Cyclone Eleven Drops 13-6 Decision to Exes Thursday

Paced by Billy Polk Hall and Talmadge Pounds, the Cyclone Exes hung a 13-6 defeat on the 1939 Cyclone grid team in their annual spring football game at Cyclone Stadium last Friday night. The Exes scored in the first and second quarters to run up a two-touchdown lead that was never seriously threatened.

The 1939 hopefuls clicked early in the third quarter to make a sustained drive from their own 30 yard line and count their only score. A pass from Ted George, standing on the Exes 39, to rangy John Clark on the 29, placed the Cyclone in scoring position.

Clark took a perfect pass from George and carried the ball to the 6 yard line. On the next play, George smashed over tackle for the score. An attempted conversion failed.

Fumbles proved costly for both teams, and severe penalties resulted in three scoring plays by the Exes being called back. The Exes held the ball in midfield as the game ended.

The Exes held a slight lead on first downs with 11 to 9 for the Cyclone squad.

Exes scored early in the first quarter after receiving the opening kick-off deep in their own territory. Line smashes by Hall and wide-end sweeps by Talmadge Pounds advanced the ball into scoring territory. The drive was featured by a pass from Hall to Lindsey good for 22 yards, and another from Pounds to Robertson good for 15 yards and a first down on the Cyclone 3 yard line.

Pounds carried the ball over for the first score, and Lindsey's attempted conversion was wide.

In their second scoring attempt early in the second quarter, the Exes advanced to the Cyclone 9 on a wide end run by Talmadge Pounds. Pounds was stopped by Isadore Hardin. Hall smashed off-tackle for the score, but the play was called back and the Exes penalized 20 yards. Pounds

Baby Run Over by Truck Uninjured

Edward Lee Richards, 14-month-old baby, escaped serious injury Monday when he was knocked down and run over by a truck driven by his father, Ted Richards.

The baby was rushed to a local hospital for medical attention, but was not seriously hurt. The back wheel of the truck rolled over the child's arm, but no bones were broken.

FUNERAL RITES FOR EXPLOSION VICTIMS HELD

Three Services Are Observed at Turkey; One At Estelline

Funeral services for the four victims of last Thursday's tragic dynamite explosion were conducted during the past week-end at Turkey and Estelline.

R. C. Collins of Estelline, who died in a local hospital early Friday morning, was buried at that city Friday afternoon. Funeral rites were conducted at the First Baptist Church, with the pastor, Rev. C. M. Brister, in charge. Burial was in the Estelline cemetery.

Collins is survived by his widow and two children, Donald Ray age 10, and Mary Dean, age 4; his father, J. A. Collins of Conroe; two brothers, H. C. Collins of Parnell and Ira Collins of Frost; and six sisters. All were present for the funeral Friday.

Palbearers were Grover Ewing, John Potts, Bob Butler, and C. O. Kenedy.

Bob Beeson and Lee Rivers, both of whom were killed instantly in the explosion Thursday, were buried at Turkey Friday.

Funeral services for Rivers were conducted at the Turkey High School auditorium Friday afternoon, with Mr. Carter, minister of the Church of Christ from Tullia, officiating. Burial was in Dreamland Cemetery.

Rivers is survived by his widow and three children.

Palbearers at the services were Bill George, Pete Rice, Pete Gilliland, Guy Smith, Curtis Tunnell, and Drew Holcomb, all members of the Turkey Volunteer Fire Department. Rivers was 36 years old.

Funeral rites for Beeson were conducted at the High School auditorium Friday morning, with (Continued on page 5)

Sideliners Entertain Cyclone Grid Team at Barbecue

The Memphis Sideliners Club entertained members of the Memphis High School Cyclone football team, their dates, and guests at a picnic and steak barbecue at Brookhollow Club Lake Monday evening.

According to Jack Boone, Sideliner's president, more than 140 persons were served at the affair. In charge of arrangements were Boone, Roy R. Fultz, Carroll Smyers, and Leon Bullard.

All facilities of the Club Lake were turned over to the guests for the evening. Boating and swimming provided the chief diversions.

Accompanying the team were Coaches Murphy, Hubbell, and Dees, and Noah Cunningham, principal of the high school. A number of members of the Sideliners Club and guests were represented in the large crowd which thronged the lake shore.

The boys, and their dates, who were present were:

COLLINS AND WOOTEN DIE AT HOSPITAL

Clyde Martin Is Only Survivor of Fatal Explosion

The death toll in last Thursday's dynamite blast on Salt Creek, 12 miles east of Memphis, in which two men were killed instantly and three others seriously injured, mounted to four last week-end as two other victims died in a local hospital as a result of their injuries.

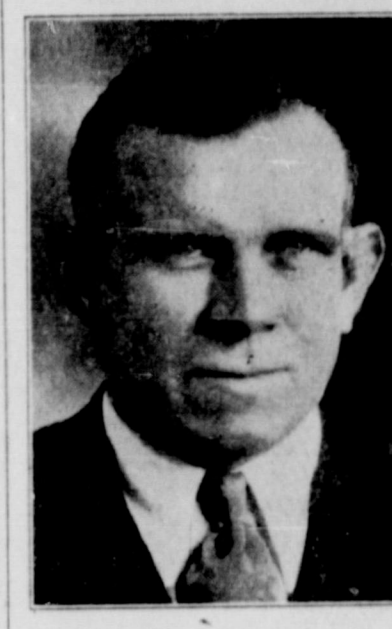

R. C. Collins of Estelline died at 1 o'clock Friday morning, only a few hours after the fatal explosion. H. F. Wooten of Turkey died on the following day, Saturday, at about 10 o'clock in the morning.

Clyde Martin of Wellington, the only survivor of the blast, was suffering from severe shock but was not in serious condition.

Bob Beeson, construction foreman, and Levi Rivers were killed instantly when the dynamite charge, supposedly set off accidentally by the jar of a jackhammer, wrecked the crew of five men who were drilling pier holes for a highway bridge across Salt Creek. Both were from Turkey.

The accident occurred at about 9 o'clock Thursday morning at the Salt Creek crossing of the new East-West highway 12 miles east of Memphis. The men were employed by the J. E. Barnhill Construction Company of Turkey, contractors on the new highway construction job.

According to the only surviving witness, Clyde Martin, Beeson was preparing the charge for blast (Continued on page 4)

SIDELINER—Jack Boone, president of the Sideliners Club, directed arrangements for the barbecue picnic at Brookhollow Lake Monday evening, given in honor of the Cyclone football team.

Three One-Variety Cotton Planting Groups Organized

Turkey, Estelline, and Lakeview Farmers Pledge 10,000 Acres for 1939

More than 10,000 acres of Hall County farm land will be devoted to one-variety cotton production during the 1939 season. Farmers at Turkey, Lakeview, and Estelline have organized one-variety associations and plan to plant only Delta No. 11 seed for the 1939 crop.

The most recent organization was completed at Estelline Tuesday night when approximately 90 per cent of the farmers in that community area agreed on the single variety plan for this year. A survey showed that the Estelline Association would include approximately 5,600 acres of land to be devoted to single variety cotton production.

Actively engaged in promoting the organization were County Agent W. B. Hooser and Vocational Agriculture instructor Walter Labay of the Estelline schools.

John Russell was elected president of the association, R. A. Whaley vice president, and John Ewen secretary-treasurer. Burl Bell and A. A. Greer were named on the executive committee.

An association was formed at Turkey three weeks ago, and more than 3,000 acres of land in that community area will be devoted to one-variety production. At Lakeview, an additional 2,000 acres has been signed up by the one-variety association.

Gins in each community have agreed to set aside certain days in each week for ginning the one-variety cotton, and gin schedules will be arranged this fall to allow producers of the specialized cotton right-of-way at these times.

Farmers in the Estelline community agreed also to use cotton ginning in binding bales.

Long range plans announced by the county agent and others interested in the farm associations point toward a goal of making Hall County a hundred per cent one-variety cotton producing area.

Rev. O. K. Webb to Visit in Memphis

Rev. O. K. Webb, former pastor of the First Baptist Church of Memphis and now living in Spartanburg, S. C., will be in Memphis Sunday, May 21, for a brief visit and will preach at morning services at his old pastorate on that date. Rev. J. Wm. Mason, local pastor, announced this week.

Rev. Webb is now pastor of the South Side Baptist Church in Spartanburg. He will attend the Southern Baptist Convention at Oklahoma City, and will visit in Memphis before returning to his home.

Preparations Are Started for 1939 Pioneer Reunion

Hall County Old Settlers Reunion This Year Will Be Outstanding Event

Preparations were started this week for the annual Hall County Old Settlers Reunion, which will be held in Memphis this summer, with the appointment of a planning committee to lay the foundation for the celebration.

Appointment of the committee was announced this week by E. M. Ewen, president of the Hall County Old Settlers Association, and James E. King, president of the Memphis Chamber of Commerce, joint sponsors of the annual reunion.

The sponsors have announced plans to make this year's reunion one of the best pioneer events in this section of the country. Members of the planning committee will lay plans and ideas to be carried out by working committees which will be appointed at a later date.

Members of the committee are Carroll Smyers, E. M. Ewen, Mrs. Henry Youngblood, J. Claude Wells, Carl Harrison, Mack Wilson, W. C. Davis, Charlie Meacham, Mrs. John Deaver, Mrs. W. J. Bragg, Mrs. R. S. Greene, and Mrs. D. H. Davenport.

Junior Chorus on Rotary Program

The Junior High School Chorus, Miss Mary Foreman director, presented a musical program at Rotary luncheon Tuesday. The first part of the program was directed by Rayburn Jones, accompanied on the piano by Miss Foreman. The second part was directed by Miss Foreman and accompanied by Rayburn Jones.

Several songs were sung, and the Junior Chorus was voted by the Rotarians as extra good.

Tomie Potts served as chairman in the absence of the president, Carl Periman, who with the president-elect Carl Harrison, W. C. Davis and E. E. Cudd, attended the District Rotary Conference at Big Spring Sunday through Tuesday.

My Mother
(Mother's Day, 1939)
By I. G. THOMAS

Whose arms first held me in loving embrace;
Whose cheeks first pressed to my little round face;
Whose hand held to mine as I learned to walk;
Whose lips said the words as I tried to talk?
My mother's!

Who sat up late sewing clothes that I wore;
Who washed and ironed all the shirts that I wore;
Who kissed all those hurts when I fell and cried;
Who was so patient, when, smoking I'd hide?
My mother!

