bills.

The final arrests in the three-state roundup were not announced until Saturday night, after the 12th person was arrested here.

Guy H. Spaman, Secret Service agent in charge here, described the show stopper raid. Agents, who went backstage, said they learned that actor George W. Lewis, one of the leading performers, had the money in bags under the stage.

The agents ripped up stage flooring and found the bags which Spaman said contained \$9,000 in fake bills. Lewis was arrested during the intermission after the first act and the show stopped. Another actor, John B. Roche, also was arrested.

Six of the 12 persons, including an unidentified 17-year-old striptease dancer, were arrested in Los Angeles. The other men arrested here were Glenard Elmer Schmidt, a printer; Roger Hazlip, 29, and Ralph E. Guffey, 23.

Red-Haired Chicago Office Worker Held In Slaying Of Lover

WAUKEGAN, Ill. (U)—A 28-year-old red-haired office worker has been charged with murdering a sales engineer Lake County authorities say she named as the father of her unborn child.

The woman, Alice Miller of Chicago, will be arraigned in magistrate's court today on a charge of shooting to death Charles G. Marks Jr., 28, with whom she had driven to a Waukegan railroad station Saturday. They had been accompanied in Marks' car by his mother, Mrs. Florence Marks.

Police said Marks staggered onto the station platform screaming, "I've been shot," and then collapsed. He died in a hospital.

"I only wanted to scare him," police quoted Miss Miller, who formerly worked for the same company as Marks. Police said Miss Miller told them Marks refused to marry her and they quarreled over money she said Marks had given her but wanted repaid.

No Changes Planned
 PANAMA (U)—Informants said today President Jose Ramon Guisado has decided to keep intact the Cabinet he inherited from his murdered predecessor Jose Antonio Remon. But tension remained high in the five-party ruling coalition.

Rep. Ikard Raps FPC Control Of Natural Gas

WASHINGTON (U)—Rep. Frank Ikard of Wichita Falls scheduled a House speech today, saying natural gas producers and gatherers should be exempt from Federal Power Commission control and that the Natural Gas Act should be so amended.

Ikard said federal control could hurt consumers through a curtailment of production and exploration.

Reviewing the Phillips Petroleum Case, Ikard said the FPC originally held it had no jurisdiction over operations of the company and then found its position reversed by the Supreme Court last year.

Referring to the Power Commission assumption of jurisdiction over producers and gatherers July 16, 1954, Ikard said:

"The FPC order suddenly freezes prices and contractual terms retroactively as they were last June 7. An industry, particularly such a speculative one as the production of natural gas, is constantly in a state of flux. To freeze it suddenly brings its myriad units and its dynamic growth to a jarring halt. . . .

"The effect of the commission's order freezing gas prices at the wellhead has been practically to stop cold the industry's national expansion. . . . consequently, some communities which would soon have been supplied with natural gas will go without it.

"If this and other heating fuels are subjected to the kind of regulation enforced by this order, competition will stagnate, and lack of competition is the best way to exploit consumers."

He said he intended to introduce a law exempting gas producers and gatherers from Power Commission jurisdiction.

Pensioner Stabbed To Death In Fight On Cowboy Boots

OKLAHOMA CITY (U)—A 74-year-old pensioner was stabbed to death in a downtown hotel lobby last night in what police said was a fight over criticism of his cowboy boots.

The victim was Andrew Jackson (Bug) Staggs, a resident of the hotel. Officers arrested another hotel occupant, Oren Nettles, 56.

A witness said the fight developed when Staggs pulled a knife and challenged Nettles. Officers said Nettles then drew a pocket knife and handed it to the older man.

"It's hard to open," he said. "You open it for me so I can have an equal chance."

Staggs opened the knife, returned it to Nettles and the stabbing followed, police said. Nettles was not hurt.

DATE DATA

By Beverly Brandow

Flowers—And Costs
 Dear Miss Brandow:
 If a boy brings your a corsage that you're allergic to, do you have to wear it and sneeze, or can you ditch it?
 Gerry Ann

Looks like somebody goofed. He should have found out about these things first, but because he didn't is no reason to add another name to the goof list.

He spent good money on those posies, and he's proud of himself, thinking he made a big hit. Don't puncture his expensive dream. Wear your corsage as far from your face as you can get it. Pin it in the back of your hair, at your waist, or even on the skirt of your dress and take one of your trusty little allergy pills before you leave.

If the situation is pretty terrible, pin the flowers to your wrap and check it when you arrive at your destination.

Dear Miss Brandow:
 If a boy who frequently takes a girl nice places once comes up short and has to rely on his girl to pay the bill, does he have to pay her back later? After all, the date is over and done with and he has spent quite a bit of money on her.

Hark

What reasoning! You'll have to come up with some better logic than that. Of course you've spent money on her. You are the boy, and courting the female is the role of the male. You invited her, remember? Running out of money could happen to anybody occasionally, but it does not shift your responsibility to her. By all means pay her back, but not in flowers, candy, or jewelry. In cash! You may have to economize by skipping a few dates with her in order to do it, but it is worth the sacrifice to maintain your good reputation as a smooth date.

Are you falling for a line? Send for Beverly Brandow's free booklet, "Is It Just A Line?" in care of The Herald. Please enclose a stamp to cover mailing.

Broyles' Name Added To List

LITTLE ROCK, Ark. (U)—Texas Tech's DeWitt Weaver and Frank Broyles, Georgia Tech backfield coach, are among candidates for the head football coaching job at the University of Arkansas.

Those names were the only ones mentioned by Arkansas officials after they huddled more than two hours behind closed doors in a Little Rock hotel yesterday, mapping plans for the hunt for Bowden Wyatt's successor.

Wyatt, who lifted the Razorbacks from the depths of the Southwest Conference to the championship in two years, vacated the job Saturday to become head football coach and assistant athletic director at his alma mater, the University of Tennessee, where Harvey Robinson was fired after a poor season.

Athletic Director John Barnhill declined to comment after the meeting. But William Good, assistant to the university president, admitted that Weaver and Broyles are on the list of "six, eight or ten" men who are considered "real prospects."

Like Wyatt and Barnhill, Broyles and Weaver are graduates of the University of Tennessee.

At Detroit, where he is visiting friends, Weaver said he has been "thinking plenty" about Arkansas, "but I haven't made up my mind what I'll do if they offer me the job."

Alert Airman Gets Credit In Capture Of Burglar Suspect

DALLAS (U)—Police credited an alert airman yesterday with the capture of a burglar suspect.

Richard Morales of Perrin Air Force Base in Grayson County saw a man with a money bag leave the bar about 3 a.m.

Morales saw music and cigarette machines in the bar smashed. The airman asked a cafe man to call police. Then he grabbed a taxi and followed the burglar's cab.

Morales asked the cab driver to radio the number and route of the suspect's taxi to the cab dispatcher. The dispatcher relayed the information to police, and they nabbed the man. He had \$104 in the bag and two cold beers from the looted bar.

AN EXCITING NEW DIRECTION in motorcar styling begins with Chrysler for 1955 . . . longer, and inches lower than other big cars, in the most striking new car design of recent years! Noteworthy is the new sweepback Super-Scenic Windshield that "wraps around" both top and bottom for greater (and safer) vision. All Chryslers are now V-8's, with engines up to 250 hp. The new Chrysler look of mobility and purposeful power is further translated into action by the most automatic transmission in any car . . . exclusive Chrysler Full-time Power Steering . . . and Power Brakes with a new, safer acting double-width brake pedal. By all odds, this is definitely the car to look at and drive first in 1955!

CHRYSLER'S 100-MILLION-DOLLAR LOOK! . . . a forecast fashion for all cars to follow!

GOOD DRIVERS DRIVE SAFELY!

A Bible Thought For Today—

"She of her want did cast in all that she had." — Mark 12:44. Nothing is more contagious than a good and noble example. This poor widow's example has stimulated the gift of countless billions. A niggardly withholding not only robs a good cause but the bad example is apt to be followed by others.

Shrinking Manpower Doesn't Back Up Diplomacy Based On Strength

In his letter to Defense Secretary Wilson outlining his ideas of how to achieve national security President Eisenhower states closer than any responsible American official has yet come to a philosophy of defense based on an armed establishment designed primarily to protect our continental arms production facilities from enemy destruction.

with opposition from the Democratic leadership in Congress. We imagine the opposition will say that the President's program is a reversal of former policy designed to discourage aggression by maintaining a powerful military force capable of striking anywhere in the world, and substituting therefor a force whose primary concern is continental defense—a theory that smacks of isolationism.

Even The Mighty In India Have Clay Feet In Eyes Of Own Folk

The Christian Science Monitor's expert on foreign affairs and the ins and outs of diplomacy, Joseph C. Harsch, declares that the "most important single statesman in the world at the close of the year" was not Malenkov or Molotov, Churchill or Eden, Eisenhower or Dulles, but Nehru, the Indian prime minister.

Indian messiah twist and squirm. It is the distressingly — to Nehru — frank work of "the other Nehru" — the prime minister's much younger sister. What she says about Nehru and the other Nehrus sister, Madama Pandit, isn't calculated to increase the stature of either in the eyes of the world, and especially in the eyes of India.

