PRESIDENT ASKS FOR SUPPORT OF CONGRESS WHILE AT CONFERENCE

No Call to Service Can Demand Duty As Delegate To Peace Meeting.

Washington, Dec. 2.—President Wilson called upon Congress to support its patriotic duty by standing behind him while he is at the peace table, in his address to the joint session today. "I do not hope, gentlemen of Congress," he asked, "that in the delicate task I shall have to perform on the other side of the Atlantic my efforts truly and faithfully to interpret the principles and purposes of the country will have the encouragement and added strength of your support?"

The president made it plain he regarded it as his paramount duty to go to France. "I think of no call to service," he said, "which can transcend the gallant men of our forces on land and sea who have consciously fought for the which they knew to be the best of their country; I have not to express those ideals. I have accepted my statements as the substance of their thought and purpose, as the great governments have accepted them; I owe it to them to do it, so far as in me lies, that I may or mistaken interpretation be put upon them and no noble effort omitted to realize it. It is now my duty to play my part in making good what they offered their life's blood to."

WREATH SERVED ON AIRPLANE IN FLIGHT

Celebration Marks Inauguration of Field for Aerial Mail Service

Elizabeth, N. J., Nov. 28.—The aerial banquet in history was today on an airplane 2,800 above the new flying field of the United States air mail service, marking the inauguration of the field as the terminus of the aerial mail service between New York, Philadelphia and Washington. A few minutes after the mail plane, in charge of Max Miller, took the field at 12:10 o'clock this morning, a big Handley-Page plane rose under control of Capt. E. B. Walter of the Royal Air Force and during a flight twenty-two minutes above the field, a real Thanksgiving dinner was served to nine persons, among the guests were Captain James B. Lipsner, Superintendent of the Air Mail Service, Allan R. Hawley, Augustus and other officials of the Aero Club of America.

METHODS OF DEMOCRACY.

The extent to which the United States Food Administrator has based on the voluntary support of the American people is shown by a statement made by the United States Food Administrator speaking before the Senate Agricultural Committee less than three months after this country entered the war. That he was justified in his implicit confidence in the strength of democracy has been clearly reflected by the measure of support we have lent the Allies.

"If democracy is worth anything," Mr. Hoover declared, "we can do these things by co-operation, by stimulation, by self-sacrifice, by the patriotic mobilization of the brains of this country. If it cannot be done in this manner it is better that we accept German domination and submit to failure of our political ideals, acquiescence in the superiority of the German conception and spoil for the Germans to invent us in its use."

SPIRIT OF VENGEANCE SHOULD NOT GUIDE PEACE CONFERENCE

Secretary Daniels Says Principle and Justice, Tempered by Mercy Should Prevail

Buffalo, N. Y., Nov. 28.—Deliberations of the coming peace conference should be guided by principle and justice, touched with mercy to the weak, and not by passion or emotion, said Secretary Daniels, speaking at Buffalo's community Thanksgiving service.

The allies and the United States having won the war, Mr. Daniels said, "the theory that every man in the world, high or low, rich or poor, shall have a chance to make the most of himself is now the fixed philosophy of all nations."

Germany must be dealt with firmly at the peace conference, continued Mr. Daniels, "because the sins of her rulers and all who followed their spirit are black and bitter and her crimes deserve such treatment and such punishment as will protect the future. But no policy of hatred," he said, "no spirit of vengeance should guide this world renewal. The protection of women and children knows no friends and no enemies. The rebirth of modern civilization should not go forward under any spell of mere revenge or malice to millions of men. Principle and justice, touched with mercy to the weak, should guide this congress, not passion or emotion."

O. E. S. Notice.

On account of the quarantine the Eastern Star was not allowed to meet on the last regular meeting night. Consequently, the initiation of candidates was postponed until Thursday evening Dec. 13. All members are urged to come, and visiting members cordially invited.

Washington, Dec. 2.—Senator Sheppard introduced a bill proposed to make the District of Columbia bone-dry.

HOUSTON CARPENTERS WANT WAGES RAISED ENOUGH FOR PROFIT

Ship Carpenters Want no Reduction of Wages Until Cost of Living Goes Down.

Houston, Texas.—Members of Local No. 1789, Ship Carpenters and Joiners of America, announced today that at a meeting last night resolutions were adopted indorsing the conduct of the war asking that Samuel Gompers be made a member of the American party at the peace conference, approving President Wilson's peace plan and proposed international world court, indorsing open diplomacy, demanding trial and execution of "titled murderers" of the late German Government, demanding cessation of teaching of German in public schools supported in whole or in part by public money, indorsing Government ownership of public utilities, indorsing women suffrage, National prohibition and Government insurance for soldiers of war, asserting inalienable right to organize for collective bargaining and retaining the right for either capital or labor to go out of business when either chooses. The resolution demanded no reduction of wages until cost of living shows a decrease and demands wage equal to cost of living for year plus a reasonable margin of profit. The resolution strongly repudiated all isms, including I. W. W. and Bolshevism (autocracy in overalls).

