

The Memphis Democrat

VOL. X.

MEMPHIS, TEXAS, THURSDAY JULY 12, 1917

NUMBER 4.

DATE FOR DRAFT NOT YET SET

War Department Officials Will Witness Drawing to be Begun When Returns are In.

Washington, July 11.—Members of the house and senate military committees will witness the drawing to select men for the national army. Secretary Baker said today that some other official of the war department, and not President Wilson, has been suggested, would make the drawing.

The date will be announced until all caption boards have been organized. Officials hope this may be by the end of the week.

To clear misunderstandings, President Macdonald General Crowder explained today that under the regulation for the draft, a claim for exemption may be filed not only by a registered person himself or by members of his family, but by any party with knowledge of the man in his case.

Eat Milo Maize Biscuits.

Washington, July 7.—Another subject for wheat flour was suggested in Washington Saturday when Representative Blanton of Abilene had in by the bureau of standards a study of milo maize bread and biscuits which was served to congressional newspaper correspondents in a house of representatives restaurant. The cereal was grown in West Texas and the flour was milled at Abilene. The bread was baked with fifty-fifty mixture of wheat and milo flour while the biscuits were parts milo maize and one part wheat. Those who tasted the bread biscuits were highly pleased. Blanton believes if the government encourage its wide use a large quantity of wheat can be saved.

Chemist's Report On Water.

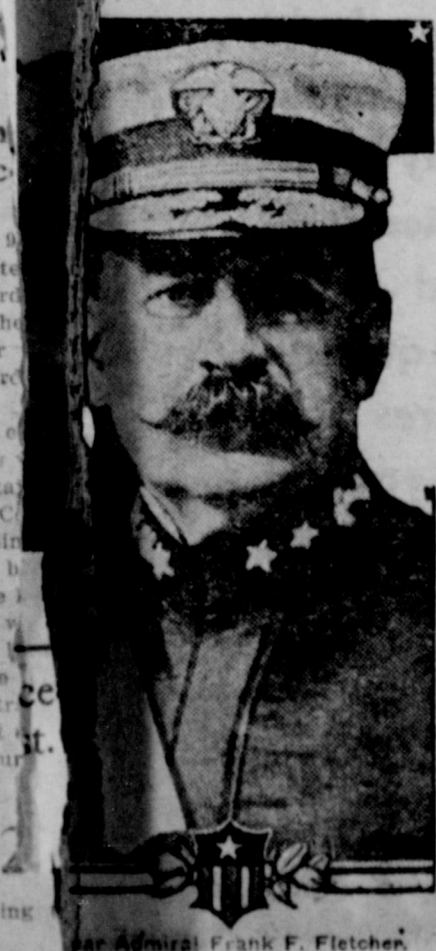

A erroneous report having gained credence to the effect that water in the well on my place near Parnell contained and filled with typhoid germs, I have gone to considerable expense to learn, for the protection of myself and my neighbors, who use water from my well, whether or not the water is good.

A sample of the water was sent to Dr. Terrell, city bacteriologist of Fort Worth, who analyzed it and reported that typhoid germs are present. I have Dr. Terrell's report, written and signed by himself, and will be glad to show it to any who wish to see it. R. Canada, Parnell, Texas.

Church Announcement.

W. A. Kerscherville, of Spur, Tex., each at the Church of Christ morning at 11:00 and at 8:00 evening.

Kerscherville will probably here permanently and serve as pastor.

Rear Admiral Frank F. Fletcher.

MAYOR PASTORIZA OF HOUSTON DEAD

Mayor's Death Came as a Surprise, and Is Due to Attack of Apoplexy.

Houston, July 9.—J. J. PastORIZA, mayor of Houston, died suddenly shortly before noon today. Death was due to a stroke of apoplexy. PastORIZA had been at the city hall during the morning and complained of feeling ill but his death came as a great surprise.

PastORIZA was born in New Orleans in 1857, educated at Fitzgerald's academy, Houston. He started in the printing business in 1879, built up a large business and in 1906 sold it and retired. He was an ardent believer in the Henry George theory of single tax and has contributed generously to its propagation. In 1911 he was elected city commissioner of Houston and appointed tax commissioner by the city council, re-elected in 1913, leading entire municipal ticket with the largest majority ever given a candidate for that office.

He was elected mayor in 1914 after a hard campaign, the effects of which are believed to have contributed to his early death.

Black Labor Preferred.

Charles Karch is United States district attorney for southern Illinois and he is investigating the East St. Louis riots. In an interview, this federal district attorney said there was truth in the claim of white workers that certain large employers of labor would give a white man work only when they could not get a negro. He did not offer this as justification or a defense for the action of the mob, but made the statement in connection with the further assertion that only the presence of a large force of Illinois guardsmen prevents a recurrence of the rioting at East St. Louis.

Berkman and Goldman Go to Prison.

New York, July 9.—Emma Goldman and Alexander Berkman, anarchists, convicted here tonight of conspiracy to obstruct operation of the selective draft law, started for prison in custody of Federal Marshals a few hours after the verdict had been returned.

Berkman will be taken to the Federal penitentiary at Atlanta and Miss Goldman to the State penitentiary at Jefferson City, Mo. Each was sentenced by Federal Judge Mayer to the maximum penalty of two years imprisonment and to pay a fine of \$10,000.

To Fight in Asia.

Plattsburg, N. Y., July 10.—Kermit Roosevelt has received a cablegram containing an offer of a staff commission with the British army operating in Asia Minor. He was granted his discharge from the officer's training camp here and will sail on Saturday for Spain.

Novel Uses for Electric Iron.

From numerous clippings of novel uses of electric flatirons, trade magazines, and individual suggestions the following list of things an electric iron has been used for is compiled:

1. Melting paraffin for sealing fruit jars and jelly glasses.
2. Soldering tinware.
3. Removing old wall paper.
4. Mounting photographs with mounting tissue.
5. Heating element for fireless cooker made at home.
6. Boiling eggs.
7. For treatment of rheumatism.
8. For warming nursing bottle.
9. For keeping dishes warm on the table.
10. Restoring costly oil paintings.
11. Thawing frozen water pipes in winter.
12. For keeping carburetor of automobile warm in winter.
13. For keeping feet warm in the automobile.
14. Smoothing out old legal papers and deeds.
15. For sticking on bookbindings.
16. For popping corn.
17. Heating water for shaving.
18. Keeping wool glue hot.
19. Vulcanizing an automobile tire.
20. Sticking patches on inner tube.

LETTING THEIR GUNS COOL.

Hung Jury in Smith Case

The trial of Ed C. Smith for killing Frank Lule closed Friday when the matter was given the jury for consideration.

Saturday morning the jury reported that they were unable to agree but were sent back by the judge, the same result; but late Saturday afternoon with the same result; but late Saturday evening when they again reported that they were again unable to agree and that they were divided in opinion just as at the beginning. Judge Nabors discharged them and set the case for trial at next regular term of court.

The jury is said to have stood: two for acquittal, three for manslaughter and seven for murder.

Miss Della Leonard Found Dead.

Miss Della Leonard, formerly of Clarendon, who recently moved with her parents to Floydada, was found dead in bed at her home Sunday morning.

Miss Leonard had attended a picnic the evening before and had returned home at a late hour; heart failure is given as the cause of her death.

This young lady has visited friends here frequently and had many friends and acquaintances in Memphis who will be surprised and pained to learn of her sudden death.

Hurt By Fall on Horse.

J. B. Weatherby, a young man employed as a cowboy on the Lett's ranch near Newlin was painfully hurt Saturday when his horse fell with him, catching him and crushing his chest and breaking his collar-bone. He was brought to a local sanitarium and is receiving attention.

Water Shortage at Childress.

Tuesday afternoon representatives of the Commercial Club and the city council met and discussed the water situation. It was decided by those in attendance to make tests for well water below the city lake dam and on the old Cheatman farm near Red river.

It was also decided to secure figures as to the cost of making a complete survey of Shores creek, and Secretary Bonds wrote letters the same afternoon to several engineering firms.—Childress Index.

Farm Loan Appraiser Here.

Mr. T. P. Whittis, of Houston, appraiser for the Federal Farm Loan Bank at that place, is here this week inspecting the securities offered by the Memphis Farm Loan Association, the members which have applied for loans aggregating \$40,200. Eleven members of the Association have filed applications for loans.

Drive I. W. W.'s Out.

Jerome, Ariz., July 10.—Hundreds of miners and citizens armed with rifles and pickhandles, started at sunrise today to "clean" the town of agitators whom they consider undesirable, as the result of a strike called Friday by the Metal Miners' branch of the Industrial Workers of the World which members of the International union repudiated.

Most of the Industrial Workers apparently learned of the proposed organized "drive" and left town during the night.

Sixty-seven were herded together, searched, loaded into cattle cars and started off for Jerome Junction, twenty-seven miles from here.

Population Figures Revised

Washington, July 11.—A complete revision of population estimates upon which quotas for the army draft will be based was made public today by the census bureau. It is based largely upon the results of the military registration.

