

CLUB BOYS AND GIRLS DO MUCH FOR FARM LIFE

FIVE MILLION CLUB MEMBERS HAVE MADE GREAT ADVANCEMENT

In reviewing 4-H club work over the ten-year period, 1914-1924, following the passage of the Smith-Lever Act, it is clear that the 5,000,000 farm boys and girls who have been engaged in 4-H club work during this time have made a genuine and substantial contribution to the improvement of American farm life.

These boys and girls have not only enrolled for many different kinds of farm and home activities. A very large percentage of them have completed all phases of the projects undertaken, and have accordingly received efficient training for later life, and been fitted to act as leaders to other boys and girls, and to take their places as progressive rural citizens.

The enrollment of girls has been somewhat larger than that of boys. In 1924, about 58 per cent of the total number of club members, or about 300,500 were girls. They were interested in such projects as clothing construction, food preservation and preparation, home management, gardening, poultry, dairy and home improvement work, both inside and outside. Almost 210,000 boys were enrolled in one or more club projects in 1924. This represented a considerable growth of membership over the previous year. The demonstration projects undertaken were limited only by the problems of the farm itself. Corn, potatoes, cotton, and other crops, poultry, pigs, dairy and beef cattle and other livestock, were the types of club work chosen by the greatest number of boys.

The money value of the club

production of these boys and girls has been more than its cost, leaving a liberal margin for the club member's labor. Nevertheless, the educational influence of the work in establishing better farm and home practices is regarded as its main value.

After outlining in Miscellaneous Circular 85-M, the various club activities in detail, George E. Farrell, of the Office of Cooperative Extension Work, points out that there are about 11,000,000 rural boys and girls between the ages of 10 and 18 in this country. Nearly 3,000,000 of these, chiefly between 14 and 18 years old are not in school. This is an average of about 960 per county. These boys and girls are greatly in need of further preparation for life through public agencies. The 4-H club system is a most helpful agency for this service. When it is sufficiently manned with trained leaders it can reach a great many in this large group of young people who are not in school. As well as a great many who are.

CONSIDER THE HAMMER

If you are inclined to lose your head and fly off the handle, consider the hammer: It finds the point and drives it home; it keeps pounding away; it doesn't fly off the handle; it looks on the other side, too, and clinches the matter; it makes mistakes, but when it does, it starts all over again; it is the only knocker in the world that does any good.

ONE IN TEN

Neglecting a little wound, cut or abrasion of the flesh in nine cases out of ten cause no great suffering or inconvenience, but it is the one case in ten that causes blood poisoning, lockjaw or a chronic festering sore. The cheapest and safest and best course is to disinfect the wound with liquid Borozone and apply the Borozone Powder to complete the healing process. Price (liquid) 30c, 60c and \$1.20. Powder 30c and 60c. Sold by Leverett-Williams Drug company. 36-5t

ELEVEN-CENT COTTON AND FORTY-CENT MEAT

Mrs. S. C. Ford, Frisco, Texas

Eleven-cent cotton and forty-cent meat! How in the world can a poor man eat? Flour up high—cotton down low—How in the world can we raise the dough? Our clothes worn out—shoes run down Old slouch hat with a hole in the crown—Backs nearly broken—fingers all sore Cotton going down to rise no more.

Eleven-cent cotton and ten-dollar pants—Who in the world has got a chance? We can't buy clothes—we can't buy meat! Got too much cotton and nothing to eat. We got no homes—got no wealth—Losing our credit—ruining our health! Can't help each other. What shall we do? I can't solve the problem—so it's up to you.

Eleven-cent cotton and too much tax—The load's too heavy for our poor backs—We're a good set of farmers—we all know well—But there's something wrong as sure as well! We all work hard—we groan and we sweat—Now we are ruined—we are a blowed-up set, No use talking—any man's beat With eleven-cent cotton and forty-cent meat.

THE PROBLEM SOLVED

W. E. Lewis, Celeste, Texas

When cotton's low and eats are high, It appears to me to diversify Would be a sane and easy way To bring about a better day. With butter at fifty cents a pound, And cream at forty the whole year round. With turkeys high and going higher Is enough to kindle a great desire To raise more birds and a little less hell, In a land where opportunities dwell.

If we'd give more time to the dairy cow— And a better feed to the old brood sow— We'd not worry about the price of meat— For we'd have plenty ourselves to eat. With fifty cent eggs and a six bit hen, Why, oh, why will the children of men Ruin their fingers and break their back, Picking eleven-cent cotton and dragging a sack?

With corn in the crib and chickens in the yard, With meat in the smoke house and tubful of lard, With cream in the pitcher and honey in the mug, With butter on the-table and lasses in the jug, Things to you won't seem so high, For you'll be selling—won't have to buy.

Now stop that grumbling, for the fault's your own. You expect to reap where you haven't sown.

TEXAS & TEXANS

BY WILL H. MAYES
The Texas Wheat Crop

It is estimated by those in position to know that the Texas wheat crop this year will exceed 2,000,000 acres, or an excess of about 20 per cent over that of last year. Crop conditions taken altogether have never been better. The chances are said to be excellent for the growers to get from \$1.15 to \$1.20 a bushel. Railroads are building new trackage into the Panhandle section to assist in handling the huge crop. The average production last year in Texas was 20 bushels compared with a national average of 13.6 bushels. If the crop yield equals that of last year and the price is as much as \$1.15, Texas will sell 40,000,000 bushels of wheat in 1927, for which it will receive \$46,000,000. This potential wheat acreage in the Panhandle section alone is said to be 15,000,000 acres or seven and a half times the total Texas acreage to be harvested this year. Texas is destined to become the most noted wheat country in the world.

Selling Shelled Pecans

Lockhart this season has shipped out 1,800 pounds of shelled pecans. This is the beginning of what is likely to become a large industry for that thriving little city. San Antonio, Tyler, Brownwood, El Paso, and a few other places have large pecan-shelling establishments doing prosperous business. Why ship pecans North to be shelled? Why not save the freight on the hulls and pay the wages for shelling to Texas people? Because of their bulk, the cold storage and steady marketing of whole pecans is largely impractical, but when shelled they can be economically held in storage and marketed along during the year as the demand arises. Pecan shelling is light indoor employment for the aged and for women and children and at wages about like other factory wages. In a few years the Texas pecan crop will all be shelled in Texas, and there will be hundreds of pecan shelling factories throughout the State to give employment to labor. Why not?

