MEMORIAL DAY
DOLLAR DAY

Memorial Day

May 30th

Memorial Day, as a national observance, is a beautiful and significant expression of a nation's thoughts and hopes. It is no glorification of war or the causes of war, but rather a remembrance to those who fell in defense of their country.

Adopted from the southern custom of honoring their war dead, Memorial Day is emblematic of a common interest in perpetuating the cause of peace. The observance furnishes a pause for contemplation upon the story of war and what it means. This belief that war will end war . . . and reaffirms the pure logic that the steady progression of peace and peaceful methods is the best defense against future wars.

Troop News from the Donley-Hall Scout District

sponsored by the First Christian Church. Although these units are under church sponsorship, they are not denominational, and any boy who has passed his twelfth birthday, may join the troop of his choice.

Troop 36 of Hedley, a citizen-sponsored unit, has been in operation for almost a year, and has an excellent record, according to council officers.

Cubbing, Scouting's program for younger boys, is rapidly gathering impetus in its growth in the Council area, and the Parent-Teacher Association of Memphis is seriously considering sponsoring two packs for those boys who are eligible.

There is one way to get justice for Texas—and that is to turn loose every well in the state; let them flow wide open. Then those states and those companies that haven't been taking square with Texas will be glad to yell "Calf rope."

Do you remember glamorous Fay Cotton of Borge, who was Texas Sweetheart No. 1 at the Fort Worth Frontier Centennial, and who wore a gown of gold valued at \$5,000 and was serenaded nightly at Casa Manana by Everett Marshall with "The Night Is Young and You're So Beautiful?"

Lou Wolfson, executive director of Casa Manana, and Miss Lauretta Jefferson, dancing and costuming director, will hold tests in many cities and towns over the state. Only one girl can be Texas Sweetheart but the other local contest winners will be offered places in the cast of magnificent Casa Manana, which may be the start of successful careers.

Stocky, bushy-headed, spectacled Maury Maverick spoke in Austin the other night—the first speech the fiery ex-Congressman had made since his come-back through election as San Antonio's mayor. His address bristled with such epigrams as:

"There are two kinds of Democrats—standstill Democrats and go-ahead Democrats."

"Constitutional government is your inalienable right to pray, talk and think as you please—and eat regular."

"There is a young man in Fort Worth who maybe ought to change his name to Elliott Garner."

On the subject of John Garner for the Democratic presidential nomination, Maverick said Garner would be 73 years old in 1941; Garner has not said he wanted to run and also it would be desirable first to hear Garner give his views on important questions—all of which added up that Texas should send a powerful, unstructured delegation to the national convention, in Maverick's opinion.

This—and that: The supreme court of the United States has reversed the decision of a Texas federal judge and has ruled that the brother of a former governor and an ex-assistant attorney general must face trial on a hot oil charge. I GIVE YOU TEXAS

By BOYCE HOUSE

"Carrying coals to Newcastle" has been a saying that, for generations, has meant doing something foolish and unnecessary—because Newcastle is the coal-mining center of England.

Yet that is exactly what the people of Texas are permitting to happen! Texas is the greatest oil-producing state in the Union; its wells, if turned loose, could supply all the petroleum needs of the world.

Companies that have clamored for proration in Texas are bringing oil into this state from Louisiana, Illinois and elsewhere. If oil is needed in Texas, why not produce it in Texas and give employment to Texas workers, business to Texas merchants and more revenue for our schools and other government needs?

Texas has prorated more heavily than other states have. If proration is a good thing, the others ought to prorate on the same basis that we do. Texas has been "holding the sack" for some of the other states.

Foes of the so-called fair trades act, who have contended it would place the power of fixing Texas prices in the hands of out-of-state manufacturers, have brought out that the cost of the lobby for the bill is being paid by 15 such manufacturers and it also has been charged on the floor of the senate that these so-called fair trades acts over the country were the brain children of Coster-Musica.

Newest rumor around Austin is that James V. Allred may run next year for the United States Senate seat now held by Tom Connally.

Terraces Alone Do More Good on Farm and Ranch Than \$28,000,000 Marshall Ford Dam

WITHOUT expenditure of tax money and through the voluntary work of farmers, ranchmen, and county agents, over 50,000 linear miles of terraces—twice the distance around the world—were built in this West Texas region last year. They alone impounded 574,000 acre-feet of water, the same amount as that held by Marshall Ford Dam which will cost the taxpayers \$28,000,000.

Terraces, along with a balanced program of contouring, strip-cropping, and earthen dams, stored moisture in the soil for crops, at the same time aiding flood control. Altogether they impounded over 1,000,000 acre-feet of water... all without tax expense.

Inasmuch as Marshall Ford and similar dams earned the reputation for being a "flood menace" during the same period, a lesson thereby is offered that the only effective curb on devastating floods must begin at the point where the rains fall.

Believing that industrial and agricultural development go hand-in-hand, this company has lent its efforts to promotion of soil and water conservation and the successful culmination of the 1938 soil and water utilization contest. Anything that benefits agriculture in the communities we serve also is beneficial to every other type of business and industry. It is our hope that the land may be passed on to the next generation in actually better condition than it is in this.