Army regulations made public today reduce the minimum weight limit for recruits from 120 to 110 pounds; the minimum height from 5 feet 4 inches to 5 feet 1 inch. This will add thousands who otherwise would be exempt to the national army to be raised by draft and open the door to many volunteers turned down in the past.

Elevator Burns at Vernon.

Vernon, Texas, July 11.—Fire which J. A. Birdsong, manager, believes to be of incendiary origin, today destroyed one of the grain elevators of the Kell Milling Company here. The loss was in excess of \$9,000.

Destruction of grain and crippling of the food supply was supposed to be the incendiary's motive. Beside destroying the elevator the fire damaged four Fort Worth & Denver freight cars.

District Court Adjourns.

The district court closed an unusually long session here Saturday night at the end of the fifth week.

Although the term was of unusual length very little seems to have been done, only three jury cases being tried.

A number of cases were continued and hung jury in the Ed Smith case, transferred from Collingsworth county, required another trial to be set for the January term.

To my Winona customers: I am going away on a short vacation, but will be back in plenty of time to see all those I have not seen with samples for fall, delivery. Special line of military sweaters for boys, girls, men and women in the olive khaki, the very latest.

Mrs. N. C. Herold.

FORD PICNIC AT MONTGOMERY PARK

Second Annual Picnic of Ford Owners in Progress Today. Prizes To Be Awarded.

The second annual picnic to Ford owners, announced last week by W. L. Fore of the local Ford agency, is being enjoyed by a considerable gathering of Ford owners of Hall county and nearby communities.

The picnickers met at 10:00 o'clock this morning at the new Ford garage, a parade was arranged after which the trip to the park was made.

A number of decorated cars were in line, some of quite novel and beautiful, the names of the prize-winners will be given next week.

The local Ford agency has just moved into its new home, a commodious building fifty by one hundred and forty feet. The building is equipped with everything thought necessary for comfort and convenience. Being constructed for the especial purpose for which it is being used it is well lighted. Rest rooms for tourists, with separate apartments for ladies, have been provided and nothing seems to have been omitted to make its appointments complete.

National Guard Camps Named

Washington, July 11.—Subject to approval by Major General Bliss, acting chief of staff, the following assignments of the national guard troops to concentration camps has been made by the militia bureau for the troops from the western and central areas of the country: Michigan and Wisconsin to Waco; Illinois to Houston; Minnesota, North and South Dakota, Iowa and Nebraska to Denning, N. M.; Kansas and Missouri to Fort Sill, Okla.; Texas and Oklahoma to Fort Worth; Colorado, Utah, Oregon, California, New Mexico and Nevada to Linda Vista, Cal.; Washington, Montana, Idaho and Wyoming to Palo Alto, Cal.

No Place to Go.

Kingman, Ariz., July 11.—Sixty-three men deported from Jerome yesterday as Industrial Workers of the World, active in the strike there arrived here today from Needles, Cal., where armed citizens had met the car. They were held prisoners and caused its return on the next east-bound train.

Farm Loan Bank Approves Loans

Houston, July 10.—A meeting of the board of Houston farm loan bank was held Tuesday afternoon and it was announced that loans amounting to \$9,013,680.66 have been applied for since the bank was opened. The loans approved amount to \$1,641,559.59 in the same length of time.

Mrs. S. C. Hampton Dead

The body of Mrs. S. C. Hampton seventy-six years of age, who died at Lockney, Monday, was shipped here for burial Tuesday. Mrs. Hampton was the mother of Jeff Hampton and Mrs. John Smith of this place. The funeral was held at the Smith residence yesterday afternoon at 2:00 o'clock, interment at Fairview cemetery, Rev. Bailey officiating.

Apply for Widows' Pensions.

The commissioners' court at this week's session had several applications for widows pensions under the Widowed Mothers' Pension Act, passed by the present legislature.

The court has not yet been supplied with the necessary blanks for applications under this law and action was deferred until later, temporary aid being given where such was necessary.

GOVERNMENT REPORT FORECAST OF CROPS

Predicts Increase In Wheat and Kafir Decrease in Corn, Oats, Cotton. Much Higher Prices.

Washington, D. C., July 9.—A summary of the July crop report for the State of Texas and for the United States, as compiled by the Bureau of Crop Estimates (and transmitted through the Weather Bureau) U. S. Department of Agriculture, is as follows:

Corn—State: July 1 forecast, 97,000,000 bushels; production last year (December estimate), 131,100,000 bushels.

United States: July 1 forecast, 3,120,000 bushels; production last year (December estimate), 2,583,000 bushels.

Wheat—State: July 1 forecast, 15,300,000 bushels; production last year (December estimate), 13,200,000 bushels.

United States: July 1 forecast, 678,000,000 bushels; production last year (December estimate), 639,886,000 bushels.

Oats—State: July 1 forecast, 37,200,000 bushels; production last year (December estimate), 42,750,000 bushels.

United States: July 1 forecast, 1,251,992,000 bushels.

Cotton—State: June 25 forecast, 3,560,000 bales; production last year (Census), 3,725,700 bales.

United States: July 1 forecast, 11,600,000 bales; production last year (Census), 11,449,930 bales.

Kafir—State: July 1 forecast, 27,000,000 bushels; production last year (December estimate), 24,000,000 bushels.

United States: July 1 forecast, 94,500,000 bushels; production last year (December estimate), 50,340,000 bushels.

Prices.—The first price given below is the average on July 1 this year, and the second the average on July 1 last year.

STATE: Wheat, 224 and 85 cents per bushel. Corn, 172 and 83. Oats, 75 and 41. Potatoes, 235 and 116. Hay, \$13.00 and \$8.00 per ton. Cotton, 24.5 and 12.5 cents per pound. Eggs, 24 and 14 cents per dozen.

UNITED STATES: Wheat, 220 and 93.0 cents per bushel. Corn, 164.6 and 75.3 cents. Oats, 68.9 and 40.4 cents. Potatoes 247.9 and 102.3 cents. Hay, \$14.56 and \$12.09 per ton. Cotton, 24.7 and 12.5 cents per pound. Eggs, 28.3 and 19.7 cents per dozen.

Chihuahua Made "Bone Dry"

Chihuahua City, Mexico, July 8.—By a decree which became effective today, manufacture and sale of intoxicating liquor of any kind in the State of Chihuahua is forbidden under severe penalties. The decree was issued under the direct orders from President Carranza and is considered a war measure in furtherance of the efforts to stamp out banditry and revolution in this, the largest of the border States, punch was served.

IS YOUR MONEY SUPPORTING THE GOVERNMENT

At this critical period in our history our manufacturers are offering their mills, and our young men are offering their services to the United States Government.

Would you like to do your share and help by putting your money where it will support the new Federal Reserve Banking System, which the government has established to stand back of our commerce, industry and agriculture?

You can do this by opening an account with us, as part of every dollar so deposited goes directly into the new system where it will always be ready for you when wanted.

Memphis, Texas

BOARD REGENT'S INVESTIGATION OF UNIVERSITY

EVIDENCE AND REPORT OF THE INVESTIGATION CONDUCTED BY BOARD AT AUSTIN LAST OCTOBER

THE GOVERNOR AND UNIVERSITY

This Publication Will Make Clear the Issues Between the University Faculty and the Governor

It is well to state also that some of the items mentioned under 18 do not show in the legislative budget for the reason that they can only be paid for from the available fund, the Legislature being prohibited from appropriating for the purpose.

Sixteenth Biennial Report.

To rehearse some of the documentary evidence, which may throw light upon some of the misunderstandings and misinterpretations of some of the transfers, the Board refers to its Sixteenth Biennial Report, dated October 15, 1914, to Governor Colquitt, and the thirty-fourth Legislature, and quotes the following pertinent paragraphs therefrom:

"Austin, Texas, October 15, 1914. To His Excellency, O. B. Colquitt, Governor, and to the Honorable Members of the Senate and House of Representatives of the Thirty-fourth Legislature of the State of Texas:

"Sirs: The Board of Regents of the University of Texas has the honor of submitting the following recommendations for the fiscal years, 1912-13 and 1916-17, together with its report for the years 1912-13 and 1913-14, which are the Thirtieth and Thirty-first Sessions of the Main University and the Twenty-second and Twenty-third Sessions of the Medical Branch.

"Our recommendations are first presented in summary form, and later are discussed in some detail. It will be seen that, allowance being made for a continuance of the average rate of increase in attendance during the last four years, the recommendations contemplate conducting the University on the basis of its present efficiency for 1916-17, but more economically for 1915-16.

Recommendations in Brief.

"The running expenses of the University for the present fiscal year, 1914-15, including expenditures for salaries and supplies, but excluding the cost of repairs and temporary buildings, amount to \$713,780.82. Although our student body is increasing annually at a rate exceeding ten per cent, our recommendations, because of the cotton situation, include no increase for the next fiscal year, 1915-16. We do, however, urge an increase of twenty per cent for the second year following this, namely, 1916-17, as business will no doubt be at least normal by that time. To meet running expenses, we recommend appropriations, or a special tax yielding:

"For the fiscal year 1915-16, \$713,780.82.

