## Anderson Made Sheriff by Court

W. C. Anderson, deputy sheriff since January of 1937, was chosen Tuesday to serve the remainder of the term as sheriff of Hall County following the resignation of Lindsey Hill from that office. The Hall County Commissioners Court made the appointment from between 15 and 20 applicants.

Before taking office, Mr. Anderson must first make bond, and have that bond approved by the Commissioners Court, County Judge M. O. Goodpasture said.

Mr. Hill sent in his resignation last Friday, and it was accepted by the Commissioners Court Tuesday. The former sheriff was injured in a car accident about three weeks ago, and since that time has been in a Dallas hospital. He was brought back to Memphis last Thursday.

Mr. Hill received a broken leg in the accident, and is in a plaster of paris cast from his hips down. He stated in his resignation that he would be unable to function as sheriff for several months, and for that reason was resigning from the office.

## \$6,750 Judgment Made in Railroad, Hampton Case

**District Court Closes  
As Fall Docket Is  
Completed Wednesday**

Several cases were completed as the final week of the fall session of district court held in Memphis was concluded Wednesday. District court will meet in Clarendon Monday, John Deaver, district attorney, said Wednesday.

Ola Mae Hampton was awarded a judgment of \$6,750 in a suit in which she was the plaintiff against the Fort Worth and Denver Railroad. Thomas Hampton, husband of the plaintiff, was killed when an automobile in which he was riding was struck by a F. W. & D. train at the compress crossing January 5, 1938. J. O. Fitzjarrald was attorney for Mrs. Hampton, and Amarillo and Fort Worth lawyers were counsels for the defendant.

A judgment totaling \$1,500 was made to the beneficiaries of the five Weatherly residents who were killed in a railroad accident near Lockney sometime ago. The suit was against the F. W. & D., and all charges had been filed in one suit.

The Texas Employers Insurance Company successfully defended its suit, after having been sued by Mrs. Charlie Reynolds. It was alleged that Mr. Reynolds' death was due to an injury received while in line of his duty with the Memphis water works in November of 1938. The court decided that his death was due to natural causes, rather than to the alleged injury.

Following an indictment by the Grand Jury, during their second session in the latter part of last week, the case of V. H. Sidle, who faces two charges of disposing of mortgaged property, was continued until the next term of district court.

### Grundy and Deaver Speak to Rotary

If the boys of Germany, Italy, and Russia had been provided with the right kind of leadership ten or fifteen years ago instead of the kind they now have, dictatorship would not now have sway and the world would likely not be in the throes of another world war, Allen C. Grundy declared Tuesday when he delivered a masterful address on Boy Scout work in Memphis at Rotary luncheon.

Scouting from a boy's viewpoint was very ably and intelligently presented by Scout Jim Deaver, who is a Scout because of the fun derived from Scouting, he said. A boy will have fun during his leisure hours, and Scouting gives him the opportunity to have wholesome fun under right leadership, he declared, in making a final appeal for support of the movement.

## REA Energization Awaits Orders From Washington

Energization of the electric service line of the Hall County Electric Co-Op awaits complete authorization orders from the REA headquarters at Washington, Alvis Yarbrough, project superintendent, said Thursday.

"There is no definite reason of which I know for the delay," Yarbrough pointed out. "The contractors for the line have already turned it over to us, and the required number of homes have been wired. All other requirements have been met too."

Energization of the 113-mile line was scheduled to take place last Saturday when formal dedication ceremonies were held in the district courtroom in Memphis. A test of the line was made at that time, and authorization orders were expected to follow, but have not been received.

When the orders to energize are received, Yarbrough said, complete energization will be a matter of only a few hours. The orders are expected to arrive at any time, since a telegram was sent to Washington by Yarbrough Wednesday urging the REA headquarters to send the orders.

Speakers at the dedication last Saturday were Mr. Yarbrough, District Judge A. S. Moss, Otho Fitzjarrald, who is the attorney for the Hall County Co-Op, and County Agent W. B. Hooser.

J. R. Cobb of Washington, D. C., district REA utilization supervisor, was unable to attend the formal dedication. He was scheduled to appear on the program as one of the speakers.

