LOCAL SCHOOLS WILL OPEN FOR FALL SESSION ON SEPTEMBER 7

Announcement was made this week to the effect that the Memphis Public Schools would be opened for the fall session Monday, September 7. According to Superintendent H. A. Jackson, the senior high school students will meet in the auditorium at the high school building Monday, September 7, where a program will be followed by registrations and distribution of text books. Similar procedure will take place at the Junior High and the East Ward schools, Mr. Jackson stated.

All students living east of the railroad, Mr. Jackson stated further, or who are in the first, second or third grades, are requested to report to the Travis or East Ward school. Students living west of the tracks in the first, second, third, fourth or fifth grades will report to the West Ward school. The sixth, seventh and eighth grades will be taught at the Junior High School while high school work will be taught at the Senior High School building.

Take Entrance Exams
Rural students who desire to take entrance examinations are asked to report to the county superintendent's office on Tuesday, August 25. Examinations will be given at that time or arrangements can be made to take the tests at a later date. All students entering the eleventh grade from some unaffiliated rural school will be required to take an entrance examination, Mr. Jackson said.

State Asks for Exams
This requirement was not necessary heretofore, Mr. Jackson explained, but the state department of education is asking that this be done this year. The transfers from unaffiliated rural schools will be required to take entrance examinations in English if they expect to continue through the eleventh grade, however, no examinations are necessary on discontinued courses, it was said.

Students who are transferring from rural schools to the Memphis schools and are not entering the eleventh grade will not be required to take entrance examinations, but allowed to enter school on condition, and if their work proves satisfactory, they will be allowed to remain, Mr. Jackson stated.

To Use Same Schedule
Class work will begin regularly on Tuesday morning at 8:40 o'clock, it was said, and the same schedule that was used last year (Continued on page 4)

SUPERINTENDENT OF CONSTRUCTION WORK IS READY TO BEGIN

Paving Of Remainder Of Highway From Memphis To Mulberry Bridge Will Get Under Way Next Week

H. A. Morgan, superintendent of the Ralph Pleasant Construction Company of Amarillo, arrived in Memphis Wednesday afternoon to begin preparation for paving the remaining part of the highway from Memphis to Mulberry Bridge, by way of Lakeview. The Ralph Pleasant Construction Company was awarded the contract recently by the Hall County Commissioners' Court in the sum of \$209,463.57.

The contract calls for the paving of 10,889 miles of road. The new pavement, when completed, will join the road now under construction, two miles west of Lakeview.

To Begin Next Week
Mr. Morgan stated that actual construction work would probably begin next week. He was of opinion that the pavement would be completed by January 1, 1932, or probably earlier.

The company does not have trucks of their own and it will be necessary that they use local trucks, according to Mr. Morgan. Due to the fact that it is not definitely known whether the batch mixing will be done in town or at the point of operations, the number of trucks to be used is uncertain. Sand will be secured locally, if possible, it was said.

To Use Local Labor
Mr. Morgan stated that local labor would be used. Only skilled laborers will be brought here, he said.

Four car loads of equipment were shipped to Memphis Wednesday and three more are expected the latter part of the week. The pavement will be 18 feet wide. The center will be six inches thick while the edges will be nine inches, according to Mr. Morgan. Twenty-one days will be required for curing before the pavement can be used.

To Expect to Get Started
in the very near future," Mr. Morgan said. "It is our desire to give Hall county a good job in the quickest time possible."

First Run Pictures to Show at Ritz

The theatre-going public in this city will be glad to know that Memphis is going to have the type of theatre that a city the size of Memphis is entitled to. Through booking arrangements with the three biggest producing companies, Paramount, Metro-Goldwyn-Mayer and Columbia, the RITZ THEATRE is going to be able to show first run pictures in this city.

You will be able to see at this theatre the biggest and best moving pictures, at the same time that they are showing in the key cities, such as Amarillo, Dallas, and the eastern cities, while the world is talking about them, and while they are new. This will be good news to Memphis.

