PRINTING

Printing is a good business. It is clean, honorable, respectable. It is celebrated as a trainer of men for higher in life. It has many inspiring traditions and legends. It combines the need for knowledge of everything under the sun: mathematics, mechanics, language, spelling, grammar, color, composition, salesmanship; there is indeed no limit to the accomplishments that are required of the printer. The printer is brought into contact with all other vocations and professions. No vocation or profession can really exist without the printing-press. From Text books to novels, from pamphlets to newspapers, from tickets to tax bills, no man can evade the printed word.

MUCH RUBBISH LITTERS PUBLIC HIGHWAYS IN CO.

County Judge A. C. Hoffman, Commissioner J. B. Burnett, precinct one, and Engineer C. L. Hasie, went out over highway five Wednesday to see about the locating and building of bridges leading from the highway to the different lateral roads. There are several of these bridges and when they are connected it will be quite a help to all parties living off the highway. This will be rushed as fast as possible. While we are on the road question we would like to state that within and near the city limits, are several piles of trash, waste and cans being piled along the highways that are very unsightly, and is a violation of the law. Judge Hoffman stated that all officers had been instructed to arrest any parties caught dumping such refuse along the highways. The highways should be beautified instead of littered up. Let the dumping grounds be removed to some secluded spot rather than on our public highways.

T. T. HARRISON TO BUILD NEW GIN NEXT FALL

A deal was closed this week whereby T. T. Harrison and brother, became the owners of the land on which the old Frank's wagon yard is now located. This is valuable, being located as near the industrial district as it is and we understand the new owners will begin razing the old building with view of erecting a new and modern gin.

MARRIAGE ENDS FIFTY YEAR ROMANCE THURSDAY

Rev. J. P. Gay of Henrietta and Mrs. Elizabeth Ballard of this city were united in marriage at the Baptist parsonage by the Rev. E. T. Miller last Thursday evening. Following the ceremony the couple left for their home in Henrietta.

The wedding was the culmination of a romance extending over a period of fifty years—being sweethearts in their youth—and it had been fifty years since they had seen each other.

DISTRICT COURT TERM IS ENDED; FINE RESULTS

MANY CASES TRIED AND MANY CONVICTIONS SECURED

District Court was brought to a close this week after quite a busy session. The following business was transacted since our last issue:

Roy Welch and Dick Turner, who had been given a new trial for burglary of the R. H. Wherry Jewelry store, were given four year suspended sentences.

Mrs. Bessie Berry murder case was continued on motion of the State. The remainder of the criminal docket, which is not very heavy, was continued to the next term of court. Several cases continued on account of illness.

A number of cases were dismissed from lack of evidence.

All together this has been a busy term. Sheriff Merick departed last week for the penitentiary with prisoners whose terms would aggregate 46 years. This with the suspended sentences runs the number of years close to 70.

District Judge Templeton was busy today preparing the dockets and signing for this term.

BOY SCOUT COURT OF HONOR

Next Monday night at 7:30 at the Presbyterian church a Court of Honor will be held and all Scouts having passed tests will be awarded certificates. Every Scout and parents and friends are asked to attend this event, for it will be worth while and also be encouraging to the Scouts.

OLD MAIDS CONVENTION

The Missionary Society of the Methodist church will present the "Old Maids Convention" Tuesday night, March 23, at the high school auditorium. This will be a play well worth seeing and the society expects a large attendance.

HALL COUNTY FAST BECOMING VERITABLE AGRICULTURAL SPOT

MEMPHIS FASTEST GROWING TOWN IN THE PANHANDLE; BUILDINGS ARE RISING ON EVERY BLOCK AND MUCH PAVING TO BE DONE

A representative of the Amarillo Daily News was here last week here last Friday and in Sunday's issue of the News gave this city and county a good feature story, which gives our readers an idea of how visitors notice the great improvement being made in Memphis and Hall county.

This representative also wrote an editorial in the same issue boosting Memphis. Herewith is reprinted the feature article.

The Feature Article

"Is Memphis growing? Take a look for yourself at the Hall county capital, a city that is the trade center of a fertile agricultural belt that produces 75,000 bales of cotton annually.

Memphis is paving its streets in blocks of fifty; the county is paving its highways; Memphis is erecting a new and modern hotel, a goal of years, it has one of the finest courthouses in the state, and is erecting brick business buildings at a rate that tells one story—a city is being built here.

Memphis is in the midst of its record-breaking era of development.

"Bank deposits are high, merchants are prosperous, the county produced nearly 60,000 bales of cotton last fall. The gins are still running, still ginning cotton in March that was grown last year.

