PLANS ARE MADE FOR CARNIVAL OF VALUES

Bonus Leaders Push Bill With Veterans' Chief

With the utmost confidence that they have victory in their grasp, bonus bill advocates are straining every effort to line up their forces for the decisive battles scheduled in Congress in the next two weeks. Here three of the leaders of the veterans' fight are shown conferring with Brig.-Gen. Frank T. Hines, administrator of veterans' affairs. Left to right are Representative Jere Cooper (Dem., Tenn.); Representative Fred M. Vinson (Dem., Ky.), author of the bill before the House; General Hines; and Representative John W. McCormack (Dem., Mass.).

MERCHANTS ARE CO-OPERATING

Entertainment to Be Offered Daily to Crowds Attending

At a meeting of representatives and local business houses yesterday afternoon at the Chamber of Commerce offices, committees were appointed and preliminary plans made for the Carnival of Values, to be staged in this city January 23, 24 and 25.

Committees appointed to handle the event were as follows:

Entertainment—Russell Middleton, chairman, Marcus Rosenwasser, Kennon Hillyer, W. C. Milan.

Finances—Carl Harrison, chairman, Tomie Potts, Zeb A. Moore, O. B. Jones.

Publicity—Earl C. Johnson, chairman, Bob Seyfarth, H. Tarver.

While plans for the three day event are still incomplete there are indications that the affair will be a gala one, with lots of entertainment and lots of bargains in all lines of merchandise.

The business houses of the city are co-operating almost 100 per cent in financing the event, and are going to offer bargains in merchandise which will be worth coming miles to take advantage of.

Among the amusement features to be presented each day will be an amateur boxing tournament, in the nature of elimination bouts, in three different weight classes, with medals for winners in each class. The bouts will be held in an outdoor ring each morning and afternoon.

Other features will be sack races, fat man's races, three-legged races, and races for men over 60 years of age.

Chequer and pie eating contests, and many other old-time and popular entertainment contests will help round out the daily programs.

The Gold Medal Band, famous local organization under the direction of W. C. Milan, will furnish music for the carnival.

Many other features are planned for the event, and will be announced from day to day in this paper, as they are arranged for.

It is the intention of the entertainment committee to have something doing every minute of all three days, and the merchants announce that they are going to offer unheard-of bargains, so the event will be one that should attract great crowds from all over this section of the country.

PARKER CREEK WOODEN BRIDGE ABOUT FINISHED

Finishing Work Only Remains on Bridge for New Highway

The major part of construction on the 160-by-20 foot wooden bridge that spans Parker Creek a short distance north-east of the Memphis business district was finished yesterday afternoon by the WPA laborers.

Finishing work on the bridge, however, will not be completed for another week; and the bridge will not be opened to highway travel for about 30 days, Cloyd Messer, county commissioner and WPA project supervisor, stated.

All piling has been driven at the bridge proper, and all foot-

PROJECT MONEY IS HELD UP

Precinct 3 Projects Delayed by Lack of WPA Money

Money has not been allocated by district Works Progress Administration officials for any of the WPA projects in Precinct No. 3 of Hall county, other than the construction of the Estelline athletic plant.

Hall County officials are attempting to have the WPA head allocate the funds as quickly as possible. Persons living in the Estelline vicinity have become indignant over the situation, thinking Hall County officials were to blame.

B. T. Prewitt, commissioner of Precinct 3, has succeeded in get-

RESETTLEMENT NOT AFFECTED BY DECISION

Rural Resettlement Was Not Part of AAA Organization

Seventy-five farm loans have been made to Hail and Donley county cotton producers since November 25, 1935, by the Rural Resettlement Administration office, having headquarters in Memphis, and the local office will continue the 1936 cotton crop loans until 200 Hall and Donley county farmers have been served.

Announcement of the fact that the loans continue in the usual channels by A. N. Crandall, head of the Resettlement office here, is made to correct erroneous rumors that have spread here to the effect that the local office had stopped loans as a result of the invalidation of the AAA.

REORGANIZING ALL COMMUNITY ORGANIZATIONS

Farmers Are Meeting Today to Plan for Changed Condition

County Agricultural Agent R. E. L. Pattillo is presiding over a farmer's meeting this afternoon in the county court room, and reorganization of all community agricultural associations of Hall County is expected to be effected.

Officials from each community association are in attendance at the meeting here this afternoon. Other than reorganizing the associations, plans will be paid for the year's farm work.

LEAGUE ADOPTS NEW SCHEDULE

Adopt Split Season for Bowling League in This City

There was no game in the bowling league last night, the High School team forfeiting the games last night to the newly organized Outlaws, led by Joe William Whaley, putting the latter team on a par with the league leaders.