Who missed me most when I first went to school;
Who taught me to live by the old Golden Rule;
Who went without things that I might have some toy;
Who often times prayed for me when a boy?
My mother!

Who came at bedtime to my old trundle bed;
Who tucked me in tight when my prayers were said;
Who saved me from licks I expected from dad;
Who always smiled and made other folks glad?
My mother!

Who still, though I've grown, calls me her 'little boy';
Who counts my visits to her a great joy;
Who is so much like an angel above;
Who is she I love with an increasing love?
My mother!

TO HER WHO SLEEPS:
Whose face, though it's gone, I often times see;
Whose love o'er the years has watched over me;
Whose life, more than words, still lives on today;
Whose soul is alive waiting me on that day?
My mother's!

Estelline Routs Memphis Nine to Tie First Place

Cubs Score 28-5 Win Over League-Leading Memphis Sunday

Estelline's hard-hitting baseball nine routed the league-leading Memphis club by a 28-5 score on the local diamond Sunday afternoon and stepped into a tie with Memphis for first place position in the Hall County League.

The game here was the only league battle called Sunday. Scheduled matches between Lakeview-Crossroads and Hedley and Goldston and Tell and Goldston were rained out and will be settled in a double-header on June 11 when the four are paired for their next meeting.

Three Memphis pitchers paraded to the mound Sunday afternoon in an effort to stop the big guns of the Estelline sluggers. Barnes, Hoover, and Hanna fell victim in turn as the Cubs batsmen, aided by numerous errors in fielding, declared a Roman holiday at each turn at bat.

With Estelline and Memphis in a tie for first place, the idle Tell team remained in third, trailed by Goldston and Lakeview, with Hedley still occupying the cellar.

Next Sunday's games will bring Hedley to the local diamond, while Tell plays at Lakeview and Goldston goes to Estelline.

Mrs. Deaver Makes Wellington Talk

Mrs. John Deaver of Memphis, president of the 18th District American Legion Auxiliary, and Mrs. William Wyatt of San Marcos, state president of the Auxiliary, will speak in Wellington before members of the Frank King Post Thursday evening, May 11.

Hosts for the meeting are Mr. and Mrs. John G. Harper, Mr. and Mrs. Roy Horn, and Mr. and Mrs. Cecil Brown.

Subjects for Mrs. Deaver's and Mrs. Wyatt's talks had not been announced. Mrs. Wyatt has been in the Panhandle since last Saturday, coming here last week to attend the District Legion-Auxiliary convention at Childress.

Treatment and
Dread Disease

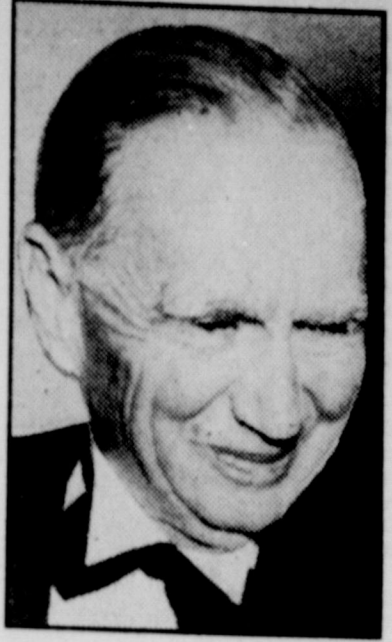

week, recent discoveries in vaccines make it possible to save nearly 100 per cent infected animals from certain death. Vaccine is made by inoculating the virus into eggs prior to incubation period and making the vaccine from the incubated result by suspension in solutions suitable for injection. When horses and mules are to have the maximum immunity, inoculation should be made within approximately 15 to 20 days before the beginning of the biting insect season. A definite amount of protection is afforded by the first dose however. Serus should be administered to all exposed animals, especially if of value, as there is some danger of losses occurring before a protective degree of immunity can be established.

It is stated that in treatment of the disease, the animal should be isolated and given vaccine in repeated doses from 24 to 48 hours apart until recovery is apparent.

Supplies of this vaccine are available to Hall County stock owners to assist in preventing this disease which caused considerable loss in recent years.

CHURCHES

FIRST METHODIST CHURCH
 Mother's Day is a nationally recognized day. Every church in the land will be observing in some way the day with honor to Mother. The Methodist Church of Memphis will have a very attractive program both morning and evening.

At the morning service, the district superintendent, Rev. G. T. Palmer will preach and music in keeping with the day will be given.

At the evening hour, I. G. Thomas will give a series of poems on Mother, Home, Youth, and will be followed by a brief sermon by the pastor, on Mother's Day.

Mr. Thomas is a local man, a poet of considerable recognition and the public is cordially invited to hear him.

Orion W. Carter, Pastor.

PRESBYTERIAN CHURCH
 Now that we are approaching "Mother's Day" let us make definite plans and arrange for the happiness and delight of mothers all about us.

Someone said: "The life of no man can be written without the knowledge that behind that life there is the sacrifice of a mother."
 T. W. Higginson said: "What are Raphael's Madonnas but the shadow of a mother's love fixed in permanent outline forever?"

The Mother of Sir Walter Scott was poetic.

It will be lovely next Sunday morning to bring flowers, but be sure to see that your mother is with you, and if not your mother ask some mother to come with you.

"Faith of our Mothers" will be one of the songs during the morning service.

God bless the mothers, step mothers, mother-in-laws, grandmothers, all mothers on Mother's Day and every day.

E. C. Cargill, Pastor.

FIRST BAPTIST CHURCH
 Rev. A. C. Donath of Oyo, Nigeria, West Africa, will be with our church through the service Sunday morning. He and Mrs. Donath have spent a term in missionary work in Africa, now being home on furlough. They are doing a splendid work in bringing their experiences to the people here in America. Each evening their personal experiences are related and attractive souvenirs are being exhibited. More than 250 people have been attending these lectures. Everybody is cordially invited to be at the Baptist Church each evening at 8 o'clock.

The sermon Sunday morning will be brought by Brother Donath and a large crowd is expected to hear him. The pastor will preach Sunday evening emphasizing the Mother's Day theme.

A bouquet of flowers will be given to the oldest mother present, and another bouquet will be given to the mother with the largest number of children and grandchildren present. At the close of the evening service the ordinance of baptism will be administered. May we all be interested in telling our friends about these services and be bringing them as visitors.

The Sunday school and B. T. U. both will be working for a record attendance on this Mother's Day. Please do your best.

J. Wm. Mason, Pastor.

L. D. Sanders spent Wednesday and Thursday in Lubbock and Levelland on business.

Henry Youngblood from Brice was a visitor here Wednesday.

Mrs. Bill Johnson is visiting her mother, Mrs. Myrtle Stilwell, in Dimmitt this week.

Nelson Combest was in Amarillo Tuesday.

Mr. and Mrs. I. W. Thomason returned Wednesday from a visit with Mr. and Mrs. Clyde Rutledge of Lubbock and Mr. and Mrs. Raymond Thomason of Abilene.

Mrs. O. A. Stilwell returned Wednesday from Bellevue where she visited her mother who has been critically ill. Her little daughter, Geraldine, remained for a visit.

ing in one of the pier holes and Rivers, standing nearby, was using a jackhammer to drill into solid rock in preparation for the blasting when the explosion occurred. Beeson and Rivers died instantly. Beeson's body was blown to bits, and Rivers was badly mangled by the force of the explosion. Collins and Wooten were rushed to a local hospital immediately following the blast, and some hope was held for their recovery. Collins, with an arm torn off by the blast and his body badly torn, was considered the more critically injured of the two. A blood transfusion was given Thursday afternoon in an effort to save his life. Wooten had part of his jaw torn away by the explosion and suffered other injuries. Martin, least seriously injured

of the crew, stated that he was working in an adjoining pier hole and was saved from the full force of the blast by a six-foot wall of solid rock.

Beeson and Rivers were buried at Turkey Friday, and funeral services for Wooten were held in that city Sunday afternoon. The latter is survived by his widow and four children.

Funeral services for Collins were conducted at Esteline Friday afternoon. He is survived by his widow and two children.

No explanation of the explosion, other than that advanced by Martin, has been made. Martin surmised that the jar of the jackhammer had set off the charge. Beeson, who was working with the powder, had placed caps on part of the dynamite in readiness for blasting.

"We were digging pier holes for the bridge," Martin explained. "The holes were drilled fourteen feet into solid rock, and Rivers was using the jackhammer to drill a hole only a few feet away from the spot where Beeson was handling the powder."

Comments—

(Continued from page 1)

shows how the people of the Panhandle do things, especially for the pioneers.

And that reminds me that in July the annual Hall County Old Settlers will hold a celebration, and the 'talk' part of getting ready for the event is already being done. Later the "work" part will get under way.

Memphis boasts of a fine high school band, which is doing some fine work under the efficient leadership and training of Director G. W. Johnson. At each public appearance of the band improvement is noted in the playing. In a few weeks school will be out and the band vacationing for the summer, unless... By the way, wouldn't it be a wise thing to employ Mr. Johnson to teach and direct the band all through the summer months? That way the band could give one or two public performances a week, and be in condition to play for the different affairs taking place in Memphis and over the county, thus building a lot of good will—a valuable asset anyway one looks at it. Whatdoyousay?

Those who heard the young orators tell about the many good things concerning Memphis Tuesday night on the square, over the loud speaker, couldn't help but feel proud they live in such a progressive city as portrayed. And glad they live in a city where the young people study their town, write and deliver speeches about it in such convincing language. Seven young hopefuls advanced such strong reasons why Memphis is such a good town, they made boosters of a number of people who never stopped to count the many advantages and worthwhile things within the town.

Before and after the "My Home Town" contest, the High School Band played several popular airs that enlivened and entertained the crowd. Some of the speakers referred to the "track soaping" episode in the early days of Memphis which caused the railroad company to accede to the request to give Memphis a station. When the band was asked to play following the speeches, a young miss of school age wondered "why don't they play 'I'm Forever Blowing Bubbles,' they have plenty of soap."

One of the most interesting entertainments given in Memphis lately was that of Mrs. O. N. Hamilton's kindergarteners who put on a program on the stage at the high school auditorium Monday night. In a beautifully decorated garden setting, the little Americans put on a real show—the kind that people like to see. Some of the children were hardly old enough to talk; but they went through their parts like seasoned players. People like to watch children play. They act natural and are natural. No put-on there.