Peace Brings Us New Mouths to Feed

AUTO OWNERS MUST REGISTER WITH TAX ASSESSOR MORE THAN 300,000 DIE OF SPANISH INFLUENZA

Attention has been called by Curtis Hancock, chairman of the State Highway Commission, and Charles S. Tosch, Tax Assessor of Dallas County, that the registration of motor vehicles is due to begin on Jan. 1, and that these registrations must be made through the Tax Collector this year.

Absolutely no applications will be filed with the State Highway Department. The County Tax Collector will give a receipt which shall complete the registration.

Washington, Dec. 4.—Between 300,000 and 350,000 deaths from influenza and pneumonia have occurred among the civilian population of the United States since Sept. 15, according to estimates today of the Public Health Service. These calculations were based on reports from cities and States keeping accurate records, and public health officials believe they are conservative.

Join, Red Cross 1919

WHAT THE RED CROSS IS DOING AND WHAT YOU CAN DO THE ROLL-CALL OF A NATION

Within the coming two weeks the Roll-Call of the Nation will be sounded throughout the length and breadth of the land. Every man, woman and child in Hall county will be given an opportunity to answer "here."

In this way the people of this nation will now make known their appreciation of the brave boys in France. And advertise to the other peoples of the world that they are united in peace as they were united in war.

When the workers for the American Red Cross come with their Christmas Membership Drive to every home, school and community in the county to offer the opportunity let it be said that Hall county is 100 per cent, that every man, woman and child in this county have their names enrolled as 1919 members of the Red Cross.

You all know, especially you who have boys "over there" the great work that has been done for our soldiers and our allies by this organization; we have it from the best authorities that the need for this work is increased rather than lessened by the coming of peace if them home, so lets ALL join for we may keep happy and bring 1919.

TRI-COUNTY JOINT TEACHERS' INSTITUTE MEET AT CHILDRESS

Hall, Collingsworth and Childress Teachers Will Meet December 16th to 20th

In announcing the program of the first joint teachers' institute to be held in this section of the State, the undersigned committee desires to say to those concerned that the plan of uniting the institute work of the three counties was decided upon only after careful consideration of its advantages and disadvantages. We are fully convinced that the joint institute plan is preferable to the separate institute, especially in counties where the teaching force is small. It makes possible a stronger lecture course with less expense to the individual teacher as well as assuring the advantage of association with a larger and more representative body of teachers. All of which should, and we believe will, result in more effective and purposeful work being done. We firmly believe the teachers will receive advantages from the joint meeting which will outweigh any slight inconvenience caused them.

The institute will hold its session in the auditorium of the First Baptist Church, Childress, beginning December 16th. The forenoon sessions will begin at 9:00 a. m. and continue until 12:00 m. The afternoon sessions will begin at 1:00 p. m. and continue until 4:00 p. m.

All teachers who are under contract to teach in Childress, Collingsworth and Hall counties for the year 1918-19 are required by law to attend the full five days and are expected to be bonafide participants in all its sessions. Teachers are requested to come with note books and with earnest purpose to make the meeting contribute its maximum of professional betterment. Each teacher is expected to take an active part in all the deliberations of the section to which he is assigned, whether his name appears on the program or not.

PETER RADFORD GREAT TEXAS COMMONER IS DEAD

Ex-President of Texas Farmers' Union Dropped Dead Sunday Night in Hotel Lobby.

Peter Radford of Fort Worth, ex-president of the Texas Farmers' Union, dropped dead Sunday night, for costs of suit and for such Wisconsin. He was in Madison attending the State meeting of the National Equity.

The body will be sent to Whitt, Parker County, the old home. Funeral services will be held there Thursday. Radford is survived by two sons and two daughters.

In 1911 Radford was elected president of the State Farmers' Union and served for two terms. Previously he had held other offices with the Farmers' Union.

He served two terms in the Texas Legislature and was prominent in connection with the Farmers' Alliance movement.

Charge of Murder Against Kaiser

Paris, Dec. 1.—A formal charge of murder has been lodged against the ex-Kaiser by Madame Prieur, whose husband lost his life when the steamship Sussex was torpedoed by a German U-boat.

Commissioner W. A. T. Weatherly and Mr. Southern of Estelline and Mr. L. L. Weatherly of Lindsay, Oklahoma, were appreciated callers at this office Monday.

MORE THAN 28,000 NAMES ARE ADDED TO CASUALTY LIST

Amended Report, to November 26 Gives, Exclusive of Prisoners Total of 262,723 Names

Washington, Nov. 30.—General Pershing today gave out amended casualty reports from General Pershing, giving the official total to Nov. 26 as 262,723 exclusive of prisoners. The figures on prisoners were unintelligible in the cablegram. General Pershing said the total under this head probably would be practically the same as announced last Saturday.

The new casualty reports add more than 28,000 names to the American total for the war. The summary announced last week totalled 233,117 including prisoners. General Pershing said he did not think the number of prisoners would be increased materially by the new features, indicating that the probable total to Nov. 26 will be 265,839.

