THEY 'VACUUM CLEAN' KANSAS LAWNS

Wind that smothered Wakeeney, Kan., lawns under a thick blanket of dust created a new vacuuming industry. With this weird-looking contraption, a giant suction cleaner built on a tractor, the "inventors" are making the rounds of lawns, relieving them of their dust-and-sand through the hole seen in the background, dust is sucked from the grass and dumped in a pile on the roadway.

Truck Crash Kills Three, Injures 30

MUSKOGEE, Okla., May 1.—Three persons were killed, five critically injured and 25 less seriously hurt today in the overturning of a truck loaded with Mexican beet field workers traveling from San Antonio to Mt. Pleasant, Mich.

The crash occurred near Onapa, 30 miles south of Muskogee. Sheriff Arthur Kirkpatrick said it was apparent that the truck driver fell asleep at the wheel. The truck ran off the road, overturning.

He arrested Guadalupe Inanencio, the driver, and his brother, Antonio, who had recruited the beet workers in Mexico and were in charge of the party.

Little hope is held for the recovery of the five, critically injured, who were taken to an Eau Claire hospital.

NINE MEETINGS ARE SLATED IN COUNTY

Held Today and Tomorrow for Voice in Farm Program

Nine meetings are scheduled to be held in communities in this county today and tomorrow to give farmers an opportunity of urge continuance of the present government farm program in its present form.

The meetings were called by County Agent James A. Jackson following a meeting of farmers and business men held here Monday.

Meetings are being held today at Brice, Leslie, Plaska, Eli and Lakeview. The first meeting Thursday will be held at Newlin at 10 a. m. Other meetings tomorrow are at Memphis at 11 o'clock, Estelline at 1:30 and Baylor at 3 o'clock.

The committee also asked for an extension of time for granting the funds to carry out the work.

With the federal emergency program scheduled to close today, every available dollar of the \$1,500 granted farmers in this county had been issued. The federal program calls for the granting of 10 cents per acre for fuel and feed costs or listing of lands that are being damaged by wind erosion.

An original allotment of funds for the listing of 10,000 in this county two weeks ago was supplemented last week by funds for plowing an additional 5,000 acres.

At the close of business yesterday, commodity orders had been issued for the entire amount and farmers had asked for several thousand acres more than the total county allotment.

Applications for funds for the plowing campaign have been filed with County Agent James A. Jackson and the county erosion committee. Commodity orders were issued by the local office of the Texas Relief Commission.

Hitler Tells Million Germany Wants Peace

BERLIN, May 1.—Reichsfuehrer Hitler told a million persons gathered in the Temple of the Airdrome today that Germany desires only peace with other nations.

"Just as we restored peace with Germany," he said, "we want peace abroad, because only then can our domestic works be a success."

"We were a people that was impatient because we were disunited. That made us play ball with foreign nations. The small states could cast humiliation upon us and deprive our citizens of their rights. Our economic life was ruined. But now we have become a new people."

Business Expected To Be Started In Paris

A factory probably will get a factory in the near future, to an announcement by William Russell secretary of the Chamber of Commerce of Memphis today.

He stated that his plant had out as many as 700 brooms per year and that he expected yearly production to be 1,000 brooms. He manufactures grades of brooms—a broom and a cheaper broom.

Mr. Townsend is looking for a near Memphis of about 100 acres, which he expects to plant broom corn. The place is a house to live in and is located on page 4.

BUSINESS AT LOWEST EBB—THE FISHING SEASON IS OPEN

Business was at its lowest ebb in months in Memphis today. Bill collectors were experiencing one of the worst "firsts" in a year. This was not due to any serious business set-back. But the fishing season opened at sunrise this morning. Citizens who usually search for that piece of goods, misplaced merchandise or pere

bright and early this morning and out in search of water. The trek toward the bass, crappie and mud cat from Memphis led in two directions—toward Lake Childress near Carey, and for those more fortunate, toward Brookhollow Country Club lake. Although a survey could not be made to determine who joined the influx to the wide open spaces, just as the "400"

heads for Newport, their absence from usual haunts in the city was noticeable. It was too early to learn how the luck was running. Fishermen will be forced to observe two new sets of regulations this season, passed recently by the legislature. The first covers the size and string limits of blue and channel catfish and the other is concerned with trot lines.

The string limit on bass and crappie remains 10 for bass and 20 for crappie in a single day.

A DIPLOMATIC BONER

PRESIDENT ROOSEVELT yesterday pounced upon the House Military Committee for allowing to be printed testimony by army officers that the United States must be prepared to seize British and French islands near American shores in case of an "emergency."

He told Chairman McSwain that the committee must cease the printing of evidence given in executive session or he, as commander-in-chief of the army and navy, will require that none be given unless he had previously approved it.

"This government," Roosevelt stated, "does not in any of its plans or policies envisage the possibility of change in friendly relationships between the United States and any foreign country."

The Military Committee pulled a diplomatic boner. The best way in the world to get another country mad at us is to start talking about what would be done should we start fighting one another.

Roosevelt, the master diplomat, was rightfully irked by such a "dumb stunt" on the part of the committee. Not often does a President use his powers as commander-in-chief of the army and navy during peace times—in fact, few of us even recall that he has such a title—but in this instance it certainly would be justified.

Not that it isn't perfectly all right for the army and navy to make plans to defend this country against any and every enemy—probable or otherwise—they just shouldn't let the world know about it. That is part of the plans that come under the head of "important military documents" that spies are reputed always to be trying hard to steal and that every country knows anyway.

It just isn't etiquette to talk it where others can hear.
