BUY A HOME IN HALL COUNTY--THE RECOGNIZED GARDEN SPOT OF TEXAS

In Memorium.

Died at the home of his son, G. Stephens, in this city, A. Stephens, aged eighty-seven years.

He departed this life Wednesday morning at 4:40 a. m. March 1910. He was born in Monmouth, Tenn., April 1, 1823. He was married in East Tennessee in 1846 to Miss Ann Rodden. In 1870 they moved to Texas and settled in Fannin county near Graham where they lived for 17 years, moving from there to Harland in Wilbarger county where they lived for two years. They then moved to Hall county in 1899 where he has lived continuously up to the time of his death. He died about eight years ago he was a successful stock farmer, that time his eyesight began failing him and since that time he has lived here in Memphis with his son, H. G. Stephens. He was away at the time of his death on business at Vineyard and a telegram reached him there and he came in on Thursday morning of last week in time to attend the funeral which was held at 10 o'clock a. m. from the Stephens hotel. The remains were laid to rest in Fairview cemetery beside his wife who preceded him on the 13th of August, 1908. To this union there were ten children born, five living, eight of which were in attendance at his death.

He was a man of fine moral character and excellent habits, and he continued to be active in his usual pursuits till long past the age at which men ordinarily drop out of the ranks of the workers. The end came peacefully and quietly after but a few days suffering.

To the broken hearted relatives who sit in sorrow we extend our deepest heart-felt sympathy in this sad loss.

Notice

The committee of the Hall County Holiness Association have secured the great Evangelist A. J. Jeffries, of Peniel, Texas, to deliver our annual Holiness meeting, commencing August 16th, continuing until 29th, 1910. Let everybody begin to make preparations now to come and attend the meeting, for you can't afford to miss hearing this great man of national reputation.

E. O. SLOAN, Secretary.

M. Craig returned home from an extended trip to Gainesville last Wednesday night. He reports that country in very good shape, but pegging rain.

Do not order your suit from O. K. Taylor. He does not give you with two months waiting.

Call Session of Commissioners.

Last Saturday there was a call session of the county commissioners to transact some special business. There were only three of the commissioners in attendance, namely, T. N. Baker of Lakeview, J. A. McIntire of Estelline and C. W. Broome of Memphis, with Judge Phillips presiding. The question of side walks around the court house and the clearing away of the court house fence was thoroughly discussed and it was finally decided to build concrete cross walks on all four sides of the court house leading across the square. The court yard is to be graded and Bermuda grass set out. The question of the fence being moved was brought up but it was decided best to let the fence stand as it is until the bermuda grass gets well rooted, then some arrangements will be made for the disposition of the fence. An election for the Estelline precinct was ordered for the purpose of confining hogs, sheep and goats. This was a very interesting meeting and the commissioners are to be commended for the good accomplished.

Mrs. Kate Richardson wants to do your plain family sewing, corner 10th and Montgomery streets. 38-2tp

For District Attorney.

We are authorized to announce the name of R. H. Templeton of Wellington, as a candidate for the office of district attorney of the 46th judicial district in this issue. Mr. Templeton is generally known all over the district, having made the race for the same office two years ago. He is a native Tennessean and came to Texas in 1900, was admitted to the bar in Texas under Judge G. A. Brown, then district judge of this district. He is a graduate of the law departments of the universities of Tennessee and Texas. He graduated from the university of Texas in 1904 and moved to Wellington and engaged in the practice of law where he has been since that time. He has served as county attorney of Collingsworth county for two terms and has served with honor and credit to himself and the county. He has a general practice in several counties in the district. Mr. Templeton places his name before the voters of the district subject to the action of the Democratic primary and promises if elected to give his time and best energy to the duties of the office. He asks a fair and impartial consideration of his claims of every voter in the district at the polls.

O. B. COLQUITT CANDIDATE FOR GOVERNOR WILL SPEAK AT THE OPERA HOUSE IN MEMPHIS NEXT FRIDAY AT 2 O'CLOCK EVERYBODY INVITED

ALL FORMER STUDENTS AND FRIENDS INVITED.

