Speakers Told Of Serious Cotton Situation In State

Cotton in Texas is more serious than most people realize. It is important crop from which over half of the state's business interests, farmers were told at a meeting held at the court house here Wednesday afternoon by speakers of the A & M College Extension Service.

E. A. Miller, agronomist, and F. E. Lichte, cotton gin specialist, were the speakers at the meeting which was attended by a number of the leading farmers of the county. These speakers stressed the fact that this is the first year the growers have attempted to buy cotton according to grade and staple in this section, and the low grade and short staple cotton fails to bring the price that better cotton brings.

The plan urged by the speakers is to form one-variety communities of good quality cotton, block the cotton into groups of 100 bales or more and sell cooperatively. Thus making the cotton of good staple and grade bring a fair price, and even at a premium. The gins also could gin such cotton in a block, thereby preserving the good quality of seed.

Other points brought out by the speakers at the meeting worthy of careful consideration and which are forcible arguments in favor of planting better cottonseed are given in condensed form as follows:

Exports are still declining, being over half a million less bales from August 1936 to August 1937 than for the previous year. This vital concern Texas farmers because 90 per cent of Texas cotton has to be exported and sold in competition with foreign markets.

Foreign countries have increased cotton production, and at the same time greatly improved the quality through government supervision until now it averages better than Texas cotton in many countries. Last year foreign countries produced 18 million bales as compared with 9 million in 1933. Foreign competition is staring Texas farmers in the face and must be met.

According to the U. S. grade and staple report for 1936 and 1937, in district 3, which includes Hall County, and which district not many years ago was noted for (Continued on page 5)

Month Of October Has Only 6 Clear Days, Is Report

According to John McMickin, official observer here for the United States Weather Bureau, there were six clear days, 17 partly cloudy days, and eight cloudy days during the month of October.

The total precipitation for the month was 2.19 inches. Twenty-eight hundredths inches of rain fell on Oct. 2, .95 inches on Oct. 5, .60 inches on Oct. 6, .08 inches on Oct. 9, .08 inches on Oct. 11, and .20 inches on Oct. 20.

The highest temperature during the month was 100 degrees, which was reached on Oct. 1, 18, 19, and 20. The lowest temperature was reached on Oct. 28, when the thermometer went down to 43 degrees.

BUSINESS IS GOOD IN MEMPHIS; SHELVES DEVASTATED BY RUSH

Business in Memphis is good, thank you. In fact, in spite of the present low price of cotton, business establishments of this city are reporting the best business enjoyed here in more than 15 years.

A business survey, made by The Democrat early this week, revealed that 1928 wasn't "the" year in Hall County after all. According to figures on retail trading last week-end, 1937 is about to step into history-making stride.

Memphis merchants, who have long lived on the dreams of the past, are highly enthused with the return of good business and the

Cyclone Squad Will Tackle Bronchos At Clarendon 3B Meet

After losing their chance for sole conference championship honors when the Shamrock Irishmen ran away with the game 39-0 last Friday night, the Cyclone gridsters will now have to aim at a victory over Wellington's Sky-rocketers here on November 19. And in view of Wellington's unimpeded march to victory so far, the Cyclone will have to put in some pretty hard playing if their hope materializes.

However, they are practically assured of at least one more victory this season, unless injuries received in the Shamrock game prove to be too great a setback or unless they become over-confident. Friday night they are slated to meet the conference cellarites, the tamed and down-trodden Clarendon Bronchos, in Clarendon.

The Cyclone squad has defeated four out of six conference teams played this year. The Bronchos have been thoroughly trounced by each of their opponents, with a very top-heavy score the result in every game. So the local team should be able to hold back the Clarendon group without much trouble.

The probable starting line-up: Memphis—James Evans, left end; John Harris, left tackle; Paul Dodson, left guard; Leroy Robertson, center; A. J. Clark, right guard; Dennis Sanders, right tackle; Blackburn Montgomery, right end; Jack Foster, left half; Eugene Lindsey, right half; Billy Polk, fullback; Talmadge Pounds, quarterback.

Clarendon—Wilson, Robinson, Huffman, Lane, Taylor, Palmer, Warren, McGowen, McWhorter, Mears, Longan.

Girl Is Injured While Skating on Highway

Lucille Baker received minor injuries last Friday when she fell under a farm wagon driven by Hart Kyle, and was dragged several feet before the team could be stopped.

Lucille and a girl friend were skating on Highway 5 pavement south of town, and on their way back to town, caught hold of the wagon so it would pull them along. The mules became frightened and started to run, throwing Lucille under the wagon. By the time the team was stopped Lucille was considerably bruised.

A Womack and a salesman brought the young lady to a hospital where she received treatment, and then was sent home.

Lakeview To Play Quitaque Friday

The Lakeview Eagles of District 3B will play the Quitaque Panthers of District 4B in a non-conference clash Friday afternoon at Lakeview. The game should be of some interest here.

Though Coach Bob Clark's spunky Eagle gridsters are now out of the race for conference honors, they have been showing some fine skill and hard playing of late. Last Friday night they took Clarendon's Bronchos for a 60-6 ride.

Meeting Is Called At Legion Hall

All World War veterans, all Spanish-American War veterans, all Confederate veterans, and a representative from the United Daughters of the Confederacy are requested to be present at the American Legion Hall Sunday afternoon at 2 p. m.

This call is important and applies to all parts of the county, stated A. A. Kinard, Commandant of Charles R. Simmons Post of the American Legion. He urges all as named above to attend the meeting.

Democrat Will Be Printed Nov. 10

The regular edition of The Democrat will be out a day early next week, as its force will observe Armistice Day. The paper will be published Wednesday afternoon in order that readers may obtain their copy Thursday morning.

Advertisers please bear this in mind and get copy in soon enough to make this early edition possible.

11,006 BALES OF COTTON GINNED

Is Census Bureau's Report As Of October 18; Number Has Passed 20,000 Bale Mark

Eleven thousand and six bales of cotton were ginned in Hall County from the 1937 crop prior to October 18, as compared with 4,607 bales of the 1936 crop, according to figures released by the Bureau of the Census through the special agent, C. Lee Rushing.

The gins of the county have been running steadily since October 18, and it is believed that the total cotton ginned to November 4 has passed the 20,000-bale mark, or about two-fifths of the 1937 crop.

Hi-way Patrolmen Investigate Trucks Improperly Lighted

The practice of running trucks without lights at night in this section has been called to the attention of the State highway department, and patrolmen have been making a check here lately.

It is a dangerous practice, it is pointed out, to run any vehicle without lights on the highways of county roads, especially cotton trucks. Wagons should have glass reflectors at the rear corners, which would save having accidents.

EDUCATION WEEK BEGINS WITH SCHOOL PROGRAMS TUESDAY

One of the most important units of the schedule planned by the Memphis Public Schools for National Education Week, November 8 to 13 will be the opening program on Tuesday. The following program has been outlined at the High School for that day:

A program in the auditorium which will consist of numbers by the high school band, under the direction of Milton Pullis, by the Girls Choral Club and the Boys Glee Club, under the direction of Mrs. M. McNeely; by the various school clubs; and a talk by a representative of the High School P-T. A. After the auditorium program, the guests will be invited to visit each room and department to observe the students' work and exhibits. The Home Economics Department will serve refreshments to all guests.