"On January 14, 52,000 bales had

ELECTRIC RANGE DEMON- STRATION LAST WEEK

The Texas Central Power company office on Main street was the scene of an interesting demonstration last week when Mr. Mason and Miss Mersman of Chicago demonstrated the Hot Point electric range. They baked bread, ham, cooked coffee and cake on the range and served them to the many visitors during the demonstration. The company reports the sale of a number of ranges during the week.

CYCLONE SQUAD PRESENTED WITH GOLD FOOTBALLS

BANQUET AT RUBE'S CAFE HAS MANY NOVEL FEATURES

Twelve letter-men, members of the Cyclone football squad of Memphis high school and the coach were presented with gold football watch charms, which had been purchased by the business men of Memphis, at a banquet Wednesday night at Rube's Cafe. The footballs were awarded as a token of appreciation of the excellent work done by the Cyclone in winning the district and bi-district championships the past season.

The name of the player and "Cyclone '25" was engraved on the football presented each man. This should be a gift which will be cherished through life.

Thirty-five were present at the banquet, the Cyclone squad and their lady friends, Coach and Mrs. Bolton, Supt. and Mrs. S. C. Miles, the Red River Ramblers and their ladies, King Stephens, sport writer for the Democrat, and J. C. Wells, editor of the Democrat. The latter acting as toastmaster for the occasion and Stephens generalissimo, fun-maker and radio announcer.

A fake broadcasting station had been installed and many thought the event as being broadcast, for many long distance telephone calls and telephone messages were received. Some from Canada and other distant points claiming the program coming in fine. Fake telegrams asked for the "low-down" on certain Cyclone members.

The Red River Ramblers furnished some splendid music for the occasion. Miss Vernadine Jones favored with a solo and was accompanied at the piano by Miss Shirley Greene.

The banquet served in three courses by Mr. and Mrs. Sisk was exceedingly fine, and the decorations and table service could not have been excelled. Everyone present tendered them a vote of thanks, proclaiming it couldn't be excelled.

OFFICERS CAPTURE FIVE PEOPLE WHO ARE THOUGHT TO BE THE GANG THAT BROKE SAFES HERE

CONFESSIONS IMPLICATE EACH OF GANG IN ROBBERIES AT ESTELLINE, NEWLIN, MEMPHIS, CLARENDON AND OTHER TOWNS OF THE PANHANDLE

PRIZES FOR ORATIONS

Tuesday at the Rotary luncheon announcement was made of prizes offered to senior and junior high students as follows: In the senior high first prize \$20, second \$10. Jr. hi. first, \$15, second \$5. Contestants may choose from three subjects: "My Town," "He Profits Most Who Serves Best," and "Cancellation of Foreign Debts." They may write an essay or deliver as an oration, and the contest is to end just before school closes.

The subject, "My Town" is one that will be used in a contest at the West Texas C. of C. Meeting in Amarillo in June and must be delivered as an oration without referring to manuscript.

DR. F. S. GRONER DELIVERS TWO FINE SERMONS

Dr. F. S. Groner of Dallas, general secretary of the Texas Baptist convention, occupied the pulpit of the First Baptist church last Sunday morning and evening. The sermon Sunday morning was one of the best ever delivered in this city, well rounded and a masterpiece in construction and delivery. Then again that evening his sermon was good, but cut short on account of his having to take the southbound train.

The church was crowded at both services and Sunday evening Rev. C. L. Jameson did not hold services so his congregation might have the privilege of hearing Dr. Groner.

COUNCIL DESIGNATES STREETS TO BE PAVED

The City Council has designated the streets to be paved, totaling 38 blocks, as outlined in last issue of the Democrat with the exception of the two blocks on 13th street from Main to Bradford, which is still under advisement. Five alleys were also designated—the four alleys around the square and the alley of the block northwest of the square.

UNIQUE DISPLAY

The Allen-Figh Motor company has a catchy display. It is a complete equipment for a camping trip. A Dodge Sedan is equipped with bedding and the seats let down so that it makes a good bed right in the car and a tent is nearby, lighted from the battery of the car. A camp table camp chairs, fishing rods, guns, and a grub box are nicely displayed. The most unique feature is a camp fire with kettle and coffee pot handy. A light globe is so arranged in the wood to appear as if a good fire had just been built and ready for the cooking of a good meal.

SAUNDERS STORE HOLDS FORMAL OPENING SAT'DY.

The formal opening of the Clarence Saunders store, J. D. Guinn, manager, was held last Saturday and the store was thronged with people. The Red River Ramblers furnished the music for the occasion. Carnations balloons, etc., were given all visitors as favors.

