SCOUTS HAVING THRILL OF LIFE CAMP WARNER

A night and day spent in Camp William Warner south of Claude revealed the fact that some 150 Scouts are having the time of their lives, and getting knowledge of many things that will be useful to them in later life.

The tents are pitched in the canyon near Dripping Springs, and the hospital, headquarters and dining room are also near by. The building for craft working is across the canyon from the tents and other buildings and from it one can see the whole camp, groups of boys at various tasks, the flag flying from the flag pole, the canyon walls looming far above.

A few miles distant, the slowly plodding burros as they carry the packs of the overnight hikers, and every activity connected with Scouting. On top of the hill, on the plains proper, is the archery course where the Scouts and Scout officials compete with bow and arrow in a game similar to golf, and this is always attended by a large following of interested Scouts and spectators.

On the hillside across from the camp the boys spend an hour or so each evening in boxing, wrestling, and stunts, followed at dark by a camp fire program. Saturday night was Court of Honor night and many Scouts received their certificates of tests or merit tests passed during the week. Singing, story telling and stunts were indulged in following the awarding of certificates.

Sunday was rest day and visitors day in camp. Many visitors, mostly parents of the boys, were there during the day inspecting the camp and visiting their boys. A Scout Sunday school was held in the morning when the Scouts themselves made talks on Scouting and other matters worth while. It would surprise many old heads to know that the boys can do things as good if not better than they. Sunday afternoon Rev. O'Malley of Amarillo held church service under the overhanging rocks near the spring, and when he finished his talk the boys showed their approval by the Scout words, "How How!"

EASTERN STAR HAS MEMORIAL PROGRAM SUN.

The Eastern Star Memorial service last Sunday afternoon at the Masonic Temple in memory of Mrs. Tabatha Womble, mother of Mrs. D. A. Neely, was very beautiful and impressive. The altar was draped in flowers from the chapter for her memory. The following program was rendered: O. E. S. Memorial—By officers. "Crossing the Bar"—Miss George Cooper.

Prayer—Mrs. Claudia Hattenbach, Chaplain. Duet, "In the Beautiful Isle of Somewhere"—Mr. and Mrs. Martin. In Memoriam—Mrs. Inez Baker, Trio—Messrs. Martin, Johnson, and Webster. "When the Mist has Rolled Away"—Ione Webster. Prayer—Rev. C. E. Jameson.

how proficient one can become with bow and arrow. Tuesday Jack Bynum, the camp cook, served the Scouts with barbecued cattles. Sunday's dinner was a good one with chicken as the chief piece de resistance. Every meal is wholesome and all have been appetites.

The camp is successful and the second week is making more progress than the first. The only drawback to the camp this year is the lack of a swimming pool. The dam has been built but the rains have failed to come. In order to pass swimming tests the boys go to the Luttrell lake a few miles away for the direction of officials.

Much improvement has been done at Camp Warner in the last year, and being added to continually.

BAND MEMBERS ENJOY PICNIC

The Memphis Gold Medal Band boys and their ladies enjoyed a chicken barbecue at Wayside Park last Monday night, following which the band gave a concert complimenting J. D. Browder, who was a guest at the barbecue and who has been a band booster all these years, and who gave them access to the Park for the occasion.

The band members, band officials and ladies spent several hours at the Park enjoying the splendid feed and concert and having a good time in general. No band in Texas has more admirers than the Memphis Gold Medal Band, and won more honors. This band has certainly given Memphis and Hall county more advertising than any other agency, and the citizenship is proud of having a winning band.

PRAYER WEEK TO BE OBSERVED BY BAPTIST CHURCH JUNE 12-18

Prayer Week will be observed at the First Baptist church beginning Monday night, June 13, at 8 o'clock. This is to precede the revival meeting which is to begin June 19. It is earnestly hoped that all of the members especially will be on hand to attend the different prayer groups. The Sunday school organization with its respective departments and organized classes from the Juniors up, will meet in their regular places of meeting each evening next week at 8 o'clock, and engage in a thirty minute prayer service. After this half-hour prayer service by the departments, all departments will assemble in the main auditorium for a thirty minute song and devotional service.

