MORNING COFFEE HONORING BRIDE-TO-BE IS GIVEN AT HOME OF MRS. GREENE

One of the courtesies extended to Miss Martha DeBerry, whose marriage to Ollie Lee is to take place Saturday morning at the First Methodist church, was a morning coffee given in the home of Mrs. R. S. Greene Saturday morning with Mrs. Elmer S. Shelley and Rubv McCanne, joint hostesses.

The guests assembled at the appointed hour and were greeted by Mrs. Greene while Miss Lucille McCanne presided over the bride's book. After each guest had registered, she was given a recipe card and asked to write her favorite recipe and menu for the bride's card index box.

The bride-elect, unaware of the festivities arranged in her honor, was brought to the party by Miss Ruby McCanne, chosen maid of honor, and ushered to the guest room where she was attired in a complete bridal costume, white dress of silk and tulle, and a tulle veil. She descended the stair in glowing beauty to the strains of Lohengrin's Bridal Chorus and was led to a seat of honor. She was presented with a market basket and told that she might purchase by check anything she chose from a specially arranged Cash and Carry store of which Gayle Greene, as groceryman, had charge. After her purchases were completed, the groceryman required her to sign the check with her new name. As she opened each grocery package, she found it to contain a lovely gift.

In the dining room, seated at a beautifully appointed table, Mrs. Greene poured coffee while Mrs. W. B. DeBerry, mother of the bride-elect, served sandwiches to the guests by Miss Ruby McCanne and Mrs. Shelley. Miss Lucille McCanne assisted in serving. Favors were yellow baskets of dates, nuts and raisins.

The entire house was decorated with chrysanthemums, red and orchid, and the dining room table bore a centerpiece of bronze chrysanthemums and orchid tapers.

Approximately seventy-five guests were present.

Basketball Practice To Begin Next Monday

CYCLONE CAGERS ARE EXPECTED TO BE GOOD

Six Lettermen To Be Ready To Practice On Next Monday

Equipment will be issued to the aspirants for basketball Monday, November 29, according to Coach Nolan Walter. The prospects for a winning team are very bright at this time, the coach believes, and probably will be better than last year's team which was a good one. The team of last year won the county championship.

Among those that will report for the first practice session are six lettermen. Cecil Stargel, who will be playing his fourth year, J. W. West, John Smith and O. B. Smith, who will be playing their third, and A. R. Evans and Alfred Burks, who have but one year to their credit, will be ready when the first whistle blows Monday afternoon.

Has Good Material
Good material is at hand in the persons of Jack Davis, three year letterman from Lakeview, V. L. McGlocklin, William Shields, Lois Shields, Roy Childress and Clifford Stewart.

Stewart who hails from Hamlin is expected to make the team. Cecil Stargel, captain, will be ready to start. A number of unexperienced men have indicated their intentions of trying out for the squad.

Coach Walter stated that the team this year is to be one of the best in years. With the material at hand, he is expecting to round them into one of the foremost teams of this section.

Junior Class Meet Is Held On Tuesday During Noon Hour

The Junior Class held a meeting at 12:45 o'clock Tuesday, November 17. Cora Fox Yonge, president, presided at the meeting. The meeting was called for the purpose of deciding upon the article the class was to buy this year. Bracelets were decided upon for the girls and watch fobs were the favorites for the boys.

Rings, this year, will not be bought and these will serve in the place of them.

and also backed the school in its literary work. Rev. Miller has also helped the students by appearing on chapel programs several times each year.

The high school wishes to take this opportunity to welcome Rev. J. M. Fuller, new pastor of the First Methodist church of this city, to Memphis and the high school.

The student body desires Rev. Fuller to take an active part in the activities of the school just as the other ministers of the city have, and to appear on the chapel programs in the near future. Welcome, Rev. Fuller!

Section No. 62 won the treat for having the most mothers present. The business session was followed by a beautiful poem on "Books" by Winifred Prater and a splendid talk on "Children's Reading" by Mrs. Bill Bryan. The Question Box closed the meeting, being a discussion on magazines for children.