Get Some Parks Now

There is not a town or village in Texas that has enough attractive parks. The time to secure parks is before the land gets too high. The price of land now is lower than it will ever be again in the towns. There are in many places park lands or lots to be had merely for the asking, and others at a nominal cost. Get you civic clubs and women's clubs interested in beautifying your town by starting them to improving the parks. There is no other community work that will appeal to them more strongly. Even though your city parks may be neglected for a time, it is better to acquire them when the lands can be had, for sooner or later the people will become interested in beautifying all such places.

Littlefield Rotary Organizes At first one would think there is little news in the fact that a town like Littlefield has organized a Rotary club. Really it is a big item for that town, for it means that some 30 or 40 men in the town have caught a new and better vision of that kind organized into a workin' body something has

to happen. Critics of such organizations as Rotary, Kiwanis, Lions and Altrusa have to admit that they put better life and better working spirit into their membership and that their influence permeates beyond the members and through the entire community. Therefore, Littlefield and other towns organizing their business contingencies that will count for the good of the whole people.

Lobbying at Austin

After viewing the work of lobbyists at Austin for many years, I am of the opinion that their real influence upon legislation is practically nothing and that most of them are merely parasites feeding upon the fears of corporations and individuals that imagine they are likely to suffer at the hands of the legislature. Very few measures indeed owe their passage or defeat to the influence of the lobby. Very little outright purchasing of legislative votes is ever done. The legislator who would sell his influence has little or none to sell. Beyond being "worked" for a few dinners and even at times for a rather pretentious banquet, all paid for at the expense of his clients, the lobbyist is given little earnest attention at Austin. Usually he is a hireling with nothing much to do, and oftener than not he does even less than he is paid for doing. The loneliest looking people around Austin are the professional lobbyists during a legislative session, and many of them look like they even hold themselves in contempt as professional parasites.

What Texas needs on Farms

Addressing a farmer's banquet given by the Chamber of Commerce at Weatherford, R. Q. Lee, former president of the West Texas Chamber of Commerce, gave the figures to show that throughout the South there is now a shortage of grain, forage crops, potatoes, vegetables and other things necessary to a well-balanced living, while too much cotton is being grown. Farmers need

Texas is unusually prosperous, for even the cotton has brought more money into circulation than usual because of the large acreage and production. The money spent for labor in growing, picking, ginning, selling and shipping has far exceeded that of any former year, the growers being the only persons who have suffered any loss. The winter to this time has been all that could be desired. The weather has been mild and winter grown products have escaped frost injury; rains have been abundant; the grass range is fine; cattle, sheep and goats are in the pink of condition; poultry yards are enriching their owners; dairying is increasing; pecan trees and fruits have yielded abundant fruitage; pantries are filled; the State government is in safe hands. Let us rejoice.

STATE BEAUTIFUL MAIN PARKS

sorts all the time and winter half the time.

There is not another state on this continent that has so great a variety of beauty to offer the world as Texas. If all the beauty in Texas were moved up into a space no greater than the State of Ohio, Iowa or Illinois, there would be nothing in Texas but beauty and she would be classed as the most scenic state in the nation. But stretching away for a thousand miles from the Palo Duro Canyon in the Panhandle to the Rabb Palm Grove of the Rio Grande Valley; and from the beautiful Caddo Lake on the East to the Davis and Guadalupe mountains on the West there lies the greatest cotton fields in the world, the greatest cattle ranches in the world, and the greatest oil fields in the world; and one of the greatest corn fields and bread belts in our nation.

Texas has more than beauty. Texas has everything a human being needs to make him healthy, happy and prosperous. But the world at large does not know it. Because the people of Texas have never hung up any of their scenic attractions before the world and paved a path to them whereby the people might come and see and seeing, they would learn and then go back home to tell the true story of Texas just as they have the story of Colorado, California and Florida. And Texas lacks only 54,005 square miles of being as large as California, Colorado and Florida put together and has every attraction in climate, sea coast, mountains, canyons, plains, and products that all three of those great states have. And yet our people spend \$8,000,000 every year running round over the world seeking beauty and recreation. But until this hour we have not spent One Dollar as a State developing our own scenic resources. No Sir! Texas spends \$8,000,000 annually advertising the scenic resources of other states and building paved highways to them but so far not one cent of state money has been spent on her own scenic glories.

Here is another peculiar but strictly Texas characteristic. While other states and cities have had to spend millions of state and city dollars to purchase their most beautiful park sites, Texas has had every one of her state park sites donated back to the state by her patriotic citizens to be preserved and used forever for the rest, recreation and education of all her citizens as long as Texas continues to be a land of homes and little children. And every one of these beauty spots has been donated to the state of Texas as a living, useful memorial to some noble citizen or some loved

mother, father or child. There is not another such chain of golden memorials in all this land. There is no more beautiful example of state pride, and state sentiment anywhere in this world than that which is expressed by Texas Chain of Living Memorials in the form of our State Park System. A few days ago a resolution was introduced in the Texas Senate by Senator Margie E. Neal asking the Texas legislature to accept gifts of our own native soil and beauty from our citizens. Do YOU want the State of Texas to accept these gifts of the people for the people for all time to come? If you do will you not send a message today to your representatives asking them to support this resolution?

CHEVROLET IS GOING AFTER BIG BUSINESS

The Chevrolet Motor company, world's largest producer of gear-shift cars, is preparing for the greatest year in its history, according to Charlie Meacham and B. E. Davenport who have just returned from Dallas where they attended a convention of more than 1,000 Chevrolet dealers. The meeting was the eighth of a series of 21 meetings that are to be held this winter from coast to coast.

Enthusiasm over the Chevrolet outlook for the year and the widespread popularity of cars was evident everywhere. Dealers from all quarters joined in the opinion that the current year will surpass 1926 when Chevrolet established a record in this territory.

