otton and Cottonseed Products

For ALL Tho Work and Fight for Freedom

Fortunately for all, December 7 found America with valuable stockpiles cotton lint-with farmers who can produce cotton more abundantly, probbly, than any other crop, with more than 400 Cotton Oil Mills equipped and ready to convert cottonseed into Cotton Linters for explosives Cottonseed Oil for food-Cottonseed Meal, Cake and Hulls for livestock feed.

All of these products are helping win this war. BUT, they can also be roduced abundantly enough—in far larger amounts than they are now being produced-so that all civilians, as well as all in our armed forces, may have abundance of cotton and cottonseed products. Use cotton and cottonseed roducts for their familiar uses and for new uses to replace scarcer, costlier naterials. Put cotton and cottonseed products on your "must use" listring NATIONAL COTTON WEEK, MAY 15-23, and throughout 1942.

NATIONAL COTTON WEEK FINDS US "IN FIGHTIN' TRIM" PRODUCING FOR UNCLE SAM AND YOU

Your local Cotton Oil Mill, like all Americans, is proud to be playing an portant part in winning this war. Our products are going into munitions in the battleline, and in the sea and air-into fats that keep Americans fightng and working—into the feeding of livestock that produce "Food for Victory."

We take pride, also, in being able to render efficient service to this comunity—in peace or war—and invite you to give us every opportunity to

RUMMAGING through my deak the other day, I came across some snapshots of friends of mine made back

If you don't think time flies ... If you don't think this world ever changes . . . you ought to look at the women's hats and dresses in those pictures taken 9 years ago!

It gave me quite a start . . . and then it set me to thinking ... and rememberin'! Lots of things sure happened in 1933. A new administration in Washington . . . the turning point of the depression ... and the coming of Repeal.

I remember the re-legalization of beer. It came before Repeal, when Congress amended the old Volstead Act to allow legal sale of

What talk and arguments they had in those days! One argument I remember well . . . was that beer would do a lot to help bring back prosperity. I wondered at the time whether that argument could be

I thought about that again, the other day. I decided to check up and find out.

Well, I found out plenty." I found out that legal beer has paid more than 3 billion dollars in taxes since 1933. It has made more than a million new jobs.

According to one of the reports I've seen, beer has put more than 15 billion dollars into general business circulation. Goodness me, that's a lot of money.

Beer is sold today in every state in the Union. Every state benefits from beer's jobs and taxes. And I guess there's no denying that beer did do its share in bringing back better times.

I'm glad it did, too, because beer is such a pleasant, appetizing beverage. And it stands for moderation and moderate people . . . it's not likely to get you in trouble.

A TOP-SELLING LAXI ALL OVER THE SOU

to the Graduates of 1942

Now, if you'll roll up your sleeves...

Congratulations and welcome!

Now, if you will roll up your sleeves and join us in this business of winning the war, we will be mighty grateful. Frankly, we need you. We need you in the factories, on the farms, in business, in the armed forces. We need you in civilian defense, in the Red Cross, just about everywhere. So, if you will pitch in and lend a hand, victory will be ours.

Begin now to plan for that day when the war is won, and life is normal once again. Perhaps this bank can help you with your plans, as it has helped many of your parents before you. If so, feel free to call upon us.

Our best wishes go with you in whatever walk of life you may find yourselves.

A certain eminent philosopher once spoke about a theory on "the survival of the fittest." Somehow that applies today, more than ever. We think that the high quality of the 1942 group of graduates of Memphis High School and thousands of towns and cities like this in the United States, gives the whole country a much better chance of survival in this war. We are more fit to cope with the enemy because of you.

Memphis High School

That's a pretty broad statement, but it's true. True because every high school and college graduate means a new citizen, ready to take up the welcome burden of aiding his country, be it in the "Food for Freedom" fight, in the defense plant, in civilian defense, or in the armed forces.

So, congratulations, and best wishes, Graduates of 1942. Your youth and your courage are needed in the fight.

PLACE ORDERS FOR COAL NOW

You no doubt know through the press and radio, the Washington authorities are urging dealers and consumers to store coal during the spring and summer months. There will be a greater demand for coal later in the season, and it is felt that transportation facilities will be inadequate to handle the volume required in the fall and winter. We respectfully suggest that you let us book your coal requirements now for delivery in May, June, and July.
