Emergency Finance Drive of Red Cross Gets Started Here

Long-awaited drive for the Red Cross war relief fund in Hall County finally got underway last week, and by Wednesday a total of \$495.00 had been turned in to O. V. Meyer, chairman of the drive. The drive is being conducted by local committees in all parts of the county, and it is expected that these efforts will be made by the latter part of this week.

Local representative at Lubbock Alexander Tuesday found out the results of the drive, and stated that Hall County is the last in the state to get its campaign.

Plans may be made by those who work at the Democratic office, the J. C. Woodbridge Company, Alexander's store, and the chamber of commerce.

Residents of communities in Memphis have volunteered donations to the fund for many days, but no returns have been turned in. Mrs. Jess Jenk-Turkey turned in \$30 to fund early in December. Her appeal to complete the fund as soon as possible is continued on page 4.

FINISH SCHOOL, GRIDMEN TOLD

Colorful T. C. U. Coach Tells County Footballers Brains Needed to Win War

Declaring that patriotism is a good thing but that brains as well as brawn will be needed to win the war, Coach Dutch Meyer of T. C. U. this week advised members of the four football teams of Hall County not to volunteer for service until they had completed their education.

The colorful and popular Fort Worth coach, who has tutored some of the best grid machines in the Southwest, urged the young men to "keep their feet on the ground," finish their education and then join up with a branch of the armed forces. Coach Meyer expressed the belief that the war would be long, and that the young men would have sufficient time to do their part after completing their school work.

The address was the highlight of the annual Sideliners Club banquet for the lettermen of Memphis, Lakeview, Turkey, and Esplanade. The banquet was held Monday night in the High School gym.

The food and entertainment this year were different from those in the past. Entertainment highlight was "Stuttering Sam" of Amarillo. He was introduced by Wendell Harrison as a former football star, and kept the audience feeling sorry for him until he finally started on his antics and revealed his identity.

Pictures of the Texas University-T. C. U. football game, in which the Fort Worth team upset the then No. 1 team of the nation, were shown and the plays explained by Coach Meyer.

The food was served by Memphis FFA boys from a "chuck wagon." No tables were arranged and the 150 or more present passed by the wagon, got their food, and then sat on the floor, bales of hay, or anything else available to eat the food.

The program was opened with the pledge of allegiance to the flag, led by Jack Boone, Sideliners president. Rev. Russell A. Win-

42,677 Bales Are Ginned in County Before January 16

A total of 42,677 bales of cotton had been ginned in Hall County prior to January 16, C. Lee Rushing, special agent for the Bureau of Census of the Department of Commerce, reported this week.

This figure was in comparison to 22,206 bales ginned at the same time from the 1940 crop, Rushing said.

Gins of the county are still running, although most of the cotton has now been gathered. Fair weather during the past few days has enabled most of the farmers to near completion of cotton gathering, and it is expected that only a small amount is left to gather.

Stirring Comedy To Be Presented By Little Theatre

Timely Play, "I'm in the Army Now," Promises to Be Highly Entertaining

Final preparations are being made this week for the presentation of the Memphis Little Theatre's play, "I'm in the Army Now" by Ned Albert.

The play, which is under the direction of Mrs. T. M. Harrison, will be presented at the High School Auditorium Thursday night, February 5, at 8 o'clock.

Mr. Albert's new comedy is as timely as tomorrow's headlines. It has been in rehearsal for the past three weeks, and now the whole town is looking forward to the evening of February 5 because the news has leaked out that at rehearsals the entire cast howls at the clever lines, original comedy, and many hilarious situations.

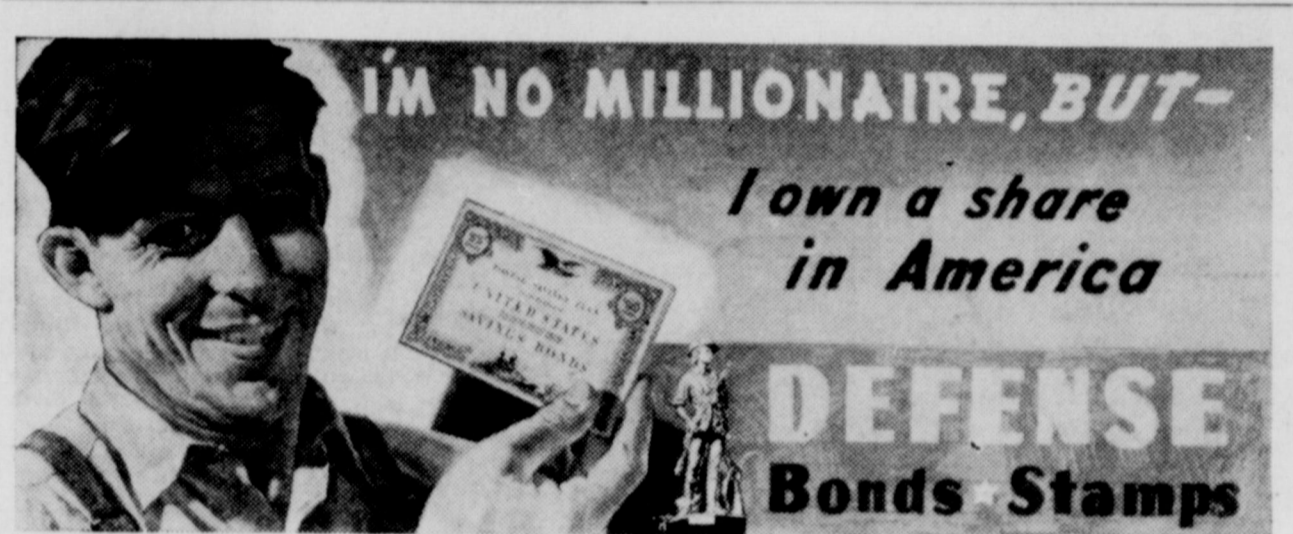

When the curtain rises on "I'm in the Army Now," and you become acquainted with the various characters in the play, you will think, "Why, I know somebody just like that. I've met and known just such people who go to make up this family," and you too will be howling at the many brilliant wisecracks that emanate from their lips.

Each member of the cast seems peculiarly fitted to his or her part. If there ever was a cast play it is "I'm in the Army Now," and this means every member of the cast of thirteen, which is as follows:

Pa Robertson, J. Claude Wells; Ma Robertson, Kathryn Milan; Diana Robertson, Mary Lee Fields; Bronson Robertson, Nelson Combest; Toby Robertson, Jack Hightower; Granny Robertson, Frances Eddy Harrison.