The Senior High P. T. A. met Thursday afternoon in their regular meeting at the High School auditorium.

Mrs. R. S. Greene, president, called the meeting to order and announced the program. Mrs. Elmer Shelley directed a musical program. Guthrie Bennett sang, "Sea Belle" and "The Girl of Long Ago." Cora Fox Yonge played, "The Dancing Doll" and Jewel Keenan sang, "Were I" and "The Moon Light Garden."

The program was featured by a talk by Dr. J. A. MacMillan on the subject, "The Day We Live In."

After the program an interesting business session was held when reports were made.

Mrs. Billy Kittinger and son, Elbert, Jr., went to Amarillo Friday and visited her sister, Mrs. G. Wilson, and Mrs. Ruth Grundy until Sunday.

Miss Bertha Henderson of Dallas came Sunday for a few days visit here with Mrs. L. Holt.

Miss Mollie Harris returned Friday from a visit with Mrs. Virgil Porter at Wellington.

Frances Ogden Is Crowned Football Queen On Friday

Frances Ogden was selected football queen for the 1931 Cyclone football squad at a meeting of the players held Friday morning during the chapel period.

Charles Flanery acted as chairman for this meeting and Frances was selected over five other nominations.

The queen was crowned Friday afternoon before the Memphis-Wellington game by the captain, Curtis Bourland. A helmet decorated with black and gold paper was used to perform the ceremony and after which she was allowed to kick a football held by the captain.

As the football was kicked the remainder of the team rushed on the field and carried her to the sidelines. This is the first time this has been done and it can be explained by the fact that a year book is not expected to be published, it was said.

The Magnet . . .

No CITY, no town, can long exist industrially unless it can retain its home industries and, perhaps, attract other industries.

What influences an industry to locate in a particular community? Quality and cost of labor; quality, cost, extent and availability of raw material; a market for its product, and last, but far from least, the availability, dependability and cost of electric power.

Electric power is the motive power of industry because it makes possible the most efficient use of machinery, and because its cost is almost negligible.

The modern transmission line electric system, therefore, is not merely a company furnishing dependable electric service, it is a magnet attracting and keeping industries . . . and jobs . . . in the territory it serves!

To West Texas' unexcelled advantages from the standpoints of natural resources, raw materials, intelligent labor, low production costs, an enthusiastic market and a policy of genuine cooperation with new industries, the West Texas Utilities Company—serving 125 prosperous cities and towns in West Texas, the "Land of Opportunity"—adds the provision of the dependable and inexpensive electric power supply demanded by modern industries.

Do you know that your increased use of Electric Service is billed on a surprisingly low rate schedule . . . and adds only a small amount to your total bill?

WHAT HELPS HAIR and HURTS MOTOR OIL?

The answer is petroleum jelly! This thick, jelly-like substance gives motor oil, when cold, a deceptive body which turns water-thin the moment your engine heats up. Don't be fooled—ask the nearest Sinclair dealer for the oil with the genuine full body—Sinclair Opaline. Petroleum jelly is removed from Opaline at as low as 60° F. below zero—a much lower temperature than is required for just removing wax. Ask the Sinclair dealer.

We scored again at our Sale of Sales. We sold more merchandise and had bigger crowds than ever before in the history of our merchandising. But our record then will not compare to the great Sale that opens Friday. Every article of merchandise in our store has been pulled from the shelf, marked down to where it hurts, then marked still lower. Hats, Clothing, Shoes, Ladies' Ready-to-Wear, Work Clothes, Overcoats, Pants—in fact every item has felt the knife. We are not concerned with what tomorrow brings. We ARE CONCERNED in reducing our stock and raising money to meet the demands of the present, and if they can be met, the future will care for itself. When the doors are opened on OUR GREATEST SALE—YOUR GREATEST SAVINGS, be in line to get your share of the bargains. Remember—the time is short. These prices are only in effect for three weeks and you will have to be up and doing to get your share of the wonderful bargains we are offering.

