## Amphitheatre Work Completed

The amphitheatre in the City Park is now almost completed. The pouring of concrete for the seats—that at the bottom of the amphitheatre was practiced Tuesday.

The project, which was begun this year, was to be completed by the end of the year, but a balance of \$10,000 remains in the appropriation of the park board are being on field changes to find use for the re-nancy. The changes in the picnic units, better facilities, and the construction of two dressing rooms for the theatre.

## DRAFT TO GET TWO COUNTIANS

**Trainees to Leave Here August 13 for Fort Bliss; State Quota is 1,221 Men**

Hall County's quota in the U. S. Army's 22nd call on Texas local draft boards' registrants will be two white men, W. J. Bragg, chief clerk of the local board, was informed this week.

The two men will leave here August 13 for Fort Bliss, where they will be assigned to their posts. The state's quota for the 22nd call is 1,221 trainees.

A call has already been issued for 446 Negro selectees for induction August 4 and 28, although Hall County had no quota in that call.

Local boards were urged this week by General J. Watt Page, state selective service director, to make certain that no man is called for direct military training who is more useful to the national defense program in his civilian position.

Stressing the need for this careful selection and the necessity for maintaining an adequate reservoir of professional and technical specialists, General Page said:

"While the selection of men for service in the armed forces is essential to the national defense, it is equally important that there be no interference with the production of defense supplies and materials. We must feed and clothe the military forces, as well as preserve the morale of the civilian population by protecting public health and general welfare.

"There are hundreds of places where the hand of man is needed in the production of arms, munitions, tanks, trucks, and airplanes. Vitality important is the fact that from our mines we must produce the minerals from which a mechanical army fashions its weapons. According to a recent survey made by the Office of Production Management, the supply of manpower in the field of engineering, including trained technicians and specialists in mining and metallurgy, is at a 'dangerously low' level.

"We must make a careful and intelligent investigation of every registrant to be sure in each case that a call to military training will not interfere with equally important civilian work for national defense.

## OFFICIALS ARE STILL SEEKING SPECIAL SESSION

**Bond Assumption Law Re-Enactment Sought by Leaders**

Although no definite action has been taken, county judges and commissioners were this week still seeking a special session of the legislature to act on the road bond assumption law which was not re-enacted during the regular session.

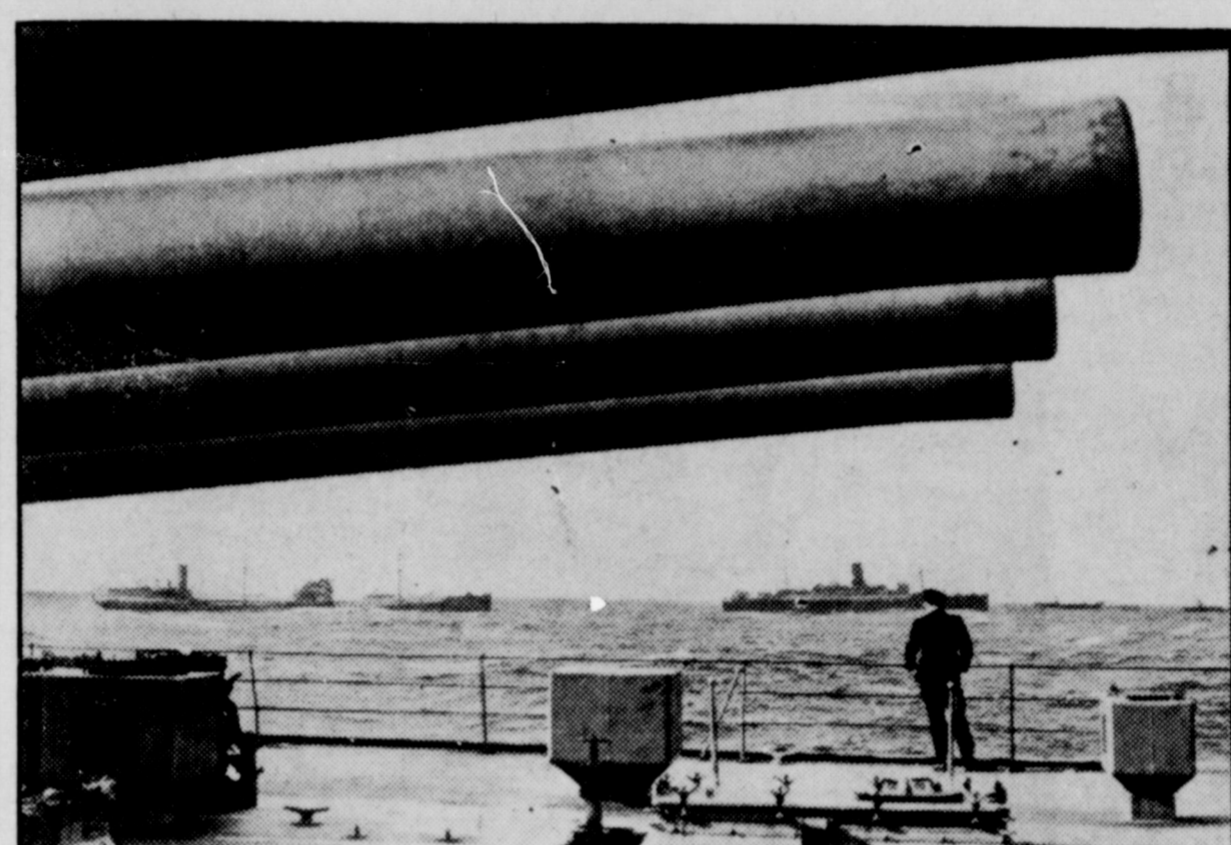

One report this week said the county officials have abandoned their efforts to get the special session, although County Judge M. O. Goodpasture said Tuesday morning that as far as he knew the session is still being sought.

The county officials first asked that \$2,000,000 be diverted to counties from the road bond assumption fund to take care of bonds which had been assumed by the state under the law which was first enacted in 1939. Failure to re-enact the law, however, put the load of paying off the bonds on the counties. A compromise has been reported, which would ask the legislature to "appropriate" \$2,000,000 from the fund to the counties.

Under either plan, the legislature will have to re-convene, Judge Goodpasture explained, or the counties, including Hall, will be forced to raise the tax levy to meet the added obligations.

Some legislators believe, however, (Continued on page 5)

## LESLEY IS SITE OF 1ST SESSION

**Joe H. Owen to Outline Program of Development Of Dairy Cattle in Area**

Speaking dates to outline dairy development work preliminary to the opening of the Kraft Cheese Company factory in Memphis were announced this morning by Joe H. Owen, field representative of the company who arrived in Memphis yesterday.

Local business men were urged by Mr. Owen to attend as many of the meetings as possible to familiarize themselves with the dairy development program. The group will meet at the chamber of commerce about 30 minutes before the time of each meeting, it was explained.