Today's summary adds 4,310 to the number killed in action or dead of wounds; 1,823 to the number dead of disease; 10,330 to the number wounded, and the number missing in action is increased from 1,160 to 14,290.

General Pershing reported the following official casualties to Nov. 26:

Killed in action	28,361
Died of wounds	12,108
Died of disease	16,034
Died other causes	1,980
Prisoners	Unintelligible
Wounded	189,955

Divided as follows:

Severely wounded	54,751
Undetermined	43,168
Slightly	92,936

BIG NAVY AIRPLANE CARRIES FIFTY PEOPLE

Giant Tri-Motored Seaplane Lifts 22,000 Pounds. Has Three Liberty Motors.

Washington, Dec. 1.—All records for the number of passengers carried in any type of airplane were broken on Thursday, Nov. 28, at the naval air station, Rockaway, when the Navy's newest type seaplane in the world, made a flight with fifty men on board.

The pilot was Lieut. David H. McCullough of the Naval Reserve Flying Corps and the flight was made to demonstrate the enormous lifting power of the latest model of bomb-carrying seaplanes.

This is the first American tri-motored seaplane, being propelled by three Liberty motors that develop a maximum of 1,200 horsepower, giving it a crushing speed power, giving it a cruising speed of weight of the machine is 2,200 pounds.

An idea of the size of the big seaplane is shown by the fact that the wing spread is 126 feet, the breadth of wing twelve feet and the gap between wings twelve feet.

A GERMAN HOPE DISPROVED AND A GERMAN FEAR CONFIRMED

A statement made by a prominent German official soon after this country was declared in a state of war with Germany shows that even in the enemy country clear thinking students did not undervalue the strength of the American republic. Only in his confidence that we could not land in Europe sufficient troops to affect the final decision was this German mistaken.

"I do not fear the American soldiers," he told a high official of our government, "because they cannot arrive in time. What I fear is the intelligence and devotion of one hundred million original minds and people trained to a faith in individual initiative. The day that these people, now so materialistic in outward appearance, are stirred spiritually, that day is the day of Germany's doom."

WHEAT SHOWED SPIRIT OF U. S.

Sacrifice to Ensure Allied Loaf Greatest Single Food Achievement.

SUFFICIENT SUPPLY NOW.

All the Nations Will Be Able to Return to Their Normal Supply of White Bread.

Overshadowing all other accomplishments of the American people under the leadership of Food Administration is the history of wheat exports in the past sixteen months. Our wheat export program proved conclusively to the world that America was in this war from start to finish and willing to make any sacrifice that will hasten victory or maintain the health and strength of people overseas, upon whom rested the heaviest weight of our war.

Now that pressure on ocean tonnage is eased by the stopping of large movements of troops to Europe, we may relax our efforts to save wheat. The accumulated surplus in Australia, Argentina and other hitherto inaccessible markets will become available, and probably no more than our normal surplus will have to leave this country. We in America and the nations which have won the world for freedom will be enabled to eat their normal wheat loaf at the common table of the peoples of democracy.

We entered the past crop year with a wheat supply which gave us only 20,000,000 bushels available for export. When the crop year ended, we had sent 141,000,000 bushels of wheat to Europe. The American people had saved out of their normal consumption 121,000,000 bushels.

A survey of export figures shows that the conservation of flour brought about by the wheatless meats, wheat less days, substitution in our kitchens and bakeries, enabled us to send to our armies and the allies 33,000,000 barrels of white flour—wheat figured as flour. Had we exported only our visible surplus, we would have been able to ship less than 4,500,000 barrels.

Before the 1st of December our surplus had gone overseas, and an additional 36,000,000 bushels had been taken from the stock reserved for home consumption and added to the surplus already shipped to the allies. It seemed hardly possible that we could bring our total exports above 100,000,000 bushels by July 1. But in January the late Lord Rhonda, then British Food Controller, cabled that unless we could send an additional 75,000,000 bushels he could not take responsibility for assuring his people that they would be fed. The American people responded by sending 85,000,000 bushels of wheat, saved from their home consumption, between the first of the year and the advent of the new crop.

By October 10, 1918, we had already shipped 65,000,000 bushels since July 1. Absolutely the only limitation upon our wheat exports since the latest harvest has been the scarcity of ocean tonnage. If exports continue at the present rate, by July 1 of next year we will have sent more than 237,500,000 bushels to Europe.

Thus are we making good America's pledge that the bread rations of Allied Europe shall be maintained.

A Memorable Achievement of the Titanic Struggle

America saved and sent to Europe in a year of crop failure 141,000,000 bushels of wheat, which saved Europe.

SEVEN LOAVES OF BREAD FOR EVERY PERSON IN U. S. SAVED FROM WASTE

Farmers and Threshermen Patriotically Respond to Call of Food Administration.

From information received by the U. S. Food Administration from the principal grain growing states, it is now possible to announce with fair accuracy the amount of wheat saved last harvest by improved methods of handling. According to official calculations, efforts toward cleaner threshing saved fully 10,000,000 bushels of wheat with corresponding savings of other small grain harvested and threshed in a similar manner. In addition, other states, though unable to furnish figures, reported greatly reduced harvest losses.