HAVE YOU JOINED THE RED CROSS?

If you have not joined the Hall County Chapter of the American Red Cross, now is a mighty fine time to do so. If you put this important matter off, you will probably disregard it altogether in the rush of getting ready for Christmas. It is the duty of every one who has as much as one dollar to invest in humanity to place the money in a fund to help sufferers the world over. The American Red Cross is truly the greatest mother in the world.

Early in the year when the call went forth from Hall County for Red Cross funds, this organization responded in a great way. Thousands of dollars were expended in this territory. Destitute and hungry families were put on their feet again through the medium of this agency. Nothing was asked at that time as to how much money the Hall County Red Cross Chapter raised during the annual roll call last year, or who contributed, but an emergency existed, and the Red Cross answered the call, just as it has answered every worthy call for aid during the time it has been in operation.

Have a talk with an ex-service man and he will tell you some of the things the Red Cross accomplished during the period of the World War. He will tell you that the Red Cross did more than any other agency to alleviate suffering. Such an organization demands the support of every red-blooded American and we believe that the corps of workers in this county will reach their goal in the annual roll call which was begun Armistice Day.

NEWS THAT IS NEWS

IT GAVE the editorial staff of The Democrat more real pleasure to be in position to herald the starting of work on the new post office building than any occurrence that has transpired in Memphis or vicinity in a long time. The beginning of work on this structure proved to be news that is news. All of us have been waiting for years to see this come about. Reports were received and published at various times relative to the progress being made on getting a post office for this city, but often, the reports conflicted and it was a hard matter to get anything definite.

We do not know how long it will take the contractors and workmen to complete the edifice, but we feel sure that work will go forward with as much dispatch as is possible. We expect the building to be completed rather early in the spring, provided, of course, there are not many setbacks due to bad weather.

When the building is completed, Memphis and Hall County may boast of a post office in keeping with the progressiveness of the people. The honor is due this section. The building should prove a motivating force for future enterprises, for it is taken for granted that the inactivity of the present along civic lines will be transferred into real and lasting public strides when confidence has again been restored.

START YOUR CHRISTMAS SHOPPING EARLY

DON'T FORGET that from the date of this issue of The Democrat only four weeks remain until Christmas. In these four weeks are only twenty-three shopping days. May we urge that you start your Christmas shopping early this season, to avoid delays in getting exactly what you want, in order to help the merchants and post office take care of the last minute rush?

In speaking of this matter, we can all but hear any number of people say: "Oh, I don't have to start shopping early this year. All I'm going to buy I can get in a few minutes." As is nearly always the case, these time-worn expressions do not stand up. While it is true that the purchasing power of individuals has decreased, the purchasing power of the dollar has increased to such an extent that only a few dollars will go a long way.

In thinking and speaking of Christmas this year, we know people are considering it in a sane manner. More useful articles will be purchased in preparation for Christmas this year than ever before. People have learned their lesson. They know what it means to conserve, to save, and with this knowledge they are going to buy for a definite purpose and not blindly.

Despite unfavorable times, local merchants will have a sparkling array of sensible merchandise from which to select. There is no need to resort to the mail order catalogue or to out-of-town purchases to get the needed article at the right price. We believe a fine practice would be to budget the articles on the Christmas list and purchase them before they have been picked over. Mail those which are to be sent out of town with the stickers, "Not to be opened until Christmas," and then forget all about the hurry and bustle and confusion always associated with this season of the year. That is the logical plan to follow. It will not only help you, but the other person, as well.

ATTEND THE UNION SERVICES

ALTHOUGH a number of Memphis people expect to spend the Thanksgiving holidays away from the city, more than enough will remain at home to pack the auditorium of the First Methodist Church Thursday morning at 10 o'clock, when union Thanksgiving services will be held, participated in by the congregations of the First Methodist Church, First Baptist Church, First Christian Church and First Presbyterian Church. The new Methodist pastor, Rev. J. M. Fuller, will preach the sermon on this occasion.

