Here's What Census Taker Will Ask When Nose-Counting Begins in April

With the date for the beginning of the population census becoming nearer, Carroll Smyers, district supervisor, has listed the information which will be asked at each household during the "nose-counting."

"If every family would devote the conversation at one single dinner hour to a discussion of the coming population census, it would be a great convenience to the family, and an aid to the community and to the government," Mr. Smyers said.

"The census man is coming to every home early in April," Mr. Smyers said, "and some member of each family should be designated by the family to act as spokesman when the census taker comes."

Facts which the enumerator will want, according to a statement from Mr. Smyers, are as follows:

Home—owned or rented; home value, if owned; monthly rental, if rented.

Live on farm? (Yes or no.)

Name of every person in household and relationship to head of family; sex, color, or race; age last birthday; single, married, widowed, or divorced.

Whether attended school or college since March 1, 1940; highest grade completed.

State or country of birth.

Citizenship of any foreign-born.

Where did each person live five years ago—April 1, 1935? (This is asked for a study of internal migration.)

Each person must state whether he was at work for pay or profit in private industry during the week of March 23-30, 1940.

If not working for private industry, or non-emergency governmental work, or regular governmental work, the person must state whether during that week he was working for WPA, NYA, or CCC.

If neither at work nor assigned to public emergency work, each person must state whether or not he is seeking work; if not seeking work, he must state whether he has a job or business from which he is temporarily away.

Each person not at work or not seeking work must state whether he is engaged in home housework, in school, unable to work, or otherwise occupied.

All persons employed by private industry or on regular government work are required to give the number of hours worked the

week of March 24-30, 1940, and those seeking work and those assigned to public emergency work must state the duration of their unemployment in weeks up to March 30, 1940.

Every person at work, either private or emergency, must give his present occupation, industry, and classification as a worker. Those without work but seeking work must report whether they have had previous work experience lasting one month or more, and give their last occupation, industry, and classification as a worker.

If they have not had previous work experience and are seeking work, they will be listed as "new workers."

Information sought on the occupations above must include the exact nature of duties performed, such as trade, profession, or particular kind of work done. Under industry as above, a report must be made on the kind of factory, store, or other business in which duties are performed.

Under classification as a worker, a report must be made on whether a wage or salary worker is in private work, in governmental work (including WPA, CCC, and NYA), or working on own account or an unpaid family worker.

A report must be made on the number of weeks worked during 1939, as well as on the amount of money received during the year.

Each 20th person will be asked the state or county of the birth of the father and mother to get a study on the racial origin.

In addition, each 20th person will be asked his native tongue, whether he is a veteran, whether he or she is the wife, widow, or child under 18, of a veteran, and whether he has had war or military service.

Each 20th person will also be asked whether he or she has a social security number, and whether or not deductions were paid for federal old age insurance or railroad retirement in 1939.

Each 20th person will be asked his or her "usual" occupation, industry, and classification as a worker.

Potts Chevrolet Company to Have Used Car Auction

The Potts Chevrolet Company of Memphis is announcing an auction sale of their stock of used cars, trucks and pick-ups for Saturday, March 9, according to Tommie M. Potts, owner and manager of the company.

"This is a genuine bona-fide auction sale and not a money raising proposition," Mr. Potts stated. "Our new cars have been so popular and the people have responded so favorably to our sales that we have taken in more used cars than this territory can absorb. The bad weather has also slowed down the sales and we absolutely must move these used cars to make room for the constant arrival of new models."

The Potts Chevrolet Company has a fine stock of reconditioned cars and anyone in the market for a used car bargain is urged to be present for the auction sale which will be held both afternoon and evening at the company's garage here.

Mr. Potts urges that those wishing to buy at the auction to have their car appraised at the Chevrolet Company and the appraisal will be accepted as that much cash in a bid.

Mr. Potts invites the people of this vicinity to watch the columns of The Democrat next week for a further announcement of this sale, giving full details.

district surrounding Estelline, the amount is \$23,473.69. In district No. 4, that surrounding the Turkey community, the assumption is \$31,109.35.