And another thing to be taken into consideration. There is not another city in the country that is showing this kind of product at twenty-five cents. It costs a good deal more to show first run pictures, but the management of the RITZ is confident that there are plenty of show lovers in Memphis who will want that type of theatre, enough to give it their support.

Don't miss pictures like THE SMILING LIEUTENANT because you have not heard them talked about for six months. See them first so you will be able to talk about them yourself. The RITZ already has such pictures as SECRET CALL, I TAKE THIS WOMAN, HONEYMOON LANE, PARDON US, SILENCE, HUCK FINN, and many others dated on its books for first run showing.

GET THE RITZ HABIT. There are plenty of people in Memphis proud enough to have a good up-to-date theatre to give it their support, and that's all it takes to keep an up-to-date theatre in an up-to-date city.

Learn what a difference six cylinders make

Step out of any other low-priced car into a Chevrolet, and learn the difference six cylinders make.

"Idle" the engine—and the whole car remains steady. Open the throttle—the power flows evenly. Accelerate—throttle down—go fifteen or fifty—and this smoothness stays with you whatever you do. It's actually built into the motor—and objectionable vibration never even starts!

Yet smoothness is only one of many six-cylinder advantages. There's greater quietness, because noisy vibration is gone. There's greater comfort, because built-in smoothness doesn't tire you out. There's greater flexibility, because the power-impulses of a six overlap. And a six is much easier to handle!

If you raise the hood of a Chevrolet and watch the engine running so smoothly, you'll realize that six cylinders also mean greater dependability.

And remember when you do—that no other car is so economical to operate as the Chevrolet Six.

that comes to but few. Even here in the Panhandle where the disturbance was more or less acute, there are those who passed through it without being aware of what was happening—and then you hear people say it will take an earthquake to bring us back to our senses! Can you imagine?

It's a disparity of justice that the quake did not extend as far as Washington, D. C. Of course, it wouldn't have bothered Hoover, since he wasn't there, being comfortably ensconced at his Rapidan camp, but it might have caused a little worry in governmental circles—something unknown to date. It would take more than an earthquake to get Hoover to do something for this suffering old country. I doubt seriously if a dozen or so would jar him out of the lethargy into which he has settled along with the rest of his party.

McNeely, local chairman, this week. Those selected to serve on the committee are: Mrs. D. L. C. Local competitions will be held some time between September 1 and 6, it was announced. The contests were first scheduled to be held the latter part of August, but due to the fact that many are away on vacations, it was postponed.

DEPRESSION'S TERMINATION AND QUICK RETURN TO PROSPERITY

BY RYLE L. BEACH

There is an opportunity to do us still, without extra cost to any one. However, after you have, with the aid of statistics, secured upon the exact number of acres of wheat and cotton it will be necessary to divide your army into scouting parties to see that the farmer abides by the acreage law.

MILIONS BACK TO FARM

DRASTIC ACREAGE REDUCTION, plus a guaranteed price will encourage millions to return to the farms, because our law provides that only heads of families be recognized and he will be paid just how many acres of cotton or wheat he can operate at the government at the fixed price. This law will choke out the greedy farmer who has operated the big plantations. But he too, will profit from the sale of his lands to the small farmer, whose credit is now good by reason of the guaranteed price. But, if a certain farmer, through intensive cultivation, produces a surplus over and above the lawfully acreage yield allowance, he has the option of selling his surplus to some of his neighbors, at cost of production only, who failed to produce their quota allowed by law. Or, this farmer with the surplus may hold his surplus as a hedge against future crop failures.

My bill further provides that at the same time your Army and Navy fixes the price to the farmer, that it also fix the retail price of all farm implements, and all finished products necessary to the agricultural interests. This also applies to Henry Ford, because the automobile is one of the farmers' prime necessities. In fact, he is the only person who really needs one.