Dale Morrison, Joyce Sheets; Letty Ashbrook, Helen Boswell; Prentiss Roper, Homer Tucker; Corinna Duffin, Beryl Barnett;

First Group of AAA Conservation Checks For Farmers of Hall County Arrive; Total Payment Amount Is More Than \$21,000

SALES TALK—Even the working man is able to buy Defense Savings Bonds and Stamps, as this reproduction of a new poster points out. The poster, one of the new promotional pieces now being put on display, emphasizes the point that a person does not have to be rich to help in the present war crisis.

TWO SHIPMENTS GET TO MEMPHIS

Farmers Will Be Notified As Payments Arrive; More Expected to Be Here Soon

The first of the conservation payments for Hall County farmers on their soil practices in 1941 were received last Friday and a second shipment came Monday, Millard P. Brown, Hall County ACA secretary, has reported.

The two shipments of 131 checks totaled \$21,182.80, Brown said.

The initial shipment of 67 checks brought in \$10,114.20 for farmers, while the second group of 64 checks totaled \$11,068.60.

Since the two groups arrived within a period of three days, it is believed that the arrival of more payments will be consistent. None had been received Wednesday morning, however.

Ordinarily the conservation payments have been received earlier than is the case this year. Two reasons have been given for the delay, however. One is that the state office has a shortage of workers capable of operating the machines, and the second is that the crop insurance papers had to be completed before the deadline on this work.

Farmers whose conservation checks have been received will be notified by mail, it was emphasized.

Funeral Services Held in City for Mrs. M. McCreary

81-Year-Old Resident Had Lived Here Since 1917; Interment at Fairview

Funeral services for Mrs. Mary Louisa McCreary, 81, were held Wednesday afternoon from the Church of Christ in Memphis, with Minister Tillit S. Teddlie of Dallas conducting the rites.

Mrs. McCreary, who had been active until a few days ago, became ill last Thursday night. She died Tuesday afternoon at 2:25 o'clock at the home of her son, Edd McCreary, and only a few hours before that time had stated that she was feeling better.

Interment was in Fairview Cemetery under the direction of King's Mortuary of Memphis, and the Plains Funeral Home of Lubbock.

Survivors include three daughters, Mrs. R. A. Hutcherson of Memphis, Mrs. Miles R. Chamblay of Phoenix, Ariz., and Mrs. G. J. Foxhall of Memphis; three sons, Edd of Memphis, Will of Lubbock, and Turner of Fort Worth; 22 grandchildren; and 16 great-grandchildren. Four of her children and her husband, Ben McCreary, preceded her in death.

Active pallbearers were Andy Simmons, Lloyd Byars, Jack Jarrell, W. C. Anderson, Fernon McKinney, and Exie Sweat.

Honorary pallbearers were V. L. Yarbrough, George Dickson, Walter White, V. Alewine, Sam Foxhall, F. N. Foxhall, W. C. Davis, and W. V. Coursey.

Mrs. McCreary was born in Mississippi January 25, 1861, and was 81 years and 2 days old at the time of her death. She was married to Ben McCreary in Booneville, Miss., and came to Texas in 1902. The family moved to Hall County in 1917, and McCreary died March 30, 1924.

Attack Is Fatal to Resident of City For Four Months

Funeral Services Are Held At Local Funeral Home; Interment at Fairview

Jack St. Marie, resident of Memphis for the past four months, died of a heart attack Saturday.

Funeral services were held from the Womack Funeral Home Monday morning at 10 o'clock, with Rev. Russell A. Wingert, pastor of the First Presbyterian Church, conducting the rites.

Burial was in Fairview Cemetery in Memphis under the direction of the Womack Funeral Home.

Survivors include his wife; one daughter, Jacqueline Lile of Wichita Falls; one brother, William St. Marie of Canada; and two sisters, both of Detroit, Mich.

Pallbearers were employees of the Womack Funeral Home, and Everett Rice.

St. Marie came to Memphis from Childress slightly more than four months ago, and had been employed as an insurance salesman by Womack. He was born in Carsonville, Mich., and was 67 years, 6 months, and 28 days old at the time of his death.

He was married in 1905, and was a former resident of the state of Washington. He was a coal dealer in Seattle for a number of years.

Selective Registration Will Begin February 16

Million Men Between 45 Will Register Service With U. S.

Third registration, which held on February 16 and will include all unregistered males born between February 16, 1918, and December 31, 1921, will be conducted by the local boards of registrars assisted in most cases by the state. General J. Watt announced.

Registration in Hall County will be at the four communities of Memphis, Lakeview, Esplanade, and Turkey, W. J. Bragg, clerk of the local draft board, said this week. The place of registration in each community will be announced later.

Survey of Farm Machinery Made

A survey of 936 farms in Hall County to determine the amount of farm machinery repair needed in 1942, and the amount for sale, and the amount which can be repaired has been completed but not yet compiled by members of the staff of County Agent W. B. Hooser.

Questions which were asked are as follows: How much farm machinery repair work will be needed in 1942 as compared to that in 1941? How much farm machinery which is not now in use is available for re-sale? And how much abandoned farm equipment can be repaired for use?

The survey is now completed and compilation may be finished this week, the county agent said.

Pat Noel Lands In Great Britain

Pat Noel, son of T. E. Noel of Memphis who received his "wings" in the Royal Canadian Air Force in December, is now in Great Britain, it was learned last week.

Noel will undergo intensive training there for about 30 days, and then will be assigned to some sort of combat duty, his father said this week. What part of Great Britain he is in is not known here.

Deadline to Affix Stamps Is Monday

Although numerous Hall County automobile owners have purchased the federal auto use stamps, a large number have not done so, it was reported this week.

The sale of the stamps are slow throughout the state, W. A. Thomas, collector of internal revenue, has reported.

The stamps, which sell for \$2.09, must be affixed to the lower right hand corner of the windshield, and left on display there until the date of the stamp's expiration.

It is a criminal offense punishable by a fine of not more than \$25 or imprisonment for not more than 30 days, or both, to use an automobile without having this stamp affixed after February 2.

The stamps are on sale at the post office in Memphis.

Red Cross Needs Sewing Machines

Any person who has a sewing machine which could be lent to one of the Red Cross sewing rooms in the county should contact either Mrs. C. L. Hamrick or E. E. Roberts, it was announced this week.

Several of the Red Cross sewing rooms are in need of more machines, it was explained, and no money is allotted to buy machines.

FAVORITE RECIPES Fill Cookie Jar Or Send Treats To Boys in Camp

BY WINIFRED CLARK

PANTRY-RAIDING boys and girls and treat-hungry lads in camp will welcome these cookies. Here's a recipe for raisin cookies that will make them ask for more.

For about four dozen medium-size raisin pack-away cookies, you need these ingredients: 1 1/2 cups seedless raisins, 1 cup butter, 1 cup granulated sugar, 1/2 cup light molasses, 2 eggs, 1/4 cup milk, 3 cups bran flakes, 2 1/2 cups sifted all-purpose flour, 1/2 teaspoon salt, 2 teaspoons baking powder, 1/4 cup cut candied cherries, 1/4 cup cut citron, 1/2 cup coarsely chopped walnut meats, 2 teaspoons vanilla extract, 3 cups corn flakes.