Inez Robb's Column

If Police Can Spare A Minute, This Show Ought To Be Closed

The harsh fact that New York City is woefully underpoliced has never been more emphatically demonstrated than at the moment. So far, the city has been unable to spare even one of its finest for the 10 minutes it would take to snap a padlock on the Alvin Theatre.

actress-playwright named Mae West paid a fine of \$500 and spent a week in the workhouse for writing and appearing in a play called "Sex."

POTOMAC FEVER

WASHINGTON — Democrats take over Congress with a pledge to cooperate with Ike. To a man, they'll get behind him. Anytime he stumbles, they'll be there to give him a helping shove.

It seems a pity that Truman Capote, who is responsible for the book, and Harold Arlen, who wrote the music and collaborated on the lyrics with the author, were not supplied with a large box of chalk and a long fence in uninhabited territory. Thus equipped, they might have purged themselves without involving the play-going public.

Foreign Aid Boss Stassen hires Wolf Ladizinsky, fired by Agriculture Secretary Benson as a security risk. If you can't follow this, it's a proof that you're confused about Washington — and expertly qualified to come and help run it.

Former Vice President Barkley takes the oath again as a Kentucky Senator. This has been going on so long that Kentucky school kids are taught the state's major exports were Daniel Boone, Bourbon and Barkley — although not necessarily in that order.

Internal revenue sends out millions of cards to taxpayers making less than \$5,000. This new tax form is called the "Dior Form." The form is flat when it reaches you — and you're flat when it leaves.

DETROIT — Bus riders beat a passenger to death when they found out he was a rat. The rat got on the bus without waiting in line. And like a rat, he sneaked in a rear door without paying a fare.

The World Today—James Marlow

Enemy Could Take Over Nation In Time It Took Army To Discharge Maj. Peress

WASHINGTON — An enemy would have time to invade the country and start raising a family if it took the Army as long to fire a shot as it did to get rid of Irving Peress after he balked on questions about communism.

WASHINGTON — An enemy would have time to invade the country and start raising a family if it took the Army as long to fire a shot as it did to get rid of Irving Peress after he balked on questions about communism.

WASHINGTON — An enemy would have time to invade the country and start raising a family if it took the Army as long to fire a shot as it did to get rid of Irving Peress after he balked on questions about communism.

Notebook—Hal Boyle

Many Interesting People Met In Gambling Casinos

NEW YORK — You meet so many interesting people in a gambling house, and not all of them cost you money.

NEW YORK — You meet so many interesting people in a gambling house, and not all of them cost you money.

NEW YORK — You meet so many interesting people in a gambling house, and not all of them cost you money.

"Nine pounds, 14 ounces, Madam, and the Government would greatly appreciate your getting your OWN home scale..."

Around The Rim—The Herald Staff

Nothing Static Or Ordinary About The American Slangage

Little wonder Americanized English is perhaps the most difficult of all tongues to master and that foreigners who speak it often do much better by it than those who have used it all their lives.

ish is the most colorful and, if not the most colorful, then the most complex and bewildering, at times.

These Days—George Sokolsky

Dr. Peale's Book Sales Show That People Know Need Of God

For 114 weeks now, Dr. Norman Vincent Peale's book, "The Power of Positive Thinking," has been at the top of the best seller list. That is a new item surely as significant as the Dr. Sam murder case, as Gloria Vanderbilt leaving Leopold Stokowski, or as the conflict between Arthur Godfrey and his staff.

Even Soviet Russia is discovering the frightful condition that too many Russians go to church and the atheistic campaign has been stepped up. The amazing fact is that science has not killed God, by whatever name he may be called. The pull toward the Divine Intelligence is so great these days, that it is perceptible.

For 114 weeks, this little book "The Power of Positive Thinking," stands at the top of the best seller list because in these troubled times, in spite of what all the current wise ones say, men and women do turn to God and to a message that relates man to God. In our country, materialism does not satisfy. It is not enough. It is not comforting. Luxury does not make for peace of mind; a high standard of living does not make for contentment; money in the pocket or in the bank does not produce happy families. More and more of our people are beginning to recognize what Arnold Toynbee has said so correctly:

our heritage and tradition are rich in spiritual insight. And the case for democracy is a formidable one and ought to be stated in its fulness and with positive power. No one is under any illusion that simply by stating a set of ideas we can bring into tranquil repose a world torn by convulsive revolutionary forces. But it is equally unrealistic to deny that our present struggle is a fierce competition for men's minds and souls...

Austin Recollections—Raymond Brooks

Political Playback

I think one execution of a condemned criminal ought to be the legal limit any newspaperman is required to cover.

for the lever of the trap, the widow darted forward and tried to grab it and send the man on his way. Two men got hold of her hands and held her back, and she was struggling to get hold of the lethal lever when the sheriff yanked it.

The building had an open "well" in the second- and third-floor corridors, with a beam across the upper one at the top of the guard railing. The execution platform was laid on planks at the second floor, and these planks were tied to a layer that would yank them free.

Maybe the pattern of that tall Texas talk was invented somewhere else. There are many examples like "when the United States joined Texas."

Intemperate Snooze

BRIDGEPORT, Conn. — Judge Meyer Dworkin sent Robert Wenman, 40, to jail for 30 days because he got drunk and fell asleep in a hallway. The hallway led to the headquarters of the Women's Christian Temperance Union.

There were about a dozen people standing around. The widow of the man whose murder was being avenged by the law was among them.

Farm Life Attractive

GREENVILLE, Tex. — J. K. Oler figures the bright lights of the city most glow pretty dim after a while. He advertised a bit of farm land for rent in a city paper and got 13 quick replies.

Published Sunday morning and weekday afternoons. Entered as second class matter July 16, 1926, at the Post Office at Big Spring, Texas, under the act of March 3, 1979.

Tells About Make-Up

Pretty Lori Nelson, winner of last year's poll to name the actress most likely to become a top star during 1955, tells Lydia Lane her secret of applying make-up for a natural glow. Lori stars in "Revenge of the Creature" for Universal-International.

HOLLYWOOD BEAUTY

Use Make-Up Lightly, This Player's Advice

By LYDIA LANE
 HOLLYWOOD — When I picked up Lori Nelson at Universal-International to take her to visit the veteran's hospital, she looked pretty enough to have stepped off the cover of a magazine. "There is no doubt about it," she said. "Under the guidance of the Hollywood studio, you learn to make the most of everything you have. I was only sixteen when Universal signed me up and I've certainly profited from seeing myself on the screen."
 "Don't you think a series of good photographs would be a good substitute for those who cannot see themselves on a movie screen?" I suggested.
 "Yes, I do," Lori replied. "You can never look into a mirror with

Borden County HD Council Meets

Borden County Home Demonstration Council met at Gall Court-house with attendance of officials of the seven clubs of the county being complete.
 Mrs. Bill Stephens, O'Donnell, council chairman, presided during the session. The reading and correction of the standing rules for 1955 were made.
 It was reported that 45 4H Club pins had been awarded to the boys and girls of the County. E. L. Farmer, received the boys' Gold Star award and Barbara Reeder the girls' award.
 Plans were laid for the County 4H Club Stock Show the first Saturday in March. There will be individual entries as well as educational booths in the ladies' division. Basket lunch to be spread at the noon hour. The THDA district meeting is to be at Morton, April 12th, refreshments were served by the County Extension Agent Mrs. Edith W. Hughes. The Gall Club is the refreshment committee for the next meeting.

Hostess Set

By CAROL CURTIS
 All trimmed in big, bold, black thread crochet trivets—the pink cotton apron and the two handsome potholders are made excitingly new by means of the crocheted old-fashioned "trivets" which are 9 inches large. Actual size trivet detail, all instructions.
 Send 25 cents for PATTERN No. 627, YOUR NAME, ADDRESS, PATTERN NUMBER to CAROL CURTIS, Big Spring Herald, Box 129, Madison Square Station, New York 10, N. Y.
 The NEEDLEWORK GUIDE, 30 pages, 150 designs for knitting, crochet, embroidery, hairpin lace, dozens of beautiful color transfers. Order as you do needlework patterns. Only 25 cents.

Capt. Williams Is Hyperion Speaker

"Writers, the ones who will undergo any hardship to be a writer, are born and not made," members of the 1930 Hyperion Club were told Saturday afternoon at their regular meeting.
 The club met in the home of Mrs. J. Y. Robb with Mrs. Leroy Tidwell as cohostess. Capt. Walter Williams of Webb Air Force Base was the speaker, and he told the group about his brother, Tennessee Williams. He gave an account of the life of the writer, showing how, at an early age his talent for writing was obvious.
 Capt. Williams told of the struggle to write and hold a position in a shoe company at the same time, which cost his brother his health for a time. He also brought out facts about the first stage success, "The Glass Menagerie" and told about how Tennessee came to write another success, "Street Car Named Desire."
 Clara Seccrest presided for the business meeting. She appointed the following nominating committee: Mrs. Elmo Wasson, Mrs. M. H. Bennett and Mrs. E. L. Powell. The club decided to have a welfare committee as a standing committee for the group.
 About 23 attended the meeting, with Mrs. Omar Pitman and Mrs. Marie Carter present as members by reinstatement. The next meeting will be on Feb. 5 with Mrs. E. V. Spence and Mrs. Vic Alexander as hostesses.