Polytechnic College Will Celebrate Seventh Anniversary of the Inauguration of President Boaz With Great Home Coming.

Of particular interest to all former students of the Polytechnic College, as well as to all friends of the Institution, is the invitation to come "Home" and enjoy a day of good things on April 21.

Fort Worth, and, indeed, all of Texas Methodism, has been rallying to the support of the Polytechnic, and under President Boaz's able administration such remarkable progress has been made that the students of last year even will hardly recognize the place. There are now six stone and brick buildings, a central plant heating all buildings with steam, and a \$25,000 church on the campus nearing completion. Requirements for entrance to the college are now the same as is required for entrance to the University of Texas or Vanderbilt University.

George Stuart, the noted evangelist lecturer, will spend ten days prior to April 21 touring Texas in the interest of the Polytechnic. His campaign is planned to finish out an endowment of \$100,000. About \$85,000 has already been subscribed. It is also planned that Fort Worth shall, at this time, complete a fund of \$100,000 (nearly \$85,000 of which has already been pledged) for the better equipment of the college. The Home coming, then, will be a fitting celebration of the completion of this great work.

All High School students are likewise interested. An inter-scholastic track meeting is planned for the afternoon of the Home coming. News comes that more than a dozen of the leading schools of Northwest Texas have entered teams. A handsome cup will be awarded to the school winning the greatest number of points; and gold, silver and bronze medals will be awarded to the winners of first, second and third places in each event. This should create a splendid interest among the high schools, not only in athletics, but for education in general.

It has been a difficult task, the authorities says, to secure the present address of former students. If our readers happen to know the present whereabouts of any former students

of the Polytechnic college, president Boaz would greatly appreciate the kindness if you will send him the address at once. And we are requested to extend, for the college, to all former students and friends of the Institution a cordial welcome to come "Home" and enjoy a day of good things at Fort Worth on April 21.

Moore & Crump handle everything in a first class market.

Dress Making.

I will do dressmaking at my home on 13th and Brumley street. MRS. ANNIE GUINN.

B. F. Denny Dead.

Word was received in Memphis Tuesday night stating that B. F. Denny had passed away at San Antonio at six o'clock Tuesday evening. Mr. Denny has been in bad health for some time and visited numerous places in the hopes of regaining health, but the end came peacefully Tuesday evening. The remains will be shipped to Kerrville today and interment will take place from the family residence Thursday. Mr. Denny was a pioneer of this section and the scores of friends of the family will be grieved to learn of his death. We extend the heartfelt sympathy of the entire community to the bereaved family in this their sad hour of trouble.

Stallings suits cost you a little more maybe? but you get more for your money than at other places. He charges you nothing for extras. He makes it just like you want it with no extra charges and then he gives you two months free pressing on every suit and read his guarantee on another page. Can you beat it?

General manager D. B. Keeler of the Fort Worth and Denver spent last Thursday in Memphis. While here he made a trip to the oil fields and expressed himself very favorably of the oil prospects.

Byron Gist will leave tonight for A. & M. where he will again take up his studies after a short vacation.

GILES GOSSIP.

A light shower fell in this community last Monday night which refreshed everything and settled so much dust.

Miss Swafford's school closed here last Monday and she left for her home in Memphis. Mrs. E. A. Ranson formerly Miss Louise Thaxton who taught the term of 1907 and 1908, has now taken charge of it for 2 months.

Mrs. V. Coursey and daughter Mrs. V. F. Cline were shopping in Memphis this Tuesday.

Mrs. Penn C. Johnson and son, William of Hedley were the guest of the families of Judge Akers and E. H. Watt one day last week.

Several of the enterprising citizens of our community have installed telephones in their residence which is a help to the community.

Easter was a beautiful day with us and quite a large crowd was out at church, all to see who had the prettiest Easter bonnet. All that saw ye scrib thought she had.

Rev. DeBord of the Baptist faith filled his regular 4th Sunday appointment here last Sunday.

DeBoos Horn of near Bray attended church here Sunday. Mr. Horn is a brother-in-law of Rev. DeBord.

