ADDITIONAL COTTON PAYMENTS ARE RECEIVED THIS WEEK

TOTAL INCOME HITS \$200,000 MARK IN WEEK

Payments Speed Up As AAA Pours Cash Into Texas Farms

Two additional allotments of cotton rental checks from the 1938 Triple A program, received at the office of the county agent this week, brought Hall County's total farm income during the past two weeks to \$203,701.16. One hundred sixty-four checks for an amount totaling \$47,820.51 were received early in the week, and an additional allotment of 70 checks arriving Wednesday totaled \$12,647.45.

More were expected daily as the machinery of administration at College Station slipped into high gear. The triple A is now pouring thousands of dollars daily into the pockets of Texas farmers.

The first allotment of checks, arriving Friday, April 7, brought a total of \$143,233.20 in 810 checks. Well over \$200,000 is still due farmers in this county, as the estimated total benefit from last year's program is scheduled to reach \$432,500.

Rental payments this year are slightly higher than the amount received last year from the 1937 program, but nearly \$200,000 in parity payments received from the 1937 set-up will be missing this year. The rental payments which are now arriving will constitute the total benefits from last year's farm plan.

Ten Rural School Children Attend Music Festival

Make Trip to San Antonio And Austin; Sing Friday At Music Convention

Ten Hall County rural school children had a gala week-end on a trip to San Antonio last Thursday, Friday, Saturday, and Sunday, singing before the Southwestern Music Educators convention in a rural school music festival, visiting the state capitol, and meeting the governor of Texas.

Traveling to San Antonio by automobile, the children left Memphis Thursday morning, spent the night at San Antonio, and sang at the convention with several hundred other rural students from all parts of Texas.

They returned by way of the state capital, visiting the capitol building and the governor's mansion and meeting Governor W. Lee O'Daniel himself.

Making the trip were Robert Lee Young, Billy Rice, Billy Jean Geisley, and Ruby Stroud from Bridge Bit; Frankie Masters and Jack Pitts from Pleasant Valley; Frances Gilreath from Eli; H. C. Shefer from Friendship; and Joe Berryman and Christine Trapp from Parnell.

The children were accompanied by Mrs. David Myers of Friendship, Alice Baker from Bridge Bit, and County Superintendent Vera Tops Gilreath.

New Rulings Made On Cotton Program

Word has been received at the County Agent's office that the 80 per cent rule in regard to cotton planting has been eliminated from the 1939 AAA program, Assistant County Agent F. R. Curtis announced last week.

Farmers will be paid on their cotton allotment regardless of whether any cotton is planted, provided normal farming operations are carried out, Curtis further interpreted the new ruling.

Caprock Band Festival Will Be Held Friday, April 28

J. A. Weatherly Is Buried at Hulver Sunday Afternoon

Former Hall Commissioner Dies at Wheeler Friday; Funeral Service at Hulver

Funeral services for Joseph Abner Weatherly of Wheeler, a resident of Hall County for many years, were conducted Sunday afternoon at Hulver, with Rev. Byron F. Todd of Parnell in charge. Mr. Weatherly died at his home in Wheeler Friday. He was 70 years of age.

Burial was at Hulver Sunday afternoon, with Hunt Funeral directors from Wheeler in charge of interment.

Mr. Weatherly had moved from Hall County to Wheeler in 1935, after living in this section for more than a quarter of a century. Born near Columbia, Tenn., on August 20, 1869, he came to Texas in 1885 and settled in Johnson County, where he was married in 1893 to Miss Virginia Martin.

He moved to Hall County in 1908, farming first at Parnell then at Estelline, and later returning to Parnell. In 1917 he moved to Weatherly where he was engaged in farming until 1935 when he moved to Wheeler to make his home.

Mr. Weatherly served for two years, 1914-1916, as county commissioner of Hall County from precinct 3.

Survivors include his widow and five sons, C. R. of Lubbock, W. O. Jodie, and R. L. of Wheeler; and Haskell of Lakeview; and two daughters, Mrs. C. J. Collier of Dallas and Mrs. Jess Muldner of Turkey; three sisters, Mrs. Tom Richardson of Amarillo, Mrs. E. J. Posey of Dallas, and Mrs. O. A. Cleveland of Parnell; and three brothers, J. M. and G. W. Weatherly of Parnell and W. M. Weatherly of Spade.

Relatives from Amarillo present for the funeral services were Mr. and Mrs. Tom Richardson, Mr. and Mrs. Ed Smith, and Alvin Richardson.

Parnell and Brice Win in Softball

Parnell defeated Plaska boys in the final game of a round robin softball play-off for the county rural softball championship here Saturday afternoon while the Brice girls won over Plaska to capture the interscholastic league crown in the girls division.

The round-robin tournament of the high school grounds here climaxed a season of play which began early this spring. On January 24 representatives from all Hall County rural schools met and divided the county into three districts for double-round robin elimination play.

The visiting musicians will be welcomed by Mayor J. Claude Wells. Their hour's concert on the public square will be free to all, and the public is invited to be present.

The band has been invited to play in Memphis during the Caprock Band Festival, but could not accept that engagement due to conflicting schedules.

Local Students On Tech Honor Roll

Three Memphis students were on the honor roll for the fall semester at Texas Technological College, Lubbock, grade averages at the close of the semester recently revealed.

R. E. Martin Jr., son of Mr. and Mrs. R. E. Martin of Memphis, held the highest average of the three with a grade of "A-". Bill Bragg, son of Mr. and Mrs. W. J. Bragg, also of this city, and Peggy Jane Leary, daughter of Mr. and Mrs. F. F. Leary, each made an average grade of "B."

DOUBLE-TROUBLE—Not an optical illusion . . . but Mary and Virginia McGowan, twin sweethearts of the West Texas State College Band which will play here Wednesday afternoon, are easy on the eyes, either singly or in pairs. They're a couple of living examples of "how to win friends and influence people" . . . and their uniforms are nice, too!

West Texas State College Band to Appear Here

The forty-piece Buffalo Band from West Texas State College, Canyon, will appear in Memphis next Wednesday afternoon for a free concert on the city square, according to announcement received this week.

The college band, one of the outstanding musical organizations in the Panhandle, will leave Sunday on a four-day tour opening with a vesper concert at Floydada Sunday afternoon. The band is scheduled to appear in Memphis at 3:30 o'clock Wednesday afternoon for an hour's concert.

Playing under the direction of Prof. C. E. Strain, the Buffalo Band has been in great demand during the past few months and has included appearances at Berger's birthday and Shamrock's Irish celebrations.

The school children of the country are being extended a special invitation to attend the concert here Wednesday. The concert is being sponsored by the Memphis Chamber of Commerce.