Rinse and drain the raisins. Cream butter, add sugar and cream thoroughly. Add molasses and beaten eggs and beat. Add milk and bran flakes and mix. Add flour sifted with salt and baking powder and beat. Add raisins, cherries, citron, nuts, favoring and corn flakes, and stir to blend.

Drop by small spoonfuls onto ungreased cookie sheet and flatten slightly. Bake in a moderately hot oven (400° F.) about 15 minutes. For a glazed top, brush with honey before baking.

Match 'Em And Mix 'Em

Three suits, sweaters, and several blouses, properly mixed, provide an adequate wardrobe for the undergraduate. Here's a classroom favorite—beige and brown checked jacket of one suit with camel's hair cloth skirt of another, a bright red pullover sweater and white blouse.

FAVORITE RECIPES Hawaiian Recipe For Deviled Steak Unusual and Tasty

BY WINIFRED CLARK

HOUSEWIVES in wartime Hawaii forget their cares by trying unusual dishes to provide tasty treats for their families. Try this recipe for Hawaiian deviled steak, using an earthenware cooking utensil.

You'll need one flank (2 pounds) steak, 2 tablespoons flour, 2 tablespoons butter, 1 large onion, 1 teaspoon herb bouquet, 1 teaspoon salt, 1/2 teaspoon pepper, 1/4 teaspoon paprika, 1 teaspoon dry mustard, 1 1/2 tablespoons cider vinegar, 2 cups unweetened canned pineapple juice.

Cut the meat in pieces 2 by 3 inches and roll in flour. Melt the butter and brown the sliced onion and powdered herbs, remove onion and brown the steak. Add remaining flour and dry seasonings and brown slightly in earthenware dish. Pour hot vinegar and pineapple juice over steak, cover closely and simmer in oven for several hours or until steak is tender.

A herb bouquet usually consists of one sprig each of parsley, tyme, marjoram, rosemary, 1 leaf of sage, and about 1/2 bay leaf. If used by the teaspoon, the fresh herbs are chopped, or else they are dried and crushed. Herb bouquets come packaged in crushed or powdered form.

Patsy Ruth Hall Is Married To Noel Frances Clifton

Mr. and Mrs. Forrest L. Hall have announced the marriage of their daughter Patsy Ruth to Noel Francis Clifton, son of Mr. and Mrs. S. K. Jones of Estelline.

The single ring ceremony was performed at 8:30 o'clock Sunday evening in the First Baptist Church of Hollis, Okla., with Rev. Barney Thames officiating.

The couple were attended by Travis Bruce of Estelline and Misses Charlene Gerlach and June Edmondson.

The bride wore a dusty blue dress with black accessories. Mrs. Clifton was a graduate of Memphis High School with the class of 1941.

Mr. Clifton is a graduate of Estelline High School with the class of 1934. He attended school at West Texas State College at Canyon and received his degree in aeronautical engineering from the University of New Mexico at Albuquerque.

He also completed a course at the Cutter-Carr Flying School. He was president of Kappa Alpha fraternity and was pianist for the college orchestra.

Mr. and Mrs. Clifton will make their home in Estelline where he is employed at the Clifton gin.

The exciting, different
dessert—
sizzling fruit
for only
10¢
a portion

Here's a new way to "dress up" canned fruit—and make it look and taste like a very "special" dessert. Serve it tonight—it's as easy as a-b-c to prepare.

SIZZLING FRUIT
1 (No. 2½) can pear halves
¼ teaspoon each of ground ginger, cloves, and cinnamon (whole spices may be used also)
½ cup KARO (red label)
1 tablespoon lemon juice
1 (No. 2½) can peach halves, drained
1 (No. 2½) can Bing cherries, drained

Pour syrup from canned pears into saucepan. Add spices, KARO and lemon juice. Cook about 5 minutes. Add whole pieces of fruit; heat again, but do not boil. Remove from heat, and serve hot or chilled. Makes 8 large servings.

KARO adds extra food value as well as extra flavor. It's rich in Dextrose, food-energy sugar.

No Change Made in Blue Stamp List

Families taking part in the food stamp program in Hall County will have the same selection of foods as they did in January, Wynn S. Goode, area supervisor, Surplus Marketing Administration, USDA, announced today.

The complete list of blue stamp foods for the period of February 1 to February 28, in all stamp program areas is as follows: Butter, all cuts of pork (except that cooked or packed in metal or glass containers), fresh grapefruit, apples, pears, oranges, and fresh vegetables (including potatoes), corn meal, shell eggs, dried prunes, hominy (corn) grits, dry edible beans, wheat flour, enriched wheat flour, self-rising flour, enriched self-rising flour, and whole wheat (Graham) flour.

"The food stamp program, building America's Health Defense, not only provides nourishing foods to fellow Americans in need, but primarily creates wider food markets for farm products. In these days of full farm production, the stamp program, community school lunch program, direct distribution of commodities, and lend-lease purchases, all under the supervision of the USDA, Surplus Marketing Administration, help assure to the American farmer a fair return on his full production by creating and maintaining a steady outlet for the food he produces," Mr. Goode said.

Coleman Declines to Run for Sheriff

To my many friends, who have been urging me to announce my candidacy for sheriff of Hall County:

I have definitely decided that I will not be a candidate this year. I helped organize and am a member of the Texas Defense Guard Unit in Hall County and I do not know where my duties with this organization will take me in the future. By not making this race and by buying Defense Bonds with the money that it would take to make the campaign, I feel that I can better serve our country in this hour of crisis.

I deeply appreciate the interest and friendship that you have shown me and I hope to be in better position to serve you in the future.

appearance on the radio one Sunday morning last fall evidently made a big hit, for Radio Station KGNC and Lewis T. Nurdyke have been receiving a lot of requests for the poet to appear for a repeat performance. He has been requested to broadcast his poems Sunday, February 8, at 8:15 a. m. from KGNC. Make a note of the time and listen in on the program.

The Fairview power mower fund has been given a boost by the donation of \$2.50 by C. M. Hawkins and \$10.00 by the Woman's Culture Club, making a total of \$82.75. It will not be long until weeds and grass start growing, so let's get the fund raised right away in time to have the power mower here ready for work.

Volunteers are needed so the work of preparing for any emergency in Memphis goes ahead. Captains of various groups have been appointed and they are ready to start instruction as soon as enough volunteers are obtained. Go now to W. V. Coursey at the city hall and enroll in the Memphis Civilian Defense.

