The regulars were downed 21-6; the second string was licked 23-10; and the junior boys fell 15-8. A fourth loss was recorded Wednesday night of last week when the faculty lost to the Lakeview faculty 35-34.

At the meeting of the county agricultural association which was held in the county agent's office on December 19, 11 of the 13 communities were represented. The delegates who had attended the state meeting gave excellent and interesting reports. The county agent presented the question of program planning as outlined at the Sweetwater meeting. The representative of each community association agreed to call a meeting of his local association and get those in attendance to fill out these program planning sheets.

A series of such meetings are now in progress throughout the communities of the county. The state delegates are guests at the meetings and are giving reports of the sessions at Fort Worth.

It is the opinion of the county agent that this democratic set-up is more constructive and efficient than anything previously done by Extension workers in getting the farmers to work out their own problems.

**Yesterday's Dreams Are
The Present . . .**

**Today's Dreams Are
The Future!**

YOU may think of Memphis as being built of steel and stone and wood. It is. But it's also built of something else, something we can't see, something we can only feel. Memphis is built of dreams . . . the dreams and ambitions and ideals of our forefathers. Their dreams have built for Memphis a foundation more enduring than stone, far stronger than steel. They did not build a city, they built homes! They did not build stores, they built a future!

Today our dreams and ambitions and ideals are helping to build an even greater Memphis of the future. Many of Memphis' merchants, have lived through the formative years in the growth of Memphis and Hall County. They can remember the sprawling town of years ago and they can compare it with the city of today. They have helped to build the present and for them the past and the future are one! However, these merchants are not satisfied to stop with their work. Memphis merchants **are** dreamers—but they're **do-ers** too! They may scoff at the idea of being called dreamers. They'll tell you that they're business men, giving a good dollar's value for every dollar spent! That's true! But because a city reflects the attitude of the men and women who live in it, Memphis will continue to grow greater because of the plans these men have made and are making!

You believe in Memphis and Hall County too. You believe in their future the same way these merchants do. Then dream and plan for the future . . . yesterday's dreams have come true, so will our dreams of today!

He drew a sentence in the penitentiary here last term of court when he pleaded guilty to charges of stealing cottonseed at Estelline.

The men, along with several others, were indicted last week by a Childress County district court grand jury, which was impaneled by Judge A. S. Hitler is a dictator, but he makes the German people think he is doing what they want done and thus holds his nation together, Farley said. Germans do not say "good morning" now when they meet. They make the Hitler salute and say "Heil, Hitler!"

Mr. Farley was accompanied from Amarillo by J. S. Pittman and C. W. Rogers. Mr. Pittman gave a piano selection, "Stars and Stripes Forever," as played by military bands. Mr. Rogers was introduced by Carl Periman, and Rogers introduced Cal Farley.

Where Kidnaped Boy's Body Was Found

A hunt for kidnaped Charles Mattson, 10, kidnaped Tacoma, Wash., youth, ended tragically at the spot pictured above—near Everett, Wash., when his body, cruelly beaten, was found. The boy, kidnaped December 27th and held for \$25,000 ransom, had been dead for several days, doctors said. At right, arrow indicates the stump where his body was found. Arrow at left indicates footprints in the snow, one of the frail clues which may lead to the kidnaper.

greatly stirred the American people.

Should the kidnaper and murderer of Charles Mattson be found, and dollars to doughnuts he will be, short shift should be made of him. No one wants to see a long-drawn-out stage show like that of the trial of Hauptmann for the murder of the Lindbergh baby. The federal government has done much to stamp out the work of public enemies, and it is hoped, will continue the good work until America is safe for Americans.

When the present management took over The Democrat last March the daily's subscription list was turned over to us and the papers were mailed to those on the list. A number of those on that list, whose subscriptions expired during the year, continued to receive The Democrat. Many showed their appreciation by renewing and paying for another year. A few denied they owed anything even though they had received the paper regularly, read it, benefited from it, and knew their subscription had expired, and did not notify the management that the paper was not wanted and would not be paid for if sent.

Because it costs money to print and mail newspapers, and the sending of a number of papers during the year without getting pay therefor, The Democrat publishers have decided to adopt the cash plan of sending only to those who have paid in advance, or made satisfactory arrangements.

The Democrat is worth every cent of the subscription price and the subscriber will appreciate it more, if he has paid for same.