Mr. Guinn is well pleased with the reception the store has received at the hands of the public and believes he made a good change when he converted his business into a self-serving grocery.

Those awarded gifts at the Clarence Saunders store opening Saturday were: First, Mrs. L. B. Garey of Giles; second, J. L. Roundtree of Eli; third, M. L. Wood of Memphis.

Five people are in the toils of the law under charge of robbery in Estelline, Memphis, Clarendon, and other towns of the Panhandle. Last Saturday at Clarendon officers arrested Jimmy Hurt and Pete Elliston and another man and placed them in jail. Roy R. Vest and his wife were arrested in Amarillo and placed in jail.

Railroad officers and all county officers from Wichita Falls to Amarillo have been working together on the case. And from confessions they have obtained from some of the people it seems the officers have not made a mistake in those apprehended. Two other men are implicated in the confessions—Jack Smith and one other, who are both at large.

R. L. Biggers, filling station operator at Clarendon, whose place was robbed one night shortly after the two safes were stolen in Memphis, was on the lookout for suspected parties, with a car equipped with a certain brand of tires, and Saturday saw the three men in the car with like tires which suited the description. He notified an officer who followed the car out of town, and forced them into a ditch to stop them. He found guns and burglary tools in the car, and arrested the men. It is reported they made some confessions that implicated others and Vest and his wife were arrested in Amarillo as a result. Vest would not tell anything until he was brought to Memphis on Wednesday and taken to jail. It is alleged he acknowledged his implication in the Estelline, Newlin and Memphis robberies and implicated others. He was taken back to Amarillo for safe keeping.

Different members of the gang have made statements, some saying one thing and some another, all implicating each other. It is believed it is the same gang which operated at different places up and down the Denver road from Wichita Falls to Amarillo.

In his statement Vest told how they got the Seago safe in Memphis, drove south of town and opened it, came back and got the Texas station safe, drove out north of town, opened it and went on to Giles where they slept until late in the afternoon. They later went on toward Amarillo.

Sheriff Merrick and Deputy Bill Ruddleston went to Clarendon Sunday and learned enough from the prisoners there to convince them that they were the same who robbed the Memphis safes.

LITTLE KATHLEEN FLANNERY

The Death Angel entered the home of Mr. and Mrs. C. W. Flannery Saturday night and bore away on its wings, the sweet life of little Kathleen, aged 15 months. Thus over a happy home the shadow of a little grave has fallen; and as another has said, it is wonderful how long a shadow a little grave can throw.

This beautiful baby life was so precious, so fraught with blessings to the parents that she seemed a flower of Paradise permitted to bloom for a brief season by their side, then recalled to its nature skies, leaving the earth road for them dark and lonely indeed.

Funeral services were held Monday afternoon at 2:30 at the Baptist church by Rev. E. T. Miller, pastor. The casket was covered with many beautiful floral offerings prepared by loving hands, all of which spoke of peace, purity and immortality. Interment in Fairview cemetery Monday afternoon.

CARNIVAL COMING TO MEMPHIS

The Our Fair Association has secured the Geo. J. Loos carnival for the week beginning April 26. This company played at the Fat Stock show at Fort Worth and is said to be one of the best on the road. This company will have 25 cars of high class attractions in Memphis.

Those who have tried want-ads in the Democrat have found it pays.

Our Texas Women Proven Leaders of National Clubs

BY PHOEBE K. WARNER

A few days ago in conversation with Mrs. John D. Sherman, president of the General Federation of Women's Clubs, a Federal official had this to say:

"Next to the Government itself, there is no organization in America with greater potential power than the General Federation of Women's Clubs."

The General Federation is one of those gentler powers, like the sunshine and the rain. The world at large does not think much about it. Nevertheless it goes right along blessing the people, and serving humanity almost as unselfishly as the sunshine. Some day the whole Nation will recognize this power more than it does today. It is just a matter of time and a better understanding between the different factions of human kind.

The General Federation is a simple thing in its mechanism. Simple as the least organization in your town. A president, first and second vice-president, recording and corresponding secretaries and a treasurer. Those are the officers. The work is grouped under eight great heads. Each has a national director. These and 27 committees constitute the entire official force of this national power.

Included in this organization are 50 State Federations and 41 foreign clubs, making a total of 16,000 clubs and about three million members. And out of these 41 officers and chairmen selected from the three million women in America, THREE of those 41 women are from Texas.

The first and highest Texas official in the general Federation is Mrs. Florence C. Floore of Cleburne, who is the national treasurer and through whose hands every dollar and every bill connected with this immense business must pass.