Accompanying the band will be D. A. Shirley, registrar of the college, and the McGowan twins, the two young ladies from Anton who were selected as band sweethearts and who have contributed a great deal toward making the Buffalo Band one of the most colorful in this section.

Smartly uniformed and attractively brunette, Mary and Virginia McGowan are so perfectly matched that not even Director Strain can be sure just which of the Band sweethearts it is. They have accompanied the band on all trips this year, and have proved as much of an attraction as the music.

The visiting musicians will be welcomed by Mayor J. Claude Wells. Their hour's concert on the public square will be free to all, and the public is invited to be present.

The band has been invited to play in Memphis during the Caprock Band Festival, but could not accept that engagement due to conflicting schedules.

Mrs. Fred Nivens Buried Tuesday in Hulver Cemetery

Dies in Local Hospital Monday; Funeral Rites Are Held at Hulver

Mrs. Fred Nivens of Parnell died Monday night in a local hospital. She was 38 years of age. Funeral services were conducted Tuesday afternoon at the Baptist Church in Hulver, with Rev. C. M. Brister, pastor of the First Baptist Church at Estelline in charge of the rites. Interment was in Hulver cemetery under the direction of King's Mortuary of Memphis.

Mrs. Nivens is survived by her husband and three children, Billy Frank, 16; Joe Bob, 12; and Donald Ray, 8. Four sisters were present for the funeral services. A brother and sister and her stepmother, all living in California, were unable to be present.

Mrs. Nivens, nee Sybil King, was born on February 17, 1901, and was married to Fred Nivens on October 23, 1920. She was (Continued on page 6)

Mrs. L. H. Matthews Is Buried Here

Mrs. L. H. Matthews of Erick, Okla., former resident of Memphis, was buried at Fairview Cemetery here Thursday afternoon. Mrs. Matthews will be remembered in Memphis as Mrs. John Spurline. Her first husband died in December 1921, and was buried at the local cemetery.

Funeral services were held at Erick Thursday morning, with H. P. Cooper, minister of the Church of Christ of Shamrock officiating.

Mrs. Matthews, nee Miss Charleff Drisael, was born in Alabama on February 4, 1854. She died April 12 at her home in Erick at the age of 85 years.

Survivors include her husband, L. H. Matthews, to whom she was married in 1935, two daughters, Mrs. Alice Cowen of Erick and Mrs. Joe Abbott of Mangum, Okla.; seven sons, Ed of Erick; Jerry of Texico, N. M.; George of Vincent, Okla.; John of Keydon, Okla.; one brother, Walter of Vincent, Okla.; one brother, James of Keydon; one sister, Elsie, 21 grandchildren, 19 great grandchildren, and 14 stepchildren.

She had been a member of the Church of Christ for the past 13 years.

School Editorial

In teaching two years of Spanish we try to present material that is interesting and practical. The immediate surroundings and daily experiences of the pupil in his home and classroom is used as a starting point, from which the pupils thinking and speaking is carried to the city, and rural districts, the nation, and finally to countries of Spanish speaking people.

Very little theory is presented to the students of Spanish for successful progress depends so largely upon the formation of good habits. The ear, the tongue, the eye, and the reasoning power are trained and drilled daily to attain perfection in pronunciation and enunciation of words, phrases, and sentences.

We teach Spanish to enable the students to carry on simple conversations, to acquaint him with the religion, customs, ideals, and philosophy of other nations, to create a greater spirit of Pan-Americanism, to aid him in understanding Spanish radio programs and to enjoy the music and literature of Spain, Mexico, and Spanish speaking South American countries.

The teaching of Spanish involves a number of other subjects; namely, English. The success of a student in learning a foreign language depends a great deal upon his knowledge of English grammar and literature. Music is used in the study of Spanish songs and dances; a knowledge of mathematics is necessary in learning to count, and to buy and sell in Spanish; commercial work is used through writing business and social letters; the history of the Spanish people is studied in connection with our history department; and the boys find the study of foreign sports highly interesting.

We create interest in the study of the language by varying methods of roll call, by dramatizations, by playing singing games in Spanish, by reading Spanish newspapers, and by giving assembly programs.

Outside materials used are the radio, newspapers, maps, magazines, and travel bulletins.

Although Spanish is being dropped as a subject in some of the Texas schools, we are maintaining our affiliation in the subject by the keen interest shown by the students.

W. C. Davis.

West Ward Stages Program

Last Friday morning the West Ward School assembled in their auditorium for an impromptu program. Volunteer numbers were called for and every one was anxious to participate. Groups from the third grade sections demonstrated their initiative and abilities by presenting some folk dances and songs. Some gave their favorite readings.

The second grade sang a number of songs in group singing, with some rendering solos, duets, and even sextettes, consisting of cowboy songs, Texas songs, and popular numbers. They came the first graders stepping to tunes of folk dances. They exhibited their best in their homelike atmosphere. They also gave solos and duets of their own choice. Every one acclaimed this one of the most enjoyable assembly programs of the year.

High School P.-T.A. To Meet Monday

The regular meeting of the High School P.-T.A. will be on Monday afternoon, April 24, in the high school auditorium at 3:30 o'clock.

The theme of the program is health and during the business session officers for the coming year will be elected. The parents are urged to attend.

TEACHERS ARE JUDGES
Memphis schools were asked to furnish five judges for the district meet at Pampa last Saturday. The teachers serving as judges were Mrs. Lon Montgomery, Misses Melrose Henderson, Margaret Stoen, Gladys Schantz, and Supt. W. C. Davis.

1206 Women Say "Yes" to Query

If 93 out of 100 users picked at random declare they were helped by a medicine, would you believe in its merit? Read of the famous Query as 1206 women of leading cities in 22 Southern States shows that 93 out of 100 users queried by CARDUI helped them. 93 out of 100! Women all over the world are eager to tell of their experiences with CARDUI. They were weak, nervous, and had all the symptoms of those who are helped by CARDUI. They were helped by stimulating their digestion and building up their strength. Try CARDUI.

Football Queen To Be Chosen by Vote Of Student Body

Evelyn Selby, Hattie Lou Mabry and Anita Meacham Nominated by Cyclones

The election for the football queen is to be held this week. Three girls were selected by the Cyclones and the queen will be chosen by popular vote of the student body.

Since the girls represent the high school there will be no class distinction or competition, but the winner is to be selected by her school popularity.

The three girls chosen were: Evelyn Selby, Anita Meacham, and Hattie Lou Mabry.

BOOKKEEPING CLASS PICNIC
On Thursday evening the members of the bookkeeping class and their guests enjoyed a weiner roast at Roadside Park. The outing was sponsored by Miss Henderson, instructor, and Miss Sheats. The main dish of roasted weiners was supplemented by potato chips, pickles, cookies, and marshmallows.