Mr. Owen will, in addition to appearing at each of the dairy development meetings, organize the milk routes for the company, hire haulers, and work with business men and farmers in the dairy show plans. The dairy show will be held in connection with the formal opening of the cheese plant.

No date has yet been announced for the opening of the plant, although it has been indicated that the opening will be held sometime late in August.

The dairy development meetings, the date of each and the time, will be as follows:

Friday night, August 1, Lesley, 8:30 p. m.; Pliska, August 7, 8:30; (Continued on page 5)

## Nell Craver Assignment NYA Training

Nell Craver, employee of the Hall County well in Memphis, has been assigned to the NYA Resident Center at Brenham.

Craver was notified this week that she had been selected for NYA training at Brenham, Texas, for three consecutive months from this date.

The school expects to accept 100 girls from this area for training.

Craver will be placed at the college and will give this notice for the English language for three consecutive months. The girls will receive board, hospitalization, and other expenses.

It was explained, in the civil service positions, the girls will have the same as government employees in private employment for the 12-month course.

For the places, the girls will be at least 17 years of age, graduate of high school, and have had some training in Washington County, 50 miles from Brenham.

## Delegation Seeks Road Improvement

A delegation of representatives from Hall and Childress Counties are in Austin today to appear before the state highway commission in the interest of further improvement on the feeder road which runs east of Memphis to the Wellington-Childress highway.

No action is expected to be taken by the commission concerning the road, for which hard-surfacing has been sought for some time.

Planning to make the trip were Tracy Davis, W. B. Morrison, Charlie Drake, and M. O. Goodpasture.

Members of the Highway 18 association are having their first important hearing on their project in two years today. Highway 18 runs from Pampa, down through Turkey, and on to Del Rio.

## Two Showers Give Memphis .2 of Inch; 102 Degrees High

**Rain Falls Sunday and Wednesday Nights; Low Temperature 68 Degrees**

The weather for the week continued to be in the warm brackets, with two rains of .10 of an inch each breaking the monotony of the dry heat.

First of the showers came Sunday night, and the second Wednesday night. Today, however, the clouds had been shoved into the background and this morning's sunshine indicated another warm day.

The temperature Wednesday, at 102 degrees, was the highest for the week, although the previous day, Tuesday, a mercury mark of 100 degrees was recorded by J. J. McMickin, local weather observer.

Monday and Tuesday nights, the thermometer dropped to the 68-degree mark for the lowest of the week.

Temperatures for the week are as follows: Wednesday high, 102, low, 69; Tuesday, 100-68; Monday, 98-68; Sunday, 89-72; Saturday, 95-73; Friday, 96-70; Thursday, 95-70.

## NO DEFINITE REPORT ON ALUMINUM COLLECTED IN COUNTY AVAILABLE

No definite report on the amount of aluminum collected in Hall County in the campaign during the past week was available yesterday, although the two loads which had been weighed in Memphis totaled 520 pounds, Judge M. O. Goodpasture, county chairman of the drive, reported.

Commissioner Tracy Davis of Lakeview reported that collections of the scrap metal, not yet weighed, were at Lakeview, Eli, Pliska, and Lesley. The commissioner was unable to estimate the weight of the metal, however.

Commissioner Burl Bell of Estelline intensified the drive in that community Tuesday, although the amount collected was not reported.

The amount of scrap metal gathered in Turkey by Commissioner Roy Russell and Superintendent Lee Vardy was not known, although that community was actively working last week.

The drive in Memphis, held by Commissioner W. B. Morrison, was still continuing, and considerable metal had come in since the 520 pounds had been weighed. What the total amount of the city's collection is, (Continued on page 5)

## Warehouse Rates For Loan Cotton Announced by AAA

**17½ Cents Per Bale For No-Compress Houses; 15 cents for Compresses**

The maximum warehouse rates for 1941 loan cotton are 17 1/2 cents a bale per month for warehouses that do not operate compress facilities and 15 cents a bale per month for warehouse operating facilities, B. F. Vance, administrative officer of the state AAA, has announced.

In addition to these charges, Vance said, warehouses may not collect more than 25 cents per bale service charge for receiving, sampling and delivering, and 10 cents a bale for each service of reweighing and re-sampling. As customary in past loan programs, the cotton producer will also pay a fee of 15 cents a bale for classing which is (Continued on page 8)

## Local Team Wins Over Pampa Nine

Another victory was chalked up by the Memphis Spudders Sunday afternoon, when the local nine downed the Magnolia Petroleum baseball team of Pampa by a score of 6 to 5.

The local team will play next Sunday afternoon at 3 o'clock, when they meet the Amarillo Grays. The Grays, Don Wright, manager of the Spudders, said, have a fast ball club and should give the Spudders a hard game.

## 50 or 75 Per Cent Of Average Yield May Be Insured

**USDA Now Working Out Complete Details for Crop Insurance Program**

Under the 1942 cotton crop insurance program, Hall County cotton farmers will be able to insure 50 per cent or 75 per cent of their average yield, D. A. Neeley, chairman of the Hall County ACA, announces.

The details of the United States Department of Agriculture crop insurance program are being perfected by the Federal Crop Insurance Corporation in Washington now and growers will be able to insure their next year's crop before seeding, he continued.

The insurance will protect them from all unavoidable hazards, such as droughts, insects, including boll weevils, flood, plant disease, wind, fire and hail.

Premiums and guaranteed yields will be figured in terms of pounds of lint cotton and the premiums will be based on the crop-loss history of individual farms adjusted (Continued on page 8)

## So the Preachers Leave the Town To You and . . .

This week-end—  
Rev. E. L. Yeats will be in Winters to deliver the sermon at the 50th anniversary of the Methodist Church there.

Rev. S. F. Martin is going to Purves, near Dublin, where he will take part in the annual homecoming festivities of a Baptist Church.

Rev. Russell A. Wingert, Presbyterian pastor, will be in Temple due to the illness of Mrs. Wingert there.

And Minister Joe Findley of the First Christian Church is visiting his mother in Marshall.

## Classes of Bible School to Close

The summer vacation Bible school of the Church of Christ, which began July 21, will close Friday, it was announced this week.

The school has been extremely successful, it was reported, with an average daily attendance of about 60. Classes have been held each week day from 8:30 to 11 o'clock in the mornings.

## Coursey Attends Firemen's School

W. V. Coursey, secretary of the Memphis Fire Department, attended the 12th annual short course for firemen, held July 21-25 at College Station.

The course was "highly successful," Mr. Coursey said upon his return. The attendance this year was 521, compared to 482 in 1940 and 439 in 1939. A total of 283 towns were represented this year, compared to 272 in 1940 and 258 in 1939.

Defense was the main theme for the school, Mr. Coursey said. The firemen were given instructions on the handling of incendiary bombs, gas, and similar fire hazards which may be experienced in time of war.

Also attending the short course from Hall County was Curtis Tunnell of the Turkey fire department.

## Freddie E. V. New Dies in Memphis After Long Illness

Funeral services were held Tuesday afternoon from King's Funeral Chapel for Freddie E. V. New, who died Monday night at 6:15 o'clock in a local hospital following an illness of several weeks.

