NEW BAND UNIFORMS.

Making Great Strides Towards a First Class Band.

new uniforms for the Memphis band were received from St. Louis and the boys are going to wear them out tonight for the first time. They are made up not fit just exactly as ordered, they are in dead earnest about having a band. This set of uniforms cost in the neighborhood band have promised to pass a petition among the business men of the city for a public donation to pay for these uniforms. This donation will be in small amounts to be paid each month for the next succeeding six months, and the boys promise to give an open air coneert each Saturday afternoon at the prviilion in the court house yard and also play for other public gatherings for the benefit of the public. These Saturday afternoon concerts will be of great benefit to the town and each business man in the city ought to be willing to put their name down for as much as a dollars a month for the next six months. Lets help the band diminishing.

RACKS THAT MATCH TABLES

Newest Kind Is Made of Thin White Wood and Covered with Fancy Material.

Handsome racks can be bought in brass and different woods to match various tables. Those in burnt wood are also popular, with those who like this form of decoration.

So much of this decorating is done by amateurs that it is one of the first kind of rests chosen to make. Far newer, however, are the racks made of thin white wood and covered with fancy cretonnes, embroidered brocades or other materials.

The wood part is made to slide like the ordinary racks, and is either painted white and enameled or is stained to correspond with table, on which it is to be used.

Even easier to make are the racks with two ends and under slides with no connecting rods. Each end has an upright with rounded or square angles to be slipped under the end

These frames may be made of wood or heavy cardboard, and are covered with green burlap, bound with dull gold braid and have flat brass ornaments pasted on each end.

Johnsey & Foreman, contract-

"KITTIE." HOTEL CLERKS'

Box Into Which Excess Change Is Dropped to Make Up Pos-

"The 'kittie' is the latest thing for the protection of hotel clerks," said John Rohman, chief clerk at the Old

"The 'kittie,' " he continued, "is a strong box with a slit in the lid in which we drop any excess change that comes along.

"For instance, if a guest overpays his bill and gets away before the mistake is discovered, we drop the extra money into the 'kittie,' which is never opened until some of the clerks find themselves short. The other day one of our boys came up two dollars ahead in his accounts. One of the guests had evidently paid two dollars more than he should in settling his bill. There was no way to locate the guest, and the two dollars went into the 'kittie.' A day or two later I came up two dollars short, so I went into the 'kittie' and got out the two dollars.

"The management of every hotel makes the clerk or cashier stand for any shortage of the cash drawer that occurs on the particular clerk's watch. The 'kittie' is an invention of the clerks at the French Lick hotel, but many hotels have adopted the plan."-Louisville Times.

A Case of Hookworms.

A physician of this city discovered a case of hookworm disease a few days ago in a little girl from Caviness who was being treated at the Aikin hospital as a charity patient. He says that from reading up on the disease closely he is thoroughly derstood that other physicians ously. agree with him in the diagnosis of the case. The little girl has since recovered and has been lischarged. The hookworm disase along with pellagra has been called a new disease, but it is said to have existed for years, but has only recently been attracting the attention of physicians. It is said that many cases chewing of slate pencils, resin, coffee or dirt eating are the ef-Paris News.

CHILD IS WISER THAN MAN

His Instinct Often Is More Reliable Than the Wisdom of His Parents.

The imposition of any form of rerelic of barbarism, a blunder on the part of the parents and a sign of gnorance of the laws of nature. Not only is it true that the child is father to the man, but in certain directions every 4th Friday night. ne is man's superior in wisdom. The prevailing parental notions on the rearing of children are crude, archaic and altogether unworthy of enlightened twentieth century civilization.

gence inside of them," to quote the day school at 3 o'clock. anguage of Dr. Woods Hutchinson, and this tells them what is best for hem to eat. It is an admirable provision of nature. One cannot overfeed them despite all the old superstitions to the contrary. A child who wishes to eat between meals should be permitted to do so, for his system requires the food. If he displays a craving for sweets, the crav-

in this matter, as explained by Dr. Hutchinson, leads one to wonder imagined.—Rochester Democrat and | welcome to these services.

DIDN'T FEAR FOR HERSELF

Mme. Reynolds, at Eighty-Six, Had no Thought of Dying Within Next Two Years.

At the age of 86 Mme. Reynolds still found much zest in life and having retained all her faculties she felt that a few of the physical disabilities of her age were of small account and portended nothing. Her nephew Thomas was a man of much worth but of a certain tactlessness of speech which always roused the ire of his aunt.

A few weeks before the old lady's eighty-seventh birthday Thomas. who had been overweighted with business cares for years, started on a trip round the world which was to consume two years.

"I've come to say good-by," he announced when he appeared at his aunt's house, in a town 50 miles distant from his home. "I'm starting round the world next week and as I'm to be gone two years and perhaps longer I thought I might not ever-well, you understand, I wanted to be sure to see you once

The old lady leaned forward, fixg him with her beadlike eyes.

"Thomas," she said imperatively, do you mean to tell me the doctor doesn't think vou'll live to get ack?"-Youth's Companies.