Similar programs are being outlined at the Junior High School and West Ward. In the latter schools, written invitations are being sent to the parents.

Every parent is urged to participate in this program. Any student whose parent attends the program at any one of the three schools will receive five extra points on his grade, according to Supt. W. C. Davis.

JUNIOR HIGH STUDENTS VISIT DEMOCRAT PLANT

Study group sections 71 and 72 of the Junior high school, accompanied by one of the teachers, Mrs. R. C. Lemons, visited The Democrat mechanical department on last Friday.

Day's Program To Include Mile-Long Parade, Patriotic Speeches, Football Game, Street Dance Here on Nov. 11th

There will be jubilation in Memphis' observance of Armistice Day, Thursday of next week, when the local Charles R. Simmons Post of the American Legion and the Memphis Chamber of Commerce join forces to sponsor a full day of celebration, which should attract thousands of Armistice observers.

Opening the day's ceremonies with a mile-long parade and patriotic program at 11 a. m. is only a part of the plans announced by the co-sponsors.

As the nineteenth anniversary of the signing of the Armistice approaches, plans for the day's program are rapidly materializing. A complete patriotic theme "World Peace" will be featured through a mile-long parade composed of beautiful floats, decorated to represent the allied nations that were engaged in the World War; Ex-service men will parade; Veterans Company No. 1821 of the local CCC camp will add uniformed color to the parade proper; civic organizations of Memphis, rural schools of Hall County, Memphis schools, Memphis school band and drum corps, and business firms of Memphis will compose, in part, the parade at 11 o'clock.

Prominent Speakers

At the conclusion of the mile-long parade, a patriotic program composed of addresses by prominent speakers, and patriotic songs by the crowd, will be given. This part of the morning program will be held on the square where speech amplifiers will be erected for the occasion.

Due to the fact that at this time the world is facing the most critical problems it has been called upon to deal with since Nov. 11, 1918, it was expected that the entire citizenship of Hall County would join in staging this part of the Armistice observance program. This, too, will have as its theme the greater need for peace.

Football Game 2 P. M.

For those who enjoy America's No. 1 sport, football, there will be a District 3B conference game between the Lakeview Eagles and the Mobeetie Hornets at Cyclone Stadium at 2 p. m. Through special arrangement with both Mobeetie and Lakeview school officials this game has been moved (Continued on page 4)

DISTRICT MEET OF F. F. A. HELD

John Gillham Of Clarendon Is Elected District Adviser; Next Meet At Clarendon

A District F. F. A. meeting was held last Saturday at the local high school building, under the direction of Riley W. Carlton, local chapter adviser. Though attendance was cut down considerably by the busy harvest season, each of the eight school chapters in the district sent a good representation, there being a total of nearly eighty visitors.

Guest speakers at the meeting were Oscar Dodson of Chillicothe, president of the Texas Association of the F. F. A., and Prof. O. T. Ryan of the Texas Technological College in Lubbock. John R. Gillham of Clarendon was elected adviser for the Memphis district.

The Kirkland vocational agriculture department was admitted as a new member for the district. Considerable interest in securing certificates of merit was shown at the meeting.

The next meeting of the organization will be at Clarendon on December 11.

VISIT FATHER IN HOSPITAL

Mrs. Edwin Thompson of this city and her brother, Hugh Franks of Dalhart, left Memphis Tuesday for Dallas to be with their father, T. R. Franks, who underwent an operation in a Dallas hospital Saturday. If Mr. Franks' condition continues to improve he will be brought home Sunday or Monday.

CITY BUSINESS IN GOOD SHAPE

City's Books Audited And Found To Be In Good Condition

The books and records of the City of Memphis are in first-class shape in every way, according to the final audit report made by Auditor J. B. Wright to the City Council, Tuesday night.

Mr. Wright was employed by the City Council to make a complete audit of city business for the past four years—from October 1, 1933, to September 31, 1937, and his report was submitted and accepted.

According to the report, the City of Memphis' financial condition is good in spite of the fact that the audit reveals there are delinquent taxes to the amount of \$53,461.36 due the City. The soundness of the City's finances is due to the desire of the Council to cut all costs of operation to the minimum during the past few years, even to crippling of the services due the citizens. The tax rate has been kept down and the spending of money has been curtailed, thus making for a sound financial condition, it was pointed out.

Mr. Wright's report further recites: "Complying with our agreement I have audited the books and records of the City of Memphis, for the period beginning October 1st, 1933, and ending September 30th, 1937. I submit my report showing the receipts and disbursements of the several funds operated by the City, and a financial statement as at September 30th, 1937.

"During the course of my work I checked the disbursements from the various funds against the minute book and saw that they had been allowed and ordered paid by the Council. All disbursements appeared to be proper items of City business. I also checked and verified each and every monthly bank statement of (Continued on page 8)

M. P. Turner Sells Interest To Partner In Blacksmith Shop

G. W. Hogue announces that he has purchased the interest of M. P. Turner in the blacksmith business, and will conduct the business in the future as sole owner.

Mr. Hogue bought an interest some two years ago from Mr. Turner, moving here from Wellington where he had been blacksmithing for several years. Last week he bought the remaining interest from Mr. Turner.

Rural Schools To Resume Sessions

All rural schools of the county will again be in session Monday, November 8, with the exception of The Weatherly school which will not re-open until November 22, according to Miss Vera Tops Gilreath, county superintendent.

The Salisbury, Newlin, Friendship, and Buffalo Flat schools are already at work.

The rural schools turned out early in the fall for the cotton-harvesting season.

Various small advertisements and notices on the left margin, including "CLAY ADVERTISING", "FOR RENT", "FOR SALE", "WANTED", "NOTICE", etc.

Young People of Friendship Sponsor Hallowe'en Carnival On October 28th

The young people's organization of Friendship held a Hallowe'en Carnival at the schoolhouse Thursday evening, October 28, which was attended by a large crowd. All of the amusements ordinarily found at a carnival furnished entertainment.

Proceeds of \$33.78 will be spent for progressive activities. The first purchase will be literature of a religious nature to be used in Sunday evening services. The young people expressed deep gratitude to the women of the community who donated cakes and candy and to the following people who donated gifts for the bingo game and the fish pond:

The Large Concept

While a chamber of commerce is created and supported largely by business men, and while it deals primarily with questions that directly affect the business world, it has been led by the ramifications of business itself to deal with a wide range of activities that are not in themselves commercial but are the concern of business because they affect the general welfare of the community. Does business stop with buying and selling, with producing and distributing? On the contrary, it is interknit with the whole social and economic fabric of our times.

So with the larger aspects of business; so with the relationship of the chamber of commerce to business. Directly and forcefully through certain of its activities it serves the interest of commerce trade, and industry; indirectly, but not less effectively, it serves those same interests through its concern in matters of community, state, and national interest. Business is affected by state and national legislation, by governmental policies, by social conditions and the manner in which people live; by the degree to which they are educated and even the extent to which they are happy.

So while the Chamber of Commerce is essentially a business institution, its horizon extends a little beyond pure business alone. There are imponderable factors involved that embrace loyalty, civic pride, community service, and the willingness of individuals to perform work that they do not have to do in order that others may be a little more prosperous, better educated, more comfortably housed, surrounded by conditions of greater safety and sanitation, and afforded not only better commercial opportunities but richer possibilities of getting the most out of life.