Band Presents New Trophy to School

The High School Band members presented the silver trophy they were awarded for attending the Shamrock Festival, to the students of high school last Tuesday in assembly.

The trophy is about eight inches in height with the words "Saint Patrick's Day, 1939, Shamrock, Texas" inscribed on it. The presentation was made by Cullen Chapman, president of the band, and accepted by Mr. Cunningham.

Home Town Entries Will Be Named

Three representatives from the freshman, sophomore, junior, and senior classes are to be chosen Thursday to speak in the finals for the home town contest sponsored by the local chamber of commerce.

These speakers are to be selected by the themes handed in as an assignment by the English department. Every student in high school is eligible and competition is strong.

Youngest Elevens Start Training

Spring training started for the Tornado and Twister squads last week. These squads are composed of freshmen, sophomores, and seventh grade boys. There has been a great deal of spirit between these two squads. They are to have a spring game in about three weeks.

These squads are coached by four senior football players. Coaches A. G. Kesterson and Leroy Robertson have charge of the Tornado squad. Coaches Talmadge Pounds and Jerry Carmichael are in charge of the Twister squad.

F.U.N. Club Has Meeting Thursday

At a regular meeting of the F. U. N. CLUB held in the home economics laboratory on Thursday at noon plans were completed in regard to the tea which is to be given for the junior girls.

Minutes of the last meeting were read and approved after Ruth Barnes.

Junior Tracksters Enter Claude Meet

The Memphis Junior Track team composed of Jefferies, Landers, Morris, and Grimes from high school and a team from junior high will go to Claude April 22 to take part in their Junior Track Meet.

The boys will enter the following events: pole vault, 50 yard dash, shot put, medley relay, high jump, 100 yard dash, chin the bar, 100 yard low hurdles, broad jump, and 440 yard relay.

which the chairman of the program committee assembled the group in the auditorium where the remaining time was spent singing.

Those answering roll call were: Anna Kathryn Davenport, Mary Helen Lindsey, Doris Jo Vallance, Patty Nell Craver, Bess Elaine Ayers, Naomi Smith, June Seago, Roselyn Williams, Mary Isabelle Hanvey, Elizabeth Goffinett, Pearl Elier, Agnes Edwards, Elizabeth Fain, Ethlyn Ellerd, Ruby Lee Coldiron, Dorothy Montgomery, Anne Maxwell, Genevieve Prater, Mary Bess Cole, Thelma Mae Saunders, Imogene Lamb, and Ruth Barnes.

GRIDIRON PERSONALITIES

Billy Gene Morris, a guard during the 1938 season, has been shifted to the center position for the coming year. He is a lightweight as compared to the average lineman but he should overcome this handicap with his fight and toughness. Fast on his feet and quick in his reactions, he should make the Cyclone a good pivot man. "Help carry the Black and Gold to Victory, Billy Gene."

Breath Bad, Logy? You May Need This

Just as the lighthouse flashes a friendly warning to sailors, so Nature sends out headaches, bad breath, biliousness, which often warn of constipation.

Too many misunderstand or neglect these symptoms and thereby may invite a host of constipation's other discomforts: sour stomach, belching, loss of appetite or energy.

Be wise. Take spicy, all vegetable BLACK-DRAUGHT tonight by simple directions and clear your bowels gently, promptly, thoroughly. This intestinal tonic-laxative helps give tone to lazy bowels.

Its long life and popularity testify to BLACK-DRAUGHT'S merit.

DEEP LAKE

By TROY LEE HOLCOMB

A boxing tournament was held at the Deep Lake school house Friday night. A large crowd attended.

Miss McMaster, primary teacher, was absent from school three days last week due to illness.

Macie Lawrence spent Saturday night and Sunday with Betty Jane Kennedy.

Mr. and Mrs. J. L. Bevers from Lakeview spent Sunday with G. W. Blewer.

Mr. and Mrs. O. T. Hill spent Sunday with O. O. Hill.

A baby girl was born to Mr. and Mrs. Virgil Thompson Saturday night.

Jeannette Murdock spent the week-end with Inez Kennedy.

Since the children were unable to leave school for a picnic Friday before April 1, they went picnicking the following Monday and had an Easter egg hunt.

The young people of the community have begun work on a play, "The Pampered Darling" to be given in the near future to help sponsor the Seventh graders' trip to Carlsbad at the close of school. Due to so many cases of the measles, seventh grade pupils have been unable to give a performance.

On the honor roll for this term are: Primer, Ima Lou Glover, Annie B. Ward, Wayne Shafer; first grade, Olin Ray Jenkins; second grade, Vallie Jean Veteto; third grade, Gayle West; third grade, Euclair Gilbert, Juanita Ward and Iren Vick; sixth grade, Lenatrice Hutchins; seventh grade, Ray Bruce, Mary Padgett, and Naomi Morrison.

How the *plus* of OIL-PLATING brings you more than an oil-change

YOU KNOW right off that the fresh oil needed in your crankcase today, isn't to lubricate the crankcase. Either your oil is in the bearings and up to the cylinder head every turn of your engine, or your lubrication isn't 100%.

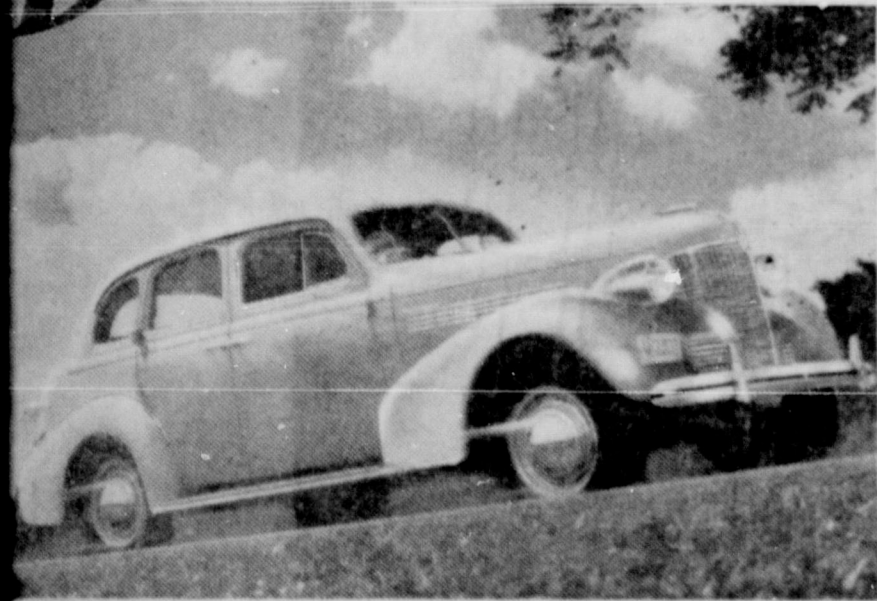

Now what's the chance for any of the general run of oils to stay up while you've parked the car, for instance? Just about as much chance as there is for a geyser to stay up all by itself! Then every time you start, don't pistons get up to the top before oil gets up from the crankcase? You kill that risk by changing now to OIL-PLATING.