Rites were conducted by Rev. S. F. Martin, pastor of the First Baptist Church. Interment was in Fairview Cemetery under the direction of King's Mortuary.

Survivors include his wife and five children, Venita, Robert, Wanda, Lloyd, and Mary Lee; his parents, Mr. and Mrs. J. H. New of near Memphis; and eight brothers and sisters, Mrs. Dessie Griffin of Little Rock, Ark., Mrs. Leona McCoy of Bagwell, Mrs. Willie Adkins of Ward, Ark., Mrs. Nellie Barnett of Searcy, Ark., Mrs. Ruth Adams of California, Mrs. Estelle Rosan of Paris, Beatrice New of Memphis, and Homer New of Little Rock.

Palbearers were E. H. Rasco, Roscoe Ellerd, C. E. Sweatt, Roger Ellerd, D. H. Palmer, and H. H. Palmer.

Mr. New was born in Plainview, Yell County, Ark., January 3, 1909. He came to Hall County in 1931, after having married Miss Della Rosan October 19, 1926. Before becoming ill several weeks ago, he had been employed by C. E. Sweatt of near Memphis.

## Instructions to Be Given in Knitting

Instruction in knitting for the American Red Cross will be given every Monday and Saturday by Mrs. C. L. Hamrick at her home at 1115 Montgomery Street, it was announced this week.

Thread for the knitting has already arrived, Mrs. Hamrick said, and all communities in the county, including Memphis, are urged to participate in the work.

The work is scheduled to be complete by January 1, Mrs. Hamrick said, and knitting must be begun immediately. All completed articles will be sent to the national headquarters of the American Red Cross for distribution.

Information concerning the work, or yarn for knitting, may be obtained by calling Mrs. Hamrick at 197-M.

## ANNUAL GUESSING GAME IS ON: 'PROPHETS' PREDICT COUNTY CROP FROM 15,000 TO 50,000 BALES—BUT THERE ARE 'IF'S' ATTACHED TO PREDICTION OF OPTIMIST

It's about the time of year for the annual guessing game. Your guess at what the cotton crop for Hall County will be this year is about as good as anybody else's, for usually the fellow who comes closest merely guesses at his figure just as you do.

The prophets are chances for agreed right now that cotton is a good crop are fair, although some are a bit skeptical and believe something will happen to prevent much of a crop.

Highest of the guesses this year is about 50,000 bales—but there are some "if's" attached to this figure by those who are doing the

optimistic guessing. Lowest of the guesses is in the neighborhood of 15,000 bales, with no one who was contacted going down to the pessimistic guess of last year—5,000 bales.

Last year, the central figure was about 35,000 bales at about this time of year. Three out of every five people thought the county would end up with about that many bales of cotton—but the county didn't, and only slightly more than 26,000 bales were ginned by Hall County gins.

This year, however, the guesses are ranging from 15,000 to 50,000, and there doesn't seem to be

a favored figure, such as the 35,000 of 1940.

One man made this stab—either the county will produce more than 40,000 bales or under 20,000 bales. That, he admitted, is quite a range.

The 50,000 bale guesser also limited his prediction with some "if's." He said that if too much rain came in September, then the cotton would not be too good. He also said that if enough rain didn't come, then the 50,000 bales would not be produced. He went on to say that if conditions were just about perfect from here on out,

then the county could make the 50,000 bales with the start the crops now have.

Despite how hot the weather may seem to you most of the days, farmers generally agree that the crops can stand two or three more weeks of the sun's rays with no serious damage to the crops.

As a matter of fact, the hot weather is what the crops have been needing, the farmers point out. August 20 with no rain has been set as a deadline for moisture by one farmer. He is judging by his crops, however, and other crop conditions in other

parts of the county will vary.

Much of the cotton this year was planted late, and some of it is just beginning to take shape. Early June cotton, however, is showing up extra well.

Feedstuff in general is doing excellent throughout the county, and greenery is abundant, much more so than has been the case in the past few years.

Weeds, of course, are growing faster than the crops, and farmers have been kept extremely busy since the downfall of moisture in an attempt to clear their fields of the soil-depleting vegetation.

Mrs. H. H. Newman Honors Amarillo Bride-Elect With Reception Tuesday

Breakfast Given For Baptist YWA By Mrs. Grundy

The YWA of the First Baptist Church met Thursday morning at the home of Mrs. D. A. Grundy for a 9 o'clock breakfast.

Mrs. Lloyd Phillips gave the devotional on meditation. The object of the meeting was to reorganize, accept new members, and elect new officers.

Members attending were Mary Sue Huckaby, Mary Catherine Walker, Plina Hill, Dorothy Bragg, and Mrs. D. A. Grundy.

Announcement of Whiteside-Newman Engagement Made

To announce the engagement and approaching marriage of Miss Billie Whiteside, daughter of Mr. and Mrs. John Whiteside of Amarillo, to Henry Newman, son of Mr. and Mrs. H. H. Newman, Mrs. J. C. Cooper of Dumas and Mrs. D. C. Kinsey of Amarillo were hostesses Thursday night of last week with a party at the home of Mrs. Kinsey.

Mrs. James Walsh presided at the guest book. Decorations of blue and white, the bride-elect's chosen colors, and vari-colored garden flowers were artistically arranged throughout the house.

Miss Lindalie Mock entertained with appropriate readings, entitled "A Leap Year Leap," and "The Marriage Fee." A mock wedding ceremony was performed with Miss Mock as the minister.

Tall white tapers and a profusion of daisies formed the background for the "altar." The "bride," little Mary Yvonne Weaver, wore a white moire taffeta, floor length dress made with sweetheart neckline and hoop skirt. She wore the conventional white wedding veil and carried a colonial bouquet of white flowers.

The "bridegroom" was Bruce Everett Weaver. The "bride" presented her bouquet to the honoree.

Completing the program, Mrs. Carroll Whiteside read a poem, her own composition, extending best wishes from those present to the bride-elect.

Tiny rice bags tied with blue and white ribbon and bearing scrolls on which was written "Billie and Henry, August 17," were presented to each guest.

Attending from Memphis were Mesdames H. H. Newman, Irvin Johnsey, Lloyd Phillips.—Amarillo News.

Eva Mae Holcomb Entertains Group At Treasure Hunt

Miss Eva Mae Holcomb entertained a few friends with a treasure hunt last Thursday evening at 8:30 o'clock. The "Treasure Chest" was found by Jake Holcomb and Miss Thelma Lemons, the first ones to complete the hunt.

Refreshments of cookies, punch, and watermelon were served to Misses Betty Ewing, Dorothy Dewlen, Mildred Baker, Corene Holcomb, Helen Yeats, Marion Ruth Duren, Thelma Lemons, and Troy Lee Holcomb.

L. F. Jones, Hildon Lindsey, Jake Holcomb, Frank Martin, Joe Crump, Bill Browning, and the hostess, Miss Eva Mae Holcomb.