Opening the program Mr. Yarbrough introduced Otho Fitzjarrald, who told of the history of the Hall County cooperative movement. Mr. Fitzjarrald stressed the benefits which might be derived from the project.

The second speaker was County Agent Hooser, who pointed out some of the various ways in which electricity can be used on the farm.

Stressing the power and necessity of cooperation in the movement, District Judge Moss said that it is a "project which can be accomplished only by the united efforts of all." Judge Moss also pointed out that the project was one of pioneering, and one which will provide an opportunity for Hall County to be able to sustain more people.

# Paducah Eleven Blocks Kick to Defeat Memphians 7 to 6

## Dragon Back, Quarter Game

Dragon Back, Quarter Game

Jones kicked out to the 40-yard line from the shadow of the goal posts to put the ball out of danger.

The Cyclone took to the air in the closing minutes of the game in a desperate attempt to score, and held possession of the ball in Paducah territory as the game ended.

Mobley, Dragon quarterback, was the outstanding player in the game, accounting for the greater part of the yardage gained with long sweeps around end and off tackle.

The Cyclone backfield was handicapped throughout the game when the forwards failed to hold the hard-charging Paducah linemen. Cyclone passers were rushed on every attempt.

Bud Fultz turned in a good 60-minute game at guard, and Izadore Hardin, showing up well in his second game at the pivot post went the route at center.

Paducah made 12 first downs to 5 for the Cyclone.

The starting line-ups were:

Hardin	c	Lee
Eruce	rg	Sublett

## Citizens, Students Comment on Public School Music

Non-Compulsory Courses Offered From First Through Eleventh Grades

Public school music is being offered to the students from the first grade through the eleventh grade. Rhythm band is offered to pupils in the first, second, and third grades making a fine showing each year in county meet.

Each child in Junior High is required to take choral singing in the fourth, fifth, and sixth grades, and although he has his choice of choral singing or band in the seventh grade no one is compelled to take either.

Choral singing and band are elective subjects in high school. Both Junior High and High School Choral Clubs and Bands are frequently asked to sing or play for clubs and public entertainments. The Junior High Choral Club has placed first for several years in the county meet.

A number of citizens of Memphis and several students from high school and junior high have been interviewed this week and asked to give their opinions of the value of public school music.

Mrs. D. L. C. Kinard—I think public school music is one of the best courses the school offers for a child should have music so he will have a well-rounded education.

Hayden Goodnight—In my opinion public school music is one thing every child should be encouraged to take.

Mrs. W. C. Dickey—Public school music is a very fine subject and one of the best cultural courses offered to give the child an insight to beauty and harmony.

Dorothy Dewlin—Music as offered in our public schools certainly is good training for the girls and boys.

Rev. E. C. Cargill—I am a dear lover of music and I believe that the pupils should be given a chance to develop their musical ability in all schools. The local schools are doing an excellent piece of work.

Mrs. R. S. Greene—I am highly in favor of our public school music program for it is a means of encouraging and developing musical talent in children.

Bobby Claire Davenport of Junior High—I like the public school music we learn in Junior High school. We learn things in music that helps us in our other studies.

Rev. J. Wm. Mason—Public school music provides an emotional outlet and it develops those finer qualities of one's nature which leads to a high type of society.

Neysanelle Coursey—A student has an opportunity to study music and composers in the public school music offered by our schools.

Mrs. M. McNeely—I think every child deserves a chance to gain knowledge in music. The child develops the ability to think more quickly and accurately and he gains a contentment he can't find in any other work.

Rayburn Jones of Junior High—I think public school music is nice because it trains the students to sing and play instruments. We will find the music useful when we get older.

Mrs. Horace Tarver—The students gain a wonderful interpretation of music in the course offered by the city schools. I have enjoyed a number of excellent programs given by the students.

Peggy George Walker—In public school music we learn classical and semi-classical songs by the best composers and song writers. I enjoy the class very much.

Betty Jo Randolph of Junior High—I enjoy public school music very much for the work is helping to train me to appreciate good music.

Joe Findley—I think that music is valuable to the student for use of leisure time because it is wholesome and fine. I endorse the music program in the Memphis schools.