GRANDPA COULD TALK

By The Democrat Staff Poet
My Grandpa was a man who did a lot of thinking. He said everything, man or beast, liked to feel important. Just to illustrate he told of a blizzard that struck one time. He got up to shut the door and his dog followed him. Before he got the door shut a big puff of wind hit the dog and froze him into a solid block of ice, all but his tail which happened to be wagging. He used that dog for a door prop until spring, and his tail kept wagging and kept the snow brushed off the Welcome mat, and when he finally thawed out in the spring and realized what help he'd been that winter, he wanted to get in the ice box so he could do it again.

Today my poem tells about Grandpa:
With roughened hands he plucked a coal from the ashes in the fire; with many puffs he lit her up—that ancient home-made briar. Then he would start off easy, smoking and puffing for a time, then words would come a-rolling from that old Grandpa of mine.

Some things he said might have been true, but others left a lot of doubt; all we did was sit and listen as Grandpa rolled 'em out.

Drive Safely, Brother— YOU CAN'T GET ANOTHER CAR!

By GEORGE CLARK
Managing Director
Texas Safety Association
Let's be completely selfish for a moment.
Let's forget that it's patriotic to drive safely and sanely, and therefore save rubber, oil and gas. Let's forget that a little courtesy and common sense on the highway saves lives—including your own.
Let's forget all that. But, brother, if you smash this car, where are you going to get another?
If you ruin even one tire in a minor accident, where are you going to get another?
This is one time when, for purely selfish reasons, you can't afford to drive recklessly. You may have plenty of money—you may not give a hoot about your own neck or anyone else's—but you do want to keep on driving!
Then drive safely! And one of these days, when we've won this war and you're able to get a new car, maybe you'll have acquired the safety habit and will drive safely just because you have found it's smart business.
Here are a few "Smash-Up Savers":
1. Start sooner. Take it easy. Allow more time for that extra wartime traffic.
2. Cut your speed. The safe life of a tire at 50 miles an hour is only half of what it is at 30 miles an hour. At 70 miles an hour it falls to only 50 per cent of normal life.
3. Don't drive if you drink.
4. Keep your car in tip-top shape—motor, brakes, tires, horn, lights, battery, etc.
5. Try turning on your charm behind the wheel—be courteous to other drivers and pedestrians.
6. Remember—drive safely, brother—you can't get another!

FSA GIVES HELP TO CLUB BOYS THROUGH LOANS

The pictures above show the farm youth in Briscoe County made it possible for the county to exceed its quota set by the state USDA Defense Board for an increase in dairy animals. Farm Security loans were made to more than 75 club members for the purchase of young dairy heifers, sheep and heifer beef stock.

At the top are J. B. Brooks Jr. and Troy Brooks, with their 4-H Club flock. Also in the picture are Claude Carpenter, Farm Security supervisor and County Agent Lem Weaver. Donzel Roy Vaughn is shown at the lower left with his dairy heifer. The white face feeder is Virgil Patrick's, another club member.

Mary Foreman in Race for Office Of Superintendent

Has Had Several Years Of Teaching Experience; Now Music Supervisor

Miss Mary Foreman this week authorized The Democrat to announce her candidacy for the office of County Superintendent, subject to the action of the Democratic primaries.

Miss Foreman has been serving for the past three years as county music supervisor. All of her teaching experience has been in Hall County, with the exception of three years spent in an adjoining county. Other teaching experience has been in Newlin, Estelline, Salisbury, and Memphis.

Miss Foreman, who was born in Saint Jo, came to Memphis at the age of two years. Her grade school work and high school work was all done in Memphis, with the exception of one year at Harrell Chapel. She is a graduate of Memphis High School.

After completing her high school work, she attended the University of Texas at Austin for two years, and then attended West Texas State College in Canyon from which she received her degree in education. She graduated from Canyon in 1937, having been elected to junior, senior, and graduate membership in Alpha Chi, honor fraternity. Since receiving her degree, she has begun work toward her master's degree.

In making her announcement, Miss Foreman made the following statement:

"I realize that the position I am asking for is one of responsibility—perhaps of a responsibility during the days ahead of us greater than ever before. I am willing to assume that responsibility with an understanding heart for two sides to every question, and with a conscience that will let me do only those things which I believe are right and best for the school boy or the school girl.

"I realize also that the schools, both rural and independent, will have to make sacrifices along with every individual, every business and every industry. As a patriotic citizen who is intensely interested in the education of the American school child, I pledge my time and effort to an economic efficient administration of my duties as County Superintendent of schools.

"Through my weekly contact with the county schools the past three years, I have gained an understanding of many of the problems and needs of the pupil, the teacher, the school, and the community. Through my work in the office I have become acquainted with much of the business connected with the position.

"I feel that my varied experience in the schools of the county in addition to my college training qualifies me to act in a supervisory capacity, special and general, as well as in an administrative capacity.

"I earnestly solicit the support and influence of the people of Hall County in the coming election.

getting more than they need, cows can store enough vitamin A to last 60 to 90 days, depending upon the amount of milk they are producing. This is an important reason why they need oats or some other green pasture during the winter.

Eudaly says that farmers who have no hay containing some green, or silage, can supply their cows with enough vitamin A to maintain production by feeding one pound of alfalfa leaf meal daily, four pounds of peagreen alfalfa hay, or any other peagreen hay daily, or six pounds of yellow variety sweet potatoes.

As most of the roughage furnished to cows in Texas is low in protein, grain mixtures will have to be high in that element in order to supply the amount needed. Protein is the only element in feed which stimulates milk production. Cows getting sorghum cane hay, johnson grass hay, grain sorghum bundles, bermuda grass hay, prairie grass or other grasses should be fed a grain mixture which will analyze 21 to 22 percent protein, depending upon the quality of the hay. Further information may be had by writing to the Extension Service.

NEW INCOME TAX PAYERS

Editor's Note: This is the 2nd of a series of articles concerning the present income tax law of the U. S. Other articles will follow week to week.

The Revenue Act of 1941 provides a simplified method of computing income tax in the case of individuals whose gross income is derived wholly from salary, wages or other compensation for personal services, dividends, interest, rent, annuities, or royalties, and does not exceed \$3,000. A new form, 1040A, has been provided for taxpayers who are entitled to and elect to use such method. A table on the reverse side of this form shows the amount of tax on increasing amounts of gross income after the proper allowance of \$400 for each dependent, if any. The tax under the simplified method is the same for each \$25 block of gross income and the taxpayer need only ascertain in which block his gross income (less allowance for dependents) falls to determine his tax. A flat reduction of 10 per cent has been made in arriving at the amount of tax shown in the table for deductions such as charitable contributions and taxes paid, so that the taxpayer who uses this method does not list these but gets an automatic deduction of 10 per cent.

Under the simplified method the status of a person on the last day of the taxable year is the governing factor in determining the exemption level (\$750 for single persons and married persons not living with husband or wife, and \$1,500 for married persons living together) as well as the credit for dependents.