Honoring Miss Billie Joe Whiteside of Amarillo, bride-elect of Henry B. Newman, Mrs. H. H. Newman, mother of the groom-elect, was hostess at a reception in her home Tuesday afternoon.

In the receiving line with Miss Whiteside and Mrs. Newman were Mrs. Delbert Kinsey, Mrs. Carroll Whiteside, and Mrs. Lillie Smith of Amarillo.

The house party was composed of Mesdames W. F. McElreath, Brice Webster, Lloyd Byars, Jerry Wright, Lloyd Phillips, B. B. McMillan, Eugene McElreath, T. J. Hampton, Neville Wrenn, Ira Hammond, Bess Crump.

Mrs. Phillips and Mrs. McMillan presided at the punch bowl and Mrs. Eugene McElreath registered the guests during the afternoon.

The program consisted of a reading by Peggy George Walker, "The Newlyweds," and a song by Ruthie Johnson, "Jeanie With the Light Brown Hair." She was accompanied on the accordion by Rayburn Jones, who entertained the group with several selections.

Decorative highlights of the receiving rooms were multi-colored cut flowers, and the table appointments were in crystal.

The guest list included: Misses Neville Wrenn, Ruthie Johnson, Peggy Walker, Esta McElreath, Ouida Read, Mary Beckham, Imogene King, Martha Draper, Margaret Milam, Lois McCulloch, Margaret McElreath, Florena McElreath, Mae McElreath, Ira Hammond, Bernice Webster, Maud Milam, Mary Noel, Watie Vernell Posey, and Maizie Perkins.

Also calling at the reception were Mesdames Bess Crump, Brice Webster, Lloyd Phillips, T. J. Hampton, Jerry Wright, Lloyd McElreath, Eugene McElreath, Lloyd Byars, B. B. McMillan, W. Z. Hawkins, E. J. Paul, D. J. Morgensen, Glynn Thompson, Bertina Patrick, Cleron McMurry, J. S. McMurry, Bob Roberts, E. N. Hudgins, O. N. Hamilton, Dot Bowerman, D. A. Neely, J. A. Odom, O. S. Goodpasture, W. C. Mrs. VanPelt Gives Year's History of Legion Auxiliary

The following history of the American Legion Auxiliary for 1940-41 was given by Mrs. Mamie VanPelt at the last meeting of the Auxiliary:

"It is with regret and honor that I bring you this history of the year's work. Regret that one we loved, our historian, Mrs. W. L. Wheat, has gone to her reward; and honor that our president has asked me to supply these facts.

"We have had eight regular meetings with an average attendance of 15. We met once a month on the second Friday of the months at 3 o'clock.

"We have had a membership of 44, with eight junior members. We received a citation from headquarters for having reached our membership quota before November 11. We received a scrap book from the state chairman for our outstanding work on our scrap book of last year.

"We have had two poppy sales during the year. We have contributed to the following causes: Red Cross, Christmas cheer for disabled veterans, empty stocking fund, two uniforms for the Memphis High School band, child welfare, student loan fund; provided prize awards for a party at the veterans hospital in Amarillo; a pledge of allegiance to the flag was placed in each school room in Hall County, and the balance in our treasury is \$140.

"The annual Christmas party was held December 13 and gifts were exchanged. The Auxiliary had a covered dish luncheon in May at the Legion Hall. They entertained their husbands and families with a picnic in the City Park in July.

"Three out-of-town members still keep their membership paid here. Two members have passed on this year, Mrs. W. L. Wheat and Mrs. D. L. Cooper, mother of our president-elect.

"All the topics in the Lone Star have been faithfully carried out. In November an armistice program was observed at the Presbyterian Church. May 30 a memorial program was observed at the Fairview Cemetery. The Auxiliary was assisted by the Legion with the last two programs.

"Mrs. Glynn Thompson, president-elect, and Mrs. H. B. Gilmore, president, were named as delegates to the department convention to be held in Fort Worth on August 17, 18, and 19."

COTTON DRESSMAKER SWIM SUITS POPULAR

Most popular swim suits on Florida beaches, rapidly filling for the summer season, are cotton dressmaker styles in brightly colored prints and flouncy flared skirts.

The National Cotton Council reports that in some cases the suits serve the double purpose of bathing suits and playsuits, with separate skirt.

The greatest preference in playing is for full-skirted styles in colorful cotton prints. The more tailored versions are made largely

NEW OIL WINS Certified IN "LAND AFIRE"

5-Quart crankcase fill—none added—lasted 13,398 miles, outlasting 5 rivals by 74% to 161%... Certified

Big new oil Economy forecast for your car

"LAND AFIRE," the redmen named red-hot Death Valley. It's slain men by drying them up. But only after 13,398 miles at 57 miles an hour—in a car with crankcase under lock—could Death Valley heat dry up a 5-quart fill of new CONOCO Nth MOTOR OIL—

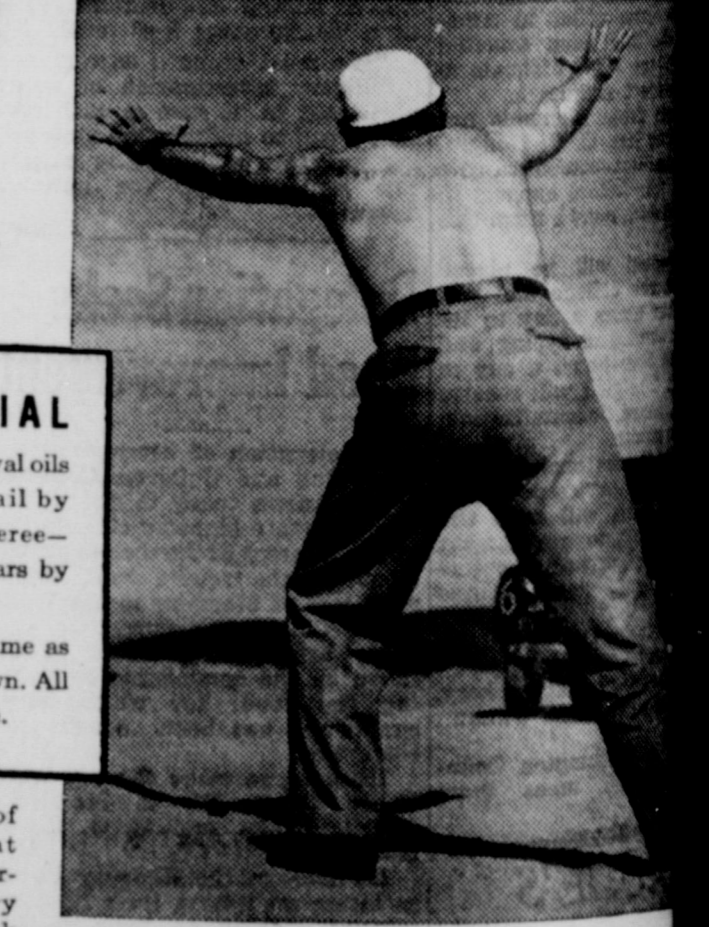

Outlasted five other Brands in Fair Test!