"For the fiscal year 1916-17, \$859.82.

"We strongly recommend that the entire available University Fund from land leases, interest on bonds, fees, etc., for the two years, 1915-16 and 1916-17, be appropriated and made available as basis for bonds for the repair, improvement and erection of buildings to replace the twelve temporary shacks now located on the campus. The University, though rapidly has been unable to invest a dollar in

permanent buildings at Austin for four years; and we submit that its building needs are at least as urgent as those of any other of the State institutions."

"Estimated Cost of Maintenance for 1915-16 and 1916-17.

"The years with which you will deal and for which you make recommendations, are the two years following, i. e., the fiscal years, 1915-16 and 1916-17. The question we have sought to determine is what sum will be required to maintain the University for each of these two years.

"The main factor in estimating the number of teachers, the operating expenses, and the amount of supplies needed, is the probable number of students to be taught and otherwise educated and dealt with. To determine these facts, the enrollment figures must be considered.

"The tables given on page 25 show that the enrollment in 1913-14 was 23 per cent greater than two years before, and 30 per cent greater than four years earlier. An average increase of approximately ten per cent a year for the four year period.

"The conclusion from these figures is that, in order to maintain the University at its present efficiency, it would be necessary to provide a ten per cent addition to running expenses for 1915-16 and a further ten per cent addition for 1916-17. Such a recommendation would call for \$785,158.90 for 1915-16 and for \$856,536.98 for 1916-17.

But the State is confronted by a serious crisis, in view of the largely reduced demand for cotton, owing to the war in Europe. We think it is proper that the University, as a part of the State, should recognize the situation, and make it accordingly, sharing in proper measure in the economies that must be exercised by the people of the State. We accordingly recommend no additional provision for the University for the fiscal year 1915-16, and will manage, as best we can, in spite of certain increase in enrollment, to operate the institution on the same sum that will be expended for the current year. We do not believe that the people would wish to see the institution cut down more than this.

"For the second year of the biennium to be dealt with, it is no doubt safe to make different calculations. By that time, either the European war will have ceased, or if it still continues, our people will have adjusted themselves to the industrial changes that it renders necessary; and it may even be that the country will enter upon a period of expansion and increasing prosperity. Our recommendations for the fiscal year 1916-17 are for an amount approximately twenty per cent greater than this year's prospective expenditures.

These are the considerations which have, in part, determined the recommendations for appropriations carried in the budget, namely, \$713,780.82 for 1915-16 and \$847,980.82 for 1916-17.

"Business men employ two other means of forecasting necessary expenditures: a comparison of similar business enterprises, and a consideration of expenditures, department by department and item by item. So far as data are available, we have employed these methods, and find that the results they yield more than confirm the estimate given above."

The Chairman: We specifically refer to Exhibit A of such report, which is headed as follows: "Recommendations for 1914-15, as follows: Running expenses, including salaries, supplies for schools and laboratories, current expenses, Economic Geology Technology, Extension Department, and summer Schools, \$713,780.82."

The Appropriation Bill.

The Chairman: Following this, gentlemen, we will take up the items which can be found in the original report.

In the spring of 1915 Governor Ferguson signed an appropriation bill affecting the University, as it passed

bill had been signed without modification by the Governor. In accordance with a resolution of the Board, passed at the June, 1915, meeting, the revised budget was approved without calling the Board together again for that specific purpose.

This revised budget redistributed certain items under general divisions headings which the Board felt justly and legally empowered to do. However, some question having arisen out of the correspondence between the Acting President of the University and the Comptroller, the Governor and the Attorney General, at the October 26, 1915, meeting of the Board of Regents, the following resolution was adopted by ayes: Cook, Littlefield, Faber, Jones, Harrell, Sanger, Hogg, total 7; noes: Fly and McReynolds, total 2: "Resolved that the Board of Regents accept, without prejudice to its rights, the construction by the Comptroller of the legislative appropriation bill for the University and that the Auditor of the University be instructed to govern himself accordingly. Resolved, further, that the items of the budget of 1915-16 as passed by this Board at its June 7, meeting not covered by the legislative appropriation bill as stated, be paid if necessary out of the Available Fund."

The Board further refers to the Appropriation Bill passed by the Thirty-fourth Legislature at its general session, in the spring of 1915, Chapter 32, page 84 of the General and Special Laws of the First Called Session of the Thirty-fourth Legislature, as follows: "For the Maintenance, Support and Direction of the University of Texas, including the Medical Department at Galveston, for the two years beginning September 1, 1915, and ending August 31, 1917, from the General Revenue, with such changes and substitutions within the total of the following items for the University as the Regents may find necessary."

Legislative Investigation Invited

A thoughtful review of the above several statements and quotations disclosing the Board's practice in these matters, will show, we hope, that the Board of Regents have acted in best faith, for the good of the State as well as of the University in attempting to avoid any unnecessary contentions with any department of the State Government. The resolution above referred to as having been passed at the October 26, 1915, meeting was an honest effort to allay the bitterness of an unfortunate controversy.

We beg to close this statement concerning the Board's practice in appropriations within its powers, for the University, with the earnest request that any and every act of this Board be examined and investigated to the fullest extent by a properly constituted legislative committee and that we sincerely trust that such an investigation, intelligently, candidly and sympathetically pursued, into the transactions of this Board and the general affairs of the University at large, will result in great benefit to the State and University and perhaps all individuals involved. We must reiterate our persisting confidence in the tone of character, intelligence and honor of the general personnel of the University of Texas.

Votes Taken.

The Chairman: Gentlemen, we have completed the examination of available records and persons affecting the subjects of inquiry, yesterday and today, and I think if there is no objection it is in order for us to excuse President Vinson, Mr. Long and Secretary Mathews from further attendance at this meeting. Gentlemen, you are excused. It would seem that it would now be in order

involved in these complaints or charges and to pass upon the question of the guilt or innocence by a recorded vote of ayes and noes, in the order of the hearing.

The Chairman: No. 1, considering the case of Dr. Battle, whether, in the light of formal or present, written oral, charges he should be removed or requested to resign.

Dr. Fly: I make a motion that the charges against Dr. Battle be sustained and he be removed from his professorship in the University.

The Chairman: Then I suggest you will be requested to vote aye and nay. For removal, no.

(Discussion.) The recorded vote was as follows: Ayes—Fly, Littlefield and McReynolds; noes—Faber, Harrell, Hogg, Jones and Sanger.

The Chairman: Number 2, the case of Dr. A. C. Ellis, whether or not he should be removed or requested to resign.

Dr. Fly: I make that same motion—that the charges have been sustained and that he be requested to resign.

Dr. McReynolds: I second the motion. The recorded vote was as follows: Ayes—Fly, Littlefield and McReynolds; noes—Faber, Harrell, Hogg, Jones and Sanger.

The Chairman: Number 3, the case of Professor C. S. Potts, whether or not he should be removed or requested to resign.

Dr. Fly: I make that same motion. The recorded vote was as follows: Ayes—Fly; noes—Faber, Harrell, Hogg, Jones, Littlefield, McReynolds and Sanger.

The Chairman: The case of I. P. Lochridge, whether or not he should be removed or requested to resign.

Dr. Fly: I make that motion that the charges against Mr. Lochridge have not been sustained and therefore Mr. Lochridge should be exonerated.

The recorded vote was as follows: Ayes—Fly, Faber, Harrell, Hogg, Jones, Littlefield, McReynolds and Sanger; noes—none.

The Chairman: Number 4, the case of Secretary J. A. Lomax, whether or not he should be removed or requested to resign.

Dr. Fly: I move that the charges be sustained and that he be removed.

The recorded vote was as follows: Ayes—Fly, Littlefield and McReynolds; noes—Faber, Harrell, Hogg, Jones and Sanger.

The Chairman: The next is Dr.

shall be removed or requested to resign.

Dr. Fly: I make the motion that the charges against Mr. Lochridge be sustained and that he be removed.

The recorded vote was as follows: Ayes—Fly, McReynolds; noes—Faber, Harrell, Hogg, Jones, Littlefield and Sanger.

The Chairman: Number 8 is Professor R. E. Cofer, whether or not he shall be removed or requested to resign.

Dr. McReynolds: I move, as to Professor Cofer, that the charges be dismissed, but that this Board notify Mr. Cofer in particular and all members of the faculty be cautioned, in the future that political activity will be wholly discouraged under all circumstances.

Dr. Jones: I second the motion. The recorded vote was as follows: Ayes—Faber, Harrell, Hogg, Jones, Littlefield, McReynolds and Sanger; noes—Fly.

The Chairman: The next is Professor W. H. Mayes, whether or not he shall be removed or requested to

Dr. Fly: I would like to see somebody else join in the chorus, make the motion that the charges be sustained and Mr. Mayes removed.

The recorded vote was as follows: Ayes—Fly; noes—Faber, Harrell, Hogg, Jones, Littlefield, McReynolds and Sanger.

Remarks in Conclusion.