Early in September, Judge Goodpasture was notified of the amount of the road bonds to be assumed in this county, which then totaled slightly more than \$700,000. This, however, did not include the amount already paid out by the county in securing right-of-ways.

The percentages on the road bond debt now being paid by the state run above the 90 per cent mark in each district. The additional assumption raised the percentages in the districts in amounts varying from 4 to slightly above 12.

FSA Clients Getting Ahead—Repaid More Than Was Due During 1939

Former tenant farmers in Hall County who borrowed money from the Farm Security Administration under the Bankhead-Jones Farm Tenant Purchase Act with which to buy their own farms and make improvements, repaid more money than was actually due in 1939, Robert C. Land, county rehabilitation supervisor, announced this week.

The farmers participating in this program in Hall county and who made this record possible are Garland Gardenhire, Otho M. Arnold and Glenn M. Stargel.

The regular annual payments are 4.3 per cent of the sum borrowed. This amount pays interest on the loan at 3 per cent and retires the principal in 40 years. Borrowers are given an opportunity to make their annual payments under a variable payment system which adjusts the amounts

due each year to their income. Under this system, large payments may be made in years of crop production and relatively small payments due in years of crop failure or low prices.

Mr. Land said that according to word received here from Hauer, regional director of FSA, the repayments of principal purchase borrowers in 1939 exceeded the amount of their loans.

In addition to making owners out of tenant farmers, Land said, it is the purpose of the Farm Tenant Purchase program, in cooperation with the Extension Service, and other agencies to give as much practical assistance to these families as possible to help them build up their farms and to carry out the program suited to their individual circumstances.

WHERE YA THINK YOU'RE GOIN' TO A FIRE?

MEMPHIS HAS BEEN GIVEN a credit of 25 per cent on fire insurance policies bought on or after March 1 of this year by the state fire insurance commissioner, and citizens are to be complimented on the small fire losses during the past year.

The credit, which amounts to a raise of 5 per cent from the 20 per cent reduction here during the past two years, means a saving of more than \$13,000 to fire insurance policy holders in this city.

The local fire department is to be complimented even more highly than the citizens themselves, since the department members are the ones who have kept these fire losses from amounting to more than they did.

The department members are to be given an additional compliment since they have to work under greatly undesirable circumstances at times.

Only last week more than 200 cars gathered within a space of about two blocks when a fire broke out in the city limits. These people crowded around the burning house, peeped into the windows of the house, got in the way of the firemen, blocked traffic . . . and even ran over the water hose stretched out to the burning house.

Now if those crowding people had got in the way of the firemen to a much larger extent than they did, the house might have been completely destroyed before the firemen could extinguish the blaze. If one of those peeping in the windows had been burned or hurt in some other way, the results might be another story.

If one of those cars blocking traffic had been hit by another car, the driver would not be so willing to attend another fire. And if those men who ran over the hose with their car had bursted the hose, the house might be nothing but a pile of ashes now.

Most of the firemen work without pay, volunteering their services to the city—for the benefit of the people in the city. Yet other people feel that they must attend every fire, get in the way, help in no way, and cause the fire losses in the city to be greater than they would be if crowds of onlookers did not hinder the firemen in their work.

Come to think of it, maybe those people are the ones who do not pay fire insurance, and do not care whether the 25 per cent credit is applicable to local citizens.

A DYNASTY FALLS

THE BREAKING DOWN of the Long dynasty in Louisiana by the defeat of Earl Long in the gubernatorial race last week is significant to all United States citizens.

There are those who felt no inclination to pay much attention to the tyrannic hold of the Long clique which has been in control of Louisiana since 1928. After all, Louisiana was another state, and what happened there means nothing to what happens to us here in Texas . . . that was the opinion of many.

But those people are wrong . . . what happens in Louisiana does affect the lives of people throughout the United States.