Now, Mr. Hoover, after we have experimented for two years, we might decide to return all handling facilities back to the rightful owners, with proper instructions and regulations.

SELFISH INTERESTS are the only ones who will oppose my plan, but since they are responsible for the deplorable conditions, why worry over them? Shall we continue to operate this government for the benefit of men of great wealth and political influence, or will we return to rule of government called DEMOCRACY?

History says something about a certain "bird" who played a fiddle while his barn went up in smoke. Do you know about that, Mr. Hoover? Is it any worse for Nero to fiddle than for Mr. Hoover to fish while the masses are crying for bread?

Birth of New Government

The Birth of a New Government will be the subject of my next article. This merely means the launching of a most powerful new political power, free from the stain and the shame of both the Republican and Democratic parties.

How this new party will function and save billions, wipe out greed, monopolies, political corruption and perpetuate national peace and prosperity will be told in my next article.

THE BEACH PLAN

Just as soon as you read my plan you will, COMMANDER-IN-CHIEF OF ARMY AND NAVY, order a flock of aeroplanes with instructions to fly to all known pleasure resorts to Washington your way and then draw up your map with instructions to the first lawmaker who pro-poker game. Give further instructions to kill every lobbyist who will read to Congress relief plan with a warning to either criticize, or will face a firing squad.

END OF NORTH PAVEMENT

A large barricade, to warn auto drivers of the curve at the end of the north pavement, on highway five, was erected by the State highway department last week. The sign is painted in black and white diagonal stripes with the colors alternating. An arrow, indicating which direction the road turns, is on top of the barricade. A like sign was placed on the east side of the railroad. The erection of the barricade followed numerous negotiations made by County Judge Hoffman and sev-

commerce with Donley county officials and state highway representatives.

HOME TALENT SHOULD BE EXPLOITED FIRST

THIS is not the first time that we have called the attention of Democrat readers to the fact that Memphis abounds in talent and it will not be the last. It has never been our privilege to live in a town that had more genuine creative and interpretive talent than exists within the confines of our home city. In almost every field of artistic endeavor, we have more than one person here who is capable of carrying off honors with the best.

Sometimes, we question whether or not this talent is exploited properly. Since, in small communities the size of Memphis, it is given to know each other intimately, we often lose sight of the fact that talent exists or are prone to minimize its potentialities. In other words, since we are so well acquainted with those who have outstanding qualifications, we become neglectful of rendering that measure of homage and consideration which are their just dues.

By exploitation, we mean exactly what the word implies. We believe home talent should be pushed, certainly not in a brazen sort of way, but in a manner that will bring it to the attention of all. Until we discard the well defined practice of believing that out-of-town artists show up better than our own, we will never become really loyal citizens.

Just as our town and county are exploited by the chamber of commerce, just as our potential wealth and affluence are ordinarily measured in terms of crops, land and physical resources in general, in like measure we should become cognizant of our cultural resources and be ready and willing to draw upon them and give precedence to them whenever the opportunity permits.

THE APPROACH OF SCHOOL

A few more weeks, and another school session will begin in Memphis. Its success or its failure will be due, in large measure, to the patrons. It is not enough to have a well functioning P. T. A. It is not sufficient to have a school board interested in the welfare of teachers and students; it is necessary that the citizenship as a whole demonstrate an interest in the schools and the work they undertake if the coming session is to be worth the price the taxpayers pay to make it possible.

In many respects the school year ahead will be a trying one—trying on the school board, faculty, students and parents. The "easy going" of other years is a thing of the past. Matters have come down to "brass tacks." A rigid program of economy is in order and Memphis, as an entity, must bear a large part of the burden. Calls will be made on the citizenship to attend first one affair and then another. As often as possible, these calls should be met with ready answers. We must all do our part. The education of our young people is at stake. Memphis' schools must be kept on a parity with other schools in the Panhandle. Retrenchments have been made and it is time for us to realize the responsibility that is ours. This is no time for slackers, but rather, for the whole-hearted support of the entire community. Our schools are entitled to nothing less if they are to remain open and in good running order.