R. H. Grant, vice-president and general sales manager, of the Chevrolet Motor Company, presided at the business session in the Pantages Theatre in the afternoon and served as toastmaster at the banquet in the Adolphus Hotel in the evening of February 14.

Under Mr. Grant's direction, Chevrolet's tremendous sales plans for 1927 were outlined to the dealers and illustrated in the form of playlets.

Messrs. Meacham and Davenport declared that the Chevrolet Motor company is providing its dealer organization with the highest type of merchandising aid and cooperation. Following the meeting the dealers were guests of the company at a banquet in the Adolphus hotel.

The weed, of whatever breed, is one of the most useful forces in nature. It keeps the rain from leaching the particles of mold that make soil reproductive from plowed fields, washouts, and burned-over land.

American women now buy as many silk hose in one day as they bought in a whole year a quarter of a century ago.

MRS. ANNIE FLORENCE GRAHAM

Mrs. Annie Florence (Tarpley) Graham was born in Cumberland, Ky., January 27, 1853, was married in Collin county, Texas, January 3, 1873, to J. T. Graham; died at Fruitland, Texas, January 3, 1927, at age of 73 years, 11 months, and 7 days. She is survived by an aged husband, J. T. Graham, one son at San Antonio; grandchildren, Johnnie, Irene, Roy and Chester Carson, children of Mr. and Mrs. A. C. Carson of Memphis, daughter of Mrs. Graham, she having preceded her mother to the great beyond fourteen years ago.

While leading the singing at the Methodist church for Rev. Gardner, her voice ringing clear and stronger than usual, she was stricken with a headache and had

to be assisted to her home. She grew worse until the final summons came on her 54th wedding anniversary, January 3, 1927. The funeral service was held at Fruitland Methodist church January 4, conducted by Rev. W. T. Givens, assisted by Rev. C. T. Russell, after which the body was laid to rest in Brushy Cemetery to await the great day when it shall be reunited with the sanctified soul at the right hand of God where sorrow and pain shall be felt and feared no more. A host of friends extend sincere sympathy to the bereaved family and commend them to the throne of God's grace for solace in their sad bereavement.

MRS. H. L. MILLER.

CRIPPLING THE CRIME WAVE

The crime wave in Texas has not halted, but the law enforcement machinery backed by an aroused and awakened citizenship, has put a crimp in it. With a Governor who refuses to be swayed by the tearful pleadings of relatives of men sentenced to be executed from his path of duty, and with juries over the state assessing heavy and in many cases, the extreme penalty for highway robbery with firearms and murder, it takes a foolish criminally minded person to commit a deed of major importance.

What's true of Texas is also true of the nation as the people have grown tired of crime and have reached the point where the criminal is to get justice and society as a whole is to receive justice.—Quannah Tribune-Chief.

Clarendon College will be moved to Amarillo, is the decision of the Methodist locating board. While we sympathize with Clarendon in the loss of the college, yet we believe it will finally work out to the good of Clarendon. It will cause her people to work harder for a business town, since losing the college, and will really make a better town in the years to come than it would otherwise. Clarendon citizens are loyal; they are progressive; they are not easily dismayed; and since losing the college they will buckle on the armor and work for a greater Clarendon.

Memphis is now enjoying the use of natural gas, which the lines from the Panhandle have brought her. While the business section has been enjoying its comforts for several weeks, it was

last week that the residence section got its first taste—or smell. Then the city is adding 10,000 feet of sewer line to take care of nearly all without that convenience. The Democrat in carrying these accounts ends with "watch Memphis grow." It all sounds progressive.—Amarillo News.

WE CALL THIS QUICK SERVICE

"A daily newspaper goes into the trade territory and carrying the latest news is sought more than a newspaper that is of less frequent publication. The Daily Index will give the latest news to citizens of Estelline, Turkey, Memphis, Newlin, Kirkland, Goodlett and Wellington from sixteen to twenty-four hours ahead of any other daily newspaper."—Childress Index.

Every lawn between the sidewalk and curb should be fixed up in uniform style, which will add to the beauty of the town. Memphis people are noted for their civic pride and with concerted effort the town can be made the most noted from a civic standpoint of any in Texas.

Borger will celebrate her first birthday anniversary Tuesday, March 8. This town has made a record for growth not exceeded by many towns of history. More than twenty thousand souls in a year's time is a record hard to beat.

Read Mrs. Phebe K. Warner's article in this issue in regard to the banquet of home-grown products held at Floydada recently. It is something Hall county people might think about and put in to effect this year.

WEST TEXAS IS TO HAVE GREAT CHAMBER MEET

Wichita Falls, Texas, March 3.—Plans have been practically completed for representatives of the Wichita Falls Chamber of Commerce to visit cities of West Texas who will send large delegations to the Annual Convention of the West Texas Chamber of Commerce May 16 and 17. These representatives will visit all the leading cities of the Western part of the State to present the idea of a Congress of Nations, which has been planned as one of the big entertainment features for this year's meeting.

It is hoped to have as many cities as possible come to represent some foreign nation, to carry the flag of that nation, and to display the colors of same in a way that the parade may be made as colorful and spectacular as possible. In this way each city of West Texas will have a definite idea towards which to work and a definite plan to follow in making ready for the convention.

The booths of the various cities will be decorated in the colors emblematic of the nation which that city represents. These booths or headquarters are to be erected in the center of one of the city's widest streets and this, it is believed, will add to the color of the decorations and will avoid the usual congestion which has heretofore been experienced when headquarters have been maintained in stores or hotel lobbies. The booths will represent what has been termed the Avenue of Nations.

Many interesting features of the old European Street Carnival will be carried out and much street dancing including dances in the native costumes will take place.

Already many cities of West Texas have interested themselves in this congress of Nations and have pledged their assistance to make it one of the greatest events of the kind ever staged in America.

Under the plans which have been considered it is believed the decorations may be obtained for a very nominal sum so that the event, although carrying with it unusual splendor may be staged in an inexpensive manner. It is planned to represent the idea in detail to all cities and towns to be represented. A number of the chamber of commerce staff will begin travelling in January to carry the idea to the towns of West Texas and will cooperate with them in every practical way to make the event complete and a success.