Those of us who plan to remain at home could not spend an hour of Thanksgiving Day better than by attending Divine Worship. Let's give the new Methodist minister a rousing welcome to the city, and at the same time take part in the observance of a day that is dear to the hearts of every American.

(Editor's Note: This story was prepared by the winner of the 4-H pantry contest held last week. The Democrat is printing it because of the interesting example of a "live-at-home" program contained herein.)

BY MRS. M. C. MARTIN
I joined the 4-H Pantry project, first for my club, next to learn how to meet my family's needs. I have always canned everything I possibly could, but have never canned from the standpoint of a canning budget before. I have found it interesting.

To fill this canning budget has been no easy matter. I have had to compete with drought and other climatic conditions causing me to use all my ingenuity.

Has 1,132 Cans
I have canned 1,132 containers of foods, consisting of starchy vegetables, meats, fruits, preserves, jellies, leafy vegetables, tomatoes and other vegetables. I exchanged some vegetables that I canned in the early spring for berries grown in East Texas. I also canned three beavers, two mutons, 10 bushels of sweet potatoes and one bushel of peaches on the halves and the remainder of my canned foods were grown in my garden.

Besides all my canning, I sold enough vegetables from my garden to bare all the expenses of my canning budget and had \$9.16 left. I sold \$25 worth of other vegetables which came to \$45.24.

No Expense for Pantry
I was not out any expense for building my 4-H pantry. I used scrap lumber; made the ceiling from paste board boxes and used refuse paint.

I have enjoyed the work in this 4-H pantry contest and the cooperation of my home demonstration agent, Miss Ruby M. Adams, has been the best. On my farm, I have plenty of chickens for eggs and meat; cows for butter, milk and cream (some milk, butter and cream was sold); turkeys; muton; and a winter garden.

Winner of 2nd Place
(Editor's Note: This story was prepared by the winner of second place in the 4-H Pantry contest last week. It is another interesting example of the "live-at-home" program, for a family of four.)

BY MRS. A. GIDDEN
To me this has been the most enjoyable and profitable year of my canning experience. Heretofore, I have done a great deal of canning, but my club work has shown me that I had given little thought to well balanced meals and budgeting. This means that during past years I have done my canning in a more or less aimless manner, so on entering the contest the matter of a canning budget was new to me. Having a definite aim in mind and a determination to learn something of this new work, however, have been helpful in making my plans which have been interesting to carry out.

Selected Garden Seed
First, I carefully selected my garden seed and started my garden. Due to Hall County's sandstorms and numerous insects which invaded the garden, I soon saw that I must do some "real planning" if my canning budget was to be well balanced.

Several years ago, I learned to economize, so I made a list of the things I had plenty of, and with the happy idea that I might trade something I had an over supply of, I donned my trading cap and started out. One of the club women had a sub-irrigated garden which produced a bountiful supply of cucumbers. This woman was short on lard, so I traded her two gallons of lard for one and one-half bushels of cucumbers. These cucumbers were picked every morning and brought to my door. From one and one-half bushels I made 38 quarts of choice pickles.

Trades Products
With another woman I traded the best quality home-made soap for a few vegetables that I did not have very many of. I spent one day helping a woman, who did not know how to can. When I started home I found 32 cans in my car. I added these to my supply at home. Another day, I helped this same woman can peas and received 13 quarts. Still another day I helped can corn and peas and added eight pints of corn to my pantry.

I found two families who had moved to my community that needed lard. To them I sold \$16 worth, then I bought 15 dozen glass jars and 126 cans at a discount of five cents per dozen. This left an expense of \$2.40. I took seven and one-half dozen jars and 63 cans and traded them for vegetables to fill other jars and cans. When canned, these jars were worth \$31. Not a bad trade!

Trades for Magazines
Another trade was made when eggs were only eight cents per dozen. I traded all of my old roosters to a magazine man for three years subscription to each of two good magazines. I began preserving my eggs then in water-glass. I now have 12 dozen canned for winter use.