THE WORLD SERIES LOOM

WHEN the crisp and biting air of September gets a little crispier and a little more biting and October is ushered in, another world series will be the order of the day. At the present time, it seems to be a foregone conclusion that the Philadelphia Athletics in the American League and the St. Louis Cardinals in the National League will compete for the highest honors in baseball again this fall. With the Washington Senators playing championship ball practically every day, the Athletics' lead may be overcome, but it hardly seems probable. Chicago and New York may give the Cardinals a little worry, but probably, very little.

It stands to reason that gate receipts for the world series this year will be considerably "off," judging from late depression reports. On the other hand, it must be remembered that baseball is still "the great national pastime," and people who can not afford a new fall suit or an insurance premium will probably be on hand with the select and elite, if there are any left, to see the Athletics once more take the honors away from St. Louis.

We suppose it would be the logical thing for us to be favorable to St. Louis, but as it happens, Connie Mack, skipper of the Philadelphia team, has always been a favorite with us and it is for his sake, more than that of his team, that we would like to see Philadelphia win. In passing, however, we do not want to forget the fine team from St. Louis, nor the great ball club Walter Johnson has been leading. We predict that Washington will be closer to the top of the baseball ladder next year than was the case this season—if Walter is still at the controls.

It would be a great thing to witness some of the world series games from the grandstands, but we are very well content to listen in over the radio, thank you.

OUR CONGRESSMEN

MISTER BRUCE BARTON says, in a recent editorial, it is not enough just to sit back and grumble about Congress. We'd like to ask Mister Barton what is there left for the average citizen to do but sit back and grumble? Of course, we realize that Congressmen get the brunt of much harsh and unjustified criticism, but there is one fault that most Congressmen could overcome, if they only would, and it would be to the everlasting credit of our Government if they did so. They have a "gift for gab" and talk too much.

Have you ever heard about a silent Congressman or Senator? It seems that our representatives in Congress have the mistaken idea that they must be heard as well as seen to impress their constituency back home. The best way to impress voters is to do something worth while. Less talk and more work would accomplish wonders in our nation's legislative halls.

THE MEMPHIS (TEXAS) DEMOCRAT

HIT OR MISS

a column by T. R.

Earl C. Johnson, writer of "Lights O' Los Angeles" in The Democrat, wrote us a letter the other day, and in the letter he made mention of our prized addition, Castoria. Every one knows how we prize our Castoria, but Earl let the air out of us by using a lot of big words which he said Castoria was derived from. He also said we did not know whether Castoria was a cuspidor or spittoon. But to settle the whole matter, I'll let you see how the epistle reads.

"Congratulations to 'Hit or Miss' and his newly acquired 'Cuspidor' or 'Spittoon.' Castoria. But is 'T. R.' certain that she, or he, as the case may be, is really a cuspidor or spittoon? We have a sneaking suspicion that, in spite of the brassy luster of this gem, it may only be a common garden-variety of 'Gobboon.' And in case 'T. R.' fails to 'Hit or Miss' the meaning of the word we will explain that 'Gobboon,' while not found in some editions of Webster's best seller, is derived from 'Gobbet,' meaning a chunk, mouthful, or lump, and is of Celtic origin, being a direct descendant of 'Gober,' which in best 'Celtese' means 'devour.' A distant relation is also the Gaelic branch of the family, 'Gob,' meaning 'mouth,' but having no relation to the white-haired sailors on Uncle Sam's disarmed fleet.

"Would also suggest that, unless M. G. Ray has improved his marksmanship quite a lot since we saw him last, instead of a rubber mat for 'Castoria' you secure a rubber art-square."