This is the larger concept of the work of the chamber of commerce. Memphis Chamber of Commerce Carroll Snyers, manager.

Men Victors Over Cyclone In 39-0 Battle

Monday, Mrs. Tommie returned after a week's absence to find her home a wreck. Her husband, Lono James, was killed in the cyclone which struck Memphis last week.

Roy Dunbar, here on business, was one of the few who escaped the cyclone.

Frank Byars, a buying trip, was here on Monday. Mr. and Mrs. Byars were in Memphis until Monday. Mrs. Byars, Dorothy Sue, and her daughter, are at the College in Dallas.

Irish backed Memphis up to her 24 yard marker, then when the pass from center went wild going over the receiver's head and rolling into the end zone, a host of Irishmen covered the ball for the touchdown. Brother's attempt to convert failed. Shamrock 19, Memphis 0.

Late in the third period the Irish drove to the Cyclone 22 only to lose the ball on downs when Byars' fourth down pass failed to connect. Pounds threw one incomplete pass, Brothers intercepted his second heave returning across the goal but the officials called him back to the 7 claiming he stepped out of bounds at this point. Brothers picked up 1 as the quarter ended. On the first play of the fourth quarter Dorman went over from the 6. Brothers converted. Shamrock 26, Memphis 0.

Brothers kicked off to Hagemier on the Memphis 28. On the first play Brothers intercepted Lindsey's pass and was downed on the Cyclone 28. Dorman and Byars combined their efforts to gain a first on the Memphis 25. Shamrock was penalized 5 and Dorman gained it back. Then Byars shot a short pass to L. Braxton who scampered the remainder of the distance over the pay stripe. Brothers kicked goal. Shamrock 33, Memphis 0.

A few plays later Holmes intercepted a Lindsey thrown pass on the Irish 40 and tore out right down the line for 60 yards and the final Shamrock score.

The starting line-ups were:

Memphis—Evans, left end; Harris, left tackle; Dewien, left guard; Robertson, center; Clark right guard; Sanders right tackle; Montgomery, right end; Pounds, quarterback; Lindsey, halfback; Hagemier, halfback, fullback.

Shamrock—Fox, left end; Isaacs, left tackle; George, left guard; Holmes, center; Blake right guard; Griswold, right tackle; Cantrell, right end; J. Braxton, left half; Sherwood, right half; Byars, fullback.

By MRS. C. L. PADGETT

The Halloween Carnival at the school house last Thursday night was very successful. Some \$33.78 was realized from the affair.

Mr. and Mrs. Guy W. Smith Sr. had as their guests Sunday some old friends from San Angelo.

Miss Iva Lou Scott was a dinner guest of Rebecca Edwards Sunday.

Mrs. W. H. Spruill and children visited her son R. B. Spruill and family near Plaska Sunday.

Mr. and Mrs. Hill Wells and son Don Keith spent Saturday night in Memphis with Mrs. Wells' parents, Mr. and Mrs. Sam Brown.

T. L. Curry of Memphis was a guest in the Padgett home Sunday. Edd Parker and children of Amarillo were guests of his brother H. A. Parker and family Saturday.

The Parent-Teacher Association will meet Thursday night, November 11, at 7:30. Every parent is urged to be present at the meeting.

There has been quite a bit of sickness in our community the past week. Several have been ill with colds and tonsillitis.

R. C. Edwards spent last week near Turkey sowing his farm there in wheat.

Mr. and Mrs. Tom Scarberry have moved back to this community from Hobart, Okla., to make their home.

Mr. and Mrs. E. T. Prater made a business trip to Pampa Saturday.

"QUAKER OATS is a Great Breakfast,"

says DICK MERRILL, Trans-Atlantic Ocean Flyer, who holds the All-Time Record for two successful Atlantic Round-Trips!

You can't beat a Quaker Oats breakfast for that warm, friendly lift on a cold, cheerless morning. It's rich in food-energy, rich in flavor, and costs only 1/2 cent per portion. Besides, Quaker Oats is abundant in Nature's Vitamin B—the precious vitamin that doctors say you should have daily to combat nervousness and poor appetite! Give youngsters this Breakfast of Great Americans. Rich in food energy. Rich in flavor! The one and only Quaker Oats!

The Old Country

AS SEEN BY A FORMER MEMPHIS GIRL

(Note—The following letter was written by Miss Lorraine Rasco, former Memphis girl, winner of the Centennial Oratorical Contest, the prize being a trip to the Old Country.)

U. S. President Jackson, July 23, 1937.

Dear Friends:

In beauty this day would be hard to surpass. We are traveling in the South China Sea—almost to Hong Kong—and everywhere about us are fleecy clouds, picturesque sailboats, and beautiful blue sea shaded by the clouds. We are not lacking in heat, however,

and we've been warned to expect more.

The trip across has been delightful. The majority of passengers were coming to Japan to the World Educational Conference so they disembarked for Tokyo at Yokohama. They were a splendid group and we had a grand time. Besides the usual deck games—shuffle board, wiggled darts, ping pong, deck tennis and table golf, in none of which, I assure you, was I very proficient, there were many things of interest. Two things I found very enjoyable were eating and sleeping. One day we had a community sing, another night we were entertained by an amateur hour, and several nights there were movies. The Captain's dinner was a gala affair.

On July 8 we were able to see the Aleutian Islands very dimly in the afternoon. The weather was cloudy and cold except for a couple of days, a great contrast to the present heat.

We were late getting into Yokohama and it was ten o'clock before we were through the quarantine and immigration officials.

Miss Irene Walling and Miss Wilkin came to the boat to meet me. Miss Walling has been in Japan for six years teaching in the Joshi Gakuin, the girls' school, and Miss Wilkin has been there almost a year in preparation for teaching. This fall she goes to her position farther inland. Our plans for sight-seeing for that day, however, were upset, and I obtained only a general idea of Yokohama. It was truly interesting to note the way in which the people have combined American dress with their native costume. Some were wearing American clothes with getas (native shoes) and some kimonos with American shoes. The little Japanese girls look like butterflies in their bright colored kimonos.

In Kobe we were pressed for time but we did see the great shopping street, the Motomachi. It was evening and the streets were lighted by arched lights. Every one was strolling up and down, few seemed to be going any definite place. Kobe does have a great similarity to our American cities. It is a trifle upsetting at first to ride on the left side of the street, but the drivers are excellent.

After we left Kobe we steamed through the beautiful Inland Sea. It was ideal, far more beautiful than anyone could describe it. We also saw our first truly beautiful sunset, we were cheated before because of cloudy weather, and it was thrilling.

On July 20 we were in the mouth of the Yangtze River; the yellow water is not pleasing to the sight, and it carries the top soil of the Chinese farms on to the sea. We left the Yangtze and entered the Whang Poo on which Shanghai is situated.

In the river were Chinese junks—some ancient, some newer, yet each had on its bow the all seeing eyes in black and white—to guard against the evil spirits. Along the shore were thatched-roofed houses, water buffalo, and people working in the field. As we neared the city we saw Chinese duplicates of branches of American companies, many boat-houses in which people lived, Chinese gunboats, Shanghai University, and sampans. It is a city of contrasts.