A husband and wife living together on the last day of the taxable year may file separate returns on Form 1040A if the gross income of each is from the prescribed sources and does not exceed \$3,000, or they may file a single joint return on that form if their combined income is from the prescribed sources and does not exceed \$3,000.

The use of the simplified method is optional with the taxpayer but once an election has been made for any year, it is irrevocable for that year. If a taxpayer files a return under the simplified method for the taxable year he may not thereafter file a return under the general provisions of the law for that year. Conversely, if he files a return under the general provision for any taxable year, he may not thereafter file a return under the simplified method for that year. However, a new election is allowed for each succeeding taxable year.

To make it easier for taxpayers to meet the increased taxes required by the national defense program, the Treasury Department is offering for sale two series of notes, both dated August 1, 1941, and maturing August 1, 1943.

In January of each year two new series will be provided so that a taxpayer can always purchase notes during the entire year in which he is receiving his income for use in payment of taxes due the following year. The reason for the two-year note is to permit a taxpayer, if he so desires, to begin saving in January of one year and continue through that year to save for his taxes due the following year.

All notes are sold at par and accrued interest. When presented in payment of income taxes they will be received at par and accrued interest up to and including the month in which such taxes are paid. Interest will not accrue beyond the maturity of the notes. If not presented in payment of income taxes, they will be redeemed for cash under certain specified conditions at the purchase price paid for the notes. In other words, the taxpayer, if he redeems the notes for cash, gets back just the amount he paid.

Complete information about these Treasury notes, will be found in a Treasury Department circular available at local banks, Federal Reserve Banks and branches, or Treasury Department, Washington, D. C.

Roy Patton to Run For Commissioner Of Precinct No. 1

Has Lived in Hall County For 35 Years, Worked as Road Man for 13 Years

Roy Patton this week authorized The Democrat to announce his candidacy for the office of Commissioner of Precinct No. 1, subject to the action of the Democratic primaries next summer.

In making the announcement, Patton made the following statement: "I wish to submit myself as a candidate for Commissioner of Precinct No. 1. In doing so I feel that I know many of the citizens of the precinct but some I have not had the pleasure of meeting, and to these I submit the following brief summary of my life: "I have lived in Hall County for 35 years, and for the past 13 years have been working for you in Precinct 1. I have served as road maintainer under the administration of three commissioners and have at all times sought to give satisfactory service. I have also tried to stay in contact with the people of this precinct and give them the kind of roads they wanted, and render whatever service I could."

"In asking for your consideration, I can only offer as a promise only my very best efforts at getting the job done, and if I am elected will try to handle the matters pertaining to the office in a business way. "It is my desire to see every citizen of the precinct before the primary in July, but until I see you in person, I take this method of requesting your consideration, and assuring you that your vote and influence will be sincerely appreciated."

Assets of the company also reached an all-time high of \$130,837,229—a gain of thirteen and a half million dollars. The company paid to policyholders and beneficiaries in 1941 a total of \$8,052,208, 60 per cent of which was to living policyholders.

Kansas City Life Hits New High in Business of 1941

E. N. Hudgins, local representative of Kansas City Life, announces that with the addition of the business of Midland Life Insurance Company of Kansas City, purchased in August, 1941, the Kansas City Life Insurance Company reached an all-time high of business in force and entered the small circle of companies with a half billion of insurance, ending the year with \$502,590,672.

All of the policyholders of the Midland Life Insurance Company became policyholders of Kansas City Life when it reinsured the former company. All of those policies are secured by the assets and funds of Kansas City Life in the same manner as any and all other policy contracts issued by the company.

Assets of the company also reached an all-time high of \$130,837,229—a gain of thirteen and a half million dollars. The company paid to policyholders and beneficiaries in 1941 a total of \$8,052,208, 60 per cent of which was to living policyholders.

Kansas City Life has operated continuously in Texas for 37 years, insuring lives, providing annuity incomes and investing employees in offices and field in Texas.

The O. Sam Cummings Agency, state general agent for Texas, said to be the largest life insurance agency in the entire South, and one of the largest agencies in the United States, led all other general agencies of the company in production in 1941, according to J. E. Barr, vice president and superintendent of agencies for the company.

When Bronson comes home on leave he finds the condition of the family is bad, financially and otherwise, and takes drastic steps by forming a private army of his own and makes each one join up. The results are truly hilarious.

Throughout the play the members of the Robertson family, as well as the others of the cast who are outsiders, provide the audience with plenty of hilarious amusement.

The play to be presented Thursday night, February 5, will serve a double purpose. It's good clean and wholesome entertainment, and half of the proceeds will go to the Red Cross.

"I'M IN THE ARMY NOW" A Timely Domestic Comedy in Three Acts By NED ALBERT presented by THE MEMPHIS LITTLE THEATRE THURSDAY NIGHT, FEBRUARY 5—8 P. M.

under the direction of Mrs. T. M. Harrison with the following cast: Pa Robertson J. Claude Wells Ma Robertson Kathryn Milam Diana Robertson Mary Lee Fields Bronson Robertson Nelson Combest Toby Robertson Jack Hightower Granny Robertson Joyce Sheets Dale Morrison Helen Boswell Letty Ashbrook Homer Tucker Prentiss Roper Beryl Barnett Corinna Duffin Winifred Jane Tarver Audrey Nayland Mary Foreman Mrs. Essie Knapp George Thompson Jr. Ramon Valdez

RESUME OF ACTION This is not a war play but a timely comedy of family life. Using only a simple living-room setting throughout the play, the author, Mr. Albert, has written a superlative and refreshing comedy that will be welcomed with all due applause.

There is nothing warlike or depressing about this play; on the contrary it portrays a screamingly funny picture of a modern family life and one that will cause much laughter throughout its innumerable comedy situations.

The Robertson household consists of Ma and Pa, their three children and Pa's mother, who is affectionately known as Granny. The three children are a son named Bronson, another son Toby whose part is truly comical, and a daughter named Deanna.

Although she is devoted to all of her children, Bronson is Ma's favorite and she fusses over him, never loses an opportunity to dose him with medicine whether he needs it or not, and literally spoils him to death. Since Bronson is in his early twenties, he has to register for the draft and Ma is horrified at the thought that her dear boy might have to spend a year away from her. So she devotes all of her time and energy thinking of ways and means whereby Bronson won't have to leave her, even going before the draft board and telling them that her son is suffering from a chronic ailment. But he is examined and pronounced physically perfect. He goes to camp for training taking his pills along as well as other things of a comical nature.

When Bronson comes home on leave he finds the condition of the family is bad, financially and otherwise, and takes drastic steps by forming a private army of his own and makes each one join up. The results are truly hilarious.