E. J. C.

There is another part of the letter that could not be written on this typewriter, due to the fact that it was a picture with two figures, one labeled "M. G." and the other, "T. R." standing on opposite sides of a sparkling cuspidor, which I presume is meant to be nothing else than our prized addition, Castoria. "M. G." according to the cartoon, had taken a couple of shots at Castoria, one going to the right and the other to the left, both missing by about five inches. "M. G." says, "Oh, those were just range-finding shots. I've got 'er bracketed—now watch me hit 'er!" "T. R." is on the other side and says, "Hey, you' big hunkacheese, if you can't beat that, you can't use Castoria."

Now, I know that Castoria didn't come from the place that Earl mentions, because Jerry and I found her sitting calmly in one corner of the office. She wasn't bothering a soul, and was minding her own business. Earl hasn't seen our "gem" yet, and I believe if he did cast his optics on her, that he wouldn't say such things about her. Castoria comes from a reputable line of cuspidors, dating back to the good old days when the brass railings and the foaming steins were the orders of the day.

There is one thing that is wrong with the picture that Earl drew. He showed Castoria as being a one-decker, but instead, she is a two-layer. Now, you can see that Earl has greatly insulted our prized addition. Why, even now after hearing the letter read, Castoria doesn't ring and turn round and round when someone makes a hole-in-one. She merely sits there and doesn't make a single move. Castoria hears every word that is spoken in this office, but she never puts out a single thing. That is

And, also in the drawing, E. C. J. shows Castoria sitting on a rubber mat, or something that looks like one. I know that the floor piece that she is pictured on isn't a rubber art-square, that he suggests in his letter, for it's not square, and I don't believe you could buy one of those things in the city. Jerry and I wish that Earl would send us one of those art-squares from California. We are from the country and have never seen one of them. It would be a curio in these parts, and you can never tell, we might put it on exhibition in the window here at the office.

I talked to "M. G." about what Earl said about his ability to hit the mark, and he said that he had changed his form since he had taken up golf, and to tell Earl that he could hit the mark every time. Now, I can take oath that "M. G." is one of the best shots in "these here parts." He was a little upset over Earl saying that he was not so good, and turned around and took a shot at Castoria that made her ring like a ten-penny nail whizzing through the air, but that was before she had heard the letter read aloud. Now when "M. G." shoots at her she just sits there and never makes a move.

The following story headed "MEMPHIS WOMAN'S FUNERAL TODAY" appeared on the front page of The Childress Index on Friday, August 7. The story reads as follows: "John O. McMinn, local undertaker, was called to Memphis yesterday afternoon to take charge of the body of Mrs. Levada Johnson, who died there at four o'clock at the age of 43 years. The funeral at four o'clock, and McMinn will direct burial in the Memphis cemetery."

According to information furnished locally, the woman referred to is a negress, and the funeral was conducted, it is stated, from the Baptist church in Morningside Addition.

Carl Denny, of Childress, spent Sunday here with his mother, Mrs. B. F. Denny.

Geraldine Watson Is Presented In Piano Recital

Margaret G. Morgan presented her pupil, Miss Geraldine Watson, 14 year old daughter of Mr. and Mrs. J. P. Watson, in piano recital, at Mrs. Morgan's studios in her home, 202 North Tenth street, Friday evening of last week, at 8:15 o'clock. Miss Watson was assisted by Miss Margaret Milam, mezzo-soprano, pupil of Lelia E. Ballew.

Miss Watson played from memory three groups in which were numbers from the Old Masters and Modern Composers. Throughout her performance, she played with an easy style and unusual understanding for one so young.

A discriminating group of friends and musicians present for Miss Watson a future rich in musical accomplishment.

Great credit is due Mrs. Morgan as the teacher of this accomplished pupil. She demonstrates in teaching the fine art of musicianship, acquired from her natural ability and added to by the splendid tutelage she has received from world famous masters.