The Works Progress Administration officials at Lubbock favor the plan whereby the East Ward school building of Memphis may be repaired and converted into a community center building. County Judge Goodpasture reported. This project has been pending for many months, and it is possible that a community building may become a reality through the WPA aid, Judge Goodpasture said.

Completion of the WPA work depends upon whether or not Congress makes sufficient appropriation during the current session.

His Find Ends Search For Mattson Boy

Gordon Morrow, 19, Everett, Wash., youth, points to the spot where he found the body of Charles Mattson, 10, kidnaped Tacoma youth, who had been beaten to death by his abductor. His tragic find ended a wide search for the youth, missing since he was kidnaped from the home of his wealthy parents December 27th.

PUBLIC ECONOMIES DISCUSSED

To The People of Hall County:
The wide awake citizens of Brice have set us a good example.
They have just completed refunding their school bonds at a reduction of two per cent in their rate of interest paid, a saving of \$210.00 per year on their school debt. A splendid saving.
While investment money is plentiful at a low rate of interest, every school district, every road district, every municipality and the county itself should refund their bonds at a saving in interest if and when it is possible to do so, without delay.
Take the several issues of road bonds in Hall County. At a reduction of one per cent in the rate of interest paid, provided a fair trade can be made, a saving to the people of \$10,900.00 per year will result. There is, at present, some hope of accomplishing this.
Such is the idea in mind. For lack of time it was not gone into at all thoroughly at this week's session of the commissioners court, except only to bring it to their attention in a brief way.
Like all other sizeable undertakings, these tasks are not merely a one-man job. It will take the general support of the people and an outlay of hard work.
The purpose of this letter is to invite this backing and support on the part of all classes of people; for no citizen (laborer, farmer or investor) can live in a taxed society and fail to be vitally interested in each and every tax issue.
May we have this support by all?
Yours very truly
M. O. GOODPASTURE,
Hall County Judge.

Tax Collections—

with the state total at \$4,967.48, and the county total at \$17,797.74.

Collections during December of 1936 were lower than for the corresponding month during 1935, the records showed. The total for December, 1935, was \$4,243.51 in state collections and \$16,646.19 in county. During November, 1935, the state tax gathering here totaled \$5,371.64, and the county total was \$18,253.03.

Hall County taxpayers have until January 31 to pay their current taxes before the penalty and interest go into effect. After February 1 a penalty of one per cent graduated each month until July 1 is effective. After that date the penalty is 8 per cent with a 6 per cent interest.

County Court—

(Continued from page 1)

Seventy cents per day was set for support and maintenance of each Hall County prisoner, and 15 cents per day was set for the keeping of each prisoner.

The court voted to order bids on the county depository for the coming two years, the bids to be taken February 8 at 10 a. m.

All members of the court were present for the two-day meeting.

Mrs. J. C. Norman returned to her home in Walters, Okla., Thursday of this week after a visit here with her daughter, Mrs. S. L. Seago.

The sweaters were gold, trimmed in black, the school colors. The 13 sweaters were the fewest given to a Memphis grid team in recent years.

BLACK-DRAUGHT Next Time You Need a Laxative

For constipation, take a dose of Black-Draught as soon as you realize the condition you are in. "If I am bilious, have a headache or a cold, I take a dose of Black-Draught at night," writes Mrs. R. D. Thaxton, of Lexington, Ga. "If I have a bad feeling after meals, I take just a pinch of Black-Draught. It relieves me. I recommend it very highly—a good family medicine. I give my children Syrup of Black-Draught. I find both good."

Black-Draught paves the way for the relief of many such symptoms as those mentioned above, when constipation is at the bottom of the trouble.

Just try it! Follow the directions carefully and you'll probably learn why Black-Draught is so popular.

Seeks Provision For Cotton Production Loans

MY GOOD CUSTOMERS

Bill Smith

The measure authorizes an ap- propriation for a revolving fund of fifty million dollars. This will make annual appropriations un- necessary.

The loan is broadened to in- clude assistance not only for feed

and for planting, cultivating and harvesting, but also supplies in- cident and necessary to such pro- duction.

The maximum to any one bor- rower is increased to four hun- dred dollars.

The purpose of these loans is to make essential funds available to farmers who are not able to qualify for credit under the pro- duction credit associations or to obtain sufficient funds elsewhere.

I had a conference with the President on this subject last week. He vetoed the crop loan measure last year, but at the urgent request of several of us, loans were provided for from emergency funds. I hope he will see fit to approve the new mea- sure, taking into consideration the broadened base, the fact that the loans seem to be essential, and that they have been well admin- istered.