The general superintendent and departmental superintendents will have charge of these group prayer meetings. The pastor will bring a short inspirational message each evening on prayer and soul winning. It will be a glorious privilege to be thus assembled for prayer and worship each evening during

The City Council passed an order Tuesday night to number the houses of Memphis. The street and alley committee was instructed to make arrangements for the work to be done. This committee will decide the size and style of numbers, the way each house shall be numbered, and has arranged with Mr. Corley, City Inspector, to do the work at odd times when he is not busy inspecting.

This move on the part of the City Dads seems to meet with universal sanction of the citizenship. Uniformity and system will be carried out in this way, while, if each individual had to do his own numbering there would be no uniformity and many would go with out numbers. It will mean a saving of fifty per cent at least by doing the numbering as planned by the Council.

The street signs were placed on the street corners a week or two ago, and that has brought about a demand for the house numbers. It is the culmination of the hopes and dreams of many citizens of Memphis. Already it is easier to direct a person to any part of town, and when the numbers are in place it will be like a city.

Watch Memphis grow.

 It is Well, Then, to Learn the Importance of Good Elimination.

FUNCTIONAL INACTIVITY of the kidneys permits a retention of waste poisons in the blood. Symptoms of this toxic condition are a dull, languid feeling, drowsy headaches and, sometimes, toxic backache and dizziness. That the kidneys are not functioning as they should is often shown by scanty or burning passage of secretions. Many readers have learned the value of Doan's Pills, stimulant diuretic to the kidneys, in this condition. Users everywhere endorse Doan's. Ask your neighbor!

NOTICE OF SALE
 STATE OF TEXAS,
 COUNTY OF HALL;

Whereas, the undersigned was named and appointed in a certain Deed of Trust, recorded in volume 17 at page 227 in the Deed of Trust Records of Hall county, Texas, which said Deed of Trust was executed by A. T. Neal on the 18th of December, 1924, for the purpose of securing Annie Clifton Hughes in the payment of twenty (20) certain promissory notes, each for the sum of \$209 due and payable to Annie Clifton Hughes on the first days of December of the years 1931 to 1949, both inclusive, with interest at the rate of six per cent per annum, payable annually on the first days of December of each year, said notes and each of them providing that the failure to pay any installment of interest when due will at the option of the owner and holder of said notes, mature and all of said notes, mature and cause the entire series to become then due and payable, as is more fully set out in said Deed of Trust, to which reference is here made, and Whereas; the said A. T. Neal has made default in the payment of the installments of interest due on said series of notes on December first 1925 and 1926, and on account of such default the said Annie Clifton Hughes, owner and holder of said notes, has elected to declare each and all of said notes due and payable, there being due in principal and interest on December first 1926 the sum of \$4,651.00, and Whereas; the said A. CITATION BY PUBLICATION
 THE STATE OF TEXAS,
 To the Sheriff or any Constable of Hall county—Greeting:

You are hereby commanded to summon H. B. Seifert and U. H. Fillo, (residence unknown) by making publication of this citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your county, to appear at the next regular term of the District Court of Hall county, to be held at the Court House thereof, in Memphis, Texas, on the First Monday in September A. D. 1927, the same being

PROPERTY
 THE STATE OF TEXAS,
 COUNTY OF HALL;

By virtue of an order of sale issued out of the Honorable County Court of Hall county, Texas, on the 14th day of May, A. D. 1927, by the County Clerk of Hall county, Texas, in the case of Vernon Cowan, by next friend S. M. Cowan, vs. J. L. McBrayer, No. 482, in the County Court of Hall county, Texas, and to me as Sheriff of Hall county, Texas, directed and delivered, I will proceed to sell within the hours prescribed

That on and between the 11th and 21st days of October, 1926, it sold and delivered to W. C. Neely and W. A. Taylor certain goods, wares and merchandise as shown by itemised account attached and made a part of plaintiff's petition in the total sum of \$245.60; that said account is unassessed due and unpaid and defendants, W. C. Neely and W. A. Taylor, though often requested, have hitherto failed and refused to pay the same or any part thereof, to plaintiff's damage in the sum of \$255; plaintiff further pleads that said lumber and building material mentioned in said account was furnished for and used in the construction and erection of a certain oil and drilling rig and derrick and for other improvements upon the following tracts of land in Hall county, Texas:

All of sections Nos. 158, 159, 164, 165, 162, 161, 294, 291, 293, 176, 175, 174, 173, 179, 178, 177, 298, 297, 299, and 295, all in Block S 5, D & P said county and state, except section 184, located in Hall and Briscoe counties, Texas.