The Chairman: Gentlemen, the (Continued on page 7)

MOVED!

I have moved my second-hand stock--Furniture, Stoves and Household Goods--to the south side of square, next to the Necessity Store.

I have a larger stock and am better than ever prepared to fill your wants and to serve you.

All repair work done by me is guaranteed and my prices are moderate.

Will pay fair prices for your second-hand goods or trade you what you want for what you don't want.

Repair work called for and delivered.

W. L. Bell

"U. S."

There are lots of good tires; so many that we found it difficult to make a selection when deciding which we would handle. We finally, after mature consideration gave our order for "United States" tires and now have a very large stock of the famous brand of tires and inner tubes. Many Memphis people are fully acquainted with the worth of these goods and many have assured us of their high quality. We have all sizes of both tires and tubes and will be glad to fit you out for the Summer with new, fresh goods.

ricultural College.)
ing fence wires affords con-
siderable protection from lightning
and is a worth while investment for

As hundreds of valuable animals are
struck by lightning in this state every
summer, many of the casualties be-
ing directly due to currents carried
along pasture fences, such advice is
particularly timely.

To secure the best results ground
wires ought to be placed about one
hundred feet apart and closely stapled
to the post, so as form a contact with
every one of the fence wires. The
ground wires should also extend slight-
ly above the fence post, and, like a
lightning rod, should penetrate the soil
far enough to reach moist earth. No.
8 or 8 wire is most satisfactory for
this purpose.

GET AFTER THE FLIES.

That fly on your plate didn't
wipe his feet when he came in.
The chances are his last walk
was in the filth of the street or
the garbage pail.
Pleasant, isn't it?
Then why put up with flies?
Keep flies out of your home.
Don't trade at stores that tol-
erate flies.
Don't eat at restaurants in
which there are flies.

Protect the Sleeping Baby.

WHEN your children are out of
doors and awake the fly is not
so dangerous. You will very
rarely see a fly on the face of a child
walking or playing, but if your baby
sleeps outdoors that is the danger time.
He must be carefully covered with
mosquito netting to protect him from
the poisoned kiss.

IN CLASS OF OWN STATE FAIR OF TEXAS

Secretary W. H. Stratton Believes It Will
Be Greatest Ever Held

MUCH MONEY FOR AMUSEMENTS

Automobile Display Will Include
the Latest and Best in Cars
and Be Exhibited in Former
Vehicle Building.

Dallas, Texas.—Thirty-two years
development of a single idea will be
culminated Saturday, Oct. 13, when
the gates of the State Fair of Texas
are thrown open upon the exposition
which will continue through Oct. 28.
For thirty-two years the management
of this great institution has been
working with a single idea in mind—
to create a fair without an equal.

"When the gates of the State Fair
of Texas are thrown open Oct. 13 we
will be ready for the verdict of the
people," Secretary W. H. Stratton
said. "We believe we will offer this
year the greatest fair that has ever
been held. We have worked hard, la-
bored conscientiously and the manage-
ment has no fear but that the public
will put its stamp of approval upon
our efforts."

"Additions to the many established
departments, improvements in others
and the creation of new and impor-
tant divisions will make the 1917 fair
the peer of any which have been heret-
ofore catalogued. Premium lists
than which none have been more liber-
al in the past, have been generously
increased, extensive arrangements
have been made to better facilities for
every exhibit and the scope of the en-

W. H. STRATTON, Sec.
State Fair of Texas.

tire exposition materially widened to
admit a greater value throughout
along educational and entertaining
lines."

The amusement features of the 1917
Fair will represent the greatest ex-
penditures that have ever been made
for similar attractions. Headed by
Singers Midgets, an aggregation of
Lilliputian artists who have found fa-
vor in all of the largest cities, the
program embraces scores of perfor-
mers of world-wide prominence. The
most thrilling feats of the dare-devils,
the daintiest offerings of grace and
beauty, the most pretentious efforts
of artists of international fame have
been brought together to afford pat-
rons of the 1917 Fair a program of
amusements that with all truth may
be designated the most delightful en-
tertainment possible to secure.

Automobile races, which last year
proved one of the greatest attractions
on hand, will be held this year on even
a larger plane than last season. Fa-
mous drivers from every part of the
globe will be found among the
entrants and the speediest cars possi-
ble of manufacture will be listed.

Automobile dealers in Dallas and
from other cities of the State believe
that the automobile show will surpass
any event of the kind held in the
South. This exhibit will be moved
from the Automobile Building to the
Vehicle Building in order that greater
space may be secured. The building
formerly given over to the automob-
ile show will be used for exhibits of
farm implements and machinery.

NEW FIREPROOF BARN.

Dallas, Tex.—At a cost of \$40,000
there has been erected at the State
Fair of Texas commodious horse and
sheep barns which will be ready for
the annual exposition to be held this
year from Oct. 13-28, inclusive. The
barn is of concrete construction for
the greater part and is fireproof
throughout. Facilities in practically
every department of the big exposition
have been improved for the coming
Fair.

FOOTBALL AT STATE FAIR.

Dallas, Texas.—The football sched-
ule for the State Fair of Texas, Oct.
13-28, will afford lovers of this sport
a chance to see the stars of the game
in action. The big event on the ath-
letic field will be the meeting of Uni-
versity of Texas and Oklahoma State
University. Keen rivalry between
these two elevens assures a game
worth going miles to see. A number
of other games of equal importance
will be scheduled. Each year the foot-
ball games at the State Fair increase
in interest until this feature has be-
come one of the biggest of the fair.
Additional seating space will be pro-
vided this season so that all may have
plenty of room to witness the games.

PRIZES TO HERDSMEN.

Dallas, Texas.—That suitable recog-
nition may be given herdsmen, upon
whose skill and judgment in prepar-
ing animals in his care largely de-
pend the honors won in the show ring,
the State Fair of Texas will offer
special prizes to herdsmen this year.
This will be an innovation in the way
of premiums and one that is sure to
find favor in the eyes of all exhibitors

FARM STOCK

HEREFORD BREED OF CATTLE

Represents Type Suitable for Largest
Production of Beef—Has No Su-
perior on Range.

The Hereford derives its name from
its native district in England. The
most popular color and markings are
dark claret or cherry, white face,
throat, chest, legs, belly and small
stripes of white on neck and before
the shoulders. The horns are me-

Hereford Bull.

dium to long, white and generally
turning outward.

This breed represents the type that
is suitable for the largest production
of beef as it is low set and broad,
heavy in forequarters; full, deep
chest, level wide back, wide thick
loin and quarters. The farm repre-
sents that which is associated with a
strong constitution, vigor and pre-
potency, and one of the strong points
of the breed is its grazing attributes.
The Hereford probably has no super-
ior on the range. The cows of this
breed give only milk enough to raise
a very thrifty calf.

DON'T KEEP TOO MANY HOGS

Overstocked Farm Is Unprofitable One
—Give Every Pig or Other An-
imal a Fair Chance.

It is a mistake to overstock your
place with pigs or any other animals.
Too many farmers in attempting to
make money by increasing the num-
ber of animals do so at the expense
of quality. An overstocked farm is
not a profitable one. A farm that is
overstocked is one that has more
animals of any character than can be
properly cared for or kept in good,
thrifty, growing condition. Wherever
the numbers interfere with the growth
or with the attention that should be
given them it is overstocked. If the
pastures are too small for them or
too short, necessitating the purchase
of feed, the profits are cut with a two-
edged sword, first because of purchas-
ing feed, second because of injury to
the thrift and growth of the animals.
More money can be made with half the
animals properly fed and cared for
and kept in a thrifty, growing condi-
tion. Every pig or other animal
should have a chance, and if they are
crowded it is impossible to give them
a good show. Numbers sometimes
are the sole cause of losses instead of
profits.

GREEDY HOGS ARE DESIRABLE

Oregon Station Finds by Actual Feed-
ing Tests That Heaviest Eater Is
Most Profitable.

The Oregon agricultural station has
found out by actual feeding tests that
the hog which eats most greedily is
the most profitable. Thirty pigs were
divided into three lots, the heaviest
eaters in one lot, and others graded
according to their capacity for con-
suming feed.

A hundred hogs like the heaviest
eaters at the rate of gain made and
present prices, would make a profit
of \$297.65, or almost exactly \$3 a
head. A hundred like the poorest
feeders would have made a profit of
\$115.65, or only a little more than a
dollar a head. They were evenly
graded as to size and sex. If there
is this great difference between the
heavy-eating hogs and the light eat-
ers—then most hog growers will agree
that the breeders might well devote
themselves to breeding appetite in
hogs, instead of color or fancy points.
If the appetite makes the profit,
breed appetite.

No profitable animals should be
kept a moment longer than necessity
requires.