Miss M. Argetsinger, a Baptist missionary returning to her field in Chengtu, West China, who was my traveling companion, left me at Shanghai. She had been a very enjoyable companion, and gave me an immeasurable amount of help in beginning to understand China.

Rev. E. E. Walline met me at the customs jetty. We took rickshaws—my first rickshaw ride—to the Missions Building. Riding in a rickshaw reminded me of the horse and buggy days. Miss Rice took me for a sight-seeing drive

Gobbler May Be Roosevelt Dinner

Childress Man Is Speaker at Rotary Lunch on Tuesday

Rev. E. A. Maness of Childress was guest speaker at the Memphis Rotary Club luncheon Tuesday noon. He spoke on the principles and aims of Rotary, giving both new and old members clear-cut reasons for the existence of the service club.

Stressing attendance as one of the important phases of Rotary, Rev. Maness declared that it is necessary to meet one's fellowman often before the acquaintance may ripen into fellowship and friendship, thus making attendance important. After fellowship and friendship are established, service to mankind will necessarily follow.

Rev. Maness has been the Methodist pastor at Childress several years, and is being transferred to Albuquerque. He called his Rotary speech his "farewell sermon to Memphis Rotarians."

Carl Harrison of Harrison Hardware Co. was introduced as a new member of the Rotary Club.

Miss Ruth Pendergrass of Lubbock spent Saturday and Sunday here with her mother, Mrs. Bessie Pendergrass, and to be with her sister-in-law, Mrs. Dick Pendergrass of Dallas, who was also the guest of Mrs. Pendergrass.

Mrs. T. E. Whaley, Mr. and Mrs. Elmo Whaley and daughter Mary Frances went to Gainesville Sunday morning to visit with Joe William Whaley who is there for medical treatment. They returned Sunday night.

Junior Teams Are Scrappy Gridsters

The local Junior High School football team, coached by Robert F. Devin, played the Clarendon Junior High team in Clarendon Tuesday afternoon, winning the match 7-0. The Clarendon team will return the game here next Tuesday.

Also making the trip north was the eighth grade high school football group, coached by Bowen Cox, which played a corresponding team in Clarendon. They came home the 18-0 victors over their opponents.

Charles Whatley of Amarillo was a visitor in Memphis Saturday night and Sunday.

Mr. and Mrs. E. M. Ewen and his sister, Mrs. Olive McLain of Fort Worth, who is visiting here with Mr. and Mrs. Ewen, spent Saturday in Estelina as the guests of Mr. and Mrs. John Ewen.

Mr. and Mrs. Leon Fisher of Ralls visited here Saturday night and Sunday with his sister, Mrs. W. D. Mabry, and other relatives.

through the International Settlement in which there are still ruins of the 1931 disaster, and to the beautiful Civic Center. The Administration Building is copied after Peiping Palace, and is a marvel of architectural beauty.

On the way to Rev. and Mrs. Walline's home for dinner in the part of the city known as the French Concession we took a sight-seeing bus. We went along the Bund to Nanking Road and Bubbling Well Road. Shanghai is making an attempt to widen the streets and any new building is set back from the rest. At the Wallines I met Dr. and Mrs. T. W. Mitchell of the Human Mission, and Mr. and Mrs. Broadbent.

Mary Farnham School for Girls and the Lowrie Institute for Boys were in the midst of Daily Vacation Bible School work. The Chang Memorial Hall is practically completed—in memory of the father of the principles of these two schools.

From Lowrie Institute we went by rickshaws to the Nantao Christian Institute. In that thickly populated and unhealthy section of Shanghai Rev. Boone and his workers are doing their utmost to spread the Gospel tidings.

Never before have I truly appreciated the fact that I live in a Christian nation, but never will I be able to forget it now. How much responsibility we each bear in our relation to others who know not of the saving grace of our Lord.

LORRAINE RASCO.
Day's Program—
(Continued from page 1)

up from Friday, at Lakeview, to Thursday, so that more Hall County football fans might have a better opportunity of attending. Both teams are qualified members of the District 3B Football Conference and both teams' records are exactly the same, two wins and four defeats. They are, prior to this week's game, tied in the district race. Defeat for either team will place the loser one notch lower in the second division.

Free Air Circus
Adding more color to the day's entertainment will be a specially arranged free air circus. The Memphis Chamber of Commerce has arranged this feature for those who are thrilled at the maneuvers of stunt flying. It was understood that small charges would be made, by the visiting planes, for rides high above the city.

No set hour has been announced for this part of the program, it was understood Wednesday night. However, it has been the plans of the co-sponsors to have the stunt planes here all day Thursday.

Street Dance at Night
A street dance, down town, will bring the day's program to a climax, according to present plans. Streets will be roped off and the expected crowds literally "turned loose." Music is to be supplied by a prominent group of musicians, it has been announced.

Arrangements Committee
A committee in charge of arrangements has been working on the program for more than a week and their efforts to bring a complete Armistice Day program for Memphis visitors was expected to continue throughout the early part of next week.

The committee, named by the Charles R. Simmons Post, includes: J. Ray Martin, chairman; O. V. Alexander, and Dr. L. M. Hicks. Working with the American Legion committee is Carroll Smyers, secretary of the Memphis Chamber of Commerce.

Mr. and Mrs. F. G. Goyne and daughter Ronda Sue of Amarillo visited in Memphis Tuesday as the guests of Mr. and Mrs. R. A. Cole. They were en route from Hico where they had been to attend the funeral of Mr. Goyne's grandmother, Mrs. George Goyne.

Mrs. A. W. Williams arrived in Memphis Thursday morning from Hanford, Calif., and will be here indefinitely looking after farm interests in Hall County.

Welcome, Boy
You will find us on-hand at the big celebration here next week, just the day you joined Uncle Sam's Fight 1917-18. Farmers Union was 10 years old... we are 30 now. Your patriotic spirit are both highly appreciated.

J. E. Barnhill, Turkey road contractor, was low bidder on a \$140,000 road job in Dallam County last week. The job includes the building of grade and drainage structures on 16 miles of road in that county.

Both Memphis and Turkey reported record-breaking crowds last Saturday. It is said that Turkey had the largest crowd ever to congregate there, retail stores in that Hall County city remaining open and doing business 'till well past midnight.

About \$315 damage was caused when a box car containing some 32 bales of cotton caught fire on the compress tracks here Sunday morning. The fire was evidently smoldering before the car arrived here, for a bale of cotton taken off at Hedley the day before was scorched.

Note on Halloween: A rural mail box and someone's iron gate were found in front of the local high school building Monday morning.

The item which appeared in this column recently, about the little girl at the singing convention who poured sand out of her shoe over the balcony rail upon the head of a man sitting below, received mention in "The State Press" in the Dallas Morning News last Monday. Said the State Press: "Our devoirs to the little girl... her effort was primarily to relieve her feet of the unwelcome association. Secondly, she sought to keep the floor tidy under her feet. This proves that the little girl had a sense of practical values."

Remindful of your own grade school days: A group of West Warders were walking home from school down Main Street one day last week, yelling at one hapless member of the group, "Dor'thy's got a sweet heart! Dor'thy's got a sweet heart!"