The basis of the government of this union is democracy . . . and when that democracy is threatened in one part of the United States, it surely affects all parts.

The Long faction in Louisiana did threaten democracy, although those in charge of the government were elected by the people just as the officers of any other state are elected. But the Long faction controlled the voters in the largest precincts, and were able to get enough votes from these precincts to elect the person they wanted.

The late Huey Long started this wonderfully-constructed organization of voters, and the organization was continued under the leadership of his brother, Earl Long. The people of Louisiana were unable to overthrow the faction.

But finally the dirt being done by the administrators of the state's government was uncovered, and thus began the downfall of the faction.

Now with the defeat of Earl Long as governor, the threat against the foundation upon which our nation is built—democracy—is lifted. Our American principles of liberty, equality, and justice for all have been protected.

Explanatory Notes on SOCIAL SECURITY

(Editor's Note: The following is the first of a series of articles prepared by Dewey Reed, manager of the Amarillo Social Security Board field office, to be published in this newspaper. The information contained in the articles is educational and of interest to the public in general and the wage earners in particular. Watch for the next article.)

FEDERAL INSURANCE FOR WAGE EARNERS AND THEIR FAMILIES

Most of the changes in the Social Security Act made by Congress last August relate to the provisions for old-age insurance and survivors benefits. Three of the amendments concern almost every family in the United States, in one way or another:

1. Monthly benefits beginning in 1940. This is 2 years earlier than was provided in the original act.
2. In addition to monthly payments to insured wage earners who are eligible for benefits after reaching the age of 65, monthly benefits will be paid to aged wives and minor children of these annuitants. Monthly benefits are also provided for aged widows, for orphans, and for widows with minor children; and, in some cases, for dependent parents of insured wage earners who die.
3. The wage tax of 1 per cent each for employers and employees remains the same until 1943. That is, the tax will not be increased in 1940, as was provided under the old law.

Press Paragraphs CULLED FROM THE DEMOCRAT'S EXCHANGES

Too Salty
 Ed Bishop in the Dalhart Texan: There were three men talking about a tragic accident that happened to a fourth. It brought on the question about what part of each man's body he would dislike most to lose. One fellow was quite sure that he could not do without an arm or leg, the other thought to lose one's eyesight was far more tragic. The third fellow spoke up and said, "Well, I would hate more than anything else to lose my navel." Of course such an odd statement immediately aroused the question, "Why?" And this is what he said, "You see when I go to bed at night I always eat a bunch of celery, and if I lose my navel I would have no place to put my salt."

Drinking
 The Prairie (WTSC paper): When is a man drunk? Some men are intoxicated when, standing up they admit it; others are not drunk when they have to hang on to the ground to keep from falling off the earth, if they deny it. One thing, he is drunk after the first drink, although he may not be. Authorities agree that the first degree begins when his muscular and mental speed is diminished. Well, so he's drunk and why? He considers it first-aid for the nervousness caused by overwork. If that's true our friend might like to know that nervous troubles will likely increase with the strain of intellectual studies and the foaming beaker. Experimenters have found that more breakdowns are from beer than from books.

No Dough, Pappy?
 One of the community correspondents to the Childress County News wrote Editor Randall Abernathy, and offered "information on how to live on red beans and bathe in a tin tub and like it." Randall says, "This is like telling Hitler how to be unpopular. Maybe she doesn't know it, but this alphabet rascal was born with a cotton stalk in his mouth and cut his teeth on a single tree. To be truthful, we haven't been out of the country long enough to get over our fright of hearing these city toilets flush. As for red beans, we've eaten so much of this edible that we still rattle when we hurry. And we still bear zebra-like marks from the rings of a No. 3 wash tub. After all, these weren't so unpleasant. Red beans are still very palatable, what with the right mixture of soup and crumbled cornbread. Too, those carcass dunkings in the oval bath tub took a variety of gymnastics and so limbered up the body muscles, making us a little more active."

Deep or Shallow?
 "Tim Midity" in the Odessa News-Times: Still water runs deep. As a rule, the swifter the talk, the shallower it is. Which is something to think about.