Federal Judge Kenesaw Mountain Landis of Illinois denounced 118 I. W. W. workers "draft dodgers and whining puppies" when he sentenced the draft fighters to a year in the penitentiary. A loquacious judge has the best of it. His tongue may run riot but the bastinadoed party is not permitted to talk back. If he talks he is in contempt, and if he is in contempt he wins a second jail sentence. A brave man always strikes another when he is down.—Ft. Worth Record

The Philadelphia Inquirer loudly complains of the threatened action of Congress in relation to war taxes on newspapers and it wants to know why the press is singled out by that body for special penalties. Perhaps on the ground that Congress believes the newspapers responsible for the war. We know that many British statesmen hold the English newspaper responsible for driving that country into the world struggle. And certainly American newspapers played a big part in embroiling the United States in it. Congress may therefore feel justified in the course towards the papers it seems disposed to follow.—Johnstown Democrat.

Lord Northcliffe "hopes" that America may permit newspaper writers to be absolutely frank about what is going on. He insists that it is as important for the nation to know the worst as it is for the nation to know the best. For one thing it is a great stimulus for the men fighting in the field to know they are being written about at home and the country they are fighting for knows precisely what they are doing. This is not all that Lord Northcliffe said. It is only by an absolute mobilization of men power and machine power that the war can be won. He believes in the aeroplane lies one great hope of allied victory. Publicity is the thing with all the flowers for the living.—Fort Worth Record.

Home and State, the organ for the Texas branch of the Anti Saloon League, says that the Texas Press is virtually unanimous in opposing Governor Ferguson in the University matter and reproduces clippings from twenty eight Texas papers to prove its assertion. A perusal of these quotations reveals the fact that not one of them attempts to produce any facts to show that the Governor is wrong; but are confined to denunciation and abuse. It is doubtful if the editors of any of these papers, including "Foam and Prate," have ever read a word of the testimony before the Board of Regents; and it is a safe guess that none has given his readers an opportunity to know the facts by publishing this testimony—expressions such as those quoted would be impossible if either the writers or their editors were informed on the subject commented upon.

What Dreams Mean to Pearl.
Pearl White, heroine of the preparedness serial "Pearl of the Army," is becoming an expert in the interpretation of dreams.

"I am not at all superstitious," said Miss White recently, "but my experiences in the first few episodes of the 'Pearl of the Army' have convinced me that there is a real relation between the dream world and the real world. For instance, a few days ago I awoke with a start from a troubled nightmare to find myself on the floor. I had fallen out of bed. That same day Mr. Jose, the director, gave me the comparatively simple task of falling from a twenty foot window. I have learned that if I awaken from a dream in a cold perspiration that means six or eight swimming pictures the following day. If in the middle of the night I find myself gasping for breath I know that before twenty-four hours have passed I will be gagged and bound in one of the prisons which scenario authors delight in conceiving."

PRINCIPLE.

Every opportunity needs to be looked at through the glass of principle. It may mean, apart from conscience, a chance of money, social position, power, but if it does not pass muster morally it also means loss. Conscience is a man's best protection.

When within your office busy
You try hard to do your work
And a fly makes you so dizzy
'Neath your desk you long to lark,
Pause until in range you've got him,
Steel your heart, though mercy pleads,
Take the office clock and swear him
Nigh where Mary wore the beads!

There is lots of satisfaction
In the course that I suggest,
With each victim nerved to action
To abate this insect pest.
When you see a fly just past your
Swat him—swat him—swat him!

SUMMARY OF WORLD'S IMPORTANT EVENTS

AMERICA HAS ENTERED GREAT WAR WITH ALL HER POWERFUL RESOURCES.

EUROPEAN WAR IN BRIEF

Many Occurrences of Interest and Information Recorded Here in Condensed Form.

AMERICA'S PART IN WAR—

Officials declare that if the government's activities against German spies could be published the news would startle the world.

Major General Hugh L. Scott, chief of staff of the United States Army, with other military members of the American mission to Russia, has arrived at Jassy, Roumania, from the Russian front.

Additional war loan of \$100,000,000 has been made to France, bringing the total of credits to that country to \$310,000,000 and the grand total of American loans to the allies to \$1,303,000,000.

The American steamship Orleans has been torpedoed and sunk by a German submarine. Four of the crew were drowned, but all members of the armed naval guard were saved.

Bases for training of aviation, artillery, infantry and medical units were opened in France Friday and started at once the education of portions of Pershing's Samnies for the front.

Drafts of administration bills for the great American aviation project which is to strike Prussian autocracy through the air were transmitted to Chairman Dent of the house military committee by the war department. They propose at first building 22,625 airplanes and would appropriate \$639,000,000.

American shipping losses, due to submarine activities during the first six months of 1917, amounted to eleven times the total losses of the two previous years. Dr. William C. De Laney, chief of the United States war risk insurance bureau stated. Since Jan. 1, 1917, the bureau has insured \$441,761,518 of American cargoes with a loss of \$9,200,000.

All France celebrated the Fourth of July. Paris turned out a crowd that no American city ever surpassed for size, enthusiasm and profusion of the stars and stripes. A battalion of the first American expeditionary force about to leave for training behind the battle front had its first official review in France and was the center of the celebration.

Selection day for the new national army is approaching rapidly as the local exemption boards in the various states complete their organization, give serial numbers to the registration cards and forward certificate copies to Provost Marshal General Crowder. Indications are that the drawing will be held one day this week, but no official statement has been made.

WASHINGTON

The army draft bill passed its second reading in the Canadian house with a majority of 63.

At the close of a day of turbulent debate and after voting 52 to 24 against the so-called "bone-dry" amendment, the senate recessed in the midst of the prohibition fight on the food control bill.

Eleven of the 13 suffragists arrested at their Fourth of July demonstration in front of the White House were tried and given the alternative of a \$25 fine or three days in jail. They chose to serve the three days.

Additional loans of \$100,000,000 to Great Britain and \$50,000,000 to Italy brought total war loans of the United States to the allies to \$1,303,000,000.

Federal agents at New York arrested Carl Heynen, trusted agent of Captain von Papen and one of the best known German munitions experts in the United States, and F. A. Hurgemeister, known as the paymaster of the German spy organization in America.

The Jackie and his cigarette must part. This is an official edict that went into effect July 6 at the Great Lakes naval training station as part of the training rules.

Acting under special orders from officials of the department of justice, United States deputy marshals at Trenton, N. J., arrested Professor John F. Zenneck, German radio expert, and took him to Ellis Island, where he will be held.

Virtually all restrictions and regulations to which American citizens resident in Germany have been subjected are removed through an agreement of the German foreign office and the military and police authorities, according to advices from Berlin.

DOMESTIC

Central Illinois farmers are worrying over the appearance of blight in the wheat crops. Hot, dry weather is needed to overcome it, say the farmers.

July corn is the latest grain future to be removed from the realm of speculation. That future was under a maximum price of \$1.65 a bushel, as the result of action by the Chicago board of trade.

Operations in the North Louisiana oil fields are feeling the effect of a shortage of pipe and other materials. The independent companies are experiencing great difficulty in securing the necessary materials for drilling, and in that account a great deal of development is being delayed.

Regular army officers in South Dakota claim to have information that Industrial Workers of the World leaders in the state are in possession of maps of the principal agricultural districts and have men stationed throughout the state who will make simultaneous attacks to burn this season's crops. It was made known.

The resignation of Chief of Police Payne of East St. Louis and of Cornelius Hickey, night chief of police, will be demanded of Mayor Mollman by the citizens' committee of the chamber of commerce, it was announced. This determination is a direct result of the race rioting here in which 37 persons lost their lives.

MEXICO

Entrance by Mexico into the world war, on the side of the United States and the entente allies, within 10 days, is predicted freely along the border among the influential citizens of Northern Mexico, many officials and army officers.

Since the pro-ally campaign in Mexico was first started by El Universal in Mexico City, the sentiment

favoring the allies has reached Northern Mexico and a well-defined movement favoring an open break with Germany has developed.

EUROPEAN WAR HAPPENINGS—

With the Russians holding their rains in Galicia against Austro-German attacks, the indications of stronger activity in the other war theatres are multiplying.

On the western front the British have advanced and the French artillery is active from north of the Aisne to the Meuse; the artillery activity has increased on the entire Austro-Italian front; there has been greater local activity in Roumania and on the Macedonian front the Germans took the offensive in a small sector.

Workers from the government munition works at Hemburg, a short distance from Amsterdam and soldiers clashed in a continuation of the food riots, according to reports. The munition workers were joined by strikers and were fired on repeatedly by the soldiers. One man was killed and 11 wounded.

By order of King George of England the stars and stripes was flying from the victoria tower of the house of parliament July 4th and also on all other government buildings, beside the Union Jack.

After checking the German crown prince in Champagne, the French straightened their line in the region of Mont Haut and Mont Carnillet. General Petain's men held their gains, repulsing four strong attacks with heavy losses.

Indictments against four individuals and seven corporations on trial in New York on charges of violating the Sherman anti-trust law in fixing coal prices, were dismissed by Federal Judge Grubb.

German troops tried vainly to fraternize with Russian troops on the Roumanian front, but a fusillade of artillery fire answered their showing of the white flag. The incident was related in a Russian official statement.