Making two similar occurrences during the past week, a box car loaded with cotton was completely demolished by fire near Estelline Saturday afternoon. Damages totalled over \$6,000, including the value of both the box car and cotton.

Farmers Told—

(Continued from page 1)

such good staple cotton that if the bale had a bill of lading on it from Texas, it brought a premium of several dollars on European markets, this area now has the following pathetic record:

Out of a total production of 411,700 bales in 1936 in district 3, 167,700 bales, or 40 per cent, were less than seven-eighths staple, which is so short that this cotton cannot be delivered on future contracts in accordance with the Government Cotton Futures Act. It is a drag on the market and hurts the whole cotton industry. The only reason why some spinners still buy it is because they can get it at a big discount. In addition, there were 213,800 bales, or 51.5 per cent, produced in the same area in 1936, with only 7-8 and 29-32 inch staple, in the face of the fact that 15-16 to 1 inch and better staple is in larger demand and is needed to meet foreign competition; and in spite of the fact that proven results show better staple cotton has made almost as much yield as short staple.

With so much short and mixed staple, Texas is losing its foreign markets and spinners are discriminating against Texas cotton.

In the other Southern and Western states marked improvement has been made in the quality of cotton, while Texas and Oklahoma are at the bottom of the list in production of good staple cotton.

Cooperation of farmers and ginners is absolutely necessary in a cotton-improvement program. Prejudices as to varieties should be laid aside and committees should be appointed to select the best variety for the community on the basis of tests as to yield and marketability.

Organize the different communities in the county into one-variety groups.

Proper ginning is very important in quality cotton production. Haphazard methods must be discarded and production and marketing studied like any other big business.

The speakers cited the case of

Uncle Mack Dial brought a purple-top turnip into the Democrat office Tuesday afternoon weighing a pound and ten ounces. He raised it at the W. P. Dial home here in Memphis. He also brought in two large yellow pears, each weighing some nine or ten ounces, which were grown at the same place.

a community in Williamson County where the farmers grew one variety of cotton exclusively last season. All ginned at one gin, produced an average of 26 more pounds of lint per acre and received an average of \$4 per bale more than the farmers in the same community who planted a number of different varieties and ginned at another gin. The first community sold their seed to other communities for 20 cents a bushel above oil mill price, and with the bonus bought new registered seed which they planted this season.

and fatherless families during the coming year.

"The little red poppy worn above our hearts is the truest symbol of our remembrance for those who gave their lives in the nation's service during the World War," said Mrs. L. L. Doss. "It is their flower. It grew on the fields where they died and it was the only floral tribute on the bare battle graves where they were buried. We of the Auxiliary are hoping that everyone in Memphis will understand the poppy's significance and wear one with pride Saturday, Nov. 6."

Senior High PTA Has Meeting On October 28

"Parents must study to keep up with their children and with the changes of school curriculum, or they will always be fussing at the children and complaining because things are not done the way they used to be done," said Supt. Davis in his talk on "Recent Major Trends in Curriculum" last Thursday at the Senior High Parent-Teacher meeting.

The parents who heard Supt. Davis' talk went home with a much better understanding of the schools and children, which was the theme of the program.

This splendid talk came after a beautiful devotional by Mrs. Orion W. Carter. A reading, "Better Understanding," was given by Martha Jean Parks, Mrs. D. L. C. Kinard paid tribute to the Texas congress and its founder. A birthday offering was taken by the secretary.

After the program the president, Mrs. S. L. Seago, presided over the business meeting. The treasurer reported twenty-six cents in the bank after all bills had been paid. The membership chairman reported thirteen paid members prior to the meeting. The program chairman reported that the year books were finished and ready to be distributed to the paid members. A bill for \$2.00 for the year books was presented and the bill allowed.

Principal H. J. Gore announced the "open house" to be held at the high school November 9, and asked that the P.T. A. plan an exhibit. The president appointed a committee for the purpose.

Mrs. Seago announced that as the next meeting date would fall on Thanksgiving Day, it would be postponed until December 2.

Leather Suit, Is Fashion's Newest

With cold weather coming on, this three-piece leather suit would make a welcome as well as attractive addition to a lady's wardrobe. It's of grain sheepskin with skirt and jacket styled with button-like clasps that afford ease in getting in and out of the garment. A wool dress is worn underneath the suit.

Baptist YWA Meets With Mary Smith

The Y. W. A. of the First Baptist Church met at the home of Mary Smith Tuesday evening at 7 o'clock.

After a brief business session the program on "The Old and New in China" was given with Wilma Lee Watson as leader. Billie Faye Cypert gave the devotional, reading Galatians 6:14. "An Ancient Waterway and Country Side" was given by Mary Catherine Walker. Wilma Lee Watson discussed "There is Room for the New," followed by a very interesting article on "Cities, Old and New," told by Beth Weathersbee. Mary Smith gave "Old and New in Christian Progress" after which Lois Hill gave a very interesting and informative story of "Radio Preaching in China." Una Loard closed the program giving "A New Condition Demands an Old Remedy."

Pumpkin pie and coffee were served to Mrs. W. Wilson, counselor, Mrs. Isabelle Cypert, a visitor, and Mary Catherine Walker, Wilma Lee Watson, Beth Weathersbee, Lois Hill, Billie Faye Cypert, and Una Loard, by the hostess Mary Smith.

U. D. C. MEETING
The U. D. C. Chapter will meet in regular monthly meeting Tuesday afternoon, November 9, at 3 o'clock at the home of Mrs. W. L. Wheat, with Mrs. Roy R. Fultz and Mrs. J. H. Norman assistant hostesses.

Members are urged to attend the meeting.

ERNEST LEE TRANSFERRED FROM LUBBOCK TO DALLAS
Mr. and Mrs. Ernest Lee and son Robert spent Sunday here with Mrs. Lee's parents, Mr. and Mrs. G. M. Bass. They were en route from Lubbock to Dallas where Mr. Lee has been made district manager of the Ponca Wholesale Co. of the Dallas territory. He takes the place there of the late Morgan Riley, whose death was occasioned by a robbery recently.

Mrs. C. B. Harrison is visiting in Shamrock this week as the guest of Mrs. I. C. Mundy.

Mrs. C. A. Reynolds and daughter Wanda Jo, and Mrs. T. R. Easterling spent Wednesday in Pampa visiting with their daughters, Mrs. Jake P. Roach, and Mrs. Coy Dennis.

Mr. and Mrs. Ike Heflin and Miss Ruby O'Neal of Talco, and Miss Marie Heflin of Fort Worth spent Monday and Tuesday here as the guests of Mr. and Mrs. Alvin Massey. Mrs. Heflin and Miss O'Neal are sisters of Mrs. Massey.

Mary Jane Selby Entertains For Friends Monday

Mary Jane Selby entertained at her home with a surprise party and handkerchief shower Monday evening in honor of Genevieve Prater and Florene Scott, on their sixteenth birthdays.

Each guest was furnished a slip of paper and pencil on which to write advice to the honorees on how a sixteen-year-old girl should act. Each was signed, and read by Mary Jane Selby, furnishing much fun for the guests.

Refreshments were served to Genevieve Prater Florene Scott, Jeanne Draper, Mary Cosby, Rebecca Rae Weaver, Janie Sue McMurry, and Mary Bess Cole.