Conoco Nth actually outlasted one big brand by 8,268 miles. Yet all 6 brands tested had exactly the same chance... in identical new stock cars. No oil could be added to the strict 5-quart fill locked in each car. And all were to run till wrecked. So it ended up in the death of 6 cars, with the 5 "also rans" averaging not even half the mileage delivered by new Conoco Nth oil... Certified.

Why such a difference? Conoco Nth is preserved by a life-giving new synthetic—man-made under Conoco Patent 2,218,132. You know that vitamin synthetics, for instance, are making up for Nature's life-givers sacrificed in some modern food processing. Similarly, the latest refining methods steal some of Nature's best life-givers from motor oils. But more than making that up today, in Conoco Nth oil, is a new synthetic—Thialkene inhibitor. It inhibits—checks—

CERTIFIED I hereby certify that the Death Valley Test and related work were thoroughly and fairly conducted. Engine Destruction occurred in each case at the mileage stated.

# FSA Is Pledged To Aid Nutrition Campaign in U. S.

### Better Diets Important Part of National Defense Program, Miss Love Says

Nutrition, or better diets for a stronger people, has become one of the most important sectors of the "Food for Defense" campaign of the U. S. Department of Agriculture, according to Bessie Mae Love, home management supervisor for the Farm Security Administration in Hall County.

With a nutrition unit to be organized in every county in the nation, the FSA is pledged to take its part in the program, and will work in Hall County in cooperation with other agencies.

Regional staff members of the FSA in this region have outlined the special part of FSA in the program as including:

1. To increase the consumption of vegetables.
2. To change and improve old and inherited food habits.
3. To induce the production and use of more eggs, milk and vegetables and other "protective foods."
4. To supplement diets with foods to which farm families are accustomed but which are not used with best efforts.
5. To work not only for production but distribution, education, and bridging the gap between low incomes and needs.
6. To link diet necessities with fundamental needs like longer tenure of land which will develop pastures, diversification, soil enrichment, and improvement of living conditions generally.

"Farm Security borrower-families," Miss Love said, "will be urged to grow bigger fall gardens. Every effort will be made to enrich the diet of the families in our program.

"Although this campaign has become a national movement," Miss Love continued, "we feel that a special obligation rests upon the Farm Security Administration.

Miss Love said FSA employees will work to see that diets of FSA families measure up to the nutritional "Gold Standard," which included one pint of milk a day for an adult and more for a child; a serving of meat; one egg; two vegetables, one of which should be green or yellow; two fruits, one of which shall be rich in vitamin C, found abundantly in citrus fruits and tomatoes; some butter, breads, flour and cereal, most preferably all whole wheat grain or enriched.

## Advice on Health—

### FROM ONE WHO KNOWS

"The implication of the word 'rest' in 'restore' is of great importance to Texans in our present defense program," declares Dr. Geo. W. Cox, state health officer. Even when a person's physical apparatus is completely relaxed (resting) the mind may still be plagued with problems and be unrelaxed.

At this time adequate rest is of greater importance to all of us than in previous years. Rest is the opportunity the body takes to rebuild and repair tissues impaired in their efficiency by fatigue. In other words, the sum total of our individual physical fitness is measured by the resiliency of our faculties to return to normal after a depleting day's work.

The means by which we re-entire the ravages of fatigue through rest are several. Complete rest is most easily obtainable by sleep—at least eight or more hours nightly, according to individual needs.

Physical relaxation (rest) is of value to us also. The change from every day labor and worry through participation in sports, games, hobbies, and the like is a recognized principle of good mental hygiene. All of us should get in some more active sports.

Medical and public health authorities also recognize the need for mental relaxation, apart from physical sports or games which keep the mind keyed to a high pitch. Even when a person's physical apparatus is completely relaxed (resting) the mind may still be plagued with problems and be unrelaxed.

So mental relaxation, valuable as it is, is more evasive than physical relaxation. The simplest form of mental relaxation is "wakeful rest" whereby the individual gets his mind completely away from himself and lets his mind "idle" by following something not of his personal creation or thought. It is thus possible to rest mentally and physically if the mind is entertained rather than exercised. Numerous diversions are available to us which offer inexpensive opportunities for "wakeful rest."

If we give thought to budgeting time each day so that our work quota is supplemented by physical and mental relaxation and adequate sleep, we will keep our health at par and increase our daily efficiency now when it is needed most for all-out defense effort.

## 'Skin You Love to Touch' May Not Apply to Peaches, Says Horticulturist

In selecting peaches for canning don't let "a skin you love to touch" mislead you, cautions J. F. Rosborough, horticulturist of the Texas A. and M. College Extension Service. Condition of the skin is not always a dependable guide in determining sweetness and good quality. The best tasting peaches ripen from the outside inward to the seed.

Tree-ripened peaches have a better flavor because the fruit enzymes have an opportunity to function normally in bringing about maximum sweetness. When the fruit is picked too green it may continue to ripen, but the "peachy" flavor is lost. Fruit harvested before it is well matured never becomes soft when canned.

Peaches of finest quality have a fresh appearance and when they are broken open are thoroughly ripe around the seed as well as under the skin. Care should be taken with ripe peaches as they deteriorate quickly and should be

eaten or canned as soon as possible after picking. If they must be kept for several days, cold storage at 36 to 40 degrees Fahrenheit is the best method of holding them at the desired condition.

A standard bushel of peaches weighs about 48 pounds and should yield about 30 No. 2 cans, or pint jars, or 20 No. 3 cans or quart jars. One bushel of peaches, if a light syrup is used, will need about three pounds of sugar. For a light syrup, use one cup of sugar to each three cups of water.

To prevent darkening and loss of vitamin C in preparation for canning, drop the halves immediately into a solution of two table-spoons water. Rinse the fruit with clear water.

## Fraternal Groups May Buy Bonds

The following statement was made by Frank Scofield, state administrator:

"Lately it has come to my attention that a number of fraternal organizations, unincorporated associations such as lodges, churches, or societies, have desired to purchase bonds but have been refused the right inasmuch as they are organizations of this character.

"I would like to take this opportunity to correct this misunderstanding because Defense Bonds and Savings Stamps may be purchased by any private corporation, any partnership, trust funds, retirement or pension funds, any sovereignty, such as a state, county, city, town, village, or school district, any duly constituted public body such as a board or commission, or any other organization of this character.

## Jobs Open

### CIVIL SERVICE

With the national defense program of the United States opening up large numbers of jobs of varied types almost daily, the Civil Service Commission is asking for applications, Glynn Thompson, local secretary of the board of examiners, has announced.

Here's a listing of a few of the jobs for which applications are now being taken (further information may be obtained from Thompson at the Memphis post office): Superintendent of building maintenance, salaries ranging from \$2,500 to \$3,800 a year. Employment in Federal Works Agency in public housing projects and public buildings throughout the United States.