Miss Milam was, as usual, most pleasing in her rendition of two groups of songs which were widely contrasted in style and range. In her past year's study with Mrs. Ballew, she has acquired an extensive range in which she blends rich low tones into high tones of unusual beauty. Miss Milam was accompanied by Mrs. Morgan.

The following program was rendered: Gavotte in G Minor by Bach; Prelude, Op. 28, No. 15, by Chopin; Turkish March, by Beethoven-Rubenstein; Geraldine Watson; Pirate Dreams by Hueter and My Thoughts Are You by Cadman; Margaret Milam; The Flatterer by Chaminade and Scarf Dance by Chaminade; Geraldine Watson; Little Star by La Forge and The Morning Wind by Bronscombe; Margaret Milam; Gondolieri by Nevin; Venetian Love Song by Nevin and Polish Dance, Op. 3, No. 1 by Scharwenka, Geraldine Watson.

CLARENDON GRID SQUAD AT WORK

Forty Men Report At First Practice Session Under Hutton And Stocking

When the Clarendon High School mentors, John Hutton and Frank A. Stocking, issued the call this week for all candidates aspiring to make the 1931 Broncho eleven nearly 40 husky stalwarts responded. For the past few weeks a number of the aspirants to the Maroon and White team have been passing and booting the oval around getting the feel of the ball before the opening of actual training. Early prospects indicate that the Bronchos will start the season with one of the strongest and best balanced teams since the championship team in 1926.

With the return of Coach Stocking from the Tech coaching school at Lubbock it is almost certain that many new plays will be developed by the Bronchos eleven this fall and it is probably that the Notre Dame shift will be employed in the team's play.

A wealth of material has greeted the coaches with Captain Raymond (Dick) Nichols, 185 pound full who is expected to lead the Clarendon eleven far in the conference race this year. He stands a good chance to be picked for an all-conference position this season.

Misses Ernestine Walker, Ova Lee Wood and Sarah Bradshaw returned Monday from a visit at Sudan, Plainview and Lubbock.

Mr. and Mrs. Chas. R. Smith and children, Frances, Chas. R. Jr., Gene and Margaret, of Winters, were guests of Mr. and Mrs. O. N. Hamilton here Tuesday and Wednesday. Mrs. Vance Johnson of Clovis, New Mexico, came Saturday for an indefinite visit with her parents, Mr. and Mrs. W. M. Bagwell.

L. E. Winzet, commercial superintendent of the Southwestern Associated Telephone Company, of Lubbock, spent Wednesday and Thursday of last week here on business.

Cards have been received in Memphis this week by friends of Mrs. W. B. Wilson and son, to the effect that they were en route to New York for a visit with Mrs. Wilson's sister. The cards were sent from Chicago, August 16, stating they would arrive in New York Monday.

Mr. and Mrs. J. W. Vallance and son, Herman, returned Tuesday from a two week's trip to points in Mississippi, Louisiana, Arkansas and Oklahoma.

Mr. and Mrs. Donald H. Fischer returned Saturday from their honeymoon trip to Colorado and are here visiting Mrs. Fischer's parents, Rev. and Mrs. J. T. Hicks, en route to New York, where they will make their home.

Mrs. E. T. Miller and daughter, Lois Aillene, Spurgeon Miller and Cleron McMurry went to Abilene Tuesday after Janice Miller and Florence Wherry, who have been attending Simmons University. Miss Miller received her A. B. degree at the close of the summer session. Mrs. Miller stopped at Haskell en route to Abilene and visited her parents. They returned Wednesday.

Games will be played this year at the reconedtioned and leveled field at the College Park.

E. A. Thomas returned Tuesday from Hot Springs, Arkansas, where he has been for three weeks for the benefit of his health.

Mrs. C. C. Bishop and daughter, Dorothy Lee, of Wellington, were guests in the home of Mr. and Mrs. J. B. Chitwood from Sunday until Tuesday.