Previews Of Spring Fashions Show Curves Here To Stay

By DOROTHY ROE
 AP Women Editor
 NEW YORK (AP)—New York designers revealed to the nation's fashion press today that women can look feminine and alluring even though their bosoms do not precede them into a room.
 Previews of new spring fashions were a distinct relief to editors frightened by Paris reports of a flat-chested era. Although the new silhouette does not require false, plenty of curve are present. The bustline is naturally rounded and slightly lifted, the waistline is unhipped and emphasis falls to a slim, sheathed hipline.
 The long torso silhouette, which forms the theme of practically every collection, gives a tubular, elongated look to the midriff. Fits snugly about the hips, and may flare into pleats below the hipline. Although the hip belt is much in evidence, it is not the hip belt of the flapper era. The bodice is carefully fitted above, so that a slim waist is still a vital necessity to glamor.
 Bouffant petticoats may appear in cocktail and dinner dresses, but for daytime the path is straight and narrow. Many of the new H-line or long-torso styles have pleated skirts, but these too are slim in effect, often being attached part way down, to preserve the tubular look.
 Though bosoms are not exaggerated, as formerly, they are still present and accounted for, and no boyish figures will be necessary to fit into the new clothes. The long-torso silhouette requires a smooth, unbroken line from bust to hips, achieved best by an all-in-one foundation which molds and smooths the midriff.
 Dresses look like suits this spring, and suits look like dresses. Both hug the figure to the hipline, which usually is accented by a belt or cuff—and woe to the lady who has acquired middle-age spread below the belt.
 The long-jacket suits have a new and fresh look, after several seasons of short curved jackets with nipped waistlines. Many are cut on riding jacket lines, others button from chin to hip line, but all are slim and meticulously fitted.
 Skirts are slightly shorter, but only slightly. Fabrics are lightweight and handsome, with many

COMING EVENTS
 MONDAY
 FIRST PRESBYTERIAN WOMEN OF THE CHURCH circles will meet at 3 p.m. at the church, 1115 N. Main; the Daughters of the American Revolution will meet at 7:30 p.m. in the home of Mrs. F. H. Talbot, 106 Canyon Drive, and the BWC will have a covered dish supper at 7 p.m. at the church.
 WESTSIDE BAPTIST WMU circles will meet as follows: Ora Morrow at 3 p.m. at the church; Anita Armstrong at 7:30 p.m. at the church.
 WESLEY MEMORIAL METHODIST WMS will meet at 7:30 p.m. at the church.
 ST. MARY'S EPISCOPAL AUXILIARY will meet at 1:30 p.m. at the Parish House.

Glasscock Wildcat Is Spotted 2 Miles West Of Garden City

Ray Morris Drilling Company of Odessa spotted its No. 1 Sam P. Christie as a wildcat about two miles west of Garden City in Glasscock County. It will be drilled to 11,000 feet to find and test the Ellenburger.

Six field locations were staked in the area. They are in the Howard-Glasscock, Luther Southeast, Moore, Westbrook, Snyder and Mungerville Pennsylvanian fields. Potential was reportedly under way this morning at Newsom No. 1 Simmons, project in the Vaughn area of the Moore field, and tubing was run partway at Newsom No. 2 Simmons.

Andrews
Hanco No. 1-A Phillips, Texas-University is a new wildcat about 12 miles southwest of Andrews slated for depth of 5,000 feet. Location is C NE NE, 17-10-University survey.

Borden
Shell No. 1 Clayton and Johnson, wildcat about 14 miles southwest of Gall, has been plugged and abandoned after finding no shows on a drillstem test from 9,998 to 10,202 feet. The test was for two hours and recovery was 280 feet of sulphur water-cut drilling mud and 5,800 feet of sulphur water. Location is C SE SE, 44-32-4n, T&P survey.

Howard
Fleming and Fleming and Kimbell No. 23-B D. H. Snyder, 330 from south and 2,970 from west lines, 23-30-1n, T&P survey, has been staked in the Snyder field about eight miles south of Coahoma. It will be drilled to 3,200 feet, starting at once.
Newsom No. 1 W. E. Simmons, 330 from south and 2,310 from west lines, 12-34-1n, T&P survey, dropped part of working barrel and had a fishing job which has been completed. Potential is now underway. Newsom No. 2 Simmons, 1,650 from south and 2,310 from west lines, 12-34-1n, T&P survey, had perforations from 2,196 to 3,202 feet treated with 15,000 gallons of acid and 30,000 pounds of sand. Part of tubing was run, but operator was unable to get the remainder in. This is another Moore field project in the Vaughn extension area.
Shell No. 1 N. H. Reed et al., 2,011 from north and 1,980 from east lines, 19-30-1n, T&P survey,

failure and drilled out to 9,655 feet for the Wolfcamp completion. Location is five miles northwest of the Sweetie Peck field of Southwest Midland, C NW NW, 46-42-3n, T&P survey.

Glasscock
Continental No. 6 S. Gubrecht, 990 from north and 330 from west lines, 6-32-2n, T&P survey, is a new Howard-Glasscock field location about five miles southwest of Forsan. Depth is slated for 2,600 feet, with operations to start at once.
Ray Morris of Odessa staked his No. 1 Sam P. Christie 660 from north and east lines, southeast quarter, 9-34-4s, T&P survey. The wildcat is two miles west of Garden City and will be drilled to 11,000 feet to find and test the Ellenburger.

Mitchell
Blue Danube of Fort Worth No. 1-C Bird, 330 from north and 2,310 from east lines, 34-28-1n, T&P survey, is a Westbrook field try about 10 miles west of Colorado City. It will be drilled to 3,200 feet.

Schleicher
Ashmun and Hilliard and Fortune No. 1 Mrs. Grace O'Harrow has developed shows for possible production in the Strawn reef lime. Test was taken from 5,375 to 5,385 feet, with the tool open two hours and 20 minutes. Gas surges in eight minutes and the gas blow covered was 100 feet of heavily oil and gas-cut drilling mud, with no shows of formation water. Tentative top of the Strawn reef lime was 5,372 feet. Elevation is 2,412. Location is C SW NW, 69-H-GH&SA survey, three miles southeast of the Milliply Butler field. Operator was reportedly testing deeper today, and a sample of the Ellenburger is slated.

Sterling
Sunray No. 1 W. N. Reed, 372 from north and 1,011 from east lines, 152-29-W&NW survey, hit 2,929 feet in lime.

bored to 3,349 feet in lime. Stanalind Oil and Gas Company staked the No. 1 Marie Bryson in the Luther Southeast field. It is 660 from south and east lines, southwest quarter, 22-32-2n, T&P survey, about 12 miles northeast of Big Spring. Projected drilling depth is 10,200 feet.
Duncan Drilling Company No. 4 Brindley is a new Moore field venture about 1,654 from south and 990 feet from east lines, 18-33-1n, T & P survey. Location is six miles southwest of Big Spring, and depth is slated for 3,600 feet. Operations are to start at once.

Contrasts In Snow

Liberty still holds her torch aloft, at Third and Nolan (above), but it's encased in a cold shroud of snow. And the desert plants at Howard County Junior College (top left) appear in the wrong setting half covered with snow. Nature provides the sparkling showroom for the new automobiles on the sales lot (lower left). Sunday's snowstorm, the biggest here in years, surprised even the weatherman who had forecast no precipitation. (Keith McMillin Photos.)

SNOWFALL

(Continued from Page 1)

family was stranded because of the weather, the Salvation Army reported. The lodge was well filled, but that was not unusual. The office stayed open until past midnight in event emergency shelter was needed.
By late afternoon the word was broadcast that Big Spring schools would not open Monday. Then came word that Howard County Junior College would not attempt its Monday sessions; by radio and TV came similar word on Forsan, Coahoma, Knott, Stanton, Ackerly and Gay Hill.

Police records showed two accidents right after the snow started. Then there was another at 6:15 p.m. Sunday, another at 7:45 a.m. Monday, followed by still another at 8:05 a.m. There were seven mishaps outside the city, but as these were described as minor or as "fender bumpings."
Dan Saunders, Martin County Sheriff, said that all roads in Martin were apparently open and there were no accident reports. Snow amounted to about seven inches over the area and will be a big help agriculturally.

SEVERAL CLUBS CANCEL MEETS
Among meetings which were scheduled for Monday evening but which have been canceled are:
Distributive Education Club. The meeting has been re-scheduled for 8 p.m. Thursday at the Senior High study hall with Joe Gordon, member of the Internal Revenue Service staff, to speak. Parents as well as students are invited.
Tri-Hi-Y and Hi-Y Clubs. The YMCA announced that both the senior groups had canceled the meetings for this week.
Pythian Sisters will not meet this week.
Washington Place P-TA will not meet Monday night; instead, the meeting is scheduled for one week hence, Jan. 17.
North Ward P-TA meeting, scheduled for Tuesday evening, has been canceled.