Wichita Falls hopes to offer the people of West Texas one of the most unique and colorful entertainment programs which has ever been given at this annual convention of the West Texas organization. Wichita Falls is planning to entertain 100,000 visitors during the two days of the convention.

PERT PARAGRAPHS

BY J. I. SMALL

The world may be growing better but there are a few well-defined kinks yet to be removed before the boosters can claim that goodness is unanimous.

A Port Arthur man has been granted a patent for trouser pocket construction. What the members of the Texas Legislature need when on a junketing trip are trousers equipped with self-closing pockets.

A young man claimed to be a stockholder in a local bank, but it developed that he had been employed by a farmer to hold a span of spirited horses while the tiller of the soil transacted his banking business.

W. N. Porter, Haskell county farmer, has sold \$535 worth of pigs from one sow which he bought Jan. 13, 1924. This not only beats low-priced cotton, but affords less opportunity for indulging in profanity when speaking of living conditions.

"Court Ruling Cost Doheny \$21,686,928."—Headline. But nothing was said in the body of the article to indicate that the above figures include the \$100,000 which the Hon. Albert B. Fall, former secretary of the Interior, is reported to have carried around in a satchel.

A Wisconsin chemist has given away the patent rights for a process of putting sunlight into ordinary food in quantities which will prevent rickets and probably other diseases. That's fine, but what Uncle Sam is looking for is a chemist who can extract the "kick" from all products used in the distillation of moonshine.

Acting upon the suggestion of the Pardon Board, Gov. Len Small of Illinois recently commuted the sentence of Sam Washington, Chicago negro, sentenced to hang for the murder of his common law wife, to life imprisonment. This action, it is said, removed the man from the shadow of the gallows where he had stood six times. Evading death by execution appears to have been Washington's specialty.

While the Texas Legislature was on the south side of the Rio Grande celebrating George Washington's birthday, pickpockets relieved several of the members of their cash and other valuables. It was a case of the lawmakers vs the law violators in which the advocates of justice got the worst of it. Hurrying back to Austin the solons introduced a bill in the House providing the death penalty for pocket pickers.

In his race for the legislature to succeed the late Judge Norman G. Kittrell, Mike Hogg, son of the lamented James Stephen Hogg, former governor of Texas, received decidedly more votes than all four of his opponents combined. The victory was not only a fitting testimony to Mr. Hogg's popularity, but it proved that a special election, as well as that of a Democratic primary, is capable of precipitating a landslide.

"Spare" stockings are to be carried by women for emergency use. It is said, however, to be distinctly a precautionary measure and not a fad. "It is just as important as a spare tire for an automobile," explained a millinery buyer back from the East. "If on a rainy day a truck splashes one stocking with mud—presto, I slip into a telephone booth and pull on the spare. If both are splashed, I don't need the spare because both match."

Talk is said to be cheap, and so it is. When President Coolidge led the nation in tribute to George Washington the address was picked up in Europe and rebroadcast to countless millions, reaching practically every civilized land. All of which was without cost to Mr. Coolidge, as he was merely addressing a joint session of the Senate and House, in an effort to acquaint the members thereof with the admirable traits of our first president.

President Coolidge is a lawyer, but he was reared on a New England farm, and if there be politicians, farmers or others who think the chief executive doesn't know much about agriculture, it is because they have not read his message to Congress, covering a page in the Dallas News, explaining why he vetoed the McNary-Haugen farm relief bill. Figuratively speaking, it is doubtful if any measure ever was punctured as many places as was this one.

... setting forth in the most il terms the innumerable

defects and fallacies of the bill, Mr. Coolidge passed it over to the Department of Justice for a ruling as to its constitutionality. Attorney General Sargent held that the measure, in its most essential provisions, was in violation of the Constitution of the United States. The proponents of the bill were badly stunned, and it is said that most of them are making preparations to avail themselves of the pleasures to be offered during the approaching piscatorial season.

Wielding a caustic pen—or may be it was a typewriter—a lady holding a position with the publicity department of the W. C. T. U. at Fort Worth says that denatured alcohol has no connection with prohibition except that crooks steal it and fools drink it. Right you are, but the public has the assurance that the consumer will receive immediate transportation across the River Styx, while it is a matter of regret that there are many chances for the crook to evade punishment.

MEMPHIS HIGH SCHOOL NOTES

Do not fail to attend the first track and field meet of the Memphis, Clarendon and Childress schools to be held at Memphis on Saturday, March 12.

Friday evening, Feb. 25, a double basket ball game was played between the Wellington and Memphis boys and girls. Some weeks ago the Memphis girls team was defeated by the Wellington girls. Since that time, however, they have practiced more and were ready to meet the girls Friday night and won a large victory. The boys were not quite as successful as they did not intend to play until the Wellington boys arrived.

In chapel Tuesday, March 1, Mr. Bolton gave a summary of the games that have been played by the boys basket ball team this year. They have played 16 games and have lost only six of that number. Following his report, Mr. Jackson was asked to present to the boys, who have taken part in basket ball enough to wear the M. A. high school sweater. The sweaters were of the high school colors, black and gold; the sweater is gold, bearing the black M and as many black stripes on the arm as the number of years the boy has played ball.

Wednesday in Chapel, Mr. Jackson, the educational director of the Baptist church from Abilene, addressed the school. Mr. Jackson is in Memphis this week, speaking every evening at the Baptist church.

Miss Davis, of Rule, Texas, has taken Miss Doris Tomlinson's place as English teacher. Miss Tomlinson resigned from this position the first of the week.

Wednesday morning the junior class had a call meeting. The class president read an invitation from the seniors, inviting the juniors to an old time tacky party and box paper Friday night at the high school gymnasium. Each girl is to bring a decorated box which will be put on sale.

Tuesday night the junior class presented a play entitled "All a Mistake" for the benefit of the junior-senior banquet. The play was rendered before a large crowd, and proved to be a success.