The figure for wheat alone is equivalent to seven one-pound loaves of bread for every person in the United States and represents food that formerly was either an absolute loss or was recovered to only a slight extent by poultry and livestock. While opportunities in this branch of conservation were large, the quantity of grain recovered surpasses early expectations. It is noteworthy also that results were secured principally through voluntary co-operation.

No conservation measure of the Food Administration, it is declared, has received more wholehearted support than that pledged and rendered by farmers and threshermen toward reducing grain waste at its source.

The benefits of our food-saving campaign that was a vital factor in the winning of the war were not all to these we fed. We have at home a new appreciation of food that will prevent it ever being wasted again by those that have come to understand the religion of saving and the place that food occupies in our new, world-wide human relations.

Out of empty granaries to draw 141,000,000 bushels for export—the will of a free people accomplished that marvel.

Do you remember when food conservation by voluntary action was deemed a daring adventure in democracy?

"OVER THE TOP"

PEACE ADDS TO U. S. FOOD TASK

Europe Needs Nearly Double Last Year's Supplies From America.

ECONOMY MUST CONTINUE.

World Survey Shows Sufficient Wheat, But Shortage of Fats—Government's Stimulative Program Justified.

With the return of peace America is confronted by a food problem even harder of solution than that with which we coped in time of war. We have an entirely new world situation in food. It will mean essential changes in our domestic program. But more important than this, it must of necessity require increased export.

Last year we shipped 11,820,000 tons of foodstuffs to the European Allies. Had the war continued we would have increased this enormous figure to 17,500,000 tons in the present year. Now, with the responsibility of feeding millions of people liberated from the German yoke, our exports must be brought up to at least 20,000,000 tons—practically the limit of loading capacity at our ports.

World Food Demand Increased.

The end of the war will create an enormously increased demand for food. Humanity demands that the starving millions freed from Prussian oppression shall have sufficient supplies to assure their return to health and prosperity. If these liberated nations are faced with starvation they cannot establish orderly governments. Hunger breeds anarchy in a people. The war to free the world for democracy will be lost after it has been won. America must continue its work of liberation and by sharing its food make democracy safe in the world.

In order to meet this new situation the Food Administration has made a careful survey of the food resources of the whole world in relation to the total demands. Computing supplies on the basis of the avoidance of waste and war consumption, it is found that wheat and rye may be obtained in sufficient quantities to meet economical world consumption; high protein feed for dairy animals will show a shortage of about 3,000,000 tons, while there will be sufficient supplies of other feeds to allow economical consumption; beans, peas and rice will also be found in sufficient quantities to maintain economy in consumption; there are sufficient supplies of beef to keep pace with the capacity of refrigerating space.

Great Fat Shortage.

The most distinct reversal of policy will come with pork and dairy products, vegetable oils, sugar and coffee. Utmost economy will be required in the use of fats and oils, in which there is a world shortage of about 3,000,000,000 pounds. There are sufficient supplies for us to return to our normal

sugar consumption if other nations continue their present short rations, or even if their rations are slightly increased. If the European countries, however, are to resume their normal sugar consumption it will be through our continued conservation in order to share with them. There is a surplus of coffee.

Of the world total required to produce these results North America will furnish more than 60 per cent. The United States, including the West Indies, will be in a position to furnish a total of about 20,000,000 tons—against our pre-war exports of about 5,000,000 tons.

The bread grains situation allows the world to abandon the use of substitutes in wheat bread. Large supplies have accumulated in the Argentina, Australia and other hitherto inaccessible markets. A continued high milling percentage, economy of consumption and elimination of waste make it possible for the world to return to a white wheat loaf.

Of all our export possibilities in fats, the largest and most important item is pork. While we cannot supply the world deficiency, we will be able to help it enormously because of the past policies of stimulating production and restraining consumption. The government's policy with regard to stimulating the production of wheat and of pork, the readiest source of fats, is thus amply justified by the situation upon the return of peace.

Famine Specter Still Stalks.

The people of the United States must continue care and wise economy in the use of food in order to complete the work of liberating the world. But even with the utmost conservation and production in this country there will be in Europe for the next year or more starvation beyond all human power to allay. In North Russia there are 40,000,000 people to whom food cannot be made accessible this winter. Their transportation is demoralized in complete anarchy. And even if internal transport can be assured their ports of entry would soon be frozen. Millions more who have felt keenly the oppression of war will be beyond reach of assistance.

We must realize that upon our shoulders rests a greater responsibility than we have ever before been asked to assume. We must realize that millions of lives depend absolutely upon the continued service and sacrifice of the American people.

We must realize that the specter of famine abroad now haunts the abundance of our table at home.

THE TEST NOW FULFILLED.

This government is nothing more than the expression of the people, and if we are to win the war it will be only because every man, woman and child charges himself daily an hour's work to the test, does this or that contribute to win the war?—Herbert Hoover, April 18, 1918.