The Outlaws have been added to the league roster, replacing Filling Station team, which apparently could not get in shape. Players on the latter will join the other teams in the league.

The regular schedule for the remaining games of the season has been drawn up. It provides for a split season. The first half

When he returned from the trip, the friend asked Sandy how the trip was. "Fine," Sandy said. "And did you have good luck," asked the friend, "with your pennies?"

"All except when I passed the last bridge," answered Sandy. "How was that?" asked the friend.

"How was that?" asked the friend. "The string broke," answered Sandy.

The Democrat may not always be right in the stand it takes; it may not always be wise in standing for what it believes; but, right or wrong, wise or unwise, the Democrat will stand for the things it believes are for the welfare of the community.

AN EVENT DISTINCTLY WORTH WHILE

ONE of the most worth while moves made in the city in quite a time is the promotion by the merchants of the city of a January Carnival of Values, to be staged for three days, January 23, 24 and 25.

The underlying feature of the event will be the offering of January clearance bargains in merchandise of all kinds at prices that will appeal to everyone in the Memphis trade territory, and practically every merchant in the city is co-operating in staging the event . . . every line of business being represented.

To make the affair a really gala event, the committee in charge is arranging to present each day a program of outdoor entertainment and athletic events, which will make the three days a carnival of amusement as well as bargains.

Among the features to be presented will be races of all kinds, boxing matches, greased pole climbing . . . in fact, an old-time carnival of good clean fun that will entertain the entire family, from the youngest child to grandpa and grandma. All amusement features will be free, and

everybody in the Memphis area is invited and urged to attend.

We are more than glad to see the merchants of the city get into the harness together and co-operate in a move of this kind.

If any one thing could be said to have hampered the growth and advancement of our city, it is the fact that it has always been hard to get people together for the long, strong pull that builds cities.

Memphis and Hall County have the natural resources. No county in the west has better farming land or better farmers. No city in the west, for its size, can offer more advantages and modern conveniences than can Memphis, and our citizenship cannot be surpassed for quality and progressiveness individually.

Now the indications are that the depression has taught us a lesson, and that we are going to adopt the old motto of "All for one, and one for all," and when our folks get their shoulders to the wheel with a spirit of that kind, there is no limit to the things that can be done, or the advancement and progress in store for the "Queen City of the Upper Red River Valley." FRESH fruits and vegetables may seem high to many of us who live on carefully calculated budgets, but remember that buying them saves pills and tonics. So maybe they are cheap at any price.

So-called acid fruits are in better repute now than a while back. Some years ago there was a theory that oranges and grapefruit aggravated rheumatic conditions. Now we know that these fruits have an alkaline rather than an acid reaction in the blood and hence are excellent for the rheumatic sufferer.

Any Place in Meal

Any meal is made more interesting and nutritious by the judicious use of fruit. Used as a cocktail, they stimulate the appetite. Served as a salad with a plain French dressing they provide contrast in flavors between the main course and the sweet course. As a final course fruit again is valuable because its tartness stimulates the flow of an alkaline saliva which dentists tell us aids in the prevention of tooth decay.

It is well to remember, however, that valuable and necessary as fruits and vegetables are, the diet is not properly balanced without the proper amounts of

But when you are planning menus for the average healthy family, by all means make every effort to serve balanced meals with the correct proportions of proteins, fats and carbohydrates as well as the minerals and vitamins.

HEMPSTEAD—"In the near future we will be making a nice income from top worked pecan trees." C. A. and L. O. Thanheiser of Wallar county reported to J. V. Bush, county agricultural agent. In 1927, 300 trees on their Brazos river bottom farm were topped and budded. This year, they harvested 900 pounds of fine nuts from the trees valued at \$144. A number of other Waller county farmers have begun pecan improvement work on their farms.

PADUCAH—Because of the sub-soiling done on his Cottle county farm, J. C. McCollum harvested at least one-third of a bale of cotton per acre this year, and as a result Carl Crump, who owns and operates a 937-acre farm, has reported to C. C. Stinson, county agricultural agent, that he is planning to adopt this practice on his entire acreage in 1936. Cotton on adjoining farms on which no subsoiling was done yielded about one-tenth of a bale per acre.

McCollum lives on tight land on which the run-off is excessive. His plan was to "checkerboard" his field by cross furrows every 19 to 12 feet. These furrows were made by removing the wings of his single row lister and the soil was plowed to a depth of eight to ten inches.

Miss Mary Katherine Blankenship, who has been making her home with her grandmother at Atlanta, is here for an indefinite stay with her parents. Mr. and Mrs. W. C. Blankenship.