"Monkeys Are the Craziest Peoples"
 J. S. in the Tulsa Herald: We have often heard it said that man sprang from a monkey. But who ever heard of a tribe of monkeys ganging up and jumping onto a little tribe of monkeys and beating them to death in a like manner as a certain country is doing another country nowadays. Monkeys are above that sort of thing and should not be wronged by connecting them in any way with some divisions of the human race.

Request
 Dick Cooke in the Clarendon News: Comes a letter from two old time colored residents of Clarendon who recently celebrated their 40th wedding anniversary and are justly proud of the fact. We herewith submit the note verbatim feeling our readers may find it more interesting as originally written.

"Albert Boyd and Mary Boyd, husband and wife, united in marriage in 1900, February 21, who will be together 40 years 24 days of February, 1940. Have made our home happy for forty years—that is something to think about as colored hardly live together that long.

"Mother and father of seven children, 8 grandchildren. Albert 58 years old, 15th of March, Mary 58 years old 16th of June." (And here's the part not to be overlooked.) "Asking each one of our white friends for an anniversary present.

"P. S.—This announcement is a little late."

THE GREAT AMERICAN HO

OUT OF DATE
as the Horse and Buggy Era

Is Your Burial Protection Up-to-date or Still In the Horse and Buggy Era

The old horse and buggy are outdated. They served a good purpose in their time and hold a place of honor in the development of America—but advancement has brought about many changes, and among those changes is a modern burial protection policy.

We offer you a policy that will adequately meet your needs, give you the desired protection and in addition, assures you that the greatest skill, most sympathetic service, and complete relief from financial worries at time of death will be yours when sorrow of death crosses the threshold of your home.

The policy we offer is absolutely sound, and it gives you the protection that you want and need when death comes to your home. We will take full responsibility for the funeral, giving you a choice of casket in the price range of your policy, give services of a licensed embalmer and funeral director, which includes embalming, use of all church and grave

equipment, and funeral coach or hearse service within 100 miles of Memphis. If you so desire, the face value of the policy may be applied to a more expensive funeral. And if the death of the insured occurs more than 100 miles from Memphis we will, at our option, pay the beneficiary the face value of the policy in CASH.

This is just the kind of a policy you have been looking for. One that guarantees you and your loved one absolute protection, backed by a quarter of a century of service to the community in which we operate. If you are already carrying life insurance of other types of monetary mortuary benefits, keep them intact as an estate for your family and let us shoulder the responsibility of your funeral. Call us today, Phone 222, and a representative will call on you at once and discuss your funeral protection needs. We are, as we have been for 25 years, ready and willing to give you the best service within our capabilities. Act TODAY!

Farmers May Get \$89,362,705 in 1939 From AAA

State Agent Explains Full Participation Needed To Receive That Amount

Full participation in the AAA program in 1940 would bring Texas farmers and ranchers \$89,362,705, E. N. Holmgren, state AAA administrator, reported to the state Agricultural Conservation Association committee meeting in College Station.

To earn that amount, Holmgren explained, all farmers in the state would have to comply in every respect with the program, with each doing enough soil-building work to earn the maximum available, and with each ranchman putting enough range-improvement practices into effect to earn the maximum available.

The estimated figure does not include any of the money which farmers can earn by planting forest trees for which purpose \$30 is available on each farm.

Holmgren listed the maximum amounts which could be earned by Texas producers as follows:

Cotton parity payments, \$23,852,440.
Agricultural conservation payments for cotton, \$24,640,950.
Wheat parity payments, \$2,932,626.

Agricultural conservation payments for wheat, \$2,651,415.
Rice parity payments, \$78,541.
Agricultural Conservation payments for rice, \$302,079.

Commercial vegetable payments, \$591,576.
General crop payments, \$14,275,730.
Maximum range-building allowance, \$6,414,935.
Maximum soil-building allowance, \$7,838,616.