Guarded by a score of deputy sheriffs, 118 Rockford, Ill., slackers, sentenced to one year and a day in the Chicago house of correction by Judge Landis, left on a special train for Chicago.

Major General Maurice declared that the British army in France had lost a gun since April, 1915, that since the beginning of the year the British had captured 739 and lost only 132, of which 37 were recaptured.

Russia has adopted the daylight saving plan. The provisional government has decided to advance clocks throughout the country hour on July 14 for the purpose economy in the consumption of fuel.

Steady progress, especially on the southern end of the 21-mile front, eight miles south of Gorizia, the Austrians have driven the Austrians and taken additional important positions, and added to the number of prisoners, bringing the total now to 10,250.

The British transport Transylvania was torpedoed May 4, with a loss of 413 persons.

On a front of nearly ten miles the British have taken various positions from the town of Castagnaro to the head of the gulf of Trieste. The Italians were the victors in capturing numerous points of strategic importance, but more than 9,000 prisoners, including officers in the number of 300, were taken.

An official report from Petrograd says: "On Tuesday the German fleet east of Lipitz Dolna, north of a litch, but a change in wind directed the gas toward the enemy."

The Italian successes were emphasized by the Italian commission on America as gained in the war, practically the whole Austrian attention. No Austrians are said to be in France and not many on the French or Roumanian fronts.

It is officially announced that the French liner Sontay, 7,247 tons, bound for Marseilles, from St. Louis with 344 passengers, was torpedoed April 16, with a loss of 45.

Union leaders announced that the miners obeyed the strike order issued by the Jerome, Ariz., local and representatives of the national union of miners to end the demand for recognition of these miners by the copper mining companies in this district.

Refrigerators and Cream Freezers

When are you going to buy that Iceless refrigerator or White Mountain Cream freezer?

Now is the time to enjoy having them. We carry a big stock of these and ask you to come in and see them.

AT THE FLY!
STARVE THE FLY!

Miss Lois Quigley returned Sunday from an extended visit with friends and relatives at Dalhart, Amarillo and Clarendon.

The little one-year-old infant of Mr. and Mrs. W. C. Brinkley died at Newlin Sunday and was buried at this place Monday.

Commissioner John R. Barnes, of Estelline, was here Monday and Tuesday attending a meeting of the commissioners' court.

Drs. W. S. Miller and P. L. Vardy, of Estelline, were here Tuesday afternoon attending a meeting of the Hall County Medical Society.

J. J. Walker, who was operated upon recently for appendicitis was able to return home from the sanitarium Monday and is reported as recovering rapidly.

Mrs. Blanchard and son, Fred, of Dallas were here Monday, on their way to Joe J. Mickel, ranch, in Randle county to visit Mrs. Blanchard's sister, Mrs. Joe J. Mickel.

Tom Drake of near Carey was brought here Sunday afternoon and operated upon for appendicitis. He is reported as doing well and will probably be out again in a few days.

Much planting, including various kinds of feed stuff and considerable cotton has been done since the rains of last week and good stands are being obtained in most instances; but more rain is needed to keep this young stuff growing.

Lomax Case Not Appealed.

Austin, Texas, July 9.—Appeal will not be taken from the Fourth of July decision of District Judge Ireland Graves in dismissing the temporary injunction granted John A. Lomax restraining four members of the board of the University of Texas from ousting President Vinson and certain of the University faculty. That decision was reached today at a conference of Mr. Lomax's attorneys.

A Liberal Patriot

San Francisco, July 9.—John Lompas, a young Greek, today gave the Red Cross his touring car, his gold watch, his bank deposit of \$521 and \$25 in cash. Having thus disposed he said of all worldly possessions he enlisted in the army.

"That's all I have," he said, "and I am glad to give it."

Harper Head of Elks

Boston, July 10.—Fred C. Harper, a lawyer, of Lynchburg, Va., today was selected grand exalted ruler of the Benevolent and Protective Order of Elks, and Atlantic City was unanimously named as the next convention city. Harper received 1,203 votes against 305 for John W. Stevenson of Fulton, N. Y.

MR. ANNESLEY'S NAP
By JOAN BUGBY.

"Bert," said Helen Annesley at breakfast, "what time did you get home?"

"Bout four—maybe half-past!"

"You look it!"

"Just how?"

"Seedy. You need sleep."

"I know it," he groaned. "I wish to thunder the governor was at home. I'd sleep all day. But here I've to go to that blame store and be tormented for ten hours."

"It's your own fault. You should have come home earlier."

"It wasn't my fault. I took Myrtle to the dance and she wouldn't think of leaving. I was nearly dead."

"Look here, Bertie. You've got to pull yourself together. Peggy Brice is coming today and I'm counting on you. In the first place, can't you meet her at three and come home early?"

"I might manage it, sirs; but I'll have to have some sleep somehow. Three, did you say?"

"Three-five at the Pennsylvania station. No use describing her. Just pick out the prettiest girl you see."

"I'll find her."

So Bert went to the store and called Johnny Stebbis, who had two rows of brass buttons down the front of his diminutive jacket.

"Johnny, it's up to you whether I get a nap or not. Two good solid hours! So if any of those people come, drummers, you know, tell them I'm dead, and don't let them view the remains, either. If they insist, send them to Barlowe or Martin."

"Yes, sir!"

"Here's a dollar. Now you stay by that outside door and don't let anyone in."

In two minutes Bert was snoring.

But the anteroom was very warm, and Johnny was very tired.

And then—as fairies come when folks are asleep—she came!

She was pretty and little and tastefully dressed, and she carried a satchel. She asked for Mr. Annesley's office and was directed politely. She opened the door of the anteroom with its two rows of high-backed seats facing each other and to her surprise found only a small boy asleep.

On the door opposite was the word "Private." She opened the door. A snore greeted her. Turning, she saw the leather couch on which lay a man asleep. She had intruded unwittingly and started to tiptoe out.

But her bag knocked against a chair. Mr. Annesley sat up instantly, seeing someone in the room he sprang to his feet.

"Who did that?"

The girl was backing frightened into a corner. "I—I'm afraid I did."

"This is a — of a place where a fellow can't have two minutes' peace without someone butting in and half killing him besides. Who let you in?"

"No one. I just came."

"Where's Johnny? I told him to keep everybody out."

"The little boy? Oh, he was tired, too. He was asleep, poor little fellow! I'm so sorry I upset that chair. It was stupid and awkward of me."

But Bert did not notice her halting confusion, for he was having a bad time on his own account.

"I beg your pardon, most humbly," he said, getting redder by the minute. "I thought you were selling something, you see. Will you please forgive me?"

"It's all right," she laughed merrily, having recovered her own equilibrium. "I've had enough fun out of it to more than make up for the other. And now, Mr. Annesley, if you'll kindly tell me how to get to your house I'll be very much obliged. I'm Peggy Brice. I came earlier than I intended, and haven't an idea how to go. Your store being so near to the station, I thought I'd come in and inquire."

And then! And this is really what the story is all about, but it only takes a minute to tell it, although it affected the lives of two people for all time. The very thing Peggy was blushing about, a little card, had in some manner slipped to the floor. She stooped, and Bert stooped at the same time, but he got it. And it was his own picture!

She looked wretched and ready to cry. And he looked at her a long, long time in a very odd way. And his heart seemed to go along with the look and to stay, for he never had eyes for another girl after that.

And Johnny, whimping and scared to death because he had slept at the switch and wrecked the peace of his employer, nearly fell dead when Mr. Annesley, going out with a pretty girl, gave him another dollar.

(Copyright, 1917, by the McClure Newspaper Syndicate.)

A Scandal Averted.

Little Gertrude had been very naughty and had been severely slapped, first by the nurse and then by mother, with a promise of another dose from father when he came home.

She sat on the floor, her eyes filled with angry tears. Suddenly she rose with a determined look upon her little face, and seized her hat.

"Where are you going," asked her mother.

"Out to tell the family secrets to the neighbors," said the child, firmly.

But she didn't go.

Old Meaning of "Carpet."

The word "carpet" was in later medieval times used to describe draperies as well as the stuffs which covered floors and seats.

Shrapnel For Use
In the Big Fight
Against the Fly

ETHER man must kill the fly or the fly will kill the man. If there is no dirt and no filth, there will be no flies, and there will be fewer dead babies if there are no flies.

The Boston Idea.

"So you come from New York?" said an English lady to a traveling American. "I supposed, of course, you came from Boston."

"Why did you think that?" inquired the New York lady.

"Because I supposed all cultured, intelligent Americans came from Boston."

"But what in the world made you think that?" was the natural question.

"Oh, I don't know exactly. I think it was a Boston lady who told me."—Philadelphia Ledger.

Griffith to Go to War.

David Wark Griffith, creator of the military spectacles "Intolerance" and "The Birth of a Nation," is to make a moving picture of the great world war in France. A year ago Mr. Griffith was approached by a representative of one of the warring nations, asking him to make pictures showing their side of the conflict. He refused because of President Wilson's proclamation of strict neutrality. But he has now changed his mind. A picture with the spirit of America dominating it should be of considerable historic value.