Snow amounted to 4 1/2 inches at Colorado City but lightened as it moved eastward. Midland had up wards of seven inches. The fall was about five inches in northern Howard and lightened to around four at Ackerly. By some reports it amounted to around two to three at Lamesa. Snyder had approximately eight inches of snow. The moisture content at Colorado City was .43 of an inch. Fine flakes fell out of the fog Monday morning for a brief time. All highways were open in that area and schools were functioning. No injuries were reported.

National Guard Cancels Its Drill
There will be no National Guard drill this evening. Guard officers said the regular meeting this week had been canceled due to the weather.
TEXAS SNOW
(Continued from Page 1)

Importing feed, keeping the cattle in good shape, I've tried to feed some of the deer, too.
"But most of the deer are out in the hills with nothing to eat. This cold, wet weather gives them pneumonia when they are weak."
In the cotton, wheat and sheep country of West Texas, the snow held out the promise of some winter grass. It was expected to help put the soil in shape for spring planting, if more moisture comes.
Southwest Oklahoma received a fairly generous amount of snow with as much as four inches reported on the ground at Frederick in Tillman County.
Three to four inches of snow was reported in an area 40 to 45 miles on either side of a line from Lawton to Fort Smith, Ark. This includes much of southwestern central and southeastern Oklahoma.
Rain and snow continued falling in wide areas of the nation. The day also brought a general warm-up trend.
Rains extended eastward to Alabama.
Light snowfall or snow flurries extended across northern United States from Vermont to Washington, and showers sprinkled the Pacific Coast and Great Basin in the Far West.
Pheasants were introduced into the United States from China in 1880.

Crockett
Pat Humphreys and Humphreys Oil Company No. 1 Half Estate et al had good shows of oil and gas in both horizontal and vertical fractures in the Ellenburger on a core from 7,825 to 7,954 feet. There was no formation water on core, but operator is drilling ahead. Ellenburger top is 7,000 feet, and elevation is 2,145. Good shows of gas were found in the Yates, and some shows of oil and gas were uncovered in the Grayburg and San Andrews. Location is 11 miles southeast of Iran and four and a quarter miles west of the multiphase Couch field. Drillsite is 330 from north and 2,900 from west lines, 57-1-L&GN survey.
Texas Crude No. 1-II Velma Bartlett, 2,540 from north and 660 from west lines, 11-34-4n, T&P survey, has been plugged and abandoned after tests through perforations between 6,795 and 6,870 feet. Salt water developed. The wildcat is six miles northeast of Sparenburg.

Dawson
Seaboard No. 2 Dean, 3,302 from south and 1,980 from west lines, 11-34-5n, T&P survey, is now testing the upper Spraberry. Total depth was 8,711 feet in reef lime. There was a little show of oil and some salt water. Plugged back depth is 7,113 feet where 5 1/2-inch casing is bottomed. This wildcat is about nine miles east of Lamesa.
Texas Crude No. 1-II Velma Bartlett, 2,540 from north and 660 from west lines, 11-34-4n, T&P survey, has been plugged and abandoned after tests through perforations between 6,795 and 6,870 feet. Salt water developed. The wildcat is six miles northeast of Sparenburg.
Stanalind No. 4 W. J. Classen is a new Mungerville Pennsylvanian location about seven miles northwest of Lamesa. It is 1,500 from north and 717 from west lines, southeast quarter, 95-M-EL&R survey. A test of the Pennsylvanian is slated at around 8,800 feet. Operations are to start immediately.

Ector
Sam D. Ares, Curtis and Lomax and Harris and Walton No. 1 J. Ellis Cowden has been finished as a flowing Wolfcamp discovery in the Southeast Ector County. Potential flow was 123 barrels of 45.5-gravity oil. Flow was through a 24-64 1/2-inch choke and perforations were between 9,495 and 9,522 feet. Tubing pressure was from 75 to 200 pounds, and gas-oil ratio was 1,187-1. The project was originally drilled by Vina Bagley Estate to 14,035 feet and abandoned in April, 1951. Present operators re-entered the well.

MARKETS
WALL STREET
NEW YORK (AP)—The stock market opened higher today. Trading was heavy. General Dynamics opened up 1/4 at 29. Chesapeake & Ohio up 1/4. General Electric up 1/4. Baltimore & Ohio up 1/4. Kennecott up 1/4. American Cyanamid up 1/4.
Buying orders that came in over the weekend were so great that the tape was closed 1/4.
LIVESTOCK
FORT WORTH (AP)—Cattle 4,000; steady to stronger; good and choice steers and heifers 14.00-15.00; common and medium 10.50-11.50; fat cows 10.00-12.00; good and choice slaughter calves 14.00-15.00; common and medium 10.00-11.00; stonker steer calves and yearlings 11.00-12.00; stock cows 8.00-10.00.
HOGS
FORT WORTH (AP)—Choice 100-200 lb 20.00; heavy 18.00; steady to higher; good and choice 16.00-18.00; utility and good 15.00-17.00; utility and good shams 14.00-15.00; over 6.00; feeder lambs 12.00-13.00.
COTTON
NEW YORK (AP)—Cotton was 20 to 40 cents a bale higher in cotton today, March 24 76, May 24 76, July 24 76.

Eisenhower Asks Tariff Cut Powers

By STERLING F. GREEN
WASHINGTON (AP)—President Eisenhower today asked Congress for power to make a "moderate, gradual and reciprocal" cut in tariffs by as much as 15 per cent.
In a special message, the President said this nation's own interest requires a foreign economic program that will stimulate economic growth in the free world. He said: "Our own self-interest requires such a program because (1) economic strength among our allies is essential to our security; (2) economic growth in underdeveloped areas is necessary to lessen international instability; growing out of the vulnerability of such areas to Communist penetration and subversion; and (3) an increasing volume of world production and trade will help assure our own economic growth and a rising standard of living among our own people."
In the first of series of special messages to the Democratic 84th Congress, the President specifically renewed the request he made to last year's GOP-run Congress, without success, for a three-year extension of the Reciprocal Trade Agreements Act with new tariff-cutting power.
As other steps in the foreign economic field, Eisenhower also recommended:
1. CUSTOMS SIMPLIFICATION. He asked that Congress take action further streamlining customs administration and procedure which, Eisenhower said, still causes "unwarranted delays" and hampers international trade.
2. PRIVATE INVESTMENT ABROAD. He recommended a cut of 14 percentage points in the tax rate paid by corporations on income earned abroad, and asked Congress to defer the tax on income of foreign branches until the funds are removed from the country where earned; and to study the further use of tax treaties by recognizing tax concessions made to foreign capital by other countries.
3. TECHNICAL COOPERATION. He said this country should carry forward its technical assistance programs, concerned with "know how rather than large funds." Eisenhower asked favorable action on his request for technical aid funds in his budget message due next week.
4. GENERAL AGREEMENT ON TARIFFS AND TRADE (GATT). This country and 33 others are now reviewing the GATT agreement for lowering of trade barriers, Eisenhower said, to simplify its terms. When the proposed revisions are complete, he said, the report will be sent to Congress for approval.
5. INTERNATIONAL TRAVEL. To encourage travel abroad by Americans, an important source of dollars for many countries, Eisenhower asked Congress to increase the duty-free allowance for tourists from \$50 to \$100.
6. TRADE FAIRS. Eisenhower said this country has embarked on a major program of participation in international trade fairs. Until recently, he said, this country has been "conspicuous by its absence" at such industrial displays while the Soviet nations have entered costly exhibits. He said he will ask funds for further participation in fairs.
As to tariffs, the message followed generally the broad lines of last year's.
The President declared Congress can "add immeasurably to the security and well-being of the United States and the rest of the free world" by giving him authority to:
1. Negotiate tariff reductions not exceeding 5 per cent on selected products.
2. Cut any rates which exceed 50 per cent down to that level over the three-year period.
3. Reduce by not more than one half, in three years, the tariffs on goods which are not now being imported or which now are being imported "only in negligible quantities."
The President asked this authority "subject to the present tariff and escape clause provisions." Under these provisions, U.S. industries greatly damaged by tariff cuts can seek an upward revision of the cuts.
Eisenhower did not mention amendment of the "buy American" laws, which obligate foreign companies to limit considerably lower than American firms to get government contracts.
He called for congressional approval of U.S. membership in the proposed 100 million dollar International Finance Corp., under the World Bank. This corporation would be set up to increase private investment in Latin-American and other less developed nations by making cotton wheat, tobacco, and other agricultural products a government guarantee of repayment.
The President, calling his program a "moderate" one, said: "It is essential for the security of the United States and the rest of the free world that the United States take the leadership in promoting the achievement of those high levels of trade that will bring to all the economic strength and security which the freedom and security of all depends."
Eisenhower bid for farm-state backing for his trade program with this observation:
"No single group within America has a greater share in a healthy and expanding foreign trade than the farmers. One-fourth to one-third of some major crops, such as wheat, cotton, wheat, tobacco, must find markets abroad in order to maintain farm income at high levels."