The "magnetic action" of Conoco Germ Processed oil—patented—makes OIL-PLATING stay on inner engine surfaces throughout all your stops, starts and runs this Summer. Your Germ Processed oil keeps a steady hold on the "Full" mark, too, as you'll see—by changing today to Your Mileage Merchant, Continental Oil Company

CHURCHES

PRESBYTERIAN CHURCH

Some one has said: "The Christian Church today is called to live, and to give life, in a world shaken to its foundations."

This burning assertion came straight from the hearts of the nearly five hundred Christians who were gathered from sixty-nine nations at Madras, India, this last December. Christianity is on trial today as never before.

To be perfectly fair with yourself and those about you you must manifest more and more a deep heart interest in the entire world.

"Go ye" said our Master and make disciples of all the nations." Can you really afford to neglect your personal obligation and duty to your church, your home, your God?

Strangers and friends are most cordially invited to attend our church service morning and evening. Special music.

E. C. Cargill, Pastor.

NAZARENE CHURCH

Rev. J. Walter Hall, our district superintendent, will preach for us Saturday evening at 8 o'clock. All are invited to attend this service. We also invite all who do not attend church elsewhere to come to our regular Sunday services.

One song writer wrote, "Pray your troubles away," and another wrote, "O what peace we often forfeit, O what needless pain we bear. All because we do not carry everything to God in prayer."

Yes, troubled soul, God can and will help us if when in trouble we will go to Him in prayer.

O. B. Hoffpauir, Pastor.

FIRST BAPTIST CHURCH

In the absence of the pastor Sunday, Rev. Coleman Campbell will preach both morning and evening. We are happy to welcome Brother Campbell to be with us and hope that many will avail themselves of this opportunity to hear him and to worship with us.

Due to the weather, possibly, the attendance last Sunday in the Sunday school and B. T. U. was somewhat lower than the previous Sundays. Do plan to be with us every member of the family, from the smallest to the largest, from the youngest to the oldest.

The prayer meeting program this week was in charge of the Go-Getters, the younger senior union of the B. T. U. The Eagles, the older senior union will have charge of the program next week. You are always welcome at the mid-week prayer service at 8:15 p. m. All the Sunday school teachers and officers should plan to attend the Teachers and Officers meeting at 7:30, and any others who care to come are welcome. Every service of the church should be well attended. May we count on you?

J. Wm. Mason, pastor.

Classification of Sorghum Varieties Are Explained

Curtis Lists Grain and Forage Sorghums Under Official Designations

In answer to numerous inquiries concerning the classification of various sorghum varieties, assistant County Agent F. R. Curtis listed the following as grain sorghums:

Milo, Kaffir, Fetevia, Kaoliang, Legari, Freed, Chiltex, Premo, Garso, Schrock, Shalu, Acuff, Fargo, Bishop, Wonder, and Weaver.

The sweet sorghum or forage sorghum classifications includeoney (seeded ribbon cane), Sugar (red top), Dwarf Ashburn range, Coleman, White African, Poseneck, Sourless (African milk), Atlas, and Amber.

The classifications are taken from bulletins issued by the Texas Agricultural Experiment Station.

Heifers Top Fort Worth Market

W. P. Dial topped the cattle market in Fort Worth Monday with a nine head of heifers. The average weight of the nine was 1,100 pounds, and he received \$9.25 cwt. for them.

Mr. Dial also shipped some cows, but The Democrat failed to learn the price they brought.

Garlic-Parsley an Aid in High Blood Pressure

It is reported that Garlic-Parsley has a double action in reducing high blood pressure. First, it tends to relax tightened arteries. Second, it checks or inhibits decomposition of waste matter in the bowels, a contribution to high blood pressure. To get the full benefit of this medicine, take it in the form of capsules. To learn what raises your blood pressure, and what treatment is best for you, consult your doctor. **MIN** is for sale by all druggists. Box, 50c. Special economy size, \$1.00.

to the people of the 26 counties of the Eighteenth Congressional District. These petitions will be presented at Washington April 27 by Mayor Ross Rogers of Amarillo who is chairman of the regional planning board. There has been and is now an unfair inequality in the wage scale of the WPA employees in the Panhandle area as compared to that of New Mexico. Surely, the people of this area are entitled to as much as those of the neighboring state.

Along West Main street may be seen some nice improvements at the Dr. McNeely, Dick Spoon and Albert Gerlach homes. Dr. McNeely is having a lot of repairing and repainting. Spoon is adding to his residence, and Gerlach is rebuilding his residence. Others are contemplating improving and painting, which would add to Memphis' appearance.

Mr. Raymond Womack returned to her home in Lubbock last Thursday after a visit with her mother, Mrs. Dick Hetherington, and sister, Mrs. Ellis Veteto.

Posters on "Care of Teeth" Entered In State Contest by Local Students

Lakeview IOOF To Observe Founding Of Order April 27

Unusual interest in poster making was displayed in the art department at Junior High School last week in a contest sponsored by the Auxilliary of the Texas Dental Association. Mrs. M. McNeely, representing the auxilliary, offered tickets to a local picture show as prizes to the three winners from the sixth and seventh grades and to the three runners-up in the seventh.

Commemorate 120th Year of Founding of Order in U. S. At Thursday Night Meeting

The meeting will celebrate the 120th anniversary of the founding of the IOOF in America.

Thomas Wildey, a mechanic by trade, came to Baltimore in 1817 from England, where he had joined a lodge of Odd Fellows, and thinking that such an order was needed in America, he discussed the plan with John Welch, a fellow countryman and an English Odd Fellow.

Together they inserted the newspaper advertisement, 42 words in length, asking to meet others who had been Odd Fellows on the other side of the Atlantic. Three answered the call and on April 26, 1819, America's first lodge, Washington Lodge No. 1, was formed in Baltimore.

From this seed the great fraternal order has grown and from the five members in the original lodge it has developed into the Independent Order of Odd Fellows, encompassing 1,500,000 members today in 48 states, 15 nations and 13 provinces. It maintains 65 homes for the aged and orphaned.

The Grand Lodge of Texas was founded in 1838. The Lakeview Lodge was chartered in 1910. Special services commemorating the founding of the order will be held on Thursday night, April 27, at the Lakeview IOOF Hall.