I bought fruit and a few commercial products by selling milk, butter, chickens and eggs. We have five dairy cows, meat hogs, 100 Rhode Island Red hens, and 200 young fryers.

My recipe filing cases and bulletins have been a joy and help to me in preparing and serving meals.

Home Open to Club
My home is always open to club meetings, and I have had a number of the demonstrations, the last of which was Achievement Day on November 19. I feel that I have learned a great deal from my study of food values and the needs of the body with a minimum expenditure of money, time and energy.

My pantry is in the basement of my home, and consists of 664 containers valued at \$356.20 at an expense of \$24.75.

Priscilla and John

Said Priscilla, as she smiled, "There are very much a child. John, I wonder if thee will Ever, ever have thy fill?"

"Ah," said John, "thee never knows After seeing all these snows That a man has right to eat? Help thyself—ye comely sweet."

"But such bites thee take are bad— Have effect upon thy lad," And Priscilla dried her eyes With the laces on her ties.

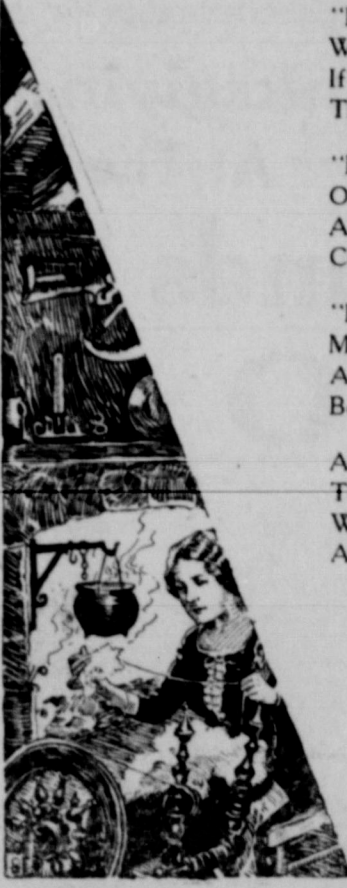

"If to eat on feasting day Were not tempered while thee pray— If to dine were all in all Thee would better feast on gall.

"But the taste be very good Of the turkey from the wood, And the bites ye take do burn— Command energy return.

"Bites be little, bites be large, Man must eat if he discharge All the work that be his task, Be there other queries—ask."

And they prayed a time or two, Took new courage from the stew While the winter wind blew proud— Alden's chews were quite as loud!

DEEP LAKE

Mrs. Lofton from East Texas delivered the sermon at the Deep Lake Union church last Saturday. The first freeze of the year came to Deep Lake Sunday with a light rain. The farmers still have quite a bit of cotton in the fields yet to be picked, but if a rainy season begins, it is thought that much of it will be lost. No church services were conducted at the Deep Lake church Sunday on account of adverse weather conditions. Deep Lake schools will reopen Monday, Nov. 30, according to the principal, Mr. Todd. The

teachers will be Miss Lawrence and McMaster. Bluford Henry returned home this week after two weeks with his sister, Gob Mitchell, in Leslie, Shallow Lake, which was dry for several months, finally refilled by the rain fell Friday.

Cyclone Ends Season With Victory

FLANERY MAKES 12 YARD DASH FOR COUNTER

Williams, Skyrocket Leader, Is Star Of 19 To 13 Battle

Memphis High School football team ended their 1931 gridiron season with a 19 to 13 victory over Wellington on Friday afternoon at Fair Park. The game was throughout with the Cyclone leading, touchdowns being scored by the game.

Flanery, Cyclone quarterback, brought the stands to their feet with less than two minutes to go in the first half, he kicked the ball on a reverse play down 12 yard line and made a beautiful run of 88 yards for a touchdown. He followed his impressive until in the Wellington game where Leslie blocked a man leaving only the safety in his path. He continued up the side line, evading safety.

Williams is Star
The outstanding player in the game was Captain John Williams who Skyrocket eleven. His line was the best Wellington to offer. His long punts were instrumental in keeping the Cyclone at bay. He punted 11 times an average of 41 yards. His punting work was an important factor in determining the final score.