Shelby Hall, 69, Dies Here
Shelby Hall, retired carpenter who had been incapacitated for nearly a quarter of a century, died here Monday morning just two days short of his 70th birthday.
Arrangements are pending arrival of some of the children.
Mr. Hall passed away at his home at 1804 Scurry Street. He was a native of Russellville, Ky., where he was born on Jan. 12, 1888. He brought his family to Big Spring in December of 1920.
Illness struck him in 1930 and he had been an invalid most of the time since then. Although disabled, he continued to operate a small shop for several years.
The body is at Nalley Funeral Home.
Surviving him are his wife, Mable; four sons, Forrest Hall, Hollywood, Calif.; Lewis Hall, Levelland, Ulysses Hall, Big Spring, and Jesse Hall, Graham; one daughter, Mrs. Fannie Sue Broughton, Big Spring. He leaves two brothers, Emmett Hall, Big Spring, and Noah Hall, Russellville, Ky.; nine grandchildren and five step-grandchildren.
He was a member of the W.O.W. and of the First Christian Church. Burial will be in the City Cemetery beside the grave of a son, Marvin, who passed away in 1941.

AUTOPSY PERFORMED

Bleeding Victim Succumbs After Week Of Injections

DALLAS (AP)—Hubert Harris died suddenly early today to end a week-long fight to keep blood flowing through his veins while doctors tried to find a way to keep it there.
More than 100 pints of blood had been pumped in a steady stream into the manufacturer, 47, bleeding "everywhere" from a mysterious ailment.
An autopsy was performed to find the exact cause of death that came at 6:45 a.m.
The autopsy showed countless small hemorrhages under the intestine wall that resulted in innumerable small ulcers, all bleeding;
a damaged liver; and a weak spot in the body's main artery that was leaking blood.
He had deficiencies in the three factors that causes blood to clot. Harris began losing blood through the intestinal tract last Monday. Two operations failed to find the cause of the bleeding.
Doctors said Harris had received more blood transfusions consecutively than any other known person.
Harris literally lay in a pool of blood throughout his ordeal.
Emmert said most of the bleeding was through the intestinal tract. But he said Harris bled "through the skin, wherever he was given a hypo, everywhere."
The exact number of pints of blood given Harris was being checked. Wadley Blood Center, which processed the hundreds of volunteer donors, said it was an estimated 168 through last night.
Emmert said this figure might be a few pints too high.
"I think maybe it was around 160," he said.
Surgeons performed a five-hour exploratory operation last night.
Emmert said they found "diffused type bleeding from multiple areas prohibiting a surgical method of correcting the bleeding."
Only one in about 100 persons has his rare, B-negative type blood, and doctors, running out of it at times last week, had to give Harris O-negative and B-positive types.

language. The sole reference to Hammarskjold's visit was in an earlier broadcast which charged America with talking about "direct action" to force release of the imprisoned fliers on Jan. 5, "the very day when Dag Hammarskjold... arrived in Peking (Peiping)."
There was no mention of the purpose of the visit.
The New York Times, in a dispatch from New Delhi, said India has made clear to Peiping she favors an agreement leading to quick release of the airmen. The dispatch, by Times correspondent A. M. Rosenthal, quoted qualified sources as saying Indian authorities have indicated it would be politically wise to make such a settlement whether Peiping's spy charges are justified or not.
(The dispatch said the Indians have avoided publicizing this stand, fearing their efforts to mediate might be hampered if Red China got the idea the Nehru government was trying to put on pressure. It added that it was believed some reports have been received from Peiping, but that the general impression in New Delhi was that the Chinese had not revealed what they intend to do about the fliers.)
A government spokesman in New Delhi said today that Prime Minister Nehru has sent so word to Chou since Hammarskjold stopped here on his way to Peiping. The spokesman said there was no change in India's position regarding the 11 fliers, which "always has been and still is that India wishes to eliminate anything causing world tension."

REDS

(Continued from Page 1)

al defense program regardless of whether the employment is in connection with classified work."
The subcommittee said there is now no law nor any Defense Department regulation under which Communists may be ousted from defense plants if they are employed on nonsecret work.
It said, however, that its hearings furnished "sufficient proof of the desperate need for proper legislation and adequate security regulations to protect this country from any possibility of espionage or sabotage in vital defense establishments."
"The subcommittee inquiry clearly revealed," the report said, "that for many years one of the main objectives of the Communist party has been to colonize and ultimately control the basic industries in the United States, such as the steel, the electrical, the railroad, and the shipbuilding."
"To that end concerted efforts have been made by the party in placing Communists in facilities, many of which are engaged in making critical items for the defense of this country."
The report said testimony showed the Communist party organized "intelligence operations on a national level" in basic industries, with party members employed in these plants being pumped for all the knowledge they possessed.
The subcommittee said 48 witnesses testified publicly in its investigation and 22 invoked the protection of the Fifth Amendment against possible self-incrimination when questioned about Communist activity.

Ex-Felon Held In C-City Break-In

COLORADO CITY — His name is William Parker, 32, a two-time loser in previous encounters with the law, was being held Sunday night in connection with a break-in at the Junior High School Lunchroom in Colorado City.
Parker was released from the Oklahoma penitentiary at McAlester on December 21st, according to Chief of Police Leon Yeager, and said that he had been staying in Abilene, although his home is at Pelham, Georgia.
The arrest was made about 5:35 p.m. Sunday after Mrs. J. Ed Richardson, school dietitian, reported the break-in. Mr. and Mrs. Richardson had gone to the school lunch room and smelled fresh coffee and found a man's jacket and wallet on one of the tables. Both were turned over to police and the Richardson's left, locking the building. One of the doors was found open a few minutes later, indicating that the intruder had been hiding in the building during the visit made by the Richardson's. The prowler had entered the building by cutting a screen and prying a window open, made a sandwich and pot of coffee and left by unlocking a door from the inside.
Parker was picked up by Yeager and Patrolman Dave Shackelford, walking along Highway 101 toward Snyder.
Parker's previous convictions were for breaking and entering, Yeager said.

Clark L. Rogers Succumbs Here

Clark Lafayette Rogers, 82, died in a hospital here at 1:50 a.m. Monday.
Mr. Rogers, a retired hardware merchant of 205 E. Campbell, Stamford, had been here with Mrs. Rogers for several months. Their son, Conrad Rogers, is a captain on the city police force.
Services will be held at the Kinney Funeral Home in Stamford at 3 p.m. Tuesday with burial in the Highland Cemetery. The Rev. W. A. Appling, pastor of the St. John's Methodist Church, will officiate. Mr. Rogers was a member of that church.
Mr. Rogers was born in Booneville, Ark., on Aug. 22, 1872.
His immediate survivors are his wife, Lallah, and his son, C. L. Rogers. The remains were to lie in state at the Nalley Funeral Home until Tuesday morning when they will be taken to Stamford.

Duncan Hines Recommends Wagon Wheel

The Wagon Wheel, long known as "Big Spring's Finest Restaurant," is now ranked as one of the finest in the entire Southwest, owners and operators of the establishment proudly claim.

It is recommended by Duncan Hines, world-famous gourmet, as well as by the American Automobile Association, H. M. Rainbolt, owner, has announced.

The Wagon Wheel was organized 12 years ago by H. M. and Ruby Rainbolt.

"The greatest desire then was to serve the most people the best food. During this time, the Wagon Wheel has grown each year," Rainbolt stated today.

"It has always been known that every house is not a home. It is also true that every place where food is served is not a good restaurant," he pointed out.

Rainbolt said there has been much thought and study, as well as a lot of hard work, put into the Wagon Wheel to make it the fine restaurant that it is.

"As a result, its reputation and the customers' viewpoint of it as a perfect place to dine is convincing of its success," the veteran restaurateur declared.

Houses in the new Monticello extension will cost from \$9,000 to \$12,000, Grafa estimates. And arrangements are now being made to get FHA and GI approvals.

All these wide and varied plans point to one thing. The West Texas Sand and Gravel Company had a good year in 1954. And Grafa confirms that 1954 was the best year they have had since 1942-43 when the work was done on the Army Air Field, now Webb AFB.

Besides the regular jobs such as sidewalks, curbs, and houses, the company provided the materials for six major highway projects last year. Also some city jobs and air base work were handled by the Grafas.

But even though it was a bumper year for them, both father and son expect to top it this year. Besides the new work in Monticello, there is a lot of highway and air base work to be let this year and they expect to get a part of it. They are providing sand for the United Concrete Pipe Co. already which accounts for about \$250 in business each day.

The Grafas remind their customers that no job is too large or too small for them to supply the materials. Bring your needs to them at their offices on Birdwell Lane.

McMahon Distributes Many Quality Building Products

Clyde McMahon Concrete Company, widely known in this area for its high grade ready-mix concrete, is distributor in Big Spring for a number of quality building products.

One of the products now being featured by the company is Holiday Hill stone, a long and rectangular material which combines the beauty of other building stones with the practical aspects of brick.