Balance available for increasing small payments.
Probably 90 per cent of the money available for all types of payments will be earned by participating farmers, Holmgren estimated.

ORDERS PLACED FOR TWO STREAMLINE TRAINS TO BE USED DAILY ON LINE BETWEEN DALLAS AND DENVER

Orders for two diesel-powered, streamline trains to be known as the Texas Zephyrs and to operate on radically faster daily schedules between Dallas, Fort Worth, and Denver, were placed this week by the Fort Worth and Denver City and Colorado and Southern railways, according to announcement by John A. Hulen, vice president of the Fort Worth and Denver Lines.

Each train will be a 10-car unit consisting of the following:

A two-unit 4000-horsepower stainless steel, diesel-electric locomotive.

A stainless steel mail-express car.

A stainless steel combination baggage-coach, which will contain also dormitory and bath facilities for the dining car crew.

Two luxurious stainless steel chair cars.

An eight-section, five-bedroom Pullman.

A 10-section, one-drawing room, one-compartment Pullman.

A 12-section, one-drawing room Pullman.

A stainless steel dining observation-lounge car.

The diesel-powered locomotives will be built by Electric-Motive Corporation, and all of the other cars, except the Pullmans which will be leased from the Pullman Company, will be obtained from the Edward G. Budd Manufacturing Company.

Delivery of the new equipment is scheduled to begin in the late spring and the railroads have announced that a five-hour reduction in the running time will be made between Texas and Colorado this summer. The fast schedules will not only shorten travel time between Dallas, Fort Worth, and Denver, but will also permit many improved or new connections af-

Texas 4H Boys Go In for Hog Raising

Texas' 4-H club boys were in the hog business in 1939 with 5,578 boys raising 13,541 swine.

Boys in 189 counties took part in the work. These figures, according to E. M. Regenbrecht, swine husbandman of the Texas A. and M. Extension Service, do not include the large number of pigs still on feed, but only the number of demonstrations completed in 1939.

The demonstrations were aimed at the economical production of pork through use of practices and rationing as recommended by Regenbrecht and county agricultural agents.

Totals for 1939 represent a 44 per cent increase in the number of completed demonstrations over 1938.

Most of the hogs produced were marketed through commercial channels, but 5,172 pigs were exhibited in the 170 club livestock shows held in Texas during the past year.

The 5,172 pigs exhibited collectively weighed 584,358 pounds and brought their owners \$32,401.08, plus premiums of \$5,600.

A Modern Linerider

on the Range

THIS MODERN LINERIDER—so like the old-time cowboy—has a mortal enemy too. The cowboy waged a continuous battle against the rustler. The linerman's big fight is against depreciation—and the ravages of wind and rain, heat and cold.

Just as the soil is worn away by erosion... just as a herd of cattle or sheep can be depleted by theft or disease, so does the electric line suffer from depreciation and the elements.

The lineman is constantly at work on the lines entrusted to his guardianship. Repairing and replacing old poles. Repairing and replacing old wires. Destruction by a sudden storm—or damage by a run-away car or truck—must be repaired in as short a time as possible.

Day or night—the lineman is subject to call. The light of a flashlight may be his only illumination while atop a 50-foot pole, working on high voltage lines.

He is one of the hundreds of men and women, working "behind the scenes," who help make Electric Service efficient, dependable and economical here. On him we bestow a title of honor—"A Modern Linerider."

This is the second of a series of "THUMBNAILED SKETCHES" featuring the work performed by our Linemen in bringing ELECTRIC SERVICE to your home

YOUR TICKET TO COMFORT DURING THE COLD SEASON

- This is the type of statement you will receive from United Gas Service on, or about, March 1.
- What period does it cover?
- Please note the meter reading dates shown on statement. You will find that it covers your Gas service for about thirty days, or the period between the regular meter reading dates for January and February. It is during this period that the coldest weather for many years visited the South and Southwest.
- Was the bill for this period more than usual?
- Perhaps so. During this period our customers are for, and received, 14 times as much Gas as is required a summer day, and several times the requirements of normal winter season.
- What does this prove?
- It proves that we were prepared to supply all service our customers required during this period of extreme cold weather. Our customers pay for this service of service; they would be satisfied with nothing less and we are only doing our duty in thus meeting these situations.