That said materials were furnished to defendants, Neely and Taylor, under and by virtue of a contract between them and plaintiff that defendants, Seifert and Fillo, are owners of oil and gas leases upon said land and owners of said rig and improvements upon said land, that heretofore to-wit, on the 14th day of January, 1927, plaintiff filed its materialman's lien in the office of the County Clerk of Hall county, Texas, which is recorded in Volume 4, pages 270 and 271, Mechanic's Lien Records of said county, which original lien is attached and made a part of plaintiff's petition; that due and legal notice to defendants, H. B. Seifert, U. H. Fillo, and J. N. Owens, has been given, by reason of all of which plaintiff claims a materialman's lien upon the property above described, owned by Seifert and Fillo.

Wherefore, plaintiff prays citation upon defendants; that upon hearing it be its judgment for the sum of its debt with interest against defendants, W. C. Neely and W. A. Taylor, jointly and severally; have judgment foreclosing its materialman's lien on said property above described; have order of sale and all due process of court vesting title in the purchasers at said sale, all as in such cases made and provided by law; for cost of suit and for general and special relief.

Herein fail not, but have before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and the seal of said court, at office in Memphis, Texas, this, the 27th day of May A. D. 1927.
 49-4c D. H. ARNOLD, Clerk,
 District Court, Hall County Texas.

Paid up for life at "65"

At age 36, the rate for 20-payment life insurance is \$26.10 per thousand, per year. "Too high," say many men. So they buy ordinary life at \$17.76 per thousand, and bind themselves to pay annual premiums until death or the age of 85.

"Why can't you give us insurance with 20-pay life features, that will pay out at about 65?" This question has been asked of Southland Agents a thousand times.

Our answer is: "We can." For only 95c per year per thousand more than for ordinary life, or a rate of \$18.71 at age 30, you can buy insurance with 20-payment life advantages, pay for it entirely during your productive years, and be all through at 65.

No insurance idea in years, has met such a popular acceptance. Ask your local Southland Agent to explain it to you, and quote the rate for your own age.

Stop thief!

Depreciation is a thief! It takes staggering sums annually from property owners. We can help you avoid these losses. Quality building materials solve the problem. We have them. We can give you practical helps in planning construction that endures.

A well-built house saves in many ways. It is easier to heat in Winter—takes less coal. It stays cooler in Summer. Not only can we supply the materials for the well-built house, but perhaps we can also give you some ideas about its design and construction. Come in and talk it over.

TRAGIC WEEK IN HUTCHINSON COUNTY FIELD

BY J. M. WILLBORN The week beginning Thursday, May 26, and ending Thursday, June 2, was a week of disaster in the Hutchinson county oil fields. On Thursday afternoon, May 26, McMillan gas well No. 1 at Sanford was ignited while a casing crew was engaged in casing up the well, and in the blast which followed eight men lost their lives and six others were badly burned. This well is located right in the center of the booming little oil center of Sanford on the main street and the tremendous concussion almost wrecked the town. The fire raged unchecked for 36 hours, during which time the explosions were continuous and the noise was so deafening that carrying on an intelligent conversation anywhere in the vicinity was an impossibility. The ground for many hundreds of yards

around trembles and shocks so violently that unless one kept his mouth tightly closed his teeth would chatter and those who had false masticators were in danger of losing them. In order to keep your equilibrium one had to stand with legs apart and brace himself.

It is said that one small leak will sink a ship and one little sin will destroy a sinner, but it has now been pretty definitely decided that one little spark caused by a well casing striking against some hard substance in the wall of the well as it descended was the cause of all this death and destruction of property.

I left Borger on Friday evening following the explosion on Thursday for a short visit with home folks at Memphis, going to Amarillo by way of Sanford in order that I might witness the spectacle of a big gas well on fire at close range. The sight was an awful one and yet in another sense it was magnificent. I don't think it would have been possible for Dante to imagine anything more terrifying or for Dore to have painted anything more awful.