Plays "Heavy," Breaks Chair.

Sydney Alsworth, the movie villain, seated himself in a chair in the midst of a scene for the "Is Marriage Sacred?" series. The chair broke, precipitating the dignified Mr. Alsworth to the floor. "That's what comes of playing the heavy in these pictures," he remarked as he prepared for a retake.

THINK OF IT!

Flies and dirt double the amount of sickness among New York city's babies. This statement, made public by the department of social welfare of the New York Association For Improving the Condition of the Poor, is based on a two years' investigation in more than a thousand families.

Don't let that fly get away!

Kill him now!

FLY DON'TS

DON'T allow flies in your house.

DON'T permit them near your food, especially milk.

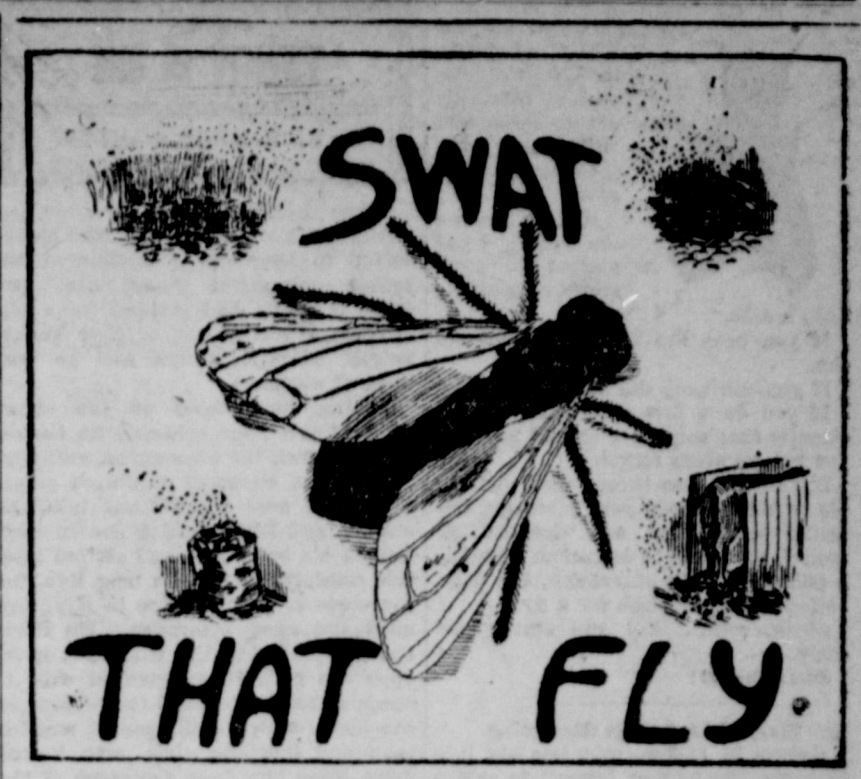

DON'T buy foodstuffs where flies are tolerated.

DON'T have feeding places where flies can load themselves with ejections from typhoid or dysenteric patients.

DON'T allow your fruits and confections to be exposed to the swarms of flies.

DON'T let flies crawl over the baby's mouth and swarm upon the nipple of its nursing bottle.

CLEAN UP your premises inside and out. Then see that the community does the same.

Remember the full name and look for the signature of Dr. W. S. Jackson.

Just a Few Fly.

If you kill the first fly of spring, the second one and a few others will bother you premises all summer.

If you screen the house, if you protect all food stuffs, including baby's milk.

If you keep the lid on the garbage can.

If you can keep the back yard clean.

If you do a few other things occasionally that you know should be done, but just as often forgot.

If you do these things flies will not be of old age upon your premises, but rather "plac away" and "drop off" in their early youth of inanition. That is a polite term for starvation, but starvation is good enough for a fly.

Clean, screen, kill and starve 'em early.

Swat the fly!

Mary Tells George Something.

George M. Cohan, who has put into pictures "Broadway Jones," in which he makes his debut on the screen, visited Mary Pickford before acting for the film. The two stars had their pictures taken conspiring over the said debut. Mary pointing out to George what he should not do in front of the camera.

A Charming Hostess.

Offie Kirby is an ardent phonograph fan, and her stock of records is reputed to be worth hundreds of dollars. Her bungalow in Jacksonville, Fla., is a haven of rest and music for the players associated with her.

Lonsdale Likes Golf.

Harry Lonsdale, being English, does on the good old game of golf. He has plenty of opportunity to exercise his love for the sport, living, as he does, in Pasadena, Cal., a community abounding in fine links.

A Few Remarks.

Morie mislaid: Rubber collars. Morie mislaid: Smoking jackets. Slapstick comedians rush in where film stars fear to tread.

Coming film actors cast their shadows behind.

Real News.

Maude Fealy has the distinction of being the first American girl selected as leading woman for the late Sir Henry Irving in London.

Lou-Tellegen was born in France.

Helen Holmes won't let anybody dictate to her. But her husband, J. P. McGowan, her director, often gets the chance to tell her some things.

For Weak Women

In use for over 40 years! Thousands of voluntary letters from women, telling of the good Cardui has done them. This is the best proof of the value of Cardui. It proves that Cardui is a good medicine for women.

There are no harmful or habit-forming drugs in Cardui. It is composed only of mild, medicinal ingredients, with no bad after-effects.

TAKE CARDUI

The Woman's Tonic

You can rely on Cardui. Surely it will do for you what it has done for so many thousands of other women! It should help. "I was taken sick, seemed to be . . .," writes Mrs. Mary E. Vest, of Madison Heights, Va. "I got down so weak, could hardly walk . . . just staggered around. . . I read of Cardui, and after taking one bottle, or before taking quite all, I felt much better. I took 3 or 4 bottles at that time, and was able to do my work. I take it in the spring when run-down. I had no appetite, and I commenced eating. It is the best tonic I ever saw." Try Cardui.

TWENTY IN ONE

By EARL REED SILVERS.

When Dick Rowland left for his two weeks' vacation in the Catskills he resolved to have the best time in his rather uneventful young life. For three years he had labored for a big brokerage firm in one of New York's largest office buildings, and he was tired of working.

Sitting comfortably on the upper deck of the river steamer, he looked forward with the pleasant anticipation to two weeks of unalloyed pleasure. The boat slipped out into the stream, and Dick, sighing contentedly, lighted his briar pipe and settled himself comfortably for the long ride, for the steamer was not due in Kingston until the early afternoon. He drew the prospectus of the Glenwood hotel from his pocket and glanced over it speculatively. He liked the picture of the hotel, with its glimpse of wooded lake and laughing girls, who looked down upon him from the steps of the spacious porch. And as he gazed, Dick Rowland made a resolution. During the next two weeks he promised himself that he would become acquainted with at least twenty girls in the Glenwood hotel.

Having decided this rather momentous question, he knocked the ashes from his pipe and strolled along the shaded deck of the boat. It was late in August, and the steamer was crowded with vacationists. In one corner he spied a man talking earnestly to a girl with black hair and crimson lips. Dick smiled happily; he would be doing the same thing himself before another day had passed. Idly he wandered from place to place. Everywhere were girls—blond ones, fat ones, happy ones, sad ones. But suddenly he stopped in his tracks, eyes staring. In a remote part of the steamer, sheltered by one of the overhead decks, he discovered the prettiest girl he had ever seen. She looked up suddenly and caught Dick's enraptured gaze. He blushed, mumbled something to himself and passed on.

Shortly after noon he wandered idly to the dining room. The tables were nearly all filled, but in one corner the head waiter discovered a vacant seat. He motioned Dick into it, and Dick's heart stood still. Directly opposite him sat the girl he had thought about for the past two hours. The colored gentlemen whose duty it was to preside over that corner of the room evidently believed that Dick and the girl were friends, for he served both of their orders together.

Ten minutes or so elapsed before Dick gained the courage to address a word to his companion. Even then his remark was most commonplace.

"May I trouble you to pass the salt?" he said.

She handed him the commodity in question, and Dick discovered the hint of a twinkle in her eye. He grew bolder.

"Is this your first trip up the river?" he asked.

"Oh, no," she smiled at him, frankly. "I have been spending my vacation in the Catskills for the past three years."

"Are you on your vacation now?" "Yes, just starting."

"So am I," Dick looked up hopefully. "I wonder if it could be possible that we are going to the same place."

"I hardly think so. The mountains are pretty large, you know."

"Yes, I know," he sank back, discouraged. The girl evidently did not want him to know where she was going. "I don't know very many girls in New York," he said, "and now that I've started on a vacation, I'm going to try to be friends with just as many as I possibly can. I'm going to the Glenwood hotel."

He drew the booklet from his pocket, turning to the picture which had made such an impression upon him earlier in the day. "There are twenty girls in that picture," he announced, "and I hope to know everyone of them."

She reached across the table and, taking the book, examined the photo closely. Finally she handed it back to him.

"Do you see the third girl from the corner?" she asked.

"Yes, why?" "I know her."

"You do?" He spoke eagerly. "What's her name?" "Gladys Graydon."