There is one person in Memphis who does a lot of performing in public who hardly ever gets credit, and that is none other than Mary Helen Lindsey. No musical program is complete without her splendid playing on the piano as accompanist. She is placed in the background at the keyboard, but let the piano stop and the program would be a flop. Mary Helen is also the Rotary Club's pianist, and a more faithful person doesn't live. Besides taking a lot of time out to assist in various programs, she gets in some good school work as evidenced by the fact that she was chosen as one of the High School Who's Who this year.

By the way, The Democrat's staff poet is on the job again. We refer to none other than I. G. Thomas. Read his poem, "My Mother," on page 1 of this issue. This poem has been printed on cards which have been placed on sale at The Democrat office and at Bill Smith's Friendly Barber

Cyclone Eleven—

again swept around end for a 20 yard gain, returning the ball to the 9 yard line, and Hall smashed through the line for the score. Sanders' kick for the extra point was good.

Big Ted George, Joe Crump, and L. A. Lester were outstanding in the Cyclone backfield, and Isadore Hardin turned in a good defensive job in the line.

The Cyclone squad employed the flashy Notre Dame system, while the Exes used the short-punt and double-wing back formations.

The line-ups were: Cyclone—John Clark, le; Lois Kerr, lt; Isadore Hardin, lg; B. G. Morris, c; James Fultz, rg; L. E. Jenkins, rt; Bobby Robertson, re; Orville Jones, qb; Joe Crump, rh; Ted George, lh; and L. A. Lester, fb. Substitutions included Floyd Melton, Boyce Bruce, L. F. Jones, J. C. McClure, J. W. Morrison, and Earl Foster.

Exes—Rice, le; Carmichael, lt; C. Dodson, lg; Kesterson, c; Dewlen, rg; Estes, rt; Moore, re; Lindsey, lh; Robertson, rh; Pounders, qb; and Hall, fb. Substitutes were Powell, Walker, Swift, Benton, Billington, Barber, Callahan, Hughes, Foster, and P. Dodson.

Shop. Get one and send to your mother. Thomas has been busily engaged in filling dates all over the Panhandle, reading his poems and entertaining schools, clubs, and public gatherings. Recently, I was in the studio of radio station KGNC and heard him first hand read some of the poems. After the broadcast was over, the program director of the station remarked, "Thomas is not a Keats or Browning, but his poems have something in them that gets hold of people." The director evidently believes it, for he has been giving a 15-minute broadcast of the poems twice a week over the radio free of charge.

West Texas Today, the West Texas Chamber of Commerce official publication, finally awakened to the fact that Memphis is up and doing. A splendid writeup of the accomplishments of the chamber of commerce of Memphis appeared in the last issue. Heretofore, for many months, Memphis never got even a mention. Yet, two or three hundred dollars go each year to the organization from Memphis. Thanks for the belated notice.

J. A. Whaley, who has been confined to his home for several weeks, was able to ride to town Saturday. Said he was feeling fine, and would feel better when the cast is taken off his body. "Feels like I'm stuck in a barrel and can't get out," he said.

In the Amarillo News' Howdy column last Monday appeared the following: "Last fall farmers and ranchmen in Hall County complained coyotes were becoming pests. The county commissioners court offered a bounty for coyote pelts, hundreds were killed during the winter months. Now there are complaints of an increase in jackrabbits."

In this issue of The Democrat appears a picture of several Jersey animals, taken by The Democrat's staff photographer Ben Ezzell. For several weeks similar pictures will be run. This newspaper, realizing the need for more and better milk cows, is joining hands with the Hall County Jersey Association in sponsoring the movement for improved herds. With better cows, more milk will be produced, and with more milk produced a better chance will be had to secure some kind of milk product manufacturing plant in Memphis. With such a factory established here, a good market would always be available for milk and such products. This would mean added revenue to our people. The Democrat is for anything that will increase the income of the people of this territory.

Training and Home Economics by Plaska, and Visual Education by Friendship.

Students from Salisbury and Webster schools, neither of which have seventh grade classes, will take part on the program with a brief illustration of the theme, "What Our Schools Need Most." Salisbury students will discuss "book wagon," tennis courts, and music supervision. Webster students present the need for health fairs, county library, and rural bands.

Music will be provided by Mrs. Henry Foster. Mrs. Ann Whaley of Parnell will play the processional, "Melody in F" by Rubenstein; and Rev. Orion W. Carter, pastor of the First Methodist Church of Memphis, will deliver the invocation.

Plaska and Friendship choral clubs will sing, and Jackie and Enclair Gilbert from Friendship will entertain with a duet, "Prayer Bells of Heaven." The address by Mr. Beard will be followed by a "Doll Dance" presented by Marjorie Hemphill of the Newlin school. Diplomas will be presented by Miss Gilreath, and the recessional will be played by Mrs. Whaley.

Hall County seventh grade class officers are Doyle Weatherly of Parnell, president; Doyle Weatherly of Parnell, vice president; and Dorothy Scott of Friendship, secretary.

J. D. Webster Is Honor Student

J. D. Webster, of Memphis, who is majoring in abstracting at Texas Tech, has been making good grades, according to information received here. He brings down A's and B's right along. Besides making good grades, J. D. is on the golf team of the college which has won half of its matches against some of the best teams in West Texas. He has already made three trips with the team and visited on these trips such cities as Dallas, Fort Worth, Houston, Austin, San Antonio, Waxahachie and Abilene. The team goes this week-end to Arizona to play in the Border Conference.

Swift Lindley of Amarillo visited his parents, Mr. and Mrs. S. L. Lindley, last week-end. Open House at Hightower's Friday. Everybody come from 3 to 7 o'clock. See our beautiful display of blooming plants and cut flowers.

Prompt Help For A Listless Child

Scolding won't help a boy or girl who is listless, dull or cross from constipation. But, here's something that will! If sluggish bowels have your child headachy, bilious, upset, give him a little Syrup of Black-Draught tonight. Like the original famed BLACK-DRAUGHT, its principal ingredient is an intestinal tonic-laxative. Helps impart tone to the bowel muscles. Children like the taste of Syrup of Black-Draught. It is an all vegetable product. When simple directions are followed, its action is gentle, but prompt and complete. Comes in two sizes: 50c and 25c.

Mrs. Roy Webster and daughter Mary, and Mr. and Mrs. Houston Ferguson and two children left first of this week for Lompoc, Calif., where they will visit relatives for some four months. Mrs. Bill D. Hart returned to her home Saturday from a local hospital where she recently underwent an operation. She is reported to be recovering nicely.

Circle Meets In Dickey Home

Circle No. 1 of the Methodist Church met in the home of Mrs. W. C. Dickey Monday afternoon, May 8, at 3 o'clock for their annual Mother's Day program. Co-hostesses were Mesdames Gayle Greene, Herman Hill Jr., W. B. Hooser and Gordon West. The house was beautifully decorated with poppies, irises and roses.

An interesting program was opened by the roll call, "Tributes to Mother." Anita Meacham rendered a vocal solo, "Old Fashioned Mother." Mrs. Rabb Harrison gave a selected story and Mrs. H. B. Hill Jr. read some appropriate poems. "Those Songs My Mother Used to Sing" was given by Mrs. Mac Tarver. Mrs. Ed Hutcherson read "Mothers." The program was closed with a play, "Secrets of Mother Power." The cast included Mesdames R. C. Lemons, L. Stanford, Hannon, and the quartette included Mesdames C. H. Compton, Noel Woodley, Mac Tarver and H. E. Tarver. They were accompanied by Mrs. R. H. Williams Jr.

Cut flowers were given as favors and lovely refreshments were served to Mesdames C. C. Meacham, Norma M. Hunt, F. W. Maxwell, Orion W. Carter, Frank Foxhall, J. A. Shriver, James Norman, Hal Goodnight, W. L. Knapp, Harry Boswell, C. L. Hamrick, Leo Fields, L. C. Byars, Adron Buckhalter, A. B. Murphy, Horace DuVall, J. E. Roper, F. N. Foxhall, Ella Johnson, R. S. Greene, J. H. Norman, B. F. Parsons, L. Goffinet, Ed Hutcherson, C. R. Webster, Rabb Harrison, Mac Tarver, H. E. Tarver, Noel Woodley, C. H. Compton, R. H. Williams Jr., Rev. O. Carter and Anita Meacham.

J. W. Ewen and family of Estelline visited in the E. M. Ewen home here Tuesday. Mr. and Mrs. Sam J. Hamilton and E. M. Ewen visited Mr. Hamilton's brother, J. C. Hamilton and family, in Odessa Saturday and Sunday. They returned by way of San Angelo where they visited their daughter and granddaughter, Mrs. Bomar Horton and husband.

Southern Women Reply to Query

Wherever they go, the "Touring Reporters" find eager answers to their question, "Were you helped by CARDUI?" Of 1297 users queried among those of 12 states, 1206 stated CARDUI benefited them. That is 93 out of every 100! Users everywhere are glad to tell how CARDUI has made them want and enjoy food; how, with its help, they gained strength, energy, were thus relieved of the symptoms of "functional dysmenorrhea" due to malnutrition. Many also say that, when symptoms indicate the need, CARDUI in larger doses helps "at the time" to soothe pain.

TO MY FRIENDS AND CUSTOMERS THROUGHOUT THE MEMPHIS TRADE TERRITORY:

Ordinarily you would expect a Food Store to advertise its prices in the columns of a newspaper but this week we are going to divert from the usual procedure and voice an expression of appreciation to our friends and customers for their loyalty, friendship and patronage since coming to this community.

We have been favorably received by both the citizens, residents and business men of Memphis and we deeply appreciate their co-operation which has been a dominant factor in the success of our business enterprise. We are deeply grateful to them as we are to the citizens of Lakeview, Hedley, Estelline, Carey, Parnell, Halver and the other towns near Memphis. It is through such co-operation and fellowship that we are today operating a successful business here.

Your response has been heartening, and we are happy to serve you. We deeply appreciate you and your trade and add to this voice of thanks our hope of its continuance throughout the coming weeks and months and years.

A TRIBUTE TO MOTHER

SUNDAY IS MOTHER'S DAY. All over America, busy men will pause to pay tribute to the women who gave them life and prepared them to live it. It is one day in all the year when every man worthy of the name will remember his mother and try, each in his own way, to express to her something of the love and reverence which he must feel.

Many and varied will be the tributes paid, the expressions of respect and gratitude and reverence, and the gifts lavished upon these courageous women who have themselves faced death that they might give life.

There is no man who does not feel a greater love and admiration for the woman who is his mother than he has words to express. Yet there is one gift which every man has the power to bestow, the greatest tribute which he can pay, and that is to so build his life that his mother, whoever she may be, may have that assurance of success and that pride in accomplishment which is the essence of true happiness.