With the solemn obligation of providing that "margin" of food that would safeguard against starvation our friends in Europe the housewife and the consumer have learned hitherto to ignore and unsuspected things about food, have absorbed a whole "college education" in food values, food handling, buying and substituting that they will not want to forget.

Our voluntary food-saving not only saved the Allies and made vital contribution to the winning of the war, but saved to ourselves in administration expenses the outlay out of our own pockets that any effective system of rationing would have extracted. It would have cost us about \$45,000,000 to have policed ourselves as against the 2 cents per capita for co-operating.

By saving and sharing America kept the world together during the war crisis. By saving and sharing America will help to bring the healing of nations.

Appreciate Help of Paper

Editor Democrat: I want to thank you most heartily for the splendid co-operation rendered by you and your paper during the United War Work Campaign and during the publicity program which preceded the actual drive.

The newspapers of the Southern Department certainly were faithful to the cause, and I speak for the United War Work Campaign organization, and am sure for the sailors and soldiers to be benefited, when I send you this word of sincere gratification. Your paper should feel a personal sense of gratification over the fact that the Southern Department led the entire nation in prompt over-subscription to this great fund, inasmuch as you had a conspicuous part in bringing about these satisfactory results.

I hope to have the pleasure of seeing you at some future time and personally expressing to you and your staff my appreciation for your kindly attitude toward me in the responsibility that I had for the publicity of the Campaign in the six southwestern states of the Southern Department.

Sincerely your friend,
A. P. OAKES
Major, Detached Service Director or Publicity United War Work Campaign.

Sergt. Elmer Fisher Killed

Mrs. Bettie Fisher of Lakeview, received a telegram from the War Department yesterday stating that her son Sergeant Elmer F. Fisher was killed in action on the front in France November 5.

Recent Deaths.

Mrs. Evens, 30, wife of Mr. Cleve Evans who lives just southeast of town died last Thursday with pneumonia. The husband and two small children have our heart-felt sympathy in their bereavement.

Little Elizabeth Garrot, ten-year-old daughter of Mr. J. H. Garrot, who lives on the King farm, died Sunday with influenza.

Mrs. Katherine Adanson, 67, sister of J. W. Blanton, died at the home of her brother Sunday. Mrs. Adanson, whose home was at Stamford, was here visiting her brother.

Mrs. Minnie Wilson, 30, wife of Mr. J. D. Wilson, died at her home here Tuesday morning with influenza.

Mrs. Wilson had resided here many years and had a large circle of friends who will be pained to learn of her death.

A number of Hall county boys are with the American forces in England and are expected home within a few days, several thousand of these troops having already landed in this country and others being on the way home.

"Fine Jewelry at cost prices" is an unusual announcement at this season of the year; Tomlinson is closing out his stock at cost. Look over what he offers before making your Christmas purchases.

Mr. B. N. Scott made a business trip to Carey Wednesday. Mr. Scott says that arrangements are being made to resume work on the oil well near Carey and that a big drilling outfit has been put on the ground.

ESTELLINE EVENT

Newspaper from the South Side Metropolis. Influenza Epidemic Raging.

The "Flu" has taken a new round in our little town, but nothing serious has as yet been reported. The doctors and druggists are the busiest men in our community at the present writing.

School has closed down until after the holidays on account of the small attendance brought about by the prevalent epidemic.

The "Camp-fire Girls" gave their first program of the season on last Tuesday evening at the school auditorium. It was a success in every way, and was well attended considering the present conditions. The girls netted a neat little sum of money from the proceeds which they will use in securing a Charter, regalia etc.

Miss Roberta Enlow has returned to her home in Knox City, to spend the vacation with her home folk.

Miss Grace Milam, and sister Miss Maud who has been supplying for Miss Imogene King in the school here for the last few weeks, returned to their home at Memphis Tuesday.

The school board received the resignation of Miss Iomgene King as teacher in the school here a few days ago. Miss King has been confined to her room for some time, having contracted a severe case of "flu" here in school several weeks ago. Not only the school board, but the patrons, children and co-teachers as well, hated to hear of her resignation. In losing Miss King we feel that we are losing one of our strongest factors in the working of our school during the present term. We also want to thank Miss Maude Milam for her efficient service while in our midst and wish her much success in her government work which we learn she is expecting to take up in the future.

Mrs. G. C. Daniels received a

telegram from her brother in east Texas, a few days ago, informing her of the death of their father, who had been ill for some time. She immediately left for her parents' home to join her mother, sister and brothers in mourning the loss of their loved one. The deceased leaves a devoted wife, two daughters and three sons, one of whom is some where in France, to mourn his loss.

Mr. and Mrs. John Liard will leave for the Burkunett oil field within a few days. Mr. and Mrs. Liard have been residents of our little town for some time, during which period they have made many friends who hate to give them up.