Mrs. L. B. Merrell—I think public school music is splendid. I believe it is a subject that is definitely essential to the child.

T. E. Noel—My opinion of public school music is that it is beneficial to the child and should be encouraged. The music the schools offer is one of the best courses.

# WINTER'S DASTARD 90 HOURS

skipped by OIL-PLATING your engine today

Can you figure on your car's Daily Winter Starting Schedule being any briefer than this?...

No. 1 Start • GOING TO WORK
No. 2 Start • GOING TO LUNCH
No. 3 Start • RETURNING FROM LUNCH
No. 4 Start • GOING HOME FROM WORK
No. 5 Start • GOING TO THE MOVIE
No. 6 Start • GOING HOME FROM MOVIE

Could half-a-dozen starts or so get you through a day? Will your icy engine turn lukewarm in only 5 or 6 minutes? Even so, just think what that comes to, all through these bad months!... Total: 90 hours!

90 tough hours—and often more. A whole 90 hours when oiling that comes from "fast flow" alone lags far behind the sure lubrication that comes from changing today to OIL-PLATING.

OIL-PLATING is ready to lubricate sooner than any oil ever can flow—sooner than "instantly!"—because patented Conoco Germ Processed oil forces OIL-PLATING into a durable bond with the engine parts. OIL-PLATING becomes part of the parts!

The pastor will bring a message Sunday morning on the subject: "The Unfailing Presence" with Matt. 28:20 as the text.

PRESBYTERIAN CHURCH

Cottage prayer meetings in various homes next week in the interest of the revival meeting beginning the 22nd of this month should be very helpful and inspiring.

People of all denominations have been very kind indeed in arranging for these meetings next week, and the following week.

May it be said of Memphis that we are turning our faces to the true light of God, so that all church people, all of the schools, and every department of our citizenship without any exception are deeply concerned about the salvation of all.

A Reporter Goes to Church

Last Sunday was communion service Sunday at the First Presbyterian Church in Memphis. Communion service carries with it a feeling of more sincerity in the belief in God.

Four of the elders of the church were called to the front of the auditorium by the pastor, Rev. E. C. Cargill. Following a prayer by Rev. Cargill, each of the four elders read a scripture.

Rev. Cargill preached on the communion of all people with God, on the ever-presence of God no matter where a person may be, and on the blessing which God gives to every person.

Five Indictments Returned by Grand Jury Last Week

The grand jury returned five indictments when it met the latter part of last week.

Embezzlement, Disposal Of Mortgaged Property Included In Charges

One indictment was brought against Alf Harper, charging him with embezzlement in connection with the collection of taxes for the Lesley school district.

The grand jury had indicted Harper on two charges of embezzlement previously, and the case was continued until the next term of court when Herman Nami of San Antonio, attorney for the defense, pleaded that he had not had sufficient time to prepare for the case.

Two indictments were brought against V. H. Siddle. The charges were in connection with disposal of mortgaged property. This case was granted continuance Wednesday morning.

One indictment was made for operation of a motor vehicle while intoxicated, but no arrest has yet been made. Another indictment was made for cattle theft; no arrest was made in this case.

1940 Car Bought By Old Customer—Ballew Makes Sale

Raymond Ballew, Memphis Studebaker dealer, has the distinction of being, as far as is known, the first automobile dealer in Memphis to sell—and get delivered—a 1940 automobile.

Not only is Mr. Ballew the first to sell a 1940 model car, but he is almost the only particular customer a car, at least since 1917.

The buyer is John Puryear, former state representative from this district, who has apparently made it a point to buy nearly all his cars from Raymond Ballew—and naturally they were Studebakers.

Mr. Puryear bought his first Studebaker in 1910 (not from Ballew), his second in 1917, third in 1924, fourth in 1928, fifth in 1935, and so it is no wonder that on last Tuesday he bought another.

The Studebaker was a Deluxe Commander Cruising Sedan, and Mr. Puryear went to the nearest assembly plant to get it.

Cyclone to Meet Irishmen At Shamrock Friday Night

Strengthening the weak spots in the line and backfield which were shown in the Paducah game, Coach A. B. (Red) Murphy sent his Memphis Cyclone through alternately hard and light practices this week.