Remember Pearl Harbor! We wish to take this means of expressing our gratitude and appreciation for the many kindnesses shown us during our period of bereavement. Our hope is that you may be shown the same kindness in your times of sorrow. May God bless each of you. Mrs. Jack St. Marie. Mr. and Mrs. W. M. Life.

Wage Statement Not Available Amarillo Board Workers cannot see Board showing wages by their employers for filing income tax according to Dewey Rev. of the Social Security office in Amarillo. Many requests were for such information at last year, and numerous reported for 1941 are posted to the individual accounts by the Social Security Board, but the job was completed until about last year. Since income tax must be filed with the Internal Revenue before the 16th, the wage records of Security Board will be available for use in preparing returns.

Social Security Tax Not Raised At Start of 1942 Some employers seem to be under the impression that the old-age and survivors' insurance tax rate was scheduled to be increased on January 1, 1942. Dewey Reed, manager of the Amarillo office of the Social Security Board, said this week. Under the present law the tax rate for the worker is one per cent on each dollar of his wages. The employer pays one per cent on each dollar of his pay roll, making a total of two per cent divided equally between the employer and the wage earner. This rate will continue until 1943 according to the law as it now stands, at which time the rate will be increased to two per cent on the employer's pay roll and an equal amount on the wages of the worker. It was pointed out by Reed that changes in the Social Security Act by Congress in 1939 removed the 65-year age limit for wage credits and thus made it possible for many workers to continue their employment in covered occupations and build up old-age and survivors insurance benefits. This feature is particularly attractive at this time, owing to the fact that many an older person heretofore unemployed and not having sufficient wage credits was unable to qualify for old-age insurance benefits. These workers are now working and receiving credit for their wages and most of them, it is believed, will be able under the present labor supply emergency to continue working until they are able to qualify for benefits. Anyone desiring information regarding the filing of claims, securing social security account numbers, etc., may call or write to the office of the Amarillo Social Security Board Field Office at 324 New Post Office Building. WE HELP THE GOVERNMENT— NOW YOU CAN HELP US!

FOR A LONG TIME now, The Democrat has pursued a policy of frankness, which at times may or may not have been pleasing to the eyes and minds of our readers.

Once more The Democrat desires to be frank. Never has there been so great a demand for public service made upon newspapers and never has there been so serious a prospect of loss of revenue that enables newspapers to carry out that service.

Our mails are filled daily with appeals from the Army, Navy, Marine Corps, Red Cross, Selective Service, OPM, and numerous other government agencies to transmit to you vitally important information. To this burden is added that of our local defense needs and the publicity required for every form of local welfare.

The public welfare and its publicity requirements are doubling in size, due to the numerous defense organizations either recently formed or now in the process of formation.

We are responding and will continue to respond to the utmost of our ability, but in the meantime we are suffering vital loss of national and local advertising revenue that has always been a substantial portion of our sustenance.

Deduct from any newspaper the advertising revenue received from production and sale of automobiles, tires, and other heavy merchandise now being curtailed, and you throw it back, solely dependent upon the local field. And local merchants find it difficult to advertise products which have been receiving national advertising in recent years.

To this must be added rising costs of all materials, troublesome shortages, and inability to get running repair parts in many lines.

There very probably will come curtailment of paper sizes, and many in the profession expect subscription lists to be frozen at their present size and newspapers allowed to take no new subscribers.

In order that we may go on helping, we ask your help in some reasonable form. We earnestly ask to be given first opportunity to do your job printing whether it be large or small.

Many of you now buy office supplies and materials from out of town dealers that we can make a few dimes on without raising your price. Stapling machines, ledger leaves, adding machine tape, salesbooks, and numerous other items can be bought from The Democrat, and thus help it to carry on.

We have connections with bindery and specialty houses to handle work which we are not equipped to do and we can deliver large books or printing of any variety to you at the price you have to pay specialty salesmen and we can still make a small commission.

It has never been our policy to ask you to pay us more for anything than is in line with competitive prices, but we feel that the present emergency at least justifies us in urging you to give us a chance at all of this business.

The Democrat is a one hundred per cent locally-owned institution. It maintains a fair-sized payroll, all of which is spent here. It is your local contact with every emergency, and it is the first called upon to serve worthwhile causes, called upon to do this service with no payment. We need your help now, and we will need your help throughout this emergency.

All we ask is that you help us to help "Keep 'Em Flying."

Press Paragraphs

CULLED FROM THE
DEMOCRAT'S EXCHANGES

Pity the Poor Girl

The Shamrock Texan: J-A-P spells JAP and it also stands for Judy Ann Perrin, daughter of Mr. and Mrs. Cecil Perrin, who had no thought of the Yellow Peril when they named their daughter.

Cecil isn't sure but what he ought to change his daughter's name as her initials might cause trouble later on. The question is: If your initials spell J-A-P does that make you a fifth columnist?

Of course since she isn't quite two years old no one could accuse Judy Ann of engaging in subversive activities, but if the war continues any length of time she might be under suspicion.

Mr. and Mrs. Perrin were puzzled and Cecil is downright worried. Now they could change her name to Mary Ann and her initials would spell M-A-P, which is changing rapidly anyway, so she couldn't miss.

The Safe Way

"Snooter Knows" in the Stanton Reporter:

Storing cars in garages and diminishing truck transportation will, in my judgment, lessen the death toll on our highways, and decrease traffic congestion to a point it will be safe to those who do use them.

Advertising

Ed Bishop in the Dalhart Texan: A solicitor, seeking advertisements for a local paper, called at the village grocer's. Upon presenting his card, he was surprised when the gray-haired proprietor said, "Nothing doing. I've been established 80 years and I've never advertised."

"Excuse me, sir, but what is that building on the hill?" asked the traveler.

"The village church," said the grocer.

"Been there long?" asked the other.

"About 300 years."

"Well," was the reply, "they still ring the bell."

Shortages

The Munday Times: Many of the articles we have been accustomed to buy won't be available any more. Industry will have to cut down on many products to speed the output of weapons.

Instead of blaming our industrial system for these shortages, we can accept them cheerfully, keep our morale up and realize that metals we would use in peacetime are now building up the best Army, Navy, and Air force in the world.

After Christmas

Douglas Meador in the Matador Tribune: Caving soil along the bank of memory reveals a long-buried distaste for the odor of Ben Hur perfume. It was discovered by elite society after the price dropped within the grasp of the plebian, but my odium was established by an early affair of the heart.

Many of my contemporaries believed her to be the most beautiful girl in school, but she proved unfaithful immediately after Christmas following her receipt of my gift of a three-dollar ruby.

Judging

Douglas Meador in the Matador Tribune: It is unfair to judge a man by his friends. Need for society often becomes so great that selection is denied a voice.

Ages

The Menard News: There are seven ages of man and two of women—one's her right one.