John Harris, A. J. Clark, Dennis Sanders, James Evans, Paul Dodson, Jack Walker, Talmadge Pounds, Tuffy Simmons, Billie Polk Hall, Jake Sanders, and Whaley Gillenwater.

The hostess was assisted in entertaining by the honorees' mothers Mrs. Prater and Mrs. Scott, and Mrs. Coy Davis, Billie Jo Prater, and Evelyn Selby.

HIGH SCHOOL TEACHERS JOIN STATE ASSOCIATION

In last week's Democrat it was stated that all the teachers in the Memphis Junior High School were members of the State Teachers Association. It was said that it was quite an honor for any one school to have a 100 per cent membership in the state organization.

However, the High School was unintentionally overlooked. Principal H. J. Gore stated this week that the entire faculty of the High School were members of the association.

Mr. and Mrs. B. C. Jackson of Fort Worth came to Memphis last Friday after their daughter, Jo Ann Jackson, who had been guest of her grandparents, Dr. and Mrs. H. F. Schofield, for two months. They returned to Fort Worth Saturday.

Don Keith Wells Is Honored With Birthday Party

A birthday party was given Friday, October 29, in honor of Don Keith Wells on the occasion of his second birthday, at the home of his aunt, Mrs. Buster Morrison at 515 South Fifth street.

Many lovely gifts were received and after the youngsters fished for favors, refreshments were served by the hostesses Mrs. Sam Brown, Mrs. Buster Morrison, and Mrs. Hill Wells Jr.

Those attending the party were: Bobbie Don and Bettie Burnett, Joan Webster, Don Richard Stewart, Dora Lynn White, Roy Don Coleman, Charlotte Ann Ferguson, and the honored guest, Don Keith Wells.

Mrs. Bluford Burnett, Mrs. Marvin Webster, Mrs. Butler Stewart, Mrs. Lora White, Mrs. Roy Coleman, Mrs. Huston Ferguson, and Mrs. Stephenson.

CHANGES IN LINE-UP

Coach Frank Hubbell reported Wednesday that Talmadge Pounds, quarterback, and Gordon Hagemeyer, right half, would not be able to play in the Clarendon-Memphis game Friday night, because of knee injuries received in the Shamrock game last week.

Leroy Robertson will take Pounds' place, and John Harris will replace Hagemeyer. A. G. Kesterson and Boyce Bruce will substitute for Robertson and Harris in their respective positions of center and right tackle.

London Publication Says America's Cotton Curtailment Program Futile

Editor's Note—The following editorial from the London, England, Financial News of October 6, is reprinted in The Democrat, not for the purpose of expressing this paper's view, but in order that the readers may see what another country is thinking about America's cotton program.)

History will probably assess Mr. Roosevelt's cotton measures as among the most futile, ever put forward with the object of increasing farm income. To say that the present lamentable state of the commodity is largely the result of the loan programme and crop-control schemes of 1933-35 is to state the patently obvious. Yet, the Administration is moving along the same lines as before, and if the policy is pursued much longer, the Administration will face a problem of reconstruction in the South which will dwarf all its previous cotton problems combined. However, that is looking into the more distant future, although, as it means that the fundamental position of cotton is steadily deteriorating, it has some bearing on the immediate outlook. Argument, for instance, based on what the price was in the past when the supply was similar to that of today are fallacious. The whole background has changed. The present position of the market seems to be this. The one "bull" point is the fact that the price is so low. And while that price itself is no cause for a market rise, it may be of some importance for cotton today. For the price is now even below the point at which it pays farmers to put their lower grade cotton into the 7-3-4c loan rather than sell it at, say, 60 points less than the normal market price. The amount of cotton going into the loan must, therefore, be increasing; and although it is still possible for the price to fall—there is no practical bottom to the market, loan or no loan—it is conceivable that the market has touched, or nearly touched, its low level for the time being.

Allowing for some increase in the Bureau crop estimate which will be published on Friday, it is probable that the total supply of American cotton for this season will be approximately 22.5 million bales. This is about 3 million bales more than the total supply in 1936-37. Consumption, meanwhile, is not going too well. Deliveries of cotton to the United States mills have, since the start of the season, been 266,000 bales below their level in the corresponding period of 1936. And recent reports of conditions in the United States textile industry are not encouraging; there are periodic bursts of cloth sales, but the boom in this industry seems definitely to have died down. In other countries, Japan has imposed a ban on raw cotton imports for the balance of 1937. And although this does not mean that she is consuming less—her stocks are said to be ample—it is obvious that she will import as little cotton this season as she can. Finally, the Chinese demand can hardly fail to decline. In these circumstances, the total consumption of American cotton this season may well be less than 13.5 million bales, despite the low price which is making American more competitive with other growths. It is difficult to believe that any rise in the demand from Europe can offset the probable falls elsewhere. And it must be remembered that exports of American cotton actually fell in 1936-37 although world consumption of that growth rose substantially. In other words, the sole reason for the relatively high price last season was the boom in the U. S. textile industry which, for the moment at any rate, is finished.

At the same time, the U. S. is not the only country this year blessed with good weather and a good cotton crop. The recent Egyptian estimate showed a large increase on the 1936 figure; the Brazilian crop is apparently larger than that of last year; the Indian should not be less, and in other countries it will probably be more. In fact, the total production of outside growths should show a further increase. And even in 1936-37 the production of these growths was ahead of demand—it is estimated that the carry-over of growths other than American increased last season. Viewed from the angle of supply and demand, therefore, the outlook for cotton is anything but

good, and the outlook for American, alone, is definitely poor; American cotton is losing the ground which the other growths are continually gaining. But there are other factors than supply and demand influencing the immediate outlook. The U. S. Government has seized the opportunity provided by the large American crop to extort either in a special session or at the beginning of the next normal session—a far stricter crop-control program than Congress would otherwise have granted. And it is hoped in consequence to restrict cotton acreage next year to 30 million acres which, with normal weather, would yield a crop of about 12 million bales. On the one hand, therefore, the U. S. Government "serves notice on the world," as Mr. Wallace stated last week, that American cotton will keep its rightful place in export markets. And on the other, the U. S. Government takes steps to restrict its crop, while other countries are taking steps to increase theirs. With this type of contradiction as a background, it is hardly possible to take more than a day-to-day view of the outlook. It is certain, at any rate, that if American cotton does keep even its present position in world markets, it will do so at a price which the U. S. Government will not like.

Local High School Aggies Pick Cotton

Approximately 60 of the Memphis High School vocational agriculture students joined in a co-operative cotton-picking enterprise Tuesday for the purpose of buying equipment necessary for their farm shop work. The boys agreed to pick or pull cotton at home and to turn in one dollar each toward the purchase of the needed equipment.

Students who had no cotton to pick received permission from the parents of classmates who did to pick cotton in their fields, it was stated.

The delegation was headed by the F. F. A. chapter officers in accomplishing their aim to pull plenty of cotton.

THEY TALK ABOUT THIRD TERMS

THIS TALK OF THIRD TERMS both in Texas gubernatorial circles and in Washington continues to grow. In other years such talk has gone the rounds to the extent of getting the voters all "het-up," but never has the age old precedent been broken either in Washington or Austin.