Two years ago when Mrs. Sherman was elected president of this organization the first thing she did was to create a new department to be known as the Department of the American Home. To plan and initiate this new work Mrs. Maggie W. Barry of College Station, Texas, was chosen out of all the three million in the Federation. No small honor and responsibility that. The third Texas woman to be one of the directors of the national directors is Miss Anna Shelton of Fort Worth, Texas. Miss Shelton holds the responsible position of Chairman of the Finance Committee. Three of the forty leaders in the General Federation of Women's clubs are Texas women. Is that anything for Texas to be proud of? We ought to be one of the greatest Federation States in the Union. And we ARE.

Another Proof

One of the club goals of Mrs. Sherman's administration has been a federated club in every county in the U. S. A. The larger cities are so thoroughly organized that a great many people, even women, get the idea that the women of America are nearly all club women. A little research work conducted from headquarters revealed some staggering disappointments. There are at this time 3063 counties in the U. S. But only a few more than half of

Night Coughing Relieved At Once

Why suffer continually from a persistent, weakening night cough when you can get almost instant relief, and usually break the cough completely in 24 hours by a new method based on the famous Dr. King's New Discovery?

Here is the method. You simply take one teaspoonful and hold it in your throat for 15 or 20 seconds before swallowing it. It has a double action. It not only soothes and heals irritation, but also removes the phlegm and congestion which are the real cause of the coughing. As a result even the worst cough usually disappears quickly.

Dr. King's New Discovery is for coughs, chest colds, bronchitis, spasmodic croup, etc. Fine for children, too—no harmful drugs. Very economical, as the dose is only one teaspoonful. At all good druggists. Ask for

these have any kind of Federated Club. Truly the harvest is great and the laborers are few in the Federation vineyard as compared to the work yet to be done. Look at the state of Texas again and you will be proud of our women. Texas, the largest state in the Union. The state of greatest distances and in some parts very sparsely populated. We have in Texas today 254 counties. And only 63 of these are without a Federated Women's Club. 191 Texas counties have already been touched by the influence of the federated club. A few of these counties scarcely have enough women in them to make a live club. But the world would be surprised to know just how loyal and faithful some of our Texas women are to their clubs. And the fewer the women in a county and the farther they live apart the more they need the sunshine of the club movement in their lives. Let's get busy in Texas these next two years during Mrs. Fields' administration and go over the top in Texas by organizing a club in every county in Texas.

Here is our Texas record as accurately as it could be secured last year. There are seven districts in the Texas Federation. In the first district with Fort Worth as the center there is not a county with-

out a club. The second district with Dallas as leader has only one county without a club. The third district covering northeast Texas has six counties without a club. The fourth district including Houston, has ten clubless counties. The fifth district with San Antonio as the central city, has twenty counties without clubs. The sixth district, covering the broad expanse of West Texas proper, has 18 counties without clubs and the seventh district, covering the Panhandle and the South Plains, still has eight clubless counties.

There may be errors in these figures. But these are the facts gathered by the State Chairman of the Club Extension the past year. Let's have a woman's club in every county in Texas this year where there are as many as two women in the county to get together and plan ways to up-build their county. Wherever there are enough homes to make a county there will be enough women to make a club. Let's get this silly notion out of our heads now and forever that a woman's club is a gossiping society where women meet to whisper unkind criticisms about their neighbors. There never was a greater mistake than that. Federated Clubs meet to work, to study, to plan to grow. And every woman in Texas is worth belonging to some organization of women who are working

to build up better living conditions in their community whether that community be the largest city in the state or the smallest rural school district. The woman's club is a school for adult women. A school where women may go and learn from one another. A school where they may learn the lessons they failed to learn in youth. No one has a right to deprive you of this opportunity. And it has been demonstrated in the beginning of this story that the women of Texas are as great leaders of thought as

the women of any other State in the Union. Let every club woman get a broader vision of the mission of the women's clubs than she has ever before had. Let's make this the greatest year in Texas clubdom. The greatest work the Federation is doing is not saving the birds or the wild flowers or the waterways or even the State Parks. The greatest work of all is saving WOMEN.

have you Enough Insurance

HOW much is enough insurance? Some think that a thousand dollars is a fortune, though it is usually less than the remaining doctor bills and funeral expenses. Some think a hundred thousand is enough, but even that sum might prove too little for the families accustomed to income larger than it will earn.

Every man's insurance problem is a problem in itself. Your problem is based upon your circumstances, your income, your responsibilities.

Would you like to discuss your problem with the kind of insurance agent who will look at it from YOUR viewpoint—an agent who is honestly more interested in rendering you a helpful service, than in selling a policy?