This Holiday Hill stone is cut in varying lengths which add grace and beauty to any structure. It can be provided to builders in any quantity desired, and orders are filled promptly.

One item which McMahon finds popular as a building material in the immediate area is the concrete block. Consequently he always stocks the blocks and has them available on a moment's notice.

The company is also agent for Remington stud drivers and cartridges. The cartridges are shot into building materials by the drivers and will fasten steel to concrete, wood to steel, steel to steel, etc.

The firm, which is located at 605 N. Benton, also has a large supply of expansion joint materials. They can be furnished to builders in carload lots, as can the line of lightweight, haydite concrete tile.

McMahon Concrete Company is famous for its fast, dependable delivery service almost as much as for the quality products handled. A fleet of 25 vehicles is used to provide the ready-mix concrete and other construction materials to builders and contractors.

This fleet includes giant mixing trucks which thoroughly mix the concrete while deliveries are being made. The even consistency of the mixing process insures reliable, uniform and high quality concrete.

Concrete is mixed to the exact design and strength specified by purchasers and in accordance with methods approved by commercial laboratories. As a result there is no crumbling or flaking of the McMahon concrete, and "pockets" of unmixed sand, cement or gravel just cannot be found in the finished product.

The new and modern mixing plant is in service, and the company has its own sand and gravel pits plus a paving aggregate facility. Short-wave radio helps coordinate and expedite operations.

The company can provide up to 400 cubic yards of ready-mix concrete daily.

The Cornelson Staff

Personnel of Cornelson Cleaners, Tenth and Johnson, are shown. They are C. A. Tonn Jr., Ruby Schumacher, Mary Rheinheimer, Jackie Johnson, Lupe Lora, Aurelia Salinas, and E. Chapin. Cornelson Cleaners feature all kinds of alterations and reweaving work. Curb service is provided, as well as free pickup and delivery. Owner and manager of the establishment is Roy Cornelson, a veteran of a quarter of a century in the cleaning and pressing business.

BY GRAFAS

Monticello Area Expansion Slated

Work is scheduled to begin about the 15th of this month on the further development and extension of the Monticello Addition, according to Otis Grafa, co-owner with his son of the West Texas Sand and Gravel Company.

The engineering part of the job, such as surveying and preliminary

landscape plans, has been completed, he said, and the plant should be ready to move in another week. There has been a limited amount of work done on the project for the past three weeks. But existing construction jobs have held back further work, because the Grafas did not want to disturb their plant until these jobs were finished.

One of the last major jobs for which West Texas Sand and Gravel has supplied materials has been the paving and other work on Fourth Street.

The offices, shops, and concrete plant will be moved to a new location before the work progresses far, because a part of the new addition will be developed on the present plant site. Grafa said that new buildings will be built to house the West Texas Sand and Gravel plant along modernistic lines.

The new offices and plant will be on Eleventh Place. The work on the new addition will entail moving about 50,000 yards of dirt between Grafa Street and Birdwell, Grafa pointed out. Two new streets will be in the addition and lots for over 175 homes will be available.

Work in the area will consist of leveling the land, shaping the lots, constructing curbs, gutters, and

Harland Station Affords Service And Hospitality

Whether you're driving a cotton truck, a Rolls Royce or a motor scooter, you're always welcome at the Harland Magnolia Service Station, located at 1000 Lamesa Highway in Big Spring.

Hospitality as well as service has become a trademark of the concern, owned and operated by Grady Harland, who has devoted a great deal of his adult life to catering to the automotive public.

Regular servicing of any vehicle is one way of insuring longer life and better performance of that automobile. Proper servicing is a specialty of the concern.

The best in Magnolia Petroleum Company products are stocked by the concern, including premium and regular grade gasolines and motor oils. A limited amount of automobile accessories, including guaranteed batteries, are sold at the Harland station.

Tire repair is another specialty of the Harland station. If your automobile tires have become worn to the point of being dangerous, consult Grady Harland about replacing them.

Harland is in a position to order any grade or size tire needed or any type vehicle, including white sidewalls. Batteries can also be recharged at the Harland station for a nominal fee.

Harland's is one of the few stations in town which gives S&H Green Stamps with each purchase. Business telephone number of the Harland station is 4-9383.

Mother Of Retail Chain Chiefs Dies

JASPER (A)—Services were held today for Mrs. Sara Griffin Lindsey, 86, mother of two of the founders of the Morgan and Lindsey variety store chain in Texas, Arkansas and Louisiana. She died yesterday. Her sons, B. C. and C. V. Lindsey, were two of the chain's founders.

LOOKING 'E.I. OVER With Tommy Hart

It could be quite a few years before Breckenridge has enough scholars to qualify for AAA ball...

Waco High School's Charles Horton (a tackle on offense and a guard on defense) has been named the state's most outstanding school football player of 1954.

He joins a group that hasn't exactly distinguished itself in college ball.

Others, and the years in which they were named, are: 1948—James Garner, Amarillo, 1949—Jack Newby, Amarillo, 1950—Billy Harris, Wichita Falls, 1951—Johnny Tatum, Lubbock, 1952—Doyle Temple, Temple, 1953—Carl Schlemeyer, Dallas.

In five of those six years, AAAA boys were named, which gives you an idea of how the vote is stacked.

Odessa's Hayden Fry, who guided the Bronchos to a 12-0 victory over Big Spring back in 1946, got into the Rice Bowl game in Tokyo, Japan, Jan. 1 — for one day. Fry was injured and watched the rest of the game from the bench.

Including the 34,400 who saw them in the Gator Bowl Dec. 31, the Baylor Bears played before 324,000 paying customers the past football season.

Ellis Reid, the one-time amateur mitt-slinger who doesn't look much older than he did when he won the 125-pound title in the local Golden Gloves boxing tournament back in 1939, says he was born 15 years too soon.

In his prime, Ellis fought with the thought in mind of getting a couple of lines in the paper. If you think he was publicity-conscious, he was — to this extent.

He makes good logic. Ellis says the present day pros don't know how to deliver a punch or take one. They hit the top just the same, thanks to the insatiable appetite of a thing called television.

Reid is up to 160 pounds, which is nearly 20 pounds over his best fighting weight. On him, the added avoirdupois looks good.

Tom Garrard of Tahoka who came here last week for the Hereford sale, can be classed as a real old timer in football. As a youth he attended the University of Chicago and came out for football under Alonzo Stags, who they even then were calling "the old man."

Bobo Olson's next defense of his middleweight title may be made against the winner of the Holly Mims-Rocky Castellani bout at Cleveland Wednesday.

Jim Norris, president of the International Boxing Club, said the winner of this match, as well as Joey Giardello and Charley Humes, would be considered.

National Football League professional championship, hit 17 of 31 for 196 yards and 2 touchdowns. Dyer, 170-pound Negro, hitback broke away on a second-period kickoff for 60 yards and paved the way for Hawaii's first touchdown.

SMU Grabs Scoring Lead In Conference

By JOE BENHAM The Associated Press

The second week of championship basketball play in the Southwest Conference finds TCU convinced it doesn't pay to take a day off as far as standings are concerned.

The Frogs, favorites to take the championship, lost both their team and individual scoring leadership last week as SMU rolled up two victories while the Frogs won one and then remained idle.

SMU grabbed the team scoring lead with 150 points. The Mustangs' 6-foot-8 sophomore center, Jim Krebs, moved into the individual lead with 41 points.

TCU's Dick O'Neal held the season scoring lead when he made 38 points against Arkansas to boost his total to 313 points. Krebs took over second with a 263-point total.

The Frogs still own the season's best record—a 9-3 standing. SMU is next with 8-5. The two meet at Fort Worth Saturday night in what's expected to make or break Horned Frog hopes.

With victories over Rice and TCU, SMU would need to count only darkhorse Baylor as top-flight opposition in the first half of the double round-robin chase.

Baylor, TCU and SMU are undefeated in conference play. The Bears opened their championship season Saturday night with an 85-67 triumph over Texas.

Preceding the SMU-TCU spotlight game this week will be Arkansas vs. Rice at Houston Monday night, SMU vs. A&M at Dallas and TCU vs. Texas at Fort Worth Tuesday night, Texas vs. Rice at Fort Worth.

The Frogs still own the season's best record—a 9-3 standing. SMU is next with 8-5. The two meet at Fort Worth Saturday night in what's expected to make or break Horned Frog hopes.

With victories over Rice and TCU, SMU would need to count only darkhorse Baylor as top-flight opposition in the first half of the double round-robin chase.

Baylor, TCU and SMU are undefeated in conference play. The Bears opened their championship season Saturday night with an 85-67 triumph over Texas.

Steers Reserve

Lefty Jim Parks, 6-2, is one of the first players Coach Johnny Johnson turns to for a summer to duty, when he wants to give his regulars on the Big Spring Steers a rest.

Parks helped to stay the tide against Sweetwater last Saturday night as Big Spring won, 79-75.

Still in contention for first place after last week's two games, the Big Spring High School Steers hit the road for two basketball games this weekend.