Wellington scored first. Early in the game, the Cyclone carried the ball to the Skyrocket one yard only to be held for downs. Williams punted out and soon the ball on his own 38 yard line. A pass was completed for a touchdown. Memphis tied the game when Flanery made his long pass and Stewart kicked the extra point, incidentally the first extra point kicked by a member of the Cyclone squad this season.

Scores on Passes
Wellington's other tally resulted in another pass. Oren made a second score for the local team and late in the game, Stewart buried a long pass which was caught by West who stepped some (Continued on page 4)

Max King Thinks Chickens, Cows And Hogs Are More Profitable Than Cotton

Raising hogs and chickens for sale, and selling cream, butter and eggs is more profitable on the farm than producing cotton, is the opinion of D. Max King, local business man and farm owner. Mr. King is owner of a 160 acre farm on the Friendship road about three miles southwest of Memphis.

He abandoned the idea of raising cotton as the major crop on his farm three years ago and decided to fulfill his hobby of raising hogs and chickens and selling butter, cream and eggs. Starting with three Jersey cows, 200 White Leghorn hens, and three Duroc-Jersey sows, he has increased his stock to ten cows, 500 hens and 86 hogs.

Maize and skimmed milk are used as feed for the hogs. The feed is placed in automatic feeders so that the animals will have access to it at all times. They are pure bred Duroc-Jerseys. The shoats are sold mostly to local butchers and not shipped out of the city. Several people in Memphis have gone to the farm, selected the animal they want, and there it is killed, dressed and delivered to them, Mr. King stated.

Sells Cream Regularly
Ten gallons of cream are sold to local creameries once each week. The ten cows give an average of 30 gallons of milk per day.

The cream is separated from the milk and the remaining part is fed to the hogs.

Last year the 500 hens laid an average of 187 eggs each. The eggs are brought to Memphis each morning and sold by the case to local grocery firms. The fowls are housed in three sheds, 30 by 18 feet, which are cleaned each day. Each morning, during the winter months, a lantern is placed in the sheds at seven o'clock in order to rouse the birds from their roosts and get them in the open, Mr. King said.

Cares For Chickens
They are allowed to run in the open over about 15 acres of land. Each evening they are called in and locked in the sheds for the night. Most of the feed they get is obtained from what they gather from the ground they run over. They are also fed milk and grain, it was said.

A separate set of account books is kept on the sales and costs of raising the hogs and chickens and the selling of the cream, butter and eggs by G. C. Posey, tenant on the farm. Mr. Posey has complete charge of raising and selling all the products, hogs and chickens. He comes to Memphis each morning and does his selling, Mr. King said.

Tour Is Made To See 4-H Pantries In Recent Contest

Some 20 people, including club women and their husbands and a number of Memphians, made a tour of the homes of several home demonstration club women of this county Thursday of last week, according to Miss Ruby M. Adams, county home demonstration agent. The tour was made to visit the 4-H pantries in the contest judged last week.

The group left Memphis at nine o'clock, making their first visit to the home of Mrs. A. Gidden of county home demonstration agent. The tour was made to visit the 4-H pantries in the contest judged last week.

The next stop was to see the pantry prepared by Mrs. C. E. Stillwell of Gammage. Lunch was served to the visitors here. The menu consisted of sandwiches, chili, fruit and coffee. The pantry belonging to Mrs. J. A. Clements of Purple Hill was then visited. The tour ended after a visit to the home of Mrs. O. H. Echols at Estelline.

A number of aged relics were viewed by the party while at the home of Mrs. Gidden. Those making the trip marveled at the way the pantries had been arranged, Miss Adams said. The pantries were complete in every way, and the trip proved interesting to the visitors.