The Southland Company's creed is: "Service to the Policyholder first." We agents are committed to that ideal. And the fine part about it is, that IT PAYS. Let me help you arrange your insurance plans and specifications to fit your individual needs.

stop that CARBON KNOCK

A CARBON KNOCK or motor vibration aside from being annoying greatly reduces power efficiency combustion taking place before complete rise of the piston. The mechanical method of correcting such knocks is to retune the spark which again reduces power efficiency. Many gasoline mixtures have been developed which in a way might eliminate the knock, oftentimes the remedy is worse than the ailment. In NO-NOX Motor Fuel we have the remedy without a single harmful feature—it positively takes the carbon knock out of the motor. Any motorist knows that this means easier quicker acceleration, smoother running and More Power, less gear shifts and generally a more satisfactory operation of the car at lower repair cost.

The ORANGE gasoline at the sign of the ORANGE DISC

NO-NOX is Non-Noxious, Non-Poisonous and no more harmful to man or motor than ordinary gasoline. We ask you to try it, after that be your own judge. NO-NOX is priced only three cents per gallon higher than That Good Gulf Gasoline.

WATCHING MEMPHIS
Have you seen Memphis lately? If not you can't appreciate how the capital of Hall county is rapidly becoming a city.

Only a few years ago Memphis was without a single block of paving. Now, wide paved streets cover the business section and extend for a half mile into the residence area.

And they have no thought of letting up now. Only last week they sold \$50,000 of bonds and awarded contracts for \$180,000 worth of paving, which will cover fifty blocks. Think of that, 50 blocks of paving in one contract for a city of 5,000 or 6,000 population.

Memphis has one of the finest courthouses in all the state, recently erected a splendid high school building and is now building, through the co-operation of Ernest Thompson of Amarillo, a magnificent, modern hotel.

For years, Memphis had sought a new hotel, just as public spirited citizens urged paving. Now the entire city has caught the spirit. An unprecedented building era is on.

All Memphis is proud of the fact that the city is to have the hotel, just as it talks with pride of the courthouse, paved streets, churches and schools.

Its next objective is a federal building.

Hall county is one of the most prosperous of the state. They are still ginning cotton down there, with prospects of breaking the 1924 record when 58,000 bales were produced.

Memphis, in the heart of the upper Red River valley belt, is one of the coming cities of West Texas.

Amarillo prizes very highly the friendship between this city and Memphis, and rejoices at the wonderful growth of the Hall county metropolis is making.

Watch Memphis!—Amarillo Globe-News.

NEWS PAPERS ENTITLED TO REASONABLE PROFIT

It sometimes happens that a merchant who is making a big profit on the goods he sells will complain at the prices he has to pay for advertising and printing. Perhaps the printing business involves more hard work and brings smaller returns on the investment than any business in town—any town. If you do not believe that there is work to do in a newspaper shop, just drop into our place of business most any day or frequently at night and watch the "force" perform. If you think there is big money in the business you might ask the local banker. We do not know any country newspaper anywhere that is profiteering either in its advertising or its job printing. On the other hand many papers are struggling to live, and almost every week brings news of the merger of two papers, the sale of one to its competitor, which means that both of them were not able to survive and one or the other had to go.

Yet you will find a business man now and then who will talk about the local newspaper shop robbing him, and he continually tries to "jew" the management down on its prices. At the same time, if you go into his place of business and undertake to "jew" him down on prices for which he sells his goods, on which he is making a good profit, he would regard you as a "tightwad". Now we are not complaining, nor are we "grouching" we are just stating the plain unvarnished truth. We want all our business men to prosper. They are entitled to a fair profit out of their respective lines of business. But we think they ought to be willing to pay the printer, the editor and the devil a price to live and reap at least a small return on his investment and labor involved. Most of our business men have been fair and square with the local newspaper, and we highly appreciate their patronage, but if all the business men of this town were to treat the local newspaper as a few of them do, there would be no newspaper. It couldn't survive a single issue. At the same time those who support the newspaper are making no sacrifice in doing so. On the other hand, they reap rich rewards from the money they spend in the newspaper shop, if this isn't true,

then the newspaper is of no benefit to the town commercially, and this town would grow and prosper as well without a newspaper as with one. And yet, can anyone imagine what this town would have been today if there had never been a paper published here? Yes, the coyotes would have still been howling within hearing distance of the courthouse square.—Lynn Co. News.

FASHIONED DANCES TAKING PLACE OF JAZZ

March, 18.—Old fashioned dances revived by Henry Ford and rapidly taking the place of jazz and other acrobatic dancing steps, are being resurged in Dallas.