The children enjoyed an Easter egg hunt last Saturday evening. They met at the church at 2 p. m. where a nice little program was rendered then they proceeded to the prairie where much fun was had in hunting the eggs. At 6 o'clock supper was served at the church.

MERRY WIDOW.

For Sale

2 span work mules, gentle and in good condition. Can be seen at Franks wagon yard Saturday, 26th. For further information see Wallace at Wm. Cameron & Co.

Tenderly Laid to Rest.

The remains of the infant baby of Mr. and Mrs. H. E. Pyle were brought up from Childress Sunday morning and in the afternoon they were tenderly laid to rest in Fairview cemetery by kind and loving hands. The funeral was from the residence of J. L. Wright in North Memphis. Mrs. Pyle is reported as getting along very nicely under the circumstances, she having been sick several months with typhoid fever. The Democrat joins the many friends of Mr. and Mrs. Pyle and relatives in deepest sympathy during this sad hour.

Cemetery Fence Completed.

The new fence around the cemetery has been received and put up during the past ten days. This is a beautiful woven wire fence and is a perfect beauty. Both the old and the new cemetery are now enclosed under one fence. The new addition will be surveyed possibly sometime this week and the lots staked off. Then all those holding lot numbers can find their lots and begin to beautify them as they please.

The Ladies Cemetery Association have struggled long and untiring in their efforts to get this addition and the fence to enclose it, and they have done their part nobly, and now it behooves every holder of lots to help beautify same and help make our silent city of the dead the most beautiful spot to be found in Memphis.

Little Francis Gist Dead.

On Thursday of last week the sweet life of Little Francis Gist was called to the home above. She was only three years old and had been in delicate health most all her short life. She was taken ill and died very suddenly which has caused a deep mantle of sorrow to spread over the entire community and the sorrowing relatives especially. The father and brother were away at Midland, Texas, on business where they were notified of the sudden death. They returned at once and the little body was laid to rest by tender loving hands Friday afternoon in Fairview cemetery. Funeral preached by Rev. R. B. Morgan of the Baptist church.

The sorrowing family has the deepest sympathy of the Democrat in their sad hour.

Jones, The Jeweler.

Citizens State Bank

Capital and Surplus \$56,000.00

In considering the Citizens State Bank from the stand point of safety and surety, we beg first to call your attention to the GUARANTY FUND which under the laws of Texas furnish absolute protection to our non-interest bearing and unsecured deposits.

2nd. We are now subject to four rigid examinations during the year, besides five reports made to the Commissioner.

3rd. Our Officers and Directors are required each month to thoroughly investigate the affairs of this bank.

When you reflect upon the above facts you can but admit that our business must be conducted upon a high plan, and your interest with us securely protected.

Citizens State Bank :: Memphis, Texas

The Up-Building of This Bank

It is due to the fact that we have ample capital and that we have adhered to a policy which has been conservative, yet along progressive lines. We offer to our customers modern facilities for the prompt and proper transaction of their financial affairs; ample vault and safe room for storing and safe-guarding of their money, notes, insurance policies and other valuable papers and such liberality of treatment as is consistent with prudent banking.

YOUR account is cordially solicited.

Mothers Clubs and Life Insurance

Every Mothers Congress, every Mothers Club, and every individual Mother has a vital interest in the subject of life insurance. It has been more than a quarter of a century since the first application for life insurance was written in the State of Texas, and the business has been growing steadily since that time. Suspicion and doubt have long since given place to confidence, and the millions of dollars paid in claims are still blessing the lives of women and children, and adding to the sum total of intelligence, integrity and industry throughout the State.

During the year 1908 six million three hundred thousand dollars were paid, without protest and without delay, to beneficiaries residing in two hundred and seventy-three cities, towns, villages and hamlets in Texas. No higher tribute could be paid the holders of these policies than is summed up in the statement. "Six million three hundred thousand dollars were paid to their families at their death in 1908."

Six million three hundred thousand! What a tremendous help toward educating and equipping boys and girls for an even chance with others in the contest for place, when the serious concerns of life are undertaken. What a tremendous incentive to Mothers, broad-gauged enough to grasp the import of all that the statement implies, to impress the importance of insurance on the lives of fathers, husbands, neighbors and friends.