Attack on Hawaii Outlined in Letter To Local Resident

Editor's Note: How the men stationed in Hawaii knew nothing of the surprise attack on Pearl Harbor is outlined in the following letter from Ronald Nash, Bellows Field, Hawaii. Nash, a brother of Mrs. Phaeton Alexander of Memphis, has been in the Air Corps for two years. He has been in Hawaii since last September. The letter was written December 20.

On the morning of December 7, I had been on guard the night before, and was on the morning shift, walking my post in a military manner, keeping always on the alert, and observing everything that took place within sight or hearing.

At about 9 o'clock a plane dived out of the blue sky. By the way, it was a very pretty morning. The plane let go a few bursts of machine gun fire on the camp, banked over me, and took off.

I didn't think much about it, just thought it was one of our boys out for practice. Then as he came over me, I saw the rising sun markings on his ship, but I still didn't fire as I didn't know we were at war and I didn't want to do the wrong thing.

About 15 minutes later the camp came to life. Soldiers started going to their places of business. I asked what the score was, and they didn't know whether we were at war or not.

About 10 o'clock, the slant-eyed sons came over, this time in earnest. I had been given five rounds of ammunition the night before, and had been brought no more, so I fired them at the first two planes that came over and watched the rest of the attack from behind a high pole, cursing for all I was worth. It sure made me unhappy because I had no more shells. Nothing has happened since worth talking about.

400 North Texans Join Navy in Week

More than 400 men were enlisted in the Navy in the North Texas district during the week of January 9, Lieutenant W. B. Cranston, officer in charge at Dallas, announced this week.

This district leads all others in the Southern Navy Recruiting Division, composed of the south half of Texas and the states of Alabama, Arkansas, Tennessee, and Oklahoma. Recruits were transferred to training stations at San Diego, Calif.; Norfolk, Va.; Great Lakes, Ill.; New Orleans, La.; and Corpus Christi, Texas.

Men may be enlisted as apprentice seamen for training in choice of many trades and receive promotion to higher rank as soon as qualified. Those with practical experience in a trade or profession and furnishing good employment references may be enlisted with petty officer rating and pay beginning at \$60 per month or more.

Applicants for enlistment should apply in person at recruiting station nearest home. Recruiting stations in North Texas are located at Abilene, Amarillo, Big Spring, Dallas, Fort Worth, Longview, Lubbock, Paris, San Angelo, Waco, and Wichita Falls. Age limits are from 17 to 50. Enlistments may be made for duration of War.

On this machine each wheel is revolved at high speed and the "Neon Eye" positively detects every spot on the wheel which is out of balance. Unbalanced wheels are dangerous to safety—cause tires to wear out 20% to 50% quicker.

THERE ARE 2 KINDS OF WHEEL UNBALANCE

DYNAMIC UNBALANCE causes the wheels to vibrate rapidly sideways, producing abnormal wear on tires, bearings, kingpins, tie-rod ends, steering gear and all connecting links.

STATIC UNBALANCE causes the wheels to hop up and down, resulting in excessive vibration and hard steering.

Axis Nationals in U. S. Must Get New Identification Slip... Attorney General Francis Biddle this week announced new regulations affecting the conduct of German, Italian and Japanese nationals throughout continental United States. The new regulations, issued under authority of the Presidential proclamation of January 14, 1942, relating to alien enemies, require all German, Italian and Japanese aliens to apply at the nearest first or second class, or county seat, post office for a Certificate of Identification...

Keeping Terrace System in Repair Important, Says Hall Conservationist... Keeping a terrace system in repair is just as important as keeping a farm tractor in repair, points out B. F. Parsons, district conservationist for the Hall County Soil Conservation District. If any part of the terrace wears out for lack of maintenance, or the terrace breaks, then the terrace job is a failure. Each farmer has a large investment in his terrace system, and these terraces add to the value of his farm only if properly taken care of, rebuilt from time to time, Parsons stated. The terraces on farms were constructed for soil and moisture conservation, and to accomplish the job successfully, these terraces must be able to handle the run-off water.

Jobs Open... CIVIL SERVICE... With the national defense program of the United States opening up large numbers of jobs of varied types almost daily, the Civil Service Commission is asking for applications, Glynn Thompson, local secretary of the board of examiners, has announced. Here's a listing of a few of the jobs for which applications are now being taken (further information may be obtained from Thompson at the Memphis post office): Training specialist, \$2,600 to \$5,600 a year, with optional fields. Subaltern, \$1,800 a year, for employment in the CCC, War Department. Radio operator, \$1,800 and \$1,620 a year. Telegraph operator, \$1,800 a year. Communications machine operator, \$1,620 a year. Under typewriter operator, \$1,260 a year. Because of proper diet and early dental care, the teeth of the Dionne quintuplets show no signs of decay.

Want Enlistments For Flying School... Announcement that enlistments for units of the Advanced Flying School west of Lubbock will be handled at Lubbock was made Monday afternoon by Thomas L. Gilbert, commanding officer of the base, who said that Capt. C. L. Prichard will serve as recruiting officer and has set up enlistment headquarters at 702 Main street, Lubbock. Approximately 1,000 men will be enlisted, Col. Gilbert said. Necessary qualifications for enlistment were outlined as follows, for men between the ages of 18 to 35: Those under 21 must have consent of parents. Those applicants who are not high school graduates must pass an orientation test. Married men are acceptable provided they are willing to sign a statement that their dependents do not have to rely on them for support. All applicants for enlistment 20 years of age or older should present to the recruiting officer a statement from their local selective board that they are not employed in technical positions in war production for the Army or Navy and they have not been ordered to report for induction. They must be physically fit. Enlistments for units of the new flying school should prove especially interesting to men in this entire area, Col. Gilbert said. Those enlisting, after proving themselves, will have an opportunity to enroll for courses in technical training. This training for highly technical jobs will be of great value in the future and is an absolute necessity now to "keep 'em flying." After enlistment and basic training has been received, they may become eligible to attend the following Air Corps technical schools, providing they meet the necessary requirements. Electrical instrument, airplane mechanics (22 weeks), aircraft armor, aircraft mechanics, aircraft metal workers, aircraft welders, air corps supply and technical clerk's course, link trainer instructor course, parachute riggers, photograph, weather observer, radio and teletype. Applicants will receive their physical examinations at the Lubbock examining office. The information given covers enlistments for units of the flying school only, and all regular enlistments for other assignments will continue to be handled through the

Use of Cotton in Insulation Now Past Experimental Stage; Market Is New

There is a new, almost untapped market for cotton that will use around 750,000 bales a year if only 10 per cent of the potential market is captured.

The field is that of insulation. Use of cotton for this purpose is apparently past the experimental stage.

Most cotton insulation to date has been used in home construction. Tests, however, show that the lightness and cohesiveness of cotton insulation make it a natural where settling by vibration is a factor.

For this reason manufacturers are turning to cotton insulation in refrigerator cars and trucks and in household refrigerators. The product is now being tested for use in marine and airplane construction.