H. Myer of the Myer school of dancing, probably one of the best in the Southwest, has been engaged as hostess at the Great-Hotel here and will perform for patrons in the Virginia, quadrille, Cecilian circle, round dance, the ripple (favorite) and the polka.

Myer has been teaching dancers in Dallas and numbers of "finished pupils" some of the best toe and classical dancers in the profession.

The younger generation, according to Myer, is tired of jazz dancing and is ready for something pretty and strenuous.

ST BAPTIST CHURCH

E. T. Miller, Pastor

Sunday was a good day with a good attendance at the Baptist church. Dr. Groner's services were well received by the congregation. We were happy to hear Bro. Jameson and his wife Sunday evening. We were glad to hear of their kindness in offering to lend every possible aid to the success of their coming tour.

We are planning to receive Dr. Huber into our fellowship. His messages through two weeks were greatly enjoyed. We rejoiced with Miss Lindner's decision for Christ in her service.

We are planning to make next week's services just as attractive as possible. The splendid choir and orchestra will delight all who hear them. The pastor's morning hour will be "But Leaves."

Special invitation is extended to all to worship with us.

DEATH SELLS BIG STEER

McElreath sold his big steer weighing 1660 pounds, at Fort Worth to Swift & Co., at 9 1-4 per pound. It brought \$153.55 and weighed \$140. The steer fell dead while in Fort Worth as it did not eat.

BAPTIST W. M. S. MET ON MONDAY AFTERNOON

The Baptist W. M. S. met in regular meeting Monday afternoon with a good attendance. The meeting was promptly called to order by the president, Mrs. Jim McMurry. Minutes of last meeting read and approved followed by reports. Several being absent due to illness, a full report was not made.

Much benefit was derived from the week of prayer and missionary study through the lines of missionaries we have caught glimpses of the great unoccupied fields in which the harvest is now perishing for the want of reapers. Making us realize that the responsibilities and possibilities of the W. M. S. are almost overwhelming \$116 was the offering for the week of prayer and mission study.

Community Club Organized at Harrell Chapel Last Week

Minutes of the L. C. C. Club

Feeling the need of more visiting in the community and of some means of getting together to exchange ideas and to create a greater community interest, on Friday afternoon, March 5, several ladies met for the purpose of organizing a community club. Mrs. Hancock was chosen president; Mrs. Daniels, treasurer and Mrs. Woodson, secretary. "Love thy neighbor as thyself," was selected as the club motto. White, blue and gold are the club colors. The motion that each meeting should open with the members rising and repeating the Lord's Prayer was carried also that there should be no "tattling, back-biting and unkind gossip among the members of the Club. Meetings will be held every Friday afternoon, at 2:30 o'clock. An initiation fee of 25 cents will be charged and will be used to help create a fund for a community canner. Each lady present was given the privilege of inviting two ladies to meet with the first regular meeting. Mrs. Richie and Mrs. Hancock were appointed to meet with Mrs. Woodson on the first Monday night following to help to write the constitution and by-laws of the club after which the club adjourned to meet at Mrs. Richie's Friday afternoon at 2:30 o'clock.

Bro. Nelson preached Saturday and Sunday night.

Mrs. Bur Wills and mother, Mrs. Dinson is ill this week with the flu. W. H. B. Moore went to the Fat Stock Show last week.

Mrs. Daniels and daughter, Eula spent Sunday with Mr. and Mrs. McClanahan.

OUR GRANDMOTHER

Dedicated to Mrs. Molly Crabtree Grandmother dear, your 80 years Were links of joys, of hopes and tears Were days of sunlight and of shade, With blossoms fair and flowers that fade.

The years of youth and womanhood Were fraught with beauties and with good;

The years of mother love's own cares Were mingled with gladness, grief and prayers.

The snows of age fall thick and fast, Obscuring pleasures of the past, Until the heart, we loved and knew, Fell fast asleep, its mission through. The unchanged world seems not the same

When tenderly we breathe your name; We hear a sadness in the breeze That whispers low among the trees.

'Tis strange that only yesterday These same bird-songs to us were gay, But now the mocking bird's refrain Has minor notes of grief and pain.

In memory will live your smile, Your love will linger all the while; Beneath the blossoms, dear, you'll sleep, While silent stars their vigils keep.

Grandmother dear, our hearts now feel The sweetest joy God can reveal, Will be your life forevermore On heaven's bright and blissful shore.

For you eternal roses bloom; For you there is no nightly gloom; For you perfection's flowers are bright; For you will ever shine love's light.