One of the most remarkable inconsistencies of human nature is the wide-spread indifference of men to insurance on their lives, which they are sure to end, while at the same time they are SEEKING insurance on their property, which may never be destroyed.

Only one fire policy in 1260 ever becomes a claim, while every life policy is bound to mature.

Are you waiting for "a more convenient season?"

Do you know that only one man in five can get old line insurance? If you are the one in five today who CAN, are you SURE that next week you will not be one of the four who CAN'T?

Who takes the chance, you or your family? Which can your widow more readily cash at the bank, your good intentions or a life insurance policy?

Would not the comforts which you are providing for your family now afford you greater satisfaction if you could be sure of their continuance after your death.

Do you feel you can't afford it? Well, if it is a struggle for YOU to support your family, what chance has your wife to succeed when the burden falls on HER?

The daily costs of \$1,000 life insurance taken at the age of twenty is 4 cents and 2 mills, taken at age sixty it is 18 cents and 2 mills. The sooner taken the cheaper and the longer you keep it the surer you are of needing it.

Rev. T. DeWitt Talmage, America's most eminent preacher, says in a sermon on "THE CRIME OF NOT INSURING!"

"When men think of their death they are apt to think of it only in connection with their spiritual welfare, and not of the devastation in the household which will come because of their emigration from it.

IT IS A MEAN THING FOR YOU TO GO UP TO HEAVEN, WHILE THEY GO TO THE POORHOUSE.

You, at death move into a mansion, river front, and they move into two rooms on the fourth story of a tenement house in a back street. When they are out at the elbows and the knees, the thought of your splendid robe in heaven will not keep them warm. The minister may preach a splendid sermon over your remains, and the quartette may sing like four angels, in the organ loft, but **YOUR DEATH WILL BE A SWINDLE.**"

Now at age 30 a policy can be bought on 20 payment life plan for \$27.78 per year, no more and no less—which has loans, extensions and paid up values to help you along each year after the second and at end of 20 years policy is paid up. Also at that time you can get \$508.00 yourself and when you die your estate would have due them \$492.00 on the same policy minus 5 per cent interest that may have accrued on \$508.00 up to time of death.

This policy can be used as security for a loan you might obtain from a friend or a bank. All old line insurance Companies are under state supervision and are absolutely safe. (Adv.)

St. Elmo was dramatized only a few months ago and already it promises to mark an epoch in the history of dramatized novels. The city production of this unique play will be seen at the opera house one night only. *Thursday*

RELEASES VAST AREA FROM QUARANTINE

Action Indicates Progress Made in Exterminating Fever Ticks.

Washington, March 26.—Secretary of Agriculture Wilson today issued an order, effective April 1, releasing from the Federal quarantine for Texas fever or tick fever of cattle certain areas amounting to over 48,000 square miles. This action is taken as a result of the good progress made in the extermination of ticks which spread the disease.

The territory released in Texas comprises the counties of Borden, Glasscock, Upton, Crane and portions of the counties to Pecos and Ferrell. Privilege for movement on inspection from the counties of Wilbarger, Baylor and portions of the counties of Hardeman, Foard, Knox and Haskell is revoked.

In Oklahoma, portions of the counties of the Noble, Payne, Cleveland and Jackson. Privilege for movement on inspection is provided for portions of the counties of Lincoln, Cleveland, Caddo and Jackson, and revoked for a portion of Kay County.

In Arkansas, the counties of Benton and Washington.

The total territory freed of ticks and eradication in 1906 aggregates about 130,000 square miles, or an area nearly half the size of the State of Texas.

Automobile Line.

I am now making regular trips to Wellington with my automobiles every day. Will leave Memphis every morning at 8:30 returning, will leave Wellington at 3:30 p. m. I now have my driveway completed and it will be a comfort to those riding over this road.

ENGLAND AND U. S. TO FIGHT SIDE BY SIDE

Sir Robert Perks Predicts Two Nations Will Battle Under American Flag.

New York, March 25.—"If the United States ever gets into trouble in the Far East, England will be at her side and the combined navies of the two greatest powers in the world will sweep the seas with the Stars and Stripes flying from the halcyons as the flag of St. George."