MEMPHIS TEXAS

... setting forth in the most il terms the innumerable

... setting forth in the most il terms the innumerable

ment of Texas' Natural Resources is making a close study of the fields and is hoping to interest large capital in the undertaking if it appears to be the feasible project that some regard it.

Rockdale Oil Field

One who reads the Rockdale Reporter is certain to get the impression that Rockdale has an oil field that is well worth watching. If present expectations are only partly realized Rockdale is sure to become one of the big oil centers of the State. Rockdale's lignite mines in themselves are enough to make the place one of the richest in the State and with abundant oil the place will be "rolling in wealth." Which reminds one that oil wells are becoming nearly as common as water wells in many parts of Texas.

Corpus Christi Improvement

Enterprising property owners of Corpus Christi are asking the city to permit them to spend some \$440,000 in building a wall along the bay shore to reclaim 440 lots which are now under water, but would be worth \$1,000 each with the improvements. The undertaking includes a beautification plan, which, it is claimed, would add much to the appearance of that part of the city. It seems any project that would increase the beauty of a place and add half a million dollars to the taxable values should have the approval of everybody.

Texas Coal Mines

Texas is coming into notice as a coal-mining State, and the coal production is increasing. There are 37 bituminous coal mines in the State, employing 2,108 men and producing 1,008,375 tons of coal. About half of this is produced by machinery, the rest by hand. While Texas produces but a comparatively small part of the coal consumed in this country, the production amounts to considerable in the State's wealth.

Punish the Small Offender

San Antonio reports 70 arrests on a recent Sunday. More than half of these were on minor gambling charges. When the small gambler is fined a small amount he immediately starts gambling again to recoup his losses. If gambling doesn't prove remunerative enough, the gambler is likely to resort to hi-jacking, burglary, or other criminal methods of getting money without effort. The only way to check gambling is to make it decidedly unremunerative and this, probably, could best be done by cumulative punishment for the gambler.

Small Farming Pays

The Denton Record-Chronicle tells how J. P. Sitz and wife, living a few miles out of Denton, make farming pay well on a 40-acre farm. Mr. Sitz says 40 acres is enough for a farmer to work to make money. He plants no cotton; he has an orchard of an acre or so; he milks eight cows; he has 100 or 125 hens; he grows sweet and Irish potatoes and other vegetables—enough to sell; he raises hogs; he fertilizes his land; he pays cash for what he buys; he WORKS. Briefly told, that is the secret of farm success.

Credit System Doomed

The Elgin Courier says the credit system of merchandising is doomed. The Courier is right as usual. The credit system is unfair to business, to those who buy on credit, and to those who pay cash. The credit merchant has to add an extra charge for the use of his money and to cover losses. The credit customer thus pays the losses, or the merchant eventually fails. The credit merchant usually charges the cash customer as much as the credit customer, or else acquires a reputation for discrimination that loses him trade. The man who "pays as he goes" usually knows where he is going; the others seldom do and often find themselves headed for bankruptcy.

Bears appear immune to tear gas according to tests made in Yellowstone Park, where they become too familiar with campers' supplies. A small black bear, the subject of an experimental charge of gas, did not even blink.

Bones obtained from the kitchen armed the timber for ship models made by the prisoners during the Napoleonic Wars. Many of these models still exist and are valued at from \$1,000 to \$5,000.

Razor blades, clippers, dental and shaving cream. Beach's 1c

For the first time in thirty-five years the number of pensioners on the government rolls declined below the 500,000 mark during the month of October.

The available horsepower from water is estimated to be 450,000,000, of which only about 30,000,000 is used at present.

Mrs. Sam Hamilton has been quite sick this week.

All the leading magazines and papers. Beach's. 1c

TEXAS & TEXANS

BY WILL H. MAYES

More Railroad Building

Indications now are that the Interstate Commerce Commission begins to see that more railroads are needed in Texas and that it will pursue a liberal policy as to railroad extensions. Both the Southern Pacific and Missouri Pacific will likely be practically unbridled as to extensions in the Rio Grande Valley, and the Panhandle will get a number of needed lines during the year. The roads are as anxious to extend as the people are to get them, and 1927 will likely see more mileage constructed than has been built in the past ten years.

Improving Present Trackage

Railroads are not only extending into new territory, but are improving their trackage in order to handle the increased business. The Santa Fe is replacing its 90 pound steel rails north of Temple with 110 pound rails. Practically all of its line from Brownwood to Sweetwater is now double tracked to enable it to handle the immense oil business from West Texas, and \$1,000,000 is being spent in increasing its yard and shop facilities at Brownwood. The railroads are trying to keep up with the growth of Texas.

Let Court Verdicts Stand

The technicalities of criminal court procedure are doing much to allow crime to go unpunished in Texas, but the fact that a convict with personal or political friends, or with money to employ "attorneys," has been able to count upon securing a pardon almost as a certainty, has been giving added encouragement to crime. Since courts and juries have begun to feel that their verdicts will likely stick, if not reversed by the higher court for technical errors, convictions commensurate with the offenses are being rendered. The only way to stop crime is to make certain its punishment.

Texas State Parks

The Llano News thinks the State hardly played fair with its citizens in the matter of maintaining parks donated to Texas during the Neff administration. It will be remembered that when Neff was governor the State solicited the donation of numerous park sites. Some individuals deeded valuable locations, while in other places citizens went down into their pockets and paid for lands that were deeded to Texas for park purposes, thinking that the State would maintain them. No effort has been made to improve or keep up these park sites, and they are mere waste lands in the various communities, more unsightly than if they belonged to somebody who would take some sort of care of them. Texas should redeem its promises or deed the lands back and recoup the people for their donations and any losses sustained.

East Texas Iron

The East Texas Chamber of Commerce has undertaken to arouse interest in starting again the iron industry in at least three counties where there are nearly 400 square miles of high content iron ore lying near the surface awaiting development—Cherokee, Cass and Harrison counties. The Society for the Scientific Develop-

was the book review of "Women" by Booth Tarkington. All responded to roll call from the humor of the book.