LLOYD HUGHES IN A REAL "HE-MAN" ROLE AT PALACE

Add to the list of screen "he-men"—"Knockout" Lloyd Hughes! During most of his screen career Hughes always appeared in roles showing him as an immaculate, well dressed young man.

But—when he reached New York some months ago to play one of the featured roles in "The Half Way Girl" with Doris Kenyon he suddenly became transformed into a fighting demon. In that picture he fought all over a big ship and his final close-up with Miss Kenyon revealed him covered with mud.

And in "The Scarlet Saint"—his latest picture to be shown next Tuesday at the Palace Theatre, he again has a strenuous role and attacks an Austrian Baron with his bare fists. This time he breaks out, grabs a pistol and engages in a duel in which he shoots the Baron in the arm.

"I love this fighting business," says Hughes. "I have tired of always having a clean face on the screen. Bring on the fistc battles!"

In the "Scarlet Saint," a romantic drama centering about the New Orleans Mardi Gras, Hughes is featured with Mary Astor. And how he has to fight to finally win her.

CARD OF THANKS

We haven't the power to express our sincere thanks to the good people of the Newlin vicinity for the many kind deeds of assistance rendered us during the illness and death of our dear wife and mother and our baby Dorothy. We came as strangers to these people and they treated us like kindred. Everything was done that could be done in this, the darkest hour of life. We pray God, that they may each have the kind consideration and sympathy shown them when death enters their homes. And we thank our Heavenly Father that it was our lot to be cast among the people who were so faithful to the last.

Cooperation Will Accomplish Anything

The growth of Texas is shown in statistics of the increase in demand for the service of Electricity during the past year.

This service is an essential service. It is a public service. Its success can best be measured by the success of the community and the people who use it. The community can not go forward socially, industrially or in a business way without Electric service that is always dependable and as good as it is possible to make it.

This company is supplying good service to the people of this community. It is preparing all the time to be ready to supply more service as the growth of the community shall call for it.

The best interests of this community and this company are tied up together. Our success depends upon each other. Cooperation will accomplish anything. Our chief purpose is to cooperate with our customers.

ARE YOU UNAWARE

Of the fact that pure blood is a diamond to life?

The blood is the great distributing agent of the body and if pure and healthy, gives health and nourishment to the body. If the blood is filled with impurities and sluggish, it is unable to give nourishment and health to the body. Low body resistance results unless the blood is in good condition.

People whose body resistance is low take cold easily; they are constantly in danger of illness because they cannot resist the invasions of disease germs. In springtime the bacteria or germs seem to be the strongest and the body resistance the weakest.

The time to tend to the blood is in the springtime. Winter's heavy food, lack of sufficient exercise, lack of green foods, loads up the blood with impurities and the result is a very low state of life and very often fever, which is sometime not controlled by your physician.

Why not eliminate such conditions by taking F. W. Mc Ness Sarsaparilla

and Burdock Compound, similar medicine, it is flavored, efficient in action and ing to the palate. This will be your friend if you mit. And remember Mc Ness parilla and Burdock Compound made of only nature given roots and bark of roots, assured against any dangers of any form.

All orders will be promptly and postage prepaid on order amount to 3 bottles or more \$1.10 per 11 ounce bottle, three bottles. \$6.25 for six.

WILLS GALORE ON CHANEY'S "BLACKBIRD"

—thrills that run up and spine-gasps of subdued all this you find in "The Black Bird," which will show at the theatre Monday and Tuesday. If you want a lovely little play—a pure flower blooming in a dark background—see the romance of "The Black Bird" and Doris Lloyd!

—a creepy picture—a thrilling play, "The Black Bird," but never thread, a wonderful love story through it. There's a love who is reclaimed by love—terrifying half of London of the strangest masquerade conceived in an author's brain? Gasps of amazement as 'ohs' of joy as the unfolds—like an orchid in a swamp.

Chaney plays two roles—one criminal—the other a crippled worker who at times is saint to look on. How he both so perfectly is a rev-

WHY SUFFER WHEN MILLIONS ARE SAVED BY U. S.

Washington, Feb. 26.—Thousands of men are deprived of benefits which they believe they are entitled to by comptroller's decisions, says Comptroller General McCarl, the chief watchdog of the Treasury department, who has been working since he began working in 1921, and is proud of his testimony before the House appropriations committee shows that he has total is actually much more than the records of all amounts suspended and recovered to obtain.

of McCarl's decisions have been unpopular that rumors are flying about that he is about to be impeached, or his power curbed. He has refused to pay taxi bills for government employees who are on expense accounts. He has allowed the government for photographs for heads of bureaus. He has made arbitrary rulings on tips for waiters or in dining rooms. He has not buy black gowns for federal employees.