No greater happiness can come to any mother than to be able to face the world and say with proud certainty, "This is my own son . . . in whom I am well pleased."

THE VANISHING "FARM PROBLEM"

THE VAST, SHADOWY question mark which has clouded our economic horizon in the form of the much-discussed "farm problem" is gradually taking a definite shape and form, and beyond the mist of confusion and controversy which has obscured our vision a new hope is becoming increasingly apparent.

Out of the muddled confusion of trial and error methods, a new plan of farm development is taking shape. Crops and planting are being planned according to tried and tested scientific procedure, there is a purposeful and confident air about agricultural activities, and each farmer is working out a practical basis on which his farm may be made to produce the greatest revenue with the greatest efficiency.

The period of reckless planting, disregarding all principles of conservation of resources, efficiency of cooperation, and economy of production, has passed, and in its place has come a new philosophy of living which promises to build a great agricultural empire on a sound and practical basis.

Evidence of the new trend is everywhere . . . in the formation of planning boards which make use of both practical knowledge and scientific achievement; diversification of crops to make each farm self sustaining to a greater and more economical degree; and a wider basis of production which in this section is turning attention upon dairying and cattle raising, feeding and feed production, with less emphasis on mass production of cotton and more on improvement of quality and staple.

The most encouraging factor in the entire movement is the fact that the initiative is being taken by the farmers themselves. The inspiration is coming from within, and careful and co-operative encouragement on the part of state and federal governments, rather than dictatorial direction, is fostering the ideal of an independent and progressive farm plan.

FLOWERS TO THE DEMOCRAT

AN EDITORIAL RECENTLY published in The Democrat under the title, "Agricultural Awakening," commenting on the progressive spirit of Hall County farmers, has attracted favorable notice from the Agricultural Extension department at College Station.

W. E. Morgan, extension economist in agricultural planning, in a letter to County Agent W. B. Hooser, made the following comment:

"Director Williamson has sent me a copy of a recent editorial which appeared in the Memphis Democrat dealing with land use planning work. . . . The person who wrote this editorial certainly has a good grasp on the scope and purpose of land use planning work. I am presuming that you are responsible for getting the information over to him, and I want to congratulate you on the fine way it was handled. . . . Incidentally, I am passing on to the Washington office a copy of the editorial."

The compliments are appreciated, but the credit should be passed on to the Hall County farm leaders who are making a shining example with their progressive program of farm development . . . a program to which The Democrat is lending whole-hearted support.

Crop Insurance Program Being Improved to Check '39 Obstacles

BY SPECIAL CORRESPONDENT

WASHINGTON.—Because of the AAA wheat crop insurance program, many wheat farmers who have lost their 1939 crops will nevertheless have as much as 75 per cent of their average crop to sell this year.

Every year some accident such as drouth, insect invasion, hail, flood, or fire makes many wheat farmers lose their chief source of income. Department of Agriculture studies indicate that something like 300 million bushels is subtracted from the annual wheat harvest by such misfortunes.

There were tremendous crop losses in 1934 and 1936. Subsequently, Congress authorized the crop insurance program, which was initiated in the spring of 1938.

Under this plan, a wheat grower may insure either 50 or 75 per cent of his average yield, which is measured on the basis of what he produced on his farm and what was produced in his county for the period from 1926-35.

To insure, the grower pays a premium, based on the actual less experience of the farm and the county for the base period. The insured coverage is calculated in bushels of wheat, the premium is stated in terms of wheat, and the insurance reserve, accumulated from premiums, is carried by the Federal Crop Insurance Corporation in actual wheat in storage.

Although the plan has been

considered an experiment, more than 160,000 farmers in 30 states have taken out policies on their 1939 crop, and have paid in more than five million bushels in premiums.

In preparing the 1940 insurance program, some improvements are contemplated as to administration, but AAA officials are convinced that the principle behind the plan is sound.

The base period is being extended to bring in the yields and losses of 1936-38. Instead of determining yields and premium rates after farmers have applied for insurance, work is now under way which will result in the establishment of insurable yield and premium rates for every wheat farm in the principal wheat counties.

THE greatest obstacle met in the 1939 program was the lack of wheat, cash, or credit, so that many growers could not pay their premiums. This was particularly true in the parts of the wheat belt which have not recovered from the effects of past crop failures.

The new arrangement, under which growers may pay premiums with advances against AAA payments to be earned in the future is expected to help considerably more farmers to protect their 1940 crops.

To date insurance has been collected by growers in Texas, Kansas, California, Ohio, Nebraska, Iowa, and Oklahoma.

The Safe Diet for Good Health and Vitality

By RUTH J. COOPER, Consulting Home Economist
 Breeder-Feeder Association

Good health depends upon proper nutrition. Proper nutrition depends first, upon the availability of the food supply. This takes us right back to the Breeder-Feeder Movement, or balanced farming program, which is the basis for Southwestern economic independence. Secondly, proper nutrition depends upon the proper use of these food products. Whether you are a producer or consumer, both phases of the problem are of vital importance. Good health and vitality are the direct results of proper nutrition.

But, what is proper nutrition?

Briefly the needs of the body are: (1) Calories for heat and energy, (2) Protein to build and repair the body tissue, (3) Minerals to regulate body processes, to build bone, blood, etc., (4) Vitamins to promote growth and protect health, and (5) Bulk to aid in elimination of body waste. Proper nutrition means the selection of a diet which supplies all of the daily needs of the body with a small reserve supply.

The Texas Extension Service working with other scientific specialists, set up a Texas Food Standard as a guide to proper nutrition for rural people. This standard has been broadened for use of urban families and is being suggested as the "Safe Diet" by nutritionists, dietitians, home economists and teaching groups throughout the Southwest. The following standard is a safe guide in evaluating the daily menu, and attaining proper nutrition through an adequate, balanced diet.

The safe diet:

Daily

Registered Jersey Herds In County Are Increasing Rapidly

JERSEYS ON PARADE—Here are a few of the fine registered Jersey cattle that are making Hall County dairy conscious. In the upper left John Ewen of Estelline poses beside one of his prize milk cows. Top center is the fine registered Jersey bull belonging to T. T. Lord of Memphis; and top right is one of several Jerseys being milked on the C. L. Sloan farm near Estelline. Bottom left is a fine Jersey milk cow, one of several belonging to C. H. Williams whose herd is producing exceptionally high test cream. Bottom center is a group of five registered Jersey calves owned by Carl Periman of Memphis; and bottom right, Cleron McMurry of Memphis poses with two of his registered Jersey milk cows.

Nation's Dairy Cows Set Record For Production

High Mark Reached On April 1 Is No April Fool Joke This Year

The dairy cows of the nation set a new record on April 1, when they produced more milk than on any other April 1 of which the U. S. Department of Agriculture has a record.

The cows produced more milk from every acre—a total of more milk, more milk per cow, and also more milk per person.

At just about this time the Texas A. and M. College Extension Service was issuing a little leaflet—C-142, "Starring Milk"—pointing out the need for more utilization of milk on the farm. More than 121,000 Texas farm families have no milk cows.

Milk, state the authors of the publication, is nature's most nearly perfect food, helps build strong bones, teeth and muscle, and is especially important to growing children and to mothers during pregnancy and nursing.

Dairy School Is Planned Here

C. V. Maddox, extension service expert from College Station, will put on a Dairy Manufacturing School in Memphis on June 10, County Agent W. B. Hooser announced this week.

Demonstrations will be given in making cottage cheese, judging cream, milk, and butter, and in judging and handling other dairy products. The school is being conducted here to answer an ever-growing demand for more knowledge and information about dairying in Hall County.

All farm women are invited to bring their dairy products to the school for classification, Hooser said. Exact location for the work will be announced at a later date.

Along the same line, another College Station Extension Service man will be in Turkey on June 9 to conduct a Swine Show. Committeemen in that community, who are in charge of arrangements are Mark Lane, Anderson Christian, and C. B. Meacham.

Senate Approves Farm Bill Raise

The Senate Appropriations Committee last Friday approved a \$358,000,000 increase in the agriculture department's appropriation bill to finance farm parity benefits and distribution of surplus commodities.

The bill now totals \$1,216,458,572, an increase of nearly four hundred million dollars over the House figure.

The budget had estimated for next year \$141,576,051. Appropriations for the 1938-39 fiscal year, totalled \$957,915,279.

SLEEPING SICKNESS

(Encephalomyelitis)

Don't permit your stock to die from this dreaded disease that has cost the farmers of Hall County thousands of dollars in the last few years. We have on hand the New, WESTERN TYPE SLEEPING SICKNESS VACCINE (Chick) by which you can prevent your stock from having this dread disease. For the best success this vaccine should be given about one month before fly and mosquito time for this country within the next month.

We recommend that you have your veterinary to vaccinate your stock but for those who wish to vaccinate their own animals, we have several syringes on hand to loan our customers for this purpose. We carry at all times a complete stock of Veterinary Serums and Vaccines and Stock Remedies.

Better Feeding--Better Returns

With the development of the dairying industry in Hall County, there has arisen the questions What is the best dairy feed?, which feed will give most production at lowest cost? and where is a constant, steady and unlimited supply of this feed?

All of these questions can be answered at one time: By-products of cotton seed at your local oil mill. One of the outstanding developments of the cotton industry is the use of cottonseed meal, hulls and cake as a feed for livestock.

These products, which are secured in the manufacture of cottonseed oil, rank at the top in value and importance among concentrates used in livestock feeding in this country. The fact that other sections look to the South for their protein concentrates is a tribute to the feeding value of cottonseed meal and cake.

The feeding of cottonseed by-products as a dairy cattle feed in the vicinity in which the cotton is grown, brings about the greatest value from the entire crop since it is a locally produced feed, better and more productive than imported feedstuffs, and the entire crop is used to a greater advantage.

Diet for and Vitality

1 quart of milk, 1 serving lean meat, 1 serving rice or rice, 1 serving yellow vegetables, 1 serving other vegetables, 1 serving rus fruit or tomatoes, other fruit—dried, fresh, 1 serving products, bread and every meal, some three times per week and beans three times liver once a week, six to eight glasses.

This "safe diet" has a day and specifies a week. More meat can be added with more safety because the foods, meat offers in food elements, satisfactions, and in palatability.

In our urge or need to milk, we have skimmed on meat. Had this case, perhaps the result have been different. That the diets of the are dangerously inadequate only twenty-five per people are today enjoying supplying a small reserve over and above the Rural people can grow and need not lack for elements of a good diet.