The Cyclone will meet the Shamrock Irishmen at Shamrock Friday night at 8 o'clock for the first conference game of each team. Although the Cyclone has won one and lost one, a better record than that of the Irishmen who have lost two and won one, the Cyclone will go on the gridiron as the underdog team.

While the backfield has been polishing up on both running and passing—and trying plays not used as yet, the line has been showing up well. Attempts of the backfield to pass were slowed down by the rushing of the defense line.

John Clark, big husky end, who let a pass slip through his fingers at the Paducah game, has been making up for the slip this week in practice by crashing through the line on the defensive, and tackling the passer before the passer has time to throw the ball.

Another lineman who has been showing up better in practice is Lois Kerr in the tackle position. James Fultz, who crashed through the line time after time in the Paducah game, has been continuing these same tactics in practice.

Probable starting line-ups for the two teams are: Memphis—Clark, le; Kerr, lt; Fultz, lg; Hardin, c; Bruce, rg; Melton, rt; Robertson, re; McClure, lb; Crump, rh; Lester, fb; O. Jones, qb.

Shamrock—Wilson, le; Burton, lt; Isaacs, lg; Holmes, c; Blount, rg; Howell, rt; Anderson, re; Puett, lb; Lanford, rh; Galbreath, fb; Allen, qb.

Memphis Gets 12 First Downs to Opponent's 3; Grimes Makes Touchdown

The Memphis High School B-football team won from the Silverton High School second team at Silverton last Friday, 6 to 2. Most of the game was played in Silverton's territory. Memphis making 12 first downs to 3 for Silverton. Louie Grimes intercepted a Silverton pass in the last minute of the game and ran 40 yards for the touchdown. The plunging of Berl Jefferies and the hard tackling of Grady Smith were some of the highlights of the game.

## UNITED WE STAND

WITH THE SPECIAL SESSION of Congress debating the question of whether to continue the present embargo plan or to discontinue this plan and accept the proposed "cash-and-carry" plan, many people are prone to believe that in either case, the United States will be drawn into the European war.

If on the one hand, these people argue, we continue the embargo on "munitions of warfare," sooner or later food will become known as one of the munitions of warfare. It is naturally assumed by those arguing from this viewpoint that the war will continue for at least two or three years—and by that time the warring nations will be in need of food which they will find their own lands unable to provide.

When the foodstuffs start going across the Atlantic—and maybe the Pacific—and in our ships—then the danger of our ships being torpedoed by German submarines will be great. For Germany will be unable to obtain these foodstuffs . . . and will take means of stopping the Allies from obtaining them. Then when American ships are sunk, the American public will arouse its ire . . . and into the war the U. S. goes.

Now on the other hand are those who believe that the "cash-and-carry" plan will lead the U. S. into war. Immediate buying from the Allies—who have the ships with which to carry the merchandise—will stimulate business in America. But the war will last two or three years, at least, these people say, and the cash from the Allies will not last that long.

To keep the economic structure of the U. S. from a complete breakdown, credit must either be extended to the Allies . . . or the U. S. must enter the war. Even if credit is extended, this school of thought believes the U. S. will eventually enter the war.

According to these two arguments, then, the U. S. is bound to enter the war.

But suppose the war does not last as long as two or three years. Suppose the propaganda against war proves to be stronger than the propaganda for war. Suppose the U. S. does not enter the war.

And the only logical way to make this last supposition a reality is for this nation to be a "united" United States . . . united against war!

## CAMERA BUGS

ONE HUNDRED YEARS AGO the first camera bug in the United States bit . . . and since then it has kept on biting until today the candid-camera business is one of the largest industries in America, as well as the rest of the world.

Preservation of memories is probably the main reason for this great increase in business. But maybe there is another reason, too, using the thought of a famous poet . . . "to see ourselves as others see us."

## South's Crops Make Balanced Cattle Ration

### Selling Feed As Beef Sound Program On Many Farms

With increasing production of grain and forage crops combined with cotton, Southern farmers are producing balanced rations that are economical and efficient for making well-finished beef. Grains end roughages, including silage, hay and cottonseed hulls, furnish carbohydrates which are balanced in rations by the protein from cottonseed meal.