Senior cook, in prison service, Department of Justice, \$2,000 a year. Medical guard-attendant, \$1,620 a year; medical technical assistant, \$2,000 a year. Dental hygienist, \$1,620 a year, employment in the United States Public Health Service.

## Court of Honor to Be Held Tonight

A court of honor for District V, Adobe Walls Council of Boy Scouts of America, will be held tonight at Lelia Lake at 8 o'clock. Advancement awards to scouts who have passed tests since the last court of honor will be made, it was explained.

Parents of scouts were urged to be present, since the grades of the troops will be raised partly on the basis of attendance.

District V includes troops of Memphis, Estelline, Turkey, Hedley, and Lelia Lake.

### Doesn't Somebody Want to Put End To This Thing?

Here at The Democrat, we thought we had something when Walter McCracken brought in a yellow, "Siamese" squash, we thought we had something else when J. M. Dickson brought in a Syrian quay, but now— T. A. Scoggins, who lives on Route 1, Lakeview, brings in two "Siamese" cucumbers. One set of the twins measures seven inches in length, and the other about 1 1-2 inches in length. What next after cucumbers?

be built on the present set-up, that by Matthew Allen. Cameron Lumber Company has offered to buy playground equipment as soon as the location for it is determined. Allen's unit will consist of a fire-place and four tables, and will be located in the southeast corner of the park.

The improvements included in the field changes have not been approved by either the City Council or the WPA.

The two dressing rooms will be located on either side of the amphitheatre seats. The slope behind the rooms would be terraced, and sites for beautification would be opened. Each of the rooms will be 10 by 12 feet.

Also included in the proposed changes would be improvements of two picnic units already installed. These would be the installation of fireplaces in the Rotary Club and First National Bank units.

Another unit included in the changes is the proposed First Methodist Church picnic site. The tables for this unit would be in the shape of a huge "M" and would have 27 feet of table space. Back of the "M" and on each side, a long dome-shaped row of seats is planned. These seats would be

### Former Resident, Recent City Visitor, Compliments Progress on New Park

Editor's Note: The following letter was written by C. W. Howe of San Diego, Calif., who visited here during the Old Settlers Reunion and Rodeo. It is printed here because of the changes in the city and county which former residents, who have been away for some time, note upon their visits here.

Next to the pleasure of meeting so many of my old friends and acquaintances at the recent Old Settlers Reunion, my chief gratification was in noting the substantial progress which has been made by Memphis and Hall County in general.

Of course there has been time for considerable improvement during the 43 years of my absence, but when I recall that a number of towns through which I passed on this trip show no evidence of any new buildings for the past 50 years—and the old buildings probably haven't had a nail driven in them nor a paint brush applied in that length of time—then it is that Memphis' progress becomes impressive.

Outstanding among the many signs of progress is your city park development. It was my privilege while in Memphis to be shown over this project and to hear how it had been developed and what future plans call for, and I was amazed by what has been accomplished in so short a time. Probably, my amazement was enhanced by memories of what a desolate, barren spot that canyon and the surrounding bluffs presented a half century ago. But even with-

built with backs on them to form a wall to set the unit off from the side of the hill where it is to be built.

Three other units are also included in the changes. They are the Woolbridge Lumber Company unit, M. J. Draper unit, and Meacham Pharmacy unit.

out that contrast the city has accomplished a remarkable achievement in creating a beauty spot which will redound to the pleasure and benefit of posterity.

Next to sanitation and necessary public utilities, no other public improvement can compare in importance to park development as a recreational center, and the citizens of Memphis are to be congratulated for their accomplishment in this line. Your park board has displayed rare foresight in the planning of this unique project and the city government is to be commended for backing up the board in its efforts. And most amazing of all, I understand the development so far has resulted in no increase in the city tax rate. That fact really should be submitted to Believe-it-or-Not Ripley!

Great as the material benefits of your park will be, there is another element which to my mind has been of even greater value. I was told that the park development so far has had the unanimous support of all citizens and that numerous individuals and organizations had contributed much time and money toward this laudable public enterprise, and anything which can promote such a spirit of concern for the common welfare in these days is of inestimable value to any community.

If your citizens and public officials are in a mood to listen to a back-seat driver, let me urge you to continue to concentrate as much attention as possible to the completion of your park and to its future maintenance. It will pay big dividends.

I'm coming back for another visit one of these days and the first thing I do will be to pay a visit to your park to see how it has improved.

Several of the meetings will be held in conjunction with one-variety cotton association meetings which have already been scheduled, County Agent W. B. Hooser said, and all business men and farmers of each community are urged to attend.

Although actual construction has begun on the new Kraft Cheese Company factory in Memphis, to be located in the Davenport building on Robertson street, no definite date has been set for the opening. E. Leyh, engineer for the company who is in charge of the work, said this week.

A carload of additional equipment arrived Monday morning, Mr. Leyh said, and dates for shipment of more materials have been sent to him.

Completion of installation of equipment usually takes about 30 days, Mr. Leyh said. The Memphis plant, however, may require a few days longer since some of the equipment is being delayed in shipment due to the defense program.

Installation of the large boiler in the rear of the building was well underway this week, and the base for the water-cooling tower west of the building was being constructed.

The west side of the building will be changed, Mr. Leyh said, to allow better lighting inside. Several windows will be placed in the wall, and the large door is to be replaced by a window.

The platform for unloading will be at the southwest corner of the building, and the office quarters will be on the southeast corner. Materials for building the loading platform are already here, but the platform has not yet been constructed.

The ceiling of the building is to be completely covered with non-absorbent material, Mr. Leyh said, and will be painted over.

Application blanks for employment with the company are obtainable either at the chamber of commerce office or at the plant building, Mr. Leyh said.

Vegetables best for drying are sweet corn, mature beans and peas, and sweet potatoes.

Mr. and Mrs. Hugh Lambert of Eli announce the birth of twins. The girl has been named Barbara Gale and the boy has been named Porter Dale.

Mr. and Mrs. W. W. Jenkins are the parents of a son born July 28. He weighed 6 pounds, 3 ounces, and has been named Jan Wesley.

Mr. and Mrs. Henry Warnecke are the parents of a daughter born July 21. She weighed 7 1-2 pounds at birth, and has been named Joyce Ann.

Crimson clover seed production may reach the high record of 8,360,000 pounds, clean basis, in 1941, compared with approximately 5,230,000 pounds in 1940.

### None Are Injured Seriously in Wreck

Mr. and Mrs. A. M. Wyatt, Mrs. Dewey Hawkins and baby, and Wanda Hawkins, all of Memphis, were in a car accident near Floydada last Thursday.

The car in which they were riding turned over twice and landed in water four or five feet deep. None was seriously injured, but suffered bruises and light cuts.

Bennett Wyatt and family of Lubbock brought them back to Memphis. The car was left in Floydada for overhauling.