The action Friday and Saturday could well make or break Big Spring in the District I-AAA race. The Steers go to Breckenridge Friday night, then move to Vernon the following night.

The pre-season favorite, Plainview, and two darkhorse outfits, Levelland and Lamesa, are leading the conference race, each with a record of two wins and no losses.

Judging from the manner in which they performed against Vernon Saturday night, Plainview is lucky to be up there. Stewart Webb sank a 47-foot field goal in the last three seconds of play to give the Bulldogs a 50-49 win over the Lions.

Sweetwater has lost two straight games but the Mustangs are still highly regarded in the race. They play Plainview this weekend.

The Steers have become one of the highest scoring teams in the circuit, but they haven't been able to keep the opposition from scoring.

Johnny Johnson's team has counted 130 points but yielded 138. The Big Springers did not look to advantage against Snyder Friday night but did an aboutface against Sweetwater the following evening to win by four points.

STANDINGS: Team W L Pts. Op. Levelland 2 0 138 86 Plainview 2 0 115 91 Lamesa 1 0 115 91 BIG SPRING 1 0 109 108 Snyder 1 0 108 108 Vernon 0 2 109 125 Breckenridge 0 2 88 132 Results last week: Lamesa 59 Snyder 45 Snyder 63 Breckenridge 30 Plainview 40, Vernon 40 BIG SPRING Sweetwater 78 Plainview 56, Vernon 49 RESULTS THIS WEEK: Plainview at Snyder; Levelland at Sweetwater; Lamesa at Vernon; Plainview at Sweetwater; Levelland at Snyder; Lamesa at Breckenridge.

Seven-up lost three straight games in Women's Bowling League play last week but retained first place in the standings by a single game over Dibrell's Sporting Goods Store.

Jax Beer shut out Seven-Up while Dibrell's was blanking Pinkie's by the same score. Jax Beer paced the scoring with 585-1720, followed by Seven-Up, with 553-1706.

Frances Glenn, Dibrell's, led individual point-getting, with 172-482. Sugar Brown, Seven-Up, had a 167 while Thelma Howze, Jax Beer, registered a 456 for the second best aggregate.

Play was resumed after a lay-off for the holidays. Standings: Team W L Pts. Op. Seven-Up 31 17 Pinkie's 30 18 Jax Beer 18 30 Pinkie's 16 32

Rebel Pass Play Clicks Max Boydston, Oklahoma end, leaps high to snare a pass thrown by Bobby Freeman which netted the South a 25-yard gain in the Senior Bowl game at Mobile, Ala. Dick Colet (47) of Cincinnati, the North's defensive back, fails to break up the play. (AP Wirephoto).

Hawks' Contest With Picadors Is Called Off

Howard County Junior College's basketball game with the Texas Tech Picadors, which was to have been played at 4 p.m. today in Lubbock, has been called off due to the condition of the roads between here and Lubbock.

The Hawks returned only Sunday from Kerrville, where they absorbed their first defeat of the season at the hands of Schreiner institute. The tally was 81-59.

Jim Knotts, star guard of the Hawks, was due to hang his injured leg examined by a doctor this morning. Knotts re-injured the member in the first half of Saturday night's game and Coach Harold Davis expressed the fear that Jim would be out for the season.

The mishap could prove a serious blow to the West Zone title hopes of the Hawks. The locals bunch conference play this weekend, meeting Amarillo there Friday and Frank Phillips in Border the following evening.

The defeat in Kerrville left the Hawks with a 17-1 won-lost record, still perhaps the best in Texas junior college circles.

PHOENIX (AP)—Texas Western could prove itself the giant killer of the Border Conference basketball race tonight.

Tabbed a dark horse, the Miners will play Lubbock for a conference game with defending champion Texas Tech. The Raiders are favored to retain their title.

They already have chalked up one victory—last week's 83-54 decision over New Mexico A&M. But that didn't mean too much as the Aggies also fell to West Texas (85-57) and to Hardin-Simmons (75-57).

The Miners, meanwhile, were beaten 92-84 by West Texas which thus pulled into at least a temporary lead in the conference chase. The Buffs from Canyon are rated the top threat to Tech's crown. Each has an all-game won-lost mark of 8-4.

Arizona State of Tempe, idle last week, visits Arizona State at Flagstaff in a non-conference game tonight.

The Miners move on to Abilene tomorrow night to engage Hardin-Simmons, beaten 72-63 by Midwestern in last week's only non-conference contest.

Friday, Hardin-Simmons and West Texas invade Arizona. The Cowboys play Arizona at Tucson Friday and Arizona State at Tempe Saturday. West Texas is at Tempe Friday and Tucson Saturday.

Cuban righthander Amor, drafted from Oklahoma City, had an 18-11 record. Elston won 17 with Dex Molines and Cohen, his teammates, had the Western Assn's top mark at 16-6. Three Beaumont graduates, Hillman, Zick and Brospan, won 16, 7 and 7 respectively.

Stanka had a fine 16-5 mark with Macon. Pyecha was 7-7 at Los Angeles. Amor started his professional career with Big Spring in 1951.

What is there to say but "Wow," enthused John (Whact) Ryder, Tech coach. "We worked three days getting ready for Kentucky but it was no strategy we used. We were stronger than Kentucky throughout and our kids forced them on a lot of plays." The Dukes' 82-72 defeat at the hands of St. Francis came from a team that had broken even in eight games this season and lost to Duquesne earlier in the season 71-58. Duquesne plays Dayton tonight.

Other notable weekend action included Cornell's 70-66 defeat of Dartmouth, and Furman's fantastic 154-67 victory over the Citadel to set a new college scoring record. Darrell Floyd, Frank Selvy's successor at Furman, dropped in 50 points although he sat out most of the second half.

Littler Winner At Los Angeles

LOS ANGELES (AP)—Excelsior Gene Littler, completing his first year as a professional, won the \$5,000 first prize in the \$2,500 Los Angeles open yesterday.

Refusing to be awed by the seasoned pro, the former U. S. amateur champion from San Diego, now playing out of Palm Springs, Calif., fired a 2-under-par 66 yesterday to card 8-under-par 276 for the 72 holes.

He chipped in a 25-footer on the 15th hole to practically clinch the victory. It followed a pattern he established the day before when he holed out chip shots of 35 and 60 feet on the last two holes.

"That's more than I chipped in all last year," said Littler, 24. The big check he banked was the largest he's won since turning pro last January. But his victory came as no great surprise. As an amateur he beat the pros in the 1954 San Diego Open and he was second in four FGA events, including the United States Open.

Littler, in the last threesome to finish, knew he had to beat the 278 posted earlier by the veteran Ted Kroil, who drew down the \$2,780 second money. It didn't faze the young golfer. After a putt rolled around the cup and dropped in for a par on 14 and he sank his great pitching wedge shot on 15, Littler came on in regulation figures to post his 69, matching Kroil's final round.

Behind Kroil in the list of 102 pros and amateurs who survived the opening rounds came the veteran Johnny Bulla, of Pittsburgh, with a 72 for 279, good for \$2,100. At 250 were Wally Ulrich, with a 67 for the final day, and Johnny Palmer, and Doug Ford, both with 70s. Each collected \$1,200.

WACO (AP)—The Big State League will open its season with only one new member, Fort Arthur, directors of the Class B baseball circuit said after their meeting yesterday.

Temple President C. D. Brown said the Eagles' financial problems had been solved and the team would be ready.

It had appeared Texas City might replace Temple. Representatives were present to bid for the franchise.

Port Arthur General Mgr. Earl Perry said he expected that team's troubles in switching from the Evangeline League to be solved by an order from minor league President George Trautman. The Evangeline has protested the club's change.

They marched through Bryan Grant, Atlanta, and Sidney Schwartz, Brooklyn, 6-3, 6-4.

TAMPA, Fla. (AP)—Eddie Moylan defeated Bernard Bartzon for the men's singles championship in the Dixie Tennis Tournament Sunday, then teamed with him to win the doubles crown.

Moylan, topseded player from Trenton, N. J., won from Bartzon 10-8, 6-4, 6-3.

North Texas Wins 2 League Games

The Gulf Coast Conference opens its second week of conference cage play this week with Midwestern and North Texas still winning and Trinity still taking it on the chin.

Last week Midwestern whipped Hardin-Simmons 72-63 and Abilene Christian 79-65 in nonconference action, while North Texas opened its conference campaign with 86-83 and 104-84 victories over Trinity on successive nights.

Northwestern Louisiana whipped North Texas 91-74 in an out-of-circuit game.

Conference play this week sends Midwestern against Trinity Thursday and Friday nights at San Antonio. Other games include Midwestern vs. Corpus Christi at Corpus Christi Monday and Tuesday nights, Trinity vs. St. Mary's at San Antonio and North Texas vs. Austin College at Sherman Tuesday night and North Texas vs. Oklahoma A&M at Stillwater and Trinity vs. Texas A&I at San Antonio Saturday night.

Mims And Rocky Vie Wednesday

Bobo Olson's next defense of his middleweight title may be made against the winner of the Holly Mims-Rocky Castellani bout at Cleveland Wednesday.