And immediately her demand was satisfied; and now we have magenta, black and violet camisoles on the market. It is rather a clever idea to wear a contrasting color under the blouse. But one must know colors and be sure that they are in perfect harmony, for if not the result would be a calamity. For instance a very attractive color combination would be a dark blue blouse worn over rose madder which would give the effect of violet. Great care must be exerted and much consideration given to the complexion of the wearer. These heavy colors are trying to wear, that is, more trying than the pastel shades, and unless one studies one's possibilities a most disastrous result is bound to ensue.

Two Excellent House Dresses
The house wife must never be neglected and therefore I am showing two desirable designs for dresses that she may wear while performing her many duties at home. The first one is developed in checked gingham; and the belt and pockets which are in one, being connected by the back belt, are of a contrasting material. The second is perhaps a little more dressy and could be donned after the heavy labor be done.

MEAT INCREASE AT TIME NEEDED

Producers Responded Nobly When Demand Was Shown to Them.

CATTLE AND HOG FIGURES.

Government Justified in Pork Policy Which Now Provides Chief Supply to Meet Three Billion Pound Fat Shortage.

In line with the general plan of conservation formulated by the U. S. Food Administration immediately following the entrance of the United States into the war the contribution made by the meat producers of this country to the war program is of particular significance, as it demonstrates the hearty co-operation accorded the Food Administration by the meat producers of the country.

According to reports of the U. S. Department of Agriculture, there was an increase in cattle of 10,238,000 head and 12,441,000 hogs, these figures compiled to January 1 last. In the same period there was a decrease of \$19,000 head of sheep, but indications are this decrease will show an increase following the latest reports.

Since January 1 unofficial information indicates an increase in hogs of not less than eight per cent, and not more than fifteen per cent, compared with one year ago, with an increase in average weight.

Following the request of the Food Administration for increase in hog production for the fall of 1918 and the spring of 1919 the increase may yield not less than 1,000,000,000 pounds more of pork products than were available last year. Without this increase the shipping program arranged by Mr. Hoover regarding animal food products would have been impossible.

The dressed hog products during the three months ending September 30, 1917, amounted to 903,172,000 pounds, while for the same months of 1918 the production was 1,277,580,000 pounds, an increase of over 374,000,000 pounds for the quarter.

During the same period in 1917 inspected slaughter records of dressed beef showed 1,261,000,000 pounds as against 1,454,000,000 pounds for the three month period ending September 1, this year.

We must increase our meat shipments, especially our pork products, to meet the added demands of the millions liberated from German oppression. And at the same time we must look forward to the rehabilitation of the European meat herds. The policy which guided our meat program in the past year has been fully justified, for only the heavy production which it has brought about will enable us even partly to satisfy the increased demands on us for the coming year. There will be a world shortage in fats, and it is to the United States that Europe must look to supply its deficiency. At the same time there will continue to be heavy demands for beef. Owing to the limited refrigerator shipping capacity European imports of beef for some time will be limited. The United States, Australia and Argentina will be able to maintain a supply that will keep all available freezer vessels operating at capacity.

SUGAR TESTED MORAL FIBER

Doubters Declared Saving Staples Would Be Easy Compared With Sacrificing Luxuries.

Americans Demonstrated Sturdy Export of War by Conserving for the Benefit of the Allies.

When figures began to show definitely that the people of the United States were actually reducing their consumption of foods needed abroad, the United States Food Administration was told that it was comparatively easy to bring about conservation of staple necessities, but that it would be far more difficult to accomplish an actual decrease in the use of luxuries. The doubters took sugar as an example, and declared that it would be practically impossible to bring our consumption of sugar down to a point that would meet only the food needs of the people.

Now that demands upon ocean tonnage will be lightened, European nations will be able to go farther afield for foodstuffs, and will no longer be entirely dependent for sugar upon North American supplies. With the stocks now in prospect, we will have sufficient sugar to place this country back upon normal consumption if the present short rations in Europe are not materially increased. If the European ration is to be materially increased over the present low amount it can be only through the American people's making it possible by continued restriction to a greater or less extent here.

The fact that the Food Administration has been able to relax the voluntary sugar ration is in itself proof that the ration of two pounds per person per month was generally observed throughout the country. This conservation allowed the Food Administration to build up a reserve, and to tide over the period of scarcity, until the new crops of Louisiana cane and beet sugar were ready for distribution.

The records of the Food Administration show that in July, August, September and October 1918, 1,000,000 tons were distributed. Normal consumption for that period is 1,000,000 tons. This shows a definite, concrete saving of over 500,000 tons. These figures apply to sugar consumed on the table, in the kitchen and in the various industries, and show conclusively that in the homes and public eating places of America, where 70 per cent, of all our sugar is consumed, the sugar consumption has been reduced by more than one-third.

In the four-month period beginning with July, this country normally uses 400,000 tons of sugar per month. Last July 260,000 tons entered into distribution. In August only 225,000 tons were distributed. In September the figures showed 270,000 tons, and then fell to 250,000 tons in October. There could be no more definite proof that the American people have given their loyal co-operation and support of the war.