Mrs. Beard gave an interesting sketch of the author's life. Mrs. Miles gave criticisms for and against the book and Mrs. Greene discussed the characters. The meeting was then turned into a round table discussion which was very interesting to all. The hostess, Mrs. Moore, served a most delicious two course luncheon which everyone enjoyed immensely.

BIRTHDAY PARTY AT LAKEVIEW

Mrs. W. C. Wyatt, assisted by her daughter, Ruth, entertained Saturday, February 26, from 2 to 5, with a birthday party honoring her little grandson, Neal Wyatt, it being his tenth birthday. The house was beautifully decorated in pink and white.

Several hours were enjoyed in playing games. Then the kiddies were called in the dining room where a little house set on the table. Neal was told to open the door of the house and to their amazement a big white birthday cake with ten little pink candles burning was inside. Pink and white cake with hot chocolate was served to the following: Doris Loyd, Tommie Luc Luttrell, Owen Loyd, Casel Durrett, Forest Denton, Rafael Mitchell, Leo Wyatt, Troy Louis Davis, and Carl Wyatt.

MRS. WEST ENTERTAINS DELPHIAN CLUB

The Delphian club met Tuesday with Mrs. R. V. West with a very interesting program, The Lone Star State. Roll call, Birds of Texas.

History of our State Capital—Mrs. Guthrie.

The 51 Parks of Texas—Mrs. R. H. Wherry.

Story, "The Blue Bonnet Legend"—Miss Maud Milam.

Beauty Spots of Texas—Mrs. W. C. Dickey.

Other members of the club gave interesting facts about our State.

The hostess served delicious refreshments.

HORTMAN-ANTHONY

Marvin Hortman and Miss Lena Anthony were united in marriage Sunday, Feb 27, in Amarillo, with Rev. Smithson of the Church of Christ officiating.

Mrs. Hortman is the charming and accomplished daughter of Mr. and Mrs. J. W. Anthony of this city. Mr. Hortman is a popular young man, who has resided in Memphis a number of years. He is the son of Mr. and Mrs. Joel Hortman of this city. Mr. Hortman and Mrs. Hortman will make their home in Amarillo, where Mr. Hortman is connected with the "M" system stores.

PENNY POVERTY SOCIAL PROVED GREAT SUCCESS

SEVENTH GRADE GIVEN PRACTICAL LESSON IN JUDGING POULTRY

(Newlin Correspondent)
The Penny Poverty Social, planned and carried out by the faculty of the school, was a suc-

cess in every way. The auditorium was full of boys and girls, men and women, dressed in the most ridiculous fashions, which created many a laugh among the crowd. Booths selling good eats, fishing ponds, sight-seeing booths, fortune-telling booths, and many other attractions added to the occasion. Everything was sold and the net amount, amounted to about \$32.56, which is to be used in paying debts made by athletic and interscholastic league activities. The faculty was not trying to make a large sum of money, but they were trying to get the community to get together and have a good time—this they did

in the most approved style. The seventh grade boys and girls were given another practical lesson in agriculture last week. This time the lecture was given by Mr. Glasco. It consisted of modern ways of judging and culling poultry. About a dozen hens were brought to the school and lodged in a coop until in the afternoon when each student was given a hen and were told the good and bad points of each. Superintendent Glasco has had quite a bit of experience in this capacity and is willing to give his services to any one in this community or adjoining communities, in culling or otherwise handling chickens.

S. L. Daniel of this place died Tuesday morning, March 1. Mr. Daniel has been ill for sometime of a severe case of acute indigestion. He was suddenly taken worse just before his death. We regret to lose this good man.

Quite a crowd of masons and their families of Newlin attended the George Washington memorial services Tuesday night at Estelline.

W. L. Crabtree is making preparations to build a home on the vacant lots just west of the business part of town.

Johnnie B. Venson of Memphis visited Mona McKinney the latter part of last week.

Mrs. Mesdames Rowell, Rushing, Ricks, and Mattie Lee Cannon sopped in Childress Saturday.

Mr. and Mrs. O. O. Franklin have returned to their home at Vernon after a visit with the latter's parents, Mr. and Mrs. W. H. Rowell of this place. Mrs. Tom Rowell accompanied them home and will visit a few days.

Francis Gresham, who is attending school here, spent the week end with her parents below Estelline.

Grady Horn of Glen Rose, is now visiting in the home of his sister, Mrs. Van Crow.

CORRECTION

Last issue of the Democrat told of Big Boy Bentley of Newlin returning from Gatesville where he had been to place Otis Johnson in the reformatory. The article was headed "Newlin Youth to Pen." Our correspondent at Newlin states that the youth has never lived at Newlin, and asks for this correction.

TEN WAYS TO KILL AN ORGANIZATION

1. Miss as many meetings as you can.
2. If you do attend, don't come on time but late.
3. If the weather is not fine, don't think of going.
4. If you attend, be sure to find fault with the work of officers and other members.
5. Decline all offices, as it is easier to criticize than to do things.
6. Get sore if you are not put on a committee, or if appointed, don't attend meetings.
7. If the chair asks your opinion, tell him you have none, but later tell others what should have been done.
8. Do nothing except that absolutely necessary, and when others roll up their sleeves to help matters, howl because of the clique running things.
9. Delay your dues as long as you can and delay answering all letters.
10. Don't bother about getting new members—"Let George do it."

Give the little one a dose or two of White's Cream Vermifuge. Worms cannot exist where this time-tried and successful remedy is used. It drives out the worms and restores the rosy hue of health to baby cheeks. Price 35c. Sold by Leverett-Williams Drug company. 36-5t

Keep in Trim!

Good Elimination Is Essential to Good Health.

THE kidneys are the blood filters. If they fail to function properly there is apt to be a retention of toxic poisons in the blood. A dull, languid feeling and, sometimes, toxic backaches, headaches, and dizziness are symptoms of this condition. Further evidence of improper kidney function is often found in burning or scanty passage of secretions. Each year more and more people are learning the value of Doan's Pills, a stimulant diuretic, in this condition. Scarcely a nook or hamlet anywhere but has many enthusiastic users. Ask your neighbor!