To a looker on in Venice it seemed utterly impossible that the raging, hog-wild, demon of destruction could be stilled by any power less than that of the almighty but its master, a slim, wiry man, in the person of "Tex" Thornton, the world famous well shooter and fire-fighter, was there on the ground making his preparations and preparing the deadly torpedo, with which he made the first shot, as calmly as if he were packing a container of ice cream for a picnic. The torpedo was shaped like a huge gun shell four or five feet long and five or six inches in diameter. The mixture put into it looked something like sweet milk and it looked as though Thornton and his assistant were mixing a huge milk shake.

Tex Thornton carries with him a crew of experts and he has operated in South America, South Africa, China, and all the other big oil fields of the world. A number of times before the conflagration was chopped off the intrepid Tex and his assistants donning their asbestos clothing, and covering their heads with helmets, something like a diver's bell, walked boldly into the seething mass of fire and descended into the cellar of the well searching for the remains of some of the men killed and making ready for shooting the well.

As soon as Tex entered the fire zone his asbestos garments would turn red just like the asbestos in a gas heater, so it gave him the appearance of being actually red hot. I thought at once of the Hebrew children in the fiery furnace. I have often thought of this as one of the most wonderful miracles contained in Holy Writ, but I never dreamed that I would ever see the reproduction of such a wonderful thing with my own eyes.

I left Sanford for Amarillo before sundown and did not remain to see the culmination of the contest between Tex Thornton and the fire demon, and from what I learned later I was glad I didn't. The second shot was required to completely squelch the roaring monster, and the concussion was so great that many of the spectators were knocked flat on the ground. The contest between Tex Thornton and the burning well reminded me of the fascinating story of St. George and the Dragon, and again St. George won.

The McIlroy well No. 2, seven miles east of Borger, caught on fire Saturday night in the same manner as did the McMillan No. 1 at Sanford, and before the ground around the scene of the first conflagration had time to cool off. The death and the serious burning of another man. This well burned fiercely from Saturday night until Wednesday about 3:30 when it was subdued by Tex Thornton with a single shot. This well caught fire while I was at Memphis and was extinguished just before I got back to Borger. However it took several hours longer to check the flow of the huge gusher which shot high up in the air and could be seen many miles away.

As a culmination to the week of disaster the reverberation of the shot which quenched the McIlroy well had scarcely died away when Skelly well No. 1 of Sanford, just a few blocks from McMillan No. 1 became ignited and sent up a mighty blast which caused the serious injury of five members of the casing crew. No fatalities have occurred as yet out it is said that some of the men have about an even break between death and recovery.

William Brooks of the U. S. Torpedo company superintended the shooting and extinguishing of this fire. Tex Thornton and his crew were in Amarillo almost exhausted with their strenuous labors of the past few days. The Skelly well blast did but little damage to property other than to the well itself as it was somewhat isolated.

The sequel to the story is that all the casing crews in this field "walked out Thursday in an effort to compel operators to take

measures to protect the lives of the men and to prevent such disasters in the future. The only feasible way it is said that this can be done is to "mud off" the walls of the wells, and to put on double instead of single casing crews. The heavy of the Skelly well tragedy was that the crew was only two points from the bottom of the well and the work would have been completed in thirty minutes. As I see it, it is up to the operators to take every precaution possible for the protection of the lives of their men, and it is to be hoped that the matter will be quickly settled as it could easily result in the complete tie-up of activities in this and, perhaps, other oil fields. Such is life in the far, far west, and especially in the oil fields.

Mrs. Hobert Moffitt of Hedley visited her parents, Mr. and Mrs. W. C. Crawford Friday and Saturday.

Mr. and Mrs. W. L. O'Rear, of Wellington were here this week visiting in the home of Dr. M. McNeely.

Miss Bessie Kilgore left here Sunday morning for Clarendon where she will attend school this summer. Misses Gertrude and Opal Willis, Annie Bell Ritchey and Myrtle Craig spent the day with Mrs. Ben Moore Sunday. Roberta Morrison has been very sick this week with measles. O. P.