Better dietary habits; health; better health; economic and social standing; route to security and independence lies in the producing and consuming diet on the farm as possible.

SLEEPING SICKNESS

(Encephalomyelitis)

Don't permit your stock to die from this dreaded disease that has cost the farmers of Hall County thousands of dollars in the last few years. We have on hand the New, WESTERN TYPE SLEEPING SICKNESS VACCINE (Chick) by which you can prevent your stock from having this dread disease. For the best success this vaccine should be given about one month before fly and mosquito time for this country within the next month.

We recommend that you have your veterinary to vaccinate your stock but for those who wish to vaccinate their own animals, we have several syringes on hand to loan our customers for this purpose. We carry at all times a complete stock of Veterinary Serums and Vaccines and Stock Remedies.

Landowners Called For Meeting Here Monday Afternoon

Soil Conservation Set-up Ordered by Legislature Is To Be Started in County

County Commissioner Butler Morrison has called a meeting of all landowners in precinct No. 1, and other persons interested in Soil Conservation work, at the county courtroom at 1 o'clock Monday afternoon.

The meeting is being called, Morrison said, for the purpose of electing a member to the County Soil Conservation Advisory Committee. Similar meetings are being called in each of the four Hall County precincts.

A majority of the landowners in the precinct must be present, he stated, to elect the committee member. The member from this precinct will be elected for a period ending on the first Tuesday in January, 1940.

The new set-up has been authorized by the State Legislature for the purpose of working out farm planning in Texas in regard to soil conservation. The county committeemen will elect one of their number to serve as delegate to a district conservation convention, which will be held at an early date to be set by the governor, and each district will name

from its delegates a member of the State Soil Conservation Board.

Committee members serve without pay except for the delegate to the district convention who receives four dollars per day and traveling expenses, and the members of the state board, who are required to take the oath of office and become officially a state agency.

County Commissioner Morrison will serve as chairman of the meeting here Monday afternoon. Members elected to the advisory board must be a landowner in the precincts from which they are elected, and must be actively engaged in the business of farming or animal husbandry.

Symphony of Color By Madrigal Club Draws Large Crowd

High School Choral Club Presents Ambitious and Difficult Program Here

A colorful program of music and dancing, featuring a well-chosen selection of classical and popular numbers by a very capable group of entertainers against the melodious background of the Memphis High School Madrigal Club, drew an enthusiastic reception from an audience of more than 500 at the High School auditorium last Friday evening.

The program, entitled "Symphony in Color," was presented by the Madrigal Club under the direction of Miss Mary Helen Hardin of the high school music faculty.

The first part of the program presented the high school chorus in a concert of popular selections which included "Three Little Girls from School" from Gilbert and Sullivan, "My Lover is a Fisherman," "Macushla," "In Gay Seville," and "Can I Forget you."

The second part, "Symphony of Color," presented the chorus in colorful costumes with harmonizing lighting effects, and featured dancing by Harry Brookshire. Included in the program were "Deep Purple," "The Lady in Red," "A Beautiful Lady in Blue," "In the Still of the Night," "Night and Day," and "Deep Purple" in the order named.

The first two numbers were sung by the boys sextette, Cullen Chapman, Evan Roberts, Leroy Robertson, L. F. Jones, Joe Crump, and John Clark, and featured dancing by Mary Helen Hardin and Harry Brookshire. Genevieve Prater and Cullen Chapman sang "A Beautiful Lady in Blue" as a duet, and an octette, Anita Maxwell, Dorothy Gardner, Peggy George Walker and Elizabeth Maxwell, presented "Night and Day" with gowns in black and white lending an appropriate background to the harmony.

The finale, "Sweethearts," featured three duets by Mary Helen Hardin and Eugene Smith, "The Way You Look Tonight," "The Night is Young," and "Will You Remember," assisted by the chorus. Jane Hardin and Harry Brookshire appeared in a dance number to the music of "Manhattan Serenade," and the program was closed with "You're in Love" from Friml-Riegger by the chorus.

Miss Mary Helen Lindsey played the piano accompaniment throughout the program. A Japanese Tea Garden was arranged by Miss Rachel Deahl, and tea, coffee, and iced drinks were served.

Hail Wipes Out Wheat Sunday in Kirkland Area

Storm Sweeps South of Childress; 6,000 Acres Of Wheat Are Lost

A terrific hail storm, accompanied by a high wind and torrential rains, swept across a strip of territory south of Kirkland Sunday afternoon, beating between 5,000 and 6,000 acres of wheat into the ground and damaging roofs and windows of scores of houses and barns.

Scattered light hail and rains were reported in other sections of this area. Memphis received light showers Sunday afternoon and Monday, moisture totaling approximately a quarter of an inch here, according to J. J. McMickin, local weather observer.

The area hit by hail Sunday afternoon was about four miles wide and at least ten miles long, according to reports from Childress. The damaged strip started southwest of Kirkland and continued into Hardeman County. Wheat in the affected area was a complete loss, though most of the crop was insured.

Rain ranging from half an inch to as much as three inches fell in the Kirkland area. A 40-mile-an-hour wind and sandstorm preceded the hail. Scattered hail was reported near Estelline, but there was little damage in that vicinity.

Mother's Day May 14

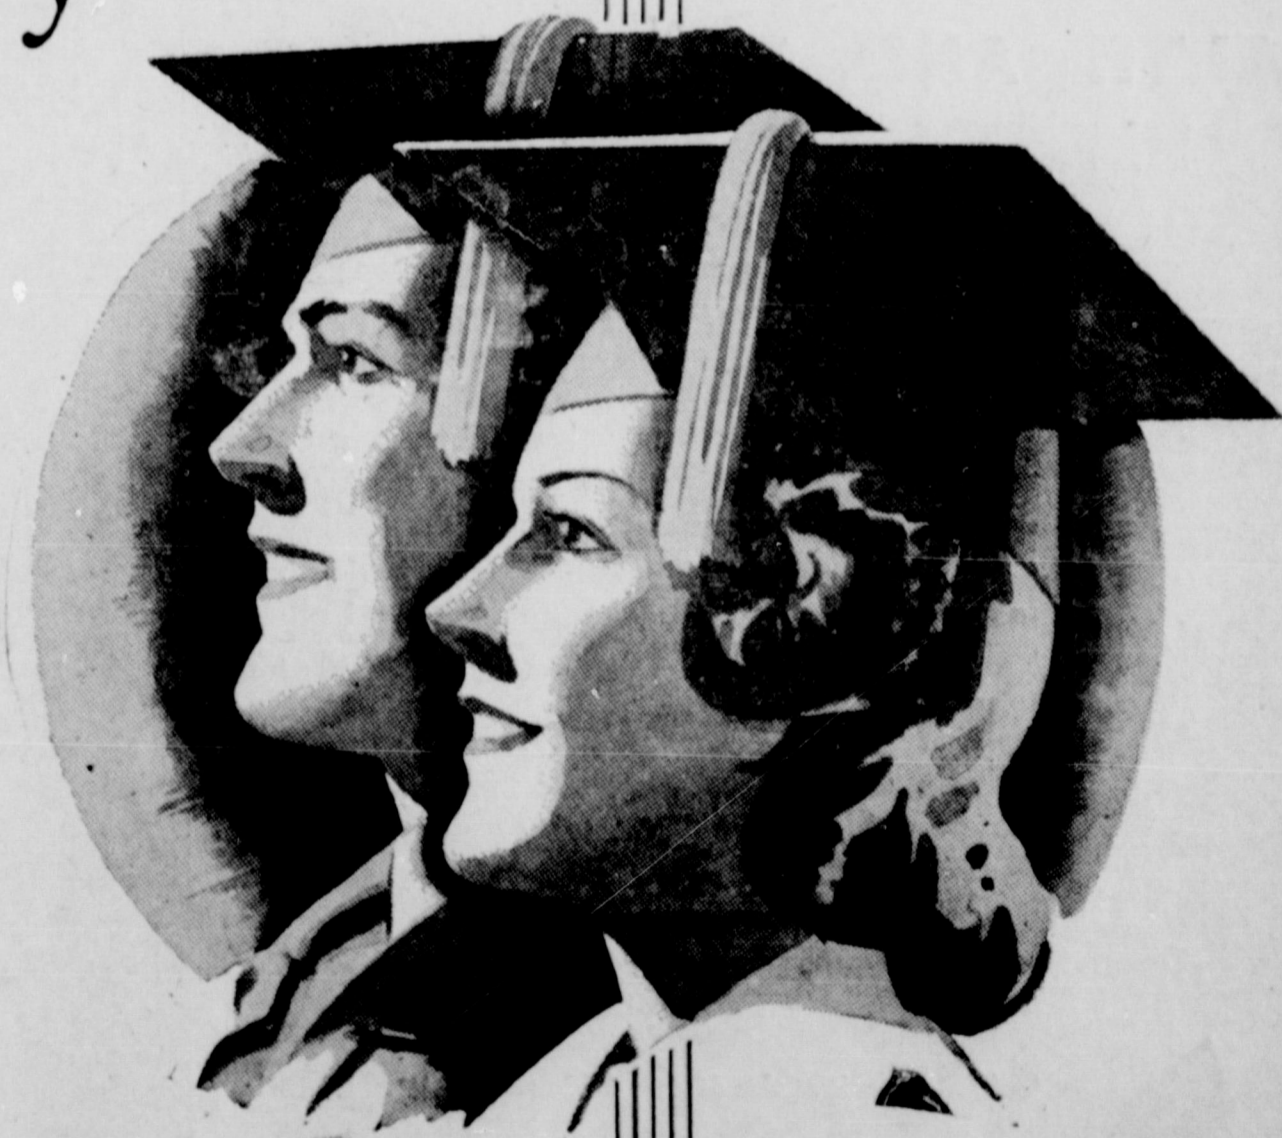

No greater day can be set aside throughout the whole year than one to honor Mother. Her sacrifices through the years, her untiring efforts and her struggles that her sons and daughters might grow into useful citizens, that their successes might make the world better, and her undying devotion and love in both success and failure, joy and sorrow can never be repaid. But a day to do her honor and to let her know of your love for her is most fitting and proper. In these pages, Memphis merchants set out suggested gifts for Mother on Mother's Day. Remember Mother next Sunday with a visit and a token of your love and appreciation.

