Theree Men Who Burglarized Stores at Estelline Tuesday Night caught Yesterday Noon

Burglars who brike into stores at Carey and Estelline Tuesday night vere caught at Amarille yesterday about noon. Three young men traveling in an auto were captured and the stolen goods found in the car.

It is not known what was secured at Carey but goods with \$200.00 or more was secured from Gree Bros. Dry Goods store at Estelline, Considerable judgement and discrimination as to the values was shown by the thieves in selecting the goods, only those of the least relative bulk and greatest value being taken, such as silk shirts, ties, fine shoes and high priced sweaters.

The grocery store of John R. Barnes at Estelline, was also broken into and full sack of beans emptied upon the floor; the burglars, presumably, using the sack to carry away other loot, just what had been taken from this store had not been learned.

Sheriff Dwight of Childress and Sheriff King of this county, were on the trail of the burglars yesterday morning; tracing them being made comparatively easy by the fact that their car was fitted with four new another, disclosing their identity at ery point a short turn was made

Lumbang Nuts in Philippines.

The bureau of agriculture in the Philippines has been making efforts to develop the lumbang, or candletut, industry in the islands, and to encourage the planting of trees to replace the wild trees, which are being extensively destroyed. A. W. Praucch, an expert of the bureau, has made a study of this industry for some years. At present, it is conducted in a very haphazard manner, the collecting be ug done chiefly by the wild tribes and the trade being conducted by Chinese. Most of the nuts that reach Manila come from Mindanao. The soft-shelled variety is the one that offers the hest possibilities of development for commercial purposes. "It's nice out here, isn't it, Tim?"

"Sure, it's next door to heaven; an' if you were nearer to me I could fancy

the door was open.' The girl flushed, but had no retort ady and the two sat in silence.

"I've had two jobs offered me since I saw you last," said Tim finally.

"You're doing well enough where you are now," replied the girl quickly. "I heard the Old Man tell Mr. Laurie yesterday that you were the best shipper they ever had. And I'll bet one of your jobs is with Dan Gile."

"So it is, Annie, How did you know? Did Maggie tell?"

"Did Maggie tell! Well, rather, not. Do you think she's fool enough to set her cap for a fellow and then go advertise it?" Now it was Tim's time to redden.

'Aw, cut that out, Annie, there's no girl business in this. Dan's getting old and he wants somebody that he can trust to run the place. Why, this last barkeeper Dan's got, when he takes in any money he throws it up in the air. 'If ye stay up,' he says, 'ye belong to Dan; if ye come down, ye belong to Annie sniffed contemptuously. "Dan

Gile's got plenty of money no barkeeper can steal from him," she said. "He's got thousands of it we all know, but he's got no husband for his daughter Maggie, and she's not so young as the ears indicate certain numbers. By she'd like to be."

"Oh, I don't know!" spoke up Tim promptly coming to the defense of the absent with chivalrous instinct and mischievous fatent, "she's not so aged. There's no stiver threads among the gold-"

"Red!" interjected Annie.

"Well, red, then. She laughs as often and shows as good teeth as any girl in the village. And dancing tonight Pil say for her she was as light on her feet-as a feather."

"It's time you were dancing with her again if you like it so well," said Annle, springing up and starting out of the summer house. "Let's hurry back. I should be going home now, anyway."

Tim was beside her with a restrainng hand, holding hers. "Don't go 'yet. Annie," he pleaded. "Sure, I was only tensing. I'd dig in the ditch before I'd jend bar, and you know it. But I told

you I'd two jobs offered me." "And what was the other?" asked

"Killeen, the contractor, offers to take me in with him," said Tim, a touch of pride in his voice. "It'll be like tearning a new trade for me, but Killeen knows the business if any man does, and he says he can put me on in

"Mr. Killeen's got some blg jobs lately," interposed Annie appreciatively. "That's one reason why he's willing to take me in. Killeen's not a rich man and this last contract he got is too much for him to handle on his capital, He knows Ive a little in the bank, and so for the sake of the money he's willing to give me a chance. There's one hitch in the scheme. Killeen wants me to go up country and look after the quarries there, but I told him I couldn't go without I fixed things right with certain parties here."

"I don't see why you should bother yourself about anyone else," said Annie, looking away from him,

Neither should it be too tight, or it may damage the ear. Sometimes the ears become sore from inserting the labels, especially if the operation is carelessly performed. The lamb should be watched for a time to be sure that these heal. The principal objection of ear labels is that they

may be torn out. Notching is also a good way to mark sheep. Notches on certain parts of a series of notches any number de sired can be obtained. MUSIC AND MIRTH AT TEXAS WOMAN'S FAIR

STATE FEDERATION OF MUSICAL CLUBS WILL FEATURE ART. ISTS OF GREAT ABILITY.