The speculation that Gov. James V. Allred might run for a third term on a platform espousing a unicameral legislature has given voice to an enthusiastic press and public. The refreshing part of the report is not the third term issue, but the fact that an aspirant for the Governor's chair might come forth with a radical, yet important platform for re-organization.

A unicameral legislature is something Texas may have in the way of a governing body before many years. Senator G. H. Nelson, of the 30th district, went from Tahoka to Austin to fill an unexpired term late in 1935. He introduced the unicameral idea. Since that time it has grown until today it is a state-wide issue. If the voters choose to try it, it might save the state many dollars in operation costs.

Governor Allred may seek a third term, but more than likely his dreams are of higher things. FDR is a smart man, too.

OBSERVING FATHER AND SON WEEK

NEXT WEEK Texans will observe Father and Son Week. The Governor of Texas has proclaimed the period with the hope that a closer bond of friendship between father and son may be germinated.

There is a need for better citizenship between father and son in most cases. In other generations the boy was his father's working partner, in the field, in the general-store, in the shop, and the boy took up where the father left off to continue in the same trade. Father taught son his profession, and at the same time was in touch with his thoughts, his actions, his future at all times.

Today it is different. Too many fathers are too busy to play with son and to occupied with their trade to teach him. So son is sent to school to learn a trade of his own choice . . . and goes forth into the world with little further contact with his father.

There is a need for a closer bond of friendship between the two.

WHEN MEMPHIS PUTS ON A SHOW

NEXT THURSDAY, November 11th, The Charles R. Simmons Post of the American Legion and the Memphis Chamber of Commerce will co-sponsor a giant Armistice Day celebration. It will be a success!

There is no doubt in that assertion. Memphis isn't a showy town; in fact the city doesn't sponsor enough good-will-building affairs. But, when plans are made for an occasion you can depend on them being complete in every respect. People will drive for miles and come by the hundreds.

The sponsors of next Thursday's celebration are two live-awake organizations. Cooperation from the business men, the schools and citizens of Memphis will put the show over and build more good-will for the greatest little city in this part of Texas.

Paragraphs From Panhandle Press

Panhandler's Paragraph
Reflecting mounting living costs, panhandlers have changed their plea to "Buddy, can you spare a quarter?"—Wichita Falls Record News.

Alibi
When you see an error in the paper remember the newspaperman has a perfect alibi.

A statistician has worked out the number of chances for mistakes in one column of print. The number is 70,000 to 1.

In an ordinary newspaper column there are 10,000 letters; there are seven wrong positions that a letter may be put in; there are 70,000 chances to make an error and millions of chances for transpositions.

In the short sentence "to be or not to be," by transposition alone it is possible to make 2,758,009 errors.—Spearman Reporter.

Why and How?
Men are forbidden to work in the village of Tengann, Dutch Indies, on penalty of a public thrashing administered by women. . . . After limping for several days a cow's dislocated hip was knocked back into place by an automobile on a road near Brockton, Mass. . . . The given names of 14 children of Mr. and Mrs. N. W. Bowman of Cutler, Calif., are Daisy, Delbert, Dale, Doris, Dorothy, Donald, Della, Dolly, Dee, Dorine, Dean, Davis, Danny, and Denzil. . . . Burglars in the home of James Norris of Chicago carried away about \$1,000 worth of whiskey, but left \$800 in cash undisturbed in a dresser drawer.—Wellington Leader.

In a Quandary
There probably is a limit, somewhere, to the business of ready prepared eatables that call for little or no attention or skill on the part of the cook; but apparently it hasn't been reached yet. The grocer has cake mixtures, requiring only added water or milk to be ready for the oven. Ready-made filling for lemon pies is available, and some of my oper-

atives will report presently on whether it is as full of cornstarch as the restaurant kind. You can buy cracklings, of all things, put up in little cellophane bags.

The newest offering I've noted, in ready-fixed food, is stuffing for turkey. I just don't know what the world's a-coming to.—John Gould in Wichita Daily Times.

Whiskey and Driving
How much whiskey makes an unsafe driver? Two jiggers! Dr. Rollo N. Harger, professor of biochemistry and toxicology at Indiana University, gave that estimate recently. Based on studies made with a new type "chemical breath smeller" with which he seeks to replace the "policeman's nose test." Dr. Harger said that three ounces of whiskey are sufficient to fog the brain and render an automobile driver unsafe. This moderate amount of liquor increases an individual's reaction time—the time required before muscles obey the orders of the brain.

To a person accustomed to alcohol, two or three drinks may pro-

duce no visible effect. The driver may seem sober in speech, actions and appearance, but that same driver, turned loose on the highway with a car, is a menace to life and property.—Dalhart Texan.

American Legion Perfects Plans for Big Membership 'Push'

American Legion Week Proclaimed

Governor James V. Allred, World War veteran and a Legionnaire has proclaimed the week of November 7-13 as American Legion Week in Texas. During the period the Legion will attempt to double its 1937 membership. In the above picture Governor Allred is handing the Proclamation to Dr. W. J. Danforth, State Commander.

PROCLAMATION

by the
GOVERNOR OF THE STATE OF TEXAS
To All Whom These Presents Shall Come:

A specific time has been designed for the observance of American Legion Week. Coincidentally, the rolls of this organization are being opened to World War veterans who served in the armed forces of the United States and received an honorable discharge therefrom who have not yet specified their membership.

The American Legion takes its rightful place among the top-ranking organizations of national importance, notably as an organization whose primary functions are the perpetuation of our American ideals and institutions; the rehabilitation of those suffering from service connected disabilities and the employment of all able to work; adequate care of the dependents of those brave men and women who have paid the supreme sacrifice; and the maintenance of lasting peace.

With the President's firm declaration of the stand the United States shall assume in world affairs ringing in our ears, we are proud to join with this active organization of men and women bearing life-long memories of war and its after-effects in their unceasing determination that war shall never return to this world.

NOW, THEREFORE, I, JAMES V. ALLRED, GOVERNOR OF THE STATE OF TEXAS, do hereby set aside and proclaim November 7-13, 1937 as

AMERICAN LEGION WEEK
IN TESTIMONY THEREOF,

(seal)

I have hereunto signed my name officially and cause the Seal of State to be impressed hereon at Austin, this the 19th day of October, A. D. 1937.

JAMES V. ALLRED, Governor of Texas

EDWARD CLARK, Secretary of State

TOM LUTTRELL AT HOME

T. W. Luttrell, who has been very ill in a Quahab hospital for the past three weeks, was sufficiently recovered to be brought to his home in Lakeview last Thursday. His condition is said to be improving satisfactorily though he will have to remain in bed three more weeks according to hospital attendants.

E. B. Tunnell of Quitaque was a business visitor in Memphis Friday.

FAVORS LIMITED COTTON ACREAGE

House Agriculture Committee Favors Abolishing Market Quotas and Penalties

Strong sentiment developed in the House agriculture committee at Washington last week for controlling the acreage a farmer plants, but leaving him free to raise and market as much as he can on this limited acreage, according to Marvin Jones.

Jones reported the committee generally understood benefit payments to farmers under the legislation asked by President Roosevelt would be made on a basis of tilled acreage.

Other features on which he said there was a general accord included continuation of the present soil conservation program, under which benefits are paid producers complying with prescribed planting practices, and establishment of the "ever-normal" granary for those crops to which it is most adaptable.