He was appointed to fill the local pastorate at the Northwest Texas Conference held at Vernon recently, at which time Dr. Ernest E. Driver Injured When Hit By His Truck As Steering Gear Locks

A. L. Stafford received minor injuries when he was hit by the batch truck he was driving after jumping from it after the steering gear had locked one mile west of Lakeview on the Memphis-Mulberry Bridge highway about noon Saturday. Stafford was hauling batch for the mixer used in the construction of the highway and his truck was loaded when the accident occurred. The truck did not overturn.

Flanery Makes—

(Continued from page 1)

15 yards for a touchdown. West played bang up ball throughout the fray. His defensive playing was great and on the offense he snagged two passes that finally resulted in tallies, scoring on one. Three times, the Skyrocket line withstood the plunges of big Kenneth Oren and other Cyclone backs to hold them for downs on the one yard line.

Kunkler Plays Well
Cook, Wellington fullback, played a good game. Kunkler who was ineligible to play this fall but who will be "K" next season, played a large part of the game. Captain Curtis Bourland played his usual consistent game. Jack Norman, who started at quarterback, played most of the battle and besides calling a smart game, his runs netted many first downs for the Memphians.

A comparatively large crowd was on hand to witness the battle which proved colorful in many respects.

Play by Play

Wellington won the toss and elected to receive. Sanders kicked to Wellington's eight yard line and the ball was brought back to the 33 yard stripe. Three plays netted eight yards and Wellington punted 46 yards and Flanery returned the ball 46 yards to Wellington's 34 yard line. Oren carried the ball out of bounds after a two yard gain. Walker picked up two yards and Memphis was penalized five for off sides. A pass, Flanery to Walker, was intercepted, the Skyrockets setting the ball on their own 25 yard line. Two line plays netted two yards and a pass was knocked down by West. A 18 yard punt was returned 10 yards in mid-field.

West Takes Pass

Flanery made two and then passed to West for a gain of 22 yards and a first down on Wellington's 23 yard line. land are planted in cotton which will possibly net 15 bales this year, it was said. Maize is the chief crop as about 75 acres is devoted to it and it is used in feeding.

Thoroughly Convinced
"I am thoroughly convinced that profits on the selling of cream, butter, eggs and chickens are more than the farmer can derive from the prices of his cotton and feed crop," Mr. King said. "Over a period of 30 days, the producer will make more profit from his sales than the farmer is able to make from the cotton raised on 50 acres of land. Conditions are arriving at the point where the farmer is having to depend on the profits from sources other than the cotton and feed crops, and I believe that the sales of cream, butter, eggs, chickens and hogs is the best way to secure the necessary funds."

Positive Proof of FORD ECONOMY

City of Detroit purchases 137 new Ford cars
Hundreds now in use prove low cost of operation

THESE 137 new Ford cars represent one of the largest deliveries ever made to a municipality at one time.

21 radio-equipped Ford scout cars were traded in on this purchase. They had been operated day and night for two years in heavy traffic and all kinds of weather.

Their individual records ranged from 73,434 miles to 143,723 miles with a grand total of 2,233,097 miles. The operating cost of the 21 cars was 2,264 cents a mile—less than 2 1/3 cents. This cost included all fuel, oil, tires, repairs and every other item except depreciation and insurance.

Of 577 Ford cars in Detroit City service, the 309 in the Police Department traveled a total of 6,591,937 miles during the past fiscal year, at an average cost of 2.9 cents a mile.

Many claims have been made on operating costs, but here in the carefully kept motor car records of the City of Detroit is positive proof of Ford economy.

In the paragraphs above, it is seen that 21 Ford scout cars averaged less than 2 1/3

cents a mile and 300 Ford cars in all branches of Detroit police work averaged 2.9 cents a mile!

Day and night, twenty-four hours a day, these Ford cars are in operation. Few branches of transportation demand such grueling service. The records show that low fuel and oil consumption is but one of the Ford's many economies. Ford materials, simplicity of design and accuracy in manufacturing provide unusual strength, stamina and freedom from replacements and repairs.

The individual car buyer as well as the purchasing department of a city or a business cannot afford to ignore the proved economy of the Ford car.
