NUMBER 17

WARNS PUBLIC AGAINST HUN PEACE

DALLAS, Oct. 7.—R. L. Van Zandt, chairman of the Liberty Loan Executive Committee for the Eleventh Federal Reserve District, gave out the following:

"If the latest peace offensive were allowed to affect the volume of subscriptions to the Liberty Loan it might be well regarded as a German triumph. Staggering and blind with blood the German monster is commencing to whine. Surely it is now that we must stand solidly behind our government, ready for any eventuality, with victory assured.

"I know of no greater incentive to the purchase of Liberty Bonds than the fact that the money invested will be used so directly and effectively for the object to the attainment of which we have given up even our own flesh and blood. I consider that the Central Powers have provided us with a valuable contribution toward the success of the Liberty Loan."

EARLE TRAPP WRITES FROM FRENCH FRONT

Americans Retain Their Pep In Spite of Discomforts and Bad Weather.

Somewhere in France Dear mother, dad and kiddies: Mama dear I received your two letters yesterday and you can't imagine how it braces a fellow up to get a letter from home.

(Half-page censored) Am in good health and going strong at the present time, but it is a very uncertain country over here. One can only live in the present and not count on the future, but I am intending to come back some day, if I am one of the lucky ones and God is willing. Our trip over was a long tiresome one we sailed the 14th of July and was 13 days on (half-page censored).

I was on detached service from the regiment for about a month and was in a couple more raids but nothing serious. Believe me the "Yanks" are showing the "Boche" how a man can fight. They can't understand how the untrained American (as they have been taught) can lick their best storm troops "Prussian Guards" but the U. S. soldier stops for nothing but he gets the Boche with cold steel which he can't stand. Their loss since July is awful and many prisoners.

France is a very beautiful country (where the Germans have not been) and very old and historical. I have seen the works of the Romans and the grave of St. John the Baptist and many other old places and the place where St. John baptised his first subject.

But give me a little old place to stand in the U. S. A. and would come on the gallop. Wines, beers and such are very cheap over here and seem plentiful. And the French people are great admirers of the American soldier, especially the young girls, "ha ha," that is what the boys tell me.

You should see me dressed up in my war clothes they are slightly different from our old regulation. We have a steel helmet, wrap leggings, hob-nailed shoes and a gas mask. This gas mask is a soldier's best friend and a life-saver. It is just the same as your eyes, for without it you would not live long enough to tell the tale. I am sending a clipping from a Paris paper, which had an American casualty list and it has my cousin's name in the killed-in-action, that is I suppose it is him. I guess it is the same Donald, poor fellow he has done his part in this last drive, but there will be many a sad heart at home before this war is over, but it can't be helped, for we have to do our duty, and it is for the good of all the world and will make it safe for our mothers, sisters and dear little wives to live.

It sure is very nasty weather here now and has been for the past week, raining, cold and very muddy. Makes one feel uncomfortable to always be wet and tired, but we are full of pep.

There has been quite a few of the boys I used to soldier with paid the price at the front but they all did so with their face toward the "Boche". The machine gun fire they tell me is very destructive and they have been facing that all the time for the last two months. Well mama, and all, I want you to not worry over me for I am O. K. and I am going to come home soon, I hope, but if I should not, I will go doing my duty and know that I will always be in your memories so kiss dad, sweet sister and baby brother for me, give my best regards to my old old friends and best wishes to the ladies of the Red Cross for they are certainly doing their part. So remember to write to your son and buddy over here often as it helps me so much to hear from you.

I am always your son and buddy love and kisses to all.

F. E. TRAPP

P. S. I have celebrated my 28th birthday "over here".

Mr. and Mrs. N. Witt, returned Tuesday night from Mineral Wells. Mr. Witt is considerably improved in health but is not yet strong.

GERMANS ISSUE PAPER FOR THE AMERICANS

Huns Put Out Weekly Paper Carrying Propaganda for American Soldiers

New York.—The latest German propaganda is a weekly newspaper American Europe, writes Herbert Bailey, in the New York Sun, published in the interest of good fellowship among all nations. All communications it says should be addressed to America in Europe company, Frankfurt. On one of the paper's pages is an advertisement of the amusements in Frankfurt, although how American soldiers can arrive in time to see these performances, which change weekly, is a problem.

The paper is produced cleverly, in good English. I have seen two issues, one with a cartoon depicting John Bull pouring out money to the great anti-German papers all over the world, and the other representing, in crude characters, John Bull instructing Lyd George to fool Uncle Sam and tear up the Monroe Doctrine.

Throughout the pages of the paper are quotations of all kinds from the allied newspapers, used in such a way as to try to cause trouble between the United States and Great Britain, which appears to be the supreme object of the publication. Copies are regularly sent over the American lines in tiny balloons.

The Germans, however, in this new propaganda, understate the intelligence of the American soldier, much as they did before the St. Mihiel offensive began.