The scheme to place added emphasis on controlling acreage in cultivation was advanced by some committee members as an effective means of avoiding controversial proposals for marketing quotas and accompanying penalties for non-compliance.

Representative Fulmer, Democrat, South Carolina, head of a subcommittee writing legislation for cotton, told reporters on an acreage basis farmers would be permitted to grow and sell all they could produce, without restriction, on a fixed amount of the total tillable acreage.

He recommended cotton farmers abiding by the acreage limitations be given soil conservation benefits, a subsidy of three cents a pound on their product, and perhaps benefits to be paid from proceeds on a small tax on the processing or manufacture of cotton.

"The accumulation of benefits would be so attractive," Fulmer asserted, "every farmer would want to come in on the program."

Mrs. Dick Pendergrass and daughter Kathryn Lucille, and Mr. and Mrs. C. E. Osborn of Dallas visited from Thursday until Sunday in Memphis with Mrs. Pendergrass' mother-in-law, Mrs. Bessie Pendergrass, at 317 South Seventh street.

Mr. and Mrs. R. J. Thorne returned to their home in Dallas Friday of last week after spending a few days here as the guests of Mr. and Mrs. Jett Roberts and looking after their ranch interests in Collingsworth County.

crank get down to Cases

To keep your car from growing old too soon... to make it run with that wonderful smoothness and pep it used to have when it was new... pay a lot of attention to the crankcase. That's where a motor's hardening-of-the-arteries starts.

So drain the crankcase—NOT your pocket-book, by refilling with Phillips 66 Motor Oil. It is Phillips finest, made from a costlier 100% paraffin base crude.

It meets the higher requirements of today's modern motors because it has high-degree oiliness. Refined into it by Phillips painstaking modern process. Besides, it is extra clean and extra thrifty. No wasteful light parts to cook out or burn out. Hence the film is tougher and longer-lasting.

Next time, drain and refill with Phillips 66 Motor Oil. It's concentrated!... This year's big value in car lubrication. Look for the Orange and Black 66 Shield.

Claims Farm Ponds May Be Made Into Thriving Wildlife Community Centers

A farm pond may be either a lifeless tank of stagnant water or the center of a thriving wildlife community, M. S. McMurtrey, biologist for the Soil Conservation Service in the wind erosion region, points out.

"Ponds of the latter type have many advantages," McMurtrey says. "They provide better water for livestock on the farm; they are more permanent; and in addition they yield a valuable crop in the form of wildlife."

"If the pond is large enough and deep enough to impound a permanent water supply, proper protection will insure development of the desired wildlife community. This protection consists simply of a fence adequate to keep livestock away from the shores of the pond. The stock may be watered outside the fence below the dam at a tank to which water is piped from the pond."

Under these conditions, the biologist says, a natural growth of aquatic vegetation, rushes, grasses, shrubs and trees in and around the pond will develop. This vegetation not only protects the shores of the pond from the erosive action of the waves and protects the

water from excessive evaporation, but will harbor valuable wildlife.

Such conditions, it is pointed out, not only favor fish and other aquatic wildlife, but encourage many kinds of terrestrial wildlife as well. Shore birds will live around the pond and make their nests in the nearby weeds and grasses. A variety of song birds prefer such habitats.

A pond isolated in the middle of a severely grazed pasture, McMurtrey warns, is a disadvantage from this standpoint, but this condition can be overcome by fencing a strip of land along the draw or stream running into the pond. This will permit the development of a lane of brushy cover through which the game birds can travel to food supplies along the edge of a cultivated field. The strip of cover will have the further function of preventing erosion of the channel or banks of the drainage-way into the pond.

"Practically all kinds of wildlife like water in their habitat," McMurtrey suggests. "Hence, the patch of natural cover around the pond may make a valuable contribution to the wildlife crop as well as make the pond itself more effective in soil and moisture conservation."

HALL COUNTY ROLL CALL TO BEGIN NOV. 11

Prominent Men Head Drive in Hall; Quota Is Set At \$600

Assistance to service and ex-service men with their families has continued to be one of the outstanding responsibilities of the American Red Cross, according to E. E. Roberts, chairman of the Hall County Red Cross Chapter, who said yesterday that 230,657 men in the Army, Navy, Marine Corps, or Coast Guard, and ex-service men, had been assisted in some way during the past year by Red Cross chapters.

The county chairman's statement came at the same time that Zeb A. Moore, County Roll Call Chairman, announced that the Hall County Chapter's annual roll call will begin Armistice Day. The county's quota will be raised from last year's \$435 to approximately \$600, it has been intimated.

"In addition to assisting men in active service, or veterans," Mr. Roberts said, "Red Cross workers are called upon many times each year for help in adjusting their family difficulties or in lending aid in countless personal problems whether they are in actual service, in hospitals, or going about their civilian ways after discharge."

widows and orphans in large numbers need the assistance of the Red Cross in securing pensions or other government benefits, Mr. Roberts said, especially since it is the responsibility of the claimant to establish his claim for government assistance. Sick and disabled veterans come to the Red Cross for assistance in entering government hospitals for treatment, or for help in preparing claims for adjusted compensation and government assistance.

"In carrying out such work here in the local community," the chairman said, "our chapter has the assistance of Red Cross workers in the Veterans Administration offices, Army and Navy hospitals, and the military stations.

"Our chapters over the country," he said, "helped 222,400 veterans and 8,257 men in the peacetime forces and their families during the past year.

Immunize Children Against Diphtheria

State Health Officer Geo. W. Cox urges all parents of children between the ages of six months and ten years who have not been immunized against diphtheria, to take them to their family physician and have this done at once.

The first ten months of 1937 saw 1,635 cases of diphtheria reported to the Texas State Department of Health. This is an increase over 1936's figures, and shows the need of immunization of children in this age group.

It was not many years ago that parents dreaded diphtheria because of inability of the medical profession to either prevent or cure the disease. But today when we know both the cause and the cure there is no obstacle but negligence which will prevent the complete elimination of the disease in Texas.

Diphtheria is most dangerous to the very young children, and it is especially important that immunization against it be given early in a child's life. In young children there is practically no reaction to the injection. Immunization has been proven to give absolute protection.

"It is in the power of the parents of Texas, cooperating with their physician and the Health Department, to eliminate the disease," Dr. Cox stated. "In about six months after immunization the child should be given a Schick test to determine whether further treatment is necessary. Early immunization against diphtheria is a routine procedure with up-to-date physicians. Cooperate with your family physician and your community and make early immunization a regular practice in Texas."

Memories Live On

Nineteen years ago whistles sounded and bells rang. There was jubilation, rejoicing for those who lived, and, underneath, keen sorrow for those who helped make the celebration possible, yet could not join in.

Time has mellowed our thoughts for them, but has brought forward their place in the observance. Through them we have come to realize the futility of warfare, to keenly appreciate the significance of peace. Their part has been played; our part must lie in remembering it.

On November 11th we join Memphis and Hall County in celebrating that great occasion of 1918. Again whistles will sound and bells will ring as memories of those tragic days . . . memories of those who lived, who represented the honor of this great country.

We can not change those memories, but we can re-live them, and living them hope for a lasting peace.