Whether he has been annoying to a lot of people, so much that Representative Walker Newton (Minn.) is getting information from various sources about the Comptroller's actions.

Newton is a former Nebraskan. He was one time secretary to Senator Newton.

Newton believes Newton contemplates a bill curbing the power of the Comptroller General's office, and American Veteran's Weekly.

TEXAS TALKS BACKWARD CHILDREN

WESLEY PEACOCK, PH. B.

Anxious parents sometimes lose patience with their children because they do not like to attend school, and therefore lag behind in their classes, blaming them, scolding them, and nagging them for their faults by invidious comparison with their more studious neighbors.

In all such cases there may be any one of three causes for their deficiencies. It may be due to incompetent, inexperienced, and unsympathetic teachers; when the only recourse is a change of school. No child can succeed with a teacher he does not like, because with the child it is a matter of feeling and not of reason. Success in school is based on emotional life, rather than mental; as all psychologists know; and the teacher who fails to establish emotional contact with her pupils fails in her first class-room qualification. Half the inefficiency of the public schools is due to this cause.

Secondly, it may be due to ill health of the children, who are apathetic for lack of vitality. Many schools provide medical examination of pupils who fail, as most parents will not do so for lack of information or fear of the expense. Some children will suffer of ill health for months without complaint to their parents or teacher through timidity. The most common faults are defective eyesight, decayed teeth, impacted molars, headache due to eyestrain, indigestion, errors of diet and malnutrition.

Thirdly it may be due to lack of mental ability to learn, a fault of heredity more common than parents are willing to know or admit. For this lack there is no remedy, except special classes for retarded pupils, conducted by teachers prepared for the work. If such pupils are unable to make one grade a year, they may make a grade in two years.

HELP COMBAT HI RUBBER PRICES BY SAVING TIRES

The Buick Motor company is, in its advertising, urging Buick owners over the country to help combat the present high price of rubber by conserving tires as much as possible. The company advocates careful driving and frequent inspection and repair of minor injuries as aids in obtaining maximum mileage from a set of tires.

The engineering department has compiled a set of rules to be followed in order to get full service from tires. They are:

Avoid sudden stops. Don't let the tires slide along the pavement.

Avoid sharp turns. Take corners slowly.

Don't bruise a tire by running into a curb or other obstruction.

Don't scrape the tires by running too close to a curb.

Repair cuts and worn spots promptly.

Harry H. Bassett, president of the Buick Motor Company, said recently that there is grave danger of the American automobile owner losing the benefit of the automobile tax reduction authorized by Congress through the increased cost of equipping the cars with tires.

"We are threatened with high rubber prices as long as the present situation lasts," said Mr. Bassett. "The National Automobile Chamber of Commerce will attempt to produce lower priced rubber by organizing a ten million dollar corporation to be devoted to this purpose. The individual autoist can and should do his share by saving tires as much as possible. The present price of rubber can't last if we conserve our present supply and thus partially reduce the demand."

"Automobile owners should realize that these rules of tire care are of more benefit to them individually than they are to the situation as a whole, since they will substantially reduce the annual tire bill of each man who follows them."

The Gem Theatre will give a free matinee Wednesday Mar 24, for children. From 3:30 to 6 p. m. March 24th.

ANNOUNCEMENT!

We wish to announce to the public that we have taken over the agency for the OVERLAND and WILLYS-KNIGHT automobiles, formerly operated by the Grogan Motor Co., and have a car load enroute that are due here next week. In taking over their cars we do not boast of having the best car on the market but considering the price and durability, we have a car that is hard to equal; and can supply the man or woman with small means in our Overland. If you want an automobile with sleeve valve motor and years of reputation with an engine that never wears out, buy a Willys-Knight. Come to our place of business and pick out the car you like and if we don't have the one you want in stock we can get your wants out of the branch house in a couple of days.

Ask the man or woman who has purchased an Overland or a Willys-Knight from Mr. Grogan, what they think about the car.

Our Motto—Treat our customers with kindness and courtesy, whether they buy or not. We expect to live and die in Memphis as we have been here 36 years and can't leave if we wanted to. We left once and had to come back.

Don't forget we have Storage, Gas, Oil and Accesories in connection.

I sent to get it. I improved after my first bottle. Cardui is certainly a great help for nervousness and weak back. I took six bottles of Cardui and by then I was well and strong, just as fine from then on. Cardui helped me so much.

Thousands of weak, suffering women have taken Cardui, knowing that it had helped their mothers or their friends, and soon gained strength and got rid of their pains. Cardui should do you a lot of good.