Weatherby Offers Proposed Sales Tax Debated Tuesday

Weatherby Feed & Storage, local feed distributors, have just been made an approved Purina Custom Mixing Station, according to an announcement just received from the Purina Mills, St. Louis.

"We are fully qualified," Weatherby says, "to render the type of custom-grinding and mixing service that Purina Mills authorizes in the announcement. We are completely equipped to grind the farmer's own grains and mix with them a balancer that the Purina Laboratories and Purina Experimental Farm have found to be practical and economical. By grinding the farmer's own grains and blending with them the proper Purina balancer, it is possible to increase the return the farmer gets for his grains when he markets them through his livestock and poultry in the form of pork, beef, eggs, or milk."

Certain definite standards had to be met before they could become a Purina Custom Mixing Station, according to Weatherby Feed & Storage.

"As specified by the contract," they say, "we have inspected the Purina Experimental Farm and Laboratories where the proteins in Purina balancers are synchronized and blended. And we have counseled with the Purina Research Laboratories on the particular application of these balancers to farm conditions in Texas. Too, we have subscribed to the Purina Rations Service, which entitles us to the help of the Purina Laboratories provide a complete set of rations made of corn, oats, wheat, barley and rye, and Purina balancers."

"Finally, before getting definite approval as a Purina Custom Mixing Station, samples of the mix of several of these rations as made by our grinders and mixers had to be sent to the Purina Analytical Laboratories so they could check the efficiency of our machinery. Our receiving final approval speaks well for the quality of work our grinders and mixers do."

"This arrangement makes it possible for us to render an unusually high standard of accurate, uniform, and profitable feed mixing service for the farmers in this vicinity—a service particularly adapted to local feeding conditions."

To accommodate its customers along the new Hall County Rural Electrification power lines, the Taylor Appliance Store located on the north side of the square in Memphis, has recently built a display room at the rear of their store in which electrical appliances and electric wiring and equipment for REA subscribers will be on display.

All the equipment for REA wiring has been purchased under the requirements and specifications of the administration and will pass closest government inspection.

"Caves of Ice" Tell Electrolux Story

Cleopatra's wine bearers, the Roman Emperor Caligula's barge, a "well-house" of the Pilgrims in Massachusetts, the Aurora Borealis, luminous against frozen Arctic regions, are just a few vivid pages out of the exciting story of refrigeration which will be told from start to finish in "The Magic Caves of Ice," the exhibit being staged at the New York World's Fair by Servel, Inc., manufacturers of gas and kerosene refrigerators.

In describing the exhibit, one of the most unusual of its kind, V. L. Taylor, sales manager of Taylor Appliance Store, which handles Servel Electrolux in this vicinity said:

"Those who see the 'Magic Caves of Ice' will gain a new perspective on the relationship of adequate food protection and the development of the means of obtaining it from primitive life to modern day living.

"The exhibit is to be staged in the gas industry's 'Court of Flame' building at the World's Fair. Immediately on entering the exhibit the visitor will find himself surrounded by the strange icicle-like formations of the Ice Age. Long-tapering cylindrical forms known as 'stalactites' hanging from the roof, meet 'stalagmites' another type of geological formation, rising in weird array from the cavern floor.

"Dim lighting, an opening in the cavern walls disclosing a midnight sky brilliant with stars, the Aurora Borealis throwing its mysterious glow over the frigid Arctic, will all add to the realism of the story. A giant Servel Electrolux refrigerator, about 12 feet high, will move constantly on a turntable in the center of the exhibit."

"Outstanding among the sights to be seen in the 'Cave' are ten dioramas which paint a graphic picture of the development of domestic refrigeration from its primitive stages to the present-day silent refrigerator.

"This series of dioramic displays begin with the cave-man and his 'kill,' placed in deep recesses of his cave where cool air kept food from spoiling for a short time; then Cleopatra's wine bearers will be shown, where films of ice formed by the desert night winds were used to cool the beverages and other delicacies served by Egypt's glamorous queen.

THE HUMAN EQUATION

HUMAN LIFE is the cheapest commodity on the world market. That cold-blooded evaluation has long been recognized during time of war, but it is even more shocking to realize that human life and safety is now being weighed in the balance of political expediency in the great State of Texas and sold short by the exponents of economy in state government.

It is false economy that endangers the lives of thousands of citizens and risks the loss of hundreds of thousands of dollars in property to effect a minor saving in the expense of state government. Yet that is the sum total of the recent action by the Senate Finance Committee in slashing the annual appropriation for the State Department of Public Safety \$650,000.

Only a few weeks ago the department of safety was pointing with pride to a record reduction of 20 percent in traffic fatalities on Texas highways during the past year, and at the same time keeping ceaseless vigil in an attempt to reduce the tremendous loss of human life still more during the present year.

On the basis of last year's record in traffic enforcement alone the department, one of the smallest and least expensive branches of the state government, has justified its existence. Now, if the senate committee's recommendations are adopted, it is faced with virtual elimination.

Homer Garrison Jr., director of the department, after viewing the possible remnants of Texas' most effective law enforcement body in the light of the "economy" slash, announced this week that, should the reduction become effective, 115 patrolmen-examiners from the already over-taxed staff and 46 patrol stations, including one located at Childress, would be eliminated; the entire narcotics division which has, during its two brief years of existence, waged a successful fight against illegal dope trafficking would be wiped out; the driver's license bureau crippled beyond effectiveness; and the special investigators and bureau of identification, which has played a major role in crime prevention and detection, practically destroyed.

It is difficult to reckon the value of human lives in dollars and cents . . . but the savings in property effected by the department in its various activities during the past year would alone make the \$650,000 economy slash appear trivial by comparison.

BOOST MEMPHIS SCOUTS

SINCE THE advent of scouting in America, countless thousands of young Americans have grown up to be valuable and respectable citizens under the influence and guidance of the Boy Scout code.

With the re-organization of scouting this year in Memphis, an increasing number of young Memphians are taking advantage of that same opportunity. These youngsters are working enthusiastically to make their scout organizations the best in the country, and in doing so they are learning the valuable lessons which scouting offers every boy.

They are learning the scouters code, which is the American code of living. They are combining healthful outdoor exercise with healthful mental training which produces good citizens. They are growing up with the ideals and opportunities which should be the inalienable right of every American boy.

The success of the scouting movement in Memphis must depend, primarily, of course upon the interest and enthusiasm of these boys who are its members. They cannot succeed, however, without the wholehearted and active co-operation of their parents, the older citizens and leaders, and the community as a whole.

Every citizen of Memphis who has a boy of scout age, or a boy who may be or has been a boy scout, or every citizen who is interested in the progress and future welfare of his community, should investigate the purpose and aims of the Boy Scout organization.