Jim Norris, president of the International Boxing Club, said the winner of this match, as well as Joey Giardello and Charley Humes, would be considered.

Larson Triggers College Attack In 33-13 Victory

HONOLULU (AP)—Quarterback Paul Larson of California out-paced Cleveland's Otto Graham to lead the College All-Stars to a 33-13 victory over the Hawaii All-Stars in the 9th Hula Bowl Sunday.

Displaying fine field generalship, Larson mixed his passes deftly with the sharp running of Colorado fullback Carroll Hardy for scores in every period, including two touchdowns in the second.

Greyhounds Play HPC This Week

The Texas Conference gets the rest of the way into its basketball championship race this week when Eastern New Mexico plays Howard Payne Friday and Saturday.

The Greyhounds were idle last week as McMurry and Howard Payne opened. McMurry won 82-63. Howard Payne lost 78-61 to Sam Houston State.

This week's slate also sends Howard Payne against East Texas at Commerce Monday and McMurry vs. Abilene Christian at Abilene and Eastern New Mexico vs. Wayland at Plainview Tuesday.

Special Camera May Show More To Astronomers

By CARL HARTMAN
PARIS (AP)—Two French scientists have developed an electronic camera which they say should enable them to "see" 10 times farther into the universe than man has ever before.

Andre Lallemand, an astronomer at the Paris Observatory, and Maurice Duchesne, an electronics expert at the National Center for Scientific Research, have been working on the device for 11 years. Duchesne will soon take the odd-shaped contraption of glass and metal tubes to the observatory at Saint-Michel-de-Provence in southern France, where skies are generally very clear.

He will attach to it a 47-inch telescope which, say the inventors, thus will become considerably more powerful than the 200-inch giant at Mt. Palomar, Calif.

Little serious star gazing is done these days by peering directly through a lens. Astronomers work mostly from photographs, which show nothing to the layman but little dots or streaks of light. This one, the inventors claim, will be able to take the same pictures in four minutes that now require six to eight hours of exposure—and take them better.

"It should give astronomers enough new observations to work on for 50 years," Lallemand said.

In the new camera the feeble flecks of starlight—called photons—will first hit a thin glass plate covered with a layer of antimony and cesium, one of the rarer elements. This layer transforms the photons into electrons, which then pass through high-tension electrodes that step up their strength from 2 electron-volts to 40,000 or 50,000. The electrons are what hit a photographic plate less than an inch in diameter.

More Than 500 Longhorns Now

WASHINGTON, Jan. 10 (AP)—Texas Longhorn cattle under federal protection after nearing extinction 25 years ago, now number more than 500 but none of the breed are kept by the government in Texas.

Secretary of the Interior McKay has announced that the largest herd under care of the Fish and Wildlife Service numbers 376 animals. It is at the Wichita Mountains Refuge near Cache, Okla.

A herd at the Fort Niobrara National Wildlife Refuge near Valentine, Neb., totals 146. There are four stags at the Malheur National Wildlife Refuge, Burns, Ore., and two bulls on the National Bison Range, Molesse, Mont.

McKay said a few Longhorns are also held by private owners. In 1927 Congress voted money at the behest of the late John B. Kendrick of Wyoming to establish a federal herd of the Longhorns. Two national foresters, John Hatton and Will C. Barnes, both now dead, traveled more than 5,000 miles and examined more than 30,000 head of Texas cattle before they collected a herd of suitable Longhorns.

Finally, in August 1927 a herd of 20 cows, 3 bulls, 3 steers and 4 calves was collected and shipped to the Wichita refuge. From that herd grew the total of 500 under federal protection.

A Fish and Wildlife Service spokesman said the Longhorns were kept in Oklahoma and Nebraska instead of in Texas because the refuges in those states were more suitable for handling them.

General in Hospital
LONDON (AP)—Field Marshal Lord Montgomery has entered a hospital to have a wart removed from above his left ear. "Nothing serious," he said.

DENIES TEMPER OUTBURSTS

Italian Star Anna Magnani Says She Likes Hollywood

By BOB THOMAS
HOLLYWOOD (AP)—Anna Magnani, the tempestuous Italian star, has seen Hollywood, likes it, may return.

I learned this in a bilingual interview with the help of an interpreter in her suite at the Beverly Hills Hotel. She also remarked that reports of her temper outbursts on "The Rose Tattoo" set were exaggerated.

After seeing her in peasant roles, I was surprised to find she was sleek and more attractive than I expected. She was dressed in a black slacks outfit, well ornamented with yellow. In repose, her face had a rare Italian beauty.

I asked the actress if she thought Italian performers were more temperamental than those in Hollywood.

"I do not think so," she replied. "Artists are artists, no matter what their nationality."

This was leading up to a question about reports that Miss Magnani had acted as tempestuously off-stage as well as on during the filming here.

"I never listen to gossip," she said with a flick of the hand.

There had been a story that she had put too much reality into a slapping scene with Maria Pavan and the young actress had fled the set in tears.

"If I must slap, I slap; you cannot slap like this," she remarked, making a dainty gesture with the flat of her hand. "I believe in doing what the script calls for."

There had also been rumors of flarups between her and director Danny Mann. She said that she had excellent relations with the director and the producer, Hal Wallis. She also thumped over her co-star, Burt Lancaster, who

she said was a thorough and earnest actor.

Miss Magnani said she liked America and would like to return here later this year. Her son is a paralytic and she hopes to bring him here for treatment. She might do a play in New York next year. Would she ever want to settle here?

"Oh, no," she replied. "I love my country too much."

Zionist Raps U. S. For Letting Arabs Order Arms Here

SALT LAKE CITY (AP)—An official of the Zionist Organization of America accuses the U. S. State Department of "heedlessly tossing a lit match into the powder keg of the Middle East" by allowing arms shipments to Arab nations.

Rabbi I. Usher Kirshblum, national vice president and membership chairman of ZOA, told a district meeting yesterday.

"The security of the state of Israel has been threatened by the shipment of arms to the Arab states in spite of the latter's publicly announced intention of launching a second round of warfare against the young Israel republic."

Bogota Taxi Drivers Ask For Protection

BOGOTA, Colombia (AP)—Nearly 4,000 taxi drivers here have gone on strike for more police protection. They say in the past few months at least four drivers have been killed by passengers and a score or more beaten and robbed.

Onion Rings Predict Dry Year Is Due

PERRYTON, Tex. Jan. 10 — It's bad news, we know, but the drought isn't going to be broken in this part of the Texas Panhandle, according to Mrs. June B. Cartwright.

The onion rings say so.

Mrs. Cartwright, who has added weather forecasting to her hobbies at the age of 78, doesn't use any fancy instruments or almanacs, either.

Her equipment: one large onion, 12 teaspoons of salt, one paring knife and one piece of cardboard.

At 6 p.m. on New Year's Eve, the onion is cut down the middle and 12 onion shells are removed. One teaspoon of salt is placed in

each shell. The cardboard has been divided into 12 squares for the 12 months, and a shell is placed in each.

At 6 p.m. on New Year's Day, the forecast is read. If the salt is moist or has collected into a small ball, moisture is indicated for that particular month.

Mrs. Cartwright read about an Alva, Okla., couple who had been making such predictions for 50 years and came very close in 1954. She decided to try it.

Here's the moisture forecast for

January, February, March and April, below normal rainfall; May, wet, in fact very wet; June, slight-

ly more moisture than normal; July, August and September, drier than normal; October and November, moisture very slightly above normal, and December, very dry.

Japanese Announce Plans For Services
TOKYO (AP)—Japan plans a 162,100-man army, a 21,348-man navy and a 13,276-man air force in the fiscal year starting April 1. "If the (Diet) Parliament approved the necessary budget," the National Defense Board announced today.

Present strength of the three forces was given as: army 130,000, navy 15,000 and air force 6,700.

PRUVO Tablets Guarantee Relief from Pains of ARTHRITIS, RHEUMATISM at Half the Cost Expected—or Money Back!

If you suffer nagging or even almost torturing, unbearable pain in arms, neck, back, legs—why not join the thousands who are living a more comfortable life with PRUVO Tablets . . . over 16,000,000 PRUVO Tablets were sold last year and 99 out of every 100 users found satisfaction (based on returns) . . . you, too, can obtain PRUVO's special soothing relief . . . no prescription necessary.

PRUVO contains Vitamin C—the vitamin essential to bone tissue production and other prescription type ingredients completely harmless to all organs of the human body, including salicylamide—a medication frequently recommended by doctors. In PRUVO Tablets you get the quickest, longest lasting, non-narcotic relief from arthritis and rheumatic pains known to medical science.

Remember, PRUVO is the only medication with these prescription type ingredients which costs you not \$2.00, not \$3.00, not \$5.00—but just \$1.50 for the trial size bottle of 75 tablets—AND if you do not start getting pain relief before using half the tablets just return the balance and your money will be refunded in full by PRUVO.

No matter what you have tried before, don't put off a day longer turning to PRUVO for soothing relief from the nagging pain of Arthritis or Rheumatism. Insist on genuine PRUVO at your druggist's.