Cotton insulation material is impregnated with a fire resistant ant agent, and houses insulated against cold, heat, and sound with cotton treated in this manner are actually more fire-proof than non-insulated structures.

These comments come from H. H. Williamson, director of the Texas A. and M. College Extension Service. He pointed out that interest in the use of cotton as insulation had been stimulated by the U. S. Department of Agriculture's search for new uses for cotton.

The Department recently announced that its Surplus Marketing Administration would provide payments of nine cents per pound to holders of approved applications who manufacture and sell insulation made of cotton, cotton card strips, and cotton comber waste. This payment takes the place of industry's "introductory offer." The 1941-1942 payment is limited to the equivalent of 27,600 bales of cotton.

About 107,000,000 pounds of mutton tallow oil are consumed annually by the petroleum industry, largely for lubricating greases.

'Food for Victory' Loans Available at Local FSA Office

Liberalized Lending Not To Affect Present FSA Borrowers, Director Says

Food for Victory loans, with which greater numbers of low-income and small farm operators may increase food and feed production for home consumption and the market, are now available through the Farm Security Administration, U. S. Department of Agriculture.

Announcement that funds are immediately available and that applications for loans are being received here was made by Robert C. Land, rural rehabilitation supervisor for the FSA in Hall County, who received the "full speed ahead" orders from Regional Director Wilson Cowen at Amarillo.

The liberalized lending program does not affect present FSA borrowers. However, present borrowers may, if the need is present, obtain loans to meet increased food goals for war-time needs, it was explained.

Among purposes for which the new "Food for Victory" loans will be made, according to Land, are purchase of feed, seed, tools and renting equipment and work-stock of power necessary in production enterprises; purchase of material for fencing, building shelter for livestock and equipment for production.

Loans are available also for participation in group ownership of workstock and power equipment; purchase of cows, heifers, calves, pigs, other livestock and chickens.

Cudd and Hodges New C-C Directors

Two new directors, E. E. Cudd and C. C. Hodges, were selected by members of the Memphis Chamber of Commerce, final compilation of the ballots revealed this week.

The two will succeed B. E. Davenport, who has moved to Lakeview to make his home, and E. E. Roberts.

Members re-elected were O. V. Alexander, Byron Baldwin, Geo. R. Cullin, Roy R. Fultz, F. N. Foxhall, R. S. Greene, Carl Harrison, Otis Jones, James E. King, and Tommie M. Potts.

Farmers, Ranchers Have Two Ways to Figure Income Tax

Farmers and ranchers who will be required to make their first income tax return by next March 15, have the choice of two methods in computing the tax on their 1941 incomes. One is the "accrual" and the other "cash."

According to Tyrus R. Timm, economist in farm management of the A. and M. College Extension Service, "accrual" means that beginning and end-of-the-year inventories, as well as cash expenses, cash incomes, accrued incomes, and prepaid expenses are used in determining profits. Those who keep no records, or only records of cash receipts and disbursements, must use the "cash" method.

Timm suggests that farmers and ranchmen who have not paid income taxes prior to this year should study the alternative methods before making their selections as the one chosen is binding for succeeding years unless another method is authorized by the Internal Revenue Bureau. Even in that case certain adjustments of income are necessary.

More than 95 per cent of Texas farmers and ranchmen who paid income tax in 1940 used the "cash" method. Examining both methods, Timm first points out that unmarried farmers whose incomes exceed \$750, and those married with no children or other dependents are required to file returns. A deduction of \$400 is allowed for each eligible dependent.

Under the "cash" method, all cash received from sale of livestock, livestock products, crops and other income from similar sources, together with cash received for work and other services outside the farm are subject to tax. All government payments received also should be included. Income not subject to tax include increases in inventories still on the farm, farm products used by the family (if production costs not included) and state refund on gas tax, provided the net cost of gasoline is reported.

Cost of livestock, livestock products and crops purchased which are sold within the year are expenses which may be deducted in the tax return, Timm says. If desired, as capital asset, depreciation may be taken on livestock for work, breeding, or dairy purposes. Other deductibles permitted include ordinary and necessary expenses on feeding and raising livestock, as well as all other disbursements in crop production, cultivating and processing; depreciation on farm build-

Curing Pork for Home Consumption Simple, Says Extension Specialist

Curing pork for home consumption is so simple the layman may practice it with assurance of success, says Roy W. Snyder, originally meat specialist of the Texas A. and M. College Extension Service. The recipe is very simple—a mixture of salt, sugar and salt-peter in the ratio of 8 pounds of salt, 3 pounds of sugar, and three ounces of salt-peter. This quantity would provide for 100 pounds of meat.

Anticipating inquiries regarding the possible superiority of brown sugar, Snyder says he used commercial white granulated and "just a little more than one-half of the mixture in the first rubbing of the meat." A week later he rubbed the hams, bacon, and shoulders a second time. The carcass was thoroughly chilled in cold storage before cutting for treatment.

The small, thin pieces, such as the loins which had been boned, the top end of the shoulders, or Boston butts, and jowls, were not treated again as they had received enough salt in the first rubbing to cure them sufficiently.

Snyder says the thin pieces like the loins should be cured within ten days and the bacon in about two weeks, allowing one and one-half days to the pound per piece. The hams and shoulders to keep through hot weather without refrigeration should be in cure three days for each pound, or, specifically, a 15-pound ham should cure 45 days.

To make ham or bacon milder in salt flavor, Snyder says soaking thin pieces one hour and thicker pieces like hams three hours in cold water is helpful. After soaking the pieces should be hung to dry, preferably over night and then smoked for color and taste. Usually fires built on two consecutive days, "and not too much fire," will make the meat a bright lustrous brown. Hams and shoulders can always stand a little more smoke than bacon and loins.

Snyder cautions that if the weather this winter gets quite warm before the salt has penetrated to the center of the meat it may be necessary to put it in cold storage.

Scout Banquet to Be Held Tuesday

The annual banquet and installation of officers of the Adobe Walls Council of Boy Scouts will be held in the Schneider Hotel in Pampa Tuesday, February 3, at 8 o'clock.

James P. Fitch, regional scout executive, will be the speaker of the evening, bringing a clear cut picture of Scouting and its part in national defense.

Reservations for the banquet can be made through the district chairman, J. T. Duncan of Estelina, or by writing direct to the Scout office in Pampa. It is necessary that all reservations be made not later than Monday, February 2, so that the necessary arrangements can be made with the hotel.

ings (except residences), permanent improvements and major implements; depreciation on small tools; death losses of purchased livestock; state, county, school, poll and gasoline taxes, automobile and truck licenses; and gifts to charity, religion and the charitable institutions. Timm says that county agricultural agents have record books and other forms which will be helpful to farmers in preparing their returns.