## OUR CROP OF WEEDS

DEAR MR. EDITOR,

As a citizen of Memphis and one who lives here, I am proud of the development of Memphis, of the new City Park, of the fact that Memphis is to have a cheese factory, of the CCC Camp and its benefits to the county, of every phase of development for the city.

But there are some things here of which I am not proud, and foremost among them at present is the great abundance of weeds, weeds which even spread into other people's yards and which these people make no attempt to cut down.

Of course, I'll admit that we have had a wet summer. I'll admit that weeds have had a much better chance to grow, and that weeds grow faster than almost anything else.

But Mr. Editor, weeds aren't the only kind of vegetation which will grow in wet weather. Our summer has been ideal, both in coolness and humidity, for Memphis to have one of the most beautiful collections of yards in the nation. Yet we have failed to take advantage of nature's generosity with water, and our yards look worse than ever.

I realize, of course, that it's pretty late in the year to try to beautify yards to the extent they could have been beautified. I have postponed writing this letter simply because I thought sooner or later the beautifying movement would start.

But it hasn't yet!  
Maybe if this little note of indignation is published, some one will start the movement of cutting down a few of the weeds in which most anyone can get lost. Anyway, here's hoping.

I. Hateweeds

## ISN'T IT WONDERFUL!

DEMOCRACY IS a wonderful thing, and the people who live in one take all sorts of advantages of the freedom which it offers.

Some of the ways in which this freedom is used turn out to be a little ridiculous, some of them humorous, some serious.

Senator Wheeler and Charles A. Lindbergh take advantage of the freedom of speech. So do President Roosevelt, Secretary Ickes, and Secretary Stimson. Wheeler blasts out at Roosevelt and Roosevelt blasts back. Wheeler doesn't budge, however. Lindbergh blasts out at everybody, and Roosevelt blasts back and indicates that Lindbergh is not fit to be a colonel, so he resigns his standing as an officer.

Ickes blasts out at most everybody, and everybody gets mad at him. Then he takes over the job of oil-co-ordinator, does a good job, and everybody likes him again. Stimson takes up for Roosevelt, and blasts out at Wheeler. Senator Taft takes up for Wheeler.

All in all, when the day of normal peace comes again, everybody will be friends with everybody until someone gets angry with someone else about something else. That's democracy.

## THE CITY'S LOSS

THE POPULATION, and those citizens who make up the population of any city or town, changes daily, and in the changes losses by the city are often realized.

For this reason, we hate to see Herman B. Hill Jr., for the past several years district court reporter, leave for his new home in Amarillo.

Mr. Hill, although still a young man, has made the type of citizen which Memphis, as other towns of this size, needs. He has aided in the progress of the city since he has been here. He has worked with the Boy Scout organization, and he has become one of the most faithful members of a Memphis church.

His departure will be a loss to the city. We wish him every success in his new location.

CULLED FROM THE DEMOCRAT'S EXCHANGES

**The Trouble**  
E. E. Hayley in the St. Joe Tribune: At Forestburg the other day we heard a woman asking the postmaster about her shoes, which were overdue from the mail order house and when told that they had not arrived she said, "Well, I am going to church meeting even if I have to wear my old ones." This is the kind of religion this county needs more of. Too many people think more of their soles than they do their souls.

**Joseph**  
The Plainsman in the Lubbock Morning-Avalanche: All we can say is we hope the Russians aren't as dumb as Stalin looks.

**Liquor**  
The Lynn County News: When the United States entered the World War in 1917 and established cantonments or army camps throughout the nation, Congress enacted legislation forbidding the sale of liquor within certain zones surrounding them. That was regarded as a necessary and helpful policy at the time. We believe that even more stringent relations should be thrown around the present army camps. While most of the boys who have been sent to the camps are sober and unaddicted to the intemperate use of intoxicating liquors, oil dives and liquor dens, even so-called high-class liquor houses, should be kept out of their reach.

**Russian Bear**  
The Spearman Reporter: The Russian Bear has at last clawed the Hitler bunch and made quite a gap in the lines that were to take Russia in a few weeks. Hitler is now trying to enlist other nations to help him on the grounds that he is fighting communism which is, in the writer's opinion, just another effort to stop the costly war with England, which should not be considered until full redress has been made to the smaller nations that he has overrun.

**Story**  
Carl Roeve in the Turkey Enterprise: John Couch was walking from his house toward the mailbox on the highway the other day about the time Jim Payne was putting the mail into the box. Jim noticed a coyote crossing John's path as he came nearer to the road. But the mid-morning sun was hot and John's head was lowered, and he didn't see the sneaking "wolf" only a few yards ahead of him. Jim called to him from the car, "John, why don't you get some shells for your shotgun and get rid of the coyotes?" John was like the deaf man in church. He misunderstood. He thought Jim was talking about the weed patch by the road. "No," he called back, "I'm saving 'em for seed!"

**Hitler**  
The Liberty Vindicator: If Herr Hitler tries many more such putches as his hirelings attempted in South America last weekend he may find that his little moustache will be plastered with some anti-war accoutrements much more substantial than aluminum kitchenware.

**Sentences**  
Douglas Meador in the Matador Tribune: If given to strict sincerity most of us would admit that the most attractive feature of a past love, is that it is past. . . . That war is hell remains as one of the world's classic examples of understatements.

**Loose Talk**  
The Wheeler Times: The American people will go without electricity and they will go without gasoline when necessary to conserve these energy sources, but loose political talk from governmental sources about rationing electricity, and shortages of gasoline and fuel oil for automobiles and domestic use should be curbed in the interest of national defense and sane action until such action is known to be necessary.

**Girls**  
The Claude News: Bill Longbine says if the U. S. Navy gets much bigger there won't be enough girls in every port to go around.

## This Week's Birthdays

Week of Aug. 2 to Aug. 9

Francis Scott Key, composer of our national anthem, was born Aug. 9, 1779. Percy Bysshe Shelley, famed poet, was born Aug. 4, 1792.

**Heart Trouble**  
The Monahan News: A young Monahan seeking enlistment in the marine corps in San Antonio was asked if he had any heart trouble. He replied, "No, but I was in love once."

**Sings**  
The Munday Times: We are sometimes made to wonder if the many roadside warnings of danger would not be more effective if they were made to read, "speed her up and break your neck." By nature we are all, more or less, overgrown children, and lots of us resent the idea of being told or warned not to do a thing. It is still a question as to whether or not Adam and Eve, back in the garden, would have partaken of the forbidden fruit if they had not been told death would be the penalty. They gambled and lost.

**Fire**  
Jimmie Gilentine in the Hereford Brand: When it comes to being on the spot when news happens, I should get a medal. I was not only on hand for the fire Thursday morning—but waited 15 minutes for it to start. I had

## Lake Fryer Party To Be August 9-10

Lake Fryer, south of Perryton, will close the lake season of the Panhandle government lakes August 9-10 with a blaze of color and excitement ranging from an old-fashioned community picnic on the evening of August 9, through thrilling exhibitions of two of the best women water ski experts of the nation and the champion skier of the southwest.