This is the terse summing up of the Far Eastern question given by Sir Robert W. Perks, for nearly twenty years a prominent member of the British parliament, before a meeting of New York Methodists at the Metropolitan Temple here last evening. Sir Robert besides being a member of parliament is the head of one of the largest international contracting firms in Great Britain and is known as probably the wealthiest active lay member of the Methodist Episcopal Church.

"I want to denounce those jingoes who have been attempting to stir up trouble through false reports of animosity between Great Britain and the United States over some of England's treaties with Far Eastern countries," he said, in beginning his address. "There is not one word of truth in their stories. I do not believe there is any danger threatening in the Pacific. But if a struggle comes you will find that blood is thicker than water and stronger than treaties. If trouble comes, all such diplomatic contracts will be swept overboard like so much waste paper."

Toward the end of his address the speaker turned abruptly to the Jeffries-Johnson fight.

"I am sorry to observe," he said, "that a remarkable instance of brutality and degradation is to occur in San Francisco within a few months. Two men are to engage in a disgusting exhibition there that seems to have attracted world-wide attention. When they ask me in England how the United States has progressed socially and morally I shall say nothing about this prize fight."

WEDNESDAY, MARCH 30

How to Grow Ferns.

Ferns are becoming more and more popular and better known than formerly. The idea that they are difficult to grow and care for is erroneous. Nothing is more beautiful than a box of cool, green ferns, winter or summer. They add to the attractiveness of the home. The hardier varieties, the sword and Boston ferns, grow luxuriantly and are easily cared for. There are many new and beautiful varieties, sports from these, that are very interesting, while a little less hardy. Of these, Pierson and Whitman are very pretty.

The Japanese balls, largely advertised, are very interesting and require only to be thoroughly wet every day or two to keep them things of beauty.

To grow ferns successfully a light, rich, porous soil is necessary, and water to keep the soil damp, not wet. Never let it get dry; this is fatal. Let the box get full of roots before ever dividing them. The more roots, until the pot or box is root bound, the finer the specimens. We have had a box, four feet long and one foot wide, a mass of fronds, reaching up and out and down, two to three feet long, with scarcely any soil, just a mass of interlacing infinitesimal roots. One may have several varieties growing together. The commoner varieties frequently sport. These, removed to other pots, gives one a new variety, always a delightful sensation. A few small plants put out now will make a fine display before winter, and nothing so enlivens and cheers the family living room through the winter season, as window boxes of ferns. Try them.—Ex.

WILL BEGIN PRIVATE LIFE AT END OF TERM

Hon. Harry Mason Will Not Stand For Re-election to District Attorney.

The people of this county, as well as those in other counties of this judicial district, will regret to be informed that this will be the last time District Attorney Harry Mason will serve them in his present official capacity, he having recently announced his intention not to stand for re-election to the place which he has so successfully filled for three full terms. During his incumbency, Mr. Mason has made an enviable record as prosecuting attorney, his entire administration being characterized by a spirit of absolute justice to every man whose conduct brought him into the courts as a criminal.

Mr. Mason is not giving up this work because he has any fears as to re-election, but that he may be the better able to care for his interests here which have grown to pleasing proportions. He will engage in the general practice of law.—Vernon Record.

MAY MOVE UNIVERSITY

Burning of Main Building at Waco May Cause Change to Fort Worth.

Fort Worth, Tex., March 23.—A proposition to remove the Texas Christian University from Waco to Fort Worth was considered this morning by the board of trustees of that institution, according to advices received here. It is believed that the trustees will favor the move following the burning of the University's main building at a loss of \$150,000 last night.

Rev. C. M. McPherson, endowment secretary of the university left for Waco this morning. The proposition was offered a year ago, but was not seriously considered since the buildings were already located Waco.

St. Elmo Production Coming.