Information to the public regarding Spanish influenza is being disseminated through the Red Cross organization at the request of Surgeon General Blue.

PRESIDENT QUESTIONS GERMAN PEACE OFFER

No Peace With Enemy On Allies' Soil. German People Must Say.

Washington, Oct. 8.—The text of the communication handed to charge of Switzerland here, follows:

"Sir: I have the honor to acknowledge, on behalf of the President, your note of Oct. 6, enclosing the communication from the German Government to the President; and I am instructed by the President to request you to make the following communication to the Imperial German Chancellor: "Before making reply to the request of the Imperial German Government, and in order that that reply shall be as candid and straightforward as the momentous interests involved require, the President of the United States deems it necessary to assure himself of the exact meaning of the note of the Imperial Chancellor.

"Does the Imperial Chancellor mean that the Imperial German Government accepts the terms laid down by the President in his address to the Congress of the United States on the 8th of January, last and in subsequent addresses and that its object in entering into discussion would not feel at liberty to propose a cessation of arms to the governments with which the Government of the United States is associated against the Central Powers so long as the armies of these powers are upon their soil. The good faith of any discussion would manifestly depend upon the consent of the Central Powers immediately to withdraw their forces everywhere from invaded territory.

"The President also feels that he is justified in asking whether the Imperial Chancellor is speaking merely for the constituted authorities of the Empire, who have so far conducted the war. He deems the answer to these questions vital from every point of view.

"Accept, sir, the renewed assurances of my high consideration.

"ROBERT LANSING."

Ginners' Report

The Government ginners' report the statistics for which were gathered up to Sept. 25 show that 198 bales of cotton had been ginned this season compared to this date '17.

Mr. E. M. Webster and daughters, of Hulver were here yesterday afternoon shopping.

Considerable rain and hail fell west of town Tuesday evening doing some damage to open cotton.

Influenza Mild Type Here

Local physicians say that though there are many cases of influenza here most of them are of a very mild type; only a few being seriously ill. No pneumonia as a result from the disease has yet been reported.

We are grateful for the number of renewals of subscribers this week; over 40 renewals and new subscribers having been added to the Democrat list.

ATTACK!

Our men spring to such a command with a yell of satisfaction.

FIGHT AS THEY DO

Attack the Hun with a force and recklessness that will sink fear to his brutish heart. Your weapons--sacrifice, saving, Liberty Bonds.

The Boche fears these as he does a bayonet, for deep down in his heart he knows that these things are already winning the war.

Lend as fearlessly as our boys fight.

Sacrifice self as they do, and spring to the attack as readily.

There's a thrill in being on the offensive.

Attack the Hun with Liberty Bonds

Reasons!

Why you should use Cardui, the woman's tonic, for your troubles, have been shown in thousands of letters from actual users of this medicine, who speak from personal experience. If the results obtained by other women for so many years have been so uniformly good, why not give Cardui a trial?

The Woman's Tonic

Mrs. Mary J. Irvin, of Cullen, Va., writes: "About 11 years ago, I suffered untold misery with female trouble, bearing-down pains, headache, numbness... I would go for three weeks almost bent double... My husband went to Dr. — for Cardui... After taking about two bottles I began going around and when I took three bottles I could do all my work." THE BEST BY TEST
that is a pointed way of putting it. Our lumber when used for building purposes is in itself a challenge to the wearing years of time. First our stock is pre-eminent because of the nicety of our selections — perfect grain, perfect seasoning, uniform strips. Secondly our lumber is subjected to a scientific process of drying which is a guarantee against shrinkage or warping. Despite all of these manifest advantages our prices appeal.

THE OCTOBER BRIDE RECEIVES ATTENTION

Display of Lingerie in The Shops.

With the October creeping upon us, the autumn bride steps forward and receives her share of attention. Many, many things are there to attend to. She never realized until she had to start and numerate her needs how truly plentiful they were. Of course, the part of the trousseau that requires the major part of time expenditure is the lingerie.

The suits and hats and dresses must be made but there is a lack of that little personal feeling that makes the selection and creation of the lingerie just purely delightful. The dainty little touches that

A Phase of the Tunic

may be added! The little frills, the coquettish little bow of some delicate color, that seems to wind its way from nowhere, but just appears, and makes no excuse for its presence, for, like the well-famed poet, it reasons that "If eyes were made for seeing, then beauty is its own excuse for being."

Silk Jersey is Practical

Although considered a luxury by those who have not tried its worth silk jersey is not an extravagance, but an economy. It outlasts many sets of cotton underwear and always looks so nice and fresh and delicate—especially now since there is on the market the facilities to keep it the original color. It is so easily laundered and may be washed out in lukewarm water and wrapped in a turkish towel, and it is sufficiently dry to press off in about half an hour. All these favorable qualities are bringing this fabric before the eyes of thoughtful women who realize that

before passing opinions on what seems to be an expenditure beyond reasonable limits, the possibilities should be tried out and if proved worth while, to substitute it for its inferior predecessor.