One-Act Play Is Given at Meeting Of Little Theater

Burglars may be hard-hearted, but four characters who dramatized the actions of the villain and his victims before members of the Memphis Little Theatre Wednesday afternoon at the home of Mrs. Roy Fultz proved that all burglars may not be what they appear to be on the surface.

The story of the one-act play was that of a burglar, who came to take everything he could get, but failed when sympathy got the best of him. The burglar finally turned over his entire worldly possessions to the woman he tried to rob.

The play entitled "Goodnight! Caroline!", by Conrad Seiler, was dramatized by Mrs. W. B. Dees, Miss Rachel Deahl, Mrs. Gayle Greene, and Mrs. Leo Fields.

At a business meeting preceding the play, Mrs. E. S. Greene presided and the minutes were read and approved. Mrs. Carl Periman was elected to membership in the club. The following officers were elected for the coming year: President, Mrs. Leon Bullard; vice president, Miss Maurine Thompson; secretary, Mrs. Frank Foxhall; treasurer, Miss Helen Boswell; reporter, Mrs. W. B. Dees.

Maudlo Patrick, J. I. Horkman Are Wed in San Benito

A pretty home wedding claiming the affectionate interest of a host of friends was solemnized Sunday afternoon at 2 o'clock when Miss Maudlo Patrick, daughter of Mr. and Mrs. Wade Patrick of Memphis, became the bride of Joe I. Horkman Jr., son of Mr. and Mrs. J. I. Horkman of San Benito, in the home of the bride's sister, Mrs. J. Bailey Mack of San Benito.

Rev. L. J. Rode, pastor of the First Methodist Church of San Benito, read the ceremony before an altar with a background of chosen blossoms, and with white tapers burning in crystal holders on either side.

The bride entered with her brother, W. T. Patrick of Port Arthur, who gave her in marriage. She was wearing a spring costume of navy blue and white, the frock fashioned with sweetheart neckline and the navy blue coat a new spring adaptation of the redingote. Her corsage was of white carnations and white sweetpeas.

Miss Mildred Decker of Harlingen was the only attendant to the bride, and Fred Purvis of San Benito attended the bridegroom as best man.

At the reception following the wedding, bridal white exquisitely carried out the appointments in the dining rooms, the table being laid with lace and centered by white tapers held in crystal holders. At opposite ends of the table were the crystal punchbowl and the three-tiered wedding cake, with Mrs. Harold Beeson of Port Arthur, assisted by Mrs. Frank Porley of Port Arthur, serving.

The young couple left shortly after the ceremony for a brief stay with the bride's parents in Memphis. After their visit here, they will establish their home at 341 South Travis Avenue, San Benito.

Before her marriage, the bride was honored with a series of pre-nuptial courtesies. She is well known in Memphis, having attended school here. Mr. Horkman was educated in the San Benito schools.

Jewelry Puts New Color in Dresses

New spring costume jewelry can change completely the appearance of a black or navy "basic" dress originally finished with white collar and cuffs. Flowers and leaves are used to fashion a smart necklace and matching bracelet. Earrings of simulated aquamarines, with pin to match, add a different touch.

Mr. Robertson is a native of Cottle County, and has been engaged in the active practice of law at Childress for the past several years.

Mr. Robertson says: "In announcing for the office of district attorney, I do so with full realization of the duties and responsibilities of the office, it being one of the most important law enforcement offices of the district.

"I believe that all violations of the law should be vigorously prosecuted without regard to the station in life of the person committing the violation, and that all persons are equal in the eyes of the law be they rich or poor. I do not believe that the office of district attorney should ever be used for the personal gain or benefit of any one particular individual, but on the other hand should be so conducted as to benefit the people as a whole.