St. Elmo has been a book for many thousands. It's romance is bewitching, it's religious spirit fervent. It's power to thrill grows as the story progresses until the most casual listener finds his attention enchained and himself wrapped in the lives of the folk who move in and out of it's action. The perfect and copyrighted dramatization of this remarkable story will be seen at the opera house for one night only, Tuesday, April 5th. The play has aroused considerable interest, not only among the regular theatre goers, but equally so among those who may be inclined, through mistake but honest belief, to look askance at the stage. Do not miss this event of the season.

LOST—\$10 bill Saturday, finder liberally rewarded for return of same to Democrat office.

MRS. W. L. ENGLISH, Teacher.

To The Public.

I have moved my O. K. tailor shop to the new white front brick, east side of the square on which I have a five year lease. Am much better prepared to care for my trade and will be glad at all times to have my friends and customers to call and see me. Remember I do French Dry cleaning, hat work and represent the leading tailoring houses of Chicago. My policy is right, wrongs no one, and I positively guarantee every piece of work and every suit put out by me, and make their guarantee good. No one can do more. Yours to serve, L. McMILLAN.

Try Snow Flake flour, highest patent at Brumley & Thrasher.

Mrs. S. A. Craig and daughter, Miss Emma Craig, of Gainesville, will arrive this week and will take up their home here in Memphis. Mrs. Craig is the mother of J. F. and J. M. Craig of this city. Miss Emma will be employed in the dress goods department of Craig & Bird. She has eight or ten years experience as sales lady and will make a valuable saleslady for this popular firm.

Not the cheapest but the best suits are always found at Stallings Tailor Shop west side square.

W. T. Howard returned Saturday from West Plains, Mo., where he was called some ten days ago to the death bed of his father. The old gentleman had been in feeble health for some time being quite an old man. Mr. Howard has the sympathy of the entire community in his sad loss.

A Special Colored Fashion Sheet. showing designs expressly prepared for Easter will be given away as long as the supply lasts, at our McCall Patern Department this week. Call and get one. You will not be asked anything.

I. W. THOMASON, Mgr.

? Where Will You Buy Your Spring Goods ?

WITH the coming of Spring you begin to want to cast off the heavy Winter Clothing and get into something that is new and light for the Spring wear. The question that then arises is where are you going to buy these Spring goods? To do this intelligently you will take several things into consideration, among which the following are the most important: Where do they carry the best goods--Goods that I can depend upon to give good satisfaction? Where can I get the best assortment of NEW goods to select from? Where can I get these goods at the lowest prices.

WE CARRY NOTHING BUT GOOD CLEAN DEPENDABLE MERCHANDISE--Goods that we can sincerely recommend to our customers. We are carrying an immense, well assorted stock of Spring Goods, we had practically nothing left in winter Goods. We buy our goods in connection with the Perkins Bros. Co. chain of twenty big cash stores and get some unusually big concessions in prices that smaller merchants with one store cannot get. We give our customers the benefit of this low buying. We earnestly invite comparison of our stock, quality of goods, prices and etc. with that of other stores. We know that the comparison will only help our business.

Ladies Ready-to-wear

In former times people of average means could not afford ready made articles of dress on account of the cost of them. But with the past two or three years the output of ready-to-wear has increased to such volume that you can now buy a ready made garment at just a little bit more than the cost of the material and at the same time get the newest and best styles and also save yourself the worry of selecting materials, trimmings etc.

Each succeeding season we have increased the amount of goods that we carry in our ready-made department until this season we can furnish you with nearly any article that you could want in a ready made garment and at the same time give you a big assortment in each line to select from. We buy our ready-to-wear in New York City-the place where you can get them direct from the manufacturers and at the lowest possible cost, and where you know the styles are always good.

Ladies' Coat Suits

We have an immense assortment of Misses and Ladies linen, and repp coat suits, all styles and colors. These are neatly made and are just the garment for early spring wear, then the skirt can be used during the entire summer. The prices range from \$3.50 to \$7.50.

Silks and Lingerie Dresses

We have a big lot of ladies silk, white lingerie dresses, white and colored repps, etc. The white lingerie dresses range in price from \$2.75 to \$16.50. The silks from \$15.00 to \$22.50.

We can show you a number of dresses in this lot that we can sell you cheaper than you can buy the materials and make them. Every woman who sees these dresses marvel that we can sell them at the extremely low prices at which we are offering them.