CITATION OF TEXAS.
 If there be no Constable of said County—Greeting: You are hereby commanded to appear in said Court on the 15th day of December, A. D. 1918, at 10 o'clock in the forenoon of said day, at the Court House in Memphis, Tennessee, to answer a petition filed in said Court on the 15th day of November, A. D. 1918, in a suit, numbered on the docket of said Court No. 948, wherein Mrs. Cora James is Plaintiff, and Frank James is Defendant, and said petition alleging that plaintiff has been for the past twelve months a resident of the State of Texas, and for six months prior to filing this petition a resident of Hall County, Texas, that on or about March 19, 1912, in Arkansas County, Texas, Plaintiff was legally married to defendant Frank James; that they continued to live together as husband and wife until on or about August 15th, 1915, when plaintiff was abandoned by defendant, without fault of plaintiff, and that defendant has since that time contributed nothing to the support of plaintiff or their minor child, George W. James; that during their living together plaintiff was an affectionate wife and discharged her duty as such; and that defendant abandoned plaintiff against her wishes and without her consent. Plaintiff further says that prior to abandonment, defendant, frequently cursed and abused plaintiff and child; that defendant's said conduct renders their living together insupportable. Plaintiff further says that plaintiff, and defendant, have one child, George W. James, a boy about 4 years of age; that plaintiff has always had the burden of caring for and supporting said child. Wherefore plaintiff prays the court that defendant be cited in terms of the law to answer this petition, and that upon trial there of plaintiff have judgement dissolving said marriage relation and awarding her custody of said child in a hotel lobby at Madison, other and further relief to which she may be entitled. Herein Fail Not but have before said Court, at its aforesaid regular term, this writ with your return thereon, showing how you have executed the same. Given Under My Hand and Seal of said Court, at office in Memphis, Texas, this 19th day of November, A. D. 1918.

Who's starting off to school for the very first time this month? For such an event as important as a birthday anniversary or a circus day, the little lunch basket should be carefully packed. What to put in it, as well as in the older kiddies' lunch box, is on the minds of American mothers this year as never before. The need to make the next generation vigorous has made a deep impression on the country. School lunches are going to be packed more carefully than ever before, and the evening meal will not be relied upon to make up for the nutrition lost at noon. The numerous milk dishes which are so helpful for children are difficult to pack in a basket or box, and for that reason many suggestions as to what shall be put in the lunch pails are always welcome to mothers.

- The following easily prepared school lunches may suggest others to the busy housewife:
1. Crisp rolls, scooped out, filled with chopped fish, which has been seasoned or mixed with salad dressing. Apple.
 2. Bread and butter sandwiches. Lettuce or celery sandwiches. Cup custard. Jam sandwich.
 3. Baker bean and lettuce sandwiches. Jar of apple sauce. Bread and butter sandwiches. Maple sugar candy or cookies or tea-cakes or prunes stuffed with peanut butter.
 4. Cheese sandwiches. Orange. Dates stuffed with nuts.
 5. Cottage cheese and chopped green pepper sandwiches. Peanut sandwiches. Fruit and cake.
 6. Raisin and nut bread with butter. Orange; maple sugar candy. Cheese.
 7. Hard-boiled eggs. Celery. Crisp cold baking powder biscuits. Maple sugar sandwich.
 8. Baked bean and lettuce sandwich. Jar of apple sauce and raisins. Cookies.
 9. Slices of meat loaf or bean loaf. Bread and butter sandwiches. Stewed fruit; small cakes.
 10. Raisin bread and butter sandwiches. Bottle of milk. Small ginger cakes, apple sauce.
 11. Sandwiches with sliced tender meat. Baker apple. One-half cake milk chocolate.
 12. Cottage cheese sandwiches. Jelly sandwiches. Pear. Parisian sweets (made of figs, dates, raisins and nuts).

ALLIES ARE FED BY SELF DENIAL

Generous Doing Without in America Supplied Food to Europe.

Exports from this country since it entered the war have kept starvation from Allied Europe and have maintained the health and strength of those who have been bearing the brunt of our battles, so that they could hold out to victory. Now that hostilities have ceased we must assume the added burden of keeping starvation from increasing its toll upon the millions who have been liberated from the Prussian yoke. Famine would undo the work which has been accomplished in freeing the world for democracy. No stable government can be established and maintained by a nation harassed by hunger. A starving people turns to rioting and anarchy. Food has given strength and courage to the nations fighting for democracy; it must now give the nations strength and tranquility to re-establish themselves in freedom and democracy. Without our help it would have been absolutely impossible for the Allies to maintain a living ration. Since our entry into the war we have been contributing largely to the support of one hundred and twenty million people whose normal food supplies have been cut off, whose production has fallen almost to the vanishing point, whose fields have been devastated by Germany. The food exported from the United States in the past year has been sufficient to supply the complete ration of twenty-two million people.

It is hard to grasp the magnitude and significance of the assistance which has been lent the Allies by the patriotic, voluntary service of the American people. The food we sent abroad last year would have been sufficient to feed one-fifth of our population. And this was done in spite of the fact that we entered the year with short crops. Our surplus was practically nothing. An overwhelming proportion of the food that left this country last year was saved out of the normal home consumption of our own people.