Graduation Day

During the next fortnight the High Schools of Hall County will graduate the young men and young women who have completed their courses of study. The Democrat adds its voice of congratulation to those of the Memphis merchants found within the pages. And with this congratulation is added the hope that every graduate of the high schools of this vicinity will attain their goals.

Local Boy Gets High Praise From Amarillo Paper

Henry Newman, Pharmacist in Amarillo, Is Popular Young Business Man

Henry B. Newman, son of Mr. and Mrs. Henry Newman of Memphis has been employed for the past two years by the Jack Phillips Drug Company in Amarillo, and received a nice boost from the Potter County News recently as one of the city's rising young business men.

"Henry Newman is the genial registered pharmacist at the Phillips Drug," the News stated. "A keen, on-his-toes type of young man that makes a friend and customer out of his acquaintances, he originally came from Memphis. He was educated for a pharmaceutical career at Denver, and keeps abreast of the times by close attention to work and constant study of new trade journals.

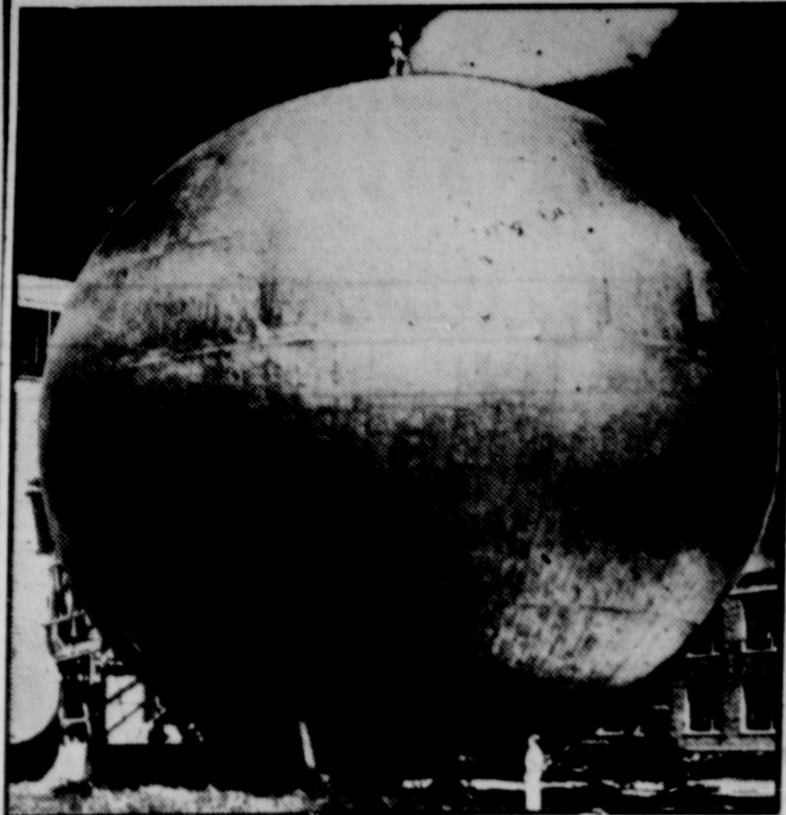

"His hobby is photography, though he doesn't ride it too hard, being too much interested in concocting nice doses of how-to-get-well prescriptions. Accuracy and care should be his middle name but he prefers to be called plain Henry. He dealt for ten years in the Philatelic world, meaning in plain old American that he collected stamps."

Mr. and Mrs. Sol Bayouth of Wellington visited in the home of Mr. and Mrs. Frank Bayouth here Friday evening.

Mr. and Mrs. W. C. Chapman and son Cullen and Evan Roberts spent Sunday as guests of Mr. and Mrs. J. P. Watson in Lubbock.

John Shankle returned to his home in San Antonio last week after a visit here with his grandparents, Mr. and Mrs. J. D. Shankle.

Blow Ball to Test Aircraft

This giant ball is not the perisphere at the New York Fair, but the new free-flight wind tunnel at Langley Field, Va., viewed by Col. Charles A. Lindbergh and other aviation authorities. Built by the National Advisory Committee for Aeronautics, the sphere holds pressures of two or more atmospheres, enabling engineers to study handling of large planes with small models.

Water Carnival, Celebration to Open Huge Buffalo Dam and Lake May 28

The Texas Panhandle is making plans for another big celebration when its largest body of water—Buffalo Lake, a water conservation project near Canyon—is officially opened for recreation purposes on May 28.

Governors of several states, high government officials from Washington possibly including Vice President John N. Garner, movie stars from Hollywood, and other celebrities will be present for the two-day celebration.

The formal opening will be in charge of the Panhandle Water Conservation Authority, sponsor of the Buffalo Lake and six other similar projects in the High Plains, and the Soil Conservation Service, in charge of maintenance and administration of the project during the coming season. The entertainment program in connection with the official dedication is being arranged by the Plains Boat Club.

On Saturday, May 27, the day preceding the formal opening of the lake for recreational activities, there will be a gigantic parade in Amarillo at 11 a. m. A banquet honoring visiting governors, celebrities, and officials of the federal government and Panhandle Water Authority will be held at the Amarillo Hotel at 12:30 p. m. Golfing at the country club and sight-seeing are scheduled for the afternoon. Climaxing the pre-dedication activities will be the Governors' Ball in the recreational building at the lake at 8 p. m. This will be an invitation affair for the visiting governors and their staffs, government representatives, Panhandle Water Authority officials and visiting celebrities.

Following the official dedication on Sunday, May 28, the Plains Boat Club will hold a regatta in which more than a hundred speed boat drivers are expected to enter. Visiting governors and movie stars will take part in the dedication.

Recreational facilities of the project and lake will be opened to the public immediately after the boat races. Concessions for the operation of cabins, the floating bathhouse, boating privileges, bathhouse, horseback riding, recreational building and other facilities will be let in the near future. H. H. Finnell, regional conservator of the Soil Conservation Service, said.

Officially known as the Tierra Blanca Water Conservation Project, Buffalo Lake will be the largest body of water in the Texas Panhandle when filled. The lake, which is only two miles off U. S. Highway 60 at Umbarger, will cover 1,850 surface acres when filled, and will have 18,200 acre

feet of water extending 6.3 miles. The dam is 835 feet long and 53 feet high at the deepest part of the creek bed. The government now is purchasing approximately 7,600 acres around the lake to be developed in the project.

In addition to Buffalo Lake, the Panhandle Water Conservation Authority, an organization created by Texas law to serve as a state agency, is sponsoring six similar water conservation projects in the Texas Panhandle and eastern New Mexico. Other projects in the Panhandle are located on Boggy Creek near Canadian, McClellan Creek near Pampa, Rita Blanca Creek near Dalhart, Tule Creek near Tulia, Wolf Creek near Perryton, and on Running Water draw near Clovis.

AUTOMATIC Gas HOT WATER SERVICE

Lady Moderne says:

"HEALTH AND BEAUTY Beg FOR PLENTY OF HOT WATER"

● "Every woman knows how vital it is to have plenty of hot water always ready in the house—that's just a simple truth.

● "It is equally true that women who try to get along with an old-fashioned water heater or a tea kettle are overlooking another great truth: that the drudgery of old-fashioned water heating methods takes its deadly toll in health and beauty. Many a battered old tea kettle has stolen Youth from the face of the woman who has had to carry it around!

● "If you would keep happy and strong, as lovely and attractive as you would like to be—and what woman wouldn't—take the first step now! Talk to your husband about installing Automatic Gas Water Heating—it costs so little to buy and so much less to operate, with Low-Cost, Dependable Natural Gas!

● "Mention it at the dinner table tonight!"

Pleasant Valley School Pupils Visit Memphis

Nineteen Children Make Tour of City Tuesday After Medical Exams

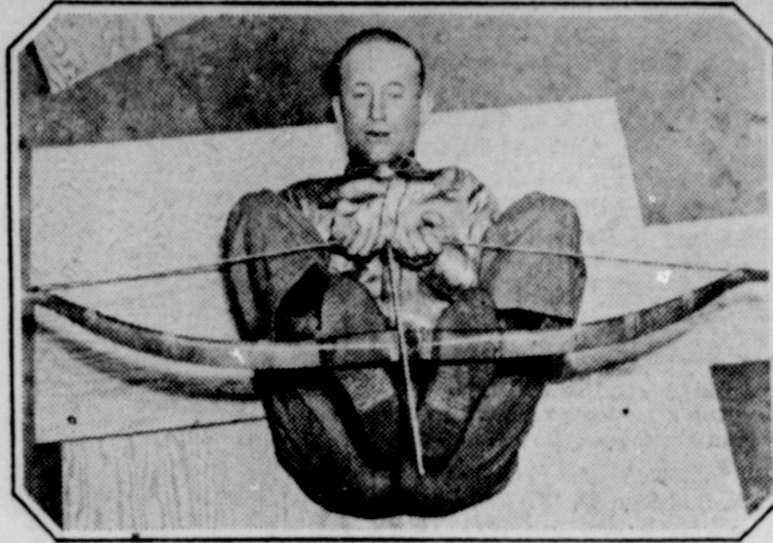

Nineteen pupils from the Pleasant Valley schools were visitors in Memphis Tuesday, making a tour of inspection of local business houses after receiving their physical examinations here Tuesday morning.

The youngsters were accompanied by their teacher, Miss Ethel Hillhouse, and four room-mothers, Mrs. Ed Monzingo, Mrs. Doyle Hall, Mrs. Arnold Hall, and Mrs. Allen Monzingo. Mrs. T. E. Lenoir, one of the sponsors, was not present.

The children visited a local bakery and drugstore, the West Texas Utilities Company plant, the Gate City Creamery, the Hall County courthouse, and The Memphis Democrat.

Making the tour were Eugene Lollis, Johnnie Boswell, Barbara Lowe, Virginia Payne, Roger Monzingo, Bill Polasek, Bobby Henson, Flora M. Hall, Bobbie M. Hall, Mary Jo Durham, Don Monzingo, Ellen Jeanette Lenoir, James Verden, Ralph Howard, Bettie Jo Hall, Nelda Mae Ragan, Houston Polasek, Wynona Grant, and Billie Barfield.

California Archer Wants to Bag Elephant With Bow

Ken Wilhelm . . . this is the way he sends an arrow a half mile.

BY IRVING DIX

HE can wing an arrow 903 yards—more than a half mile. At 30 feet he can shoot a cigarette out of a girl's mouth, a matchbox off her head, or knock small corks off her ears.

All that with a bow and arrow.

The sharpshooter is 35-year-old Ken Wilhelm of Barstow, Calif., whose uncanny handling of one of man's most primitive weapons makes him one of sportdom's truly amazing figures.