HOME GROWN BANQUET HELD AT FLOYDADA

BY PHEBE K. WARNER

A few years ago the club women of Floydada decided they were going to do something for their own county as well as themselves and the State of Texas. It is a little strange how the club women have reached across the country and clasped hands with their town and city neighbors for so many years but forgot to reach the hand of sisterhood out across their own county and bring the brave women of the smaller towns and the open country into the big State Sisterhood of Women.

But it is coming. And Floyd county, Texas, is another fine example of the value of the County Federation of Women's Clubs. Why work for years to build up the whole State and the whole Nation and leave your home county out in the cold? So the Floydada women sent an invitation over to the club women of Lockney, the other town in Floyd county, and county-wide meeting was planned.

At the first meeting of all the club women in the county they decided to organize the Floyd county Federation of Women's Clubs. No sooner was their organization perfected than the question automatically arose, "Now that we have a county organization, what shall we do?"

Some one suggested "Get a home demonstrator." Then they would have some one to help organize the rural work and there are about thirty rural communities and school districts in Floyd county. By working and pulling and planning together the home demonstrator was soon on the ground and at work. And you'd be surprised at the big things the women of Floyd county have put over since they went to work together to make Floyd county the best place to live in Texas.

A few weeks ago the Floydada chamber of commerce decided to have a banquet and invite the women to be their guests. And when they invited the farm women, those women said, "Yes, thank you, we'll be glad to come, and if you will let us we will not only come but we will serve a genuine Floyd county banquet out of our Floyd county gardens."

And you should see that menu. Baked chicken, home grown bread, vegetables, fruit, butter, cream, pickles and pie. Everything at that banquet except the coffee, sugar, pepper and salt was produced in Floyd county, even down to the girls of the home economics class of the Floydada high school who did the serving. The women of the home demonstration clubs furnished all the food, the Parent-Teacher organizations prepared the banquet and then the whole county sat down together and enjoyed the fruits and labors of their own soil and hands. It was a great meeting and they are all talking about it and themselves yet. None of them seemed to know just what fine folks and what an independent, self-supporting county they were until that night. And the women VOW that next time they will not depend on any corner of the globe for a single thing for their county banquet. They will use sorghum syrup for sugar, red pepper and some of the men if not the women will manufacture something out of Floyd county grapes or something to drink. And maybe by next year they will have a salt water oil well that will furnish plenty of evaporated seasoning.

At that banquet the baked chickens were left over from Floyd county's \$450,000 poultry crop of 1926. The light rolls were made of Floyd county wheat milled by the Floydada mill and the corn bread sticks were made of meal ground by one of the women with her own mill.

But even all that wonderful banquet was not the greatest revelation of the outgrowth of the Floyd County Federation. One of the speakers at that occasion was Mrs. A. B. Hanna, president of the Sand Hill community club. When Mrs. Hanna arose to make her speech she said: "If anybody had told me three years ago that I would ever be invited to a banquet of the Floydada chamber of commerce, and not only be invited to be here but to make a talk before all the business men of this town, I would have dropped dead of heart failure. Until the County Federation was organized and the town women began to work with the county women to secure our home demonstrator I knew only three people in Floydada, and I had lived out there on our farm for years. And those three people were our family doctor, the dentist and groceryman."

With that introduction, Mrs. Hanna made the banner talk of the occasion, proving without doubt that Floyd county had produced not only the products for a beautiful banquet but by the co-

operation of all the women in the county some real community leaders had been discovered and that the social life of the county had developed even more than the commercial and agricultural interests and that the homes of Floyd county had improved right along with its products.

And herein lies the beauty of the County Federation of Women's Clubs. The greatest waste in all of our counties is not the food, or the money we are not producing, or making but the leadership, the talent, the joy, the companionship and the county fellowship that all the people are missing by not knowing and mingling with all the people of their home county.

Miss Blanch Bass is the happy home demonstrator in Floyd county. She now has thirteen women's clubs and ten girls' clubs in their County Council.

Mrs. Carl McAdams of Lockney is president of the County Federation, which has a membership of several hundred women all working for a Better Floyd County.

AN OPTOMIST

Collector—"I shall call on you tomorrow when I trust you will be prepared to pay the bill."

Mr. Needy—"Yes, do drop in. It's a real pleasure to entertain an optomist like you."

It is our delight to treat you right, at Womack's Grocery.

ELECTION FOR SCHOOL TRUSTEES

THE STATE OF TEXAS
County of Hall

To all whom this may concern: Notice is hereby given that there will be held an election on Saturday, the 2nd day of April, 1927, in each common school district in Hall county in compliance with an order of the County Judge of said county, and the polls in said district shall be opened at 8 o'clock a. m., and shall not be closed before 7 o'clock p. m. on said day, for the purpose of elect-

ing one county school trustee from each of the following precincts, to-wit: Precinct No. 1 and from Precinct No. 2.

Said election by the officers appointed by election for common school trustees.

NEWSPAPER ADVERTISING

By J. W. Craig

The time to advertise is now—not tomorrow or some time when the roads are good or when the weather is ideal.

A merchant is open for business regardless of roads or weather. Many purchases are going to be made just the same.

Some one has said: "If business is good, advertise and keep it good; if business is bad, advertise and get it." There is more truth than poetry in that sentence.

Pictures can catch the attention of the reader, and attention is what the advertiser wants. A cleverly written advertisement woven in to carry out the story, does the rest.

Edinburg is to have a new daily paper conducted by Marshall McIlhenny, a veteran newspaper man.

does not spatter Mrs. Tucker's Shortening

How Doctors Treat Colds and the Flu To break up a cold overnight or to cut short an attack of grippe, influenza, sore throat or tonsillitis physicians and druggists are now recommending Calotaba, the purified and refined calomel compound tablet that gives you the effects of calomel and salts combined, without the unpleasant effects of either.

One or two Calotaba at bed-time with a swallow of water,—that's all. No salts, no nausea nor the slightest interference with your eating, work or pleasure.

Get a family package, containing full directions, only 35 cents; any drug store. (adv)

TEXAS & TEXANS

BY WILL H. MAYES Future of Southwest

The president of the Missouri Pacific railway lines in a recent advertisement said: "The Great Southwest will continue for the next few years the greatest agricultural development and expansion in the history of the country. This development is proceeding along sane and sound lines—not in any sense a boom."