Women Answer From 12 States

To date, Touring Reporters have visited the principal cities of 12 Southern states; have asked 1297 users their famous question: "Did CARDUI help you?" Of those 1297 users, 1206 said they were definitely benefited by CARDUI. That's 93 out of every 100. What a record! CARDUI is a good stimulator for lagging appetites, a real aid to digestion and assimilation. That's why its proper use enables so many women and girls to build up physical resistance, and thus helps them avoid the periodic pain of functional dysmenorrhea due to malnutrition.

Two FSA Families Demonstrate How To Live at Home

Esra Dunn and Tracy Sheehan Set Pace for Local Cooperators

Two Farm Security Administration co-operators in Hall County are earning excellent reports this spring, records of Miss Lois Waggoner, local FSA supervisor, show.

Esra Dunn of Lakeview is proving the value of the live-at-home plan of the Farm Security Administration. With 400 chickens, ranging from baby chicks to frying size and layers, he is gathering from 70 to 100 eggs daily, and recently sold 200 baby chicks.

Mr. Dunn is farming more than 200 acres of land, using a tractor. He is keeping the FSA family record book to account for the year's income and expenditures, and recently papered his house, Miss Waggoner said.

Tracy Sheehan of near Memphis, farming 86 acres using one-way equipment, is another of Hall County's 125 FSA families who is making a good record.

Lakeview FFA Boys Start Calf Feeding

Several Lakeview FFA boys have started calf feeding projects for the coming year as the close of school allows them to devote more time to their project work.

At present Texas ranks high in the states for the production of cheese. In the early 20's it was generally thought that Texas because of its scattered dairy farms and wide areas would never be able to produce cheese on a commercial basis.

Farm Board Maps Plans for Two 'Model' Farms At Initial Meeting Friday

Hall County's land-use planning board, meeting at the courthouse in Memphis last Friday, drew up specifications for a "model" farm of deep, moderately heavy, smooth and hard land.

Two farms were laid out, one of 320 acres and another of 640 acres. For the 320 acre farm, the planning board allotted 125 acres to pasture land with an estimated yield of 18 acres per head of cattle and a goal of 9 acres per head.

The model farm would have 90 acres devoted to cotton, with an estimated yield of 120 pounds to the acre and a goal of 150 pounds. Twenty acres were allotted to wheat and sudan for grazing, with an estimated yield to supply 8 head of cows for 4 months and a goal of 10 head for 4 months.

For a farm of this size, the committee recommended 25 beef cattle, 6 dairy cattle, 2 sows, 200 hens, 2 horses, a row crop tractor, and 50 sheep.

The estimated total income would be \$1,960, with total expenses, including taxes, at \$1,200, leaving an estimated net income of \$760 per year.

A greater portion of the dairy industry of Texas is produced by farmers with small herds of two or three milch cows. Milk trucks and cream stations gather the butter fat from a large area and concentrate in only a few centrally located factories for production.

Tenant Farmers Can Apply for FSA Loans Now

June 15 Is Closing Date For Applications Under 1939-40 Allotment

Tenant farmers in Hall County have until June 15 to make application for one of the 1939-40 Bankhead-Jones loans to purchase a farm, Bob Land, local Farm Security Administration supervisor, said this week.

Applications are being received at the local FSA offices. Farmers who made application last year are asked to renew their requests at this time, and others desiring loans are urged to contact the local office as soon as possible.

Hall County has been chosen as one of the counties in which the tenant purchase program will operate. Loans are made for a 40-year period.

Mr. and Mrs. Gariand Gardenhire, now tenants on a farm near Weatherly, have purchased the Fort Worth National Bank farm, now occupied by Howard Morrison and family, near Estelline and will take possession of the property next January 1, Land announced Monday.

Large Attendance Marks 15 Official Dairy Day Shows

Eudaly to Judge Dairy Show in Memphis on 19th Of August, Hooser Says

With the schedule of 15 official "Dairy Days" completed, numbers of similar meetings are being held on a local scale.

E. R. Eudaly of College Station, head of the dairying division of the Texas Extension Service, will conduct a Dairy Day in Memphis on August 19, County Agent W. B. Hooser announces. The occasion will be Hall County's annual Dairy Show.

A number of local breeders have attended the official "Dairy Day" shows held in this region, and are expected to exhibit in the local show in August.

The 15 meetings drew an attendance of more than 12,000 dairymen, 4-H club members, and home demonstration club women. Although no prize money was offered, 920 head of dairy cattle were brought out for classification. Of these, 120 head received the blue ribbon for excellence, 549 red ribbons, and 190 got white ribbons.

Among those who acted as judges were E. R. Eudaly, G. G. Gibson, W. V. Maddox, and Jennie Camp, all of the Texas Extension Service; C. N. Sheppardson and A. L. Darnell, of the A. and M. Dairy Department; O. C. Copeland, of the Texas Agricultural Experiment Station, and D. T. Simons, of the American Jersey Cattle Club.

These judges will again take part in the local dairy days, but usually only one or two judges will classify cattle and products, while three judges took part in each official meeting.

Joe Ray, distance runner who set more than a dozen records during his track career, now spends leisure hours building an eight-acre tract of land into a tree and shrub nursery at East Gary, Ind. He is shown at work on some baby pine trees.