A Good Assortment of Muslin Underwear, Kimonas, Dressing Saques, Silk and Heather-bloom Petticoats, Gingham Wash Petticoats, Linen and Linene skirts, Woolen Skirts and Etc.

Laces and Embroideries

We had an immense lace and embroidery business last spring, but this year we are going to have even a larger one. We have the largest assortment of this character of goods that we have ever shown. We can supply your wants for nearly any thing that you could possibly ask for and at our usual reasonable prices.

Our line of lace and embroidery at 10c per yard is very strong. At this reasonable price you can find goods that would answer for almost any purpose you could want to use them.

We carry both lace and embroideries at from 5c to 50c per yard. Our line of flouncings, all overs, corset cover and other wide embroideries is unusually strong.

Spring Underwear

Ladies bleach taped vests, all kinds, 10c, 12c and 20c and	25c
Ladies summer weight fine quality Union Suits, 50c and	\$1.00
Children's summer union suits 25c and	50c
Boy's Porosknit and Nazer eth waist summer union suits	50c
Men's good quality balbriggan underwear at per garment	25c
Men's Porosknit underwear, a fair quality at per garment	25c
Men's Porosknit and lisle thread summer underwear at per garment	50c
Men's Athletic short sleeve and short drawer underwear at per garment	50c
Men's summer union suits at per garment	\$1.00
Men's night shirts, good quality at per garment	\$1.00
Men's Pajamas, good soisette, very light weight at per garment	\$1.50

Shoes

Do you have trouble in getting shoes that will wear you? If you do, let us fit you up in a Star Brand, Duttonhofer or a Packard shoe. We have had an immense shoe business since we have been here, and we have had scarcely no complaints whatever. Our business in the shoe line increases every month and that is convincing us that the shoes we sell really have merit. Our line of ladies oxfords, pumps, etc. in all the popular leather is complete. We can fit you no matter what peculiarity you may have. If you have already bought our shoes, you know what they are, if you have not, you owe it to yourself to see what we have.

Men's Clothing

We have had a nice business already in men's and youths spring clothing. We have been receiving clothing all along during the season but our stock is just now complete in this line. We buy our clothing out of New York city.

The styles are the best, and the prices are always right. We can sell you a youth's or man's suit at from \$7.50 to **\$22.50**

We have an especially strong line of them at **\$12.50**

You can pay \$17.50 to \$20.00 for lots of suits that are not made up any better than these \$12.50 suits and that will not wear any better.

Our blue serge suits at \$12.50 and \$16.50 are especially strong number.

When you want to buy a suit, all we ask is that you give us the privilege of showing you what we have. We can please you and save you money.

Spring Dress Goods

It seems that the motto of the manufactures is each year to make more varieties, more and daintier designs, more weaves than the preceding season. This season far surpasses any previous season in dress goods. Our lines repps poplins, soisettes, flaxons, linweaves, pongees, shantung silks, linens, liness, white and figured lawns, gingham of all kinds, madras, white waistings and etc. Is much more complete than we have ever carried. We can give you almost any weight, any color and any price in any of these goods that you want. We can't begin to enumerate the colors and prices in each line of these goods. It will be a pleasure to show you this line of goods and it will be well worth your time to see them before making your spring dress.

Our line of trimming for all grades of dress goods is complete.

We have spared neither time or effort to make our dress goods line complete and we believe you will appreciate our efforts in this line.

Staples Goods

Last August we anticipated that there would be a big advance in all kinds of staple goods, and we accordingly bought large quantities of all kinds of these goods before the advance took place for January 1st shipment. We can sell you any kinds of staple goods at just as low prices as you could ever buy them when cotton was at 7 or 8 cents per pound. Note the prices quoted below:

Good full width staple check gingham per yd	5c
Good cotton checks in all colors per yd.	5c
A good assortment of figured lawns at per yd.	5c
Good weight yard wide canvas at per yd.	4c
Good grade of zephyr gingham at per yd.	10c
Good quality of percales at 8c and per yd.	10c
Good standard brands of bleach domestics at 7c, 8c and	10c

We have bought too heavy on bleach domestics of all kinds, more than we can afford to carry even though they are worth considerable more money now than when we bought them last August. To cut down this stock to the proper amount we are going to offer you for the next fifteen days a discount of 10 per ct. if you buy these goods by the bolt. No reduction will be made under any circumstances except by the bolt.