The local troops already have a number of enthusiastic supporters, both among individuals and organizations. They are off to a good start, but they need all the encouragement and active support which public spirited citizenship can give them. A boost for the Scouts is a boost for the community . . . for today and for the future.

Lush Pastures in Hot Months

By T. C. RICHARDSON, Secretary
 Breeder-Feeder Association

For a few months in spring and early summer native pastures in the Southwest usually grow luxuriantly, and livestock thrive accordingly. As the heat of summer grows, often intensified by insufficient and irregular rainfall, the native pasture grasses slow up and sometimes dry up, and grazing animals quickly show the effect of changing from lush, green feed to scant, dry feed.

This is especially bad for dairy cows and the weekly cream or milk check drops with discouraging speed. A dairy cow should have plenty of time to lie up in the shade and ruminate, in order to keep up a good milk flow. If she has to spend four or five hours grazing a "fill" or the sun becomes unbearably hot before she gets a "fill" she hasn't much time left to manufacture milk. Cows will not stay out in the hot sun and graze more than enough to assuage the pangs of hunger, so it is vitally important that the grazing be richer in hot weather than when it is cool. It is the surplus feed above the hunger margin that supplies the milk flow, if any.

With native pastures, and in fact all except the very best improved permanent pastures, the grazing begins to decline at the very time when it should be best. Sudan grass is ideal for filling out the midsummer deficiency, for it will be at its best after the spring growth of native grasses begin to decline, and since the seed is cheap, there is no excuse for failing to plant enough to keep the cows happy during the hot months.

Sudan is adapted for temporary pasture throughout the South-west. It will produce more ton-

nage per acre in its short season than any other annual grazing plant we have. It will grow on all our soils, and as someone once happily phrased it, "sudan grass laughs at the drought and rejoices at the rain." In short it will produce under a wide variety of soil and rainfall conditions, and while it is resistant to poor soils and light rainfall, it responds luxuriantly to good soil and ample moisture.

Sudan grass may be planted at any time after cotton planting time, when there is sufficient moisture to germinate the seed. It may be drilled for cultivation with whatever implements are

Paul in Europe

The International Uniform Sunday School Lesson for April 30.

Text: Acts 15:36; 16:4-15.

IT is quite probable that some of those of the new Christian faith had already made their way into Europe before Paul went to the Imperial City.

But they had lacked Paul's fervent spirit of propagandism and his organizing genius.

Paul's crossing to Europe in answer to the Macedonian call may be regarded as the real introduction of Christianity into Europe. There it was soon to transcend its growth and spread in Asia.

IT is well that we should grasp the dramatic fulfillment of this beginning. Paul comes to Macedonia in response to a vision in a dream. His course in the Grecian cities of culture and progress is not greatly different from the course shaped by persecutions in the cities of Asia Minor.

We find him in the midst of riot and tumult in Ephesus as hostile Jews and pagan Greeks alike resent his proclamation of the Christian faith; we find him thrust into prison at Philippi, in the stocks with his companion Silas, and far in the inner dungeon; we find him disputing with the seekers of religious novelty on Mars Hill in Athens, laughed to scorn when he speaks of the resurrection.

Yet, here and there, as he went, in spite of hardships and persecution, he left groups that developed into churches, and churches that developed into a great movement, until the Church—becoming a more worldly organization—attained

its place as the chief power in the Empire.

We find the Christian movement spreading westward until it attains a conquest over the Germanic tribes which Roman arms never achieved, and we find it taking root and a firm hold in the British Isles and in the far western Ireland.

Then, later, the movement spreads from Europe to America. And now, under the influence and power of world-wide missions, we see Christianity circling the globe and taking a firm root in far eastern lands, until Madras, a city of that far east, becomes the scene of a great World Christian Council.

SURELY Paul's faith, vision and heroism have been vindicated in history, although we see again in this modern world that great struggle between Christ and anti-Christ that exists in the beginning of Christianity and that has broken out violently again in various eras.

Pagan German leaders of today speak with scorn of this religion that conquered their early tribes where Rome failed, and they seek again to destroy this religion and to wreak their vengeance upon the people to whom the Christ belonged and out of whose Jewish ideals and foundations Christianity came.

It is a time for all Christians to seek a share in Paul's vision and faith. It is a time for us to remember whence our religion has come and how much the Christian world owes to the Jewish race; also how essentially Jews and Christians are linked together in the great ideals of righteousness, brotherhood, and peace.

Smiling Republican Edward J. Noble, above, industrial leader and former chairman of civil aeronautics authority, has been named executive assistant to Democratic Secretary of Commerce Hopkins. With the appointment, hopes for "appeasement" between business and administration have been revived.

available, and experimental data shows that it thrives best under cultivation early in the season. The rows can be as close as 18 to 20 inches, or as wide as the standard width for corn and cotton cultivators. The preference is for about half the width of cotton rows, for either grazing or hay.

Drilling with a grain drill or broadcasting is not recommended at all if it is to be grazed, and if sown for hay, broadcasting is adapted only on very fertile land where there is likely to be plenty of rain. By and large, experience indicates that row-planting, with some cultivation, is best.

Since we are concerned mainly with providing summer pasturage to keep up the milk flow and supply other livestock and poultry with a vitamin-rich forage all summer, let's be sure some sudan is planted, sometime this spring. If there is a fenced field for it so much the better, but if not, a temporary fence can be run when grazing time comes. This may seem like a lot of trouble to take for the sake of a few months grazing, but it will pay off in the milk checks, the egg yields, the thrift and growth of every animal and fowl that has access to good green forage when the native pastures fall off.

Report on Associated Farmers May Cause a Major Shift

BY SPECIAL CORRESPONDENT

WASHINGTON.—Sensational disclosures of anti-union activity are promised when the LaFollette civil liberties committee report on Associated Farmers is made public.

If the report leads to an investigation, the life of the LaFollette committee will be prolonged. It was to have been dissolved this session because of lack of funds.

The Associated Farmers represents itself as an organization of farm owners in California, Oregon, and Washington, set up to discourage farm labor picketing and strikes, inspired by west-coast Communists and agents of the urban longshoremen's and truckers' unions.

A DOZEN civil liberties committee investigators have submitted for the record that Associated Farmers is a front for big business, railroads and public utilities, and that it is financed by these industrialists to break up labor organizations.

Most interesting to the committee is evidence it has collected to support charges that Associated Farmers primary motives are to break strikes, to prevent labor organizations from spreading to migratory farm laborers on the west coast, and to stop collective bargaining with any means available.

