SHOULD STOP FINANCING EUROPE DECLARES HOOVER

With European Propagandists. Texas Already Too High.

Washington, Jan. 8.—The time has come when America will no longer be able to carry the burdens of Europe in addition to its own, is not only the opinion of a statement issued yesterday from the headquarters of Her Hoover.

Hoover stated emphatically with respect being circulated by European propagandists, both as a volume of European financial needs from the United States, the contention that the bulk of the needs cannot be met by commercial credits, and therefore our Treasury must be drawn upon for new Hoover stated.

Taxes are now 600 per cent on war rates, and we simply add more to this burden. The problem is one of reducing the statement con-

PREACHER SAYS PROHIBITION WILL BRING A REVOLUTION

Syracuse, N. Y., Jan. 9.—Revolution is likely to follow in the wake of prohibition, according to the Rev. G. Campbell Morgan, pastor of Westminster Chapel, London, now visiting in Syracuse.

"Whenever a great country banishes strong drink it must prepare for a revolution," he declared from the pulpit here. "When a man stops drinking he begins to think. All that happened in Russia in the revolutionary time occurred since vodka was abolished. Whenever London goes dry her East End will arise."

Commenting on prohibition in the United States, Dr. Morgan said:

"It will be wonderful when the country is entirely dry and adjusted to it, but it will be some time before you get settled down."

JOHNSON WILL TAKE LEAGUE TO PEOPLE

Says American People Have the Right to Make a Decision in League Matter.

New York, Jan. 13.—Senator Hiram Johnson, of California, declared in an address in Brooklyn tonight that he would accept the challenge of President Wilson to take ratification of the peace treaty to people of the country.

"I don't care whether republican leaders accept this gauntlet of battle or not," he said, "for one, I accept the issue and, so far as I can, upon it, I shall go to the people of the United States. A subject which deals so intimately with the treasures and blood of the average American is a subject upon which he has the right to ultimate decision. Politicians upon one side or the other may seek to avoid this issue, but I say to you with all solemnity, if the politicians on both sides unite with absolute unanimity in hiding this subject and endeavoring to prevent its discussion, the American people themselves will wrest it from the politicians and themselves decide it."

CONGRESS ASKS FOR LIST OF AWARDS FOR ARMY FOR HEROISM

Attack Upon March. "Lounge Lizards" Recognized With Decorations Charged

Washington, Jan. 13.—The movement for congressional investigation into awards of army war decorations produced a stormy scene in the house today, during which a resolution by Representative Gallivan, democrat, Massachusetts, calling on Secretary Baker for a report on the awards, was adopted.

"The house ought not to acquiesce in the attack on General March and other officers of the army," declared Representative Moore, democrat, of Virginia, concluding the debate with an appeal for rejection of the resolution, which, on a roll call, was adopted, 183 to 123. Most of the democratic members opposed it. Representative Gallivan urged the adoption of his measure as the start of a general congressional investigation into the award of honors, declaring that proportionately more officers in Washington received distinguished service medals than those in the front lines. The services of all "lounge lizards" were recognized with decorations. Gallivan charged, including former chiefs of staff, who, he said were removed for inefficiency.

B. Coyer of that body before the Senate Agriculture Committee.

Coyer left the intimation that the larger Chicago packing concerns had connived in some degree to attain that result and involved Ludwig C. A. K. Mr. W. P. Worth, of Chicago, who is producing oil in many fields and largely interested in oil lands in Hall and adjoining counties, including the holdings of the Virginia-Texas Oil & Gas Company visited Memphis again on Saturday last, for the purpose of conferring with G. E. K. Hixson. Mr. Worth stated that the discovery of oil by the Home Peoples Company at Deep Lake was to have been expected at about the depth it was encountered, according to the consensus of opinion from the reports of the most competent geologists that have surveyed this field for the so-called "big companies." In fact he would have been greatly disappointed had not oil bearing formation been encountered at, approximately, 1600 feet. Although lower formations that will be found at less than 3,000 feet should produce a much larger volume of oil than the shallower formation. Mr. Worth further said that numerous analysis of the gas found in the Amarillo field, disclose the fact that it is one of the "wettest" gasses known, which makes it extremely rich in gasoline. He is of the opinion that this gas comes from one of the largest pools of oil ever found, and that it will be found somewhere between the crest of the structure north of Amarillo, and the Burkburnett oil field.

NEW FAIRBANKS' PICTURE TO BE SHOWN AT THE PRINCESS THEATRE

When the Clouds Roll By," Doug's Second "Big Four" Picture Soon to be Released

Since Douglas Fairbanks, associated with Mary Pickford, Charlie Chaplin and D. W. Griffith, decided to produce independently a year ago, each forthcoming announcement from this "Big Four" is greeted with much enthusiasm. The United Artists Corporation from New York office wired the Princess Theatre today that "Doug's next production, "When the Clouds Roll By," will be ready for exhibition here on Jan. 24. The policy of the Princess Theatre during the past year to give the amusement-lovers of this community the very best obtainable, reads its patrons again to look forward with great expectation to this picture. Independence in production has given the "Big Four" of the screen the opportunity of their lives. The assurance from these producers at each additional picture will bring better things to the public as well as sustained, for the country rank "When the Clouds Roll By" to be the most spectacular and interesting production in which the inimitable Fairbanks has ever appeared.