Other highlights of the celebration, according to John Coburn, concessionaire, will be the rededication of the lake by federal, state and district officials and dignitaries; fast passenger rides; swimming and diving contests; an all-girl orchestra for each evening's dance and a 12-act floor show featuring the best acts of the Panhandle and including such stars as the Canyon Trio girls consisting of Misses Loneta Burger, Clavelle Boling, and Maxine Sherefelt; the Dalhart Duet, the Perryton Trio and many others to be announced later. Each city of the Panhandle area is invited to have their talent in this show, Coburn said.

## 3,249 Get Food Stamps in May

In Hall County during the month of May the food stamp plan enabled 3,249 needy persons to obtain from their local food merchants \$9,722.00 worth of currently listed surplus foods, in addition to their regular food purchases with orange stamps totaling \$12,134.00. This brings to \$12,284.50, the total value of surplus foods moved in this county through established grocery channels during the past 16 months under the food stamp plan—to the benefit of our farmers, merchants, and low income families.

## Two Teachers Are Elected for Giles

J. M. Baker and Mrs. Charlie Bell, both residents of Giles, were elected to teach in the school there this fall at a recent meeting of the school board.

## Payment of Social Security Explained

The old-age and survivors insurance system provides for monthly payments to an insured worker and certain members of his family when he retires after reaching the age of 65 and to certain members of his family in case of his death, according to a statement by Dewey Reed, manager of the Amarillo office of the Social Security Board.

"The length of time a man has worked in jobs covered by this system and the wages he has received must be sufficient to meet certain minimum requirements. To use the language of the law—the man must have had sufficient 'quarters of coverage.' A quarter of coverage is a calendar quarter (three months period beginning January, April, July, or October) in which the worker was paid wages of \$50 or more in covered employment."

It was further explained that a worker who is 65 years old or older can claim old-age retirement benefits if he is "fully insured."

In general, he is fully insured if he has enough quarters of coverage to equal half the calendar quarters between December 31, 1936, and the quarter in which he attains age 65, but he must in any case have at least 6 quarters of coverage.

"For anyone who reached 65 before July 1, 1940, six quarters of coverage are enough to be fully insured. But for those becoming 65 later, the required number of quarters of coverage increases. Those who reached 65 between July 1 and December 31, need 7 quarters of coverage. Workers attaining age 65 during the first six months of 1941 need 8 quarters of coverage, and those reaching 65 during the last six months of 1941 will need 9 quarters of coverage. The number of quarters of coverage required to be fully insured increases at this rate until the worker has 40 quarters of coverage. Then he is fully insured for life."

## Increased Growth Of Trees Expected

Unusual increase in growth is predicted for the shelterbelts on more than 2,500 farms in Northwest Texas as a result of favorable weather in recent weeks.

W. E. Webb, state director of the Prairie States Forestry Project, says, "A number of tree species which struggled through several years of drought have come back with a bang." Cottonwood particularly is showing a remarkable recovery. Other trees such as Chinese elm, black and honeylocust, mulberry, green ash, walnut, and many others have already put on from 12 to 15 inches of growth this year.

Shelterbelts were first planted in six different counties six years ago. The planting program has now spread to 32 counties.

## Compliment Given To 4-H Boys, Girls

"Handiwork and craftsmanship rivalling that of professionals" is the way one Washington, D. C., newspaper recently described a handicrafts exhibit provided by 4-H Club boys and girls at the National 4-H Club camp in the capital city.

Seven Texas 4-H Club girls contributed to the display which was arranged in the patio of the Department of Agriculture building. It was representative of the work of 1,500,000 rural boys and girls engaged in 4-H work.

## Food Stamp List For August Named

The list of foods available during August for purchase with blue stamps by families taking part in the food stamp plan in Hall county was announced Monday by Wynn S. Goode, local stamp plan representative. These foods are obtainable in local stores throughout the month of August.

Fresh pears, plums, prunes, apples and enriched wheat flour have been added to the list of foods, which will be available nationally during August, while pork and pork lard, obtainable during July in all areas, are not included in the August list. Also, vegetable shortening available during July in the stamp plan areas of Dallas, and all of Dallas county; Houston, and all of Harris County; Memphis, Tenn., and all of Shelby County; and New Orleans, La., and all of Orleans Parish is not included in the August list.

With these revisions, the complete list of "blue stamp foods" for the period of August 1 through 31 in all stamp plan areas, is as follows: Fresh pears, plums, prunes, apples, oranges, and peaches; Fresh vegetables (including potatoes) corn meal, shell eggs; raisins, dried prunes; hominy (corn) grits; dry edible beans; wheat flour; enriched wheat flour self-rising flour; enriched self-rising flour; and whole wheat (graham) flour.

Methodist Revival Begins August 17  
Rev. John Crow, Methodist pastor at Paducah, has agreed to conduct the revival at the Methodist Church beginning August 17. Rev. Crow needs no introduction to this community, having been born and reared here, the son of Mr. and Mrs. Will Crow, deceased, and has been in the ministry for about 20 years. He is also the nephew of Van Crow and Mrs. Rhoda Nelson.

Washout Delays Trains  
Mail service has been delayed here for the past week by the washing out of some 2,400 feet of track near Magenta, when the largest flood of rain ever recorded fell there. Cheyenne Creek near there filled up its natural channel and cut an entirely new course, washing out the railroad bed, causing the trains to detour by way of Tucumcari, N. M., and delaying the mail service 8 to 10 hours.

Visitors  
D. H. Nelson went to Clovis, N. M., last week to visit his sister, who is ill in a hospital there. He was accompanied from Dalhart by his son and wife, Mr. and Mrs. Lanham Nelson. Mrs. Mitchell is improving.

Mrs. W. L. Kellison returned to her home here Sunday after spending two weeks with her daughter Mrs. Moody McCulloch, in Plainview. Mr. and Mrs. McCulloch brought her home Sunday and spent the day with Mr. and Mrs. Pat Vardy.

Mr. and Mrs. George Gresham of Carey spent Sunday here with his parents, Mr. and Mrs. Ben Gresham.

Ray Bailey returned Sunday from California where he has been the past two months. His wife and children have been visiting with her parents, Mr. and Mrs. E. V. Wheeler.

Mrs. D. W. Lawrence returned Saturday from a week's stay with her sister, Mrs. Sallie Read, in Levelland.

Miss Dorrace Nelson, daughter of Mr. and Mrs. D. H. Nelson, returned home Friday from a few weeks' visit with her sister and aunt, Miss Mary Ann Nelson and Mrs. Argie Morgan in Wichita Falls. She was accompanied home by her cousin, George Morgan.

Mrs. D. F. Monroe, mother of Mrs. J. N. Helm, was taken to a Memphis hospital last Thursday sick, but was some improved and able to be brought home Saturday. Monday afternoon her condition became serious again and she was taken again to a Memphis hospital.

Mrs. Raymond Savage and sons of Dumas spent last week with her father, R. D. Long.