Water Conservation Projects In its last report the Texas Board of Water Engineers, basing its statement on detailed figures submitted, says there is no reasonable doubt that Texas will in the next ten years spend more than one hundred million dollars in water conservation projects.

Huge Road Building Enterprise Cameron county has voted to issue \$6,000,000 in bonds for road building. That county already has many miles of the best concrete roads in Texas and is eager for more of them.

New Daily Papers Edinburg is to have a new daily paper conducted by Marshall McIlhenny, a veteran newspaper man. The number of daily papers springing up in that part of the State is strong of the prosperity of the section.

Moody Refuses Commutation Governor Dan Moody's first action on a pardon application was to refuse to commute the death penalty of a negro sentenced at San Antonio to be electrocuted.

Praise That Counts New Braunfels is a thrifty little city on the main road between Austin and San Antonio. Hundreds of persons pass through there every day on the bus lines and in private automobiles.

BLUE RIBBON—

Egg Mash, Hen Scratch, Chick Starter, Growing Mash, Growing Scratch, Fattening Mash and Hen Food.

SUGGESTIONS FOR THIS MONTH

Your egg yield should be heavy this month and prices some lower. But the increased egg production will more than make up for the loss in price.

Continue feeding Blue Ribbon Egg Mash with Blue Ribbon Hen Scratch same as last month.

If you intend to set with hens, this is the month it should be done. Many hens get broody during this month.

Get the baby chicks out on the ground every minute during the day, if weather will permit.

Watch out for lice and mites and begin early to fight them.

Continue to feed Blue Ribbon Chick Starter and Chick Scratch to baby chicks until about five weeks old, then change to Blue Ribbon Growing Mash and Growing Scratch, taking seven days to make the change. Mix about 15 per cent Growing Mash to Chick Starter each day until feeding all Growing Mash. Sudden changes from one kind of feed to another will cause digestive trouble and loss of your birds.

Bacterium Pullorum in hens is spread through the eggs to the baby chicks, causing white diarrhea. The disease may be contracted also by feeding with chicks that harbor the organism or through incubators and brooders which have previously held diseased chicks. Chickens that have a bad case should be killed. There is no positive cure known. Give affected chicks sour milk or buttermilk to drink, or one-third teaspoon of crude catechu added to a gallon of drinking water. Prevent the spread by disinfecting. Clean out all droppings every day; burn all dead birds; separate the infected from the well.

Give your chicks plenty of green food, grit and water.

W. L. Wheat & Son PHONE 507

Mr. and Mrs. Matt Lane and Royce Brooks spent last week end in Amarillo.

H. D. Read of Nocona was here first of the week visiting his brother, J. Henry Read.

ELI COMMUNITY CLUB HAS GOOD FIRST MEETING

GOOD PROGRAM RENDERED AND ALL HAVE ENJOYABLE TIME

The Eli Community Club met Friday night and rendered the following program:

Introduction—W. B. Stargel. Reading—Capitola Stewart. Quartet—Edd Smith, Shirey Patrick, Ernest Dennis, Odell Newbrough. Reading—Marion Nelson. Piano Solo—Miss Edna Wicker. Reading—John Gilbreath. Vocal Solo—Capitola Stewart. Piano Solo—Dayne May Stewart.

Reading—Jimmie Gilbreath. Quartet—Marion Nelson, Chester Dennis, Barney Martin, James Lorance. Guitar Solo—Shirey Patrick. Interesting talks were given by L. M. Thompson, J. M. Kayser, and Supt. Swift, all of Memphis.

J. T. Nelson departed Saturday morning for New Mexico to be gone a few days.

The school board and some of the patrons met Friday at the school building and erected some much needed play ground equipment. Our school play ground is now one of the best equipped in the county.

Much interest is being manifested among the students in the coming track meet.

Miss Gertrude Noel, Miss Inez Mason, and Miss Zonelle McMurry, teachers of Eli school, spent the week end visiting home folks.

Sunday school and church services were well attended Sunday, despite the bad weather.

The farmers of this community are busy preparing their land for another crop.

Local and Personal

W. F. Fisher, pipe line worker, lost his purse containing between \$25 and \$30 on the streets of Memphis Sunday, and has been unable to locate same. Should any honest person have it he will appreciate its return very much.

Dr. and Mrs. J. W. Fitzjarrald and daughter Reba, Misses Florence Wherry, Oneita Hollis and Georgia Lee Drake, went to Floyd-ada Thursday of last week to hear the Cowboy Band of Simmons University play. Otho Fitzjarrald is a member of the band.

Mr. and Mrs. Kelly Harrison, and Miss Harrison, visited Mrs. Harrison's parents, Mr. and Mrs. A. C. Kincaid, here Sunday. They returned to their home at Plainview Sunday afternoon, accompanied by Miss Udella Kincaid, who will visit with her sister for some time.

John Forkner, advertising manager of the Plains Capitol, labor journal of Amarillo, spent the week end here with his parents. John was formerly with the Democrat and also recently with the Hall County Herald, and has many friends in Memphis, who wish him the best of success in his new field.

G. A. Sager called a Democrat representative to his home Sunday to show him a new invention. It is a home-made hover for his baby chicks. He took a dry goods box and covered it with tow sack- ing, then equipped it with an electric light to furnish the heat. The little chicks seemed to be enjoying the hover as much as if it had been a store bought article.

The Democrat this week printed an eight-page issue of the Methodist Student for the Methodist Students Federation of Texas, of which Mrs. T. C. Delaney of this city is editor.

C. L. Franz of Turkey was a business visitor here Monday. Mr. Franz says that any farmer, poultry or hog raiser should advertise, for it pays not only for the present but in the future will be a big asset.

J. M. Kayser, Mrs. J. R. Harrell, Misses Lois Harrell and Lena Anthony went to Amarillo Sunday. While there Miss Anthony and Marvin Horton got in a car and drove to a preacher's house and were married.

Kodaks and films \$2 and up. Beach's. 1c