"It's you," he gasped. "Yes," she answered, enjoying his surprise. "I spent last summer at Glenwood."

"And are you going there now?" He leaned forward in his eagerness, his eyes shining.

"Yes," she answered. "I'm going there for two weeks."

FARM STOCK

WINTER SHELTER FOR SHEEP

Wise Shepherd Will See That Arrangements for Protection of Flock Are Good and Sufficient.

The shepherd who is wise enough to be prepared for wet wintry days and cold winter nights does not dread losses from pneumonia, and the mortality in the lambing season of next February and March that will come from breeding ewes that have been weakened by exposure. As winter begins to draw a little nearer, he sees that his sheltering arrangements are all that they ought to be.

It does not matter whether the sheds used by the sheep are so very warm or not. But they must not be so open that the wind can whistle through them and there must be plenty of ventilation. Plenty of light and ventilation, and freedom from drafts are the main considerations. The warmth of the shed is less important than the necessity of a good, sound roof.

I never put more than fifty sheep in a single shed. More than that number will be hard to manage and the chances of accidents among ewes with lamb will be greatly increased. The shed ought to be about twice as long as it is wide and there should be ample room for every animal to lie down inside its doors without the appearance of crowding the place. The floor must of course be absolutely dry and remain that way.

The feeding rack should be placed on one side of the shed and should consist of a flat-bottomed trough at the bottom, surmounted by a well-

A Shropshire Sheep.

built rack, made of slats nailed about three inches apart. Put it out far enough from the side wall so that the ewes may feed at it from both sides.

Where the space is not great enough to allow the rack to be built out from the wall so sheep can feed from both sides, the bottom of the rack will have to be built slanting enough to slide all the grain, hay, chaff, trashy bits of forage and leaves, down to the side where the sheep are feeding. This will keep the far side of the rack from filling up with moldy feed.

JITNEY OF THE SEAS TO COMBAT U BOATS

Engineer Proposes Fleet of Motor-Driven Wooden Craft to Solve Blockade Problem.

A plan whereby cargo tonnage can be created in this country "faster than Germany can sink it" has been devised by F. Huntington Clark, a New York engineer, according to an announcement made before a joint session of the Automobile Club of America, the Aero Club of America and the Motor-boat Club of America. The building of a thousand or more light draft, motor-driven wooden cargo ships with a capacity of about 1,000 tons each and a length of 185 feet with 36 feet beam was advocated by Mr. Clark. He said such a fleet would end the German submarine blockade and abate at the same time the stagnation in this country of freight that should be moving across the sea.

In a letter to Henry A. Wise Wood Mr. Clark gave the details of his plan. The new type of vessel, he said, could be built in great numbers, quickly, at small cost and by men of little skill. Each vessel would be mastless, smokeless and of diminutive size and would have such low visibility, as compared with the great steel ships now afloat, that it could be seen by a submarine at barely more than a third of the distance at which the 10,000 ton steamship is now detected.

It was estimated that 1,000,000 tons or 1,000 vessels of 1,000 tons each, with a speed of 9 knots, could be built at a cost of \$100,000,000 in a year. The same amount of tonnage, with a speed of 14 knots, it was said, could be built for \$150,000,000.

HERE'S VERY HIGHEST HIGH COST OF LIVING

Thirty-seven Gamecocks, Worth \$10,000, Sent by Court to Hospital Soup Pots.

The doom of thirty-seven gamecocks, estimated to be worth \$10,000, captured in a recent raid in Pittsburgh, when several prominent business and professional men were arrested, has been sealed by the court. Instead of living again to "don the spurs" in a fighting pit, they will be relegated to the soup pots of Pittsburgh hospitals.

In an effort to save the game birds from an ignominious death Attorney George W. Allen asked Judge Shafer to grant an injunction restraining the Humane Society of Western Pennsylvania, in whose custody the birds now are, from killing them, citing in his petition an act of 1883 which authorized the sale of gamecocks captured in raids.

Attorney Allen stated that he had an offer of purchase for the birds and was willing to buy them from the Humane society at the regular market rates for dressed fowl. Judge Shafer, however, refused to grant the injunction.

Among the cocks captured are several valued at \$1,000 apiece. One of the birds which will grace a soup pot was brought from Cuba by a prominent attorney at a cost of \$1,200, which is a big price even considered in the light of the present day cost of chicken.

N. B.—Sporting experts are of the opinion that anybody who is tough enough to eat a gamecock can eat scrap iron, and anybody else who tries it will be a fit subject for a hospital.

Gentlemen, I according to my and what I thought we told you that I was right in his Dr. Battle and as men that I voted There are some Father and Potts—father we had any in here and turn There was nothing therefore I voted dictates of my con-

should know why we did these things. That is the reason I voted as I did here, the explanation of my vote as it was cast here.

Mr. Harrell: I have no statement to make, gentlemen, other than every act of mine as a member of this Board has been without fear or favor and according to the dictates of my conscience, and I am willing to stand by each and every act.

Dr. Fly: There is only one thing I want to say. One or two of those motions were purely formal, but as to Battle and a few others, I did want them removed.

The Chairman: The record, from beginning to end, will show for itself.

Record Ordered Printed

Mr. Jones: I move that Vice-Chairman Hogg be instructed to give a free statement to the press concerning the nature of and result of this meeting. I further move that three thousand copies of the completed record of this meeting be printed for distribution to the heads of the State Departments members of the present Legislature, the press of the State, and others upon request.

(Discussion.)

The Chairman: Let's take a vote on that by yeas and nays.

The recorded vote was as follows: Ayes—Faber, Harrell, Hogg, Jones and Sanger; noes—Fly, Littlefield and McReynolds.

Complying with the above instructions, Mr. Hogg gave out the following statement:

"Acting as Vice-Chairman, in the absence of Chairman Cook, I was instructed by the Board to say that we have spent two arduous days in the examination of certain complaints and charges against certain members of the faculty, and, after reviewing the testimony, the investigation resulted in the retention of every member of the faculty accused."

"The Board further instructed that the entire record of the two days' hearing, which was transcribed by a competent court stenographer, be published at the earliest practicable date and be distributed to the heads of the State Departments, the members of the present Legislature, the Texas press, and others on request, until the limited supply of printed copies is exhausted."

"It is but fair to all persons concerned to ask that the press suspend judgment in the controversy until the entire record is available for study and discussion."

The Board adjourned.

When you feel lazy, out of sorts and yawn a good deal in the daytime, you can charge it to a torpid liver which has allowed the system to get full of impurities. HERBINE cures all disorders produced by an inactive liver. It strengthens that organ, cleanses the bowels and puts the system in good healthy condition. Price 50c Fickas Drug Co.

Memphis Parents Should Not Overlook the Little One's Kidney Ailments.

One of the most annoying ailments of childhood is weak kidneys and inability to control the kidney secretions. Not only is this a discouraging trouble and one that every mother is anxious to get rid of, but it is in many cases a signal of danger, of trouble that will get worse constantly if not attended to. If your child is frail or fitful, doesn't run around or play like other children, complains of backache and of feeling tired—suspect kidney weakness. Doan's Kidney Pills are very effective for kidney weakness in children and are perfectly safe. Memphis parents recommend them.

Mrs. R. Frazier, Orient Hotel, Memphis, says: "One of the younger members of my family suffered for quite a while with weak kidneys. The kidney secretions passed to frequently. Doan's Kidney Pills, which I got at Madden-Rushing's Drug store were used with good results. They are a good reliable kidney medicine and I advise all mothers, whose children are subject to trouble with Doan's Kidney Pills."

Mrs. Frazier is only one of many Memphis people who have gratefully endorsed Doan's Kidney Pills. If your back aches—if your kidneys bother you, don't simply ask for a kidney remedy—ask distinctly for DOAN'S KIDNEY PILLS, the same that Mrs. Frazier recommends, the remedy backed by home testimony. 50 cents at all stores. Foster-Milburn Co., Props., Buffalo, N. Y. "When Your Back is Lame—Remember the Name."

"Alta-Vista" Ice Cream—You know it when you taste it—it's good. Madden-Rushing Drug Co.

What is LAX-FOS

LAX-FOS IS AN IMPROVED CASCARA
A Digestive Liquid Laxative, Cathartic and Liver Tonic. Contains Cascara Bark, Blue Flag Root, Rhubarb Root, Black Root, May Apple Root, Senna Leaves and Pepsin. Combines strength with palatable aromatic taste. Does not gripe. 50c

WHY YOU ARE NERVOUS

The nervous system is the alarm system of the human body.

In perfect health we hardly realize that we have a network of nerves, but when health is ebbing, when strength is declining, the same nervous system gives the alarm in headaches, tiredness, dreamful sleep, irritability and unless corrected, leads straight to a breakdown.

To correct nervousness, Scott's Emulsion is exactly what you should take; its rich nutriment gets into the blood and rich blood feeds the tiny nerve-cells while the whole system responds to its refreshing tonic force. It is free from alcohol.

Scott & Bowne, Bloomfield, N. J.