Awards Now Draw Attention of All Ranking Students

Medals for Scholarship And Achievement to Be Given Best Students

As the date fore the awarding of the scholarship medals draws near the school fairly buzzes with activity and every student radiates courtesy, not only to the teachers but to their fellow students. Those running neck to neck are exerting that last bit of effort that may win for them the coveted medal.

This year for the first time the Lakeview school will present achievement awards. There is one for the highest grade average made in each of the four classes, one each for the valedictorian and the salutatorian, and one for the girl and boy selected as the best all-around ones in school.

These awards will be made the night of May 18 which is the closing time for the present school term. At this time another award will be made to the person in the community who has contributed most in service to the community and school.

Lakeview Boys Are Stock Exhibitors

Seven head of breeding hogs and seven beef calves were shown at the Hall County stock show by Lakeview FFA boys. R. S. Wansley, Pat Davis and Sammie Crawford won second, third and fourth respectively in the division of breeding hogs. Others showing breeding hogs were Carlton Wallace, Joe Neal Berry, and Talmadge Pitts. Boys exhibiting calves were Foy Young, Keith Wells, Junior Barbee, Stacey Waites, Tye Williamson and Royce Edens. Boys expecting to feed calves next year are planning on starting in the near future so their animals will have sufficient finish to show at an earlier date than they were this year.

By MRS. WILMA DAVIS

Mr. and Mrs. Vernon Sasser and children were visitors in Memphis Saturday. Mr. and Mrs. W. S. Lyon and son of Bridle Bit were guests in the J. T. Dennis home Sunday. Mrs. C. C. Worley and children of Breckenridge are visiting her parents, Mr. and Mrs. L. H. Grant. Mr. and Mrs. Walter McMaster and children were Lakeview visitors Sunday. Mr. and Mrs. John Smith spent the week-end in Melrose, N. M., visiting Mr. and Mrs. Louis Morrison. Lawrence Daniels of Sudan was a visitor in the J. T. Dennis home Tuesday. Edgar Foster and Rev. Sargent took A. S. Harwell to Santa Anna Saturday to receive medical treatment. Mrs. W. L. Crawford returned home Sunday from Gainesville. Her mother who has recently undergone an operation returned with her for an indefinite visit. T. J. Harwell of Santa Maria, Calif., returned to his home last week.

Students in Three Regional Events

Lakeview school will be represented at the regional meet in Canyon Friday, April 22, by three different groups.

Christine Williams and Sylvia Gable will represent the Lakeview team in double tennis. These girls went to the regional last year and did some fine playing, however, they did not place. They have been doing some hard work out and from all indications they will place at the regional this year.

Damon Hoggatt, Katrina Rice, and Louvys Orrell will be Lakeview's team. These students have been "pounding keys" all of the school term and should be able to carry off some honors at Canyon. Ernest Evans will run the mile in the field events. He has run in the field events for the last two years, being defeated in the district last year.

Typing Teams Win At Clarendon

The Lakeview typing team, winner last week at the District Interscholastic League meet in Childress, attended an invitation typing meet at Clarendon April 12. Lakeview captured the first match, losing the second to Clarendon.

A member of the Claude team won first individual honors in both matches. Damon Hoggatt, Louvys Orrell, and Katrina Rice will represent Lakeview at the Region 1 Interscholastic League meet in Canyon Saturday, April 22.

NEW OFFICERS ELECTED FOR LAKEVIEW P.-T. A.

The Parent-Teacher Association met in a business session on Tuesday, April 11, and elected new officers. The officers elected were as follows:

Mrs. H. R. Wallace, president; Mrs. O. L. Favors, vice president; Mrs. Don Wright, secretary; and Herbert Payne, treasurer. The new officers are looking forward to a busy P.-T. A. year.

The retiring officers are Mrs. Lee Blanks, president, and Mrs. Del Wells, secretary-treasurer.

Delegates to represent the local association at the district meeting at Borger are Mrs. H. R. Wallace and Mrs. H. H. Colley.

The next meeting is scheduled for April 28 which will have as its theme "Know Your School." All patrons and members are urged to attend this program.

GRADE SCHOOL NEWS

The fourth grade students are making birds and bird houses in connection with our bird unit we are studying.

The second and third grades had an Easter egg hunt last Friday. Mrs. Hagens served punch and cookies to the children after the hunt. The first grade pupils are working on a scrap book about their school and all the things they have done this year.

Mrs. Wallace and Mrs. Henry Foster took the fourth and fifth grades on a picnic Thursday afternoon. Everyone had an enjoyable time.

The sixth grade is studying about China in geography. They are working on some scrap books now.

Bill Coffey of Amarillo was a business visitor in Memphis Tuesday and Wednesday.

Twenty-six Lakeview Vocational Agriculture students visited the Texas Agricultural Experiment Station at Spur, Saturday, April 15.

Other schools visiting on that date were Estelline and Childress. Divided into groups the boys were taken over the station where the various experiments were explained and the results could be seen. The Spur station is a pioneer in methods of soil and water conservation both for crop and pasture land.

The growing popularity of trench silos made observation of those in practice of particular interest. One group of steers were being fed on a ration consisting of cottonseed meal and silage and were not only making economical gains but were well finished steers at the end of a 200 day feeding period.

The boys saw in actual practice various methods of water conservation on plots of land where accurate records of rainfall and yields had been kept for more than twenty-five years and the effect of using these methods in conserving both water and soil.

A visit to the creamery ended the program for the day. Pro-

esses involved in the pasteurizing of milk, making of butter, ice cream and cheese were observed. The latter of which is a growing industry in Texas and especially West Texas.

Those making the trip were Hal Barfield, Billy Craft, Junior Barbee, Edward Hillis, Libbert Lockhart, Junior Metton, Merlin Summers, I. W. Summers, Berle Bevers, David Lawrence, Lloyd

The Safety Sensation of 1939!

THE NEW Firestone CHAMPION

The Only Tire Made with the NEW SAFETY-LOCK CORD BODY and NEW GEAR-GRIP TREAD...

NEVER before in our experience has a tire met with such instant and unanimous approval as the new Firestone Champion Tire. It's the Safety Sensation of 1939! Our customers have started a word-of-mouth campaign that is making this the biggest selling tire we've ever had. Motor car manufacturers have been so impressed by its superior performance that they have adopted it for their 1939 models.

Why? Because the Firestone Champion Tire is an entirely new achievement in safety engineering.

Stronger Cord Body. This is accomplished first, by the use of a completely new type of tire cord called "Safety-Lock," in which the cotton fibers are more compactly interwoven to assure cooler running and provide greater strength. Then, the fibers in each individual cord, the cords in each ply and the plies themselves, are all securely locked together by a new and advanced Firestone process of Gum-Dipping which provides amazingly greater strength. And greater strength means greater safety.