TOAD IS FRIEND OF FARMER

They Are Useful Guardians of Growing Plants and Vegetables—Devour Many Insects.

Despite its general unpopularity, the toad is a harmless, interesting and valuable creature. While the toad is often thought to be poisonous, the fluid which comes from a gland behind its eye is not harmful to human beings unless it comes in contact with a tender part of the body, such as the eye or lip. Toads change their skin periodically by splitting the old skin down the back, peeling it off like a Jersey and swallowing it. They are also useful guardians of growing plants and vegetables since they eat all sorts of insects. Their chief weapon against their enemy, the snake, is their ability to inflate their bodies to twice their normal size, thus making it difficult for snakes to swallow them.

ATTENTION TO SANDY SOILS

Very Deficient in Organic Matter and Are Subject to Blowing—Straw Covering Helps.

Sandy soils are very deficient in organic matter and are subject quite seriously to blowing. If such fields are covered with straw it will prevent this damage to a great extent. It will also add considerable to the humus content by increasing the organic matter in the soil, and the soil will hold a much larger per cent of moisture. Consequently it will be far superior to a soil that is deficient in organic matter. The straw spreader is very practical.

PROPER WAY TO FEED SHEEP

During Stormy Weather Feed Them in Shed in Long Manger Constructed for That Purpose.

Never feed straw and hay to the sheep by throwing it down in heaps on the ground, but have a long rack for the purpose; and when it is stormy do not allow them to stay out but feed them inside the shed in a long manger made for the purpose.

The brilliant Russian artiste's leading man in "The Brat," Charles Bryant, did not appear with her in "The Red Lantern," although he was her leading man in all of her other big screen successes.

In addition Bonnie Hill, Mille Davenport and Ethelbert Knott have excellent parts in "The Brat."

Mr. and Mrs. A. H. Prater, of New York, who have been here some time visiting Mrs. Prater's parents, Mr. and Mrs. W. M. Cross have decided to remain here for the present and will be connected with the Cross Dry Goods store; Mr. Prater, in the office and Mrs. Prater in charge of the millinery department.

"There are Democratic presidential candidates galore. There are Democratic achievements galore," shouts the Fort Worth Record. Yes, but surely the Record does not pretend to claim that the latter equals the former in numbers, even though it may claim excess of importance for the achievements.

Mr. Bryan suggests public ownership of the railroads and of monopolistic industrial concerns as proper issues for the Democrats to put forward in the coming campaign. William Jay conclusively demonstrates that he can keep ahead, though he can't be the head, of his party.

Denying that he will make a speaking tour for the ratification of the League of Nations Peace Treaty, Mr. Bryan is quoted as saying that he expects to return to Miami, Florida, for the winter. If there is anything in the indications from certain sources Mr. Bryan will find it made so warm for him that he will have no need to seek a winter-resort.

Western Texas readers will be surprised, and probably amused, to learn of the North Texas idea of a "big" ranch as disclosed by the following, clipped from an exchange:

"Dr. Tillman H. Bryant has purchased a 210-acre farm near Blue Ridge, Collin county, and on it will establish one of the largest sheep ranches in North Texas."

The Democratic committeewoman from Missouri, Mrs. Jessie James Ward, of Kansas City, notified the committee the other day that she was "too busy marrying" to attend the committee meeting at Washington last Friday and Saturday. Mrs. Ward was marrying the president of the University of Missouri, so it is not to be supposed that she is retiring from politics because of her marriage.

would be democratic! And if he had thought to have incorporated in the covenant provisions allowing the questions of armament and of declaring war to be submitted to the people who pay the taxes and do the fighting there would be no doubt about their decision.

No longer can we even question the godliness of our preachers. Any man who will give his time for the miserly pittance they receive is entitled to a double pair of wings and a special seat in Heaven.—Vernon Times.

In a news item yesterday the Record News it was stated that Rev. Knickerbocker had an increase in salary to \$7,500 per year.—Wichita Falls Record News.

Reversing the argument, and the award, to meet this particular case, would you, consistently, suggest a palm-leaf fan and an asbestos robe for the Wichita preacher?

"A government that restrains the individual from the use of force in the protection of his rights assumes the solemn obligation to protect the unarmed citizen from every arm uplifted for his injury." is a quotation from Mr. Bryan's Jackson Day speech which is used by the Dallas News to show that

he was "taking a shot at the Administration in getting an injunction against the striking miners." Well, granting that he was taking such shot, can the News, or anyone else, deny that Mr. Bryan was right? Should not others, as well as "Labor" sympathize with the statement if it declares for justice and fairness?