Then one must have a supply of crepe de Chine and Georgette just to feel like a bride, just enjoy that delightful sensation of possessing the most expensive kind of underwear to be had. Many novel ideas are to be seen in the shops, embroidered, hanging with lace and some are even beaded with tiny white or pale pink and blue beads. These are perishable things, but still it's only once, isn't it? Perhaps the most alluring thing to be seen is the boudoir cap. Modes from all periods of history have been adopted and suitable indeed are the designs that have as their inspiration the back pages of fashion history. The newest fad is to have the monogram on all of one's undergarments. This gives such a touch of distinction and tends to make more personal these already quipersonal fancies.

The Necessary Things

There are so many seemingly secondary affairs that are really the most important part of the trousseau. Gloves, for instance. The appearance of chamois is a blessing in disguise. These gloves are so serviceable and practical. Whereas kid would show the wear and tear of travel, these defy it, and they look always neat, trim, and smart. They are to be had at a reasonable price in beige color, white and various other shades that blend well with the suit, coat or dress.

Collar and cuff sets are in evidence and surely they are always welcome. For what freshens up a dress more than a change of the collar and cuffs! If these are soiled or worn-looking the entire charm of the costume is lost. Therefore, you who would look your best, use the utmost care and give this little matter your closest attention and thought.

Two Afternoon Dresses

What a daring line this tunic took! But why should it not! With that gorgeous material it took for granted that that was the prerogative claimed by this unique stuff.

Simple and Smart

The waist and skirt are developed in plain material and the combination is most attractive. The other illustration shows a simple little dress that would be suitable for street wear.

The bride needs dresses such as these, and of course there is the top coat, a wide selection of which are now being shown. Many of them are fur trimmed and they all follow faithfully the silhouette dictated by fashion.

The Alcazar two in one is the most elaborate, the most beautiful and the most ornamental ornament ever put in a kithen.

TELL THE KAISER!

J. C. DIONNE in the GULF COAST LUMBERMAN

And we're going to FIGHT—FIGHT—FIGHT side by side with our fellows in the cause of HUMANITY, until there is no vestige left on all this great earth of the powers that—defying God and man—precipitated this cataclysm of blood and tears.

There is only one sentiment in this whole broad land today, and the man who does not recognize it must indeed be deaf, dumb and blind; and that sentiment is a dogged determination deep down in the very bowels of every man THAT WE ARE GOING TO FIGHT UNTIL WE HAVE JUSTIFIED ITALY; SAVED ENGLAND! SWEPT IMPORTANT FRANCE FREE OF THE HUN; LIBERATED BELGIUM; AVENGED SO FAR AS IT IS WITHIN HUMAN POWER THE COUNTLESS CRIMES OF GERMANY AGAINST CIVILIZATION; BROKEN THE HINDENBURG LINE AND SWEPT THE ARMY OF THE BEAST AS CHAFF BEFORE THE WIND; HUMBLED THE EMPIRE OF HELL; AND PLEASE GOD RID THE EARTH OF THE KAISER AND ALL HIS FELL BREED!

If anyone asks you, tell them THAT is what we are going to fight for!

We're going to fight for Italy—which took up that cause of Right against the power of Wrong, terrible though she knew the cost must be!

We're going to fight in defense of those principles of human liberty which were laid down nineteenth centuries ago by that first great teacher and preacher of human rights—the MAN OF GALILEE!

Every iota of the philosophy and creed of HATE, and BLOOD, and VIOLENCE, and BESTIALITY, and diabolic CRUELTY, and human ENSLAVEMENT that mark every footstep of the Kaiser and his cohorts of Hell are in direct and damnable opposition to every thought, word, and deed, of the MAN OF GALILEE!

This is therefore no fight of DEMOCRACY against AUTOCRACY!
It is no battle of NATION against NATION!

It is no contest of MAN against MAN!
It is no titanic struggle between RIGHT and WRONG; between philosophy of JESUS CHRIST and the powers of EVIL, through the early defenders of each!

GERMANY wants to know what the United States is fighting for.

She thinks the sinking of neutral ships without warning isn't enough to bring us in.

All right! Let's tell her!
We're going to fight for outraged women!

We're going to fight for crucified nuns!
We're going to fight for little children with hands and arms missing!

We're going to fight for namelessly mutilated soldiers!

We're going to fight for innocent thousands strewn upon the bottom of the sea!
We're going to fight for Belgium—outraged and desecrated as no nation in the previous history of the world has ever been!

We're going to fight for France—that magnificent nation of heroes—bled white defending civilization against Power of the Beast!

We're going to fight for England—which chose the path of honor black-tinted with despair—when the little nation she had sworn to defend was set upon as by a wild beast!