Fattening beef cattle on farms in the South, livestock leaders point out, offers an excellent market for feeds grown on farms. In addition, year-round income is provided through efficient use of labor over many months of the year, and soil fertility is restored by use of manure.

Stressing the importance of "growing" into beef cattle production, these leaders point out that elaborate equipment is not needed for successful lot-feeding of cattle. Practical, well-built pens and sheds, especially important where rainfall is abundant, can be constructed at little cost and are a good investment for feeders. Ample trough space of 2 1/2 to 3 feet per steer for grain feeding prevents crowding, while separate troughs or bunks are needed in feeding roughage that is not ground and mixed with the grain mixture. A separate trough is needed, also, for salt and the oyster shell flour or ground limestone required unless legume hay is fed. An adequate supply of clean, fresh water completes the requirements for the feed lot.

Full value is obtained from manure, and better feeding conditions result, if manure is removed from pens at frequent intervals and spread on cultivated land.

Preparation of feeds for use in their most efficient form has proved important in Experiment Station tests and the experience of practical feeders. Unless cattle are followed by pigs in the feed lot, it pays to grind all grains. Grinding of such roughages as grain sorghum fodder (bundles with heads) also is necessary. Where pigs follow cattle receiving unground grain the common practice is to have one pig for each two yearlings or two-year-olds and one for each three calves.

Along with proper equipment and handling of feed goes care in handling cattle in the feed lot. Cattle that are given close attention, fed in quiet surroundings and with adequate space, and are fed at regular intervals obtain full value from their feeds. Most important for those who are feeding for the first time is the planning of operations in accordance with the supply of feed

### Hedley Couple, Joyce Tinsley and E. Boliver Wed

Miss Joyce Tinsley and Edward Boliver, both of Hedley, were united in marriage last Thursday at the parsonage of the First Baptist Church in Hedley, with Rev. M. E. Wells reading the ring ceremony.

Accompanying the couple were Mr. and Mrs. O. H. Tinsley, Mrs. Ed C. Boliver, Miss Pauline Boliver, and Lloyd Leggett. The bride wore a navy blue dress with henna rust accessories.

Mrs. Boliver graduated from Hedley High school in 1934, and received her bachelor of science degree from TSCW at Denton this spring.

Mr. Boliver graduated from Hedley High school in 1930, and has been editor and publisher of the Hedley Informer for the past six years.

Following the ceremony, the party was joined by Rev. and Mrs. Wells, and returned to the Boliver home, where the wedding cake was cut and served with punch.

Mr. and Mrs. J. P. Watson and son Jimmy of Lubbock attended the funeral of Mrs. M. J. Draper Sunday.

### Study Club Pays Tribute to Memory Of Mrs. Draper

Tribute was paid to the memory of Mrs. M. J. Draper, who died last Friday, by members of the 1913 Study Club at their regular meeting Wednesday. Mrs. Draper had been a member of the club for the past 20 years.

"At this time we would like to pause and give tribute to a loyal club member, faithful and untiring worker, and a woman who loved her club devotedly," Mrs. H. E. Tarver said in beginning the tribute. "In all sincerity it may be said, she was a womanly woman, a devoted mother, faithful wife, and a wise leader."

In conclusion, the following poem by Mrs. Laura B. Finch was read in honor of Mrs. Draper: "We come with saddened heart And tears, unbidden, from eyelids start. For a friend and co-worker has gone away Who will have a place in our thoughts always. Her symphony of life and death is ended, But her friendship and love on us has descended, And she will be held in memory dear Like a sweet incense, year after year. And though what we now feel is gloom and night— For her it is dawn and glorious light. So it is not "Farewell" we sadly say, But just "goodnight"—till that happier day When God shall wipe away our tears And we shall know Life without its fears."

Another tribute of honor was that given by Miss Mary Foreman for Clara Driscoll, whose gift to the Texas Federation of Women's Clubs made it possible for that organization to have its \$300,000 headquarters in Austin free of debt.

Other members of the program were: Parliamentary drill, Mrs. Byron Baldwin; marihuana madness, Mrs. Gavle Greene; social diseases, Mrs. R. S. Greene; and medical foundations in the United States, Mrs. Allen Dunbar.