The farmer of course wants to keep clear of debt. He is at last beginning to see the light of day. However, correcting the evils of the past half a century is a slow process that requires a care- ful approach. Provision must be made for financing farmers who are unable to obtain working funds, especially in sections like our own where a prolonged pe- riod of drought has made help from the outside necessary.

I hope early approval can be ob- tained for the crop production measure in order that loans for the new year can be made with- out delay.

ECONOMIC SITUATION OF THE SOUTH As It Relates To The Cotton Industry

(Dean W. R. Woolrich, who at the beginning of the current session of the University of Texas became a member of the staff of that institution as head of the College of Engineering, has made a study of the South especially as it relates to cot- ton, its principal product. In a series of five articles, of which this is the third, Dean Woolrich has analyzed the situ- ation which confronts the peo- ple of Texas and other cotton producing states and points out the obstacles to their develop- ment and progress.)

comes from without the South. In most rural areas of today there is sufficient idle capital that should be put to work for process- ing the materials produced in that area from the farm crops. Such industries should not be wholly dependent upon absentee owner- ship. The citizenry should look with disfavor upon the develop- ment of too many industries di- rected entirely by outside capital. It is quite essential that more of our areas adopt the philosophy of life of trying to keep their own home fires burning without look- ing for some Santa Claus.

Edwin O. Thompson spent Monday in Amarillo on business.

Bits Tucker of Estelina was among Memphis visitors Monday.

Mr. and Mrs. Jesse Lowe and children of Port Arthur visited with her aunt Mrs. J. C. Wells here for a time Monday. They were en route to Port Arthur after a visit with her father John Vineyard at Clarendon.

C. A. Powell Jr. and Bobbye Clark went to Lubbock Wednesday to enroll at Texas Tech for the second semester. They graduated from the Memphis High school with the class of 1936.

The next barrier of Southern progress is the failure of the rural counties to work towards a balance between their income and their outgo. A depleting area eventually expends their resources to a critical point beyond which it is virtually impossible to recover unless charitable aid is given from without. Southern rural counties are too prone to buy on the out- side to an extent beyond their true replacement buying power.

Of a sample typical southern rural county I succeeded in having an income-outgo survey made. That survey revealed this typical county going backward \$225,000 per year. The State was putting back \$50,000 and the Federal Government \$45,000 more into that county than they were realizing from all tax sources. The citizenry themselves were paying out \$130,000 more than their net total income, if normal depletion and depreciation were considered. Yet in that very year that same county was spending \$125,000 for automobile parts and supplies. And incidentally they were reverting back to crude sleds from wagons because they could not afford to buy wagons.

That \$125,000 should have gone into income producing processes that would have permitted the people to increase their common- wealth. They were creating a higher and higher barrier to South- ern development when they ex- pended principal for highly depreciative play things instead of put- ting it into some form of capital goods that would be the source of increased income for the depleting area.

The fifth barrier is then the in- ertia of the habit of the rural areas to buy what they should produce. No area can afford to buy from the outside unless they produce an equivalent value from within. The first law of existence of any area must be self preserva- tion. That means the income must equal the outgo.

Some of the catalog houses recog- nize this and have adopted a policy of buying as much from any area as they annually sell. They realize it is necessary to pump as much wealth back into an area as they remove if they want to continue to do business in the genera- tions to come.

It is unfortunate that more of our home owned stores are not fol- lowing the same policy. I hope the day is not far off when you and I can go into the stores of Texas and find more Texas goods on the shelves. In most of our Southern cities 80 per cent of the edible staples on the shelves of our stores come from without their State, and a large portion of it

Prominent Windhorst Farmer Tells of Remarkable Results From Williams R.U.X. Compound

TO Those suffering the tor- ments of rheu- matism the hope of life's happi- ness grows more remote with each succeeding day. The con- stant suffering—the long sleep- less nights grad- ually wear down the bravest res- tance and life becomes something to be endured rather than enjoyed. Such was the case with Mr. John P. Hoeftle when he got his first bottle of R. U. X. and just see what he has to say:

"I have been bothered with rheumatic pain in my knees for the past ten years and could scarcely get around at times. The pain in my knees and joints no longer bothers me, and I can highly recom- mend WILLIAMS R. U. X. COMPOUND to all who suffer as I did. In continu- ous use with this remarkable medicine have also taken S.L.K. FORMULA, and my stomach is now getting in good shape again.