In spite of difficulties met in international transportation and shortage of ocean tonnage our food exports last year amounted to a figure that a few years ago would have been unbelievable. Even the most optimistic element of our population faced with anxious consternation the prospect which opened before us with the beginning of the 1917 harvest year.

The American people have not been compelled to save. They have been appealed to on the basis of humanity and of patriotism. They have responded voluntarily.

Besides such incidental benefits as the improvement in figure and health that we've reaped from our needless, wheelless days, think of the fun we've had out of them—the new crop of jokes, jibes, topical songs and cartoons to replace the mother-in-law joke and the boom to our reputation for ready humor!

Eighty millions of men cannot be taken out of production for four years without lasting losses of yield. It will be years before their fields recuperate, and farms are restored and herds restocked. Save food.

We have been asking for your business ever since we have been in business, and we have been asking because we thought we were entitled to at least a part of it. Also we have been asking because we need the money.

The boys are beginning to return and every one will be wanting to give them a merry Christmas, and we should welcome those noble boys with open arms. The boys that return will be the men of the hour. Every one of those boys must receive something and we believe that you will find the most suitable presents in our store that can be found in the city.

We have lately added to our stock some electric goods, such as perculators, toasters, bed warmers and a number of other electric appliances. In fact we have presents that will please every member of the family. You will be coming to town often now and we want you to come on and look around and then come to see us and buy your presents. If its cold weather we will have a RED-HOT STOVE.

Join the Red Cross—all you need is a dollar and a desire to aid the unfortunate and distressed.

Somebody has coined the phrase "autocracy in overalls," now it is up to someone to apply the phrase bolshevists in broadcloth.

Get a 1919 membership in the Red Cross, have a membership flag in your window and let your neighbors know that you have not forgotten our soldiers who remain overseas.

The fellow who thinks that hard work never hurt anybody has, perhaps, failed to consider those who have died from nervous prostration superinduced by their efforts to avoid it.

The corn crop of the United States for 1918 covered nearly 178,000 square miles, almost as much land as there is in Germany. The wheat fields covered an area four-fifths the size of Austria, more than eight times the size of Belgium.

Mr. Hoover has predicted that nearly ten million people will perish of starvation this winter. The end of the war came too late in the season to allow the possibility of the wholesale distribution necessary to save them. There is sufficient food but no possible way to secure its distribution in time.

THE PACIFIST.

A man much addicted to peace
 Was nabbed by the city police;
 He fought to get bail,
 To stay out of jail;
 And fought to secure his release.

We don't believe that the kaiser was divinely appointed to rule over Germany; nor do we believe in the divine appointment of any preacher who preaches that the starving women and children and the common people of Germany should be censured and left to starve because of the crimes of the kaiser and the ruling class of that country.

Thousands of Irish, from a dozen different countries, have fought in this war "to make the world safe for democracy," and it will be poor return for their heroism if the other countries of Europe are given, as has been promised, "self-determination" and Ireland left to the

tender mercies of those responsible for death of Sheehy Skeffington and others whose crime was their dream of democracy.

TO LABOR

Shall you complain who feed the world?
 Who clothe the world?
 Who house the world?
 Shall you complain who are the world,
 Of what you may not do?
 As from this hour
 You use your power,
 The world must follow you!

The world's life hangs on your right hand!
 Your strong right hand,
 Your skilled right hand,
 You hold the world in your hand,
 See to it what you do!
 Or dark or light,
 Or wrong or right,
 The world is made by you!

Then rise as you never rose before!
 Nor hoped before!
 Nor dared before!
 And show as was never shown before
 The power that lies in you!
 Stand as one!
 See justice done!
 Believe and Dare, and Do!

—Charlotte P. Gilman

Writing of Billy Sunday the Dallas News correspondent says:

"The big men of Fort Worth are interested in the Billy Sunday meetings. They are going to hear him and are offering facilities for their employes to have all the benefit they may from the meetings. Billy Sunday always gets the big men of a community on his side and business men of this community are interested."

Here is where Billy, as he would express it, "Puts one over on Jesus." Christ did not interest the big men of the communities nor have them on his side. Indeed, the Man of Galilee did not seem to be particularly interested in the big men of Judea and gave them little attention—except to chase a lot of them out of the Temple on one occasion. The lowly and humble, the unfortunate poor and the afflicted received his ministrations; and his followers were recruited from this class almost exclusively. It is recorded that a rich young man did come to him once; but went away "sorrowful." Christ couldn't give fellows of that sort much encouragement; but Billy not only attracts them but holds them for the concert, and sends them away rejoicing. Billy seems to differ from the one he claims to follow not only in the kind of friends he makes but in the treatment of enemies. Christ prayed for those who crucified him and asked that they be forgiven; practicing what he preached when he told his followers to love their enemies. But Billy isn't built that way. He told his audience the other night: "When that gang of Huns got licked they began to clamor for something to eat. It makes me so hot I want to swear." and, a little farther along, he did. He said: "Darn their onery hides," and declared that he was unwilling to stint himself that his staving enemies might be fed.