This includes Knights Cambric, Gold Medal, Hope and other well known brand that we sell at 10c per yard, as well as all other grades in bleach domestics. This is very unusual in face of the advancing prices in all lines of cotton goods and you should not fail to take advantage of it. We could sell these goods at a considerable profit in a wholesale way, but when we have something good we prefer to give our customers the benefit of it.

Thirty bales of eight bolls in three is a record made by nett, a prosperous farmer.

Mr. Burnett has been in Hall county for two and never allows a section by that he does not experimenting for advantage the agricultural line from South Carolina.

Immediately went out on a few miles from Memphis took up two sections of land. At that time he was selling this land at \$1000 and gave the homestead years time to pay for it.

"It took a lot of new onto those plains and to break land for a Mr. Burnett," but the looked good to me and I am going to tackle it. I one day while I was old-time cow puncher ing up and inquired a

Mrs. E. L. Houghton and son, Roy, returned Wednesday night from Hot Springs, where they had been for their health. They are very much improved in general health. They report Henry King and Jet Roberts getting along nicely and will probably be home in a few days.

J. F. Wyatt returned Sunday night from a prospecting trip in the eastern part of Oklahoma. He reports everything very dry in that section. He says the people over in that section say they have not had any rain since last May. He says Hall county sure looks good to him.

Two-Bit Gratitude.

A recent editorial in the Lander (Wyo.) State Journal is so pertinent as to be worthy of reproduction. Under the heading "Two-Bit Gratitude" the Journal editor says:

"In this enlightened age publicity is the greatest progressive force, and the individual or community that neglects to employ it loses thereby. The newspapers want the town to grow and prosper that they may prosper along with all other citizens, while they should in all reason expect to make a small profit on all work turned out and they have never asked even that when the good of the town has been sought. The average weekly newspaper gives gratis for the good of the public from \$10 to \$20 per week, or from \$500 to \$1,000 per year. What other business man gives as much every year for the community in which he lives? The casual reader does not appreciate the fact that it costs so much money to set every line of type in the paper and that the editor who pays his printers is giving just so much money to the schools, the churches, societies and associations every time he prints a free reading notice for them. Do you suppose that any other business house would give the price of a sack of flour or sugar, a pair of shoes or a suit of clothes to every organization in the county every week? Of course not; they would not be asked to do so even if they were generous enough to do it. Newspaper men do it because it has been the custom to do it and because they are public spirited and want to help along every worthy cause to a greater extent than they are financially able.

Special Prices on Staver Buggies This Week

Ask To See Our New Go-Devil

"That which we do not know is often that which if we did know, would benefit us most."

The application is that often an Implement is bought with less thought given to the subject than when buying smoking tobacco—Simply because a want of knowledge as to the difference in such an every-day implement as a Cultivator.

To get the benefit of knowing, an investigation must be made.

If you need a Cultivator at all, why not BUY A GOOD ONE. It saves worry and money, and promotes good feeling. To have to worry is always bad—to have money is good (nearly always.) To have a bad Cultivator is a mean thing always—

When in doubt, it is always Safe to buy the STANDARD.

Note the following specifications:--

FRAME—Wrought iron and steel, with straight steel spindler with provision for contracting the frame so the wheels may be set close together for narrow rows.

WHEELS—42 inches with 2 inch tire, closed hubs and removable box, a strong well made wheel—one greasing lasts the whole season.

BEAMS—Double strength gas pipe, reinforced with a steel bar set in edgewise.

BEAM CLAMPS—The clamps are made so that the front shovel may be moved forward on the beam so as to make more distance between the shovels from point to point.

FRONT COUPLING—Provided for raising or lowering the front point of the beams, also for easily and quickly widening or narrowing the distance between the beams.

If you wish to see more of the Standard cultivator, call on us to show them to you.