Wilhelm, a slight, sandy-haired 135-pounder, conducts a garage and filling station, and runs a dude ranch in the middle of the Mojave desert. That is, when he isn't off hunting with his bow.

DURING his lifetime he has bagged elk, deer, bear, mountain lions, coyote and lynx with his bow. But his one great ambition is to go to Africa and bring down an elephant with his bow. At first, the idea may sound far-fetched to the layman, but Wilhelm's sheer ability and self-confidence are very convincing.

"I'll use a foot bow with a

250-pound pull," he explains. "I'll be hidden somewhere—perhaps in a tree or a platform. The elephant will be stalked until he's only 60 feet or so away. Then I'll let him have it. And I don't care how big he is—that steel-tipped arrow will get him."

WILHELM, the first white child born in Mackey, Idaho, played with Blackfoot Indian boys during the early part of his life. That's where he became interested in the bow and arrow.

Until a year or so ago he used his bow only for hunting. Since then he has made movie shorts and appeared in vaudeville. It was in vaudeville that he developed his trick shots.

"In the hands of an expert," Wilhelm points out, "the bow is really more accurate than the muskets used in the Civil War."

You can believe his statement when you see him perform such feats as sending an arrow through a bracelet held in a girl's mouth.

The best William Tell could do was knock an apple off his son's head. Wilhelm thinks an apple is a pretty big target.

Mr. and Mrs. Morgan Dennis of Dimmitt visited relatives here over the week-end.

C. C. Meacham who underwent an operation in a local hospital last week, returned to his home Monday.

Mrs. J. C. Ross is spending this week in Amarillo with her daughter, Mrs. Benton King.

W. H. Goodnight Jr. returned Sunday from Tyler where he has been attending the Tyler Commercial College.

Fingerprinting for Safety Urged on Summer Tourists by State Police

Fingerprinting, as a safe and sure method of identification, is being urged upon summer vacationists by the State Department of Public Safety at this time, and a bulletin issued by the department this week advises Texans planning long trips this summer to start their travel by way of their local police station.

In Memphis, both deputy sheriff W. C. Anderson, fingerprint expert in the sheriff's department, and Chief of Police Ed McCreary are offering the service to local vacationists. No charge is made.

An identification card, valuable in case of accidents, illness, or other serious illness away from home, is given to the individual and duplicate records are sent to the state police headquarters at Austin and the Federal Bureau of Investigation in Washington.

Col. Homer Garrison Jr., state police director, is also urging universal fingerprinting of every person from one year of age and up. Fingerprinting must necessarily be voluntary, Garrison explained, but pointed out the value of the movement.

Most of the juvenile prints among the 26,000 non-criminal cards on file at state police headquarters are those of school age children. "Now we want to carry universal fingerprinting to an entirely new group . . . youngsters of pre-school age down to one year—and we're asking their parents to help us in this big job," the director said.

Col. Garrison cited a number of reasons for including young children in universal fingerprinting. "God forbid that we'll have a kidnaping case in Texas," he stated, "but if we should fingerprint would be the means of positively identifying the child." Prints are also valuable in identifying children, as well as adults, who are involved in automobile accidents, drownings, and public disasters. Many victims of the New London school explosion were identified from state police records.

As for summer tourists who desire to have fingerprint records made, "your card will be a sort of interstate passport showing who you are and where you're from—a mighty handy thing to have along with your driver's license," Garrison commented.

Lakeview Pioneer Is Remembered in His Indiana Home

William C. Wyatt Gets Write-up in Winslow, Indiana, Dispatch

William C. Wyatt of Lakeview, pioneer citizen of this section, is a well-known figure around any gathering of old settlers. The letter which is quoted below was published recently in the Winslow (Ind.) Dispatch. Mr. Wyatt's home country, and should be of interest to all who know him.

The letter was written to the editor of the Dispatch by Lawrence Ashby of Dalhart, Texas.

"I am writing this about what I consider a Grand Old Man," Ashby wrote. "William C. Wyatt of Lakeview, Texas, formerly of Petersburg, Ind., is here visiting his son, John Wyatt. He is 85 years old. He left Petersburg 63 years ago and has never been back to old Pike County. He was a member of the Petersburg Band for four years.

"He visits me almost every day while here and talks of his old Pike County friends. . . . He is a very interesting character, and is well preserved for an old man. I never met him until last year. He was in the crowd of boys when Lafayette Ashby was drowned in White River near Petersburg. He knows all my people that were in old Pike in the early days. He has a wonderful memory.

"I let him read The Dispatch and he surely likes it. He is leav-

erate speed and the little boy, two and a half years old, had a pop gun and he was popping it at things along the road, like kids will.

"The driver sort of played up to him, and pointed out things along the way for the boy to shoot at. 'Get that cow,' he'd say, or, 'There's a buffalo right behind that tree over there.'

"That's how the driver's attention was diverted for a second. The car swerved to the right and the driver pulled it back sharply to get onto the pavement again. Then it swung way to the left and into the ditch on the far side and hung on its nose.

"The little boy was thrown out into the ditch—and then the car toppled over on top of him. 'Accident: fatal.'

When a patrolman takes out after a speeding car, he races more than a salesman in a hurry, or a college student trying to keep his date on time, or merely a speed demon. It is death that the patrolman races, and Death won that race 1,610 times in Texas last year.

The children, any of these men will tell you, are the worst. On the dead young face there is often a lingering expression in incredulity, a questioning look that seeks understanding: "Why did you hurt me so?" Something still vital, as all youth is vital, remains long after life is gone, as though each young victim still seeks his right to the long full years nature promised him.

Last year 58 children under four years were that look, and 117 between the ages of 5 and 14. And the greatest number was 286 young people between 15 and 24.

Hall County Pioneer Woman Takes First Plane Flight

Mrs. F. K. Smith, pioneer Hall County settler, took her first airplane ride recently—and thereby hangs a tale.

Hall County's pioneers were a hardy race, kept their feet on the ground and worked hard to build this section into the agricultural empire which it is today. And with true pioneer spirit, they were never afraid to explore new fields. They still aren't!

Mrs. Smith is 75 years of age. The airplane flight, her first experience with the "flying machines," was arranged in celebration of her 75th birthday anniversary on March 26—and Mrs. Smith is now a confirmed aviation enthusiast.

The flight was made from Visalia airport at Lindsay, Calif. where Mrs. Smith is visiting in the home of her daughter, Mrs. Frank Higley. Adding color to the occasion is the fact that the pilot was Giles Callahan, flying instructor at Visalia, and a former stunt flier for the movies. Callahan was one of the pilot's "Hell's Angels"—one of the most famous of Hollywood's flying pictures.

Mr. and Mrs. Smith came to Hall County in 1905, living at Gammage, then near Memphis and finally in Harsell Chapel, where Mr. Smith bought a farm in 1918. Both made several trips to California to visit their daughter, Mrs. Higley (formerly Miss Juanita Smith) and son, Isaac Smith, at Lindsay. Mr. Smith died on July 25, 1937, and since that time Mrs. Smith has been living with her children in Southern California.

A surprise birthday party followed the plane flight, and at its conclusion, the 75-year-old woman informed her guests that "I wouldn't take a million dollars for my flight with Giles today."—adding "I wasn't a bit scared." And, knowing the pioneer spirit, it's a good bet that she wasn't.

Meadows Looks for 15-Foot Pole Vault Within a Year

BY IRVING DIX
ROUNDING up the loose ends: Earle Meadows, former Southern California star and Olympic champion predicts the world pole vault record will reach 15 feet within a year . . . says that all that's needed is a hot day, good runway, and plenty of competition . . . and lists among the latter George Varoff, Connie Warmerdam, Loring Day—and himself. Earle holds the current world mark of 14 feet 11 inches.

Leonard Dodson, Springfield, Mo., pro, helped pay his way around the winter golf circuit by making and winning freak bets . . . such as wagering he could break 77 while making every shot on one leg. . . University of Miami spring footballers found a unique way to develop timing on forward passes. . . The tossers stood knee-deep in water and heaved to receivers who leaped from 12-foot diving boards and tried to make connections with the ball in mid-air.

BY the time he graduates from Minnesota this June, Johnny Kundla, Gopher basketball and baseball star, estimates he will have traveled 28,000 miles with athletic teams. . . Guy Peterson, 17-year-old Danish lad from Mt. Lebanon, Pa., is being hailed as another Johnny Woodruff. . . did the 440 in 50-flat when only 16 years old.

Pie Traynor, manager of the Pirates, goes on record as stating the spring training season is too long. . . says it has a bad effect on little fellows who should conserve as much strength as possible for the long championship season. . . I GIVE YOU TEXAS

By BOYCE HOUSE

A page from the diary of a pilgrim to Mexico:
The car zig-zags around turns through the mountains, one right after the other, but at last straightens out briefly and, in the valley below and on the side of the mountain beyond, is Taxco, an artist's dream. There still remains the drive into the town, up the steepest streets and around the sharpest corners before the panting automobile halts in the shade of the little park.

Everywhere one looks is a picture—ancient buildings along the narrow thoroughfares that are paved with cobblestones, which in some places are arranged in patterns; an old staircase; water gushing into the pool of the ancient fountain—all touched by mellow shadows and ineffable quietness; and in the foreground, or to the side, or as a background or perhaps only its rose-hued towers of exquisitely-chiseled stone and its dome of bright, vari-colored tile white buildings with their red roofs, stands Taxco's church, one of the most beautiful on the American continent.

The edifice was built by Borda, a Frenchman who made a vast fortune from the mines here. "God gives to Borda and Borda, to God," he said, and spent 1,500,000 pesos in erecting the temple, which took ten years, being completed in 1758. In addition, he gave ceremonial vessels worth more millions of pesos. The interior of the church is gorgeous with 12 altars of elaborately carved wood, covered with gold.

From Taxco went a large part of the gold and silver that were carried to Spain to make that nation the most powerful in the world. Not all the heavy Spanish galleons reached port, for Sir Francis Drake and other bold privateers were playing the ocean.

"How many a ballad of sea-fights and how many a tale of buried treasure had its inception in Taxco!" one muses in Bertha's Place, partaking of one of the cocktails that the senora herself prepares—a beverage that has been praised by world-famous artists and writers.

The mines today turn out only a fraction of their former wealth but the silver tradition is carried on in a score of shops by artists at work fashioning bracelets, rings,

urns and dishes in beautiful shapes and patterns.
Along the street come four men bearing a platform on which is a black casket; it is small, that of a child. Death invades even peaceful, lovely Taxco.