More Non-Skid Mileage. The new Safety-Lock cord construction provides the extra strength needed for the use of the new, thicker, tougher, deeper Firestone Gear-Grip tread which delivers remarkably longer non-skid mileage. This sensational new tread is called "Gear-Grip" because of its unique design — it has more than 3,000 sharp-edged angles which grip the road with a sure-footed hold to protect against skidding and assure a safe stop.

Drive in today and equip your car with a new set of Firestone Champion Tires — the only tires made that are safety-proved on the speedway for your protection on the highway.

Listen to The Voice of Firestone with Richard Crooks. Listen to The Firestone Voice of the Farm—Everett Margaret Speaks and Alfred Wallenstein, Monday. Mitchell interviews a Champion Farmer each week evenings over Nationwide N. E. C. Red Network. during noon hour. See local paper for station and time.

Records of Underground Water Survey In Collingsworth Available Here

The State Board of Water Engineers announces the release in mimeographed form of the records of wells and springs obtained during a recent ground-water survey in Collingsworth County conducted by the Works Progress Administration and sponsored by the Texas Board of Water Engineers in cooperation with the U. S. Geological Survey.

This release contains 62 pages, giving records of 326 wells, 65 springs and two tanks, drillers' logs of 11 wells, logs of 94 test holes and partial chemical analyses of 292 water samples taken from wells, springs and test holes. The locations of all wells, springs, and test holes are shown on a map in the back of the publication.

The field work was started August 24, 1938, with C. R. Follett, engineer, as project superintendent, and was completed by Bruce Wilson, geologist, on November 14, 1938.

The analyses were made by chemists employed on Works Progress Administration project 10443 under the direction of Dr. E. P. Schoch, director of Industrial Chemistry of the University of Texas, and E. W. Lohr, chemist, of the Quality of Water Division of the Geological Survey; the Bureau of Industrial Chemistry furnished laboratory space and equipment.

This project is part of a statewide inventory of water wells started in 1935 being conducted to obtain information concerning existing wells, to ascertain the quantity and quality of water they yield, to put down test holes in areas where no wells or few wells exist, and to compile and publish the information thus obtained.

The inventory was a preliminary survey and the information obtained is now being used in a more intensive investigation of the ground-water resources of the High Plains by the board of water engineers in cooperation with the geological survey.

Copies of this release are available at the offices of the Board of Water Engineers at Austin, and of the Geological Survey, Washington, D. C. Copies are also on file and may be consulted at the chamber of commerce office in Memphis, the Memphis Carnegie Library, and at the high school libraries in Estelline, Lakeview, Turkey and Memphis.

Large Crowd Sees Latest Production By Little Theatre

"Skidding" Plays To Full House at Auditorium Here Last Tuesday Evening

"Skidding," a Judge Hardy comedy produced by the Memphis Little Theatre, played to a near capacity crowd at the High School auditorium Tuesday evening. The production, directed by Mrs. T. M. Harrison, was well received by the large audience.

Mary Helen Hardin in one of the leading roles as Marian Hardy turned in an excellent and convincing performance of a headstrong young girl torn between the choice of a career in politics and marriage with the man she loves.

Harry Delaney, in the role of the doddering old grandfather, gave a fine character act bordering at all times on the ridiculous, and treated the audience to a few good laughs. Captain F. W. Maxwell as Judge Hardy, Mary Dees as Mrs. Hardy, and Verna DeBerry as Aunt Milly all performed creditably, and James Fultz as Andy was a typical American boy.

Jack Jarrell played opposite Miss Hardin as the leading man and masterful suitor, Mary Harrison and Genevieve Williams were cast in the roles of the two Hardy daughters, and Noah Cunningham was the pompous politician.

Locals and Personals

Dr. T. L. Lewis of Childress attended Rotary luncheon here Tuesday.

Local Masons Will Meet Grand Lodge Rally in Amarillo

1,000 Blue Lodge Masons Expected to Attend Big Session on April 29th

Masons from nearly 40 Panhandle points will go to Amarillo to meet grand lodge officers, Saturday, April 29.

It will be the first time in the history of Panhandle Masonry for such a meeting, expected to attract at least 1,000 "blue lodge" members.

Lee Lockwood of Waco, grand master; George Ballew of Waco, grand secretary; Leo Hart of Gilmer, deputy grand master; J. J. Gallaher of Waco, grand treasurer; Sam B. Canty of Fort Worth, grand senior warden; and Dr. E. M. Wood of Anson, grand junior warden will be in Amarillo for the all-day event.

Henry C. Lyle of Amarillo, district deputy grand master, has announced the officers of the grand lodge will meet with the officers of all the Panhandle lodges at 3 o'clock that afternoon in Masonic hall, 7th Avenue and Taylor street, Amarillo.

At 6 o'clock a barbecue will be served in Amarillo's Municipal auditorium to all Masons, and at 8 o'clock that night the grand officers will open the Grand Lodge in municipal auditorium.

Masonic lodges to be represented at the meeting are located in Memphis, Lakeview, Clarendon, Wellington, McLean, Shamrock, Quail, Pampa, Mobeetie, Hedley, Wheeler, Alanreed, Dodsonville, Claude, Canyon, Panhandle, Groom, White Deer, Hereford, Vega, Miami, Higgins, Canadian, Ochiltree, Glazier, Darrouzett, Booker, Follett, Stinnett, Dumas, Spearman, Borger, Gruver, Dalhart, Stratford, Texline.

Members of the two lodges in Amarillo will aid as hosts at this first regional meeting.

A large delegation from Memphis and Lakeview lodges are expected to attend the meeting. According to N. W. Durham, worshipful master of the Memphis Lodge, representatives from each of the above named lodges will be stationed at the door to vouch for members so that examination will not be necessary.

J. Brice went to Kansas City this week on business.

Forest Service to Aid in Shelterbelt Cultivation Here

Offers Equipment And Assistance to Owners Of All Shelterbelts

The Prairie States Forest Service, having planted several hundred thousand trees in shelterbelts throughout Hall County, is now preparing to aid farmers in cultivating and caring for the newly planted stock. I. Frank Pierce of the local sub-district office stated Wednesday.

Early cultivation is necessary, Pierce said, especially in view of the recent spring showers. The Forest Service has specially built equipment for cultivating the shelterbelts, and will lend it to any farmer desiring the service.

In addition poisoned grain to kill gophers, rabbits, rats, and other rodents preying on the trees is available at the local shelterbelt office and will be furnished free of charge to any farmers owning shelterbelts.

While the planting season has been closed, the Forest Service will keep the local office, in Room 1 at the First National Bank building, open every Saturday from 9 a. m. until noon, and from 1 p. m. to 4 p. m. Someone will be there at those times, Pierce said, to give any needed assistance.