BAPTIST CHURCH

Does the church have any claim on our attention these days? What contribution does it make to our life and happiness? Is it just another institution? or is it distinct and has it a right to call for our loyalty? The Sunday Morning message will be "The Church-God's Agency."

The evening message will be "Almost Persuaded." This is another Tragedy of the New Testament. And it is the sad experience of many a modern life. What hinders you from being a Christian? Come to this service and bring your friends.

Services 11:00 and 7:15.

Vallance Asks Re-election

County Judge Jim Vallance today threw his hat into the Hall County political ring and officially launched a campaign which he hopes and believes will return him to office as county judge of Hall County.

Judge Vallance in authorizing the Democrat to announce his candidacy for the office of county judge, subject to the Democratic Primary's action in July, said "say anything in your paper about me you like; I don't solicit a flowery article or speech."

Having been connected with Judge Vallance's office daily throughout his tenure of office here, the Democrat is pleased to list him as a candidate for election.

Judge Vallance feels that his sane and sensible administration of office should entitle him to the deepest consideration by the people of this county when they go to mark their ballots next July, and the Democrat, in behalf of Judge Vallance, bespeaks for his candidacy that thorough consideration.

Judge Vallance feels that efficiency in office should be the chief interest and deciding factor of every Democratic vote.

His 32 years as a Hall County citizen, his education and his experience as a county judge should be decided assets in his campaign for re-election as county judge of Hall County.

Here and There

By E. C. J.

With the world apparently trembling on the verge of bloody war . . . with the A.A.A. tumbling about the ears of the farmers . . . with the depression not quite around the corner, even though it's going fast . . . with traffic accidents taking the lives of thousands all over the country—there is still a silver lining to the cloud of trouble, as indicated by the following news dispatch:

ELKHART, Ind., Jan. 9.—The moaning of the saxophone in the land is decreasing, say band manufacturers of Elkhart, musical instrument manufacturing center of the world. They report an increased demand for clarinets and trumpets. Orders for these two instruments now exceed that for the saxophone, which has led for several years.

And, speaking of musical instruments . . . there is going to be a decided slump in the use of radio receiving sets, unless the radio industry takes steps immediately to do something about "The Music Goes Round and Round." Renditions of this number on the radio are becoming more common than boots on Memphis school girls . . . and that's saying something.

An orchestra director in the east announced the first of the week that he was going to play the number continuously for one hour on his next program . . . in an endeavor to give his audience all the "Round and Round" they could stand. Evidently he had no mercy on either the audience or his musicians.

Tuesday's issue of the Wichita Falls Times contained a typographical error which caused many of the older veterans in that city quite a bit of worry, until they learned that it was an error. The item said that the bonus bill proposed to pay the "Maturity" values of the adjusted certificates.

Which reminds us of another typographical error we saw in an Associated Press dispatch in one of the Wichita Falls dailies the first of the week. It said that Dr. Brinkley, the "goat gland" specialist, had been denied the right to practice medicine in some state, due to "gross immortality."

Now for something in a serious vein. Last week two Hall County motorists paid fines for failure to observe traffic laws relating to school buses. Yesterday complaints were filed against two others. Local officers are determined to show no leniency whatsoever to violators of the school bus traffic law, and they are right.

Buses of Hall County are carrying 2400 school children to and from school each morning and evening. That means that 4800 children are handled by the vehicles daily.

Careless motorists who fail to stop when they approach or pass a bus discharging passengers are endangering the lives of one or more of the kiddies each time.

It only requires a few seconds to stop and wait until the children are out of harm's way, and then go on. No motorist is ever in such a hurry that he cannot do this, and the one who fails to do so should pay a fine—and a heavy one.

Morrison for Commissioner

The Democrat is authorized to announce W. B. (Butler) Morrison as a candidate for Commissioner of Precinct No. 1 subject to the action of the Democratic Primary in July.

Mr. Morrison, who has been a resident of the precinct for 36 years, is well known to our people as are his qualifications for the position he seeks.

Mr. Morrison made the race for this office at the last election, and had no idea of running again this year, but pressure was brought to bear by his friends, so he is entering the race.

We commend the candidacy of Mr. Morrison to the voters of the county when they go to the polls in the July primary and cast their votes.

Herschel Montgomery, former linotype operator at the Democrat, arrived from Shamrock and will spend until tomorrow in Memphis visiting among friends.

Newly-weds who desire a chance to start life on a farm are heartily received by the Resettlement force. Of the 75 loans made for the new year, about 60 of them have been made to young married people, Mr. Crandall said. The average amount of loans made is \$779.00.

A chief requirement of the office in making the loans is the amount of the livelihood that can be made at home by the applicant. If the applicant is unable to produce commodities for home consumption, his bid for a loan is frowned on.
