# To The Voters

Of Commissioner's Precinct No. 2

I wish to thank the people of this precinct who favored me with their vote and support in the July Primary last Saturday.

According to unofficial election returns, I received more votes than any of my opponents, for which I am most thankful.

Not having received a majority of all the votes in the precinct, a run-off is necessary; so again I am asking for your vote and support in the Second Primary which is not long off. I shall attempt to see each of you before that time, but due to the fact that time is short, it may not be possible for me to do so.

I am asking for the office upon my pledge to cater to the interest of everyone in " the precinct, safeguarding their interests at all times to the very best of my ability. I will at all times strive to help carry on the county affairs at the lowest possible cost.

As to whether or not I measure up to these qualifications, I point you to my past record in office which I offer as an open book for your careful consideration. As to my character, ask anyone who has known me for a long time.

Upon this basis I am asking that you return me to the office I seek.

TO EVERYONE WHO GAVE ME HIS SUP-PORT IN THE ELECTION SATURDAY

I am truly thankful to everyone who supported me in this election, making possible my third term as your County Clerk.

My first aim at all times shall be to render a service that will never cause you to regret the confidence thus placed in me.

As in the past four years that I have served you in this capacity, I shall at all times strive to carry on the affairs of the office in the manner that is right and fair to all.

Be sure to call on me when I can be of service, whether you supported me or not, for if you did not I am sure you had a good reason, and I desire your friendship the same as if you had.

I am more thankful than I know how to express, for the splendid support you gave me in the election last Saturday.

It is an expression of confidence that any man should well be grateful for, both for the position of employment it provides and for the trust that is therein placed.

I shall ever consider this trust most sacred, and shall labor at all times to try to prove worthy of the same by endeavoring to render a service that will meet with the approval of those so honoring me.

To those who did not support me, I have only the kindliest feelings, and I desire your friendship and goodwill the same as if you had.

I shall appreciate a visit from you at any time. If I can be of service, small or great, it will be a genuine pleasure and I am at your command at all times.

Tired - discouraged - "dragged out"? Now's the time to get back to normal.

Pursang helps to overcome iron deficiency in the blood, and to increase hemoglobin - the substance that makes red blood red.

If you are "below par" just start taking Pursang. See how much better you feel in two or three days. Wait a week or more and you will hardly know yourself for the same person - you'll feel so good!

# Firestones

No other tire in the world can take it quite like Firestones when it comes to enduring the gruelling punishment that goes with fast driving. That patented gum-dipped process used in the construction of Firestone tires gives them a strength that gives all the odds when odds count most, for a weak spot in just one of your old tires could mean disaster in the flash of a moment when driving at a rapid rate of speed, and if any tire will stand it FIRESTONES WILL with a 'plus'

degree of safety against blowouts. This has been proved conclusively in the fact that Firestones have been declared champions for the past sixteen consecutive years in the gruelling 500-mile races at Indianapolis, the most severe test under the sun.

DRIVE INTO OUR STATION AND LET US TELL YOU MORE IN DETAIL how Firestones give you GREATER PROTECTION, LONGER WEAR and CERTAIN-LY, LOWER COST in your tires.