THE ART AND LOAN EXHIBIT

The Amusement Features of the Texas Woman's Fair Will Be a Great Treat for Both Old and Young People.

The musical features of the Texas Woman's Fair at Houston in November will be conducted through the State Federation of Musical Clubs. The adoption of this department by the federation insures a future of artistic ability, and in years to come the placing of an artist's name on the fair or she has reached the pinacle in the Cough and Headache and works off the Cold.

The amusement features of the Woman's Fair, and that will be a treat for both old and young, and which include every kind of educational diversion, will be the Ctrcus Royal Company of Chicago, who will stage their show consisting of daily performances which include concerts, diving girls, dog and pony acts, Japanese performers in clever feats, aerial acts, polar bear acts, elephant acts, clown acts, finishing with a grand fanfare of trumpets which will herald the entire company is a grand climax.

These acts will all be staged in the big auditorium save the diving girl act, which will be placed directly in front of the stage.

The circus as a whole embraces everything the little lads and lassies love, as well as educational features in viewing the animals, while grown ups will also find intense interest in the show which is one of the best in the country.

All visitors who were so fortunate as to be able to attend the previous fairs given by the women will look forward with the greatest interest to this coming event in November as the one time in the year that they can cast aside dull care and devote one whole week to the tune of music and merriment; never forgetting, as be fore, they were one in the great throng of morry makers, as whole Houston will cast aside her business cares and ture her attention to the entertainsent of her visitors. A PEACE SIGN

When Germany talks about disarming and abolishing conscription-even in the most general and elusive terms -her enemies have their first warrant for looking toward peace.

Of course the German Government at this writing-has committed itself to nothing tangible. But given a disarmed Germany all the rest be comes comparatively simple.

The United States has only a se condary and, in some cases, very remote interest in the probable rearrangement of European boundaries It has a livelier interest in the restoration of Belgium; but if other condifulfilled the number of marks which Germany will contribute for that purpose becomes secondary also.

The vital condition is such an international arangement as will assure enduring peace and make the world safe for democracy. Disarming is the first factor in that condition. When Germany begins to talk of disarming she is using language we can cant of a German orientation which realy looks toward peace. The pres are seems at length to be telling.

A German uprising is in progress n Southern Brazil, completely parayzing railway traffic according to eports. The strikes inaugurated in his district are said to be spreadng to other parts of Brazil.

The output of British merchant shipping in the first nine months of this year, it is said, was 123 percent higher than in the corresponding period last year. In September there wa safloat on the high seas an increase of 20 per cent in numbers and 30 per cent in tonnage of British ships, as compared with April.

In view of reports reaching petrograd that the impression was spreading obroad that Russia was virtually out of the war. Premier Kerensky discussed the present condition of the country frankly.

said Russia was worn out by the long strain, but that it was ridiculous to say the country was out of the war.

EUROPEAN WAR HAPPENINGS-

The losses of Italian shipping last week were two steamers over 1,600 tons and one under that tonnage.

The city of Beersheba, in Palestine has been captured by the British, it is aunounced.

Notwithstanding the heavy losses of the Italians General Cadorna declares the success of the invaders soon will be made valueless.

The greater portion of General Cadorna's Italian army is now safe on the west bank of the Tagliamento river in a new line of defense

"The number of German prisoners captured by the British armies in France during October is 9,125, including 242 officers.

A German warship has been sunk in the sound, according to a dispatch to the National Tildende from Malmo, Sweden. It is reported that the vessel struck a mine.

-0-

Thirty thousand German soldiers including two generals of division, were killed in the great battle on the Bainsizza plateau, according to cabled reports received in Washington from the Italian front. It is further stated that General Cadorna is pushing reserves rapidly toward the front with every prospect of checking the enemy's advance.

Virtually 1,000 square miles of Italian territory have been overrun, more than 180,000 Italians have been made prisoners and in excess of 1,500 guns have been captured by the German and Austro-Hungarian armies i nthe ten days drive from the Isonzo and Carnic Alps fronts of the Austro-Italian war theater.

The Germans have retreated from points along the Chemin-des-Dames in the Aisne sector of the front in France, according to the German communication. The communication gives no reason for the maneuver, but says it was made during Thursday night, systematically and without interference by the French troops.