Luncheon in the patio of Hotel Los Arcos where vines clamber over the walls and little blossoms sway in time to the dreamy music, a climb up the venerable stone steps for a view from the roof, one more visit to Senora Bertha's—and then a reluctant farewell to Taxco.

In the recent flurry of orders issued by the State Railroad Commission majority, commentators seem to have missed the big point. Allowables of some fields were reduced; there were protests, and the allowables were restored. "Looks like they back up," some folks remarked.

But, in all the shifting, the order lifting the Saturday shutdowns has remained. It had been claimed that the industry couldn't stand the lifting of the shutdown, but there was so much excitement over reduced allowables that the ending of the shutdown practically escaped attention—and that highly important act stands. Inci-

dently, the industry seems to be surviving quite nicely, thank you.
The whole thing reminds one of a football play in which all the players but one go in one direction but actually the ball has been handed to this player and he ambles along unnoticed and breaks into the open field. Borrowing gridiron phraseology, Chairman Lon Smith spun, gave the pigskin to Jerry Sadler and that sensational halfback got loose for a touchdown.

OUR CONGRATULATIONS TO THE MEMPHIS, LAKEVIEW, ESTELLINE AND TURKEY HIGH SCHOOL SENIORS
Those of us to whom today is yesterday's tomorrow, we are happy and proud to extend to you congratulations on the attainment you have made at your graduation from high school. The tomorrow of your life lies before you and it is our sincere wish that each of you will face today with eyes only for the tomorrows, with the determination to go forward rather than to stand still, to develop yourselves and the community in which you call home, to improve the surroundings and to perpetuate the creed which was given you by your high school education.

And when the tomorrows of your lives become its todays, may you find the world a better place in which to live because of your efforts.

Oil Boom On in Midwest, But There's No Oil Yet!

ROCKED by an oil boom, excited to high pitch by a rush of oil men and lease buyers, is a section of the central midwest known as the Forest City Basin.

The boom has everything but the oil. Dollars are being poured into the area, geologists are at work in the potential fields, resident farmers are dreaming of future wealth.

But there isn't one producing oil well in the territory. As a matter of fact, there is not even a definite proof of any oil!

The Forest City Basin is the name which has been set up to describe the region, comprised of a southwest section of Iowa, a northwest Missouri area, a northeast section of Kansas, and a southeast corner of Nebraska.

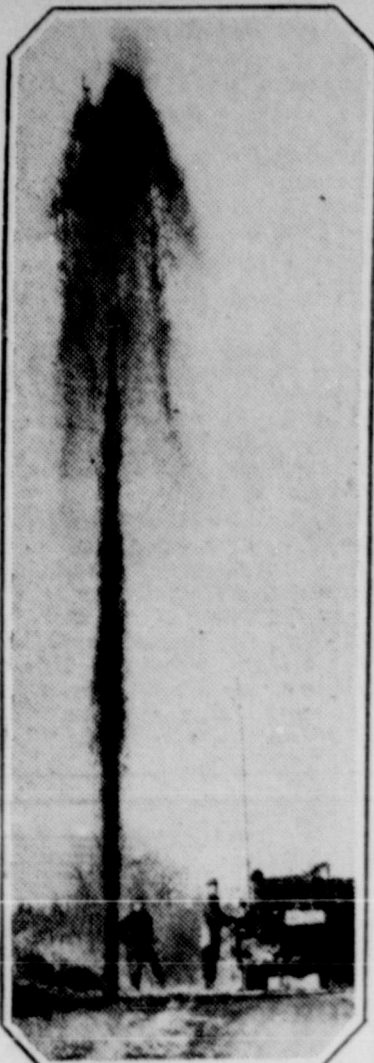

Kansas' geological surveys have been calling attention to favorable oil geology of the basin for several years, comparing it to productive territory in Illinois. The spark which ignited the boom was provided by Marvin Lee, geologist of Wichita, Kan., who worked in WPA gravel quarries to study underlying structures.

It was established that most of the strata which produce oil in the central Kansas fields were present in the basin. Soon lease-holders slipped into Missouri, making a farm-to-farm canvass and obtaining oil leases on countless acres for a dollar per farm.

Within three months, agents of major oil companies and independent operators had started a landslide by leasing more than 3,000,000 acres in the four states. In Atchison county, Kan., one of the "hot spots," more than 1300 leases, covering 80 per cent of the farm land in the county, have been filed.

Wildcat tests and scientific surveys are being made in the basin now. Some predict that the basin will provide America with its newest and most productive petroleum fields. Others point out that there is still no producing well, think the boom may prove a dud.

But surface crews, core drillers, seismograph trucks are traveling the countryside. Leaseholders

Spouts like an oil gusher—but it isn't. Workmen in Forest City Basin have set off test shot of dynamite in potential oil field.

are ordering abstracts and clearing land titles preparatory to drilling and development.

Three wells—in Shawnee county, Kan.; in Leavenworth county, Kan.; near Mound City, Mo.—have been started, but are still a long way from completion.

The boom will continue until the wells are deep enough to show results. Then, of course, it may fizzle. Or—it may grow still louder, and those who have been first on the spot will be rich.

Forest Service Officials Visit Local Shelterbelt Projects Last Week

Walter E. Webb, state director of the Prairie States Forestry Project, paid Memphis a visit last week. He was accompanied by Thomas C. Croker, district officer stationed at Childress. Both men were well pleased with the shelterbelt plantings in this area, and were surprised at the rapid growth attained by the newly planted trees.

"Each shelterbelt owner has been doing a fine job of cultivating his trees," remarked Webb, "and are realizing the extreme importance of early cultivation for the purpose of not only conserving moisture and soil nutrients for the trees, but in killing many weeds just starting. Getting a jump on the weeds now will save much work combating them later on."

An inspection was also made of the rodent control work being done by the Forest Service, stated Irving F. Pearce, in charge of the local office. As high as 14 dead rabbits were counted on the Dowell, Springer, and Dunbar farms, 3 miles south of here. Mr. Reckham, who lives on the T. J. Dunbar farm, said he had removed many dead rabbits from his farm before the inspection was made. He expressed keen appreciation for the rodent control work being done by the Forest Service. Some of the other shelterbelt owners who have been favorably impressed with the results of rodent control work on their farms are as follows: Allen Dunbar, who has poisoned hundreds of gophers in the alfalfa patch on his mother's farm just north of Plaska; J. J. McMasters on the C. G. Strickland property south of Plaska; J. A. McCready, 2 miles west of Lesley.

To all shelterbelt owners rodent poison may be obtained free of charge, and a specially trained rodent control man will set out poison not only within the shelterbelt but over the entire farm.

The Forest Service will cooperate with County Agent Hooser in the battle against grasshoppers, Pearce said. We will lend men both from here and Turkey to aid in mixing and distributing the poison.

Texas U Authority Predicts Trouble For Change in Federal Cotton Policy

Reversal of the Federal Government's cotton policy is destined for difficulties, Dr. A. B. Cox, University of Texas cotton marketing authority, predicted this week.

Apparently the government is in the process of changing its policy from one of above-market-price loans and restriction of production—important factors in reducing exports—to one of export subsidies, the director of the University Bureau of Business Research, fact-finding agency for Texas business, pointed out.

The new policy, "designed to recapture and hold foreign markets for American cotton and other farm products," will eventually lead to unrestricted, sub-

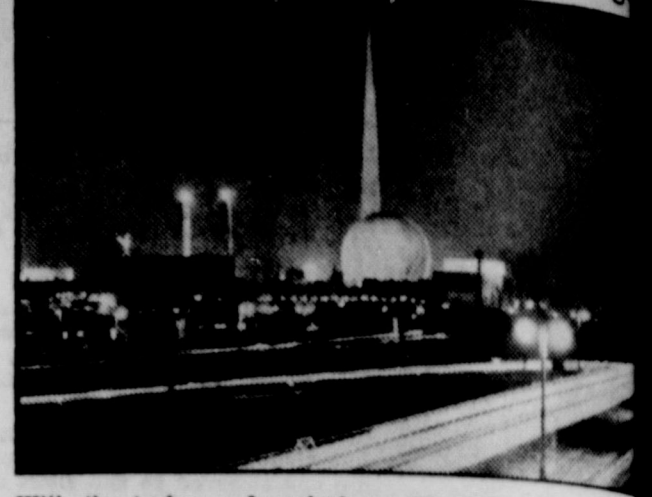

sidized production, "if it works," he believed.

A sound economic procedure and wholehearted cooperation are necessary if satisfactory results are to be obtained.

"The only safe way to boost the price of American cotton in world markets relative to other growths and competing commodities is to improve the quality of it," he asserted.

"The only way to hold markets either domestic or foreign is to offer products quality for quality at competitive prices, which means that the only safe way to increase margins of profit, whether in merchandising or production, is to lower costs."

At no unusual price get the plus of OIL-PLATING

"The 2-in-1 oil-change," automotive experts call it, because... **1st**—It gives your engine the change badly needed today—from Winter dirt and oil to your correct Spring grade of patented Conoco Germ Processed oil... **AND 2nd**—Your engine thus gets the out-and-out plus of OIL-PLATING.

The exclusive Germ Process gives this oil such an intense "power of attraction" that it holds to cylinder walls, bearings and piston rings as if plated there. Plating on the bumpers, for instance, doesn't fry up in the heat, fly off at speed, or drain down during parking. Neither does OIL-PLATING. So it keeps your engine ready-oiled for safe starting every time. And it helps you get big plus mileage all Summer from your Conoco Germ Processed oil.

"It Couldn't Be Done" By EDGAR A. GUEST

Somebody said, "It couldn't be done!" But he, with a chuckle, replied, That maybe it couldn't, but he would be one That wouldn't say so until he'd tried. So he buckled right in with the trace of a grin On his face. If he worried he hid it. He started to sing as he tackled the thing That couldn't be done—and he did it.

There are thousands to tell you it cannot be done, There are thousands to prophesy failure! There are thousands to point out to you one by one The dangers that wait to assail you. But buckle right in with a bit of a grin, Just take off your coat and go to it; Just start in to sing as you tackle the thing That cannot be done—and you'll do it!

Best Wishes to YOU!

As an institution we have served this vicinity for many years and have seen many graduating classes pass through the portals of educational institutions . . . and we most sincerely feel, that this year's graduating classes, just as those who have gone through in the past, are the coming leaders of West Texas' business, industrial and civic life. Our best wishes to you!