"Whatever the number of Italians taken prisoners the strength of the army has not been weakened. It must not be forgotten, in fact, that Italy has under the colors more than 3,000,000 men. As for the guns that the Austro-Germans claim to have captured, they only represent the production of a few weeks of the munitions factories of our allies." This is part an Italian official statement.

Three officers and a number of sailors of the German navy were killed in "another" mutiny at Kiel, in September according to a dispatch from Amsterdam which claims to have authentic details.

Eight persons were killed and 21 others wounded in the latest German air raid on London, according to an official statement by the British war department. About 30 airplanes in seven groups took part in the raid.

Italy is undergoing a rebirth of patriotism. Everywhere men are clamoring to go to the front. Even the Garibaldi veterans have marched in a body to offer their lives for their country.

Russia entered the war early and she is now worn out by the strain. Premier Kerensky told the Associated Press. He said that Russia claims as her right that the other the solution of the war.

Norway has presented a note to Germany in connection with the sinking of the Norwegian steamships in the convoy of neutral merchantnen which was attacked by German cruisers in the North Sea.

Between 40 and 50 per cent of the Jerman submarines operating in the North sea, the Arctic and the Atantic since the beginning of the war have been sunk, said Sir Eric Jeddes, first lord of the admiralty, in the house of commons

LET EVERY CHILD OWN TREE

Many Reasons Why Its Possession Exerts a Beneficent Influence on Period of Adelescence.

Every child should own a tree. A tree is a symbol of life. It lives. It stands for everything that is noble. It is rooted in the soil and stretches it self toward heaven. It stands for putience, humility, persistence, beauty courage and God. The child should plant the tree himself and thereafter watch it grow year by year. He should put his hands on its rough bark and say: "This is my tree. I will stand by it, and live up to it."

It is curious how blind we sometimes are to certain ideals because we cannot see and handle them. We need something to connect us with the invisible but none the less potent and formative world of aspiration and inspiration.

There is something about the silent beauty of a tree that casts over us a spell of calmness and invincibility. The storms of life may sway and break our branches, the grim and melancholy autumn may strip us of our brilliance, but the spring will come once more and clothe us in a new glory. So we go on fulfilling the majesty of the law.

If your child owns a tree, the memory of its beneficent influence will cling to him through life.—Country Gentleman.

BUSINESS OF THE BROOD SOW

Failure to Produce Good-Sized Littere and Nourish Them Often Due to Lack of Milk.

The business of the brood sow is to produce good-sized litters of healthy pigs and nourish them liberally until weaning time. In so far as she fails in this she fails in the purpose for which she is kept.

The farmer who keeps a half dozen or a dozen sows for breeding purposes finds half of them, perhaps, capable of fulfilling the maternal function well, while the other half do it only indifferently. Quite as often as not the difficulty is the lack of capacity to give milk enough for the litter, and the pigs are in a state of semi-starvation throughout the entire nursing period.

RIDDING PASTURES OF BUBS

Pests Not Only Cause Annoyance to the Sheep Owner, but Decrease Price of Wool.

Nothing is so trying to the sheep owner as burs. Be as careful as he will, these pests will spring up, causing not only annoyance, but often loss. A fleece infected with matted burs always sells for less than clean wool. Thus, burs are a direct loss to every flock keeper.

The remedy? Only one—rid the pasture fields. That's another story, if there are many, but cultivated crops, a system of rotation, and constant use of the hoe will rid any farm of this serious weed pest.

There are visions—now and then—in business and industry.

The Maxwell motor car is a wonderful vision that has been made real.

The fixed purpose of the Maxwell builders was in the beginning, and is now, to produce a car which would be, in the highest sense, efficient, durable, economical, comfortable and standard in equipment.

Many years experience in production on a vast scale has taught the Maxwell manufacturers two things.

One is that such a car as they have always made their aim—a car in which efficiency, durability, economy, comfort, beauty and stadard equipment are all present—cannot be built for less than \$745 with materials at their present prices.

The other lesson is that, for more than \$745, they could not give you anything more than the Maxwell now has except greater size or luxuries, pure and simple.

In other words they are convinced—and they have convinced us—that they have found the great MIDDLE LINE where you get dollar for dollar in ABSOLUTE VALUE.

Help keep the boys in school, is to keep in touch with the high schools in their vicinity. When it is discovered that a boy has left school, the club women, informed to that effect by the eachers, will investigate the matter. If it is a matter of money that makes it necessary for the boy to leave, the club women will provide the money from their own funds. They consider it a matter of preparedness to see that the young men of the future have the advantage of the schools of today.
